We was favour'd with your Hon^r. & C^a. Dated the 28th. ult^o. which came to hand the Six Instant and we are glad that our takeing five garse of Rice has met with your approvall we observe that Your Hon^r. & C^a. wish we had taken a larger quantity we are sorry it did not arrive before we had disposed of the Brigantine Prosperous.

Cargo otherwise we could have increased it but we expect a Vessell from Bengall belonging [to] Mr. Williamson loaden with rice which if she [brings] we shall venture to Double the present quantity.

We have according to your Hon^r. &c^a. orders deliver'd Auga Pera the Husbulhookum and he has [spoken] the same to the Phousdar upon which he was very well pleas'd and said it was very firm and what must be comply'd with he has sent a copy of it for the Nabob's peruseall.

We with dilligence observe what your Hon^r. &c^a. mentions about Auga Pera and we will use our [utmost] endeavours to bring him to a quick expedition in making a speedy Conclusion of the present affair of Dieu Island.

Last night Auga Pera acquaints us that the [Nabob] had wrote to the phowsdar and he had seen the letter wherein intimates our Business about Dieu Island and in somuch that hes express'd that after the Phousdar comes matters relating to Dieu shall be Concluded therefore at his returne we are in great hopes of having that affair compleated to your Hon^r. &c^a. Satisfaction.

We understand that the Nabob has wrote Cap^t. Gee and has order'd him to be very expeditious in [bal]ing in a readyness to repaire immediately for [Con] a place where Rajah Subbanah resides who is Opperoes Brother and he's accordingly amaking all possible preparation he can to sett out.

The Nabob is remov'd from Ellure to a place called Cundum about four hours Journey from Newguere Fort where Rajah Opperoes now resides and its reported that the Rajah has desird the Nabob would be pleas'd to send one Timmanaigue a Sowcarr and Auga Mino to him in order to consult and agree upon matters but as yet its refus'd by the Nabob on Account that he denys waking a vissit which is what hinders his Accomplishing matters.

Ramrause and Anneaneede a Pallcarr as [we] advised the Hon^{ble}. Govern^r. in ours of the 31st. Ultimo are return'd back to there [sic] Government.

This Phousdar having a brother in Calcutta [by] Name Coja Abdulah who is kept in Prison for the sume of Four Thousand Rupees, and he being willing to release him he sent for Auga Pera, and desired he would get us to desire your Hon^r. &c^a. would be pleas'd to favour him so farr as to send here three bills of exchange on the Gov. of Bengall, and he would take care to forward them we considering the Important affair he has taken to accomplish made us at last consent to mention it to your hon^r. &c^a. hoping it will meet with your Approveall.

We have got in our custody Four thousand Rupees New Metchlepatam of Coja Gees which he press'd hard for us to take we told him it would be time enough to receive the mony when the bills of Exchange came but he was not contented with that answer he being as we suppose apprehensive of our not writing tho we promis'd him we would Auga Pera assures us that our receiveing now the mony cant in any measure prove detrimental to our affairs however we was very cautious and unwilling to comply with his request for fear of gaining your Hon^r. &c^a. Displeas[ure] but upon his assuering Auga Pera before our cheif Dubash Ilue that in case your Hon^r. &c^a. should not approve of sending bills of Exchange he would be contented to have his mony return'd again with[out] demanding or desiring any Interest on which [terms] we venture'd to take the Mony but in case he was [not] a going to the Nabob we should have refus'd.

Our Shroff has looked over all the Rupees [and] he acquaints us they are good.

What few Small Vessells has arrived here from Bengall with Grain sells at the reate of Sixteen measurs 4p^r Rupee and but very indifferent rice we have nothing more materiall to Import but beg leave to Subscribe withall due Respects.

TO THE HON^{BLE}. JOSEPH COLLETT ESQ^R.

PRESID^T. FOR AFFAIRS OF THE HON^{BLE}. UNITED COMPANY OF
MERCHANTS OF ENGLAND TRADING TO THE EAST INDIES

& GOV^R. OF FORT S^t. GEORGE & C^A. COUNCILL.

HON^{BLE}. S^{rs}. & C^A.

1. By the George Brigantine who Arriv'd here the 21st. of November we receiv'd your Hon^r. & C^a. Letter dated the 4th. of October at a time we were Cherishing Ourselves with the pleasing Reflection of having discharg'd our Duty wth. honour and Justice in the late troublesome transactions of this place, and inferring from thence to receiv[e] no less then a full Approbation from your Hon^r. & C^a. of our proceedings which we yet doubt not of when affairs are represented with truth and Sincerity in the Interim we cannot but Express the present Grief we are in for being under your Hon^r. & C^a. displeasure.

2. We had sent the King William in due time but that the lives of so many Persons the safe Arrivall of the Hon^{ble}. Companys treasure and their effects on board the Rochester depended entirely upon the relief she had from the King William if [] had sent the president she would not have been able to beat back against the North-westerns besides [being] Old and very much out of repair that we dare not venture her alone therefore design to send her in company with the Success when we dispatch her to Fort S^t. George after her return From Bantall.

3. As it would not become us to expostulate with our superiours so we presume 'twill not be thought Criminal when with respect we endeavour to Acquit Our Selves in order to regain your Hon^r. &c^a. Esteem we have procur'd Plank sufficient for the Sloop but the workmen Affirm'd it Requir'd sometime for seasoning to make it fit for use which is now almost ready and we shall work it up with all Expedition.

4. The 19th. Paragraph of our former by the King William is understood as if there was some intended Aspersion design'd particularly upon the Hon^{ble}. Presid^t. the Author of Letter solemnly professes t'was far from his thoughts and Others of this board desires your Hon^r. &c^a. to believe they make better Judgment of things then to reflect in such Cases upon their Superiours.

5. Since Sultan Guillamots abdication of his former Government there has been various Affairs transacted particulars of which will be remitted from hence, We having but little time at present to enlarge upon this or any other Topick since we have not one hours disposall of the vessel that is to convey this to your Hon^r. &c^a. not that we in the least repine at it well knowing this will meet with a kind reception, as it comes remitted with the fulness of truth and matter of fact what occurs then at present is a suddain Attempt Sultan Guillimot has made upon the Hon^{ble}. Companys Bounds at Bantall he lets us know it is an hereditary Right to the Sovereignty of those parts induces him to use force of Arms to suppress his rebellious subjects as he Calls them he demonst^rated a piece of Clemency in the first Act of Hostility he committed by warning the Buggeeses to fly for their Lives which they accordingly did, some time after this a stragling party of ours that were sent out fell in with a body of the Enemy and suffer'd very much, Ca[sualty Gun]ners Mate was kill'd upon the spott and a Guardan by their ill conduct and imprudent management of themselves in the action we have had better Success Since by a party of ours repulsing the Enemy and taking a Frontier call'd Dusan Tingee.

6. We have sent the Ship Success thither with a Supply of Men money and Ammunition which we hope will put a stop to Sultan Guilliamots designs protect the Pepper Plantations and restore peace and tranquility in those parts.

7. We duly and Carefully establish Surveyors of all the Pepper Plantations, Dupatty Benteering is lately arriv'd from a progress he has made a great way round the Country and we shall duly transmit the particular Account we shall receive from him on this affair.

8. The Sugar Plantation flourishes we have now on hand near three hundred peccul of Sugar ready made and the Mill constantly at work there would have been the Same proportion of Arrack if the want of Stills had not prevented it, however, they make some quantitys of that also with the Small Stills they have at present and it proves excellent.

9. The Timber Buildings contracted in the Hon^{ble}. Presid^t. time are compleated as also very near another range in the Fort consisting of Lodgings for the Officers and others and Commodious barracks for the Soldiers the exterior side of those Buildings are boarded with strong laths and plastered with a strong cement of Chinam Jaggary &c^a. this Secures them from accidents of fire on that side and affords a very strong paggar that may endure some years without the least repair the late rainy Season has gave a good proof of this kind of work the Interior side has Piazas the whole length which shades the People from the Sun and defends them from any inclemency of weather in the middle of the whole there is a substansial strong and beautyfull Gate [made of] Brick, and coated with a strong Plaster we have now lai'd the foundation of the Gunroom and Armory which makes the fourth and last range and this compleats all the Buildings in the Fort there is no other sort of wood or Timber now us'd in any Building but sassafrass we find by experience it is upon all accounts the only Sort fit for Service, we have been hard at work upon the Bastion and continue so and will finish it with all expedition here has been Nothing done of that Kind till lately since the departure of the Hon^{ble}. Presid^t. from this place but as We can now procure great Quantitys of Bricks and Chinnam that work We beleive will not stand still a second time.

10. We are sorry your Hon^r. &c^a. do not approve of the measures taken in reference to the Gaming licence we have since arrivall of the Brigantine sent for the Pangarans the Dattues and Dupattys and in discours with them have us'd the most cogent arguments to bring them to a voluntary grant for such an assesment upon their Gaming by way of Licence but they strenuously oppose any such thing therefore we humbly conceive it is a method impracticable without disobliging those we are most Obligd to for their pepper.

11. Our Hon^{ble}. Masters have bountifully supply'd us with men mony Madera wine and other comfortable things and we are sure shall give a satisfactory Account to them and your Hon^r. &c^a. of all disbursments made of their treasure and the Frugality we will use in expending those other Conveniencys of life our present Paymasters books is an instance of the first and our Stewards monthly acc^{ts}. an Example of the latter we desire no other character then ingratiss if we abuse such indulgent favours and kind expressions for our health and welfare as our Hon^{ble}. Masters are pleas'd to bestow on us.

12. Advices of the State of this place was sent by the Elizabeth Cap^t. Norgate in May last which find is not come to hand, the next day after her departure arrivd here Ship Hester from Borneo with only ten tons of Pepper on board as she is the Greatest charge on hand design to dis[patch her] home in January we will exert ourselves in making what provision [we] can towards dispatching the Benjamin as soon as possible.

13. Since Your Hon^r. &c^a. are not pleas'd to grant us a further Supply of Stationary ware we will make what we have by us last as long as possible.

14. We send by this conveyance Coppy of our Generall Letter sent to our Hon^{ble}. Masters & ship Rochester where is containd the late Transactions here and the Circumstances we were then in we request your Hon^r. &c^a. Perusal of it our time being so short now Obliges us to close this letter in hast we presume twill be equally Surprizing to your Hon^r. &c^a. as to our Hon^{ble}. Masters to find two such bold aggressors as Mess^{rs}. Shylling and Garret the former imputes his miscarriage to M^r. Garrets first Introducing such Bad Practices and the latter says the former had cognizance of whatever was done of this kind we have not had time to make any inspection into M^r. Garrats Accounts as paymaster at Moco Moco and Bentall there has been expended there in these twelve months past upwards of Forty thousand Dollars as appears by Cash Sent thither Bills of Exchange and Wares sent them the first Oppertunity we intend to make a scrutiny into this affair we have two much reason to apprehend the contagion has reach'd those parts We plainly see how useless Moco Moco is and will be as a frontier an Enemy need only be at the trouble to march a few miles up in the Country and they pass with ease either in or out any part of the Companys Limits in those parts as Sultan Guiliamott has now, we cannot in our Oppinions Conceive any one advantageous Article it can afford to our Hon^{ble}. masters We could say more on this head as that the place is destitute of Fresh water &c^a. but submit it to the better Judgments of our Superiors.

15. We send herewith Extracts of Mess^{rs}. Shyllinge and Garrets Accounts exactly taken from their paymaster books with the survey taken by the Deputy Gov^r. &c^a. Council of what done in their time for our particular proceedings herein we desire your Hon^r. &c^a. will please to refer to the Consultations at that time their respective Accounts Curr^t. comes also wherein [is credited] for what-ever repairs or work there was the least Probability was done in their times.

16. Part of M^r. Shyllings Effects are kept in the Hon^{ble}. Companys warehouse a list of which comes inclosed we shall wait your Hon^r. &c^a. orders for the method you please to think most proper for the disposall of them we cannot yet be Certain what effects of M^r. Garrats will fall into the Hon^{ble}. Companys hands neither have we yet made an end with his business as the Detecting such Proceedings proves highly advantageous to Our Hon^{ble}. Masters and they being made Examples will deterr others from attempting the like and as we question not but to receive your hon^r. &c^a. Approbation for thus performing so necessary a part of our duty so a

kind Acceptance of our Endeavours and labour this way will always be a sufficient encouragement and reward for us to persevere in our honest Endeavours as the Generall Letter to England by the Rochester is pretty ample on this Affair and our Consultations very particular we request your Hon^r. &c^a. will please to have Recourse thereto which we presume will Supply the brevity of this Letter.

17. There has lately been a treacherous design carryd on not only against the Hon^{ble}. Companys Settlement here but for the extirpating the whole constitution of the Malay Government in these parts but happily discovered before they had fully concerted their formidable Designs for this purpose.

18. About two Months past there came into these parts a leading man amongst the Oran Gunno's under the character of a Padre namd Panamear with a Retinue of about forty men of his Country at his Arrivall here he waited on the Deputy Gov^r. with a tender of his respects and requested the protection of the Hon^{ble}. Companys for himself and his people, the short time that he should abide here which would be no longer then he could negotiate his business in order to settle an amicable correspondence with the Government here and to [settle] for such goods as his Country produced such as Pepper Wax Elephants [teeth &c^a.] his Proposall was [ac]cepted with a generall Approbation and the reather because his reputed Sanctity had attracted the Eyes and hearts of the People to him who he receivd with extraordinary Courtesy this and the readiness he show'd in making a price for his Pepper, with his promises of pretty good Quantitys from the provinces under his Jurisdiction, We thought was a sufficient inducement to dismiss such a Man with civility and some few Presents.

19. He accordingly departed for his own Country and return'd hither in the limited time pursuant to his [words] with some numbers of People, Every one bringing some Pepper in baskets, besides wax &c^a. he was Receivd by the Deputy Gov^r. with friendship and Civility we esteem'd him a man of his word and as such a one show'd him the due respect.

20. The Quantity of Pepper brought was about Six baharrs, and forty more expected, twas about this Time the Pangarans had taken some notice at his bringing so many people with him, which we being advisd of sent for the stranger who let us know these people were no more than necessary to bring his Marchandize Except some few that came to perform their ceremonies due to a Person of his profession, that as soon as he had receiv'd Salt in exchang for his pepper, he was ready to depart, that very day there was a great resort of people to him from all parts, among the rest was Rajah Cutcheel alias Dupatty Tangallo, and some disaffected persons from the Northward, this gave some suspicion that his exterior deportment was no way conformable to his private intentions, to be ascertaind of the truth we resolv'd to keep a strict Eye upon him and Scrutinize into his actions and that we might be more particularly informd Cap^t. John Irving was sent upon this Errand as a Person most qualify'd to penetrate into his real designs the information he gave us [on] his return gave some light into this affair the Stranger Confessed he had receivd a letter from Sultan Guiliamot, and that he would (if the Deputy Gov^r. pleas'd) go to the Northward and Accomodate matters there by his Presence, without any expence to the Hon^{ble}. Company, We belev'd this to be only a specious pretence to joyn Guiliamott and his forces, to the Northward, we the same day receivd Certain information that he was debauching our Malay inhabitants to his interest, and not knowing but such indirect methods might cause a generall defection amongst them, we immediately sent for the Pangarans Dattues, and Dupattys, in order to a generall beechar when they were conven'd together, we desir'd their oppinion of the present posture of affairs they unanimously Agreed that their Sentiments were that they believ'd the Stranger had no intention to trade or traffick or to enter into any friendship with the Hon^{ble}. Company, but made use of that artifice to cover their treacherous designs, that they were well advisd of this and also that Sultan Guiliamott and the Stranger, acted in Concert with one another, the first was to destroy Bentall Factory, the latter the Settlement here, we were yet unwilling to come to an open rupture with the Stranger he promising to wait on the Deputy Gov^r. and give fresh assurances that his intentions were honest.

21. About this time we found he had so cunningly manag'd the severall humours of our Malays, that after having securd some Numbers of them to himself in private, he at last gather'd some of distinction and those best belov'd by the People we then resolv'd and thought it high time to regard him no longer as a friend, but on the Contrary a treacherous Villain and that we might the better be upon the offensive and defensive part, we sent orders to the Commanders of the respective Europe Ships immediately to assist Us with their proportion of Men according to the tenor of their severall charterparty's, which they rea[dily] Conform'd to, the Covenanted Servants the Tradesmen &c. were orderd to be under arms in the Fort the Hon^{ble}. Companys Buggeese, were dispos'd of in Propper Quarters and all our men Slaves arm'd with Swords and Lances were upon the Scout when necessary so that by this means the Soldiers, and the Seamen, could be better Spar'd to make up our little Army to march out when we found the Enemy approaching the Fort was supply'd with Ammunition of every kind and our great Guns mounted in the most convenient places, this we thought the most advisable method at this Juncture and this Morning sent Cap^t. Irving to acquaint the Stranger that we expected his finall answer whether he would disperse his People or no immediately, and Come to treat with the Deputy Gov^r. alone, or with two, or three of his people, he at last positively deny'd both and before Cap^t. Irving had recover'd the China gate he had attacked our Malays, he and Cap^t. Gwilliam who was there also with M^r. Adaire, were oblig'd to ride for their lives by the Seaside, we in the Fort had selected a body of forty Soldiers and about the same number of Seamen, were in a readiness to march out each party commanded by their respective Cap^t^s. in to distinct Column's with orders to assist the Malays, and do what execution they could upon the Enemy, by the time both Party's had got over the Downs towards Bencoolen they discover'd a body of the Enemy they were obligd to redouble their speed to intercept them, which had the desir'd success, our Men met and attack'd them with abundance of bravery and gaind an entire Victory our Slaves ought not to be forgotten they answerd our design in placing them as Scouts and did very good Execution, there were twenty heads brought in from the place, they engag'd upon, we must in doing justice to the Enemy's courage say there was not a man in the Action but what faced our people nor one that Offord to save himself by flight or submit to be t[aken] Prisoner and when they had disputed the matter with Lances they handled their Swords and came within Pistoll Shott of our Men which put an end to their bravery at the loss of their lives.

22. Cap^{ts}. Gordon and Irving who behav'd themselves gallantly in the whole Engagement (as did also Cap^{ts}. Bradley, Middleton, Gwillim, and M^r. Adaire) were Resolv'd to prosecute the Victory, and so speedily march'd to Bencoolen, where the business was done to their hand, for our Buggeeses, and the Malay's had made a terrible Slaughter among the Enemy, the Streets were coverd with the Slain, and the blood running up and down, those that attempted to save themselves by swimming over the River met their fate before they could reach the other side, we are not certain what numbers of the Enemy are slain here, which must be very considerable there is five Prisoners, brought in and our Buggeeses, are in pursuit of the runaways there is Severall of our Malays kill'd and wounded and one Buggeese Corporall is dead of his wounds, the rest are in a fair way of recovery thus have we by the Blessing of God obtaind a glorious Victory, frustrated the treacherous designs of our Enemy's, and reduced everything at present to peace and tranquillity, we cannot but observe from the transactions of this Affair how ready and bold the Malays are to assert their liberty and property when they find an absolute necessity for it and we cannot enough commend the fidelity and Courage of our Buggeeses who sufferd most in the whole engagement.

23. Doctor Pechier's Salary for one Month which comes to Dollars Sixteen two Sucas sixty seven Cash we find he has not receivd nor his servants wages which is Dollars three two Sucas, thirty three Cash amounting in all to Dollars twenty, one suca tho M^r. Garret in his Paymasters Account for July has charg'd his Servants wages and says it has been payd him but doctor Pechier is the best Judge of the truth thereof this among a great many other things we have allowd of in his

Accounts and will Serve we believe as a specimen of his greater abuses done to our Hon^{ble}. Masters.

24. The Hon^{ble}. Presid^t. Letter to Sultan Cutcheel has been forwarded to him by the first Conveyance to Bental.

25. The Consultations &c^a. necessary books of Acc^ts: being so lately sent to our Hon^{ble}. Masters by the Rochester the former cant be so conveniently copy'd over on the short warning we have of the Brigantines depart[ure] but they are Coppy'd to the ultimate transactions with M^r. Shyllinge and the most necessary books relating to the same as the Paymasters Accounts and the Stewards are brought up to the ultimo of last month and comes by this Brigantine for your Hon^r. &c^a. Ψ rusall.

26. On the suspension of M^r. Shyllinge from the Hon^{ble}. Companys Service for his fraudulent dealings the[re] became of course a vacancy in Council which was unanimously fill'd up by consent of the whole Council in choosing M^r. James Morris as a member of this board which we hope your hon^r. &c^a. will please to Confir[m] and Approve of.

27. The Account Currant of Mess^{rs}. Shyllinge and Garret with the extract and the survey of what done in their time comes herewith for your Hon^r. &c^a. perusal.

28. The Rochester sail'd hence the 26th. October last the Hester we hope as she is the greatest charge and biggest ship to dispatch some time in next month the Success is a guard Ship at Bantall during these late troubles and so are the Ships here in the road, but when they are somewhat abated we inten'd to dispatch the Success, and President for Fort S^t. George the latter being so weak and Crazy as not fit for adventure her singly without the company of some other ship for fear of the loss of Ship and Mens lives, after which we shall have only the Benjamin on hand who if the troubles in the Country don't Oblige us to keep her here we may perhaps send her to Batavia for Stores we are at present in great want of, we are in pain for fear of having the Thistleworth also on our hands which must be expected provided she meets with no better success then the Hester last year at Borneo.

29. The Severall Papers from your Accomptant relating to this place, has been delivered to our Accomptant in order to regulate our Accounts thereby.

30. The Hon^{ble}. Companys Pepper Plantation is duely taken care of at the charge of twenty six dollars Ψ mensem, as yet it does not produce any Pepper but hope twill not be long ere it does.

31. Sultan Querone, and Dattu Sinda Maccoota at Catown, advising that Sultan Guiliamot was near that place with a considerable force we thought it advisable to secure that place and the pepper plantations adjacent thereto, by sending ten European souldiers forty Buggeeses, and a party of Slaves under the Command of M^r. Stephen Newcome who readily Accepted the Charge as one that could be best spar'd in his Employ, we sent M^r. Henry Bayley with him as a Linguist and to assist him on other occasions they have had some little Skirmishes with Guiliamotts party, at last M^r. Newcome advises that Guiliamott has sent to him to desire a Cessation of Arms and to have an Interview between them we believing this will be a means of hindring Guiliamotts joyning with the Oran Gunno's as well as securing the Pepper Plantations from being distroy'd, have agreed to the aforesaid proposall and in the sequel dont at all doubt but to give your Hon^r. &c^a. satisfactory Account of this Neg[otiation].

Cap^t: Ford dy'd in April last he made a Will and left what he had to his wife after his Debts were pay'd his Trustees Mess^{rs}. Ellill and Walsh having renounced their Executorship and Legacys, the Hon^{ble}: Comp^a. took care of his Effects and sold them at publick Outcry to the amount of Rials one thousand one hundred thirteen one sucas which remains in the Secretary's hands till farther orders.

32. M^r. Kington desires Your Hon^r. &c^a. excuse for not sending his Storekeepers Accounts being so lately sent Ψ the Rochester and not having time enough to do it by this Brigantine but promises to remit them all by the Success.

33. The Deputy Gov^r. in Particular and all of us in General craves the liberty to assure your Hon^r. &c^a. that we are now diligent in discovering Several frauds and abuses done to our Hon^{ble}. Masters at Bentall and Moco Moco, we are busy in fortifying this place with trenches, turf, Walls &c^a. from the incursions of any Enemy with little Charge, the Pallisado Paggar being rotten and not fit to trust to, the considerable progress already made in five Days and the time we shall in all likelihood finish so defensive and necessary a work, Cap^t. Middleton will further Acquaint your Hon^r. &c^a. he being an eye witness to our industry in this affair, we are Cultivating a good understanding with severall people about the increase of pepper, the civil, Military and Tradesmen are kept in due decorum, and the affairs of the west coast in general are so well settled and the pleasing Prospect we have of their Continuing so as renders it we believe almost impossible by any ill management here to alter the Course thereof.

We have not further to add then to wish your Hon^r. &c^a. prosperity in our Hon^{ble}. Masters affairs and are

No. 6

TO THE HON^{BLE}. JOSEPH COLLET ESQ^R.

PRESID^T. AND GOV^R. OF FORT ST. GEORGE.

HON^{BLE}. SR.

Since our last to your Hon^r. of the 9th. Instant we have been favour'd with yours dated the 4th. and arriv'd our hands the 13th., in the first place we have according to your hon^r. order explain'd fully Auga Peras letter to him and persuent to order have deliverd him the letter from Sied Abdulah Cawne.

On Saturday last the Phousdar sett out on his Journey for Cawneull with a hundred horse which came from the Nabob to go along with him his speedy departure from hence was occasion'd by Rajah Subbanahs not Complying with the Nabobs demand and he's by report run [away].

Just upon the Phousdars setting out Auga Pera went and carry'd Seid Abdulah Cawns letter he looked upon the Chop and said it was firme after which he return'd it to Auga Pera again saying when he had occasion for it he would send, the meaning of which we are apprehensive is contrary to what he has hitherto pretended we should have thought as his going to the Nabob it would have been the best Oppertunity he could have embraced in carrying the letter and more especially as he's orderd to accomodate Subbanahs business and after such Services are compleated we think should be an Instrument of his more insinuateing into the Nabobs favour his refusing and expressing that it was not a fitt Oppertunity is what makes us beleive that he has ever since he was lead into the affair of Dieu Island been equivocating if so we are sorry that he should feed us up with good hopes and at last nonperformance the blame

of which lays wholly upon Auga Pera for he was the person that always inform'd us what Coja Gee used to speake and whither he has made any enlargements we can't as yet be certain.

What made us not advise sooner of Coje Gee not carrying the letter was because we was in some hopes that after he arrived the Nabob he would send for it but as we finding to the Contrary we took it into consideration and thought it highly necessary to acquaint your Hon^r. of the same as we not knowing wither [*sic*] it might be an Obstacle of detaining his Worship Hordens setting out and we hope before now the Gusbardar is arriv'd to your Hon^r.

We have advised Auga Pera to send the letter to the Phousdar which he refuses and we are affraid he has devulg'd every individiall thing to him we are advised that Coja Gee has given orders to his people that in case Auga Pera should offer to goe away to stop him [] Interest is at [] but [little] we desired him severall times to press hard for the Phousdars accomplishing our affairs upon which he us'd to speak in a very indifferent manner and say he was no Nabob and could do no more then in his power (if that fulfill'd is as much as could be expected) but we are affraid its not practiced.

A little time before the Phousdars departure Auga Pera severall times press'd hard for our makeing him a present of one thousand Rupees which we refused and told him we was not impowerd to do any such thing and his desiring us was in vain and to no purpose for we would not in any measure act against your Hon^{rs}. orders.

Its our Oppinions that after the Phousdar had seen Seib Abdulah Cawns Chop and the letter directed to Mauberize Cawne that he was apprehensive of its being of such a power as might immediately be comply'd with which might be a means of his loosing what he through covetuousness expects by which at his return he may promise great things and tell us our business shall be speedily Accomplish'd and at the same time his inclination and endeavours may be quite the reverse.

Rajah Opperow has accommodated matters with the Nabob for the sume of Rupees two hundred and ten thousand the half to be paid downe the remainder in two months we begg leave to subscribe with all due respect.

Our last to your Hon^r. was the 17th. instant which advis'd of all Occurrences to that time since which we have good advices that the Phousdar is arriv'd at Cawne-cull and the Nabobs Son, they have lay'd cloose [*sic*] seige against Rajah Subbanah notwithstanding he stands out stiffly and refuses to comply with the Nabobs demand which has occasiond his sending great Gunns against him.

The full Rent that is due from Subbanah as by information is Twenty seven thousand Pagodas he's willing to comply in paying the half and say's that's the utmost sume which has inraged the Nabob passion.

