Robert Maunsell Esqrs

Minutes of last Consultation read & approved.

The President desires that the 84th Paragraph of the Company's General Letter dated the 16th February with the Statements to which it alludes be read, which being accordingly done, he informs the Board that he thought it necessary to reply to the Remarks made by Sir John Dalling & has addressed the Court of Directors on the Subject on a Letter which he begs leave to lay before the Board.—

The 84th Paragraph of the General Letter from the Court of Directors dated 16th February 1787 read.—

The President begs leave to add that his answer not being ready until after the Packet Dispatches began by the Devonsworth were closed, he was obliged to send his Letter in a Separate Packet, he requests that it may be now entered on the Proceedings, & a Copy of it transmitted as a number on the next Packet to Europe.—

The President lays before the Board, Copy of a Letter to the Honble Court in reply thereto.—

The Letter is, as follows.

The President requests that a Copy of this Reply be sent as Number in the next Packet.—

Do.

445 Fort St. George 10th August 1787

To the Honble Court of Directors

Military Department.

The Information contained in the 84th Paragraph of your General Letter, dated 16th February last, was the first Notice I had, of any Objections on the part of Sir John Dalling to the Military Establishment ordered in your Letter of the 21st September 1785. I am happy however even at this late hour to peruse them; and to have an Opportunity of satisfying your Court on every point of Consequence alluded to.

Forwards Archibald Campbell to the Honble the Court of Directors in reply to Sir John Dallings Remarks, upon the new Military Establishment.

No man can be better acquainted with Sir John Dallings's Military Talents than I am. I had the honour to serve under his Command & I believe you will allow, that I have not been slow to pay them that Tribute of Applause to which I thought them justly entitled. I have not a Doubt that on points of Service we should always agree, especially if he left his Judgment unfettered by the Opinions of Designing Men, for such they must have been, who could advise Sir John to attend on your Court their animadversions on Military Arrangements, the necessities of which they foresaw had a tendency to check & terminate a profusion of useless expence which has been surreptitiously introduced into your Service. —

Lt

446 Fort St. George 10th August 1787.-

Sir

It is natural to conceive, that Men who had long enjoyed Emoluments from such abuses would ill brook the Disappointment of seeing them lost, & could scarcely suppose that they would have had address enough to induce Sir John Dalling to become a serious advocate on their Behalf.

Your orders respecting the Military Arrangements which from their Extent and Magnitude required the most mature and deliberate Investigation were brought forward by me at Madras on the 11th of April 1786 and on the 15th of the same Month, Sir John Dalling hazards severe Censure upon various parts of them, without asking Information from those who could give them the fullest Satisfaction.

Sir John could scarcely suppose, that a General Officer in the Confidential Station of your Governor carrying out a Military Arrangement to his Government, could not explain the proportions of their constructive Parts, or even the Consequences that might be expected to arise to the Service from those arrangements being precisely adopted; and it is natural to suppose that if he had been as anxious to discuss the Business candidly and openly as his Letter to you would give Reason to suppose, he would have laid his objections before Councils, which would have furnished me with an Opportunity of detailing in the fullest Manner

Fort St. George 10th August 1797.

Manner, those parts of the Military System with which he seemed to be unacquainted. Instead of that mode of proceeding, Sir John Dalling at the head of this army, chose to remain in perfect silence, and to pursue the circuitous Line of addressing your Court: leaving this Government in the mean time deprived of all the Advantages which might have resulted from the Opinions he was pleased to adopt: I submit to you, Gentlemen, whether this was doing Justice either to his own Situation or the Service.

I should not have troubled your Honble Court with further Remarks on this extraordinary Procedure of Sir John Dalling's had there not been some particular Passages in his Letter, which if left unanswered might leave an Impression upon your minds, that the present Military Establishment is, in the Instances alluded to, injurious to your real Interests. The Reverse of which I can venture to say is actually the case.

The 1st and 2d Paragraphs of Sir John Dalling's Letter consist of general reflections and declamations which as they are neither founded on established Proofs or Arguments merit no Specific Refutation.

As the 3d 4th Paragraphs express his concern that the Honble Court of Directors should have lessened the number of their European

Fort St George 10th August 1787.

European Artillery; It is necessary that I should remind your Honble Court that by the Peace Establishment proposed by Lord Macartney, in March 1784 the artillery corps amounted to 504 Men; that is to say, non Commissioned Officers and Privates only included; whereas the establishments now adopted by the Directors amounts to 720 Men including Non Commissioned Officers and Privates, although I wish with Sir John Dalling that your European Artillery had been more numerous; yet under the serious pressure of your Affairs, I thought and still think the Number sufficient for your present peace Establishment, especially if a plan is settled for increasing it on any sudden Emergency which I have already maturely considered and determined upon.

It is strange that Sir John Dalling had not given himself the Trouble to inspect your establishment of Lascars for the Artillery, because he would have found that it exceeded the number which he had actually proposed.

It is likewise singular that he should disapprove of this Policy which dictated the orders respecting the enlisting of Lascars, in preference to the native Gunners, and be averse to it, because orders had not been published to that Effect from the earliest periods of the Company's authority in India; upon the same principles of reasoning Errors committed by

Fort S.t George 10.th August 1787.

by our Ancestors ought never to be remedied.—

To Sir John Dalling's assertion, that the Generality of native Gunners would not consent to be incorporated into the Legions or Lascars attached to the artillery, and that they would thereby be forced to go into the hands of our enemies, I shall only observe that experience has proved the contrary, by nine tenths of the native Gunners having cheerfully entered as Lascars, and the Remainder as Sepoys into the native Battalions of Infantry.—

It is flattering to the Establishment formed by the Honble Company, that it so far agrees with Sir John Dallings Ideas, as to meet the approbation contained in the 5.th Parag.h of his Letter; but even there Sir John is not entirely correct, because the two Plans do not correspond so nearly as he seems to have imagined in the Instances mentioned in that Paragraph.—

If the Position laid down by Sir John Dalling in the 6.th Paragraph of his Remarks is just, that to have 400 Men under arms the Battalion must consist of 800 on the returns, the Honble Company must pay two Armies instead of one for the Defence of the Carnatic. With all Deference to Sir John Dallings Ideas on this head, I should think it a wiser System to correct the abuses attending the Deficiencies of

Corps,

Fort St. George 10th. August 1787.

Corps, than to encourage them by holding out the temptation of emoluments to those, who might be unscrupulous enough to seize the opportunity offered by such means of defrauding the Honble Company. To correct these abuses has been my particular Care, and I am perfectly satisfied from the consequence of orders lately issued for the better and more punctual mustering of your native Troops, that the future deficiencies of Corps will be checked in every dispersion degree.—

In the 7th Paragraph, Sir John Dalling says much of the Inconveniences which would arise from executing modern Manœuvres with the Discription of Battalions ordered by the Honble Company." A Formation which to them appears repugnant to the principles that modern Military Exercise and Manœuvres are founded on". It is not for me to say whether the Honble Court of Directors are sufficiently acquainted with Military Tactics to understand this important Question; or whether from such high sounding Assertions, without a single proof in support of them, you can accurately pronounce that General Dalling's Ideas are strictly Right, or strictly Wrong: but I will venture to prove that if Sir John Dalling had taken the trouble to make himself acquainted with

the

51 Fort St. George 10th. August 1787.

The nature of the new Establishments he consulted have found that among all the Defects he has been pleased to ascribe to that Establishment, the Construction and formation of your native Corps could not with common Decency be enrolled on the Catalogue of Public reproach.—

To say that a Battalion of 8 Companies is repugnant to the principles on which modern exercise and Manœuvres are founded exceeds a total Ignorance in military Tactics; and a wanton Disposition to oppose contumacious assertions to the most stubborn Facts. I have a Right to make this reflexion, because your Battalions on the Coast perform their Evolutions and Firings with as much Ease precision, and Alacrity, as any Battalions of 10 Companies that ever manœuvred in India.—

It is with peculiar Satisfaction I reflect, that Lord Cornwallis has been an Eye Witness to this Fact; and that two Members of the Supreme Council, Sir John Macpherson and Mr. Stables who are in all probability in London, can give your compleat Information on this Subject. Were further proofs wanting to refute the Confidence of Sir John Dalling's assertions in this Respect the Secretary at War could inform you that since the Peace almost the whole of his Majesty's Regiments were reduced to 8 Companies including the Grenadiers and Light Infantry—

Sir John Dalling concludes the

9r

Fort St. George 10th August 1787.

4th Paragraph of this Letter with assertions of apprehend Solemnity on the Diminution of Non Commissioned officers in your native Corps which, I shall only beg leave to answer from Experience that the new establishment determined on by the Honble Company has a sufficient number of Non Commissioned officers to every Company for all Military duties and for conducting the Firings and evolutions of the Corps having therefore all that is necessary without the Useless Incumbrance of Havildars and Naicks which became an useless Fee to the Service, Can heavy Load upon your Treasury. This Reform was considered as one of the many advantages your present Arrangements had acquired over your former Military Establishments in India. To say that your present number of non-Commissioned officers is not a sufficient Inducement for good men to enter the Service is to assert what daily experience has positively not evinced.

With respect to the Abstracts which accompanied Sir John Dalling's Remarks had they been stated with Candour & Fairness they might have been easily refuted, but as they are not so, they require no particular Comment.

Having thus replied to the ami-

animadversions sent home by Sir John Dalling I trust your Honble Court will perceive that I am by no means disposed to write my Lamentations with them on the Defects of your present Military Establishments. I am nevertheless willing to declare, that Sir John has a just and reasonable Plea to stand fully acquitted with your Court, in case any unfavorable Consequences should result from your late Military Arrangements; and I am also ready to confess, that I think your Arrangements as compleat, that I am willing to take the Consequences on myself without the smallest apprehensions of Danger.—

Honble Sir

I had the honor to receive the Letter of your Honble Board thro' your Secretary and return my acknowledgements that the Plan I had suggested, and my wishes to render Public Service had met your approbation in so great a degree.—

I chearfully acquiesce in the sentiments of your Honble Board and trust to their Candour, that while they are justly attentive to the Company's Interest they will extend their consideration to any of their Servants in such an undertaking.—

I presume Honble Sir that when you consider the unavoidable expence of feeding Horses in such an unsettled state, and in a Strange Country, the natural Casualties of Sickness, and death, the dangers of the Sea, and Charges of Freights with other probable draw backs that you will not regard

regard an allowance of 170 S.r Pagodas for each Private Horse to be landed at any Range at my Origin and Cork, a more than just and adequate valuation; I therefore at the price of 170 S.r Pag.s agree to purchase 500 Horses and land them at any Range where and where they are to become the property of the Honble Company. May I here be permitted to suggest, that should I be so fortunate as to give entire Satisfaction in Collecting 500 Horses, that you will extend my Contract to 1000 as first proposed under the Idea that the Agents I must employ, would the more readily exert themselves for a large than for a small Number.—

On the Subject of Security, I trust I shall be able to give such as will be satisfactory to you Honble Board.

