Accordingly on the said Eleventh day of the present Month of April wrote addressed and sent to the said Caloor Vencatanarma Iyah the Letter of that date which I have hereunder transcribed that in compliance with the request thereby made the aforesaid Caloor Vencatanarma Iyah produced to the said Appearer one part of the aforesaid Bill of Lading when for the first time he the Appearer became acquainted with its contents and discovered that the said Merchandize was not by the said Bill of Lading made deliverable and that the Shipper had not by any Indorsement either specially or in blank Consigned the same to any Person Whomsoever That the Appearer being thereupon advised that the bare possession of such Bill of Lading unsupported by other title would not confer upon a Stranger Authority to receive or discharge its Contents did thereafter and on the eighteenth day of the present Month write, address and send to the said Caloor Vencatanarnah Iyah the second Letter of that Date which I have also transcribed and added to this my Public Act and did also cause to be prepared and tendered to the said Caloor Vencatanarma Iyah a Bond of Indemnity of Ordinary tenor in Answer whereto he (the Appearer did on the same eighteenth day of the present Month receive from the said Caloor Vencatanarma Iyah a Letter bearing Date and under his hand and a true Copy whereof I have also for the better Manifesting of the Matters aforesaid subjoined hereunto) In regard of all which premises the said Vencatanarsiah as owner of the Vessel importing the aforesaid Cargo did appear before me Notary to protest against all Owners and Claimants whomsoever thereof In Order that all such Person as may lawfully be concerned in the property or possession of the said Cargo may sustain all the risque thereof unless their title thereto shall be evidenced Sufficiently to the said Appearer Wherefore I the said Notary at the Instance of the said Vencatanarsiah Have protested and by these presents Do protest against the said William Dingand the said Maudered by Reddygauroo and also against the said Caloor Vencatanarna Iyah and all other Persons whomsoever having or claiming any Property or Interest whatsoever in the said Cargo so imported as aforesaid or in any part thereof in and by reason of the Premises to the intent that such person or Persons as now is or may be lawfully intitled to receive the aforesaid Merchandize from the Appearer by Virtue of the said Bill of Lading so signed as aforesaid or of other Authority may sufficiently manifest such the title and authority to the said Vencatanarsiah and the Syrang aforesaid or to one of them or that the said Caloor Vencatanarna Iyah or other Person or Persons who may have a presumptive title to receive the same Merchandize may upon the same being delivered unto him or them well and sufficiently indemnify the said Appearers respectively from all foreign and other claims thereto and also to the intent that the Appearers respectively may now and at all times hereafter be protected from all damages and losses that have happened or shall happen to the said Merchandize and every part thereof without the wilful act or neglect and may be Reimbursed all Monies which have been or may be by the Appearers or either of them expended on the Account thereof and that the same Merchandize may be and remain subject to satisfy as well all such Charges and expences as all Monies that may be remaining due for the freight thereof And also that all acts which may be done by the Appearers or either of them with Regard to the preservation or disposal of the said Merchandize or of any part thereof According to their best discretion and judgement respectively may be affirmed In Testimony whereof I the said Notary have hereunto set my hand and affixed the Seal of my Office at Fort Saint George aforesaid the day and Year first above written.

I Daniel Neale Notary Public by Lawful Authority duly Admitted and Sworn and dwelling and practising at Fort Saint George Madras on the Coast of Coromandel in the East Indies Do hereby Certify and Attest that on the Twenty third day of May in the year of Christ One Thousand eight hundred and three the Original Bill of Exchange (whereof a true Copy is above written) was Presented and Shewn to Messrs. Lys Sater and De Monte of Madras Merchants (the Persons on whom the said Bill is Drawn) for their Acceptance thereof and the said Messrs. Lys Sater and De Monte then and there had Sight of the said Bill of Exchange and of the Original Letter of Advice annexed thereto (which I have transcribed under the Copy of the aforesaid Bill) and were requested to accept the said Bill To Answer to which Presentment the Drawees declared to me Notary that in Justice to themselves they could not accept the same bill until the adjustment of certain differences which were Pending between them and the Drawer and they declined the acceptance of the same Bill accordingly And on the fifteenth day of June in the year aforesaid (when the time appointed by the said Bill for Payment of the Contents thereof had elapsed) I the said Notary Did again present the same Original Bill of Exchange to the said Drawees Messrs. Lys Sater and De Monte for Payment of the same Contents upon which last mentioned Presentment the said Drawees Neglected to pay and wholly dishonored the same Bill Wherefore I the said Notary at the Request of Messrs Abbott and Maitland of Madras Merchants (the Holders of the Bill of Exchange) have protested and by these Presents Do protest against the Drawer of the said Bill of Exchange and against all other Persons whom it may Concern for the Non payment of the said Bill and for Exchange Re exchange and all Costs Charges Damages and Interest Suffered and to be suffered by Reason of the Non Payment aforesaid Thus done and Protested at Fort Saint George Madras aforesaid this Sixteenth day of June in the year of Our Lord 1803 -

By this Public Instrument of Declaration and Protest Be it made known unto all Persons whom it may Concern - That on Wednesday the thirteenth day of July in the year of our Lord one thousand eight hundred and three before me Daniel Neale Notary Public by Lawful Authority duly Admitted and Sworn and dwelling and practising at Fort Saint George Madras on the Coast of Coromandel in the East Indies personally appeared Asa Badwell Master of the Ship Governor Gilman of Boston (which is now Anchored in the Roads of Madras) and also
Mates of the said Ship which Several appearers declared for truth before me Notary as follows (that is to say) That the said Ship departed last from the Cape of Good Hope (in prosecution of her Voyage from ~~Boston~~ Portsmouth in North America to Bengal) on the seventh day of the Month of May last - That previous to such her last departure Nine Persons in addition to the said Number of those which she had brought from ~~Boston~~ Portsmouth had at the Cape embarked on board her for a Passage to Bengal In consequence whereof Six Puncheons - (containing Ordinary) of Water had been shipped on board That on her leaving the Cape the said Ship had thirty two or thirty three Puncheons of Water which was a Quantity fully adequate to the Number of Persons whom she carried (being for the Ordinary Passage at such a Season of the year from the Cape to Bengal - That the Water had been Hoobanded with due proper and usual Care And that for the Waste thereof hereinafter Mentioned would have been more than sufficient for the Ships Consumption to Bengal - And the Appearers do furthermore declare for truth to me Notary That on Thursday the Seventh day of the present Month of July being off the Island of Ceylon in the Latitude of 5 - 13 and Longitude of 83° the Ship met with a Sudden Squall which gave her a Violent Shock and badly split her Main Sail Gallant Sail - That on Sunday the Tenth day of the said Month of July the Officers of the Ship discovered and reported to the said Master (the Appearers first before named) That three Leaguers of Water (each containing One hundred and fifty Gallons) had wholly leaked out And that there remained in the Ship a Sufficiency of Water on Short allowance Only for 5 or 6 Days And the Appearers declared to me Notary that they suppose and believe the loss of the said three Leaguers of Water to have been the effect of the Shock which the Ship experienced from the squall on the Seventh Instant And the Appearers do further represent that besides such deficiency of Water the Ship was unprovided with either Canvas or Twine for Repairing the Sails of the Ship in case of any further Accident to them And that

as the Ship if continued on her course would probably approach the bottom of the bay of Bengal about the time of the Moons change there was very Ground to apprehend at this Season the wants of those Articles - wherefore the appearer (the master) with the advice of his officers did deem it expedient to put into a near port for the Supplying the Ship with water other Articles of which she was in need previously to her proceeding towards Bengal and accordingly that the Course of the Ship was at Noon on the said 30th Instant altered And on the 31st Instant (the day before the date of this my Public acts) the said Ship arrived in the roads of Madras

And I the said Notary have to this my Public act subjoined a Copy from the Log Book of the said Ship (as furnished to me by the appearer) of the same entries therein Made for the 4th 8th 9th and 30th days of July Inst. which Manifests all and every the premises -

In regard whereunto the said master Asa Bodwell Did on the day aforesaid of his appearance before me Notary desire to protest and he doth hereby solemnly protest against the winds and Seas and against all damages and losses that have by Reason thereof been sustained by the said Ship Governor Gilman her tackle Apparel or furniture or her goods of her Loading and also against all Accidents Causes whatsoever which have occasioned the expediency of the Ships deviation into the roads of Madras And likewise agt all other Damages losses charges and Expences whatsoever which may be attended upon as to the Ships stay in the roads of Madras or to the pursuing her Voyage after her Departure from the said Roads - To the Intent and in Order that all the same loses damages and charges may be sustained by and recovered from such persons or Person to whom it may behove to bear and defray the same -

Therefor and it being required to me Notary I have Granted these presents under my hand and the Seal of my office at Fort St George aforesaid on the day and year first above written to serve and avail as occasion shall require -

