Bd. No. 1476

Sir,

From the Collector of North Arcot

I have the honor, with reference to Extract from the Proceedings of the Board of Revenue, dated the 27th November 1854, to submit the following information relative to the extent of the Enam in Cavanoor of Satgur Taloob referred to therein. —

2 As stated in Mr. Bourdillon's letter of the 10th August 1854, the extent of the Enam entered in the original Grant is 25 Cawnies, in the Ayal Rayem or renewed grant it is given as 18 Cawnies, and in the Survey Accounts it is stated to be 30 - 9 - 8. —

It

3 It appears on enquiry that the measurement of the lands of the Village in which the Enam is situated was made by a rod 18 feet long, each foot being of the length of that of one "Podoogatee Ramanna" or tall Ramanna, probably an inhabitant of the Village or District. A Cawny of land so measured is found to be 1 Cs. - As. 9 E. by the measurement now in use, 18 Cawnies so converted would give 28 Cs. - 2 As. whereas the amount now in posses=sion of the Enamdar is 30-9-8.-

4 I would beg therefore to recommend that the 28 Cs. 2 As. as per present measurement be continued to the Enamdar, and that the remaining 2-7-8 be resumed. With reference to the ques=tion of Mesne profits, I beg to submit a Statement shewing the extent of Culture of this Enam land during the years it was

under

under attachment. It appears from this that during the Faslies 1261, 1262 and 1263 the land was almost entirely left waste. I would under the Circumstances recommend that the whole mesne profits be made over to the Enamdar.-

Proceedings thereon

(43.44)

Under the Sanction granted in Extract Minutes Consultation 14th November 1854, the Board of Revenue authorize the extent of the Caiamoor Enam reported in the foregoing letter being passed at 6 25 2/8; and the remainder of the land hitherto included in that grant being resumed and incorporated with the Ayan.

The Total sum realized from the Enam from the date of its presumption, Viz.t, Rupees 2230-5- being reduced in the proportion of the extent properly belonging to it would be Rupees 205-5- which the Collector is authorized to refund to the Enamdar agreeably to the decision of Government

B. No. 1705

From the Collector of North Arcot

Sir,

With reference to Board's Circular dated the 7th May 1855 No. 1106, I have the honor to state in reply that on the receipt of the above Circular, I put myself in Communication with Mr. Mathison, a Member of the local Committee for the exhibition, and that it appears to us advisable to fix at once the date on which the Exhibition of 1856 should be held.—

2 Mr. Mathison suggests that the Month of April is the most suitable time for the exhibition of the produce of the District, but I would rather recommend the Month of May, as by that Month the crops are usually completely harvested.—

In obedience to the instructions conveyed by your Boards' order of the 1st March 1855, passed on Petition No. 640 of

9946 Fort St. George 21st June 1855.

of 1855, I have ascertained from the parties who tendered for the ten thousand Cawnies of waste lands in the Village of Tullegay in Toriore Talook that they are willing to take up the waste on the average rates now in force according to the crop grown, and that they do bind themselves to pay hereafter such assessment tax as may be fixed in the re-classification of the Talook.-

2- I have caused the Tahsildar to inspect the entire tract with the Petitioners, and take the usual Durkast tender from them. He has done so, and reports the land to be thick brushwood Jungle requiring much labour to clear- That the petitioners in consequence stipulate for a Cowle with the privilege of being allowed to pay for only so much land as they

they are capable of reclaiming year by year, until the entire ten thousand Cawnies are under culture. And that the Ryots of the village, where this land is situated, have no objection to make over their title to these strangers.

3. Under these circumstances, there appears no objection to giving these ten thousand Cawnies of waste land to the Petitioners on their own terms, and on the guarantee of paying any rate that may hereafter be fixed for that description of soil at the revision of the assessment.

4. The delay in furnishing this reply has been occasioned by the parties themselves being absent from their residence at Seringham, and their tardiness

9947 Fort St. George 21st June 1855.

tardiness in proceeding to the Torriore Talook.

5. I beg to return the original Petition.

B. No. 1617
From the Collector
of Tinnevelly —

Sir

I No. 2248 2381 of 1854.

I have the honor to report upon the two enclosed identical Petitions to Government sent to me for report bearing Boards No. 29 D. P. W. & 62 of 1855.

2 The Petitioners are with a few exceptions owners of Bandies and their complaint is generally that they are compelled to hire out their Bandies at a fixed price the whole of which does not reach them for Government works, and particularly that they were made to contract to draw materials for the Police ameens Cutcherry now building at Colavaram garapatam at an unjustly low rate.—

3 The only occasion on which any= real force is now used in taking bandies for Government use is when a Regiment is ordered to march from Palamcottah— It is long since

bandy

bandy owners were made to give the use of their bandies for carrying on roads or building works. In the case particularly alluded to by the Petitioners it appears that the owners of bandies were sent for and urged to enter into a contract and some of them were detained from home for several days. This kinds of annoyance is scarcely avoidable as the people never came forwards unsolicited to hire out their bandies. With respect to the complaint that insufficient remuneration was given for drawing stones to the Colasagarapatam Police Cutchery, I found on enquiry that the rate allowed was that which is always given for bandies employed on Government works viz.t eight annas per 10 miles and which is if any thing above what bandies employed by Merchants and other usually earn. but I found also that most of the stones had been brought from a Pit more distant than the one contemplated in the Contract and that some of the Petitioners

Petitioners had a just claim to further remuneration on this account which has been given to them. The speculations alleged to have been made by the Peons &c. in taking part of the bandy hire from certain of the Petitioners are not substantiated. Under this explanation I trust the Board will consider that the Petitioners have received all the redress that can be given them and have no further just cause of complaint.

Bd. No. 1563

From the Collector
of Canara

Replies to Bds Circular of 30th Novr 1854 on the subject of the adoption of the Vernacular language and English figures in the accounts of this District.

Fort St. George 21st June 1855.

2 I see no serious obstacle to the plan proposed by the Board which is one which I have long wished to see adopted.

3 There is however one preliminary step which appears to me to be necessary. The system of computation in the Revenue accounts of this district is by Bahadree Pagodas.

In this method of computation

4 Cawnies.	1 Vis
4 Vis.	1 Raga
4 Hagas.	1 Rana or Fanam
5 Fanams.	1 Koonoo
2 Koons.	1 Pagoda of 4 Rs.

It is usual in our accounts to use only three of these denominations. The Pagoda the fanam, and the Vis for anna being 1/16 of a fanam. The Cawny is expressed as a fraction of a vis.

Thus the Pagoda, 4 Rupees

The "Falam" or Fanam does not divide with the Rupee but 2 1/2 fanams. 1 Rupee

The

Fort St. George 21st June 1855

The vis is 1/16 of 2 1/2 Rupees = 2 1/2 annas

The Cawnee is 1/4 of 2 1/2 annas or 1/4 of 30 or 7 1/2 pices

4 As a preliminary therefore to the adoption of English figures I think that the System of account by Bahadree Pogodas should be discontinued and I consider that on many accounts this is desirable. When the sum to be paid differs from the Current Coin there are fractional portions which cannot be adjusted and as the receiving Officer cannot take less than the Revenue the difference will be to the disadvantage of the payer.

5. I would therefore request the sanction of the Board for the conversion once for all of the Revenue of every Estate into the Current denomination of Rupees, annas and pices of the nearest amount that avoids a fraction of a pice and for entirely discontinuing the old method of account.

6. In the mean while I have

Fort St. George 21st June 1855

have directed that from the Commencement of the ensuing Fusly the accounts mentioned in the annexed List be sent in with headings in Canarese and figures in English and the Tahsildars on signing them are required to write the Total in English figures in their own hands that I may assure myself that they are Competent to check the accounts.-

x No 1.

7. From the Commencement of Fusly 1266- it may be required that all figures are to be written in English and the use of any other form of notation be prohibited.-

8 In the Ankola Taluk the Shanbogues and other servants have little knowledge of Canarese and I would direct that for one year the headings be written in Mahratta and Canarese.-

9 With reference to the 2d Para of the Board's letter a tabular Statement shewing the

No 2.

qualifications

Fort St. George 21st June 1855

qualifications of the servants and the extent of their knowledge of English figures together with Specimens of their writings is herewith sent.-

No 3

10 For some time to come it will be necessary that the Revenue Servants should have a knowledge of Mahratta to enable them to refer to the records but as the Mahratta records become obsolete the change can be completed

11 When I received the Board's order I shall take care that neatly lithographed forms of English accounts are Circulated and placed within the reach of all village Schoolmasters

12. I must apologize to the Board for the delay of this Report by stating that the usual duties of my Office have been much interrupted by duties unexpectedly devolving upon me.-

The case of the applicant was reported for the orders of the Board on the 9th of March last and with reference to the Board's Communication of the 11th Ultimo, the Acting Collector has the honor to state that on enquiry it has been ascertained that Visvanada Pundarum is the surviving son of the deceased Arnachella Pundarum who drew a Rusoom of Rs. 8—14 per Annum up to 30th September 1847 & died on the following Month & that the service for which the allowance was originally granted still Continues to be kept up. Having been a minor the money was left unclaimed since the date of his father's decease and under the circumstances the arrears due from 1st October 1847 to 31st May 1855 or for 7 years and 8 Months at Rs. 8—14 per Annum Rs. 68 . 8 may be disbursed to the applicant and the allowance hitherto enjoyed by his deceased Father continued to him. Remarks thereon

(17-68)

The allowance reported in this case being for service in a Pagoda and ordered not to be interfered with in para 6 of Extract Minutes Consultation 28th July 1853, the only question for determination is the propriety of paying the arrears that have accrued since the death of the late Pundarum in 1847. It is stated in explanation of the omission to draw the allowance at the proper periods, that the applicant was a Minor at the time of his father's death - which, as he is now only 20 years of age, appears to the Board a sufficient excuse. It is therefore recommended that sanction may be given for the disbursement of the arrears amounting to Rs. 68 - 8 for 7 years and 8 Months, and for the continuance of the usual allowance to the applicant Viswanada Pundarum the son of the late incumbent. The Collector's report shows that the service for which the allowance was granted has been kept up.

Madras.

Sir,

In continuation of my letter of the 18th Ultimo I have the honor to forward another application in due form presented by Aristide Prudhomme Esquire a French Gentleman of Pondicherry for a permission certificate to hold a certain piece of land in this District which was purchased by him on the 17th August 1849.

2. This land was originally purchased by Captain Norfor at public sale held by order of the Auxiliary Court of Chingleput on 9th August 1832 and has since been resold to several parties, the last of whom is the present applicant. No tax has ever been paid for the land to Government but I cannot discover why it has been exempted from quit rent.

3. A correct plan of the ground is enclosed. It contains 1-C-9 4/100 feet which is more than the extent mentioned in the several Transfer Deeds herewith forwarded but from all the information I can obtain I am induced to believe that its real extent has not been correctly put down in those papers.

+ to be returned

The property is enclosed by a masonry wall which is known to have existed for more than 30 years without any alteration or enlargement.

4. I therefore request you will be good as to obtain the authority of Government to my granting to Mr. Prudhomme a Permission Certificate in the form A of the enclosures which accompanied your letter of the 26th February last.

Memorandum

BR No. 1504

From W. H. Bayley Esqre Member of the Board of Revenue } 75

Having undertaken to dishurse the 4,000 Rupees granted by Govern: ment in November 1851, for the purchase of Instruments for the District Survey establishment and being obliged to leave India before the Bills for articles purchased in England have come in, I leave a few lines to shew what has been done with the Survey-

The enclosed Statement R A P No. 1 shews that 2,121-8-9 was paid for a Bill in England for 200 £ which has yet to be accounted for-Purchases made in Madras and Calcutta are entered in the Statement, and the Vouchers are in the office. The sum of 21 Rupees received for Plotting scales occurs as follows-

Sets. of Plotting scales were ordered from England / part of the 200 £ / but as Captain Priestley was in urgent want of these scales, much more

so

so than the survey Classes could be, I transferred them from the English account to him, and received the Money for them from Government. There are now Rs 98-9-7 remaining with the Cash Keeper of the office.

All the instruments ordered by me from Messrs Elliott & Co have arrived, and are arranged for distribution in the Board Room, but his Bill has not yet come out. I expect it by next Mail which may arrive a few hours before I leave. He tells me in one letter that he thinks his Charges for the articles ordered will very little exceed the 200 £ Freight will have to be paid, but duty and landing Charges have been already paid here. I doubt if the 98-9-7 in hand will quite clear Messrs Elliotts accounts. I intended to have left about 200 Rs in hand, but when in Calcutta, Major Thuillier, the Deputy Surveyor General, so strongly recommended to me the Country made Circumferenters for Native use, being

being also very cheap that I purchased 4 of this Instrument I am satisfied, that, if the Costs exceed the 4000 Rupees sanctioned by Government, it will not be from paying too much for the Instruments, but from my venturing to purchase more than I originally intended. I believe that if Government desire to Keep to the 4000 Rs any number of the Instruments received from England will be purchased by the Chief Engineers Department.

Lieutenant Colonel Balfour of the Military Board has inspected the Instruments, and his opinion of them both as to the nature of the selection, the finish of the work, and the price may be asked.

I succeeded in obtaining the Instrument from Messrs Elliott at 15 per Cent Discount through the Medium of a friend in business in London, otherwise they could not have been obtained under 10 per cent Discount.

Statement No 2 is a list of what each of the 6 Collectors who have applied for and will receive. In consequence of being obliged to purchase some of the articles in Madras, the supply will not be exactly the same in every Case, but the differences are too trifling to notice.

Statement No 3 is a list of the articles furnished by Messrs Elliott. Three of the reflecting Levels were broken on Board and have been sent back to be repaired.

Sir,

I have the honor to acknowledge the receipt of your letter No. 1481 dated the 11th Instant, and in reply beg to inform you that the practice, as stated by the Sea Customs Collector, is that which has been in force in landing the stores of the Railway Company - But on receipt of a letter from the Collector of Sea Customs No. 94 dated 15th May, in which he threatened was held out that the stores of this Company, with the exception of Iron Rails, Wheels and Machinery would be liable to confiscation unless passed through the Custom House, I was induced to bring the subject to the notice of Government - As however the Sea Customs Collector has since intimated that he has no desire now to alter existing arrangements, and that all the Railway Stores can be permitted to be landed at the Beach opposite our station

Bd No. 1576 To the Secretary to Government - Submitting with remarks an Abstract Statement shewing the transactions in the Management of the Salt Revenue

To The Secretary to Government.