Sir

From Brigt Genl Horne with an Indent for Stores forwarded a Report from Lieut Hammond of the State of the Saluting Cannon at Negapatam & desires permission to have the Cannon exchanged.-

The Storekeeper having received the Military Stores sent from the Presidency in March last for the use of this Station I directed a Committee of Stores to assemble agreeably to the late Instructions to examine and inspect into the present state of the Ordnance and Stores and as only a part of the former Indents had been received to draw out another to be sent to the Presidency for such articles as the Committee might deem necessary which being accordingly done I have now the honor of transmitting it to you.-

As it is probable the principal part of this Indent may not be sent us until after the Monsoon, when the Stores

may

As this Corps is not yet Cloathed or Accoutred I have frequent Applications from the Rabbit Manager and Renters for Regular Topoys, as they complain that the Revenue Topoys are not of sufficient Weight and consequence to carry on the Coolan Business, being little better in Appearance than the Renters Peons, however immediately on receiving the Accoutrements for the Regular Troops I shall Supply them with the best from there Offs, and from the above remarks I could wish their Cloathing might be sent as soon as convenient.

I have the honor to transmit you a Report from Lieutenant Hammond of the State of the Saluting Cannon at Nigapatam in consequence of some Accidents having happened lately to the Lascars employed on that duty, I have to request your Instructions

Honble Sir,

I have been honored with your Commands / in a Letter from Mr. Secretary Shawier dated the 7.th Instant / to report my Opinion upon the Subject of a memorial dated 25.th Ultimo delivered in by the Chief Engineer at a Committee of Works. –

I objects to the alteration proposed in the 8.th Paragraph of my address to your Honor under date the 24.th April, the Substance of which is, "That as the Committee of Works receive advances of Cash for the disbursements of that department, & keep a regular Set of Books, there is an impropriety in the Civil Paymaster continuing to pay & Charge to the Committee the Wages of the Servants and other monthly Charges under the direction of the Chief Engineer.

My reason for proposing this alteration was that the Books of the Committee of Works alone, should contain the Account of every disbursement under their Charge so that the

we should not in future have occasion
to refer to any other department to know at
any time the state of the Accounts of that
Committee.

The objection made to this by the Chief
Engineer is, that as the Civil Paymasters
at present muster and pays the people
employed under him, if this mode is
discontinued, the necessary Check, and
controul of the Paymaster will be wanting-
on this I beg leave to remark, that I conceive
the Clerk to the Committee can execute
this duty as well as the Paymaster & with
more promptitude, as being one of their own
Officers immediately responsible to them
for his conduct. Whilst the Checks of the
Chief Engineer will be preserved as the
report from his Department can as usual
be entered every night together, with the
Clerk to the Committees muster in a book
kept for the purpose, always open to the
inspection of the Committee.

I have the honor to be

John Hamier Esq.
Military Secretary

Sir,

From the Military Paymaster General on the arrival of the Company lately received relating to Charges on account of Things Troops serving in India — proposing that a Committee be appointed to carry those Orders into Execution —

I was honored with the Commands of the Honble Board in your letter of the 2d Instant, which was accompanied by Several Papers & extracts of letters from the Court of Directors upon which the Board have directed, that I should make a report without delay — in consequence I have the honor to inform you that the Statement of advances made at this Presidency to the Things Paymaster General on account of the Troops serving on the Coast, has been regularly

transmitted

Fort S. George 14th August 1787.

Transmitted by every Dispatch, to the Court of Directors, since their former order to that purpose were received - That since the period, when Mr. Burke began to pay the whole of the allowances to these Troops, both Kings Subsistance, & the allowances made them by the Company (which was on the 1st May 1786) the Sums advanced them, have been paid on his receipts & been disbursed by them, without any interference on my part, nor has any account of Disbursements been sent by them into this Office - The account of what has been paid to each Regiment as required by the Honble Court of Directors, cannot be furnished from this Office, as no account of those disbursements has been transmitted to me - Mr. Burke can alone furnish this Account. -

As it appears to be the wish of the Honble Court that the amount of the extra allowances to each Regiment should be brought to account distinctly in future, it may appear right & proper, by your Honble Board, to give directions to his Majesty's Paymaster General, to observe this mode in his Accounts of disbursements of extra allowances, & that the Charges General, & extraordinary of each Regiment, as well as the Batta to officers commanding & others, be brought under a seperate head of those Charges for each Corps. Viz. Charges General to the 19th Regiment Dragoons &c 7th Regiment 2d Batta 19th Regt

Dragoons

Fort St George 14th August 1787.

Dragoons Batta 71st Regiment Do. That I may be
permitted to raise three Heads on the Books for the
entry of them whereby shall transmit his accounts
to this Office - this will very much facilitate the
drawing out these accounts in future.

The amount of extraordinaries to the Troops
prior to the 1st May 1786 when Mr Burke began
to pay it, was always issued by the Company's
Paymasters, & introduced into their monthly accounts
in the same manner, & blended with the same
allowances to the Company's own officers, under
general Heads of Charges General, extraordinary's
& Batta to Europeans under which Heads, they
have uniformly been carried in the Paymaster
General's Books, ever since the first arrival of
any part of his Majesty's Troops on the Coast in
1779 no orders whatever having been given
to keep those Charges seperate, as was the case
with the Subsistence, Gratuity, & Hospital Charges
& therefore much fear that the account required
by the Honble Court, cannot without the greatest
difficulty be obtained from the Books - for the other
that is past the names of Troops & Company's
Officers, are so intermixed, that it would require
the nicest information of the names of His
Majesty's Officers who have served during that
time, & the closest attention, to separate the same
from

5 Port S.t George 14.th August 1787.

From the Above-mentioned I think it can possibly be done but by the most unremitted assiduity for a long Tract of time - I do not know how it will be possible for the Paymaster, or any other Person to ascertain from the Books or Vouchers, which is all the information that he has on the Subject the amounts paid to different officers on India for brevet Rank, which is required to be stated - as the Paymaster does not know, the real Regimental rank an officer holds, nor does the vouchers for his allowances in the Books specify it, or give any intimation for his guidance - without such Lights can be thrown on the Subject, by Returns for the period that is past, I am of Opinion that this part of the order will be impossible to be complied with - The anxiety that Government have repeatedly expressed to have the Books of this Office (in which are included all the accounts of the late War) brought up, has comprised one with the necessity of paying every possible attention to that object, as of the first importance; I have in consequence been unremitting in my endeavours to meet the wishes of Government on this head - I have turned the whole attention of the Servants in the Office to this one point - the voluminous books 34/35 have given us much trouble, & we have for some time endeavoured in vain to

Fort S. George 14th August 1797

to correct a trifling error of P.S.— in the balancing
them. when we shall be so fortunate, as to
balance them completely, the two years subsequent,
which will also be very long, will require
immediate & constant attention & exertions of every
person employed to bring them up — I have
taken the liberty to mention the employment
we are at present upon, & to observe, that I must,
to compleat the statements required from
home immediately employ every person
in the Office that is now busy in bringing up
the Books, on these Statements, which after all,
cannot be finally concluded until the Books
themselves are brought up — The Books from which
the information can only be obtained must remain
unfinished — & the earnest wish of Government
myself be frustrated, as it will be impossible
to attend to both these businesses at one & the
same time — If I might be permitted to suggest
to the Honble Board, a mode to comply with
the orders from home, & at the same time to
proceed in the so much desired pursuit of
balancing the Books, I would recommend that
a Committee, such as Government may
judge sufficient might be nominated for the
fulfilling the directions of the Honble Court
to whom the Books from 79 to May 84 together
with such vouchers as they might require

shall

should be delivered, & those subsequent as they are finished, & that they be directed to examine them & ascertain the charges extraordinary to the Kings Troops from those of the Company, & report the same to the Honble Board in as full a manner as possible — Thus the important objects of the Court would be attained & the no less important one of Government here, receive the same constant attention now paid to it, & which it requires, I beg the Board will pardon this suggestion, & believe that it proceeds from my anxiety to have their directions speedily & fully complied with. —

I am to request that you will inform me if the advanced rate of Passage money to Officers in his Majestys Service is to be paid from this time, & whether it is the pleasure of the Board that the same allowance shall be made to the Company's Officers also, as by G.O. 21 January last they were directed to be put on the same footing with respect to passage money. —

I have the honor to enclose an Abstract of Five hundred & Twenty Nine Horses purchased from the 12th August 1786 to the 30th June 1787 with an Account upon honor of my Receipts and Disbursements for that time—particular accounts of the Prime cost of the Horses, the Duties, Extra, Charges & Feeding &c. N.1.2.3 & 4 are also enclosed—The Prime Cost Duties & Extra Charges of each Horse is nearly Star Pagodas 76½ with their Feeding on an average, for about Two Months and a half they Cost when delivered to the Cavalry about Eighty Nine Star Pagodas and two Thirds of a Pagoda /89 2/3 each Horse.

Lieutenant Sheriff purchased Eighty Nine Horses last Month at Dachapilly on the Palnaud, which I expect will prove a good Station for that purpose—from the best information I have been able to procure by a Journey

Having delivered in his Accounts upon Honor it is agreed that they be passed, & that the Vouchers be sent to the Military Paymaster General's Office.-

Read the following Letter from Mr. Cathcart, Paymaster at Palamcotah, with the Enclosures entered in P. C. No. 58, 59, 60, 61.-

To the Honble
Sir Archibald Campbell K. B.
President and Governor in Council at
Fort St. George

Honble Sir and Sirs,

I have received your Secretary's Letter enclosing Copy of one from Brigadier General Horne to the Commander in Chief together with a Representation by Captain Lewin, of Circumstances exhibited as a Complaint against me in my Capacity of agent to the Detachment lately Commanded by Major Macleod, and requiring my reply thereto.

By the abovementioned Letter from General Horne it appears that I am charged by Major Macleod with refusing, as agent, to comply with his orders - it further appears that a Representation had already been addressed to Government on the same Subject - being ignorant of the Points stated in the first Instance I feel myself compelled to enter

From Mr. Cathcart in Reply to the Complaint exhibited against him by Captain Lewin in his Capacity of Agent to the Detachment lately under the Command of Major Macleod.-

Fort St. George 14th August 1787.

enter into a Minute Recital in order that no Article of Charge against me may remain unreplied to

How far I may have refused to obey Major Macleod's Orders will be seen in the Course of my Narrative, I will here only observe, and I willingly rest on the Proof my Cause to a justification of my Conduct That in those Instances I was acting in Obedience to higher Authority — in Obedience to the Regulations of the Service.