(Signed) A. Bodwell

Articles And that the said Ship weighed Anchor and dropped down the River on that day with a Pilot on board in prosecution of her said Voyage but that Notwithstanding all possible attention was paid by the said Pilot and the appearer his officers and Crew in Navigating the said Ship down the River she drove from her Anchor while a breast of Fort Mornington where the said Ship had been Moored at 5 oClock P.M. on the same 16th day of Sept. in 5 fathoms Water and got a Ground at low Water and the said appearer did further declare to me Notary in a short time after the said Ship so struck he the said appearer his officers and Crew with the said Pilot on board and after proceeded in getting the said Ship into deep Water and that she accordingly proceeded on her Voyage to Madras - and that on the Night of the 25th day of Sept. following the said Ship Friend while shaping her Course for Madras encountered a hard Gale of Wind with a very heavy Sea which caused the said Ship to strain very much and make much Water on which Acct. it became Necessary to Keep one Pump Constantly at Work during the whole of that Night and to employ some of the Crew in baling the Water out of the said Ship Wherefore the said appearer and his officers were of opinion and had reason to apprehend that that some part of the Cargo on board the said Ship must have Sustained Damage from the Seas And that the Cause of the said Ship making so much Water must have arisen from her being Strained when she drove from her Anchor and got aground at the time and place hereinbefore Mentioned and Specified And the said appearer did at the time and place first herein before Mentioned produce to me Notary the Log Book of the said Ship Friend Containing the detail of the particular Accidents & Casualities of Weather attending the said Ship on her said Voyage from Calcutta to Madras and did before me Notary Certify and declare that the several Circumstances & Transactions therein entered and recorded were faithfully and truly related and Setforth the same Actually occurred from which Log Book I have at the desire of the Appearer extracted such particular facts as Materially relate to the Circumstances herein before Setforth as declared by the said appearer to me Notary as aforesaid Which true And Notary have also at his desire subjoined to this my Publick Act and Made a part thereof true Copies of such Entries which I do hereby Certify and Attest to be faithfully and correctly Extracted from the said Log Book And the appearer did declare and Solemnly offer before me Notary that all such Damages and Losses as the said Ship Friend or her said Cargo may have suffered were wholly by Means of the said Ship driving from her Anchor and getting a Ground at the time and Place before Mentioned and by the Sale of Wind which the said Ship encountered on the said 25th day of September And not by or thro the Acts default or Neglect of him the appearer or his officers or Crew And for all and every the Matters aforesaid as declared & Confirmed for Truth before me Notary the appearer did on behalf of himself and his Owners desire to Protest And he doth accordingly by these Presents Solemnly Protest as well against the Accidents herein before Setforth as to the said Ship Friend driving from her Anchor and getting a ground at the time and place aforesaid as against the Winds and Seas aforesaid for all Loss damages whatsoever that shall appear to have been Sustained by the said Ship her Tackle Apparel or Furniture or her said Cargo or any part thereof and for all Charges and Expences already incurred or expended or to be paid expended or Sustained by reason or Means of the several Matters aforesaid or either of them

And the Quantity of Rice which was pumped up that the Cargo must be Materially

Matter and thing whatsoever which he the appearer can may or ought to protest for or against in or about the Premises and the appearer did desire of me Notary this my Publick Act as Evidence in the Premises and to the end and Interest that such Act may be Availing in the Manifestation and Recovery of all such Damages Loss Costs Charges and Expences from all Persons whom it may Concern when the same shall or may be thereunto required Wherefore I have Granted these Presents under my hand and Seal of Office at Fort St. George aforesaid the 15th day of Oct. in the Year of our Lord 1803 -

Fort St George
this 19th day of Oct. 1803
Sworn before me

Be it Known to all Persons by this Public Instrument of Declaration & Protest that on the 16th day of October in the year of our Lord 1803 before me Daniel Nooke Notary Public by lawful Authority duly admitted and Sworn and dwelling and practising at Fort St. George Madras on the Coast of Coromandel in the East Indies Personally appeared Charles James Commander and part owner of the Ship Sir Laurence Parsons now laying in the Roads of Madras where she arrived on the before mentioned day from the Port of Calcutta and the said appearer at the said time and place declared for truth to me Notary as follows that is to say on the 4th day of Septr. last past the said Ship Sir Laurence Parsons being in through and complete Repair good Order and Condition well found in every respect and fit for Sea the said Ship having a short time previous to that day been hauled out of Dock where she had undergone a full repair Received on board by an Order from the Master Attendants office at the Port of Calcutta aforesaid a Pilot who took Charge of the Ship on the 5th day of Septr. a breast of the Esplanade at the said Port of Calcutta and the appearer declared to me Notary that from the said 5th day of Septr. until the 9th day of the same Month he the appearer his officers and Crew employed in sweeping for and recovering an Anchor which the said Ship had lost And that on the said 9th day of Septr. the said Ship Sir Laurence Parsons departed from the aforesaid Port of Calcutta in the Charge of the said Pilot so received on board by order of the Master attendant at that Port as aforesaid in Prosecution of her Voyage to Madras And the appearer further declared to me Notary that the said Ship Sir Laurence Parsons arrived on Sunday the Eleventh day of the said Month of Septr. at "Pier Strong Point" in the said River of Calcutta and that the said Pilot then being in charge of the said Ship Did run the said Ship on Shore at 11 Oclock A.M. on that day a breast of the said Point called Pier Strong Point where the said Ship lay heeled upwards of three Streaks on a Sand Bank and that the said Ship having a heavy Cargo on board the appearer apprehended the Ship must by such accident have strained herself considerably and the appearer did declare to me Notary that the said Ship lay on Shore on the said Sand Bank until half past 8 oClock P.M. of the same day when the tide flowed off into deep water that the said Ship then proceeded in Prosecution of her Voyage until Wednesday the 14th day of the said Month of Septr. when at 45 Minutes past 1 oClock P.M. on that day the said Pilot did again run the said Ship on Shore on a dangerous Sand Bank a Breast of Hoogly Point Made the said Ship had only 3 feet water from

lay working and straining herself considerably that whilst the said Ship so lay on Shore she repeatedly lighted and sailed over on her Larboard side so as to bring the lower parts of her Ports in the water that whilst the Ship was in such distress the said Pilot declared his belief that she was in such a Dangerous situation that she must unstep and Cut away Masts And the appearer did further declare to me Notary that he the appearer together with his officers and Crew did immediately in Consequence of the apprehension so expressed by the said Pilot for the said Ships Safety use their respective utmost exertions and struck Royal Yards Top Gallant Yards and Masts and threw over board a quantity of Purchase and Coir with sundry other Articles which then appeared to be on deck or which could readily be got with And that he the appearer also gave directions to start all the fresh water from the upper Deck to lighten the Ship which was Accordingly done and the appearer further declared to me Notary that the said Ship continued to lay on the aforesaid Sand Bank straining and working herself from the hour before mentioned that is to say from 45 Minutes past one oClock P.M. on the said 14th day of Septr. about the hour of Nine P.M. of the same day when the appearer succeeded in heaving the said Ship into Deep water (having previously cast out an Anchor where she was Moored for the night And the appearer declared that during the time the said Ship so lay on Shore on the said Bank as last hereinbefore mentioned she made no water of any Consequence and the appearer further declared to me Notary that on the Morning of the 15th day of the said Month of Septr. the appearer found the Cuddy of the said Ship broke in the Gun Room and also found that the Rudder of the said Ship worked greatly on the Stern Post so as to endanger Carrying away the Pintles and therefore under the foregoing Circumstances the appearer together with his said officers believed the said Ship Sir Laurence Parsons to have received Material Injury in her Hull and in other respects but found it impossible to discover the Actual Damage the said Ship had sustained until she had been examined And the appearer further declared to me Notary that the said Ship Sir Laurence Parsons was in smooth water from the said 15th day of Septr. until on or about Tuesday the 20th of the same Month without any appearance of being Likely but on the last mentioned day the said Ship being then worked down towards the Eastern Sea Reef with a fresh Breeze and rough Swell from the Southward the appearer discovered that the said Ship Made so much water as to require Pumping every 5 or 6 hours at 12 Inches And that on the 23d of the same Month of Septr. the weather being then fine the Ship only required Pumping every 12 or 13 hours at 12 Inches And the appearer further declared to me Notary that on the 25th day of the said Month of Septr. the said Ship experienced hard Squalls and a rough Sea which caused the said Ship to Labour much And the appearer found it Necessary to Keep the Pumps at work every hour