Sir,

With reference to Extract Minutes Consultation, dated 23d October 1847 and to the Copy of the Despatch from the Honorable the Court of Directors dated 25th August of the same year, communicated therewith, I am directed by the Board of Revenue to submit the accompanying Abstract Statement exhibiting, in one view, the transactions in the Management of the Salt Revenue of the Madras Presidency for Fusly 1263.

Store 2 The balance of Salt in store in all the Manufacturing Districts at the commencement of the Fusly was, Indian Maunds 2,317,166-15-11½ and the quantity Manufactured during the year, Indian Maunds 98,81,813-21-2 making a total of Indian Maunds 141,98,979-36-13½

Sale. 3 The quantity of Salt sold in the several Districts during Fusly 1263 (including wastage) Indian Maunds 299870-26-10 / was In. Maunds 56,17,321-23-3½ of which the following is an Abstract -

For consumption within the Madras Territories	33,37,972-6-13½
For transport into Native States	14,87,961-17-0
To the French Government	58,743-12-0
For export on requisition from Bengal Government	1,26,820-0-0
For export on Private trade	3,05,952-0-12
Wastage	299870-26-10

4 The wastage entered on this occasion Considerably

considerably exceeds that shown in the preceding

Wastage on present Statement — Indian Maunds 299,870.
Do. on Statement for 1262 — 127,446
Difference — 172,424

Statement for fusly 1262. but as the Causes which led to the Wastage are explained when the Sanction of Government is requested for writing the Amount off the Accounts, it is sufficient to observe here that the present Statement includes the wastage of Canara, Guntoor and Tinnevelly for 1262 as well as 1263. It is therefore necessary to recollect that 100,456 Indian Maunds are to be deducted from the wastage of 1263 on this account and added to that of 1262, after which a comparison of the wastage would be in favor of the year now under report.

Wastage of 1262
Indian Maunds
Canara - 88,626
Guntoor - 11,085
Tinnevelly - 745

Balances.

5 The Balance of the Salt in store at the close of the Fusly was 85,81,658-13-10-

Gross Revenue Charges.

6 The Gross Revenue derived from the Sales in Fusly 1263 amounted to Rupees 1,67,05,145-5-11- and the Charges of every description exclusive of recoverable advances to Rupees 10,12,974-7-11—

The.

Net Revenue

7 The net Revenue amounted to Rupees 36,57,570-14-11 and was below that of the previous Fusly by Rupees 6,29,426-2-6-

Fusly 1262 Rs. 42,86,997-1-5
" 1263 — 36,57,570-14-11
6,29,426-2-6

There was a decrease in all the districts excepting Vizagapatam, Masulipatam and Madras. which is to be ascribed to the unfavorableness of the season. The drought that prevailed throughout the Presidency checked consumption in our own districts by raising the price of food and the inland trade was diminished by the want of forage and water along the different roads.—

8 There has been no alteration in the price of Salt during the year, and the results of this source of Revenue do not appear to call for any particular remark in addition to those offered in the Board's General Report on the Land and Extra sources of Revenue for Fusly 1263.—

The submission of this Statement has been delayed in consequence of the late Date at which the Statements from the Districts noted in the Margin were received.—

Diary

Received the following Papers.

No. 757.

1

B. No. 1667.

From the Secy. to Government Desiring the Board to obtain and submit for transmission to the Government of India the Statement from the Collector of North Arcot shewing the additional Establishment required for carrying out the revision of assessment and requesting them to offer their opinion on the fitness of the proposed Establishment.—

Extract Minutes of Consultation in the Revenue Department under Date the 21st June 1855.

Read the following letter from the Secretary to the Board of Revenue.

(Here enter 16th June 1855. No. 1502)

The Board of Revenue submit with the above letter, a Tabular form of application forwarded by the Collector of North Arcot, for an additional Sub Collector and a number of servants to form his Establishment, but they state that this Statement does not include "the additional Establishment required to aid the Collector in carrying into effect the measures sanctioned in Extract Minutes of

of Consultation 23d April 1855 for revising the assessment."

2. The Right Honorable the Governor in Council observes that the Board have not offered any opinion on the fitness of the proposed Establishment for the additional Sub Collector, he requests that this omission may be supplied and the Statement will be returned for that purpose. The Collector asks for an Establishment little inferior apparently to the usual Establishment of a Sub Collector although it seems certain that as the object of the appointment of an additional Sub-Collector is to relieve the Collector of a part of his ordinary work, some servants may be detached to his Cutcherry from that of the Collector. On the appointment of a Sub Collector for a similar purpose in the South Arcot District no separate Office

Office Establishment was provided for him. The Governor in Council will not object to allow some additional servants in the present case if the Board should deem it expedient to do so, but it seems hardly necessary to give so large an Establishment as that now applied for.

3. The Board notice that the present Statement does not include the additional Establishment required to aid the Collector in carrying out the revision. But it appears useless to the Right Honorable the Governor in Council to send up to the Government of India an application for an additional Sub Collector and his Establishment without applying at the same time for the more general addition, because it will not be proper to appoint an additional Sub Collector till the Collector is really about to be so engaged on the revision as to need such relief. His Lordship in Council requests therefore that the Board will obtain the necessary Statement from the Collector as early as possible, as directed in Para 16 of Extract Minutes Consultation April 23d 1855 and

and lay it before Government with their opinion for eventual transmission to the Government of India.—

To the President and Members of the Board of Revenue.

(True Extract)
(Signed) I. D. Boardillon
Secretary to Government.

Bd. No. 1581.

Order thereon.

(1-2)

Ordered that a copy of the foregoing Extract from Minutes of Consultation be forwarded to the Collector of North Arcot with a request that he will submit a revised Tabular form for the whole of the additional Establishment required both for the additional Sub Collector, and to aid the Collector in carrying on the revision of the assessment. Both divisions should however be distinctly shewn to enable the Board to form an opinion as to their fitness or otherwise for the purpose required.

2. Should the Collector, before these orders reach him have transmitted a Tabular form of application for the Extra servants required by him he will nevertheless immediately act upon these orders, and submit a fresh Statement embracing the entire Extra Establishment required by him. and the other Statement will be returned to him. He will not fail to afford full explanation as to the necessity for entertaining the several servants whom he may enter in the list, and bear in mind the observations of Government regarding the extent of the Establishment proposed for the additional Sub Collector.—

Order to Government 10th June 1855, Copy of which was furnished to the Collector.

Bd. No. 1665.

From the Secy. to Government.

Requesting the Board to issue certain instructions in respect to the Draft answer proposed to be filed in O. S. No. 43 of 1854 instituted in the Principal Sudr ameens Court by Soobaya and Ganpaya against the Collector of Canara and Shevalingaya.

No. 752.

Extract from the Minutes of Consultation in the Revenue Department under date the 21st June 1855.

Read the following Extract from the Proceedings of the Board of Revenue.

(Here enter 15th June 1855 No. 1287)

The latter part of the Draft Answer proposed to be filed in

In the Principal Sudr Ameens Court of Honore.
Plaint preferred by Soobaya and Ganpaya against
1. Shevalingaya Gowda.
2. Sr. N. Maltby Esqr. 1st Asst. Collr. of Canara.

Original Suit No. 43 of 1854, the case reported in the above Proceedings, requires to be somewhat modified. The entertaining of the Suit does not compromise the rights of Government, and the answer should close with a simple request for the dismissal of the suit with costs, as respects the 2nd Defendant. But it appears unnecessary to file an answer touching the merits, if as it seems, the Collector passed his order judicially. In that case he is exempted from liability to damages by Act XVIII of 1850, and it will be sufficient if he merely state the fact and be prepared with proof of it.

2. But it is observed that the interests of Government are implicated in the Suit in as much as it is stated in answer to the Plaint that the land is Government land and liable to tax if cultivated

cultivated. Besides putting in an answer for himself personally, therefore, under the Act above cited, it may be proper for the Collector to apply to be made a supplemental Defendant on the part of Government, in order that he may be enabled to defend the rights of Government, and having been so admitted into the action, he should submit a Draft of the answer it would be proper to put in on behalf of Government.

3. The Board of Revenue will be pleased to issue instructions to the above effect to the Collector of Canara.

To the President and Members of the Board of Revenue.

(A true Extract)
(Signed) J. D. Bourdillon
Secry to Government.

Bd's No. 1576.
Order thereon

(3.4)

Ordered to be communicated with the Board's Proceedings to the Sub Collector in charge of Canara for his information and guidance.

2. Mr. Fischer will file an answer requesting that the Collector may be removed from among the Defendants against whom this Suit has been brought by the Plaintiffs for loss sustained by him, as the Collector was acting Judicially

Judicially and is exempted from liability to damages by act 18 of 1850. But Mr. Fisher is also to request that if the Plaintiffs proceed with the action against the other Defendants he may be admitted as a supplemental Defendant to prove the right of Government to the land in dispute, and on his obtaining an order of the Court to this effect, he is to submit a Draft of the answer which he proposes to file.

From the Secy to Govt

Extract from the Minutes of Consultation in the Revenue Department under date the 11th June 1855.

Requesting the Board to submit without delay the replies of certain Collectors relative to the extent to which a knowledge of English figures and notations prevailed among the Public Servants, desiring the Board to call upon these Officers to explain the cause of such long delay in replying to their Circular of 18th Novr. and directing that a copy of the Board's letter and these Proceedings be furnished to the Government of Bombay.—

Secretary to Govt. Bombay 12th & 14th July

Read the following letters

From the Secretary to the Government of Bombay

(Here enter 15th May 1855 No. 1717)

From the Secretary to the Board of Revenue

(Here enter 31st May — No. 1338)

1. With reference to the orders of Government for the supercession of Mahratta in the Revenue accounts by the Vernacular languages with English figures, the Board of Revenue submit the replies they have received to a Circular in which they called upon the Collector to state to what extent a knowledge of English figures and notation already prevailed among the public servants, and what means were available for acquiring that knowledge where wanting

2. These replies are from fifteen Districts those from Ganjam Masulipatam, Guntoor, Bellary, Kurnool and Canara, had not been received at the date of the Board's Report.

3. With the exception of the Districts noted in the Margin, in which a very limited number of the public Servants are acquainted with English figures

figures, the majority of the servants in all the Districts have some Knowledge of English numerals, and some of the number are tolerably acquainted with the language itself. In all the Districts the servants, with very few exceptions can read and write the Vernacular languages of the Province in which they are employed.

4. In Vizagapatam, Rajahmundry and Malabar, Mahratta has never been used as the language of accounts, which have always been kept in the Vernaculars of the District; and in Cuddapah it has ceased to be so used for some time. The accounts of Fasly 1264 in Chingleput are being written in the Vernacular language, and those for the same period in North Arcot, except parts of the accounts of two Talooks are being prepared in the local language in the English Figures. In Madras and Tinnevelly the new System has already been partially introduced; in Coimbatore it has been carried out both in the Huzzoor and in the Talooks. The Vernacular of the District generally is Tamil, but Collegal being a Canarese Talook, sanction has been granted by the Board for the local accounts being kept in that language a Tamil copy with English figures being sent to

to the Huzzoor - In Trichinopoly the new plan has been fully established in every Department the Collectors of the remaining Districts do not apprehend no great difficulty in carrying out the change from the commencement of Fusly 1265 Fazl. from the 1st July 1855-

5. The Right Honorable the Governor in Council considers the results of the measures adopted by the Board as above exhibited to be generally very satisfactory, and he is gratified to learn that the proposed change which he considers to be one of much importance, is likely to be carried out with so little difficulty.—

6. The Board are requested to procure and submit without loss of time the replies of the remaining Collectors, who should be desired to explain the cause of such long delay in replying to the simple enquiries conveyed in the Board's Circular of the 16th November -

Ordered that a copy of the Board's letter and of these Proceedings be furnished to the Government of Bombay in reference to Mr. Harton's letter of the 13th Ultimo.—

Para 7. With regard to the Public Offices we advise that each Office be supplied with an Almirah with a good lock and Key, and that the Stationery be deposited

deposited therein, and the place opened under a responsible Officer, in our own office it is done under the Secretary or Assistant, and the articles required by the Heads of Departments supplied to individuals and Accounts kept of such issues, and the expenditure afterwards accounted for."

8. "The opening of the Almirah and the serving out of the articles whilst regularly acted up to the other parts are more or less strict as may be considered advisable it being in no way intended to scrutinize the expenditure of one sheet of Paper or a Quil merely that some degree of care be shewn."

18 The Arrangements proposed for the custody and issue of Stationery in the several Public Offices are approved by Government and copies of Paras 7 and 8 of the Boards letter will be circulated to all Heads of Offices with directions to adhere as far as possible to the rules therein proposed to be established.

19. They probably already exist to some extent and it may not be always feasible to arrange that every issue of Stationery from the stock should be made in the presence of an European Officer, as the Board would seem to propose

The Right Honorable the Governor in Council does not at all doubt the desire of the Board to make every effort to dispose of business with

with promtitude, or their Zealous labours with that view - He is aware also that the business coming before them at present is heavier than in former times, and that many of the subject are such as to need much research and deliberation - He is aware also, as noticed in the Extract Minutes of Consultation of the 7th May that a great part of the delay adverted to, in that order does not occur in the Boards Office - His Lordship in Council is gratified that the Board can give so good an account of the state of their business as is conveyed in their present letter, and he deems it highly creditable to the ability and industry of the Members - He is satisfied therefore that as far as practicable the exertions of the Board will be continued in the endeavour to carry out the wishes of Government as expressed in the order of the 9th May and in the Circular of the 10th idem

the object of protecting the Salt revenue of Malabar from illicit importations from Cochin

the Government sanctioned as an Experimental measure a reduction in the price of Monopoly Salt at certain depôts of the Malabar District bordering on the Cochin Country to the rates noted in the Margin - This arrangement was to continue till the end of Fusly 1264 the Cochin Circar having agreed to maintain the selling price of Salt at their pans without alteration during that period - The approval of the Government of India for this measure was communicated to the Board of Revenue in Extract Minutes Consultation 11th June 1852 No 546 and subsequently that Government transmitted an Extract from a letter from the Honorable Court of Directors in which a hope was expressed that the object which the Government had in view in the above arrangement would be attained without loss of revenue

of smuggling and to determine the future course which should be taken after the termination of the period during which the reduction was to endure. The reduction came into operation when Fusly 1261 had but a short time to run. On looking to the Boards Report on the Extra Revenue of Malabar for that year and comparing it with that for the following year the latest yet before Government the Revenue appears not to have suffered by the reduction, but the Right Honorable the Governor in Council is anxious to have before him full information as to the effect of the change to the latest possible date. He resolves therefore to call the attention of the Board of Revenue to the subject and to request that they will after communicating with the Collector submit a report of their views on the subject as early as practicable.