With regard to Capt. Oliver's Complaint I can safely assert however extraordinary it appear, that every article of it is a Point of Accusation against himself, and were I to account for his venturing on the Subject, I should be at a loss for any other reason than that he thought it probable I might be induced to represent it to Government and that in a bad Cause it was as well not to lose the supposed Advantage of being the First to complain.—

Supported as now by a perfect Reliance on the Impartiality of your Noble Board and that Kind of Testimony which fortifies against all accusation, I enter on a Reply to these Complaints without other Fear than that of taxing your Patience too severely, but it is necessary to shew the Rise and Extent of the Opposition I met with in my Endeavours to maintain against severely

Fort St. George 14th August 1784

against Encroachment a standing Regulation of the Service - The Regulation I allude to directs that for the more effectually ensuring to the European Troops on the Field, a proper and wholesome Subsistence on which their Health must chiefly depend, each Man shall receive daily a certain quantity of Rice, Mutton Arrack, Salt and Firewood to be furnished by an agent of Supply who is allowed for that Purpose 3 Fanams 20 Cash per Man per Day. - It is in a particular Manner the duty of the Commanding Officer to afford every necessary Assistance to the agent to enable him to carry into effect so salutary a Regulation - he is the natural Guardian of the Rights of the Men under his Command, and if his immediate Province is attended to and redress, as far as may be, any Grievance they have to complain of, from whatever Cause it originate.

Such is the substance of what but a few years since might have been declared the invariable Practice of the Service - by degrees however the Observance of this Regulation has, through the Suspicions of those who should have better preserved the Soldiers' Rights and their own, been frequently dispensed with - each bold Step of deviation has been succeeded by another still more daring

Till

Fort St. George 14th August 1787.—

and at this Hour it Furnishes, Cause of Displeasure from the Commanding Officer not to leave this Man to provide for themselves in the Bazar - every Barrier against Oppression is thus broken down and at the same Time that the European Troops are exposed to the Licentiousness it was the bounden Duty of Government to guard against they are at the Mercy of those against whom it can scarcely be said there lies any Appeal! —

On the Approach of the Detachment under Major Macleod towards Coilpettah I dispatched thether a Supply of Arrack with other articles of Provision pointed out by the Regulations for victualling Europeans in the Field, and Granted an order from the Phouzdar to the Manegar of Coilpettah to Furnish what Supplys I might want — the Detachment arrived there, and my Servants had victualled them in full on the first Day and had almost completed the Issues of victualling on the second day when Major Macleod told them as they informed me by Letter that Mr. Palk the Paymaster of Trichinopoly was to Furnish Provisions and that I was only to provide Arrack. —

It was so contrary to Rule and Usage so absurd to suppose the duties of victualling were to be landed that I should have presumed it a mistake had not the Letter

489 Fort St. George 14th August 1787 —

Letter from my Servants in Camp contained some
corroborating Circumstances which were more
fully explained on their Return two days after-
wards as appears by their Report which
I have the honor to enclose.

8th March — — — Enemy Letter to Major Macleod however
I confined myself to the Council of my Servants
having informed me he had told them Mr.
Falk was to furnish Provisions — I observed
to them "that if they were correct in their
"Representation I must consider myself
"entirely relieved from responsibility on the
"Score of victualling the Europeans & Sepoys
"them / in consequence of an application
"he made for Arrack previously to his
"Arrival at Coilpettah / that having no
"Arrack in public Store I could not in
"future comply with any Indent from him
"for that Article — perfectly disposed however
"to facilitate the business of victualling the
"Europeans, I assured Major Macleod that if
"Mr Falk, as Agent, should desire me to
"purchase Arrack and send to Coilpettah or
"if he was pleased to do it in Mr Falk's name,
"or in his own, I should send him a Supply
"with the utmost readiness."

11th March — Major Macleod informed me in
answer "that he had written for a Supply of
"Arrack in the Supposition that the Arrack
"Agent had a Stock at Palamcotah — that any
"People who went with the Arracks had
"Seized without his Knowledge on the Stock
that

Fort St. George 14th August 1787.-

"that were brought along with the Detachment, which being complained
"of he directed the Sheep to be returned - that
"on the following Day it was reported to him
"that they had gone off without saying
"a word to him on the Subject and without
"delivering the Arrack to the Charge of any
"Person."-

No Notice was taken by Major Macleod
of that part of my letter mentioning that my
Servants had reported his having paid Mr Palk
was to furnish Provisions, it may therefore be
fairly inferred that he did tell them so, and
to a Person not minutely informed it would
appear that Mr Palk had victualled the
Europeans from Trichinopoly to Coilpettah
and that the Point contended for, was that
Had no Right to prevent his continuing to
act as Agent, but when it is known that
Mr Palk did not victual the Detachment
from Trichinopoly, which he ought to have
done, it cannot admit of Doubt who would
have suspected the Provisions had ceased
to furnish, simply the Article of Arrack -
For an answer to Major Macleods Charge
against my Servants of their having seized
some Sheep &c. they have again to refer
you to their Report enclosed. -

By the said Report it appears that
the Europeans were victualled the first day
agreeably

Fort St. George 14th August 1787.

agreeably to the Rules of the Service and that Arrack and most of the articles of Provision were delivered on the Second day when Major Macleod thought proper to forbid my Servants issuing Provisions in future saying that they were only to furnish Arrack – his signing Separate Bills for each of the three days they had supplied Arrack, requiring that the regular victualling Bills which had been delivered on the two first days should be given back – and his order to the Butchers to return the Sheep and Mutton to my Servants and to bill an additional number for the Bugan, whose Functionaries were in future to provide themselves, must evince how little Regard was paid to the Regulations of the Service – to what a Situation is the agent reduced if after putting himself to the Expence of hiring Servants and collecting the articles of Victualling he can be told by a Commanding Officer that he is to furnish Arrack alone, that provisions are not wanted, and that his Servants shall be punished and turned out of Camp if they presume to disobey his Orders.

However reasonable this proposal may have appeared to Major Macleod I viewed the matter very differently and inferred an embroglio Influence when the Soldier could obtain through any other Channel what the public Agent could not provide for him—I agree perfectly with Major Macleod that had I withdrawn my Servants and yielded the Company's System to his wishes there would have been no further Trouble in victualling, for he would have ordered a sufficient Number of Sheep to be carried to the Bazar, and when I ascertained were those Sheep out of the Reach of the public Agent—why must I then screening the Company's Orders which ought to be the first Object, and if possible Superior to difficulty, I be subservient to

to any other Consideration?

The Earnestness with which I had been disposed in executing the duties of agents only fixed my determination the more & strongly not to retire a Step from the Line of my Privilege and my duty — This seems not to have been altogether foreseen by Major Macleod who was so far confident of the Proposition not being rejected that he told my Servants, on his applying to them the same day for a few Sheep to assist in getting Sheep, that there was no occasion, as he had informed me that the Europeans wished to be paid in money instead of being victualled and that they would provide for themselves in the Bazar — It appears the Europeans were told to go to the Bazar for what they wanted, and that they would receive their Dry Batta at the end of the Month — they accordingly discontinued from that day applying, as usual, for Arrack and Provisions notwithstanding the Dubdar, had in consequence of positive orders from the Shroyder actually furnished one by this time with the 6 Sheep which were ready to issue to the Europeans as occasion required. —

Although my Servant was sensible of the Impropriety of admitting Indents differing so materially as Vouchers for the same Charge yet fearful of refusing to issue Provisions on these Indents until I should hear from Fort St George order he did not object to Comply with them, excepting in the particular of paying Money instead of Arrack which was indented for by the 74th Batt.n having in any general Instructions ordered him not to pay Arrack at any period when the Articles of victualling were ready to be issued

In the manner above particularized the Indents were made out from the 30th April to the 4th May inclusive, and the victualling was supplied in consequence yet the Deficiency of both Battalions is supplied regularly

regularly every day for money for the Arrack.-

Early in the morning of the 5th my Servant received an answer from me repeating Capt. Oliver's Compliant from the 5th to the 8th of May no Arrack or Provisions has been issued.- that he was on no Account to pay any Cutta to the Drummers instead of Arrack- the Drummers applied the same morning for their Provisions and on hearing of it were told for money for Arrack they were told that I had forbidden the Payment of any Cutta they said if that was the case they would not receive their Provisions any longer and went away without their victualling- my Servant waited on Major Macleod to inform him of this he replied "any Servant might do as he pleased" and said no more- Presently afterwards Captain Olivier told my Servant in presence of Major Macleod that if he did not pay money to the Drummers instead of Arrack they should not take their Provisions, and in that case that he would pay them in money their allowance for victualling and write to the Board concerning it, telling him that he might inform me of what he said.-

The decided Manner in which Captain Olivier had said the Drummers should not receive their Provisions accounted for their refusal the day before, but it seems that Major Macleod did not approve of it, for the next

505 Fort S. George 14th August 1787.

next day he ordered that no demand should be made by the Drummers of either of the Battalions for Money — as that the Demand for Payment in money for arrack to the Dewanson of the 7th Batt. was omitted and the Indents of the two Battalions now agreed as appeared on their being presented the next Morning at which time the Serjeants received their Arrack and Provisions, and the Drummers their Rations for the 5th & 7th. They received their Victualling as the same manner on the day following.

4th May.

The Board will judge whether it was Captain Olivers Intention that no Arrack or Provisions had been issued from the 5th to the 7th.

It might surely have been expected that Captain Oliver would at least have reprimanded his Drummers for refusing to receive their Provisions as per Indent made out in consequence of Major Macleod's order. That no Drams should be drawn for, and by which Indent they had been served with Provisions since the 30th of the preceding month instead of which, Captain Oliver not only countenanced their Refusal but declared, as before stated, that they should not receive Provisions unless they were paid in money in lieu of Arrack, although Captain Oliver's Indent did not mention either Arrack or money — this

regularly every day for money for the Arrack.-

Early in the morning of the 5th my Servant received an answer from me respecting

Capt. Oliver's Complaint from the 5th to the 8th of May no Arrack or Provisions had been issued.-

that he was on no account to pay any Batta to the Drummers instead of Arrack.- The Drummers applied the same morning for their Provisions and as usual for money for Arrack. were told that I had forbidden the Payment of any Batta they said if that was the case they would not receive their Provisions any longer and went away without their victualling.- my Servant waited on Major Macleod to inform him of this he replied "my Servant might do as he pleased" and said no more- Presently afterwards Captain Oliver told my Servant in presence of Major Macleod that if he did not pay money to the Drummers instead of Arrack they should not take their Provisions, and in that case that he would pay them in money their allowance for victualling and write to the Board concerning it, telling him he might inform me of what he said.-

The decided Manner in which Captain Oliver had said the Drummers should not receive their Provisions accounted for their refusal the day before, but it seems that Major Macleod did not approve of it, for the next

Dominion of the 7.th Batt.n was omitted and the
Indents of the two Battalions now agreed

Morning at which time the Serjeants received
their Arrack and Provisions, and the Drummers
their Provisions for the 5.th & 6.th — They received
their victualling in the same manner on
8.th May. the day following.

The Board will judge whether
it was Captain Rivers' Intention that
no Arrack or Provisions had been issued
from the 5.th to the 7.th.

