1895	Transmits copy of a letter from the Sub Treasurer at Colombo, with the list therein alluded to, and requests the issue of instructions for the payment of Thirty Pounds to the Parties enumerated in the list.
1896	States that the Emigration Agent will henceforth intimate to the Collectors of the Districts, wherein Natives are generally hired to serve as Coolies to the Mauritius, the expediency of inducing more than an ordinary number of Females to proceed further. Submits a Memo! affording a satisfactory proof that, within the last three years, there has been a gradual increase of Female Emigrants from Madras to the Mauritius, and that the per centage has within the last year reached to 35. Thinks that, if the Masistries engaged in the hire of Coolies exert themselves there will be no difficulty in carrying out the instructions of the Colonial Govt to the fullest extent that is desirable. With regard to the evidence required in proof of a Legal Marriage, thinks that, owing to the peculiar habits and customs of the Natives of this Country, a declaration supported by the best evidence that can be obtained is the best mode of ascertaining whether the parties are married & not aware of any difficulty or impediments that have occurred to check Female Emigration from Cuzn but states that the Agent will enquire whether there are any grounds for such a complaint. Submits a plain and simple method of instructing the Emigrants at the Mauritius.
1897	States that the Assistant in charge of the Madras Telegraph Office has been instructed, when communication on the line is interrupted, to give the Notice requested - and that when interruption continues, Messages are sent by Post.