The losses sustained in the Current year owing to the seasons and high prices of provisions generally may account for the want of competition and for the consequent low offers made for the Farms of the ensuing year.

The 28th May was fixed as the time within which the Contractors were required to make the deposits and produce securities; but all were not received at the time fixed, which has delayed this report. The deposits of one Months Rent amount to Rupees 15,950-1-0 and security has been furnished for 3 Months Rents from the Contractors of 13 Talooks.-

For 3. Talooks Contracted for by Mr. Abraham the Rents for 2 Months amount to Rupees 6,333-6-7, and for this Mr. Abraham has deposited Company's Security Bonds /No. 43,146 of 1854/55 for Rupees 1,500 and No. 45,359 of 1853/54 for Rupees 5,000/

5,000/ making a total of Rupees 6,500. The Contractor of the remaining Talook Gadakee has not yet made the necessary deposits, but is expected to furnish them by the end of June; but in the event of the Contractor failing to produce the same, the Farm will be resold at his risk according to the stipulation of the Moochil-=cas.-

Note. 21 June 1855. This Contractor has since deposited Cash and Jewels to the amount required.

5. The Board's Circular dated 9th June 1855 informing me that the change in the Fusly by closing it on the 30th June instead of 1st July as directed in the Board's Circular dated 28th May 1855 need not alter the arrangement of the Abkary Farms for Fusly 1264, but that the lease for the succeeding Fusly should cease on the 30th June 1856 has just reached me. The

Contracts

contracts for Fusly 1264 will continue up to 11th July heretofore.—
But the contracts of the Kibbary farm for Fusly 1265 were made on the 18th May, which was previous to the receipt of the Boards Circular of the 28th May 1855, for the period from 12th July 1855 to 11th July 1856, so that when that Fusly is closed on the 30th June, the period of the contract will fall short by 11 days of the time contracted for. The Contractors will of course be entitled to a remission for those 11 days. and I beg to submit a Statement Marked No 2 of the remission which should be granted according to this Statement the gross Beriz of Rupees 2,38,836. is diminished by the proposed amount

amount of remission Rupees 7,197- 12- 9 to Rupees. 2,31,638-3-3, which will be the Beriz for 1265 if approved of by the Board; as I have no reason to apprehend objection on the part of the Renters to this arrangement, if Confirmed by the Board. But as the change of the close of the Fusly from the 11th July to 30th June is, it appears, a mere temporary arrongement, it is possible that the Board may not think it necessary to interfere with the offers as already made.—

6. Begging the favor of the Orders of the Board at an early date.

Bd. No. 1710.
From the Coll.r of Bellary.

Reporting upon the fibrous cul-tivation of his District as called for in Extract Minutes of Consultation of 19th September 1854.

With reference to the 13th para of the Extract from the Minutes of Consultation dated 19th September 1854 instructing the several Collectors to make generally known to the Ryots the advantages derivable from cul-tivating fibrous plants and furnish the Government with the following infor-mation in a Statement according to the Form supplied.—

1 The mode of cultivation of fibrous plants.—
1 The profit derivable therefrom.
1 The expenses attendant upon them
1 The quantity grown, whether sufficient for local requirments only or whe-ther any part is exported.—
1 Whether there is a willing desire among the Ryots to extend the cultivation,

if

if not whether any and what encouragement is required.-

1 In what lands fibrous plants are grown.-

1 Whether the distance to the sea is too great for the transport of fibres.

I have the honor in reply to give as much information in the matter as is obtainable.-

The fibrous plants grown in this District are.-

First The Poondee Nar- the seeds of this plant are sown mixed up with Cholum and other grain, and is also sown with Cotton- the plant grows from 1/2 to 3 yards in hight- the leaves are used extensively as vigetable in curry by the Ryots- the plant stands green on the ground for five months- when, the leaves begin to drop it is then cut down and put to soak in water for 8 or 10 days- the fibre is after that separated, bound in sheaves, and so heaped- the Ryots use this fibre- for Ropes required for cultivation, and sell the

The estimate of the Gross produce of this Poondee Nar is 20000 Maunds at 48 Cutcha Seers per Maund.
The quantity used by ryots themselves is 10000 Maunds.
The remaining 10000 Maunds are sold at the rate of 8 annas per Maund.-

the surplus, at the rate shewn in the margin. this fibre is used for no other purpose than making ropes- as the extent of its cultivation is not known to any certainty, I subjoin an abstract of the probable extent-

	Gross Cultivation	Average	Probable extent cultivated with Poondee Nar.
	Acres Rs	Rs a P	Acres Rs a P
Dry	135,075 109,410	" 13 "	50,000 " " 40,625 " "
Bagayet	252.86 180.007	7 2 "	1000 " " 7,125 " "
	137,936 127,841	" 14 8	51,000 " " 47,750 " "

The Cultivation of this plant may be extended by giving advances for the cultivation of it to the Ryots, and creating a certain demand which will ensure a sale

Second. The Janapa Nar plant is grown by itself separately, but only in a few places in this district, it remains green four months- its hight is from 1 to 2 yards, and about the thickness of a finger- the plants when cut, are bound in bundles and

and put into water to soak for 15 days the fibre is then separated bound in sheaves, and stacked - this fibre is used for making small ropes it is also twisted very fine, and gunnies are manufactured with the twine, and Blinds, Bags &c are made of the gunnies - the fibre is sold at prices varying from a rupee to a rupee and a half per Maund - when the gunny becomes old and torn it is sold to paper manufacturers for making course country paper - The extent of the Cultivation of this plant may be about 4,000 acres - about 3 Maunds of fibre is produced on each acre of land, so that the gross produce is estimated to be 12,000 Maunds - The quantity of the fibre produced in this district is insufficient to meet its demand, and the fibre and gunnies &c are brought from the neighbouring districts of Mysore, Cuddapah &c

3. Cocoanut Coir - The Cocoanut tree is grown in Dharapore and Bagayet lands - the Coir is used for making ropes for

for the use of Cultivation, and also for making pack saddles, beds &c the extent of Dharapore Cultivation in Fusly 1263 was 3,420 acres of land assessed at Rupees 57,500 and the extent of Cocoanut Plantation alone at the rate of 100 trees per acre would be about 34,200 trees only - the fibre is very little used in Bellary.

4 Ahsin Nar - The trees and plants from which this fibre is extracted are called Narepah which grow commonly in Mysore Soils and among rocks and such localities - the bark of these is removed, and the fibre extracted and bound in sheaves, of which ropes &c are made and sold - this is done chiefly by the Boya, Lumbana, and Corcha caste people -

5. The Eatha Nar - This fibre is extracted from the switches of the date tree, which are beaten into fibres - it is used for making bucket ropes for drawing water from wells, and does not appear to be used for any other purpose - the extent of land occupied by these trees is not known -

The

Fort St. George 25th June 1855

6 The Kathabe or aloe plant is generally grown along the sides of roads the fibre is extracted by a process of smashing and ropes are made of the same, the extent of ground on which the aloe grows also is not known, and the fibre is only a little used.

7. The aratee or Plantation tree is grown in gardens in many places. the outer stalks of the stem leaves are used for binding Betle Creepers to trees, but for no other purpose.

There do not appear to be any fibrous plants in this district besides those above enumerated.

If it is wished to extend greatly the cultivation of any of the above fibrous plants it would be necessary to give encouragement to the farmers by making advances and taking the produce at a fixed rate, either by Government or private speculators. and it would also be desirable to have a qualified person to superintend the manufacture of hemp as it is but little if at all known properly in this District.

H. B. Cunliffe Esqre
Secretary to the Board of Revenue

Sir,

I have the honor to submit the following report on Petition No. 589 of 1855 from Krishna Reddy and other Inhabitants of Chingleput bearing the endorsement of the Board of Revenue dated the 23d February 1855.

2. The Board are aware that the rules for the recovery of Land Revenue arrears under annual settlement have been materially altered by their Circular letter of the 30th April 1855. The instructions conveyed in this Circular are now strictly observed. I need therefore offer observations on but one point connected with the Petition under notice.

3. The land as well as the Crops produced thereon are still regarded as security for the Revenue under Section VI Regulation XXVII of 1802 as explained by the Court of Sudr Uddaulut and again admitted by them in your Circular No. 902 of the 19th April last and it would therefore seem under the right of mortgage which are thereby fully conveyed to Government that we have full power to prevent a Ryot removing his Crop from off his field or the Village threshing floor without his first giving us security for the payment in full of his Rent. We only holds his Land on payment of Rent and his Crop is our only security that we can realize it from him, if we allow him to remove and sell his Crop we deprive ourselves of our right of mortgage without first requiring its redemption. A private Landlord would not act so and the Government have no reason to be less stringent. Every relaxation in favor of the ryot is an additional

x Vide No. I. XXII 13th June 1855 Cuthbert's Vide Memm

Fort St. George 25th June 1853.

difficulty in the way of the Collector and Tahsildars, and as the Ryot is now allowed to remove the first portion of his Crop which comes to maturity and we only attach the remainder of his Crops in case of his failing to pay his proportion of Kist due on the first portion which he has been allowed to remove and had full Command over, I do not see how any complaint can be made by him if we afterwards do no more than retain possession of his growing Crops to secure paying ourselves the arrears of Kist we had given him full opportunity of previously paying himself without our interference.

4. I cannot see that this bears hardly on a ryot; it only affects those whose intention is to defraud and is only enforced on defaulters in the first instance. All others are free and unfettered and their own conduct keeps them Masters of their own crops.

5. The reclamation of the Petitioners would therefore seem to be undeserving of notice and to be rejected accordingly.

6. The Board are aware of the hitherto backwardness of this District in Collections and nothing short of securing the crops contend to any permanent improvement therein.

should not be resorted to when the land has a saleable value or the ryot is a respectable resident not likely to practice any fraud or abscond

Ordered that the following Endorsement be passed on Petition No. 589 of 1855.

From the Collector of Chingleput

To B. Cunliffe Esqre
Secretary to the Board of Revenue

Sir,

Adverting to Extract from the proceedings of the Board of Revenue under date the 14th Instant, I have the honor to state for their information that the Census Returns prior to Fusly 1260 were prepared as furnished by the Village Curnums without much examination into them. In Fusly 1260 the accounts in question were prepared by the Zilladars and Talook Gomastahs in conjunction with the Curnums. The importance of drawing them up correctly was impressed upon the minds of all the servants and the returns in some instances were examined by the higher Talook Servants as a check. The difficulty of their preparation could not have been as great as in a large town like Vellore, and the servants preparing them could have had no motive for furnishing false returns. I believe under these circumstances the Census Returns of Fusly 1260 may be relied on as tolerably accurate.

2. In obedience to the instructions now communicated by the Board, the checks on the preparation of these Returns will be increased and more strictly enforced in the ensuing Fusly 1265. The returns of several Villages taken at random will be tested by the Tahsildars and Hoozoor Shenistadars and the results prominently noticed in the Settlement report.—

From the Collector of South Arcot.

Sir

Having received an application from the Acting Principal Sudr Ameen of this Station through the Government Vakeel, to know whether I have any objection to remit to his Court the Surplus revenue belonging to the Mootah Estate of Chennanaraiken Pollien which is under my management for the purpose of being appropriated to

Fort St.e George 25th June 1855

to discharge the claims of certain creditors against the late proprietor Balakishnama Naicke whose death was reported to the Board by Mr.r Davis on the 31st. August 1849, I do myself the honor to Solicit instructions from the Board as to whether I am authorized to comply with such a requesition.—

I think it right to explain that this Mootah Estate has remained up to this time under the Collectors management in consequence of the disputes which have Arisen regarding the rightful succession to it.—

Under the orders of Government communicated by Extract from the Proceedings of the Board dated 1st. November 1849 the litigant parties were reffered to the Civil Court and the Suits are now pending before it, but as yet no orders have been received as to who is to be recognised as the future proprietor.—

4 . At present the Surplus cash in hands belonging to the Estate, exclusive of the current Fusly's account, amount to Rs. 2995—4—4.—

5 I beg leave to take advantage of this opportunity, to request that I may be informed whether

whether this Estate is to be charged with the Commission alluded to in Clause IV of the Boards Circular under date 5th May 1836.-

(45-48)

As the title to the Mootah appears still to be under litigation the Board consider that the surplus revenue of the Estate should be given up on a simple application from the Court.-

2 If any creditors of the deceased Mootahdar Balakrishnama Naick have obtained a decree for the sums due by them and in issuing process against the Estate in execution of such a decree the Court addresses a Precept to the Collector requiring him to deliver up the surplus proceeds of the Estate in his hands, then it would be proper to comply with the Precept, taking a formal receipt from the Court for the amount delivered to it.

In reply to the question in Para 5 of Mr. Hall's letter, the Board do not wish him to charge Commission against the Estate, considering the

the peculiar circumstances under which it was continued temporarily under Sircar management.-

Reviewing the report of the Collector of Tanjore on the management of the Extra Sources of Revenue of his District for Fusly 1263.-

The Demand for the Extra Sources in Fusly 1263 amounted to Rupees 935785-4-1 and was less than that of the previous year by Rs. 5655-9-1.

2 In the Abkarry and Stamp duties there was an increase, respectively of Rs. 11,875 and 1760 of which the latter is ascribed to the opening of four additional District Moonsiffs Courts. There was also a small increase in the Chay root rents but the Contractor has been unable to realise the full amount of his Tender.-

3 In the Salt Revenue there was a net decrease of Rupees 13113-3-8 owing to the great falling off in the Home Sales/ Rs. 15643/ Consequent on the failure of the harvest.-

4 In the Sea Customs there was also a net falling off of Rs. 16954-11-8- the greatest portion of which appears in the exports of Paddy and Rice and the imports of Betle Nuts.-

5 In the Frontier duties the net

deficit

deficit of Rs. 2541-4-3 is also caused mainly by a smaller exportation of grain.—

6 The decrease in the Motturpha was only / Rs. 1050-15-5 / and in sundry small Farms Dues / Rs. 201-2-1 / calls for no remark

There were no offers at all for the Chank Fishery—

7 Of the entire demand Rupees 900 2/4 61-10-11 were collected within the Fasly and the balance has been reduced by subsequent Collections to Rs. 11b-4-9.—

8 The Board will recommend the remission of the small sum / Rs. 78-8-/ due by the Clay root renter.

9 The Board observe that the items "Cay root" and "Chanks" are shewn separately in the abstract in para 2 instead of being included under the head of Sundry Small Farms Dues as in Statement A. The Board wish to be informed what items are included under the latter heading

10 The Salt Collections include Fines as such in the Statement accompanying the Report as well as in the Demands Collection and Balance, returns will in future be entered as Sewey Jemmah.—

Sir.

