Honble Sir & Sirs

Your Secretary's Letter of the 21st
Ultimo was duely received and your
Orders

Fort St. George April 1787.—

10th Order therein conveyed to us have been complied with.—

Your Honor &c.a are already acquainted, that a Person named Dossiddy raised a disturbance in the Year 1785 on the Zemindaries of Polavaram & Gootalah; and that having been taken Prisoner, he is still kept in confinement at this place. our Chief lately received a Representation from Mungapatty Dora, the Zemindar of Polavaram, complaining that two Brothers, and the adherents of the same Dossiddy are again exciting disturbances in that Country; and that about 1200 Peons were actually in Arms, in consequence of which information, we required of Colonel Brathwaite, to order whether such a force, as he might deem sufficient for restoring the peace of the Country, & supporting the authority of the Zemindar, and ensuring the Collection of the Company's Revenue and have the Honor of acquainting you, that three Companies of Sepoys under the Command of Captain Pickat have accordingly been detached by Colonel Brathwaite on this Service. From the information which we have received, we do not apprehend—

That

10th That this insurrection, against the authority of the Zemindar of Pdavarame, will be attended with any thing of consequence; but at the same time, we shall be careful to Acquaint your Honor &c.a with whatever may come to pass.-

It having lately been reported that Lief Sung, who entered this District with an Armed Force, in the Month of March 1785, was returning to the Guntoor Circar, at the Head of Troops, intended to compell the Zemindars of that Country, to comply with the Sayana demands upon them; and as it is possible, in case this measure should take place that such of the Zemindars of Guntoor, as might be pursued by Lief Sung, would (as Venkatadree Nandoo did in the year 1785) endeavor to take Shelter in this District and that he might follow them hither, with the Troops under his Command; Colonel Brathwaite has written Letters on this Subject, recommending that Six Months Provisions, for 400 Men, might be laid up in Condapilleur; & informed us, that he should therein think it necessary to order the Commanding Officer

Fort St. George April 1787.

10th Officer to evacuate the Place on the approach of an Armed Force, altho we are under no apprehension that Condapollee would be in any danger, before it could be relieved from such a Force as that with which Lieut Long entered this District in 1785 or even that he would venture to make any attempt upon it or to enter the Company's Country yet as we conceive it to be a necessary maxim in all Governments, to be provided for its Security; and as we are willing to be guided by Colonel Brathwaite's judgement & opinion in all Military points, so far as we think ourselves warranted; We have consented to the laying in of one Months Provisions at Condapollee, for the number of men he has mentioned, which will afford more than sufficient time for its being relieved, either from this Garrison or from Ellore; and offered our reasons to Colonel Brathwaite, for thinking it ought on no Account to be evacuated, if Lieut Long should approach or even enter the borders of this District, which we are at present under no apprehension of; with an Armed

Fort St. George 17th April 1787.

From Gangam recommending that part of one of the Silhendy Battalions be ordered into that District the Magazine at Artha in want of Repair

Government to raise a Corps of Sebendy Sepoys for the Revenue Service, We take the liberty of again calling your attention to the present Condition of the Troops in this District who from the dreaded Malabe in which they are continually kept, We apprehend would be of little use should there be occasion for their Services The Commanding Officer of the District & Ideas on this Subject corresponding with our own, We are induced to Submit to your Honor &c.a the Expediency of ordering part of one of the Silhendy Battalions onto Gangam or raising an independant Corps of Seven Cons for the immediate Duties of this Garrison by which means the greatest part of the regular Battalion might be kept together on the Cantonments at Artha, ready to March as occasion might require, which We are convinced has better effect in preserving Tranquility than a much greater force being dispersed or at a Distance

It having been represented to us some time since, that the Magazine at Artha is almost a ruin, the Engineer was in consequence directed to lay before us

Honble Sir & Sirs

From the Committee of Stores - In Respect to Gunpowder made up at Vellore - made of the new Ponches approved - Laboratory Stores to be made up. - Recommending that the damaged Powder & Dust be sold at Public Outcry; Military Storekeepers Minute on the Subject Enclosed.

Colonel Capper represented to us at a former Committee that he had received Accounts from the Storekeeper at Vellore of his having made up 61 Candies of Gunpowder amounting to 300 Barrels. -

On a reference to our Proceedings we observed that in December 1785, a Letter had been written to the Storekeeper at that Garrison desiring him to refrain from making up any more Powder until the Quantity already in Store was proved, we therefore agreed to write another Letter to Mr. Lomain, desiring to know what

Fort St. George 17th April 1787.

what Quantity has been made since the date of the first Letter, & by what authority.

At our last Committee we received a reply to that letter enclosing Copies of two Letters of a prior date, which authorized him to make use into Gunpowder all the Sulphur he had received from his Predecessor Mr. Agilone; Copy of Mr. Doriaux Letter & its enclosures we have the honor to lay before your Honorable Board.

As Captain John Baillie was inspector of Stores & Commandant of Artillery at Vellore in 1785, we agreed that he be requested to attend the Committee to inform us of the State of the Gunpowder when those proofs were

19.

were made.

Captain Bailey attended accordingly & reported that there was a very large Quantity of Gun powder at Vellore which had not been aired for some years & was in a very bad State, that the whole of the Powder made by Mr Ogilvie was under Proof, & that the Powder since made was but barely Proof.

