Bd's Rec. 3960–
From the Secretary to Government

Proceedings of the Board of Revenue
Wednesday the 28th November 1856–

Extract from the Minutes of Consultation in the Revenue Department under date the 30th September 1856–

Requesting the Board to Consider and Report what measures they would advise for rendering the Law Regarding Smuggling more Stringent with Respect to Salt–

(See Rec. 1041 in Separate Volume) P 475

Ordered that the following letter be sent–

1003-1004
Bd's Rec. 3937
To The Honble Company's Solicitor

To The Honorable Company's Solicitor–

Sir

With reference to Mr. Boyson's letter dated 30th August 1856 –

2268	From Canara 11th June inclg 27th August 1850	I am directed by the Board of Revenue to forward herewith the Correspondence noted in the Margin– Relative
2739	To Government Pleader 27th August –"	
3404	From Government Pleader 30th August inclg 23d Septr –"	
3079	To Government 23d Septr –"	
3960	From Government 30th Septr inclg 26th November –"	

20622 Fort St. George 26th November 1856

Act XI of 1844

to the present State of the Law Regarding the Smuggling of Salt and the imperfect protection which it affords to so important a branch of the Public Revenue—

2 The Government you will observe have desired the Board in Consultation with yourself to prepare some Specific Remedy The Board will be glad to have your advice on the subject as they are not aware what penalties are incurred in England for a breach of the Customs Laws particularly in cases where the intrinsic value of an article is insignificant Compared with the duty levied thereon and its Confiscation alone is inoperative as a penalty—

3 If you Consider it desirable to Consult with the Collectors of Sea Customs on the Subject Mr. Underwood will the Board have no doubt readily afford you all the information and assistance in his power—

B. No. 2869.

From the Collector of Rajahmundry

Submitting in reference to minutes of Consultation under date the 7th Instant further explanation regarding the removal of D. Soobarayadoo from the Office of A. Cash Keeper.

Sir,

I have the honor to acknowledge the receipt of the Extract from the Proceedings of the Board of Revenue of the 14th Instant forwarding Copy of Minutes of Consultation of the 7th Idem requiring a fuller explanation of the circumstances under which D. Soobarayadoo late Acting Cash Keeper in this Office was removed from the situation held by him.-

2. When enquiring into the State of the Treasury in reference to the Supply of Copper Coin available it came to my notice that 20 Rupees in Copper had this previous day been paid to the Nail Sheristadar in part of his Salary, although the payment as appeared by the Accounts had been made in Silver. This Salary it must be noticed had been charged in the Accounts a few days previously but had not been actually disbursed because it was said the party who had been sent to receive it had left before it was ready.-

3. The money having thus been debited to the

20636 Fort St.e George 26th. November 1856.

the Naib Sheristadar's request to have a portion of his pay in Copper could only be complied with by in fact falsifying the accounts, which was done accordingly 20 Rupees in Copper, tho' actually paid to the Naib sheristadar's servant in part of his salary, was entered as forming a part of the sum sent the same day to one of the Talooks on account of wages.

4. The Cash Keeper admitted that he gave orders for this to be done, and declared that a similar practice was not altogether uncommon and that no more than when Gentlemen sent Rupees to the Treasury for small change or copper it had been disbursed to them and a similar falsification of the accounts made to cover the transaction - No satisfactory explanation could be given in regard to the Naib sheristadar's pay having been charged and not paid at the it was contrary to positive orders to debit any sum whatever in the Accounts except at the moment of payment.-

5. If felt it impossible after such an

20637 Fort St.e George 26th. November 1856.-

an expose of the manner in which D. Soobaroyadoo conducted the duties of his office to allow him to continue any longer in an office of such responsibility but in consideration of his long service and believing him to have acted in the manner shewn more through stupidity than with a full sense of the very great irregularity of the proceeding, I stated that I should be prepared to employ him when opportunity offered in some subordinate appointment, and I must add that he was on the 23d. April last appointed to act as Head Assistant &c. &c. countant on a salary of 38 Rupees. He held a similar appointment before he was nominated to the office of Cash Keeper.-

6. There was nothing to show that the Naib Sheristadar was cognizant of the proceeding which had taken place or that he was aware his salary had already been charged in the accounts when he made the request to have a part of it in Copper.- He was absent from his duty on a few days leave, which was the reason he

did

did not receive his pay in person.

7. The Stock of Copper and Small Coin
May 1855. in hand had fallen very low at the time
but I have since in Communication
with the acting Accountant General
been careful to keep an adequate
supply always available.

B. No. 3167.
From the Actg. Collector of Ganjam.
Submitting the Explanation called for in the Cases of two individuals dismissed from Office in this district and included in the return of dismissals.

In Extract Proceedings Board of Revenue dated 14th July 1856 No. 2207.

Sir

In Compliance with the requisition contained in Extract Minutes of Consultation dated 7th Ultimo No. 995 I have the honor to submit the following Explanation with regard to the two Servants dismissed in last year.

2. Although it was not shewn that the Carcoon profited by his false account there can I think be no doubt of his Culpability. He returned the produce as 24 Garcs; it was proved to be 66. this discrepancy could not have been from mere negligence; indeed the Village Authorities allowed it was designedly done for the return was a most important one and on it the Amount of remission to be granted to the Village depended. The Carcoon grounded his defence on the fact that he only recommended five persons for remission, but had his Estimate been accepted many others must have got it, the Cist payable by the five ryots whose Crops were re-estimated was 242 his estimate was for 170 and yet recommended a remission of only 25 Rupees. the re-estimate

gave

Fort St. George 20th November 1856.

gave their crop as worth 315. His Estimate for the whole Village was Rupees 678 nearly 1000 Rupees below the true Estimate, the man had been but a short time in the Service. Had had so frequently to Complain of the loose way these Estimates were got up that I determined to dismiss him as a warning to other Carcoons as it is impossible for a Collector to deal fairly by his ryots if such Estimates are sent in.—

+5 Months.

3. In the case of B. Kristnarow there was besides neglect of duty Every reason to believe him unworthy of Confidence and unfitted for his post. I went into all the points of this case very fully in my letters on his dismissal. First I reported that when in Charge of Hautgur he had reported the offers (Veet) for the ensuing year at Rupees 78788-5-4: Mr. Prendergast not being satisfied an enquiry was made the parties were called up, and the veet was settled at Rupees 88518-8-7. I found a similar difference though on a smaller scale in the offers he sent in for Mohurry. his Excuse to the Commissioner was that the veet was modified after the character of the season was known. I was however able to satisfy the Commissioner that this was not so. Kristnarow had in Hautgur taken as his data the Accounts of 1263 a very bad year, there was not time for any great

Fort St. George 20th November 1856.

great change in the Character of the season. The Commissioner observed that his "Excuse" was not borne out" in fact though there is in both cases difficulty in proving the intention that led to the Act, there can be little doubt that the renters and he understood each other, at all events great negligence was apparent.—

4. I found too that he had sent in a report on a disputed Carjeeship founded solely on the statements of one party without going to the Village or hearing what the other party had to say.

5. His Police duties were performed with much dilatoriness. He neglected to report a case of robbery and murder which was dismissed after a very superficial enquiry by his Sheristadar and he allowed a party to Compromise a charge of Gang robbery without making any report. I found too that he had been dismissed by Mr. Shubrick for want of activity and neglect of duty when Head of Police of Ganjam and had been for some years out of service till employed to manage the Hautghur Estate when under attachment. He was only acting Talsildar when dismissed. I ought not I now feel to have given him the

Fort St. George 20th November 1850

the appointment after what took place at Hautghur, but he certainly is clever. his Management of Hautghur was good and in the press of business I overlook'd his former faults till recalled by his Conduct in Moherry. nor were they brought to my notice. but for this I should not have thought so much of his family Connection. —

6. The late Commissioner was of opinion that he might be here employed but I confess I should not like to make him head of an Office, the more so as I know he has influence in the Cutcherry. —

7. I trust these explanations will be deemed satisfactory. —

B No 2906

From the Collector of Trichinopoly

Replying to Para 16 of the Extract Minutes of Consultation dated 5th June 1856 No 577 which accompanied Board's Proceedings of the 13th Idem No 1864 on the subject of Garden assessment-

Sir.

Para 1. I have the honor to acknowledge the receipt of your Board's order No 1864 dated the 13th Ultimo, transmitting me with their Proceedings an Extract from the Minutes of Consultation of the 5th June 1856 No 577 on the subject of the reduction of the Garden Assessment of this District.-

2. I had hoped to have been able ere this date to furnish my reply to all the requisitions and information sought by the Government in reference to the Garden assessment of the irrigated and dry Taloorks of this District. But I am not in a position to do so immediately

as

as I had anticipated, owing to a misunderstanding on the part of my Head Sheristadar of what is required by the Government in Para 12. of their Minute.

3 I beg therefore to reply to the points noticed in para 16 at once and thus save further delay.

4. The additional reductions here proposed by the Governor in Council for the Talooks of Arrealore, Wodiarpolliam and Volcondapoorum are very liberal, but not too much so when compared with the assessment fixed on Poonjah and Nunjah lands in other Provinces of the Southern Division of this Presidency. I should be glad to see the relief accorded as here stated. The measure will be

be in itself good policy on the part of Government as giving a stimulus to cultivation, and thus raising the revenue and as regards the Ryots of these Talooks a great boon, yet only an act of justice placing them on a par with their neighbouring agriculturists.

5. The reductions will be for Arrealore and Wodiarpolliam in Poonjah tax 9 annas in the Rupee.

For Volcondapoorum and Arrealore in Nunjah 5 annas per Rupee.

6. The Government propose that, certain Villages in Volcondapoorum and Arrealore more favorably situated than the remainder of the Talook in respect of means of irrigation, being watered by river Channels, should not participate. I should be sorry to see such a distinction made, because I cannot consider these villages in better condition than others. For this reason that, their

Lands.

Fort St. George 28th November 1856.

lands are all in point of fact tank irrigated precisely as other Nunjah portions of their respective taloks. The Channels taken off the Vellaur river do not to any extent irrigate direct, but feed the tanks of the Northern parts of Arrealore and Volconda poorums.—

7

The supply of water to the tanks may be somewhat more certain perhaps than if the tanks depended entirely upon the local rains, yet still that consideration does not to my mind appear to militate against the land holders obtaining a relief from an acknowledged heavy taxation.—

8.

I insert hereunder the names of these villages their Nunjah Ayacut, Cultivation of Nunjah for Fusly 1265. and the Baniz with average of assessment.

No 123.

To G. S. Forbes Esqre.
Secretary to the
Board of Revenue
Fort St. George.

1109
B. No. 2997
From the Collr of Trichinopoly

Sir,

Para 1. I have now the honor to reply to your Board's proceedings No. 1864 under date the 13th Ultimo, and with especial reference to Extract Minutes of Consultation of the 5th June 1856 to submit the Statements and information required by para 12 in respect to the Garden lands in the four wet Talooks of this District. Viz: those irrigated by the Cavery and Coleroon rivers.

2 The Government desire to have detailed Statements of the Garden lands for the Dry and wet Villages separately and that these accounts should exhibit the "Ayacut cultivation" and waiste in each class or in the event of the lands not having been classified then the varying Assessments should be shewn in the same form as in the case of the

the Torrive Talook already submitted by me.

3 I have caused such returns to be prepared each for the latest period to Fusly 1265 and they are herewith transmitted Marked A and B, and numbered 1 to 8.

4 I will proceed to explain these several Statements and at the same time shew the System of Settlement that obtains, and then state what rates of assessment appear to be high and what reductions are required.

5 In this Division of the District, neither the Nunjay, Garden nor Poonjay have been classed or arranged in Surrums - The mode of Settlement being for each denomination of land the same, that is according to the crop raised, but with a given assessment for every such product grown whether upon wet, Garden or dry land. At the same time these several rates of assessment on the same description of

of Crop are not uniform throughout the irrigated Division, but on the contrary vary in every Talook, and frequently in each Meghanum of each Separate Talook.

6 With the Gardens there is however this one distinction between those in the wet, and those in the dry villages of the four Talooks. The Garden lands of the former are rated as two crop or one crop Garden and charged, that is assessed for the Village or Meghanum without reference to product, and these are termed Putcut Gardens. Those of the latter pay entirely according to the Crop grown.

7 The Gardens of the Wet villages are all, I may say, irrigated from Channel water lifted, and have no wells. While those of the dry Villages possess wells, and have in fact no other means of watering their Crops.

8 Such is the mode of Settlement - I will now take the Statements and explain

explain their purport.

9 That marked A gives the Ayacut cultivation and waste of the Gardens in the 21 Villages in an abstract form.

Of 10678 Cawnies there are only 754 Cawnies waste. And the average tase per Cawnie is in every respect moderate whether under cultivation or waste.

10 Connected with this Statement A are the accounts Nos 1 to 4 which give in detail the several rates ranging in each talook for Garden lands. The Board will not fail to observe how numerous and variable they are. But considering the goodness of the soil in the Delta of the Cavery and Coleroon, as well as the certain and easy means of irrigation, I cannot deem the tase high or one that requires reduction.

11 The Statements marked B and numbered from 5 to 8 are for the dry Villages of these Talooks. The first shews the Ayacut cultivation and

waste of the Gardens in an Abstract form.

Of 7689 Cawnies Ayacut, as per the cultivation of last fusly year (1265) Cawnies 1812 are waste. While the rates prevailing as seen in the return are not only numerous but high, and such as call for modification and reduction.

12 These are all well lands, and the villages for the most part situated on the Uplands bordering upon the Dry Talooks of the District and resemble them closely in feature and character of Country.

13 The talooks of Covrand and Vittoocutty in respect of their dry Village gardens are very moderately assessed.

vide Statements Nos 5 & 6.

The highest garden rate being within Eight Rupees the Cawnie, and the lowest 7 annas 8 pice. I do not in consequence recommend any reduction here.

But in Mossery and Lanlgoody the necessity for an abatement of

tase

tasc seems imperative. The rates varrying from Rupees 16-5-3- down as low as annas 11 price 3. according to product grown.

I would suggest that every rate above 8 Rupees be reduced to that amount and be King at the average assessment per Cawnie on both the cultivation and waste as shewn by Statement B. there is but little ground for apprehension that the reduction of revenue will be large or the financial results of much moment in comparison with the relief granted.

14 I am invited to report on the other lands of these Villages also in the Wet Taloks, if I should consider any reduction is needed.

15 I am of opinion that the directly river irrigated villages of these four taloks do not stand in any need of relief. Their assessment is moderate and from the perfect and certain supply of water from the rivers, the lands are not only valuable but find a ready purchaser.

The

16 The dry Villages however are differently situated, and I think require relief both in reference to their Punjay and Poonjay lands.

17 I have prepared Statements marked Nos 9-10-11- and 12 which will shew the variety of assessment rates and the high range in some instances.

Statt No 9 As for Coimbatore, with the exception of one rate Rupees 7, the Poonjah tasc is moderate. The next highest being Re 2-11-0 the Cawnie. The lowest being actually as little as one and a half anna. The 7 Rupee rate should be reduced to the next in the scale.

The Punjah is high in some localities, being as much as Rupees 19½ the Cawnie. I would reduce all above Rupees 9 to that rate.

No 10 This is for Vellore Cuddy. The rates here are moderate and certainly require no modification.

No 11 This Statement shews the Punjah and Poonjah rates for the talok of Moosery. The Punjah assessment

Fort St George 26th November 1856

assessment is not excorbitant even for tank lands and requires no reduction — so in the Poonjah it is moderate with the exception of the first rate, Rs 5-13-4. and this should be reduced to the next on the list.

