Dear Crauford — Madras 15th March 1805

18

I have the Pleasure of Yours three days past acquainting me you have safely received your Favor of the 5th

What I offered you for the Four Friends was the Same I thought the Ship really worth — She cannot make a good Voyage to Bombay but still I would not have sold her to any other Person on your Account for less — therefore you need not consider the Offer in any other Light than from one Merchant to another — however it may not be unnecessary to observe that you must consider you have insured as the Insurance might otherwise enquire your Value of your former cancelled Policy

The Commander is a Person of whom I have every good Opinion & has to go in January or Febry next on our Eastern Voyage as I can depend on him —

It is true Madras generally Ships only twice to account to Captain — but with proper Persuasion the Commander may be advantageous — You enquire I may be removed but I have considered this matter well & doubt much whether I would accept of any Place out of Madras for I am situated much to my liking I have the management of the Minerva & with it whenever the Manila Trade shall be opened the Provision of the Goods, I have the conduct of the Achins Trade in which this next year I shall have a Concern of 20000 Pag I like many in Madras but there are few I would chuse to leave my Friends with I trade on a considerable Sum of Money at a Extraordinary Interest contract my Views very much and if it shall only amount to this that my Profits on a certain Sums will be equal to a greater Sum at Madras why should I leave Madras for a less agreeable one — besides I Don't Ask for Myself which I have the greatest Expectation & Hope he will be is to have I understand Pandamalanka & Barker has also Seen on Residency and willing more Residencies on your Coast what Government can I have to leave this I have been particular to you that you may favor me with your Opinion &c —

To return to the Four Pounds the Bills for the Ship were drawn in Sept.r & discharged @ 333 & 340. the difference between your Share of the Purchase of the Vessel & what she stands on your Books is over the Charges at Bengal after the Purchase of her as also at Madras Insurance &c.a

Mr. Markland has written to me concerning the Cloathing due to our Officers & Seapoys you will be pleased to pay him in Curr.t Pag.as or in Mad.y Pag.as @ 10 p.r Ct. deduct in favr the proceeds ordered in my Request hereon —

I have received a Letter from Harrop dated at Malacca Nov.r 28.th by the next day he was to sail for Salanger from thence to Achin & think we may expect him by the End of March, or early in April he has bill'd Lad.g for the Amount in Pepper Cloves & Tin & on the whole we may do very well notwithstanding the Vessel & Cargo we had no Property on board the Ships they seized —

the Article that has turn'd best to Acct was Longcloth Therefore the more we can get the better 12

Be pleased to acquaint Mr. Lewin Smith with the foregoing as well as that the Manila Ship which sailed in July last was at Malacca in Febry & is daily expected

The Spaniards gave the Armenian Letter no trouble they bring back 250 000 Dos

You will be pleased to take such part of 200 Tons Iron as you please — Harvest I will take we shall divide the Superf.t Porto Nova, that we may return to the Straights in June — The King of Tr.e behaved very well to Harrop

Advice Crawfurd

Dear Sir

I have the Pleasure to acquaint you that the Lord Nugent was on the 10th of Febry ab. 2 Miles to the Southward of Sabry Rocks & being returned from the Westward with the Produce of the Cargo which she sold at Acheen except invested in Cloves Sent to Jayaya &c

I expect she will arrive with you in the beginning of April & hope to have seen Fort St. David before the 20th April Next

Our Jayaya sold better than the Quality of which a great part was disposed of to the Dutch any quantity of Jayaya you can procure be pleased to buy you will have for two Pagodas in Gold for Ten which the Cargoe sold to the Captain of the Nassau Ship which is on her Return from Manila

I shall be over the few Months you shall return I shall have the pleasure to assure you in Person what I now write Sincerely that I am

Madrass 19th March 1768

For Edwd Lewin Smith Esqr

Dear Sir

I have received your Favr of the 5th Instant

Regarding the Returns to the Coral you wish to make I have only to say that the Govt Council Select & Govr Mesh. Morley & Diamond Merchants not to sell except to Natives and not to purchase any of the Manufacturers People but at less Price than they have given for them two years past No More than 6000 Pagl are remain for which the former high Price has been paid in Octr I hope to be able to procure a quantity of a good sort by charge