ab 16 Inches And the Appearer further declared to me Notary that the weather beginning to have a threatening appearance the Appearer was induced to get down the Royal & Fore Gallant Yards & Masts And took in 1st. and 2d. Reefs in the Fore Sails And that at 30 Minutes past 2 P. M. on the said 24th. day of Septr. a Gale of Wind set in from the West North West to the West South West which caused the Appearer immediately to Hand the Main Sail and Mizen Fore Sails and the Appearer further declared that at 3 oClock P. M. on the same 24th. day of Septr. the Gale increased with much Violence with hard Gusts of Wind which obliged the Appearer to hand his Main & Fore Fore Sail and lay the Ship to under her Foresail That the Ship laboured hard from the hour of 2 P. M. on the said 24th. day of Septr. until Midnight on the same day and that during the said Gale she Carried away two Pairs of her Mizen Shrouds and Fore Main Back Stays And the Appearer declared to me Notary that while the Gale lasted he was obliged to Keep one Pump Constantly Going and that at half an hour past 12 oClock in the Morning of the 25th. day of the said Month of Septr. it then blowing a hard Gale with Continued and Violent Gusts of Wind at Intervals from the West South West to the Appearer found that one Pump was Insufficient to Keep the Ship free and that he therefore divided the Hands into Shifts for both Pumps which he instantly set at Work And the Appearer further declared that soon after 1 oClock on the said Morning of the 25th. day of Septr. he the Appearer found the Ship Gaining Considerably on her Pumps which were both at Work that she had four feet Water in her hold And that the Leak was Still gaining on the Pumps which were frequently disabled and rendered unfit from being Choaked with large Quantities of Rice from below And the Appearer further declared to me Notary that at half an hours past one oClock in the Morning of the said 25th. day of Septr. he the Appearer Considering the Ship in the utmost danger of foundering called a Consultation of his Officers when he the Appearer and his Officers were unanimously of Opinion that the only Means of Saving the Ship and Cargo on board from foundering and also of preserving the lives of all on board was to throw over board such Quantity of Cargo as might be necessary in order to ease the Ship That in pursuance of such Unanimous Opinion the said Appearer did throw over board 600 Bags of Rice belonging to Messrs. Chase Chinnery & Mc Dowall & Co. of Madras Merchants and Partners (the other Owners of the said Ship and of the Appearer or the only Means of Saving the Ship and lives on board And the Appearer declared that the Gale Continued until the morning of the 26th. day of the said Month of Septr. when it abated about the Hour of 11 P. M. By this Public Instrumint of Declaration and Protest Be it Known to all Persons that on this 17th day of Octr. in the year of Our Lord 1803 Before me Daniel Neale Notary Public by lawful Authority duly Admitted and Sworn and dwelling and practising at Fort St. George Madras on the Coast of Coromandel in the East Indies Personally appeared Archibald Robertson Commander of the Ship Henry Addington now Lay in the Roads of Madras where she Arrived on the day of Octr. Instant from the Port of Calcutta And the said Appearer at the aforesaid time and place Did declare for truth to me Notary as follows that is to say that on Tuesday the Thirteenth day of Septr. last the said Ship Henry Addington was at Anchor in Calcutta River and about to Sail for the Port of Madras with a Cargo of 3.300 Bags of Rice 100 Bags of Ginger and 30 Bags of Cummin Seeds That the said Ship Henry Addington was then Compleatly repair Good Order and Condition and in every respect fit for Sea And that on that day a Pilot Came on board and took Charge of the Ship And the Appearer further declared to me Notary that on the following day Viz. the 14th day of the said Month of September at 10 o'Clock A. M. the said Ship Henry Addington dropped down the River with the Ebb tide And that on the 19th day of Septr. following the said Ship came to below Kedgeree in 5 fathoms That on the following day the said Ship proceeded on her Voyage to Madras And that at 7 o'clock P. M. on that day a Sea Broke in the Cabbin Windows and wetted Several Bags and other Articles and a large Quantity of water having got between Decks the Appearer his Officers & Crew had reason to apprehend that some other parts of the Cargo had also sustained damage And the Appear further declared to me Notary that the said Ship Henry Addington proceeded on her Voyage without any particular occurrence until Sunday the 25th Day of the said Month of Septr. when the said Ship encountered a very heavy Sea with hard Squalls the Ship pitching Ablloom & Forecastle under Water and the Sea Making a fair Breach over the Ship that after the said Ship had Rode a considerable time in that State and the Appearer finding the Wind & Sea increasing the Appearer thought it advisable to throw over board and did accordingly throw over board 30 Bags of Cummin Seeds and One hundred Bags of Ginger (which were Stowed before the fore Hatchaway) to ease the Ship And the Appear further declared to me Notary that at Noon on the same 25th day of Septr. the Wind and Sea increasing and the Ship Rolling and Labouring very much and Making Water the Appearer deemed it proper to consult with his officers and the Pilot on the State of the Ship and that the results of that Consultation was and they were unanimously of opinion that it would be most expedient for the Safety of the said Ship Henry Addington and all Parties Interested or Concerned in her to Cut and Run in again as the said Ship had only one Bower Anchor and Cable remaining And the Wind Blowing so Strong from the Southward that the Ship could not have Procured And the Appearer further declared to me Notary that he the Appearer his officers and the Pilot were also of Opinion and had reason to Apprehend from the great Quantity of Water which got in from the Main Hatchway owing to the Cables being Cut that a quantity of the Cargo in the Hold and between Decks must have Sustained Damage the Water from the Pumps having every Appearance thereof And the Appearer further declared to me Notary that at 1 o'Clock P. M. on the same 25th day of Septr. he the Appearer gave directions to Cut the Ships Cable which was Accordingly Done And that the said Ship then made Sail and Proceeded up Channel And at 7 o'Clock P. By this Public Instrument of Declaration and Protest

Be it known to all Persons - that on the 25th Day of April in the Year of our Lord 1804 - before me Daniel Neale Notary Public by Lawful Authority duly admitted & Sworn and dwelling & practising at Fort St. George Madras on the Coast of Coromandel in the East Indies at my Office in Fort St. George Personally appeared Peter Clement Master of the Ship Faithel Carrim of the burthen of 300 Tons or thereabouts now laying in the roads of Madras where She arrived on Sunday the 22nd Day of this present Month of April from the Port of Calcutta And the said Appearer at the aforesaid time & place did declare for truth to me Notary as follows that is to say - That on Sunday the 11th Day of March now last past the said Ship Faithel Carrim under the Command of him the Appearer Sailed from the Port of Calcutta with a Pilot on board bound to Bombay and having on Board a Cargo of 5000 Bags of Rice - and that the Pilot left the said Ship on the same Day - And the said Appearer did declare to me Notary that the said Ship proceeded on her said Voyage without any remarkable occurrence until Thursday the 22nd Day of the said Month of March - and that at 2 Clock A.M. on that Day the said Ship Faithel Carrim - being then in the Latitude of 13° 22' North & Longitude 88° 30' East of London a Ship was discovered in the North North West quarter Standing towards the said Ship Faithel Carrim - That at 1/2 past 8 P.M. on the same Day the said Ship so discovered came up with the said Ship Faithel Carrim & having come along side hailed in English and asked what Ship - That the Appearer answered "an Arab" - That the Appearer was then ordered by some Person on board the Strange Ship to shorten Sail which he did And the Appearer further declared to me Notary that 2 Officers & 25 Men well Armed with Pistols Cutlasses soon after came on board the said Ship Faithel Carrim - That the first thing they did was to send the acting Nacoda belonging to the said Ship Faithel Carrim on board the Strange Ship - That at 6 Clock A.M. they took him (the Appearer) and all his Papers - and sent them on board the Strange Ship & that the said Papers were there Examined - and the Appearer did further declare to me Notary that finding that they could not make Prize of the said Ship Faithel Carrim she having a Passport on board from the Sultan of Muscat - they sent their Boat on Board & began to plunder her - And the Appearer did declare to me Notary - that the said Ship was plundered of the following Articles (to wit) Four bowls of Bengal Canvas, two bowls of Europe Canvas, 2 Dozen Skains of Marline, Four hand lead-lines, two Deep sea lines, six Skains of Log line - six Bags of Cargo Wheat, 1 Dozen of Serving line, of different sorts, one Dolver of Ghee, one Book of Chart - one Ships Log Book, 4 Barrels of Paints of different Colours, 2 Butts of water & about 15 or 16 Bengal Maunds of Firewood - And the said Appearer did declare to me Notary - that at 11 A.M. they suffered the Appearer and the said Ship Faithel Carrim to depart - And the Appearer did further declare that the Strange Vessel which so plundered the said Ship Faithel Carrim proved to be the French Privateer La Fortune Commanded by Captain La Mesne - And the said Appearer did further declare to me Notary that after the said Ship Faithel Carrim was so permitted to depart She did pursue the course of the said Voyage to Bombay without any material occurrence until Wednesday the 11th Day of April now last past at which Day at the hour of 10 A.M. the said Ship Faithel Carrim being then in Latitude 6° 55' North - Longitude 83° 25' East - a Gale of Wind set in from the South East Quarter accompanied with Thunder Lightening & Rain which caused the Appearer to Strike the Top Gallant Yard & Mast & to take in one reef in each Top Sail - The said Ship Faithel Carrim Continuing her Course to the Southward - And the Appearer did further declare to me Notary that on the following Day Thursday the 12th Day of the said Month of April the Gale veered round to the West & West South West - the said Ship Continuing her course to the Southward - and that on the following Day Friday the 13th Day of the same Month of April the said Ship experienced Moderate Gales from the Westward and West South West - and that he the Appearer & his Ship's Crew in Consequence close reefed the Fore & Main Top Sail - that at half an hour past 8 P.M. the Gale increased from West South West with a heavy Sea which caused the Ship to labour very much and to make water - so as to render it necessary to keep the Pumps at work every two hours - That the said Ship was then under a Fore-Sail & Main Sail - and that She Continued her said course to the Southward - And the Appearer did further declare that on the following Saturday the 14th Day of the said Month of April - the Wind & Weather continued as on the preceding Day - but that the said Ship was found to make from 18 to 19 Inches of Water every hour which made it necessary to keep one Pump going constantly - That on the said 14th Day of April the said Ship continued her course to the Southward - under her Foresail & Main-Sail - And the Appearer did further declare - That on the following day Sunday the 15th Day of the said Month of April the Gale continued as on the preceding Day with a heavy Sea & the Pump going constantly - That at one P.M. the Ship tacked & stood to the North West - And the Appearer further declared that on Monday the 16th Day of April the said Month of April the Gale increased with a heavy Sea - which caused the Ship to make from 19 to 20 Inches Water every hour - and rendered it necessary to keep the Pump constantly at Work That the said Ship continued her Course to the Northward - And the Appearer did further declare to me Notary that on the following day Tuesday the 17th Day of the said Month of April at the hour of one A.M. of that Day (the said Ship being then in Latitude 7° 30' North - Longitude 82° 23" East) it was the intention of the Appearer to wear Ship & stand to the Southward but that the Nacoda & Ships Company begged him (the Appearer) to carry the said Ship to Madras saying that they were unable to Pump the Ship any longer