No 12

This return is for Coulgoody. The Nunjah is not high, and may be allowed to remain. But the Poonjah is exstremely oppressive, ranging from Rupees 11-3-2 the Cawnie to 6/ As these dry Villages are on the confines of the Talooks of Tottiore and Attrelore, it would be but just to allow them the benefits accorded last year to those Talooks, or the still further reductions proposed by the Government in the 16th Para of their Minutes of the 5th June 1856, and to be made applicable to the rates above Rupees 2-8 — :

18 To exhibit the Aycut, cultivation of the Past fasly: 1265. and the waste both of Nunjah and Poonjah in these dry Villages

of

Fort St George 26th November 1856.

of the irrigated Talooks. I beg to furnish a Statement marked C. The averages of the tax per Cawnie both for the Cultivation and waste are shewn there to be moderate, and would not lead to the supposition as already explained that the rates did actually run up so high in localities, or that there existed a necessity for a reduction of the land tax.

Trichinopoly District.

Bd No 3935.

Proceedings thereon 1.

(1099-1101)

Submitting with an expression of the Bds views thereon letters (with their Enclosures) from the Collector of Trichinopoly replying to the observations and suggestions of Government with respect to the reduction of the assessment on the Garden lands of his District. —

x Jud. Cons. 13th June 1856. Para 9.

Fort St. George 26th November 1856.

1. In their Proceedings of the 20th March 1856. No. 864, the Board submitted to Government the measures of relief which they considered to be required by the Garden lands of the Trichinopoly District. —

2. In the Minutes of Consultation under date the 5th June 1856. No. 577. the Government authorized a reduction of the full Garden Rents in the four Dry Talooks as follows:—

Torrore ——— } to 3/4
Volendapooram }
Arrealore } to 5/8
Oodiarpolliam }

Para 12—

3. In regard to the Garden lands in the wet Talooks of the District Viz. in those watered by the Cauvery and Coleroon Rivers, the Government called for statements for the Dry and wet villages respectively to shew the Ayacut cultivation and waste, and they desired moreover that the Collector should report the system of Settlement, and his opinion as to the reduction required

L B.

20676

Fort St. George 26 November 1856.

required.

4. Mr. Bird was also to be invited to report similarly on the other Lands of those Villages if he should be of opinion that reduction is needed.

5. At the same time, Government adverted to the reductions of assessment in the Poonjah and Nunjah Lands of the Dry Talooks authorized by the Board's Proceedings of the 1st February 1853 and expressed an opinion that the indulgence might with advantage be enlarged by making the maximum proportion of the Poonjah assessment in Arrealore and Oodiarpolliam 7/16 instead of 2/15: and the Maximum for Nunjah in Volendapooram and Arrealore 5/8 instead of 3/4 to be so applied to the 1st Crop only the 2d Crop being assessed at half the rate of the first But before passing an order to this effect the Government wished to have the opinion of the Collector.

Mr.

From Collr. 28th July 1836. Infot 26 Novr.

10 Mr Bird replied to this last reference first he expresses his opinion that the reductions proposed by Government are very liberal but not more than are needed. It only remains therefore for the Board to state their concurrence and request authority for the proposition being carried out. They regret very much that this letter was not at once submitted to Government without their waiting to consider the questions contained in the other communication recorded above.

Paras 15.

7 In the same Para the Government observed that it would not seem necessary that the Nunjah lands in certain Villages in Volcondapooram and Arrealore which are watered by River channels should share in this reduction. Mr Bird would be sorry to see a distinction made as he does not consider these Villages in a better condition than the other. The reason however that he gives for his opinion viz. that the channels do not to any extent irrigate their lands direct but feed Tanks

Tanks does not appear to the Board satisfactory; and as Arrealore has been surveyed and Valcondapooram will probably be so immediately they think it inexpedient that Government should now commit themselves to a reduced assessment when the rates may soon be settled definitely.—

28th July 1836. Parag 9 in Corr. 26th November 1836

8 In this letter Mr Bird also reports having given effect to the reduction in the Garden Rates of the 4 dry Talooks stated in Para 2 of those Proceedings as directed in the Board's letter dated the 9th July 1836.

31st July 1836. In Corr. 26 Novr 1836

9 The Board now proceed to notice the second letter from the Collector recorded in these Proceedings.

Para 12 Mr. of Govt 8th June 1835. pp. 577 In Corr. 18th June

10 With respect to the Garden lands of the wet Talooks the Government observed that the rates of assessment &c. prevailing respectively in the wet and dry villages are very different being as they believed much higher in the latter. The Statements

Fort St George 26 November 1856.

statements forwarded by Mr Bird completely bear out the view I take of gardens of the Tank villages irrigated the Collector states from Channel water lifted are moderately assessed, and in the opinion of the Collector in which the Board concurs, require no reduction They are rated as one Crop or two Crop and are charged the Same fixed for the village or Maghanum without reference to Product The waste is only 754 Cawnies out of 10698 who forms the Ayacut of about 1/14.

11 In the dry Villages of the wet Taloukas the garden lands pay according to product and are irrigated from wells The Ayacut and waste in Fasly 1265 are shewn in the Margin as well as the average assessment per Cawney The waste amounts to about 1/4 of the Ayacut; and the assessment is Moosery and Lanlgoody

Ayacut			waste in 1258		
	Assessment Cawnies	Average per Cawney		Assessment Cawnies	Average per Cawney
Conard	1857	2 4 8		335	2 8 3
Nittoreddy	2228	2 13 5		489	2 15 6
Moosery	1539	5 4 1/2		417	4 11 8
Lanlgoody	2035	5 12 3		621	5 8 1
	7659	4 2 11		1812	4 2 7

Fort St George 26 November 1856.

Lanlgoody is considerably above that of garden land in general in the wet Taloukas the Villages in which the wet lands are situated are for the most part bordering upon the Dry Taloukas and resemble them closely in character of Country.

Statements Nos 5 & 6.

13 In the Taloukas of Conard and Nittoreddy the rates are moderate the highest in the former being below 8 Rs a and in the latter below 6 per Cawney Pending a Survey therefore the Board agree with the Collector that no remission is required for the garden lands of the dry villages in these Taloukas.

Statements 8 & 7 Para 13 Collrs report

13 In Lanlgoody & Moosery the rates vary from Rupees 15-5-3 to 1-11-3 according to Product Grown the average in Lanlgoody being 5-12-3 and in Moosery 6-4-1/2 The waste in the former is about 1/4 and in the latter nearly 1/3rd. the ayacut.

14 The measure of relief proposed by the Collector is to reduce

every

every rate above 8 Rupees to that amount the Board would go further and make 7 Rupees the Maximum Although the lands now pay according to Product the Board beg to presume that the Collector intends the Maximum rate to be in future permanent till the Survey.

15 As regards the Nunjah and Poonjah lands of the wet Talooks Mr Bird is of opinion that the directly irrigated villages require no abatement their assessment being moderate their supply of water so certain and the lands not only valuable but finding a ready sale.—

Paras 16. 16 The dry Villages however he states to be differently situated and to require relief except at Vittoscutty in which he proposes no reduction.—

17 Statement C shews the Ayacut cultivation and waste of Nunjah and Poonjah lands with the average rate of assessment per Cawny of each.

18 As regards Nunjah the waste in Mooseeny and Saulgoody is seen to be less than in the other Talooks and from Statements 11 and 12 it appears that the maximum rate per Cawny is only 9—5—6 Mr Bird therefore proposes no reduction and the Board see no reason to differ from him.—

Statement G. 19 In Conand the waste is more than 1/3 of Ayacut which is comparatively larger and there are 107 Rates varying from 19—9—3 to 6 4 It is recommended by the Collector that all above 9 Rupees should be reduced to that amount.—

20 As regards Poonjah the proportion of waste to Ayacut is very large especially in Conand and Vittoscutty The number of Rates in each Talook and the highest and lowest are shewn in the subjoined Statement.—

	No. of Rates	Highest Rate	Lowest Rate
	10	10 4 0	Rs 0 1 0
Conand	75	7 4 4	" 1 6
Vittoscutty	55	3 2 4	" 3 8
Mooseeny	46	8 13 4	" 3 9
Saulgoody	118	11 3 2	" 0 6

That

20682

Fort St George 26th November 1856.

21. But reduction of some of the Ponjah Rates of assessment is necessary is very evident not with reference to the great extent of waste are the Board satisfied that it is not required in Vittoocutty as well as in the others.—

22. The measure which Mr Bird proposes is as follows.—

In Comaud—— The one Rate above 2 Rs 11 per Cawny to be reduced to that amount.

In Moosery—— The 1st Rate which is 5—13—4 to be reduced to the next highest 2—11—8.

In Laulgoody—— All Ponjah lands bearing rates above 2 Rs & to be allowed the benefits accorded last year to the Ponjah lands of Tonjore and Arrealore which adjoin or the still further reduction proposed by Government in Para 15 of Minutes of Cons: of Government of 6th June 1856 No 877.

Inspr 13 June 1856.

20683

Fort St George 26th November 1856

23. Before the Board can express any decided opinion on the propriety of the particular reductions recommended they require to be furnished with Statements shewing the Ayacut Cultivation and waste of the lands under each rate. They will be glad to receive these as well for Vittoocutty as for the other Talooks for the extent of waste therein leads to the suspicion that there must be Something wrong in the assessment though the rates shewn do not appear excessive It will be satisfactory also that this account should be furnished for the Nunjah of Laulgoody & Moosery, although they see no reason to doubt the soundness of Mr Bird's conclusion as regards these Talooks At present the Board have no means of judging of the sacrifice of Revenue involved in the changes proposed.—

Statement No 9 to 12

24. The Statement 9 to 12 shew that some Nunjah Rates are excessively light. It is requested that the

Fort St. George 26 November 1856.

the Collector will furnish an explanation of the reason.

Ordered that copy of these Proceedings be submitted for the consideration and orders of the Right Honorable the Governor in Council as well as to the Collector of Trichinopoly.-

B. C. No. 3859

From the accountant General

No. 1229.

To

The President and Members of the Board of Revenue

Gentlemen.

With reference to your Secretary's letter dated 28th Ultimo No. 2749. intimating the distribution of Printing Materials to different Collectors. I have the honor to inform you that on issuing instructions to them for the adjustment of the amount value thereof the Collector of Tanjore Accot has applied to me for a Memorandum of the particulars of the quantity forwarded to him. I request therefore you will be good enough to direct a Memorandum or List of the quantity of Printing Materials distributed to each Collector to be furnished to them respectively in view to the adjustment of the value thereof in their Journals under the instructions already

Fort St. George 26 November 1856.

already conveyed to them from this Office.

Fort St. George,

Circular

At the suggestion of the Accountant General I am directed by the Board of Revenue to forward to you herewith a list of the quantity and value of the English type and printing materials forwarded to your District in order that you may adjust the Amount in your Journal in accordance with the instructions you have received from the Accountant General.

2 The consignment of type &c consisted of 50 packages divided into and marked in sets of five, one of these sets was forwarded to you and it is presumed contained one tenth of the entire stock. The accompanying list has been framed under this impression but should any material discrepancy exist you will be so good as to bring the same to the notice of the Board.

Revenue Board Office,

Bd No 1366.

From the Collr of Masulipatam

Sir

Para 1. I have the honor to acknowledge the receipt of the Board's Proceedings dated 19 September No 3068 and to state in reply that the drawing of Extra Tent allowance by myself & Sub Collector from the 13 to the 23d December was an oversight.

2 The Rent of the Houses engaged by the Head Assistant Collector was Rs 10 and 16 a month; but this does not appear to me to affect the question as he made his own arrangements and if he had pitched a Tent only he would no doubt have been entitled to Extra Tent allowance for engaging a House instead, was simply for the greater comfort of himself and Cutcherry.

Masulipatam — Collector's Cutcherry 20 October 1856

/Signed/ I. Fraser
Acting Collector

F.C.B

20687
1104. 1105

Bd No 3987

Fort St George 26th November 1856.

Proceedings thereon. The Board. are unable to pass the Head Assistants bill for Extra Tentage for the 82 days referred to.

2. The presence of the Sub Collectors Cutcherry at Head Quarters rendered additional accommodation necessary for the Head Assistant Establishment and houses were rented for the purpose.

3 Even this charge should not have been incurred without permission but as it has been incurred the Board will recommend it for sanction on the exact amount being stated and explanation being afforded of the circumstances under which the Sub Collectors Cutcherry was at Head Quarters for such a period.

4. The Head Assistant incurred no expense for travelling or on any other account and the Board cannot recognize his claim to extra Tentage

5 The Board cannot admit the correctness of Mr. Frasers reasoning in Para 2. The mere pitching of a Tent only would not have entitled the Head Assistant to Extra Tentage at the Cusbah Station under the circumstances of the case.

(1106-1107)

Bd. No. 3964

Fort St. George 26th November 1856.

Remarks thereon.— This allowance appears to have been originally granted by a former Zemindar of Cota Ramachendrapooram in lieu of one Pooty of Enam land resumed by him from the last incumbents father in whose name it is found entered in the accounts of the Permanent Settlement. The payment continued to be made by the Zemindar till Fusly 1256 when A.D. 1846/47 the Estate permanently reverted to Government.

In N.C. Cons 3 July 1848

In para 5 of Extract Minutes Consultation dated 20th June 1848 No. — the Government Sanctioned the Continuance of this and other similar allowances granted by the Zemindar to the parties "during their lives" directing lapses to be reported as they occurred.

2. Under these circumstances and as parties claiming to succeed have other Enam lands yielding Rupees 229 per annum. The Board recommend the resumption of this grant.

Acting Secretary to the

Board of Revenue

Fort St. George

(1108)

Bd. No. 4462

From the Collector of Rajahmundry.

Sir

With reference to the Extract from the Minutes of Consultation dated 5th January 1855 Sanctioning certain allowances granted in lieu of Enams resumed by their former Zemindars of Cotaramachendrapoor Taluk. I have the honor to state that in the Extract Minutes of Consultation dated 20th June 1848 the Government Sanctioned several of the allowances and in Para 7 authorized the Civil Auditor "to admit the allowances now Sanctioned according to the Statements Nos. 1 to 3 from the Commencement of Fusly 1256." Some of the individuals whose allowances were therein Sanctioned having died prior or subsequent to the receipt of the Sanction and as in several instances discrepancies were observable in the names of incumbents fresh Statements were submitted in November 1850 and the orders of Government thereon were conveyed in Minutes of Consultation first referred to. In these Minutes no orders are directly

× 5th January 1855

passed

Fort St. George 26th November 1856

passed in regard the payment of arrears from Fusly 1256 to those parties whose allowances were continued in June 1848 but who from various causes as above noticed had not received them but as Government were placed in January 1855 to continue the allowances in the several cases with reference to the former sanction several incumbents after having duly established their identity have been paid with arrears from Fusly 1256 being the date named in the sanction of June 1848. It appears to me however necessary that there should be a distinct sanction of Government in all those cases which were sanctioned in Minutes of Consultation of the 5th January 1855 for the payment of the arrears from the Commencement of Fusly 1256, the date named in the first sanction and should the Board be of the same opinion I request that the sanction in question may be obtained.

To

I. D Sim Esqre

Acting Secretary to the

Board of Revenue

Fort St. George

Sir,

1112

Bd No 1,4,18

From the Collector of North Arcot.

Requesting instructions as to the disposal of the Survey instruments forwarded by the Board of Revenue

To Board of Revenue 1st Apl 1854

From Do 10th Do

From Mr Sullivan 20th May 1854

To Board 22 May ..

To Board 21st July 1855

From Board 6th Augt 1855.

Para 1 I have the honor with reference to the correspondence noted in the margin to submit for the consideration of the Board of Revenue whether it would not be advisable that the surveying and levelling instruments, forwarded by the Board on the 5th January and the 28th June 1855, and which have now been so many months lying useless should either be returned to Madras, or made over to the District Engineer for the purposes of his Department.