As the General bad State of the Powder in a Garrison of so much importance as Vellore is a matter of a very serious nature we beg leave to recommend to the Governor in Council, to order Colonel Sydenham to send a proper Officer to prove all the powder at Vellore & to make a report thereof to us

The Military Storekeeper begs leave to inform the Committee, that after several Trials he finds it impracticable to restore the Honble Company's damaged Gun powder & Dust which he received from the Magazine some Time ago to the Proof established for serviceable Gun Powder & to shew the Committee that he does not advance this without sufficient Grounds he acquaints them that on remaking some of this Powder he allowed a larger proportion of Salt Petre, than is ever used in this Country Equal to the Quantity which is adopted in Europe for their strongest Powder & that he likewise bestowed more Labour in rendering the Composition, than is applied to the first making, yet after all it fell considerably short of Proof. He is therefore convinced that the other Ingredients have been

been originally bad or that the Powder has been irreparably damaged, by the access of Salt Moisture and on this account he requests that the Committee will recommend some Method for the disposal of it If the Military Storekeeper is obliged to remake it, he will not only sustain a very considerable Loss, but the fruitless Operation will greatly impede the Manufacturing of the Company's Gun Powder; it is not uncommon for Powder Makers to mix up the Damaged Powder with the Good, & thereby get quit of it in Bulk without even the expence of remarking, but this is a Practice which he thinks ought not to be tolerated upon any Account whatever; for besides the Probability of the good Powder being in time completely damaged by the bad he means of the Latter has been impregnated with the moisture of Sea Salt there is a Door opened for abuses which may be practised with Impunity, & to the great prejudice of the Service —

The Military Storekeeper takes the Liberty of suggesting one of these modes for the Consideration of the Committee in order

That the damaged Powder may be disposed of with as little loss as possible to the Company. either that it shall be sold to the Country Ships, or served out for salutes & Common practice, or that he be directed to redissolve it & recover the Salt Petre, in which case he will take care that the Company shall be put to no expence but for Firewood, & the hire of the Coolys who attend the Bailers.—

It may be necessary to add, that this Quantity of damaged Powder came in part from Ships during the last War & a part from the dampness of the magazine on the South Curtain.—

The Storekeeper confesses he is particularly anxious, that the damaged Gun Powder may be disposed of in such a manner, as to prevent the probability of its being hereafter intermixed with the Gun Powder which he is now making up

Honble Sir & Sirs

From the Military Board on the Claims of Captain Lieutenant Stuart Hall and Capt. Dawes - and requesting that the Civil Storekeepers may be directed to furnish their Secretary with Stationary.-

We have the Honor to acknowledge the receipt of Mr. Secretary Edwardes Letters of the 3d & 9th Instant with their several enclosures.-

Captain Lieutenant Stuart Hall, for Arrears of Pay and Cloathing for the Lorchimo[illegible] Cavalry, We cannot find in the papers we have received any information upon which we can form a decisive opinion, nor do we understand why Captain Hall should have suffered it to remain so long demand, But if it be well founded, We think in order to establish that point he should produce the original Order for his Appointments to the Command, a Certificate from the Paymaster General that his demands have not already been discharged, and get his Accounts regularly certified by the Commanding Officer on the Spot. After all these necessary forms

Forms shall have been duly observed We are of Opinion, that the arrears of Pay, and Clothing money, should be paid to the Individuals entitled thereto, agreeable to the former recommendations of this Board in similar cases, which have met with your approbation.—

In the perusal of the Letter from Captain Dawes, to the Commander in Chief, We observe that the Circumstances exactly resemble those formerly represented by Mr. Adjutant Innes in behalf of the 10th Battalion To obviate these difficulties therefore we beg leave to recommend that the mode before suggested by us in the above instance be adopted on the present occasion that a Court of enquiry be ordered to assemble, to identify the persons of the Claimants; and that the Arrears due, be then paid to them, in the manner prescribed by the General Order of the 12th September 1786.

To the Honble Sir Archibald Campbell K.B.
President and Governor &c. &c. Council
of Fort St. George

Honble Sir and Sirs,

The Circumstances I have to
lay before your Honble Board make it an
indispensable Duty on me to trouble you
with this address - I will endeavor to be
as little tedious as consists with Perspicuity
and the nature of the Subject.-

A few days after the arrival of
Major Macleod on this District he inform-
ed me, by letter, that the part of his
Detachment which came from Tinchinopoly
was much in want of Pay, and I immediately
dispatched money to pay those Troops up to
the end of February, for which month the
7th. Battalion belonging to this District
and now forming a part of his Detachment
had already been paid.- my Servant waited
on Major Macleod to advise him of the
arrival of the money in Camp and that
he was ready to issue Pay on the Pay Rolls
and Chitts being presented.- Major Macleod
asked him if he had brought old or new

Fanams and what was the Exchange
She was informed that the Fanams were
now and the Exchange 165/8 pr Star Pagoda
as settled by Government in their orders
of May last, agreeably to which the Troops
in this Garrison had ever since been and
continued to be paid - he objected never the=
=less to his Detachment being paid in
the Fanams at that Exchange and the
next morning he directed my Servant
to issue money as an advance on part
but not in full for February - my Servant
replied that he had no orders from me
to pay in that manner and wished to
have my Instructions concerning it -
Major Macleod then directed him to
issue money as an advance and to
inform me he had given him those orders
on Account of the great Distress of the
Troops - my Servant, overawed by the
earnestness with which he was told to pay
as an advance and the Distress which the
Troops were represented to him to be in, thought
himself obliged to issue money in the mode
required, and did accordingly advance by the
direction of Major Macleod to each Subidar
200 gold Fanams - each Jemidar 100 - each
Havildar

Fort St. George 24th April 1787

Havildar 40 - each Naigue 30 - and Peach Sepoy 2½ gold fanams. announcing withal the nearest Sicca to the full monthly Demand at the established Exchange of 16⅝ p.t Pagoda. -

The Distress of the Troops alluded was urged as an apology for this Innovation would not naturally induce a Refusal to receive their Pay in the same manner and at the same Exchange it was issued to the rest of the Troops in the District - it was not complyed a Resistance of the Orders of Government in regards to the Exchange, but tended likewise to give a dangerous Example of partiality of Payment - I was anxious therefore, as soon as possible, to apprize Major Macleod of the Order I had received and by which my Payments had been invariably regulated. - I stated to him the Impossibility of my paying the Troops under his Command at any other than the Exchange of 16⅝ Gold Fanams P.r Pagoda it being the Rate at which by order of Government, I received money from the Nabobs Phoujdars and paid it to the Troops in this District - I urged that in case the Representation which had been

made

Fort St. George 24th. April 1787.