We have intelligence that the Nabob is remov'd from cundum to a place calld Perkere and designs in few days to Cawne-cull in case things do not quickly answer his expectation he has for this two days pass'd sent people here for a quantity of shott Gunpowder and lead which gives us reason to beleive theres some thing more then ordinary in adgitation and as yet kept undiscover'd we heartily wish he may not spare any of his Ammunition to Rajah Opperow.

We have little hopes of the Phousdars sending for Seib Abdulahs Cawns letter to the Nabob and except ting] he should Auga Pera will keep it we have advised him again to send which he refuses so that according [to] what we can Apprehend theres nothing [interesting] till such time his worship Horden comes downe we beg leave to subscribe with all due Respects.

FOR AFFAIRS OF THE R^T. HON^{BLE}. UNITED

COMPANY OF MERCHANTS OF ENGLAND

TRADING TO THE EAST INDIES.

HONOURABLE

1. The last we did ourselves the Hon^r. to write you was by Ship Dartmouth dated the 8 . of last January whose Duplicate was sent from Fort St. George by the Prince Frederick.

2. This comes by your ship Hannover that arrived here the 10th. and is loaden with 1170 Bales amounting to Pagodas sixty nine thous [*sic*] nine hundred forty eight twenty fanams thirty Cash as $\text{\textcircled{P}}$ Invoice which with bill of Loading is Inclosed.

3. We please our selves that all the sorts of Goods will meet your Approbation with a profitable sale especially the Blew Cloth which the Deputy Governour took under his Particular care and we can affirm the Dyers work to better done than any that has formerly been sent you The 25 Bales Midling Blew in quarter peices were order'd for a tryall when Governour Collet was here.

4. Our Merchants have not only comply'd with their Contract for one thousand eight hundred Bales made the 28th. of February but brought in over and above four hundred Bales more which we perswaded them to provide in November in order to be [sure of a full] Loading for your ship the Duke of [Cambridge] the Disputes with Diaram put a sto[p . . .] their Goods to Madiass the Govern^r. [. . .] pleas'd with our Success on that [. . .] on and we are now Dispatching [. . .] tines and Sloops [. . .]

5. The Dearness of Cotton hindred our procureing an abatement of prizes in the last Investment and we can't promise any better success in the next seeing no likelihood of its growing cheaper and the French at Pondicherry having lately Contracted for one hundred and thirty thirty (*sic*) thousand Pagodas on less advantageous terms however when the Governour and Councill send their orders from ffort S^t. George we shall use our utmost Endeavours and think ourselves happy if we can do any thing for your interest.

6. The works on your Buildings and Repairs of your Fortifications &c^a. that were order'd when Gov^r. Collet was here have been carried on wonderfully by reason of the Dry Season as by an Account Inclosd to compare with the Draughts which we presume were sent you from Fort S^t. George.

7. We send you a List of debts in our Generall Books Letter P that ended the 30th. of last Aprill that of Eram Rauze for nine hundred five four fanames is lessen'd to six hundred forty nine twenty fañames by an order from the Gov^r. and Councill to Credit his Account Pagodas two hundred twenty fanams M^r. Thomas Woodward Paymaster not paying his Ballance of Pagodas 190—19—4 in due time was dismiss'd your service by order in a Generall letter dated the 28th. of June since which by selling his Household Goods and stopping his Sallary the Debt is reduced to Pagodas fifty four twenty nine fañames four Cash Peram Rauzes house was sold for Pagodas twenty two in part of Payment of his Debt for Pagodas one hundred thirty seven twenty six Fan^a. five Cash.

8. By the list of Revenues your Hon^r. will Observe that the Bound Rent continues to let for Pagodas three thousand three hundred thirty three twelve fañames [as] the last Renters were such great losers that we could [not] bring these to pay that Sum without allowing the [. . .] of five [. . .] and continuing also the Betle and [. . .] same time which before was granted only for three years and notwithstanding this Encouragement they make every Mallencholly Bargain since great part of the seeds on the ground are perish'd for want of Rain and Rice is scarce [almost] to a Famine which begins already in the Country and nothing but a supply of what is sent from Bengall to Fort S^t. George can keep it out of our Bounds.

9. The King of Atchene notwithstanding his peoples' Invitation to Trade again to that Port has treated us [worse] than formerly so that we are Disappointed in the hopes we had of Increasing your Sea Customes that way.

10. The Peace and Quietness in the Country Governments have very much favoured our bringing in such a great Quantity of Cloth.

11. M^r. John Smith fifth in Councill and Late Paymaster Dyed the 9th. of last month of a violent Feaver after no more than four days sickness he left only a Verball Will giving his Estate in halves to his Sister and the Poor and Appointing the Deputy Govern^r. his Executor his Accounts are not yet made up so that we can only

guess at his Circumstances and reckon what he leaves after his Debts are paid to be very inconsiderable. The rest of your Servants both Civill and Millitary are in good order and we shall take care to keep them so.

12. Inclos'd are Muster Roll of your Soldiers with the Monthly Charges of each Company [likewise that] of the gunroom Crew all signed by the [Paymaster].

13. We send also a list of your [Covenanted servants] with burials from the last of [December 1716 to the] last of December 1717 and with our hearty Prayers for your Healths and Prosperity most Respectfully subscribe.

The 28th. ultimo between Six and Seven in the evening the Hon^{ble}. Robert Hedges Esq^r. our late President and Gov^r. departed this Life when we immediately forwarded advices to the Worshipfull Samuel Feake Esq^r. then at Cassimbarar who we daily expect to take his place at our board but it growing late in the Season and considering this ship must be unloaded at your port we have resolv'd to dispatch her without delay she has on board six hundred Bales and Chests and what Kintlage we could possibly spare her amounting to Rupees three hundred eleven thousand and four hundred and fifty six, thirteen [an]nas six Pice besides which on your last advices of [the] Apprehension you were under of the great scarcity [grain] we have laden on board four hundred and [. . .] Bazar of Rice and shall give all in [. . .] by Public notice to all Ships and Vessells bound to your Coast [to] carry what Grain they can take in this ship is fill'd up with Stores for your Presidency according to your List sent us.

September you write you shall have almost enough to Kintlage on ship Cap^t. Small has on board one thousand and fifty four Baggs of Petre a small matter more than his Charterparty Proportion he has made his request for nine hundred and sixty five more to make his ship sail worthy but we not being able to assist him have promis'd to request your Hon^r. would supply him [send]as soon as the ships are sailed we shall send the Mary Buoys and the George Brigantine (as soon as she arrives us) with Petre to store you again.

HON^{BLE}. S^r. & C^a.

1. We was favoured with your Hon^r. & C^a. letter dated the 21 ult^o. which arriv'd our hands the 28 ditto accompanying a letter to the Hon^{ble}. President and Council of Bengall with three bills of exchange we are glad [to hear] that our receiving the four thousand r[upees from Coja Gee] is approved of and we immediately [. . .] here of advis'd him of the same [. . .] that Rupees to be paid in at [. . .] be no disappointment to his [. . .]

2. [. . .] what your Hon^r. &c^a. [. . .] coin and [. . .] highest in value we advis'd [Coja Gee] of the same and he says theres no difference between the rupees we had Receiv'd upon which for our better information yesterday we sent for Auga Pera and the Companys shroff to know whither there was any difference between them and the new Metchlepatam Rupees we receiv'd and as they have Inform'd us there is none, on which we have deliver'd Auga Pera the three bills of Exchange with remembrance of your Hon^r. &c^a. postscript in taking up our Receipt given to Coja Gee for the four thousand Rupees.

3. When there's any Vessell comes from Bengall or else where under English Colours we shall be sure to Comply with your Hon^r. &c^a. orders in taken on Account of the R^t. Hon^{ble}. Company ten or twelve Garce of Rice but excepting the Vessells should come under the same we Are affraid we shall not be able to procure near the quantity because if vessells arrive here under other Colurs [*sic*] the Moors obliges all to bring the Rice into the Banksaul and there disposed of by small quantitys to those that comes so that we are apprehensive when we ask for any they would deny us.

4. The 28th. Ultimo at night we receiv'd a very pressing letter from Coja Gee by order of the Nabob for our spareing him some of our people that understood Gunnery we was unwilling and did endeavour to excuse ourselves from complying (by saying we have none) neither would we give our Consents to any such article as that as having no orders from your Hon^r. &c^a. upon which Auga Pera and the Cutwall came and desir'd we would Comply with the Phoudsars letter the first acquainting us that this was [. . .] fairest Opportunity we could [. . .] ing a peaceable poseession of [. . .] we should not lay hold [. . .] a very great hindrance [. . .] in hand we [. . .] have sent [. . .] some knowledge in Gunnery they are [trained] men and knows full well the moors ways and Custom.

5. Before we comply'd with Coja Gees Letter we [thorou]ghly consider'd the Contents of your Hon^r. &c^a. letter [dated] October the 29th. in answer to ours of the 5th. and 8th. by which as we understand the Nabob is the Person [looked] upon and that theres no regard given to Opporow's Management therefore our Complying with his request will we hope for the following Reasons, meet with your Hon^r. &c^a. Approbatio if to the Contrary we shall not offer for the future to do the like without direct orders from your hon. &c^a.

6. We have good informations that the Nabob has hear'd that Opporow has assisted his Brother Subbanah and given protection to some of his people notwithstanding he has Accommodated matters with him for the sune of Rupees two hundred and ten thousand on which the Nabob sent some of his people into one of Opporows Towns and they have plunderd all the number of about one hundred women rather then suffer the ill treatment they was apprehensive of receiveing from the Moors they shut there doors and sett there houses on fire and therein they burnt themselves.

7. The Nabob has laid close seige against Rajah Subbanah and within one hundred yards of his Fort there has been severall Gunns fired from each and the latter has shott one of the Nabobs great men by name Diaram which has very much vex'd him theres no likelihood at present of Rajah Subba[nah] surren]dering.

We have taken into due consideration every [materiall] thing that Immediate relates to our affairs [. . .] in hand is great and is what [. . .] Coja Gees letter in assisting the Nabob we thinking it would [. . .] attend any ways then forwarding our Hon^{ble}. Masters affairs and a great Instrument of our obtaining a peaceable a[nd] quick possession of Dieu Island.

9. As the Nabob being the head Man of these parts the Rajahs so much his inferiours that in case we had [re]fused complying in sending three Men it might have been of very ill consequence and prolonged our present [af-]fairs in hand more especially as we are inform'd he'll certainly come here after he has Accomodated matters with Rajah Subbanah.

10. The great power that the Nabob has was likewise [all] considered and particularly as he's a fighting for the Kings rent and our assisting him on such Occasion we cannot think or Immagine it will prove detrimentall to our affairs but

submit to your Hon^r. &c^a. better Judgement, what we have done in helping the Nabob the news will soon reach the King and the late gracious grants he has been pleased to give our R^t. Hon^{ble}. Masters was taken into Consideration.

11. We have strictly inquired what Commodities Rajah Subbanah's Country produces and as to the Article of Cloth there's none so that we are in great expectation our Management will not in any measure incur your Hon^r. &c^{as}. displeasure.

12. Coja Gee wrote to the Dutch Cheif and desired him to assist the Nabob which he refused and as we comply'd must undoubtedly be a great Instrument towards the English gaining his entire friendship the Dutch second as we are inform'd press'd hard of the Chief to send some of their men and intimated how much it would prove to their disadvantage if not comply'd with [. . .] immediate assistance but they have [. . .] Conclusion.

13. Yesterday the Nabob [. . .] place that below [. . .] to let goe but [. . .] then the [. . .]

14. Rajah Ramrauze has sent to the Nabob severall Peons [and] he has offer'd him twenty eight thousand Pag^a. for Subbanahs Country but whither the Nabob will agree to that we cannot as yet be certaine.

15. Sunner le Cawne by report is a Comeing from Golcondah to assist the Nabob with two thousand horse.

16. As soon as ever our men was arriv'd into [the] Nabobs camp Coja Gee carried them to him upon which he ask'd who sent them he answer'd the English and at [this] Juncture time inquired of Coja Gee expressing three [times] whither the Dutch would not assist him he answer'd no [at] which the Nabob was very much vex'd but he was mighty well pleas'd with our assisting him and express'd in his Camp that the English was his Brother.

17. Richard Pindar has made severall Extraordinary good shotts and to the very place where the Nabob order'd him to shcote at on which he was mighty well looked upon and in great favour with the Nabob he allows our three men one Rupee and a half & day besides victualls from his owne tent we begg leave to subscribe with all due Respects.

HON^{BLE}. S^R. &C^A.

Your favours Dated the 24th. of October last came to hand by Pattamars the 17th. Ult^o. and of the 1th. of October 1718 George the 19th.

We observe the Dispute you have had with the Country people on their endeavouring to dispossess you of the Villages you had some time quietly enjoyed, and congratulate you on the Success of your Arms, we were in hopes we shall not meet with many obstacles [. . .] Phirmaund for our Side put in [. . .] dar with the Presidents Sur[. . .] who seems inclinable to [. . .] which gives us some prospect of concluding all affairs there, with [. . .] Effect the gre[at . . .] of a H[. . .].

It will be much to our Satisfaction to hear you have gained an intire an[d] quiet Possession of the Island of Dieu as that place may be of good Advantage to our Right Hon^{ble}. Masters.

Since our last to your Hon^r. &C^A. the Dutch with the King of Cochin have gained severall Advantages [over] the Samorine some time ago they enter'd on a treaty of Peace which is lately concluded how far this may be prejudiciall to our affairs in his Territories we are not at [all] sencible however we hope our Interest with that Prince is so great that he will not come into any Articles that might be to the Detriment of a Nation whom he has found such substantiall friends.

On the 19th. Ultimo Imported the Morrice Cap^t. Eustace Peacock and on the 30th. the Duke of York Cap^t. Abraham Daws from great Brittain, the same day we dispatch the Sarum a full Ship who Sail'd out of this Road the 3^d. Instant.

Our troubles at Carwarr ended in a Peace the 26th. of November and much more to our Advantage than we could well expect our Forces having been unsuccessful in two attempts to releive the Factory and we have reason to beleive that Rajah was heartily tired of the warr so we flatter our selves we need not fear any disturbance from him again the Articles on which the Peace was concluded are that the Ships and Treasure which Occasion'd the Dispute should be deliver'd to us all Prisoners to be set free on both sides and the Horses and ships we took from them given up to bring this about we distributed about two thousand five hundred Rupees amongst his Ministers.

We shall be mindfull of adjusting the Proper Methods with Supracargoes of your ships that touch here for the doing their Business in Surat. We are

HON^{BLE}. SR. &C^A.

1. We was favour'd with your Hon^r. &c^a. Dated the 29th. ultimo which came safe to our hands the 8th. Instant and we particularly observed what mention'd therein which we shall with Obedience follow.

2. Comptant Peras son Donnah acquaints us that he has about acoming with grain from the Northward and that he was willing to have it brought into our Factory and he desired our assistance and as he being willing to pay the Kings Customes we give him it, upon which we thought it a good Oppertunity to comply with your Hon^r. &c^a. orders in takeing on Account the R^t. Hon^{ble}. Company twelve garce of Rice we have wrote to Coja Gee for leave to have it brought into our Factory after clearing the Customes and he has granted the same if this had not happend we could not have procured any quantity of Rice from the Government nay they are so very strickt that they will not sell any to the Natives that have serv'd and lived under the English's protection as they think we have supply'd them.

3. We have frequent advices from the [...] and in the last we are inform'd tha[t . . .] and Calls the Dutch a great many [. . .] English is as we are advised [. . .] ses in his Camp to [a . . .] Rahaumutt En[. . .] him will [. . .] of D [. . .].

4. Its now Generally discours'd in the Nabobs Camp that the Gusbardar is acoming to him with a Phirmaund and that it is thought he'll Accompany us upon Dieu Island or at least by whats reported he will assist us with some of his Horse and foot so that in case his friendship continues firme we have now the fairest prospect of getting a quick possession of Dieu Island for ever.

5. Rajah Chundremoutue has assisted the Nabob with a Thousand Peons and one Rajah Garrarauze with fifty Horses there's likewise one Ancaneed a Pallacar is Joyn'd him with [. . .] hundred horse so that we expect matters will be Accomplished one way or other in a little time.

6. Rajah Ramrauze has Joyn'd the Nabob with his forces and he is order'd to lay with them a small distance from the Camp, in order to take care of the out bounds and to be in a readiness to returne when there may be Occasion.

7. We have intelligence that Seib Abdula Cawne, Subbah of Syringabad has wrote the Nabob a very severe Letter intimateing to him that he expects and requires him to send Rajah Opperows and Subbanahs heads or else he must not expect any mercy from his hands, this is what we are informed occasions the Nabobs summoning the Rajahs and after he has Accomplish'd his Business in hand he goes by report directly against Opperow with an intent to compleate what is requierd of him.

8. Yesterday the Phousdar came to Cuddura upon which Auga Pera went and carried Seib Abdulah Cawns letter to him and Acquainted him that your Hon^r. &c^a. was something displeasd as it was not deliver'd before but he refused carrying it to the Nabob saying as he now was ingaged in Warrs he would only just read it without considering upon the contents [as wi]thall he might mislay it and what contain'd there [might be] forgotten therefore he thought it much more [. . .] to stay till such time matters was all Accomodated.

9. [. . . This] morning acquaints us that Coja [Gee . . . Sieb] Abdulah Cawns letter [. . . Suban]ahs Fort being taken he likewise acquaints us that this is the [best] time his Worship Horden could come in relation to our present affairs.

10. As we are informed Coje Gee is a mighty favourit of the Nabobs and he's his right hand Man, and one that manages now all affairs at Camp, and the Nabob hear's in all Respects to what he proposes so that if his Interest in our Affairs is sincere there's no fear but he will make an Accomplishment, he still continues expressing himself a great friend to the English.

11. Subbanahs Fort that the Nabob has beseig'd is about half a day's Journ'y from this place and the latters Army consists in about three Thousand horse and twelve Thousand foot Subbanahs by report is run away into Rangaputtyrauze Country but the force he has left in his Fort is about fifteen hundred Peons and as yet they have not surrender'd but its thought they will in few days because they daily desert from thence, the provision they have within the Fort will last a seige for two or three years as by Information.

12. The Nabob the 9th. Instant wrote the Dutch here a letter wherein he shews very much his displeasure for their not assisting him saying they should not dwell here in the Kings Dominions if they could not afford to give him help as he's amaking a just

demand of the Kings Rent, what has most sett him against them was our immediate Compliance in assisting him as he required and upon the Nabobs arrivall here it is thought he will give the Dutch a great deal of trouble the same day as their assistance was desired they call'd a Consultation but could not come to a resolution of helping him as thinking they had not power enough especially as never having a precedent before but they have wrote to Negapatam [as] the same as we are advised.

Our Men with the Nabob[. . .] him and Coja Gee so that our [. . .] well in case they have any [. . .] friendship they [. . .] giving the Nabob assistance we beg leave to subscribe with all due Respects.

Our last to your Hon^r. & C^A. was the 12th. Instant since which we have been favour'd with your Hon^r. & C^A. Dated the 4th. which came to our hands the 12th. Instant at Night we gladly embrace this opportunity by Vizagapatam Peons to impart what has offerd since worth informing your Hon^r. & C^A.

We have according to your Hon^r. & C^A. Orders deliver'd Auga Pera his letter that came inclosed in our's, and we have demanded Sieb Abdulah Cawns letter to Mauberiz Cawne the same we have got in our possession which we shall take care to keep till your Hon^r. & C^A. further pleasure.

There's but little likelihood at present of the Nabobs taking Rajah Subbanahs Fort, thô his army is great the Duan of Golcondah is come to assist the Nabob, and has brought with him two hundred horse and three hundred foot.

Rajah Opperow has offerd to pay the Nabob the sume that he demanded of his Brother, Subbanah, but he refuses takeing it, saying, he has put him to a great charge besides looseing his men therefore he expresses and says he is fully resolved to have his head.

Rajah Opperoow now resides In his Fort Newgyere, about eight Gentue Leagues from Dieu Island, and its generally discours'd at camp that the Nabob will go against him after He has compleated the business in hand.

The Nabob still continues to have an intire friendship for our Men with him and their good behaviour and Management has pleased him extraordinary well, so that we cant apprehend theres now any danger but our Business [will stop] and we hope twill be compleated soon after [M. Rich^d.] Horden's arrivall.

'Its a whispering dis [. . .] he will go against Rajah [. . .] we Begg leave to subscribe with all due Respect.

1. Since our last of the 23^d. Ultimo by Sloop Hannover we flatter'd ourselves with hopes of seeing some ships from Bengall to take in our Bales One hundred of which lye ready but the season is now so far advanced that our sole dependance is upon a Conveyance from your Hon^r. & c^a. some time this month.

2. Our Buildings are Carried forward with the utmost Care diligence and Frugallity the House is rose already as high as the first story and we are now laying the beams wherein we are something at a loss by reason of the shortness of the Timbers formerly sent down however not so bad but we make them serve with a little more charge by setting stones and [short] Timbers into the wall for them to rest upon we shall want at least one hundred Timbers more of about Twenty Foot long and eight Inches thick the most part of which will be us'd in covering the Curtain which we fear we shall hardly compass before the Rains set in but for the Dwelling house we hope it will be Coverd by the beginning of May.

3. We herewith send our account of Cash to the last of January, the Diarys Consultations and Paymasters Account to the Ultimo December by which your Hon^r. & c^a. will see our [yearly] Expence and how little cash we have to keep our In[vestment] going forward not doubting a supply from your [Hon^r. & c^a. will c]arry it to the utmost for which at present the Cou[ntry gives] a fair opportunity our Nabob chusing rather [. . . Things] revenues by fair and gentle means then by [. . .] fall into the Error of his Predecessor [. . .] up a great Army than he got in the Country tho he [exceed] more than any that ever went before him.

4. We labour under the same scarcity of Grain as before and what renders our case the more Deplorable it is not but with great difficulty procurable to the Northward and in very small quantitys tho at an Extraordinary great price however we trust in God we shall be able to keep the place from want in such sort that our buildings and the Companys Affairs shall not thereby be put to a stand.

5. The Sallampore contract with M^r. Symonds being long since compleated He desires he may have leave to take up his Bonds.

6. We receiv'd a Visit the 3^d. Instant from Mynheer Dorknuh Chief of the Dutch Factory at Bimlipatam on purpose to communicate to us an affair which appeard to them to be of the last consequence as well to the English Company as the Dutch who by the concern they express and the strict orders given in their Letters

to their servants in all parts seem to be very much allarm'd. The purport of the Dutch Companys Letter dated in January 1717 to their Generall Christopher Van Swold in Batavia is to advise that severall ships of divers nations are fitting out of Ostend with the Emperours pass to trade in the East Indies to prevent the ill consequence of which the English and Dutch East India Company have concerted measures mutually to assist each other in suppressing these ships and hindering them from getting the least Footing in India in order thereto all their servants are strictly prohibited upon pain of death assisting them on any manner whatsoever or holding the least Correspondance with them on the Contrary they are enjoyn'd to use their utmost endeavours by means whither direct or Indirect to procure the ruin and destruction of all such ships as shall interfere to the prejudice of Either of said Companys.

Further they are advisd th[at . . .] have got passes from the King [. . .] them to make warr with the [. . .] is to be made use of as a reser[ve . . .] Dutch Company should h[. . .] them prohibited [Comm . . .] nions then by [. . .] Trade of [. . .] ing in [. . .].

Enclos'd we have sent a list of Stores Wanting with which we desire Your Hon^r. &c^a. will supply us as a conveyance offers which being what at present material we humbly beg leave to subscribe.

TO THE HON^{BLE}. JOSEPH COLLET ESQ^a.

PRESIDENT AND GOV^r. OF FORT S^r. GEORGE.

HON^{BLE}. S^r.

1. Since our last to your Hon^r. and Councill of the 15th. Instant we have been favour'd with your Hon^r.s. ¶ boat Dated the 15th. Ditto which arriv'd our hands the 20th. and first we are glad to find our management hither to has been approu'd which we shall exert ourselves in continuing it and withall avoid as much as possible our ingaging in the country disputes.

2. We have good Informations that the Nabob upon the New Moon call'd a Consultation in order to consultt us with his head Men the Properest ways and means to ma[ke] himself Master of Rajah Subbanas Fort but they Could not then come to a resolution to storme it some of them acquainting the Nabob that the Men in the Fort daily fell sick so that they perswaded his Excellency to desist making any farther attack for a few days by which time if they did not surrender it up to him then he might use his pleasure for a farther progress.

3. The Nabob has taken all Rajah Subbanahs towns [& . . . d] and has rented them out (and the same is ga[. . .] Daily) by which it seems as if Subbanahs would [. . .] his Government again and we beleive as [. . .] is taken hell let out the Country to [. . .] we cannot at present Judge who [. . .] Ramrauze which we think [. . .].

4. If this seige of Subbanas [holds] out six months or longer the Nabob is in point of Honour oblig'd to Continue it till such time he has brought Subbanah under what Articles in agreement he pleases otherwise it would give encouragement to all petty Rajahs to stand in Opposition against him therefore he'll not remove his Camp till such time he takes the Fort or bring him under compliance to pay such Summs of mony is demanded.

5. On the 22^d. Instant there arriv'd at Cuddara one Ancaneede A pallcarr with five hundred Peons and he is gon in order to joyne the Nabob this is Father to that Ancaneede as we advised your Hon^r. of in ours of the 12 Instant.

6. By the Nabobs large demands of the Rajahs in these parts is what makes the Inhabitants so very poor for as soon as ever a Rajah has Clear'd the Nabobs demands he returns to his Government again which when he gos directly about fleesing all Inhabitants under his protection till such time he has got by force more then what paid the Nabob besides they are oblig'd to pay there Annuall rent, by these ill practiced means is what ruin's and spoils these parts and is what will always hinder this Country [florish]ing especially such parts as is under Moors and Gentue Governments.

7. Richard Pinder writes us from Camp that the Nabob is an extraordinary good humour'd person and one that is as easy to be spoke with as a Child but as for Coja Gee he is a very proud man we have Information that the Nabob sends for Richard Pinder and makes him set downe before him which is a great signall of his Friendship.

8. Since our arrivall here the Dutch have had a [large] quantity of Cloth brought in and there yearly invest[ment] amounts to Pagodas twenty two Thousand in course [. . .] goods.

9. We are inform'd that Edward H[arrison] to intimate to Mr. Noden and [. . .] from him whither there was [. . .] investment here his answer [. . .] of it as we suppose that he [. . .] body sent over his ready [. . .] otherwise the appearance [. . .] is Generally [b . . .] Dutch [. . .] with goods when they could not.

We have sent to Coja Gee and desired to know whether he would undertake to deliver Sieb Abdulah Cawns letter to the Nabob which he readily Complied in being willing but in case we would have a little patience till such time the Nabob has Accomplish'd his Business in hand it twould be ten thousand times better for at present he minds nothing but the takeing the Fort so that we have took this into Consideration and detain'd sending the Letter and Coja Gee possitively expresses there's now no fear but our Bussiness will be speedily Brought to a Conclusion soon after Subanah has surrenderd or the Fort taken.

Yesterday we received a letter from Richard Pinder at Camp advising of taulking with one of the Nabobs Cap^{tns}. of Horse who inform'd that Rajah Opporow's Braminy was come to the Nabob and Acquainted him that the King had given the English great part of his Country but he was return'd back without any Answer.

The Intrim the Braminy was speaking with the Nabob there was present the Major part of his Council who took an opportunity after the Braminy was dismissed to ask the Nabob whither the King had given the English Dieu Island upon which he answered yes and told them the King had sent a Gusbardar with a Phirmaund on which there was one of his Council made Answer that the King did not do well in giveing such grants because we should take more when we had got that on which the Nabob reply'd and said could he Immagine the King did not know what he did for we were great Merchants and that it was for the good of this Country, so that these words silenced him.