2. I would beg to recommend that all levelling instruments at any rate, should be disposed of in one of these ways. Levelling has no connection with surveying for content the point to which it appears to me desirable to confine the attention of those whom it is intended should receive instructions from the Revenue Officers of Government. To instruct in surveying for content is probably as much as any public officer, who has

Fort St. George 26th November 1856.

has an office to attend to daily can undertake with efficiency without extending their tuition to what more properly belongs to Civil Engeneering.

3. I do not even consider that all of those instruments forwarded, which are strictly applicable to surveying for content are necessary for the purpose of instructing natives in measuring land with accuracy. a very numerous class of able land Surveyors in England use nothing but the chain and their method of surveying seems particularly adapted to this country. I am myself acquainted with the use of the Theodolite and Prismatic compass and am convinced that they are both generally unnecessary and that natives might be taught to measure areas correctly with the chain. without having the boundary of the land to be measured previously laid down by the Theodolite.

4 The Board are aware that the revision of the assessment is to be accompanied with the measurement of certain Villages in the Southern Talooks the Survey of which was not completed by Mr Nisbett and as I have for some months past given some attention to the Subject of Surveying with a view to deciding upon the best mode of carrying out those

those necessary measurements I propose shortly to address the Board on the Subject. My present object is merely to obtain instructions regarding the disposal of the valuable Government Instruments which are lying useless partly in the Sub Collectors Office and partly in mine.

5 In reply to the last Communication of the Board to the effect that "the Survey instruments should be considered as appropriated Specially to the purpose for which they were supplied viz^t the instruction of a Survey class and that the Board would prefer that until Mr. Sullivan reports himself prepared to overlook such a class the instruments should be carefully put a side Mr. Sullivan in a letter addressed to me on the 30th November 1855, stated that this Survey instruments were kept in his Cautcherry in a place of Security and were well looked after and that he hoped shortly to be able to apply them to the use for which they were forwarded.

6 As more than twelve months have elapsed since the date of the Boards Proceedings last quoted and as Mr. Sullivan has not yet reported himself prepared to overlook a Survey class. I have considered it necessary to submit the question for the Disposal

N° 1993
6th August 1856.

disposal of the instruments for the consideration of the Board.

Part were retained in my office as Mr. Sullivan was making no use of those first forwarded to him.

From the Collector of Cuddapah.

Sir

Para 1 I have the honor to return the Petition No 11,31 and its enclosures from P. yellapah and Govindapah Reddy Meerasidars of Narasiah polliem in

Reporting on Petition No 11,31 from P. yellapah and

and Govindapah Reddy Meerasidars of Narasiapoliem in the Doopaud Talook referred to by the Board of Revenue

in the Doopaud Talook in the Zillah of Cuddapah

2. Adverting to their former Petition and the endorsements of the Collector and Sub Collector submitted therewith, praying for orders directing that the Dusavundum Enams be restored to them that the balance amount of the repairs of the Tank be received from them, and that they be allowed hereafter to make the annual repairs that may be required.

3. The Board of Revenue having given an Endorsement for the Collector to report on the Petition. I beg to state that from Fusly 1251 to 1259 the Complainants the Dusvundumdars were unable to repair the Dusvundum Tank, which was in consequence repaired by Government at an outlay of Rupees 466 9 " and out of this sum, Rupees 399 " 6 was collected upto Fusly 1262 and the remainder Rupees 66 13 6 were not recovered from them. This shews that the Petitioners have not been in the enjoyment of the Dusvundum for 16 years.

4. On the 20th October 1852 the Collector forwarded a Report to the Board of Revenue on the

the Sevoy Jummah balances of this District in Compliance with their order dated 10th March 1851 together with a number of Statements and the present balance is alluded to in Para 14 of that letter and in Column 24 of Statement F. The Right Honorable the Governor in Council × sanctioned the writing off of the irrecoverable balances of which this was one and the Dusoundum lands of the Complainants were resumed and incorporated with the Ayacut lands of the District which have remained so ever since.

× Minutes of Cons 16th July 1853.

5 It will be seen in Para 14 of the above letter, that the amount put down for remissions as balance due by Dusvendumdars is Rupees 295 4 9 this amount is made up of the following items.

	Rs	A	P
Due for the Budda yachavarum Tank	228	7	3
Dº for the Nursapoorum Tank	66	13	6
Total Rupees	295	4	9

6 Under these circumstances I could not recommend the Dusavundum being restored

Fort St. George

(1122)

Bd. No. 4705
From the Collector
of Tinnevelly.

Sir,

With reference to Extract from the Proceedings of the Board of Revenue dated the 2d September 1856, directing that the accumulated quit rent of the Courtallum Pagoda be in conformity with a recent Extract Minutes of Consultation therein quoted made available for District roads and to Para 2 of my letter to you of 8th Idem in reply I have the honor to inform you that I have in Communication with the 2nd Assistant Civil Engineer 8th Division decided that the funds in question amounting as per Margin to Rs. 9263-7-9- should be expended on

Arrears of quit rent due on account of Courtallum Davastanam from Fasly 1218 to Fasly 1261 already deducted from the Amount of Zabtee Collections paid to that Circar and held in deposit as stated in

	Rs. a. p.
the Coll.rs letter of 26th February 1850	8270-12-5
Do. of Dues on account of Do. from Fusly 1262 to 1264 as referred to in the above letter	604-15-4
Do. of Dues on account of Do. for Fusly 1265	327-12-4
	9203-7-9.

through Tencausey to Palamcottah. The estimate for Road No.1 Amounts to Rupees 1600 and that for No.9 to Rupees 7600-12-6. or both together to Rs. 9200-12-6.

2. These estimates together with the Plans of 5 Bridges proposed to be widened received with two letters from the Civil Engineer's Office dated the 27th August and 7th instant respectively have been Countersigned by me and returned to that office for submission to the Chief Engineer as usual.

3. In the mean time I request you will be good enough to obtain the Sanction of the Board for laying out the Sum in question in the improvement of

on the improvement of the District roads No.s 1 & 9 the former leading from Courtallum through Casmajorpooram towards Cadayanellore and so Northwards and the latter leading from Courtallum

the two District roads above referred to which stand much in need of repair and are in direct Connection with Courtallum itself.

4. I take this opportunity to state that with the exception of the first Sum in the Margin of Para 1 of this letter which is held in deposit as therein mentioned the remaining two Sums the payment of which is promised by the Dewan of Travancore in his letters to the Resident noted in the Margin, will be realized from the Travancore Circar and the total Amount Viz.t Rupees 9203-7-9. applied to the improvement of the said roads leaving the future revenue on account of the Devastanum under notice from Fusly 1266 to be disposed of agreeably to such instructions as the Board may be pleased to pass on the requisition contained in Para 5 of my letter to you under date the

Enclosure to a letter from the Resident of Travancore 16th February 1850 Copy of which was forwarded to Board with the Coll.rs letter of 26th Idem.
Do. to a letter from Do. dated 12th August 1850 Copy of which was forwarded to Board with the Coll.rs letter of 25th October 1850.

Pd. No. 3991.

Proceedings thereon (1122-1123)

The sum herein referred to consists of the Accumulated proceeds of Quit Rent claimed on behalf of the Courtallum Pagoda from the Travancore Government.-

2. No payments were made between Fusly 1218 and Fusly 1261 but in 1853 when the proceeds of the "Zuftee lands" were paid over by Government to the Travancore State the amount of Quit Rent then due Viz.t Rupees 8270 12. 5 was retained and kept in deposit pending a er final settlement. The Travancore Government has since admitted the claim and the balance due

from

20706. Fort St. George 26th November 1856.

from Fusly 1261 to Fusly 1265 Viz.t Rupees 932-11-4 will be paid in due course as well as such further sums as annually fall due to the Pagoda.-

3. The accumulated proceeds of past year have been carried to the credit of the Local Fund and the Board anticipate no objection to the proposed mode of expending them. But before they can address Government as to the disposal of future receipts annually accruing it is necessary that they should be informed of the amount &c. of the other endowments possessed by the Pagoda and their sufficiency or otherwise. The Collector will

20707 Fort St. George 26th November 1856.

will briefly explain under what circumstances the Quit Rent of Shencottah was granted to the Pagoda and give his opinion as to whether any portion of the amount in deposit should be made over to the Trustees for repairs now necessary in the Pagoda. The Board request an early reply.—

execution of the works provided for in the accompanying Estimate which amounts to Rupees 1335—7—2 The actual expenditure will be debited to the estate of Shevagunga.

No. 207

To J. D. Sim Esqr
Acting Secretary to the Board of Revenue
Fort St. George

1128

B.d No. 4812

From the Acting Collector of Madura

Sir

I have the honor to request authority of the Board for destroying the following records.

27 Dusters containing Tamil Chittah of daily Receipts and Charges from 1828 to 1854		As there are 2 more Copies one in Tamil cover and another in Telugu and also an Abstract in English The Tamil Copy is not required.
50 Dusters	Abstract of Gross daily receipts and Charges furnished by the Sheroff to the Cash Keeper	This was intended to hold the Sheroff responsible for the daily transactions and is no longer required.
	Table shewing the daily Receipts and Charges arranged according to the Several descriptions of Coins.	This is required no longer than the Month in which it is prepared.

Madura

1118-1119
B.d No. 3952
Proceedings thereon

Fort St. George 26 November 1850

The Acting Collector is at liberty to destroy the 50 Duftors of daily receipts &c.

2 As regards the other 27, the Board wish to know, whether it would not be more advisable to destroy the Maharatta and Telugoo Copies, reserving the English Abstract and the Copy in Tamil the Vernacular of the District.

No. 268

To

J. D. Sim Esq.
Acting Secretary to the Board of Revenue
Fort St. George

Sir

1130

B.d No. 4813

From the Agt. Coll.r of Madura

With reference to the Boards' Endorsement on Petition No. 2800 of 1850, I have the honor to state that the land alluded to measuring 2 Grounds 404/4 square feet taxed at Rupees 12 was at the request of the Petitioner bestowed upon him from the Ditch of the late Fort Madura in lieu of a portion of his grounds taken within the Town for erecting

20713

Fort St. George 26 November 1850

erecting an English School adjacent to the Protestant Church. The original application of the Petitioner was only for the Ditch grounds in question and not for the exemption of the Teerwah thereon. Under these circumstances, orders have been issued to the Tahsildar to collect the Teerwah from the Petitioner as the grounds similarly situated are not exempt from payment of tax.

Madura
17 November 1850
B.d No. 3962
Proceedings thereon.

1130-1131

/Signed/ R. J. Sullivan
Acting Collector

The Board observe that the above letter does not meet Petitioners allegation that the ground in question was granted in lieu of Survamanium land taken for an English School established by Government. The Board wish to know whether this was the case and if so, whether Petitioner obtained any compensation for the land so taken.

From the Collector

of North Arcot } Sir,

I have the honor to acknowledge the receipt of the Extract from the Proceedings of the Board of Revenue, dated 3d. April last No. 974 calling upon me to explain the cause of the difference in the amount of the Assessment of the land (a) 6-4 (c) of C. Vencatachellum as entered in the advertisement for its sale, and as given in my letter, dated 24th. March last, and to state in explanation that the sum of Rupees 3-8-0 was erroneously entered in my letter as the value of the land instead of Rupees 2-4-9 as correctly given in the advertisement.

2 I regret that such great delay should have occurred in making so simple a communication but it has been caused by the Extract Proceedings Board of Revenue in which the matter is noticed, having been marked as answered.

to Military Stations.

In Cons. 18th Septr. 1856 Extract Minutes Consultation 8th September 1856

No. 906. R. D

The Northern Division consists of the 3 districts of Ganjam, Vizagapatam, Rajahmundry, and Masulipatam. the proposed system of concentration mainly affects the first and third.

2. The ordinary establishment of regular troops in Ganjam consists the Board believe of two Regiments of Native Infantry stationed at Berhampore and Russell-condah, and furnishing detachments to various other minor stations. It is now proposed to remove one of these Corps, leading only a single Regiment at Russell Condah.

3 Considering the nature of the country

Country and the character of the people, the Board entertain serious doubts whether the number of Regular Troops in this Province can safely be reduced, particularly at the present time.

4 They see no reason however why the Military should not be relieved of such duties as guarding Treasuries and Jails. If these can not at present be entrusted to ordinary peons an increase might be made to the armed Sebundy and the buildings be rendered secure and easily defensible.

5 In Vizagapatam the Agent is in favor of the concentration of the Troops at Vizianagarum a detachment being furnished to perform the duties at Vizagapatam itself. The retention of the European Veteran Company at that station is probably intended to meet this requirement.

6 The Collector of Rajahmundry is opposed to the withdrawal of the single Regiment now located in that District. The Board however think that all the duties now performed by the Regular Troops may

may properly be entrusted to a small corps of peons trained and armed with a regiment at Masulipatam and a force at Vizianagarum, Troops can be sent to Rajahmundry at any time, particularly on the completion of the inland water communication, between Rajahmundry and Masulipatam and from the former place towards Vizagapatam, and so far as the Board are aware there is nothing in the circumstances of the District to render necessary the constant presence of Regular Troops.

7 In Masulipatam the Acting Collector consents to the withdrawal of the Military from several out posts on the nizam's frontier. He considers that detachments from the Corps of Veterans will be quite sufficient and that at Ellore even this measure may be obviated by enrolling some of the numerous pensioners resident at that station.

8 Thus in the Northern Division the Board see no obstacle. Except in the case of the Ganjam District to a complete

adoption

adoption of the plan proposed by His Excellency the Commander in Chief, suitable provision being made for the safety of the Treasuries and Jails by other arrangements.

9 The Ceded Districts comprize Cuddapah, Bellary and Kurnool.

10 The proposal under consideration involves no other change in Cuddapah than the withdrawal of the Detachment at Cumbum. The Collector appears to have misunderstood this part of the arrangement but the Board see no reason why a detachment of the Veteran Corps as at Ongole should not suffice. The single company now posted at Cumbum could neither suppress nor resist any serious outbreak, and all other duties can the Board apprehend be sufficiently well performed by the Veteran Corps on a small body of armed peons.

11 In Bellary the Military Force under the new system will be materially strengthened with no other alteration than the withdrawal of the detachment at Goorty. The Collector states that all difficulty on this score

score can be obviated by the addition of a few of the Kurnool Irregular Horse and an extra body of Police Peons.

12 The Officiating Agent at Kurnool, Captain Russell expresses his serious doubts of the expediency of withdrawing the single Regiment now cantoned at that station.

13 The most important arguments urged against the measure are however chiefly of a Political nature. so far as the peace of the District is concerned; the Kurnool Horse with an augmentation of its numbers would apparently suffice. The Board do not however see why the enrolment of Infantry companies of Irregulars would not sufficiently answer this purpose at a smaller cost than an addition to the Cavalry Corps or why a thorough reformation of the Police, on the principle suggested for the Frontier Districts of Rajahmundry, Masulipatam and Guntoor should not be made

In Mil. Dft. Com. 23d Augt 1855 — 7 Commissioner to Govt 22d Augt 1855

In Mil. Dft. Com. 8th Octr 1855 — 4 Govt 26 Septr 1855 No 1886

Provision might in this manner be also made for Cumbum and Ghoorty. but in such case it is doubtful whether a European Officer unincumbered with Civil duties would

would not be required.

14 The districts comprised in the centre division are not affected by the pro=ject under consideration.

15 In the Southern Division Trichinopoly is to form the chief station the troops now employed in Tanjore, Madura and Combatore being with=drawn.

16 In Combatore the only objec=tion raised refers to the guard at the Huz=zoor Treasury. The Board are not aware of any special reason precluding the employ=ment of Veterans on this duty.