made regarding the Exchange should cause any alteration to take place, the Degree of Badness could not be supposed to depend on the Circumstance of the Detachments being paid in full for the month or only in part as an advance, guided as Government would no doubt be by the impartial Rule of Paying all the Troops on the District upon to the same Period all the same Exchange— That for these Reasons it became as I conceived my Duty to apply to them to know if he would allow me to complete the — Payment for February, for which month my Servants had already paid, in — consequence of his Order, a certain Sum, as an advance— To this question he made no reply, but observed that I could not conceive him either of the Justice of paying 16⅝ to a Sepoy for a Star Pagoda, or that I had the Orders of Government to make unfair Payments to the Troops— I replied that as his Letter took no notice of my request to know if he would allow me to complete the Payments for February I must conclude he did not think proper to permit it— that my Letter did not contend either for the Justice or Injustice of

of

Fort St. George 24th April 1787.

of Paying 16 5/8 Colley Fanams to a Sepoy for a Star Pagoda - a question which occasioned no discussion between a Commanding Officer and Paymaster - It was sufficient that I acted in obedience to the Orders of Government for paying the Troops at 16 5/8 which I had done without deviation from the time of my arrival on the District, and therefore had I been on the Spot I should have paid his Detachment at that Exchange, or not at all - On his next Letter he declined allowing me to complete the Payment for February - a few days afterwards, he wrote to me to complain that my Servant would not pay an Account of Working money which he had countersigned, nor give 30 Pucchaums on receipt of the Officer commanding the Artillery in part of the Pay of the Europeans for this month - That my Servant he said, gave him to understand that my Instructions to them did not admit of his complying with his Major Macleod's orders, that though he should as much as possible avoid the slightest Encroachment on the Rules laid down by me to the Person sent with the money it was possible he might be necessitated on some occasion to command compliance with his orders -

after-

51 Fort St. George 24th April 1787.-

50

After having explained to him to fully as I had done the orders of Government for paying at the Exchange of 16/8 I might have expected he would not exhibit as a Complaint against any Servant his not making a second advance - yet this was not more extraordinary than the Doctrine laid down that he might be necessitated to command, from a Paymaster, compliance with his orders - I replied that the Charge he countersigned for Working money to the Escort in assisting to get on the 2 Six Pounders did not appear to me authorized by the Practice of the Service and therefore I had directed my Servant not to pay it - and in regard to his declining to give 30 Pagodas as an advance on part of pay to the Europeans for this month; I informed him that, in so doing, my Servant had acted conformably to my orders, and I took the same occasion to repeat what I had before observed to him, that I could not pay the Detachment under his Command in any other manner or at any other Exchange than I did to the rest of the troops in the District Thus, that I could not make advances on part of Pay because it

Fort St. George 24th April 1787.-

it was the invariable usage to make <u>compleat</u> <u>monthly Payments</u>, on which alone I could obtain the proper Vouchers - that with respect to the concluding part of his Letter he must permit me to add that my Instructions to my Servant with his Detachment, were, to pay the regular monthly Demands on their being presented to him but to refuse to make any Extra or unusual Charge - that this was in strict Conformity to the Duty of my Office which comprehended a Discretion respecting Payments, and admitted of no Control but from Government itself.

The Day before Yesterday, Major Macleod told my Servant that Captain Oliver (who was then present) and some other Officers of the Detachment wanted money he replied that they would be paid on delivering the usual Bills as Vouchers - Major Macleod and Captain Oliver said they would not draw for their Pay in that manner, but must have money <u>advanced in part</u> for which Receipts should be passed, as they would not receive Pay at 16/3 - Major Macleod then asked my Servant whether he would advance money on a receipt or not? he answered that it

Fort St George 24th April 1787.

it was out of his Power, having been ordered
by me to pay on the Pay Rolls and Spitts
as usual and at the established Exchange
of 16 5/8 as paid to the Garrison of Palamcotah
and no Answer - my Servant said he
would write to me again on the Subject
if Major Macleod wished it - Major
Macleod replied that he wanted money
immediately and once again asked my
Servant if he would give an advance
of Money on a Receipt - and being answered
as before that he could not disobey the
Orders he had received from me, Major
Macleod said he should then take the
money himself and asked for the Key of the
Chest - being told that I had delivered it to the
Cash Keeper he sent a Havildar for him
as likewise for the Cash Chest, and both
were brought before him - the Cash
Keeper refusing to open the Chest Major
Macleod told the Havildar to inform
him that if he did not immediately open
it he would take off his Cloth and flog
him - the Cash Keeper still refused - Major
Macleod then demanded the Key and on
the Cash Keeper saying that he was my
Servant and could not deliver it without
my

my orders Major Macleod snatched at the Key with such Violence as to break the String which tied it to his Sash - Major Macleod then opened the Chest himself and took possession of its Contents.

Read the following Letter from Lieutenant Colonel Dugald Campbell.

To the Honorable Major General Sir Archibald Campbell K.B. Governor, & Commander in Chief in Council

Honble Sir

From Colonel Dugald Campbell, recommending that the officers commanding Regiments of Cavalry may be allowed a Complete Set of Saddles for their respective Regiments, & enclosing Proposals from Major Lourdan & Captn Young for furnishing them.

I have the honor to enclose you a Letter received from Major Lourdan Commanding the 2d Regiment of Cavalry, and Captain Young Commanding the 2d Regiment of Cavalry and I take the liberty of informing you, that I coincide with them in opinion that they should be allowed, a Complete Set of Saddles for their respective Regiments, Their Proposals for supplying them, are I think, very reasonable.