At present we cannot think any otherwise then soon after his Worship Hordens arrivall our Affairs will [be] speedily compleated for the Nabob still continues haveing a zealous affection for us expressing in his Camp the [English are] extraordinary good People and Coja Gee[. . .] to very much inclinable to serve us therefore [. . .] think that its a very good Oppertunity to [. . . we] submit ourselves to your Hon^r. better [judgment].

[. . .] are now incamp'd so near [the Fort that th]ey can fling a st[one] into it by which its thought a little time to be surrendered.

Fra Antony the Portuguese Padre here sent four Christian fellows in order to assist the Nabob but he not thinking them deserving of batty return'd them back.

Some days ago Rajah Opporow sent ten Peons in order to go and assist in Subbanas Fort but the Nabob having intelligence of the same he catch'd the Half and has kept them in Prison but the rest made there escape.

As th information the Nabobs Ammunition is so very short that he's oblig'd to fire Logs of wood instead of balls.

Our men at Camp still continue to deserve an Extraordinary good word and Intimately in favour with y^e. Nabob and Coja Gee the first gives Richard Pinder every now and then five and six Rupees at a time and more especially when he makes a good shott and we can't but say he has hitherto had good success which we hope will Continue we beg leave to subscribe with the greatest Respect

There are several reasons that have hinderd our giving an answer sooner to the letter which you did us the Honour to write us of the 13th. November last No. one of the [Chief] was that we could not find any body here able to translate into our Language the Instrument of Procuration received from M^{rs}. Pacheco relating to the demands which she makes on the Estate of Isaac Abedendana Deceased Because of certain Cha[ac]ters and other numerous abreviations unknown to all [of] us here and which are intermixt throughout the said Instrument and renders the Version of it impossible Another reason of our delay was from our being ignorant of the proofs and the Justice upon which the aforesaid M^{rs}. Pacheco grounds her pretentions and when to be fully informed of all these circumstances we addressd ourselves before hand in a P^{ar}ticular letter to M^r. Thomas Frederick he could not give us any other Insight into it than that the abovesaid widow of Pacheco had obtained a power to dispose of all the effects of the deceas'd Abendana as appears evident by the Instrument before-mention'd Notwithstanding he left a Wife and Child behind him and a Will in due form by which he appointed his Widow Rachael Abedenda Executrix and Guardian of all his effects All these considerations lead us ingenuously to express our thoughts to you on this subject in the letter which we have the Hon^r. to write Mess^{rs}. Frederick and Horden Constituted by the Widow Esther Pacheco her Attornys on this occasion and not being willing to trouble you with a tedious recitall we shall not enlarge any further about it referring you wholly to the letter before mention[d you will] find inclosed the Original power which we could [not get tr]anslated.

[There] is nothing more reasonable than what you [wrote] us of the manner how we ought all to proceed [. . .] base and deceitful people who to escape [. . .] of their Creditors exert their cunning and [. . .] secure to themselves their ill [. . .] ge under the protection of strangers but we don[t appr]ehend that is the case of John Andrew Heis who before he came hither married the widow Abendana after she had lived at Madrass upwards of three years a Widow during which time she gave full satisfaction to all y^e. world as will more evedently appear by the letters w^{ch}. Mess^{rs}. Edward Harrison & John Sigismund Hassuis wrote each other on this subject about six years ago and more P^{ar}ticularly by a letter wrote from this place y^e. 5th. March 1712 & by y^e. demonstrations and protests sent at the same time by Heis we doubt not but the Originals are remaining with you or at least the Copys and we hope when you have reperused them you will find reason to be satisfied in this point If Heis had not been Condemned for his insolences to y^e. labour of y^e. Bremerholm of Copenhagen we should have made no difficulty in sending him in person to you that he might answer for himself (but as his Insolences are of such a nature as merit an exemplary punishment according to all Christian Laws we cannot help keeping his person in custody to make him one day undergo those pains that are due to such impudent Offenders.

We are with a perfect respect and true zeal.

HON^{BLE}. S^R. &C^A.

1. Since our last to your Hon^r. &C^a. by Auga Pera of the 12th. Instant we have been favoured with yours the 17th. which came to hand the 20 Ditto accompanying Doctor Wyche we observe whats mentiond in letting him have convenient Lodgings and he has chosen those he liked best and most necessary for his business.

We observe what your Hon^r. &C^a. mentions relating to the Dutch Doctor and our endeavours has not been wanting in getting him to be contented with one hundred rupees for the trouble he has had with our military but he found it an impossibility he saying it was not near the sume his Phisick stood him in after we offerd him fifty more which he made a scrupell in taking assuring us he had been at a greater charge besides his giving attendance twice a day for near six months but as that was the utmost sume limited by your Hon^r. &C^a. he has accepted it in hopes your Hon^r. &C^a. will be pleasd to take it into consideration we cannot in reason but acknowledge that the Dutch Doctor has taken extraordinary care of our men and he has been very diligent in giving [his] attendance nay even in so much that if he had [. . .] he could not have been [. . .] a great satisfaction for [. . .] not had one Man [. . .] there has [. . .] upon [. . .] they are not apply'd to any other use than what your Hon^r. &C^a. has drected.

As we having occasion to send a peon to Maddapollum we thought it convenient to order him to go and veiw the R^t. Hon^{ble}. Companys Factory and Garden and see it was kept [*sic*] in good repair but at his return he inform'd us that the latter was quite going to destruction by the carelessness of those People as Mr. Noden has imploy'd to look after it and as we are informd he has entertaind for that purpose one Braminy three Peons and three Gardeners but it plainly apears that they are very negligent and receive their wages for doing little or nothing.

Richard Pinder has lately wrote us from Camp wherein mentions that it is in the mouth of most there that the Nabob is a going to send his Cozen Phousdar of this place but he cannot as yet assert it for truth.

Mr. Noden has deliverd us Pagodas Eleven and Rupees five hundred and fifty eight eleven Annas and three quarters for which we have given him our receipt and we do promise to be as frugall as possible in the expence of Dieu Island but theres a real necessity of our Continuing entertaining the number of Peons we had before.

Rajah Opporow has wrote Auga Mino and Sied^h Jadah that in case they could make up his Brother Subbana's bussiness with the Nabob for the sum of Forty Thousand Pagodas besides defraying the Nabobs charges he would be answerable [for the] payment and accordingly they endeavourd [but] as soon as ever they started it to the Nabob [he imme]diately flew into a great passion and [. . .] the like to him again [. . .] the first by which [. . .] will not come to any [. . .] but [. . .] to his own Satisfaction and we beleive the demand will be so large as will never be comply'd with so that excepting he shoud take the Fort the Warrs between 'em as in all likelihood will continue some months longer.

We have got in our custody all the confus'd Accounts relating to Due Island from Mr. Noden, and Mr. Sanderson promises his utmost performance to be expeditious in getting them put in a true method in order to be sent up to your Hon^r. &C^a. before Fort St. George generall books are ballanced our Acco^{ts}. shall accompany them up by Ultimo Aprill if possible.

According to our calculation of the Rice we have now in the Factory will last near eight months delivering Sixty measures P Day.

Some time ago the Nabob desir'd wee wou'd assist him with our doctor and some Gunpowder but we assured him we had neither on which he was contented and sent to the Dutch for their Doctor but they refused sending him on which Coja Gee told them if they took such ill methods in proceeding they'll entirely [lose all] manner of ffreindship with the Nabob [and on] his arrivall here he woud [give them a] great deal of trouble (ho [. . .] prevail any thing) [...] they have [. . .] affair [. . .] tin [. . .] the [. . .] our sending him our Doctor as without doubt he has heard there's one come we shall comply on condition he'll let him come back once in three or four days to see our Men in order to prescribe what he may think necessary for those that may be indisposed after which to return again we are not willing to leave one Stone unturned wherein may prove detrimental to our present affairs for since the Nabob has an intire affection for us we shall do our utmost to continue it.

The Dutch here has sent their cheif Dubash to Rajah Ramrauze in order to endeavour to pasify him and withall to make an end of those troubles he has gave them at Polleull; but as yet we cannot learn that its had any manner of effect we are likewise inform'd that they have news from Pollicat that there's a coming from Negapatam one Ensigne and two Serjants with a party of fifty Military men but on what account we cannot as yet know truely.

On the 14 Instant Coja Gee arriv'd at Goodera and sent for our Cheif Dubash Ilue and after some Discourse had passed he told him to acquaint us that he would not [let us] be impatient because our business [is not] as yet compleated but as soon as ever [. . .] accommodated matters with [...] was no manner of fear [. . .] ion of Due Island [. . .] continues in wars [. . .] at present judge when the will be ended for theres but little likelihood of the Nabobs takeing the Fort or Subbanas surrendering therefore the troubles in all probability will last sometime, we are inform'd the first has made a large point just by the Fort and as high as the Walls in order to place Guns upon it; but we question whither it will be of any Signification.

About two or three days ago there came two peons from Dilly to Coja Gee which had been two months in their journey they inform of the great scarcity of grain there and the likelyhood Sidde Abdulla Cawne has of dethroning King Farrickseer the first managing all the business without knowledge or consent of the King all the Rush boot Rajahs which was formerly for the King are come over to Sidde Abdulla Cawne and every body applys themselves to him for grants and favours.

Our account cash shall be sent up monthly, the 24th. Instant Mr. Noden deliverd us his accounts and we are a peruseing the same and first we find he has omitted giving Credit for what Stores expended, as Rice Arrack and Wine but we shall take care to rectifie that omission.

It's now frequently [. . .] that Mawberize Cawn [. . .] Government and that [. . .] Cawne present [. . .] to sup [. . .] this [. . .] and they are accordingly respected by the Nabob. We beg leave to Subscribe with the greatest Respects.

We got the Treasure ashore the same Evening and the Sloop safe in the river the next morning.

Your Hon^r. & C^A. directions relating [to] 2 Towns shall be punctuall[y . . . ex] piration of the year if [. . .] make any scruple in re[. . .] withdraw our people[. . .] declarat[ion . . .] sist [. . .] upon [. . .] will not produce much above one half they stand rated at nor indeed can we say anything better of the rest of our revenue the one half of our re[venue] will remain a balance upon the Inhabitants our Beetle farmer will not be able to make anything this year it being beyond Imagination that the people who cannot afford themselves above one meal of rice in two or three days should regale themselves with superfluities. As for our land Import it has not a long time brought in so much (thô heavily enough exacted) as will pay y^e. people Employ'd to collect it at the Close of y^e. year we shall be able to discover what will be the loss and if Possible propose some remedy thô till the times as well as the Government mends we may expect in vain an alteration for the better.

We observe Your Hon^r. & C^A. Contract wth. the Bricklayers and shall regulate their pay accordingly they are much mended of Late and the Master bestows himself

to some purpose whilst they continue to ply their work they shall not want encouragement as on the contrary if tardy they must expect chastisement.

The timbers we have will we hope be sufficient to cover the upper Terrasses as for the lower rooms we can floor them at our Leisure though we humbly beg your Hon^r. &c^a. to supply us as soon as possible that we may get the Curtain finish'd this season.

It is impossible but Mr. Symonds in whose memory the smart of that bold undertaking is [still] but too fresh must be under dismall ap[rehe]nsions to see your Hon^r. &c^a. in a method [of pursu]ing a point according to the rigour [. . . the Laws] and not withstanding [. . .] on your Hon^r. &c^a. may [. . .]

Symonds lay under these surcumstances we need only refer to y^e. Vizagapatam Diarys and Consultations from December 1714 to October 1715 where scarce a Month passes without some grevance of that kind and to the end it may appear more plain We have made an extract of such passages as relate to that business, further there is a worthy member of your Hon^r. Board who cannot but remember what Mr. Symonds can never forget his ready assistance when any difficulty interpos'd and more than ordinary zeal to contribute all that lay in his power towards forwarding that work.

If any of the new interlopers come [this] way we shall use all possible means to [stop] their trade and take care [. . .] ing to us hold any corres[p]ondence unless it be with a design [. . .] takings and [. . .] their ru[. . .]

[. . .] as they stand in our Generall Book which are (since May last kept in little Cash the mistake in that p[ar]ticular was owing to an Oversight which shall be corrected.

All imaginable regard shall be had to the List of goods and so far as in us lyes we shall keep up to the length and breadths therein p[re]scrib'd its with a great deal of reluctancy the weavers are brought to that point if the Cloth be close and well made they will pinch it in the measure as on the other hand if full Lengths and breadths they will make it the thinner as for Beteelas we will Invent some new stripes & if possible for the same price geet them some thing finer we find no order in the list for Neckcloths though those from hence by y^e. Kent so much approu'd of.

The scarcity of Grain is so unversall [sic] here that we cannot expect any great matters to be done in these parts Ganjam is what we have to depend upon from whence the greatest part of our Cloth has been brought these two or three years we beleive twenty thousand Pagodas more will be sufficient for us this year though towards the latter end of July or the beginning of August we shall be better able to judge as as many more rupees as now sent will be of further service to us.

Upon the first turn of the Moonsoon we shall return the Dartmouth Sloop with Bales and follow your Hon^r. &c^a. directions relating [to her] touching at Metchelapatam.

We received the stationary Ware and [. . .] for the Factors provi[. . .] had accompanied [. . .] present strangers [. . .] of some thing [. . .].

EXTRACT OF SUNDRY PASSAGES RECORDED IN THE VIZAGAPATAM CONSULTATIONS AND DIARYS RELATING TO Y^E. IMPEDIMENTS AND HINDARANCES M^R. SYMONDS MET WITH FROM THE COUNTRY GOVERNMENT IN THE PROSECUTION OF THE GANJAM CONTRACT.

Arrivd here two peons from Ganjam with Letters for M^r. Symonds advising him that Cap^t. Ha[milton] had treated his servants there with very ill usage whereby they were greatly impeded in y^e. prosecution of their business of providing the sallampores he had Contracted for upon which the [said] peons being examin'd in relation thereto [deposed] that Cap^t. Hamilton did send [Bram]ny serv^t. of M^r. Symonds who [. . .]-ing to him he sent again [. . .] said Bramany w[. . .] out of his [. . .] Cap^t. Ha[milton] M^r. [. . .] him to Hovildar and caused him to be whip'd by him a second time, afterwards Cap^t. Hamilton in Company with the Hovaldar went in search after the said Braminy, forcing into the house of one Narapilla Diavoloo Gomaster and not finding him there offord a reward for catching him and the Hovaldar placed guards about the town to prevent his Escape.

TO THE WORS^{PS}^{TL}. WILLIAM JENNINGS Esq^r.

CHIEF OF VIZAGAPATAM & C^A. COUNCIL.

WORS^{PS}^{TL}. S^R. & C^A.

Having had occasion to trouble you so lately with a Protest against the proceedings of Cap^t. Alexander Hamilton and M^r. James Monger as [highly] detrimentall to the Hon^{ble}. Companys Affairs at Ganjam I was in good hopes that a Check from your Worship might put a stop to that growing evil.

Nevertheless as appears by sundry Letters from my Servants there, and the Deposition of [the] Companys Peons who were eye witnesses y^e. [the s^aid Cap^t. Alexander Hamilton and [James] Monger, do continue as much as [. . .] et hinder and ruin y^e. [. . .] only by underhand [. . .] the Country Government [. . .] employ'd [. . .] but by open force seizing [. . .] of said Savage by dragging him out of his house with a design to imprison him put him in Irons and carried him away from his Business on board the ship of said Cap^t. Alexander Hamilton, as appears by sundry Letters under the said Cap^t. Hamiltons Hand Writing; moreover when the said Braminy had by means of a grate Croud of People

made his escape the said Cap^t. Alexander Hamilton and Mr. James Monger did seize upon one of the Companys Peons tied his hands behind him and whip'd said Peon to make him Confess and show him where the Braminy had conceald himself but not being able to extort from him what he was ignorant of, they carried him to Meerzeede who was then Gov^r. of Ganjam their friend and accomplice where they carried him to be whip^d. a second time and when by that means they could not find the above said Savage they in Company with Meerzeede the better to Authorize their unlawfull proceedings foored into the house of Narrapille Diavoolo Gomasto expecting to find him there but missing of y^e. aim they causd guards to be set all round the town to prevent his escape threatening with severe penalties all those who should protect him and promising a good reward to all th[ose] that should discover him.

It is with a great deal of reluctance S^r. &c^a. that I am obligd to represent these [to you] but as you cannot be ignorant of the Obl[igation] I lye under and how far Cap^t. Hamiltons [] into that port and Investing [] thousand rupees in Course [] detriment to me and an [] of my Contract with the [] you will co[] accounta[nt] [] ings [] not represent to your Worship the difficulty of managing matters with the Country Government so as to make the Companys Affairs pass without Molestation Judge then what can be expected when those of our Nation immediately under the Companys protection shall take upon them to combine with the Country Government to the prejudice of the Companys Affairs and by all means both of craft and force to subvert their Interest.

Labouring under these difficulties I appeal to your Worship &c^a. whither it be so much as probable that I should comply with what is expected from me and humbly request you will represent the case to the Hon^{ble}. Gov^r. and Council of Fort S^c. George as well as put a speedy s[top] to such proceedings for the future I am with the utmost respect.

Our last to your Hon^r. was the 1st. Instant [we are] really sorry that there has Nothing [. . .] since to advise your Hon^r. of exa[. . .] Provisions in this place before your Hon^r. [. . .].

[. . .] such a Considerable number of Peons and the Country for want of rain but very Indifferently [supplied] in any sorts of provisions and in these few [Days] he has given out orders to all People that dwell in Villages and towns under his protection [now] about these parts for the space of fifteen leag[ues] to supply his Camp with Provisions and not to dispose of any else where on penalty of very severe Punishment, this proceeding of his is a great Deal likely to make a famine than ever we cannot but say it's almost the nature of one at present, if the wars continue long[er] thousands of People must Perish for want of sustinance or else remove into other parts.

The Cuttwall here has receivd orders from Coja Gee by order of the Nabob to pro[ceed] and buy al sorts of provisions and hinder any coming here nay even fish are ingros'd and sent to Camp which makes poor Inhabitants complain heavily.

The Military make heavy complaints of their being almost starv'd for [want of provisions and with all they acquaint that] they cannot buy none for [. . .] which some of them dai[ly . . .] taken this into consideration [. . .] to open the salt Provisions [. . .] them eight peices we [. . .] manner as bad with [. . .] relief from your Hon[. . .] of the wars it will [. . .].

We have la[. . .] Letter from [. . .] Gunner [. . .] pow[. . . on] on which he was well satisfied and wrote us a Complimenting Letter.

Rajah Subana's Fort is prodigious strong and Excepting the Nabob should have other assistance than What he has at present its almost an Impossibility he should take it and if a few showers of rain should fall as is expected the ground is such as will oblige him to remove his Camp a grate distance from the ffort and accordingly we are inform'd he is a making preperations.

There is a very ugly accident happend at Camp by the Carelessness of one of our Portugeese Topasses for as he was a blowing a match some of the sparks fell upon the primeing of a great gun, off it went and kill'd four of the Nabobs men on which the Jammers threatens to murder the Portugees but we will see and prevent it if possible by writing to Coja Gee.

The Nabobs Point is finish'd but the Rajah Subanah peons hinders his placing Guns upon it; we beg leave to subscribe with all due respects.

Sent out This timely Notice to Forewarn all their Settlements in India, All their
Ships now having Commission to Seize Pyrates they expect the Commanders to put
them in execution, and for such as they take they shall be duly rewarded, But in
case of their neglect when opportunity offers, The Right Hon^{ble}. Company [can]
require their Servants to whom Notice shall be given to protest against such Cap^t.
Therein giving a full account of the Facts Leaving the rest to them.

There have been some credible Informations given the Hon^{ble}. Court of Directors
of a considerable Parcell of Cloth privately purchased last Season which they having
reason to believe by the Sorts and Colours was intended for India Do Direct all their
Settlements to whom any Ship are consign'd to be very diligent in enquiring what

of Private Trade to be seiz'd and sold and the Produce paid into their Cash, advising
the Quantities, Sorts and Qualities by what Ships or Ships brought, who claimed it,
and what it sold for.

An early ship for the Coast or Bay is intended this season But the Hon^{ble}. Court
of Directors had not determin'd to which place, at the Date of their Letter. They
are pleas'd to say they are sensible of the quantities of woollen goods lying on your
hands and will endeavour to prevent your being over burthen'd therewith if Bullion
can be procur'd on tolerable Terms, and earnestly request y^r. Care to empty your
Warehouses of the old Remains as soon as well, & as much as Possible. They intend
the stock for your side to be about y^e. Amount of last years.

On the reception of the Originall Phirmaund from Bengall, The President with
some Members of the Council embark'd on the Morrice Cap^t. Eustace Peacock for
Surat Barr in order to procure the full Execution of them for our side & settle the
Old depending Accounts of the Banians, He was not so succesfull in the former as
we could wish We are made to believe a few Month may put us in Possession, But

your Hon^r. &c^a. well know the little dependance there is on this fickle Government, We have been more Fortunate in Concluding our old Accounts which we have good reason to hope will meet with our Hon^{ble}. Masters approbation Since the neglecting them has been the handle for the Government to abuse their servants & Impede their Trade. It had likewise severe Effects on their credit, which we hope will now revive & that Surat Goods may be brought to the prices they have Limited us to. The President returned the 21st. of March in whose Company the Dolben coming [in] the Road unfortunately struck on a Rock, on [. . . o]bliged, we are heartily sorry for the accident [t . . .] the Cap^t. & officers, we think can't be [. . .] few if any were acquainted with [. . .] thus unhappily Discovered.

Since writing the above came to hand yours of the 28^h. of February last we note therein the Method you are obliged to make use of, for gaining Possession of & maintaining the Priviledges granted by the Phirmaunds and wish you success in obtaining the Island of Diu.

We cannot as yet inform you of the Particulars of the Peace concluded between the Samorine and Dutch.

The Gentlemen of Bengall have not mentioned any thing to us of the disputes betwixt them we should be glad to know the Particulars that we may with the more exactness state the case to our Right Hon^{ble}. Employers. We cannot but think the usage our ships have mee[t] with from them to be hard especially considering the Treatment theirs have had from our Presid^t. here, We having undoubtedly the same Right with them to a Free Trade in all Parts of India.

The news of President Hedges's death we rec^d. by the Shawallum.

We Desire your Hon^r. &c^a : would Please to Provide us fifty Bits with Curbs and send them by the first ship. If you have any Commands on this side We shall gladly retaliate the favour.

Our Last to your Hon^r. and Council was the 23th. Ultimo which advis'd of all Occurances to that time, and this comes to impart what has offer'd Since, and with-
all to inform Your Hon^r: that our Accounts will be ready to be sent up in a very
few days.

The Nabob has sent his son Jadah with Six hundred horse, and one Thousand
foot to Golcondah, and Rajah Subbana's Government that was, he has given to one
Chellum by name, by which it seems to us that Subbanah will never enjoy it again,
and to what Place he has made his escape, so its not as yet known for certaine, thô 'tis
thought by most he's in Rangaputtyrauz's Country, but when the Nabob sent and
desired that Rajah to deliver him up, he answer'd he had no such man at that time
but that some time before his letter came he was under his protection.

Since the conclusion of the warrs we have receiv'd a Letter from Coja Gee wherein
intimats pressingly our sending Seib Abdulah Cawns letter to Maubereize Cawn, but
we have return'd him an Answer wherein mentions that excepting a good and f[ull]
reli[ance] of having a Sunhood granted on your [. . .] proposalls (on the deli-

it will be approv'd off by your Hon^r.

Here are two very deserving Men formerly old Company's Servants the Chief
Dubash, Ile, and a Conicoply which has given their due attendance ever since our
arrivall, and withall we cannot but acknowledge but what they have been very faith-
full to their trust, and we should have found a great difficulty to have done without
them, thô as yet they have not receiv'd no wages for their good services done; and as
times begin to be very hard, with them they humbly request your Hon^r. will be
Pleas'd to allow them now monthly wages, and as formerly.

The Dutch here has had orders from Batavia and Negapatam to make strickt
inquiry wheather we have got Due Island given us or not, which is what they never
would believe, till our arrivall, two days after which they put themselves to a further
expençe, and sent Cossids to Surat, which are three days ago arrived again, and they
now give it out, we have no such grant, so that what ill consequence will attend this,
We with submission begg leave for your Hon^r. to think, but in the mean time we
must with submission say, we are very fearfull they have not bin so inquisitive for
nothing.

[. . .] your Hon^r, we [...] before which Letter we send inclos'd, along [. . .] for your Hon^r. Perusall, but the contents of the First is not according to what we wish'd for, that is, we was in some expectation of having a Sunhood granted, on Your Hon^{rs}: Former Proposal (but as we now finding a disappointment) in case he should insinuate farther for our sending him Seib Abdullah Cawn's Letter, We shall be sure to refuse complying with his Request, the Coja Gee intimates to us in his Letter, that if We should deny sending Seib Abdullah Cawn's Letter to Maubereize Cawne (the affair of Dieu Island if not compleated according to expectation the Blame must lay upon our Selves) he likewise mentions, Perhaps he has already accommodated Our Business with the Nabob, and in case we will deliver that said Letter; nevertheless We shall not disobey your Honour Possitive Orders to gratifie him therein, excepting we have a farther order from Your Hon^r: or a Sunhood deliver'd in our hands; otherwise we will not comply with his desire, for his fair Promises & non Performance, is what We have been so Long acquainted with.

TO THE HON^{BLE}. JOSEPH COLLET ESQ^R.PRESID^T. & GOV^R. OF & FOR ALL THE AFFAIRS OF THE ENGLISHNATION ON THE COAST OF CORMANDELL &C^A. COUNCIL AT FORT ST. GEORGE.HON^{BLE}. S^R. & S^{AS}.

This Forwards Duplicate of what we wrote you by the Oxford wherein we gave you an Acco^t. of the Transactions on this side India to that date, We had just time then to mention the arrival of the Duke of York from Persia, & the troubles our Factory at Gombroon was in, for the Particulars of which, we reffer your Hon^r. &c^t. to the enclosed Narrative delivered us by the Agent, Copy of which we Request you would please to send to our Right Hon^{ble}. Masters by the first opportunity. What steps to take in this unfortunate Affair We are not resolved on yet.

The 13th. Instant Imported the Shawallum & Morning Starr from Surat, where there is so great a scarcity of Grain 'tis feared a famine will ensue, The Same Day arrived the George from Mangalore with Rice for this Island.

All our Affairs remain in the same Posture as at our Last except the our Neighbour Angria begins to talk in a more insolent stile than usual. We are

[...PE]RSIA GOVERNMENT WITH [...]]
GOMBROON ON ACCO^t. OF
[...] FREIGHT.

[...] of the Duke of York [...] Gombroon Cosroe Beg his [...]nder sent Sev^{ll} : Messages [...] had dispatched away three of their ships since the taking the Island Kishmish Larraack & Ormus but not being satisfied with my answers, but continuing their Messages, Morning & afternoon desired they would do it in writing whereby it might appear to my Superiors (& theirs) knowing the Temper of the Persians who will not stick to add or diminish in their Acco^t. according as it Suits their Interest, besides thought it the best Method representing our former Grievances, & lost Priviledges in Order to have them redrest the Shawbunder & Janisheer left the writing part to the Sultan who sent me, a very Long Letter the substance of w^{ch} : as near as I can well remember was

That there has always been a great Friendship between the Kings of England & Persia & that for the Services We had formerly done them, they had shown Us a great many favours as Permitting Us to Trade in the Country free of Customs, & given us Houses wth. a Thousand Tomands & Ann^um, for which We were obliged to keep [the] Gulph clear of Pyratts or any other the kings Enemies & [...] the Muscatters were to both & now on the Island Ormus Besie[ge] the Castle w^{ch}. if not relieved wth. Soldiers & Stores by means of [the] Ship 't would certainly fall into their hands wherefore did [not] doubt of my readiness, to Comply wth : his Demand whereby they might shew us more favour.

