Proceedings of the Board of Revenue

Monday the 19th May 1856.

Read the following Papers.

774

Bd No 883

From the Secretary to Government

Extract from the Minutes of Consultation in the Revenue Department under date the 25th February 1856.

Returning the papers connected with the Boards proposal for the entertainment of a small Survey Establishment for the District of Canara; and requesting them to draw up and submit a Statement of the Establishment in accordance with the views therein stated, in order to its being submitted for the sanction of the Government of India.

(See No 208 in separate Volume)

774-775

Bd No 7518

Didier thereon

Ordered that a copy of the foregoing Extract from the Minutes of Consultation of Government be forwarded to the Collector of Canara, with the request that he will alter the "Tabular Statement of the Survey Establishment proposed to be entertained in his District" which accompanied the letter from Mr J. N. Maltby dated 19th June 1854, so as to suit the views of

of Government contained. in para 8d of the present Extract Minutes Consultation and transmit the amended Statements to the Boards Office. for Submission to Government.

2 The Collector will observe that the Governor in Council is of opinion that an Establishment consisting of one Surveyor, Six Assistants of different grades and a Suitable Staff of Subordinate agents is sufficient for the objects in view. It appears to the Board that the Subordinate Agency may properly comprise twelves peons, Six at least of whom should be capable of rendering the Assistants effective Service after some time and when on detached duty. The total number of the Establishment would then be nineteen inclusive of the Head Surveyor.

Extract.

776

No. 120

B.d No. 982

From the Chief Secretary to Government

Communicating the observations and orders of Government as regards the mode in which the different accounts are to be prepared & furnished with reference to the proposed substitution of a monthly for the present annual audit of all accounts.

Extract from the Minutes of Consultation in the Financial Department Dated 20th March 1836

Read again letter from the Marine Board Dated 18th December 1835.

Read also the following papers —

From the Civil Auditor. (Here enter 22d January 1836)

From the Board of Revenue. (Here enter 17 " ")

From the Court of Sudr Adalut. (Here enter 8th February ")

12 The next of the letters recorded at the Head of these Proceedings is the reply of the Board of Revenue to the reference made in para 9 of the Extract Minutes of Consultation of the 22d of November last: The Board consider the proposed substitution of a monthly for the present annual Audit of the accounts to be very desirable, and they anticipate no difficulty in carrying it out so far as the Revenue charges are concerned.

13 With respect to the change

para 3 proposed by the Civil Auditor in the Lists of Establishments furnished to him

him by Heads of Offices, the Board consider it necessary that the names of Officers newly appointed &c. should be noted in the Abstracts or Lists annexed to them. The Government presume that this was so intended. It was meant that in the list required to be appended to the Abstract Bill of the Establishment, the Collectors should enter in detail all changes in their Establishment, whether of increase or decrease, the Sanction of Government authorizing the same being quoted in support thereof. In the same list will also be exhibited any less payments on account of absence or fees and Surplus payments on account of arrears of pay not drawn in previous months.

Para 4 & 5

11 The orders of Government on the Subject of the Saderward allowances both Revenue and Judicial, have already been communicated to the Board of Revenue and the Court of Sudr Adalut in paras. 2 to 4 of the Extract Minutes of Consultation of the 13th February No. 72. The Governor in Council sees no objection

objection to the Standard that may be fixed under those instructions being revised quinquennially as proposed by the Board.

para 6

15 The Government did not expect that it would be feasible to ensure the regular monthly payment of pensions or Yeomiahs in all cases. Many of the Yeomiah allowances are so small that it would be very inconvenient both to the recipients and to the disbursing Officers to adopt this course with respect to them but under the System proposed to be introduced, it will be quite sufficient for the Collectors to furnish to the Audit Office such a List as may be necessary to ensure a proper check over disbursements of that nature. The attention of the Civil Auditor is at the same time directed to the orders of Govt noted in the Margin, prescribing the course to be followed by Collectors in furnishing detailed Lists of Pagoda and Masque allowances, where there is no change in the Sanctioned Tusdeek or fixed payments on that account.

Ex: M: Cons: Rev: Department dated 7th October 1817 No 1097 paras 3.

para 7 & 9

16 As regards extra tent allowances

allowances to Revenue Officers, the Government observe that the Civil Auditor has only to see that Tentage is not drawn at higher rates than the party is entitled to draw under the Rules. and that the audit of these allowances by his Office is not intended to include any degree of control over the movements of the Collectors and their Assistants in the Provinces. As already observed, all that is needful for the transfer of this audit to the Civil Auditor is that the Rules for the regulation of extra Tent allowance should be made more definite and precise, and to this end they should be revised by the Board of Revenue. When this is done, the Civil Auditor will audit the disbursements on the above account in the same manner as he does similar charges in other departments. eg Travelling allowance to the Post Master General - batta to Servants on the establishment of the Inspector of Prisons &c but it is not requisite that the Statements should be furnished to his Office through the Board as suggested at the end of para 9 of their

their letter. Any control that the Board may be desirous of exercising over the movements of Revenue Officers may be maintained by means of a distinct Return for the purpose without any interference with the course of monthly audit.

Para 10. 17 With reference to the remarks of the Board regarding the reduction suggested in their Office Establishment; the Governor in Council requests that they will specify the several accounts which under the new System would have to be transferred from their Audit to that of the Civil Auditor, and through what hands they pass in their Office to enable the Government to judge to what extent a reduction can be effected in their Establishment in consequence of their being relieved from the work of Audit. The Government certainly do not expect it to be limited to the single writer who is stated to have been exclusively employed on this duty.

Para 11 & 12 18 The Government would only

only further remarks, in reference to the concluding observations of the Board that the introduction of the new Revenue accounts and of printing, and the employment of Uncovenanted agency, will greatly operate to lessen work in the Collector's Offices, and relieve them from much of the heavy duties now devolving on them, especially in the Department of accounts.

To The President & Members of the Board of Revenue

/True Extract/
/Signed/ T. Bycroft
Chief Secretary.

Ordered that the following letter be sent.

776-777

Bd. No. 1373.

To The Civil Auditor

Requesting to be informed whether the existing Extra Tentage Rules with the modifications herein proposed are in any respect wanting in precision & in this event to specify what portions would be made more definite and detailing the alterations which the Board would suggest

To The Civil auditor.

Sir,

With reference to Para 16 Extract Minutes Consultation F. D. dated 24th March No. 126, I am directed by the Board of Revenue to request that you will inform them whether the existing Extra Tentage rules with the following modifications are in any respect wanting in precision and that in this event you will specify what portions you would wish

wish made more definite.—

2 The rules will be found printed at Page 191 of the Boards Circular Order Book volume 1.

3 The rules regarding Fixed Tentage appear to the Board to be sufficient.—

4 As regards those for Extra Tentage the Board suggest the following alterations Rule IX. For "actually residing in Tents employed on the public Service." The Board propose substituting "actually employed on the public Service at a distance from his real Station or ordinary place of residence provided that he has his Tents with him." The object of the allowance is to defray the expences of Travelling on duty and so long as an Officer carries about his Tents for the accommodation of his cutcherry, it is unnecessary to Stipulate that he shall personally reside in them.—

The Board propose Rule X.

omitting this rule and substituting for it the following based on Note b page 90 Circular Order book volume II. —

"Officers employed on the public Service at a distance from their real Station or ordinary residence may draw the Extra Pontage of their rank while halting at one Station for 30 days — provided they have their tents with them. Should the exigencies of the public Service require a longer residence at one Station, the Board's Sanction must be obtained without loss of time."

Rule XI. The Board would suggest that the rule should end in the following amended wording "if they provide suitable accommodation for their Establishments in tents or in a convenient building".

Rule XIII. The Board would omit the last sentence stopping at the words Extra Pontage.

Rule XIV. This rule will require modification

modification when you have determined the form of Statement to be forwarded to you. —

To,
T. Pycroft Esqr.
Chief Secretary to the Government of
Fort St. George.

Fort William the 4th March 1836

General

Sir,

I am directed by the Lieutenant Governor to acknowledge the receipt of your letter No. 115 dated the 31st October last, requesting to be furnished with samples of the finest Bengal Indigo for certain agricultural Exhibitions intended to be held in the Madras Presidency during the present year. —

2 In compliance with the above requisition I have the honor by direction of

8192 Fort St. George the 19th May 1856.

of the Lieutenant Governor of Bengal to advise you of the despatch by the Peninsular and Oriental Company's Steamer "Nubia" of a box containing some samples of Indigo furnished by the Bengal Indigo Planters' Association.

3 The Secretary to this Association has demi-Officially intimated that there has been some difficulty in getting the Indigo required and that the box now despatched contains only two samples (i.e. cakes) of each variety, but it is hoped that full musters mentioned in your letter will shortly be procured.

4 The tables attached to each sample is said to furnish information as to the District in which it was manufactured. the factory mark and its present market value.

5 Enclosed is the Bill of Lading.

(Signed) W. Grey
Secretary to the Government of Bengal

To

8193 Fort St. George, 19th May 1856.

The foregoing letter will be communicated to the Board of Revenue, to whom the Box referred to will be sent, in reference to the last para of their Acting Secretary's letter of the 27th September 1855 No. 2507.

From the Secretary to Government

Extract from the Minutes of Consultation Revenue Department dated the 14th May 1856.

(790) Granting authority for the disbursement of Rupees 1000 to Lieut. Taylor of the I. N. now on survey duty in Canara, and resolving to apply to the Bombay Government for continuing his services until the completion of certain works in that District. — See No. 490 in separate Volume Pg 3

(790-791) Order thereon — Ordered to be recorded

No. 149

To G. S. Forbes Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

(792)

Sir,

Bd. No. 3209
From the Collr. of Nellore

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated 24th July last on the subject of the application of the Trustee of the Prasanavisumasamaradaumy Pagoda in Mypaud to be allowed to give up the Cundrega now in his possession and receive in lieu of it the

the Vassilairoo Cundrega lately resumed by Government.

2 With the view of avoiding the inconvenience of re transferring the resumed Cundrega, the Board suggest the adoption of one of two other modes Viz.t either that a rateable deduction be made from the Jode on account of the 10 Gortoos of land reported by Mr. Pattiff to have been injured, or that an addition of land of equivalent value be made to the Enam. The latter plan is not feasible there being no eligible land available in exchange, whilst to the former the Trustee does not consent, alleging that besides the 10 Gortoos of land reported as having been injured, the Cundrega Lands generally have much deteriorated since the great floods in Fusly 1262; and that consequently the Pagodas income from it amounts at present to but 30 Rupees over and above the Government demand. He therefore requests either that the present Jode may be reduced to one half of its amount, or that the Vassilairoo Cundrega be restored in lieu of the Gungapatam Cundrega under discussion

Referring

Referring to the original Talook report the extent of the Gungapatam Cundrega land rendered unfit for cultivation is given at 12 Goortoos, 10 Goortoos previously under Cultivation, and 2 of arable waste. If this latter is also included, the assessment on the entire Extent would amount to Rupees 229-8-9 and the rateable deduction computed on these 12 Goortoos would be Rupees 94-5-3 which will leave the future demand at Rs 575-13-9

	Goortoos			
Assessment on 10 of wet land		196	11	10
—— Do. —— on 2 of arable waste		32	12	11
Total ——		229	8	9
		Rs	a	p
Present Jode ——		670	3	-
Proposed reduction ——		94	5	3
		575	13	9

Vide Extract from the Minutes of Consultation 9th August 1853 Para 4

(the present Jodi being Rupees 670-3-- and not 700 Rupees as stated in the Board's letter, the proposal to raise it to 700 Rupees not having been acceded to by Government) and I beg to recommend that this arrangement may be sanctioned.

Nellore Collector's Office 1st November 1856

(Signed) F. B. Elton Collector

Fort St. George 19th May 1856.

Bd. N. 1517.
Proceedings thereon
(792-793)

As the Trustee does not consent to the proposed arrangement the Board cannot apply for the sanction of Government.

2. Considering the small extent of land injured the Board consider that the concession proposed by them sufficiently meets the case, but if on a careful examination of the land by trustworthy agency the Collector is satisfied that the Cundrega does not in ordinary seasons bring in the assigned income, Viz^t Rupees 184 they will be prepared to recommend that the difference be made good by an equivalent reduction in the Quit Rent.

* i.e. the difference between the Sodi and proceeds as declared by the incumbent

Bd. No. 285.

From the Collector of Cuddapah.

Forwarding the annual report and the Statements relative to the Settlement of land revenue in the District of Cuddapah for Fasly 1264 1854/55.

Sir,

I have the honor to report upon the Settlements of both the land and Extra sources of revenue in the district of Cuddapah for Fasly 1264 1854-55. and to forward the usual Statements connected therewith.

2 The Settlement in the Principal division was commenced on the 21st November 1854 and completed on the 30th June 1855. Agreeably to the circular order of the Board of Revenue under date the 3d October 1853, two of the three talooks, which constitute the Sub division Viz^t Doopaud and Cumbum, were Settled by me, the settlement of Railcountah and Poolevendalah in the Principal division was entrusted to the Sub Collector Statement No. 1 which accompanies this report, will particularize the names

of

Fort St. George, 19 May 1856

of the different Officers by whom and the Stations and periods at which the Settlement of each taloork was completed.

3 The following Statement shows the tenure under which the whole number of villages Viz.t 2,015 together with 8,714 hamlets are held.

No.	Mode in which the Settlement was formed	No. of Villages	No. of Hamlets
	Ryotwar Settlement		
1	Circar	1586	7861
	Anna Shotrium	208	74
	Total	1774	7935
	Shotrium		
2	Held for three generations	2	2
	Ditto paying a fixed Jody	144	47
		146	49
3	Surva Enam gaghere villages	25	33
4	Motursa villages	2	4
		27	33
	Total Amany villages	1947	8017
5	Poonganoor paying a fixed Peishcush	68	697
	Grand Total	2015	8714

The

Fort St. George, 19 May 1856

1 The talookwar particulars of the above villages and hamlets are shown in Statement No. 1.

3 The subjoined Statement exhibits the description and number of the different works of irrigation in the district; the talookwar details thereof are shown in the quinquennial Statement No. 3.

No.	Description of Works.		No. of Works.
1	Tanks		5,447
2	River Channels		457
3	Spring Channels		877
4	Anicuts		23
5	Wells.		
	Old wells	22,441	
	New Do dug at the Expense of the ryotts	16,274	
			38,715
	Grand Total		46,519

6 The number of Ploughs, cattle &c.a made use of for agricultural purposes, the number of nyots and puttahs, as also the extent of population are

are exchibited in the following Statement.

No.				
1.	Ploughs		"	83,426½
2	Cattle used			
	Cows	2,17,935		
	She Buffaloes	1,19,356		
		1,12,719		1,79,370
3	Ryots		"	144,835
4	Puttahs		"	133,622
5	Population			
	1 Adults	9,36,777		
	2 Children	5,15,144		
				14,51,921

7 The particulars of both taloo kwar and of different items will be seen in the enclosed Statement No. 2 and its enclosures A and B.

8 The holdings of the cultivating ryotts range between Rs. 10 and Rs. 1,000 and upwards, and the number of ryots holding puttahs is 120,674 as will be seen in the accompanying return No. 3, which shows the amount of rent paid on each class respectively.

9 The season on the whole may be considered to be generally more favorable

favorable than that of the previous Fusly, altho unseasonable rains throughout the district were experienced.

10 From the rain which fell in June and the beginning of July, some of the Tanks and small reservoirs received water varying from 1/4 to 1/2 of a full Supply, which afforded opportunity to the ryots to plough and sow their red and mixed lands. In some localities wet cultivation was undertaken, as far as the means of irregation permitted. Subsequently by the intermediate rains which fell between the latter end of August and November, the tanks in most places received supplies, which enabled the ryots to continue their Carteiram and Syalam cultivation. The rains experienced in September were very favorable for bringing under culture the black land and other descriptions of dry throughout the district, which are generally sown with Cotton, Chitta Jonna and other Species of grain; this rain was also beneficial to the crops previously sown.

11 The following Statement shows the State of the tanks with respect to supplies of water received in Fasleis 1263 (1853/54) and 1264 (1854/55).

Fort St. George 19 May 1836

12 In some places the dry crops sown in red and mixed lands perished, owing to the very partial and deficient falls of rain at the time when most required, and to the utter failure of rain for some time between July and the end of August, but in others the yield may be averaged at below half of a full harvest.

13 The Cholla Jonna crop sown in black land was injured to a considerable extent, by the unfavorable rains which fell whilst the grain was forming in the ear; this rain produced insects and blight which destroyed the ears attacked and greatly reduced the quantity of grain which a short time previously promised a favorable return. In some places it yielded only one quarter, but in most of the localities the yield may be reckoned a little below one half of the usual return, while in others it proved more favorable. The different kinds of pulse is considered to have yielded a better return than that of the previous fusly, or about ½ a full harvest.

14 Cotton and Indigo products were

deficient

Fort St. George 19 May 1836

deficient in some localities, and in others the yield may be considered equivalent to an ordinary one.

