Sir

I have the honor to report the demise of Jagheerdar Mahomed Said Meau on the 29th March 1855.

2. The deceased under the orders of Government dated 7th January 1843 No 2 at the recommendation of the then Commissioner Mr Bayley was allowed to retain for life the moiety of the revenues of three Villages with one Assd Meau still living these Villages were enjoyed by these parties under the late Government and in their possession at the time of the assumption being hereditary School Masters of the Nabobs family.

3. Under the Government orders

Fort St George 20th October 1856.

orders dated 29th September 1842 the right of succession to such Jagheers has been disclaimed but in similar cases an allowance has been conferred on the families in lieu thereof and in bringing to the favorable notice of Government for their consideration the late Jagheerdar Mahomed Saib of Meau has left an aged mother, a wife and one son entirely destitute, I beg respectfully to suggest that one third of the average Collections of the three Villages previously held as Jagheer by their relative, be now allowed as a life pension to the Son of deceased the same being the average of collections calculated as shewn by the accompanying Statement from the date of the assumption of this Province.—

I have the honor also to submit in the prescribed form for the order of

Syed Idoos Shah son of Hoofsain Shah an inhabitant of Calwah in the Pauniem Talook.-

Be it known to all whom it may concern that while I am in the full posfession of all my Senses I have made over to Moulee Syed Hissa Mohadeen Saib a Takeya &c. Situated at Calwah in the Pauniem

Fort St George 20th October 1856.

Pauriem Vezt consisting of one Beejawaree Coodoo
in my name as per Sunnud without any one
else having a Share in it and 3 Beejawaree
Coodoos were also granted by the Reddies and
Curnams by a Special order of Nabob Alifkhan
Bahadoor commencing in the
Hezeree 1213 and it was on any request conso-
-lidated in Hezeree 1217 by the latter for
4 Coodoos of land under his Seal out of
my private funds. I constructed a place
upon which grew a Mango Tree a Jamoon
Tree, two Tamarind Trees being on the
road Side and the other one on my Enam
land in addition to the above I myself
planted 7 Mango Trees on considering my-
-self heirless and that life is temporary
I made the abovementioned over to Moulee
Syed Hissa Mohadeen Saib to whom I was
indebted Rupees 1400/ and who is at li-
-berty to enjoy the same without interrup-
-tion I some time before contracted this
debt from him in the current coin of
Rupees

Fort St George 20th October 1856

Rupees 1400-/-- and made the above over to
him in liquidation of this debt with a Dana
-patheram and grant made by the Reddies
and Curnams as also Sunnud under the
large Seal of Nabob Alif Khan Bahadoor
It is to be considered valid and re-
-main in full force either I or my close
or distant relatives have nothing to do
with this and must cease their claim for
ever 4 Beejawaree Coodoos of land in which
is a well 7 new and 1 old Mango Trees
1 Jamoon Tree, and 2 Tamarind Trees and
which is bounded to the east by Coomaravaggoo
Chanoo west by Rocks, South by Charial Bunda
north by Chintala Chanoo which intersects
2 Small paths to Betel gardens.-

This is to be considered

I Syed Mahomed Son of
Mowlvah Syed Hissa Mohodeen Saib and
grandson of Mowlvee Syed alvee Saib I beg
to request the favor of several Pattaus Syed
Mashayeks and all others who are acquainted
with my circumstances to bear testimony, and

-quainted with the grant by Nabob Mahomed
Aliff Khan Bahadoor of a garden situated
close to the Fort of Gondepully consisting of
3 Begawarees Coorghus or Coodoos in the name
of my father and I beg to mention the fol-
-lowing circumstances which had transferred
on the subject of the garden in question.-

This garden had been granted
by Nabob Rumnust Khan Bahadoor to
Fakeer Fuzulshah, who having died leaving
no heirs after him, it was resumed by the
then Nabob some time afterwards, my grand
Father proceeded on Circuit with the Nabob
Aliff Khan Bahadoor into the District when

one

Fort St George 20th October 1856

one Raheemooddeen Saib having died and there having no place fit for burying his body he was kept unburried in a garden called Jallee Bog. This being the case, my grand father on his return to Hurnool with the last mentioned Nabob obtained permission for a certain piece of ground situated under a Banian Tree and then caused the dead body in question to be buried there, and the bodies of my father and grand father have also since been buried near the same place. My paternal Uncle Jainoollah abdeen having died 6 months afterwards his body also has been buried there. The garden situated close to the burial ground in question had not been given over to my Grand father or any others by Sunnud or otherwise, my grand father having died on the 18th Shaban of Heizree 1228 his body was buried at the same place as above entered and 10 Months afterwards my father having had to perform the usual religious ceremonies such as Sundal or Dooos in the name of my Grand Father requested the Nabob for the

Fort St George 20th October 1856

the grant of the garden with two walls situated therein for the expences attending the annual ceremonies lighting and repairing the premises &c accordingly Nabob Sulfkhan Bahadoor granted a Sunnud assigning over the garden to my father to be enjoyed for ever from generation to generation. This grant has been since that time continued to my Father and after his death to myself uninterruptedly but the Sunnud being now missing from its having been mislaid I have thought it better to apply, the persons who are acquainted with the origin and continuation of this grant to give their Seals and Signatures to this paper of my right to the garden in question. —

A. Brett Esqr. Collector of Salem.

The Plaintiff sues to obtain possession of 2 plots of Mulgorjary Poorumbo converted into Nunjah, to have a Puttah for these lands granted in his name, and to prevent a Puttah for the lands being issued for fusly 1266, in the names of the 1st and 2nd Defendants. The lands sued for yield a produce of 70 Rupees, and are subject to a kearwa of annas 13 and Pice 2.

2 One of the above lands forms minor No. 2 of the land called Athmarieum Poorumbo measuring 1-22- " Assessed at 12-1-2 and is situated

situated in the Village of Chemmaniampoodoor in the Trepatore Talook, to the South of Mogumcottay to the North of the land No. 34 to the east of a Poonjah land minor No. 1 in the land No. 30, and to the west of minor No. 3 in the same plot, the other land forms Plot No. 31 called atchekoocutter Poonjah, measuring 1-" -8- and assessed at 4-11-4- Both the Plots together measure Acres 2-24-8- bearing an aggregate assessment of 16.12.6-

3 The Plaintiffs state that according to the orders from the Nugoor, the Tasildar on the lands for Nunjah cultivation Viz: 15-15-4 was deducted in consequence of the Cottay (that irrigated the lands) having fallen out of repair that this left on the lands a kearwah of Annas 13 and Pice 2, that the two plots were left waste the former in fusly 1230 and the latter in fusly 1261 that in fusly 1265, the Plaintiffs cultivated the lands of themselves (without permission) that the 1st and 2nd Defendants, who had no right to the land, having raised certain objections, the lands were entered in the Tumwah Chundy Jamabundy Book, for the settlement of the dispute and that the 4th Defendant, guided by the Counsel

Council of the 3d Defendant, issued order to the effect that the Puttah for the lands should be given in the Plaintiffs names only for one year, Viz: Fusly 1265, and that for Fusly 1266, the Puttah should be issued to the 1st and 2d Defendants and the lands put in their possession.

4 The Plaintiffs further state, that this order of the 4th Defendant is opposed to the Hoo Kummamah and Cowlcamah as to the practice prevailing in this District that a person's right to a land becomes void and void when the land is relinquished by a Soodee Rajeamamah.

A written Document relating to lands.

No 2.

Draft of an answer proposed to be filed in Original Suit No 19 of 1856 on the file of the Subordinate Court of Salem by H. A. Brett Esqre Collector of Salem and 4th Defendant in the above Suit.

The object of this suit is to recover possession of two plots of Malgoozary Poonjah land, and to obtain a Puttah for the same in the names of the Plaintiffs for Fusly 1266.

2 The lands in dispute consist of two plots of Poonjah land, measuring Acres 3-24-8 assessed at Annas 13 and Rice 2.

3 The 1st and 2d Defendants and their fore fathers held these lands for 30 years from Fusly 1230 to Fusly 1260, and during that period cultivated them with Nunjah Crops by the aid of a Circar Cottery, which they kept in repair at their own expense. In addition to the Poonjah Assessment they were charged a Teerwajeshee of Rupees 15-15-4 on the Nunjah crops

The

1851.9 Fort St George 20th October 1856

The Cootlay having fallen out of repair, the Defendants relinquished the lands in Fusly 1261 and in Fusly 1265 the Plaintiffs, without permission, and without applying for leave, cultivated the lands with Poonjah crops.

3 The former Puttadars / the 1st and 2d Defendants / having heard of this presented a petition to the Sabordar of Tripatoor on the 9th December 1855 setting forth their claims, and requesting that the lands, if they were to be held at the Poonjah assessment, might be given to the Petitioners

4 The case was investigated at the Jummabundy when it appeared that the 1st and 2d Defendants had occupied the lands for 30 years and were obliged to relinquish them in Fusly 1261, because the Cootlay was out of repair. The Collector was of opinion that the 1st and 2d Defendants had the best claim to cultivate the lands on the Poonjah Assessment till the Cootlay could be repaired and an order was passed permitting the Plaintiffs to occupy the lands for the current year, but directing that the lands should be

1851.20 Fort St George 20th October 1856

be made over to the 1st and 2d Defendants in Fusly 1266–

5 The Collector is vested with full authority under the Regulations to decide such disputes and the Plaintiffs asserted a right to hold the lands in opposition to such a claim as that preferred by the former Puttadars, is not supported by any provision

1855 21. Fort St George 20th October 1856

provision in the Hookeommamah.

6 The 4th Defendt

= ant therefore prays that

the Suit may be dismissed

with Costs.

a Plaint filed against himself and others (No 19

of 1856) in the Subordinate Court of Salem,

together with draft of an answer and Requesting

authority to Conduct the defence at the

publick Cost.

2 The object of the suit is to recover possession

of two plots of Inalgoozary Poonjah land converted

into Punjah and to obtain Puttahs for the same

in the names of Plaintiffs. The Plaintiffs

state that in Consequence of the Cottay from

which these lands were irrigated being out

of Repair they were left waste. The Tassuk

jasty was accordingly remitted, and the Reduced

Teermah then payable was annas 13-2. Plaintiffs

in July 1265 Cultivated the lands without permission

whereupon

Fort St George 20th October 1856

whereupon the 1st and 2d defendants who had previously resigned the lands started some objections - an enquiry followed and the Collector contrary to the provisions of the Hon Rummunds and Lowlenands decided that for Fasly 1260 puttahs should be given in the names of those defendants - Plaintiffs therefore pray for a Reversal of the Collectors decision -

3 The Collectors admits the main points alleged by Plaintiff but argues that according to their own shewing they had no right to the lands in dispute in as much as they cultivated them without permission - The Plaintiffs occupation being thus by their own admission unauthorized it was open to the Collector on behalf of Government to dispose of the land freely as if such occupation had never occurred In the Course of the Collectors enquiry it appeared that 1st and 2d Defendants and their ancestors had held these lands for 30 years from Fasly 1230 to Fasly 1260 when they resigned them in consequence of the Government having previously Repaired at their own expence in that year fallen out of Repair &c &c

Fort St George 20th October 1856

the lands were to be granted on a Reduced Teermah pending the Restoration of the Cooltay the Collector Considered that defendants should have the preference over all others and accordingly decided that after the expiration of the Fasly the lands should be made over to them -

4 The Board are of opinion that the answer is sufficient and Recommend that the Collector may be authorized to file it and Conduct the defence of the suit at the publics expence -

I have the honor with Reference to para 8 of my letter of the 16th Instant to submit a Statement shewing the number and heriz of Ryots paying pattahs above 5 Rupees in the Polam Talooks who up to the 31st August more than a Month after the Jumma annually had been concluded in that Talooks had either not paid a single fraction of their dues or

had

had withheld fifty per Cent of their heriz-

2 The Statement of Demand Collection and balance up to the 31st ult. August shows that there was considerably less balance in the Poloor Talook than in most of the others and instances of neglect on the part of the Tahsildar in making a discrimination of the powers entrusted to him for realizing the Revenue are furnished by the account of the balances of individual ryots in this Talook they will doubtless be more abundantly proved by the similar Statements from the other Talooks in which the balances were on that date 15 or 20 per Cent of the heriz-

3 The Talooks of Poloor is the only one from which I have received this ryotwaree balance account and beg to solicit the permission of the Board to hold in deposit the half of the pay of the Tahsildars for

Sir,

I have the honor with refer:ence to Extract Boards Proceedings 25th September No. 3114 to state that the particulars called for in Para 2 Extract Minutes of Consultation ac:companying those proceedings have been submitted by me to the Board 20th December 1855 No. 239.

2 The Maniem in question is one of the common Barah Bollote Enams of this Country and has been enjoyed from time immemorial by the Merasse washermen of St. Thome, their present ground having been exempted under Grant No. 1792 20th July 1832 in exchange for the old Enam which was transferred with the sanction of Govern:ment to Mr. Joseph Pugh in the above mentioned year.

3 I have recommended that the Enam be longer continued in consequence of

the Services for the performance of which
it was originally granted many of the
other village Enams of St. Thome are now
enjoyed without any corresponding duty
and I am about to recommend their re:

results of the St. Thome Survey during
which I hope will be before the Board

It will be seen that the land in question is held like all other Village Service Enams, but the service is no longer required or rendered. The fact of the present holders being representatives of the original Meerassy Grantees does not appear to be questioned.