I answer'd his Letter acknowledging the friendship there had been between our Kings w^{ch} : hoped would always Continue, & that the favours they had done us was no more than our Due, for former Services which [...] the King of England a great Sum of Mony, & [...] Subjects their Lives, desiring no better Proof thaⁿ [...] they daily heard from Ormuz, the vast [...] did yearly bring his Persian Ma[] Customs of Gombroon & places adja[cent] [...] wth : Trade w^{ch} : when it was once [...] to fear they began to Slight [...] Us of our half Customs, & th[at] [...] free of them our Selves, w[] other Nations, as well as [...] dutys, which ought not [...] our Consent being half [...] of Tomands that from Spa[] to send a Caphillah [...] Banians Mony to pay [...] without our order [...] could not [...] Hoⁿ: Com[] for all [...] the [...] Nations in India except the [...] Portugueze [...] who 'twas [...] out Never dared to come into the [Gulph] wth. less than five ships at a time & that now were informed were coming with 8 that whenever the Hon^{ble}. Company took the Muscatters to task they must doe it with the same force whereas to pretend doing any thing with one ship would be only making them a present of her with all the Kings Stores & Soldiers they having Two large ships off of Larraack & Ormus from 60 to 80 Guns 1000 Men each & a 100 Large Frankys & in Expectation of two ships more, which the whole Town knows besides should run the Risque of Loosing the Expected ship[ping] from Surat & Bengall, who have a great many Effects aboard belonging to his Persian Majesty's Subjects as well as the Hon^{ble}. Company, who not knowing of any difference with the Muscatters would Come Singly & unprepared to engage such Powerfull Enemies, that if he Expected we should [do] them any

services, he must represent our Grievances to the King of Persia &c^a. about him, & have them redressed when might depend, We should not be backward serving them as had formerly done.

I was informed the Sultan read my Answer before Zacharias Cawn Shawbunder Tanisheer &c^t. People of Note & should say as well as they the English had a great Deal of reason to Complain & that 'twas the Persians fault, but at the same time, that must not now dispute former Transactions whilst the Enemy was at the door that if Ormuz Castle was taken he should loose his head & if had not the ship by fair Means would by Force, in the Interim the Banians Feast & Persian Nowrose happening could not forward [our bu]siness as at other times, tho still kept ballasting & [. . .] the ship as fast as one Franky & the Feast would [permit] when on the 13th. of March in the Morning as was [. . .] Franky with Goods, the Sultan sent the Derroga [. . .] side, with severall of his People & Soldiers [. . .] Hamauls to put down their Loads & go to their [. . .] if they came any more to work for us [. . .] their Bellies open taking at the same time [. . .] from the Head of them to appear with them [. . .] the Dutch being served the Same, I was [. . .] till next Day to see how they proceeded [. . .] feard than we on accot. of their [. . .] the Linguist to the Sultan, to inform [. . .] had happened, & that 'twas Contrary [. . .] privileges granted Us by the [. . .] ing] our Goods without Molestation [. . .] too kind to Us already [. . .] we made so much [. . .] much value [. . .] think to Live in [Persia & enjoy so many & more . . .] without a suitable return which they never Demanded with so much Reason as at this Juncture & could not nor would not be denyed it, therefore advised me not to Persist in my refusall, there Past severall Messages backwards & forwards every day but all to no Purpose tho told them that the Commr. always had a Commission for the fighting Part, which I had Nothing to say to being given by the King of England, &c^a. that as to his sailing they were always limited by the Hon^{ble}. Company, or Gov^r. of Bombay upon Accot. of the Monsoons or Voiajes the ship was to make, that in Case I pretended to keep the ship Longer the Commdr. had Liberty to depart without his Orders from me, I having Little else to do, but to Lade & unlade ships, for which there was a sufficient time allowed me, that the best thing I Could advise him, was to write to the Gov^r. of Bombay for Succours, who in all Probability might send some time enough but that would not satisfie him, saying in the Interim the Castle would be lost, I then advised him to write to Capt^t. Daws, & Send some body off to him which he said was not Necessary if I would give my Consent, however would write me once More, which I might show the Capt^t. if Pleased, so accordingly had the substance Translated & sent it on board by Mess^{rs}. Cooke Otgher & Linguist as P^y Copy herewith No. [8] which the Capt^t. answer'd in English to Us, but we enlarged thereon in the Persian specifying that he had [no Commission] to Fight & if did without should Loose his Life & Estates when the ship came from Bombay they had no [. . .] Muscatters Transactions, otherwise his [. . .] come alone, or unprepared to Encounter [. . .] that his time of staying in Gombroone [. . .] according to his Orders from the [. . .] should be obliged to sail in a [. . .] sent any of his People off St. [. . .] as he did his Yawl & s [. . .] come off shoar, This answer [. . .] made him worse sendin[g] [. . .] Soldiers to Our Factor[y] [. . .] Armenians & [. . .] any body [. . .] Letter [. . .] in the [. . .] starve [. . .] servant [. . .] sent [the . . .] Live in [. . .] along [. . .] had Imported, [which the] Chief must Pay very speedily (if] We had not Complied with our Contract keeping the G[ulph] clear) otherwise would ripp his Belly open & hang him [by] the Heels wth. a Dogg & many more such like treat [nings] which was obliged to hear Patiently, & ordered our [Dubash] Broker & Scrivan not to come near the Factory on pain [of] Cutting their Feet off, which they could do no otherwiss than Obey, knowing his barbarous Temper, & Power [present] opportunitys offer'd We talkt big according to the Hon^{ble}. Company's Interest, telling them in what manner it [will] be resented by our Superiours who would have full satisfaction for the same, who would kill a hundred of them for one of us, but their answer was, That no sooner Pacified than the loss of Ormuz which would certainly cost their heads, The Next Morning after [the] Factory was shut up, sent an Englishman to hoist the Flagg but sevⁿ. soldiers called out & Pointed their Guns saying we must not hoist it on

Looking out of the Windows were served the same, being ordered to shutt them up In the Evening the Sultan sent a Hens Bashee or Cap^t. of Foot who is very intimate with him, & hath the Character of an honest man than most of them to excuse what [they] did saying 'twas by Order from Court which he could not Disobey & that I might Perceive he had all along begun with the Dutch, first in hopes that would have served me for an Example, whereby to have avoided the ill Treatment I mett with at his hands which would Be still worse if did not comply, therefore advis'd me in time that I might put some Remedy to these things, for he must have the Ship, & Since I stood it out that only the Cap^t. [had] the Disposall of her in such a Case to go off and [to] lade him my self to lett her out, or to sell her for [. . .] use, & not to come back w . . . Frivolous excuse [. . .] uld not avail me, they being Pretty Possitive [. . .] consented the Cap^t. would Expecially if offered [. . .] sent, We drew up a writing or Protest in [. . .] the short time & the Troubles were in [. . .] our wording it as th copy No. 6 & signed it [. . .] Factory, that it might be more prevail[ing] [. . .] were [. . .] in carrying it aboard to Cap^t. [. . .] as th Letter No. 7 to which [. . .] last between us referr [. . .] Difficultys we mett [. . .] Ship to be of any service [. . .], must at last have [. . .] could not go back to Gombroon [. . .] without endangering [. . .] in Persia by reas[on] [. . .] -ment past [. . .] Gov^r, & Council [whereby to put] Dutch can have advices, who will have a fair Opportunity to engross the Trade of Persia either by assisting them or Suffering the Muscatters to remain Masters of all the Islands in the Gulph where they can Build Ships or refitt them without being beholden to the Suratters.

As to the Sultans threatning to rip my Belly open, I never could think he would come to such Extrem[ity] but having heard how we have been formerly used at Surat ([being] threatned with it) & the Persians some years past serving a Muscovite Embassador in Same Nature, I could not have expected a Better treatment had I gone ashoar whereas the Gentlemen in Gombroon may fare better by my absence hav[ing] an Opportunity of excusing themselves on My acco^t. besides writ a Letter to the Sultan acquainting him, that since could not be by any Means prevail with the Cap^t. of the ship that I was resolved to proceed in her to Bombay. & acquaint the Gov^r. thereof not doubting but he will send forces this Monsoon to Gombroon, whereby to regain the Credit we had lost.

The Dutch having all along suffered first & in every respect more than we, being ordered to carry all their Goods first to the Custom House when their Hamalls & Franky was stopt from sending Goods off they had their Long Boat & Pinnace well Mann'd thinking to carry their Goods off, so having Loaded the Long Boat, & put off, but were soon brought back by the Persians, & carried before the Custom House, not suffering their men [to go off the shore] out of the Factory, which is surrounded [by 70 . . .] not Permit them to hoist their Flagg or [. . .] -sions to go into their Factory.

M^r. Kettelaar [. . .] Second & c^a. Council to the Sultan [. . .] but could not Learn Particularly [. . .] than what the Hensbashee [. . .] excuse themselves by say[ing] [. . .] fight, that their being [Fr . . .] by the King's of Persia, [. . .] Company a great sum [. . .] it under their hands, [. . .] Clear of Pyrates, or [the . . .] done, who rec^d. thous[. . .] made an Excuse [th . . .] Time to dispatch [. . .] the Skippers [. . .] but as he wir[. . .] ashoar, th[. . .] in wan[. . .] suffer[. . .].

Hon^r. & C^r. should not approve of any other then our Continuing in this Factory, We must beg Leave to say it may be to the hazard of some of Our Men's Lives.

7. Notwithstanding the Nabobs Camp is removed a Considerable way off, but during the wars at Cawneecull it has in a manner made a famine in these Parts, & at Present Provisions is so Prodigious scarce that what is eatable is not to be Purchased for mony, therefore we beg Yo^r. Hon^r. & C^r. will be Pleased to Consider Us.

8. As by information the Nabob is removed from Beswar to a Place Called Eberammapalam whis [sic] is in his way to Golcondah.

9. The Portugeuze Padree acquaints Us, that he had been a talking with Coja Gee & after a Little Discours'd had Pass'd, the Latter told him that he had wrote the Hon^{ble}. Gov^r. for to supply the Nabob with Gunpowder shott & C^r., but he had rec^d. a denial, on which the Padree tells us that he seems very much discontented.

10. Yesterday Coja Gee came into Towne, on which we sent our Dubash to give Our Service to him as Customary, & at his return he acquaints Us that he seems no otherwise then to Continue his former friendship, & we cannot but say that he never offers to hinder Our Affairs, therefore We cannot give Credit, [to w]hat the Padree informed, however We are not [going] to omitt advising of all informations.

11. Here are Several Inhabitants that [have] complained to Us that M^r. Noden is indebted to [them I] have seen one Note which is sign'd by [M^r. Noden a]t the rate of 18 $\pounds$ C^r: Land Interest, the [. . .] ess of which gives Us room to

suspect [. . .]th Little & We wish his estate may [. . .] shall make all the Inquiry Possible [. . .] of what may be owing to the Dec^d:

12. The R^t. Hon^{ble}. Comp^r: Peons & [. . .] Us that M^r. Noden is indebted [. . .] stoped, & whilst the first [. . .] We are sensible it's very [. . .] that there's due to him [. . .] den a good sum, in our [. . .] to give Yo^r. hon^r. &c^t.

13. [. . .] The first at Eleven measures @ Rupee the other at 12 should have taken 12 Garse, only We have good informations that there's four Vessells a Coming from Ganjam with Grain which in all Likelyhood it will be much Cheaper, so that as [. . .] are supplied at Present with a Pretty good quantity. We have taken this into Consideration, & have thought it for the Benefit of our Hon^{ble}. Employers to stay till they arrive, which when if as expected, We shall then take what's wanting to make up 12 Garse.

14. Excepting Yo^r. Hon^r. &c^t. should think Convenient to supply Us, & very speedily with stationery Ware, We shall be obliged to Lay still, for at Present We do expend upon, our owne & that's almost at an end, We beg Leave to subscribe withall due Respects.

[PRES^R. & GOV^R.] OF FORT ST. GEORGE & C^R. COUNCIL.

HON^{BLE}. SR. & C^R.

Since our Last to yo^r. Hon^r. & C^s. of the 17th. ultimo [here] but Little Offered materiall for a subject, neverthe[less] according to Promise, we shall send up our Acco^t. [. . .] this serves to accompany Our June M^{os}. [Acco^t.].

We have rec^d. a Letter from the [. . .] Braminy which advises of his cutting [. . .] laid in the Factory in order to make [. . .] the Water side which is to Preserve [. . .] to Rubbing downe the Garden well [. . .] some with a very small charge it [. . .] the intent; [. . .] but for acting in such [. . .] knowledge or Consent of us [. . .] wrote him a reprimanding [. . .] proceed in the like [. . .] his Prejudice. We have [. . .] not in our Power [. . .] a direct [. . .] M^r. Noden stood indebted to him 75 Pag^s. & withall he had under his hand, which orders the Maddapollum Braminy to Pay the weaver the Produce of what Paddy M^r. Noden had there but We to be further satisfied We order'd the said weaver to Produce the same Letter & accordingly he show'd us one, which had not a fair Letter in the whole Name, neither was it any thing Like the Desas'd Signing (this gives Us some suspicion that there's something more than ordinary) therefore We are resolved not to Pay any thing without a further good Proof, he acquaints Us that M^r. Nodens Books will make appear that debt, but as We have not Perused them, We give no Credit to what he reports.

4. This Factory House is in a very Leaky & rotten Condition, in so much that if the winds blow harder then Ordinary, theres some part or other falls down, & Particularly the Pails round the Factory rather worse & propping with Palmeres We find much adoe to keep them from falling; so that excepting Y^r. Hon^r. & C^s. should think Convenient to order some repairs to the Latter they must Consequently fall in a Little Time.

5. Rice still continues to be extreamely Scarce & Dear which makes Poor People almost ready to Perish with hunger & what grain is now disposed of in this Place, belongs to Coja Gee, & he delivers the Banyans five Candy ꝓ Day, in order to be sold the Inhabitants, but Considering the small quantity & the great Number of People here is, so that what's deliverd out is but Little or nothing when Computed.

6. On the 24th. Ult^a. arrived [. . .] Parr from Negapatam Loaden with ro[. . .] the Latter was to be sent to Polleull & [. . .] to supply there Demestick servant [. . .] loaded the same the Government [. . .] reimbarke it again) they have [. . .] 100 slaves, which at this time [. . .].

7. 400 P [. . .] Golcondah confirms tha[. . .] Unity and Peace with on [. . .] berize Cawns allowing [. . .] 25 ꝓ C^s. for all rent in [. . .] Abdulah Cawne.

8. [. . .] departed this Life [. . .] begins to fall down [. . .] unwholsome [. . .] the want of [. . .] adds to [. . .].

9. [Paraph 9 lost]. . . .

10. [. . .] With yo^r. Hon^r. & C^s. of the 1st. Ins^t. which shall be replyed to fully as soon as ever We have taken an exact Acco^t. of M^r. Noden's effects, which will take us up some days.

11. If We should have paid the Millitary what they are in arrear, We must have taken mony up at Interest, therefore to prevent the same we have only p^d. them 2 m^{os}. & our remaining Cost is Rupees 655-0-0. . . .

12. We have according to Order presented the 2 Persons yo^r. Hon^r. &c^t. was Pleased to mention (& a Braminy which was omitted the very serviceable) the sune of 34 Pag^a. & Considering their good & their faithfull Services, We hope Yo^r. Hon^r. &c^t. will not reckon that unfrugall, We beg Leave to Subscribe withall due Respects.

TO THE HON^{BLE}. JOSEPH COLLET ESQ^R.

[PRESID^T. FOR A]FFAIRS OF THE HON^{BLE}. UNITED COMP^A.

[MERCHANTS OF] ENGLAND TRADING TO THE EAST

[INDIES & GOV^R. OF FORT] S^T. GEORGE &C^T. COUNCIL.

HON^{BLE}. S^R. &c^T.

On the 5th. June arrived here the George [brigantine w]ith the Supervisor, & M^r. James Hubbard [. . .] whom, We rec^d. Yo^r. Hon^r. &c^t. Generall Letter of [. . .] to which, We shall Now reply under the [. . .] formerly Prescribed, in which we shall [. . .] the fullest Acco^t. We can of the state of [. . .] affairs recommended to Us, & hope Our [. . .] will Meet with Yo^r. Hon^r. &c^t. approbation, [. . .] We are now guilty of may be imputed [. . .] Super]visor has had to make a further [. . .] Acco^t. in Our next advices, [. . .] Materiall Occurrences since [. . .] om hence of the 16 December [. . .] Again the 6th. of May on Ship Success.

3. On the 31st. Jan^{ry}. the Falconbridge Cap^t. Freak Godwin Comm^r. arrived here from Bengall, & on the 11 March she sailed for Batavia.

4. Ship Hester Cap^t. John Gordon Comm^r. burthen 300 Tons was dispatched for England the 11th. February with no more than 144 Tons of Pepper on Board from hence, & about 10 Tons w^{ch}. bro^t. wth. her from Borneo, this mismanagement by w^{ch}. Our Masters will be so great Sufferers might easily have been prevented by sending her to Madrass (whither the Cap^t. was very desirous of Going) & the Benjamin being about that Burthen might have gone full Loaden wth. Pepper from hence, as is more plainly demonstrated in our Consultation of 23rd. May to w^{ch}. desire You will Please to be referred.

5. On the 4th. April the Presid^t. was dispatch^d. with Stores & Provisions for Bentall being the first trip she has made of it of this Road in 18 Mo^s., who returned the 26th. of the same M^o. & was dispatch'd thither again on the 9th. May with Cap^t. Irving & a Sufficent Party of Men with armory stores &c^t. necessary's, in Order to Accomodate the late troubles there. We are dayly expecting to hear of their Success, & hope to give Yo^r. Hon^r. &c^t. a satisfactory Acco^t. thereof in the Close of this Letter the ship returned here the 28th. May, & We now send her to Madrass in Company wth. the Success, she is very old & Crazy by lying so Long here without repair, tho in a Good Condition to proceed on her voyage as 4th Survey taken on her and entered after Consultation the 13th. Ins^t.

6. We should have been more expeditious in the dispatch of these two ships to Yo^r. Hon^r. &c^t. [but for] the Mortality & Sickness w^{ch}. the Success has [. . .] Us Cap^t. Graves having buried 16 of his sh[ipmen at] Bentall, & has now 16 more of his [. . .] Sickness that are not Capable of d[. . .] that We have been forced to a [. . .] Gunroom Crew, & the Comp^a. [. . .] the George Brigantine was [. . .] in Order to relieve the B [. . .] in as bad or rather we [. . .] Cap^t. Graves, & Cap^t. Bra [. . .] with their Ships, & Men [. . .] as they are now so [. . .] We cannot do less th[an . . .].

10. Of the 15 Pipes of Madera wine rec^d. p^r the Success 5 of 'm Proves quite sower w^{ch}. Misfortune has put Us to great streights for Liquors, not having a Bottle of any kind fit to drink, on the Supervisors arrivall, We have since got a Small Supply from Cap^t. Graves of w^{ch}. [We shall] be very frugall, & beg Yo^r. Hon^r. &c^t. kind assistance [in the] Article so far as you may judge necessary.

[SECON]DLY AS TO INVESM^{ts}. OF GOODS [. . .] FOR EUROPE [. . .] TOUCHING THE TRADE OF [. . .] GENERALL & THEREIN ANY [. . .] ES WITH THE COUNTRY [. . .].

11. We are very sorry We can't give [. . .] Pleasing acco^t. of the Pepper [. . .] the Northward, from [. . .] so fair a Prospect [. . .] have happened that [. . .] Hon^{ble}. Masters [. . .] ing [. . .] ir [. . .] They have done from the wild Beasts during the Time they have been neglected, but of this we can have no true Acco^t. till a Peace is Concluded; w^{ch}. we are in dayly expectation of, and we are Realy of Opinion all this might in a great Measure have been avoided, if Sultan Cutcheel had been protected at the beginning against his abdicated Rival Sultan Guiliamott, but the quite Contrary mean's has been us'd, either through fear, or with a design to Reestablish Guiliamott Emperour of the kingdom of Arrack Soongey as appears by the Large assurances he has had of the Comp^s. Protection if he would accept thereof, & live in friendship with Us for the future; all w^{ch}. yo^r. Hon^r. &c^t. will more Plainly Perceive in the Country Lett^{rs}. sent & rec^d. from hence, as well as those passed between him & M^r. Morris w^{ch}. he had endeavoured what he Could to conceal from Us.

12. The Probability of this Our Opinion We hope will soon appear by the Success, Cap^t. Irving & his Party may meet with, who are sent to Bentall, with Orders to confirm Sultan Cutcheel who still retain's the hearts of his People, & if Possible to take or destroy Sultan Guiliamott who as We are informed is beloved by none & feared but by very few of his former Subjects; who in conjunction with Rajah Mansore and his intrest have besieged Bentall &c^t: to the Northward, now upwards of 6 M^{os}. & for his reward he had given him no less than his Sultanship, if he had obtained it, but he being Lately dead, gives us greater hopes of Bringing matters to a Conclusion.

13. During these unhappy [disturbances] our Hon^{ble}: Mast^{rs}: have suffered not only [in the matter] of defending Bentall, but the Loss of 2 of their [. . .] & Tryamong, where Our People were [. . .] Layd in ashes, as they Likewise [. . .] & severall adjacent Places of s[. . .] Cap^t. Graves has been an eye [. . .] Passages on this occasion, a [. . .] of any Particular relating [. . .] express in writing, to whom [. . .]

14. We [. . .] Chiefest reasons to w^{ch}. [. . .] these Parts w^{ch}. is more [. . .] tation of the 23^d: last [. . .] Us in Our oppinion, & [. . .]

15. The [. . .] the Malay's & with [. . .]—chase it at [. . .] that I [. . .] by w^{ch}. t[. . .]

16. But this good Design of Gov^r. Collets w^{ch}. is so well approved of by the Company has of late been most horribly abused, both by Cheating the Company & oppressing the poor, the Store keep^r. not being permitted to Sell or Exchange Salt, to any Person without the Deputy Gov^r. Leave, so that it has been sold out of the Comp^a: Godown to Particular Persons in exchange at 20 bamboo's of Salt for 20 of Rice & 24 of Salt for 48 of Paddy, & sometimes for ready Mony at 25 P^{d} C^t. advance, & by those persons or Others appointed by them, it has been Retailled in the Buzarr at the Extortionate Rate of 4 Bamboo's for a Dollar, or what they Pleased to ask for it, whereas the Comp^a. usually sell it at 16 Bamboo's for a Dollar or Less (but never more) According to the Price of Paddy & Rice w^{ch}. they alway's buy at Bamboos for a Dollar.

17. This hard usage of engrossing the Salt (in w^{ch}. We are well assured the Deputy Gov^r: himself has been concerned) is complained of by the Country People far, and Near, & is what they all declare has taken them of, from Looking after their Pepper trees, & Planting Rice, and Paddy, to make salt for themselves w^{ch}. they have a tedious way of Performing & nothing but meer necessity would ever induce them to take half the pains.

18. We have now ordered the salt to be sold to any Persons that are willing to Purchase it, in Exchange at one Bamboo of salt for one of Rice, & one of Salt for two of Paddy, & for ready Mony at the same Rate Rice sell's for in the Buzarr, not exceeding sixteen Bamboos for a dollar, under the same Penalty's [accor]^d: in Gov^r: Collet's time, with w^{ch}. they are all mighty [well] Pleased & Promise to bring in Pepper, & Rice, in [respect of] which we find they already begin to Perform.

19. This wth. the Late troubles from the Oran[. . .] the Chiefest reason has detoured Pepper from [. . .] as formerly, We have been once alarmed [. . .] ch very near Us, since the supervisor's arriv^l. [. . .] from Padre Paneamar their Priest demand^s. [. . .] Loss of their People that were killed; and [. . .] Plundered of when they were Last y^e. [. . .] a suitable answer as entered in the [. . .] y^{rs}. sent & rec^d. which hope will deterr [. . .] attempts of hostility since w^{ch}. We have [. . .] them.

20. [Notwith]standing these Difficulty's We [. . .] suffi^cient to send home the [. . .] troubles are once well [. . .] some Provision for a [. . .]

21. [. . .] Much more than Agreed upon in his Contract, which we must Comply with, or lett drop so good an undertaking, w^{ch}. is now in such Forwardness that in a few years We can't doubt it will answer the Charge; We take all possible care to see that the Money is fairly appropriated to that use; & hope yo^r. Hon^r. & c^t. will approve of the Method We have taken in appointing M^r. Francis Everest Surveyor of the Sugar & Arrack plantations, as also of the Pepper Garden by whose report Yo^r. Hon^r. & c^t. will have a more perfect acco^t. of the condition they are both in at present, the Sugar & arrack said to be sent home on the Rochester was not sent as mentioned in the Last Lett^r. from hence nor have they yet had so much as a muster of Either, we now send Yo^r. Hon^r. & c^t. on the Success 2 cannisters of Sugar containing 4 Pecull & one Leagr. of Arrack as P^{d} Invoice & Bill of Lading Inclosed amounting to Dollars 45: 2 Sucos and the Storekeep^r. has still remaining in the Godown's 217 pe^{cl}. Sugar & 13½ Leaguers of Arrack, besides what the Undertak^r has Ready to deliver up which is about 80 Pecull more of Sugar & 13 Leaguers of Arrack, We desire to know what Quantity You would have sent You as often as an Opportunity offers.

22. The Companys Pepper Garden has been altogether neglected, & run almost to Ruin, many of the Pepper Vines being dead, & those that were Left taken no manner of Care of, if it had continued so a little time Longer it would have been past retrieving, but since Mr. Everest has had the care of it, the Garden has been well weeded & cleaned, the Vines are now ty'd up, & the Paggar Repaired w^{ch}. We hope to give Yo^r. Hon^r: & c^a: a better [account] of next year there are some Pepper Gardens [close by] of the same age as this w^{ch}. are now full of Pepper ready to be gather'd w^{ch}. show's how [our Garden has been] neglected.

23. We now se[nd . . .] Success 4 bags of Coals w^{ch}. ai[e . . .] about w^{ch}: the Comp^a; are adv[ised . . .] is not yet discovered, wh[. . .] is plenty, & have them [. . .] We now send are fou[. . .] are only what are [. . .] from the Mountain [. . .] Myne to be, & are b[. . .] Costs much dearer [. . .] at the Rate We now [. . .] Our English Smith [. . .] the Myne, bu[. . .] Oran[. . .].

24. [. . .] small Quantity sent to the Comp^a. as a Specimen of the Produce of the Conuntry, the Supervisor has now sent to the Hon^{ble}. Pres^t. about the quantity of a pound of the same w^{ch}. is all the Place affords, tis not improbable but with Little Care this might be brô to Perfection, thô the young Plants and Seeds lately Set w^{ch}: Promised very well at first are since dead, there is not now above 10 Trees in the Place w^{ch}. is not sufficient to supply a nursery on the Comp^a. Acco^t. thô some private Persons have young Ones a growing up, in w^{ch}. we shall give them all due encouragement, & if theirs succeed it will not only enable but encourage us to try what We can do for the Company.

25. Advices of the state of this Place said to be sent by Cap^t. Norgate in May Last was only Meant private advices, no Generall Lett^r. being then sent.

26. The writing deliver'd by the Dep^{ty}. Gov^r. to the Pangarans for a confirmation of their former privileges, is the same as has been given by former Supervisors, & Dep^{ty}. Gov^{rs}. w^{ch}. was confirmed by Gov^r. Collet, and Lastly by the pres^t. Dep^{ty}. Gov^r. copy of which is now entered in the Book of Malay Lett^{rs}. sent, for Yo^r. Perusal, they likewise desire a Confirmation of the same, from the present supervisor w^{ch}. he has Promised to Grant them.

FIFTHLY TOUCHING FORTIFICATIONS BUILDINGS AND REVENUES.