In reply to the questions contained in the Extract from the Proceedings of the Board of Revenue No. 899 dated 16th April last I have the honor to state that Mr. Chatfield argues the Hill in question to be the property of Government because as he expressed himself in his order the Wynaad forests are from different reasons Government property as borne out by the Government records.-

That such Forests in Wynaad as do not yield any profitable produce Cardamoms Teak &c are Government property is a point I held with Mr. Chatfield I wrote on the subject at some length in 1846

Letter dated 9th January No. 3

But Mr. Chatfield I think erred in looking on this wooded hill as a forest.-

It is a detached eminence with a good number of jungle trees, it is true but in part cultivated and built on.- I had a doubt whether it might not be escheated property and searched my records to elucidate that point but could find nothing to the purpose I did not feel inclined therefore to appeal from

from what seemed to me a reasonable judgement of the Principal Sudder Ameen of Tellicherry.—

It would have been better had I allowed the claim set up against the Government to be acceded to in place of allowing the case to be tried ex parte.—

4 There is a mistake in my letter of the 20th February last No 16 as regards the amount of costs to be paid by Government they will be about 10 Rupees in place of Rupees 41-3-2 I shall know the exact amount when I obtain the particulars from the Court.—

To The Secretary to Government Revenue Department

With reference to Extract from the Minutes of Consultation dated 8 Ultimo 1855

I am directed by the Board of Revenue to submit for the information and orders of the Right Honorable the Governor in Council a letter from the Collector of Malabar furnishing the further explanation required regarding the decree in Original Suit No 321 of 1849 on the file of the Principal Sudder Ameens Court of Tellicherry.—

The grounds assigned by Mr Chatfield, late Sub Collector for considering the Hill the property of Government were that "the Wynaad Forests are from different reasons Government property as borne out by the Government Records" the Collector concurs in this opinion. So far as regards Forests that do not yield any profitable produce such as Cardamoms Teak &c. but he thinks that Mr Chatfield erred in looking on this wooded Hill as a Forest It is a detached eminence

eminence with a good number of Trees but in parts cultivated and cultivable

3 The reason the Collector did not appeal against the Decree of the Principal Suder Ameen was that it could not be discovered from the Records that the Hill was as the Collector thought might be the case escheated property. He however admits that it would have been better had the claim been acceded to instead of following the case to be tried ex parte

4 The costs of the Suit to be paid by Government will amount to about 10 instead of Rs. 41-3-2- as previously stated and the exact sum will be reported for sanction when the particulars are obtained from the Court.

Sir,

In reply to the Extract from the

the Board's Proceedings dated 31st Ulmo, I have the honor to Explain that no Village accounts are forthcoming in this Office.—

To Board 26 Sept. 1823
From— Do. 23d Oct.—
To — Do. 30th Dec.—

2 From the correspondence noted in the Margin, it appears that some of the Turpady accounts are in the Boards' Office, but it is very probable that they will not give the particulars required.—

3 The Merasidars maintain that the land sold to Mr. Gantz has been under Cultivation, and tho' this point cannot be ascertained from the records, I think it is highly probable from the Situation of the land.—

Proceedings thereon
(58.59)

The Board concur in the views of the Acting Collector as expressed in the former of the above letters.—

2 The Merasidars are unable to bring proof of the cultivation of the land within a lengthened period. It may therefore be termed immemorial waste which

which cannot be alienated except with the concurrence of Government which it is not expedient in the present instance to give.—

3 It appears also clear that no certificate in conformity with the Notification of 1800 has been taken out for the land, and that by this omission the merasi, if ever existing, was forfeited.—

From Coll. 5th June— 4 With reference to the remark that "no Village accounts are forth-coming in this Office", the Board think it necessary that the acting Collector should again call upon the Village Officers to produce the accounts or explain their absence.—

5 It is presumed that their service emoluments are still continued to these Officers, but for what purpose in the absence of Village accounts is not apparent.—

6 A Gomastah should be sent to the Board's Office to decide whether the Turapady accounts there, are useful to the Collectorate authorities, in which case,

case, the Cutcherry would appear the proper depository for them.—

7 Some accounts have also, it appears, from the letter noted marginally, been lodged in the Supreme Court, from which they should be again recovered by application.—

To Board 30th Dec/23 in/on 5th Jan. 1824

8 Such a serious loss as the Village accounts should not be submitted to without further strict enquiry, and without calling upon the responsibility of those charged with their safe custody

Ordered that the following Endorsements be passed on Petitions 1626-1751-2437- of 1854, and 1283 of 1855.—

The Board having received a report on the claims of the Merasidars to the land mentioned within, are of opinion that it has been proved to be the property of Government, and that it is not expedient to dispose of it to private parties.—

Sir With reference to the correspondence noted in the margin on the subject of substituting Madras for Cannore as the Port of Shipment for Government Salt. I have the honor to forward the accompanying Copies of two letters &c &c from the Superintendent of Salt proposing certain modifications of the existing rules for Exportation.—

2 The question of having a Depot at the Beach or not will be in abeyance pending the decision of Government as to the extension of Cochranes Canal to the Beach Mean time I send Copy of a letter from the Consulting Engineer giving his views on the Subject.—

3 After taking into Consideration the difficulties mooted by the Collector of Sea Customs in the way of carrying out the Superintendents proposed Rules, and

and in the present stage of the Salt question I am inclined to think that no further change needs be made than to revise the rate of charge to the shippers which is now Rs. 15 per 100 Indian Candies so as to make it Cover not only the prime cost and Shipping Charges, but the cost of the transit from the Pans to the beach Should the Board approve of this. I will submit a calculation of what this increase ought to be—

Acting Collector of Madras.

Sir

In reference to the anomalous position in which this as well as the Master Attendants Department are placed, in the desire to give effect to the wishes expressed by you, to arrange for giving Boats at Madras to Shippers of Salt or Salt Ballast on Private account, I have the honor to lay before you in the following circumstances for your consideration

in

in view to such rules being laid down, or modifications being introduced for the future guidance of both Departments, as you may deem proper.

2 So long as the Salt shipped at Madras is on Public Indent, the Master Attendants Department would of necessity (unless there be some other Office or Department to undertake the duty) have Boats engaged for Shipping Salt as he would Troops, Stores any other Marketable Commodity for Government, but it does not possess the power to enforce the attendance of Boats for Shipment on Private Trade When however Purchasers of Salt on Private account find that the Government pay for Boat hire, they of course naturally expect that Boats will be found there, to the full extent of either entire requirements and if such is not the case, and, it certainly can never be so with all disposition on the part of the Master Attendants Department to fulfil the requisitions made.

made by you, or myself. the fault of non Compliance is laid at the door of either of the two Depart. ments the Master Attendants or my own:—

3 When the Managing Member of Messrs Bainbridge & Co. Jarvis wrote privately to me to Know whether there might be objections to his having Salt Ballast for a Ship, after the Shipments p. "Scotia." I replied that under the arrangements adopted by him p. "Scotia" there certainly were not, because my responsibility ceased in that instance when the Salt reached their Godowns. and the Master Attendant was never troubled at all on the matter of Supplying Boats. Messrs Bainbridge & Co having arranged with Boatowners for the transport of the Salt in the same manner as they would have done for Sugar, or any other Commodity, on their own Private account, I stated to Mr. Biggs that there were great objections to my giving Salt Ballast under any other arrangements and in illustration

illustration of this need only refer to the emergent call on this Department for the 8000 Indian Maunds of Salt Ballast p. "Burlington" nearly Complied with yesterday, Six thousand Maunds were Complied with on Monday and by 2 P.M. yesterday but no arrangements having been made by the shippers to ship as fast as they expected me to Comply with their emergent demand I struck off weighing more having found that they left 6000 Indian Maunds on the Beach last night unshipped. The Master Attendants Department informed me that upwards of 30 Boat loads had been Conveyed and, as the Vessel was unshipping Cargo, that was a good days work that their Department could not secure more than a fair proportion 10 Boats I believed for Messrs Miller & Sons without Monopolizing for them the Boats of different owners, who had other numerous engagements to Comply with

with At ½ past 12 I wrote to Mr Miller
pointing out that for want of arrange-
ments for Boats, I would strike weighing
Salt that what was at the Beach at night
was at his risk and that its pillage
would not only affect him seriously but
the Government sales here also when
the Commander of the Vessel desired
the Mate to agree to post none further
weighing.

4 On visiting the Beach at
5 P.M. I was indeed surprized to find
the quantity unshipped I asked Messrs.
Miller & Sons Moor if he was prepared
to guard so large a quantity with the
four Peons I had engaged. he answered
in the negative, and the Masters
Attendants Department kindly
undertook to secure it from &
plunder until I sent up the Head Peon
and two others at ½ past 7 when I returned
to the Cutcherry thus virtually undertaking
a responsibility on myself, which was
no longer mine under the opinion of &
yourself and of the Masters Attendants
Department,

Department, and under my own belief
that my Department had been absolved
of all responsibility when the Salt
left the Scales.

5 The same inconvenience and troubles
would follow the Compliance with the
application of Haji Mahommd Bakeer
of 800 Indian Maunds on Private &
Trade for "Atalanta," which Venkat
Reddy Gomastah Soolyer, who verified
himself as the applicant put this
Morning into my hand with a request
that the Salt might be given now
at Madras. Solary however as
Private Shippers pay Boat hire they
will naturally look to Government
to find them not only Boats but
also Security for their Cargo &
until shipped.

6 I submit for your consideration,
under all these circumstances that a
Rule be laid down that on every future
occasion of Salt being sold on Private &
account it be understood that the &
responsibility of the Department ceases
when the Salt leaves the Scales that
no

Fort St. George 25th June 1855

no application be made to the Master Attend-
ant for Boats unless for Salt on Public Ac-
count, and that Private Shippers be distinctly
informed that they should make their
own arrangements for this purpose and
send their own Bags, as the Inland
Traders do for their Salt.—

7. I would moreover, in Modifi-
cation of the proposals Contained in my
letter of the 20th Nov.r 1854. No. 135 suggest for
your Consideration, that Government pay
the Cost of Cart hire to the Beach and
leave the Private Shippers to pay the Boat
hire my object for introducing the change
being solely to remove the impression
from their minds that Government
protect their Salt and find the
Boats.—

Sir,

I have the honor to report
what

Fort St. George, 25th June 1855.

what has passed in reference to the
orders contained in your Memorandum
of the 19th January 1855 No. 26.—

2. In accordance therewith I
prepared a Memorandum of the measures
I proposed to embody in Rules, and
submitted the same to the Master Attend-
dant.

3. These I may briefly state were
for the Salt Department to be relieved
of all responsibility on the Salt
reaching the Beach, and placed in
custody of a Custom house Officer
with a Rowannah, the Salt Peon
taking his signature in token of his
charge, that Peons be employed under
him, that charge for Godown rent &c.
be made by him if the Salt were not
immediately removed that Boats and
Bags be supplied by Shippers on both
public and private account, and paid for
by them, that the Cart hire be paid by
Government and the pay of the Custom
house Officer so employed be charged
to

Fort St. George, 25th June 1853

to the Salt Department and all receipts from Godown rent credited to the same.-

4. Captain Biden owned that such rules might answer the requirements of his Department and that since the promulgation of the Boat-act, Government are quite powerless in securing any specific number of Boats because the supply is open to competition, and Private owners of Boats have their own agreements with consigners and houses of Agency to fulfil which would not admit of their Boats being monopolized by Government, as was previously the case. At the same time he assured me that all requisitions made by you direct, or thro' me were met, to the best of his ability.

5. I was unable to meet the Collector of Sea Customs before Saturday the 10th and on mentioning to him the purport of the Rules, which I had in my hand,

I

Fort St. George, 25th June 1853

I found him averse to adopt them. He decidedly objected to have his Department responsible jointly with any other in such transactions. He had no Warehouse nor Godown to receive the Salt and stated his belief that the shed opposite the custom house where the Salt had been piled in bags previous to shipment, might require to be removed. He was aware of the difficulty to procure Boats even if higher rates were given. He could only admit the Salt into the Custom house if it paid duty on Export, but not now because it was exported free on permit and he observed that even if the duty of 12 annas per Maund were levied on export, his Department would be satisfied that no duty was withheld, only in the event of the Salt passing thro' the custom house scales. If such were allowed, he thought Salt might then enter the Custom house and Godowns and the same

rules

rules which were observed in his Depart-
-ment for the shipment of all other du-
-tiable goods would then be adopt-
-ed.-

6. Mr. Underwood thought Gov-
-ernment might at any time declare
that salt be liable to the Duty on
Export. He considered if such were
the case it would make shippers more
careful of their cargo, for they would
avoid undue wastage but having once
paid an Export Duty here of 12 As per
Maund, they would naturally expect
that no further impost be exacted
on Landing it at Bengal where
the Import duty is still 3 Rupees
P. In Maund tho' it seemed ques-
-tionable whether this concession
could be allowed, under the present
state of the Law.

7 He suggested that until
some definite arrangement as to the fu-
-ture management of the revenue were
prescribed

prescribed, I had better continue
the course, I had recently adopted
and pointed out that so long as
Government vend Salt, they like
venders of all other commodities
should bear all charges of shipment
and take all the trouble and inconve-
-nience attendant on such.-

8 In the event of the introduc-
-tion of the excise it is clear that
it would obviate all such difficul-
-ties, as the purchaser once having
paid the excise, might be enabled to
Convey Salt in whatever directions he
thought proper whether for home or
inland consumption or for export by
Sea, there rendering no further respon-
-sibility necessary, after the Salt left the
Scales.-

9 I would now point out the strange
anamalay that there is in the existing
practice namely for the Shipper to
expect Boats from Government
because

because the latter pay for them, when Shippers themselves must find them, and again for the Government to find Carts for Shippers and then make the latter pay for them.