That

That the Appearer then told the said Nacoda & Ships Company that he the Appearer would not Consent to do so unless they the said Nacoda & Ships Company would sign a Protest touching the said Winds & Weather which the said Ship had encountered since the said 17th Day of April which they accordingly did - and which Protest so signed by them the said Nacoda & Ships Company the said Appearer did at the time & place first hereinabove mentioned produce to me Notary and did at the same time & place before me Notary Testify & declare that the several circumstances & Transactions therein entered & recorded were faithfully & truly related & set forth as the same actually occurred - And I Notary have subjoined to this my Public act and made apart thereof a Copy of such Paper writing or Protest which I do hereby certify & attest to be a faithful & correct Transcript thereof - and the Appearer did further declare to me Notary that at half an hour past 3 A:M: on the said 17th Day of April it began to blow a very hard Gale of Wind from the West South West with a heavy short Cross Swell which caused the Ship to labour very much - That the said Ship had then 3 feet water in her Hold with two Pumps going - and that she could not keep her Bow out of the Water - That the Appearer & his Ships Crew were obliged to Clew up the Main Sail & run before the Wind - and the Appearer did further declare to me Notary that the said Ship Faithel Carrim being in the Opinion of him the Appearer and his Ships Company in the utmost danger of foundering - The Appearer & his said Ships Company were unanimously of Opinion that the only means of saving the Ship & Cargo on board from foundering as also of preserving the Lives of all Person on board was to throw over board such Quantity of Cargo as might be necessary to ease the Ship - That in pursuance of such unanimous Opinion the said Appearer did cause to be thrown over board 1460 Bags of Rice part of the Cargo then on Board the said Ship and two Guns & their Carriages - That at half an hour past 6 A:M: the Gale moderated - & that at 8 A:M: the said Ship came in Sight of the Island of Ceylon - the Island bearing South West half South distance of Shore about 10 or 11 Leagues - That on Sunday the 22nd Day of April last the said Ship reached & Anchored in Madras road where she now remains - And the Appearer did declare to me Notary that by reason of the Winds & Weather which the said Ship so encountered from the said 17th Day of April until & particularly on the 17th Day of the same Month And by reason also of the great Quantity of Water shipped during that period he the said Appearer & his Officers were sure of Opinion & did still have reason to apprehend that the remaining or some part of the Cargo on board the said Ship must have sustained damage from the Seas - And that the Cause of the said Ship making so much water must have arisen from the Gale of Wind which the said Ship so met with as hereinbefore particularly mentioned And the Appearer did declare & explain to me Notary that notwithstanding it doth appear by the Protest or Paper writing so signed by his Officers & Crew a true Copy whereof is to this my Public Act annexed - that the Bags of Rice which it was found necessary to throw over-board during the Gale of Wind before mentioned Amounted in number to 1046 - Yet that in truth and in fact the real number so thrown over board Amounted to 1460 - and that the said number of 1046 Bags was entered in the said Protest or Paper writing thro' inadvertence and by mistake - And the Appearer did at the time & place aforesaid declare and solemnly assert before me Notary that all such Damages & Losses as the said Ship may have suffered in her Hull Tackle, Apparel or Furniture or in respect of her Cargo were wholly occasioned by the Winds & Seas in manner before related & not by or thro' the Act default or neglect of him the Appearer his Officers or Crew - And for & on account of all & every the Matters & Facts aforesaid as declared & confirmed for truth before Notary the Appearer did on behalf of himself & the Owner of the said Ship Faithel Carrim desire to Protest and accordingly he doth by these Presents solemnly Protest against the Winds & Seas aforesaid & all Losses & Damages which have by reason thereof been sustained by the said Ship Faithel Carrim her Tackle Apparel or Furniture or the Goods of her Lading - and likewise against all other Losses Damages & Charges & Expences whatsoever which the said Ship may have sustained as well by the means last mentioned as by the detention & plundering of Ship by the French Privateer La Fortune as hereinbefore particularly mentioned - And for all & every Cause, Matter & Thing whatsoever which he the Appearer on behalf of himself his Owner can may or ought to Protest for or against in or about the aforesaid Premises - To the Intent and in order that all the same Losses Damages & Charges may be sustained by & recovered from such Person or Persons whom it may behove to bear, pay, & defray the same - And the Appearer did further desire of me Notary this my Public Act as Evidence in the premises - And to the End and Intent that such Act may be availing in the Manifestation and recovery of such losses Damages & Charges from all Persons whom it may concern when the same shall or may be thereunto or for that purpose required - Therefore I Notary have granted these presents under my hand and Seal of Office at Fort St. George Madras aforesaid this day of April in the Year of Christ 1804 -

By this Publick Instrument of Declaration and Protest Be it known unto all Persons whom it may Concern That on the 25th day of June in the year of our Lord One thousand eight hundred and four before me Daniel Neale Notary Publick by lawful Authority duly admitted and Sworn and dwelling and Practising at Fort Saint George Madras on the Coast of Coromandel personally appeared Hugh Wallace Adams late first officer of the Merchant Ship named the Vulcan of Madras which was lately belonging to Messrs. Aldick and Maitland of Fort St. George Madras Merchants and Copartners and the said appearer did then and there relate and declare for truth to me Notary as follows (that is to say) That the said Ship Vulcan of the burthen of 450 Tons or thereabouts Navigated by Nicholas Birsay master three mates and 50 Lascars having on board 6 guns (4 & 6 pounders) and laden with a Cargo principally Consisting of piece goods departed from Madras on the 1st day of February last on a Voyage to Penang and the Coast of Pedier that the Declarand was Chief Mate and Robert Robertson & Joseph Peters were the 2d. and 3d. Mates of the Ship - that the said Ship Arrived at Penang on the 5th day of March last and remained there until the 24th of the same month having there discharged a part of the Cargo and having there also taken on board for the Trade at Sallasamoy on the Coast of Pedier 3000 Dollars - that with the remaining Cargo & Dollars on board the said Ship Sailed from Penang on the 24th March and arrived at and Anchored in the bay of Sullasamoy on the 3d of April that the said Ship lay at Anchor there and within the bay in 10 fathoms Water until the 6th April in the interval of which days Neither was her remaining Original Cargo or any part of it nor the Dollars which she received on board at Penang or any