Dissatisfaction

Fort St George 14th August 1787.—

Dissatisfaction therefore had no better Ground than that I refused to give what he had not indented for— This Circumstance clears up what must before appear very unaccountable that the same order from Major Maclean should produce Indents so essentially different from each other— my Servant appears to have been aware that had he paid for arrack according to Lieut Ortons Indent the 17th Batt. though not indenting for money must in like manner have received it— on the other hand he had refused to issue Victualling, as he might naturally have done, unless the Indents for both Battalions were made out alike, he apprehended he might lay open to a Complaint from Captain Olivier that although no punishment of the Dessenters no demand had been made either for Arrack or money still that he would not issue Provisions alone— perplexed by this circumstance made of drawing for including my Servant complied with Captain Oliviers Indent thinking if he erred in so doing it was on the side of safety and that I might remedy it afterwards— but when Captain Olivier understood that I had ordered my Servant not to pay Money for Arrack indented for by Lieutenant Orton, his Patience appears to have deserted him, and to make amends for having apparently neglected the Interests of the Company Dessenters

in not avowing in his Indent their Claim to money instead of Arrack. now became on their Advocate and declared he would therewith pay the money out of his own Pocket and write to the Board – Money was not paid instead of Arrack yet I have not heard that he did either the one or the other.

Capt. Oliver's Complaint

"on the 5. The Comaspby in charge of the agent Victuallers Department reported that he had received order from the Hon. Court Payments of Balances to be made to the Indents on the Dowans were drawn for the whole of the Drawers."

Captain Oliver is under a great mistake in this assertion and in proof of it I will quote his own words "on the 8. I received his another mistake it was on the 7th. The "Comaspby paid up the arrears of Provisions "Exactly to the Indents" – how could my Comaspby have paid up those arrears and victualled as he did the day following / 8th / under order such as Captain Oliver is pleased to say my Comaspby declared he had received? I will now explain what were the order I sent to my Servant.

The Letter he received from me on the 5th directed him not to pay money instead either of Arrack or Provisions whilst the several articles of Victualling were ready in Camp. –

The Letter he received from me on the 8th directed him not to victual upon Indents that were not made out for Arrack and Provisions agreeably to the Regulations of the Service

Thought not indenting for money must in like manner have received it— on the other hand he had refused to issue Victualling, as he might naturally have done, unless the Indents for both Battalions were made out alike, he appre-hended he might lay open to a Complaint from Captain Oliver that although in punishment of the Dessenters no demand had been made either for Arrack or money still that he would not issue Provisions alone— perplexed by this circumstance made of drawing for not finding my Servant complied with Captain Oliver's Indent thinking if he erred in so doing it was on the side of Safety and that I might remedy it afterwards— but when Captain Oliver under-stood I had ordered my Servant not to pay Money for Arrack indented for by Lieutenant Orton, his Patience appears to have deserted him, and to make amends for seeming apparently neglected the Interests of the Detachment

Capt. Oliver's Complaint "on the 5. The Comsply in charge of the agent Victuallers Department reported that he had received orders from the Hon.ble Court Payments of Balances for the under whom he acted not to comply with the requisitions to Indents for Spirituous Liquors drawn for the whole of the Government."

Captain Oliver is under a great Mistake in this assertion and in proof of it I will quote his own words "on the 8.th here is another mistake it was on the 7.th The Comsply paid off the arrears of Provisions "&c.a agreeably to the Indents" — how could my Comsply have paid off those arrears and victuallers as Indeed the day following 18th under orders such as Captain Oliver is pleased to say my Comsply declared he had received? I will now explain what were the order I sent to my Servant.

The Letter he received from me on the 5.th directed him not to pay money instead either of Arrack or Provisions whilst the several articles of Victualling were ready in Camp. —

Service— observing that if the Commanding Officer thought proper on any occasion to stop the Drams he might order the disposal of them as he pleased— that the Company's allowance of Arrack and provisions to the Serjeant in the field was specific— so was the allowance to the Agents for victualling, and that the Indents which were the vouchers for the Charge in my accounts should be invariably the same.—

next

The next morning 19.th May the Serjeants and Drummers applied for victualling which my Servant told them he could not supply as the Indents were properly made out— they being reported to Major Macleod he sent for them and enquired the reason that the victualling was not supplied— my Servant explained it by informing him of the order he had received from me— the Serjeants on any Refusal was thought sufficient and no Indents for either of the Battalions were afterwards presented for Victualling.—

Capt. Oliver's Complaint

Dr Reay reports some Dogs the principle Provider of Bullocks which he used he has moved from Mr Ogilvie informing him not to supply with any Indent for Arrack and Provision only for any more to any for the whole of the Drummers."

The Indents for the artillery alone continued to be made out regularly to Noon and they were victualled regularly to the Day the Detachment marched back towards Fredericksburg— this Supervisor will be held

a sufficient Refutation of the Charge produced by Captain Oliver who if he did not know at the time must have known afterwards that the Artillery continued to be victualled—it was evident therefore that my Servants were not rightly understood in concurring they had said they were enjoined not to comply with any Indents for Arrack and Provisions unless Drams were drawn for the whole of the Drummers—for under this Injunction my Servants could not have victualled the Artillery afterwards, nor would the Sergeants have had to represent to my Servant that Capt.n Oliver refused to sign Indents for them Separately.—

I will pass over the Difficulty of reconciling to common Ideas and Reasoning that as the Drummers had forfeited their Arrack they were therefore entitled to money in lieu of it, and go so far as to admit that if the Agent would not supply all they had a right to, that they should not take it in part, and a Representation to Government, in consequence, would be the natural Alternative—yet admitting all this, I may venture to say that had it been wished that the Europeans should be victualled according to the Regulations, or, to speak more Scripturally, had not a Pretext to prevent it been eagerly sought after; the Sergeants could not have been deprived of their victualling merely because they had usually been included

Fort St. George 14th August 1787.—

in the same Indent with the Drummers but have been drawn for separately—it would have been said "whilst the Sergeants—their "Indent is for arrack and Provisions"—but this did not answer the purpose, and the Sergeants reported to my Servants that Captain Oliver objected to indent for them separately—

notwithstanding which Captain Oliver has preferred as a Charge against me that from the 2d May no Provisions were issued to the Sergeants and Drummers of his Battalion by me or any person acting under me—a Charge the more unaccountable when it has been shewn that had it rested with Captain Oliver he would have prevented his Sergeants and Drummers receiving any portion victualling even from the 5th May.—

Capt. Oliver's Complaint from the 2d May provisions ordered to the Sergeants and Drummers of my Battn. by Mr. Oakes or any Person acting under them.—

The Intention of Major Macleod's order, forbidding Arrack being issued to the Drummers, was not only, as conceive to prevent the Artillery Men having supplied with an additional quantity of Liquor, but as a Punishment also to the Drummers for selling their Arrack to the Artillery Men, and thereby occasioning Drunkenness among them—yet if they sold their Allowance of good Batavia Arrack in order to get money, most probably to purchase

Paniar Spirit it would to them be an Indulgence instead of Punishment to allow them Draining for money in lieu of Arrack, but without going farther to shew the Inconsistency of giving money to the Drummers or to say what is the proper mode of preventing the Sale of Liquor, I shall take the Liberty to state what I conceive to be the Footing of an agent under the Company's Regulations.

I conceive it to be the Duty of the Agent to victual all Non Commissioned and Private Europeans in Camp with the Rations and quantity of Arack, stipulated by the Contract, which allows them, for three purposes, 3 Tanams 24 Park p.r Man p.r Day - should the Commanding Officer think proper at any time to stop the Drams it is to be presumed they have been forfeited by misconduct, & he may order the Disposal of them as he thinks most proper, but whether the allowance of Arrack be taken up or not the agents Charge of 2. 32. 20 Cash p.r Man p.r Day is invariable - should it happen he is deficient in any article it is highly proper he make it good in Money, and in such case of deficiency the Agent should be obliged to Account for it in a Satisfactory manner, otherwise there would be an Opening for neglect in

providing

providing those articles upon which little or no Profit could arise—but by preserving their Defficiency or that the Drams are stopped, and not taken up, such contingencies cannot affect the Contract—the Indents must express Arrack and Provisions as the former vouchers for the Charge of 2. 2as Cash pr. Man pr. Day.— The quantity of the different articles of victualling allowed by the Company, is very ample, and as much or more than the healthiest man can consume in a Day—many are satisfied with half the quantity yet it does not consist with the nature of a Contract for providing each man with a certain quantity at a certain Rate that any one shall have a Claim to money in lieu of such articles as he may say he does not want—if a victualling Indent can be altered at all, a Commanding officer might with as little Impropriety draw for Arrack without Provisions, as Provisions without Arrack under such a Latitude what would become of the Companys System of victualling, and where the possible Compensation to the Agent for the expence and trouble in collecting the articles stipulated by the Contract.— I am sorry— I conceive that a Commanding officer has no more Right to indent for money in lieu of Arrack or any other article of Provision for his Men than to say the Company have no Right to contract for victualling

victualling their Soldiery in the Field.—

With these Ideas I could not but view the Conduct of Major Macleod and Captain Oliver as totally unwarranted by the Principles of the Service.

The whole Subject is now before your Honble Board—I have already detained you too long to allow myself to dwell on the most irksome Situation of an Agent when liable, from any Cause, to be harrassed and obstructed in the discharge of his Duty.—

a correct Statement of the Claims of those whose Houses were demolished on Hog Hill, with the particulars of the Arrangement made in consequence in the year 1780.

We have the honor to lay before you an Extract from our proceedings of the 22d August 1783 when we investigated this Subject, together with papers No. 1 to 6 inclusive, relative to it, & refer to in those proceedings - the extract and papers were sent, by us at that time to the Select Committee but not having been brought forward during Lord Macartney's Government had been mislaid in the Military Secretary's Office until lately enquired after.

Committee of Works.

Fort St George
7th Dec. 1786.

Extract from the Minutes of the Committee of Works Dated the 22d August 1783.

Sentiments of the Committee of Works on the Claims of the late Inhabitants of Hog Hill.

Conformably to the direction of the Right Honble the President and Select Committee. This Committee take into consideration from the several Petitions and representations of the inhabitants lately holding property on Hog Hill and having at several Committees taken

520 Fort St. George 17th August 1787.

Taken the Subject fully into consideration it appears to them that for the year 1780 the President and Select Committee in order to compensate all such as might sustain a Loss in their property by levelling the Houses and Grounds on Hog Hill - Agreed to procure for each possessor a quantity of Ground in proportion to the measurement of that relinquished, and grant Bills of Sale for the same on the property being duly proved: That an allowance should be made them of 40 ₱ Cent on a valuation which had some time before been affixed to each house by Messrs Maxwell and Stringer, with which valuation the Inhabitants were satisfied and agreed to abide by it; and further that one fourth part of the 40 ₱ Cent being 10 ₱ Cent on the whole valuation should be paid in ready money at the time, and the remaining 30 ₱ Cent should be paid by Company's Bonds becoming due one year after date with 8 ₱ Cent ₱ Annum Interest.

It also appears to the Committee that some purchases of Ground were made by the President and Select Committee to compensate the Inhabitants; that this purchased Ground with such of the Company's

on

Fort St. George 17th August 1787.

on the several parts of the Black Town as
remained unoccupied were allotted to the
inhabitants as far as they would suffice,
that the Ground thus disposed of amounted
to 362 Lots, and that the quantity there required
to make good all agreements on the Score
of Ground was 274 Lots.

Upon all which Premises this
Committee find there yet remains unper-
formed on the part of the Company.-

1st The entire payment of the 40 p.Cent
on the valuation of Houses.