Bd. No. 4158

From the Collector of Salem } Sir,

With reference to an Ex:tract from the Proceedings of the Board of Revenue dated 25th September last No: 3131, sanctioning the Extra Tentage

deacon

drawn by each Officer in the District during Fusly 1265 and requesting me to explain the necessity for locating the Head Assistant at Kistnaghery and thereby entailing on Government the additional expense of Extra Tentage, I have the honor to state that Mr. Grame resided at Kistnaghery during the past year, because he was placed in Revenue as well as Police charge of that Talook.

2 Kistnaghery and Tripatore are so situated as to form a convenient Revenue charge for the Head Assistant and in respect to his Police duties it is more convenient that the Head Assistant should reside at one of those two places, that he may be near the two large towns of Tripatore and Vaniembady.

3 At the time I was appointed to the District in 1851 Mr. Hodgson the Head Assistant Collector had no revenue charge. Since that period the Talook has

named above have formed the Head Assistants usual charge, but Mr. Grame when he joined had not passed his 2d examination, and to give him leisure to study, I relieved him from the revenue charge of the Tripatore Talook. If any other Talooks were allotted to the Head Assistant he would still have a claim to the Extra Tent allowance, according to the rules and the practice prevailing in other Districts, as there would be no public accommodation for his Cutchery, excepting at Salem which forms the Head Quarters of the Sub Collector.

4 Formerly a house belonging to Government at Daramsoody was used by the Head Assistant when stationed there but in 1854 a District Moonsiffs Court was opened at Daramsoory and

and this building was then
handed over to the Judicial
Department and converted into
a Court House for the Moonsiff

Head Assistant would be well
placed hereafter at Tripatore
than at Kistnagherry where he
is in charge of both those Talooks
but for some months past has
have not had the services of
Head Assistant.

Remarks on the fluctuations in the Revenue for the month of August 1856.-

A In Nellore, the increase arose from part of the June Kists of the Zemindaries being brought to account in July, to the Pyotwary demand of Fusly 1265 having been larger than that of Fusly 1264 and to a larger balance having been outstanding at the close of Fusly 1265.

B The decrease in Tanjore is attributed to the short produce realized and the larger amount of addition made to the Demand of the Woolungoo rented Villages on account of high prices. The Acting Collector probably means that the demand was excessive and the collection of a portion of it suspended as reported to Government in Proceedings dated 29th September 1856 but explanation has been called for

C In Madura the decrease is owing

Fort St. George 20th October 1856

owing to the Balances at the commencement of the Fusly having been smaller than in the preceding year the same remark applies for Canara.

D The increase was owing to larger Balances existing at the commencement of the Fusly.

Official Memorandum

The Chief Secretary to Government has the honor to request with reference to the Memo from the Acting Secretary to the Board of Revenue dated 13th Instant that he will be good enough to instruct the Collector of Canara to forward the Teloogoo pamphlets of Village Accounts referred to in his letter of the 26th September 1856 to the Collector of Nellore. The latter Officer applied on the 14th April 1856 for 300 additional copies, but as no more than 60 were then available, that number was supplied. As only 200 Copies remain with the Collector of Canara, the whole number may be sent at once to Mr. Elton, who will be able to dispose of them to the people of his District.-

From the Collector of Madura.....

Solicits the favor of the Court recommending to Government that the Native Surgeon may be directed to spend his time chiefly in the Ramnad & Sheraganga Zamindaries where there are many people of Rank and a very large mass of poor eager to avail themselves of his services.—

Sir,

Para 1 I have the honor to inform the Court that it having occurred to me that a Dispensary at Ramnad would very much promote the objects which the Government had in view in the appointment of a Native Surgeon to the Madura District, I suggested to the Zemindar how great a Charity she could perform at a Moderate expense by supplying the necessary funds and a house. She acted upon the suggestion without delay, a good supply of Medicines were obtained from Madras and I now beg to submit a Statement of the Sick treated by the Native Surgeon at the Dispensary in the Month of June last. The Court will perceive that the number which received relief were 177 Males and 112 Females.—

2 My object in bringing the circumstances to the notice of the Court of Wards, is to enquire whether they feel justified in authorizing disbursement from the funds of the Minor Zemindar of

Fort St. George 21st October 185

of Shevaganga for the same benevolent purp
If so, I request sanction to expend a sum no
exceeding Five hundred Rupees in Medicine
and a Moderate sum in providing or adap
a house for a Dispensary, submitting the bill
Costs hereafter.-

3. I would also solicit the favor of
Court recommending to the Government that
Native Surgeon may be directed to spend
time chiefly in the Ramnad and Shevagun
Zemindaries where there are many people o
Rank and a very large mass of poor eager
avail themselves of his services. At Madura
time is in a great Measure thrown away as
who desire English Medical treatment can
obtain it from the Civil Surgeon and the Gov
ment Dressers. If this request is granted I
to suggest to the Zemindar of Ramnad to
a Native Doctor 7 Rupees a Month to att
upon the Native Surgeon as his Assistant a
Pupil, and to take charge of the Dispens
in his absence. and I would request the Cou
to sanction a similar charge in Shevaganga. T
Native Surgeon can then move backwards an
forwards to the two places, and a very large p

will have an opportunity of comparing the merits of the
European and Native modes of Medical treatment

4 The Minor Zemindar fully approves of this
application. and the Native Surgeon Moonesawmy Naik
shews a most laudable anxiety to make himself as
useful as possible. My request has also the full cur-
currence of the Zillah Surgeon.-

5 I had this day the honor to receive
the Proceedings of the Board of Revenue dated the
1st September 1856 expressive of their desire that Talook
schools may be established by considerable Zemindars
and as the subject is analogous to the one I have sub-
mitted in the preceding Paras, I beg here to inform the
Court that a Talook School has already been
placed by Government at Shevaganga which is ac-
commodated in one of the Zemindar's houses, and
I request to be informed whether it is their wish
that the expence should be borne by the Minor &
Zemindar. He will I am sure readily consent, as
he promised me, some time ago, to contribute when
he became of age to procure a superior Master.-

6. I may here mention also, that the Zemindar
of Ramnad has already promised to give the sum
of 1000 Rupees to build a school house and to contri-
bute 20 Rupees to a school master at Purmagoody
a large Town in her Zemindary, at which I have settled
with the Reverend Mr. Richards the Inspector, that a
Talook school shall be established. In consequence
of the Boards' Proceedings I will now require whether
the Zemindar will bear the whole expense of the Master

It is proper also that I should add that
7 the Zemindar contributes to the support of a very
good school at Ramnad, Superintended by Mr.
Schaller a Catechist under the Society Propagating
Gospel in Foreign Parts the report of an examination
at which lately appeared in the Public Papers.-

Ans. Com. 21/Oct./1856

The Court of Wards authorize the Collector to expend from the Funds of the Shevagunga Zemeendary a Sum not exceeding Rupees 500 for the purchase of Medicines for the dispensary to be established in that Estate

The Court are also prepared to sanction the entertainment of a Native Doctor as suggested, but they doubt whether the Salary proposed Viz 7 Rupees per Mensem is sufficient to procure a person Competent to dispense English Medicines and take charge of the dispensary in the absence of the native Surgeon. The Court would recommend its being raised to such an amount as would obtain the Service of a pensioned Dresser.

The Collector will

2.

provide a building for the dispensarry at a moderate cost which will be reported hereafter.

The Court will recommend to

the

Fort Saint George 21st October 1856

the consideration of Government the Collectors suggestion that the Native Surgeon Moonesawmy Nauck should be directed to spend his time chiefly in the Ramnad and Shevagungah Zemmindaries.

4 With regard to the Talook school at Shevagunga the Court request to be informed whether it was established on the understanding that it should be supported partially or wholly by the Minor Zemmindar. If this was not the case, the Court would prefer reserving the Zemmindars Funds for the Establishment in the estate of one or more schools subsidiary to the one already established by Government.

5. The Court are extremely gratified to find that the proprietors of these extensive estates evience so beneficent an interest in the welfare of their tenantry.

Further Resolution thereon
977-79

Resolved that the foregoing letter and the Court's Proceedings thereon be laid before Government with the Board's recommendation that the native Surgeon of the district whose professional aid is eagerly desired by all classes in the Ramnad and Sevagunga Zemmindarees may be directed to spend the greater part of his time in those estates. This suggestion has the concurrence of the Zillah Surgeon and seems in all respects a desirable arrangement.

2. The Government will be pleased to learn that a dispensary similar to the one established at Ramnad and noticed in Extract Minutes Consultation 17th October 1856 No. 1257

In Cons 21st Octr 1856

Reviewing the Report of the operations of the South Arcot Survey for the year ending 31st October 1855.

(982-83)

Julys 22d March 1855.

With his letter of 29th March Mr. Hall forwards a report and Statement to furnish by Captain Priestly to shew the progress of the survey in his District during the 12 Months commencing 1st November 1854 and ending 31st October 1855. The operations of the preceding year were detailed in the Board's Proceedings of 15th February 1855, and were reviewed in Extract Minutes of Consultation dated 13th March 1855 № 301. In answer to the call then made by Government the Board afterwards on the 20th October 1855 submitted papers shewing what the expenditure on the survey and on the general revision of the assessment had been—

2— The proposed mode of conducting the survey—the establishments to be employed for the purpose—and the expected amount of annual work and its cost, were detailed in the Board's Proceedings of 27th February 1854 and met the approval of Government—It is consequently unnecessary now to enter into discussion on these points—

Printed Selections from the Records of the Madras Govt. № IX of 1855.

3— The Board will only observe preliminarily that after a correspondence with the Collector they authorized Captain Priestly to survey all the Government Villages in the small Talook of Cuddalore—a few of its Villages had

B. Pros. 3d May 1855.

had been surveyed as an experimental measure at the commencement of Captain Priestley's operations and it seemed highly desirable to extend this measure to the rest of the talook as the Hooloor settlement had not been introduced into it, and its assessment was in an uneven and unsatisfactory state. The talook is situated on the coast around the head station of the District and adjoining French territory. Its lands have therefore a value and it was an object of importance to place its assessment on a right footing, and ascertain the correct area and limits of the different Villages.

4. In the year under review survey operations were carried on in different Talooks and an abstract of the work performed is given in the Marginal Statement. The area surveyed is 275 square miles comprising 176206 acres of which 83050 consist of Cultivated land. A considerable advance has thus been made on the preceding year when from want of educated servants, and

Cullacoorchey	40	43,600	20,655

other obstacles 140 square miles only were accomplished, and the Board consider it due to Captain Priestly to observe that in their opinion this result would not have been obtained but for much energy and ability on his part in contending against the difficulties which he had to meet.

5. These difficulties are described in Captain Priestley's report and may thus be briefly adverted to. The lateness of the Monsoon delayed the commencement of field work till 19th January, and its progress was retarded by the frequent removal of boundary marks and as a failure to attend when summoned on the part of the Village officials and landholders. In explanation of this feeling Captain Priestly observes. "The survey is not at all popular among the natives as they are as yet only acquainted with the trouble the prosecution of it gives them and have experienced no benefit from it. Where the revision of assessment to follow close on the survey, the dislike that the Village people show to having their lands measured would

P. 29.

"would be much removed." The Board have be
anxious to avoid delay on this point, and as th
Government on a repetition of their applicatio
sanctioned measures for introducing a perma
assessment into the villages of the resumed C
= cottah Jaghire and the Collector is now
engaged in the work, the Board trust that
example of the benefit of the survey will
mitigate, if not remove the spirit of opposi
= tion to it which Captain Priestly describes
6-

The unhealthy [illegible] of the Hill
= lages where a large part of the operations
the year were carried on also created difficu
inducing some of Captain Priestley's servants
to resign by drawing away under various pr
= texts those Talook officials who were dire
to attend his camp for the purpose of gi
local information and aiding his proceed

Another serious disadvantage was the
scattered state of the survey establishm
work having to be carried on at the sa
time in five different taloks at distance
of 80 miles. This arose from the outlying

position of the resumed Jaghires whose co
villages had to be surveyed and the disadvantage
will not exist in such a marked degree
hereafter, but in the year under review it unav=
=oidably caused much delay and limited co
Captain Priestley's power of superintendence
over the working parties-

7. But the obstacle on which co
Captain Priestley lays greatest stress and
to which he frequently refers in his report
is the non adjustment of Village boundaries
in time to allow his surveyors to p
with their work uninterruptedly Captain
Priestly calculates in appen:
= dix B of his report that
the time lost by this co
cause and by the non co
attendance of Village co
officials exceeded the time actually employed
in Survey operations- That much delay did
arise from these causes is undoubtedly true,
but

but the Board concur in opinion with the Col-
=lector that there must have been some misap-
=prehension in estimating the avoidable de-
delay, at so high an extent. As some of
Curnums have several Villages and their
ordinary duties are often pressing they could
not always be present at the place and time
wished for, and the state of the law fails
to ensure the immediate settlement of disputed
boundaries. Some delays could not therefore
be obviated. but the Collector observes that
Para 15 the survey ameens instead of proceeding with
Villages which were ready, appeared some
=times to remain idle when they were not
able to commence work in the particular
Village they wished. Mr. Hall says that he
noticed this particularly in the Cuddalore
talook, and requested Captain Priestley "to
send a person in authority to look after the
ameens." It appears to the Board that the
disadvantage

disadvantage is thus attributable in a con-
considerable degree to the detached parties
into which Captain Priestley was obliged
to divide his establishment during the
year under review as already noticed and
that consequently it will not exist to the
same extent hereafter.

