Sir

I can give you no account of the Carnatick except that I have heard that she was spoke with off the Cape — but if there be any information I imagine you will easely procure it — Search to know the Lowest Time at which I can insure 3or 4000 £ as it is for another Person whose Instructions I cannot wait pray tell me the Rate for that Voyage without Return if any such if there be no Warr — or with Return if there be one — for altho' I have no doubt of the War, yet having no publick Accounts of it, I think it best for me to make this Enquiry —

15 Janry 79

Dear Sir

I have this day been favored with your Letter of this Date

The Sums you mention to have been received to the amount of 60 are not in my Insurance Books and the 50 Pag^s I subscribed has been I believe paid to Mr Boathwhit I will inquire about the other Money

I have exclusive of your Demand to-day on Bond Mr Bouchers 1000 P. & Mrs Gomez 1000 I have in Cash not more than 1600 Pags & I doubt whether the Sale of his Effects and Debts due to him from Mr Daff will pay all his Debts. You will see whether, called upon by Mr Buchanan, I can pay your demand in preference — I declare to you Sir that I should be very much concerned were the Delay to be — inconvenient to you, but any Circumstance prevent me from taking the Risk of others on myself. I hope you will see the necessity for You to defer Drawing on me untill I am enabled to pay you from the Estate and as I could have no other motive in the acceptance of such a Charge than to serve his friend I hope you will be satisfied to wait untill I can ascertain whether I have sufficient to pay all — for I must say to you that Bond Debts are to be paid in preference and I cannot say whether all when collected will pay all the Demands owed in India. He left about 2000 P in England

I hope you will believe me with Regard

I have your Note but I cant consider your former Debt to me this month into my house long since, as the Difference of 20 or 30£ in one Year is not very material to me. If you desire to have it from Month to Month I consent – but the condition must be in that case that at a Months Notice you are (capable if I shall see an opportunity to dispose of the House) to give me possession.

I am Sir

Dear Sir

I have a considerable demand on me from the Insurance Company which I must discharge without delay For this purpose I shall be obliged to draw upon you for 1500. Past
a 21 Sight if you will accept & pay it I shall be satisfied – but if you will not I cannot longer defer requiring of you the Money you have received on the Bills due on my account with the Goods remaining. I am greatly concerned to find you in so much indisposed but I hope as you are somewhat advanced, every day will make an alteration in your constitution – Whether I shall leave this in autumn or not is more than I can say yet I wish that, in any event you would so manage your affairs as to put it in your power to take a Trip to Engld

The frequent illness you have had (some having been periodical) cannot have but impaired your constitution a Voyage to a fold Country would brace up your Nerves & strengthen you. The Cloth which may come from
Calcutta will make no great difference in the price
of the Danish. If it be sold by Auction I wish you
to buy for M. Hughes 3 Chests
I will readily take a Concern in
the purchase you may make — but if we cannot
get the Wine, as it is that Article which must
bring in money we must be proportionably lower
than other wise. If they go beyond 60 p Cent — we
had better decline of Copper at 82 will do & the price
of Cables at £3/4 & of Anchors at £4 1/2 are low but
ought not to be exceeded — because all the morning
Prices are higher the Demand is small
Canvas is likewise high but the
Demand little —
I have just ordered the purchase
of 80 Candies of Bengal from the Stafford which
suits me for Gun Canvas at 12 1/2 p Candy this
will enable you to judge that at 12 1/2 & Sheeting 6/7 is
as much as we can give for this Market — Other
Measures if good we can obtain Price
I have an offer of the inland Cloth
with it suit you
What answer about the Bills on
Bengall? Their will be some Indigo ready?

I observe what you say regarding your Brother — If you can get the Money to the Southward on any Security, you [illegible] and yours — I will be security — but my Situation has been so distressing that I do not wish you to risk my Credit, by offering it unless you are clear it will be accepted — I think for many reasons —

You will excuse me in saying that it will be better for your Brother to Command but 5 Sail without advancing on the Nabob's Account, than 500 if he is to advance Times must change & he will be in the Way — Brother has informed the Owners that he cannot find the Horses Oats — they owe him more than 2000 P. I do not like but an introduction to mine — If I am better under the present circumstances to decline finding the Horses than to get Debts of this Kind Believe me Dr Sir Yours

want here — I will write to Jamison to send

his order in July or in Augt in time for
to bring his Saltpetre &c you will observe
that as the ship is not hired for as the wo
bought at Rutlandmkee I cannot actually
engage but the matter will not be in
any degree doubtfull and we can with
6 Weeks or 2 months get answers from
Bengal & Bombay how far we may go
money reserved for the Rutlandmkee

Jamison Esqr Y. m. O. S.