10. I would beg to recommend that these rules be reversed, or that all Salt for export be granted at a reduced rate of 12 Rupees per 100 Imds exclusive of Boat and Cart hire, which the shipper bear and subject to a penalty of the full Monopoly price in the event of any portion of shipment being evaded without knowledge of the Collector that the Shipper be also bound under penalty to ship off not less than a prescribed quantity, say 1000 Imds as a minimum per day from the date of his application being authorized that a Mootsuddy like the Emore Peshcar be enjoined to be in attendance at the Beach to see that all Bags not shipped daily are in safe

safe Custody and to advise me whether any and what number of Bags might be sent daily to the Beach so as to allow none to accumulate.

11. If this course cannot be adopted and it be thought essential for Government still to bear the Boat hire charge, I would advise that in such event contracts for the supply of Boats for shipment of Salt be entered into containing clauses for penalties or fines or forfeitures, being imposed if a prescribed number of Boats are not ready to take off Salt after due notice has been given to the contractor, and that the Mootsuddy mentioned in the last para be in attendance at the beach throughout the entire shipment.—

Sir,

Your letter of the 18th of March
only

only reached me a few days since I regret that it should have remained in consequence so long unanswered.

Your object is I understand to ascertain how far the Railway can be turned to account in the conveyance of Salt from the Canal either inland or to the beach.-

The Superintendent of Salt in his letters to you speaks of some proposed branch Railway from the neighbourhood of the Munro Statue. I believe some such branch is considered desirable by the Railway Agent but at present I know nothing more about it and should not myself approve of it.

Assuming the Salt question to be the property of Government and the quantity which you are desirous of conveying by rail to be sufficiently large to justify the Establishment of a special "take up" station for it I should say that it would remain for the Government to arrange all things connected with the Establishment

of

of such station and the means of moving the Salt thereto.-

In such case I would recommend the laying a line of light rails / of the same guage with the railway / from the Salt platform to the proposed station along side of the railway.- The Salt placed in Railway waggons should be conveyed thereto by cattle and disposed on a siding, under Cover and arrangements should be made with the Railway Company to pick such waggons up with their good trains and convey them to their destination.-

This is for Salt going inland of course the same plan might be adopted with that going to the Beach - but as I do not see how you can avoid the necessity of transferring the Salt on arrival at the Sermions to other conveyances even tho' intended for immediate embarkation, I doubt if conveying it that short distance by rail would be a convenient arrangement.-

With regard to the question put in the 2d para of your letter I cannot conceive any circumstances under which you could be obliged to take the Salt by Parambore, but

you

you may perhaps safely consider the charge per Ton per Mile on the Railway as not more than 9 pie but I may observe that in carrying goods this very short distance by rail the actual cost of movement becomes almost a secondary consideration the cost of loading and unloading becoming a very important element in this expense.

It seems to me that the cheapest mode of carrying the Salt from the present platform to the boats would be by common Carts - of course when Salt intended for exportation is first brought from a distance - then stored on a platform - and then again moved to the boats - the nearer those platforms are to the place of embarkation the more economical will such process be.

2. On the 2d June 1854 a letter was addressed by me to Captain Hilliard Superintendent of Police at that Cantonment Communicating to him the Board's orders relative to Arrack Shops, it not having been intended by me to make any change as regards the Toddy Shops. On the 15th July last Captain Hilliard wrote that he had let the Toddy Shops also for one year and I allowed the arrangement to stand Copies of these letters are now sent.

according to the usual practice to open four Shops for Palmyra Toddy Captain Hilliard demurred to register these Shops on the ground that the Petitioners had rented the exclusive right of vending Toddy at the Cantonment. This led to the Correspondence noted in the Margin which terminated in rejecting the Petitioners claim for the reasons set forth in the letters from my Special Assistant Mr Chamier dated 10th February and 6th of March, copies of which are annexed Petitioners then threw up their Contract which was relet at a daily loss of Rs a. p. 2. 4. Sir

In reply to your letter of the 23d Instant, I have the honor to state that in recommending to the Board of Revenue that the Sale of Arrack and Toddy licenses at the Mount should be conducted in your Office. Mr Stokes contemplated nothing further than that the Durkasts should be received and the Security bonds taken in your presence and then forwarded to his Office. All other matters in Connection with these Contracts must necessarily be disposed of in this Office. I have therefore the honor to request that if appealed to again by the Contractors, you will direct them to make their representations as heretofore direct to this Department.

Vencatachellam Moodelly must be well aware that the revenue from Palmyra

Palmyra Toddy Shops has always been distinct from that derived from those licensed to sell Cocoanut Toddy. The prolongation of this Correspondence has created much difficulty in the Collection of the Government dues, the Contractor having taken occasion from it to refuse payment of his daily instalments. It is therefore of much importance that he should be told to look entirely to this Office for the disposal of any representation he may have to make on the Subject of his Contract.

Sir,

In acknowledging the receipt of your letter of the 1st Instant, I have the honor to state that with every desire to do justice to the Arrack Contractor, I am unable to discover upon what grounds he lays claim to a privilege

privilege never enjoyed by his predecessor.

No mention is made in the Correspondence alluded to in your letter of the particular description of Toddy because the subject then under consideration was simply whether the farm should be put up to yearly Competition or be allowed to remain in the hands of the former Contractors upon the same terms as before provided they had fulfilled all their engagements and shown themselves deserving of the privilege.

2. As stated in my letter of the 10th Ultimo the issue of licenses for the manufacture of Palmyra Toddy has always formed a distinct source of revenue. The manufacture itself is also totally different being carried on only for a few Months at a particular season whilst Toddy from the Cocoanut Tree is made all the year round.

3. No allusion whatever is made in the Contract signed by Venkatachellum Moodelly to the sale of Palmyra Toddy

Toddy nor is there any expression contained therein which would lead to the supposition that it formed part of the farm let to him. It is true that the daily rate he has agreed to pay Viz. Rupees 6-4- is higher than that paid last year for Cocoanut Toddy which was Rupees 5-4-8. but the excess amounting nearly to a rupee may have been the natural result of the farm having been put up to Competition.

4. I have the honor in Conclusion earnestly to impress upon you the necessity for directing the parties interested in this matter to look entirely to this Department for the Settlement of their claims without your cooperation it is impossible that the subject can ever be brought to a termination and every day that this result is deferred a portion of the public revenues is being sacrificed.

The Board also wish you to give a detailed statement of the prices in each of the ten years included in your average as well as in any other years between 1219 & 1232 for which you are able to fill up the hiatus left in Mr. Mellor's statement. The Board be more particularly glad of any information regarding the state of the Markets for agricultural produce in the period immediately preceding the reduction of Assessment ordered by Government under date 20th September 1820.

3. From the information before it, the Board observe that prices after some wavering seem to have fallen decidedly to a lower level since 1236, though occasionally rising to their old heights in an unfavorable season. If you are aware of any affecting agricultural produce which came newly into operation about 1235/36, the Board will be obliged by explaining them.

Sir,

Parat

I have the honor to acknowledge the receipt of the Extract from the Proceedings of

of the Board of Revenue under date the 28th of May 1855. annexing Copy of a letter signed Edward Porter, complaining that he has not received grants of land in six villages &c. I beg to state with reference to the Board's Proceedings dated the 20th November 1854, accompanied by an Extract from the Minutes of Consultation dated the 31st of October, wherein it is stated that the Collector shall allot to Reverend Mr. Porter on behalf of the Society to which he belongs such space in each Village as may be necessary for the purpose of a School and Schoolmaster's house to be held so long as it may be so appropriated, I have searched the records of this Office and cannot find any application from Mr. Porter as above stated in the six Villages mentioned in his letter to the Board. There may have been petitions from his Catechists or others for portions of land in order to erect a School, but these applications were not attended to as the grants are distinctly stated to be in the name of Mr. Porter on behalf of the Society

to which he belongs. Had Mr. Porter applied to me publicly under the above Minutes of Consultation his application would have met with a due compliance - but as no such letter has been received no steps have been taken to afford the grants in question. The Reverend Mr. Clay belongs to the Society for the propagation of the Gospel has &c settled in the neighbourhood of those Villages as the Clergyman and teacher - he has applied to me for assistance several times which was immediately afforded, and Mr. Porters application would in like manner have met with prompt compliance had such an application been made.-

2 With regard to that portion of land in the Karloonttah talook which was given by the Sub Collector and entered in the Puttah of P. David, I beg to state that this is a portion of the most valuable land in the Village and the leviable assessment is Rupees 8-3-4 upon one and a half acre, the whole number, of which this is a portion was proposed for by another ryot for cultivation, who agreed to pay the assessment, and as the Puttah is made out in

in Y. David's name, he is charged with the full assessment on account of its occupation, this is perfectly in conformity with the views of the Revenue Board who objected to grant remission upon a portion of land situated in Cuddapah, upon which not only was the residence of a clergyman of the Church of England who performs service in the morning at the Cantonment and reads the afternoon service in Cuddapah. On this piece of ground is not only the residence of the Clergyman but on it there is an English and Vernacular School. I think it here not altogether out of place to mention that before grants are given, some arrangement should be entered into that not only should School be erected but that they should be properly supervised. and in the case of Mr. Porter I think this is the more necessary as that Gentleman only last year left the flock over which he has pastoral charge in Cuddapah to take care of itself at the commencement of the hot season and did not return until the end

end of October or November after an absence of nearly six months, passing this time in the cooler climate of Nuddenpully and Bengalore. Under such circumstances Schools cannot be properly supervised and it would be as well that some arrangement should be come to that they should be examined personally at least once in four months, two months intervening between each visitation.

To the Reverend E. Porter ...

Sir

Your letter of the 17th May 1855 to the address of the Members of the Board of Revenue was forwarded to the Collector of

of Cuddapah, with instructions to grant small portions of land in the several villages specified, in conformity with the orders of Government dated 31st. October 1854.—

2 The Collector replies that in the absence of any application from you for the lands in question, he has taken no steps in the matter, but is prepared to do so on your preferring an Official request that the lands may be made over to you.—

To The Collector of Cuddapah.

Sir,

In reply to your letter of the 11th Instant No. 64, I am directed to remark that having received the orders of Government to make over small portions of land for educational purposes to the Society which Mr. Porter represents, you might without

without waiting for a direct application from that Gentleman, have intimated to him that you were prepared to give the lands on his pointing out the sites he required. The Board have now requested him to apply to you Officially for the purpose.—

To Mr. Porter 27th June 1855

2 As regards the land in Coil-cuntalah the Board are of opinion that whether good or bad, no assessment should have been charged upon it after it had been made over for the purposes mentioned in Extract Minutes Consultation of 2d November last. The Board view with disapprobation the steps taken by the Tahsildar to collect this assessment, and if he acted on the occasion without first applying to you for instructions his conduct calls for notice and reprehension on your part.—

3 As the recent order of Government is founded upon new and general educational arrangements the Board do not perceive any similarity between this case and the

the previous application for a piece of land in Cuddapah to which you allude.—

4. The opposition of the Talook servants and Villagers to the Establishment of the School is apparent enough, and the Board regret that you should however unintentionally have given it any countenance.

Bd No. 1716
From the Chief Secretary to Government } Extract from the Minutes of Consultation in the Revenue Department dated 14 June 1853.

Read the following.
Extract from the Proceedings of the Board of Revenue.—

(Here enter 31st May 1853 No. 1352.)

The letter from the Resident of Travancore and Cochin 12th April last, was referred to the Collector of Malabar for report through the Board of Revenue by an Order dated 24th idem. but from an oversight the order was not communicated to

Fort St. George 28th June 1853.

to the Board.—

2. It will not however be necessary to refer the matter to the Board. From what is stated by the Resident it appears that by the conditions on which the Cotiadully farm at Angengo was rented to the Travancore Sircar in 1847 the revenue arising from the sale of Tobacco was to form part of the farm. and that in consideration of the Monopoly in this article and of Salt and Spirits a certain sum is yearly paid by the Sircar to the Company.

It is admitted by the Collector of Malabar that under such circumstances the case of the Cotiadully farm is parallel to that of the Tangacherry farm near Quilon. and that the same facility as is given in the one instance for

for preventing the storing &c. of Tobacco not provided by the Travancore authorities, should be afforded in the other.—

3 To this the Right Honorable the Governor in Council assents, but he remarks that although as Tangacherry and Cotadully were rented to the Travancore Sircar before the Tobacco Monopoly was abolished in the Company's Territories the terms of the Lease should in both cases be observed until the rents expire, yet that he cannot hold out to the Travancore Sircar any prospect that the monopoly of Tobacco will be allowed to form part of any future Lease for either place.—

To

J. Pycroft Esquire
Chief Secretary to Government
Fort St. George.—

Sir,

I have the honor to enclose for your perusal a letter to my address from the Government of Pondicherry, regarding a quantity of Cigars (which I understand to be 250 to 3,00,000, and of the value of it about Rs. 1,000 to Rupees 1500) to be forwarded to the French Army serving in the Crimea, and on which I have been requested to apply for a remission of Duty.—

I beg that the above application may be laid before the Right Honorable the Governor in Council, whose favorable consideration I trust it will receive.—

From the Commissioner Northern Circars

Sir,

Doubts having arisen as to whether the new Form of advertisement for the sale of arrears of Revenue is intended to apply to Ryotwar Balances only or to those of permanently settled Estates also — I have the honor to state that the former is the view adopted in this Office, and that the Sale advertisement of settled Estates will be, as heretofore, in the Form prescribed at page 67 of the Circular Order Book. —

B. No. 1458
From the Acting Collector of Nellore

Returns duly rectified the two Statements regarding the Garden Assessment of the Surveyed Villages and hopes to avoid as far as possible the occurrence of similar errors in future. —

I have the honor to acknowledge the receipt of your letter of the 26th Current pointing out some errors in the enclosures of my letter of the 26th Ultimo and returning them for correction. —

In reply I beg to state that I have had
2 the Statements carefully revised, and to enable the Board to see the extent of the corrections required the errors have been rectified in red ink. In class 30 Statement A the sheet on the ayacut, is Rupees 162-4-0 instead of Rs. 102-4-0 The extent of Cultivation in class 36 is acres 69-35-12¼ in lieu of 90-35-12¼ whilst that in class 38 is acres 96-2-13¾ instead of 69-2-13¾ The first error necessarily caused the corresponding difference of Rupees 60 in the Total ayacut sheet referred to in para 3 of your letter, but I am unable to perceive the other discrepancy pointed out as regards the Assessment on Wasteland as shewn in Statements A and B- the total in both of which come to the same amount Rupees 14470-11-7 —

3 I much regret that these errors, which I find to be errors not of calculation but of the Copyist / the original Tolgoo Accounts of the Duftar Cutcherry being perfectly correct / should have put the Board to any inconvenience and to the delay of a reference back to this Office, but I hope to be able to avoid, as far as possible, the occurrence of similar irregularity hereafter. —

Ordered.