27. It will be something difficult for us to explain the true state of Our Fortifications & buildings other[wise] than by the plan We have now sent you by Cap^t. Graves [with] the Remarks thereon, by w^{ch}. it will appear that very Little [progress] has been made therein since Gov^r. Collet Left the place.

28. Only the So. W. range of Buildings for [. . .] & Officers w^{ch}. are but little more than half [. . .] is time, the flooring & Partitions within [. . .] & Window's not being yet begun [. . .] per it has layn these 8 or 9 m^{os}. past[. . .] want to be new covered before it [. . .].

29. The Northwest range for the Gunroom & [. . .] Begun for want of Materialls, thô it was [. . .] Chinaman on the 12th. Novem^r. last to compleat [. . .] llars, half to be p^d. him in hand, & the remaind^r. [. . .] Mony was accordingly Advanc'd [. . .] has applyed it to his own use, [. . .] foundation being yet [. . .].

30. [. . .] for the Comp^a: [. . .] Collet's Time [. . .] Ruin [. . .] vice [. . .] That We shall deferr going about it till we have yo^r Hon^r. & c^a. orders for so doing, We have had it well surveyed by the best Workmen in the Place, & referr Yo^r. Hon^{rs}. to their report as enter'd after Consultation of the 13th. Ins^t. by w^{ch}. you will be better able to judge if you think it worth that charge or not.

31. The W^t. Bastion stands just as Gov^r. Collet Left it only with the addition of another flank, run up w^{ch}. Brick & Chinam about ten foth of it's heighth, the whole being not near one quarter finished, as more Plainly appear by the Plan w^{ch}. is all the Brick work that is Built about the whole fort except the Vault adjoining the E^t. Bastion w^{ch}. was done by Gov^r. Collet, by all w^{ch}. Yo^r. Hon^r. & c^a. will perceive how little work has been done for so Great Sums as has been expended, & how much more 'twill require to finish what is now in a Manner but Begun.

32. The Plan We now send is made by Padre Comini who is an ingenious man, & understands something of Fortification, & as he say's is acquainted with the first scheme of the Fort he makes it Appear to Us that the West Bastion w^{ch}. is the only one yet commenced has been Carried on through mistake in too large a Graduation in proportion to the designed Fortification, by placing the walls without the Outward lines of the first Plan, instead of Placing them within w^{ch}. is very Probable, for Should We carry forward the Rest to answer the Bastion that is now begun the whole will be out of Proportion, for the Curtains will be 136 foot, & the Faces will be 90 foot w^{ch}. ought to be 146 foot the curtain, & 73 foot the faces, We hope what [has been] said with the Remarks on the Plan is sufficient to be understood w^{ch}. suppose Yo^r. Hon^r. & c^t. allow's of & [. . .] Build the Fort irregular, by making the [. . .] Smaller Graduation in proportion to [. . .] Ground will not allow of making [. . .] what is begun w^{ch}. will certainly [. . .] near $\frac{1}{2}$ part of the Expence, & [. . .] this Place as well; still [. . .] Curtain's must be also [. . .] in Length Otherwise they [. . .] Our inward Buildings [. . .] wherefore We desire Yo[. . .] proceed any further [. . .] — ring Brick & Chinam [. . .] have work enough [. . .] begun by M^r. Farm[er . . .].

33. [. . .] Fortification [. . .] Pa[. . .] Arrivall besides what was fallen before; w^{ch}. will, be an endless charge to keep in repair, & what we should not continue to do, were it not for the present Troubles we are ingaged in.

34. Yo^r. Hon^r. & c^t. must Wonder at this Description when you peruse ther Gen^l. Lett^r. to England & the Hester, Wherein 'is represented as a durable & lasting work then Completed & what would never require future expensive repairs, than w^{ch}. nothing can be more false, for at the Supervisor's arrivall w^{ch}. was near 3 M^{os} after the Hester Sail'd, not above one third part of the breast work was Completed, w^{ch}. falling down as fast in one Place as it could be Raised in another, We have resolved to Proceed no further with it, only to give it necessary repair's till We hear from Yo^r. Hon^r. & c^t. about it.

35. How they could engage in a work of this Nature without first Permission either from Yo^r. Hon^r. & c^t. or from England, and neglect what was more material, We leave to yo^r. better Judgement, it not only proving useless & chargeable in Repair, but by the nearest computation it has cost 10,362 — ^{Dollars.} 42 under the head of New Buildings as ^{Yo^r.} inclosed Calculate from the Paym^{ts}. Acco^{ts}. if We find it too Chargeable to keep this in Repair as doubtless We shall We must desire Yo^r. Hon^r. & c^t. Leave to make a new Paggar without this wall w^{ch}. will still be more expensive, it being now of a much greater Extent than formerly.

36. But 'tis not to be wondered at what they have done here, when M^r. Morris of his own head, or only wth. the Deputy Gov^r. consent has sett about a work of the [same] at Bentall w^{ch}. has since been approved of from hence notwithstanding their former Orders, that they should set [no] new Buildings whatever in that Place, except [what is] absolutely necessary for the Preservation of the [. . .] People, they write Us from Bentall that [. . .] pull[ing] down before 'tis half finished & will [. . .] Design, wherefore we have Put a Stop [. . .] Proceeding on it, this was certainly [. . .] intent than to create work whereby [. . .] Opportunity of disposing of a Cargo [. . .] hence to Pay the Workmen.

37. [. . .] to the Condition of the Buildings [. . .] of them so much out of Repair [. . .] fit for Service, Yo^r. Hon^r. & c^t. [. . .] Acco^{ts}. here of in Mess^{rs}. [. . .] after the consent [. . .].

38. [. . .] the [. . .] Last for 101 Dollars & that the Materialls expended thereon was charged as to the Comp^a. Buildings, by which indirect way of purchase, there is now knowing the true Cost of it, it was designed for a Chappell, but has never yet been made use of as such, nor indeed is it fit for that or any thing else, being very Leaky & damp, & when We Come to Carry forward that Part of Our Buildings We must be obliged to Pull 't down, it standing so much in the way of the Bastion w^{ch}. is a Great fault in the Deputy Gov^r. to Permit any house to be built

so near the Fort, Expecially in such a Place, & We are likewise informed that these very materialls are part of the Deficiency Mess^{rs}. Shyllinge & Garret are Charged with, & it's not unlikely but in Time it will be proved so.

39. Upon the Supervis^{rs}. arrivall here, there was scarce stick, or stone of any kind of materials remain^g. on the Place, for want of w^{ch}. the work has been so long at a stand & is so still, w^{ch}. is the Reason We have not Yet gone forward wth. any of the Buildings or Repair's, but James Rawlins having lately petitioned to Resign his lease of undertaker, We have now entered into Contract wth. M^r. Stephen White to provide the same for 3 year's, at the Rates mentioned in his proposall Entered after Consultation of the 13th. inst^t. w^{ch}. is about 20 $\frac{1}{2}$ Cent cheaper on the most Expensive Articles than the Comp^a. have been hitherto served, w^{ch}. We hope Yo^r. Hon^r. & c^t. will well approve of, & We shall new sett about providing Materialls of all sorts wth. all expedition that We may go forward with the Buildings to [Your Honor's] & c^t. Satisfaction, & shall always observe Yo^r. [. . .] having them Viewed by the Council [. . .] receives them on the Comp^a's. Acco^t. [. . .].

40. A good Quanti[. . .] w^{ch}. may be put on Board the [. . .] Room of Ballast would be [. . .] per to the Comp^a. & we believe [. . .] any thing We can procure [. . .] & always wanting repair [. . .] ceable for covering the [. . .] so flat that the Attop [. . .] Buildings that are la[. . .] not lye upon, especia[ly] [. . .] think fit to repair, [. . .] Long Gallery [. . .] w^{ch}. We ha[. . .] Be the best Covering for all Buildings in this Place & would in a great Measure secure us from Fire w^{ch}. We are now in Continuell Danger of, Either from Our Enemy's or any other accident; & if We find this answers Our Expectations, all the Buildings may be Cover'd with the same without altering the Roofs & no further Charge than the Cost of the Tyles.

41. If Yo^r. Hon^r. & c^t. would Likewise please to send Us some Baggs of the seeds of Palmeira fruit, such as grow round Fort St. David bounds w^{ch}. this country does not afford, the Charge would be but a trifle, Not costing above 6 or 7 fanams $\frac{1}{2}$ Mille in Madrass if they should take to the soil they would soon be of singular service to the Place, & will never Require any Care to be taken of them after they are once put in the Ground in the first 4 or 5 Year's they will begin to Give leaves w^{ch}. is the best sort of Thatch & is what is much wanted here; in about 20 year's they may Give Toddy, when the Comp^a. will Reap the advantage, and when they are full grown they may be cut down for the use of the Buildings & will be more serviceable for some uses than any of the Country Timbers.

42. The Sloop begun by Gov^r. Collet stands just as he left her, thô there has been a great Deal since Charged to that Acco^t. Yet she is rather backwarded in the Building than she was, the Shed being quite uncovered & most of the shoar's, & the Paggar Sticks are stole away by the Coffry's or others, her Frame is still in good order and very Substantiall, w^{ch}. shall be finished wth. all Possible speed, if Yo^r. Hon^r. & c^t. will supply Us wth. 100 Teak Plank off 25 foot long & 2 $\frac{1}{2}$ Inch [thick] wth. 3 or 4000 Nail's of about six inch long Commonly [. . .] wait nail's w^{ch}. will be sufficient for her Bottom, & [for the rest] of her works the Plank formerly sent We [have not] designed for her use, but is now so split by [. . .] its scarce fit for any use whatsoever, [therefore we] have Ord^d. $\frac{3}{4}$ of its cost to be wrote of, & [the planks be] immediately Apply'd to the Buildings or [otherwise to] be made the best use of.

[To]UCHING FACTORS WRITERS [SOLD]IERS & THEIR ACCOUNTS.

43. [. . .] shall now answer to the late Prosecution [. . .] the former being sent home of [. . .] for Frauds said to [. . .] w^{ch}. We should [. . .] than W[. . .] [ina[. . .]] Each other, in case of Suspension, or any alterations made from Fort St. George, on this acco^t. & no other Coppy's of said bonds are entered after our Consultation of the 30th. May & 13th. Ins^t. & in all Probabilty this was the Chiefest motive that induced them to lay aside the Generall Books, & send home the Originalls, also all Originall Vouchers, & acco^{ts}. any way's relating to the Frauds said to be Committed, without which 'tis impossible to do Justice either to our Hon^{ble}. Mast^{rs}. or the Gentlemen Accused, & we believe the Papers & acco^{ts}. belonging to

Mess^{rs}. Shyllinge & Garret, (w^{ch}. We have taken from M^r. Farmer since he offered his oath that he had none Left belonging to them) when they come to be examined will make appear, that great part of their Debts, & Other effects have been unjustly appropriated towards clearing M^r. Farmer's private Acco^t.

44. Yo^r. Hon^r. &c^t. has one instance of this kind in the disposall of Hermitage House sold by Order of Consultation of the 10th. of Octo^r. last, w^{ch}. they allow to be worth no more than 800. for the reason it cost no more from Gov^r: Collet, which Tis

Apparent that near 2000 has been Laid out upon it Since that time, with the Materials that were sold wth. it, & had never been worked up to the Amount of Near half that sum, after the dispatch of this ship We shall sett about Enquiring into what Papers taken from M^r. Farmer w^{ch}. will we hope give us a greater insight into this Affair, & enable Us to give a more Particular Acco^t. ♢ next opportunity.

45. Yo^r. Hon^r. &c^t. will see our whole proceedings herein as Entered at large in our Severall Consul[tations] since the Superv^r. Arrivall to this time, w^{ch}. are to [Long to be] repeated here, & to w^{ch}. desire You will please [to refer and] hope what We have done will meet [with your Honour's] Approbation.

46. The Gentlemen [. . .] Partly Acted in the Prosecut[ion] &c^t. do assure Yo^r. Hon^r. &c^t. that were Contrary to their Op[inions] verbal Objections thereto, [. . .] entering the same in [. . .] be pleased to pardon, [. . .] like Omission for the [. . .] in their behalf that [. . .] information of all sorts [. . .] their different sentiment [. . .] were only over [. . .] Council [. . .] for Eng [. . .] land...]

47. [. . .] Could Not Cost M^r. Shyllinge Less than Dollars 1500 & would have yielded a Price Accordingly, had they been sooner sold, as to the Rest of M^r. Shyllinge's Goods under Charge of the Ware Housekeep^r. which Yo^r. Hon^r. &c^t. Leave to the disposall of the Supervisor if to be done to advantage, they are most of them improper Goods for the Market, & Cannot be put of one wth. Another for what they are valued at, thô some of them being course Goods w^{ch}. are but a small part of the amount will sell very well, but the rest which are very fine Goods, & dear rated being much the greater part of the Invoice will not sell here, but must be exported, Yo^r. Hon^r. &c^t. has a list thereof comes herewith, w^{ch}. if you think Proper, for the Comp^a. use they shall be rec^d. into the Warehouse on their Acco^t., if not the Supervisor is willing to give that Price for them himself, only Excepting such as may be Damaged w^{ch}. We believe is no great matter, upon receipt of Yo^r. Orders they shall be disposed of Accordingly.

48. We have Given Yo^r. Hon^r. &c^t. our Sentiments of the Dep^y. Gov^r: mismanagement in Severall Affairs to the Prejudice of Our Hon^{ble}. Masters under their proper heads, in most of which he has been Guilty of a direct breach of their Orders, as contained in severall Paragraph of their Generall Lett^{rs}. to this Place, some of which We send You Coppy's of, for Yo^r. Perusal, namely the 34 & 48 Paragraph of their Lett^r. ♢ the Avarilla 50 Paragraph ♢ Catharine, & their 29 Paragraph ♢ Success w^{ch}. We should have thought a sufficient reason to have suspended him their service, had it not been out of regard to a Particular Clause in Yo^r. Private Instructions to the Supervisor, wherefore We refer the whole to Yo^r. Hon^r. &c^t. determination, & considering the great Charge the Comp^a. are now at in Salary (and Allow)ances both the Supervisor & the Dep^y. Gov^r. We [immediately] put a stop to the Dep^y. Gov^r. Salary & (Allowances) from the ♢^{mo}. ins^t. till Yo^r. Hon^r. &c^t. Pleasure [is made] known.

49. On the 19th. Jan^{ry}. M^r. James Morris was sent [. . .] Supervisor of the Hon^{ble}. Comp^a. Affairs at Bentall [. . .] wth. Orders to inspect into their acco^t. & use his [influence to settle] Peace wth. the Country Government, who [sailedd on the] 6th. May on Ship Success, but He being [. . .] could not make any Enquiry into his [. . .] 30th. of said M^o. as more plainly appears [. . .] of that date, when he could not or would [. . .] Manner of Acco^t. of affairs there pretending [. . .] the time He had been there, & was [. . .] Enquiry into their Acco^t. but at [. . .] enough to Line out a [. . .] described in the 36 Para [. . .] Government He used [. . .] ponde

[. . .] Were found as Cap^t. Graves had described them containing many earnest Entreaty's & Large Promises to Guillamott, if he would accept of the Kingdom amongst other Papers in his Pocket was found a Bond from M^r. Farmer to aid & assist him in case of his being suspended from Fort St. George on Acco^t. of sending home Mess^{rs}. Shyllinge & Garret, this puts Us upon Searching M^r. Farmer's Papers also, where his Counterbond was found on the same Conditions wherefore, We have not yet made him an offer of being of Council at Bental, as Yo^r. Hon^r & c^t. are Pleased to appoint him but instead thereof We shall suspend him the Hon^{ble}. Comp^a: Service, for the reasons aforesaid till we receive Yo^r. Hon^r. & c^t. further orders.

50. We have not Yet resolved upon settling the Council at Bental the Ballances due to themselves in Octo^r. last being very Large amounting to as $\pounds$ inclosed List Doll^{rs}. 7992-3-46 the Payment of which has been stop'd ever since because they were thought extravagant, and no Notice has been taken of it since, th^o M^r. Morris was sent down thither for that purpose; this Seems to be a great hardship upon them if there be no Reasonable objections w^{ch}. does not yet appear, We have now sent down M^r. Lewis Deane to remain there Second of Council who with the assistance of Mr. Robert Dymond We have ordered to inspect into their Acco^{ts}. & send Us their Report thereof as soon as Possible; when if there be no objections We shall Order the Ballances to be pay'd, but till We receive their Acco^{ts}. & the Country [is . . .] about them We can Neither settle [. . .] forward wth. Moco Moco w^{ch}. has been [. . .] time for want of Niales.

51. M^r. Elisha [. . .] Pleased to appoint one of the [. . .] 12th. March, his effects were [. . .] to Doll^{rs}. 1182. 1. 76 w^{ch}. is [. . .] Debts in this Place, the [. . .] him & M^r. Rawlin's, [. . .] him w^{ch}. We hope will [. . .] shall be paid into th[. . .] an 100 Pound left him [. . .] 700 Doll^{rs}. He Remitted [. . .] M^r. Rawlin's is Co[. . .]

52. [. . .] the [. . .] on [. . .]

53. [. . .] Inventory, & Acco^t. Curr^t. of his Estate.

54. We have no yet rec^d. any acco^t. from Bental of the Estate of M^r. Samuel Clark dec^d. ass also of severall other Persons dec^d. there, when we do We shall credit Your Presidency, & debt M^r. Clarks estate for the Sum payd the Hon^{ble}. President as directed.

55. Dr. Strachan having for a long time rec^d. pay & officiated as Ensign as well as Surgeon, both here & Bental, his Ensign's Commission was taken from him in Octo^r. Last, for no other Reason as the Deputy Gov^r. himself says, but that He thought it an extraordinary expence to the Comp^a. w^{ch}. having been allowed him for Encouragement, in consideration of having no other allowances than His bare Salary, and no private practice offering here for his advantage, w^{ch}. are Perquisites that all Surgeons enjoy in other Settlements, We thought it but reasonable to continue it, wherefore the same Commission was again returned him, & confirmed by the Supervisor from the $\pounds$ ^{no}. Inst^t. We did not think convenient to allow him his Pay for the time elaps'd without Yo^r. Hon^r. & c^t. permission w^{ch}. He hopes You will be pleased to consider it having been stoped from him for no misdemeanor.

56. We have not yet attempted to retrieve that article of the Comp^a. Revenues the Gaming [lic]ense, w^{ch}. would be very improper at this Juncture, [but] when the Country is in better Order about Us, [our En]deavours shall not be wanting if it be practicable but] in this We shall be very cautious how We [shall do] We not offend the Natives.

57. Padre Don John Comini having [. . .] at Madrass has desired our [Leave to . . .] thither on the Ship Success, he Promis^s. [. . .] first opportunity.

be able to bring up the two P of Books wanting by the help of the Monthly acco^{ts}. but that he cannot be done in less than a Year's time at Least; he is now hard at work about them, & Promises to spare no pains in getting them done within the Time, He proposes, & We shall take care to have the Cobby's kept in the best forwardness they Can be, that they may be ready to be sent to Yor. Hon^r. & c^t. to England, as soon as they can be brought to a Ballance.

59. This is Chiefly Owing to the Deputy Gov^r. by sending home the former Originall Books, & the Hon^{ble}. N^o. 74.ADDITION TO FORT MARLBÔ GEN^l. P^r. SHIPROCHESTER DATED OCTO^r. 23^o. 1717.

Our Last Ψ the Rochester was so ample upon most of Our transactions here, that We Presume We need not enlarge upon Subjects already treated on, especially [if] Your Hon^{rs}. please to peruse the Gen^l. Letter sent to Fort St. George by the Brigantine which contains a Ψ ticular Acco^t. of the Late revolutions of the Country Government to the departure of said Vessell, since w^{ch}. there has been discovered the whole mystery of that formidable design concerted & carryed on not only amongst all the Malays upon the Coast (except those immediately under Our Protection) but also the Oran Goonoos, or people of the woods to extirpate the whole English Nation, & ruin their settlements, We happened to make a right conjecture when We believed Sultan Guiliamot to be at the bottom of this intreague, but We were never apprehensive that the confederacy could be of so vast an extent, the same notion of hereditary right, has it seems met with a generall reception in the minds, & hearts, of most People upon this large Island, 'twas upon this principle they are so solemnly engaged in a terrible & bloody Warr, & bound themselves w^{ch}. their most Sacred Oaths, back't with the most strongest resolutions either to settle Sultan Guiliamot upon the throne, or to perish in the attempt, The two Letters that give a full information in this matter come inclosed, & are translated very exactly from the Originall, they were found in a Dusan Our men got Possession of at Sablat, 'twas upon the first of this information that Sultan Cutcheel desired to come up hither not only to pay his respects to the Dep^y. Gov^r. but readily [to] acquiesce with whatever We would propose for [. . .] being either here, or at Bentall, We be [. . .] has been so judicious as to see the [. . .] over his present establishment in [. . .] facilitate the methods We propo^{se} [. . .] restoration, Since the doing of [. . .] without it is effected, We can [. . .] tranquillity restored in those parts [. . .] warr carryed on with the [. . .] hither too attended his [. . .] acquisition to his thro^u [. . .] as 'tis not in Our p^ower [. . .] consequently for the [. . .] a full resentment ag^{ainst} [. . .] only what We hoped to [. . .] also disturbed in [. . .] consideration [. . .] just [. . .] Affair, & it has had this good effect that the Journall is monthly posted, & the Leidger in a good forwardness they will be closed & ballanced in April next according to the [last] regulation made here.

The Rampart & breast work being now Compleated We have the satisfaction to see Yo^r. Hon^{rs}. Estate, & Ourselves secured by a very durable & Lasting work, & what is very considerable there will not require any future expensive repairs thereon a few of Our Men slaves can always keep it in order, Our Ditch without will prevent any attempts an Enemy can make to burn Our houses, before this [we were] in continuall apprehensions of their doing it, We have Considered what a great deal of time it must take to procure such a vast quantity of Bricks & Chinam as must necessarily be provided to compleat a Fortification of this great extent and the great Sum of money will be required to purchase them, having a proof of this kind of Turf work (of which there cannot grow better in any place) We think 'twill be highly to yo^r. Hon^{rs}. int^{er}est to build our Bastions of the same sort, reserving in the gorge a vacancy for a store room. which is much wanted in the Fort, there being not one there at present, this is a Piece of frugality, Our present Paymaster long since proposed, but till this Year We never had a Sufficient number of Chinamen that understood this sort of work, Our Slaves grow expert at it, & we shall presently have no occasion to employ any but them to compleat it, 'tis of the same species of materials with those in Flanders, & will no doubt answer to the same purpose.

As the late commotions in the Country Government has given Us a world of trouble here, & diverted the whole body of Malays in Gen^l. from their usuall attendance [up]on their Plantations, so it has not only prevented their [bringi]ng in such quantitys of Grain as customary, but [what we are] extreamly sorry for, it has hinder'd their sending [large quan]tity of Pepper now in their Possession to Our scale [we ha]ve presented a request to Cap^t. Gorden Comman^d. [. . .] from this Board He is resolved to stay no [longer than] the 31st. of Jan^y, We have remonstrated to him [. . .] of a considerable quantity of

Pepper arriving [. . .] short time, it has been gathered, & of the ground [. . .]
 . . .]le are now Pretty easy & secure for Cap^t. [. . .] as are returned from the
 Expedition We [. . .] gives Us a satisfactory acco^t. of affairs in [. . .]
 adree or stranger that gave Us the late [. . .] defeated, his forces dispersed,
 & he himself [. . .] retreat, that He is no where to be found [. . .]
 Prisoners We have taken, [wh . . .] We are the [more . . .] use what [We Pro
 . . .] in Our [. . .] til [. . .] Breaking a Promise, which providence
 has been Pleased to put out of Our Power, that is We mean within the exact
 limited time, & since the Promise We made with so much seeming a certainty has
 failed of success, We will never make another for the future, but use Our utmost
 endeavours and industriously labour for the best, & Leave the Success to the disposer
 of all things, the late troubles has also hindered us [of] Severall Affairs, particularly as
 to a thorough examination into M^r: Garrets exorbitant Charges at Moco Moco, those
 th[at] has been Committed here, & apparently found to be impositio[ns]. We have
 debted Him with the extract & Survey of his acc^{ts}. & others of his & M^r: Shyllinges
 extracts &c^t., also We send as abridgements of their Paymasters Books, those originals
 being sent home by the Rochester, We have considered y^t. M^r: Garret proving in a
 great measure insolvent, & still retaining an obstinate temper, will not confess where
 his Effects are, so that a longer detention of him here will be no furtherance towards
 the getting them into Our hands.

We have thought it therefore necessary to send him home, but of Our proceeding
 in this, & indeed of most other Affairs here, We request Your Hon^{rs}. will please to
 peruse Our Consultations.

We are not yet able to make a judgment of the deficiencies in the storek^{ts}.
 Acco^t. Remains, th^o must needs say, that employ has been We believe very honestly
 managed, & by the small Proportion of China ware now broke, & the small consump-
 tion [of all the] things under the Stewards care, [. . .] has been more
 Neglect in not [. . .] from his Predecessor, than any [. . .] Steward
 M^r. Everest.

We have [. . .] to Charterparty agreement, [. . .] Conveyance.

We h[ave] . . .] yo^r. hon^{rs}. of which altho[. . .] Promising
 appearance [. . .] upon a Certainty be [. . .] was in the late Dep
 [. . .] transplanted into [. . .] here, they are grown [. . .]
 unobserved except a [. . .] of late We ha[ve] . . .] with the [. . .]
 Not but make upon so uncommon a sight, was how natural productive the soil is for
 such a kind of Trees, & what little trouble there is required to raise some Millions of
 them, when nature p^{er}forms so readily the greatest part of the trouble, as We could
 not let this pass over with only a transient observation, We gathered the Berry's &
 made Coffee with them, & in the judgment of Us, as well of those that are well
 acquainted with the growth, taste, size, & quality of Coffee, do believe the world
 cannot produce better, & that Yo^r. Hon^{rs}. may be confirmed, that this is no Specula-
 tive notion, We now send Your Hon^{rs}. by this ship a small quantity for a tryall, had
 the observation been made Sooner, We might have gathered a greater quantity but
 We now save all we can, & as fast as the Berry ripens We put them in the Ground,
 & that is all the trouble, those We have dealt so by already germinate, so that there
 may be as many 1000 of Trees as desired in a Nursery, they are a very hardy tree,
 & bear the greatest inclemency of weather, 'tis now with this, as with most things
 that have layn in obscurity, when exposed to the world to meet with Suddain
 improvements; there is severall p^{er}sons here already, that are for planting this
 profitable berry, & will venture their fortunes in extending their Plantations on so
 pleasing & indeed so probable a view of future benefit nor can We think this any
 detriment to a Plantation that may hereafter be planted for yo^r. Hon^{rs}. benefit, but
 on the contrary, shall be able to make a more correct judgment in the management
 [of o]ur own, & we Presume the quantity if very Great, will [never] be hurtfull
 to Your Hon^{rs}. interest but much to [the contr]ary.

We have given Cap^t. John Irving Bills [. . .] for 200 Doll^{rs}. payable
 to M^r. James Irving or [. . .] Bills to M^r. Charles Whitlaw for 150 Doll^{rs}.
 [. . .] Sarah Whitlaw, which hope Yo^r. Hon^{rs}. will [. . .] ing rec^d
 the like value into Yo^r. Hon^{rs}. Cash.

M. James Rawlins having requested that his Papers [. . .] Garrets ; vouchers of the Paym^{rs}. Acco^{ts}. relating to [. . .] might be sent home for yo^r. Hon^{rs}. Perusal, [. . .] His Request, & now transmit them to Yo^r. [. . .] He acknowledges that he has signed them [. . .] they are all forged & false being, as he [. . .] repeated threatnings of Mess^{rs}. Shylling [. . .] utmost respect & fidelity [. . .] Servants [. . .] [. . .]