On the 28th of July 1784 I did myself the honor of addressing the Right Honble the President, and Select Committee requesting the usual Allowance, of half a Pagoda pr. Month each Horse, for supplying, & keeping the Saddles in repair, for Captn Stevenson's Corps and my own, then composing the Native Cavalry, as

Fort St. George 24th April 1787.

as we had some time before that been furnished with Saddles, for the number of Horses, then on the Regiments, & agreed verbally, with Lord Macartney, to keep the number of Saddles we then had, tho' much out of order, and that if we should afterwards receive more Horses, Saddles for them, should be supplied by Government.—

Captain Stevenson and myself are therefore bound to keep our respective Regiments complete in Saddlery for the number of Horses belonging to each of our Regiments, at the time the allowance was granted, and if complicated with Horses, and Saddles, to the present Establishment, the Commanding Officer of each Regiment, to continue to keep that number of Saddles, in good order ever after: I therefore flatter myself that the allowance of 4 P.s and a half each Horse, will be ordered for the number of Saddles necessary either for the Complete Establishment, or for Horses as received.—

Should this meet with your approbation orders will be necessary for the Paymaster at Arcot, to pay the allowance of 4 Pagodas and a half p.r Horse.

for

Fort S.t George 24.th April 1787

For each Horse that any Regiment receives above the number drawn for in June 1784; and for all the Horses, the 2.nd & 3.rd Regiments have now, or may receive hereafter, it will also be necessary for the Paymaster of Brigade only to receive orders to the same effect for Captain Stevensons Regiment, as the Paymaster of Arcot, may for any Regiment

Permit me to acquaint you, that the 2.d & 3.d Regiments will each have 250 Horses in a few days, and will in consequence require the immediate advance of 1125 Star Pagodas each Regiment, for furnishing Saddles for those Horses

Hospital Board
April 25.th 1787.-

Read a letter from
the Military Secretary
under date the 18.th Instant
conveying

No. Fort St. George 1st May 1787.

Report of the Hospital Board with a correct List specifying the Seniority and present Stations of the Surgeons with the proposed Removals — Their Motives explained for the Removals which they recommended in their Proceedings of the 9th March Observations of Government thereon —

The Council are well satisfied with the Justice and Impartiality of the Hospital Board, in their late arrangement of Surgeons according to their Seniority; and are persuaded that the same laudable motives will inspire them to preserve the like regular order of Promotion, on every future Occasion. —

There was an Original Error in the Proceedings of the Hospital Board, in calling Messrs. Pringle, Mein, Sahagan and Welton, Supernumerary

conveying the orders of Government, that this Board should lay before them a correct List, specifying the Seniority and present Stations of the Surgeons with the proposed removals subjoined —

The Hospital Board beg leave to express their satisfaction at their having an opportunity of explaining their motives for the removals which were recommended in their Proceedings of the 9th of March, because whenever in Support of Seniority a Surgeon is spoilt to the inconvenience of moving from North to South, or vice versa, an eligible Station, to one that may be the reverse, the members of the Hospital Board feel a repugnance

Fort St. George 1st. May 1787.

Supernumerary Surgeons, because Messrs. Gillespie, Blackadder, Swiney and Ruddiman, as the youngest Surgeons ought, in fact to have been the Supernumeraries of that Rank. - Had the Hospital Board given in a List of the Surgeons according to Seniority specifying the Date of their respective Appointments, this Error would have been early discovered and the 3d Class of Rank specified in the Order of the 28th of May, would not have been obtruded on the Establishment. That Class being now abolished, it must henceforth be recorded, that the Combined Establishment shall only consist of 4 Classes, on the following Order. -

1st Class to comprehend the Hospital Board -
2d Do Dear Surgeons to Hospitals. -
3d Do Surgeons to Regiments, Garrisons & Fortifications.
4 Do Mates to Hospitals Regiments & Residencies -

The Governor and Council

reluctance in recommending the measure, but when on the other hand, it was their order to clear and distinct from Government respecting promotion in the medical Line, it is almost impossible they can act, whilst the Rights of the Individual is their Object in view, and impartiality their guide. -

In their General Instructions under date 14th of April 1786 they are directed, that the promotion of Surgeons to the Hospitals shall be from Regiments; and by the General orders of the 28th May, the Rank of the Medical Gentlemen is particularly classed, as per annexed Paper No 1, and conformably to this Idea, the Surgeons were arranged agreeably to their Seniority

Fort St. George 5th May 1787.—

Council concure that the List of Surgeons given on the 25th ult.mo is agreeable to their Seniority on the Service but as there are no Dates specifying their appointment as Surgeons & as the want of such Specific Documents is necessary for the Information of Government, the Hospital Board is directed to give in such a List without Loss of time.—

Mr. Binny having had the Permission of the Governor and Council to remain at Ganjam, till further Orders as had also Mr. Ferrier at Vyagapatam, Mr. Addiston to remain with the 2d. Battalion of Artillery at the mount and Mr. Ferguson with the 2d. Regiment at Ellore; The Hospital Board will be pleased to arrange the same accordingly; shewing at the same Time that the Permission granted to these Gentlemen

Seniority on the 17th of June, as will more fully appear by Paper No. 2 annexed.—

Both which by the departure of Messrs. Simpson, Gillespie and Briggs on leave to Europe, and Mr. Dundiman had obtained permission from Government to attend their Highnesses the Nabob, Mr. Gordon, also who had been stationed at Palamcottah, being likewise permitted to reside in the Black Town.— The 4th Regiment of Infantry, Palamcottah and Changleput became Vacancies which required to be filled.— The Hospital Board at that time had no other resource than recommending Mr. Alexr. Means to be promoted from a Mate to do Duty with the 4th Regiment about to march; but when Government

Fort St. George 1st May 1787.

in this Respect, is not to supercede the Right of their Seniors to Hospitals, should vacancies in that Line occur. —

Government disapproved making a full Surgeon, whilst it was urged there were Supernumerary-ries upon the List, and as the 3d Class or Third Surgeons to Hospitals were proposed by the Hospital Board, and "approved because it will" "dispose of 4 Supernumerary "Surgeons with advantage "to the Service otherwise it "would have been inadmissa-"-ble, as it is contrary to the "order of the Honble Court "of Directors," and as they were not originally classed by Government, it became self evident, that this order of Surgeons were the Supernumeraries alluded to, and therefore it was resolved to recommend that First Surgeons to Hospitals might be abolished, and

from

from this Idea, that as they were created in consequence of the recommendations of the Hospital Board to accommodate the Service at one Period, so at another, when their utility did not appear conspicuous to Government the Hospital Board thought it their duty to recommend that they should be done away; and thus originated the removals in the Proceedings of the 9th Inst.

