My Lord and Gentlemen

We beg leave to inform you that several Complaints have been lately made of Murders & Robberies committed by Polygars in the different Districts & particularly in those of the Ceded Provinces. These Disorders are chiefly owing to the disposition of the late state of the Country since the War & the want of that Protection which we hope will now soon be afforded by the disposition of the Force to be kept up for its defence. From the Advices we receive on this Subject, We think it necessary to recommend that this predatory Spirit of the Polygars may be checked by the most effectual Measures of Government, & where Proof of Guilt is adduced, such exemplary Punishments inflicted, as may be most likely to remove an evil so detrimental to the Revenues & the Countries & welfare of the People.

Form Coms of Rev. recommending that Orders be sent to remove the Polygar Robbers who have been committing Depredations in the Ceded Districts & punish them as will prevent the like in future.

I have the honour to inform you of my arrival at Mangalore, and that the Prisoners Princess and Children are in perfect health. I have also the honour to inform you that the Prisoners have been delivered into the Custody of the Commissioners appointed by the Treaty of Peace, and that the Commissioners have given me a Receipt for them, a Copy of which I have the honour to inclose.

I have also the honour to inform you that the Prisoners are escaped all the Dangers, and all the fatigues & Privations which I have suffered from the time of my leaving Bednore, have been amply rewarded by the Satisfaction I have felt in performing the Commands of the Government & the Commission with which I was honoured, and by the Success which has attended my Endeavours for effecting the Liberation of the Captives of Bednore.

I was afraid that the Journey from Bednore to Mangalore would have proved too much for the Princess, but she was not only able to support the Fatigues & Hardships of the Journey, but was daily gaining Health & Strength, and when I left her she was in perfect health, and I am happy to say that she was no longer sensible of the Loss of her Dignities & Grandeur, but seemed perfectly resigned to her Situation.

I am astonished, Beyond Expression, as well as Disappointed, at the Receipt of your Letter of the 20th Ult. I cannot do anything so dishonorable to Mr. Sadleir's Character, or so degrading to myself as to enter into a Refutation of such an Aspersion. Had I an inclination to do so, the thing would be impossible, for it would be no Letter at all. Nor shall I ever attempt to prove a Negative. The whole Tenor of my Life & Actions, thro' the different Stages I have passed, will be sufficient, & unfortunately a unfortunate Refutation to those who know me, and those who do not, I leave

Terms, as I said before, in the opposite Paragraphs, as they are only Comments upon the Causes of Mr Sadleir's manners and the Illiberality of his Mind, unfortunately united upon Unmeaning Grounds. I perfectly coincide in Sentiment with Mr Sadleir that his being in a State of Intoxication at a time when it was contrary to his most Essential Duty to be so, is in itself astonishing and almost an unpardonable Crime. Gen.l Lang's Minute with proposed Plan for the Establishment of the Army

I have the honor to deliver in a Plan for an Establishment on this Coast on a reduced Scale & within the annual Expence stipulated by Government which I have submitted to the consideration of Brigadier General Horne & Col.o Brathwaite in consequence of the Directions I received & am happy in having their entire concurrence of the Plan proposed, as it gives me every reason to hope for the approbation of the Committee. Should it meet with your Sanction, I shall have the honor to lay before you my Ideas respecting the arrangement of the Troops now recommended to be kept up for the better security of the Company's Possessions

Signed Rob.t Lang

3815 Fort St. George 11th Octr. 1784

Gentlemen,

I have requested your attendance in consequence of the Orders of the Select Committee who have directed me to consult with you & to form a Plan for a Military Establishment under this Presidency within the Limits of a certain annual Expence. I shall lay before you sundry Papers which have been sent me for our Guidance, in pursuance of the Orders of the Honble Committee in the Minute of the Right Honble President of the 31st August not to be considered as the Ground Work of such an Arrangement, being likewise informed that the reduced State of the Company's Affairs will not at this Period, considering the very heavy Expence attending the King's Troops in this Country and the various other Demands for the Civil Establishment & the furnishing an Investment, admit of a greater allowance annually for the

Establishment of the Army Rupees 11,000,000 Pagodas

It is necessary to endeavour to reduce the present Establishment without that Seems I will require the utmost attention, acte upon the occasion, as to be as little prejudicial to the Interests of our Employers as possible.

I have turned my thoughts to the Subject & have to suggest a Plan, which I shall pursue unless I meet with your disapprobation at the same time that I have reduced the Establishment to the Sum allotted by the Government I have attended as much as possible to the Ideas suggested by His Lordship & adopted by the Committee. I have endeavoured to procure, accounts as was consonant with those Ideas, our Conduct in the Eyes of the neighbouring Powers & have strengthened rather than weakened the Battalions, to that of disbanding whole ones: This I have done to the lowest Number, I think they would bear, as to retain their Respectability or Corps & to bring the

Amount within the stipulated annual Expence being of opinion, that to retain a number of Corps upon a reduced Plan, will not only appear more respectable to the World, but they will at any future Period be augmented with much less Trouble & in a shorter Time, than would be necessary to raise new ones, & be of greater Service than Corps composed of Recruits only.