15 The garden crops under wells Viz^t. Jonna, Raghee &c. yielded in general a full return throughout the whole district. Lands under some of the tanks and channels yielded below half of a full harvest, on account of the deficiency in the means of irrigation caused by small tanks which received a full supply and which induced the Ryotts to cultivate a disproportionate quantity of land under them in anticipation of future supplies and by some of the large tanks receiving only a partial supply, the ryotts were induced to cultivate a larger quantity of land than the water under the hopes that other supplies would be received, which proved deceptive, and by the irrigating channels supplying a less quantity of water for irrigation than the crops required, on account of the want of rain for the last two years. In others the yield may be computed at from ¾ to a full and the average of the whole 10/16. The sugar cane cultivation however was abundant and productive.

16 The season throughout may be considered as healthy one both as regards human life and cattle; Cholera prevailed till September when it ceased. Fever has not been prevalent

to

to any extent, but the people and cattle suffered considerably from the scarcity of food and fodder caused by the high prices of both, during the last two seasons. —

17 With regard to vaccination I regret to state that there seems to be amongst some classes more so amongst the higher, a particular objection to have their children vaccinated, the cause of this I have not been able to learn neither have I been able to persuade the ryots that their objections were groundless and that vaccination was instituted by Government purely for their advantage. I think it would be advisable were the Local Superintendent of vaccination, from time to time, to visit some of the taloks where the vaccinators are stationed, examine the rosters, ascertain the cause of the objections which have arisen in the minds of the people and exert himself in removing such objections by personal conference with them. A circular order has been issued that such visitation should take place, but up to the present time he has paid no vaccine visitation to any of the stations in the Principal Division beyond the town of Cuddapah. The number vaccinated in the Zuely under review is 2888 9. —

CR

The

18 The Dresser attached to this Collectorate has been very diligent in rendering assistance to those who Required and came for medical advice, he has been successful in the treatment of fevers, severe long standing ulcers and other complaints Common in the district - The number treated by him during the Fasly is 202 and that vaccinated is 1664 Children -

19 Subjoined is a Statement which shows the prices of the principal Kinds of Grain during the last 10 years with a Comparison between the Fasles 1263 & 1264 and between the latter and the average of five years as also the extent of land on which these Crops were Raised -

20 It will appear from the above State-
-ment that the prices of all species of grain rais-
-ed higher in the Fusly under Review in Comparison
with the former and with the average of the five
preceding years. This is attributable to the
unfavorable nature of the Season and to the
prevalence of Scarcity during the preceding
and the present years which added to
the exportation of grain to some extent
to the four neighbouring districts esclus-
-ted the large quantities stored under
ground and in granaries by the wealthier
Ryotts and merchants - the prices in Conse-
-quence Ruled very high -

21 On a Comparison of the extent of land
Enumerated in the foregoing Statement with
those showing the Settlem and the extent of
land actually Cultivated entered in paras
22 & 26 it will appear that the quantity of
land entered in the former is greater than that
specified in the latter, which is attributable
to the lands belonging to the Poonganoor talook
the enam lands of the whole district and the
extent of land which was Cultivated with a
second crop having been included in the statement of the prices of
grain Vizt

22d The annexed Statement shows the Extent & description of Lands
agreed to be taken up for cultivation, as well as the assessment thereon
with a comparison between the past and the preceding Fusles.

As per Collector's Register

As per Collection of the Current Fasly

Fort St George 19th May 1856

23. Lands which had been left waste for a series of years were excluded from the settlement in Fasly 1263 (1853/54) in Conformity with the instructions Conveyed in the Extract from the proceedings of the Board of Revenue under date the 18th October 1852, and in the year under Review a Certain extent of land which was so left waste for some years past, has been struck out of the preliminary accounts, as the merits of the case Required. There has been however a subsequent increase in the extent of land liable to Assessment and consequently an

Fort St George 19th May 1856

increase in the Bagayet Lands dependent under old wells. The increase in the two former items is ascribed to the more seasonable Rains which fell during the present than in the preceding year, and that in the latter item is owing to a larger quantity of lands of this description having been taken up, Consequent on the scarcity which generally prevailed.

24. The annexed Statement exhibits the extent of land left waste in whole numbers and the assessment thereon for which Remission was granted.

Fort St. George 19th May 1856

27 From the foregoing statement it will be apparent that there has been an increase in all descriptions of land actually cultivated as well as in Tarrunjaety and Fussoolgaety owing to the season being more favorable -

28. It being considered advisable to exhibit more explicitly the extent of dry land cultivated with garden crops by means of water from new wells the quantity of land thus appropriated has been separated from the whole extent of Cadarumbum or dry land, and shown accordingly in a separate Item both in the foregoing Statement as well as in that of Settlem.t from which it will be seen that the extent of land cultivated under new wells exclusively is 43,400 acres upon which only the dry appropriation is levied exempt from Remissions -

29 - The subjoined abstract Statement exhibits the particulars of Remissions withheld from the Ryots during the Current and the preceding Fusles Consequent on their having left their lands waste without sufficient Cause Viz.a the Talookwise details of which are given in the accompanying Statement No. 11 -

Fort St. George 19th May 1856

Showing Remissions

Established Remissions

Fort St. George 19th May 1856

37 The decrease in the items Nos 1 and 2 has been occasioned by remissions having been granted, in the Fusly under review to a smaller extent of shamelat — bunjer and loss of crops according to the circumstance of the season —

33 The increase in the items Nos 3 and 5 is owing to cultivated lands in Cumbum and four other talooks having been inundated by the filling of the tanks, the beds of which had been sown, and to the Poryamalee lands having been brought under cultivation on cowle tenure, and that on the remissions granted to several others items from No. 6 to 28 to the increased extent of cultivation of these descriptions of lands. The net increase under this head is shown to be Rupees 20903 — —

34 Subjoined is a statement — which shows the extent of Indigo, Cotton and Sugar cultivation during Fusles 1263/1853/54 and 1264/1854/55 —

35. There has been an increase in the extent of land cultivated with Indigo, Cotton and Sugar cane. The number of Acres cultivated with Indigo and Sugar for the Fuslyjanly which has hitherto been omitted has this year been included in the accounts.

36. The demand for Indigo for foreign exportation has been very great and is annually on the increase, this induced the ryots to sow their lands with Indigo seeds instead of grain, as it affords a better remuneration than any species of grain, and they can at pleasure either receive advances for their crop or dispose of it to the manufacturers and in some cases the wealthier ryotts have an Indigo vat and manufacture Indigo from the leaf grown in their own farms as long as this demand continues, it is to be hoped a larger quantity of land will be annually brought under cultivation with this species of produce. The demand for bills upon this treasury has within the last few years risen from 5 to 17 lacs, and I feel satisfied that this is not sufficient to meet the demand for money required by the merchants this I attribute very much to the increased growth of Indigo.

37. The quantity of Sugar cane cultivated in this Fusly has not deminished, but since

since the abolition of the granting of certificates, there is no means of ascertaining the quantity exported. The number of sugar manufactories in use during the fusly is reported to be 262, being 5 above the number entered in the Extra Revenue report of Fusly $\frac{1263}{1853/54}$.

38. The cause of the number of acres entered in Column 4 of the above statement being greater than that given in Column 19 of statement shown in para 19, is on account of the total extent of land cultivated with all descriptions of products, inclusive of those which have not been specified in the latter statement, such as sugar cane, Baregaloo, Chamaloo, Alasun, dalos, Ellagesa, Coosoomoolos, Castor and Gingely oil plants vegetables, mustard, and several others not having been enumerated in the former.

39. The cultivation of American Cotton during this season has entirely ceased, on account of the disappointments the ryotts have experienced in the non-productiveness of this commodity. In my former report on the settlement of land revenue, I explained the cause of the decrease in the cultivation of American Cotton, and the same reason explains why the culture has now ceased.

40. The particulars of the demand under the head sey. Jamah in the Fusly under report, referred to in para 51 V of the demand collection and balance of the Current and previous fuslies of all items, together with the details of the same being recoverable or otherwise, alluded to in para 53 of this report have been fully explained in the accompanying statements Nos 23 and 24.

41. The following statement shows the net beriz. for Fusly $\frac{1264}{1854/55}$ in comparison with the preceding

							Net Increase	179239	

Fort St. George 19th May 1856

46. The increase in the amount of collections of item No. 1 is owing to a portion of the Peishkush appertaining to Fusly 1263 which remained outstanding at the close of that year, having been collected in the Current Fusly, that in No. 2 is ascribed partly to a considerable amount which remained uncollected in Fusly $\frac{1263}{1853/54}$ having, this year been realised, and partly to the demand under this head being greater in Fusly 1264 $\frac{}{1854/55}$ that in items Nos. 6-9-11 and 12 is on account of the demand under these sources being larger, and that in No. 8 has arisen from the outstanding arrears under this head having been Collected—

47. The decrease under the heads Nos. 3-4 & 5 has been occasioned by the rents derivable from the

Fort St. George 19 May 1856.

these sources having fallen short during the Current Fusly, and by a larger outstanding balance having remained uncollected upto the termination of the Fusly, and that in No. 7 is ascribed to a portion of the amount recoverable on the Zuft Enams under the head Sevoy Jamah and on the Enams of the suspended village officers not having been collected within the Fusly, in consequence of these accounts having been closed immediately prior to its expiration. The small decrease under the item No. 10 does not call for any particular remark.

48. Subjoined is a statement which shows the settlement of all items in the Fusly under review, compared with the preceding one.

Peishcush

		Grand Total of all the items	2293205	2462558	180574	11221
				Net Increase	169,353	

49. The increase in the item No. 2 is, as has already been explained on account of the more favorable circumstances of the season, that in No. 6 is owing to a greater quantity of Stamps having been purchased by litigants in the Fusly under review, that in No. 7 and 9 to the amount of Rupees 324, being the collections on the enam lands belonging to the ruined Pagodas &c., which have hitherto been entered in the accounts under the head deposit, having this year been transferred to the head sevoy jamah, and to a larger sum having been collected on the enams of village servants by fines imposed upon them and that in No. 11 is on account of the larger sum of fines and penalties having been collected by the Judicial tribunals and the sale of a considerable number of unproductive and dead trees. and the increase in No. 12 is ascribed to the several items of revenue forming the Bagur Veesabady having been carefully examined.

50. Altho there has been an increase of Rupees 2523 under the head "abkarry" in Chenna-

†Cumbum
Doopaud.
Budvail
Yummulmudgoo
Goorramcondah
Muddenpally
Pooleevendalah
Poonganoor.

and five other talooks, yet a considerable decrease of Rupees 6500 in eight other †talooks as shown in the margin is apparent. In these last mentioned talooks there has been a large increase in the previous Fusly on account of greater competition, but in the present there has been a falling off in consequence of the losses the renters sustained in the preceding year and the unfavorable nature of the season, whereby a net decrease of Rupees 3977 is shown. The amount of settlement under this head appears however to be on the increase when compared with the average amount of the ten preceding years and is on a par with that of the five previous. The decrease in the renting of topes is owing to the failure of fruit in the different Orchards and that in the items redwood &c. to the less demand for this description of timber and in Palmira to a fewer number of trees having been purchased. that in No. 5 some of the Moturpha ryots having been reduced in circumstances and others emigrated on account of the difficulty experienced in maintaining themselves and families, occasioned by the high prices of grain during the last two years, and that in No. 8 has arisen from there being no arrears amount of tufferic from the previous fusly. The small decrease in item No. 10 does not call for any explanation.

†Average amount of 10 preceding years for 5 preceding years exclusive of Fusly 1265. Title of 5 preceding fuslies &c. 118.342 / 12.2.110

51 The Particulars of the demand collection and balance of fasly 1264 / 1854/55 are shown in the undermentioned statement.

8238 Fort St George 19th May 1856.

52. The outturn of the harvest both with regard to the wet and dry crops may be estimated at less than an ordinary yield, but what has been produced has been of an excellent quality and remunerative on account of the high prices. In addition to which many of the ryotts have enjoyed the benefit of new well & tank cultivation, which has increased the quantity of grain produced and enabled them to take advantage of the high prices which have ranged throughout the year, & this has facilitated the collection of Revenue & without coercive measures such as distraint of property &c. being resorted to. In consideration of the deficiency in the harvest, every indulgence was granted to the indigent ryotts who actually deserved it in the collection of public

Fort St. George 19th May 1856

public revenue, whereby a larger sum will appear to have remained outstanding at the close of the Fusly in comparison with the former; a greater portion of which however has since been realised. Of the amount of balance shown in Columns 7 such portion as is recoverable will be collected and in respect to the residue, which may be proved desperate, necessary enquiries will be instituted during the time of the annual settlement of Fusly 1265. 1855/56.

53. The following is a statement which shows the details of arrears outstanding in all sources of revenue.

Fort St. George 19th May 1856.

54. The Fuslywar particulars of recoverable and irrecoverable balances of all items are given in the accompanying Statements Nos. 23 and 24. The sum entered in Columns 11 of the foregoing statement amounting to Pdts. 2032 —7—1 being considered desperate, I beg to request that the sanction of Government may be obtained for striking the same off the accounts.

55. No coercive measures such as the distraint of puttah lands, personal property &c. of the ryotts were resorted to in the Fasly under review for the collection of public revenue.

56. The total outstanding balance under the head Tuccavi or advance made to the ryotts, including the amount of Rupees 20 advanced in the previous Fasly, amounts to Rupees 223—12—" of which Rupees 3—12—2 having been subsequently collected leaves a balance of Rupees 220. Of this Rupees 20 —s form a portion of the sums advanced to certain ryotts in Camalapoor talook for repairing and clearing out an old well and the remaining sum of Rupees 200 was advanced to the ryots of Kemillagondi in the Sidhout talook, to assist in enabling them to clear the Payamalee lands, which had been covered with river sand during the floods of 1852, and which must have remained waste until the sand had been removed, which was from one to five feet and upwards in depth. This will however be collected with interest in accordance with the instalments specified in the agreement entered into by them.

57. Subjoined is a statement which shows the charges incurred in the management and collections on account of the revenue, charitable and religious allowances &c. chargeable against the revenue, and the proportion they bear respectively to the gross collections, to which statement the following explanations refer in numerical order.

Items 1.

8243.

8245

Fort St. George 19th May 1856.

1 In conformity with the Circular orders of the Board of Revenue under date the 28th May 1855, directing that the Fusly be concluded by the 30th of June the salaries of the Collector and his subordinates for June amounting to Rupees 3,988—14—3 were not charged within the Fusly. There is a decrease under this head of Rupees 4,666—10—8 the arrears of salary of the late Collector Mr. Forbes appertaining to Fasly $\frac{1262}{1852/53}$ which was charged in $\frac{1263}{1853/54}$. There has been an increase in the disbursement of salaries of the Head Assistant and Assistant Collectors arising from their having drawn their full allowances throughout the Fusly under review, which was not the case in the year previous, yet there has been a net decrease of Rupees 6,339 for arrears above advanced.

2. The new disbursement of deputation allowance to any of the officials during the Fusly accounts for the decrease under this head.—

J.G.B.

8246

Fort Saint George 19 May 1856

3 The decrease in this item is owing partly to the Extra tent allowance of the Assistant Collector Mr. H. M. S. Greame amounting to Rs. 4 17 6 not having been charged to this Collectorate, and to Mr Forbes fixed tent allowance not having been adjusted in the accounts within the Current Fusly.—

5 The decrease under this head has arisen from the salaries of the talooke servants for June not having been charged within the Fusly and from the salaries of certain offices which had become vacant not having been charged in the accounts during the time they were vacant, or until the new incumbents assumed the duties.—

6 The decrease in this item has been occasioned by the contingent charges for June and the Jamabundy sauderward charges of Goorrumcondah and four other talooks not having been brought to account within the Fusly.—

7 The increase under this head is owing to the pay of certain Village servants for Fusly 1263 having been disbursed in the current Fusly.

8 There has been an increase of Rupees 630 under

under the head "reward for Killing wild beasts" and Rupees 229, the arrears of salary of the Extra Goomastahs and Carkoons due for Fusly 1263 (1853/54) being included in the above statement, which together make up the sum of Rupees 859, the whole amount of the increase as shown in the statement.—

9. The decrease in this item is attributed to less number of works of irrigation having been restored during the Fusly.—

10 } 11 } The non-disbursement within the Fusly of the amount of [illegible] due for the quarter ending 30th June has been the cause of decrease in these items.