of them discharged from the Ship and the appearer did further more relate and declare for truth to me Notary at the time and place aforesaid That on the same 6th. Day of April last and whilst the said Ship was at laying at Anchor in the bay of Tullasamoy in 10 Fathoms water and was the only Ship in the bay and whilst the Sea Breeze was blowing strong into the Bay and about noon a Ship was seen from the Vulcan standing head on to her right into the bay and that as the Ship approached a Number of Seapoys in red dresses were discovered on her Fore Castle and at times the fly of an Ensign of the Honorable Company at the Mizen peak clear of her Sails was seen and the Declarant did also State to me Notary that information had been theretofore given by the to the Captain and officers of the Vulcan of there being 2 English Ships then trading on the Coast and that the Ship then approaching was therefore taken from of them and the appearer did Moreover relate that with the Sea breeze the Strange Ship coming and thereby not shewing her broad side . the Vulcan very fast and at one P.M. was nearly along side and still carrying the Company's Ensign hailed the Vulcan to know what Ship? that no answer having been given and the Ship coming on the Starboard Side of the Vulcan the English Ensign was hauled down and the French Colours hoisted and she hailed the Vulcan a Second time with an Order to strike to a French Privateer that at the same time her people (who were before concealed) jumpt upon deck and in the rigging and Shewed themselves ready for boarding and that she immediately let go her Anchor close on the Starboard Quarter of the Vulcan and hailed a third time with a more peremptory Order to strike whilst the Lascars of the Vulcan either ran below or threw themselves on Deck and he furthermore State to me Notary that Captain Birsay thereupon required the opinion of his officers as to the of contending with the Superior force — as the privateer manifested - and that their opinion Concurring with his own that the Vulcan had not any defence to make and that they could not hope to escape from the Enemy against the Strong breeze which set into the bay Captain Birsay ordered that the Colours of the Vulcan should be struck and the appearer did further inform me Notary that the French Ship to which the Vulcan so Struck proved to be La Fortune Privateer commanded by Le Mesne that she had on Board 12 Guns of which as the appearer last observed 10 were — 4 Pounders and 6 were 12 Pounders and 528 Men that she had been 5 Months from the Isle of France : had been cruizing at — the Land heads and had made 4 Prizes before that her last Capture from one of which (Namely the Pomone) she had received on Board the Seapoys that were placed on her Fore Castle - and the appearer did likewise make known to me Notary that the Vulcan within a few hours after her having been Captured was with Captain Bursay and the Lascars and her Cargo on board her dispatched by Captain La Mesne to the Isle of France And that the Log Book of the Vulcan also remained in the Ship whilst the Declarants and the 2d. and 3d. officers of the Vulcan (Name the said Robert Robertson and Joseph Peters were taken on board the privateer and therein remained for 10 or 11 days until that at Pedier they were put on Board a Danish Brig bound for the Coast of Coromandel and the appearer did declare to me Notary that — presently after his going on board the Privateer he put into Writing a short detail of the Circumstances attending the aforesaid Capture of the Vulcan - and the same paper Writing the Declarant did produce to me Notary - and which I have found faithfully to Conform with the declaration Contained in this my Public act - and the declarant lastly related that he and the said Robert Robertson & Joseph Peters (1st 2nd and 3rd Officers of the Vulcan) arrived in the Danish Brig on the 20th. day of the present Month of June at Porto Novo - and that on the 24th Inst. they reached Madras. —

And on this 27th. day of the said Month of June before me Notary at Fort St. George aforesaid personally appeared the said Joseph Peters who declared for truth to me Notary That he the said Robert Robertson were 2d and 3d Officers of the Vulcan as well in her passage from Madras to Penang and Tullasamoy as at the time of her being made Prize to the French Privateer La Fortune in Tullasamoy Bay on the 6th day of April last and the appearer last named did affirm for truth to me Notary that the said Ship Vulcan was at the time and place and in the Manner hereinbefore Stated Captured by the French Privateer La Fortune Commanded by Le Mesne and that the said Ship Vulcan with Captain Birsay and the Ships Log Book on board her was dispatched forthwith thereafter by the Captor to the Isle of France and that he the Declarant last named (together with the said Hugh Wallace Adams the first officer of the said Ship) and the said Robt. Robertson did remain on board the said Privateer for 10 or 11 Days and were then in Company with two

on board the Danish Brig at Pedier and therein arrived at Porto Novo on the 20th. Instant and at Madras on the 24th. Instant.—

By reason of which premises the said appearers Hugh Wallace Adams Robert Robertson and Joseph Peters on behalf of the said Captn. Ely Birsey and the Owners and Freighters of the said Ship and of all others concerned or interested in her or her Cargo did Severally desire to protest and they did before me Notary Protest against the Enemy and Winds and all other Causes of the Capture and Loss aforesaid of the said Ship Vulcan and her Cargo for all loss Damages Charges & Expences already occasioned sustained or expended in consequence or on account of the premises— And the said appearers did require me Notary to make and Execute Act accordingly made and executed this Public Act or Instrument to serve and avail them owners & Freighters of the said Ship and all others concerned in time & place Convenient In Testimony whereof I have hereunto set my hand Seal & office the 28th Day of June in the year of Our Lord 1804.—

Messrs Edmund Bochm & Co had advised me of their Intention to

draws on me for the Amount of their Advances on account of the Owners of the Ship Lucy Maria, and I presume these Bills are on that account—

It is with extreme Concern Gentlemen I see myself Obliged to refuse honoring the respectable Signature of Messrs Edmund Boehm & Co which on any other Occasion, I should most cheerfully do.

In Justification of this refusal it is a duty I owe to myself as well as those Gentlemen to state the reasons upon which it is grounded—

I hold half a Share in the Ship Lucy Maria, Commanded by Captain Dawes who owned a Quarter Share & Mr Buckley of Dacca is owner of the remaining Quarter — On account of the Advances made for my half Share, I gave Messrs Harington Burnaby & Co a Lien upon my Interest in the Concern by a positive Order on Messrs Edmund Boehm & Co to receive my half of the amount of the homeward freight (estimated at £20,000 Sa Rs) & to remit it to Messrs Harington Burnaby & Co— Instead of Complying with this Order Messrs Edmund Boehm & Co without Communicating with me or thinking it necessary to have my authority took upon themselves to make advances to Captain Dawes as he judged proper do call for them — I was as perfect Stranger to these Transactions untill previous to my Departure for India — I called on Messrs Edmund Boehm & Co to know whether they had Complied with my Order to remit £10,000 Sa Rs to Messrs Harington Burnaby & Co when to my Surprize I found they had not done so, but on the Contrary paid away all the funds of the Concern to Captain Dawes, to whom they had also made a large advance—

On my arrival in India I represented these Matters to Messrs Harington Burnaby & Co & called upon Captain Dawes for an Explanation of the heavy Advances that had been made to him the former had furnished me after a long Lapse of time, with his accounts from which I learnt that he had Considered as my Private Property 200 Pipes of Madeira Wine which were put on board the Lucy Maria on account of the Owners & the amount of which forms the larger part of Messrs Edmund Boehm & Co Advances — although this was the first information given to me by Captain Dawes on this Subject, and Conscious as I was that this wine was actually purchased on account of the Owners, I lost no time in remitting to Messrs Edmund Boehm & Co the full amounts of their advances for its & I now inclose you Copy of a Letter written to them by Messrs Chase Shinnery & Co Bombay & Co Conveying a Remittance to them of £8337-10-— Sa Rs—

At the time this Remittance was made to them I informed Messrs Edmund Boehm & Co that the Lucy Maria had proceeded on a Voyage to China & that on her Expected return here I should settle all accounts with Captain Dawes & arrange for the Liquidation of their remaining advances on account of the Owners —

These remaining advances, that is the differences between the amount of the above Remittances & that of the Bills drawn upon me by Messrs Edmund Boehm & Co Amounts to £1991-13-8 Sa Rs for one half of which only being £2165-11-10 Sa Rs, am I, or can I, be held answerable to Messrs Edmund Boehm & Co— To this Amount I am very willing to honor their Signatures, or to put you in Possession of Bills on England for the same, But to do more, would be an injustice to myself I cannot think of submitting to.—

I request you will transmit to Messrs Edmund Boehm & Co a Copy of this Letter, & assure them that I feel no Common Concern in being obliged to refuse the accustomed honor to their Signatures.—

I have the honor to be

Be it Known unto all Persons by these Public Instruments of Declaration and Protest that on the twentieth day of August in the year of our Lord one thousand eight hundred and four before me Daniel Neale Notary Public by lawful authority duly admitted and Sworn and dwelling and practising at Fort Saint George Madras on the Coast of Coromandel in the East Indies Personally appeared