At the same time I should deem it absolutely necessary, so soon as our Finances will admit of it, to complete the Battalions, now ordered, to the Establishment they are now upon; and I should recommend the forming the Europeans into four distinct Regiments and completing them to 1000 Men each, and that a further & considerable Augmentation should be made to the Artillery, who are of the first Importance to the Service. The Establishment, thus completed, I should think fully sufficient to furnish properly Stations for the Protection of the Country

both in Time of Peace and War.

I have been induced now to make a small addition to the Artillery of one Serjeant, one Corporal, & twelve Matrosses to each Company, at the same time that the Expence attending such Increase, is not additional to the Establishment— for considering the European Troops, from the smallness of their numbers, of little or no Service, & the presence of the 23d Regt. of Dragoons, making them still less necessary, I have struck them off the Establishment, & added to the Artillery in consequence of their Reduction.

The European Infantry I am of opinion, should be augmented, but have for the present included them on the same footing they were on previous to the War: as the Deficiency is at present provided for by the presence of his Majesty's Troops.

There are at present near 1000 Native Artillery in the pay of the Company

3819 Fort St. George 11th Octr. 1784

Company, to disband them entirely would not only be an irreparable Loss, but they would from the Wants of a Livelihood, be forc'd into the Service of the neighbouring Powers, & thereby render them truly formidable: I have therefore formed them on a Battalion nearly the same as the present Establishment of Sepoys.

The Artillery Lascars remain in the former Peace Establishment, it may however be found necessary to encrease the numbers of this useful Body of Men at a future Period.

I have not included the Sibendies in the Establishment, being of Opinion that all such Persons as Government may think necessary to retain for the collection of the Revenues, whether as Sibendies, armed Peons &c. should not, on any account, be consider'd as forming any part of our military Establishment. and that all Corps that are not specified in the present Plan, should be

3820 Fort St. George 11th Oct. 1784

immediately disbanded.

The Native Officers of the regular Battalions & Corps of Independents, who were on the former Peace Establishment, and who by the present Reduction will become supernumerary, will many of them be provided for immediately in other Corps where there are Vacancies; such as are not, I would recommend to the attention of Government for a Subsidemercentil Pasn. allies with a View of their being readmitted into Corps.

I do not think the native Officers of the Sibbendies & other irregular Corps, under the Denomination of Independants &c. have an equal Claim upon the Service with those of the established Battalions. I have therefore recommended them to be disbanded indiscriminately.

The Corps of Barkamen having been always considered as attached to the Commander in Chief, I have accordingly retained them.

3821 Fort St. George. 4th Octr. 1784

Sir I cannot sit compleatly satisfied in the Payments of Pensioners, Invalids & European Natives I have stated it as specified in the Estimate of 1779.

I have not made any allowance for the Payment of the Supernumerary European Officers on the Establishment, as it will be most Eligible when the difference arising from the present weak State of the European & Native Corps. And the number of Officers will be reduced within the Establishment, before those Corps can be compleated.

I have made the Pay of the Topay Drummers the same as that of the Peons, which I think quite sufficient the Reductions of the present proposed Plan in the Topay Corps, is equal upon and average to that of eight compleat Battalions on the present Establishment. and without which Reductions the proposed Corps of Native Artillery could not have been brought within the Estimate of seven Lacks.

3822 Fort St. George 11th Octr. 1784

Sir

In the Calculations of Pay & allowances, I have taken the Exchange at 36 Fanams to the Pagoda and allowed thirty one Days to the Month, this may cause some Difference in the Expence but will be rather more in favor of the Plan proposed. I have stated every Expence that has occurred, & fancy it will be found that I have rather exceeded than otherwise.

3827 Fort St. George 4th Oct. 1784

The Expence of the Invalids is very great & they should be made of use by forming them into Companies & stationing them in the small Garrisons that may be kept up which would allow of the Battalions being together & properly disciplined: or should it appear eligible they may, after being formed into Companies, as above, upon a Requisition from the different Renters for Sepoys, to aid them in the Collection of the Revenue, be ordered upon that Duty, of which they will be equally capable as the effective Sepoys & will answer every purpose of Country Business where a regular and respectable Force is not absolutely necessary— I recommend this Mode, conscious of the very great Detriment it is to the Service, & Destruction of all Discipline to have regular Sepoys distributed over the Country in small Detachments at a Distance from their Officers and under little or no Control. The Invalids, when on Duty, as above, to receive their Pay from those by whom they are employed— which will be a considerable Saving to the Company. Should this be thought an Ad-

3828 Fort St. George 11th Octr. 1784

visable Plan — I would recommend that the Invalids be collected at Madras, Trichinopoly & Masulipatam, there to be inspected by a Board of Officers, and such as are fit for Garrison & Revenue Duties, to be reported to me, that they may be away disposed of agreeably to this Plan.