12 The allowance due for June not having been charged within the close of the Fusly accounts for the decrease in this item.—

13 The increase in this item is ascribable to the amount of allowance due for Fusles 1263 (1853/54) and 1264 (1854/55) to the Pagoda of Nundanavanum in the Doopaud Talook, at Rupees 70 per annum, having been disbursed in arrears agreeably to the orders of the Board of Revenue under date the 8th March 1855, and to the arrears of allowance of one of the Yeomiadars due

due for Fusly 1263 (1853/54) having been paid in the year under review.—

14 Some arrears of pension due for Fusly 1263 (1853/54) having been paid in the current, accounts for an increase under this item.—

16 The increase in this item is owing to superannuation pension having been granted to the late Tahsildar of Chitwail.—

18 The decrease is on account of the salary for June not having been charged within the Fusly.—

20 } 21 } Theve items explain themselves.—

22. The amount incurrible under this head is advanced out of the Abkarry demand and the printed abkarry moochelekahs received from Madras are usually distributed through the renters and the value thereof collected and carried to the head refund of advances. This amount has not in consequence been entered in this statement.—

23 The sum due for Fusly 1262 (1852/53) having been paid in Fusly 1263 (1853/54) accounts for the decrease in this item.

24 The pay of certain village servants have hitherto been paid by deductions from Kistbandy berize, but the disbursement of the same having been made in ready money during the Fusly in conformity with the orders of the Board of Revenue under date the 13th July 1854, is the cause of increase under this head.—

25 The increase under this head is owing partly to a greater number of stamps having been disposed of during the Fusly and partly to the commission due to the Darogah and renders for the month of June Fusly 1263 (1853/54) having been disbursed in this.—

26 The increase under this item may be ascribed to a larger number of suits being withdrawn from the different Courts, which entitled the suitors to a refund of stamp duty in conformity with act XVII of 1848.

58 The remaining items Nos 4 – 15 – 17 and 19 do not call for any particular explanation.

59 The subjoined statement drawn up for a series of years affords a comparative view of the Circar and Enam cultivation.—

Fort Saint George 19 May 1856

60 Among the forms of the statements that should accompany the Jumabundy report every year, which were received from the Board of Revenue with their Extract from the proceedings under date the 13th June 1853, the quinquennial statement showing the whole Ayacut of the district is one; this statement was formerly prepared upto Fusly $\frac{1252}{1843/44}$ but it was ascertained that many changes and alterations have been necessary, I have been induced to have it prepared upto Fusly $\frac{1262}{1852/53}$ after an examination of the different items in the ayacut which caused the change to be requisite, the abstract of which is as follows.—

Fort Saint George 19 May 1856

	extent	assessment
	acres	Rupees
Circar Ayacut		
1 Extent of Circar ayacut as entered in the accounts upto Fusly 1253	409520	4580353

Remaining extent of enamaty Ayacut as shown in the Ayacut accounts N: 8 of Fusly 1262	1046621	2174046
Net Decrease	14766	52247

Re

8254

Fort Saint George 1st May 1856

61 The increase and decrease in the different items of Circar ayacut apparent in the above statement is attributable to the accounts of the several fusslies having been prepared without careful examination, and also to certain extent of land discovered to have been omitted having been included in the return now prepared.

62 A considerable change will appear in the enamaty Ayacut also when compared with that made out upto Fusly 1261 (1851/52) as the different descriptions of enams have been transferred from one item to the other in preparing the return agreeably to the form furnished by the Board of Revenue. In elucedation of the changes &c effected by the transfer above noticed, a concise statement with explanatory remarks is appended to the Ayacut statement No 8 herewith forwarded.

63 The subjoined statement shows the number of topes planted throughout the district in conformity with the rules promulgated by the Board of Revenue, in their circular order dated the 6th of April 1848, and the extent of land appropriated for the purpose together with the assessment thereon.

No of Topes	Total extent of land appropriated for Topes	Assessment Rents Rupees	No of Trees.
3	5	5	6
	acres	Rupees	
26	57	231	3804
2	9	10	493
Total 28	66	231	3356
17	35	200	1749
11	31	31	1607
Total — 28	66	231	3356

Fort Saint George 1st May 1856

8255

No 1 2

Particulars

1 Planted upto Fusly 1263

2 Do during Fusly 1264

1 Planted for charitable purposes

2 Do for private purposes

Fort Saint George 19 May 1856

64 The falling short of 3 trees in the number of trees planted for charitable purposes as compared with that entered in the previous Fasly has arisen from four trees having perished in the tope of the village of Wooyalawadah in the Coilcoontlah talook, and one tree having been planted in excess in the village of Soonkasalah in the Chennoor talook. The enclosed Statement No. 28 shows the details of topes &c.

65 There has been no improvement in the plantation of trees subject to the rules above referred to; and for this purpose applications are seldom received, consequent on the people planting trees in their own puttah lands & on the Ayacut Porumpoke waste land and paying the dry assessment fixed thereon.

66 The Sub Collectors report is herewith forwarded. It was received after my report was closed and I have in consequence remarked in the margin any difference which presented itself in it - and differing from that now sent.

67 I continue to receive the greatest assistance from the Sub Collector Mr. Wedderburn and the Head Assistant Mr. Blair who,

Fort St George 19th May 1856.

who, I very much regret from the able assistance he has afforded me, has been transferred to the Judicial Department.

68 I would beg particularly to draw the attention of the Board of Revenue to the very valuable services rendered to the public by the Head Sheristedar of this district, H. Streenevasa Rau, who was transferred from Guntoor in 1852. He has conducted his duties under me since January 1853, and continues to uphold that high character which he has received from the others under whom he has been employed. In transacting business with the ryots he has been just and equitable, and at the same time has kept in view the interests of Government; his conduct has been brought into more prominent light during the last two years of scarcity wherein it was necessary to grant remissions, this not perfectly in accordance with the existing rules.

69 The Head Sheristedar Krishna- row a very old servant in this district, has performed his duties to my satisfaction, and deserves great credit for his zeal and attention.

Cuddapah District-
Collectors Office, on
Circuit at Gunnimulmudgoo

Cuddapah 30th June 1855

E. E. Flr / Signed / M. Murray
Collector

J. C. B.

Fort St. George, 19th May 1856

No. 99

To, M. Murray Esqre
Collector of
Cuddapah

Sir,

I I have the honor to submit herewith the annual report for Fusly 1264.

II The Collector intending to settle two Talooks viz Cumbum and Poopaud of the Sub Division, the Talooks of Cuddapah District settled by me, were Koilgoontla, Zamalmudgoo, and Poolwendla, of the Principal Division and Budwail in the Sub Division. My Settlement occupied from 2d December 1854 till 2nd April 1855. Each Talook was settled at its Cusbah.

Where the Settlement was made.

Residence of the Sub Collr.

With the exception of one month (August) September 1854 when I took charge of the District from the Collector, and 15 days I was subsequently detained by the Collector at Cuddapah in September and 3½ months on Jamabundy, the rest of the Fusly was spent by me in the Sub Division

III The following Statement shews the number of Villages in each Talook and the tenure under which they are held.

Nos of Villages and the tenure under which they are held.

Talook

Fort St. George, 19th May 1856

Talook	Ryotwar Villages	Shrotriem & Inam Villages	Total	Hamlets	Total
1	2	3	4	5	6

Rain

Months	Parts
June	1
July	3
August	2
September	3
October	5
November	1
February & March	1

As in last Fusly.

More rain fell this Fusly than last viz 23 inches against 18. It was distributed over 6 months as marginally noted in 18 "

The first class tanks tho' not entirely filled, received water enough for the whole Fusly and the slight rains were favorable to the dry crops.

The

Season.

VII The dry crops suffered much, in some localities when sown, from want of rain, and

Dry produce

also in other places from blight caused by unseasonable rain - The produce was 9/16ths of a full crop -

Produce under wells -

The 1st Crops, Suzza, Jonna, Indigos, and 2nd crops Raggy, Tobacco under wells were partly injured by blight. The average produce is 13/16ths of a full crop.

Produce under Nullahs

All 1st crops under Nullahs were plentiful in some places the 2nd crop of Paddy suffered from want of water and in others loss was sustained in Raggy and Paddy from blight. The average produce under Nullahs was 12/16ths of a full crop -

Produce under Tanks -

Paddy under the larger Tanks was injured by blight - The 2nd crop of Paddy under several small Tanks was blighted and to a small extent suffered from want of water - In some places the crop was light - The average produce under tanks is 12 3/4/16ths of a full crop -

The average produce of the various crops was 11/16ths of a full crop -

Sanatory state of the division

Cholera prevailed extensively in many villages in July and August 1854 and carried off 2,974 persons - Other diseases were as usual - The Sub

Fort St. George 19th May 1856.

Sub Collector's dresser with the assistance of the acting Vaccinator, vaccinated 832 children during the circuit in Koilgoontla, Gaunlmudgoo Poolivendla, Chennoor, and Budwail - In the month of April he was sent to afford medical aid to a Poligar in Doopaud, in whose village he also vaccinated 52 persons - disease and scarcity of forage caused a greater mortality among cattle in the months of July, August, and September this Fusly than in the preceding one -

The following Statement shews prices -

8314.

Fort St. George, 19th May 1856

The short produce of last Fasly and the large exportation of Paddy and Ahrikalos to the Kurnool District and Innacondah and thereabouts in Guntoor District have caused an increase in the prices of those grains. Jonna is not exported but is chiefly consumed by the lower classes. Owing to the scantiness of the late rain in November and December, the produce of wheat Bengal gram and Horse gram was small. The two former were not imported as usual from Guntoor District, and the latter was blighted. There being no great demand for Indigo, it was sold at slightly reduced rates.

IX The subjoined Statement shews the Dittum or Land in occupation as compared with the preceding Fasly.

Dittum

Fort St. George, 19th May 1856

The appearance of the season being favorable, Wet, Seerwajasty, and Fusulyasty lands to the amount of Rupees 17,103 were taken up Some Dry, Garden, and Poonasah lands which were converted into Wet, being included under the head of Seerwajasty, and some unprofitable dry lands having been relinquished by poor ryots a decrease of Rupees 2,274 in Dry cultivation Vth resulted. However there appears a net Increase of Rupees 14,829 in Cabulaty in the Fusly under report over the previous one.

(Dittum cultivation and waste.

Remissions

Many of the whole waste fields which were remitted in the last Fusly having been cultivated in the Fusly under review, a decrease in Remissions to the amount of Rs. 2,1568 resulted.-

A greater remission viz Rupees 68 was granted on account of the relinquishment by poor ryots of dry and Poonasah lands, on which Seerwajasty was levied last Fusly.-

Actual Cultivation

XI The undermentioned Statement shews the comparative view of the cultivation for the current and preceding Fuslies

Fort St. George, 19th May 1858

A greater number of Tanks having received a full supply of water this fusly there is not only an increase of cultivation in Cabulaty waste and Ayacut Burjer, but also in Seerwajasty & Fusulyasty, amounting in all to Rupees 36,729. This however does not come up to the good season of Fusly 1262 when a greater fall of rain occurred.-

Cabulaty or waste charged to Ryots.-

XII The undermentioned Statement shews the waste land charged to Ryots.-

	Acres	Assessment.	Collections after deductions remissions
	1	2	3	4
Land left waste by ryots through neglect	16,912	10301	7,953
Land retained for grazing cattle	612	321	246
Land left waste notwithstanding the existence of water	203	1739	1281
Total	17727	12361	9,480

These non-remissions were settled by the Collector and Sub Collector personally.

Remissions on Cultivation

XIII The following Statement shews the remissions on Cultivation.-

Fusly

8321 Fort St. George 19 May 1858

Shamilat Bunjer

The decrease in No. 182 is attributable to fewer portions of fields having been left waste, and to there being less loss under the 2nd head.—

Lands flooded

The tank beds were mostly dry when they were cultivated and on the water being received a larger amount of crops was submerged than in the preceding Fusly

Cowle

No Cowles were taken up in the preceding Fusly. In the present one Rupees 228 were remitted under this head.—

Cayda Manoel Teerva, and Pymash Cummee, and ex Shatriemdaris share

These remissions vary with the exctent of Cultivation.—

XIV The following Statement shews the exctent of land occupied for Sugar Cane, Cotton, and Indigo cultivation.—

Land Revenue and Extra Revenues

Extra Revenue

The Abkarry was settled by the Collector.—

There is a decrease of Rupees 137 in Amrogee, owing to the Tamarind trees having suffered from the drought of the preceding Fusly

As all suits under 1000 Rupees must now be filed in the District Moonsiffs' Courts, and the season having been more favorable than last an increase under the head of Stamps appears.—

XVIII The following Statement shews all branches of Veesabady and Bagur Veesabady between Fusly 1263 and 1264.—

Veesabady. Bagur Veesabady

Items

8328 to 8339 Fort St. George 19 May 1856

There appears a decrease of Rupees 306 in Veesabady viz. Rupees 44 of those who died leaving no heirs, Rupees 111 of deserted and Rupees 151 of those whose assessment was reduced on account of their poverty.—

The increase of Rupees 173 on new comers from other places, and of assessment of those whose dealings were extended did not compensate the difference, but a decrease of Rupees 133 appears on the whole.—

There is a decrease of Rupees 622 in Bagur Veesabady, Vizt. looms, house tax, and sheep, attributable to deaths by Cholera among the poor who chiefly pay house tax, and to disease among sheep. At the same time there is an increase of Rupees 21 in the smelting of Iron ore on account of the demand for Iron by the Road Department, and for agricultural purposes.—

Demand Collection and Balance.—

XIX

The undermentioned Statement exhibits the demand Collection, and Balance of the Fasly under review.—

Out of the Land Revenue balances the amount of Rupees 612 due by the ryots under Cumbum Tank has been recommended to be recovered by the sale of the defaulters lands.—

Rupees 252 are due by ryots whose lands are at present under attachment of the Civil Courts.—

Rupees 491 are represented by the Tahsildars as irrecoverable and will be enquired into and disposed of

The rest of the balances viz Rs. 1,358 in default of fuller information from the Talooks must still be considered as recoverable - The result will be communicated in my next report.—

8344. Fort St. George 19 May 1858

Arrears of Balance of the former Fusles.—

The sum of Rupees 389-11-7 of Fusly 1262 under the head "irrecoverable" has been in my last report recommended to the Board of Revenue to be written off the accounts.—

The amount of Rupees 346-12-3 of Fusly 1263 viz Rupees 155-3-3 of dead deserted and poor ryots. Rupees 137-11-10 of gathered crops and destroyed seed, and Rupees 53-13-2 of Jodee and Zuftee Enams &c. was enquired into at the time of Camabundy, and being considered by the Collector and myself as irrecoverable, is recommended to be written off the accounts.

The balance Rupees 8---- of Fusly 61/62 of Stamp Revenue under the head "recoverable" will be recovered after the disposal of the appeal made by Ibrahim Khan of Bilney to the Civil Court from the decision of the Subordinate Court in Original Suit No. 228 of 1861.—

The balance of Rupees 8-14-3 of Cumbum and Rupees 68-6-1 of Budvail Taloks. total amounting to Rs. 77-4-4 of Fusly 1263 which is entered under the head or "recoverable" is still uncollected on account of the poverty &c. of ryots. Strict orders have been issued for its speedy collection.—

The same favorable report, as on former occasions, is due of the conduct of the Dubash Sheristadar, Narrainroo.—

Bd No. 1213

From the Commissioners - for the Revision of Civil Salaries & Establishments throughout India -

Sir,

I shall be much obliged if the Board will favour me with their opinion whether it is desirable to introduce a system of graduated Salaries in the Revenue branch of the Service and

Fort St. George 19th May 1856

8347 Fort St. George 19th May 1856

and if such a system be introduced how many grades of Collectors there should be and how many in each grade and whether there should be a prescribed salary for each office or whether the salaries should be personal, as in the Punjab -

2d Opinions are much divided in the point last mentioned. It appears to be admitted that a gradation of salaries conduces to efficient management but many think it desirable that the salary should be attached to the District rather than that offices should carry the salary of the grade in which they may be, about with them -

Dated 2d April 1856 -

Sir,

B.R. No. 1273
From the Collector
of Tinnevelly

With reference to Extract from the Proceedings of the Board of Revenue dated the 5th January last I have the honor to inform you that no report seems to have been made from this office to the Board of Revenue regarding the resumption of the Enam therein alluded to -

2 The Enam land as reported in Para 4 of Revd Birds Recommendation being situated in the Sub Collectors Division the subject of the late incumbent Gopaulachary enjoying the same after the death of his father to whose life it was restricted was brought to the notice of the Sub Collector who ordered its Resumption in July 18th last no report appears to have been made by him to this office and the subject was not known to this office till the receipt of the appeal Petition of Gopaulachary

8351 Fort St. George 19th May 1856

to the former Collector and his Petitions to the Board of Revenue Referred to this office for disposal and when the matter was under enquiry the said Gopaulachary died and after some time his son Mootoosawmy Iyengar having mooted the subject the necessary enquiries were made and the Case Reported on by my Predecessor -

Tinnevelly Collectors Ltr: recd Cutcherry Trichendoor 12th April 1856 -
B.R. No. 1516
Proceedings thereon,

(800 801)

The Board wish to be informed whether the party entered as Gopaulachary in the Statement accompanying Mr. Thompsons letter to the Board dated 26th August 1840 is identical with the present Claimants father as if such be the Case the Board have already authorized the Resumption of the Yeomiahs Contained in that Statement on the occurrence of Lapses on the ground that Dr. Hooper had attached

Dupd 17th Septr 40

+ Encl: Rule B dated 17th Septr 40

(Signed) I. Silver
Collector

8352 Fort St. George 19th May 1856

attached duties to them without due authority.