I know not what to say of the Jaboob of the Countries assigned to the Creditors the Revenues come in very slowly he owes the Company a considerable Sum & of 266666 2/3 he promised to pay in Decr last scarcely any thing is come in - much also is due on account of the Jagueer The Expences are so great & he employs such a Number of useless Fellows whom he calls Sepoys whom he does not chuse to part with that unless the Govt Council shall insist on his retrenching his Expences I do not see how he can well

able to discharge the whole of his Debts for the Countries assigned notwithstanding all the Precautions we take it is suspected apart is clandestinely sent to the Nabob & applied to other purposes than discharging his Debts to the Unfortunate Stroke in the Mysore Country may indeed assist us but things have not the most promising Aspect that Way for with the Expences of many men & much Treasure we have not yet the Valley which when the whole may be conquered it is thought by men of Judgement will be but a trifling Acquisition

I have desired Mr Bonsett the Acct of Goods sold to Mr Monneron & now enclose to you Napiers Acct Curt

The Macao Ship from Manila was on the 20 of Feby at Malacca & is hourly expected there are no opportunity to remit the Money to China

The Longcloth that you cannot send by the Madrass Merchant be pleased to send by any Boat coming this way for transporting it by Land will be attended with an Heavy Expence & the Cloth Being of a shorter Measure than ours we shall be able to pay [illegible]

I have reason to think you will not be able to lend much Respondentia from hence to China as none of the Europe People want much of their money here & therefore they are glad to lend the remainder @ 8 or 9 p Cent for Respondentia Premium Ins & Freight together but you may be assured of my endeavors in this business I have already written to my Attorney at Bombay to employ the Produce of the Persian Chints in the manner you desire

I have secured two Pipes of Last Years Wine for you which I shall send to you by one of the first Conveyance I have Shipped on the Egmont one Pipe for Lord Pigot & one for you directed to Robert Smith Esq.

Although by manifesting the Muslins &c you want to send to England you or those to whom you want to send them must pay the Duties I am of Opinion you had better get a Permit from the Gov & Council for sending of the same

I shall take care to receive & send you your Tea from China

I have sent your Ring to be mended when done I shall return it to you

I am with sincere Wishes for your Health & Happiness Dr Sir

Dear Monckton Madras 5th March 68

I have forwarded your Letters from Europe by the Tappall & should have written to you sooner in answer to your several Letters had I not been on a Party of Pleasure for 3 or 4 days

The Madrass Merchant I have been informed will clear much more than Respondentia but unfortunate all the Money the Cargoes have produced are at Bengal. I have ensured 1000 from that Place on your Acct & this I have done because I insured the same sum on all for Europe & hold on the same Eyes

I shall enquire of Chenet Claret and send you any good I may get

I shall send you Money to morrow & shall credit you for the 10 Rupees you advanced the Poleer

The Appointment of Deputy to the Government was unprecedented & therefore if Lord Clive got to London before the affair was decided Mr Call stands a good Chance at least his Friends think so

That your situation must be disagreeable is certain and he want of Cash that I do not any Calculation the Event

even were the Operations on the Valley cannot distress Hyderally & it is too late I think to go to Bengaloor

Palmer has no Idea of leaving Madura if I could hear of any such Intention of his depend on my advising you certainly something may be done there if a Man will exert himself

Respondentia in the King George is 30 ℔ Ct for one year which is too high I have insured for you 800 Pag @ 16 ℔ Cent & the other I would advise you to run the risque of

I have certainly made a debit in your Acct with the Nabob to morrow I will get a Copy of your Acct in the Nabobs Books & adjust that matter

The Indian Trader with I hope be here early in next month the Minerva is in the Road & the Madrass Merchant hourly expected

Hastings had written that the King of Achen promised not to let any Vessels from his Dominions go to the Coast before his Return & their Non-Arrival renders it probable that he has detained them