Dear Scott

11 February 1779

I hope the Concordia will get to sea soon.

It is my wish to give up this ship if it can be done at a loss of 2 or 3000 £ upon my fourth of the Black Joke only undertook it to oblige Capt. Jamison and as I know not an idea of gaining by it to the last I am glad of it.

I am very far from being satisfied with Jamison Conduct towards me but as I know him to be an honest hearted man I have not said to him one word of it. The Ship cannot have without a single Load to me consigned to her Purser a Mr. Clawson agood man I believe and much in Jamisons Interest - but not a man of capacity. He the Ship was not full, our Cargo was Estimated bought at an enormous Price - sold at Yield 8 Rupees Cloth which Allum sold gruff article would have given a good profit all this I made known to you as a reason for my not being pleased - but you will not think of it to him I have not you Clarke's Bond in which with what I have in your hands will pay my fourth of the Bonds - and I therefore claim my fourth of the Cargo &c. here I had told Capt. Jam that I would pay Killican a part of the money due to you in Bengal and he was to let me have some Freight he was to receive here 5000 Pags. - He I imagine went about & heard of my scarcity of money and suspecting my ability to pay you disposed of his money otherwise without mentioning it to me. My pride would not suffer me to bring him to an explanation - but I am satisfied - It is not more than 6 years since Capt Jamison drew upon Benfield & me for many thousand Pounds to which I set my name in acceptance without having a Pag.a of his in my hands. And I must say that I have always known Jamison appear grateful & very desirous to serve but this business of the Ship has disgusted me beyond measure.

As to my situation it is with pleasure I state you that notwithstanding all the difficulties I have met with I expect within 6 months to be clear of any demands of consequence - I shall have more than I shall have

have occasion. If for as I am not a man of
Expence - but a great Part will require Time
of collect. my Friend Benfield must pay or
owe to me near 40,000 Rp of which I have
yet rec'd a Farthing. The receipt of this would
pay the greater Part of the demands upon me
my distress has arisen in a great measure
having paid too much attention to the Interest
of others too little to my own - I have just rec'd
a letter from George Dumpster - who is returning
my having served his Brother - and done all in
my Power ~~while~~ while I had any to serve his Brother
in Law, writes to me a cold Letter, leaving the
Death of my Lord Pigot, and telling me I will
be of great service to me to know I had no
concern in the Tanjore Loan - or was under
the influence of the Nabob. I am sensibly
mortified - had I been what perhaps most
Men might this day have had more Rupees than
I have Farthings - for there was a Time in
Wynch's Govt. when I could, without doing
any thing ~~you~~ I should others have done
have filled my Pockets but I had a feeling
which is often found out of Fashion for such
conduct

conclude ~~over~~ over Rec'd. money of the Nabob
may one generally speaking say if we did we
were the more to blame - such is the applause
of the World - Do not think I grow misanthropical - on the contrary I am almost
wrecked to my Lot of Station and when my
Friends have paid me & I have had my Freedom
I shall be much happier than many who
adorn the highest Stations

The Rustondjee has paid off my
wish is to settle my Fourth - In that case if
there be any opportunity of remitting by
Bills on the Company whatever you may
have of mine for my share of the Ship I
wish to remit to Chas. Bourchier Esq. of London
on my account or if not by Bills on Bengal
or if not procurable in Gold of these by any
Men of War that the Risk be not too
great - If I continue the concern I wish to
have the amount at Risk as soon as the
money is to be paid for Bills on England - If there
should be no Bills and Cotton 75 and the
Freight reasonable - and that you can procure
that

that were better than Gold — I wish you Success

Sir

I had written to my Attorney to receive
of you my proportion of Money in your
hands, but I do not know that this
can be done until Spring. I suppose
that from Land Office of Virginia
it would require a Power of Attorney
from me which cannot be executed
here. When there is the use of Post
this 120 lb Sterling can be remitted
to Mr Adams in Virginia. Should
it not suit you to receive only
as you shall want it, I can draw
for the whole sum in favour of