2 It is probable that the Sub Coll: Lectors Tankeed resuming the Exam in July 1844 and the Report made to him by the Tahsildar may afford some clue to enable the Board to decide whether the service originally attached to the Mannium was of the nature it is now Represented to be It is therefore Requested that Copies of the documents may be forwarded to the Board-

No 37

To G. S. Fort St. George

(802)

Secretary to the Board of Revenue Fort St. George

Sir,

B. Rg. 11.67 From the Coll.r of Malabar - } With Reference to paras 5 and 6 of the Extract from the Minutes of Consultation No 1638 dated 18th September 1855 Received with the Board's Proceedings under date the 25th Idem No 2490 I have the honor to state that in the present system of Salt Management will be abandoned by the 30th June

8353 Fort St. George 19th May 1856

+ Attapallam Allatoor Poliyhout

June 1857 if not sooner I would submit that the Gollahs alluded to might be maintained till then - They are no doubt a Convenience to the poorer class of their neighbourhoods -

2 Considering the expence so incurred and the smallness of Sales, I should not feel at liberty to recommend the maintenance of those Gollahs were the Salt Sales to Continue on the same footing in this District but as the prices of all the necessaries of life are high in the present year, it appears to me to be desirable to avoid a further enhancement to the poor of this neighbourhood by the abolition of the Depôt -

Calicut 25th April 1856 } (Signed) T. Clarke Collector

8354 Fort St. George 19th May 1850

Bd's No. 1512
Proceedings thereon - (802-803)

Resolved that the forgoing letter be submitted for the information and orders of the Right Honorable the Governor in Council with reference to paras 5 and 6 of Extract Minutes Consultation dated 18th September 1853 No. 1058-

2 It will be observed that Mr. Clarke is averse to the abolition of the Depots at Attapallew, Allatoor and Paulghaut Zemindary pending the change of System to be shortly introduced - The Board concurs in this view and would suggest the depots being Continued for the present -

of Trichinopoly

Sir,

In obedience to the order of Government passed on the accompanying Petition No. 839 of 1856 dated the 25th Ultimo, I have the honor to state the Petitioner is in error while seeking the authority of Government under Regulation IV of 1831 to sue her opponents in the Courts.—

2. The Enams in which Petitioner claims to share are religious endowments, and not comprehended by the provisions of the enactment above quoted. She is therefore at liberty to sue the managers of the Nattad-Owleah Durgah for the restoration of her maintenance.—

3. This claim is precisely similar to that reported on by me in letter No. 37 of date the 23d February 1856, and disposed of by Extract Minutes of Consultation under date the 29th March last transmitted with the Boards' Proceedings No. 999 dated the 5th Ultimo.—

Trichinopoly Dt. .....
Sirdar, Collectors Circuit Cutcherry,
1st May 1856. .....

(833-834)

To

The Secretary to

Government

Revenue Department

B. No. 1534
To the Secretary
to Government

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of Extract Minutes Consultation, dated 5th March 1856 No. 217, forwarding a Volume of Acts of Parliament passed in the 18 & 19 years of the Reign of Her Majesty Queen Victoria, and requesting them to point out such parts of the Laws contained therein relating to their Department as it may be necessary to publish in the Fort St. George Gazette for general information and the guidance of public Officers.—

In C. 14 March 1856

2 In pursuance of the instructions of Government the Board made a reference as usual to the Collector of Sea Customs, who has suggested the publication of the following Acts.—

From Collector dated 22d April 56
In Con. 20 May 56
No. 1336

Cap: 21 An act for granting certain duties of Customs on Tea, Coffee Sugar and other articles.—

Cap: 96 An act to consolidate certain acts and otherwise amend the laws of the Customs &c.

8370 Fort St. George 20th May 1856

Cap: 111 An act to amend the laws relating to Bills of Lading.—

3 The Board observe that the first act contains information which might be useful to Merchants and others, but as the termination of the war will probably lead to its early annulment, and it does not affect the proceedings of public Officers in this country, its publication seems now hardly necessary.—

4 The second act consolidates and amends the laws of the customs, and those sections of it which relate to the importation of goods into the United Kingdom, might, the Board think, be published with advantage for the information of the native Mercantile community, when shipping goods from this country.—

5 With regard to the third act, a Bill has been read a second time in the Legislative Council, and published in the Fort St. George Gazette of 11th January 1856. It seems therefore unnecessary to insert this act in the Gazette.—

The

8371 Fort St. George 20th May 1856

6 The Board do not perceive any other enactment which it would be desirable to publish for the information of Revenue Officers.—

No. 204

No. 1743.—

To The Chief Secretary to the Government of Fort St. George

Financial Dept.

Sir,

I am directed to acknowledge the receipt of your letter No. 110 dated the 13 Ultimo, forwarding Statements A & B furnished by the Madras Board of Revenue

8373 Fort St. George 20th May 1856

Revenue, shewing the value of Gold and Silver, Bullion and Specie, imported and exported for the month of December 1855 and requesting sanction to publish these Statements regularly in the Fort St. George Gazette, as also annual Statements in the same form at the close of each official year.

In reply I am desired to state that at Calcutta, General returns of Imports and Exports are published at the expense of private individuals, for whom statements are prepared by the Clerks of the Custom House at a certain charge.—

The Right Honorable the Governor General in Council presumes however, that in suggesting the measure stated in your letter under acknowledgement, the Government of Fort St. George saw no prospect of the speculation being undertaken by private enterprize, and as the publication of the returns in question by the Government is calculated to secure the confidence of the community in their accuracy, the Governor General in Council has no objection to the

Government

8374 Fort St. George 20th May 1856

Government of Fort St. George undertaking their proposed scheme if they please.—

Fort William
The 11th April
1856.—

(Signed) C. Hugh Lushington
Secretary to the Government of India

Resolved accordingly that the monthly Statements of the Export and Import of Bullion furnished by the Board of Revenue be published regularly in the Fort St. George Gazette. The Board will also be pleased to furnish a Statement, for the official year, in the same form that it may be published in the Gazette.—

To

G. S. Forbes Esquire
Secretary to the
Board of Revenue
Fort St. George

B. R. 986
From the Collector of Trichinopoly — Sir,

As directed by Extract from the Proceedings of the Board of Revenue of under Date the 30th January 1854 forwarding

Extract

8376 Fort St. George 20th May 1856

Extract Minutes of Consultation of the 6th January Idem. I do myself the honor to report on the state of the Records in the Hoozoor and Talook Cutcherries of the district.—

2 The English records in my Office are in a satisfactory state, well kept and bound up as soon as the year expires— The Malabar and Mahratta duftars are on the whole in good Condition.—

3 The reports furnished me by the Tahsildars of the state of these Records are for the most part satisfactory — and I have since the receipt of these returns passed many Orders for the destruction of many useless old Accounts of cultivation Collections and Maramut — Also of returns of season rain and so forth — Together with some old reports and accounts on the Pagoda Management and administration, all of which are now perfectly useless.—

4 During my tours in the District last year I visited and inspected as many of the Talook records as I could; But the Board must bear in mind that, I have not had that European Agency allowed me for the past fifteen Months which can alone enable

Fort St. George 20th May 1856

enable me to have the records both Huzzoor and Talook properly inspected. I have only had one Assistant allotted to me, and on that Officer has been frequently changed.

Trichinopoly Collector Office
1st March 1856

To No. 31

B. No. 1056
From the Collector of Salem

G. S. Forbes Esquire
Secretary to Board of Revenue
Fort St. George.—

Sir

Referring to the Boards endorsement on petition No. 1467 of 1855. I have the

Fort St. George 20 May 1856

the honor to give the following explanation, Petitioners state that though they are wodders by caste they have followed Agricultural persuits for a series of years, that the Tahsildar of the Tengercotta talook in which they are living has compelled them during the last 6 months to work in the new road in course of construction to Teertamalay; that they have sustained a considerable loss in their cultivation which was chiefly owing to their not having been able to pay proper attention to their cultivation, that the Tahsildar appropriated to himself a portion of the wages due to the petitioners, and that they represented the matter to the Collector who without enquiring into the subject rejected their petition.—

2 From the enquiry held in this case it appears that the petitioners though engaged in agricultural persuits are also in the habit of working as wodders on the Roads and Tanks; that in the instance referred to in the petition, the petitioners undertook

of

of their own accord to work on the road referred to and received Rupees 190. from the Tahsildar in advance and did work in the road from November 1854 upto to April 1855. that on an adjustment of the accounts of the amount of work accomplished by the petitioners it was found that the hire due to them amounted only to Rupees 157-1-8 and that the petitioners have given a Statement before the Tahsildar that a sum of Rupees 32-14-4 was due from them to the Circar.—

3 The petitioners have also appeared before me and stated that they have since received their hire from the Tahsildar, and that they have no cause for complaint.

Endorsement

On the receipt of two Petitions Nos 1157
and 1559 addressed by the Petitioner to Government
in 1851 and also another Petition to the Board in
the same year — an enquiry into the matter of
the claim of the Petitioner was instituted in
which enquiry it was ascertained that the
Petitioner is not heir to the late Bangummah
Conapunnah the widows of the late Poligar of
Timmapah Naik, of Raedroog and who were
in enjoyment of a Pension and Enam lands, of
whom one died in 1842 and another some time
prior to that year nor is any mention made
in the Talook record of his being heir to the above
women nor did he lay any claim to the privileges
enjoyed by those women when they died. The
Collector of Bellary cannot recognize the claim
of the Petitioner in regard to the pension & Enam
which lapsed many years ago.—

Collector

Enc No. 1

Translation of Plaint in O.S No. 6 of 1856
on the file of the Subordinate Court of Salem
preferred by Sama Josien Brahmin by
caste son of Kovary puttey Aya Vaudiar
and residing at Panamaruttey puttey in the
Ramzepoor

Fort St. George 20th May 1856

Ranzepoor Talook against (1) H. A. Brett Esquire Collector of Salem (2) Mullary row Brahmin by Caste fathers name not Known and Tahsildar of the Ranzepoor Talook and (3) Monica Gounden of Monegar and Pully by caste fathers name not Known residing at Pully teroopully in the same Talook.—

The Plaintiff prays for a decree to compel the Defendants to put him in possession of and to give him a Puttah for certain lands Punjah Poonjah and Garden hereunder discribed measuring a 9 a 7—33—1 assessed at Rupees 30—14 and producing annually a Mailwarum produce of Rupees 50 together with a well out of order situated in those lands valued at Rupees 10.—

2 He states that he made a Durkast at the Huzoor for the lands under dispute in the Month of Karthicay in the year Paramadeecha that these lands belonged to him according to the Huzoor Tahseel dated 30th November 1854 No. 171 that

Fort St. George 20th May 1856

that he cut down the trees on the land levelled the ground and improved the spot at an out lay of much money that orders were accordingly issued by the late Tahsildar on the 2d February 1856 for putting the lands in his possession that the 2d and 3d defendants unjustly prevented him from cultivating the lands and that the 1st Defendant gave the first of the lands under dispute to the 3d Defendant and collected from the Plaintiff the Seerwah on the second plot which was waste contrary to the Kookummanah rules of the District.—

3 For the above reasons the Plaintiff has filed this suit and he prays that a decree may be passed in his favor.—

4 The particulars of the lands sued for are as follows 1st a plot of land No. 14 called Echemarum Poonjah situated in the Village of Pully teroovoopully to the east of the cattle path to the west of Moottoocoma-rasawmy Moodely's land to the South of the boundary limits of Panamaratoopully and to North of the 3d Defendants land out of this 1—0—12 is cultivated with Poonjah and bears a fisul assessment of Rs. 3—1—6

and

Fort St. George 20th. May 1856

and 2 G 1 a 4 is garden assessed at 28-6-11 but the Bagayet Teerwah was deducted and the fisal Poonjah Teerwah was confirmed viz. Rs 15-3-6 In this land is the well under dispute - This plat of land yields a Mailwarum produce of 25 Rupees a year.

2nd A plat of land No. 456 called Attady Kunjah situated in the Village of Panamarattoputty to the west of Raja Vaid to the east of the Burying ground to the South of Soobroya Moodellys land and to the North of the Road - Out of this 7-33-1 bears a Kunjah assessment of 9-6-1 and 1 G 38 a 3 is garden assessed at 6-4-11 both making a total of 4 G 31 a 5 assessed at 15-11-4 This plat yields a Mailwarum produce of 25 Rupees a year.

The above two plats amount to 7-33-1 assessed at Rs 30-14-6 yielding a Mailwarum of 30 Rupees a year - The value of the well under dispute is 10 Rupees the aggregate amount is therefore 60 Rupees.

Filed this on the 20th. February 1856

True Copy
(Signed) H. A. Brett
Collector

Fort St. George 20th. May 1856

No. 2

Draft of an answer to be filed in O.S. No. 5 of 1856 on the file of the Subordinate Court of Salem by H. A. Brett Esquire Collector of Salem and 1st. Deft in the above suit.

The Plaintiff claims certain lands, measuring 7 acre 33 As 1 and assessed at 30-14-1 in the 2 Villages of Panamarattuputty and Pully teeravoputty in the Razpoor Talook, of these lands Plat No. 14 in the former village includes Poonjah and garden, and Plat No. 459 in the latter includes one Nunjay plat one garden plat and two other pieces which do not from the subject of the suit.

The Plaintiff applied to the Collector (the 1st. Deft) for these lands

2

The Plaintiffs due Kast was referred for enquiry to the Tahsildar who reported that the Plaintiff did not wish to have the garden land in the first Plot unless the garden rate in it should be reduced to 6 Rupees the acre and that there was no objection to his having the other land applied for

as

as the garden rate could not be reduced as solicited by the Plaintiff. the Tahsildar was directed on the 30th November 1854 to give him the other three lands.—

3 The Plaintiff subsequently appeared before the Tahsildar and obtained permission to take profession of the garden land in No. 45-91 and on the 6th February 1855 he gave a petition to the Tahsildar stating that he did not require the Nunjah land included in the same number On the day following, the 7th February he gave another petition. stating that he still wished to have the two pieces compressed in No 14. and requesting that the teerwah on the garden piece might be reduced in accordance with a recent order regarding such lands; but previous to this step on the Plaintiffs part, Manegar Moonia gounden had applied for the same garden land and Poonjah land, stating that his brother had formerly cultivated both these lands, but had left them waste from Fusly 1249 on account of the high rates at which they were assessed, and requesting that the two lands might be

be given him for cultivation and a Poonjay rate levied on the garden land instead of a garden rate, as the fysul well in the garden plot was out of repair.—

4 As it appeared on enquiry that the Manegars brother had formerly cultivated the lands the Collector was of opinion that his claim to hold them in the event of any reduction was superior to the Plaintiffs, and in consequence. the Collector issued an order on the 5th May 1856 to give the lands to the 3rd Defendant; and with reference to an Extract from the Proceedings of the Board of Revenue dated the 21st September 1854 permitting the Collector "to grant Nunjay "and garden lands on Poonjay teerwah "when the tank or well has become un- "serviceable and there is no intention "on the part of the Circar to restore the

"the former" the Tahsildar was on instructed to charge a Poonjah rate on the garden instead of the garden rate.—

5 As the Plaintiff was not put in possession of any of the lands claimed in the suit with the exception of the garden land in No. 459: and as the Collector had full authority to determine which of the different applicants was best entitled to land No 11 the 1st Deft prays that the suit may be dismissed with Costs.—

Collector

Ordered to be submitted with the following Ltr

To

J. F. B.

To

The Secretary to

Government

(850-851)

B. No. 1532

To the Secretary to Government.

In C. 20th May 56.

Sir I am directed by the Board of Revenue to submit for the consideration and orders of the Right Honorable the Governor in Council the accompanying letter from the Collector of Salem dated 22d April 1856. forwarding translation of a plaint filed against him and others in the Subordinate Court of Salem in O.S. number 5 of 1856— with draft of his proposed answer; and requesting permission to defend the suit at the public cost.