8. The delay in adjusting Village
boundaries when disputes arise has been
already frequently noticed in the correspond-
=ence and papers
The difficulty partly arises from the state
of the law for unless the Collector is able
to bring the contending parties to an
amicable settlement which is often im-
=possible, he has no resource but to
employ a Punchayet under Regulation
XII of 1816, and delay must occur before
a decree is obtained and finally con-
=firmed. The Board would however
observe that this state of the law will

come

come under consideration in preparing the new Revenue Code. Another part of this subject relates to the intended† place of having a co-
Covenanted officer of the Collectorate establishment present with the Survey Camp, to aid in the prompt settlement of the disputes but the very limited number of Assistants with the Collector has rendered this plan impracticable and they have been chiefly adjusted through the agency of the head taloob servants. Captain Priestley now suggests that he should be invested with power to investigate and decide these disputes and Mr. Hall recommends his being appointed an assistant to the Collector for the purpose but the Board see objections to taking Captain Priestley's attention from his more peculiar duties and trust that Government may soon be able to give Mr. Hall additional assistance. Captain Priestly further requests that a Native revenue officer of standing co-

should be sent to his camp for the express purpose of aiding the survey. This arrangement was contemplated by the Board and the steps which Mr. Hall reports that he has now taken for carrying it into effect have their approval.

9. The area surveyed during the year amounts to 275 square miles and for the purpose of forming a judgment regarding the progress made it is essential to know the strength of the establishment actually employed. Detailed information on this point is wanting and Captain Priestley will be requested to supply it in his future reports. He observes however in Para 18 that making deductions for delays and sickness among his servants &c. the work may be said to have been performed by an establishment equal to one† party and on referring to his enclosure **B** the Board find that although two parties had been formed yet from resignations and other causes

causes the effective strength was much below that
exctent, only 13 ameens having been consecutively a
work throughout the year - In Para 14 of his letter
Collector argues that Captain Priestley has made t
great an allowance for what he calls removable
Para 7 delays and the Board have expressed their con
= currence in this view, but after making allowan
on this point, they are still of opinion that the
progress is satisfactory especially when in additio
to the difficulties under which the work was per
= formed as already described, it is borne in mind
that many of the servants were still raw and
inexperienced and that the work of instruction
continued to form an onerous portion of
Captain Priestley's duties - The result of this
year leads the Board to expect that on the
establishment being completed to its strength
and becoming more experienced Captain Priestley
calculations will be realized by his accomplis
= ing that annual amount of work, 720 square mile
which the Supreme Government considered would
be cheaply purchased at the outlay in a
Ryotwary country -

10 The correctness of the Survey and
its revenue results will come more
especially under review when the Collector
reports his operations in classifying the
lands and proposing rates of Assessment
for them - But meanwhile Captain
Priestley states that the result of his testing
has been satisfactory, little deference
having been found between the scientific
Captain Priestley's work and the ameens measurement

explains the cause of the discrepancy which
has been found in the area of the
villages most of which are
situated in hilly and unpopulated districts
and had not previously been
measured with any accuracy - The
work of the best ameens averaged
50 acres per diem and of the worst

or in capacity) 24 acres - The standard

11. The Collector has not shown
the expense incurred on account of the

Survey operations during the year under review and the Board regret that they have not been able to gather the particulars from their records or from a subsequent communication addressed to them by Mr. Hall on the 3d. September 1856. In Con. 30th Sept. 1856. 3513.

will therefore lay information on this point before Government as soon as it is received from the Collectors of districts.

12. The Board consider the future prospects of the Survey to be satisfactory. Formerly difficulty was experienced in obtaining intelligent natives from an impression that the work besides being arduous was likely to be of short continuance. The Board therefore directed a notification to be published to that effect for the purpose of Government to extend the Survey to other districts in addition to which the Railway and Public Works Department would offer employment to qualified individuals. Captain Priestley now reports that people are anxious for employment under him and the sanction given by Government for his training a body of volunteers will enable him to keep up his establishment

establishment to the full strength.

Para 27.

13. Difficulties will also decrease as the work advances by Captain Priestley being able to improve and systematize his operations, and by his servants becoming more experienced. Assistance is also found to arise from the check which the recent act XX of 1852 puts upon the removal or alteration of boundary marks. It may also be expected that the method of settling disputed boundaries will hereafter be facilitated.

14. The Board observe with satisfaction that Captain Priestley speaks favorably of the conduct of his native subordinates and expresses himself much pleased with the 3 artificers employed under him. The Board have asked for information as to how far the orders of Government to which Captain Priestley alludes have reduced the pay of these latter servants in order that they may ascertain whether their present remuneration is adequate to their duties. Of Lieutenant Heysey his principal Assistant, Captain Priestley speaks in high terms, and the Board

Board feel that Government possesses in he an officer of energy and ability well qualified to render valuable service in the conduct of Survey operations.

15. One point remains to be noticed the dislike to the Survey which Captain Prestley attributes to the circumstance that it has been followed by no result in modifying and fixing the assessment on this subject to which Mr. Hall observes that he has always considered it important to avoid delay but that his proceedings were stopped for a time in the case of the Palamcottah Jaghire Villages by the orders of the Board dated 23d April 1855. Here Mr. Hall misunderstands the Boards instructions which referred only to filling up some of the columns in the fieldwar Statement because "an alteration by the Board or Government of a single anna in the rates would necessitate the whole of some of the columns being recalculated or rewritten." The Board did not wish to stop the classification of the lands according to their soils and qualities and

Para 20 & 21.

Fort St.e George 21st October 1856.

and under date 21st August 1854. They had authorized Mr. Hall to employ the whole extra establishment sanctioned for the purpose on his requesting orders to that effect. In making this application Mr. Hall observed "There is nothing that I am aware of to hinder the classification being made immediately for although the rate of assessment has not been determined on the lands can be arranged into turums ready for it to be imposed at a future period. If a correct classification is obtained the putting on the assessment would be a very simple affair." The Boards were therefore under the impression that the Collector was taking measures to carry on this classification according as Captain Prestley finished the different villages.

Letter dated 10th In Cons: 21st aug 1854 P. C.

16. Mr. Hall then observes further "In May 1855 I also submitted for approval the rates I proposed for the Kolamalay Jaghire Villages in the Manargoody Taloog & that up to this time I have received no final reply" The reason is as follows. Mr. Hall's reports

reports did not contain those full details which the Government in their proceedings regarding the Poliemcottah Villages had declared to be indispensable and his rates appeared to be lower than those which would be in force in the adjoining Government Villages on the revision and yet it was not shown that the land owners gave their assent to them. After therefore asking for some explanation on these points the Board were constrained to wait to see what rates of assessment would prevail in the Government villages after the revision.

17. Mr. Hall then remarks "I neither have been favored with any notice respecting the proposition I mean in my letter of the 15th ult. of May last 1855 for reducing the rates of assessment and simplifying the Turums of the land in the Villages of the Manargoody and Chellumbrum taloks." This subject is not directly connected with Captain Priestley's survey but the Board will consider that before passing orders on the Collector's proposal they wished to know what

what information was gained in the examination of those Villages which had been recently brought under irrigation and where a water tax (1855) is now levied. It was always intended these villages should be inspected and a Punjah Assessment introduced into them and there was no objection to waiting to see what information was then obtained regarding the lands of the 2 taloks and their produce because a temporary remission had been granted which placed them on a footing which the Moolooks Taloks after the reduction of their assessment. Government afterwards directed that the Manargoody and Chellumbrum taloks were to be fully surveyed and Mr. Hall's proposed readjustment of the old assessment was therefore superseded as a new assessment will be framed on the survey measurement in the same manner as in the resumed Jaghire Villages.

Extract Minutes of Consultation 28th August 1855. No. 995 In Cons. 5th Sept. " "

18. The Board will only add that they propose soon to address Government regarding the steps to be taken to expedite the revenue operations as

Captain

Fort St. George 21st October 1858

Captain Priestley completes his survey. They are now in correspondence with the Collr on the subject, and will address the Govt on receiving his reply.

P. S.

In a subsequent communication the Collector furnishes information regarding the cost of the survey and assessment from the 1st November 1855 to 1st November 1856 and also regarding the pay of the artificers alluded to in para 14 of the above Proceedings.

The assessment charges amounted only to Rupees 1267 - those on account of the actual survey to Rupees 22254-3-1 The area surveyed was 17,206 Acres, of which 8377 were under cultivation. The survey charges therefore would amount to 2-0-2 and per Acre for the whole area and 4-0 per Acre of cultivated land.

With regard to the 3 artificers it appears that their Military pay was about 16 Rupees per month and they have ceased to draw it since October 1855. Their present salaries are

Rupees

Fort St. George 21st October 1856.

Rupees per mensem with 10 for Tentage during the working season Captain Priestley considers this sufficient for one of the artificers but recommends that the salaries of the other two, to whose conduct and attainments he bears testimony should be raised to 100 Rupees per -

To Their Honorable the Governor in Council &c

In para 2 of Extract Minutes Consultation dated 11th June 1856 No 921 the Government desired to be informed whether with the Reduction authorized in the order of 5th June 1856 No 577 the Collector was of opinion that the lands under the Cooroombalore Tank would still be left uncultivated if the Tank was Restored They Reminded the Collector that if the old rate was Really prohibitive the order of July 10th 1854 No 806 para 15 already empowers him to make Reductions - The Government likewise misled for explanation as to whether the alleged rate of Rs 19-15 per Cawney was the uniform rate for the whole, the mean of several varying rates, or the maximum rate also whether it was for one or two crops The Collector was moreover required to forward a detailed Statement of the Punjah ayacut under the Tank with a Memo of the extent now Cultivated as Poonjah and of the assessment of the latter -

3 In the letter Recorded above on the

the Collector furnishes the information called for by Government From this it will be seen that the uniform Rate on the lands referred to is Rupees 19-15-3 per Cawney for Nunjah without distinction as to the kind of rice whether Cauvs or Sumbah - The Collector has sanctioned been authorized to Reduce the assessment by 25 per Cent which will make it Rupees 14-15-6 per Cawney and it may be further Reduced under the orders of Government of 5th June 1856 No 577 already quoted -

4 Mr Bird forwards a detailed Statement of the Punjah ayacut under the Tank with the extent of Cultivation in Fusly 1265 It will be observed that 15 3/4 Cawnies were Cultivated with Poonjah & 34 with Punjah - whilst nearly 54 Cawnies were left waste The Poonjah Cultivation under the Tank together with about 12 1/2 Cawnies Cultivated in its bed were assessed at Rupees 6-13-11 being the highest Rate of Poonjah in the Village -

5 It does not seem to the Board that any further orders are Required on this Subject

Subject A reduction of 25 per cent has already been made in the assessment as above shewn and if the lands should not be fully taken up when the Tanks is restored the Collector is empowered to make such further reductions as may be called for. He is however of opinion that the rate which will now fall on the lands though still high will admit of the waste being reclaimed in the event of the Tanks being repaired.

In reply to a reference from the Board the Collector has supplied an omission in his former letter and explains that the former assessment of Cottah = Coro of Rupees 19-15-3 per Cawney was for one Crop only whatever might be the description of Paddy an additional Rate of one half being levied if a Second Crop were raised.

Bd. No. 3273.

From the Collector of Salem

Forwarding statements of compensation for lands taken up for the Railway.

Sir,

With reference to an order from Government, dated the 21st. September 1855, No. 936, directing me to forward to the Board of Revenue to be submitted to Government, Quarterly bills of expenditure on account of lands &ca. taken up in this District for the Railway and the Railway works, I have the honor to forward herewith two Statements, Statement No. 1 shewing the compensation paid for lands &ca. taken up for the Railway and the Railway works, and 2dly the Compensation paid for lands &ca. appropriated for brick fields ballast pits and compounds, Statement No. 2 shewing the compensation paid for Enam lands taken up for the Railway. These two Statements embrace all the payments made up to April 1856.

I

2 It will be observed that the compensation paid for lands, made over to the Railway Company under the deed of contract amounts to Rupees 2005–7–7. of which Rupees 104–6–7 is compensation paid for Enam property / Statement No. 2 / The amount paid for lands &c. appropriated for brick fields, Ballast pits, compounds and pathways amounts to Rupees 91–10–10 and this sum has already been disbursed to the parties, and the Railway Company will now pay the same to Government.

3. As regards the lands belonging to Jaury Moottahs, the Moottahdars claim that the assessment on such lands should be deducted from their Peishcush. A separate communication will be made on that subject.

4 In the case of the Jaury Moottah lands appropriated for brick fields &c. the Railway Company will have to pay to the Moottahdars the annual assessment on the lands thus appropriated till these lands shall be relinquished. For the Enam lands for the Railway, an application will be made on behalf of the Enamdars for fresh lands to be given to them in lieu of those

5. If fresh Enam lands should be given to the Enamdars instead of the lands now taken up for brick fields &c. the Railway Company will have to pay the Government the assessment on such lands. As soon as the charge on this account has been ascertained, an account will be sent to the consulting Engineer.