The above, Gentlemen, is the Plan I have to propose: the annual Expence, anticipating the calculation to be just, is somewhat less than the Sum allotted by the Honble. Committee. It will not be in our Power to consider of the Situation in which this Force should be stationed for the defence of the Country, until we are informed of the opinion of the Committee respecting the Plan proposed. The Force & the Garrisons to be kept up. but I would here submit to your consideration the Propriety of forming the Army into Brigades a Measure highly necessary for the better disciplining & regulating the Troops & to avoid the very great inconvenience which was generally felt in the Army during the late War, in the Insufficiency of Field Officers for the current Duties of the Line, which ever & must be

considered

3829 Fort St George. 11 Oct. 1782

han

considered as a defect in the Company's Service
the number of Field Officers bearing a much
less proportion to that of other Ranks than in
any Service whatever, & affording too small
an inducement for emulation to those Officers
who have nothing but Rank to look up to.

So fully am I convinced of the Pro-
priety of holding out to Officers such Rewards
& Promotions as may make them strenu-
ously zealous to distinguish themselves under
& appear deserving of favor. And so well do I
know the desire that prevails in the breast
of every Soldier to obtain distinguished Rank
that I shall not scruple to offer as my opinion
that the Rank of Brigadier General should
be given to the Colonels commanding
Regiments of Europeans. The Propriety
& Expediency of such a Measure, may be
collected from the Customs in the Service
of His Majesty, where Colonels of Regiments
are Gen. General Officers.

I would propose the Army to be
Brigaded as follows Viz.t

3830 Fort St. George 11. Oct.r 1784

1st Brigade

1 Regt. of Europeans 6 Battalions

of Sepoys commanded by the Colonel of the

Regiment of Europeans.

2d Brigade

3d Brigade

6 Battalions of Sepoys to be com-

manded by a Lieutenant Colonel.

manded by a Lieut.t Colonel.

5th Brigade

6 Battalions of Sepoys to be com-

manded by a Lieutenant Colonel.

6th Brigade

5 Battalions of Sepoys commanded

by a Lieutenant Colonel.

In order to effect the above it will be

necessary to promote four Lieut.t Colonels in

addition to the present Establishment. The

Office of Brigade Major is also highly ne-

cessary for the interior Regulation and good

Order of the Brigades.

two

I also think the appointments of the Deputy Adjutants General necessary in addition to the present, whose Stations should be fixed with the grand Divisions of Carnatic, Southward & Northward & to whom all orders for the different Garrisons & Cantonments within their Districts should be transmitted & who should be answerable for the Circulation of them &c entrusted with Returns & all Military Records.

I have calculated the Expence attending these Appointments, & much with this made may be adopted since it bears but a small proportion to the advantages that may be derived from so desirable a Measure.

The apparent Difficulty may arise from an Promotion; respecting the Distribution of Gratuity to Field officers by encreasing the Number of the Claimants thereon; in order to obviate this & to retain the allowances to the different Ranks I would propose that the Gratuity be shared as at present, that the Lieutenant Colonels who by the above Plan will be promoted

be

encreasing

3832 Fort St. George 11th Oct. 1782

continues to receive their as Majors and the
Captains who will have the Rank of Majors
continue to receive their Gratuity as Captains.
being what they would receive should not have
new Augmentation take place, & they only
sit that respect be on as good a footing
as formerly.

The present allowance of one
Aid de Camp to the Commander in Chief
I deem insufficient, & am of opinion that
every general officer should be allowed one
Aid de Camp & Secretary.

Supposing the Army to be brigaded
as above, the difference of Pay between
the different Ranks will be as follows viz.t
Between the Rank of Lieut.t Col.s
& Major Cannon . . . . . Pay. 933
Ditto Major & Captains 925

The Foundation for them not being yet laid. The whole Expence of the above estimated Expence will not, for a considerable time, fall upon the Company.

The Distinctions formerly made between the Sepoy Battalions to the Northward & those to the Southward of the Kistnah being very properly in my opinion abolished, I beg leave to recommend that the whole of the Battalions of Native Infantry in the Company's Service on this Coast, be called for the future Madras Battalions.

That the Numbers of those that were on the Establishment before the War, remain as at present from No. 1 to No. 21 inclusive: that subsequent to them, those now called Circar Battalions be numbered 22 to 29 inclusive, that 1st Circar becoming 23d Madras Battalion &c &c in proportion as they are now numbered: and that those Battalions which have been raised during the late Troubles be numbered

1st Point recommended is to keep up the present Corps of 35 Battalions with the Nos. Sepoys

Exception of the Numbers in each, as stated in the Plans. Agreed to with the additions

The Circar Battalions to follow in regular Progression & to be denominated the 22. 23. 24. 25. 26. 27. 28. & 29th. The remaining Carnatic Battalions to follow & denominated the 30. 31. 32. 33. 34. 35th Madras Battalions.

7th Sibbendies to be disbanded. The Committee are inclined to agree to this Recommendation & to another connected with it that the Invalid Sepoys be employed in the Country for the Benefits of the Revenues instead of the Sibbendies but previous to fixing any Resolution on this Point it is agreed that the Chief and Council at the Subordinate Settlements be consulted regarding it and to ascertain

whether in the Event of its being determined that
nature Invalids will serve for that Purpose
of Revenue, there be a sufficient Number to
replace the Sibbendies that will be

be issued for collecting that Nation Invalids
lids at Madras, Trichinopoly and

With respect to the Promotions & Successions of Brigadiers and Field Officers to be appointed in case of the Army being brigaded, as recommended by the Commander in Chief, the President observes to the Committee that he has great Doubts whether the Company would approve of such Promotion at this Time, & therefore wishes that the consideration of them may be postponed, which is agreed to accordingly.

