4782 The Acting Secretary to Marine Board
No 1163. 12 Oct 15 Oct 17 Nov

Report from the Marine Board
Dated 23d Received 24 October 1811 No 4924.

4782 Reports that in the opinion of the Marine Board the Value of Rations a Short drawn for the detach of the 46th Regiment No. who arrived by the Transport Greyhound from Trincomalee in July last if properly claimable by the Troops should be disallowed to them by Government, as neither the owners or Commander of the Greyhound are in any way liable to make good such value for reasons stated: also that the value of the Ginglie Oil not in stated for by the detail of the 46th Regiment who arrived for City or London should be disallowed by Government but that the value of Rations indented for received but left on Board the City of London because the Captain refused to give up the dishes and bags containing them should be recovered from the Captain unless he can prove that such rations were handed over to the Commissariat Department as surplus stores in which case the Board think that this Item should also be disallowed by Government suggests that a reference to the Commissariat Department might clear up some of the difficulty in the adjustment of the Claim.