6. I now beg to solicit that the sanction of Government may be obtained for the sum actually disbursed to the owners of the lands made over to the Railway Company under the deed of contract, Viz.t. Rupees 2005–7–7–

7 Copies of the Statements will be sent to the Consulting Engineer, and he will be requested to apply to the Railway Agent for repayment of the sum paid for the lands &c. appropriated for brick fields, or other incidental purposes, amounting to Rupees

91–10–10–

8 The Statements now submitted embrace about 33 Miles of the Railway line, Viz.t. from the Pauparapetty Tank, about 8 Miles south of Tripatore, to the Vapaudy river, at the limits of Mullapoorum the Shervaroy Hill Station.

Resolved that the foregoing letter and its enclosures be submitted for the information and orders of the Right Honorable the Governor in Council with reference to the Circular letter of Government dated 21st ult.o September 1855 No.326.-

2. The Board recommend that sanction be granted for the sums paid by the Collector up to April 1856 on account of compensation for lands &c.a taken for the purposes of the Railway amounting in the aggregate to Rupees 2097-2-5 as particularized in Statement Nos.1 and 2. The Board desire that the Collector need not apply to the Railway authorities for the repayment of any portion of this amount it will be sufficient they conceive, if the disbursements are entered in the accounts of the District furnished to the Accountant Generals' Office, where the necessary adjustment will be made between the Government and the Railway Company-

3- In submitting his Report on the deductions to be made in the Peishcush payable by the Proprietors of Saury Mootahs as per lands &c.a taken for the Railway, the Collector will be guided by the instructions contained in Extract Minutes of Consultation dated 27th August 1835.

From the Collector of Malabar.

Sir,

I have the honor to bring to your notice that 4 pieces of the Map of Malabar N. E. G. H. among which are the 2 most important pieces on the Scale of two Miles to an inch out of 9 that were supplied by the Government as per the Chief Secretary's letter No. 612 of 30th April 1833, were lately destroyed by white ants in one night although the box in which they are secured is a teak box lined with tin and left in my own upper room in my Cutcherry where it has been for years placed and where the ants had never before been seen.

Under these circumstances I trust I may be allowed to Indent for a fresh copy of the injured portions.

Reporting on the reference to Board's Circular of 29th October 1855 on the taxation of Topes and Trees in this District.

I have the honor to acknowledge the receipt of the Board's Circular No. 2902 of the 29th October 1855 regarding the taxation of Topes and Trees and also your subsequent communication of the 27th June last No. 1972.

2 I regret that so long a delay should have occurred in the transmission of the present Report The subject appears to have been overlooked at the time but upon my assuming charge of the District the requisite information was put in train of preparation and owing to the very numerous enquiries that had to be made by the Sahaildars and the difficulty of tracing the parties concerned and other impediments the Statements have not been brought to completion as soon as could have been wished. The Board will also be aware that with the very limited European assistance now allowed to me my time has been necessarily occupied with many other matters requiring attention in the present circumstances of the District.

3 The following abstract gives a brief view of the several description of Topes in this District The tamarind and other fruit topes it will be seen, are very nearly equally divided between the heads of aped and "charitable" The Palmyra topes under the first head are small in proportion to the fruit trees and still more so under the head of "Charitable topes" while the Cocanut plantations are altogether insignificant.

4 The accompanying statement No 1 exhibits the particulars of the old Topes of the District bearing a peshcush assessment. They amount to 883 in number occupy 4,504 acres of land of which the land tax is taken at 8157 Rupees while the average rent actually derived in the last 5 years is Rupees 5,493. This comparison seems to shew that the evil of excessive taxation of fruit topes has not prevailed in this District to the extent described in para 10 of Extract Minutes Consultation dated 31st May 1853.

5 The mode of assessing these topes was formerly upon an estimate of the produce obtained annually, one half being taken as the Government share or even much more under the zemindary management. For this Mr Stokes substitutes a rent for periods of 3 to 5 years based upon the averages of the preceding years and such continues to be the present mode of settlement.

6 It has not been found practicable to distinguish correctly between private topes belonging to individuals and not liable to assessment from Government topes, in which no particular claim exists. During the Zemindary management many of the former class were transferred

transferred to the latter, as the owners in many cases preferred throwing up all right in the topes they or their ancestors had planted rather than yield to the exorbitant tax imposed upon the trees. In other instances the Topes were unscrupulously appropriated by the Zemindars to the exclusion of the proprietors. The Government contemplate the restoration of such topes to their former owners and pains have been taken to trace them to where they are to be found.

Para 18 of Extract Min. Consultation

7 Confining attention then to statement No 1 from which scattered trees, to be otherwise disposed of, have been excluded the result of present enquiries as far as they have proceeded is as follows. For 166 Topes occupying 723 acres the owners or the villagers engage to pay the tarum assessment amounting to Rupees 1135, which is somewhat above the average rent of the last 5 years but below the highest of these. For 18 topes occupying 73 acres engagements have been entered into for the sum of 157 Rupees exceeding the tarum assessment by about 54 Rupees. the still below the average of the past 5 years rents. For 107 topes occupying 619 acres offers have been made for the permanent sum of Rupees 483 while the tarum assessment amounts to Rupees 1276 and the average rent to Rupees 2814. For the remaining 593 topes on which the tarum assessment would be Rs 5853 and of which

the

Fort St George 21st October 1836.

Rs
the tarum assessment would be 5653
and of which the average rent has
been Rupees 4059 engagements have not been
concluded.

8 With regard to the first of
those items there appears no obstacle
to the topes being at once assessed at
the tarum rates and I presume it will
be in accordance with the views of
Government to lay only the tarum rates
in the 2d instance In the third case where
the engagements although about 70 per cent
alone the average rents are still very
much below the tarum assessment, there
seems no alternative but to permit the
topes for a period of years say 5 or 10
as the Government will not probably
consent to the lands being held on an
assessment a little more than 1/3 of the
tarum rate nor would it be desirable
to attempt to enforce the full tarum
assessment, as the lower assessment
now proposed is sufficiently high with
reference to the profits of these topes
In marking the settlement of the remain
ing topes they can be classed with
those paying the tarum assessment or
those rented according as the proposed
come up to or fall short of the ta
tarum standard.

cluded in the preceding remarks &c

although it has been the custom to include them along
with topes in the rents this item is given
separately in statement No 2 of which
the following is an abstract.—

10 According to the views of Govern
ment in para 7 of the Minute under notice
the first three items viz trees in yards
Enams and occupied lands will
cease to be taxed, and this measure
has in part already been carried out
and will be completed in the present
fasly With regard to the scattered
trees on unoccupied waste and poram
boke lands it will be observed
that the present tax averages only
a a
— 1 — 3 a tree so that the appli
cation of the scale given by the
Board would not be expedient
It seems to me desirable to allow
these trees to be rented as here
tofore, a separate entry being

made

made for them if included in the rent of the village topes, and a stipulation being entered into for relinquishing them on the lands being occupied within the period of the rent with a proportionate reduction in the latter. These items are small, and there would be little difficulty or vexation in carrying out this course.

11 Some Scattered trees pay at present no assessment as follows.

	Bearing	Not bearing	Total
In private yards	4995	4365	9357
In cultivated lands	1530	1012	2542
In Enam Do.	264	232	496
In waste unoccupied	437	620	1057
In Parumbokke Do.	1757	1530	3287
	8983	7786	16769

The first 3 items will remain free but the remaining two should come under assessment in the manner described in para 10.

12 The Palmyra and Cocoanut trees are now to be considered. The former are classed under two heads, viz, those termed private topes planted by individuals and

and on which a tax of 4 pice for each productive tree is levied according to the rules laid down in 1848, in the correspondence noted in the margin and those denominated Sircar topes which are included in the abkary rent.

13 Statement No. 3 exhibits the former together with the few Cocoanut trees that have fallen under the rules alluded to. It will be seen that for 45 palmyra gardens proposals have been received for the payment of the tarum assessment amounting to Rupees 182—9—7 in lieu of the toll tax of 4 pice a productive tree at present amounting to Rupees 80—15—4 In another instance no offer has been made for a sum exceeding the tarum assessment In these cases there seems no obstacle to the gardens being let for the tarum assessment.

14 The following miscellaneous items viz the palmyras scattered in rent free or charitable topes and in [2]Enams and [3]backyards and in [4]cultivated dry lands, Cocoanut trees in [5]backyards and in cultivated dry [6]lands of which the tax now amounts

Total	152	4	4

amounts to Rupees 152—4—4 as noted in the margin should under the views of Government now enunciated, be exempted from assessment The only doubt is about backyards which in some cases may be planted expressly for the profit of the tree and of an extent larger than required for ordinary purposes so that perhaps this item should not be relinquished without further enquiry.

15 With regard to the topes 199 numbers which are taxed by a toll on the trees I do not see how the present system can be superseded tho' it is open to objection. The only step that suggests itself is to encourage the parties to take the topes on the Cutcum assessment which they will gradually be disposed to do as greater numbers of trees come into bearing for it will be observed that out of a total of 413,206 palmyras in these topes only 33,291 or about 1/12 are now taxed, as productive in the sum of Rupees 693 so that on an average when the bearing trees are increased from three to four fold the land assessment could be easily borne,

borne, and any further additions to the bearing, trees would be clear gain to the holders. The option should thus I think be allowed of holding these topes on the Cutcum assessment.

16 The Palmyras included in the abkarry rent and of which the renter enjoys the produce are very numerous No account of them has been taken, as they were not supposed to be included in the requisite investigation tho they may be briefly noticed here in connection with the general subject particularly as with reference to para 7 of the Government which are of considerable extent along the coast have been raised by the Government agency and often without any expense thro the means of the village servants and in some instances the trees are in part of spontaneous growth The number however has been increased by the lapse of private topes thro the desertion of the planters, or on their failing to subscribe to the conditions of the rules of 1848 The proportion of the abkarry rent entered for the produce of these trees is Rupees 1715—0—0 and has been included hitherto in the head "Sundry small farms" now ordered

ordered to be transferred to Fund Revenue. This amount however is only an assumption taken mostly from the abkary renters accounts but there is every reason to conclude that the revenue derived from the Palmyras under the general rent is much higher in proportion to the numbers of productive trees than that levied under the rules for the private topes. The case of these government topes obviously differs from that of the private topes on which individuals have bestowed care and labor and expense, and the simplest course appears to allow them to continue under a general rent in connection with the abkary.

17 A portion of these palmyras growing in the ryots holdings or on the boundaries of their fields formed the subject of the correspondence noted in the margin and the Government in Extract Minutes Consultation dated 18th July 1856 resolved to continue the present practice of including them in the Abkary rent.

18 Some scattered palmyras continue at present without assessment as follows.

	Bearing	Not Bearing	Total
In yards	7,583	14,109	21,772
In cultivated lands	963	2,568	3,531
In Enams	4,197	6,190	10,387
In waste	199	800	999
	13,022	23,667	36,689

Here as in the cases mentioned in para 13 some of the yards may upon enquiry be found of such an extent as to warrant the imposition of assessment, but as they should be liberally dealt with, it may perhaps suffice to confine attention to instances in which more extensive grounds have been fraudulently appropriated for the purpose, free of tax without strictly conforming under the proper denomination of yards.

19 The particulars of the topes classed as "charitable" and free from assessment are given in the Statement No. 4. They mostly consists of fruit trees such as Tamarinds, Mangoes &c. and comprise also some

of

of other descriptions suited for shade as well as a portion of palmyras. The whole extent of land occupied by these, is 1567 acres of which the Estimated assessment is Rupees 9125 The produce of these topes goes to the several communities to which they belong in some cases the planters having the control in other the collective villagers.

20 With reference to para 15 of the Extract Minutes Consultation it may be stated that the present investigations have not as far brought to light claims to topes of this description, the as alone alluded to many parties have been restored to the ownership of their topes on assessment to which they formerly appeared to be liable.

21 With reference to para 22 of the Minutes, it may be observed that fruit trees on tanks and channel banks in this District are rare where they exist they are rented in common with the trees, or appropriated to charitable purposes, according to the head to which they belong in the accounts.

22 Referring to Para 13 it may be stated that the people generally throughout the District enjoy the privilege of cutting firewoods in the jungles in their own villages and those in the western Taluks are frequently also

taken by parties from a distance without leave. The orders of Government directing the western Hills and Jungles to be rented refer it would appear to pasturage for cattle, and it does not seem desirable to create a new source of oppression in investing the renters with power to take the firewood. The exception to the above exemption, in the rent of the Coast jungles has recently been removed by the order of Government dated 18th July 1836.

23 On the subject of para 23 I beg to refer the Board to my communication dated 26th May 1836, No. 57.

24 One important point which requires consideration is the liberty that should be allowed to the occupants of the Topes with regard to cutting down the trees. Such right has not hitherto existed here even on enam lands but sanction for cutting palmyras is freely accorded in case of enams and also where the private topes are taxed, care being taken that they are not denuded to such an extent as to render them incapable of providing for the assessment.