The President delivers in the following Minute and the proposed Medical Arrangement thereon recommitted to the Consideration of the Committee

President to Minute respecting the Regulations necessary to be established in the Medical Department

The Committee Monday 11th Octr 1824

The President draws to the Committee that among the various Departments of this Presidency that require Regulations & Oeconomical Reform the Medical Department is one of the most conspicuous, arising the President conceives, first, from there being no fixed Establishment of Surgeons, which has

3846

Fort St. George 11th Oct. 1815

The appointing of one or two Surgeons has been actually employment for 8 years.

Previous thereto having been until lately no Standard by which to regulate the Charges in the Field, nor in any of the Garrisons except in those where Contract Hospitals are established, so that every Surgeon has charged as much as he pleased without Check or Control, & the Expence to the Company has been proportionately, rather to the number of Surgeons than of the Sick with regard to the medical Expences in the Field. The Evil has been in a very great Degree corrected by the Regulations published the 2d Sept. last Year which upon a calculation of the average Amount of the Surgeons Bills before that Period & the allowances granted by those Regulations in lieu of all contingent Charges, were found to have produced a saving to the Company of 1600 Rupees Monthly in the Western Army alone. A Saving which

add

added to the general Precaution made to
those Regulations by the Surgeons mes-
sicurs by their Case and
Efficacy in but as they are yet only in
the Field or Cantonments part of the
Evil still remains. The President -
therefore proposes that the said Regula-
tions shall be extended to all the Out
Garrisons & subordinate Settlements &
that all medical contingent Charges
whatsoever, maybe abolished and a
reasonable allowance given to the
Surgeons in lieu of them; and that the
Establishment of the Surgeons be fixed
and limited to a certain Number and in
future no full Surgeon appointed but
on an actual Vacancy. It may also be
proper at the same time to determine
the number of Surgeons or Assistant Sur-
geons to be allotted to each Station and
to make a distribution of the whole ac-
cordingly.

The following Note was written by the Directions of the Right Honble President to the Members of the Committee in circulation, & is now entered on their Minutes together with their Opinions and Votes returned to the Secretary in consequence.

The Members of the Select Committee

Gentlemen

The Right Honble the President desires me to request your Consideration of the Minute relative to Mr Proctor delivered in Committee the 8th Septr. & now determines on the Proposition therein contained for directing the Company's Solicitor to commence a Prosecution against him. His Lordship is desirous that the Matter should be brought to Decision before the Dispatches, as the Honble Court of Directors will expect in consequence of the last advices to hear further on the Subject.

I have the honor &c.

There seems to me to be no remedy against what the Right Honble President proposes. I am therefore of opinion this Minute ought to be adopted. Signed A Ker. Davidson

As Process at Law may be tedious previous to such proceeding. I am of opinion Mr Proctor may be written to, to the effect of the President's minute, & required forthwith to pay all Monies in his hands belonging to the Company, & to provide such Security for further Claims, as shall be deemed adequate to the Extent of his late Trust, until his Accounts are finally audited & passed by the Commissioners

Signed / AS.

I am against the proposed Measure of the Prosecution being of opinion that it will involve the Company in a great Expence, & that the Issue of the Suit may be very doubtful. - - - - / Signed R. Mawsett.

I have carefully reviewed the whole Proceedings on Mr Proctor's Case, & confess I see no other Mode left, but the provided in the Minute. The Affair has been examined by the

bottom by the Committee's orders & Mr Proctor has
been tried & his Guilt admitted by the Resolutions
of the Committee. He was ordered in consequence
to refund certain Sums unjustly acquired,
which he has not done. Part of the Money is an
acknowledged Balance in his hands belonging
to the Company. If the Select Committee,
after the plain Conviction, allow Mr Proctor
to sit down quietly with his Gains, there must
be an end at once to all Reformation, or even
Control. Since no one, after this, would stand in
the smallest awe of Justice or Punishment, let
his Offences be ever so great. The Expence of
Prosecution, is, surely, no Reason, where the
Cause is so strong. Whatever be the Expence, the
Measure would certainly have a good Effect &
probably be the saving of many times the Sum
it will cost. Mr Proctor's Accts. & all the
Accounts of his undue Profits, require no further
auditing than they have had: A particular
enquiry was ordered upon them & the Report of this
enquiry laid before the Select Committee and their
Resolutions taken upon it. Any further Examn.

