of Mr Alex[r] Davidson on the Underwriters in which I have not
included the amount of the Treasure as Part of the Salvage,
because it was not the Intention of Mr Davidson to insure it
as he did not include it either in his Invoice or Bill of Lading
on which the Proof of the Loss would be recoverable — the case if
had been his Intention to insure the Article he would rather
have insured it by a Seperate Policy it being the well known
Practice of all Insurers to underwrite on Treasure at a Lower
Rate than Mr Davidson has taken the Opinion of Other
Merchants which are inclosed enclosed and consider[illegible] the
words of the Policy & every Circumstance of the present Case
I hope the Statement will appear a proper One and that the

Dear Sir

I have called on Mr Brodie respecting the
due to you by Ogilvie — he says he has but little in comparison
with your demand of the property of Capt Purvis but that he has
order from Wilson which will prevent him from paying any one
whatever upon this Account — From the Wilson I am convinced
is out of his power at present — I have called on Mr Farrell
he has sent me an answer which I return to you & will act on
further orders as necessary

I wrote to you last week by the order
from Mr Boyd for a ship as I expected he leaves the business
to you as I do not know how I know will do for time as may be
best

The Money for the Vessel must not
be made payable less than two three Months for all the Money
Demand to the amount of 5 Lacks of Rupees I with very great
difficulty collect any Part so scarce is money now

The Salt Peter will be required at Bengal

I am yet uncertain when I shall go from
Madras it is January & I must therefore give up the Defence if
I should do I could wish that for 12000 or any proper Goods
sent on my account for a remittance

I shall in few days write to you

My dear Son

I have rec'd yr two favors but have been so situated that I have not been able to write you with any degree of satisfaction

It was one of the conditions that Pelling & Depries &c made with me that they would have no One Joined with them — & I think I explained this to you I told you any other Matter I wished to render agreeable to you I am therefore concerned that you should expect what is entirely out of my Power

My affairs are so circumstanced in regard to Money that I have determined to wait here until the M. of April or May or perhaps June — the Narrow this business into other hands you might settle your Business to the Northward as

having so reconsidered it — and perhaps 3 Months the Prospect might be more favorable than when you last considered of it

I must Earth to have the Change with I wish to render disagreeable to you —

Dr Sir

I send you the Accounts of the Endeavor

I have again examined the Acct. of the Money carried to My Credit with the Apocation & it is Rec.d 10536. 14. 7. — but altho it is carried to my Credit I have not received it. — for there is still a Balance due to me & for me to pay him in their Accounts to increase their Debt to me does not to me seem reasonable — I will examine the Accounts of Balances due to the Apocation & if I see a probability of being repaid I will pay the whole — if in the course of the Week or before next Wednesday I think I cannot I will tell you — do not think I want to dispute with you — the only thing I wish is not to suffer ways off — If I think I cannot pay the Balance we will settle it with the opinion of any common friends without trouble