N^o. 75

TO THE HON^{BLE}. THE COURT OF DIRECT^{RS}.
OF THE UNITED COMP^A. OF ENGLISH MERCH .
TRADING TO THE EAST INDIES.

HON^{BLE}. SRS.

1. Before we enter upon this unusual manner of writing to Yo^r. Hon^{rs}. by way of a Private Gen^l. Lett^r. We Presume to give some previous reasons which when perused we believe will be found a sufficient argument for Our so doing, & an undeniable proof of the Integrity We owe to such Hon^{ble}. employers.

2. When first of all We suspected Mess^{rs}. Shyllinge & Garret's dishonest proceedings in their respective employ's, We were under a Dilemma for some time what measures to take in Order to bring them to Justice, for first of all We could not but observe the Method & Pains M^r. Collet had taken to establish these two aggression in such a Manner, that for Us to take cognisance of abuses & discarding them the service for such a fault, were we confess next to breaking his possitive orders w^{ch}. at a Consultation the 10th. July 1716 Verbatim thus Whereas I have some intelligence that there is a new Dep^y. Gov^r. appointed from England, I do by vertue of my Superior Authority appoint & order that on the arrival of any such, the present Deputy Gov^r. be appointed Paym^r. & M^r. Henry Garret continue Chief of Bentall & that no alteration be made in this my Order without Order from England, of F. St. G. We do acknowledge th[ose] were their Crimes of a less magnitude, & We could by any means have continued them in the Service, without manifest prejudice to yo^r. Hon^{rs}. affairs, We would in respect to such orders have waited for advices from F. St. G. & should have been glad, had it been in Our Power to have Complaisance to M^r. Collets kind intentions towards these two Persons; His orders Left here were strengthened very much by the Extensive Commission granted [M^r. . . .] at the Supravisors leaving this place, the [. . .] to be taken notice of we recite here, I [. . .] Theop^s. Shyllinge to be Dep^y. Gov^r. of and [. . .] United English East India Comp^A. [. . .] & to Continue in the exercise [of . . .] & till the Contrary shall be [. . .] Seal (& towards the end th[. . .] of the s^d. Theop^s. Shyllinge E[. . .] degree in Council should [. . .] full & Ample a manne[r . . .] unto the said Theophilus [. . .] be known herein, and I [. . .] all Former Commissions [. . .] which is the more surp[ri]sing [. . .] here from Batavia of [. . .] the Supravisor in the [. . .] ed & Consider [. . .] & are [no . . .] [that co . . .] [such . . .] Worse Nourishment in the Body than Excessive honours in the minds of Young men; so when imperfections are grown customary & abuses of a Black kind daily Committed we presume Yo^r. Hon^{rs}. will concur in our sentiments, which are, that 'tis highly necessary not only to hinder such from acting, but vigorously to prosecute them as unfaithfull servants.

3. We desire leave to Communicate what we believe the reason of this management.

4. We have diligently perused the former Paym^{rs}. Books for the two Last Years of M^r. Collet's Government where We find expended & laid out in repairs & Buildings, in & about the Fort to the Amount of 43847 ^{D.} — ^{Ca.} 62 when we are certain there has been nothing new, but a piece of the Bastion. There was indeed Sevrall Buildings

Contracted for, but since finished in the Present Dep^y. Gov^r. time we were unwilling to look further back there being 3 of us that subscribes to this Letter that were not arrived here before that time.

5. We would not be thought to accuse our Superiour M^r. Collet as actually guilty of this great crime, and open abuse, but if We may be admitted to deliver our thoughts, We must needs believe a bare permission of such abuses renders a Person Culpable, & when there is a further inspection made into this affair & we Authorized to do so, we shall be Capable of making a better & more Correct Judgement in this matter, however this is to be observed that upon the present Dep^y. Gov^r. accession to that station he found the Place in disorder, & upon the brink of ruin; & therefore high time to use proper Remedies to give life again towards a good Constitution, to root out disorders & to set the Government upon a right foot, which we have strenuously laboured in hitherto, but in the midst of our honest industry We were alarmed with a Circumstance of that kind, we believe will scarce meet with Yo^r. Hon^{rs}. approbation & what would have been extreamly discouragious to Us; were We not solemnly resolved [to] Compleat such a reformation in which their is already made [some] Considerable progress.

6. On the [*Iacuna*] arrived with us the George [Brigantine] consigned to this Place but in such a manner [. . .] met with in any of these parts of India; The Cap^t. [. . .] no orders from this Board but to unlade & [. . .] of her way back to F.S^t. Ge: this discourteous [. . .] treat]ment gave us no small uneasiness & had not [. . .] already established, those who were con[. . .]ls would have been Looked upon, with a [. . .] such who had a Share in their ill gotten [. . .] necessarily have given Us some interruption [. . .] this part of Our Duty; We have not found [. . .] from this method of treatments from [. . .] reference to our selves than a few loose [. . .] formerly favoured & tacitly agreed [. . .] abuses; We demanded of the [. . .] Shyll]inges Letters & Effects but [. . .] as his orders [. . .] from the [. . .] &c^t: at F. S^t. Ge. for Yo^r. Hon^{rs}. perusal loaded as it is with Calumnious invectives against this Place, but Particularly the Dep^y. Gov^r. also inclosed in Our answer to it, We hope Our submissive way of writing will induce them to treat Us next time with more humanity; We were so fortunate as to make a Pretty good Judgement upon this Subject, & accordingly have writ very Large in Our Gen^l. to Yo^r. Hon^{rs}. by the Rochester, & Our Consultations are provided with all the vindictive Arguments Wee Presume necessary to justify our late proceedings; We were informed upon oath that M^r: Shyllinge had endeavoured to misrepresent the transactions of this Place, to the designed Prejudice of Us all, even in things he actually consented and agreed to be necessary.

8. We humbly request yo^r. Hon^{rs}. not to think Us tedious because upon what we write now, may not only depend Our future well being here, but also the security of Making this Place advantagious, & we hope not to be blamed for providing against any sinister interpretation may be put upon our Actions, not but that We are well satisfied that though Publick actions may be taken by two handles, some commend others blame them & receive divers names according to the different inclinations of Persons, who pass a Judgment on them yet those that are sufferers in their estates as yo^r. Hon^{rs}. are, will certainly Justifie the persons that are putting a stop to such practices & will give an impartial Ear to what is writ, In short we are now writing what nothing but a full resolution of doing our Duty could induce Us to, & in plain terms there is more then a probability that the late Supravisor here [has too often] gave Yo^r: Hon^{rs}: a meer speculative notion of things & we heartily wish We could agree in the two Common Sentiments th[. . .] of his Integrity which We fear will p[ro]ve the] best Information We have of things [. . .] We come to treat under the res[. . .] generall Letter, only this by the [. . .] & almost a maxime with m[. . .] done manifest wrongs to per[. . .] the Convict of their own Co[. . .] perceive they are consc[. . .] justice, so there is no I[. . .] are interested in the [. . .] which are desired to be [. . .] the case between [. . .] Us to this Extraordinary [. . .].

1st: Conc[. . .] Can only form Our designs & consert measures according to the appearance of things, the late revolution of Affairs here in the Country government, has not only obliged us to alter Our Methods, but was near putting it out of

own power of ever acting in any Concern of business upon the whole Coast, for the designs of the Malays & Oran Goonongs; being so formidable that they had nothing less in view than to make Us victims, to their insatiable blood thirsty desire, but timely prevented by the unerring hand of Providence, in a distinguishing manner by bestowing upon Us an entire & Glorious victory over a numerous and potent Enemy, but of this more under its proper head where We design to trace this affair from its very source & origin, which in the sequel will be found to Proceed from a different cause to what your Hon^{rs}. could reasonably expect however before We Close this head We cannot but observe how fortunate it was to have the Shipping here, not only to Countenance us but they prov'd very serviceable in the defence of your Hon^{rs}. Settlements, which is the sole reason We yet detain the Success & President from proceeding to Madrass, the first as a guard ship to this place, the latter for security of Sillebar Residency & the Company's effects there; We also beg Leave to observe that if his Hon^r. Collet had deferred his resentment untill he might have received a more impartial acco^t. of things from hence, & In the interim considered how much it must necessarily have been to Yo^r. Hon^{rs}. advantage, to have laden the George Brigantine. Lately sent here with bales, which would have made up the Hesters Loading, or any other ship upon occasion especially they knowing exactly the number of shipping expected here, & if in future Yo^r. Hon^{rs}. please to enjoyn that Presidency to send a Good Number of Bales by the Ship [which] they annually send to this Coast twould be a [means v]ery often of Dispatching a Ship in less time than [it is re]quired to gett her whole Loading of Pepper, & [. . .] save what yo^r. Hon^{rs}. so much recommend [. . .] Demorage expecially when there is likely to [. . .] shipping the Trouble is only traversing them [. . .] another We have already requested this [. . .] F: S^t. Ge: but at present We have little [. . .] is or any other from thence.

We are very much blamed for not sending [. . .] sooner than we did to Madrass, we must [. . . hu]manity induced us to send her to relief of [. . .] Rochester, but [. . .] lives of Two Ships [. . .] about sustinance [. . . i]n-
evitably perish [. . .] some request [. . .] Criminall in doing that which the law of Nature dictated to Us to Perform.

AS TO INVESTMENTS OF GOODS PROPER FOR EUROPE TOUCH^d. THE TRADE OF SUMATRA IN GENERALL & THEREIN ARE TRANSACTIONS Wth. THE COUNTRY GOVERNMENT.

10. We have so Particularly mentioned all Transactions of the Country Government in our Consultations especially as to the late revolution of affairs, that we hope when they come under Your Hon^r. Perusal they will appear to be a satisfactory acco^t. of things.

11. Sultan Cutcheel was establish'd upon the Throne a Small time before Our Present Dep^y. Gov^{rs}. arrivall here, & by the information from thence to the entire satisfaction of the People in those parts, the former Sultan retiring to the Confines of Corinthia, as a place of the greatest security from any injuries he was apprehensive might be designed against him by his rebellious Subjects, as he calls those that are adherent to Cutcheel, he therefore kept a Constant Correspondence with those of his subjects who still retain their allegiance towards him. He has spared no pains to incense all the neighbouring Raja's against the English, accusing Us of breach of Faith, assuring them at the same time, that the General defect & Corruption amongst his subjects proceeded all together from the ill advice & instigation of the English Urging he very well knew the natural propensity of Duty his people had to their natural Prince, & how a[verse they are] in their own hearts to pay any respect [. . .] plainly appears he can when he Plea[s . . .] ion to business for he has by remon[st]rance
[. . .] abroad, engaged not only those h[. . .] several Sultans, Pangarans, & [. . .] whole Coast into his interest [. . .] Cause, by reestablishing him [. . .] Attempt The suddenness [. . .] permitt Us to be so Comp[. . .]
[. . .] req^d. Yo^r. Hon^{rs}. inspection [. . .] to Jan^{ry} where are also [. . .] affair, and the Methods [. . .] out of these dangerous [. . .] Providence of God [. . .]

12. A [. . .] Your Hon^{rs}. [. . .] Is plain that Sultan Guiliamot was Terrified & Frightned out of his Throne, & that Saltan Cutcheel, has been very generous to those instrumental in bringing him in as appears by the Quantity of Gold we know has come from thence, we expect a full information in this, when the Supravisor there M^r. Morris has leisure to examine into Circumstances, w^{ch}. We will faithfully transmit to Yo^r. Hon^{rs}., in the interim if We find there is no possibility of maintaining the Publick Peace & tranquility & in that the Preservation of the Pepper trade; We have resolved to readmit Sultan Guiliamot to the administration of affairs in his own kingdom, especially since Raja Cutcheel is not only well contented, with an entire resignation of what he posseseth, but rest very well satisfied with any manner of Means We think most Convenient for him, & thô it may be necessity obliges him to this, Yet since it is a thing so materially essential, towards putting an end to these Troubles We cannot well do otherwise than support him in some Grandeur, & allow him a small stipend for the maintenance of himself & Family, so long as he behaves himself quietly & peaceably under our Protection.

These are our resolves when things cometo the Last Extremity; or when We find Sultan Guiliamot has power to make his way good to the Throne, whether We will or no, for then We judge it better to approve his taking possession then to strive against impossibility, the first will oblige him to acknowledge the Company his Friends, but the Latter will induce him allways to retain a notion that We are a perfidious People, & Consequently all the Powerfull [M]en in his Interest will be of the same mind, as they are [like] to be influenced by him.

TOUCHING FORTIFICATIONS BUILDINGS & REVENUES.

[13]. We having already detected the severall [and the lat]est wrongs done Yo^r. Hon^{rs}. by impositions under [. . .] stop to the long accustomed but exorbitant [. . .] for materials for Buildings, such as [. . .] wth. as much more due upon Ballance [. . .] few M^{os}. which was in [*lacuna*] last, as [. . .] Paymas^{rs}. Book when scarce anything [. . .] bear the denomination of a Building [. . .] t 2000 Doll^{rs}. at a time honestly laid out [. . .] of work.

[14.] [. . .] the Fort Paggar has [. . .] great deal charged [. . .] being upon the [. . .] ore have built [. . .] it Enemy, There will be no pretence of charge for repairing this work, except the Labour now & then of a few slaves to keep it in order & fill up such vacancies with Fresh Turf as the water in timè may wear away, we were obliged to Make the utmost Expedition because We found Ourselves upon the late attack, altogether defenceless, & entirely reply upon the Bravery of our men; By the assistance of a good Number of China Men, who proved very expert at this kind of Work, & the Malay Cooly's, we have Completed this peice of work in two M^{os}. which We hope will Last many Years; & we find the Expençe of Bricks & Chinam to be so very great, that we resolve What is made of that kind be applied to the Buildings good & strong Godowns, which will be proof against accidents by Fire, & not so perishable as We find the wooden ones are, & to Build our Bastions of Turf there being none we believe can exell that which grows round about Us & Cost nothing; In this work We shall be carefull to mix our lustiest men slaves amongst the China Men who must needs after a Little experience work it up as well as they.

15. There has been as appears by the present Paymas^{rs}. Book all the frugality Posibly used in expence of every kind, & we dare say He will continue to see the Money he his intrusted with honestly laid out; we send the Sassifras Wood the only serviceable kind & there is now no other sort used.

TOUCHING FACTORS WRITERS OFFICERS & THEIR ACCO^{ts}.

Since from the [. . .] here We cannot expect any [. . .] our Actions from the Pres [. . .] ever so honestly designed [. . .] tend very much to Yo^r: H [. . .] to express the Severall [. . .] regulating affairs here [. . .] Shyllinge, & Garret, [. . .] exaggerating any th[ing . . .] first of these upon his [. . .] Crimes made an [. . .] F: S^t. George & the [. . .] Considered first, [th . . .] the Goods

or [. . .] Into Our Possession in Order to make your Hon^{rs}. an equivalent restitution for what he had wrongfully acquired but rather have hindered ; & Lastly by sending home there would be the known Laws of the Land to justify Our Proceedings in the recovery of part of your Hon^{rs}. estate ; & for him also to apply to, if he thinks himself any way injured altho indeed the thing is so plain & apparent the wrong w^{ch}. he had done which is under his own hand as entered in Our Consultation of the (*lacuna*).

16. The Latter Person Mr. Garret desired also to go to Madrass, but is more surprizing claimed the [benefit] of the late Supravisor's order, which indeed the Consultation of July the 10th. before mentioned does specifie that there shall no alteration be made here without orders from England or F : St. George.

But We think our selves under no obligations to conform thereto, & hope Yo^r hon^{rs}. will Please to make the same Judgment of a thing that seems contriv'd to embolden two Villains to a practice of their Rogueries We Presume to express Ourselves plain in this, Least this Action of detaining him here thus long may be represented in a false light, He proves at present almost insolvent Debtor the most of what We have of his Effects is Doll^{rs}. (*lacuna*) which Luckily fell into the Dep^y. Gov^r. hands & is p^d. by him into yo^r. hon^{rs}. Cash, He persists in being obstinate & pleads poverty, when by a lett^r. of his intercepted, We find a Chest of Treasure sent from Bentall & the King William to F : St. Ge to be paid the Hon^{ble}. Joseph Collet Esq^r : to whom also, is to be observed are payable all the Bills of Exchange We have belonging to M^r : Shyllinge, but the mony is not mentioned to be p^d. in here by M^r : Shyllinge but under the [desig]nated names of Nicolo, Irving & Guillim.

Thus have We gone thro the necessary [particulari]ty, & tho the Generality of People may think, & We [are here] somewhat apprehensive that the Presidency of [. . .] ha]ve other sentiments of things then perhaps to put [. . .] construe]tion upon our Actions ; Yet we doubt not Yo^r : Hon^{rs} : [. . .] with the regulations lately made here, & the fruga[lity no]ticed in every kind The former Steward M^r. Ross[was very ext]ravagant in every part of that Employ, his monthly [accounts were gen]erally 1700 & sometimes 2000 Doll^{rs}. besides [. . .] of Dieting Stores taken up of the Storekeep^r. [. . .] less than half that sum ; We suppose the late [. . .] China Ware & other Utensils might proceed [. . .] easily be broke in their junketting in those [. . .] proportion less used now, & this [un . . . fr]audulency in the prese[n]t . . .] most respect [. . .].

[. . .] Notwithstanding Mauberize Cawne has given Coja Gee, Rajah Subbanas Country that was; nevertheless the Latter gives a great deal of trouble, & hinders the People plowing the Ground, the Consequence of which, We cannot Judge how it will end.

Rajah Opporow pays the Nabob 2,000 Rupees more then formerly for the Rent of Dieu Island by which We suppose he thinks it will in some Measure hinder our obtaining Possession of said Island

On the 26th. Ins^t. arrived here a Dutch ship directly from Negapatam, there is some Batavia Arrack aboard for sale, but they ask 32 Pag^a. ¼ Leaguer, which We think dear; it is thought, & reported that the Dutch will withdraw Polcull, on acco^t. of Rajah Ramrauz's Continuing giving them trouble.

The 26th. Ins^t. at night one of our Topass Soldiers entered here deserted, & immediatly We sent Peons in pursuit of him, but they are returned Back without getting any intelligence.

Inclosed We send a note which is concerning Mr. Nodens slaves, as likewise a list of the deceased effects; We now send Yo^r. Hon^r.

Our Letter of the 14th. of May mentions our confining Mr. Nodens Dubashs & Slaves, till yo^r. Hon^r. further Pleasure was known, & as it being some time ago, & no answer come, they desired that we would interceed for to get them released.

The Nabob still continues in wars ag^a. Rajah Mullah Reddee.

We have found the Acco^t. depending between Mr. Noden, & the Weaver, as formerly mentioned [& we] now send Yo^r. Hon^r. a true Coppy as wrote by him [which] Our Braminy attests to be the last, yo^r. hon^r. will [see] that there's no date of the year put to said acco^t. GENTLEMEN

I hope the Necessity of My affairs with [whom] Justice will plead excuse, for the present trouble I [am in too;] & as the unfortunate are truly objects of [pity I hum]bly beg Yo^r. goodness, so far to extend itself [such] as to inspect the following acco^t. wth. a favourable [. . .] so particular as I would, under any one head. [. . . a]equainted, with what charge is laid against [... shall] Proceed to give You an acco^t. of the Transactions [. . . in] I have been concerned: to the utmost of [my ability & exactly] according to truth, and as I can [. . .] it the last words I were to speake.

[was] I convicted of wronging Hon^{ble}. [Comp^r. I would con]tentedly wait My sentence with submission [. . .] cannot accuse my self, with having been [. . .] them Justice; which I think [. . .] to do it's hard to [. . .] seeking for [. . . wh]at I believe [. . .] to Private [. . .] I was entertained in the Hon^{ble}. Company's Service by Gov^r. Harrison, and came hither on the ship Dolben, since which time, I have constantly made it my business to promote My masters Interest & endeavoured to the Utmost of my Ability faithfully to discharge every concern committed to my Care; with Care, & Dilligence, hoping thereby, to recommend My self, to some farther encouragement in their Service, but always found I was kept backward aud discouraged; but for what reason, I know

not, without it was thrô, the Insinuations of Cap^t. Orrill; whom tho He carryed it fair to my face, believe not to have been My friend, it would be too tedious to desend to the Particulars of My discouragement, at that time or my Endeavours to gain the favour of Our Gov^r. which was impossible, for I always found him Prepossessed, with something to my Prejudice which I was ever unacquainted with, nor cannot to this moment with the nicest examination of My conduct; find out, tho doubt not if Occasion requires to clear my Reputation, to the Satisfaction of all impartial Judges, against any aspersion, may be laid to My Charge.

I continued at bantall till Gov^r. Collet was ready to Leave the Coast, at which time had liberty to come up hither, & was appointed Pepper godownkeep^r, an employ of no manner of advantage; but a great deal of Hazard in which continued, tho eldest Factor in the Place; till the Present Supravizor's Arrivall. I hope Gentlemen, You'll excuse my speake [. . .] so far as to say, that I discharg^d my work with much care and Diligence, [. . .] greatest disadvantages [. . .] having layn open, whereby [. . .] spoyled, or at least a goo[. . .] I gained almost 15 Bat[. . .] the former Gentleman [. . .] lost, some six, som[. . .] Instance, will Plea[se . . .] former Conduct, w[. . .] was governed by [. . .]—bent on [me . . .] my [. . .] Was certainly led away by Garret; & His Reasons debauched with the hopes of getting a Plentifull fortune in a small Time, & Leaving the coast, before the Comp^a. would come to the knowledge thereof, for they immediatly Joyned Interest, and notwithstanding Gov^r. Collet's Orders to carry on the Buildings, (as was writt ^{to} Ship Borneo to England) He made use of all the materialls & Employed all the Comp^a. workmen, & slaves, about their Joynt House, callet the Hermitage & afterwards charged them to the Fort, tho there was nothing done, towards the Company's Work, His whole Time of all which, there was nobody dare take notice, if they were willing, on acco^t. the following Instance, One M^r. Aylmer a Factor, who was appointed Paymas^r. Assistant, & to look after the Cooleys; Complaining that in the Quasso Month, when He mustered sometimes 25 sometimes 30, & at most 40 a day, at work there was charged 150; He met not with the Least Encouragement, but was severely cheeqed by s^d. Shyllinge & Garret, & threatned to be sent to Bantall; the Common Place of Execution for this Coast, whither in a Little Time he went; thrô their Means; & the Last news I heard of Him, was that He was in a dying condition, past recovery; & all for Inocently desiring, to do the Comp^r. Justice, by which Gentlemen You may see, how dangerous it was, for any body to Interpose, in those Times.

Things continued going on in this [manner] till the News arrivd of M^r. Farmers being [appointed] Deputy Gov^r. by the Hon^{ble}. Comp^r. w^{ch}. struck [completely at] the root of Shillinge's Ambition, that there [was a] malicious story or contrivance Left unsaid, or [said concern]ing Him, & the Common discourse was [. . .] stoping him in Madrass, that Shy[lling would] continue here, in said station, & M^r. Place, which they did & laid every thing of their Villanous Transactions at His door as ^{if} Oath of the Person who writt those Lett^{rs}. for M^r. Shyllinge, the true Curr^t. as they were Pleased to call it run at such a rate at this time by their Caballs and Contrivances, as I really believed at last would break out into some open extravagance and force, & I was Informed by a Gentleman afterwards, who pretended to be a Friend to the Gov^r. tho at that Time, very great with them that they Informed Him, they had laid a design, of raising

Comotions in the Country which Garret was to do at Bantall & Shyllinge at Cattown by setting the People in a Rebellion, that they might have a Plausible Excuse, for some Villany they designed against the [. . .] but he refusing to be concerned, the [. . .] only to sitt still, & not act an[y . . .] & they did not doubt to Effect [. . .] if it should be necessary at [. . .] of, & inform who the Pers[. . .] things I saw without eve[. . .] need say, My respect [. . .] the consequence, & [. . .] To see what method [. . .]rity, at Length He [. . .] to Bantall & Sh[e . . .] Course, a Little [T . . .] an acco^t. the be [. . .] co[. . .] [. . .] Out Great abuses, severall of which He turned to and ordered me to sit down, and make minitts of them that there maight [*sic*] be a survey made of the severall Places where such expences were Charged, which I accordingly did, & there followed a survey, by the Gov^r. & Council with Shyllinges suspention, & the severall affidavits made against him, before my being concerned in any respect otherwise, then by taking out those Minitts by the Gov^r. orders which Gentlemen, I submit to Yo^r. sensure whether I was to blame in, by obeying My Gov^r. (being at that Time no more then Factor) or whether it would have become me to have denied doing them ; Nevertheless all the spite & Malice is leveld at my head as the Author of all, & I am ordered to Bantall, out of that Pious design, that I may be put out of the world without any Noise, or the knowledge of my Friends, they knowing it impossible I should Live there, having already wholly destroyed my health & broke my Constitution by serving My Hon^{ble}. Masters at said Place already for the space of Two years, in the sev^l. Quality's of Chief Council, Secy. Pepper godownkeep^r. Storekeep^r. Steward, Paymast^r. Assistant, & the Command of their Forces, in the Warrs against Mansore, & Sillaman, at Battee Pootee, where I had the happyness to do them some [ser]vice, tho^t had my self the misfortune to Contract [such a] sickness as I am afraid shall never get rid [of]. Gentlemen, I beg for God sake You'd [again] consider me in this Particular, & recall that [. . .] continually lyable to suffer under the exe[. . .] & the only hindrance at present is my [. . .] which I brô from thence, since the Supr[. . .] & I humbly beg If I am not allowed [. . .] Hon^{ble}.] Comp^r. here with Safety, Peace, & [. . .] h[ave] the Liberty, of retiring to some [. . .] place in In^dia, having served My contracted [. . .] which Request I most humbly [. . .] compulsion & shall be ex[. . .] .

[. . .] Mr. Shyllinge [. . .] remains [. . .] fill up the Vacancy by Mr. Shyllinge's Dismission, I beg Gentlemen You'll Pardon the digression when I observe the Partiality of a certain Gentleman (in the following Particular) I am ordered from the Board because the Secretary was formerly appointed Youngest of Council, and to hold His said imploy, now Kington is continued who was made since said Order, as well as my Self, & Introduced after the same Manner, by His refusall, & of whom the Sec^y. in Justice ought to have taken Place Likewise what reason can be given for such Injustice, but that I am the Person to suffer (right or wrong) for being assistant to Gov^r. Farmer, & obeying His orders in doing the Comp^r. Justice.

After this we proceeded to make an end of the survey which was done by all the Council with utmost care & exactness possible but as the Major Part had been gone thorough before there remained but Little to be done, being the Fort Paggar & Timber shedd, But Mr. Ellill being made Paymast^r. requested the Council might be at the Over Hauling the remains on the spot, which was accordingly complied with, & the Two Master Carpenters, One a ship wright & the other a House Carpenter, appointed to examine every Timber & cut it to see if it was good & fitt for the Comp^a. use, & according to their report, either took it in or turned it out which I hope will be approved [. . .] method could be taken, for We were [. . .] Timmer Gentlemen I beg Leave, to [. . .] Method taken, & no other, a [. . .] Our Oaths if Necessary, & [. . .] of no Private Orders given [. . .] —ally or to be servere neith[. . .] Objection from the Ge[. . .] all there, the whole ti[me] [. . .] ever methods may [. . .] those Persons to [. . .] about to do which [. . .] Timbers that were [. . .] for Cockrum the [. . .] Sam[. . .] To Prevail with

him) has been Promised incouragement if He would; & threatned with dreadful things as going to Bantall ruin &c. if He would not recant from the Oath He took against Shyllinge.