17 In Tanjore there are now 4 Companies, each of course under an European Officer, at the stations of Combaconum, Trangueber, Nagapatam and Tanjore itself. The employ=ment of troops in this district in small detached bodies has been repeatedly discussed. Tanjore itself is within 40 miles of Trichinopoly and the communications are good throughout the district. the removal of the Regular Troops may, the Board think, be safely carried out if their place is supplied

supplied by detachments from the Veteran Corps or an armed and drilled body of Police

18 In Madura the Collector considers it desirable to retain one effective Company at Madura itself. but if his views are not concurred in he considers that a detachment of probably 2 Companies of the Veteran Corps may suffice with a small addition to the armed Police for the purpose of escorting the monthly remittance from Ramnad

19 The only alteration proposed in Tinnevelly is the withdrawal of the small detach=ment of Artillery to which measure the Collector sees no objection.

20 The Collector of Canara appears to the Board to adduce strong reasons against the withdrawal of the outposts in that district The Board cannot but think however that the nature of the Country and the duties devolv=ing on the Military suggest the employment of a Police Corps similar to that lately formed in Malabar rather than the retention of small bodies of regular Troops in isolated positions.

21 The circumstances of the Ma=labar District are altogether peculiar and exceptional

Fort Saint George 26th November 1856

exceptional. The Board are not aware whether the new Police Corps has answered the expectations which led to its formation and cannot consequently judge whether stations now occupied by regular Troops could safely be entrusted to this Force The Collector considers that Tellicherry and Wynaad may now be garrisoned by Veterans and beyond this the Board cannot recommend any change at present.

22 The Board have given their opinion in regard to each district affected by the proposed change of system, with considerable diffidence, the question being essentially Military and Political and only indirectly coming within their province.

23 In Ganjam and Malabar any alteration seems inexpedient at present and probably this may be said also of Kurnool But in all the other districts the Board see no other obstacle to the adoption of His Excellency the Commander in Chiefs views than the expense involved by the substitution of Armed Police for regular Troops.

In

Fort Saint George 26th November 1856

24. In some districts as Canara for instance a regularly organised Police Corps with an European Officer in command would be required, in others detachments from the Veteran Corps or additions to the ordinary police would suffice. The Board have already urged the issue of better weapons to the Police employed in guarding treasuries &c and they consider that the discipline and efficiency of the peons would be much augmented by the selection of a large proportion of their number from among men who have already served in the Line and by employing them on duties of this nature. These however are matters of detail which it is not necessary to discuss on the present occasion

Sd to Govt 9th October 1856 No 2634

Para 11

25 As remarked in their letter on the withdrawing of the regular Troops employed in guarding Talook Treasuries, the question under consideration /so far as it lies within the Boards province to offer an opinion on it/ is one of expense in which the additional cost of the peons is to be balanced against the Military disadvantages of the system "of employing small bodies of regular troops on Civil duties -

The

26 The Board are not in a position to state what expence will thus be encurred, but they conclude all that is now required of them is their opinion as to whether the proposed system can be safely carried out either wholly or partially.

27 The Board are of opinion that, by such arrangements as they have now briefly suggested, the Regular Troops may be concentrated in the manner proposed without endangering the preservation of the peace and they do not think the expence likely to be incurred should preclude the adoption of a measure which will add so materially to the efficiency of the army.

28 The present system in a mere financial point of view may have its advantages but the Board cannot but regard these as of secondary importance in a matter of this nature and certainly not such as to justify a continuance in a system under which a powerful and efficient Force is no where immediately available, and the risk of disaster and loss of

prestige

prestige is constantly encurred by locating the Troops in isolated positions in bodies too small to act in the decisive effect.

B. No. 44441

From the Collector of Tinnevelly — Submitting the report called for in Board's Pro= of 30th October 1855 regarding the Survey made of the boun= =dary of the Shencottah Dist.t in Travan= =core requesting for reasons shewn to pro= =cure the Sanction of Govt. for the relinquishment of certain minor disputes including a sum of Pagodas 86-14-3 per annum and allow the Tra= =vancore Sircar to fix the boundary stones permanently and also requesting instructions as to whether the Rever= =nue Due to Court= =allum Pagodas can be made over to the Trustees of the Pagoda.

J. D. Sim Esquire
Acting Secretary to the
Board of Revenue
Fort St. George

Sir,

With reference to Extract from Proceedings of the Board of Revenue dated the 30th October 1855, prefaced to Ectract from Minutes of Consultation of 8th Idem, and to Copy of a letter from the Resident of Travancore therein referred to calling for a report from my Predecessor as to whether the survey made of the Boundary of the Shencottah District in Travancore is satisfactory, I have the honor to state that the report in question was delayed till now, in consequence of the Travancore Sircar not having effected a final adjust= =ment of the claims of this Government for the revenue of such of the lands mentioned in the Statement forwarded to the Board of Revenue with a letter from this Office dated 5th August 1852, as are in the actual

actual enjoyment of the Company's ex-
Ryots, and the Sketch of the Survey that
had been completed last year not having
been received tell the beginning of this Month.—

2 From the rough draft of a letter
in the Office in the hand writing of my ex-
predecessor, who personally inspected part
of the boundary line, it appears that the
boundary has been satisfactorily marked
agreeably to the line described in the
Memoir of Messrs. Connor & Ward's Survey,
with a slight deviation, which seems to have
been agreed upon, for the sake of convenience,
in one place, which is, if any thing, rather
to the advantage of this District.—

3 All the lands forming the
unadjusted Minor disputes referred to
above having been taken in on the Travancore
side, by the Survey, I proposed in a letter
to the Resident dated 22d March 1858 with
reference to a Statement of the Dewan, con-
tained in a letter addressed by him to the
Resident dated the 24th January 1861 that
"should there be any excess or deficiency, a
corresponding

corresponding increase or abatement should
be made in the Peishcush" that it would
be advisable to adjust the Items of dispute
with reference to the respective right of
enjoyment of both Governments, without
disturbing the boundary line, now defined
by the actual Survey" and forwarded
a Statement, Copy enclosed No. 1 shewing
the average receipts of 13 years from
Fusly 1252 to 1264 from the lands in
in the 16 Village mentioned in the ex-
Statement referred to above in Para 1,
amounting in all to Rupees 446-1-8
per Annum, and in the Enclosure of
the accompanying Copy of a letter
from the Resident received in ex-
reply, the Dewan admits the ex-
Claim of this Government for a sum
of Rupees 359-3-5, and states ex-
that the remainder or Rupees 85-
14-3- should be relinquished by
the Honorable Company.—

+ Encr 2.

Part of No. 14	2	3	3
No. 15	6	3	6
" 16	3	3	4
Total	86	14	3

4 Of the 6 Items composing the sum of Rupees 85-14-3, the principal Item is No. 8 regarding this, I beg to refer to Para 12 of my Predecessor's letter of 6 September 1851 and to inform you that for reasons therein mentioned, I am of opinion that the claim of this Government cannot be established. As the Amount of the remaining Items of dispute is small, and as the claims of this Government in general are on lands, which actually fall within the boundary of the Travancore Sircar according to the Survey, and as an adjustment of these will settle the whole question of dispute in this boundary, I request you will procure the necessary sanction for the relenquishment of these Minor Items of dispute involving a sum of Rupees 85-14-3 per annum, and allow the Travancore Sircar to fix the boundary Stones permanently.

5 From Enclosure No. 2 the Board will

20754 Fort St. George 17th November 1856

will observe that the Travancore Sircar are also prepared to pay the difference between the average Beriz of Poolliary and Malliancolum amounting to Rupees 32-11-6 according to their accounts, thus making the total sum payable to this Government by them Rupees 391-14-11 per annum, exclusive of the revenue on the lands alluded to in Item No. 6 belonging to the Courtallum Pagoda, which the Sircar promise to pay to Government annually according to the settlement of each Fusly. I request instructions as to whether this revenue is to be made over to the Trustees of the Pagoda, in which case the Travancore Sircar can be requested to pay it to them direct.

6 The land in Item No. 7 in enclosure No. 1 though included in the Ayacut accounts of this District, has never been in the enjoyment of the Government Ryots, and the lands under Item No. 11 were not cultivated in any one of the 13 years, the average beriz of which is entered in the Statement.

7 I have had a good deal of personal conference with general Cullen, and consider the adjustment now arrived at, in every way satisfactory.

Tinnevelly Collectors
Circuit Cutcherry
Trichendoor 22 March 1856

E E Y. (Signed) J. Silver
Collector

C.B.

To

J. Silver Esqre
Collector of Tinnevelly.

Sir.

I have the honor to acknowledge the receipt of your letter No. 319 of the 22d March last, and now beg to transmit to you Copy of a further explanation No. 1417. of the 24th Ultimo from the Dewan of Travancore, on the various minor unadjusted points connected with the revision of the Tuftee lands and the restoration of the boundary and from which you will percive that the Dewan on the part of the Travancore Sircar agrees to relinquish its claim to Rupees 359-3-5 out of the Amount stated by you. Viz. Rupees 445-1-8 leaving a balance of Rupees 85-14-3 to be relinquished by the Honorable Company.

As regards the beriz of 2 Mylappooram and Malliancolum, you will observe the Dewan declares that in all the correspondence under your predecessors, reference was always made

made to the Ayacut and not to the average beriz: but that he leaves the question on the part of the Sirkar to my disposal.

3 I have not the whole of the correspondence by me, but I observe that the differences between the Ayacut and average in Malliancolum especially is very considerable, and I am not therefore prepared to press it, should the Board of Revenue still be opposed to the Sirkar's claim.

4 If the average beriz be assumed then the amount due by the Sircar will be Rupees 32—11—6. which added to Rupees 359—3—5. will give a total of Rupees 391—14—11 and this sum together with the Courtallum Pagoda Malvaram / to be determined according to the Summabundy accounts of each Fusly / will be paid over on surety to the Tencassee Tahsildar.

Resident's Office,
On Circuit
Courtallum, 12th
August 1856.

/ Signed / W. Cullen
Resident.

To

No. 1417

To Lieutt. General W. Cullen
British Resident of
Travancore.

Viz. Viz. Viz.

Sir

I have the honor to acknowledge the receipt of your letter to me No. 256, dated the 27th March last, and its enclosures a Copy of one to your address from the Collector of Tinnevelly No. 319 bearing date the 22d Idem, and of a Statement therewith forwarded.

2. You will have already perceived from my letter of the 26th October 1852. No. 1731. that the Collector Mr. Bird had in all his correspondence made allusion to the Ayacut Beriz of the Villages of Pooliaray, Malayamcolum Viz. and the same letter from me explained also the nature of the claims advanced by this Sirkar to certain portions of ground to be restored to Travancore by the Honorable Company.

3. In Mr. Silver's letter under acknowledgment, it is stated that the average Beriz of the said Villages and lands for 13 Fusles is to be considered

Connected

4

Connected with the arrangement suggested by Mr. Silver. I beg leave to submit the following explanations in respect to the 16 Items under dispute between the two Governments and alluded to in the statement received from that Officer.

Items 13

as lying within the Travancore side of the Boundary line.

The lands in the Item which belong to the Honorable Company being close to Mylappooram / alias Pooliary / and situate amidst the lands of this Sircar the average Beriz thereon Rupees 97—9—1 will be paid over by the Travancore Sircar to the Honorable Company.

Item 14-5th a part of Item 3

The whole of the lands comprized in the first 3 Items and a portion of the lands in Item 3, according to the accounts of this Sircar originally belonged to Travancore, and even placed under Zuftly in the time of the Nabob before the Honorable Company assumed possession of Tinnevelly. This Sircar will now be prepared to pay to the

Honorable

Honorable Company the average amount Beriz thereon, Rupees 46—15—4 and a part of Rupees 173-15-5.-

Items 2, 12 & part of Items 14 and 3.-

All the lands included in the first two Items, and the Nunjay lands in Item 14. as also the remainder portion of the lands in Item 3 also belonged to this Sirkar and were placed under Zuftly by the Honorable Company, but as these lands are exhibited in the Honorable Company's accounts as their Ayen lands this Sircar will have no objection to pay to them the Average Beriz thereon likewise if deemed necessary by you Viz:- Rupees 40-11-7 and the remainder of Rupees 173-15-5.

Amount payable by the Travancore Sircar Rupees 359-3-5.-

Thus the Travancore Sircar will have to pay over to the Honorable Company the total sum of Rupees 359-3-5 under the above Items.-

Items 10-15 & 16.

The tax on the lands comprised in these Items has all along been paid to this Sircar. the question of claim which was once raised on the part of the Honorable Company in respect to Item 16. was since decided in favor of this Sircar, and the

lands.

lands in Item 15. still continue in the enjoyment of a Sircar ryot. On the other hand it appears that tax has been levied on these lands by the Honorable Company also, which circumstance alone will not justify the demand of the Amount Beriz thereon from this Sircar, and which Amount is therefore relinquishable by the Honorable Company Viz.t Rupees 9-3-5.

Item 8 & part of Item 14

The Amount Beriz on the lands in Item 8. and on the Poonjah lands in Item 14 is payable to this Sircar by the Honorable Company as per the correspondence noted in the Margin, Viz.t Rupees 55-11-9.

From the Resident to the Dewan No. 2138 dated 16th Augt. 1852
Do Dewan " Resident " 1731 " 26th Octr. 1852
Do Do. " Do " 1379 " 23d July 1855
Do Resident " Dewan " 2185 " 22d Novr. 1855
Do Dewan " Resident " 232 " 1st Febry. 1856.

Item 9.

The lands comprized in Item 9 as well as the Remarks respecting that Item at the foot of the Collector's Statement, appear to have been reclaimed by the Company's ryots from tanks belonging to this Sirkar as per previous correspondence on the subject - Consequently the Amount Beriz on these lands is likewise relinquishable by the Honorable Company Viz.t Rupees 20-15-1. Thus the Honorable

Amount relinquishable by the Honorable Company Rs. 85-14-3.-

Honorable Company will have to relinquish a total sum of Rupees 85-14-3.-

From the above it will be perceived that the Amount of Rupees 445-1-8 claimed by the Honorable Company as payable by this Sircar on account of the 16 Items in Mr. Silver's Statement a sum of Rupees 359-3-5 will have to be paid over by the Sircar accordingly, the remainder sum Rupees 85-14-3 to be relinquished by the Company - The Amount payable by the sircar as above Rupees 359-3-5, added to the average Beriz of Mylapporam for 10 years Viz.t Rupees 1,784-14-8 makes a total sum of Rupees 2,144-2-1 Deducting therefrom the average Beriz of Malayan colum, also for 10 years. Viz.t Rupees 1,752-3-2. there is a balance left of Rupees 391-14-11. This difference of Rupees 391-14-11 together with the Amount of Courtallum Pagoda Mel Varom; Item 6. the latter, as it may be determined according to the Jemabandy Accounts of each Fusly and communicated to this Sircar, will be annually paid over to the Tahsildar of Tencausey through the Tahsildar of Shencottah.

Item 6.

I have already in my letters of

Fort St. George 27th November 1856

of the 23d July 1855 and 7th February 1856 No. 1379 & 232 respectively shewn the Amount due to the Honorable Company on account of the Courtallum Pagoda Mel Varam until Fusly 1264. and that due to the Sircar by the Honorable Company on account of the lands in Item 8 and the Poonjah lands in Item 14 as well as the share of the Honorable Company in the expense incurred in repairing the Calungatha Cundy Anicut.

In conclusion I beg you will be pleased to address the necessary communication to the Collector of Tinnevelly in view to the final adjustment of the several accounts referred to, preparatory to the fixing of the Boundary stones.

Resolved

Fort St. George 27th November 1856

Bd. No. 3973

Resolution 1161. 1162

In Cons. 27th Nov. 1856 No. 4466

thereon. Resolved that the above letter be laid before Government with reference to Extract Minutes Consultation 31st Ultimo No. 1159.-

2 Mr. Silver reports that from a rough draft of a letter left in his office by his predecessor Mr. Bird who personally inspected part of the new boundary line, it appears that with one slight deviation (suggested by considerations of mutual convenience and rather to the advantage of Government) the boundary between the Shencottah Talook of Travancore and the Tinnevelly District has been marked satisfactorily according to the survey of Messrs. Cannor and Ward.-

3 All the Lands mentioned in the Statement which accompanied Mr. Bird's letter dated 5th August 1852

In Cons. 26th Aug. 1852

as forming subjects of dispute fall within the Travancore limits as now defined. The annual proceeds of these Lands amounted

to

Fort St George 27th November 1856

to Rupees 445-1-8 of which the Travancore Government admit and agree to make good Rupees 359-3-5 leaving Rupees 85-14-3 to be relinquished by Government.