25 In the case of fruit trees decayed trees or thinnings of the topes go to the proprietors whether appropriated for charitable use or assessed. To grant a

Fort St George 21st October 1856

a free permission to cut the trees would I doubt not lead to this liberty being much abused In the case of palmyras permission to use the trees for timber is accorded under sanction and with the exercise of discretion. In the case of fruit topes the necessity for cutting down the trees is much more rare and every good purpose would I think be answered by reserving a discretionary sanction as in the case of palmyras & there will there is nothing to prevent the parties appropriating valuable timber and & then getting rid of the land by abscond-ing for a while from the village & till the matter may have blown over. The object also of the preservation of trees for the purposes contemplated by Government would also be & better secured by a moderate restriction

26 With regard to permanent puttah for topes there appears no objection where they are held on the known assessment Limit rents for sums lower than that standard are perhaps better revised after a periods of years as above & suggested.—

J. D. Sim Esqre.

Acting Secretary to the Board of Revenue

Fort St. George

A After Bd. No. 4186.

From the Collector of Chingleput — Sir,

Adverting to the Endorsement of Government on the accompanying Petition No. 887 of 1856 bearing date the 8th May last, I have the honor to report for their information that the claims of the Petitioner to the proceeds of a certain share in the Shrotriem Villages of Moridum and Coderpoor in the Conjeveram Talook would appear to be leased on the award of a Punchayet constituted in the year Rackchasee to which his adversaries demur on the ground that certain sums decreed in their favor by the above Punchayet have not been as yet paid to them. The case being only adjudicable by the Civil Courts, and the interests of Government being in no way concerned I see no objection to the Petitioners request for the grant of the necessary Endorsement under Regulation 4 of 1831 being complied with.

I am directed by the Board of Revenue

Fort St. George 21st. October 1856.

Revenue to point out that the comparative Statement No. 2 which accompanied the Demand Collection and Balance Statement No. 1 submitted by you for September has been incorrectly prepared. The Statement No. 2 as you will perceive from its heading should contain the Collections for the last and present fasly up to 30th. September that is the aggregate of two Months July, August, and September, instead of this however the Collections of the Month of September only have been entered.

2 You will be pleased to submit an amended statement without delay and guard against similar inaccuracies in future.

Sir.

With reference to the 2d para of my letter dated the 22d Janua-
ary last. I have the honor to state that the first 3 Offices noted in the margin were dispen-
sed with from February last and the Office of the Head Shroff from the 17th may last on which date the Head Shroff applied for a pension.—

Reports with reference to the 2d para of his letter of the 22d January last what Offices were dispensed with and the pay thereof appropriated for the Printing Esta-

2. A Memorandum shewing the sum realized by these reductions up to the end of June, with the expenditure up to the same date is enclosed.

3. The pay of the printing Establishment amounts to Rupees 85 a month as entered in the margin; and the sum available monthly by the reductions is Rupees 80 which leaves a deficiency of Rupees 5. This trifling sum I expect will be fully met by sums to be charged for work executed for the Judicial Establishments and for private parties.

4. I proposed in the 8th para of my letter under reference to pay from the Hd Shroffs salary of 50 Rupees 9 Rupees to the 2d Shroff who is now required to perform the duties of Head Shroff. so as to raise his pay to 30 Rupees; but it seems to me on further consideration that 30 Rupees is some what inadequate especially as no pensions are hereafter to be allowed to persons employed in the Shroffs office. I therefore propose with the Boards Concurrence to make the pay 35 Rupees a month instead of 30 Rupees.

5. The pay of the 2 writers and the Goomastah whose services have been dispensed with has been included in the usual monthly abstract for February last and the pay of the Head Shroff from the 17th may last. tho these persons are no longer employed

employed. I now request the Board will favor me with instructions as to the proper Course to be observed in drawing these sums. I wish to know whether the names of the persons in question should be continued in the abstract as if they were still employed or whether the pay of the Printing Establishment ought to be drawn by a Separate abstract and submitted for audit.

6. I also beg to be furnished with the Scale of charges alluded to in the 6th para of the Minutes of Consultation dated 21st November 1855 No 3343 to enable the Press department to charge for the work executed at the Press for the Judicial Department and for private parties

From the Asst Collector of Ganjam

Submitting the further information required in Bd. Mins. Cons. dated 18th Ultimo respecting the public Servants concerned in a bribery case in the Sub Division of the district and stating how some of them have been reduced.

Sir.

I have the honor to supply the information called for in the Extract Minutes of Consultation under date the 18th Ultimo No. 670 in which the Government review the proceedings in the case of P. Soobarow late Sub Division Sheristadar.

2. P. Soobarow was nominated by Mr. Inglis the then Sub Collector in 1837 and received an Acting appointment, and on my taking charge in 1850 he was still addressed as "acting" in Orders written to him and in the usual returns. I am unable to give any good reason for this, it was apparently an oversight. Mr. Ouslow wrote of him sometime as acting Sub Division Sheristadar, sometimes he left out the acting, had he looked on him merely as an acting man, there would have been no necessity for him to apply to the Commissioner for permission to dismiss him.

3. In para 6 Government desire to know what has been done with N. Streenevasanow, this man was not sent back to his old post, I had much difficulty in finding a suitable place.

place for him owing to his family connections. He is now Head of Police of Askota on a Salary of Rupees 36, he conducted himself with much coolness and firmness at Daulghur in January last and Mr. Davidson reported favourably of his conduct, owing to the illness of the two Civil Head Goomastahs who went up into the hills with Mr. Macdonald in 1851, 1853/1850. I sent him up to take charge of Mr. Smiths Office as a temporary measure, there however charges have been preferred against him and he is now under suspension.

4 With respect to the next four persons I need regret the view taken of their case by Government in my letter to the Commissioner dated 16th June 1855 I spoke of the Kurcavulan case as having "broken down" it was proved that money was said to have been paid to A. Shreenevasarow at one place when the Office Records shewed he was at another, and the Evidence of the payment of the sums set off aside these sums was not satisfactory in the case of the 1st Defendant, the 3d Witness deposed that he went 16 Kafs to get 10 Rupees which as Mr. Foord observes is hardly credible. It is true there were as has been brought to notice strong reasons to believe that money had been given, and looking at the antecedent of Sr. Soobarow and A. Shreenevasarow and the

No. 118.

positions they held I thought there was enough to warrant some thing more than censure, but this was not the case with the others G. Venentrancodasse had been 20 years in the service, and had borne a very good character up to the time of the charge, and I felt it would be hard even on strong suspicion to reduce him, the more so as he had been overlooked and last promotion to which he had a fair claim, I shall now send him to Mr. Smiths Office and so remove him from his old sphere, and though the pay is the same, yet as it will entail much Expense and be a strong mark of displeasure it will I hope be thought a sufficient punishment for an Offence Committed in

1851.

5 T. Sectaramiah is now under suspension, he was appointed Guardian of the Swlakeme by Zemindar by Mr. Onslow and has given but little Satisfaction, he allowed the mother of the Jeradas Minor to make advances on behalf of the Son for the Zemindars Sister without making any report, and is so strongly on the side of the Zemindar's fatherinlaw that with the Commissioners Sanction I did not intend to re-employ him till the disturbances are over. He is so wanting in energy that I doubt if he is fitted for any active employ and if he is fitted for any active employ and lower pay or I would have reduced him

him before this I shall however by him as Sheristadar of Nellapoor.

8 Chuttie Narasingarow is now Tahsildar of Mohery and one of the most active Officers of the class in the district. I promoted him at the instance of Mr. Foord for his good Conduct while in charge of Wadada, and shall remove him as Peishcar to Palakiry and I would express a hope that he and G. Venkataramy may if their conduct be good be eligible for promotion at some future time.

7 The last Adjutant is Sheristadar at Wadada and will be transferred to Nellapoor as Head Goomastah which entails a loss of Rupees 15 per Month.

8 I cannot but allow with regret the truth of the remark in the last para but I hope something has been done to check this Corruption the result of many Causes first among which were the frequent change of Officers between 1845 and 1850 and the strong party Spirit that existed my best Exertions have been given to break up both parties by introducing men from other districts but this takes time.

9 In Conclusion I have only to add that on the receipt of an Official Memorandum from me that Mr. Foord was led to test the evidence of the 7th Witness and review his judgment in the 600 Rupees Case.

Resolved that the above letter be submitted to Government with reference to Extract Minutes Consultation 18th June 1856 No. 620.

2 The Board observe that on the 17th July last they accounted to Government for the omission on their part to notice the protracted "acting" appointment of Poobarow, Sub Division Sheristadar of the district. The Acting Collector in the above letter details the circumstances of the case but is unable to afford any satisfactory explanation of the irregularity.

3 With reference to the other five persons referred to by Government Mr. Knowles reports as follows that A. Sreeneevarow was not remanded to his former Situation. He holds the appointment of Head of Police of Askarow 30 Rupees per mensem and has conducted himself well in that capacity. He is now however under suspension in Consequence of charges recently preferred against him while in temporary charge of Mr. Smith the Assistant Agents Office, and T. Seetaramiah is also under suspension at present apparently in Consequence of his unsatisfactory conduct as

as guardian of the Minor Reminder of Purla Kennedy Mr. Knox states his intention of trying him as Sheristadar at Ichapoor by Venkatarawndaje, is to be removed to another Situation on the same pay and in consideration of his long Service and the good character he bore until this occurrence Mr. Knox trusts that this mark of displeasure which will entail Considerable expenses on him, will be deemed sufficient

The remaining two Nursing a Rom and A. Bauficah are to be reduced to inferior posts.—

Referring for the Boards instructions a matter affecting the sea Custom revenues at the ports of Cocanadee and Coringa

Sir

I have the honor to bring under the consideration of the Board a matter which is of some importance as affecting the Revenue derived from the sea Customs at the ports of Cocanada and Coringa

The Board are aware that under
2
the orders of Government of the 29th April 1851 confirmed by the supreme Government on 30th may following, the land frontier duty levied up to that time on a number of articles on export from these territories into the town of Yanam, under the French Government was struck off and duty was for the future to be collected only on the 6 × articles shewn in the margin, and in the case of the two first not when imported into Yanam for consumption, but only if reexported by sea

× Paddy
Rice
Tobacco
Sugar
Rum
Piece Goods

Gingelly oil seed has within
3
the last few years become an article of considerable export from this part of the
Country

country, especially to France, and the two ports named are much frequented by vessels under the French flag. The seed has usually been exported either from one, or other, of the two ports most commonly from the former, & duty of course paid.

4 The Agent here of a firm at Madras Messrs. Arbuthnot & Co has however, just hit upon the expedient of conveying the seed from in the present instance, Tallarainoo, a Village on the banks of the Coringa river to Yanam, and after paying there some trifling duty to the French Government reloading it and carrying it under a French pass to the ship in the Cocanada roads, and thus escaping payment of any duty whatever to this Government, for no duty can under the present rules be demanded on the seed when passing into Yanam nor when it passes out again, being then under a French pass, and bound for a ship duty entered in the Master Attendants office for Yanam, the river being considered free to boats from Yanam so protected.

The

The French ship "Anevir" has lately been loaded in the manner described and a considerable loss of duty has been occasioned.

The Board will observe that

5 the duty on various articles, gingilley oil seeds among the number was given up under the orders referred to, because the levy of duty on articles for Consumption only was not considered fair, but it clearly was never intended that the liberal rules, laid down in 1851 should be made use of to avoid payment of duty justly leviable on the export of the produce of this country either into Yanam, whether by land or by river; or an arrangement must be made by which duty is paid on passing the Coringa Custom House, as all boats must do from Yanam to the roads.

6 In an interview I had yesterday with the Chief of Yanam Monsieur St Hilaire, he while in no way wishing to

Justify

Fort St. George 22d October 1856

justify the transaction, informed me that he had no power to refuse passes when applied for the article being at the time bonafide in Yanam. —

7 There contracts are now being made for the delivery of the produce of the coming crop in Yanam, and I therefore solicit early instructions for my guidance

8 It may be proper to add that the French Imperial Government have lately issued a decree that gingilly Oil seed, covered by a certificate that it is the produce of the French Territories in India, or as I understand the adjaining Country will be admitted into France at a considerable reduction of duty. The first object of taking the oils seed in the instance which has caused this reference to Yanam may have been to secure this certificate to the same however is granted by the Yanam Authorities for all seeds shipped on French vessels from the port of Cocanada although they have

P.C. No. 3507 Submitting a letter from the Coll.r of Rajahmundry reporting the loss to the export Revenue of the country arising from the conveyance of Gingelly Oil seeds from the Companys Territories into Yanam for the purpose of exportation and resolving to inform the Collector that a revision of the schedule of articles liable to duty on the Frontiers of French settlements is under the consideration of Government whose instructions when received will be duly communicated to him

Read Thereon.