2d The supplying 270 Lots of Ground
to those inhabitants who have yet received
none.-

3d Making Payment to the several
Owners of Grounds purchased in the year 1781.-

The Right Honble the President
and Select Committee will perceive on an
inspection of Mr. Maxwell's Book accompanying
that many of the Sums due are so small
that to grant Bonds or Obligations for them
would become at once both Trifling and
tedious.- I therefore to compass the
matter as much as possible they beg leave
to propose that all Sums not exceeding 50
Pagodas be paid off that all between 50 and
500

Fort St George 17th August 1787.

500 Pagodas be held due under the signature of the Secretary by order of Council, and that Bonds be granted for all such sums as shall exceed 500 Pagodas. - with respect to the ground yet unrestored to the Inhabitants the Committee request they may be empowered by the Select Committee to take Cognizance of all ground belonging to the Company in the Black Town of which no person is held without a legal Title. - The Committee of Works have great reason to suspect there is a quantity under this description, more than requisite to supply the deficiency of 274 Lots, the whole at present required. -

There will then only remain to be satisfied the owners of the Ground purchased in the year 1771 as abovementioned.

The Committee of Works submit to the Right Hon.ble the President and Select Committee the expediency of fulfilling such parts of the agreement with the Inhabitants of Hog Hill as remain yet unperformed, and they hesitate not to assure the Select Committee that the quiet and acquiescent conduct of the poor People who have in the course of the business endured much hardship and

and inconvenience merits, independant of their claims, very particular consideration.

The Committee think proper to annex to this report the following Papers.

N.o 1. Copy of Papers signed by the Inhabitants

2 & 3. Mr. Maxwells Letter and list of Houses, and Grounds with their valuation affixed

4 Letter from Mr. Maxwell Dated 14.th March 1782.

5 Letter from Mr. Maxwell Dated 21.st June 1782.

6 Copy of Mr. Davidsons Minute at a Committee held the 20.th March 1783.

The Committee finding the Subject of Mr. Swordans Letter &.c addressed to the Select Committee and referred to the Committee of Works, involved with the Subject now under discussion, have in the course thereof given it equal consideration, and estimating his claims amounting to Star Pagodas 6067.23.18. to be just and well founded, do recommend particularly on account of the length of time he has been without satisfaction on the business that it may be settled as he in his Letter proposes.

Agreed that a Copy of the foregoing Minute be laid before the Select Committee together

Ordered that the other Papers delivered in by the Committee be lodged in the Office.—

Other Papers from the Committee of Works lodged in the Office.

Having maturely considered the above Papers the Board proceed to pass the following Resolutions, that the Committee of Works be directed to grant by their Clerk a Certificate to each Claimant of what is due to him for the value of his House, which Certificate shall specify the No.s as stated in Mr. Maxwell's Book, with the Interest thereon at 8 p.C. calculated to the 1st. of the present Month.

Resolutions thereon

That towards the Satisfaction of the unsatisfied Claims for 274 Lots of Ground wanting to complete the engagement, the 140 Lots of Ground purchased from Mr Popham

be allotted

That a report be made to the Board of any other unappropriated Ground belonging to the Company in the Black Town excepting that lying along the Sea Beach, in order that the same may be appropriated, if possible, to the Purposes above stated. That

Beach

for

525 Fort St. George 17th August 1797.

For the remainder, a Certificate be given for such Sum as shall be equal to the Value of the Ground due to the unsatisfied Claimants

That Certificates made up with Interest at 8 p Cent to the 1st of the present Month be given to the Proprietors of the Ground already purchased, and disputed for which no Payment has yet taken place.—

That a report be made to Government by the Committee of Works of the Certificates granted & the arrangements made in consequence of the foregoing Resolutions.—

Besides the amount which will be due upon the above Certificates the Board find that there are other Claims upon Government for Ground taken near the Black Town Wall in the year 1777. In which it was agreed that Pags. 30. 229. 29. 4. should be paid, one half of which was liquidated — the other half amounting to Pags. 14.390. 12. 60 has not been discharged — The last mentioned Sum / for which the Committee of Works passed their notes / with Interest at 8 p Cent to the present time will amount to Pags. 27397. 38 — It is an unliquidated Claim upon Government.—

As the whole of the Claims above stated will form a very large Sum it becomes a serious Consideration in what manner it can be discharged however desirous the Board may be to attend to the Several Peoples whose Claims are before them they know not of any mode excepting the granting of Company's Bonds, which for the least weighty, would embarrass Government in the present State of their Finances & as the Interest upon the Bonded Debt must be regularly discharged – Thus situated the Board are of Opinion that the Subject should be referred to the Court of Directors, desiring that they will give their orders as to the mode of liquidating these Claims which are particularly entitled to their Protection.

Minute thereon

Resolved that the Secretary be directed to state the above Subject in the next dispatches to the Court of Directors

The whole to be stated to the Court of Directors.

Fort S.t George

Honble Sir & Sirs

We have the Honor to acknow-
=ledge the receipt of M.r Secretary Chamiers
Letters of the 7.th & 12.th Instants, the Former
Enclosing several Papers from the Committee
of Stores at Ganjam the latter a Letter from
General Horne, & an Indent for Stores
wanted to the Southward, & the Further
Consideration of which we have agreed to
Post phone till our next Meeting.

From the Committee of Stores, with Observations on the Indents from Ganjam - recommending that some Orders should be issued to Follow that the Proposition of the Commissary General of Stores for making up Carts on a new Construction, be adopted. -

The Committee of Stores at Ganjam
in their Proceedings of the 12.th July last
now before us, observe that they have sent
down anew Indent for Stores, which upon
being compared with their former Indent
of the 30.th June last, appears only to be a
Duplicate of the Former and as from that
Paragraph in your Hon.r & .rs might imagine
we had not Paid due attention to the
said Application, we think it Incumbent
on us to observe, that the first Letter from
Ganjam covering the Indent of the 30.th
June

Fort St. George 17th August 1787.—

June, would scarcely have arrived at the Presidency before this Second or as they term it the new Indent of the 12th July was dispatched. Immediately on the Receipt of the first Indent we proceeded to comply with it, and all the Stores except the Guns Carriages which could not be made in time are already shipped on board the Friendship bound to Ganjam.—

The Causes of the badness of the Gunpowder made in 1783. mentioned by Capt.n David Smith, have been repeatedly explained to Government by the late powder Maker Mr. Lockney who complained that during the War he could not procure Materials, or People to work the Stampers but nevertheless on account of the great Scarcity of, & demand for that article, he was ordered to proceed in the best manner he was able, could it be made appear that the badness of the Gunpowder proceeded from any neglect or misconduct on the part of Mr. Lockney, & he was now on the Spot to be made responsible we should doubtless concur with Captain Smith in Opinion that whatever Powder he had made which was

531 Fort St. George 14th. August 1787.-

was not fit for Service, should be immediately returned on his hands, but for the reasons above stated, we beg leave to recommend in this particular Instance that the Bad Powder be kept at Gingee, to be used only for Salutes or other common Purposes in that Garrison.-

As the four 18 Pdrs & eight Gallopers 3 Pdrs with their spare Carriages Limbers, Stores &c. now at Arcot are useless at that place, we take the liberty of proposing that they should be removed to Vellore.

At our last Meeting the Commissary General of Stores delivered in an Indent for 100 Carts for Stores & Grain, & 50 Carts for Arrack, if they were made with a Crane Neck for a single Yoke we think they would be infinitely more serviceable as the Lashing of the others frequently breaks, & as the additional expence will be only half a Pagoda each Cart, we beg leave to recommend that this alteration shall take place. We have the honor to be.

Extract of a Letter from the Military Paymaster General to the Right Honble the Governor General in Council
Dated 15th July 1797.

My Lord

I beg leave to lay before you Copies of a Letter of the 22d Instant from Colonel Pearce Commanding my Officer of the late Madras Establishment with two Enclosures & of a Letter from the Administrators to the Estate of the late Lieut Colonel Lamb of the 10th regarding the Balances that appear

541 Fort St. George 21st. August 1787.

Appears against those officers on the Military Books on account of Sums advanced by the Paymasters of their Detachments to defray the Contingent expences of them.

I am your Lordships Further Information on the Subject of Colonel Pearce's Letter & Hereth it necessary to observe that all the Contingent Bills of his Detachment that were transmitted to the Office have been lately allowed in full notwithstanding which a Balance remained on our Books unaccounted for of Current Rupees 66527. 12. 11. on reference to the Account Colonel Pearce alludes to, it appears that this difference arises from the following Causes. First from an advance made by him to Mr. Lurin Paymaster at Nellore in the month of June 1781 of A R. 20,000 or C R 21600 for which having no vouchers, or even any Information of this Transaction until the receipt of the Copies of Colonel Pearces Accounts, he has got no Credit for it. Permit me to request that your Lordships will be pleased to direct application to be made to the Government at Madras this

Fort St. George 21 August 1784.

Madras to know whether their Sum has been brought to Credit by Mr. Swan, that if it has, it may be placed to the Debit of that Presidency, & Col. Pearse credited for the amount accordingly. The next is an entry of the amount of Sundry Bills forming Part of the Contingencies for the month of July 1781 & making the Sum of Rs. 10,351. 13. 9 on Current Rs. 43580. None of the vouchers for which have been received in this office Nos. 164 for a Rs. 930 & No. 140 for 675 as explained in Col. Pearse's Letter, and No. 146. & 147 for a Rs. 31,607 as mentioned in his Letter of 14th August 1781 compose Part of this Sum, the latter being a continuation of the expence incurred by Captain Gillespie for the feeding of Bullocks & pay to Extra Drivers for the Month of July, I presume will be immediately allowed him. Similar Charges for the preceding months having been passed in full, what the remaining Sum of Rs. 7139. 13. 9. is composed of, I cannot trace from the Colonels' Accounts. The Balance that will remain against them, should these

Sir

I have been favoured with your letter of the 5th Instant.

In answer to it I can only say that I do not owe the Company a Rupee. I beg leave to refer you to the Copies of Accounts which I send before you, you will there find that I have paid away every Sum of money that I received. I now send to you a Copy of a letter of the 17th August 1786 which I sent to the Supreme Council from Ponnamalee in which all the Bills are mentioned & accounted for.

This Letter conveyed Copies of my last Accounts, & a Copy of my Account with the Madras Government,

or rather an account current drawn up by me between Bengal & Madras for all the Sums that had passed thro' my hands or been advanced by Madras for the troops of the Bengal Establishment Serving under my Command. —

I therefore request that as the vouchers cannot be produced by me, credit may be given for the Sums charged in my Accounts, they are only Continuations of expences that were approved and were inevitable, and for the Payment of the two Lascar Battalions then serving under my Command, and in want of Pay to enable them to proceed. The Bill No. 144 for 93 Mahratta Deserters was for keeping away those People who had come over by agreement and would have gone down to our Service the irregular Cavalry, but that I thought it safer to keep them away than to carry on with Men in whose Fidelity I could not rely on, as

as they has forfeited Claim to Reliance by desertion and who might possibly have been sent to me to watch my Motions and to give notice of them. and the Bills for Saddles Rs. 120. Was sent to me from Madras to be paid on delivery of the things.