4 For the reasons stated by the Collector in para 4. the Board recommend that this point be conceded and that authority be granted for the erection of permanent marks along the new Boundary line at the joint expence of the two Governments.-

5 The Government are aware that the late Collector in the correspondence entered in the Margin brought to notice that there was a considerable difference between the actuals and the reputed value of the Villages of Malewarum which had been received from Travancore in exchange for the Government Village of Pooliary.-

Pro to Govt 29th March 1856
G M C 19th June 156
No 627 In Cons 24th June 1856.

From Coll 18th Octr in Cons 8th Decr 1855

6 The difference in the average

Fort St George 27th November 1856

average collections of these Villages would appear to be Rs 149-9-10 after deducting the allowances of the Villages officers and Rupees 67-14-10 inclusive of their emoluments. On the whole however the Collector seemed to think that the exchange was or at least would be advantageous to Government.-

	Average annual Beriz-	Gurnums &c allowance
Mylappapooraims or Pooliary now attached to Travancore	1,785-3-5	52-8--
Malayarcolum transferred to Tinnevelly	1717-4-7	134-3-2
	67-14-10	149-9-10

- 1,732-11-5-
- 1583-1-7

7 The Travancore authorities now propose to make an annual payment to Government of Rupees 32-11-6 which according to their accounts constitutes the difference between the average Beriz of the two Villages.-

8 The exchange of these Villages as remarked in Extract Minutes Consultation 19th June last No 627 was desired by Government "on considerations of Police &c independently of the mere questions of Revenue" and the Board are of

In Cons 24th June 1856

opinion

opinion that the payment now tendered by the Travancore authorities may will be accepted in final adjustment of all differences connected with these Villages.-

9 The Travancore Government further agree to pay over the annual amount of the Shencottah Melwaram claimed by the Courtalum Pagoda the exact sum being determined by the settlement accounts of each Fasly.-

10 The Board would suggest that a fixed annual payment calculated on an average of the receipts of past years would be preferable to this arrangement and would save much trouble as well as preclude all disputes. In the Collector's letter dated 17th November 1852 a Statement of the receipts is given from Fasly 1218, so that there are ample means of calculating a fair average. If the Government concur in this view the Board will instruct the Collector to communicate with the resident on the Subject. The payment of the sum determined should the Board think

In Counc 13th Decr 1856

think be made to the Collector who will hand it over to the Trustees of the Pagoda for the time being a payment direct to the Trustees might only lead to further disputes.-

11 The arrears due on this account amount to Rupees 9,203-7-9 of which Rupees 8270-12-5 have been already realised having been deducted from the proceeds of the Zufter Lands when payment of the balance in deposit was made in 1853.-

12 The Travancore authorities have agreed to pay the remainder Rupees 932-11-4 and the Board have now under consideration

Fort St. George 27th November 1856

consideration a proposition from the Collector for the employment of the aggregate sum in the improvement of the District Roads. The orders of Government as to the disposal of the accumulated and future receipts from this source will be solicited in a separate communication.

13. The Board regard the arrangements now proposed as on the whole a very satisfactory adjustment of the conflicting claims of the two Governments and recommend their confirmation by Government.

Board of Revenue
Fort St. George

1168

Ba No 2802
From the Collector of Bellary
Submits explanation regarding the increase of Sadermard expenditure of Fusly 1264 called for in their Proceedings of the 5th June 1856

Sir,

With reference to the Board's Proceedings of the 5th ultimo giving cover to Extract minutes of Consultation dated 22d May last No 523 calling for explanation for the large increase of Rupees 1,192 in the item of Sadermard expenditure in Fusly 1264, I have the honor to explain that the principal item of increase is Paper - The quantity purchased in all during the year was 784 Reams costing 2,355 Rupees being Rupees 1107 above the sanctioned Estimate of 25th February 1851 but as much of this paper, value Rupees 753 remained for the following year, the actual excess was only 354 Rupees and this is accounted for partly by the increase of price owing to the dearness of all articles ——— 240 Rupees
and increase of expenditure ——— 114 Rupees
A much larger quantity of paper was found to be necessary chiefly for the preparation of the assessment Revision Statements the remaining

remaining increase in the Sadermard Viz.t Rupees 85 is owing entirely to the high price of oil.-

2 There is no separate Estimate or Bill prepared in this Office for the Magisterial Sadermard which is included in the Revenue Bill of Sadermard.- But infuture I will direct a separate account of expenditure to be kept.-

3 Referring to the observations of Government in the 3d Para of the Minutes of consultation above alluded to regarding the charges incurred on account of Batta to Public servants on Circuit, I beg to explain that only such servants as are necessary are taken on Circuit, but attention will be given to orders of Government with a view to reduce the number as much as possible.- The Head Accountant is only occasionally required out with the Collector.-

4 As directed by Government separate Bills have been submitted to the Civil Auditor and Inspector of Prisons on

on account of the charges incurred for remittance of Treasure, for Batta to Prisoners Prosecutors and Witnesses, for Jail and for expenses of sundry nature incurred in the Magisterial Department.-

5 With the foregoing explanation I trust the Bill will receive the sanction of Government.-

Bellary ---
Collectors Office
21st July 1856

(Signed) C. Pelly
Collector

3d No. 3994
Resolution thereon

(1168. 1169)

Resolved that the foregoing letters and the Enclosure which accompanies the second, be submitted for the information and orders of the Right Honorable the Governor in Council with reference to Extract Minutes Consultation dated

In Cons 5th June 1856

22d May 1856 No. 523 paras 2-3-4 7.-

2 The Collector of Bellary explains that the cause of the

increase

	Cart's	Estt	Excess	
	Ream	Rs	Rs	Rs	increase of Rupees
Paper	784	2,355	1,248	1,107	1,192 in the Sader:
Lamp Oil				85	: ward charges of
				1,192	Fusly 1264 above

those of the preceding year, is owing to the purchase of a larger quantity of Paper than usual and to the high price of Lamp Oil. Of the paper purchased in Fusly 1264 a quantity of the value of Rupees 753 remained for use in Fusly 1265, thus making the actual excess in this article Rupees 354. Of this sum Rupees 240 represents increase of price owing to the dearness of all articles and the balance Rupees 114 the actual excess expenditure of papers. The preparation of Statements connected with the revision of assessment led to a larger consumption of Paper than ordinary - but so large a supply should not

have

have been purchased when prices were unusually high.

3 The increase consequent on a rise in the price of Oil was 85 and this and the above sum Rupees 354 from the actual excess in the Sadermard of Fusly 1264. The Ma: gistrate and Revenue Sadermared have hitherto been blended together but in future separate accounts will be kept of the expenditure in each Department. Under these circumstances, the Board recom: mend that sanction be granted for the increase in the item of Saderwared of the Huzzoor Col: lector's Cutcherries in Fusly 1264, amounting to Rupees 1,192 of which Rupees 753 has to be accounted for in Fusly 1265

5 With regard to para 3 of the

Fort St. George 27th November 1856.

the Extract Minutes Consultation quoted above, the Collector states that only such servants as are necessary are taken on Circuit, and that he will endeavour to reduce the number as much as possible.

6 In compliance with the instructions contained in para 7 of the same Extract Minutes Consultation the Acting Collector of Guntoor submits a Supplemental Statement of the actual charges incurred in Fusly 1264 on account of the salary of Mohotauds Curnums and Vettiers employed for the performance of the Revenue and Police duties in the purchased Zemindary Estates, amounting to Rupees 11243—1—9, which sum the Board recommend may receive the sanction of Government. The decrease in the actual charges as compared with the estimated amount is owing to the pay of the servants for 11 months only having been paid & charged in the account.

Estimated Rs 12504-1-0

B No 2872

From the Collector of Coimbatore

I have the honor to state for the information of the Board that, one Vully a female servant of the Poligar of Selly puttiy in the Talook of Pollachy in this District, died on the 13th February 1856.

2 She was in the receipt of a pension at 21—7—5 per annum under the sanction of Government dated 10th April 1827, communicated to this Office in a letter from the Secretary to the Board of Revenue under date the 13th August of that year, and the continuance of which is claimed by the deceased's daughter Vaily.

3 From an enquiry made thro' the Tasildar of the above Talook, it appears that the daughter of the deceased is aged 22 years, and is destitute of other means of livelihood except the above pension enjoyed by her Mother—under these circumstances I beg leave to recommend that the above pension may be continued at 11+ Rupees per annum to Vaily from the 14th February 1856. the date following that on which Vully died.

+ or 2/3 ds

4 I beg to enclose a Tabular Statement in the prescribed form to show the particulars of the Pension Report.

B.d No. 370

To

The Secretary to
Government
Revenue Department

To
The Secretary to
Government }

Sir.

I am directed by the Board of Revenue to submit for the consideration and orders of the Right Honorable the Governor in Council the accompanying Letter with its Enclosure from the Collector of Combatore dated 24th July 1856, reporting the death of a pensioner named Vully a female servant of the Polegar of Tully patty, and recommending that 2/3 do. or Rs. 14 of the annual pension Enjoyed by her be continued to her daughter (aged 22 years) who has no other means of subsistence.

2. The circumstances under which the allowance to the families and dependants of Polegars was oreginally Granted are detailed in a Communication from the Collector of Combatore dated 20th July 1856. From this it appears that in Consequence of the Polegars rebellion in

Fort St. George 27th November 1856

in 1800 the families of the principal offenders were kept in confinement and maintained at the expense of Government and on their liberation their allowances were continued. The list which accompanied the letter above referred to shews that in Fusly 1214 (AD 1804/5) 46 persons were in receipt of pensions amounting to Rs. 2833 8 1 per annum In Fusly 1234/1824/5 34 pensions amounting to Rs. 2171-33 were current; and this sum has of Course been reduced by subsequent lapses. But the Board have no information of its present amount. The individual whose death is now reported and whose name is entered in the list, enjoyed in succession to her mother an allowance of Rs. 21-4-8 per annum under the sanction of Government dated 10th April 1824 Rs. 26-7-

3 The Board's records do not shew whether the pensions were originally declared or intended to be hereditary But the decision of the Government of India Communicated in Extract Minutes Consultation

Rec'd 20 March/57 8th March 1857 No. 230. shews that as they are not so regarded in all Cases as however they have been hitherto Continued wholly or in part to the heirs of the original recipients the Board support the Collectors recommendation that Rs. 1-2-8- per

B. No. 3782.

From the Collector of Cuddapah -

Reporting as required in para 4 of the Extract from the proceedings of the Board of Revenue under date 31st August 1854 upon the reduction of assessment made upon lands left waste under Count of over taxation &c. and forwarding Statements connected therewith

Sir,

Para 1. With reference to para 4 of the Extract from the proceedings of the Board of Revenue under date the 31st August 1854 accompanied by Extract from the Minutes of Consultation under date the 16th July wherein the Government state that their orders point primarily to lands not cultivated for a succession of years on account of high assessment and as regards these it is not necessary that a revision should be postponed pending the reference to the Board, I have the honor to afford the information required which I trust will meet the favorable approval of the Board of Revenue.

2. The Marginal Statement exhibits the centage between the Ayacut

	Extent	Assessment	Extent	Assessment	Centage between Cols 2 & 4
	Circar Ayacut		of which waste -		
Black	302542	354414	45226	89565	15
Red Mixed lands	330779	1890837	2524882	1186672	75
	309321	244525	157108	127237	70
	224263	1897965	95119	739601	42
Garden					
Total	3893584	4434326	2603227	2015835	68

ayacut of the dry and other descriptions of land dependent on different sources of irrigation and of similar species of cultivation lands left waste. Of these the red and mixed lands appear to be the greatest which may require some Explanation. During the General Survey of the Province of Cuddapah a large portion of which is mountainous and covered with Jungle, the Surveyor's assumed much of the land to be fit for cultivation which has been found not to be the case, and fixed Assessment upon them which swelled the accounts of lands fit for cultivation but which never had been and probably will not be brought under culture. Many of them are situated near the hills which are covered with stones and Jungle and which to the present day has never been cleared. These lands are also situated at a considerable distance from the Village thereby rendering their

their occupation by the inhabitants extremely inconvenient and when the ryots had been induced by the appearance of a favorable season to take up any portion the crop is in general seriously injured by wild Animals and the Villagers do not consent to pass the nights so far from their homes for the protection of the crops these lands will not bear to be sown annually, the soil being light and scanty - but after a lapse of several years a crop may be obtained for one or two and then must be left fallow for rest. The Assessment upon these lands is in general light and their being left uncultivated is to be attributed more to their poverty than to the Assessment.

3. With reference to the 15th Para of the Extract from the Minutes of Consultation above referred to wherein it is stated that measures should be immediately taken to

afford

afford relief to the people in all localities in which it is clearly and fully shown that the excessive pressure of assessment has tended to keep valuable lands permanently out of cultivation. I would here observe that there is no doubt a certain extent of dry, wet and garden lands has been left waste on account of the heavy assessment, and the Right Honorable the Governor in Council seems to be of opinion that a general survey of the whole district ought to be undertaken in consequence of the assessment fixed at the Survey being disproportionate to the quality of the Soil. A new Pymaish and revision of assessment would no doubt be advisable but to undertake it with the present small Establishment overloaded with the current business is impracticable and they cannot be spared for such a purpose; but taking the settlement as a whole, as it stands at present with the remission granted

by

by Sir Thomas Munro whilst Governor, the Assessment might be considered very fair tho' in some places it is too high, the facility of collecting the revenue and the prosperous state of the District, the produce of which is largely exported, show to some extent that the lands at present under cultivation are remunerative to the growers. A ryott holding several fields may have one assessed higher than probably a new assessment would fix and others again sufficiently low, but taking the two together the highly assessed and the low, the ryot is not called upon to pay more than his circumstances will permit. Besides lands which have been left waste on account of the high assessment for a Series of years there are others liable to be inundated, some impregnated with Soda, and others left uncultivated from the defective State of works of irrigation. Viz. Tanks Channels and Wells. to restore these

to

Fort St. George 27th November 1850.

to cultivation capital and labour are required and to encourage the ryots to do so the following expedient has been adopted which has met with the concurrence of the people and eventually will carry out the wishes of Government, and increase the revenue.