By a comparative View of the List of Surgeons with the Dates as made by Government in General order of the 30th May, and conformably to the instructions of the Honble Court of Directors as communicated to this Board, in their Secret Instructions; they trust it will be found, that they have acted cautiously and uniformly for the good of

Fort St. George 1st May 1787.

of the Service, and that they have not recommended Gentlemen to be removed to great distances, wantonly; but only in such cases where the rights of the Individual was to be supported by placing him in that Class and Station to which he properly belonged, and through which agreeably to the Tenor of our Instructions his advancement in the line of his Profession must be established. —

This premised, the Hospital Board have now the Honor to subjoin the Lists proposed removals with their remarks or rather the Reasons which operated with them in suggesting the expediency of each respective Surgeons removal.

Upon the Idea then that First Surgeons to Hospitals

Although the exchange of Pouchrams at Tinnevelly was formerly settled after much objection with the consent of the Sheraffs and Setties from whom Pouchillas were taken and I wrote you on the Subject and the Governor wrote the Officers belonging to the Company thereon—yet now complaints have been received on the Exchange of those Pouchrams & the Officers have set forth to the Governor that it has risen to Twenty and Twenty one Fanams p Pagoda—Thus the Governor has represented to me and inquired to what I wrote you on the Subject you tell me no difference has happened in the Exchange and that the Company's People interfere in this business.—

In order however to put a stop to complaints in future, I have determined that the Sum of Six Thousand Pagodas Monthly for the expence of the Company's Troops, be paid from the 1st of May in Pagodas, & this can be done with the greatest ease—and the Troops will henceforth have nothing to object regarding Exchange—But in order to preserve

Fort St. George 8th May 1787.

Myself Country, We should certainly have apprised you of this Circumstance on our letter of the 7th February last we did not supposed that the reference contained in your address of the 4th January was intended to be confined only to the case of Subalterns and Privates, and that it was settled, according to our Letter of the 29th November 1786 that the Field Officers and Captains were to be paid in Bengal Bonds: But if your Government should be pledged for the same mode of Payment to these Gentlemen as to the Subalterns and Privates we shall not hesitate, however inconvenient it may be to us, to honour your Bills for the Amount which the Field Officers and Captains are to receive should you not be pledged as we suppose, we yet authorize you to give an Option to the Field Officers and Captains of being paid in Certificates to be exchanged for Bengal Bonds or in Certificates that shall come in course of Payment according to their Place in the General Register. We imagine that the last mode of Payment would be most agreeable to them because if they should be disposed to realize their Certificates before they become due, they can do so at an easier Discount

After a careful investigation of the application from the Quarter Masters of Cavalry, it appears to us, from the nature, and importance of the duties attending their Stations, that the Officers holding them are entitled to a proportionate reward of their Services;— We beg leave, therefore to recommend that, their former allowance of 5/9 Pr Diem, be restored to them, in addition to the Pay

which they receive exclusively from their Rank in the army.—

In the Statement of the allowances of Staff-Officers which accompanied the forementioned Papers, We observe, that the Adjutants of Native Corps have also suffered such a diminution of their former allowances, as render the advantages of their Posts very inadequate to the Fatigues inseparably connected therewith; which are obviously much greater than those of the Adjutants of European Infantry. The present made Establishment seems to make the attainment of a Staff-Appointment, an object of some importance to an Ensign, which only procures for a Lieutenant, the inconsiderable emolument of about nine Pagodas P.r Month. as we conceive it would prove more beneficial to the public Service to have these duties executed by Officers, from whose superiority of Rank, a more perfect knowledge, and experience, in their Profession, might be consequently expected, we beg leave to suggest to your Honor &c.a the expediency of granting to the Adjutants of native Corps an allowance of 5/ P.r Diem. independent of the pay annexed to their respective Rank in the Army, on the same

When I had my late Contract for supplying the Troops with Spirituous Liquors to prevent a possibility of any being deficient in wholesome Liquor at a time when the Season would not permit any bringing Spirits from Bengal, I purchased a considerable Quantity of Brandy- This heavy Stock now lies on my Hands & I hope Government will be pleased to take into their Store this Stock which was purchased that I might not be deficient in wholesome Spirits for my Contract- I propose disposing of it to the natives & others at 1/4 Fanam per Draw- This is a reasonable price, & a profit will accrue to Government by selling it in this manner- The whole of the Brandy I have in

in hand, measures Gallons 14850- and Stands me Pags. 11,975 13. 5- in my Books.-

Quantities of Brandy are disposed of in different parts, being by some considered a Spirit that does not come under the Prohibitory Clause in the General Order of 10th December 1786- & if it was intimated that this Spirit would be issued from the Publick Stores, it would prevent irregularities as the men are secretly supplied from private Shops.-

Upon balancing my agency Books to the 30th of April last, I find there are only 11634 Gallons of Arrack in the different Stores which will be consumed in about five weeks.-

I beg to be directed what Steps I am to take for Supplying the Troops until the Spirits arrive from Bengal, the consumption at present is near 10,000 Gallons monthly.-

From the Commissary General respecting the Rates of Cooly hire to the different Out Garrisons.

