151. Respecting the refusal of the men of the wing of the 52d Regt N.I. at Aseerghur to receive their pay without Batta, observes that as the Regiment is serving within the Bombay Presidency, he conceives it rests with that Government to adopt proper measures he conceives that if batta were paid on this occasion there would be great danger of the example being followed by the Regiment now marching to the relief of Stations similarly situated & by compelling were receiving the Bombay Government would doubtless adopt it -

152. States his opinion that the safer course to be adopted towards the men belonging to the Wing of the 52d N.I. at Aseerghur who refused to receive their pay without Batta would be to pay them their Batta conditionally, order the wing at Aseerghur to some other station immediately where the Authority of Government cannot be disputed - the ringleaders might then be selected and all the obnoxious Characters in the wing might be removed by discharge -

153. States that nothing can be more impolitic than the conditional payment of Batta to the men of the Wing of the 52 Regt N.I. at Aseerghur who refused to receive their Pay without Batta & subsequent punishment of them for disobedience of Batta must be enforced but if that should become impossible it would be better to recall that order than adopt any measures by which the Character of the Government would be compromised -