When those Sums are brought to my Credit this very old Account will vanish, & I hope to be furnished by you with Certificate in form to shew that I have settled all Accounts with you for the Sums entrusted to me for the Troops I commanded on the Coast in 1781.

Honble Sir & Sirs

I have the honour to send you my Accounts to the present time.-

I ought to have apprized you some time ago that I had given a Bill in favour of Mohun Sing of the 25th Regt. for money paid into the Treasury intended as a Remittance for the whole Battalion; it was for 1074 Arcot Rupees, and is mentioned in this Account. No. 20 dated 24th July at ten days, No. 22. 23. 24. 25 & 26 are also at ten Days, No. 21 at fifteen Days &

27 at Twenty Days.-

I accompany this by an Account given to Lord Macartney to inform him how much our Establishment has received from them; you will see that I have there charged Lieut Gillespies Bills No. 63 & 72 at the prospective Rates & in the Account with your Honble Board, and in the Contingencies of the Madras Army I have charged the Difference paid to him, & beg that the Erroneous Bills may be returned to me to prevent Mistakes which might possibly happen.-

By Mistake I have sent the Pay Masters' Receipts of the 12th July, 6th and 8th of August to Madras. I have written to Lord Macartney to beg he will order my Packet to be put into Cover with the above Receipts, but as it is possible they may not be forwarded to you, I think it necessary to mention the circumstance. We were under March in fact when I sent the Account to Lord Macartney, & this is the only excuse I can make for the Blunder

549 Fort St. George 25th August 1784.

Blunder if it should turn out one, by your not getting those Receipts.

In the Account between the two Establishments, there is a Sum of money received from Lord Macartney, which does not appear in my Account with the Honble Board, the reason is that Mr. Morse gave the receipt which was sent to Madras, and that I never did give any receipt for it consequently tho' it was necessary to take it into the Account between the two establishments I had nothing to do with it in my own Accounts.—

The Bills Nos 146 and 147 were sent to Madras, and thither I presume ultimately the others will go, as were the Bills 140 & 144, consequently I have nothing to shew to you for these expences, but they appear in the Account between the two Establishments & were the necessary Vouchers.—

I am with the greatest Respect.—

Berkley Square
January 8th 1787

Gentlemen

On Receipt of your Letter dated the 5th of April, I had the honor, immediately to assure you of the Satisfaction I should feel in explaining the particulars concerning which you desired to be informed — at the same time I mentioned my intention of submitting to your Honble Court a narrative of my proceedings in Command of the Southern Forces; in order that the transactions

in

Fort St George 25th August 1787.

in which I was engaged under your Government might be brought forward in one connected view, and that the operations of the army with which I served, might become more generally and distinctly known.—

I afterwards communicated to your Secretary Mr Morton, the circumstances which have occasioned a delay in presenting the Statement in question, and with the same views that dictated my former intimation I now take the liberty of laying before you, duplicate of a letter addressed to Lord Macartney, and the Select Committee of Fort St George, containing the narrative to which I have alluded. It was my intention to have delivered that letter to the Board of Madras before my departure from India. Unavoidable expences however, and severe illness having prevented me from fulfilling my intentions, I left it at the Cape of Good Hope to be dispatched from thence. But I have been informed by Lord Macartney, that no such letter had reached the Presidency while he remained.

Therefore request that the Papers now

Fort St. George 21st. August 1784.

now transmitted to your Honorable Court, may I am a number in your Port Packet to Fort St. George, in order to be entered on the Records of that Settlement, and I shall be extremely indebted if you confer the favor on me, to forward a duplicate to the Supreme Board in Bengal.

The Narrative we question describes the exhausted condition of your Southern Provinces, when I was appointed to command on that Station. It relates the measures that were adopted to protect those valuable possessions from the powerful bodies of the enemy by whom they had been over run, as well as from the numerous Polygars, Colleries and other revolted subjects, who ravaged the whole Country.

It also enumerates the means, by which confidence, and discipline were restored among starving and defeated troops, by which an army, twelve months in arrears, destitute of Stores, Magazines, and money, was supported in extensive operations, at the very time when it was declared to be incapable of continuing in the field.

The details of Arrangements are likewise specified, by which that army was enabled to

Fort S.t George 21.st August 1787.-

to move twice half across and twice entirely
across the Peninsula, in a range of nearly
three thousand miles in less than eighteen
months, to reduce many important Forts
by breach or Storm, and to subdue a Country
two hundred Miles in length, and one
hundred and fifty miles in breadth,
yielding a revenue of six hundred thousand
Pounds a year, and extending your
territories almost from Sea to Sea.-

You will further observe
the strength and the growing Resources
of resource we had acquired, and that we
were in the act of moving to Seringapatam,
in hopes of deciding the War with Tippoo
Sultaun by the reduction of his Capital,
when peace with that Prince intercep-
=ted our designs. ——

Before I proceed to the particular
Statement of Accounts to which your Letter
refers, I must beg leave to offer some
further Observations.

The peculiar circumstances under
which our army acted, & subsisted. The
Departments to unusual difficulties.
Our Guns and various Stores were
hastily collected from Tanjore, Trichinopoly
Madura

555 Fort St. George 21st August 1787.

Madeira, Limerick, and all parts of the Southern Countries, Officers were repeatedly dispatched to Travancore to solicit Supplies of various kinds; to Cochin in order to purchase Ammunition, Arrack, Salt and Cordage; - We sent to Tellicherry for Stores & and Medicines - Many of our Gun Carriages were constructed in the field -

The Commissary had to procure Conveyance without money to pay for it. - The Agent Victualler and Grain keeper had to find Subsistance for the Army without any means, except the Provisions we could carry with us, or take from the enemy. -

The Commissary of Stores was to Satisfy without money to pay them. Several hundred Artificers constantly employed in their repairs. -

The Condition of the Paymaster was still more distressful - Independtly of the unexampled arrear due to the Troops, and of their current pay, which he was often, unable to advance, he had to Struggle with the wants of Several Thousand Bullock drivers, Bullock Masters, and other Servile followers, whose desertion would have proved fatal to our operations. -

The

Fort St. Georg 28th August 1787.

The army was no less than four different times fitted out, put in motion, recalled, and again ordered to advance into the enemy's Country.—

In Support of these under-takings, many Officers as well as myself, applied all their prize money, & their private Funds to the exigencies of the Service, which Mr. Sullivan who had first enabled us to move at all, called forth his utmost Credit and Influence in our behalf.—

Above all, there is one point to which I request your particular attention.

In preparing for distant Operations, as a besieging army, obliged to drag Guns and stores across the Peninsula, neither Success, nor Safety could be looked for without an ample complement of draught and Carriage Cattle.—Deficiencies in that Department had defeated the best endeavours of the Carnatic Army, and given Hyder an Opportunity of extending his Power, even to

557 Fort St. George 21st August 1787.

to the gates of Madras.

To guard against domestic causes of disaster every effort was employed.

In addition to the Cattle attached to the Guns and Battalions, at the time of our marching into the enemy's Country on the end of the year 1783, there was an absolute necessity for Several Thousand more, to carry on the battering Ord. Engineer Stores, and Camp Equipage.

In consequence of my urgent Solicitation and assurances several responsible Men engaged to furnish an Additional Supply.

By the Month of January 1784 the number of Bullocks collected by them in consequence of such Solicitation and assurances amounted to more than Fourteen Hundred, and by the Month of March following, they exceeded two Thousand two hundred. It then became necessary, in order to preserve regularity in their Accounts and distinctness in the mode of distribution, that they should be under the direction of some person responsible for their Numbers & employment.

The undersigned the Commissary

Obliged

Fort St. George 21st August 1799

obliged me to have recourse to the assistant Quarter Master General, Ensign Chandley to whose offices Situation, that duty seemed most properly to belong. — He conducted the business for many months with great activity, but his death left various claims not ascertained — his books however distinctly prove, the hiring and distribution of as many Bullocks during eight months as make their pay amount to twenty four Thousand eight hundred and fifty two Star Pagodas for which further vouchers, a monthly Chitta were signed by the Peons, and countersigned by the Commissary, and Commanding Officer in the usual form.

The Men who has furnished those Bullocks having acted under the faith of my personal assurances, I conceived myself bound to support their just and urgent claims I therefore added to the advances made at the commencement of their undertaking out of the Funds in my hands, & they deposited with me, their certificates, as the which vouchers of the money so advanced and due, these are now in my

Fort S. George 21st August 1799

my profession, and ready to be produced along with the Quarter Master Chandlers books which I conceive are most satisfactory documents upon the subjects

There is another particular as material as the former.

In the course of our movements it became not only necessary to conceal our own intentions, but to discover those of the enemy.- For want of similar precautions three English armies had been cut off, or taken prisoners in India.

Our subsistance was likewise to depend on the Provisions we could discover and secure.- For this purpose I endeavored to obtain exact accounts of every Granary within two hundred miles of our Flank and Front and as no one Hircarah can possibly keep pace with the rapid movements of the Mysore Cavalry, I established confidential intelligencers, at Goa, Nanerull, Sahary-durgum, Salem, Bangalore, Cattimanoor-gulum, Ardanelli, Coimbatore, Palagat-cherry, Rasnguny, Corga, Damalcherry, Mangalore, and Seringapatam as well as in the Enemy's Camp, and in the Durbar

Fort St George 21st August 1784

Durbar of the Rajahs minister to Tippoo Sultaun.

On the first notice of any material incident there intelligencers dispatched small Cafjeans which were more rapidly conveyed to me than any horse could travel, by relays or Tappals of Sepoys, stationed at moderate distances, and unexpected by the enemy.

I had also Mercenaries, Peons, Lubby Merchants, and Sepoys constantly traversing all parts of the Enemy's Country. - These carrying dispatches to Madras and the Southern Provinces: to Travancore; to Cochin, to the Malabar Rajahs; to General Macleod, at Cannanore to Colonel Campbell at Mangalore, and to the Residency at Tellicherry. -

The intelligence of every individual was carefully registered, and tended to confirm, or to refute the various intimations constantly arriving. -

By these means, during many months of continued marching through a Country almost unexplored we never once failed in our supplies nor did any material incident escape our knowledge. -

Also

561 Fort St. George 25th August 1784

I also found it incumbent on me to give Khauls, Horses, Palanqueens, Dresses, and other customary Presents to the Vackeels who waited on me from the Rajahs of Travancore, Cochin, Calecut, Palagat, Coorga, Coratnat, and other Powers and Chiefs, disaffected to the Mysorean Govern.t.- Different Sums were given to the Soldiers of the Places We reduced, in hopes of inducing others to desection.

The Burhawana of Palagatcherry who was the intended General of Tippoos Government on the South, and who with a considerable retinue, was a Prisonier in our Camp for many months was maintained and treated according to his high rank, and material benefit would have been derived from this Conduct had the War continued.