The rates of Cooly hire to the different Out Garrisons has been settled by the Committee of Police, and when they go by themselves as they can travel at the rate of 20 miles a day it is in their own power to make a profitable Journey of it, but when they accompany a body of Europeans marching slowly on hire of Peace, their march is regulated by the Commanding Officer of the Detachment who sometimes prolongs it beyond the time for which they are paid. This Circumstance occasions great difficulty in procuring Coolies especially at a short notice, & when they often run away on the road. which may be prevented, either by allowing them 1 Fanam a day when marching with Detachments of Europeans

Military Secretary

Sir,

I have answer to the Letter of 20th April last from Mr. Hay Secretary to the Secret and Military Department at Fort William - desiring you will inform him what the account rendered of the extraordinary expences of the Bengal Troops is for the Purpose of compleating a general Statement of the extraordinary expences of the late War on the Carnatick.-

From the Accomptant General, for reply.-

That we may be enabled to select what we deem to come under the description of Extraordinary Charges, I think you should write to Bengal for an Abstract of the whole expence of the Bengal Troops while serving on the Carnatick, arranged under the different heads of expenditure from which We shall be enabled to determine what ought to be carried to the head of Second War with Hyder Ally a proportion of which is to be charged to the account of His Highness the Nabob of the Carnatick.

To the Honble Major General
Sir Archibald Campbell K.t B.
Governor &.c Council of
Fort S.t George

Honble Sir & Sirs

On the 1.st instant I received a letter from Mr. Secretary Shannon written by desire of the Honble Board, in which I am accused of "a breach of the orders of Government of the 7.th May last" and of having "been guilty of a very extraordinary act of violence" both Charges founded on a letter addressed to Government by Mr. Thomas Oakes Paymaster at Palamcotah, a copy of which Mr. Shannon forwarded to me, desiring an immediate explanation on the Subject of it.

From Major Macleod in Vindication of his Conduct against the Complaints preferred by the Paymaster at Palamcotah.

As it is my disposition as well as duty to pay the most respectful deference to the opinion of the Honble Board, I am very much concerned and alarmed at your conducting or even suffering me guilty of crimes of this very serious nature.-

But Honble Sir & Sirs, at this I shall not here attempt to confute any part of Mr Oakes's letter-, I shall only disavow being guilty of a breach of the orders of Government-

or,

Fort St. George 15th May 1787

or, having committed an act in any degree violent in this affair; altho' I can with justice mention, in return to the circumstantial and friendly narrative by Mr. Oakes, with every desire to give my conduct the appearance of violence, that my proceedings were artfully wrought upon by rumours and insolence, on purpose to provoke me to commit what might be called acts of violence -

The loss to which the troops would be subjected by the mode of payment offered by Mr. Oakes would amount to about twenty two p Cent - This is well understood by every man of the detachment under my command: - and when they learned that they were to be paid at the exchange of 116 Califanams for a Star Pagoda, and eight Califanams for the 24 Madras fanams in each Sepoys pay: - they murmured very much - and declared to the Officer their strong sense of the injustice of such payments - The Officer did all in their power to persuade them of the disposition of Government to do justice to their troops - and the Commanding Officer of each part of the detachment as had received an

pay for February, either wrote or spoke to me letting forth the loss that would ensue to their men by the payment proposed - and requested to draw a sum for immediate relief - and to defer settling the months accounts until the resolutions of Government were known in consequence of representations which they would forward without delay. Here I beg leave to observe that I ever considered it my duty to endeavour to procure justice on their payments to the troops entrusted to my charge. and on this occasion I took it upon me to comply with the request of the troops - which I hope will be judged fair & just - and no breach of the orders of Government -

At the same time I communicated the transaction to General Horne commanding the Southern Forces - to whom also were forwarded public representations setting forth the loss to which the troops would be subjected by the mode of payment offered by Mr Oakes - and from General Horne I had official intima -tion of those representations being laid before the Honble the Governor, who had given assuran -ces of his procuring justice to the troops - this intelligence gave great joy to the detachment; and in consequence of it the

men determined Patiently to bear a Few days distress by the want of pay in confidence that Government would order them to be paid in an equitable manner

Frequent Representations being made to me of the distress of the troops — I wrote to the Paymaster on the Subject requesting that he would issue Some money for their relief on part of the pay due them — but he positively refused to comply, let the consequence be what it would, unless the Cal. Sarrans were received in the manner prescribed by them — and which was about twenty two Pagodas below the bazar exchange — this obliged me to direct the money Box to be brought to my Tent — there to be opened — and to issue its contents for the relief of the troops — This was done before Several Witnesses — The Sum found in the Box was eleven Thousand Five hundred & Sixty eight Cal. Sarrans which does not exceed a Third of the Sum Stillbase to the troops for the month of February last. I flatter myself the Worthy Board will not judge this part of my conduct as criminal or unjust, notwithstanding the contrary in which it has been represented.

The Secretary's letter accuses me of a breach

Fort St George 15th May 1787.—

"breach of the order of Government by which
"the exchange was settled on the 3d of May
"last" I take liberty to say Honble Sir & Sirs,
had there ever been issued a clear order settling
the exchange at which the troops were to be
paid, but by which it was afterwards found,
the troops lost a considerable part of their
pay— I would consider it my duty to
represent such loss to you— and the troops
would expect justice— but no such order is
to be found on our books— nor can I or any
other Officer of the detachment recollect ever
to have seen it— or any other order of Govern=
=ment to the purpose, unless a letter dated
the 10th July 1786. to General Stone from
Mr Chamier is what he alludes to.—

The letter which I am answering says
"that the Board are the more surprised at
"the relation contained in Mr Oakes letter,
"because the distinct line between Paymasters
"and Commanding Officers has long been
"fixed, and cannot but be well known to me."—
In answer to this I must declare that I am
not acquainted with any particular line
drawn by the public authority of Government
between Commanding Officers and Paymasters
— or with any regulations on the Subject— to
which

Fort St. George 15th May 1784

which one circumstance set forth by Mr Oakes against me can with propriety be referred. I recollect one order on the Subject issued since I have been in the Service, making Commanding Officers responsible for the public money as well as the Paymaster, and ordering the former to keep one of the keys of the Cash chest- this order may be thought about by, but it has not yet been countermanded.-