Resolved that the foregoing letter be forwarded for the information and orders of the Right Honorable the Governor in Council in connection with the Boards Proceedings to Government dated 23d June 1856. No. 1920 — submitting for sanction a Revised schedule of articles liable to export duty on passing the frontiers of the french settlements situated in the Presidency

2 In the present communication the Collector of Rajahmundry brings to notice another instance of loss to the export revenues of the Country arising from the exemption from duty of certain articles passing into the french settlements

3 Mr. Purvis states that Gingely Oil seeds have been largely exported

exported within the last few years from Cocanada and Coringa to France on payment of duty, but that an agent of Messrs. Arbuthnot & Co. has lately evaded the duty by conveying the seeds free from Tallaraivoo (a Village on the banks of the Coringa River) to Yanam and under the protection of a French Pass exporting them thence in boats on board a Vessel in the Cocanada Roads after payment of some trifling duty to the French authorities. Mr. Purvis has also learnt that contracts are being made for the delivery of the ensuing crop also in Yanam, the Chief of which settlement has stated that it is not in his power to withhold Passes for articles actually in Yanam at the time of application

4 Mr. Purvis also reports that Oil seeds covered by a certificate of French origin (which is said to be granted for all shipped at Cocanada on French ships) are admitted into France at a considerable reduction of duty. This system necessarily increases the inducement to export Oil seeds &c. &c.

in the manner now reported, as the whole of the english and a portion of the French duties are thus avoided

5 The Collector therefore suggests that duty may be declared leviable on such produce either when it is being passed into Yanam or brought out of it in boats which must necessarily pass the Coringa Custom House to reach the shipping in the Roads. The revised Schedule before Government includes Oil seeds of every description as liable to export duty and as its operation will fully meet the object of the Collector, the Board resolve to inform him that the subject is now under the consideration of Government whose instructions when received will be duly communicated to him.

Encls. A in P. to Govt. 23 June 1856 No. 1920

6 It is necessary to remark one particular in which this case differs from those referred to in the Boards Proceedings to Government already quoted. In those cases there was not only loss to the Revenue but a diversion of

Fort St. George 22d October 1856

of trade from British Ports, the Board apprehend that in the present instance the former will alone exists. so long as high duties prevail in France, the expedient noticed in Para 4 of the Proceedings affords a ready means of attracting trade to French ports or encouraging shipments on French Vessels.

7 The value of the exports of oil seeds for 5 Years was given in the Boards letter dated 9th February last No. 391, and the amount of duty realized in the previous Communication dated 2d October 1855 No. 2561

Ordered that a Copy of these Proceedings be communicated to the Collector of Rajahmundry, for his information with reference to his letter dated 16th September 1856

BC No. 3734

From the Coltr of Nellore

Sir,

I have the honor to request

Fort St. George 22d October 1856.

you will lay before the Board of Revenue the following circumstances connected with the claims of the Renters of some of the Sadapoor Villages in this District for remission on Garden Jareeb lands.

The subject was originally brought

2 to the Boards notice in a letter from the Acting Sub Collector in charge under date 16th July 1855, and the difficulty has arisen from the omission to include the Sydapoor Talook, and the Rented Villages, when the arrangements were made for reducing the Jareeb thists in the rest of the District in fusly 1264—

Vide Bds Pro: 13th December 1855.

3. This has been remedied from fusly 1265. And as regards the Villages where the largest balances were outstanding for fusly 1264, the Board authorized the loss the Renters would sustain being calculated by substituting 25 Rupees a Gorloo for the previous Mootah rates, and the collection of an equivalent portion of their rents being suspended on their engaging to limit their demand against the ryots to the same amount, but no provision was made on that occasion for extending the remission

Vide from Bd 31st August 1855.

to

to the Renters of the other Villages in the Sydapoor Talook for fusly 1264.—

4. These persons conceiving themselves to be equally entitled to it have withheld portions of their kists for fusly 1265, as a set off for the remission they consider due to them for the previous year, and unusual difficulty is found in collecting the balances outstanding in the Talook. The claim of these parties to remission, so far as the Ryots may not have paid them stands on the same grounds that of the Renters of the 4 Villages to which it was granted, and the claim of the latter having been recognized, it appears to me that justice demands that they should also have a like remission conceded to them.—

5. A Statement is enclosed shewing the amount involved, which is far from considerable, the most important cases having been settled as abovementioned, and I beg to recommend that I may be allowed to suspend corresponding amounts of the Balances of Fusly 1265 where such are still outstanding, and where

where there are no balances for that year to give the Renters who took the Villages for 3 years, credit in their Kists for fusslies 1265 & 1266, on condition of their engaging to limit their demand against the ryots, or to give them credit, to the same extent as they themselves obtain it. The total amount requiring to be suspended in carrying out these measures is Rupees 921-91.

thereon. The case of the Renters of the Government Villages in the Sydapoor Talook of Nellore was brought under the Board's consideration by the Acting Collector Mr. Ruthiff in his letter dated 2d. May 1855. But the information afforded was to general, and the Board called for a distinct proposition from the local Officer. The Acting Sub Collector in charge, Mr. Minchin, reopened the question but without meeting the Board's requisition; He was therefore called upon to supply the information required, and the Board expressed their readiness to suspend a portion of the Renters dues to Government, if the necessity of such an abatement was established and the Renters engaged to grant similar reductions to the cultivators of Garden lands in these Villages. In his letter of 3d. August 1855 the Collector Mr. Elton explained the case more fully, advocated the claim of the garden cultivators in the Rented Villages to participate in the liberal advantages

advantages already conferred on such ryots in the Government Villages and reported that Mr. Minchen, acting on the Board's Proceedings of 26th. July preceding, had suspended a portion of the Renter's kists in certain Villages.

2. Mr. Elton's proposition was restricted to 4 Villages* and the reduction was to be granted on a calculation fixing 21 Rupees per Goortoo for Mooloom and Jareeb lands. The Board demurred to this rate and finally in their proceedings 31st. August 1855 they instructed the Collector to calculate what loss the Renters of those 4 Villages would sustain by collecting Fesvd in Fusly 1264 from the parties then in arrear at 25 Rupees per Goortoo for Jareeb and Mooloom, and to suspend the collection of an equivalent portion of their rents for Fusly 1264 on their engaging to limit their demand on their ryots, to that rate. Mr. Elton was also requested to report on the introduction of the new Garden rates in all the rented Villages.

The amount allowed to remain uncollected from the renters of the 4 Villages above named does not appear to have been separately reported to the Board, their orders having been simply to the effect that the Collection should be suspended and the sum recommended to be written off in the settlement report—

III. The amount already suspended will be shewn in the Collectors reply, in order that the entire remissions may be seen at a glance.

The Petition, noted in the margin, has been forwarded to me for disposal, but as the matter requires the orders of the Board, I have the honor to solicit their orders on the subject.

2 In the Board's Proceedings dated 27th October 1851. permission was granted to the Petitioner, Syed Mahomed to proceed to Bellary for three years. He availed himself of the leave on the 25th September 1852. and his allowance was paid to his Wakl. Ghoolam Jafar ally up to the 11th April 1855, on the production by him of an authenticated life Certificate of the Petitioner. No payment has been made since that date owing to the non production of a life Certificate.

3 Syed Mahomed is said to be now residing

residing at Hyderabad, whither he states he proceeded for the purpose of seeing some of his relatives, and of acquiring a better Knowledge of the Mahomedan Law.

In the Petition now under reference, he solicits permission to be absent for a further period of three years, and requests that during his absence his allowance may be continued to be paid to his Vakil.

4 As the Services annexed to the yeomiah, are reported to be regularly performed, I beg to recommend with reference to the Board's Circular order of the 25 April 1850, that the prayer of the Petitioner Syed Mahomed, be complied with under the usual conditions.

5 I beg at the same time, should the Board be pleased to accede to my recommendation to request authority for disbursing to the Vakil the arrears which have accrued from the 12th April 1855, on the production of the usual certificated Life Certificate.

Sir

With reference to Endorsement dated 1st august last on Board Petition No 2026 of 1856, I have the honor to state that the case of the Petitioner is not one which can be summarily disposed of either by me as Collector or Magistrate.

It appears from the
2
enquiry made by the acting Head Assistant Collector that the husband (Avoonachalah Gownden) of the Petitioner died about 30 years ago, soon after which she left the place and went to reside in another Village; since that period the houses and lands in question remained in the possession of her husband's brother up to the time of

of

of his death which occurred 4 or 5 years ago after his demise his widow continued to occupy the house and enjoy the land. Last year the Petitioner returned and remained for about ten days in the house which forms part of the property in dispute.

3 She however soon quarrelled with the widow of her late husband's brother and went away again.

4 The Head Assistant Collector proposed that the matter should be settled by arbitration to which however she refused to give her assent.

5 He then directed her to seek the remedy of the land and house by a Civil Suit if she thought proper, and I do not see that any thing else can be done in the matter.

From the Collector of Masulipatam 3 Paras 1.

Sir,

In para 3 of my letter of the 1th Instant No 69 on the subject of the suit brought against Government on behalf of a Temple at Goodoor. I stated that the Tahsildar was directed to examine and report whether the field pointed out by the Plaintiff could be identified as those mentioned in the Chekiavannahs. His examination has now been completed, and from the Statements submitted by the Tahsildar, it appears that in all Villages, except two, the boundaries named in the Chekiavannahs are recognized and that the present measurement of the arrears enclosed by those boundaries, gives results more or less agreeing with the original extent. I enclose an abstract of the results for your information. Some of the old inhabitants are reported to have stated that they would recollect some of the fields having been cultivated as Enams of the Temples. The exceptions are Villages

[x] A Note.
To avoid the delay of transcribing the Borough Office Copy of this Statement it is sent for inspection and is requested to be returned.

Fort St. George 23d October 1856.

Villages are Gollapollam (now a proprietary Villages) and Moonepully. In these the Villages do not admit the boundaries declared by the trustees.

2 Regarding the Enams of the third Temple Ramalingaswaraswamy I made a few remarks in my last letter, founded on the fact that neither Summud or Chekiavannahs were produced. I found however that the trustee of this Temple also, has been pointing out to the Tahsildar certain field as his Enams. On Summoning him to explain on that date he did so he said that very recently, that is a month ago, he obtained from a brother Kurumm and relative two papers, one Styled Detailed Habitah of the boundaries of the Enams of Ramalingaswaraswamy dated Fusly 1230 as per Chekiavannah Vide the other Fusly 1230 as per Chekiavannah (on Stamp) an original and authenticated Extract from the Jasamevan Enam accounts of the Goodoor Purgunah of Fusly 1207 Mr Oakes. administration. That with the help of the former he was enabled now to point out what lands were his Enams and that he did not know that such Document existed before his relative communicated to him the fact and

and gave the papers to him. I enclose copies of both for your perusal.

3 Between the dates of these two Papers there is only an interval of seven days. At first sight, it struck me that the paper of boundaries, thus produced at the Eleventh hour, must have been fabricated for the present occasion. Its date being almost simultaneous with the other, which is beyond doubt a genuine document might be construed both in favour of as well as against such a supposition. The search which I have caused to be made by the Native Record Keepers among the Koozoor Records, has proved fruitless in the way of throwing any light on the origin of these two papers, at the time that they purport to have been written. But the Extract is found to tally with the old account from which it purports to have been framed. In regard to some of the Enams belonging to the Temple also, some old inhabitants declared, they remarked the fields having been once enjoyed as Enams.

4 In a matter like the present I am fully aware that the sympathies of the Village

Villages are entirely with the Plaintiff and that their (Villagers) evidence however one sided, cannot be challenged with success by Government unless it contain contradictions. No public Servant knows the names of fields or boundaries in a Village and on this point what the Villagers choose to say, must generally be the law, and the Government suffers by the unavoidable disadvantage of its position.

The Subject of the Suit brought by the Plaintiff against the Defendants is as follows.

A Puttah was given by the Govt to the Village of Murry pauld in the Talook of Surgum under Nellore which from fusly 1266 was held jointly by myself

and by an undivided uncle of the 1st Defendant by name Soodalgoontah Jungum reddy and after his death from fusly 1261 to Fusly 1264 by the 1st Defendant and myself. The Puttah is No 8 and the Shist on it is Rupees 221—8—7 as. The extent of the land is Acres 52—13½ consisting of Puttah Nagany and Bogayet Saar entitled to half of this being acres 26—6⅝ yielding a Sum of Rupees 110. 12. 3½ as 8 per annum with the Assistance of the 2d Defendant who is the father of the 1st Defendant and a wealthy man the 1st Defendant one over the Tahseldar Emanany Verasalingum Naidoo and caused him to write the Urzee No 198 against me which with the Kyfeats given irregularly by the 1st and 2d Defendants were perused by the Acting Collector and referring to whose decision on review the 4th Defendant gave an Endorsement against me on my Petition on the 2d October 1855 stating that as it appeared from the Jummabundy Jabbar Book of fusly 1266. that the late Acting Collector had ordered

that

18701 Fort St. George 23d October 1856

that 2/3 ds of the land in question should be held by the 1st Defendant and 1/3rd by me he will not therefore reverse the former order.