Bd's No. 1648

Order thereon

15-16

Ordered to be recorded. The Board observe that the alterations required to be made in the Statement shewing the Ayacut Cultivation and waste of Bagayet Lands in Nellore, submitted to Government with their letter of 26th May 1855, are of such a nature as to affect the total results merely to the extent of a few Coontahs, and they therefore dont think it necessary to address Government again on the subject. The Board's Office Copy of this Statement has been corrected in red ink.

Read.

Proceedings thereon.

Reviewing the Report on the Settlement of the Land Revs. of the Cuddapa District for Fusly 1263 Calling for explanation in respect to the remission entered in Column 33 of Statement No. 17 sent with the Summabundy report and enquiring whether Seerwah was Collected on the land down with American cotton seed.

17

Read again letter from Collector of Cuddapah Reporting on the Settlement of the Land Revenue of that District for Fusly 1263.

The district of Cuddapah felt the drought which so extensively prevailed in the Fusly under Review throughout the presidency. The consequences were a decrease in the land under Cultivation, Remissions to the extent of Rupees 20,274 for withered crops and a dear grain market, but as these particulars have been embodied in the Boards general Report it is unnecessary to dwell on them here.

The Board observe with Regret that the season was unhealthy, thus increasing the difficulty which the poorer classes of the population experienced from the high price of food.

The net Beriz amounted to Rupees 19,59,013 being a decrease of Rupees 25,591 below the preceding year. The total demand, including extra Revenues and Sevoy Summah consisted of Rupees 22,93,205, and shows a decrease of Rupees 2,11,245 in Comparison with the previous Fusly. The Collections within the Fusly amounted to Rupees 22,52,797 of which

Rupees

Rupees 22,11,715 were on account of the current demand. Under the adverse nature of the season the settlement and realization of the revenue is are deemed by the Board to be satisfactory, and to reflect credit on Mr. Murray and his Subordinates officers.

3. No irrecoverable arrears are outstanding for Fusilies previous to 1262. In Para 58 Mr. Murray recommends for sanction an arrear of Rupees 2026-1-6 which appears incapable of realization and the Board will include this Sum in the general Statement of arrears for writing off which they are about to request the authority of Government.

	Rs	a	p
Land Revenue	1701	1	10
Extra Revenue Sewoy Summah	324	15	8
	2026	1	6

4. Under the head of Sincarry there is a Small balance of Rupees 40-0-0 which will be collected hereafter and the Board observe with gratification that no sales of land or personal property took place for arrears of Revenue in the Fusly under review.

5. In comparing the Commutation prices entered in Statement 6 with those in the Statement of the previous year the differences noted in the margin is observed. The Collector is requested to state how this disparity occurred, and to explain how the Commutation prices entered in this Statement have been ascertained. A slight discrepancy is also remarked on Comparing the abstract Statement of prices affixed to Para 22 of the Collector's Report and the monthly price lists, which should be avoided hereafter.

	Punjah	Poonjah
According to Statement of 1262	75	143
Do. of 1263	106	231
Difference	31	88

	Rice 1st sort	whole
Monthly list	224	339
Report	226	349
Difference	2	10

6. It is also observed that the total extent of land cultivated with various products is given in the Statement attached to Para 22 at 16,07,169 acres while the Dittum engagements as shewn in Para 25 Consisted only of 13,71,558 acres. The difference doubtlessly arises from Some fields having been cultivated more than once with different descriptions of produce and thus Coming twice or in Some cases

cases even more frequently into the account but it is advisable to add an explanatory footnote on this point hereafter.

7. In examining the particulars of the waste charged to the Ryots amounting to Rupees 65841, it appears that the practice followed Regarding Wyphat Dowle is not always Similar. A Sum of Rupees 31 under this head is brought to account in the Sub collector's Report as "Waste charged to the Ryots," while in Column 7 of Statement No. 11 it is mixed up with "land left waste notwithstanding the existence of water" a uniform System of entry should be adopted hereafter.

8. Mr. Murray is Requested to explain the Remission entered in Column 33 of Statement No 17. as Separate provision appears to have been made in the Cowlenamah Rules for clearing the lands of Jungle.

9. The Board Regret to find from Para 40 and 41 of Mr. Murray's Report that the trial made of American Cotton Seed did not answer. The experiment was made in 100 Villages on 57 acres of land

and utterly failed owing to "deficiency of Rain blight and other Causes" except on half an acre in the Doroor Taluk and there the produce was insufficient to Remunnerate Cost of Cultivation. The Collector Remarks that the Repeated failure which have occurred in trying American Cotton Seed has impressed the Ryots with an opinion that the climate of the District is unsuited to its growth. He is requested to State whether Cotton was collected on the land where the Seed was Sown this year and if not under what head it was Remitted.

10. In the table appended to Para 30 of Sub Collector's Report the number of Shotriem Villages is entered as 37 while Statement No 1 Contains only 33. This difference has probably arisen from the omission in the latter Statement of 4 Villages which appear to be entirely Rent free. It is therefore necessary to point out that Statement No 1 is intended to include Sarva Manieum or Rent free Villages, but the number of such Villages should be shown in

in an explanatory foot note

11- The Board appreciate the attention which Mr Murray has given to the subject of Village accounts, but abstain from offering an opinion on the books sent by him as he will immediately receive new and detailed forms prepared under the superintendence of the Revenue Secretary to Government for use in his District. He can address the Board again if after receiving these forms Receipt books should be wanted, or any other deficiencies Remain to be supplied.

Bd No 1675

From Revd C Porter Caddapah

Gentlemen

Forwarding letters No 1 addressed to the Collr of Cuddapah complaining of the unjust proceedings of the Kilcauttak Tahsildar towards a catechist on account of certain kists demanded by the former but disputed by the latter and No 2 being Mr Murrays reply declining to stop the Hasildars proceedings and requesting certain information in respect to the order of Govt for the allotment of certain waste land for school purposes

I have the honor to forward you by Bearer (P David one of the Catechists of the Cuddapah Mission) his letters for your perusal No 1 A Copy of a letter which I forwarded to Mr Murray Esq. Collector of this Zillah, on the 4th Instant complaining of certain violent and unjust proceedings of the Tahsildar of Koilkoontlah towards the Catechist on account of certain kist which the former said was due but which the latter disputed on the grounds contained in my letter No 2, Mr Murray's reply to my petition in which he declines to interfere to stop the proceedings of the Tahsildar, and calls upon me to pay the kist which he says is due for a piece of land devoted to school purposes in the town of Koilkoontlah

I have now to state for your information that Mr Murray replied to my letter without examining the Catechist who was present or even enquiring whether he had any evidence to give in support of the statements contained in the communication All the statements contained in that letter the Catechist is prepared fully to substantiate by good evidence in the presence of any of the Members of the Board

I now write especially for the decision of the Board on the following point and shall feel much obliged by your favouring

Fort St. George 28th June 1855

favouring me with a reply as soon as possible.

1 Was the order transmitted by the Government through Board of Revenue on the 31st of October last year to the Collectors of Cuddapah and Kurnool for the allotment of certain waste lands to Mr. P David for school purposes/in village mentioned in his letter of October last/ was the allotment to be made free from tax, or was it to be taxed at the usual rate? Mr Murray considers that the language of the Board is indecided and therefore supports the Tahsildar in suing the Catechist for the tax to the amount of Rs 8-3-4 a D 4 I fully understood the language of the letter transmitted to me by the Board, to be - that the lands were to be granted free in consideration of the object to which they were devoted So also did Mr Daniell of Kurnool C. who wrote a letter to me in December last saying that he had given orders to the

Tahsildar

Fort St. George 28th June 1855

Tahsildar of Nundial to point out a suitable piece of ground in the village of Poloor to be set apart for school purposes. I received no similar letter from Mr. Murray, nor was I aware of his having received it - until his allusion to it in his letter of June 5th If this chief point be decided by the Board there is an end to the dispute between me and Mr. Murray should the Board decide in my favour it will be necessary to issue another letter to him - explaining in clear and unmistakeable terms that all such lands are free from tax in consideration of the purpose to which they are devoted

2 There are a few minor points on which I should be glad to receive the opinion of the Board - 1/ Has a Sub Collector when on Summabundy power to grant puttahs for waste lands to any applicants for the same provided the latter have a good claim to such lands This points is denied by Mr. Murray in

Fort St. George 28th June 1855

in his letter. It is important to know whether such a statement is correct or not 2/ Has a Tahsildar any power to strain for land tax before the holder of the Puttah has been in possession of it for 12 months? 3/ Has the Tahsildar any power to resort to such violent proceedings on a Sunday - a day held sacred by all professing Christians 4/ are waste lands when newly taken up to be taxed at the same rate as those which have been under cultivation for some time - 5/ Are lands for building taxable at the same rate as those set apart for agricultural purposes.

Hoping you will oblige me with information on these several points

To

M. Murray Esqre
Collector

Sir,

The Bearer of this is a Catechist Stationed at Koelkountlah, and has the superintendence of the School and the native Christians in that town. I am sorry to inform you that he has some serious charges to make against the Tasildar of that Talook which I shall feel obliged by your examining into, and granting him the satisfaction which is just. —

He Complains.

1st. That the Tahsildar has been for the past 2 months troubling him for Rent to the amount of Pa 3 a 0 for a piece of ground which was granted by the Asst. Collector in December last for school purposes. In accordance with a letter which I received from the Secretary to the Government in December last, such ground was to be granted by the Collector free of Rent. —

2d. That the Tahsildar has represented to you in a letter (of which he the Catechist has a copy) that he is a Ryot instead of a Teacher - and that the ground in question was under cultivation which is not the case.

The

Fort St. George 28 June 1853

The grounds in question was obtained for the purpose of building a School Room and a house for the Teacher for which purpose it is now used.—

3d That contrary to the Circar & regulations, the Tahsildar has by means of his peons put up an auction notice in front of the Catechists house, threatening within a certain time to sell all the goods in his house, in order to obtain rent for the above grounds.

He did this on the Sunday, in order to annoy him and the rest of the christians.—

Hoping that you will put a stop to such violent and unjust proceedings.

Sir.

I have been favored with your letter of the 4th Instant and shall endeavour to reply to the different assertions therein set forth as they stand in the communication above referred to.

In

Fort St. George 28 June 1853

In the 1st complaint you state that "the Tahsildar has for two months past been troubling your Catechist for rent of a piece of ground granted by the SubCollector for school purposes." The SubCollector has no authority whatever to give any grant for any purpose whatever, and this piece of land was proposed to be cultivated by another party paying the rent fixed upon it, and according to the rules of the district, assessment is due upon the said land. You further state that "you received a letter from the Secretary to Govt. in Novr. last, intimating that such ground were to be granted free of rent (with a dash under the word free) as it was set apart for charitable purposes." you have no doubt read the said letter with due attention and consideration, and would not have quoted it had not such been the fact. On referring to a Communication received from Govern-ment thro the Board of Revenue dated the 31st of October 1854, which I suppose to be the letter you refer to, I would beg to call your attention to the 1st para, wherein it is stated the subject of grants in aid is at present under the Consideration of Govern-ment, and the Revd Mr. Porter's application

will

Fort St George 28th June 1855.

will meet with due attention Vz. and D in the 2d. para it is mentioned that the Collector will allot to Mr Porter on behalf of the Society to which it belongs, such space of ground as may be necessary for the purposes of school and D school-master's house to be held so long as it may be appropriated. From this it would appear that Government had not decided upon giving any free grant of land for school or other purposes but that it was then under the consideration of Government. Should you have received any other communication I request that you will favor me with a Copy of the same, as none was forwarded to me by Government, which would probably have been the case, had a free grant been given to you or to any of your Catechists; and you will further perceive from the 2d para of the above letter, that the land cannot be in the name of one of your Catechists, but must be entered in that of your own name on behalf of the Society to which you belong. Any land which any of your people propose for, will be entered in their names and tax D charged upon it.—

In the 2d Complaint you state that "the Tahsildar had represented to you in a letter that he (the Catechist) is a pyat instead of teacher, and that the ground in

Fort St George 28 June 1855

question is under cultivation, which is not the case" with a dash under the words not the case. It is to be regretted for the correctness of the above statement, that the Tahsildar had not done so. He represented, that other parties had given proposals for this piece of ground, which is only a portion of a number who agreed to pay the tax upon it, and great objection was raised to the 2nd Collector granting the pottah in the name of P. Daniel— As it was entered in his name, the tax was to be charged upon him whether he cultivated it or not; as other ryots agreed to do so, this I need hardly add is a very different addition of the story to that advanced to you by P. Daniel.—

In the 3d Complaint you state that contrary to the Circular regulations, but do not state, which (I request you will do so), that the Tahsildar has by means of his peons put up an auction notice threatning to sell all the goods in his (the Catechists) house for rent not due. I have already shown that the rent of this land is due and that it would have been more in accordance with the

spirits

Fort St. George 28 June 1855

spirit of the religion which you teach to have paid the assessment at once and appealed afterwards and in the latter part of your Complaint you add that "not satisfied with this act of injustice he caused the notice to be put upon the Sunday on purpose to annoy the Catechist and the rest of the Christians under his charge" this Statement I cannot in the least credit, but when your Catechist appears before me I shall examine him upon the point on solemn affirmation as to the orders issued by the Tahsildar to the peon deputed to affix the said notice.

Under these circumstances unless you can show to me that you have a free grant from Government for this piece of ground I have no authority to permit the tax and shall take the necessary steps to Collect the Government due particularly as the Board of Revenue in a similar case have declined to permit the assessment upon a piece of ground on which not only a Telugu but an English School

school was erected as well as the residence of the clergyman.—

written before the receipt of yours address of

Sir,

My letter of yesterdays date

the 8th June, and which I am now desired to acknowledge, will have informed you that the Collector of Cuddapah is prepared to issue grants in your name for unoccupied land, rent free in accordance with the orders of Government dated 2d November 1854, on your officially applying to him for that purpose.—

2 The land assessed in Coolcount: will be granted to you upon these terms but I am desired to point out that much alleged inconvenience and annoyance would have been prevented had your Catechist satisfied the demand, and appealed subsequently

subsequently against the levy as prescribed by the Regulations.