Honble Company. I should be much obliged, if your Lordship &c. deem my Requestmost im-
proper, by communication of any such
Appearance, because my Language stung
much I depends upon my Knowledge of such
an Event. For it is the affected Language of
this Court to say, that Tippoo is not at
Peace with the English, or does not mean
to remain so. My Answer is a positive
Assurance of the contrary, under the strongest
Conviction of the permanency of it. The
Drift of the Assertion on their side, is self-evident,
as they have our aid alone to look to for repel
Tippoo's invasion, should the Event conform
with the Expectation of their intended attack.
Our aid alone, because they cannot be ignorant
of the little reliance to be placed in Nawab
Efforts. Could they doubt it, I have attempted
to prove it, by Arguments supported by Con-
clusions drawn from such facts, which they
could not answer. That they would have
controverted it if they could, their daily Lan-
guage proves.

Soubah's affected Demand of compliance exactly with the concluding Clause of the 6th Article of the Treaty of 1768, became I thought to draw in that Court an unequivocal Respect to the Worth Company, both in saving them the Expence of so many Troops as the Nizam might desire to maintain while at the same time our Forces so employed, would empower the Soubah to prevent the immense Acquisitions which must follow the joint Efforts of Tippoo's Arms against those Dominions. For I have not a Doubt that all the Provinces South of the Toongabad would first Campaign. Those are Adoni, Raycherry, Kamul & Gandoor. What an Acquisition this will be to your constant Movements to the North Circars & the Palmaud, your Lordship & will best judge. and also whether such enormous Acquisitions & advantageous Military Situations will not overcome the Difficulties of Fortune Controls with him Not to mention the strange entanglement it will cause in our Affairs on the Gundoor. It appeared to me that in our Treasury a saving

might be acquired without diminution of our Forces the Credit secured of adherence to Treaty & the contrary Hope cut avoided: and finally, the Power of Tippoo distressed from enemy, all without any Change or Risk to ourselves. This View of things, many are of the Lines of Sir, made me anxious to have been permitted to give a favorable Answer to the Soubah's offered Demand above explained. But the last Orders I have received from the Honble Bengal General Council appear to discourage this Plan. I have thought it necessary to mention this to your Lordship &c as I am directed to communicate the State of my Negotiations & Affairs here, as far as they may regard your Presidency.

Upon receipt of these orders, with those for not making any peremptory Demand for the Surrender of the Pantoos, I have attempted to explain to the Hont. C. Board, the inutility of the Stay of any Ayent here, at a very heavy Expence without Prospect of any voluntary answer to the Claims of Subsidy, and without other Object than that of becoming an inactive Spectator of the Opposite Contest, from

Read the following Letter from General Harris

To the Right Honble Lord Macartney &c.
President & Governor &c. &c. Council
of Fort St. George

My Lord and Gentlemen

It is with Concern that I am under the necessity of representing to your Lordship &c. the very mutinous Behaviour of his Majesty's 73d Regiment on the 1st Inst. By unworthy proceedings to the People and the ungenerous Provisions or Attack to the Troops and without knowing the Amounts usually drawn for allowance for the different Companies immediately upon the Troops allowance of Provisions &c. was no longer to be allowed. This having

3870 Fort St. George 11th Octr. 1784

the Troops, the 36th Regt & some Men of the other Corps, fell in under Arms, and marched to the Fort-Gate, but by timely interposition were prevented going thro' the Gates. & Col. Knox soon after appearing, informed them he was a Stranger to the Cause of their Provisions being stopp'd having sent no orders for that Purpose, & reprimanded the Men for their irregular Behaviour, & desired if they had any Cause of Complaint, to apply properly to their Officers. At the same time told them he would apply to me about their Allowance being stopp'd. On this Assurance the Men returned to their Barracks.

No orders at this time had arrived at Head respecting the discontinuance of victualling the troops, but I had heard of new orders for that Purpose, before I left Madras. I therefore sent out a G.O. immediately, a Copy of which I have the honor to annex, with another Order I issued in the Evening of that Day. And the G.O. of the 24th Sept. arriving that night, I immediately issued them, directing that they should be read to the Troops at Roll-calling in the morning. At Col Knox's request I directed P.M. Kennedy to issue Provisions for that one Day

as

3871 Fort St. George 11 Oct. 1784

as the Men were quite unprepared to furnish themselves.

On the 2d I was in hopes from Appearances the Men were recruited, on finding only half Day Rations was allowed, & that they would be allowed to take up Cattle as heretofore Drawn a Day if the chose to do so, at the reasonable Rate of 60 Cash a Dram & that the Price of Beef was fixed as low as 1/4 Fanam a Pound, which at Butchers of some Property has agreed with me to furnish, and also the Officers at the Rate 1 Fanam 3/4 a Pound.

About 1/2 past 10 at night, I had information of the intention of the Kings Troops to arise the Guns in the Park the ensuing Day & that they meant to burn my House & to march to Madras. I stood on the 1st found among the Letters in the Post Box two addressed to me Copies of which I enclose. On this intelligence I assembled the Officers commanding Corps and concerted Measures with them for discovering the intention & all the Officers appearing ready to fall in with the Men at Day break & some of the Corps being mounted out to Gun and every thing remained quiet till after the morning's Parade duty was over, and many of the Officers returned to their Quarters, about 100 of the Men of the 36th Regiment

3873 Fort St. George 11th Octr. 1784

with their Arms out of their Barracks and called to the rest to follow, marched to one of the Bastions that was breached by order of Tippoo, some men posted there in the Breach but the rest of the troops not following. & it's said a signal they made to the Light Dragoons, not being answered, they returned to their Barracks.