2 The object of the suit is to obtain possession of four pieces of land in two villages of the Rayiepur Taloork, measuring acres 7— 33— 1— assessed at Rupees 30— 11— 6, and yielding a hailwaram of 30 Rupees a year, together with a well out of order, valued at 10 Rupees.—

3 The Plaintiff states that he made an application to be put in possession of these lands

that

Fort St. George 20th May 1856

that the necessary order was passed — that he cut down the trees, levelled the ground — and improved it at a great outlay. He was afterwards prevented from cultivating the lands one plot (2 pieces) being given over to another party (the third defendant) and he (the Plaintiff) was contrary to the provisions of the Hookummanah called upon to pay leerwah on the other which was waste —

4 The Collector admits that the Plaintiff did apply for the land in question. His Dubbast was referred to the Tahsildar, who reported that the Plaintiff would only undertake the Cultivation of the garden land in the first plot at a reduced rate of assessment. as this condition could not be complied with orders were issued to make over to the Plaintiff the rest of the lands he had applied for reserving the garden land. —

5 Subsequently orders were issued to the Collector by the Board which admitted of the assessment on this land being reduced and the Plaintiff renewed his application to be put in possession of the Garden land with the benefit of this order. He was met however by a claim on

Pro, to Salem 21st September 1854

Fort St. George 20th May 1856

on the part of the 3d Defendant who had applied for the land in the interim on the ground that it had been held by his brother and only relinquished on account of the pressure of the assessment. —

6 As this claimant is stated by the Collector to have anticipated the second application of the Plaintiff and as there was also in his favour the circumstances of the land having been already in his brothers possession the Collectors decision appears to the Board to have been in conformity with existing district rules and they recommend that he be allowed to file the answer he has submitted and to defend the suit at the public expence. —

Collector Sea Customs

Order thereon

Ordered that the following letter be sent in reply

To

8395 Fort St. George 20th May 1856

To

The Collector of
Sea Customs

852-853

B.t. No. 1526

To the Collector of Sea Customs.

Requesting him to recover and pay to Messrs. Waters Hales and Doyle a moiety of their allowances that were paid to their Substitutes during the time that their case was pending decision. —

Sir. I am directed to observe that the Board delayed replying finally to your letters of the 21st & 30th ultimo until the decision of Government was received regarding the three servants of your office Messrs. Waters Hale and Doyle who are therein referred to. —

Government have since observed in Extract Minutes of Consultation dated 6th Instant that as the charge against these servants "has been dismissed by the Magistrate and they have been reinstated in their situations by the Revenue Board the Governor in Council has no desire to disturb this decision" under these circumstances the Board do not think it equitable that these servants should be deprived of all their pay for the period of their suspension and they consider that you acted erroneously in giving the entire salary to the substitutes, before the charge against the suspended servants was finally

Fort St. George 20th May 1856

finally disposed of.—

3 If the requirements of the public Service rendered it necessary to employ substitutes, and on this point the Board do not dispute your decision, your proper course would have been to pay them a moiety of the salary keeping the other moiety in deposit until the case of the suspended servants was disposed of.— Under the Government rules half salary is allowed to uncovenanted Servants absent on leave for a certain period and the Board consider that the three servants to whom your letters refer are at least entitled to that portion of their allowances.—

4 The Board therefore request you to recover this portion of the allowances from the substitutes and pay it to Messrs Waters Hale and Boyle reporting that you have done so. otherwise the Board will have no other course than to apply to Government for their orders on the subject.—

(857)

B. No. 1699
From the Collector of Bellary
Furnishes some information respecting Trees on uncultivated lands and proposes to submit a fuller report as soon as the information required is Collected

I have the honor to acknowledge the receipt of your letter No. 1113 under date 14th Ultimo requesting me to expedite the despatch of my reply to the Boards Circular of 29th October last respecting Trees in uncultivated land.—

2 I regret much that the detailed information which I had directed to be prepared is not yet ready to enable me to give a full reply to the Boards instructions. But as soon as it is I will report fully on the subject. In the mean time it may be Convenient for the Board to know the probable amount of Revenue that will be sacrificed at least temporarily by relinquishing the present revenue derived from the Old Government Topes.—

The Revenue Specially derived from Fruit Trees may be classed under two Heads

Revd. A.

* Average rent of 5 years from 1260 to 1264.

Rs. As.

1st The Rents of the Government Tamarind and Mango and Sundry fruit Trees Annually rented out ——— 11555 " "

2d The Extra Revenue derived from Cocoanut and Betelnut gardens in addition to the regular Land Taxes and which is called Peway Sasty ——— 13050 " "

Total Present average Revenue Specially derived from Fruit Trees ——— 24605 " "

Do. Do.

Judging from an old account which was taken more than 30 years ago I find that there were just 75000 Fruit Trees included in the old Government Topes rented out; that 24250 of these were in Enam Land and would therefore under the operation of the proposed Plan be given up to the Proprietors of the enam that 21,850 were in Circar occupied Land and would therefore be transferrable to the Ryot holding the Land — and that the remaining 50800 were in unoccupied Land — So that it might be Calculated that 1/3d of the Rents would be

* 1/3 of Trees — 75000
Average 5 years Rent Rs. 11555 - -
Average per Tree 2-6

given up to the Enamdar or Farmer, there being about 2/3d of the Trees in their lands — The average rate if taken for each tree would give Rs. 2-6- per Tree — So that for the remaining 2/3d about 50800 Trees the Circar Revenue would be 7,940 Rupees But these 50000 even if they could all be formed into Topes would not probably occupy at most 2000 Acres which at an average say of 2 Cantaray fanams (= 9-4) per Acre would give 1170 Rupees So that indeed the present average Revenue 11555 Rupees would be for the most part — Sacrificed — This of Course is but a rough estimate but will perhaps Enable the Board to judge of the — probable financial result in Carrying into effect the proposed Change until more accurate information is Collected but which I hope to be able to furnish before long. —

4 The other Tree Tax alluded to by me is the Extra tax levied on Cocoanut and Betlenut gardens Called Peway Sasty in addition to the Syen assessment of the land and also in addition to the Syen and Fasul Sasty where the Land is classed as one Crop Land — The origin of this tax is known to the Board — At the Survey the Cocoanut gardens were assessed according to the quality and position of the Land in the Village But in the Case of the more valuable

gardens

Fort St. George 20th May 1856

gardens where the Rates did not bring the Assessment up to the Rent formerly paid by the owner an extra tax (called Peiway Susty) was superadded some times assessed at so much per tree The extra Amount so levied was Rs. 21570½ but from the decay of the Trees in Several places it has been partly remitted and is now only 13050 Rupees I have before recommended the abolition Entirely of this Extra Tax and by the propositions contained in my Report on the Revision of the assessment this tax would be extinct and under the measures now proposed by the Government it would also cease. The original assessment subject to the usual water taxes alone would remain. The Revenue received from these Shroffyre gardens on which Peiway Susty is also Collected was last year as follows.—

Dated 24th August 1855

Peiway Susty
Jasum 20230
Net Collection 13050

Extent of Lands Acres	Jasum assessment and Casual Susty Rs. A. P.	Peiway Susty Rs. A. P.	Total Rupees	Net Rupees
3409	36832 " "	20230 " "	57062	4060

I have mentioned this Tax on Trees in this place though it is one that should be dealt with by itself perhaps, rather than in Connection with the main subject of this report.

The amount of Revenue there that will probably be sacrificed by relinquishing the present tax on trees will be thus

Rent of Government Topes average of 5 years ——— 11835 "
Deduct probable receipt from Lands occupied by them ——— 1170 "
Net Loss 10385 "
Add relinquishment of Peiway Susty Tax on Cocanuts gardens Average of 5 years ——— 13050 "
Total Sacrifice ——— 23435 "

860

B. No. 1696

From the offg. Agent to the Governor at Kurnool

Sir,

I have the honor to reply to the Boards Circular No. 2857 of the 13th October 1855 requiring to be informed of cases existing in this District to which the views respecting Jungle rents and pasture tax recorded in Para 24 of the Minutes of Consultation which accompanied it would be applicable.—

2 In this District, the jungle rents and pasture tax collected from individuals are both included under the head of Poollary which in Fasly 1264 amounted only to Rupees 799-14-0 the details of which are given in the margin.—

Chagulmurry	69	12	0
Serwelly	6	0	0
Kundiah	64	0	0
Pennem	36	0	0
Dhone	0	0	0
Gordon	0	0	0
Nandeantoor	143	0	0
Atmoor	500	8	0
	799	14	0

3 The amount entered for the Talook of Atoor is solely for the rent of grazing lands at Allootla Palootla and Peddacherroovoo situated on the summit and slopes of the East portion of the Nulla mulla range of Hills and adjoining the Doopad Talook of Cuddapah and the Paluad in the District of Guntoor. The locality is unhealthy and little frequented

Fort St. George 20th May 1856.

frequented and being distant some 30 or 40 miles from any inhabited village it is not easy to exercise any effective check or Controul over the acts of the renter.—

4 The pasturage however on those lands is rich and abundant at all seasons of the year, and cattle principally young Stock are brought there in great numbers by the Doopaud and Guntoor Reddies. The jungle lying to the South of those rented lands and extending to the southernmost portion of the District are not so rich in grass but they nevertheless afford pasturage for cattle even in seasons of extreme drought, and from time immemorial the inhabitants of the District have had the privilage of resorting to them for the preservation of their cattle without payment of any tax.—

5 The renter of the Allootla lands by the terms of his Puttah is authorized to collect tax from the owners of cattle at the following rates from which it will be seen that he has the power of resorting to the practice so objected to by the Government of counting the cattle brought to pasture on his lands

Cattle

Cattle from Doopaud in the Cuddapah District —

		a	a	a
Cows and Bullocks	— per 100. —	12	— 8 —	"
Sheep	— per 100 —	1	— " —	"

Cattle from Kurnool District

Cows and Bullocks	— per 100 —	10	— " —	"

Cattle from Durse Chendalore in the Vencatagery Province.

Cows and Bullocks	— per 100 —	10	— " —	"
Sheep	— per 100 —	1	— " —	"

Independent of the above the renter is authorized to collect from the pilgrims visiting the Pagoda at Streesylum who generally remain about 15 days at the following rates.

For each Bullock	— per	Rs. A-8
— Do. Horse or Poney	—	" — 8 — "
— Do. Donkeys	—	" 12 — "
		" 1 — "

which is reduced to 2 annas for each animal of the servants of the pilgrims themselves tend them.

Considering the number of Pelgrims that still annually visit this celebrated Pagoda the profits to the renter from this source alone must be considerable but I have reason to believe that he also exacts the tax, of one anna a head on

on the cattle of Bringaries or other traders who may encamp and graze their cattle whilst passing through his limits. —

It is extremely difficult to suggest any other mode than that of counting the cattle, by which the renter can be legally restrained from exacting exorbitant rates from the owners thereof, and at the same time be protected from losses himself, and as I have before observed it is no easy task to check and controul the acts of a renter in such an isolated locality. If therefore the Government had not expressed their views in favour of a continuance of a rent of this description, I should have ventured to recommend its abolition in this District on the grounds that the loss of Revenue would be trifling that the cattle geazed on these lands furnish the principal aggricultural stock required for this and many of the Inland Districts were they are not

Fort St. George 20 May 1856

not otherwise procurable and that it would tend to free trading and casual travellers passing through this wild tract from harrassing and vexatious demands which either from ignorance or apathy they patiently submit to and which the authorities themselves are unable effectually to suppress. If however it is determined that the rent in question shall be continued the precautionary measures against abuse which may be devised in connection with the rents of the jungles and Hills of the Western Talooks of Guntoor would be equally applicable of course to this District.—

8 The remainder of the Callary tax as exhibited in the entries of collections in the other Talooks is levied from Shepherds and from the owners of horned cattle who are residents but non cultivators in the villages in the lands of which their flocks

Fort St. George 20th May 1856

flocks and herds graze. The Shepherds are also charged with the Sheep tax and the owners of the horned Cattle are for the most part of the poorer classes possessing one or two head of Cattle each which affords them a means of subsistence. The abolition of the Tax therefore, as regards the aforesaid description of persons would be in accordance with the views of Government as set forth in the 3rd of the instances in Para 24 of the Minutes of Consultation adverted to.

9 With reference to the 2nd of the instances in the foregoing Para, I beg to observe that there are some tracts of waste land in various parts of the District producing Runnah grass suited for pasturage which might if required by individuals be given over to be held on Puttah like other lands but as many of these lands are not

not assessed as rats would be required to be fixed subject to alteration on the introduction of the assessment.

10 Adverting to the 4th and 6th of the instances in the Para of the Minutes of Consultation above adverted to, I beg to state that there are no rents in this District for the exclusive privilege of digging Chayroot, nor is any tax levied on persons following that occupation. The Revenue derived from the tax on Sharp and [illegible] amounted in the last year to Rupees 10,103 which is somewhat less than the average of the collections for the last five years.

11 With reference to the concluding Para of the Minutes of Consultation under reply, I beg to state that there are no rents given in this District for the exclusive privilege of cutting Firewood in the Jungles nor are persons

Fasly 1260 — 9356-4-9
1261 — 10129-14-0
1262 — 11187-9-0
1263 — 11230-7-0
1264 — 10103-0-0
52035-2-9

persons taxed who cut it for sale. The range of Hills called the Yercaud Mullah which intersects the western and Eastern Talooks, the Nulla Mullah range which forms the Eastern Boundary of the District together with the low brushwood tracts of unoccupied Lands interspersed throughout its area furnish the supply of this necessary article for the inhabitants. The villagers throughout the district supply themselves from the nearest jungles to their villages where, it is procurable. Around Burmoot itself and in the Talook of Goodoor Firewood is scarce and comparatively expensive and it is brought in for sale from some distance, the demand affords a means of subsistence to many of the poorer classes and it would be unadvisable in my opinion to interfere in any way with the existing system.

Burmoot Government Agents office, 10th May 1856

Br. No 1694

From the Ag Collr of Canara

Sir,

In acknowledging the receipt of the Board's Circular of the 18th Ultimo, No 1165, I have the honor to submit the explanation called for by the Board regarding the mode in which the monthly Statement of Demand Collection and Balance is prepared.

Land
Motunpaa
Small Farms
and
Abkary

2 As regards the items shown in the margin, the demand for the month is the amount due according to agreements, or otherwise, for that month. The monthly demand as regards Salt and Stamps, is represented by the Sale proceeds between the 16th of one month and 15th of another, the latter being that for which the Statement is furnished. The receipt at the Sea and Land Custom houses for the above periods are

Fort St. George 20th May 1856

are considered as the demand for the month of which the Collections of the first fifteen days only in reality appear. In regard to Amendavoe Cir the proceeds of a Sale of this article received in any month is taken as the demand for the same.

3 The amount of Collections shown in the Statement consists only of such sums as have reached the Huzzoor Treasury within the month for which the account is furnished. The remittances from the Talook Treasuries are made bi-monthly, i.e one on the 15th and another at the close of the month. Thus the second remittance for one month, and that made on the 15th of another, reach the Huzoor Treasuries at Mangalore and Honore in one and the same month, and these receipts form the Collections shown in the Statement of Demand Collection,

and

and Balance for any month for which it is submitted. The Collections from the Amendavi are altered in the month in which the sale proceeds of the Coir is received. The object of this system was to maintain strict agreement with the Cash accounts sent to the Accountant General but if this not necessary, the accounts could be made up so as to shew the actual transactions in Demand Collection and Balance of any month, the collections being the amount received into the Taluk Treasuries within the month. It would not however be possible to furnish the Demand Collection and Balance Statement as early as at present. The accounts of all the Taluk closed at the end of a month cannot be expected to reach my office at

at the earliest, before the 10th of the succeeding month. Ten days more will be required for the compilation of the accounts in the Huzzoor, and so the Statement of Demand Collection and Balance of one month can be furnished by the 20th of that succeeding it.

I beg to observe that by closing the Taluk accounts on the 25th and again at the end of the month, a risk of mistakes and increase expenses would be incurred and the Office work both in the Talooks and at the Huzzoor, would be considerably increased.