4. The Establishment of this Province being limitted less than the neighbouring it has been found impracticable to enquire into the cases of all lands left waste from the abovementioned causes, and I have therefore laid it down as a rule not to enquire into lands which had been left waste less than 10 years but it is my intention as soon as the lands above that period have been settled to take those under 10 years to be dealt with as those above that time but the settlement under 10 years will be much more difficult than those from a prior date on account of the difficulty in obtaining correct statements and accounts from the

Fort St. George 27th November 1850.

the Village Officers and for this purpose it has been ordered that all lands which had been left waste for upwards of 10 years a reduction of one half of the Assessment with a few exceptions be allowed upon the Wet and Garden lands in lieu of the Establishment remissions of one third and one fourth - and the other half is made payable in Rupees instead of Cantaroy Pagodas without any remission whatever being allowed, fractions of a Rupee under eight Annas have not been permitted as for instance Wet or Gardens land which would be assessed at Rs. 4-4-0 is made Rupees 4-8-0 in some cases and reduced to 4 alone in other and Circumise lands Rupees 4-12-0 is reduced to Rupees 4-8-0 or increased to Rupees 5 according to the quality and nature of the soil. In respect to dry lands fractional portion of a

Fort St. George 27th November 1850.

a Rupee under quarter have been disal:
=lowed.-

5. According to the usage of the District Doofasul or double crop lands depend on tanks and Channels is not charged with fasuljasty though cultivated with two crops whilst on a Kiftasul lands fasuljasty or half of the full assess=ment is levied for a 2d Crop. Under wells alone no fasuljasty is charged on any land either a Kiftasul or Doofasul On lands bordering on forests where the crop are likely to be injured by wild animals one half of the leviable assessment was remitted whilst others where such injury was not likely to be sustained- half of the grofs assess=ment was granted. These arrangements have been found very successful and I shall on [illegible] mention two villages Vizt. Mooderaddypully and Tipperaddypully in the Doovoor taloke, these Villages are situated in the Gorge of Yeddadoogoo pass, and the

Fort St. George 27th November 1850.

the lands irrigated from Wells had been left waste from a period of 30 years downwards, the ryots willingly agreed to the above arrangement, employed their labour in clearing out and rebuilding their Wells, and brought the land, which had been long waste and yielded no revenue, under cultivation to the benefit of Government & and themselves and further lands are being reclaimed from the forests- The Marginal Statement.+ will shew the settle=ment of these villages with re=gard to the reduction which amounted to little above half of the leviable assess=ment and the advantage to Govern=ment by obtaining a revenue from waste

Name of Villages	Extent	Leviable assess=ment as per tar wary ac=counts	of which deduct amount of reduc=tion	Net amount leviable according to the present settlement
	a c a.	Rs a p		
Mooderaddypully	36 8 7½	485 7 9	197 1 1	288 6 8
Tipperaddypully	7 - 13	99 13 8	40 12 2	59 2 6
Total	43 9 4½	585 5 5	237 13 3	347 9 2

20795 Fort St. George 27th November 1856.

made lands which previously produced none - this in consequence must be a benefit to the cultivators who as their income in wealth will probably continue to clear the lands which have lapsed by years past clean waste and overgrown with brushwood. The same Statement will show the reduction upon lands situated at a distance from the principle and the crops kept liable to expense.

6 The subjoined Statement exhibits the extent of land, lost by waste taken up by the ryots for cultivation during the Settlement of Fuslee 1264 and 1265 or 1855 an enquiry instituted in this Office into each case by Mr. Ogilvie the principle Collector from the Tahsildars

Kararnamahs.

				Net rates - - -	77	- - - - - - - - - -		38	

7. Kararnamahs have been obtained from such ryots who agreed to cultivate waste lands and continue to pay the Annual sists according to the reduced rates until the Government shall deem it expedient to cause a general remission of the assessment of the whole District and at the same time stipulations were entered into that the ryots would not reduce their usual holdings.

No. 1 Statement shewing the reduction of assessment made on dry Lands in the District of Cuddapah.
2. Do. Do. on wet and garden lands dependant on tanks.
3. Do. Do. Do. dependant on Channels.
4. Do. Do. on Wells

8. Four Statements as per Margin showing the number of acres of waste land, the description of each together with the estent that the ryots have agreed to cultivate in the different talooks and the rates at which such lands have been granted together with an abstract Statement are herewith forwarded for the consideration of the Board. Should they deem it requisite that statements shewing taloowar details ought to be furnished their instructions will be attended to.

9. In accordance with the requisition

requisition of the Board of Revenue, the total number of rates on dry lands, as well as those dependent on tanks channels and wells Viz. 77 has been reduced to 38 as shown in the above Statement. The method of doing so is as follows; the same rate occurs in lands under tanks, channels and Wells instead of calculating there as three, they are made one and these being deducted from 115 the whole number of rates are reduces the number to 77 which again has been reduced by the reduction of assessment to 38.

10. From the above Statement it is shown that the Gross assessment on which the reduction was made is Rupees 35722 and if half of the assessment be deducted it will amount to Rupees 17861 whilst the actual collection is shown to be Rupees 18678 or a net increase of Rupees 817 this arises from certain lands which from their nature did not require the full half assessment to be remitted no fixed rule can be laid down which will be applicable for the reduction of assessment on all species of

of land as their nature and circumstances differ Considerably so that much must be left to the discretion of the authority making the reduction as for instance in Doofusul lands as well as in aik fusul where the assessment appeared to be excessive and their position and outlay for cultivation demanded a greater remission a little more than a moiety has been reduced but where the assessment has not been considered so high and the position permitting less than a half has been allowed whilst in most cases half of the full assessment has been reduced. this has met with the Cordial reception of all classes and will I doubt not prove equally beneficial to Government and the Cultivators.

11. A Statement shewing the extent of land which has been waste for a period of years on account of the ruined State of the works on which

which they were dependent for irrigation and which cannot be restored is herewith forwarded these lands the ryots have agreed to cultivate paying dry assessment, instead of wet &ca It will be seen that the Gross assessment of these lands as entered in the Tarwary accounts amounts to Rupees 832 11 10 a reduction of Rupees 502 has been made leaving only Rupees 329 12 9 to be realized from the ryots on account of dry assessment the rate thus fixed will exceed a little more than the highest rate of dry land in each Village, these lands are now dependent upon rains alone and are generally sown with Indigo which being remunerative induced the ryots to cultivate them.

12. Application has been made for 1322 acres of waste land assessed at Rupees 5,847 but an account of the position of those lands it was not deemed expedient to grant any reduction beyond the usual one third and one fourth a portion of them have however been granted on lowle and will be brought under

under cultivation should the season permit.

13. In several of the talooks forming this Province it is known from the Pymash and tarwary accounts that a portion of the land has never been properly surveyed or assessed, one number consists of from 1 to a thousand acres and a very small assessment placed thereon, when had this quantity been surveyed in small numbers a higher assessment ought to have been imposed according to the nature of the soil and now in order to prevent loss to Government, the assessment in several places should be fixed in accordance with similar lands in the same Village instead of the very low rate imposed at the time of the survey and the numbers divided into smaller portions otherwise the ryots will throw up their lands hitherto cultivated and substitute those of a better quality and lower assessment which seems to have been placed on them thro' the neglect or carelessness of the Surveyor at the time. —

A

14. A number of ryots applied to be permitted to convert into wet their dry land as well as certain extent from Ayacut bunger and Porumpoke and requested that a smaller assessment than that of the lands in the Village should be assessed upon such lands. their proposal was taken into consideration, and they have agreed to bring under cultivation acres 2143 assessed at Rupees 1600 from which deducting one fourth Established remission, leaves a balance of Rs. 1300 leviable amount. The aggregate amount of teervajasty on the aforementioned number of acres at the average rate of 4 — 12 — per acre will be Rupees 10209. In fixing this teervajasty the rate in the respective Villages as also that in the neighbouring as well as the expence likely to be incurred in travelling and improving the land rendering it fit for wet cultivation received due consideration after which an average of Rupees 4 — 12 — per

per

per acre was fixed, which the ryots agreed to and the land on being cultivated will yield a revenue of Rupees 10,209 From the above it is not to be supposed that this average rate was placed upon each acre separately some were higher and some lower, but the average is as above stated the number of Leets being 13 ranging from Rupees 10 8 . to Rupees 3.

	Rs
Reduction of assessment on different species of land	18,678
Wet land cultivated with dry on account of the failure of means of irrigation	330
Land taken up under Establishd Remissions & Cowle	1,389
	23397
Teervajasty or extra assessment in dry land converted into wet	10,209
Total	33,606

15 The whole revenue derivable as particularized in the Margin amounts to Rupees 33606 which could not be realized unless the above arrangements had been entered into with the cultivators In Fusly 1264 a few of these arrangements were completed, but the greater portion in 1265. these two years were characterised by the scarcity of rain, but from the present prospect of the season there is every reason to believe the lands will be brought under cultivation

and

and the revenue regularly collected

16. This Report embraces the reduction of the assessment upon all classes of land for which application has been made by the ryots and which will yield Government a revenue of Rupees 18,678 which otherwise would not be realised. My opinion is that justice has been done to the ryots and Government

have

20805 Fort St. George 27th November 1856

have not been losers by this

arrangement and I trust I may

be permitted to go on with

the reduction upon the re

maining waste lands upon the

same principles as those now

laid before the Board,

and I have no doubt

that a greater portion

if

20806 Fort St. George 27th November 1856

if not all of the waste lands which are proved remunerative, will be brought under cultivation gradually. Should after further enquiry a greater reduction on lands long waste be required in favor of the Ryots the circumstance will be laid before the Board for their consideration and instructions.

Cuddapah Collector's Office 16th September 1856

Cuddapah Collector's Office 16th September 1856 (Signed) M. Murray
Collector

20833 Fort St. George 27th November 1856

Pc. No. 3966
Proceedings thereon
(173. 1174)

Resolved that the foregoing letter be submitted for the orders of the Right Honorable the Governor in Council.-

2. The entire ayacut of Government lands in Cuddalapah is stated to be 38,93,584 acres assessed at Rupees 43,43,216 of which 26,65,227 acres bearing an assessment of Rupees 20,15,838 are Waste.

Waste Percent
Blacklands - 15
Red & mixed Dc. - 75
Garden Dc. - 42

The proportion of waste on the whole ayacut is 68 per cent, but it occurs chiefly in lands of red and mixed soils of which about 9/10ths of the lands of the District are composed. Much of this land is of very inferior quality and not likely to be occupied unless at distant periods. Mr. Murray's enquiries, which form the subject of his present report embrace only lands on which have not been cultivated for more than 10 years in consequence of an excessive assessment or from decayed irrigation or deterioration of the lands themselves. Having completed this portion of the enquiry, Mr. Murray proposes to commence the investigation of lands waste within 10 years.-

3. Explanatory Statements Nos. accompany the Collector's report and the following is an abstract of their contents.-

20834. Fort St. George 27th November 1856

	Extent of Land	Assessment after enhancement of 25 1/3 per cent	Remission proposed	Difference between columns 2 and 3
	1	2	3	4
	Acres			
1 Remission of Dry Wet and Garden lands	2,405	26,275	18,679	7596
2 Wet lands now assessed as dry in Consequence of decayed means of irrigation	82	833	330	503
3 Land taken up on the customary remission only	1322	4389	4389	-
4 Extra assessment on dry lands converted into Wet	2143	1300	10209	8909
Total	5952	32797	33607	-

1st Item

The particulars of the first of the foregoing items are shewn in statements Nos. 1 to 4

Statement No. 1

In the Dry lands the extent brought under revision does not exceed 424 acres and the amount now fixed as the Demand is about 20 1/2 percent below the ordinary assessment, or assessment after the usual deduction of 25 percent. The average revised rate per acre compared with the original Survey average rate the average ordinary rate, was shewn in the margin. The new rates range from 6 Rupees to 1 Rupee and are 14 in number.-

Ordinary assessment } 1121
Assessment now fixed } 889

	per acre Rs. a. p.
average rate	
Survey -	3 - 8 - 4
Ordinary -	2 - 10 - 3
Revised -	2 - 1 - 7

The extent of Wet lands which have fallen under enquiry on this occasion is 1981 acres with a Demand, after usual remissions, of Rupees 25,154. the newly fixed assessment amounts to Rupees

Rupees 17,789 being a reduction of 29 ½ percent on that Demand. These lands are arranged under three classes according to their irrigation as Tanks, Channels, and Wells, lands under Wells receiving a larger measure of indulgence than those under the other two descriptions of irrigation. The former and present average rates per acre are as follows.—

	Survey			Ordinary assessable			Revised		
	Rs	a	p	Rs	a	p	Rs	a	p
Lands under Tanks	16	8	7	12	6	6	8	14	5
D: Channels	16	15	2	12	11	3	9	-	4
D: Wells	19	-	3	13	4	1	9	1	6

The tax under Well irrigation is thus brought nearly to an equality with that of the other two Kinds but as Wells, besides an outlay at first sometimes very large, must be kept in repair by the owners themselves and a constant expense is incurred in working them. it seems doubtful whether sufficient encouragement is held out by the new rates for the extension of the description of Cultivation. The question generally of Well Cultivation in

To Govt 20th January 1857
To D: 216 Sta 51 No 1040
Inwards 27 Sept 52

all Districts was fully discussed in the papers noted in the margin, and the conclusions then drawn were that the average profit from well lands had been much over estimated and that private outlay on that Description of irrigation ought not to be followed by the imposition of an additional Cess The average rate now fixed by Mr Murray for well lands exceeds the assessment fixed for wet lands and it is not likely, therefore that the Cultivation of lands under such circumstances will be permanently maintained, particularly as the Ryots of Cuddapah have long enjoyed the privilege of exemption from Extra assessment on the Conversion of their dry lands to Garden by means of Wells Mr Murray is requested to report further on this point.—

The results in the two descriptions of lands, irrigated and unirrigated, as above noticed are exhibited at one glance in the following tabular statement, in Comparison with the former assessment.—

Statement No 6

The irrigated land now brought under unirrigated rates of assessment in Consequence of decayed irrigation Consists of 82 acres and is found under the three descriptions of irrigation viz Tanks 32 acres Channels 13 acres and Wells 36 acres The former and present aggregate assessment of these lands is:—

	Rs
Survey	114 3
Ordinary	833
According to the Shewrahs	330

Though now assessed as unirrigated land it is seen that about 18 acres is to bear a rate of Rupees 7 - 8a - per acre, which is Rs 1 - 8a - in excess of the highest revised unirrigated rate newly introduced in the case of dry lands as already shewn. Mr. Murray does not explain why this high rate has been adopted. The land he states is now dependant on rains alone. Indigo, it appears, is some times grown on it, which though remunerative in the present state of the market, does not justify a departure from the rule which requires that the assessment of the land shall be

Fort St. George 27th November 1856

be fixed with reference to its quality, irrespective of the product that may be grown Mr. Murray will state fully his reasons for fixing so high a rate as Rupees 7-8- per acre in the Cases noticed The reduction made in that portion of these lands which formerly enjoyed irrigation under wells, seems fair the highest new rate not being more than Rupees 3 per acre.—

3rd Item
Statement No. 7

9 In the third case which comprizes 1322 acres there is no modification of the former assessment, the Ryots having consented to Cultivate the land with the Customary remissions of 25 and 33 per cent only of the entire extent 792 acres is Dry land 120 acres wet and the remainder or 410 acres is garden The Statement No. 7 in elucidation of this Item, does not shew the nature of the irrigation for the wet and Garden lands as regards that portion of the latter however, which is under Wells there is probably a Considerable disparity between its assessment and that of dry lands; but as special reasons, such as excessive rates or Decayed irrigation, are not presented for a reduction of the existing leviable demand the course adopted by Mr. Murray of

Dry average per acre Rs. A. P. 2-2-0
Garden Do. Do. 10-4-0

Fort St. George 27th November 1856

of not allowing to these lands an indulgence which is not accorded to the old well lands generally, of the District may be proper.

The Board would however wish for further information on this point. The extent of land irrigated by Wells should be stated and whether the assessment subject to the customary remission only is such as to ensure the permanent occupation of the land.—

4th Item

10 The fourth case is that of the extra cess imposed on certain newly irrigated lands to be classed in future as irrigated. The extent of these lands is 214-3 acres the assessment after the remissions of ¼ being Rupees 1300, which is rather less than 10 annas per acre The newly fixed water rates are 13 in number and range from Rupees 10-8- to Rupees 3 per acre those rates are stated to be rather below the existing wet rates of the several villages concerned They may be fair but the explanation afforded by Mr. Murray does not establish this point. In fixing them it seems that the expense likely to be incurred in levelling and improving the

the land undergoing it fit for wet Cultivation" received consideration but this would constitute a reason for not inforcing the full assessment at once and not one for fixing it at a standard below that of lands of similar quality, Mr. Murray may mean that the Ryots will be put to constantly recurring charges in consequence of the conversion of these lands from Dry, to Wet, but this should have been explicitly stated and Mr. Murray will now be pleased to afford further explanation on the Subject.—

Para 15 The modification of the existing Assessment in the four cases noticed above will bring an accession of Rupees 33606 to the Revenue The revision was partly made in Fusly $\frac{1264}{1854/55}$ but for the most part in Fusly $\frac{1265}{1855/56}$ both years were marked by a want of rain, but under ordinary circumstances the Collector considers that this additional Revenue will be punctually collected.—

In para 13 reference is made to certain tracts, extending in some cases to 1000 acres on which a very low assessment was placed at the Survey, which Mr. Murray thinks should be revised. The Board are not

led to infer that any portion of this land has been occupied, but before passing orders on the subject, they would wish to have more information before them The particulars of a few of these tracts should be stated, their extent, survey assessment and what is considered a fair rate with reference to other lands of similar quality, in the neighbourhood, being specified The probability, or otherwise of these lands being occupied should also be stated. The following abstract Statement shews the rates for Waste in Comparision with those of Cultivated lands for some of the Talooks, as extracted from statement No 5, which accompanied the letter from the Collector under consideration.—

B.d No. 3974.