After perusing the circumstances to which I have allude and a narrative of the difficulties under which our Army labored, I presume it would hardly appear extraordinary if the Expences of the Southern Army should have exceeded those of any Indian force that had ever been employed in India; I cannot therefore but feel Satisfaction in recollecting that these operations were conducted with economy.-

H.E

Fort St. George 25th August 1787.—

The Carnatic Army through drawing its Supplies of rice, and stores from Madras, and through it drawing the Treasures of Bengal, was more expensive in its circumscribed movements than the Southern Army was, while dragging its Guns and Stores across India gathering its Supplies from Several hundred Miles distance in different directions & while it operated in Effect in the richest Provinces of the enemy's Country.

During the whole continuance of this Service, our Carriage Bullocks were employed at a Pagoda and a half while those with the Carnatic Army cost two Pagodas per month.—

But in another Article the Company's Interest was still more Materially consulted instead of issuing the Enemy's Country as Prize to the Troops, or of Supplying it to provide emoluments as had been the practice of other Armies the whole rice so found, was served out on View of Batta, and thus there was a Public Saving of more than Six hundred Pounds per day amounting during the months we remained on the enemy's Country to more than Two hundred Thousand Pounds.—

With

563 Fort St. George 21st August 1787.

With regard to the receipts and disbursements of the sums stated by the Committee of Assigned Revenue to have been received by me, or by Officers under my Command for the use of the Army and yet unaccounted for amounting to one hundred and thirteen Thousand Rupees, they are inserted in the annexed Account.

Lord Macartney in his Letter to the Committee of assigned revenue seems to think that there was an original irregularity in the monies received from Hammad Sheriff Sheergunga not having been paid by Mr. Sullivan to Mr. Digby, who his Lordship adds was the proper person to receive them. Lord Macartney has not recollected that the Money could not have been stated to be paid by Mr. Sullivan, without a direct error in the fact.

The Country of Sheergunga was in rebellion at the time when the money was received.

I moved the army by the express requisition of Mr. Sullivan to collect by Military Force the Revenues which

Fort St. George 25th August 1787.—

which the Rajahs withheld from the Civil authority.—

Matters were adjusted with the Rajahs Ministers exactly by the Statement of Arrears, transmitted to me by Mr Sullivan, to whom I communicated every particular.—

I further exacted Bonds for ninety Thousand Rupees, on Account of depredations committed in the adjacent Countries but these Bonds were upon the proper Submission of the parties given up to them by Mr Sullivan, and the Shevagunga People continued from that time punctual in their Payments and obedient to the orders of Government.

The only irregularity I approved had existed entirely in thinking of charging those monies to the Account of any other person than myself who actually had received them.—

As for the other articles in the Account of the Committee of assigned Revenue of Rice, Sheep, Salt, Gram, Paddy, and Sundries furnished to the army at Covanore, they were delivered to the Departments, that entended for them, & cannot be brought to my Account in any shape whatever.—

The

Fort St George 25th August 1794.

The sums charged against the Company for Mercenaries, Gunpowder, Cotterie, Lascorals, Presents &c. are taken from the Accounts of the persons who managed my disbursements in Camp, I believe them to be as correct as could be expected in our Situation but it was impossible for me personally to mark the various fractional sums that were constantly issuing under the irregular and urgent head of contingent Service - at all events it is not consistent with my mode of acting to pledge myself for any Statement on the declaration of others -

I cannot however acquiesce in the Opinion, that the charges bear no proportion to those of other Officers in Bengal Situations - although there never was an army whose Situation rendered an extended System of intelligence and conciliation so indispensable as it was to us, while in the enemy's Country, yet I presume it will appear on the Company's books that every army of the three Establishments acting on the enemy's Country had made

Fort St George 25th August 1787

made larger Charges for contingent
Service in proportion to their number
length of Time, and movements than
those stated in the annexed account.—

Received on Joys & Bullion 4063 arcot Rupees.

1787
August 8.th From Lanny Nay Vakeel of the Rajah of Sheringunga at 5 arcot Rupees 20,000

Of this Sum 3,916 7/12 Rupees were received on Shuky Sanams at the rate of 1 7/12 Sanam pr Rupee and 2 7/12 Rupees pr Porto Novo Pagoda being 1/10.th Less in value than the Star Pagoda in which the Company's Accounts are kept.

There remained 4021 Rupees which were afterwards paid on Shuky Sanams. The Loss on issuing these Sanams will be stated on the Credit Side of this Account.

October 5.th Received from Lieut.t Blair on Acct. of the Rajah of Sheringunga 30,000

Of this Sum 16,875 Rupees were received in Porto Novo Pagodas, on the Issuing of which there was no loss. — The remainder 53,125 Rupees were received in Shuky Sanams, and in the Issuing of which there was a loss as stated in the Credit Side of this Account.

1794
January 28.th Received from the Minister of the Rajah of Ramnad 1000 Porto Novo Pagodas equal to 3,500

Rupees 13,500 equal to

Star Pags. 56,556. 12. 40

This was meant as an introductary present to me, upon my arrival at Ramnad, but on my refusing to accept of any present of that nature, the Minister requested me not to return the Nazir, which would be considered as an incivility to his Rajah, especially upon the Eve of his Marriage. — I therefore took the Money and gave a receipt upon the Public Account. —

N.B. The Arcot Rupee is estimated in this Account at the rate of Four for each Star Pagoda. —

These Sums I understand have been struck out of Mr. Digbys books since my departure from India under an impression that no extra charges of that nature were agreable to the Company's Book of regulations & therefore that they could not be admitted.—

I hope, and trust that the justice of the Honble Court of Directors will induce them to order these Charges to be allowed to Mr. Digby that he may not suffer by the faithful discharge of his Official Duty and that the Service may retain that Credit & Faith in Official orders without which it cannot prosper.

Besides the above there were Sums charged for Secret Service by Officers Commanding the Forts which we Garrisoned in the enemy's Country by & then Commanding Corps & Divisions of the army when employed on Detachment. most of them were paid by me but I am informed that there are a few Demands of that nature not yet discharged although the particular Services were specified

Gentlemen

Having been informed, when at Madras, last February that the Honble Governor & Council had written to stop making up Tents to complete the Indent of March 1766- I address'd a letter to the Committee of Stores, mentioning that there were about 30 private Tents now made up and requesting permission to deliver them into Store- on my return hither I found that I had understated the number as 93 Sepoy Tents were also ready at the time the order arrived here- as they were made in obedience to directions from the Provi-dency, and previous to the Commandery order, I trust the Board will be so indulgent

To the Honble Major General Sir Archibald Campbell K.B.

Governor in Council Fort St. George

Honble Sir

From Mr. Hippesley requesting a Revision of the Audit upon Mr Sullivans accounts & replying to the Objections of Mr Commissioner Lachlan. -

As some Facts of material consi=

=deration connected with the Audit of Mr. Sullivans Accounts & Chiefly affecting the Interests of the Honble Company, are necessary to be stated, I will entreat your Honours Indulgence in the confidence of such a revision

576 Fort St. George 28th August 1787.—

revision as the nature of the application has in Justice a claim to.—

If the audit of Mr. Sullivans Accounts is to be assumed as conclusive, & the Balance as certified by Mr. Jackson, is taken as an acquittance between the Honble Company & Mr. Sullivan his attorneys have little claims as far as this Govt. is interested are entitled to receive the Subject of the Audit, for in that case Mr. Sullivan will have secured Ten Thousand Pagodas more than the real balance after Mr. Jackson's defalcations — but Mr. Sullivans attorneys would ill acquit themselves were they influenced by such motives, on the contrary, they are ready to refund whatever may in Equity be adjudged to have been over paid.—

In justice to Mr. Sullivan I must here, Honble Sirs observe that his Accuracy is not unimpeachable for the Error that had escaped Mr. Jackson and which has been discovered by the Military Paymaster General; — the fact is, that the Account Current in which the Error exists was made up after Mr. Sullivans' departure for Europe by his Office Servants, and in the confusion of

577 Fort St George 21st August 1787.

of the moment, was signed by me, as acting Paymaster. –

I shall now trust to your Honors Indulgence, if I take the liberty to advert to another Error of Mr Jackson affecting Mr Sullivans Interest in a less degree than the former has those of the Honble Company.

Mr Jackson avows that he is bound by an Oath not to pass any Charge that appears contrary to the regulations or orders of Government, – but in Mr Sullivans Instance he confesses himself convinced that Mr Sullivan had all the Powers of Government concurring however that he had no Official intimation of those Powers he thought himself Obliged to debit Mr Sullivan on the extent that appears in the accompanying Paper [A].

I prove that such restrictions never came within the contemplation of that Government from which Mr Jackson derived his Commission, I beg to request the attention of your Honor to Mr Jacksons original Letter (B.1) where it is clear that Government has intimated officially to Mr Jackson the discretional authority delegated to Mr Sullivan, but Mr Jacksons inference is in direct opposition to his own sentences, for a discretion delegated to no other Paymaster,

is

is proved by Mr. Jackson, yet his conclusion is that "he shall examine" Mr Sullivans Accounts on the same manner as those of all other Paymasters"

Not to detain your Honor by superfluous comments on Documents whose internal Evidence is incontrovertible I shall beg to refer to the originals, should any reference beyond Mr. Balfours Observations & Mr Jacksons Letter be deemed necessary I will then beg your Honors attention to the 1. 2. 16 Paragraphs of my reply to the audator (C) I will likewise intreat your reference to the Testimonies recorded in the 24th Para which Speak to the nature & magnitude of the Services in question, & which however flattering to Mr Sullivan, I trust are substantiated by at least two Solemn & hastily questioned.

Your Honorable Board being satisfied in these premises I am to trust that Mr. Sullivan will have relief in the several Heads of Debit recited in the Observations [A] amounting to £ 1 Pg 4:7/60.-

Also in the Amount of the Debits contained in the Paper D amounting to £ Pc 279, 00 So at least that Lt Bowens may be called upon instead of Mr Sullivan's Sir.

579 Fort St. George 21th August 1787.—

For the Paymaster of Tanjore not to presume that Vouchers bearing the Official Signature of the Commanding Officer & Commissary on the field had a just claim upon Government.

The attorneys of Mr. Sullivan wish further trust that he would be allowed credit on the Amount of the Sums paid to Messrs. Simpson & Stuart, Surgeons of Tellicherry, they both standing on the same predicament and Mr. Sturts Claims having lately been revised & admitted by Government.—

The Amounts of these several Sums deducted from the Loss of S. Pr. 10,000, will still leave a Balance of near S. Pr. 4,500 to be refunded by Mr. Sullivan, and his attorneys look, with confidence, to the Justice of the Worlds Board for such a revision of the Audit as may at once establish the equity of their constituents claims, as well as those of the Worlds Company.—

His Highness the Nabob Wallajah Bahauder
of Arcot and the Carnatic &c &c &c

To Major Gen.l Sir Archd Campbell Kt.
President Governor and Commander in Chief &c
Fort St. George &c &c

My Friend

In the month of October 1783,
Mr. Antonio D'Souza an employe of Mr. was from
me, appointed Capt.n John Barlow to the
Command of my Ship the Success Galley, on
his entering into an engagement, Copy of
which is enclosed — but which engagement
was not in any part fulfilled, nor was the
Ship ever brought to Madras since the
above period.