Collector's Cutcherry, Mangalore, 10th May 1856

(868)

Sir,

B. No. 1702
From the Collector of Salem.....
Forwards a decree of the Sub Court & draft appeal against it for Sanction.—

With reference to an Extract from the Proceedings of the Board of Revenue dated the 24th September 1855. No. 2478. conveying the sanction of Government for defending at the Public cost, Original Suit No. 30 of 1854. instituted by Tumpoliem, in the Trichengode Talook, in the Sub Court of Salem against the Sub Collector

I have the honor to state that the suit has been decided ex parte, and to forward a copy of the Sub Judges decree, adjudging to the Plaintiff the amount sued for with all costs of Suit.—

2. I also beg to submit the draft of an appeal petition which I propose to file in the Civil Court at Salem against the Sub Judges Decree, and to request that sanction may be obtained for my preferring the appeal.—

This

3. This suit was filed in the latter part of 1854. The Draft of an answer was submitted to the Board on the 31st July 1855. The Board, in Extract from their proceedings dated the 18th August, No. 2144, transmitted an Extract from the Minutes of Consultation, No. 962, calling for further information as to the merits of the case. On the receipt of these proceedings, the Sub Collector was requested to furnish the information required, and his letter dated the 31st August, was laid before the Board with my letter of the 1st September No. 96.—

4. In the meanwhile an application was made to the Sub Court to allow further time for filing the answer, but the Sub Judge refused to grant further time.—

5. On the receipt of the Board's proceedings, dated the 24th September 1855 No. 2178 conveying the Government sanction for defending the Suit, the answer was tendered at the Court, with a motion accounting for the delay. The Court refused to

to admit the answer.—

6. It then presented an appeal through the Government Pleader to the Suder Court praying that the Sub Courts order, refusing to receive the answer, might be over ruled. This appeal was made to the Suder Udalut instead of the Civil Court, because the then Acting Civil Judge, Mr. Cherry, was a party in the Suit.—

× 28th Novr 1855

7. The Suder Court refused, on the 10th January 1856, to interfere in the matter, and in consequence the case was investigated and decided ex parte.—

8. The reason why so much delay occurred in preparing the answer was explained in the Sub Collector's letter of the 31st august last to which I have referred in Para 3 of this letter.—

9. In regard to the first ground of objection in the Appeal Petition—I beg to remark that the Regulations do not give the Courts any power to refuse an answer, if offered at any period before the Plaintiffs evidence or proofs have been received. Neither "clause" of the "new" rules of Procedure," not

Section

Fort St. George 20th May 1856

Section XXIII Regulation VI of 1816 the Regulation quoted in clause 7 shows that the Courts possess that power, tho' the Court of Suder Udalut by their refusal to interfere in my appeal have given an apparent sanction to the opposite doctrine.—

10. The Regulations quoted in clauses 6 and 7 of the "Rules of Procedure" are Section III Regulation II of 1811, and Sections XX and XXI, Regulation VI of 1816. In accordance with those Regulations, the Courts are directed, under clause 6 "to proceed at once to investigate and decide the suit exparte," if the Defendant shall fail to appear &c. It is an immediate hearing that is here intended. If the Courts, from pressure of business or from any other cause, shall be unable to proceed at once to investigate the case, and in the mean while, the Defendant shall appear and offer an answer to the Plaint, the Judges are not, I believe, invested with any discretion. to accept or refuse the answer

Fort St. George 20th May 1856

answer, as they may think proper. Nor does it seem necessary on any general principle that suitors should be denied the benifit of a delay for which they are in no respect responsible.—

11. That suitors have been denied this right is owing I believe, to practice followed in the Salem Sub Court, and perhaps in other Courts, of declaring by an order recorded in the Diary, at a time when the Court is not prepared at once to proceed with the hearing, that the suit shall be investigated and decided exparte. This order is recorded as soon as the time allowed to the Defendant to appear has expired. From that date the Defendant is supposed to lose his right to plead, however long it may be before the Court can enter upon the investigation.—

12. In the present case, the date on which the answer was tendered was the 16th October 1856. The "points" were not recorded till the 24th December following.—

13. In regard to the 2d ground of objection

Fort St. George 20th May 1856.

objection, it seems sufficient for me to observe that the Court has found for the Plaintiff on an issue different from what was laid down in the "points" The Court found that Circar water had been used, but the Judge was of opinion that it was so used during to an accidental overflowing of the tank This appears to be the Court's meaning, but to this view the Defendant might justly object that the Plaintiff rested his case on a different and an irreconcilable ground, Viz.th "that no use was made of any other than his own well water"—

14 The time for appealing will expire on the re-opening of the Court on Wednesday the 28th Instant. A brief appeal will be presented to the Civil Court if the Board's final instructions should not reach me before the 28th—

Plaintiff	Defendants
Vencatachella chetty	1 J. W. Cherry Esqr. Sub
Vakeel Canary pundit	Collector.—
	2. Viswanada pillay Curnum

1 The Plaintiff in his plaint and supplemental plaint sues to recover Rupees 11-12-— being the additional Teerwah ordered to be levied from him for fusly 1262 on the land called Coopandee Poonjah, in the Canary of Treechengode comprising acres 3—19—12, including Jyval Garden and new Garden which was assessed at Rupees 10—11—9, which he continued to pay up to Fusly 1261. The Plaintiff states that he is not liable to pay the additional teerwah, inasmuch as he uses the water of his own Well and not that of a Tank or other sources of irrigation belonging to the Cirkar. The Plaintiff also seeks to obtain an annulment of the extra assessment.—

2. The Suit proceeded exparte.

3 The Plaintiff in his supplemental plaint filed on the 24th October 1855, states that, after the institution

Fort St. George 20th May 1856.

institution of this Suit, the 1st Defendant Collected from him Rupees 11-12-- in excess, on account of "Seerwah for fusly 1262, and requests that it may be also recovered from him (1st Defendant) and paid to him (Plaintiff)

4. Points were recorded by R. Cotton Esqre Esqre on the 24th December 1855.-

"Plaintiff to prove that in fusly 1262 the whole lands, assessed at Rs 10-11-9 mentioned in the plaint, were irrigated independent of Circar water. To prove that 11-3/4 were collected in excess as fusul Jasti.-

Judgment.

5. Plaintiffs witnesses 2 and 3 depose to the land in question being irrigated by the overplus of a Cirkar pond adjacent to Plaintiffs well which was full at the time, and which, as stated by all three of his witnesses, was the source from which his Garden land derived water and which well had been constructed by Plaintiffs father 40 years ago, as deposed to by Witnesses 2 and 3 The Puttah filed and the receipt corroborate the plaint.-

6. That Plaintiff should suffer from

Fort St. George 20th May 1856.

from the accident of excess of rain falling, when he had the means of irrigation heretofore enjoyed by him, and which appeared abundant, does not accord with the spirit of the Hookoommanah.-

7. The 2d Defendant is merely a subordinate Officer, and therefore 1st Defendant is held responsible for the amount sued for, and all costs.-

Given under my hand and the seal of the Subordinate Court, this 24th day of March 1856.-

No. 2

Draft of an appeal Petition proposed to be presented to the Civil Court of Salem by H. A. Brett Esqre Collector of Salem on behalf of A. W. Cherry Esqre Sub Collector of Salem and 1st Defendant in O. S. No. 70 of 1854 on the file of the Subordinate Court of Salem against the Decree passed by the Acting Subordinate Judge on the 24th March 1856.

1. This suit was brought by Vencatachella chetty of Mopattana poliem in the Trichengode Talook

8430

Fort St. George 20th May 1856

Salook, to recover Rupees 11-12-- the amount of extra teerwah levied on his garden land in fusly 1262.—

2. The Sub Judge adjudged to the Plaintiff the amount sued for with all costs of Suit.

3. The appellant objects to this Decree,

First because the Suit was investigated and decided Exparte tho' an answer was tendered on behalf of the 1st Defendant on the 16th October 1855 previous to the Court having recorded point at received any evidence for the Plaintiff.

And 2dly Because the Judgment shows that the Plaintiff failed to prove, as required by the Court that all the lands mentioned in his plaint were irrigated independent of "Circar water"—

4. On these grounds the appellant prays that the case may be remanded to the Court of Original Jurisdiction, with instructions to the Judge to receive the 1st Defendants defence or that the Judgment of the lower Court be at once be reversed with costs.—

Fort St. George 20th May 1856

868-869

To

The Secretary to Government

Revenue Department

Sir,

B. No. 1533

To the Secretary to Government

Revenue Department

Dated 3 June

I am directed by the Board of Revenue to submit for the orders of the Right Honorable the Governor in Council a letter from the Collector of Salem dated 14th May 1856 with the draft of a proposed appeal Petition

In Cons 20th May 1856.

2 It will be observed that the Sub Judge refused to receive the Collectors answer altho' tendered with a sufficient explanation of the delay which had occurred in filing it and notwithstanding that the points for the Plaintiffs case were not given until upwards of two months after the answer had been refused.—

3 The Board concur in Mr. Bretts view that the Regulations give a Judge no positive authority to decline to receive an answer tendered before the Plaintiffs evidence has been received. In the present instance there appears to have been no cause for refusing the defence accompanied as it was with a sufficient explanation of the circumstances which had occasioned delay

and

and the Board are of opinion that Mr. Brett is warranted in making this circumstance his first ground of appeal Section 23 Regulation 6 of 1816 which the Board believe to be the latest enactment on the point declares as follows "When the defendant shall attend either in person or by Vakeel within the period limited in the notice or proclamation or at any subsequent period before the Plaintiffs evidence or proofs shall have been received in the Case he shall be allowed to take a copy of the Plaintiffs Petition and to file his answers to the complaint."

4 The Sudder Adalut in their Proceedings of 16th March 1837 ruled that according to this Sanction an answer was to be received at "any time before the examination of the Plaintiffs witnesses" The Board are not aware if this order has been since altered but even if it should have been altered they cannot suppose that under any interpretation of the Section an answer can be legally

Refused

refused when it is tendered as on this occasion before the court had fixed the points on which the Plaintiff was to produce evidence.

5 The second ground is supported by the language of the decree for the finding of the Sub Judge is that the Plaintiffs lands did receive water from a Government Source.—

6 In forwarding Mr. Bretts letter I am desired to request that authority may be given to file the appeal and to suggest that as the time for presenting it will expire at the close of the month the order of Government may be communicated direct to the Collector.—

From the Chief Sec.y to Government. - Fin.e the Marine Department. Dated 15th May 1856

No. 140

Extract from the Minutes of Consultation

Read the following letter from the Secretary to the Board of Revenue -

[Here Enter 18th April 1856]

The Government cannot conceive

in

in the mode suggested by the Collector of Sea Customs for assisting the Registrar of Shipping Viz: that he [the Collector] "should prepare for Captain Bidon all the returns required to be sent to the Home authorities as required and to fill in the Certificates of Registry for him, and Sign them into his book of Registry" Such a delegation of the duties of one department upon another seems to them objectionable Whatever may be the duties devolving upon the Master Attendant at Madras under Act 17-18 Vic Cap 104 as Registrar of Shipping should be performed solely by him and his Establishment and they only should be responsible. —

2 As however it appears that the Collector of Sea Customs cannot make over any part of his Establishment to the Registrar of Shipping, the Right Honorable the Governor in Council resolves to call upon Captain Bidon after the further experience that he has had of the working of the Merchant Shipping act to specify distinctly what is the nature and extent of the duties devolving on him under the

the act either as Registrar of Shipping Shipping Master &c. in excess of those discharged by him before the passing of the act and if he require any additional Establishment for their performance to furnish such details as may enable Government to form a judgement as to the extra business now falling on him and the necessity of further aid for the despatch of it.

3 The Governor in Council does not appreciate the remarks made by Mr. Underwood at the close of his letter. The books of Registry and the official appropriation of numbers have already been bound and sets sent to each of the Registrars under the act Printed forms of all the documents A to O. appended to the act have also been supplied to them There can therefore be no occasion for these forms being written nor do the Government understand how these can be bound up, as they are required to be executed separately. It is observed also that there is a large Stock of these printed forms still at the Government Office The Registrar of Shipping at Madras will ascertain from the Registrars at Coringa and Cochin whether they

they need any more. and if so, will apply to Government for the supply wanted as also for any that he may require himself.

To

J. D. Bourdillon Esqre
Secretary to Government

Bd No 1738

From the Commissioner Northern Circars

Reporting on the management of the Estates under the Court of Wards for Fasly 1264.

Revenue Department.

Sir,

I have the honor to submit the report on the Estates in the Northern Circars under the charge of the Court of Wards for

Fasly 1264 / 1854/55.

2 In the report for last year mention was made of 9 Estates as under the Court of Wards besides Gumpalagoodem and Sirsapillay both small estates, the former in Vizagapatam and the latter in Rajahmundry. Of the 9 estates then noticed, two, viz Salour in Vizagapatam and Palaveram in Rajahmundry, have been placed in the possession of their Proprietors on their attaining their Majority as mentioned in para 10 of the report for last year Gumpalagoodem has been made over to the Mother of the deceased Minor Proprietor, under the orders of Government dated 13th April 1855 No 406 Sirsapillay is Managed by the Mother of the Minor as in last year.

The

3 The number of Estates to be now noticed as belonging to the year under report is 7 Of these one viz. Purlah Kunicdy, in Ganjam is retained under the Court of Wards in consequence of the Mental incapacity of the owner the remaining six belong to Bruiard.

4 Accounts explanatory of the Management of these Estates, Nos. 1 to No. 8 are herewith submitted. They have been prepared according to the Forms Received from Government 4th August 1855 Being the first year of the introduction of the forms there has been a want of Uniformity to them on the part of Collectors, but the accounts received from those Officers have been rectified in this Office as far as practicable The attention of Collectors will be called to the subject.

Statement No. 1. The total number of Villages comprising the Estates under report is 1017, of which 220 are Enams and Shrotriem The Remaining 797 Villages were settled as follows

Ryotwar	647½
Rents	150½

Villages in Rajahmundry 115½
Northern circars 1½
Masulipatam 9
Vizagapatam 4
131½

Of the Villages entered Ryotwar 131½ Strictly appertain to Joint Rents as that mode of Settlement was followed

followed in them, as in the Government Villages In the accounts from Ganjam 6 additional Villages are entered, probably Small Rhound patches of cultivation.

6 Of the Seven Estates Purlah Kunicdy was settled by Mr. Foord, the Principal Assistant and Cassimcottah by the Assistant Mr. Blair The Settlement of the other Estates was made by the Collectors respectively.

Season 7 The Season was favorable and the prices of grain very remunerative, advantages enjoyed in Common with the Government Villages.

Settlement No. 5 The land in occupation in the Ryotwar Villages was 150,627 acres bearing an assessment of Rupees 573,208 Remissions to the amount of Rupees 12,898 were granted, leaving the Demand on account of land Revenue at Rupees 560,310 but Rupees 73931 Ready Money Collections being added, the Demand of Fusly 1261 (1851/55) was fixed at Rupees 584,241, where the Ryotwar mode of Settlement was followed.

The particulars of the Remissions are as follows

	No.
Occasional Remissions allowed at the Settlement	2,319
allowances to Village Servants	8,910
Do. to Pagodas	1,450
Sundry items	220
Total	12,898

Of the occasional remissions the sum of Rupees 1779 was granted on account of loss of produce from excessive rains in Vizagapatam The allowances to Village Servants and Pagodas occur only in Pittapoor

Statement No. 3 10 + Including the revenue of rentod Village quit rent Moturpha and Sundry items the total Demand amounted to Rupees 671,510 the component parts of this sum being.

	Rs.
Ryotwar	584,241
Village rents	33,220
Quit rent	22,455
Moturpha Sundry items	11,594
	671,510

Statement No. 4 11 Of the foregoing sum Rupees 666,063 were collected within the Fusly, leaving a Balance of Rupees 18,047 to be realized afterwards. Of the latter sum Rupees 3584 were collected up to the end of March.

12 Of the arrears at the commencement of the Fusly amounting to Rupees 537364 the sum of 15% * 17,182 was collected and Rupees 298,947 were remitted in Pittapoor The outstanding Balances at the end of March were

* Exclusive of collections after the close of the Fusly.

Current Rupees — 14,163

Arrears — " — 213,110

both occurring almost entirely in Pittapoor.

The Collector recommends the remission of Rupees 165,922-2-10 out of the large Balance outstanding on account of arrears in the Pittapoor Estate. The above sum embraces the period from Fusly 1760 (1850/51) to Fusly 1263 (1853/54) both inclusive and is composed of —

	Rs. A. P.
Arrears in consequence of deaths	9,747-11-0
" " " of desertion	12,285-10-8
" " " of parties relinquishing cultivation for other modes of subsistence	67,197-7-1
" " " of poverty	76,091-2-1
Total	165,922-2-10

Much correspondence has taken place on the subject of these arrears. Those which appertain to Fusly 1260 (1850/51) have arisen from the excessive assessment of the Zemindar. The arrears of Fuslies 1261 (1851/52) and 1262 (1852/53), when the demand of the Zemindar had been in some degree reduced, are not altogether excusable, though the fault is rather with the Establishment than with the Ryots. — as regards those 2 years Mr. Purvis observes "the Estate seems to have suffered from the changes which were necessary in the Office of Manager and disputes arose between them and other native Servants"

In Fusly 1263 (1853/54) the season was unfavorable, at the same time

tenie Mr. Purvis does not altogether exonerate the local Officers from a want of due care to the Dates of the Collections. Although some of these arrears may be realized in future, if Season and prices combine in favor of the Ryot; the Collector expresses a Strong opinion against such a cause as prejudicial to the Estate and recommends that the whole amount may be written off. There seems no alternative under the circumstances of the case but to strike off the arrears in question and the Collector will be instructed to that effect in a Separate letter.

Of the arrears classed as recoverable at the Settlement of Fusly 1263 (1853-54) Virt. Rupees 76911-4 the Sum of Rupees 19.644-3-5- was collected in the course of Fusly 1264 (1854-55) and Subsequently. The current demand of the latter Fusly was realized with a fair degree of punctuality. This improved State of things will, it is hoped, be sustained. The Collector speaks favorably of the exertions of the Pettapoor Ameen in this respect: but not equally so of the Cocanada Ameen

Fuslies	Demand Rs	Collections Rs.
1263	3,80,876	3,21,184
1264	3,88,367	3,71,181

Statement No 13

13 The financial operations of the year are exhibited in Statement No 5 Cash and value

of Bonds together, the available assets at the close of last Fusly amounted to Rupees 8,97,062. at the close of the Fusly under report the assets were Rupees 9,47,798 exceeding the former Amount by Rupees 55,736 This increase is composed of cash Balance Rupees 17,774 and Investment in Government Bonds Rupees 37,962, the latter occuring in Coorpanum alone, no investment of Surplus having taken place in either Purlah Kimedy or Badagada. It is only in 3 Estates Viz. Coorpanum, Purlah Kimedy, and Badagada that there has been any Surplus available hitherto for investment.