I beg leave to observe that nobody principles of equity & reason, but a laudable and just zeal for the Service,- and even a natural attention to their own character & Situation;- have always led Officers of Seniority and experience to exert themselves to prevent the Soldiers being defrauded of any part of the pay allowed them by the Public- this, I presume, is so material a part of the duty of Officers, and so indispensably necessary to be attended to in your corps of native troops, that I am certain, a neglect in this Point would incur the displeasure and censure of your Honors &c.a upon this idea- I complied with the wishes of the detachment by requesting the Paymaster to issue some money for the relief, until I hear from your

145 Fort St. George 15th May 1787.-

your order, in consequence of the representations made, arrived:- it was upon this idea- That Stock upon one to distribute the little money that was in camp;- and that I have since, upon Mr. Baber's positively to refuse any assistance, but on terms by which the Soldier would lose near a fourth of his pay, required of the Nabob's manager to advance one a little money to subsist the troops under my command.-

I am extremely sorry to trouble the Honble Board with this tedious address- and I am sensible of my incapacity for this kind of duty, upon which I entered with reluctance, and have gone through with much uneasiness of mind- May I hope, however that tame as my representation is, it will contribute to what your Honors &c. are already acquainted with to give a plain and just idea of this subject.-

I have the honor to be with perfect respect.- &c. &c. &c.

The Board disapprove your applying to the Nabob's Phousdar for money this being no part of your duty, & belonging to the Office of the Paymaster who is the regular Channel for Receipts & disbursements of Cash.

The Board are surprized that any Officer who has served the Company as long as you have done, should acknowledge ignorance of the line drawn between Officer Commanding Garrisons or Cantonments, & Paymasters as such line is established by the Book of Regulations is supported by repeated General Orders, & is well known to the youngest Subaltern in the Army.

Honble Sir & Sirs,

I have the honor to inform the Chief Engineer is of opinion as long as the repairs necessary for the Rampart and Gateways at Tanjore, & Estimate of Lieutenant Ross Scott annexed -

I have the honor to inform you that before you were pleased to send me for Examination and Report to represent the necessity there is for the immediate Repair of the Rampart and Gateways of Tanjore, least a heavy Rain entering the Cracks now open, should force the wall out and thereby occasion a much greater after Expence. -

The Quantity of Materials recommended to be provided by Captain Ross for the next three months Service at Tanjore is surely very moderate and I hope will meet your approbation. -

I have examined with attention the Estimate transmitted from Palamcotah by Lieutenant Ross, whose minuteness has led him into several Inaccuracies in Calculation

affecting the amount of Expence which

Honble Sir & Sirs

From the Military Board, with a further Opinion respecting the Claim of Capt.n Blacker as to Surgeons off Recommending on the Charges made by Capt.n Lieut. Mackay as Brigade Major to Capt.n Lysaghts Detachment.-

We have been honored with a

Mr. Secretary Stanieri's Letter of the 13.th instant with inclosures.-

The correspondence between the Adjutant General of the Southern army and Capt.n Blacker, seems to contain sufficient evidence

That

Fort St. George 22. May 1787.—

That the charges made by them were actually incurred, through the exigency of the Service: We cannot nevertheless depart from our former opinion of the 23d March 1785— that it is very extraordinary, that Capt.n Blacker should have suffered three years to elapse, and Mr. Digby to leave India; without explaining the motives of his reserve, to pay those demands, after having affixed his Official Signature to the bills.—

We observe from the Minutes of the G. C. of the 14th April 1786 that the Surgeons are entitled to the pay and emoluments of Captains of European Infantry and we are of Opinion, that according to the Spirit of the above mentioned G. O. an Allowance equal to off Reckonings, should be paid to the Surgeons, in the proportion they bear, to the number of Captains of European Infantry receiving it: That is should there be one hundred Captains, and ten Surgeons, and ten of the former receive off: Reckonings; then one of the latter may be entitled to a similar allowance; but to be paid in the same manner and at the same Periods.—

We have examined with attention Captain Lindesay Mackay's Letter, to the Commander

Fort St. George 22d. May 1787.—

Commander in Chief, and Adjutant General; with the several papers accompanying them; But finding that this claim was finally settled, by Government, in their Letter to Masulipatam, dated the 4th November 1784, in consequence of a reference from that Board: We can offer no addition to so conclusive a decision.—

We have the honor to be with Perfect respect.

My Lord

We beg leave to acquaint your
Lordships that we have paid two musters of
two months each to the Kings Troops, to the
amount of Pags.s . . . . . 120,627—
And that we have to pay, on the 24.th
Inst.t another muster amounting
to about . . . . . — 60,000
Pagodas — 180,627—

To the Supreme Council, advising of the Payments made to the Kings Troops and of the Sum required by Colonel Floyd for mustering the 19.th Regement Light Dragoons.

We have been enabled to make
the above payments by means of monies that
were received from his Highness the Nabob for
the use of his Creditors which Sum it is now
necessary to distribute; For which reason
we are under the necessity of availing ourselves
of the permission granted for drawing upon the
Government of Bengal as signified in the
Letter dated the 27.th November last.— In this
measure Weare in some degree drawen from
not having hitherto been able to realize the
Surplus consigned to us as a Remittance
on the 27.th Novem.r mentioned in the Letter of
that

Fort St George May 1787

The application of the money received from the Nabob as abovementioned has rendered an immediate advance unnecessary and the suspension of Drafts upon the Government General for the Kings Troops has contributed to lower the Exchange which we expect can now be negociated at 395 Arcot Rupees for 100 Star Pagodas, at which rate we have made it known, that a Small Sum will be drawn upon your Lordship & the Council

We are however of Opinion that in the Course of this and the next Month we shall be able to procure money even to the extent of Pags 120627 for bills on your Government and after that is received we firmly expect to be able to discharge all future demands on account of this Presidency; and hope we shall no longer be a burthen upon your Treasury except for such articles the produce of Bengal, as can be from time to time advantageously sent to us-

We shall endeavour to procure money for certificates to answer the purpose of mounting the 19th Dragoons, unless we find that a material loss will be incurred by drawing in that way. — The estimated

Fort St. George

Honble Sir & Sirs

From the Committee of Stores recommending that one Tendal & Twelve Lascars be placed under the Commissary of Stores at Walajanbad; & that three Tindals & Conductors be appointed under the Conduction of Stores.—

Agreeably to our resolution of the 7th. Novemr. last we attended last Meeting examined the Books of the Director of the Laboratory, and the Conductors Books, which we found all regularly brought up to the end of last Month.