On deliberating on what Measures to take, with Col. Knox, Col. Barry, we judged it expedient to adjourn the General Court Martial, that had assembled the 2d. for a few Days, in order to have the Adjt. Officers for Duty, and I immediately augmented the Guards, and appointed a Field Officer of the Day. In the afternoon, a Serjeant of the 36th. surprized to be the Manner to visit the Centers to my great surprize in the Main Guard. At Eight after it was dark, Capt. Baird. who commanded the Main Guard, & who was very attentive to whatever passed in the Fort, sent Intelligence of the Commotions among the Men of the 36th Regt. & found out that their intention was to release the Prisoner from the Main Guard. He immediately got his Guard under Arms, & sent information to Col. Knox the Field Officer of the Day. A party

3873 Fort St. George 11 Octr 1784

Above 9 oClock in the morning the Enemy had mounted their Grenadiers, & got their Arms ready, & sent Terms for their Officers falling in the Town Corps. Col. Knox on this arrival in the Fort immediately sent Orders to the Picquet of Foot Guards with a Party of Men of the 73d Regt. - Information was brought me, when I immediately went to the Fort & found the 52d & 73d & Artillery under Arms, with their Officers at their Head Quarters. Barrd. & Knox who informed me the Men had laid down their Arms & returned to their obedience. We ordered them to be immediately paraded without Arms, which was done, when Col. Knox in a very manly Manner, represented to the Regiment the unfortunacity of their Conduct & the heinousness of their Crime. I then addressed the Regt. and expressed the Concern I felt at their misconduct as disgraceful to his Majesty's Arms & Duties, not able to the Rights & Laws if they had any just Cause of Complaint, make it known in a regular manner through their commanding Officer to me, and I would use my best endeavours to obtain them redress. I appeared to

3874 Fort St. George 11th Oct. 1784

that they must be sensible every means had been
taken to procure them every sort of Provision
the State of the Country could furnish & at the
most reasonable Rates: And I exhorted them to
behave themselves in a more Soldierlike
manner for the future &c — Col. Knox then com-
manded the Sergeants to point out the Ring-
leaders or those that appeared most active
but they appeared silent, & said the whole then
appeared equally forward. Colonel Knox then
desired the Quarter Master of the Regt. who had
been sent to the Barracks to point out those
who appeared to him most culpable. He pointed
out two men, they were taken out of the Ranks
& Corporal Court Martial'd on the Drum head and
appointed Lieut Col. Barre President, twelve
Officers, march'd assembled & they were proceeding
tho' Rain'd very hard & by the light of a candle,
when above call'd out very loud, "Soldiers of
"the 36th Regt. shoulder your Firelocks — Present —
The Officers all ran to the Guard, as the Corps
they belong'd to, myself & Col. Knox towards the
Voice. He proved to be a Serjeant of Artillery
who Major Reynolds had confined that Evening
to the Barrack Guard for being drunk, but the
whole of that Corps, except one Centinel ab-

the

3875 Port St. George 4th Oct. 1814

the Barracks being under Arms, the Guard had
Punished by the Centry & got off — One of the
Officers meant him to send him, but Knox did
not turn down with his Sword. I had him
carried off with a Handkerchief tied over his
Mouth as soon as possible. On the Left of the
36th Regt. the Men gave three murmuring
kind of Hurrahs, at the time the Men gave the
Word of Command, but the 59th and 73, and the
Artillery remaining Firm, & the Rattles Lighting
the Portfires, at the two Guns, which were drawn
out & loaded with Grape, the Left of the 36th
flew back, but were soon brought up again
by the Officers — At this time it was raining
exceeding hard with Lightning & Thunder
which altogether made it very awful
Scene as soon as the Hurrah was carried off
the Court Martial was re-assembled, but I
am sorry to say the Gentleman who spoke
out the Hurrah was very indistinct in his
Evidence Colonel Barnard was not this Man,
& on such a Situation it was necessary to have
the clearest Proof. I concurred in opinion
with them, considering the Darkness and

In Evening of the Night that it was beat to arms the Prisoners to the Guard & Sentries of the Court. I then again addressed the 3d Regt exhorting them to behave more worthy of themselves; what is past had passed, I was persuaded they had been led to by a few bad designing men. I then ordered them to their Barracks & dismissed the rest of the Troops.

I should be wanting in gratitude if I did not embrace this opportunity of informing Your Lordship &c. that I have received every assistance from Lieut.t Colonels Knox & Bruce, Major Rigaud & Captains Baird & Aylett & the Officers commanding the different Corps; and last Night, which was a very dangerous one, the whole of the officers conducted themselves with great firmness & much to my satisfaction. I owe to the Corps of Artillery, the information I received of the intentions I have mentioned the Kings troops had the 3d in the morning & every man, in that Corps, from the beginning have conducted themselves properly except the Man who called out to the Regiments in the manner I have related.