James

James Shean Commander of the Ship Gilwell now laying in the Roads of Madras in which Roads she arrived on the same Day from the Port of Bombay and the said appearer at the said time & place declared for truth to me Notary as follows that is to say on Saturday the fourth day of the said month of August the said Ship Gilwell under the appearers Command departed from the harbour of Bombay in Prosecution of her Voyage towards Madras and that during the time the said Ship Gilwell was riding at anchor of the outer harbour of Bombay ~~was at Anchor in Bombay Harbour~~ she experienced fresh Breezes mostly from the west south west — with squally weather and a very heavy Sea which occasioned the said Ship Gilwell to pitch greatly and the appearer further declared to me Notary for truth that at 1/ o'clock A.M. on the same 4th Day of August the appearer found it necessary to strike mast & yard and that at 10 o'clock A.M. on the same 4th Day of August the Flood tide beginning to slack he the appearer ordered his people and did accordingly cause to be struck the fore top gallant — mast & yard and that at 10 o'clock A.M. on the same 4th Day of August the Flood tide beginning to slack he the appearer ordered his people to hoise in the Cable to 25 fathom water which was accordingly done and the said Ship at the same time taking a heavy Pitch carried away all — the Nippers and the appearer further declared to me Notary for truth that he the appearer then Ordered his People to hitch the Messenger which was immediately done and then hoise the Cable — again and that in so doing the Messenger mast stopper &c were carried away that the appearer did then cause a Purchase to be hoise with the Fore Blocks & Hawser and that the Cable was hoise a third time in doing which the Strap of one of the Fore Blocks was broken which occasioned several of the Ships Company to be severely bruised & maimed insomuch as to render them unfit for duty and that in particular one man had his arm broken and the appearer did further declare to me Notary for truth that finding it impossible to purchase the Anchor in such a high Sea the appearer was under the necessity of ordering the Cable to be cut at 25 fathom from the Clinch which was accordingly done and that the said Ship Gilwell then made Sail (the wind being west south west) & stood to the Southward under single reefed main Sail & Double Reefed fore & mizen top Sails and the appearer further declared that the said Ship Gilwell was employed working out of the said Harbour of Bombay until noon on the said 4th Day of August and the appearer did further declare to me notary that the said Ship Gilwell arrived in safety in Madras Roads without any further or other particular occurrence on the same 20th Day of August and the appearer did at the time & place first hereinbefore mentioned produce to me notary the Log Book of the said Ship Gilwell Containing the details of the particular obstacles & difficulties hereinbefore mentioned which the said Ship Gilwell experienced & encountered in working out of the said Harbour of Bombay & did before me notary testify and declare that the said Circumstances & Transactions therein recorded were faithfully & truly related & set forth according to their actual occurrences from which Log Book I have at the desire of the said appearer extracted such facts as more particularly the Circumstances hereinbefore set forth as declared by the said appearer do me notary do certify and attest to be faithfully & correctly extracted from the said Original Log Book of the said Ship Gilwell and the appearer did declare & solemnly affirm before me Notary that all such Damages & losses as the said Ship Gilwell may have suffered and sustained & particularly the loss of an Anchor & Cable as hereinbefore mentioned were wholly by means of the Flood tide which had set in and the winds & weather which the said Ship encountered at the time of her working out of Bombay Harbour and not by or through the acts default or neglect of him the appearer or his officers & crew and the said appearer did on behalf of himself & his Owners desire to Protest & against all & every the matters aforesaid as declared & confirmed for truth to me Notary and he both accordingly by these Presents solemnly Protests against as well against the loss & Damage hereinbefore mentioned as against the winds & Seas aforesaid & all other losses & damages which have by reason thereof been sustained by the said Ship Gilwell her Tackle apparels or Furniture and likewise against all other Damages losses charges & Expences whatsoever and for all & every cause matter & thing whatsoever which he the appearer on behalf of himself & his Owners now may or ought to Protest for or against in or about the Premises for the indemnifying & Ordering that all the same losses Damages & charges may be sustained by & recovered from such Person or Persons whom it may behove to bear pay & defray the same — and the appearer did desire of me Notary this my Public acts as Evidence in the Premises & to the End & intent that such acts may be avail[ing] in the manifestation and recovery of such losses Be it Known to all Persons by this Public Instrument of Declaration and Protest that on the 3d. day of Septr. in the year of Our Lord 1808 before me Daniel Neale Notary Public by lawful Authority duly Admitted Sworn & dwelling Practising at Fort St George on the Coast of Coromandel in the East Indies Personally appeared Thomas Macnee Lance Commander & part Owner of the Ship Waldegrave now lying in the roads of Madras where he arrived on the day of this Instant September from the Port of Calcutta and the said appeared at the aforesaid time & place declared & truly to me Notary as follows that is to say that on Wednesday the 25th. day of July last past the said Ship Waldegrave being in thorough & Complete repair good Order & Condition well found in every respect & fit for Sea and having on board a Cargo Consisting of 8750 Bags of Rice & Chests of Gunpowder Lead & Sundry other Articles departed from Calcutta River having a Pilot on Board bound on a Voyage to Bombay and the appearer declared to me Notary that the Pilot quitted the said Ship Waldegrave at the hour of 5 P.M. on the same 25th. Day of July last the said Ship being then 8½ Fathoms Water Experiencing fresh Breezes with Cloudy weather & so were, heavy Sea that at the hour of 10 P.M. on the same Day owing to the said Ship Pitching very heavy her Main Top Mast was carried away by a violent Jerk of the Sea close to the Cap as were also her Main Top Gallant Mast at the Heave Hole and the Main Top Gallant Yard in the Slings and the appearer did at the time & place aforesaid declare for truth to me Notary that during the first part of the following Day Thursday the 26th. Day of the said month of July the said Ship Waldegrave experienced fresh Breezes with Squalls occasionally & much Rain the weather being Cloudy which was succeeded by a heavy Gale the weather wearing a Dismal appearance which induced the appearer to hand the Fore & Mizen Top Sails & to strike the Fore & Mizen Top Gallant Masts & soon afterwards to hand the main Sail & to unbend the Jib & Spanker one Pump being Constantly Kept going that at noon the Wind then being Westerly and Sea increased and that there was every appearance of an approaching Gale that at the Hour of 5 P.M. on the last mentioned day the said Ship Waldegrave experienced hard Gales & violent heavy Squalls with much Rain and a Tremendious heavy Sea the Ship Labouring much and Shipping heavy Seas which Occasioned the Lashing of the Boats & Booms to give way and that whole went to Leward the said Ship being at that time bow & Heavy the Deck under Water that being thus circumstanced the appearer found it Necessary to Cut the small Bower Cable & Shank Painters and Stoppers of the Lee Anchors in order to ease the Ship that the Stream Anchor would hold the Glues of the Small & Spare Bower being inside the Gunnel the appearer found it impossible to get them over the Side and the appearer further declared to me Notary that he then immediately wore Ship and that in doing so the fore Sail and fore Top main Stay Sails were both by the Severity of the Gale blown to Pieces that the appearer at length succeeded in wearing Ship and how to under the Mizen Stay Sails and that he was obliged to have Swabs Mats over board in order to clear the deck that the Sea then made a fair breach over the Ship and that a great quantity of water by that means got down at all the Hatchways which rendered it necessary to Keep one Pump Constantly at work and that one of the Pumps was Choaked and the appearer further declared to me Notary that he the appearer finding the water gain on the Pump which was at work he the appearer then began to heave some of the Cargo over board to lighten the Ship but that the Sea Continueing to make a fair breach over her he found it impossible to Keep the Hatchways and that they were in Consequence battened down. That the appearer afterwards made a similar attempt to throw over board a part of the Cargo but without success for the reasons before Stated that at day light the following morning the appearer was enabled to unlay the Forward after Hatchways and that he then gave Orders to his People to throw over board a part of the Cargo in doing which they were employed four hours that is to say from the hour of 5 A.M. until the hour of 8 A.M. of Friday the 27th. Day of the said Month of July and the appearer further declared to me Notary that during the greater part of the said four hours both the Pumps were completely Choaked up and unless that at 8 o'clock A.M. on the last mentioned day the appearer got the Starboard and at 9 o'clock A.M. of the same day the Larboard Pump to work then being at that time 3½ feet of water in the hold of the said Ship and that the Ships Crew were again employed throwing over board part of the Cargo as also Spars Fire wood Lascars Chests and other Articles which could be most readily got at the moment in order to clear the decks and that they were so employed until Noon on the same day Friday the 27th. day of the said month of July the two Pumps being Constantly Kept going that about the last mentioned period one Lascar belonging to the Ships Company was found dead under the Rigging and Sails and the appearer expressed to me Notary his belief that the said Lascar lost his life in consequence of the Ship Striking a Sudden