Mr. Shyllinge after this being so troublesome to Gov^r. Farmer to strain a point in his behalf as he Called it, continually the hindrance of Business & aiming at his former method of making a great many Friends, was confin'd to His Lodging in the Fort, & on the Rochester dispatch ordered on Board for England, to be Delivered up to the Hon^{ble}. Company, which if a fault most Humbly beg Pardon, & Hope if there is any excuse it may reach to my self, for I was but just made one of Council & of Course not so well experienced in the Hon^e. Comp^a. affairs, & take the Liberty to assure you, was wholly Ignorant of that order, to the Contrary, besides Gov^r. Farmer Producing His Contract with the Company wherein its specify'd all Persons so offending shall be sent to them in great Britain which I thought authentick enough, & so never scrupled It any further, I humbly submit myself Gentlemen to Yo^r. Determination, & shall contentedly suffer whatever You are Pleased, to think I deserve, for my share of that mismanagement, but dread the Partiality of some persons who will take all Opportunities to Oppress Me, & let other persons more deserving of it, go free I Likewise thought His debt pretty sure to the Comp^a. His Effects lying in so good hands as the Hon^{ble}. President; who was His attorney, & there being considerable Sums returned to Madrass by Bills of Exchange [ready mon] ny &c.

A Short Time after the dispatch of the [. . .] Mr. Garret was sent for up from Bantall to [hand over his] Charge, which He did by Evasions, and so [. . .] (and his defrauds so) Apparent to [. . .] He was dismissed the Hon^e. Comp^a. Service [and confined] to a room in the Fort in order, to be sent [. . .].

Having proceeded thus far as succ[. . .] my knowledge or memory will give [. . .] obliged to go back to the Time of Gov^r. [. . .] to give You an acco^t. of an affair [. . .] since had Like to [. . .] the Hon^e. Comp[. . .] from Bant [all . . .] up [. . .] Them, as they had been Concerned in a way of Trade together, but took notice of their being at this time, extreemly Close, & continually Whispering together, which made me think, something was in hand, which time must discover, & which came out as I expected, for Presently after Gov^r. Collet's departure, heard Sultan Guillamott had run away; & Left His country for no body knows what, by which reason the throne was declared vacant, and Cutcheel Choose Sultan, this Sudden strange alteration brought to my remembrance, what I had formerly taken Notice of, which made me think all was not right at Bottom; Guillamot having had His whole dependance on the Comp^a. from a Child & they having spent considerable Sums of Mony, & a great many of their Servants Lives, for sevⁿ. Year's together to defend His right, & Title to the Crown against other Pretenders; Those Gentlemen then concerned must excuse me, if I thought it a Little strange, that such a Prince, should Leave His Country & Grow Jealous of the Comp^a. on whom he wholly depended, without some Reason, and an other Person to be raised to the throne, without right or Title was as strange, its true, He was a very Yong Man, & given to extravagance of Gaming & Women, but then I think He made sufficient [. . .] leaving His Chop wh[. . .] in the Factory for the Chif[. . .] with, & it was His fault [. . .] Country Government as [. . .] seldom or never conce[. . .] ued to Govern the Co[untry . . .] Peace, & quiteness, d[. . .] making Friends & [. . .] appeared in the [. . .] Circular Lett^r: the [. . .] Dusan up Catto [. . .] have [. . .] Not as some Persons now Insinuate to the Gov^r. Farmers fault on acco^t. the Salt Trade which shall speak of more here after). This storm broke out First by Guillamott Marching thorough the country with a small Force & claiming it as His own, till He came to Cattown where Joyned Rajah Quassa who was in Arms on His acco^t., Cap^t. Jeddree followed Him from Bantall & reduced sevⁿ. Dusan which had declared for Him, & Mr. Newcombe was sent down from hence to Cattown with a Party against them, Likewise, which force made Quassa retire up into the Country & Guillamot to Sublatt River but in the mean time, We

had work cut out for Us nearer Home, by one Padre Panayma, who came down out of the Country, with a Party of about 400 Men & was Joyned by Rajah Cutcheel, Jangatto's son with about 80 Men More, the Padré Pretended to come to Trade, & brought but few Men at first with Him, which made the Gov^r. believe His pretentions might be reall, but greater Numbers continually Joyning Him, & the Pangarans Jealousies allarming Us desired Him to come to the Fort with only a few of His attendants, to Bechar wth. at First, He pretended He could not, for His People would follow Him, & He came into the Coffry Paggar the same Afternoon withall His gang, and Rajah Cutcheels, with Intentions as was thought to attack the Fort but believe [was a] fraid to make so bold an Attempt, (thô He might [have obta]ined the Settlement with a great deal of ease [as there] was nothing, but an old rotten Paggar to keep [them from] burning the Buildings which are all of [. . .] ttopt, (which is the same as Cadgejans [. . .] the Leave lying stright) that there was [. . .] then throw a fire stick or Bunker on [. . .] & the work was done; & the Paggar [. . .] foot] from the Buildings, but it pleased [. . .] harm done, for He still Pretended [. . .] & retired to Bencoolen with a [. . .] Cap^t.) Irving would be Hostage among [. . .] Fort, the next day of [. . .] of being so good [. . .] at Bencoolen [. . .].

The Late danger the Place had been in or might again from the sudden surprise of a resolute Enemy made Gov^r. Farmer think it highly necessary to put it in a better posture of Defence which talking to M^r. Ellill our then Paymaster about, He proposed a work of Turff, about 5 or 6 foot high & 8 foot Broad with a small Parapet on the Top, to be the most Defenceable, and soonest done, which Opinion of His was complied with, as He having been sent Engineer from You, & We thought knew more of the matter, then any of Us, & I'll assure you there was no other design, or intention therein, but for defence, & Preservation of the Place, & if the work was not good it's Ellill's fault alone, who would not suffer any body to interfere therein, or in the least concern themselves & I can safely take my Oath, the Intention of the work was good, however represented by ill designing Persons.

During this Encounter near Home the affairs to the Northward had but a Dismall aspect (for after the Padre was drove away, Pangaran Munko Rajah) as the Gov^r. informed Me) came to see Him & fell into discourse about the occasion of the Present troubles, & told Him, Sultan Guillamot as well as Himself had great Injustice done Him, for there had been a Lett^r. writt as from Him, in His name advising Guillamot to fly for His Life, or else the [. . .] cut of his Head, which was all [. . .] out of His Country, & that it [. . .] country round against the [. . .] restore Peace, was to rein[force...] Gov^r. Discouraging the rest [. . .] that Subject, & they repo[. . .] most advisable to try [. . .] way, wherefore New [. . .] tion of Arms, with [. . .] to save the Pepper [. . .] I know not whether [. . .] what, but it came [. . .] first [. . .] Hears of Cap^t. Jeddrees Marching out from Bentall with the strength of that Place, but He immediately brings a force into the Heart of the Country in the Neighbourhood of that Place proclaims Himself Sultan, & Burns the Buzarr this Action with the session to the southward obliged the Chief to recall Cap^t. Jeddree with His Party for security of that Place, & to send advices Hither of the Posture of their Affairs.

The bad State of Affairs to the Northward very much allarmed the Gov^r. & every Body else concerned in the Management of affairs, & confirmed the Opinion of its being better to Settle the Peace of the Country at any rate, then hazard the Loosing all, We not being able to assist them with a supply of soldiers on acco^t. the Two Partys which We had out (and without any advise of the Success of One) which made the Guard very weak; but the Gov^r. thinking it requisit one of the Council should go down, fully Impowered if Possible to settle the Northern Affairs Amicably by reinstating Sultan Guillamot on any Terms to the Comp^{as}. advantage, to encourage Our People & make the place defenceable, I happened to be the person thought proper to go as having been there before; I accepted the offer (thô very unwillingly, & must take the Liberty to assure You Gentlemen, out of no other motive, but to do my Hon^{ble}: Masters Service, for I was not recovered of the sickness I brô up with me two

[. . . years] before, and as for Profit I know could not get [any sum] by it, but Lost in my Pay monthly and am [about] 150 Doll^{rs}. out of Pocket for said Voyage which [I would] Like to be reimbursed, if You are not Pleased [to bestow more] on me, and do me Justice.

I went on board Ship Benjamin the [. . .] & Gott to Bantall in about a week's [time &] found every thing in the most deplorable [condition with] the Buzarr burnt, & all the People [there fled and] the Factory Paggar in such a con[di]tion that it was ready to fall in Several Places, & [. . .] in and out as they Pleased with Incompassing the [. . .] ons, & all ou[. . .] Occa[. . .] Dismall Posture, Obliged me to think of some speedy Remedy to secure the Place, & as there was not a quarter Paggar Sticks enough to do the work, & no more to be got at that time, I thought it more adviseable to take the same method as was at Marlbrô on the Like Necessity, then run the hazard of Loosing not only Our Hon^{ble}. Masters Effects on the Spott but all their Intrest in the Northern Settlements (for I am certain ten resolute Men would have taken the Factory at any Time) for Ippue and Tryamong were already cut off, before my arrivall, and Moco Moco must have followed the same fate if Bantall had suffered they being the only two Places the Comp^y. had Possession of, wherefore gave directions to Mr. Ballet the then Paymas^r. to raise a Breast work of Turff 6 foot high & 5 foot thick well staked, when he had done that to clean the Trench which was almost stoped up, & fill up the Bastions with the durt to mount the Guns on, which work I am sure would make the Place more Defenceable then any Paggar ére was; if my orders were not complied with, I cannot help it, for I was very seldom able to Look after it, my self, by reason of My illness, being seized the second day after my arrivall with a violent fever & vomitting, which held Me almost the whole Time, and rendered me so weak, that I was hardly able to go through the writting business to Sultan Guiliamot, conformable to my Ins[tru]ctions (Copy of which should have [. . .] from me) however they were to P[. . .] friends with the Company, an [. . .] Throne, which I endeavoured [. . .] but could not bring it to a [. . .] You, before He was so tho [. . .] not trust me, However [. . .] the Plantations and [. . .] that We might the [. . .] in hopes of assist [. . .] writt for, things e[o . . .] Middle of April [. . .] being without [. . .] as [. . .] He asked me Several Questions about Bantall which I answered Him in the best manner I could, He inquired Particularly for the Book of Mallay Lett^r. which I told Him thought was at Bantall, not knowing they were put up among my things, as I afterwards found, for I came off so ill from thence that I knew nothing that was done, & my things were brought of the next day, the Pacquet made up on board ship, & Papers brô off that I never desired, nor knew of and put among my Cloaths by my Servant, however, when I was a Little better tak^e. my Cloath out of my Chest, found said Book when Mr. Lewis Deane coming in I told Him the matter, & desired Him to carry them up to the Supravisor for me, because I was out of Order, He told me it was better I should give Him them my self, which I said I would, & really designed as Φ Copy of His Oath to the truths thereof inclosed N^o. 1 His denying to carry them up, & my Illness Occasioned it's being Neglected for a day or two when Mr. Newcombe being made Pepper godownkeep^r., came & turned me out of My Lodgings at an hours warning that belonging to said Employ; thus I, & my things were turned out without having any place to go to, sick & weak as I was, & continually ill with fretting about my usage I was forced to put my things in the Pepper Shedd [&] lye myself for two or three days in an outroom almost [as bad] as the street, I beg of You Gentlemen to consider, [if any] Person in my Condition should think of a Lett^r. [the mere] vexation, & troubles, were enough to put it out [of one's mind] without any illness which brô these Causes [to a head] & afflicted me very much with a violent pain . . . all over body and] head, which made me not know some [times . . .] id, at Last by application to Mr. Hubbard [. . .] Room in the Fort, but in the Midest of [. . .] I could set my foot in the Room, or [. . .] I was sent for to Council, & among [. . . m]ade to Pay for the brestwork at Bantall [. . .] Mallay Lett^r. Book, to which not [. . .] and not readily rem[. . .] head, made the sam [e . . . de]livered a [. . .] should not [. . .] and [. . .] Him, I never designed to have kept it, & that it was through inadvertency.

that I had denyed the matter, & beged of Him to send for M^r: Deane who could do me Justice in said affair, for I was very willing He should be satisfyed, thô I might with the greatest reason have answered keeping said Coppy's of Lett^{rs}. for they were writt purely for my own use, & satisfaction, & not with design to be delivered up, wherefore they did not belong properly to the Comp^a. but my self, as I hope Gentlemen, You will allow reasonable, that I should have Coppy's of what I had Transacted, for my own Security (the Originalls being at Bantall in their Proper Place) Nevertheless all excuse, thô never so reasonable signified nothing, for the Opportunity was gladly laid hold of, thô they had the Book, & under the Pretence of searching for Papers belonging to the Comp^a. ransacked all my things overhauled all my Private Lett^{rs}. even those to my Relations, & Friends, before I was in the service, & took what they Pleased away, & not Contented with that under pretence of Looking for a bond searched my Pockets; & took every thing of my own private affairs from me, without giving any reason for it at all, & afterwards locked & sealed my things & removed Me into another Room, where I was confined 53 Hours, with My windows [& doors shut . . .] Pen, Ink, or Paper or the Liber[ty] [. . .] near me, but a Little Boy, & [. . .] Usage, as always knowing [. . .] to be convicted of some [charge . . .] Such a Manner; had[. . .] have expected such [. . .] doing Justice on sh[. . .] wards found that [. . .] sample of what w[. . .] had the Least fa[. . .] that they knew [. . .] as [. . .] The reasons of such an Expression with the Val[idity] of the consequence, which brô Us to consider the r[esent]ments that must of necessity fall on Us from a [Person] so strictly united with Him, & accordingly occasioned the proposall of Bonds to be Given from one to the other for our Joynt Security (Gov^r: Farmer I believe suspecting Ellill's Sincerity as find since had reason) the Tenour of those We gave Gov^r. Farmer according to the best of My remembrance were if He was broke on Shyllinge or Garret's Acco^t. & went home or was sent to any other part of India, We were to accompany Him under the Penalty of 1000 Doll^{rs}. & those He gave to Us were in Case we were served so, He was to assist Us, [with] writting to all His Friends at home, in Our behalf thus Gentlemen I have related the reall truth the Occasion of this mighty matter, & Leave You Judge what prejudice it could do to the Company for Us to Joyn in a mutuall defence on expectation of Oppression for doing them Justice, or what business has any body with those Bonds but Our selves they relating in no Manner of respect to any Body else.

Thus Gentlemen I have run thrô the whole Course of Transactions on this Coast that I had been concerned in with the greatest truth & e[xacting the] Possible my memory will allow of, & hope [Yo^r.goodnes]s will Pardon the Mistakes and To[. . .] have happened as occasioned [thro my . . .] & the Inconveniencys I labour [under . . .] forced to hide every Peice of Pa[per as I . . .] fear of being found out, and [having . . .] as I have been already se[rved in . . .] I had writt to M^r. Frederick [that . . .] want of being particu[lar in the . . .] thing happened its owing to the [. . .] which are still in the supra [. . .] me again [. . .] Particular Char[. . .] not to dir[. . .] And speediest manner, for the safety of the Place, which that work was at that time thought to be, by every body here, thô at this time run down to oblige a Superiour Power, if the work is not so well done as was proposed, by not having scarpe enough low'd proportionable to the wett soaking weather of this Coast its wholly Ellill's fault as He would not suffer any body to interpose with their advice.

As to that done at Bantall, which the Supravisor threat'ns to make me Pay for. **SECONDLY.**

I have Likewise shown the Necessity of Providing for the safety of said Settlement already; but shall take the Liberty to assure it was the only method could then be taken to secure the place, & besides the Example I had of the same, being done at Marlbrô which every body then approved off; I wrote to the Gov^r: & Council of it here, & in the next answer had an Approbation of [ot]her things w^{ch}. [nee]ssity of the [. .] obliged me to [. .] bation I hope Gentlemen clears me from the Charges of doing

it without Order, & I can with the greatest Justice, and truth, Assure You, that if my Orders were punctually followed it would be very serviceable and Lasting, and want Less repair then any other sort of Work, for I took the greatest care to rectifie all the faults I thought Ellill had made in the other, but I [was] not able always, to see it done my self, therefore it is not done according to direction [. . .] not mine, for he had the Pay [. . .] Ordering of the work but Le[. . .] it's an easy matter to des[. . .] ting Great Gun's on the [. . .] quarter settled a [. . .] I have often [. . .] them in, as se[. . .] please, but whether [. . .] design or Ignorant [. . .] there, but it's very [. . .] since, which may [. . .]. *[About half a page lost.]* Or not, & to the truth of my Intentions Copy of Mr. [. . .] Affidavit is entered hereafter.

FIFTHLY

As to my being provided for a Se[ason] by hiding my Papers, & having Sliding Boards [of] Lodging for such a use, as I am Informed is in[certed] in Consultation.

The reason of my being prearmed [you] may Please to see from our entering into a Joynt [bond] as ~~th~~ those Bonds, but for hiding or destroying [&] I don't know I had any reason to be afraid of Sh[yllinge] any of mine nor never did so before they taught [. . .] over hauling, even my own Private Lett^{rs}. and P[ulled] My Pocket, with a Brutish rudeness, which has [made] me do so since, by all they Left me, to execute my [condi]tion on, As to the Sliding Boards, I am almost [forced] to take notice of it, but as I am informed, it is [more] an Aggravation against me, Please to hear th[em] as followeth, when Mr. Shyllings was Gov^r. He [was] Informed, from some body, that I could grave an[d] a Little indifferently, as I sometimes had done, [to] My Friends, or divert my Self sent for me, & de[manded] if I would Engrave His Arms, and Cypher on a Go[ld] . . . which I Promised to do, as well as I could, [when I went] down to my Lodging, I sent for the Carpenter [. . .] a small Peice of Board against my Closet [to ingrave] on, and whilst He was at work I thought [of making] a conveniency for holding my Grain [and for] small Triffling things (which I used [. . .] near at hand, that I might not be [. . .] time I wanted any, to lo[. . .] ared Him to take down [the . . .] on my Left hand wh[. . .] for holding them, which [. . .] the use I ever made of it [be . . .] and it's very unlikely I[. . .] hide any thing I valued in [. . .] able to fall if any thing [. . .] to the truth of [. . .] follow [. . .] Fat[. . .] This Article is chiefly leveled at Gov^r: Farmer with all Malice and Spite that a Lye can invent but since I [was the] Party concerned & am fully acquainted with the matters [I] proceed to relate the reall fact & truth as can take my [. . .] at any Time if necessary Viz^t. Mr. Kington our Storekeep^r. is at present the Accuser on this head] in discourse [with] me about the means of getting Mony in an Honest [way] on the West Coast, & Likewise expressing a des[ire] concerned with Me, whereby We might Cultivate Friendship, which He proposed by buying Paddy in the Country & exchanging it with the Comp[anys] salt at the rate of a bamboe of Salt for a Bamboe [. . .] & the same Quantity of salt, for two Bamboes [. . .] which I knew was the Rate Gov^r: Collet ha[d] . . . it at with the Mallays formerly, which [was . . .] not so scruplus as knowing it according to th[is . . .] given, and to make me come into it the re[. . .] me he had all along done so I being un[able] to . . . do any thing without the Gov^r. he agreed [. . .] it to Him, which He did as no way det[. . .] the Company, as indeed it was not, this [. . .] Mo. of Novem^r. the troubles begining, [He . . .] grain to exchange as He proposed, [. . .] to take some out to supply the Buzar [. . .] 25 ~~th~~ Cent the Customary advances [. . .] bought out of the ware House [. . .] which Gov^r: Farmer agreed [. . .] to the Comp^{ys}. Orders, & In[. . .] Kington propos[. . .] taken out [. . .] among [. . .] owes [. . .] then [. . .] hold of [. . .] cou[. . .] a[. . .] Any Orders to the Contrary only Mr: Everest had got about 1,600 Bam^{rs}. in being formerly concerned with Kington & the Gov^r: thinking His Post was beneficial enough for one (where mony is so rare to be gott) would not let Him sell it but bought it of Him on Our Joynt acco^t. at the price he could have sold it for, to the Mallays, thus I have laid open this

Mighty affair in all its parts according to truth and Justice, & hope I have in some measure cleared the charge laid to Gov^r: Farmer on this head, as well as my self in being concerned, but most humbly submitt it to Yo^r. Sensure and goodness.

This is all I can at present hear to be alledged against me, which hope have answered to Yo^r. Satisfaction, and my own Justification, & most humbly throw my self and Cause at yo^r. Feet begging Yo^r: Justice, & Goodness will deliver me, & severall others here from Tyranny, Injustice, & oppression; there being no other Power under heaven, We can fly to for succor, but Yo^r: selves wherefore hope, You will take pitty on Us and Consider the Merits of the Cause, with a favourable oppinion, for I assure, Gentlemen, as I hope for any mercy from Heaven, I know no design to wrong the Comp^a. in any of the foregoing transactions and am very sure on Gov^r: Farmer's Acco^t: as well as my own, nothing has been done, but with a good, and honest design, [. . .] Our Hon^e: Masters, wherefore hope Gentlemen, [. . .] thing should be brought in against me, which [. . .] been preadvised of You would be pleased not to [. . .] haisty a Judgement against me before I am [. . .] own Innocence so well that doubt [. . . of] God, will enable me to [. . .] ertions or Accuzations [. . .] respect being of the [. . .] [Wi]ll allways be acknowledg^d [. . .] and Respect by. *[A portion lost.]*

[. . .] obliged and [. . .] Our Supravisor, which I told Him thought would be properer to do Himself, which He said He would, & that He found them amongst His Linnen, not knowing they were br^d off at Bentall, and that, I do believe He would have done it but was hindered by His removall from said House and illness.

WHEREAS it hath been reported that M^r. PRESID^t. & GOV^r. OF FORT ST. GEORGE & C^r. COUNCILL.

HON^{BLE}. S^r. & C^r.

Upon a Ship that Imported here the 29th. Ult^o. arriv'd some of our Town People, who came From Fort St. George, & informed Us, that the begining of Last M^o. an Europe Ship sail'd bound for this Place, so that if they are not mistaken, We may conclude she has overshot the Port, and is gone to the Bay.

It is impossible to express the Miserable [condi]tion this country is in at present, nor wou'd [. . .] Yo^r. Hon^r. & C^r: with a tedious Relation of what [. . .] excite horreur & Compassion at the same [. . .] Famine is so great, without that We can [. . .] People from flocking into our [. . .] they lie in the streets in great number [. . .] found dead in a Day, & can scar [. . .] burry them, th^o We turn them our [. . .] swim over the River, creep in the [. . .] hedges or find some other [. . .] This is to Us a sensible gri[. . .] forced into so much [. . .] they have hither [. . .] To take the Custom, or Permit His People to take it without any quarrelling or difference.

4. We have had greater Rains than has happened for sev^l. Years before, which is a great hinderance to Our Cloth Coming in as well as the great scarcity, in so much that the Coolys cannot get provision on the Road, for Love or Mony, a Large Parcel of Cloth has been now above twenty days upon the road, and is not yet arrived.

5. At a time when our Expences run so high We should not be forward in moving anything to Yo^r. Hon^r. & C^r. that might tend toward encreasing them, but Necessity obliges Us to Request Yo^r. Hon^r. & C^r. will make Us some allowance, in regard to the Present scarcity of all sorts of Provision; We shall not say more than that our Present allowance for diet is not a fourth Part sufficient to discharge that Expen^{ce}.

6. The Dartmouth Brigantine is in readiness to go over the barr as soon as the Weather Permits; We shall put as many Bales on board as she can conveniently carry and order Her to touch at Metchlepatam according to Yo^r. Hon^{rs}. & C^r. former directions.

7. We have drawn a Bill upon Yo^r. Hon^r. & C^r. for Pag^s. seven hundred Payable to the Hon^{ble}. Presid^t. that in case the Report of the Europe Ship being overshot this port prove tru[e . . .] want of Cash.

TO THE HON^{BLE}. JOSEPH COLLET ESQ^r.

GOV^r. & C^r. COUNCIL OF FORT ST. GEORGE.

HON^{BLE}. S^r. & C^r. S^{rs}.

By this Opportunity I take Leave to acquaint Yo^r. Hon^r. & C^r. S^{rs}. of our arrivall here in this Port (June 5th.) after a tedious and most troublesome Passage in endeavouring to gain our Passage to Our designed Port of Gombaroon.

I advised Yo^r. Hon^r. & C^r. S^{rs}. by the Heathcot whom We met in about 4^d 30^m S^o. Latt^d. & about 2^d 00^m W. of the Meridian of the S E. part of Zeloan, after w^{ch}. We had indifferent Winds, with which we stood to the Westward so as by our acco^{ts}. to be very near the three Irmanos Islands, & notwithstanding I believe Yo^r. Hon^r. & C^r.

S^{rs}. will allow that We were than in a very good Meridian to gain Our Passage & stand to the Northw^d. yet I being willing to have the advantage of a very frank wind would have kept more w^t.ly, but the wind took Us w^t.ly, & in the S.W. board which obliged Us to hall to the Northw^d. & when We drew near the Equinoctial we had the Winds often [to] the Northw^d. of the W^t. (with very uncertain weather) [. . .] winds We severall times Tackt and stood to the [. . .] which finding the wind, & weather variable [. . .] might be owing to Our being near the [. . .] as is common in most parts of the [. . .] to the Northw^d. greatly in expectation [. . .] weather favouring Us instead of [. . .] nd the reverse, in so much that from [. . .]

tial to about 13 00 N^d. Latt^d. We had [. . .] W^t.ly and often to the Northw^d. of the [. . . tem] pestuous gusts in squalls, as also [. . .] to the Northw^d. of the W^t. which made [. . .] very deep & oft put us by [. . .] Part of [. . .] Second mate 28 15 W^t. from the S.E part of Zeloan notwithstanding which, saw no Land, & by the great Sea & our Variation had no reason to believe We were so near as to beat up to Windw^d. so as to make the said Cape; so that I thought as it was also the opinion of my Officers, it was most proper to bear away for this Port.

At our arrivall here We found Our Agent the Worsp^l. Arthur Beavis who thought it most proper to make His Escape clandestinely on acco^t. the Wars between the Persians & Arabs the Particulars of which Yo^r. Hon^r. & c^t. S^{rs}. will have from the Government here, who are capable to give You a more Perfect account.

I should be very Glad if this opportunity afforded me a Conveyance for a Lett^r. to our Hon^{ble}. Masters to be sent by the first ship Yo^r. Hon^r. & c^t. S^{rs}. dispatches for Europe but as it will not I doubt not but Yo^r. Hon^r. & c^t. S^{rs}. will Please to inform them of our Ship.

I am not as Yet acquainted from the Government here, what their intentions are relating to any thing of the affairs of Persia, so Conclude as with all Respect, I am

Our Last to Yo^r. Hon^r. & C^t. was under [. . .] the Shawallum, Duplicate whereof We [. . .] the Charles which we Hope is come to [. . .].

Caunojee Angria Continuing His insults against Us, notwithstanding the Gov^{rs}. repeated Instances to bring Him to reason, obliged entirely to break with Him, Our Galevats manned with Sepoys have been in His Country sev^{al}. Times with Success, Plundered & destroyed, some Towns and Cattle & brought away some Prisoners, But the Last Time, by Ill Conduct of the Commanding Officer We Lost 58 Men, however Our People are so far from being disheartned, that they are desirous of Making another attempt to revenge it, and if our Hon^{rs}. Mast^{rs}, supply us with a Number of good soldiers this season; We don't doubt by God's blessing but to Curb His Insolence, & perhaps make Him repent the rupture.

There is a flying report here from the Armenians that the Muscatters are returned from Persia to Muscat, but we give Little Credit to it, so short a Time since the Duke of Yorks departure from thence, hardly permitting any advices to reach Surat overland, Nor do We hear any thing thereof from Our People at Gombroon which we can't doubt but they would send us by the first Conveyance; This is what offers at Present from

[. . .] Neither have We any greater Prospect Yet, of obtaining Ours, unless some more convincing Arguments than Intreaties be used, We shall wait till We hear what the new appointed Gov^r. for Surat will do, before we entertain any tho^{ts}. of putting such in Practice. We should have been glad Yo^r. Affair w^d. have Permitted You to spare Us, some European Recruits as they would very much have helped Us at this Juncture, in the Reduction of Angria, against whom in our Last, we advised You we had been obliged to Declare, The Rains have prevented our doing any thing since, except our Sepoys keeping Him in Constant alarm.