During the fummabundy of fusly 1264 when the Puttahs were iffued the 1st Defendant disputed before the Acting Collector Mr. Ratliff that he was entitled to a greater portion of land in the joint holding than my self. That Gentleman gave the Puttah as usual and told the 1st Defendant that if he has any claim for a greater portion that he must profes it to the Civil Court. Had the circumstances been written in the Jabrar Book as stated by the 4th Defendant in the Endorsement the same would have been remarked in the Puttah given to me and the 1st Defendant. But such a thing never took place. If it had been written Subsequently at the instigation of the 1st 2d & 3d Defendants no agreement has taken place between me and the 1st Defendant

18702 Fort St. George 23d October 1856

to that effect and there is no reason for my abiding by it.—

The Defendant without —

taking into consideration any thing regarding the circumstance has given me an unjust Endorsement on my Petition I have appealed about this to the Revenue Board on the 15th December 1855. and they gave me an Endorsement on my Petition under date the 3rd January 1856 to the effect that I should appeal to the Collector if I had any thing to urge against the Jabrar Book of fusly 1264 and that if I was not willing to do so to prosecute my claim in the Courts upon this I again appealed to the 4th Defendant on the 23d February 1856. The Collectors that came to this Zillah from the assumption of the Country including the 4th Defendant have done justice by not giving any right to others without the consent of the holders

of

Fort St. George 23d October 1856

of the Dittum or when not supported by documentary evidence as to the joint holding belongs to me and the 1st Defendant equally I am undoubtedly entitled to a half Share and if it be true that the Acting Collector had without my consent ordered 2/3rd to the 1st Defendant and 1/3rd to me and so written in the Jakrar Book, the 4th Defendant ought to have considered it to be a great mistake and unjust and it was his duty to have done justice. Instead of doing so he gave orders favouring the wish of the 1st Defendant I have

inconsequence brought this Suit against the 4th Defendant against the 1st Defendant who has the evil intention of usurping my property by preferring an irregular claim to the Cutkar and has prevented my cultivating half of my land; and against the 2nd and 3rd Defendants who have been ill advising him, and who have acted as my enemies I have filed the Endorsements given on my Petitions by the 4th Defendant and the Revenue Board on the dates aforesaid and Copy of B.No.8 Joint Puttah given to me and the 1st Defendant by the Acting Collector for fusly 1264, and furnished by the [illegible] that the Court will peruse them enquire into the evidences in my possession cancel the Endorsement alluded to given to me unjustly by the 4th Defendant and obtain and make over to me the half Share of 26 acres and 6 5/8 of Puttah, Nagavy, and Bagayet lands, which yields a profit of Rupees 110-12-4 per annum deducting the Cutkar thereon, which lands being what I am rightly entitled to, also the profit amounting to Rupees 110-12-4 for fusly 1265 which I am entitled to in the above said Dittum lands, the 1st Defendant having cultivated and enjoyed the whole of the profits on the best lands without

Proposed Draft answer in Original Suit No 7 of 1856 on the file of the Principal Sudder Ameen

The Plaintiff sues for the recovery of 26 Acres and 6 5/8 Coontahs of Dry Wet and Garden Pallah land annually yielding a Sum of Rupees 110 12 4 alleged to be the Plaintiffs one half Share of the Pallah land which he and the 1st Defendant were jointly cultivating as also for the recovery of Rupees 110 12 4 his half Share of the value of the produce which the 1st Defendant is stated to have enjoyed for fusly 1265.

The circumstances of the case are briefly these In fusly 1243 the Plaintiff and the ancestors of 1st Defendant cultivating ryots of the Village of Ramrepaud in the Talook of Sungum this District joined in partnership and to the end of fusly 1264 held their lands in common At the Commencement of the joint Co partnership the Plaintiffs holding consisted of Acres 5 2 16 Coontahs of land assessed at Rupees 20 3 1 which that

Fort St. George 23d October 1856

of the Defendants uncles was 18 G 17 C 4 bearing an assessment of Rupees 91 8 A 31 C 38 16/16 of land assessed at Rupees 109 13 A 6 C were subsequently acquired jointly by both parties so that the aggregate extent eventually in the joint occupation of the Plaintiff and 1st Defendant amounted to 52 G 13 C 4 assessed at Rupees 221 8 A 7 C In fusly 1264 the Plaintiff applied to the late Acting Collector for a division alledging himself to be entitled to 1/2 of the Pallah land and other joint property while the 1st Defendant denied his right to more than 1/3 but that Officer caused an investigation to be held by the Tahsildar There was no documentary proof as to the precise terms on which the joint concern was commenced in fusly 1243 but the weight of the parole evidence recorded went to shew that it had always been understood by the joint holders that in the event of a Separation each party was to keep what belonged to him at the time of entering into partnership and that any lands and Cattle subsequently acquired should be devided in the proportion of 1/3 to Plaintiff and 2/3 to the Defendants party and that following this rule they effected a division of their ploughing Cattle in fusly 1264 Under these Circumstances the

Eg

Acting Collector directed that the Puttah lands acquired since fusly 1243 should be divided between the two parties in the proportion of 1/3 to Plaintiff and 2/3 to the Defendant, that owned by each prior to fusly 1243 being retained by him, and this was accordingly carried out at the beginning of 1257.

The Plaintiff was dissatisfied and Petitioned the Bd of Revenue who referred him to the Collector but the decision appeared to be just & the 4th Defendant declined to interfere and left the Plaintiff to the Civil Court.

Under these circumstances the 4th Defdt Mr St B. Elton the Collr of Nellore begs to say

That he himself has not interfered in

He requests therefore that the suit as regards himself and the late Actg Collector may be dismissed.

B. No. 3539.

To the Revenue Secretary to Government

Submitting a letter from the Collr of Nellore forwarding copy of a Plaint in Suit No. 7 of 1856 on the file of the P.S. Ameen's Court in which he has been made a Defendant together with Draft and recommending that he may be authorized to defend the suit on the grounds stated by the Board at the public expence.

Fort St. George 23d October 1856.

To

The Revenue Secretary to Government.

Sir,

I am directed by the Board of Revenue to submit for the orders of Government a letter from the Collector of Nellore dated 24th September 1856, forwarding copy of a Plaint in Suit No. 7 of 1856 on the file of the Principal Sudder Ameen's Court of Nellore, in which he has been made a defendant; together with a draft of his proposed answer; and requesting authority to defend the suit at the public cost. —

2. The Plaintiff states that he and his cousin the 1st Defendant held jointly in Puttah, acres 52-13¼ of land to one half of which he (Plaintiff) is entitled — that the 1st defendant improperly obtained an order from the Acting Collector, making over 2/3d of the land to him, and that an appeal was preferred by Plaintiff to the present Collector and the Board against this order, but without success, and that Plaintiff has consequently

consequently resorted to the Court to recover his proper share of the land, together with the one half value of the entire produce for Fusly 1263, Amounting to Rupees 110-12-4

3. The Collector states in answer that in Fusly 1243 Plaintiff and Defendant's uncle joined in partnership and held their lands jointly the holding of the former being acres 2-2 5/10 and that of the latter 13-17 that Subsequent 31-33 7/10 were taken up by the jointly, that in Fusly 1264 Plaintiff applied to the late Acting Collector for a division of the lands claiming one half of the whole that an investigation was held, and a decision passed by the late Acting Collector to the effect that the parties should hold what belonged to them respectively when their partnership commenced and that the land acquired subsequently should be divided in the proportion of 1/3d to Plaintiff and 2/3d to 1st Defendant. That Collector being satisfied by the parole evidence adduced that the partnership was entered on a mutual understanding that in the event of a separation of interests the property

property should be devided in this manner. This proportion it will be observed agrees with the ratio of their respective holdings at the outset and was followed in Fusly 1264 in the allotment of their ploughing cattle. The Collector therefore claims Non Suit as regards himself, urging the following grounds.-

1. That he has not interfered and was not bound to interfere with the decision of the Officer Officiating for him.-

2. That he should not be made a defendant as the decision of the late Acting Collector was passed judicially at Plaintiff's instance.-

3. That the Plaintiff has not been injured by that decision.-

4. The Board apprehend that the first of these reasons cannot be upheld in the face of the Board's Order on the Plaintiff's Petition (which virtually authorized the Collector to review his predecessor's judgement) and of the Collector's own admission that being satisfied of the justice of the decision he refused to interfere and referred Plaintiff to the Courts for redress. The rulings of the

Sudr

Fort St. George 23d. October 1856.

Sudr Udalut quoted by the Collector applies to regular decisions under Regulation V of 1822, which the one in question evidently was not. If it was, the admission of a Suit would apparently be wholly barred by Section XVI.

5. The Board are therefore of opinion that the 1st reason should be withdrawn and that the Collector should base the defence on Act XVIII of 1850, pleading that his Predecessor acted in his Official Capacity, at the instance of the Plaintiff himself, and adducing the evidence on which the Acting Collector's decision was based.-

6. The Board urge a defence on the merits of the case, because they see reason to doubt whether the Acting Collector's decision can be upheld on any other ground than its justice which must be left to the determination of the Court. The case is cognizable by the Collector & fall within the Scope of Regulation V of 1822, and the proper course for the Acting Collector to pursue if interfering at all was to call upon the

Fort St. George 23d. October 1856.

the parties to declare whether they would agree to a decision by Punchayet and if they refused, to refer them to the Courts of Law, so far as the Board can gather there was nothing to warrant this Summary partition of the property in dispute, and such a proceeding was clearly beyond his authority.-

7. The Board see no reason to question the justice of the Acting Collector's decision, apart from the question of his competency to decide at all and they therefore recommend that Mr. Elton may be authorized to defend the Suit on the grounds stated by the Board at the public expence.-

8. The latter part of the defence has been slightly modified in accordance with the views expressed in this letter.-

Para 1. In reply to the Proceedings of the Commissioner for the Northern Circars under date 20th June last No. 457 on the subject of the proposed abolition of certain petty Taxes, I have the honor to enclose a Statement shewing the entire extent of Enam in Divy and Goodewadah Talooks, the portion paying Gittimpoo being distinguished from that not so paying - As to the reason why certain Enams were exempted from the said tax while others were not, I have already fully explained in my first letter that the tax fell upon such enams only as were Cultivated by Jeroyetty ryots at the time the tax originated, and not upon those Cultivated by the Enamdars themselves - since then circumstances have altered - Many of

2- On the subject of Maramut Nesuf I have already in any previous communications expressed my opinion fully - In this letter I will only add my conviction that the levy of this impost must cease of itself on account of the great magnitude of the ordinary works which are now carried on under the direction of the Engineers, and also on account of the considerable increase in the joint rent of Beriz made and about to be made, in consequence

2 The correspondence entered above relates to certain objectionable imposts connected with the Land Revenue in the Masulipatam District.

The first of these is termed "Gattimpu" the designation literally meaning "proportion" and the tax originated when the "Kyle" or Sharing System was in force. It was then found in the case of parties holding both Inam and assessed lands that the actual produce of the latter often fell short of the Estimate and the inference was drawn that part of it had been surreptitiously added to the produce of the Inam lands in order to evade payment of the just share of Government.

4 To prevent this fraud various measures were adopted all ending in the compulsory retransfer to the produce of the assessed land of so much of the produce of the Enam as was assumed to have been fraudulently transferred by the ryot to the latter. At last in Fusly 1235 / 1825/26 in order to secure uniformity of practice the following system has adopted and constitutes the Gettumpoo of the present day.

5 An average was framed for each case of the transfers made during the preceding 5 years from the Enam produce to that of the assessed land and the proportion for Pooly deducted from this calculated. This last formed a permanent rate of tax on the produce of the Enam in all future years.

6 The Board deem it unnecessary to enter into further particulars regarding a system which even if just and requisite when originally imposed is rendered wholly unnecessary by the abolition

abolition of the Sharing System and the realisation of the revenue in money instead of Kind. In fact the Collector states that "Fraud in Standing crops has now taken quite the opposite direction for the Ryots with a view of cheating the Zemindar throw the Enam into the Dairy produce."

7 The tax moreover prevails only in two Taloks Gooderwadah and Deevy and even in them does not affect all Enams. The amount of the tax on an average of 4 years previous to 1855 was 1179 Rupees for annum out of 1262 Cutties of Enam Land in the two Taloks 287 only are subjected to it.

8 The Commissioner in the Northern Circars was at first disposed to believe that the Gettimpoo represented encroachments real or supposed on Government land and that it might be desirable to retain it as a reservation of the rights of Government. The fuller explanation since submitted shows however that the tax should not be viewed in this light and that it is simply an expedient to prevent a species of

of fraud which is no longer practicable.

9 The Board recommend the abolition of the tax from the Current Fasly and the remission of all arrears outstanding on that account the amount of the latter being reported by the Acting Collector.

10 The second Item or "Poaly Doorg-galum" was abolished in Extract Minutes Consultation 30th January 1852 No 66 and continued to be collected by an over sight It has now been wholly discontinued. The Board are of opinion that the unauthorized collections subsequent to that date should be refunded to the parties by whom they were paid. The amount judging from the Marginal entry in para 9 of the Acting Collector's letter dated 10th December 1855 cannot exceed 2000 Rupees.

Pub Cons 29th Jany 1852

In Cons 27th March 1856

11 With regard to the "Maramut" or contribution of the Ryotts to the prepaire of the works of irrigation the Board are not at present prepared to advocate its remission. By the Established

established custom the ryotts of every District are bound to contribute in labour at least to the repair &c of Public Works the circumstances under which their assistance is rendered vary in different districts and the present seems an unsuitable time wholly to abandon this claim on the part of the State. The Rishi appears to have possessed considerable influence in Masulipatam and the Board think it desirable that the tax should be retained as a recognition of this claim until the new System of Management in the Public Work Department is matured and it can be seen in what way these contributions can be modified meanwhile the Acting Collector should take

Reporting on Petition No. 2156 of 1855 bearing the late Commissioners Endorsement.