14 In Cassimcotah and Coolleroonoo the cash Balances at the close of the period under report were less than in the previous year owing to the funds in hand having been applied to the discharge of private debts, in the former case in further liquidation of the Debt to the Zemindar of Pabelly and in the latter in part satisfaction of Rupees 14,000 to be paid to Pallarsetty Samoodralao Naidoo, in 3 instalments, the first and heaviest of which has been discharged with a portion of the Second. The foregoing amount of Rupees 14,000 is in full of all demands, the original

claim

Fort St. George, 21st May 1856

claim, inclusive of interest having been Rupees 20,000 for a part of which a decree of Court is held by the Creditor. In Purlah Kimedy Rupees 31,000 were laid out on roads and irrigation; in Badagada a charges of Rupees 1,478 was incurred on account of the Minor Zemindar for the ceremony of the Sacred thread and in Pittapoor Rupees 40,135 were disbursed out of the surplus receipts of which Rupees 27,530 are arrears of Interest from Fusly 1234 to 1841-42 Fusly 1259 1849-50 credited to Government and Rupees 10,605 on account of arrears of allowance to the Grand mother of the Minor Zemindar in accordance with the Decree of the Subordinate Court at Rajahmundry.

Commissioners Proc 1st April 1854

To Government 24th Dec. 1852 Para 6 From Do 11th February 1853

13 The sums invested in Government Bonds standing at this date at the credit of the wards are:

	Rs.
Purlah Kimedy	39,330
Badagada	41,313
Coorjanum	649 61-5-7

Statement No. 8 14 The Demand, Collection and charges in Comparison with the preceding year are exhibited in

Fort St. George, 21st May 1856

in the following abstract Statement.

Items	Fusly 1265	Fusly 1264	Difference
Demand	672,185	674,510	+ 2,025
Collection	604,489	636,463	+ 31,974
Charges	577,179	680,486	+ 103,307

17 The difference in the Demand is inconsiderable and does not call for remark The bulk of the increase in the Collections occurs in Pittapoor and is owing to the favorable character of the season. The increase in the charges appears large but arises from the disbursements mentioned in the preceding para and from a balance of Peshcush in Pittapoor belonging to the previous year having been debited in the current year as well as the full amount of the current Peshcush.

18 The relation borne by the Demand of Fusly 1265 1854-55 to the Peshcush in the several Estates under consideration is shewn in the following

Fort St. George, 21st May 1856

following Statement:

Names of Districts.	Names of Estates	Amount of Peshcush	Demand of Fusly 1261	Amount of Profit
		Rs.	Rs.	Rs.
Rajahmundry	Sittapoor	2,74,418	388,567	42-63
Ganjam	Purlah kimedy	82,529	181,029	119-35
Vizagapatam	Cassimcottah	33,510	52,724	57-32
Do.	Coorpanam	12,461	25,521	104-78
Ganjam	Badagadah	4,500	13,006	223-15
Do.	Paradah	2,000	7,818	290-90
Masulipatam	Chottaveeroo	2,940	6,842	98-7
Total		409,861	674,310	64-57

19 There is no improvement in the State of mind of the Zemindar of Purlah kimedy. His younger brother attends nearly daily at the house of the acting Collector at Chatterpore where a person is appointed to instruct him. He is stated to be "profiting very much by his opportunities and anxious to improve himself." Attention is also paid to the Education of the Badagadah and Paradah Minors and Mr. Russell proposed to bring them more closely under his observation on his return from circuit; but

Fort St. George, 21st May 1856

but both will soon attain their majority.—

20 The Cassimcotah Minor Zemindar — Bauntreprajada Venkatta Chellum is 10 years of age and attends as before, the Mission School at Vizagapatam. His progress is creditable, and as he advances in age he will exhibit, it is hoped, in proportion to his talents, the attainments which mark the youths brought up at that institution. The Coorpanam Minor will come of age in the present Fusly, but there is a suit pending in which the right of succession to the Zemindary is contested.—

21 The Minor Zemindar of Pittapoor Rama Gungadara Ram Row, is still pursuing his studies at the School at Cocanada. Established by certain influential individuals of the Native Community. His health has not been good and the Collector is not satisfied with the present arrangement, chiefly apparently because so many circumstances combine to draw off the attention of the Minor from his studies. He is 11½ years of age. His next brother Rajah Row Soorya Narayana Prakasa Mahapatter Row, about 10 years old, has been removed to Bobbely and adopted by the Proprietor of that Estate youngest brother Row Venkatarow nearly 8 years of age, has

8456 Fort St. George 21th May 1856.

has always resided with his Grandmother Rojah Row Bhawiah and her Daughter Vellenky Lutchmee Venkiah, since the death of the late Zemindar as the present arrangements did not appear to be for the interest of the Minor Zemindar and his youngest Brother Row Venkatarow, I addressed the Collector some time ago on the subject and am awaiting his reply.

27 The progress made by the Minor Zemindar of Pooltreevemmoo in his studies was reported by the Collector to be of a very ordinary description, and adverting to my letter to Government 8th February 1856 No 22, and to the wish of the Father of the minor that the young boy should be brought up at the Revd Mr Noble's School at Masulipatam, rather than that he should proceed to Madras for his education, should the Right Honorable the Governor in Council see no objection to such an arrangement, the Collector was told on the 19th February last that no time should be lost in placing the minor at Mr Noble's Institution.

No. 29

To

G. S. Forbes Esqre.

Secretary to the Board of Revenue

(915)

Ex. No. 1263
From the Collr of Cudapah
Reporting that a Printing press has been received from Bellary and by the English Department, as they have been removed proposing certain reduction from into that set a part for the use of the assistant Collector, but up to the present time, no types have been received, as the Collector of Bellary stated they would be sent as soon as they were assorted, and to request you will be so good as to engage the necessary Establishment for commencing the work on the receipt of the types - The Press appears to have been very much used -

Fort St. George

Sir,

I have the honor to inform you that a Printing Press has been received from Bellary and set up in the room usually occupied by the English Department, as they have been removed to that set a part for the use of the assistant Collector, but up to the present time, no types have been received, as the Collector of Bellary stated they would be sent as soon as they were assorted, and to request you will be so good as to engage the necessary Establishment for commencing the work on the receipt of the types - The Press appears to have been very much used -

2 In para 6 of the Extract from the Minutes of Consultation under date the 21st November 1855, the Right Honorable the Governer in Council desires that it must be distinctly understood that the reduction must really Cover the Charges, in order to do this I experience Considerable difficulty, as the Establishment for the Collectorate of Cudapah is at present at the minimum at which the duties can be Carried on in fact is insufficient and I have understood that Surveyor Abstracts of the different Districts have been prepared by the Secretary to Government

Government

Government in the Revenue Department, when it was found that that of Cuddapah was much under the average of the others. I shall merely confine my remarks to a comparison of the Establishment of the neighbouring district with that of Cuddapah to show that the latter is very small and cannot well be decreased. The land revenue in Fasly 1262 in Cuddapah was Rupees 2174603. abkarry Rupees 118616 Inhaturpah Rupees 150336 total Rupees 2443555 the land revenue of Bellary is Rupees 2223821 - abkarry 283763 Inhaturpah 272810 total Rupees 2780394, for the abkarry no Establishment is required as the parties give Security for the Contract shewing an increase of Rupees 49218 - in land Revenue and Rupees 122474 - - in Inhaturpha. The Sheristadars Establishment at Cuddapah includes two Sheristadars and 18 Goomastahs, that of Bellary 3 Sheristadars and 36 Goomastahs, being just double that of Cuddapah with the increase of one Sheristadar. The Carkoons in Cuddapah are 62 in number, whilst in Bellary 107, the number of fields to be examined in the former is 99705 7 and that in the latter is 505438 - and the numbers in Cuddapah require more attention as a larger revenue is collected from irrigation than in Bellary and

and it is necessary to examine what cultivation is carried on upon each number in order to fix the assessment and to know whether it is liable to Iswapasty and Fasulpasty or not, and further whether one third or one fourth remission is to be granted by the irrigating water being drawn from tanks or wells.—

3 The Board of Revenue have repeatedly remarked upon the number of Cases furnished by the Collector of Cuddapah in comparison with those of Bellary but I think the Board on comparing the Establishments of the two Districts will perceive the facility the Cummums possess, in defrauding the Government of its revenue and the diminished chance of their being detected, on account of the fewer number of Servants employed in examining the lands The Carkoons are not employed Solely in examining lands, they are also employed in Police duties, in holding Coroners inquests in proceeding to Villages where thefts and robberies have taken place, making preliminary enquiries and reporting their proceedings to the Head of Police.—

4 It is found at the settlement to be quite impracticable to examine the whole of the numbers in the District it is therefore found requisite to employ a temporary Establishment and in addition to these deputing, Hoozoor Hangamy Goomastahs, established carkoons and Rommaka Ry carkoons the

the tonakeyjasty amount for the last three years is shewn in the margin being from double to triple above what it was previously and these three years were years of scarcity. It is not unreasonable to suppose that if the season were very favorable and larger quantities of land taken up, the tonakeyjasty would be much greater, and if not discovered the loss to Government would be equally so. and if the Establishment were increased the opportunity of the Reddies and Curnums defrauding Government would be diminished. fewer punishments would be required and time would be saved in scrutinizing the Village accounts, taking evidence and preparing accounts of those Villages where it is found concealed cultivation exists and money collected has been misappropriated. the Curnums finding that the chances of detection of any misconduct on their part were increased, would be deterred from falsifying accounts, concealing cultivation or embezzling collections and for the want of sufficients hands great delay takes place in examining complaints of concealed cultivation, which if they could be examined into as soon as preferred would ensure speedy detection and punishment would in some

measure deter others from following the like practice.—

5 In the Magistrates department no reduction of Establishment can take place there being one Magistrate Jabobnevess and 4 Goomastahs one of whom is required for the Head assistants establishment one for the assistant when present leaving the Magistrate one Jabobnevis and two Goomastahs for preparing the whole of the accounts, and in like manner in the Revenue Department the Revenue Moonshees and their establishment cannot without great inconvenience be reduced, neither can the Establishment under the Head Writer, which by the way is very insufficient on account of the small pay of many of the Writers, efficient men cannot be procured nor that of the Head accountant be reduced. and that of the treasury is merely sufficient for the duties required and in general the talooke Establishments (with the exception of Cutcheries which are too few) are hardly sufficient to carry on the duties efficiently, and the Board under their proceedings dated 31st January 1856 have called for a reduction against the peons I would therefore submissively request that the Board will take the above circumstances into their favourable consideration and permit those employed upon the printing press to be an extra establishment

and

and that no diminution may take place consequent on its introduction but Should the Board insist upon a reduction of the Establishment, the only method that Scan propose is to reduce the pay of the district tappal runners from 5 to 4½ Rupees which would yield a Sum of Rupees 33-8- but at the same time I consider their present pay is not in excess of the duty they they have to perform and any reduction would not be expedient. To these I would add one writer of 10 Rupees from the Head accountants Department one Goomastah of 10 Rupees from the treasury Department and a further reduction of Rupees 13 as shown in the margin might be made altogether making up a Sum of Rupees 66-8- At the same time distinctly beg to State that this removal will be attended with a very considerable inconvenience as the Establishment has been fixed so low, that it has been hardly sufficient to carry on the duties. I therefore leave it entirely in the hands of the Board to decide whether the reduction shall take place or otherwise. It must also be borne in mind that in Sending Circulars to the different Talooks whilst on Circuit there being no press at hand they must be copied manually otherwise very considerable delay will be occasioned by sending the circulars to the Hoozoor Station and receiving them back after being printed.—

Out of the Salary of a Shroff in the Hoozoor Treasury receiving a Salary of Rupees 25 per mensem	Rs. A. P.	
Out of the Salaries of the 5 Mufsalchees by reducing their Salaries Viz.ᵗᵉ 3 from 5 to 4 and 2 from 4½ to 0½ —	5 — —

Cuddapah Collectors Office
11th April 1856 — } /Signed/ M. Murray
Collector
In

Pt. P. 1553
Proceedings thereon
(915-916)

In the above letter the Collector represents the smallness of his various Establishments and states that any reductions made in them would be productive of considerable inconvenience. He proposes however to make the following changes in order to meet the wishes of Government with regard to the introduction of printing

	Rs A P
Reduction of 8 annas a month in the pay of 67 District tappal runners	33-8-"
One Writer from the Head accountants Department	10-"-"
One Goomastah from the Treasury	10-"-"
Reduction in the pay of a Shroff in the Hoozoor Treasury	4-"-"
Reduction of 1 Rupee each from the wages of 5 Mufsalchees	5-"-"
Reduction of 4 Rs. from the Cutwalls salary	4-"-"
Total	66-8-"

The Board cannot give their Concurrence to these reductions the means of working the press must be provided chiefly from that portion of the Establishment which will be relieved of some of its present duties by the use of printing, in place of copying Mr. Murray should endeavour to dispense with the services of some of his writers and Goomastahs or to place a certain number of those who are of an age to learn the art easily under the instructions of a Compositor whom the Board will send to him for that purpose.—

Secretary to the
Board of Revenue

Sir

(932)

Bd No 1628

From the Civil Auditor Madras

In reply to your letter of the 8th Instant I have the honor to inform you, that it was not the intention of the requirement that your Head Uncovenanted Assistant should certify that the Pensioners paid thro' your Office are alive, to subject pensioners to the inconvenience of personally appearing at your Office for inspection at the close of each month. It does not appear to me to be necessary that your Uncovenanted Assistant should actually see the pensioners in order to be assured of their existence. The testimony of those of the Establishment or of other reliable persons, who may be living near them ought

8493. Fort St George 21st May 1856

ought I am inclined to think, to be sufficient authority to the Uncovenanted Assistant that they are not dead. I do not believe that the adoption of the course now suggested will bear hardly on this officer, in as much as the plan proposed by you in para 4 of your letter — to allow pensioners to draw their Stipend through a third party for five consecutive months will impose a higher amount of responsibility.-

2 I beg to add that the rules of the 13th May 1851 specially exempt pensioners unable to attend in person, and permit in such cases Vakeels nominated by the [illegible] to draw their Stipends. Should you think it necessary to allow Vakeels to receive the pensions of those incumbents whom you represent to be infirm and living at a great distance, you are quite competent to do so but your doing so, I must observe, will not relieve your Uncovenanted Assistant from the necessity of certifying to their existence whatever mitigation may thereby be afforded to the Pensioners themselves.-

Fort St. George 21st May 1856.

1st Defendant in the Suit.—

4 As there was disputing among the parties as to who had the best claim upon the land the Sub Collector Mr. McDonell, issued an order dated 5th March 1855 prohibiting any of them from cultivating it till a decision could be passed In disobedience however to this injunction the land was cultivated by some of the disputants, but it could not be discovered by whom.

5 In due course the Head Assistant Collector, in charge of the Sub Division, made over the land with the crop on it to the 1st Defendant who has since had possession of it.

6 The Plaintiff claims the land also on the ground of his having signed an agreement to cultivate it and pay the Peishcush The document to which he refers is one known as a Maramut Moochilikah, by which a Ryot binds

Fort St. George 21st May 1856

binds himself to cultivate land provided a certain amount of repairs are made to the sources of Irrigation or else some new work is constructed. A document of this kind exists signed by the Plaintiff and many others, in which 3 cs 7½ as of the land sued for are entered.—

7 The proposed Maramut work was ordered but not executed. In the mean time the land in question was disposed of to the 1st Defendant.—

8 The agreement does not show to which of the signing parties the fields in question were to have been given

9 The Plaintiff omitted to rest his claim upon the Maramut agreement when the case was under disposal by the Head Assistant Collector or when it was in appeal before me but grounded his right upon his having been the first applicant.—

10 The land was assigned by

Fort St. George 21st May 1856

by the Head Assistant Collector at the Summabundy to the 1st Defendant because he was not only the 1st Applicant for Fusly 1265 but a substantial Oolcoody Ryot, while the Plaintiff and the other applicants had already land in their possession, to the extent of 50 Cawnies, which they had left uncultivated.—

11 The proposed answer will I think be sufficient to file in the first instance, leaving any other points to be discussed as the suit progresses.—

12 I beg to request that the Board will be pleased to solicit the sanction of Government for the suit being defended, as far as the Revenue Officers are concerned, at the Public expense.

Collector

Fort Saint George 21st May 1856

Enclosure No. 1

Translation of a Plaint No. 11 of 1855 filed in the Acting Principal Sudar Ameen's Court at Cuddalore.

Plaintiff	Defendants
Pagavendrarow alias Coopooraw a Cultivator residing at Teeroomadoorah Village attached to Ellavanasore Talook	1 Sawmy Naicken son of Narrana Naicken residing at Sundaputtah attached to the above Village a Cultivator.
	2 Curnum Vencatayer residing at Randulea dee and Seeroomadoora Villages attached to Ellavanasore.
	3 G. Banbury Esqr Collector who was then incharge of the Sub Division of South Arcot.