The Commissary of Stores at Arcot has applyed to us for one Topaz, two Tindals, and twenty Lascars to assist him in the care of the Camp Equipage & Stores on his Department at Wallajabad, but as we are of Opinion that one Tindal & twelve Lascars will be fully sufficient for that purpose we beg leave to recommend to

The Commissary General of Stores having informed us that the Conductors of Stores have not leisure to attend to & carry on the Business of their respective Department agreeably to the new Regulations, without some person under them to assist in the receipt & delivery of Stores & examining the different Magazines & Storehouses.-

This recommendation cannot be adopted.-

As these Departments require particular Care & attention, & as the Conductors cannot without such assistance pay the necessary attention to the keeping up their Books & Accounts with exactness, & Regularity &c

Fort St. George

Honble Sir,

When the Honble Board were pleased to accept of my Proposals for victualling the Hospital, it was particularly understood by me, That the Country Beer which is also engaged to be supplied, was meant to be given in small Quantities to Recruits & those who were ill of the Scurvy - & in consequence during the Period I have had the Contract, I have suppos'd that article agreeably to the directions of the Surgeons, The Quantity actually served out to the Patients (independent of the Loss on Leakage) appears to have been 467 Dozen for the information of your Honr I have enclosed a Statement of what was supplied in each month & specified the average number of Sicks for whom the same was ordered by the Surgeons: That Quantity far exceeds any thing I could have conceived was to be supplied, & I fancy

From the Purveyor General requests to be reimbursed for the Expence he has been at at his Request to Country Beer & Rice for Poultices & Fomentations.

is much greater than was imagined by your Honble Board would be required. Country Beer having been constantly considered as a regular daily diet & some of the Men at this time in the Hospital having been ordered Six Bottles each p.r Day I have taken the liberty of representing it to your Honor &c. in the hope that you will take the same into consideration & permit me to charge the Prime Cost of the materials being 18 Fanams p.r Dozen & that the Honble Board will direct the apothecary General to discharge the same, this article coming more particularly under his department as a Country Medicine.

I have also furnished a Quantity of Rice every day for the purpose of preparing Poultices & Fomentations and also Firewood for Decoctions & Warm baths a particular account of which is also enclosed / Articles which should be found by the Assistant Apothecary in charge of the Medicines in the Hospital, but as he did not supply them, I was unwilling that the Patients should suffer from the want of them knowing that the Honble Board would not permit me to be a

Hospital Board
June 4th 1787.-

To the Hospital Board

Have the honor to transmit to the Honble Governor in Council, the answer of Mr. Davis Head Surgeon, to the letter and enclosures from Government under date May 30th which they forwarded to him after perusal.-

The Board having examined Mr. James Cameron and Mr. John Duncan Surgeons of the Royal and Intelligence Packets, agreably to the Order of Government may 30th are happy to find them well qualified in their profession, and therefore recommend them to the Honble Board as assistant Surgeons

Report of the Hospital Board Enclosing a letter from Doctor Davis, in Reply to the Surveyor General - Messrs. Cameron & Duncan found qualified for the appointment of assistant Surgeons - Mr. Vaughan applies for an increase of allowances - Respecting repair to the Hospitals - and stating the Melancholy Accidents which have happened to the Southward by the Bite of Mad Dogs - The case of Mr. Burnett represented.-

Surgeons on this establishment to be duely sent with the 15th Battalion at Arnbore and the other with the 4th Battalion of Sepoys at Wallajabad.—

Read a letter from Mr. Vaughan assistant at the Medicine Godown, which the Board beg leave to forward to Government, as his request appear to them not unreasonable.—

Mr. Vaughans attention and assiduity give him a just claim to his request being complied with.—

Mr. Davis Head Surgeon informs this Board, that as the Hanoverian Sick occupy one half of the Hospital, there is not room for the Recruits that are daily expected, & therefore recommends that the General Hospital be put in immediate repair for their reception.—

Fort St. George

Honble Sir

In obedience to your Commands of the 30th Ult.mo I have the honor to inform you that there has not been any Counting Beer used in the General Hospital except in Scorbutick Cases, and in such others, where it was absolutely necessary for the Relief of the Patients.—

The Average Quantity daily Expended in the Course of the last nine Months agreeably to the Total Amount given in to your Honble Board by the Purveyor General, will be found upon Examination not to exceed five Pagodas Fifteen Bottles per Diem.—Notwithstanding the Errata in Mr. Garrow's last Column of Figures, and in Quantity it is equal to one Pint of Liquid only to every Bottle of Country Beer—if made as I direct it Viz. with a proper Attention to the Spirit—But it ought to contain, and on which Account I prescribe it.—Although the gross Amount in Dozens should at first sight create a degree of Surprize it does not however appear to me upon a nearer Enquiry that the Quantity either with respect to magnitude or expence is at all Considerable—For when

in so much that the Purveyor General when he communicated for the Information of your Honble Board that "Some of the Men at this "time in the Hospitals have been ordered Six "Bottles of Country Beer per day." might have extended this Communication to about all

As I am required by the Worlle President in Council to give my Opinion how the Hospital should in future be supplied with Country Beer—I beg leave to point out the Formula by which it ought to be made, and which I have thought proper to annex for the Information of your Worlle Board—after which, I will endeavour to point out as efficiently as I can ascertaining the neat Expence of a Bottle of Country Beer, and which according to my estimation does not exceed one Fanam per Bottle, admitting that Porter is bought at 15 Pagodas the Hogshead, which is what my