Remarks thereon

1176

On referring to the Register of Poligar pensions prepared by Mr. Ross Collector of Cuddapah in 1814, and laid before Government on the 13th March 1815. the Board find that an allowance of Pagodas 5 or Rupees 17½ per mensem was granted on the 1st July 1801 to Cuddapah Naidoo Poligar of Yanmegah Chuntluh, as compensation for the Office and privileges enjoyed by him which were resumed when the District was ceded to the British Government. The pension is described as hereditary during good behaviour to lineal descendants only Pensions of this Nature having been hitherto continued in that principle as appears from the correspondence noted in the Margin. the Board concur in the Collectors recommendation for the renewal of the lapsed allowance in favor of Venatapa Naick great Grandson of the original Grantee from the 14th February 1836. the date of his father's demise.

Further Proceedings thereon.

1175. 1177

The Board observe that the genealogical tree at the foot of the Talookar report is not so clearly drawn up as it should be, no distinction is made between those who are dead and those are alive, and no persons of the same name are entered without any thing to denote which is the party referred to in the Statement. In submitting such lists in future, the Collector will also shew clearly the relationship of the several parties concerned.—

The Board also request that Mr. Murray will forward a statement in the accompanying Form shewing in detail the original and present State of the Poligar pensions, the names of the individuals now receiving pensions their relationship to the Original grantees and the duties of the offices continuing the pensions to them.—

Bd No 4428
From the Collector
of Coimbatore

Sir

I have the honor to acknowledge the receipt of Extract from the Minutes of Consultations dated 3d July last Conveyed in the Board's Proceedings of the 15th idem No 2204 and in Reply beg to forward a Statement shewing the quantity of paper Consumed for Fasly 1265 and the value &c thereof. It will be observed that the quantity for the above fasly exceeds that of the preceding year by 1502 quires of paper (the price of which is Rupees 527-11-5) in consequence of the introduction of the New forms of accounts-

2 From the above cause there is an increase of Rupees 20 in the item of Ink as shown in the account quoted above thus the total expenditure over and above the last year amounts to Rs 547-11-5 of which Rupees 18-15-8 having already been included in

the

20854 Fort St George 27th November 1856

the Monthly Bills of Sadeirards and passed accordingly by the Civil Auditor the Remainder is Rupees 528-11-9 for which I Request the Sanction of Government—

3 As Regards the introduction of the new forms of accounts I beg to state that the Manual Books of instructions were duly Solder to all the Cumums of the District immediately on their Receipt Forms of accounts were also distributed accordingly with detailed orders on their preparation from my office a few of the accounts in some Talooks were prepared before the Commencement of the Settlement tho' with some doubt on particular points— Full explanations by me and by my Subordinates at the time of I am abundy enabled most of the Cumums to prepare the accounts themselves— In Cases where assistance was unavoidably requisite was afforded by means of others as directed in para 3 of the Rules—

20855 Fort St George 27th November 1856

3 I am happy to state that the result of the above effort was that all the new accounts with the exception of the "Aloongoo" were prepared in almost every village in the various talooks noted in the margin and in the rest a few of the new accounts have been introduced and I have every reason to hope that the accounts in question will without exception be prepared in all the Talooks for the Current Fasly—

Coimbatore
Paroondorey
Erode
Dharapoor
Colegoor
Dennikenecottah

4 With a view to facilitate the preparation of the accounts in the Talook of Collegal and in some of the villages in Sattimungalam Audioor and Dennaickenecottah Talooks I request that the Manual Books and forms of accounts may be furnished to me in Canarese as soon as practicable, no Tamil being in use there—

To C. B. Thomas Esqre
Collector of Coimbatore

Sir

Enclosed I have the honor of forwarding you the account of the Flag Staff, and signal flags ordered to be erected in Ootacamund, in Minutes of Consultation of 12th August 1856 No 1412, exhibiting a balance due to this Office of Rupees 104 — 14 — 7 the

Fort Saint George 27th November 1856

the which, will you have the Kindness to forward me in your next Remittance, or direct the same to be paid over by the Talook Treasury here.

2 To account for the expence being so much over the Estimate, I have the honor to inform you, that the latter was prepared with great care, and there would scarcely have been four or five Rupees difference in the actual cost, but for an incident which could not have been foreseen and which alone has occasioned the extra expence incurred. This was on attempting to raise the Mast, from the soft and clayey nature of the soil, it tore up the belaying pins to which it was made fast inconsequence of which it becomes not only necessary to prepare strong beds of solid brickwork for them, but afterwards to raise mounds of earth over them to complete their security. The task was so difficult that I was obliged to solicit the assistance of the Civil Engineer Lieutenant Shaw Stewart, who Kindly placing his overseer Serjeant Jackson at my disposal for the service the work was completed, Superintended by Lieutenant Waz of the Indian Navy, who has rendered me the most valuable assistance throughout. A copy of the account of Serjeant Jackson I have the honor to

Fort Saint George 27th November 1856

to subjoin the more clearly to explain the nature of the work he completed.

3 I particularly wish to mention also soliciting you will take the opportunity of reporting the same to the Government / the great Kindness, and exertions of Captain Castor, the Master attendant at Cochin. Not a single rope or piece of Cordage of any Kind was procurable here but owing to this Gentlemans Courtesy and experience, all the requisite Material of the very best description, duly prepared under his own superintendence was forwarded to Ootacamund and arranged, and put together by Lieutenant Waz.

4 The work has been erected with a strength sufficient to guard it from the gales and stormy weather prevalent here, but I should mention Lieutenant Waz has suggested, that a coat of paint over the mast is the Cost of which would be about twenty five Rupees in addition, would prove a valuable protection against the heavy Rains of the Hills. If you deem this advisable, and will forward the amount with the rest, I will employ it for this purpose.

No. 360

To, I. D. Sim Esqre
Acting Secretary to the
Board of Revenue.
Fort St. George,

1190
Bd. No. 4706
From the Collr of Tinnevelly

Sir,

I have the honor to acknowledge Extract from the Proceedings of the Board of Revenue under date the 18th October on the subject of a correspondence that had passed between Mr. Barter, a Merchant of Tutacorin, and myself regarding the importation of Columboo Arrack, and recommending that under

under the special circumstances of the case Mr. Barter might be allowed to import the quantity of arrack for which he had contracted at a duty of 5 per cent on the Tariff price being the duty which I had informed him was leviable on the article. I have also had the honor to receive Extract from the Minutes of Consultation under date the 5th November conveying the orders of Government on the above subject and permitting as a special case Mr Barter to import the quantity of arrack for which he had contracted, at the above named rate of duty.-

2. In reporting the circumstances of this case to the Board and Government, I was all along under the impression, that it was on account of the abkarry renter of this District that the arrack was to be imported

In

In his first letter Mr. Barter enquired of me if he could import on account of a Renter of this country, and I replied to him in clear and explicit terms, that he might import Arrack on account of the Renter of this District, who was the party I concluded he meant. It was recently brought to my notice, that there was a correspondence on the records of the late Head Assistant Collector's Office, in which Mr. Barter had applied to and obtained from that Gentleman, permits to send Arrack to the Government Renter at Trichinopoly, and as the general Abkarry Renter of this District on being called on for information reported that he had not made any agreement with Mr. Barter, I immediately wrote to that Gentleman and asked for explanation.-

It

Fort St. George, 27th November 1856.

3 It now appears that it was the Renter of Trichinopoly that Mr. Barter had agreed to supply with Arrack seeing that my letter of the 28th April bore sole reference to the Renter of this District, I consider that Mr. Barter should immediately on its receipt have stated who the party was he had agreed to supply with Arrack, if it was not the Renter of this District. At the same time as the question at issue, was only one of import duty, it would not materially affect the question so long as the Arrack was disposed of to any Government Renter I propose therefore if the Board see no objection, to inform Mr. Barter he may import the remainder of the Arrack for which he has contracted at 5 per Cent duty as granted by the indulgence of Government the said Arrack to be transferred either to the Renter at Trichinopoly

Fort St. George 27th November 1856.

Trichinopoly or to any other Government Renter if disposed of otherwise within this District, it would be liable to be seized as contraband.

4. If the Board approve of this course, I request they will intimate the same to me. I beg to send for the information of the Board Copies of Mr. Barter's first letter to me of 17th April, of my reply of 28th April, of my letter of 3d November calling for explanation and and of Mr. Barter's answer of 6th November.

Tinnevelly 10th November 1856

(Signed) J. Silver
Collector

James Silver Esqre
Acting Collector &c &c
Tinnevelly

Sir,

You will oblige me by stating if I can import arrack from Columbo on account of an arrack Renter in this Country, and if so, the duty it would be liable to per Gallon the Custom Chowkydar here is unable

20875 Fort St. George, 27th November 1850

unable to inform me on either of these points, hence the necessity of reference to you—

/Signed/ I. Silver
Collector.

No. 1340.

To, C. I. Barter Esqre
Tutacorin

Sir,

In the concluding part of your letter of 27th September last you requested me to let you know whether on representation of the facts connected with the subject of importation of Columbo arrack, by you, the Government would allow you, or the Renter himself to import the article in question to a given extent, at the former rate of duty charged, or the Government take it from you at the tariff price.—

2. On looking into the correspondence which has taken place between you and the late Head Assistant Collector, it appears that you applied to and obtained from that Gentleman, 2 permits to export 158, and 322½ Gallons of Columbo arrack respectively to the arrack Renter at Trichinopoly.—

In

3. In replying to the question put in your letter of the 17th April I expressly informed you that you could import arrack from Columbo on account of the arrack Renter of this District, to whom the privilege of purchasing and selling Bathayee or Columbo arrack at Tutacorin has been rented, included in the General arrack rent of this District.

4. Under these circumstances I request you will at your earliest convenience afford me information on the following points, Viz.:-

Who is the Renter with whom you have contracted to supply Columbo arrack his name and residence? Is he the Sub Renter of Tutacorin? and as in my letter of 28th April, I expressly informed you, that the arrack Renter of this District was the party for whom you could import the article at Tutacorin, how came 480½ Gallons of arrack to be sent to

20877 Fort St. George, 27th November 1850

to the arrack Renter of Trichinopoly, as I now find from the correspondence that has passed between you and the late Head Assistant Collector? also on whose account the 2,979 Gallons which appear from the Chouky accounts to have been imported by you between the month of April, in which you addressed your first letter to me on the subject and that of September, have been imported, the Renter of this District being the party for whom you were informed by me, you could import the article? and on whose account the 2,300 Gallons specified in your letter of 8th October are to be imported? It is necessary I should have this information before me as while I was under the impression that you were importing Columbo arrack for the Renter of this District, to whom certain privileges are granted, as stated in my letter

to

to yow of 28th April I find that some portion has been transferred to a Renter in Trichinopoly.

Tinnevelly 3d November 1856

(Signed) J. Silver
Collector

To
James Silver Esqre
Collector of Tinnevelly

Sir,

I have the honor to acknowledge your letter of the 3d Instant I was applied to by the arrack Renter of Trichinopoly in April last requesting me to inform him at what rate I would supply Columbo arrack and was subsequently advised that on the arrival of the Cavalry Regiment at that station that he should require a large quantity monthly before answering him or making any arrangements for the securing of the article in question I wrote to you for the following information Viz whether it was legal and unobjectionable

for

for me to import Columbo arrack for sale to the arrack Renter and if so the duty it would be liable to, the answer received from yow under date 28th of April was considered and taken by me as quite satisfactory and conclusive on the points which I sought your advice.

In my correspondence with yow on this subject you will not I think find that I have ever alluded to any particular arrack Renter nor did I ever think of doing so as my attention was directed to supply any Government arrack Renters that would send me orders precisely in the same manner as I should act in any other trading transaction now you draw any attention to the fact I observe that you particularize this District arrack Renter I surmise however that there cannot be two rates of import duty on the same article under the same Government

one

one to suit the wants of Tinnevelly the other of Trichinopoly and the natural inference to be drawn is that if it is unobjectionable to import and sell to the one it becomes equally so as regards the other both having purchased their right to sell from the same Government, had I for a moment conceived a different idea I should instantly have applied to you for further information as I did in the first instance instead of applying to your Head Assistant for permits with regard to any contracts I may have mentioned in my correspondence you seem to have misunderstood me I have only contracted to be supplied and agreed to supply at a certain price. The Trichinopoly Renter is the only party I have yet supplied with Columbo arrack the arrack now contracted for in Columbo would go to him or any other party / being a Government arrack Renter / who sends me

me orders provided you will allow the importation.

That the duty should be 5 to 10 per cent is a most natural inference to be drawn from the General tenor of Schedule A. act IX. of 1845 and you will find it weekly weekly so quoted in the price Current printed in the Madras athenaeum.

(Signed) J Silver
Collector.

Tutacorin
Nov. 6. 1850.
No. 3998.

Proceedings thereon.

(1190. 1191)

The Board address Government on the subject of the duty to be levied on Mr. Barters importations of Columbo arrack under the impression that his enjoyments were with the abkarry Renter of the Tinnevelly District and the Government approved of the Board's recommendation reddidently on the same understanding.

The Board were mainly influenced in their recommendation by Mr. Barters assertion

Fort St. George 27th November 1856

assertion that he had agreed to supply the Renter at a fixed price below the proper duty and that consequently the levy of the latter would expose him to certain and heavy loss.

3 The Board now appear to have been in error on both points although their misapprehension of the actual state of the case was fully borne out by Mr. Barters own letters which misled the Collector in like manner.

The Board consider it necessary to apprise Government of the circumstances now reported but they wish the Collector in the first instance to ascertain from Mr. Barter what quantity of Columbo arrack he agreed to supply to the abkarry Renter of Trichinopoly at the rate of Rs. 1-3 per Imperial Gallon and if he has made engagements with other parties the rates in those cases also.

5. The Collector of Trichinopoly will be requested state whether the abkarry renters

Fort St. George 27th November 1856.

renters of that District posess the privilege of selling Columbo arrack.

No. 383

To J. D. Sim Esq.re
Acting Secretary to the
Board of Revenue
Fort St. George

(1194)
Bd. No. 4769
From the Collector of Chingleput Requesting sanction for the continuance of the additional Establishment of 60 Peons and 1 Jamadar for a further period of 6 Months

Sir

I have the honor to request the Para 1
Board will be good enough to obtain me the services of the additional Peons sanctioned in Minutes of Consultation No. 597 of the Boards Proceedings No. 1505 dated 17th May 1856 } 14th May last for a further period of Six Months from the 1st Proximo, the date on which the present sanction will expire. —

2 The Board are aware of the peculiarly unfavorable nature of the season in Chingleput and its probably consequent increase of Crime; and I will not therefore trouble them with a repetition of the reasons which first induced me to apply for additional aid in February last — it will be sufficient for me to say that they continue to the same, if not greater extent than at that period and that the lengthened dearth of Provisions failure of the early sown crops in

in many places, with a probable future rise in prices, appear to have increased the necessity of taking timely precautions for the protection of property and the preservation of the peace in the early months of the coming year. I make no doubt therefore of obtaining the Boards support to my request and I have pleasure in informing them that the happiest results have followed the entertainment of the additional Peons under the orders of Government already adverted to. There has been a marked falling off in crime during the last Six Months and crimes of a serious nature have especially diminished. The Statement in the margin will shew the

Description of Offence	No. of Cases Committed and Attempted during the half year ending 31st May 1856	No. of Cases Committed and Attempted during the half year ending the 15th November 1856	Decrease	Increase
Gang robbery	14	7	7	
Highway robbery				
	8	5	3	
			6	2

the exact difference and improvement and affords the best argument for continuing the services of the Men through whom they have been obtained.