I hereby sue for the recovery from the 1st Defendant of Rupees 106 4 - being the value of the produce of 3 cs as 13 - 9 p of Nunjah land which I obtained in Fusly 1264 on Moochilikah as my share out of 30 and odd Cawnies of Nunjah land lying immemorially waste

waste in the aforesaid Village of Seeroomadooray

I further sue that the order passed by the 3d Defendant by which the land in question bearing an annual assessment of Rupees 62-3-1 was illegally made over to the 1st Defendant may be cancelled and the land itself given to me on Puttah. The total amount for which I sue is Rupees 148-7-1-

1st When I and certain other Ryots tendered a Durkast in Fusly 1264 for 30 and odd Cawnies of Nunjah land lying immemorially waste in the said Seeroomadooray Village the Cirkar took from us a special agreement to cultivate the same as well as our other Kyput lands.

2 Under the above right, I and other Ryots divided the said waste land when the C 3- A 13- P 9 of land in dispute fell to my share. I prepared them accordingly for Cultivation and sowed "Kaur" Paddy on them while the Crops were growing the land with its produce I was without asking my consent made over to the 1st Defendant during the Jummabundy settlement of Fusly 1264 on the alleged ground that he had tendered a Durkast to cultivate it for

for Fusly 1265 upon this I appealed to the Collector against the said order but this officer confirmed the one passed by the 3d Defendant I sans the 1st Durkastdar to the disputed land and I cultivated it under the right of Moochulkah Kabooliat It was not therefore just that the said land should be made over to the 1st Defendant with its crops. If I had reaped the produce of the litigated lands I would have obtained 100 Cullums of Paddy with 100 Bundles of Straw after deducting the Seervah and the expenses of cultivation but as I was deprived of the produce by the Defendants it is just that the 1st Defendant who enjoyed it should be answerable for the same.

3d As the Act of 2d and 3d Defendants gave rise to this suit this action has been brought against all the Defendants.

I therefore pray the Court to pass a decree to recover from the 1st Defendant the sum of 100 Rupees being the value of 100 Cullums of Paddy produced on by the litigated lands at the rate of 1 Rupee per Cullum according to the selling price at that time & also Rupees 6-4-0 being the value of 100 Bundles of straw at the rate of one Anna per Bundle and also to cause a

No. 3

Translation of a Supplemental Plaint of Suit No. 11 of 1855 filed in the Acting Principal Sudr Ameens Court at Cuddalore by the Plaintiff Ragavendra row alias Coopooraw.

I have instituted a Suit against the Defendants Sawmy Naicken 1, Vencataroyer Curnum 2, and Geo: Bamber Esqr the Head Assistant Collector 3, for the recovery of Rupees Cawnies a — p 106-4-0 being the loss of produce and also for 3-13-9 of Kunjah land bearing an annual assessment of Rupees 42-3-1 I included the Head Assistant Collector as 3d Defendant in consequence of his having made out a Puttah in the name of the 1st Defendant during the Summabundy Settlement of Fusly 1264 for the land in litegation to which I lay claim.—

Agreeably to the Court's order directing me to include A. Hall Esqr the Collector as first Defendant in consequence of his having confirmed the order of the 3d Defendant when I appealed to him against it I hereby file this Supplemental Plaint including him /Collector/ as Defendant

I therefore pray the Court will be pleased to accept this supplemental Plaint and Conduct the Suit including the Collector also as a Defendant

Answer

8506 Fort Saint George 21st May 1856

No 3

Answer

1 That the land being acknowledged immemorial waste the Collector had power to grant it on behalf of Government to the most Eligible applicant.—

2d That the Plaintiff was not the first applicant for the land and that the fact of his having cultivated it / supposing he did so / in the face of the Sub Collectors' prohibition dated 5th March 1855, gave him no claim to it.—

3d That the Maramut agreement was never carried into effect as the proposed work was not executed.—

4 That the Plaintiff cannot say that he ever possessed the land legally unless he can produce a Patta to prove it, which he admits he cannot do.—

/Signed/ A. Wall

To the Collector of South Arcot

In Cons: 21st May 1856

To,

The Collector of

South Arcot.

Sir,

In reply to your letter of the 14th Instant, forwarding Copy of a plaint filed in the Principal Sudr Ameens' Court at Cuddapah in which yourself and your head assistant have been included as Defendants and submitting a draft of the answer you propose to put in, I am desired by the Board of Revenue to request that you will inform them on the following points.—

1st Whether the Maramut work spoken of in your letter as ordered but not executed is designed to be carried out and

2dly What the nature and cost of the work is and whether the 1st Defendant when taking the land relied upon it or was left to make his own arrangements for obtaining irrigation.—

2— The Board would wish also to be furnished with a Copy of

940-941

Order thereon -

Ordered to lie over.

Read

D/28th April in Cons: 8th May 1856.

Read letter from the Collector of Madras bringing to notice the intention of Mr. Cammeade a Merchant of Madras, of Esta= =blishing a Depot, for retail of Salt at Amboor near the Western Terminus of the Railway.—

942

B. No. 1574.

Proceedings thereon—

In this letter Mr. Cunliffe reports the result of an interview with Mr. Cammeade a Merchant who expresses himself desirous of establishing a Salt depot at the Village of Amboor near the terminus of the Railroad in the vicinity of Arcot and has detailed the plan upon which he proposes to conduct his enterprize— The object of Mr. Cammeade's application is to ascertain the intentions of Government as to connecting the Madras Salt Cotaurs with the Railroad and as to the system of Rowarnas which will in future be inforce but the Board conclude that he is also desirous to learn whether it is the intention of Government to have the transport of Salt entirely to private enterprize—

It

Submitting with a view to ascertain the intentions of Government respecting the establishment of Salt Depots along the line of the Railway, a letter from the Collector of Madras forwarding one from Mr. Cammeade intimating his intention of opening a retail Depot at Amoor, and expressing the Board's opinion regarding the former to pre-

2. It does not appear whether Mr. Cammeade proposes that he alone should have the privilege of carrying the Salt or should enjoy any special advantages on condition of his selling the salt at a given rate, but he has entered into some detail as to the price at which he expects to be able to retail the Salt at the new depot—

D/1st Feby. 1856.

3. The Board on a late occasion addressed the Government with the view of ascertaining their sentiments with reference to the establishment of inland depots along the line of the railway and were informed by Extract Minutes Consultation under date the 13th March 1856 No. 295 that the Government would not at present enter upon the subject because the future of the Salt Revenue was so uncertain and also on account of the high rates of carriage which it appeared that the Railway Company proposed to establish. But the Board consider it desirable that Mr. Cunliffe's letter should be laid

Inclos: 7th April 1856.

laid before the Government in order that they may have the subject fully before them when the measure of establishing Inland depôts on behalf of the Government shall be taken into consideration and the Board resolve to forward it with the following observations.-

4. The Board are satisfied that it will be the desire of Government that Mr. Cammiade should distinctly understand that neither will they be prepared to afford any facilities for the transport of Salt to one party that are not offered to the trade generally nor on the other hand will they have any desire to bind him to any stipulation as to the price at which the Salt is to be retailed. It will be equally open to Mr. Cammiade and to any other dealers to purchase according to the established rules, and the price at which the Salt is retailed will be left entirely to the ordinary effects of competition.

With

5. With reference to the very important question of connecting the railway with the Salt depôt the Board of Revenue observe that under the orders of Government contained in Extract Minutes of Consultation under date the 21st Ultimo, No. 515, Public Works Department they have placed themselves in communication with the Chief Engineer and the Collector of Madras and hope shortly to report to the Government on the subject. Without placing implicit reliance on the calculation made by Mr. Cammiade that the transport of 36,000 Indian Maunds of Salt per Month on Carts from the Depôt to the railway will cost 1,400 Rupees or Rupees 16,800 per annum, and that the cost of a junction railway will be Rupees 10,000 this statement shews the importance of the question and they are anxious that measures should if possible be taken so that the railway may be made fully available to the Salt trade as soon as it is open to the public.-

In Cons: 20th April 1856.

(Dated 8th May 1856.)

(Do. — Do.)

On

6. On the subject of Rowannahs the Board need not at present enter further than to state that they hope that when the railway is the means of transport the rules on this subject may be greatly modified. The necessity for the Rowannah ceasing as soon as the Salt has reached the Railway.

7. The Board have now to add that their principal reason for laying Mr. Cammiade's proposal before the Government is that if they should merely reply to the effect that Mr. Cammiade is at liberty to purchase Salt under the existing rules and to carry on the trade whether by rail or otherwise, it might be viewed as an intimation that it was not the intention of Government to establish inland depôts and should this measure afterwards appear to be necessary the Government may be embarrassed by assertions that private Capital has been invested in the trade on the faith that the Government will not interfere.

8. The Board have been

gratified

gratified to find that private enterprize is already excited by the improved prospects of the Salt trade, but still the question remains whether the great object in view, that of diminishing the price of Salt to the consumer and at the same time increasing the revenues of Government can be best obtained by the exertions of private individuals or by the establishment on the part of the Government of large inland depôts. If the private Merchant instead of cheapening the article to the consumers really enhances its price above that at which the Government would supply it, it cannot be to the interest of the public that the Government should recede in favour of the private speculator and so long as Government interferes with the Salt trade by its monopoly, it seems incumbent on it to take whatever measures are most to the advantage of the general consumers.

9. The Board learn from the parliamentary reports that the report

of

of the Commissioner on the Salt Revenue will shortly be laid before the House of Commons and they would therefore only suggest that it be intimated to the trade that the Government will hereafter consider whether it is to the advantage of the public that the Government should establish inland depots and that under any circumstances all their Depôts will be open to all purchasers.—

10- That it is to the interest of the public that the Government should under present circumstances establish large inland depôts is the opinion which the Board on careful consideration of the subject retain and they will take the present opportunity of placing before the Government some of the reasons, upon which this opinion is founded, and which they trust will be taken into consideration when the question is to be finally determined.—

The

11. The Board will refer in the first place to the Minutes of the Honble D. Elliott dated the 21st April 1851 and the Honorable Mr. Thomas dated the 3d May of the same year, in which both of those Gentlemen advocate the establishment by the Government of inland depôts and the Board feel sure that the recorded opinions of those so competent to Judge will be weighed before the project is set aside- Mr. Elliott was of opinion that it was desirable that the Salt should be sold at the inland Depôts at the same rate as on the Coast, the Government depending upon the effects of Cheapness in increasing consumption to cover the cost of carriage-

Vide Parliamentary Report Madras Railway Company 1st p 63 & 69.

12- In this opinion the Board fully concur provided it is intended to keep the Monopoly price at its present height and they think that the certainty

of

Fort St. George 21st May 1856.

of such a result may be thus illustrated. Under the system upon which the Salt trade is at present conducted the high rate of duty and the risk to which the Merchant is liable from accident and wastage, with the cost of Carriage, so enhance the price of Salt that there is a radius from the depot beyond which the Salt on these terms cannot be carried and sold at a price which the consumer can afford to pay. Here the consumption of Sea Salt ceases and that of earth Salt disliked by the native community on account of its supposed unwholesomeness takes its place. It is obvious that if a Salt depôt is established 60 Miles inland the circumference of this Circle is also moved sixty Miles and embraces an entirely new body of consumers, at the same time that it cheapens the article and enhances consumption within the former limits.

13. If the distance be 240 Miles the

Note.
The Railway Company is prepared to convey the Salt at 1 Pice per ton per Mile or Rs 2-3 for 60 Miles taking the Garce at 4 Tons. This equals Rs 8-12- per Garce. Supposing the profit on Garce of Salt after paying the cost price of carriage, and all expenses to be 6 Rs the sale of every extra Garce would cover the cost for carriage of about 11 Garce. That is if the sale should be increased one eleventh only the

J.H.B.

the cost to Government could be covered, and everything above this would be pure gain to the State and benefit to the people.

the area of consumption might be taken at one fourth; but as it would probably be less thickly peopled the consumption may not be increased one fourth by this alone, but if the extra consumption within the former area is added an increase of one fourth of the present consumption may very safely be estimated.

The Board believe that it can

11. be clearly shewn that an increase of one eleventh only would cover the cost of carriage and to this they will revert below. If this estimate is nearly correct the clear profit to Government will be about two thirds of the increased sales.

That this Method of cheapening the salt to the people and enhancing the Revenues of Government as proposed by Messrs. D. Elliot and Thomas and the Board understand approved by the Government of that day should be carried out is the Board's desire. The price of Salt at a Depot is now it appears Rs. 153-11-9 per

8520 Fort St George 21st May 1856

per Garce. The measure proposed reduced it to Rupees 120 and the Board hope that their Estimate of increased consumption to the extent of one fourth will appear to the Government reasonable.

15 In Mr Bourdillon's letter of the 20th December 1850 the price of Salt at Pulamanair was stated to average upwards of 180 Rupees the Garce. The effect of a depot within 59 Miles at which it will be always procurable at 120 Rupees may be estimated from this fact, but the Board have been desirous of making their Statements on the most moderate scale.

Vide Parliamentary Report para 61

16 It appears to the Board that the great question is whether private enterprize aided by the Railway can produce similar effects. They think that it is sufficient to observe that the carriage of Salt by carts is estimated at 1 anna per ton per mile, and that the proposed charge by Railway to private individuals is 9 pice per ton per Mile, with a terminus fee. It appears to

Vide papers on the Madras Railway appendix Page XXXIII.

8521 Fort St George 21st May 1856

to the Board to be impossible that under those circumstances the railroad can be a material aid in developing the salt trade if carried on by private parties, as when it is made use of by the Government. The Board will not attempt to determine exactly the price at which the merchant will be able to sell the Salt, but they are satisfied that it will not be so much below the present price as to extend the consumption and so raise the Net revenues of Government to the same extent as it is in the power of the Government to do by the measure proposed by Mr D. Elliot. The Railway Company are prepared, the Board understand to carry the salt for the Government at the rate of 7 pice per ton per mile in consideration of the steady and extensive employment which will thus be ensured to their trains. This alone is a saving of 24 per Cent on the carriage.

17 There is another point in which the Board consider that the subject should be viewed. They refer to the prevention of smuggling and

theft. It is when the manufacturing and sale transactions are blended that these frauds are principally practised. That the salt as soon as ready should be measured and forwarded to the inland depot will, the Board believe greatly improve the whole system

18 The Government have resolved that the salt for exportation shall be conveyed from the Depôt to the Beach by the Government and not by the private Merchant. For this purpose the railway is to be used. The Board are satisfied that if the Government should resolve to make use of the rail on their own account equally for conveying the salt to storehouses on the beach for export by sea, and to inland Depôts for the consumption of the interior a very efficient contract, and very economical arrangement will be established.

19 The Board will only add that while the Merchants profit on every additional Garce sold is only a very few Rupees that of the Government even if they bear the expense of

2nd Minute of Con. 21st instant: 26th April 1856.

of the carriage will be about 96 Rupees. It cannot therefore be expected that the Merchant should enter into the trade on the same extensive and efficient scale it is the interest of the Government to do. The principle of obtaining an increased revenue by extended sales and smaller profits the cost of carriage being borne by the Government has been acknowledged and acted upon by the Government of India on the recommendation of the Government of Madras in a former instance and the Board in conclusion strongly urge that this principle should not be abandoned when its application on so large a scale will confer so great a benefit on the People as that of reducing the cost of a necessary of life from 153 to 120 Rupees.

20 The Board will here advert to the observation of Government that the opinion expressed by them regarding the establishment of inland Depôts in their Acting Secretary's letter of 1st February last is

* Exd. Minute of Consn. 13th March in Cons. 7th April 1856. P. 2.

is very different from that given upon it in their former communication of 4th January 1855 Para 3 to 8. The Board desire to point out that on the former occasion they were arguing against the establishment by Government of inland Depôts at places to which Salt must be conveyed by the ordinary carriage of the country, such as bullock bandies &c &c, whilst on the last occasion they founded their recommendation on the circumstance that the railway would give that aid which rivers do in Canara for establishing Depôts to which the inland traders could throng, and it appeared to them that by the Establishment of such Depôts trade would be promoted instead of interfered with. The conveyance of Salt to different towns and villages where

where the consumers reside would still be left to private enterprize, and the Board thought that the railway thus afforded the means of carrying out the wishes expressed by the Honorable the Court of Directors for the establishment of inland Depôts with a view to lower the price of Salt, and thus advance the interests of the public as well as increase the Government revenue.

21 In conclusion the Board will only remark that if it should be in view to reduce or the Monopoly price, or introduce in its stead an excise duty on so moderate a scale as to allow private Capital to be freely employed in the Salt trade the necessity for

Fort St George 21st May 1856

for Government establishing inland Depôts would in their opinion cause. They now argue in favor of such Depôts from being of opinion that the present high price at which Salt has to be purchased in the first instance, joined to the risk and cost of its conveyance must deter private Capitalists from engaging in the trade unless they charge consumers at a higher rate than it would be the interests of Government to do.