The ill consequence that Your Ships going Directly to Surat may be of both to the Right Hon^{ble}. Comp^s. & Yo^r. Selves in Particular, till the affairs of the Phirmaund is quite settled with that Government, obliges us to recommend to You again the giving yo^r. Supracargo's & Cap^{ts}. orders to put in here first, We shall take care to have a Convoy ready to secure them coming up the Coast either of Our Europe Ships or Grabs, & that they shall have certain advice at Callicut where to meet them.

We return Yo^r. Hon^r. &c^t. our Thanks for yo^r. care in endeavouring to furnish us with People for our Mint & some Bitts.

Since what we wrote You by the Shawal[lum of] Our Affairs at Gombroon we have had no farther[news] from them; Our Pres^t. has advices from Muscat [that the] Arabs were repulsed with considerable Loss at [. . .] Preparing three of their Large ships to [send rein]forcement to that Place.

The unavoidable charge we must put [. . .] we are actually engaged in a War [with . . .] Angria will be so heavy on us, & the adv[antages that will acc]rue to the English Settlements in Gen^l. 1. Our Last that we paid our Respects into Yo^r. Hon^r. &c^t. was the 13th. Ins^t. which only served to advise of Ensigne Pendrill's Death, & since meeting with this good Opportunity by Vizagapatam Peons, we gladly embrace it, to impart what Occurrences has offered since.

2. It has, & still continues being reported that Mauberize Cawne has received a Mortall shott from Rajah Mullah Reddee, & that Sieb Abdulah Cawne has appointed Habid Cawne Nabob for this Government but we Cannot assert this News for certainty, tho it is what has been discoursed some days, & if it should Prove to be true, Coja Gee will imbarke on Board a Ship, at Maddapollum for Suratt.

2. [. . .] Our endeavours to get our Military to be contented with 2
or 3 M^{os}. pay, in Order to keep them in arrears, for fear that they should have roving
heads, and take an Opportunity & desert, but We found them mightly discontented
on which We have paid them there full Arrears to Ult^o. August.

3. We acquainted the Military that in case they had their full Arrears, it was
Your Hon^r. & C^t. orders to Us, not to allow them any more batty, notwithstanding
they was better contented to receive the first.

4. If at our Departure Coja Gee should offer to give Us any trouble, we shall
freely acquaint Him with Yo^r. Hon^r. & C^t. Orders, and if he should think them not
sufficient, We will not in any Measure be wanting, in puting them in execution;
after which he'll se [*sic*] how many a handful of English Men, can drive their way
through.

5. According to orders we will embarque, with our Military, & what store[s] we
cannot conveniently dispose of, upon the [said] vessell, & we heartily wish that there
[. . .] arrive Us speedily, which at present We [are] dubious of believing
what vessells may come from Bengall, will be Loaded with Rice [. . .] as
their Cargo is sold, it is very Probable [. . .] return to the Bay again, in order
to [. . .] Decem. or January Market.

6. We are glad that Dia [. . .] against Madrass, has Proved the reverse
[that was] reported.

7. We have rec^d. the Factory [. . .] that came by E[nsign] Eckman for
w[hich we send] Yo^r. Hon^r. & C^t. our [humble] thanks.

8. [. . .] Larg [. . .] Factory [. . .] & C^o. [. . .].

9. Tomorrow we shall Putt M^r. Nodens effects up at Outery, & if We should
Buy his boat, if Yo^r. Hon^r. & C^t. approves, of having her Loaded with as many of
the R^t. Hon^o. Comp^{as}. Timbers as she can take in, we will send them upon her, with
what else she can take, which will give Us a great easem^t. when We have an
Opportunity to embarque.

10. This Place is so very Poor, which make Us apprehensive, that none or few
of our stores will sell here, & We are afraid, that when Coja Gee comes to understand,
that We design to remove He will not permit one Cooly to assist Us in carrying of

our stores, therefore to keep him in suspence, it would in our opinion be the best way, to send our stores off gradually, but We submit Our selves to Yo^r. hon^r. & c^t. better Judgement.

11. Our seventeen Topass Soldiers entered here, are Perfect in their exercise, and they are very desirous of having Monthly Pay as the rest, which We with submission design to grant their Request, and enter them into pay next month which We hope, will be approved, and when computed it will not amount to much more then their batty.

12. A Good Teak Long boat, having laid here some Years; which belonged to a ship called the Gen^l. Peace, We have fitted up the same & she will be of Particular Service to Us, at our departure & if Yo^r. Hon^r. & c^t. approve's We can load some stores & send upon her.

13. The Nabobs son is acoming, in order to take care of all these Parts, & the differances are all accomplished, between Him & Rajah Mullah [Red]dee.

14. If Yo^r. Hon^r. & c^a. approves of appointing at [. . .] ture, a superior person to take [. . .] Factory; & to send Y^r. Hon^r. [. . .] that may offer in these [. . .].

The 25th. Ultimo we rec^d. a Lett^r. from the Hon^{ble}. President & Council of Fort William, advising the arrivall of the Mary, and their design, to send Us the Treasure upon the Metchlepatam, & what else she can conveniently take on board We are in daily expectation of Her & wonder at Her so long stay, since by what advices We have rec^d. she was in readiness to sail the beginning of Last Month, The Gentlemen there, sent Us inclosed in their Lett^r. Cap^t. Holden's Protest against the Weather, of which we now send Yo^r. Hon^r. & c^t. Copy, whether the case was so bad as He & His officers represent it, or they were got beyond the Port, before they knew it, We are very sure, it is no [small] disappointment.

but the Timber & Plank is kept back, the ship not being able to take them in.

We shall take care to bring the amount of the Invoice 4^l Ship Britania to the

We have here before us Yo^r. Sev^{ll}. Lett^{rs}. of the 6th. [. . .] 7th. & 19th.
June 7th. July, & the 20th. Instant rec^d. [. . .] Gr^{an}tham, We observe the
Content [. . .] Order of their sev^{ll}. Dates. as We cannot obtain [. . .]
[. . .] Muxod [. . .] Ourr [. . .] Ten 4^l Cent is entirely Lost
upon them whereas, when We sell silver at Cossimbuzar we do not Loose full 7 11
4^l Cent batta on it.

The Gusbadar arrived here in safety but soon after falling very sick, We have
Permitted him to go up to Cossimbuzar, & have sent a Lett^r. to the Nabob by Him,
designing He should joyn our People there in gaining our Severall Priviledges
granted to Us by the King; tho We are very dubious of success, for he is a most
avaritious Man & seems resolved to let Us have no Part more than We always had
before, unless we shall dearly Pay for it over again, We have wrote a Lett^r. also by
the Gusbadar to the Grand Vizier complaining of the hard Treatment with which
the Subahs use Us, M. Surman, when he Left the King's Court did Leave a vaqueel
there, but we have never heard a word from him, nor cannot expect any Service,
Unless we would give him the Opportunity of throwing away a great deal More
Mony.

This Comes by the Hon^{ble}. Comp^a. Ship Metchlepatam which has had a thorough
repair & We believe is a firm strong ship for Cap^t. Skirvin gave a Constant
attendance & has taken a great deal of Pains in fitting Her, the Acco^t. of Her
Charges distributed by him comes herewith signed by Himself.

We have laden on board Her 800 Bags of Salt Petre & filled her up with grain
Wax &c^t. Stores for Yo^r. Presidency as 4^l Bill of Lading & Invoice enclosed amount-
ing to Rupees 10550. 8. 9 Acco^t. the Hon^{ble}. Company.

As the West Coast Ships always are Kintiledged with Iron, We suppose you
will not be necessitated to put any Petre on Board that ship, so that the 800 Bags,
We now send you with the 700 You have will be sufficient for the Derby's kintlage,
We should be glad if We could have sent you more, but here is not one ounce in all
Bengall to be sold, & we have only left ourselves barely sufficient to give the Mary

1000 Bags, which she has on Board, & is [all that] ship requires (as Cap^t. Holden declared to Our Board) for the Heathcote reserved but 1600 Bags both [which ships] we design to dispatch Hence, the be [. . .] the former with Good Part of H[. . . to be filled up] with stores [. . .] for Your Fort [. . .].

By the Heathcote We rec^d. 40 Chests Madriass Rupees, by the Mary 30 & by the Grantham 60 Chests, which is Just Landed after they are counted over We shall send you the Acco^t. of their coming out.

We cannot fully determine how to dispose of the Grantham & King George, before We have certain advice of Ship Bouverie from Persia, some Armenians who freighted goods Upon her acquaint Us they have rec^d. Lett^{rs}. from their Correspondents at Suratt, dated the 17th. June advising the Bouverie, had touched at Muscatt, where hearing of the Persia troubles they returned, & was arrived at Bombay; by Private advices, We are inform [*sic*] Gov^r. Boone &c^t. Designed to send M^r. Beavis with 2 Europe ships to endeavour an accommodation of affairs at Persia, which if so We may suppose, the Bouverie who has great deal of Freight Goods on board, & full Lading for that Port will Proceed in Company with them, & then we shall return the King George up to You, with a Good Part of Europe Cargoe, & send the Grantham directly for England, otherwise must send you up two ships, with as many Bales on each as Possible we can gett in time & we shall not fail (as you desire) in exerting our selves all We can.

Ship Mary by stress of Weather was forced by Vizagapatam as You'll see by Copy of Cap^t. Holden attestation signed by himself & officers which comes enclosed, so that we are disappointed of the Bales from Vizagapatam, We were obliged to open Yo^r. Pack[et] for that Settlement to take out Cap^t. Holden's Bill of Lading, so we took Copys of the Severall Papers therein, & immediately dispatched them to Vizagapatam overland, & that their Investment may not be detard[ed] for want of money we have laden all the Treasure[s] & every thing else which was for them on board the ship, which [we] have ordered to touch there in He[r] way to [. . .] it, with Yo^r : Originall Pacquet [. . .] have kept because they [. . .] sent on this Ship, & shall [. . .] for them.

[. . .] sending [. . .] tution sent Us this Year & no Probability of selling one Bale, We should be very Glad if you could help Us off with a Quantity of any sorts for it's a large sum no[w] Lying & Like to remain dead in our Warehouse.

Besides what small matter of Grain this ship could take in you'll have a great supply by the Large Fleet of ships now bound out in Company with her for Yo^r. Port, & all Laden with Grain, we are

[To THE HON^{BLE}. JOSEPH COLLET ESQ^R.

PRESID^T. & GOV^R. OF FORT ST. GEORGE & S^r. DAVID &C^r. COUNCIL.]

HON^{BLE}. S^S. &C^r.

[. . .] On this Settlement, We choose to send them Yo^r. Hon^r. &c^t. [apart] that they may not interfere with other Business, & Humbly referr them to Yo^r: Consideration.

To Our Hon^{ble}. Masters 67 Paragraph, We have debated on the severall Branches of Our revenues therein Mentioned, & find it has been Practized of Late Years to remit Our Sev^l: Lists with Our Gen^l: Books Yearly, Amongst which one signifies the amount of that Year's Revenues, which are generally extracted from the 3^{mo} January, to the Ult^o. Decem^r. following, from the respective Particulars incerting all Farms as Let out that Year to summ up the Totall of one Years Income, so that with Our Present Gen^l: Books will be sent a List from the 3^{mo}. Jan^{ry}. 1717/8 to the Ultimo Decem^r. 1718 in that form, but at the same time it's to be Considered those Farms do not Commence or Terminate, but at uncertain Times of the year as they are Let out; & for Instance the Arrack Rent commenced that Year in January 171⁵ & the Book's closed in April following, so that the first quarter of that year, was not due till May, which made the Renters stand Debtors for the whole year, & the same is to be observed in the Bound Rent that Commenced that Year in July 1715, by which there was but half a Year due the Last of april when the Books Closed and of the same Nature is the Tobacco, & Betle, they being duely collected according to the Tenour of their respective Cowles or Grants.

Eram Rauze Our old Bound Renter is eased of a great part of His doubtfull Debt (there remain^e. now but Pag^e. 649.20 Fanams) having represented to Fort S^t. George His great sufferings, by the Moors Warrs here, the Hon^{ble}. Presid^t. & Council were Pleased to make a reasonable deduction, & we are in Hopes something may be recovered upon concluding our Present Contract, where He holds a share of the Proffits thô not able to contribute to the stock Yet being a Man in Esteem for His honesty (thô Poor) has a title of a Head Merchant by Courtesy, & whatever becomes [due to] Him, we shall take care to secure on acco^t. [. . .] could seize upon His House & bare ne[. . .] but then he must go a [b . . .] occa[. . .] seldom exceeded 3000 Pag^e. so considerably decreased that Duty, that it was agreed, to be brô in with other Petty Dutys at the Close of Our Gen^l. Books in April, to save the trouble of a Head for so small a summ, nor can We find any fraud therein upon comparing severall months Income with Our Customers Registers, & Yo^r. Hon^r. &c^t. may depend upon Our best Indeavours at all times to prevent such vile practices Amongst Our Servants, with care to punish whomsoever is found guilty.

5. The Town Conicoply of Cuddalore holds His Title to that place from Governour Yale upon the Purchase of these Bounds, wherein he was very serviceable, which being represented, by the Late Deputy Gov^r. &c^t. to Fort S^t. George 'twas agreed the Conicoply Should Continue in his Place by vertue of the Power that was Granted Him.

6. We May Presume that Our Hon^{ble}. Mast^{rs}. have been misinformed, about the extent of Our Bounds, for upon a Late carefull Survey from Sea to Sea We find they make a Little more than a Semy Circle & contain in Circumference, nine & a Quart^r. measured Miles, & it appears also that M^r. Benyon's report about the Hedge round the Bounds, & the Produce was a groundless Projection, for He affirms there to be about 60000 Palmera Trees Whereas, there was no More than the undermentioned Number, Viz^t.

1004 full Grown
1779 three Quart^r. grown
1758 half grown
2494 Quart^r. Grown

7035 Which are wonderfull short of His computation & Could they be Let out Yearly, & all full Grown they would not increase the Bound Rent above 250 Pag^e. Yearly, but we must offer something of greater Consequence which is that [more] Trees, are the only fence, We have to secure [the fron]tiers of Our Bounds by running round [. . .] so Commodious, & strong; [. . .] can easily force through, [. . .] the Leaves that cover the [. . .] top to bottom, Like so [. . .] them [. . .] Would attend such a Worke is Humbly submitted to Our Hon^{ble}. Mast^{rs}., & Yo^r. better Judgements.

7. The Scavengers Dutys of Cuddalore & Tevenapatam were taken off by Yo^r. Hon^r. &c^t. as burthensome to the Poor Inhabitants, and it's such a small Revenue to the Hon^{ble}. Company, that the Charge of Carts Cattle & Servants very often exceed it as happened in 1715 when the Scavenger was paid out of Cash in April Pag^e. 34. 2. Fan^t. to Ballance that Year's Acco^t.; We shall hereafter have due regard to fixing the Payments of the Severall Farms in the Limits of their Orders which at present can't conveniently be done, having by Yo^r. Hon^r. &c^t. Permission Granted, & signed Cowles for the Bound rent with the Tobacco, & Betle, for five Years which We obtained with no small difficulty, & the Renters would be glad of such a handle to throw up their sev^l. Cowles, due care is taken that they are Farmed out to the most substantial People, & collected Quarterly, but to agree with the Renters on other Terms would only be a hardship on the Poor daily Labourers, who are always in arrears to the head Renters, & must be obliged to sell their Cattle & themselves too if they fail in compliance with their frequent demands, & nothing affects these People more than altering their Antient Customs, or introducing any new, they being very desirous of keeping up their Priviledges which in Farms are generally established according to the Methods Practized in the adjacent Country Governments; However in obedience to Our Hon^{ble}. Mast^{rs}., when the Farms in these Bounds expire We shall Indeavour to fix them agreeable to their directions.

8: In Our Hon^{ble}. Masters 68 Paragraph We observe they are Pleased, with Our increasing the Arrack Farm 100 Pag^s., & the Last Year We Let it out for 3 Years at 450 ₹ Annum, We are glad likewise to find their approbation of Our Farming out the Tobacco, & Bettle [for . . .] Pag^s. ₹ Annum on which agreement it Runs [. . .] to conclude with the Bound Re^{nt} . . . of singular use to be tack- [. . .] have Let out the P[. . .] heer [. . .] have Parcelled out the Ground must wait at Least a Year before they can recover a Quarter's Rent, so that all the Damage at present in view is a Little forbearance more than ordinary in Demanding the Rent according to the strictness of the Cowle which if We should prosecute all the Labouring People in the Bounds would infallibly be ruined who depend upon the Seasonable Crop which have so miserably failed them, as is well known to Your Hon^r. &c^t. & we doubt not will be considered with equal Compassion by Our Hon^{ble}. Masters.

9. In answer to the 69 Paragraph We are not under a Little concern that Our well intended trade with Achene succeeded so badly that by wofull experience some of Us are great Sufferers from a design as well for Our Hon^{ble}. Mast^{rs}. as our own advantage, the misfortune must wholly be imputed to Our dealing with a Perfidious People, where the King and His officers have no Regard to Hon^r. or honesty, We had all the Fair Promises of an Embassadour at whose Request we sent Our Ship in His Company with a Considerable Stock, in hopes to renew a Beneficial Trade, but instead of Royall Favours the King would not Permit the Sales of Our goods in proper Season, or the Common Priviledges of the Place, and kept the ship so long with the most Considerable part of Her Cargo, that she Lost her Passage, & a ruinous Voyage insued as is well known to Yo^r. Hon^r. &c^t. so that We shall add only that with this design We had a Prospect of increasing Our Number of Merch^{ts}. from Porto Novo who waited the lucky Establishment of the Achene Trade to this Port, but being disapointed they must proceed as usual, for thô they are very sensible of the Arbitrary Treatment, under the Moors Government, & the great Incouragement, they should find under Our Protection, yet they can't quit a Trade so considerable, & beneficial, & remove with their Familys upon [un]certainty of knowing how to Employ their stock[s . . .] they have now a Prospect of injoying [. . .] to themselves, & thô they Labour [. . .] profits will be so great that they [. . .] th[at] they have been so long [. . .] Hon^{ble}. Mast^{rs}. 84 Pa[. . .] &c^t. the [. . .] Surmont that Charge Therefore for the better Comprehending Our Notion We have annexed the Particular Stations of the 3 Standing Company's which are as follows.

FIRST COMPANY IN THE FORT CONSISTING OF 150 MEN VIZ^t.

- 1 Lieutenant.
- 1 Ensign.
- 7 Serjeants.
- 14 Corporalls.
- 127 Centinells White, & Black.

150 Men & Officers which Supply the Fort Tovenapatam Gate, & Round Point on Patcherry Hill, & Gaurds to secure the Town of Tevenapatam.

SECOND COMPANY AT THE GARDEN CONSISTING OF 151 VIZ^t.

- 1 Lieutenant
- 1 Ensign at Trepopalore.
- 6 Serjeants.
- 16 Corporalls.
- 121 Centinells, White and Black.

151 Men, & Officers, which supply the Garden & the Severall Frontier Gaurd of Our Bounds VIZ^t. Trepopalore Midle Point, Royall Oake Point, Chemumdalum Gaurd, Horse Tail Point, & Cundapa Choultry.

11. The Garden for the Main Gaurd is so well scituated that upon Action We have a full view, of all the Frontier Guard, & upon any signall of distress, lyes ready to March to their relief which without a Head Officer might indanger the whole Bounds, & prove the worst of consequences, & the Fort lyes so well in View, for the Garden Signall that a Detachm^t. can Succour Us in a Quarter of an hour on any occasion.

The 3^d. Company at Cuddalore consists of 152 Men Viz^t.

1 Lieutenant at Cuddalore.

2 Ensigns 1 at Cuddalore & 1 at Bandipollam

10 Serjeants

13 Corporalls

126 Centinells [White & Black]

152 Men & [Officers which supply the [. . .] Points in Cuddalore with a [. . .] Chan[. . .] view [. . .] To Our Hon^{ble}. Mast^{rs}. with Our Faithfull assurances of Lessening the Charges & increasing the Revenues of this their Settlement as far as can consist wth. their Hon^r. & Our Security.

12. In answer to the 87th. Paragraph requir^e. that Our Lists of Marriages & Births should be regularly signed by a Chaplain, Yo^r. Hon^r. & c^t. well know We have not that opportunity, However care shall be taken that Our Secretary, & Surgeon; Sign the needfull Papers in Order to make them the more Authentick, when sent Home.

13. In answer to the 70th. 72^d. & 79th. Paragraphs of Our Hon^{ble}. Mast^{rs}. Lett^r. We can only say that Our Government & People being so near a Like to Fort St. George We shall have all due Regard to Yo^r. Hon^r. & c^t. resolutions from time to Time, & submit with Perfect obedience to Yo^r. Directions.

14. We are mightily pleased that Our Hon^{ble}. Mast^{rs}. approve of yo^r. measures about Poindy Chitty Kisna, & Hope that Proceeding will deterr others from attempting such Villainous Practices not uncommon in these Parts.

15. We Carry such a Strict hand Over our Dubashes and Black Servants, that Our Hon^{ble}. Mast^{rs}. cannot suffer as they did by M^r. Raworth's Dubash Dosseree, who controuled so much By the countenance of His Mast^r., that if speedy remedys had not been applyed, We should have lost Our most substantiall Inhabitants, who Laboured under Oppressions so great that many feele them to this day, as appears by notes in their hands for considerable su^ms said to be borrowed which must be Lost, the Mast^r. & Servant dying both insolvent, but We hope with their Deaths there's an end to all such unjust Proceedings, & by better Government, with fitting Incouragement to make some amends [for their] sufferings, they may Live to forget them [. . .] Prosperity.

16. [. . .] not find that our Servants [. . .] in Party's or making [. . .] Hon^{ble}. Mast^{rs}., & We shall [. . .] in solences on the Least [. . .] tunate [. . .] in [. . .] being complied with according to the result of Our Hon^{ble}. Mast^{rs}. We can say no more but that they bear their misfortunes with the greatest Patience, not doubting of future Favours when their Services deserve them, with w^{ch}. they make their Constant, most diligent, & Faithfull applications in their respective Imloys, & joyne, with Our most hearty Prayers for Success in Our Hon^{ble}. Mast^{rs}. undertakings. Respectfully subscribing

Our Last that we p^d. Our Respects to Yo^r. Hon^r. was the 26th. Inst^t. which chiefly served to Inclose a Lett^r. for Yo^r. Hon^r. from Coja Abbulah this Phousdars Bro^r., since which meeting with this Opportunity by Auga Peras boat, we willingly embrace it to advise what has offer'd since.

Coja Gee's Ship which went from hence some time ago for Surat, is Lost, as she was a Coming back about Zelone, upon which news he sent to the Dutch Chief, for to Pay that Loss, as being a Contract between the Mogull, & their Comp^y. for any Moors Vessells that should Meet with such accident about Zelone, & as we are informed they are bound under an obligation, for to make the same Good, but how this will end we cannot at present be certain.

When provisions was scarce, we went to open a Cask of Salt Pork, as we thought for our Military, but it proved to be half a Leager of Batavia Arrack, thô M^r. Noden's had wrote Yo^r. Hon^r. that it was all expended.

The 30th. Ins^t. We rec^d. a Lett^r. from His Worship Symonds, which advises of the dispatch of Ship Metchlepatam the 18th., from Vizagapatam for Madrass.

The greatest disappointment that We are at Present apprehensive, we shall meet with, at our departure from hence, (in case any otherwise then friendly) will be Coja Gees depriving Us of procuring any Coolys, if so, we shall meet with much difficulty to get the stores o[n board es]pecially the Timbers which will not [. . .] great Loss, therefore we shall d[till] further orders.

No. 111

TO THE HON^{BLE}. JOSEPH COLLET ESQ^R.PRES^T. & GOV^R. OF FORT ST. GEORGE & C^T.
COUNCIL.HON^{BLE}. S^R. & C^T.

The Evening of the same day wherein Our Peons set out with our Lett^r. of the
6 Ult^o. we rec^d. Yo^r. Hon^r. & C^t. Lett^r. of the 9th. Septem^r. since which we have had
Yo^{rs}. of the 6th. Octo^r. that arrived Us in 22 days.

We do not only gratefully acknowledge Yo^r. Hon^r. & C^t. indulgent kindness in
the Particular of our Diet but shall endeavour in some degree to merit that Favour,
by being as near as Possible, we can with convenience in our other expences, nor

will we Continue that extraordinary Charge Longer than needs must but take it off monthly in Proportion as provisions grow cheaper.

We are glad to hear of the safe arrival of the *Metchlepatam*, & hope the next advices will bring news of the *Dartmouth Brigantine*, we were under some apprehensions on Acco^t. of the bad weather that brô back the *Philip & George Sloop*, but not hearing any thing of her this way conclude she was then past *Dieu Point* & Possibly might not meet with it.

The *Mary* may reasonably be expected here by the 10th. of Decem^r., before which we dare Promise, to have more Bales ready, than she will find room to take on Board unless she be dispatched half empty from the Bay.

Notwithstanding these bad times our investments goes on chearfully, the greatest impediment we find is from (Him where in reason we might expect the furtherance) the Nabob who stops our Cloth coming from *Ganjam*, & has lately taken a 1000 Rupees from M^r. Symond's servants there, who rather than let it Lye out exposed the weather at this season of the Year consented to give it Him, but we shall [. . .] from Yeilding to these impositions, & dis[. . .] come to Pay the Rent.

[. . .] shall have more than the *Mary* [. . .] brô in, be [. . .] this & the [. . .] yance.

[. . .] Affairs [. . .] Our People from thence; but the Nabob imagines either that there was a constant loss upon them or that we had some other Interest in putting them off our hands that could induce Us to trouble the king in so trivial a business stands off, & will not take them unless He has a Present for that Service, Our Vaquel is with him solliciting that, & other matters, who advises Us that He is coming to *Chicacull*, where we shall have an Opportunity of informing Him better, As for the king's Phirmaund out of Respect to so great a Monarch, we shall not say how Little acco^t. they make of it, but shall act in such sort in respect to Our Hon^{ble}. Masters Affairs, *Ut Nes publica né quid Detrimenti capiat*.

We are sorry we are obliged to give Your Hon^r. &c^t. so dismall an acco^t. of the State of our Revenue as it stands at present, but by reason we are willing to search into the Originall causes of such a decay we shall crave leave to deferr that work till the next conveyance, & hope it will for the Present suffice to say, that bad Government in the Country, & a Generall decay of Trade th[r]oughout the whole Coast, one year's scarcity back'd by another year's famine, & that followed by an unaccountable mortality, which these People have no other name for than the Small Pox, though by it's Symptoms, & the unmercifull ravage it makes, Little differs from the Plague, may have (without the help of a miracle) produced greater alterations in so small a Place as *Vizagapatam*.

As to the state of that Ballance due from Our Merch^{ts}. it appears upon the Gen^l. Books of this settlement from the Year 1710 to the end of the year 1715 an abstract of which we have taken, & comes inclosed, but for the reasons of the rise & growth of that Debt, or how they fell into that backsliding, we are at a Loss to tell, unless it were a pure design to secure to themselves an inheritance & oblige the Hon^{ble}. Comp^s. to employ them to the exclusion of all others & that upon such hard terms as they should vouchsafe to agree, to be performed how & when they should think Convenient, next as to their circumstances & their ability to discharge said debt, we can only say that if ever they were wo[r]th any t[hi]ng Possibly they may have money for wh[. . .] their condition, being under a close [. . .] Familys are starving at home [. . .] Little or that they are un[. . .].

[. . .] Closed M^r: Smyths and [. . .] near as we can by [. . .] that are not yet [. . .].

We respectfully subscribe