3 I trust I may be favored with immediate orders regarding them to avoid the necessity of reverting to my fixed Establishment on the 1st Proximo, and entertaining them afresh afterwards.—

4 The Board will recollect that the additional Peons consisted of 60, with 1 Duffadar at a Monthly cost of Rupees 217.—

Chingleput District.

Sydapet 18th November 1856.

/Signed/ C. J. Shubrick
Collector

Ordered to be submitted with the following letter.—

To

20885 Fort St. George 27th November 1856

1196
B. No. 3958
To the Secretary to Government

To

The Secretary to

Government

Sir

I am directed by the Board of Revenue to submit for the orders of the Right Honorable the Governor in Council the accompanying letter from the Collector of Chingleput dated 18th November 1856 regarding the additional Establishment of Peons employed in his District.

2 In Extract Minutes of Consultation dated 11th May 1856 No. 597 the Government sanctioned the employment for 6 months of 1 Duffadar and 6 Peons for the purpose of aiding the fixed Establishment of Police Peons in the performance of its duties The sanction then accorded will expire on the 1st Proxmo.

3 The Collector now reports that the services of these Servants are as much required at present for the prevention of crime as when they were first entertained, and that the peculiarly unfavorable nature of the season the continued scarcity of food, the failure of some of the early Sown Crops, and the probable rise in the price of Grain render it necessary that timely precaution should be taken for the protection of property and the preservation of the peace in the early months of next year It appears that

1 Duffadar 7 Rs
6 Peons @ 3½ Rs each 21 0 Rs
Rs 217

Sir Comp. 27 Nov. 56

20886 Fort St. George 27th November 1856

that since the entertainment of this force there has been a marked decrease in crime especially in offences of a serious character.

Under these circumstances the Board support the collectors recommendation that sanction be granted for the employment of the extra establishment of Peons for a further period of 6 months at a charge of Rupees 217 per mensem. The Board trust that at the expiration of the period the Collector will be enabled to dispense with their services.

Bd's No: 3990
Proceedings thereon

The Board of Revenue authorize the Sale for arrears of Revenue of the lands alluded to in the foregoing letter and direct the publication in their office of the Advertisement forwarded by the Collector Tuesday and Wednesday the 6th and 7 January 1857 being fixed for the days of Sale.

a

19

20890 Fort St. George 27th November 1856

No. 391.

To J. D. Sim Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

1202

Bd's No: 4859.

Sir

From the Collector of Chingleput

I have the honor to forward for publication in the Board's Office the accompanying Advertisement for the sale of Lands attached for arrears of Revenue for Fusly 1265 in the Cotramalore Talook amounting to Company's Rupees 3,713-12-5.-

Future advertisements will be prepared in the Book form the present one having been drawn up previous to the receipt of the Board's Proceedings dated the 15th Instant.-

The names of the Defaulters and the balances outstanding against them are hereunder particularized

of the Nabob Wallajah, copy of which is enclosed in Petition No 2183 of 1856 the Village of Yellapully in Madura was granted to Moonshee Habeeb Ollah and his descendants or was resumable on the death of the former. -

2 The facts of the case are briefly these. - The Village, which formerly belonged to a Pagoda, was resumed and apparently in a very deteriorated condition granted by the Nabob Wallajah to Moonshee Habeeb Ollah on an unvarying Quit Rent on the 1st August 1829. Mr Vivash recommended that as the Moonshee had been long dead it should be restored to the Pagoda. The Board were of opinion that if resumable at all it should be taken by Government and this was eventually done

In Con 10th augt 1829

on

Fort St George 27th November. 1856.

In Con.s 17th Dec.r 1829

on the ground stated in the Collectors letter of 3rd December. 1829 Viz.t that it was not the intention of the Nabob that the grant should be perpetual no mention being made in the Sunnud of the Heirs of the Grantee and the only word having reference to perma-nency appearing to regard the payment of Pottapoo which was intended to be always 35 Chuckrums as long as the Grantee might live.-

3 The Petitioners maintain that it was the grant which was to be perpetual.-

4 Adverting to the position of the word (7193(5)) permanent) and the lan-guage of the Sunnud generally, the Board are inclined to think that

Mr

Fort St George 27th November 1856

Mr Vivashes construction was correct, but for the satisfaction of the parties they would recommend that the opinion of the Translator to Govern-ment should be taken.-

To

Fort St. George 28th November 1855

No. 300

To,
J. D. Sim Esqre
Acting Secretary to the
Board of Revenue
Fort St. George,

Sir,

1239
13th No. 4817
From the Collector of Tinnevelly informing that the Zemindar of Shevagherry has in utter neglect of the repeated orders, and warnings that he evaded appearing before the Cutcherry for the purpose of executing the required Deed and requesting for reasons mentioned instructions of the Board for retaining over the Estate to its proprietors.

With reference to the concluding part of para 2 of an Extract from the Proceedings of the Board of Revenue dated the 30th September 1855 directing me to continue the management of the Shevagherry Estate until further orders provided that the Moottahdar executes a formal Deed binding himself to assent to all the Acts which the Collector does as its temporary Manager; I have the honor to State that orders have been sent to the Zemindar in question on three different dates Viz. 11th October, 29th October, and 5th November requiring, in the 1st Order his immediate attendance at my Cutcherry for the purpose of executing the Deed above referred to, to enable me to allow the Estate to remain under Circar Management and

Fort St. George 28th November 1855

and warning him in the two latter orders that delay on his part to appear before me as directed will end in the transfer of the Estate, now under Circar Management at his instance, to his charge, but he has in utter neglect of these orders and warnings hitherto evaded appearing before me on frivolous excuses.

2 The Zemindar in question is a weak and not very respectable character plunged in debt and by his own admission heartily disliked by his Ryots. It was in every way for his interest to have consented to the indulgent orders of the Board, regarding the management of his Estate but having neglected all my calls for his attendance. I do not consider him deserving of further indulgence.

3 The Balance of Peishcush for Fasly 1265 amounting to Rupees 31,457-0-10 on 21st July as mentioned in para 2 of my letter

20922

Fort St. George 28th November 1856.

the Paddy on hand and the amount of arrears
against the Ryots to its proprietor leaving the
unpaid balance remaining to be paid to
Government on account of Fusly 1265 to be
recovered by the usual process of attachment
and sale of lands.-

Tinnevelly
17th November 1856.
1239. 1249

J. D. Sim. Esqre
Acting Secretary to the
Board of Revenue.
Fort St. George.

1241

B. No. 4845.

From the Collector
of Tinnevelly

Sir,

With reference to my letter of the 17th
Instant, I have the honor to inform you
that the Mootahdar of Shevagherry appered
before me today, pleading a boil on his leg
as an excuse for not appearing earlier -
He has in verbal communication with
me, requested earnestly, that the Estate
may be continued under Cirkar management
for

20923

Fort St. George 28th November 1856

letter to you of 30 I dare has been reduced
by subsequent collections upto to 31st October
to Rupees 19,070-2-3, which can be still
reduced by crediting the sum of Rupees
3,813-4-0, in deposit at the Huzzoor Treasury
on account of the Estate on the 31st October
to Rupees 15,203-14-9 for which it appears
from the accounts received from the
Cirkar Ameen, upto the 3d Instant, that
there is Paddy on hand to the value of
about Rupees 8,375 and arrears against
the Ryots on account of Fusly 1263 to 1265
to the amount of Rupees 9,370-9-7 -
4. Under these circumstances and
as the proposition submitted to the by
my Predecessor Mr. Bird and myself
recommending the continuance of
the Estate under Cirkar management
for the present appears to be as observed
by the Board opposed to the object and princi-
ples of the permanent settlement. and
I have the honor to request the
instructions of the Board as to
making over the Estate together with
the

L B

for some time to come, and I therefore beg that the Board will be pleased to defer passing any final order on my letter of the 17th Instant, until I communicate again with the Board which I will do in the course of a few days.

Tinnevelly
19th November 1856.

(Signed) J. Silver.
Collector.

1241. 1242

Order thereon.-

Ordered to be recorded. Board will defer consideration of the Collector's letter dated 17th Instant until the receipt of the further communication promised herein.

To,
J. D. Sim Esqre
Acting Secretary to the
Board of Revenue
Fort St. George.

1243

B. No. 4822.

Sir,

From the Collector of Trichinopoly.

I do myself the honor to transmit the prescribed Advertisement for the sale of certain lands of this District the property of Ryots in the Talook of Torriore who have failed

failed to satisfy the demand for arrears of Revenue due on account of Fusly 1265- and I solicit your Board's sanction for the sale so taking place.-

2. The arrears for the fusly amounting in the aggregate to Rupees 27-10-11 is justly due by these proprietors who have shewn no intention or inclination to make good the Government demand- Notwithstanding the service upon them of the legal notice- I have therefore no other alternative than to let the law take its course-

From the Acting Collector of Ganjam- Rain Report for October 1856.-

Rain

the Torrive Talook already submitted by me.

3 I have caused such returns to be prepared each for the latest period to Fusly 1265 and they are herewith transmitted Marked A and B, and numbered 1 to 8.

4 I will proceed to explain these several Statements and at the same time shew the System of Settlement that obtains, and then state what rates of assessment appear to be high and what reductions are required.

5 In this Division of the District, neither the Nunjay, Garden nor Poonjay have been classed or arranged in Surrums - The mode of Settlement being for each denomination of land the same, that is according to the crop raised, but with a given assessment for every such product grown whether upon wet, Garden or dry land. At the same time these several rates of assessment on the same description of

of Crop are not uniform throughout the irrigated Division, but on the contrary vary in every Talook, and frequently in each Meghanum of each Separate Talook.

6 With the Gardens there is however this one distinction between those in the wet, and those in the dry villages of the four Talooks. The Garden lands of the former are rated as two crop or one crop Garden and charged, that is assessed for the Village or Meghanum without reference to product, and these are termed Putcut Gardens. Those of the latter pay entirely according to the Crop grown.

7 The Gardens of the Wet villages are all, I may say, irrigated from Channel water lifted, and have no wells. While those of the dry Villages possess wells, and have in fact no other means of watering their Crops.

8 Such is the mode of Settlement - I will now take the Statements and explain

explain their purport.

9 That marked A gives the Ayacut cultivation and waste of the Gardens in the 21 Villages in an abstract form.

Of 10678 Cawnies there are only 754 Cawnies waste. And the average tase per Cawnie is in every respect moderate whether under cultivation or waste.

10 Connected with this Statement A are the accounts Nos 1 to 4 which give in detail the several rates ranging in each talook for Garden lands. The Board will not fail to observe how numerous and variable they are. But considering the goodness of the soil in the Delta of the Cavery and Coleroon, as well as the certain and easy means of irrigation, I cannot deem the tase high or one that requires reduction.

11 The Statements marked B and numbered from 5 to 8 are for the dry Villages of these Talooks. The first shews the Ayacut cultivation and

waste of the Gardens in an Abstract form.

Of 7689 Cawnies Ayacut, as per the cultivation of last fusly year (1265) Cawnies 1812 are waste. While the rates prevailing as seen in the return are not only numerous but high, and such as call for modification and reduction.

12 These are all well lands, and the villages for the most part situated on the Uplands bordering upon the Dry Talooks of the District and resemble them closely in feature and character of Country.

13 The talooks of Covrand and Vittoocutty in respect of their dry Village gardens are very moderately assessed.

vide Statements Nos 5 & 6.

The highest garden rate being within Eight Rupees the Cawnie, and the lowest 7 annas 8 pice. I do not in consequence recommend any reduction here.

But in Mossery and Lanlgoody the necessity for an abatement of

tase

tasc seems imperative. The rates varrying from Rupees 16-5-3- down as low as annas 11 price 3. according to product grown.

I would suggest that every rate above 8 Rupees be reduced to that amount and be King at the average assessment per Cawnie on both the cultivation and waste as shewn by Statement B. there is but little ground for apprehension that the reduction of revenue will be large or the financial results of much moment in comparison with the relief granted.

14 I am invited to report on the other lands of these Villages also in the Wet Taloks, if I should consider any reduction is needed.

15 I am of opinion that the directly river irrigated villages of these four taloks do not stand in any need of relief. Their assessment is moderate and from the perfect and certain supply of water from the rivers, the lands are not only valuable but find a ready purchaser.

The

16 The dry Villages however are differently situated, and I think require relief both in reference to their Punjay and Poonjay lands.

17 I have prepared Statements marked Nos 9-10-11- and 12 which will shew the variety of assessment rates and the high range in some instances.

Statt No 9 As for Coimbatore, with the exception of one rate Rupees 7, the Poonjah tasc is moderate. The next highest being Re 2-11-0 the Cawnie. The lowest being actually as little as one and a half anna. The 7 Rupee rate should be reduced to the next in the scale.

The Punjah is high in some localities, being as much as Rupees 19½ the Cawnie. I would reduce all above Rupees 9 to that rate.

No 10 This is for Vellore Cuddy. The rates here are moderate and certainly require no modification.

No 11 This Statement shews the Punjah and Poonjah rates for the talok of Moosery. The Punjah assessment

Fort St George 26th November 1856

assessment is not excorbitant even for tank lands and requires no reduction — so in the Poonjah it is moderate with the exception of the first rate, Rs 5-13-4. and this should be reduced to the next on the list.

No 12

This return is for Coulgoody. The Nunjah is not high, and may be allowed to remain. But the Poonjah is exstremely oppressive, ranging from Rupees 11-3-2 the Cawnie to 6/ As these dry Villages are on the confines of the Talooks of Tottiore and Attrelore, it would be but just to allow them the benefits accorded last year to those Talooks, or the still further reductions proposed by the Government in the 16th Para of their Minutes of the 5th June 1856, and to be made applicable to the rates above Rupees 2-8 — :

18 To exhibit the Aycut, cultivation of the Past fasly: 1265. and the waste both of Nunjah and Poonjah in these dry Villages

of

Fort St George 26th November 1856.

of the irrigated Talooks. I beg to furnish a Statement marked C. The averages of the tax per Cawnie both for the Cultivation and waste are shewn there to be moderate, and would not lead to the supposition as already explained that the rates did actually run up so high in localities, or that there existed a necessity for a reduction of the land tax.

B. No. 4862.

From the Accountant General.- I have the honor to return herewith duly registered the ten Promissory Notes forwarded with your letter of the 13th Instant.

The course proposed in para 3 of your letter cannot be pursued in as much as the interest on the Promissory Notes in question hitherto drawn by the Government Agents on Registers will have to be certified on the Notes themselves by the Government Agents who must send for them from the Treasury for that purpose. It is necessary moreover that the Promissory Notes themselves should be produced at this Office for registration. A register of them from the Sub Treasurer not

not being sufficient. To obviate inconvenience as however as much as possible. I propose that the Government Agents should present the Bonds to me for the purpose of being entered in my Register, prior to their being delivered over to you. After receiving them from the Government Agents you will have nothing to do but to enter them in your Register and send them to the Sub Treasurer for deposit.-

I now forward a receipt No. 547 for the Loan Acknowledgment No. 866 of 1854/55, for Company's Rupees 3,000 received with the above letter you will be so good as to acknowledge the receipt of the enclosures.-