3 The Board must decline replying to the hypothetical cases put by you at the conclusion of your letter.

4 If questions arise on any of the points there referred to they must be discussed with the local Revenue authorities, and if subsequently brought in Appeal before the Board a decision will be passed upon them.

From the Collector of Cuddapah

Sir,

I have the honor to report for the information of the Board of Revenue, that the abkarry of the different Talooks constituting the Zillah of Cuddapah for Fasly 1265 were offered for sale by public competition separately on the 21st Instant, and knocked down to the highest bidders, which I recommend may be accepted as the accompanying Statement shows an increase of Rupees 4995 above that of the preceding Fasly. The renters are all men of substance and prepared to make the usual deposit and furnish good and sufficient security for the regular payment of their Kists.—

Proceedings thereon. It does not appear that provision has been made in the Abkarry Rents for Fusly 1265 for the termination of the succeeding Fusly on the 30th June 1856. The Board however confirm the Rents entered in the Statement which accompanies the foregoing letter amounting to Rupees 127, 128 and authorize the Collector to place the renters in possession of their respective Farms, and to make a suitable deduction from their Rents in consequence of the change made in the end of the Fusly reporting the amount for information.—

Do Do Do

5 Coodoos Summud enam

Two documents are produced in support of the title to these lands one marked J by whom written is not known, and the other marked V. addressed by the renter of the enamity Tax in the year 1835 to the Reddies and Curnums of the Talook Sirwell, intimating that the Summuds of Purwut Shastree had been examined relieving him from the Enamity tax.

It is evident that no Summuds were forthcoming at that period for Purwut Shastree allows, that he never possessed any, stating they were lost at a very remote period, and it seems more probable, that owing to the local influence he possessed that he was relieved from the Tax, by the authority of the renter alone. In the absence of valid documents to support his title there are no grounds for relieving him for the future from the Enamity tax, though it may not be necessary to enforce payment of the outstanding balances.

The title to the lands in this village is alleged to be supported by documents A. B. C and R.

Charitable grant.

The name of the original grantee is not known but there is every reason to believe that the present holder (Vencatadree) is a lineal descendant of the Conda Josee mentioned in Document C.

Mudun Candy 6 Coodoos Dry and 2¾ Pylees Wet land.

Conda Venkatramawah Chance me field of one Coodoo has been since resumed as it was found to have been exchanged for a less profitable one originally held by the enamdar and 1 Coodoo and 3 Pylees Wet land.

There are no Jamin Jada accounts, but in the accounts given by the Curnums in 1251 is entered 1 Candy 7 Coodoos Dry land survamed Conda Venkatadree son of Conda Josee.

There is no doubt that the present holder is a lineal descendant of the family of the Aginikotri Brahmins referred to in Takeeds A. B. and C. and for the reasons stated in the remarks (No 1) in regard to the Enams held by Purwut Shastree in this Village I recommend the exemption of the Tax.

The following documents have been presented by Purwut Shastree in support of his Title to certain Enam lands and claim to exemption from Enamity Tax.

A. A Sakeed bearing the signet of Nawab Bahadoor Khan dated Hizeree 1141 or 1725. It is directed to Dhondee Amildar of Ghazeepoor (Nundial) desiring him to give up the produce of the Enam land of Purwut Shastree, and six other Agnihotri Brahmins, and not to interfere with the produce in future.

Note. The names of the Villages in which the Enams are situated or the extent of the Enams referred to is not mentioned. The Purwut Shastree mentioned in the Sakeed was the grandfather of the present holder.

B. Sakeed also bearing the signet of Bahadoor Khan dated Hijire 1148 or 1732 addressed to Amildar Hufsein Khan, directing him to release the produce of the Enam lands of Purwut Shastree and the other Agnihotri Brahmins and to take care that Complaints on the same subject are not again made to the Hoozoor.

A

C. A Takeed bearing the signet of Nawab Rummust Khan the date illegible. It is addressed to the Amildar and Reddies and Curnums of Cusbah Nundial, directing them to observe the orders of the former Nawabs, and not to interfere with the produce of the Dry 2 Crop Wet, and Garden Enam lands of Mulla Shastree &c. son of Purwut Shastree, or with their Rufsooms from the Sayer Collections. There is also a Post-script directing the same or less to supply to the Enam lands of Conda Jasee but this appears to have been subsequently added possibly with the purpose of strengthening the claim of Conda Jasee.

The 8th on the original is an interlineation and coming between the name "Sastree" and the word "Sons" is inappropriate giving it the appearance of having been subsequently inserted to support the claim of Soobee wah Sahee and others whose names are not entered in the document.

D Takeed without name seal or date addressed to the Reddies and Curnums of the Village of Bookka-poorum. The purport is, let Mullah Shastraloo cultivate the Enam wet field said to be in your Village.

B. No. 1618

Proceedings thereon submitting with the Board recommendation a letter from the Agent at Hurnool forwarding a Tabular report of the Claims to exemption from payment of the Peishcush tax preferred by certain individuals in his District

Dated 10th instant 25th October 1848.

Resolved that the letter above recorded be submitted for the Consideration and orders of the Right Honorable the Governor in Council.—

2 In his settlement report for Fusly 1257 Mr. Phillips the late agent at Hurnool brought to the notice of the Board the fact of certain balances appearing periodically against Enamdars which were disputed by the parties by some on account of their passessing Takeeds of undoubted authenticity issued by the former rulers of the province relieving them from time to time from liability

liability to any revenue demand by some, because the Enamity assessment entered against them was originally so entered in terrorem as a means of reforcing a correct and faithful discharge of duty and by others because the Enams were assigned as compensation for services rendered to the state. Mr. Phillips suggested that these balances should be finally struck out as it had been found necessary to remit them periodically and that in preference to continuing some of the grants on their present footing it would be desirable to ask sanction for the Enamdars a specific remission from the revenues of the Village

3 The Board in para 7 of their Proceedings on the foregoing report 11th June 1849 remarked that as it appeared that similar demands had been left out standing on account of former years the agent should submit a separate report showing the particulars of the disputed titles where necessary in the usual form and soliciting

sanction for writing off all the arrears due in each case, by which means it was observed the doubts on the several claims would be finally set at rest.—

4 The Statement now submitted is in pursuance of these instructions. It embraces 67 Enams, the consideration of which involves the claims to exemption, of the following parties.—

1 Purvat Shastree 5. The individual is the holder of 22 of the Enams. Mr. Daniell states that from the sunnuds A. B. and C. produced by him, there is no doubt that his family held Enam lands in the Mundial Talook on grant from the ruling power upwards of a century ago, but that it is not ascertainable from those documents in what Villages those Enams were situated or what their extent was. From the fact however of the document C. being addressed to the village Officers of Cusbah Mundial he supposes that the Enams must have been situated exclusively in that

that Cusbah, and accordingly recommends that the tax on those only should be remitted but levied on all the others, the rule of the District not allowing exemption in any case, unless the title to it is clearly supported by documentary proof, whatever the length of possession may be. As regards the arrears that have accrued from Fusly 1257 to the end of Fusly 1263, amounting to Rupees 6540 — 6 — 5, he suggests that they should be struck off.—

6 These views differ from those expressed by Mr. Phillips, in para 10 of his report before referred to. Mr. Phillips seemed to consider the claims of the Enamdars good, and hoped that he might be authorized permanently to remove from the accounts, items which figured in them for no other purpose than to be periodically remitted, and which therefore, he thought ought at once to be finally struck out.—

7 Mr. Phillips' judgment was founded on the fact that similar claims had in previous years, been allowed by his predecessors, and that the present Enamdars

Enamdars had been in undisturbed enjoyment for a long time, but the Board think that the principle adopted by Mr. Daniel is the proper one, under the circumstances of the District, where it is well known that Enams were profusely granted, and with no intention of continuing them in perpetuity.—It must also be remembered that the imposition of the Enamity tax does not altogether destroy the character of the grant, but merely requires from the holder, a payment equal to about half the regular assessment of the land, so that the tenure will still be a favourable one.—

8 For the reasons above stated, the Board concur in the opinion of the agent that the Enamity tax may be imposed upon all the Enams held by Parvut Shastry, with the exception of the first in Cusbah Mundial, and that the balance appearing against him in the public accounts, Viz^t. Rupees 6540 — 6 — 5 for Fusleis 1257 — 1263, may be remooved.—

2. Conda Josse Venkatadree
3. Soobhavadhanee

9 These individuals are entered in

in the Statement as the holders of 13 and 5 Enams respectively, the balances against them to the end of Fusly 1263 being Rupees 125–8–4 and Rupees 133–13–4. Mr. Daniel observes that there is no doubt that these persons are lineally descended from the Agnihotri Brahmins referred to in Jt Reeds A.B. and C; but for the reasons already explained, he recommends that the Enamity tax may be levied for the future upon all the Enams entered against their names, with the exception of the first in each instance, and that all the balances be remitted, per recommendation, in which the Board fully concur.—

4 Currums of Paniem

10 There are six Enams entered as belonging to the Currums of this Village; some of these are subdivided into portions, though classed as Service Enams, and are enjoyed by different members of the same family, one of whom only is considered as the "Mijsul" or the Currum in actual employment. Mr. Daniel recommends in regard to these holdings, that

that the Enamity tax should be levied from all the Shareholders except the one performing the duties of the Office, and that the strictly Service Enams should not be allowed to be Subdivided. The Board concur in these recommendations. On the death of the Phyre Mijsuldars, their shares should lapse, except such portion as is required to afford the Mijsul Enamdar an adequate remuneration for the Service performed. In case No. 6, it is further recommended, that the share lapsed by the death of Yellapah may be resumed and Enamity imposed on the other shareholder.—

11 The balances outstanding against these currums for the past years; Viz. from Fusly 1257 to Fusly 1263, amount to Rupees 1156–10–1, for the removal of which from the public accounts, the sanction of Government is solicited.—

5 Currums of Yelgode

12 Of the eight Enams entered under this head, four are held by parties actually discharging the Office

office of Cumum, and the remainder by individuals who have ceased to do so - In the case of the former, it is recommended by the Board that the Enamity tase may be relinquished, and in that of the latter, that it may be imposed for the lives of the present incombents, after which the grants will be resumed they being no longer appropriated to the object for which they were originally assigned.—

13 The balances appearing en against the Cummums of Yelgode amount to Rupees 500-9-8, which it is recommended may be remitted.—

6 Mookamulla-pah Kistah Reddy

14 The last case embraced in the Statement is that of Mookamullah Kistna Reddy who was not in possession of the Enam when the County was assumed, but to whom it was restored by order of the late Commissioner Mr. Blane, pending further enquiry— As the grant is stated to be unsupported by documentary proof of any sort, the Board concur in the Agents' proposal for

for its resumption, and for the arrears outstanding against the above individual, viz: Rupees 84, being finally struck off.—

15 The entire amount of balances of the past Fesliés / from 1257 to 1263 / for the remissions of which the Sanction of Government is requested is Rupees 29,40-15-10.—

16 In the instances in which the Board have recommended the levy of the Enamity tase, it is their intention that the question of continuing this privilege, or resuming the Enams should come under consideration on the death of the present incumbents.—

From the Collector of Chingleput } Sir,

The Estimate of charges for additional Establishments for Fasly 1264, submitted to you by my Predecessor under date the 28th. September 1854, not having been as yet sanctioned by the Board, the greater number of Extra Servants therein proposed have not been entertained, but only a few whose Services were indispensably necessary, and whom it was usual so to employ.

With reference to the manufacture of Salt now going on at the Pans, I have the honor to request the Boards immediate attention and Sanction for the Extra Establishment noted in the margin × whose Services are absolutely necessary to prevent illicit practices and smuggling to the great detriment of the Public Revenue. The Statement of actual charges on account of additional Establishments in the Fasly about to expire will be transmitted as usual with the Estimate for

2 From the Summary which accompanies this case, the Board are satisfied that the grant is

Fort St. George 28 June 1855

is of a hereditary character. It was entered "for life" in the statement submitted to Government with their Proceedings of the 10th March 1851 as that was a Copy of Mr Grames's Register. The remark in Para 7 of the Proceedings that "the titles given to the Dehat Enams in Mr Grames's Register and the terms entered in that document are precisely the same as those given in Mr Bourdillons two lists," is incorrect, as both in Mr Strattons List and in Mr Grames's Register, the Enam is entered as a Life Grant. In Mr Bourdillons List, the Grant is included, and the Board think correctly among the "hereditary" Enams, and they therefore recommend that the lapsed allowance may be renewed in the name of the son of the late incumbent from the date of the latters death. -

Sir,

In accordance with the views expressed by the Board, in an Extract from their Proceedings dated 31st August 1854, it has been customary in this District for the Civil Engineer

Fort St. George 28th June 1856

Engineer & his numerous Department, for the Sub Collector and Head Assistant and their Departments, & for the Collectors Cutcherry when on Circuit, to draw the whole or such portions of their Salaries, as they may require from the Talook Cutcherries on written orders by the Collector, Specifying the amounts required.

2 The Collector alone has been in practice excluded from participating in the advantages of this arrangement, and has been obliged to incur the risk of having sent to him from Chittoor whatever sums he may require, when on Circuit, at the peril of those employed to convey the money. This last consideration alone would seem to render it advisable that the Collector should be permitted to draw such small sums as he may require when on Circuit, not exceeding 100 or 500 Rs. from the Treasury of the Talook in which he may happen to be.—

3 I have therefore, the honor to request the permission of the Board to draw when on circuit such small sums as I may require from the Talook Treasuries.—

the Board's Circular orders, dated 11th March 1852. It will be seen from the Plan of the buildings that they provide good accommodation for S. Brahmins and Soodras but very confined space for the other castes. The rooms marked X the Board think should be enlarged so as to afford reception to the native community not included in the two castes above mentioned. The Choultry it is stated, has been substantially constructed.

3. The cost of the construction of the Choultry is estimated by the Maramut Superintendent at Rupees 4,530, and the monthly expenses of supplying Travellers resorting to it with wood, Oil &c. will amount to Rupees 10.

4 As the Choultry will be a great convenience to all classes of Travellers on the Trichinopoly Road, and as there are no immemorial waste lands in the Peddaruppumputty village, the Board recommend that on the Mootahdar engaging to make the proposed

3. The Board also recommend as proposed by the Collector the remission of the assessment, amounting to 1Rs. 10 leviable on 1 acre and 8 annas of Poonjah land on which the buildings have been erected.