From the Nabob setting forth his right to the Ship Success Galley, & desiring that Steps may be taken for restoring her to his Highness.

The Ship being now arrived
in Madras Roads under the Charge of
Mr. Cuthbert Fenwick, and as Capt.n
Barlow has no authority to deliver her
over to any Person I have to request of
my friend to whom I look up in all
occasions wherein my affairs are concerned
that he will be so good to take immediate
and effectual Steps to secure the said Ship,
which is my property.

If Mr Fenwick has any
Demand

613 Fort St. George August 1787.

2d Demands upon my Circar, I am ready to enter into an Investigation of them, when Transmitted to me through my friend, and to settle them in such manner, as my friend shall think just and reasonable.

May every Blessing attend upon my Friend.

What can I say more?

Sir

Since last addressing you on this Department, we acquainted you we had given directions for the Paymasters house at Ascha being disposed of by publick Sale; and we have now the honor to transmit a Copy of a letter on that Subject, which we have received from Mr. Isaac Van Macrop Acting Paymaster

Herewith We have also the honor to transmit a Plan & Estimate for a Magazine for fixed Ammunition recommended in the proceedings of our Committee of Stores which accompanied our abovementioned address.

The Condition of many of the Company's Buildings in this Settlement which was ill for timely prevention thread-=ened to be ruinous, induced us accordingly to direct the Engineer to lay before us, an estimate of the expence that would attend the putting them into a State of Thoroughrepair; which we have now the pleasure to forward for your Information; At the same time take the liberty of representing to you the absolute necessity there is for the Several Repairs being immediately carried into effect.

It is with concern that I found
myself obliged to repeat my application
for that Justice which the Captors had a
Right to expect, & which seemed to be in
the Power of the Honble Board to grant
but I take the Liberty of calling to your
recollection that my Applications were in
different Stages of the Business at first & it
appeared clearly that an immediate distri-

been made, by Virtue of an act of Parliament

the orders of the Company in consequence.
The Governor & Council were pleased to
refer the Matter to the Court of Directors

Sir

I have received your letter of the 7th Instant with its various enclosures, to which all due attention shall be paid. With respect to the information required by the Bengal Government regarding Colonel Pearce's Accounts, I have the honor to enclose a Certificate that the Sum of P. 5500.– for which the Colonel could not produce a Voucher, was paid by him in July 1781 to the Company's Paymaster at Vellore that the Bengal Presidency was duly credited for the same on the Military Paymasters Books. This Certificate you will be good as transmit to Bengal. I am sorry it is not in my power to give any information respecting the vouchers which the Colonel mentions as having sent to Lord Macartney as no Vouchers were left in this Office that belonged to the Bengal Detachment while on duty on the Coast but were all either sent to that Presidency or delivered up to their Paymaster.

From the Military Pay.r General with a Certificate for Pay.t 5500 for which Col.l Pearce could not produce a Voucher stating that the same was paid by him & Credit given to the Bengal Presidency was unable to give any information respecting the Vouchers which Col.l Pearce mentions to have delivered to Lord Macartney.

Peons.

Charge committed to us with as much
expedition and accuracy as possible.

As the greatest proportion of his
Majestys Troops were employed on this Coast
we perceive that the Honble Company must
principally look to the results of our investiga-
tion in settling their Accounts with his
Majestys Ministers under this impression
we enter upon the Subject with all the
Caution & assiduity which the magnitude
and importance of it calls for.

To accomplish the wish of
the Court of direction the greatest part
of the Army Accounts on this Coast since
the Year 1779 must be examined & the
vouchers separated before they can be now
modelled in the particular manner
required. Great exertion & much time & labour must be devoted to
bring it to a conclusion.

We observe by the Extract of the
Honble Company's Letter, that a Copy
of the act of Parliament therein mentioned
will be necessary for our Guidance -
also the Accounts of the different Paymasters
of his Majestys Regiments - we therefore
beg leave to trouble your Honrs to give
orders, that we may be furnished with
them. -

In making up the Accounts the

To the Honble Major Genl Sir Arch.d Campbell K.B. President and Governor &c &c &c

Honble Sir

From Captain Fenwick stating the Manner in which he became possessed of his Highness's Ships the Success & Galley.

I have answer to a letter from the Military Secretary of the 27th enclosing a Copy of a letter from his Highness the Nabob of the Carnatick desiring to know by what manner I came into the Possession of his Highness the Nabob's Ships the Success Galley. I take the Liberty of stating the Circumstances as briefly as possible for the Information of the Honble Board - In February 1779 I was appointed to the Command of his Highness's Ships by his own offer and free Consent, the agreement was that when the Nabob did not employ the Ships I was to be free to do it paying the Lasting Charges myself his Highness the Nabob keeping the Hull in repair immediately after

Fort St George 28th August 1794.

after which agreement it was broke through by his Highness sending the Ships to the Isle of France with the French Prisoners belonging mostly to the Civil department of Pondichery The Nabob Company were so good as to pay me the Passage Money of the said Prisoners but the Loading Charges of the Ships have remained unpaid to this day. — In May 1780 I entered into a new agreement that I would for the Sultans pay even the repairs of the Hulls while I had the employment of the Ships and die Accordingly for that year — having had the use of her to China in February 1781 the Nabob sent the Ships again to the Company, to the total disappointment of a Voyage I had arranged & without any previous Notice in consequence of which loan I was ordered to attend the army under General Sir Eyre Coote until 6 September 1781 when I was discharged from the Service the Nabob having Demanded the Ship Each the Sultan having taken from the heavy Guns she had carried for the army, it was necessary she should be sent round to Bengal when she was repaired with the utmost economy, not costing more than Four Thousand Rupees the Expences of going round to repair after such heavy Service never was charged to the Nabob Some the Ships being lent to the H. Company in 1786

1781 Sir Edward entered into any Arrangement with the Nabob but as soon as the Season permitted returned to this Port in January 1782 - when I waited until May 1782 without receiving any order from the Nabob and as no ways employed but by beating down to Cuddalore to endeavour to take the Garrison off from that place in April 1782 for which Service I would not accept any thing when wrote to by the Board in May 1782 I was ordered by the Nabob to carry Mr. Richard Sullivan with dispatches to the Governor General, at the same time was desired to Oppose the Ship and hold her in readiness to go with dispatches to Europe what secret events took place to hinder it I do not know, but the Ship was not sent and in returning to Madras was dismasted and drove round to Bombay - with the Squadron in Oct. 1782 & in 1783 being very ill I resigned the Command of the Ship to Capt. Darlow to deliver her to the Nabob but Not until my demands were paid he betrayed the trust Fraud or Complicity Position how and to what Power for Money delivered her over on which the Nabob appointed him to the Command.

On my being obliged to return to this Country for in consequence of Mr. Popham's Conduct

Condition having each large Demands
on the Ship I wrote to the Governor &c

to acquaint him if he had no Objections
I would give her the necessary repairs

Received the following Letter & Enclosure from the Commissary General.

To the Honble Major General Sir Archibald Campbell K.B.

Governor in Council

Honble Sir

From the Commissary General, on delivering Regulations establishes during the Government of Lord Macartney for Freight &c. of Lascar.

By the old Book of Regulations Page 43, Paragraph 10, the daily allowance for every Sepoy or Lascar was fixed at 4 Fanams; but this was to be understood on board Company's Ships, the Captains being obliged by the Charter party to carry them free of Freight & in the same Book no allowance was fixed for Freights in the Country Ships, but during the Government of Lord Macartney, when the Bengal Troops were sent back to that Presidency, it was agreed to pay the Sum of 10 Rupees for Freight for each Sepoy or Lascar, besides the 4 Fanams per Day as his Provisions were sent on board for them at the Company's expence, no distinction was then made between the Sepoys & Lascars nor was any allowance given for Medicine &c any of these People have been with, no doubt your Honor &c.

Agreeable to the orders of the Hon.ble the President in Council I enclose for you to be forwarded to his highness the Nabob my account with him which on a reference to my letter of the 25th to the Hon.ble the President in Council will be perfectly clear I flattered myself I was doing a very acceptable piece of Service to his Highness when I at the request of Mr. Barlow undertook to repair his Highness's Ship and bring her down to this place her incapacity both from bad health and loss sustained by the Failure of Mr. Beare rendering it impossible for him to accomplish it - The repairs given her to bring her down are extreamly moderate. considering she had not been repaired since I repaired her in 1782 the other expences are for the necessary Stores of Anchor Cables &c. The Copy of the Vouchers are already laid before his Highness Summer all Honorable & the originals ready for the Inspection of any one the Honble Board may please

Fort St. George 28th August 1734.

For Shillings 5 Pr Diem Table expences allowed the Commandant of Chinglapet.

The President proposes that the allowance of 10 Shillings Pr Diem for Table expences granted to the Commandeirs Officer at Permacoil, be extended to the Officer Commanding at Chinglapet whose Situation is precisely the same as at Permacoil where the Concourse of Travellers on the occasion of such expence to the Commanding Officer as to render his Situation in a serious degree distressing.

Agreed for the above Reasons that 10 Shillings per Diem be allowed to the Officer Commanding at Chinglapet as Table money.

Full Batta granted to the Officer Commanding the Troops on the Garrison of Masulipatam.

Resolved also that the Officer Commanding the Troops in the Garrison of Masulipatam be allowed full Batta in Consideration of the constant expence to which he is exposed from the necessity of receiving officers passing this to & fro Coast in their way from

The above allowance confined to the Officer Commanding at Masulipatam.

Resolved also that this allowance be confined to the Officer Commanding at Masulipatam, as the Situation of the other Officers at the Subordinate Settlements on the Coast does not appear to require the same Indulgence.

To the Honble Major General
Sir Archibald Campbell Kt.B.
President & Governor &c. in Council
at Fort St. George

Honble Sir & Gentlemen

We have had the honor to receive
M.r Secretary Chamiers Letter of the 28th.
Instant, informing us that your have
been pleased to acquiesce in our requests
& the several measures we took the liberty
of suggesting we hope we shall stand
excused to the Honble Board if we make
ourselves the Subject of a moments Consi-
deration - but as the Committee to which
we have had the Honor to be appointed.
will last for a Considerable time, & will
require our constant and daily application
we beg Your Honor will be pleased to
make us such allowance on this occasion
as you may think this laborious duty
deserving of. -

We take leave to mention that
at this period the Military Accounts of this
Presidency are only brought up to the
year 1784 & when it is considered that
we have Seperate the whole of these
Accounts since the year 1779 to the
present date we are convinced it must
appear

From Mess.rs
Barbyshe Latham
& Lorin, requesting
an allowance
during their
Investigation
of the Accounts
of the Kings
Troops.

Fort St. George 31st August 1787

Appear to your Honor That the Business can only be accomplished by most persevering attention —

We believe we are not wrong in observing that our Committee is in every respect similar to the Committee of Accounts established at the close of the last War it is evident our Services trouble cannot be superior & we trust the Honble Board will not deem us unreasonable in expecting an adequate Compensation

We have the honor to be