heavy Surfs That at Noon on the last mentioned day the said Ship Waldegrave experienced Strong Gales with very heavy Squalls & a confused Sea with Rain and That about that period one Lascar was missed its being concluded by the appearer and his officers that he must have been washed over board in wearing Ship and the appearer further declared to me Notary That during the following day Saturday the 28th. Day of the said Month of July the said Ship Waldegrave Continued to experience the like weather as on the preceding day and That the appearer in consequence found it still necessary to avail himself of every opportunity afforded him of Keeping the Hatches open to throw more of the Ships Cargo over board That the said Labourers greatly and That both pumps was constantly at work during the greater parts of Saturday the 28th. Day of the said month of July the water gaining at times on one Pump and the Sea Continuing to make a breach over the Ship and the appearer further declared to me Notary that on the following day Sunday the 29th. day of the said month of July the said Ship experienced Hard Gales & Cloudy weather with heavy Squalls at times and to make a great deal of water which rendered it necessary for the appearer to order more of the Cargo to be thrown over board and to keep one Pump going the other having been found to lie again in a useless State and Chocked up That at the hour of 3 P.M. on the last mentioned day it was discovered That the Tanks Scuttle where the greater parts of the Fresh water on board the said Ship was Kept was broken and That the Salt water having by the means aforesaid Communicated to the fresh the latter was rendered unfit for use and the whole was in consequence thrown over board and That it was further discovered That both the boats and the Rigging Sails and Stores of the Ship were greatly damaged and the appearer further declared to me Notary That about the hour of 5 A.M. on the said 29th. Day of July the Gales Moderated and That during the time it so lasted according to the best of the Recollection of the appearer about 1800 Bags of Rice or thereabouts were thrown over board and That he the appearer and his officers did consider it absolutely necessary so to do in order to ensure the safety of the said Ship and the lives of the people on board who in the opinion of the appearer and his officers must otherwise as well as the said Ship have inevitably perished and the appearer further declared to me Notary That by the winds and weather aforesaid the said Ship suffered greatly in her upper works yards Masts Rigging Sails and Stores of every discription and That the said Ship being in such a distressed condition he the appearer with the advice of his officers resolved on proceeding to the Port of Madras for the Purpose of taking in a fresh Supply of Water And to get the said Ship fitted in a proper State and Condition to prosecute her intended Voyage to Bombay but That the said Ship was driven considerably to the Eastward during the aforesaid boisterous and tempestuous Gales of wind and having afterwards experienced light and baffling winds the Passage to Madras was greatly retarded and the appearer further declared That on the 32nd. day of August now last past the said Ship Waldegrave arrived off Bimlipatam at which time there being only 6 tons of water on board and it being absolutely necessary to have the Masts of the said Ship Secured So enables her to carry sail he the appearer Judged it advisable for the Interests of all parties concerned to bring the said Ship to an Anchor there which he accordingly did That the said Ship Remained at Anchor at Bimlipatam ___ days the whole of which time was necessarily employed in taking in water and putting her into the best possible State to prosecute her Voyage That the said Ship Sailed from Bimlipatam on Saturday the 38th. Day of the said Month of August and arrived in Madras Roads as before related without any particular occurrence on last the day of this instant September and the appearer declared to me the Notary That by reason of all and singular the before mentioned Premises he the appearer had reason to apprehend That the remaining Cargo now on board the said Ship must have suffered damage from the Seas and That the said Ship must have suffered very considerably in her Tackle apparel Rigging and Furniture and the appearer did at the time and place first herein before mentioned produce to me Notary the Log Book of the said Ship Waldegrave containing a details of the Damages and Loss occasioned to the said Ship by means of the winds and weather aforesaid and the particular Accidents attending the same and did before me Notary testify and declare That the several circumstances therein recorded were faithfully truly related according to their actual occurrences from which Log Book I have at the desire of the appearer Extracted such and so many particular facts as most materially concerned the purpose of him the appearer to declare before me Notary and I have also at his desire subjoined to this my Public act and made a part thereof true Copies of such entries which I do certify and attest to be faithfully ~~true~~ Extracted from the original Log Book and the said appearer did declare and solemnly affirm before me Notary That all such Damages and Loss as the said Ship may have suffered in her Hull Tackle apparel or Furniture or in respect to her said

said Cargo And all diviations (if any) from the direct Course of her Voyage were — wholly occasioned by the winds and Seas and not by or thro. the act default or Neglect of him the appearer or his officers or Crew as would also in part appear by the Testimonials entered in the said Log Book signed by the Several Persons whose names appear thereunto subscribed and of which I have also added — hereunto as true & Correct Copy and for all and every the matters aforesaid — as declared and Confirmed for Truth before me Notary the Appearer did on behalf of himself and the Owners of the said Ship desire to Protest — and accordingly he doth solemnly by these Presents Protest against the winds & Seas aforesaid for all Loss and damages whatsoever that shall — or may appear to have been Sustained by the said Ship Woodgrave — her Tackle Apparel or furniture or the Goods of her Loading or any part thereof and for all Charges & Expences already incurred or expended or to be paid expended or Sustained by reason or means of or in any wise accident to the Several matters aforesaid or any of them and also for all and every — other Cause Matter & thing whatsoever which he the appearer can may or ought to Protest for or against in or about the Premises and the appearer did desire of me Notary this my Public Act in Evidence of the Premises To the intent that the same may be availing in the manifestation and — recovery of all such damages losses costs charges & Expences in time and place Convenient from such Person or Persons as the aforesaid Premises do Concern Wherefore I Notary gave Granted these Presents under my hand and — Seal of office at Fort St. Geo. aforesaid this day of September — in the year of Christ 1804 In the presence of

Madras 9th Augt 1804.

Be it known to all Persons by this Public Notarial act that on the 25th day of Septr in the year of Christ 1804 before me Daniel Neale Notary Public by Lawfull authority duly admitted and sworn and dwelling and practising at Fort St George Madras on the Coast of Coromandel in the East Indies personally appeared Francis Xavier Simos commander of the Portuguese Ship Speke now Lying at Anchor in the roads of Madras where she arrived on the 13th Day of September Instant from Lisbon but last from Rio de Janeiro And the said Appearer at the time and place aforesaid did declare for truth to me Notary that the said Ship Speke under the Command of the appearer sailed from Lisbon on the 1st day of May last bound on a Voyage to Rio de Janeiro Madras and Bengal That on the 19th day of this present Month of Septr he the appearer was in perfect readiness to prosecute his said Voyage to Bengal and that he did accordingly on the last mentioned day apply for & obtain from the Custom House at the Port of Madras aforesaid a Port Clearance for the said Ship Speke That the Appearer on the 21st day of the said Month of September did apply at the Master Attendants Office for a Boat to proceed to the Said Ship Speke and for that purpose did produce and shew to the Deputy Master Attendant this port clearance but that he the Appearer was then informed by the said Deputy Master attendant that the Port Clearance so obtained by the appearer as aforesaid would not do and that a general Embargo had by order of the Govt of Fort Saint George been imposed on the 20 day of the said Month of September and further that the said Deputy Master attendt took from the appearer his said Port Clearance which he referred to restore to the appearer and the said ship Speke under the Command of him the Appearer being detained in the Roads of Madras by the means & in manner aforesaid whereby the appearer apprehends the object of his Employers may be defeated & the intended Voyage Lost, he the appearer was therefore desirous on behalf of himself & his owners of Protesting agt the said Govt of Fort St George and against all other Persons & persons who it doth or may concern in consequence of such detention of the said Ship Speke in manner before Stated. Wherefore I Notary at the Instance & request of the said Francis Xavier Simos the Appearer do hereby solemnly Protest against the said Govt of Fort Saint George and such Officers and Servants of the said Govt as the Premises aforesaid do concern by reason and on Account of the detention of the said Ship Speke in the roads of Madras as aforesaid after the said 19th Day of Septr instant being the day on which the said Ship Speke was ready to take her departure from Madras in Prosecution of her Voyage to Bengal as aforesaid and also against all liability or responsibility of the said Francis Xavier Simos the appearer for any damage which shall or may happen to the said Ship Speke her tackle apparel & furniture and the Goods of her lading by means of such her detention as aforesaid.

In Faith and Testimony whereof I Notary have hereunto set my hand and affixed my Seal of Office in Fort Saint George aforesaid this 26th Day of Septr in the year of Christ 1804.

By this Public Instrument of Declaration and Protest Be it Known unto all Persons that on Monday the Twenty fourth day of September in the year of Christ One thousand eight hundred and four Before me Daniel Neale Notary Public by lawful authority duly admitted and Sworn and dwelling and practising at Fort St George Madras on the Coast of Coromandel in the East Indies at my office in Fort St George aforesaid appeared Personally William Hammon late first Officer of the Ship Lucy maria belonging to the Port of Calcutta of the Burthen of 750 Tons or thereabouts and at the time and place aforesaid the said appearer did make Known and declare for truth to me Notary as followes that is to say that the said Ship Lucy maria under the Command of Captain Walter Dawes now deceased whom the appearer declared was also a Part Owner of the said Ship being tight Staunch Strong and in good Order and Condition departed from Saugor Roads on the 2d day of November last bound on a voyage to China the said Ship having on board as Cargo of about 1150 Bales of Cotton and 2800 Bags of Rice and sundry other Articles and the said

Notary that at the time of the before mentioned departure of the said Ship Lucy-
Maria from Sangur roads she had on board as Compliment of 109 men including
Captain and officers all of whom were then in apparent good health and perfectly
Competent to Navigate the said Ship to her destined Port in China And the appear
further declared for truth to me Notary that the said Ship Lucy maria
Continued to prosecute her said Voyage Successfully and without any remarkable
occurrence having experienced moderate but unsettled and very rainy weather
Until Friday the 11th day of Decr 1803 on which day many of the Crew
Complained of a Swelling in their Legs and in different parts of their bodies which
the said Walter Dawes and others on board the said Ship concluded to be the
Scurvy and attributed the same to the heavy Rain which the said Ship Experienced
almost incessantly since the 11th day of Novr preceding and the appearer declared
that as well by reason of such incessant Rains as also by the frequent Swells
the said Ship had encountered the Sails of the said Ship were so early in the said
Voyage as the 19th Decr entirely split and worn to Pieces and that he the appearer
in the Course of his professional experience had never met with the like disagreable
weather or seen Sails so much worn in the same period of time and the appearer
further declared that at day light on the morning of the 25th day of the said
Month of Decr the said Ship Lucy Maria made the Island of Java on
Sunday the 25th day of the said Month of Decr the Island of Nasau Baron
and that on the following day the said Ship owing to a Strong Current Setting
in was driven thro the Straits of Lombock that the said Ship in her Passage
thro the Straits of Lombock proceeded between the Island Called the Pertelions
and the Sambawa Shore and thence round the Paternaster Island as far as the
Celibes Islands and that the said Ship Lucy Maria anchored on the 31st day of
the said Month of Decr at the South end of the last mentioned Islands and on
the following Morning proceeded to the Straits of Salar and the appearer
further declared to me Notary that on or about the last mentioned day the
same Sickness with which the Crew of the said Ship had been partially
afflicted previous thereto became more General and that between twenty
and thirty of the Crew were seized with as similar Sickness attended with
the same Symptoms and Circumstances on the said last mentioned day
insomuch as to be altogether incapacitated for any duty whatever and
that the Symptoms before related by the appearer were succeeded by
a total Stoppage of urine a difficulty of breathing and voiding of
large white worms which with a very few exceptions proved fatal
in every instance and the appearer further

