601	Concurs in the opinion of the Medical Board as to the anomalous position in which Supt Surgeon Key will be placed with regard to the arrangements for supervising the working of Dr Scott's Hospital by the nomination of 2 of his Juniors to what is clearly his especial duty. and proposes, that so long as the Black Town Hospital is in any degree supported by Govt it should like all other Public Establishments be under the Superintendence of the Supt Surgeon of the Presidency.
602	Sees nothing in the Medical Board's communication to justify a modification of the Orders of Govt relative to the supervision of Dr Scott's Hospital before a fair trial has been made. Notices the great benefits resulting from the Institution. Thinks that the arrangements made are calculated to relieve Dr Key from the unpleasant differences existing between Dr Scott and himself. Sees no necessity for dealing with Dr Scott's Hospital as a Public or Govt Institution.
603	In referring to circumstances relative to the proposal for nominating two Medical Officers to supervise the working of Dr Scott's Lying-in-Hospital, adheres to his former opinion that Dr Key should be relieved from the Superintendence of that Institution.
604	Considers it objectionable to modify the arrangements ordered for supervising the working of the Black Town Hospital which were issued on the views of the Majority of the Board, but has no objection to relieve Supt Surgeon Key from the duty ~~of the~~ proposed to him with regard to that Institution.

1040 Considers the Report of Major Pears on the result of his examinations of the Chaunts in the neighbourhood of Vaniembady to afford ample information as to the range of Chaunt over which the Railway from Madras into the interior must be kept as also of the best line — and as the selection of line has been left to the Govt of India, the early orders of that Govt should be solicited on the subject to whom a copy of the Report should be at once submitted. Adheres to his former opinion relative to the direction the line should run and suggests that a competent Officer should be early appointed under the orders of Major Pears to survey the road described by him and frame an Estimate for its formation for the passage of Carts.

1051 Reports that the increased expenditure on the Govt= roads in the current Year is not caused by an increase in the prices of labor or material except on 3 or 4 instances when granite has been substituted for Laterite - that the roads require a thorough repair every 4 or 5 years and they received the last in 1847, which accounts for the increase of expenditure in the present Year.