Colonel Knox being of opinion it

3877 Fort St. George 11 Octr. 1784

would be proper to send away the Grenadier
Company of the 36th Regt. & to dine with I have
ordered a Subaltern & 20 Men to march at
half past three o'clock this afternoon to Arcot
the rest of the Company to follow & I have directed
Lieut Col. Nixon to send an Officer, & all the
men above 30 to Arcot. And I propose as
soon as they are mounted out of the Town to
parade all the Troops off Duty in Canton-
ments & then from a Gun, the Artillery Man
who last night was guilty of so atrocious a
Crime; I shall only observe to Your Lordship
& further, that I have not the smallest doubt
that dangerous Mutiny is now entirely quelled

for some more Troops. After the two Companies
of the 5th Batn are safely embarked away by

My Lord and Gentlemen

I am truly concerned to transmit a Letter from Capt Close containing Intelligence of a dangerous & Dangerous tendency from Cuppaldy & other Places, but the flattering Prospect the Commissioners of Peace had of procuring a just & amicable Decision & reconciling the Parties.

I agree with Capt Close in thinking that in the Declarations which Commissioners made regarding Cuppaldy & the Ceded Districts they exceeded the Powers they received from this Commission: this proved Letter from Captain Close will however determine whether he was instructed to retain possession of them, from the tenor of this conversation Your Lordship & the will be enabled to form a Resolution on the measures it may be prudent & necessary instantly to adopt. It appears evident to me that Commissioners Dian Vekeel procrastinated the Negotiation, purely to gain time to collect his Crop upon the Ground in the Rajah's Districts, which is considerable & each in a State of Maturity, but from which he will

I have to present the Rajah from cultivating the Lands against the approaching Season. In my Letter of the 22d Inst. I strongly recommended to Capt.n Close to be particularly attentive to what passes round him & to employ well informed Persons to endeavour to ascertain the Produce of the Crops which of course must be deducted from the Rajah's Debt. I do trust that I was well aware it would prove a difficult Task to obtain an accurate Account of the Amount Collections. Yet by the Assistance of the Rajah's Cutcherry, whose immediate Duty & Province it was to attend to the Concerns of his Master, & whose Activity & Zeal I had distinguished Proofs convinced Information might be gained. I send inclosed Duplicate of my Letter to Capt.n Close dated the 15th Inst.

The Bearer Mr Cuddapah has informed the Board that Hammah Dien Kawn is upon his Way to an Encampment that has greatly alarmed him, as being of pretensions to the Land adjacent prior to a final Settlement, although I have given him the strongest Assurances to the contrary he does not seem to be perfectly convinced or entirely satisfied therewith. I have in the most urgent manner requested him to endeavour to prevail with you to accompany him three days March, which I am told you were desired to do by a principal Person of the Durbar. Dear Sir

I did myself the pleasure of writing to you on the 22d. Inst. to inform you of Tammenend Diemkhena having received a letter in reply from Sieur Jean Baptiste, & of the offers & Overtures Proposals he made to me in consequence for an accommodation, as also of his threatening to detain one more canoe I refused to comply with them & Thereupon Evening I sent a Lad Boy to him on the Island of Bituminous coal grounds that must now be from his pleasure to stay any restraint upon our Intercourse & Friendship, which had a desirable Effect, as his Language soon became more moderate, giving me to understand, in the course of the day, that I should not be detained contrary to my inclination. He likewise sent this Morning to Consult me on the Subject of an Agreement to be still continued, but from the Nature of his Overtures I know as yet no reason to hope that it will readily be so from

I sent this Dispatch to you a few Days ago which Tippoo has desired Me to bring along with him, as he finds this rather difficult for me in Person for the Rajahs Districts, which I fear will suffer greatly if no Adjustment takes place to answer his Demands. This consideration will induce me to relax a Point or two to have matters immediately accomodated. His Demands are still immoderately high, however it is possible, from his being pressed for Cash, that the immediate Payment of a round Sum may bring him to consent to Terms that may be accepted of. You will explain this to the Rajahs, who must naturally conclude that the 5000 P. I formerly talked of for the first Visit, will be very inadequate to answer the Demand that may eventually ensue upon this. We have after explained to me the low State of his Finances of which I am very sensible. I should be very Ready to procure him the most favorable Terms, but you may assure him that this is to have things finally adjusted, for should Hostilities ensue Tippoo depends for Seringapatam & leave the Country in its

present unsettled State, there will be beyond a Material Suspence. I have concluded on three Points with Chinnoa Jannoo the Person whom the Rajah has sent along with me. He writes to the Rajah by this occasion, and will let him into a knowledge of the true State of Matters.

Read the following Letter from Capt. Blane

To the Right Honble Lord Macartney K.B.
President Governor & Trustees
of the Select Committee

Fort St George

My Lord and Gentlemen

From Capt Blane respecting Kummumdum Dirkhans.