That the said Ship proceeded from the Straits of Salar between the Islands and
Shoals of the Solom Bolseys and the Island of Boreton to the Eastward of Celebes
and up to the Gilolo Sea and the appearer further declared to me Notary that
about the period of the arrival there of the said Ship Lucy Maria about 1/3 of the
Crew of the said Ship had been buried since the Sickness before related first
prevailed in the Ship and the appearer further declared that on the 19th day of
January more than one half of the said Ships Company were incapacitated from
doing any duty whatever on board the said Ship by reason of the Sickness before
with which they had been previously Seized and that on the 25th day of the said
Month of January there was not person on board Capable of steering the said
Ship but two Midshipmen and two Lascars all the Seamanys being Sick and the
appearer further declared for truth to me Notary that on mustering the Ships
Company on the following day Thursday the 26th day of January at the hour
of 8 P.M. there was not a Sindal Lascar or Sea Gunny belonging to the said
Ship who was not more or less affected with the before mentioned Sickness except
the Syrang who was also ill of a different disorder and that on the last
mentd day and at the time of mustering the said Ships Company as aforesaid
there were not ten Lascars Capable of doing any duty And the appearer further
declared to me Notary that in Consequence of such mortality on board the said
Ship Lucy Maria and the almost certainty that the before mentioned Disorder
would prove fatal to all such of the said Ships Company as were Seized
with it (a belief which experience had fully justified) the said Walter Dawes
on the last mentioned day held a Consultation with the appearer and the other
Officers of the said Ship as to the proper Steps to be taken to ensure the
Safety of the said Ship And the appearer further declared to me Notary
that the result of such Consultation was and that it was unanimously
agreed between the said Walter Dawes and his said officers that in the
then situation of her Crew the said Ship Lucy Maria must inevitably
be driven on Shore for want of a sufficient number of hands to
work her and therefore resolved to bear up for the nearest Port as
the only means of Saving the said Ship and the lives of the Survivors
on board And the appearer further declared to me Notary that the
said Ship was then about 4 Degrees to the Northward and Nearly
in the Longitude of Amboyna which was the Nearest Port and

Madras 9th Augt 1804

appears further declared that it was immediately resolved by the said Walter Dawes to bear up for Amboyna on account however having reached the said Walter Dawes or any Person on board the said Ship that Hostilities had recommenced between the English and the Dutch either at the period of the departure of the said Ship Lucy Maria from Senegur Roads on the said 2d. Day of November or at any subsequent period of the Voyage as the appearer most solemnly averred and declared for truth before me Notary and that the said Walter Dawes and the appearer and every other Person on board the said Ship were wholly ignorant thereof and the appearer further declared to me Notary that on Tuesday the 31st. day of the said Month of January the said Ship Lucy Maria came to off Amboyna under her Top Sails and Mizen and Fore Top Mast Stay Sails the said Ship having been for the last 24 hours preceding her making the said Port almost entirely worked and navigated by the said Walter Dawes his officers and the Servants who were about 11 in Number And that the said Ship Lucy Maria hoisted a Signal for assistance on going into the harbour and the appearer further declared that immediately on the said Ships Coming to an anchor in the Harbour of Amboyna a Guard of about 40 Dutch Troops came on board the said Ship Lucy Maria as also a Party of about twenty Dutch Seamen under the Command of a Lieut. of a Man of War all of whom as well Soldiers as Sailors were armed and the appearer further declared to me Notary that the said Walter Dawes being surprized and confounded at seeing so many people come on board the said Ship enquired of the said Lieutenant if there were war between the English and Dutch who answered in the Negative but told the said Walter Dawes that they came on board to prevent any Smuggling and the appearer further declared to me Notary that the said Walter Dawes was shortly after ordered to proceed on Shore to the House of the Governor who told the said Walter Dawes on his arrival there (as the said Walter Dawes did since inform the appearer) that he had received Orders from Batavia to lay an embargo on all Ships under the British Flag until he received official Intelligence of the War from thence and that in the mean time one of the Officers belonging to the said Ship Lucy Maria was to remain on board to prevent any thing being embezzled by the Dutch And the appearer further declared ~~to me Notary~~ that the Survivors of the Crew of the said Ship were soon after the said Dutch Troops and Seamen came on board sent on Shore to the Hospital many of whom shortly after died there and the appearer further Declared to me Notary that after the said Ship had been under an embargo for about 2 Months and seven days in the Course of which time all her ~~[illegible]~~ struck and her Rudder unshipped to prevent the possibility of her leaving the Harbour and putting to Sea she was seized together with the whole of her Cargo as lawful Prize by the Dutch Court at Amboyna Intelligence having been previously received there from Batavia of a War between England and the Dutch Republic and that the Dutch Flag was displayed over the English Ensign on the 17th. day of April last and that on the 13th day of May following the said Ship was condemned and the appearer at the time and place aforesaid did solemnly declare to me Notary that the Seizure and subsequent condemnation of the said Ship Lucy Maria by the Dutch was solely and exclusively occasioned by the great Mortality on board the said Ship as before related by the appearer to me Notary which rendered it necessary on account of the inadequate Number of the Crew who were capable of navigating the said Ship to bear up for the nearest Port in order to ensure the Safety of the said Ship and prevent her being driven on Shore and to preserve the lives of the few Survivors on Board and the appearer did at the same time and place declare to me Notary his firm and decided belief that the said Ship Lucy Maria must have driven on Shore in case she had remained at Sea six days longer And the appearer did utterly and totally disclaim and disavow any manner of default or neglect or want of due precaution on the parts of the said Walter Dawes or of his officers or Crew as regarding the Loss of the said Ship Lucy Maria but attributed such loss to the act of God only And the appearer further declared to me Notary that about 5 days after the Condemnation of the said Ship Lucy Maria the said Walter Dawes applied to the Government of Amboyna for Permission to proceed to Batavia on board a Dutch Brig bound to that Port which Permission was Granted That the said Walter Dawes accordingly embarked on the said Brig accompanied by Richard Dawes the third officer of the said Ship Lucy Maria and John Free the Gunner of the said Ship and the appearer further declared that by the permission of the Dutch Government of Amboyna he the appearer Accompanied by William Feltham Charles Amos and Thomas Sexton Midshipmen George Deal Captains Steward Bartholemew Dwyer Capt. Servant and Moosar a Syrang all belonging to the said Ship Lucy Maria left Amboyna on the 5th. day of July last on a Dutch Brig bound to Batavia and that the second officer was not allowed by the Dutch Government to proceed there being ordered by the said Government to remain behind to attend upon the Sick and the appearer further declared to me Notary that he and the several other Persons before mentioned arrived at Batavia on the 14th. day of August last where the appearer met with the Captain of the Dutch Brig on which the said Walter Dawes Richard Dawes and John Free had embarked at Amboyna and that the said Captain did acquaint the appearer that the said Brig had been wrecked on her Passage to Batavia and that the said Walter Dawes and Richard Dawes had died at Macassar where they had arrived in a Malay Prow from the Wreck of the Brig and that the appearer was unable to get any Information whatever from the Captain of the said Dutch Brig regarding the Papers belonging to the said Ship Lucy Maria which the

Taken with him when he left Amboyna and the appearer further declared to me notary that on the 30th day of the said month of August he the appearer and the Several other Persons who accompanied the appearer from Amboyna obtained Permission from the Government of Batavia to proceed on a Danish Ship bound to Tranquebar that he the appearer and the said Several other Persons did accordingly Embark on the said Ship that on the Passage to Tranquebar Charles Amos Bartholemew Dwyer and George Deale died of the same Disorder to which the Greater Part of the Crew of the said Ship Lucy Maria had fallen Victims previous to and after the arrival of the said Ship at Amboyna that the appearer and the said William Feltham and Thomas Sexton arrived at Tranquebar on the 17th day of Sept. last past and at Madras on the 23d day of the same month In regard to all which premises the appearer did desire to Protest as he doth hereby Solemnly Protest on behalf of the Owners of the said Ship Lucy Maria and all others Concerned against the Mortality Among the Crew of the said Ship and against the Enemy and also against all other Causes of the Loss of the said Ship Lucy Maria and her aforesaid Cargo for all Damages Losses Costs Charges and Expences whatsoever consequent upon or sustained or to be sustained by reason of the Premises And the appearer did Require of me Notary this my Public act in Evidence of the Premises to the end and intent that the same may serve and be availing as occasion may require Wherefore I Notary have Granted these Presents under my hand and Seal of Office at Fort St. George aforesaid the day and year first above written.