Adverting to an Endorsement dated

of 1855 addressed to the Board of Revenue by Pakany Pillay

Fort St. George 28th June 1855

dated 3d March last, on Petition No. 394 of 1855 addressed to the Board of Revenue by Pakany Pillay brother of the late Moorayia Pillay Curnum of Pythumpara village in the Namacal Talook in which the Board call for further explanation with reference to Mr. Conways endorsement dated 15 March 1851 and to the Petitioners allegation that the Curnums office has been in the enjoyment of his family since 180.

I have the honor to state as follows:

2. The Petitioner prays that the office of Curnum which had been held by his family since 180 may be restored to him; and he states that Mr. Conway the Collector, recognized his right to the office in question, but never appointed him to it as he was under

Fort St. George 28 June 1853

underage at the time.

3. From the records it appears that at the time the Salem District came into the hands of the British Government one Anady Nattuna held the Cummum's Office, and that he remained in it till Fusly 1210. In Fusly 1211 the name of the Petitioner's Grandfather's brother, Valayooda Pillay, appears in the accounts, but there is no documentary evidence to shew under what circumstances he was appointed. From an enquiry made by the Tahsildar of Namacul in 1848 it appears, that on the death of Anady Nattuna in Fusly 1210, his two sons Poreyanachary and Coopanachary, alias Salumbanachary were minors, and that the aforesaid Valayooda Pillay, belonging to a different family, was appointed

Fort St. George 28th June 1855

appointed to the office with the consent of Mottummal, the widow of the deceased Cummum. The Tahsildar has sent a Muchalika which gives the foregoing particulars.

From Fusly 1230 to Fusly 1239. Moraga Pillay, the elder brother of the aforesaid Valayooda Pillay, was registered as Cummum, the duties connected with the office being conducted by his son Coopanoottoo Pillay. Moraga Pillay was dismissed from office by an order from the Collector, dated 31st May 1830 (Fusly 1239), on a charge of having concealed cultivation; but was restored by an order from the Board, to whom he appealed in the subject. Moraga Pillay held the office until his death, which occurred in Fusly 1244.

In Fusly 1248, the cummumship was registered in the name of Moraga Pillay, a Minor the

the Grand-son of the late holder, the office not having been bestowed upon Coopromootoo Pillay, the son, and the next heir to the deceased, in Consequence of his having had a share in the concealed cultivation, and the duties of the office were performed by one Mooka Pillay, as the Gomastah of the registered holder. In Fasly 1237, Moorega Pillay died and Mooka Pillay absconded after concealing cultivation to the amount of Rupees 670 — and has never returned. One Ven-=catarawien was therefore appoint-=ed on behalf of Government as acting Curnum.

6. Under orders of Mr. Conway in Fasly 1260 enquiry was made for the heirs of the deceased Curnum Moorega Pillay, and it was found that Coopromootoo Pillay, his father, was alive, but was not fit to hold the office as he had concealed cultivation on a former occasion, and was suspected of having aided

aided Mooka Pillay, the absconded Gomastah, in concealing cultivation to the aforesaid amount of Rupees 670 — — that the Petitioner Palany, who is the second son of Coopro-=mootoo Pillay was a minor, and was therefore then unfit to be appointed, that there were two Grand-sons of Andy Nattum the Pymash Curnum or his son Davey-=anachary's side, but that the Curnum Merasy had not been held by that family for many years. On these grounds it was decided by Mr. Conway on the 15th March 1851 that the heirs of the Pymash Curnum should not be appointed, but that the Petitioner's claim should be recognized on his attaining his majority, if his qualifications and conduct were such as to make him a fit person to hold the office.

7 Davaroyanchary, and Coopuna Chary, alias Sambana chary, the two Grand-sons of Pymash Curnum Andy

10237

Fort St. George 28th June 1853

Andy Nottum, and the Petitioner Palany Pillay, preferred an appeal to Mr Phillips who decided on the 18th September 1852, that the two first named persons, as the legal heirs of the Pymash Curnum Andy Nottum, who held the office till July 1810, had the best title to the Curnumship, and that the elder of the two brothers, viz, Davaroya Chetty who was 37 years of age should be appointed. In accordance with this decision Davaroya Chetty was appointed and is now in possession of the office.

B. No. 1626
From the Collector
of Sea Customs

Sir,

I have the honor with reference to

to my letter No. 113 dated 28th ult. in May last to state that the yard became so crowded there was no stowage for the Goods remaining on board the Vessels. That no alternative but either to leave the goods on the Beach or provide cover for them and have accordingly rented the godowns noted in the Margin from time to time in which to stow them. These are now all filled and I have applied to the Commissariat General to allow me to stow some Beer in the godowns behind Abercrombies Battery. This he has kindly permitted and even with this assistance I shall not be able to provide room for the Cargo on board the Vessels now in the Roads. The Ship "Hope" is hourly expected and if she comes in in a day

1st May 1853. 6 Godowns at 10 Rs per Month 60

day or two I shall have no alternative but to apply for the Tents and put a line of them in front of the Custom House and stow the cargo in them. The inadequacy of the stowage room for the commerce of the Port has now been demonstrated.

2. I have the honor to solicit that you will obtain the sanction of Government for the monthly outlay. I shall give up the godowns from Month to month as they become emptied. As however 6000 Casks of Beer left England in march last there seems but little prospect of my being able to give them up at an early date.

Proceedings thereon, Resolved that the letter above record-ed be submitted for the orders of the Right Honorable the Governor in Council.

In

2 In consequence of the crowded state of the Custom House yard, the Collector has been compelled from time to time to rent Godowns in which to store the Goods landed from the Vessels in the Roads Even with the accommodation thus afforded and the use of some Godowns obtained from the Commissariat Department Mr. Underwood states that there will not be sufficient room for the Cargo of the Ships now in the Port, or for that of those shortly expected from England and points to this fact to show the inadequacy of the Custom House buildings to provide accommodation for the Commerce of the Ports. Under these circumstances, the Board recommend as a temporary measure, that sanction be granted for renting 13 Godowns for storing Goods at an aggregate monthly charge of Rs. 124 from the dates they were rented by the Collector.—

3 On the proposition in the Collectors letter of the 28th May forwarded to Government with Board's Proceedings 11th June 1855 to charge Godown rent from the date the Goods came under cover the Board remarked that they would wish to take the opinion of the Chamber of Commerce, as to the measure suggested, before any alteration in the existing practice was determined upon but as the Collector has found it necessary to hire extra accommodation for goods imported he may be directed, the Board, think to take at once the views

of

of the Chamber upon this proposed plan and submit rates of Godown rent for the sanction of Government.

Bd. No. 1638

From the Chief Engineer Department of P. Works } Gentlemen.

I have the honor to acknowledge the receipt of your Secretary's letter of the 11th Instant and in reply to state that the Boundaries of the whole of the Zemindaries are not marked in the Atlas sheets but of such as are defined their areas have been computed, as requested in the 28th Para of your letter to Government viz. "noting separately (if the Boundary is laid down) the areas of the large Zemindaries" &c. and as was stated by me when submitting the Statement of areas to the same authority. Viz. "the areas of such of the Zemindaries, as have their Boundaries laid down have also been computed."—

† 24th Augt. 1854 No. 392

* Vide letter 13th April 1855 No. 125

2. As in Vizagapatam and Rajahmundry there is a difference in the results between the plotting of the Board's Office, and my own Return, I shall feel obliged by your informing me, whether the computation was made by the frame, and whether the area of Vizagapatam was computed to the extent published in the Sheet - Map

3. The area of North Arcot includes Congoonoy and the Board are also aware that changes have recently taken place

Fort St. George 28th June 1855

place between the areas of Chingleput and N. Arcot which materially alter their original areas.

4. All the Districts have been computed by the frame. The Districts of North and South Arcot and Chingleput were particularly mentioned by me in reply to the Board's enquiry in letter to Government Viz. "by what method the areas were computed especially those of North. Arcot and Chingleput."

18th May 1855. No. 1190

5 It would render the Atlas sheets more useful, if Collectors with the aid of the Civil Engineers were to mark off the changes in their Dis=trict Boundaries, as also to show distinctly the Boundary of each Talook and Zemindary but this ought to be carefully done - and I doubt if the Civil Engineers can well spare time to attend to this and further. it might perhaps be considered as an interference with the peculiar functions of the Surveyor General of India

6. The Suggestion for using thick tracing paper divided into squares for computing areas may answer, but a serious objection to this is that, the paper is liable to be injured and destroyed by having to frequently remove the pencil marks, and by other causes, while the wooden frame is free from these and other objections, so only that it be carefully used and so as not to slip.

7 A frame divided into inches and tenths would certainly

Fort St. George, 28th June 1855

certainly be exceedingly useful for computing areas, and for a Stationery Office, I cannot but think that meshes of five wires representing any superficial unit that may be wanted, must be considered preferable to thick tracing paper, which latter however for the Surveyor in the field, would answer better, as being less cumbrous, and more manageable.

To the Chief Engineer
Letter June 55
1538

To, The Chief Engineer

Sir, In reply to your letter of the 20th instant, I am desired to inform you that the plotting of the Districts of Vizagapatam and Rajahmundry in the Boards Office was not made by the frame, but calculated by two processes thus described in the Boards letter to Government of the 24th August 1854.-

The Board have taken the Map from the Quarter Master Generals Office, on a Scale of 32 Miles to an inch and on which the boundaries of the different districts are laid down.-

The methods were adopted to ascertain the areas. "Firstly a facsimile of the Map was made on drawing pa=per and each District cut out and weighed. A known superfices (of 100 Sq. Miles or a Square of 100 Miles each side) was also weighed and, thus the proportional area was obtained." "The separate cut out pieces, after being "weighed separately were weighed altogether, as a check upon "the accuracy of the separate weighings."

The

Fort St. George 28th June 1855

"The second method was to compute
"the areas by transparent squares of 1/100th
"Square inch, each square being equivalent
"to 10-24- sq- miles.

"The scale is of course too small
"for great accuracy, but there seems reason
"for proposing a more accurate re-com-
"putation by professional means
"which the Board do not possess. The
"Sheet Maps are 4 Miles to 1 inch,
"and this would give great accuracy, but
would require labor and skill."

2. The Board think that the experi-
-ment might be tried of forwarding the
Sheet Maps to Collectors, with a request that
they will, with the assistance of the Civil
Engineer, mark off as carefully as their
means will permit the boundaries of their
respective Districts, together with those
of the Sub Divisions and Zemmdaries.

3. The Board cannot suppose that
this attempt at correct representation of the area
of the several Districts would be any interfe-
-rence with the peculiar functions of the Surveyor
General of India."

Resolved that the following letters be despatched

Read

Fort St. George 28th June 1855

Read again letter from the
Inms 02 Dec 1853 Collector of Coimbatore dated 2d November
Bd No 1644 1853.
Proceedings thereon. In his Summahbundy
57 Report for Fusly 1261, para 48, the
Collector of Coimbatore brought to
notice that according to the Hookumnamah
of his district, when Nunjah land is
coverted into Dhrupyre or Orchard,
it pays, for the first 10 years, fixed
single Nunjah Crop rent only and
afterwards both single and two crop
rent, until the amount of the second
crop remitted in the previous ten years
has been fully recovered after which two
crop rent only is levied. He point-
-ed out the effect of this rule which was
to discourage the plantation of
Topes in a district where such
were greatly required and recom-
-mended that not only the recovery
of the amount remitted in the
first 10 years should be given up
altogether

altogether, but the period of assessment should itself extended from 10 to 15 years which would encourage the planting of Topes throughout the District.

Rec.d to Govt. & Coll.r 25th April 1853.

2. The Board in reviewing the Collectors report, entered into the history of the taxation of two crop Nunjah lands in Coimbatore on their conversion to Dhrupyre, and concluded by observing that as the rule which fixes the assessment on the land itself without reference to the crop is being generally enforced, and as the assessment where it is excessive is in course of reduction it did not occur to them that a temporary remission was called for to stimulate the cultivation of Dhrupyre. They would they said leave it entirely to the ryot to cultivate rice or Dhrupyre as suited his interests the fixed assessment of the land being

being collected without interruption.

From Govt. 28th June in Cons.s 18th July 1853

3 In noticing these remarks of the Board the Government admitted the principle laid down by them but observed that the only reason for allowing a temporary abatement was the ryots want of capital to bear the expense of planting the lands with the annual outgoing of the full tax while he has no income from the land in its transition state. They conceived that the obligation to pay even 2/3ds of the full assessment while there is no produce to meet the charge may possibly be more burdensome to a ryot of small means, than the paying of the full assessment with 1/3 additional to redeem the 10 years remission after the trees have come into bearing. The ryot could very probably then pay the full assessment with 1/2 additional to redeem a remission of 1/2 during the 10 Years. The Government would not therefore object to allow a larger remission say one half during the

the unproductive years and to permit the Ryot to hold at the full assessment for 5 years afterwards laying on the redemption charge at the expiration of 15 years when the trees will have come to full bearing.

4 On the views of Government being communicated to the Collector he replied after dwelling upon the desirability of encouraging the plantation of Trees and Timber, that if no more liberal terms can be conceded than those suggested by Government they would at least be desirable.

7 (25th Nov.r inflows 27th Dec.r/53

5 It appears to the Board that the question has lost much of its importance by the exemption from additional taxation recently granted to private wells, since any Ryot who now wishes to plant an Orchard would

would probably select a piece of Poonjah Land for the purpose on account of its lighter assessment and provide for its irrigation by sinking one or more wells. The Board hope that the District will gradually be stocked with orchards in this manner but if it should still be thought advisable to encourage the planting of trees on double crop Nunjah Land the present Board submit their opinion that the best measure to be adopted for the purpose is the one originally proposed by the Collector viz to allow the Land to be held on single crop teerwah for a term of 10 years and then merely to revert to the double crop assessment any endeavour to collect the amount of the second crop teerwah this temporarily abandoned would in the Board's opinion be

Fort St. George 28th June 1853.

be inadvisable as the sum would be considerable to Government and the attempt would embarrass the accounts and be attended with difficulty, besides leading to interference with the holder of the property in the part of the Palaverers Servants.-

6 The cause of the delay in the disposal of this subject has been explained in Enclosure A to Boards' letter under date 4th June 1853.