In consequence of Kummumdum Dirkhan's having warned me the 2d Inst. that he would proceed next morning to Seringapatam I directly waited upon him to make the last Effort towards effecting an adjustment. As I set out with a strong impression of the embarassments that Nujeb would be subjected to should he depart without a settlement, I determined not to stick at trifles, but to meet him more than half way towards discovering the most distant inclination to accomodate. After a recapitulation of every Point we had formerly differed on, which employed us for some hours, he told me as his ultimate Declaration from which he should never depart that the Rajah's pleasure of having his Districts restored was

3896 Fort St. George 11th Oct. 1784

discharge the 5 Years Rent of Conjeveram as also the five Years Rent soon to be Lodged any Rs. in two Kists one to be paid immediately by means of a Tonnar, & the other in three months hence. But that as the Tonnar had collected 1900 Pagodas from the Rajahs Districts he should be allowed Credit for that Sum. That with respect to my Requisitions for Credit to Cheques on the Rajah for the Produce received from the Districts of Arcot, during these last 5 Years, Chetties for the Value of the Grain, Stores and Draw taken from Cortheis & Poduckmoor, & for the Produce collected from Carthaccottah & Tiruchapour since the conclusion of the Peace, he would not make any Allowance whatever. That those Rates could not be noticed for the Reasons he had formerly assigned, particularized in my Letter 18th Aug.t but that on his Arrival at Seringapatam he would commence withIppoo from which he doubted not, but that an Order would be issued for their being delivered up, & as he did not weighty consequence the Subject of the Dragon it must be dropped for the present, to be settled hereafter between Government & the Prince Ippoo Sultaun. I observed that if the Rajah should discharge the

3897 Fort St. George 11 Oct. 1784

whole amount of his Demands, it would surely
be expected that all his Districts would be
restored to him, but as he provided in re-
taining Cochin as well as Travancore, I begg'd
to know what answer he had received from Tippoo
Sultaun respecting them: upon which he
was pleased to tell me he had no answer
to him on the Subject, & of course had rec'd
no instructions concerning them. I then
reminded him of what had passed at a
former Conference, when I had declared my
intentions of intervening to the Peace only
principally because I had Declared in favor
ing the Places in question, & of this having
detained me upon a Promise of receiving
Tippoo's Instructions. I pressed him
hard on this Score, that he at last contra
dicted himself by saying that he had
written to Tippoo on every Point but had
received no reply relative to Travancore &
Cochin as well. I further observed that if he
had no authority to restore those Places, it
would be necessary to make mention of it
in the Articles of the final Agreement as

3898

Fort St. George 11 Oct. 1784

possession of them, along with the other Districts
of those in their being overlooked when the Sett-
lers were settled might be construed into a
tacit acknowledgment of their being no part
of the Rajah's Jaghire or any Part of his
Property I also might give rise to serious
Differences hereafter which should be stu-
diously avoided. As he would by no means
consent to this, I therefore desired that he
would explicitly declare, in writing, that
from want of authority he could not resign
the Possession of them: This he likewise po-
sitively refused: I afterwards showed that
as he had authorized Cochin Lacottah and
Tinlepanor, belong'd to the Rajah's Jaghire
and was confident an order would be issued
for their restitution upon his arrival at
Seringapatam, he could be no Supposer,
if this views were fair, by stipulating that
the Last Kists should be discharg'd in 3
Months provided Cochinlacottah and
Tinlepanor should be delivered up before the
Expiration of that Period, but this was as
ill received as my former Propositions.
finding him immoveable, I told him that if

3899 Fort St. George 11 Oct. 1784

if he was not vested with Powers sufficient to settle every Point with me he could have no reasonable objection to signify as much in writing for the Rajah had agreed to discharge the pecuniary demands of Arrears however exceptionable, he now could have no justifiable View for withholding his districts the avowed Cause of seizing and keeping them, being to recover what the Rajah was indebted to him: That while he obstinately persisted in maintaining Possessions of Cochin belonging to the Sircar & refused to sign his Reasons in writing for such a Conduct, no compleat adjustment could possibly take place, therefore I desired time to consider further of the Business. He told me he had already explained his Sentiments & invariable Determination upon which I withdrew. As he did not march on the 28th agreeable to the intimation given me, I was not without hope that the cause of his detention proceeded from an inclination to bring matters to a conclusion, herein I was deceived, as on the morning of the 29th he proposed three Terms one of his principal Servants three same terms for a Settlement with an additional Claim of three Villages making part

3900 Fort St. George the 11 Octr. 1784

part of this District of Coulpilly which he alledged to the head Canongo of the Caddapah Circar, which must be noted to them, this was the end to all Negotiation after he had delivered this last page I desired him to repeat the substance of my Declarations at the last Conference, and also the new Plan he might tell him that I had over & over again explained the Sentiments of Government regarding Coulpilly, & from which he could draw no hope of their ceding any part of it to him. I must here beg leave to observe that the Canongos confess the Canongo had not been in possession of those Villages three twenty or twenty five Years past. As soon as he had reported those particulars to Kummin ud deen Cawn, who was in readiness to proceed on his Journey, they got into his Palanqueen & set off. Seeing that all my hopes & expectations of accomplishing the object of my Deputation were put to an end by his Departure, I thought it my duty to return further, when I arrived Yesterday. — I cannot help mentioning that notwithstanding I frequently applied to Kummin ud deen Khan previous to my departure