Sir,

With reference to the accompanying Petition No. 2156 from Sayunty Soobbunnah bearing the late Commissioners Endorsement, I have the honor to state that the Petitioners father and uncle sold to one Manchenavijjoola Brumhasomayazoolo an Enam consisting of 10 Tooms of land for 10 Pagodas on the occasion of their father's death, in order to meet the expences attendant on the performance of the funeral ceremonies of the latter and executed a document in the year Pareethavy, corresponding with A. D. 1791.

While the purchaser and his brothers were about to divide the Enam in common with their other family property, one Sayunty Venkummah a cousin of the Petitioners father claimed

Fort St. George, 23d. October 1858

claimed, it appears, a right to purchase the Enam. The dispute was referred for decision to one Balaramoclawar who settled that the Enam should be sold to the Cousin, and accordingly the said cousin paid 40 Rupees and purchased the Enam which the members of his family have in their enjoyment.

3. The grounds on which the Petitioner now claims the Enam are first, that if the Enam was actually sold by his father years ago why should it subsequently appear in the accounts in his fathers name. This objection is of no great weight for the Enam by virtue of the second purchase has been in enjoyment of the present occupants for a considerable length of time. Petitioner urges that had his father actually sold the Enam to Brumhasomayajoolu, the latter would have obtained a document this it may be answered that the Cadjan document executed on that occasion has been

Fort St. George 23d. October 1858

produced and its authenticity satisfactorily established. Petitioner lastly requires that the Bill of sale executed by the first purchaser to the present occupants should be called for, but no such bill of sale is in existence. It appears that the present holders were satisfied with obtaining from the first purchaser the Cadjan document which the latter got from the original Enamdar. Under all the circumstances of the case and considering the length of time the Enam has been in possession of the present holders, I see no grounds for disposing them in favor of the Petitioner.

From the Collector of Rajahmundry } Sir,

Reporting on Petition N°. 848 of 1854 from B. Puttabheramiah Proprietor of the Capelaiswarapooram estate.

I have the honor to report on the accompanying Petition N°. 848 of 1854 from Baloosoo Puttabheramiah, Proprietor of Capelaiswarapooram estate bearing the Assistant Commissioner's Endorsement.

2. The Petitioner protests against the justice of an order issued by the late Mr. Prendergast, on the 21st April 1854 directing

18731. Fort St. George 23d October 1856

directing the restoration of an Enam situated in the above estate consisting of P. T. In 10-3 of land to Bhamedepanty Lutchmenarayanassomayazooloo and Venkatanaroyanassomayazooloo.

3 The grounds on which the Petitioner urges that the late Collector's decision should be set aside are first that an order issued in 1817 by one Anoopindy Ammanah shews that the land in question had been under dispute previous to his fathers becoming the Proprietor of the estate in 1828. The order goes to shew that it was issued on the occasion of the Ryots, who undertook the cultivation of the Enam purchased by the elder brother of the last incumbent from the Duttoobhattah family having failed to give the latter its produce and it directed that the land should be separated and put in possession of the abovementioned purchaser. The order itself shews that it was issued to settle the dispute by separating the land and placing it in possession of the purchaser.

The

4. The second argument put forth by the Petitioner is that the name of the original grantee was inserted as an Enamdar in the account of fusly 1222 only; and not in those of other fusles, and that the purchaser's name was omitted in fusly 1221, the year in which the alleged purchase is stated to have taken place. This objection does not seem of much weight because the name of the original grantee is in the account of Fusly 1222, and the non-insertion of the purchasers name in the account of Fusly 1221, or in other following years is not of much importance, as the entry of the original Enamdars name in the accounts for several years after the transfer of an Enam to others is by no means uncommon.

5. The 3d objection is that had the alleged purchase been genuine the purchaser would have taken from the grantee, with the Deed of sale the original Puttah and deed of limits, but the purchase of the Enam was proved and admitted by

by the Petitioner's brother himself as shown in a subsequent part of this letter.-

6. The Petitioner further urges that the late Collectors order in his case is opposed to the provisions of Section IV Regulation XXXI of 1802. This section cannot however fairly be considered applicable to the present case because the Petitioners ancestors and himself, although they included the Enam among the Ieroytee lands, have continued to pay the Enamdars compensation.-

7. In a statement of Enams &c. delivered in the year 1852, signed by the elder brother of the Petitioner, it is plainly stated that Duttoobutta Sastroolos was the original Enamdar whose name stands registered in the permanent accounts: that he (Proprietor) was paying to the incumbents (in whose possession the Enam was ordered by Mr. Prendergast to be placed in 1854) compensation for the produce of the Enam from the time his (Proprietors) father became entitled to the estate; and that an enquiry into the origin

of

Fort St. George, 23d October 1856

of their claim it was found that the incumbents purchased the Enam from the original Enamdars.

8 It is further worthy of notice that Vakeel who appeared on behalf of the Petitioner before the late Collector while the was under enquiry, stated (as remarked by Mr. Prendergast in his decision) that the complainants (meaning the present Enamdars) had no Enam at all in that village and that no money was ever paid to them. The statement being inconsistent with that referred to in the preceding Para.

9 I see no grounds for disturbing the of my predecessor.

Para 1.

Sir

I have the honor with reference
to the endorsement of the Board of
Revenue on Petition No. 2531 of 1856 to
state that I have always considered that if
any land was entered in any persons puttah,
I was precluded from altering the Puttah
without the consent of the Puttahdar,
altho' the land might have passed from
his possession, and I have always decided
question of this kind on that principle.—

2. In the present instance
both petitioners and his opponent have
land entered in their puttahs which is
in fact in the possession of the opposite
party this arrangement has existed many years

and

For^d St^n George 23^d October 1856.

and petitioners opponent objects to any alteration.

3. The Petitioner and his opponent are relations, and as long as they were on good terms with each other, they were satisfied that the Puttahs should remain as hitherto. If both parties had been willing that their puttahs should be altered, the change would of course have been made.

4. The order referred to by the Board was given in the Magisterial department, but had never been carried out tho' issued 4 years previous to my joining the District.

5. If the Board are of opinion that the consent of both parties is unnecessary the alteration in the puttahs can be effected in the ensuing Fusly.

1095-96

The Board called for fuller information regarding this case under the impression that the party in whose favor the order of 1850 was passed was in actual possession of the land.

2. It now appears that Petitioner and his opponents are relatives and each holds land entered in the Puttah of the other. If this arrangement is no longer agreeable the dispute must be settled either by a Punchayet or by a Civil action either party can insist on the exclusion from his Puttah of land not in his possession but in regard to the entry in his Puttah or transfer to him, of lands which with his knowledge and assent have continued in the possession of another the Collector can only act under Regulation V of 1822 and call upon the parties to elect between a settlement by arbitration or a Civil Suit, making no change in the Puttah or possession of either intermediately.

3. If Petitioner throws up any of the land entered in his Puttah on the plea that he

he will no longer be responsible for land which is not in his possession, the Puttah for such portion will be issued to the party best entitled to it, but the Collector will be careful to insist on a formal relinquishment.

4th The Collector will communicate these instructions to Petitioner, who will be referred to him.

Ordered that the following Endorsement be passed on Petition No. 2531 of 1856.

"Petitioner is referred to the Collector who has received instructions on this subject."

Sir,

In reporting to the Board on the 9th June 1856 that there were no Local Funds in this District, I was under the impression that the term would not include a source of receipt of so precarious a nature as Tree Loppings. I observe however that it is alluded to in the Extract from the Minutes of Consultation of the 29th August 1856 as one of expenditure requiring sanction, and I beg therefore to solicit authority to use the income thence derived under the Rules prescribed for Local Funds. The yearly income will be seen from the enclosed statement to be sometimes as much as 450 Rupees per annum. It has hitherto been used in the repair of roads in the same manner as the Discretionary allowance.

Para 1 My letter to Government

under date the 1st Instant on the

subject of duty on Colombo Arrack,

having been referred for early report

to the Board of Revenue, which I

am informed by Extract from Mi-

-nutes of Consultation of 9th Instant,

to be the proper channel for reference

of such subjects, I have the honor to give

a short resume of the circumstances of

the case.

2 In April last, when I was

on circuit at Trichendoor in the Pun

-chamahl Talook, I received a letter

from Mr. Barter asking me if he

could import arrack from Colombo

on account of a renter of this Dis-

-trict, and if so what the duty would

be,

Fort St. George 23d October 1850

be, as he could get no information on the point at the Custom House at Tuticorin —

3 As Colombo arrack was not specified in the Schedule appended to Act IX of 1843, I ordered a search of the records consisting of the accounts of Duty 7½ levied at the several Ports in this District to be made to ascertain if Colombo Arrack had been imported at any of the Ports in the District and if so, on what duty? after a careful search of the records for 12 years, which alone were kept with the Circuit Cutcherry, it was reported to me that there was no entry in the accounts of the import of this article, in the accounts for 4 years. As I was unable to

Fort St. George 23d October 1850

the information sought by Mr. Barber from the records of the past 12 years, which were with my Circuit Cutcherry, and it appeared to me that the article under notice could not properly be considered to come under the head of spirits, for the duty chargeable on spirits is higher than that on wines, as shewn in the schedule above referred to, and as it was further provided in the same schedule, that articles not enumerated there in, were to be charged with 5 per Cent duty I replied to Mr. Barber that he might import Colombo Arrack on account of the renter, who was allowed in the Lease granted to him the exclusive privilege of purchasing and selling Colombo Arrack at Tuticorin, and that the duty would be 5 per Cent advalorem —

I

1790. Fort St. George 23d. October 1856

5 I beg to forward Copy of my letter to Mr. Barter referred to in para 4 of my letter to Government and of his reply thereto, from which it will be seen that he (Mr. Barter) states that he has succeeded in cancelling a contract at Colombo for 700 Gallons and that he is unable to get rid of the remainder to the extent of 2,300 Gallons, without incurring considerable loss with a view of ascertaining the extent to which the Sub renter of Arrack at Tuticorin has contracted with Mr. Barter, I have sent Orders to the Shroffs of the Punchamahl Flock in which the Sub Renter resides to ascertain from him and report the particulars of the engagement he has made about Colombo Arrack, but I have not as yet received a reply from him.

1791. Fort Saint George 23d. October 1856

6 Since the question arose I sent orders to the Sea Custom Chowkeydar at Tuticorin to make a careful search of the old records if Colombo Arrack had been formerly imported, and if so, what duty had been levied on it and from his reply received on the 10th October, it appears that small quantities had been imported in previous Fuslies, the last being 412½ Gallons in Fusly. 1261, on a duty of Rupees 1½ per Gallon. The imports since on April, have been 25-5/8 leaguers, on which a duty of 5 per Cent on tariff price has been levied.

7 Under these circumstances and as it appears Mr. Barter contracted with parties at Colombo on the information I had given him, I beg to request that the Board will in the event of their deciding that the Arrack in question is liable to an import duty of 1½ Rupees per imperial Gallon, be pleased in consideration of the special circumstances of this case to recommend that Mr. Barter may not be called upon to

1792 Fort St. George 23d. October 1856

to pay more than 5 per Cent duty on the Tariff price on the import of the Article; on account of the Renter, to the extent he has already contracted for.—

Sir Tuticorin

In reply to your letter of the 27th. Instant, I beg to inform you that the ground on which I wrote to you on the 28th. April last that the duty on Colombo Arrack imported at Tuticorin on account of the Renter was 5 per Cent advalorem, was, that the Article not being specified in the Schedule appended to Act IX of 1845, appeared to be subject to

1793 Fort St. George 23d. October 1856

to the duty on articles not included in the enumeration.—

Under the information now given by the Collector of Sea Customs at Madras. I would beg to recommend that if the parties with whom you have been contracting will agree to cancel the same, or a portion of the same without loss to you it should at once be done, and I shall bring the subject to the notice of Government.—

Sir

I duly received your last letter concerning any further importation of Colombo Arrack, on receiving your former communication apprizing me of the duty being leviable at the rate of Rupees 1/2 per Gallon, I wrote to Ceylon to send no more, and

try

1794 Fort St. George 23d October 1836

try to cancel the contracts, I have succeeded in cancelling a contract for 700 Gallons, but am unable to get rid of the others, to the amount of 2,900 Gallons without incurring considerable loss. I trust therefore the Government will allow this quantity to be imported at 5%. The fact of my not paying duty at the higher rate cannot be considered as a loss to Government in as much as I should never have imported a single Gallon or in any way have entered into my present transactions, had I been called on to pay duty at so heavy a rate as Rupees 1/2 per Gallon, prime cost with all expenses of importation &c. included I have sold to the Renter at Rupees 1-3 per imperial Gallon, this will enable you to see how impossible the payment of such a duty is.

Proceedings thereon. The information contained in Mr. Silver's letter to Government dated 1 October 1836 was sufficient to enable the Board to recommend that Mr. Baxter should be permitted to import the arrack in question at 5 P Cent on the Tariff value. The recommendation being based on the ground that he had acted on official though as it proved erroneous information.

(1101-1102)

2 From the present letter the Board learn that Mr. Barker has succeeded in cancelling contracts for 700 Gallons and the quantity still on his hands is 2700 Gallons. The price at which he sells the arrack to the ab[illegible] Renter is stated to be Rupees 1—3—.

3 The Board remark that the Collector has since ascertained that Columbo arrack on previous occasions was held liable to a duty of 1 1/2 Rupees per Gallon.
