To Mr. George Proctor

Sir

His Highness the nabob having assigned over to the Honble Company all the Revenues of the Tinnevelly Country, under whatsoever Denomination they may be called, towards the defraying the expences of the War, we have appointed you Receiver of the Revenues on behalf of the Honorable Company and Mr. Richard Thomas Orpen your assistant.

We direct that you proceed to Palamcotah with all possible dispatch and make such arrangements, as appear to you most expedient for carrying this Service into immediate Execution.-

We have ordered Capt. Lidingtown to afford you such Military assistance as

you

Fort St. George 2.nd October 1797.—

you may require for this Service, but we desire you will be extremely careful that this Power be exercised in a manner the least exceptionable and most favorable to the Inhabitants.—

We desire you will employ on the most reasonable Terms, such Coolies and other Servants as may be indispensably necessary for conducting the Business in a clear effectual Manner & that you send to us a regular Monthly Account of all your Receipts and Disbursements.—

We recommend your taking particular Care that all Receipts of money or Grain shall be authenticated in such a manner as appears to you best calculated for preventing all future Disputes and that if Practicable one or more of his Highness the Rajah's Servants be present both at the Receipt and Delivery of Grain.—

From the amount of the Money you receive on this Account, We desire you will furnish Mr William Light Paymaster at Palamcotah and Mr Robert Barclay Paymaster at Madura, each

Sums

Sums as they may require for the Payment of the Troops and also deliver them Grain at the Markets Price, for the same purpose, should they require it.

As it is highly expedient that the Nabob's Share of the Revenues of the Carnatic should be appropriated according to his Intentions and engagements, so wholly to the Public Service during the War, we particularly enjoin you to see that this Object be fulfilled. and in order to remove every Impediment that may be thrown in your way by the concerns of Individuals, Europeans or natives, we do hereby authorize you to enforce, if it be necessary the Directions given by the Nabob for suspending the Operation of all the Grants or assignments of a private nature, until the exigencies of the War, and for this purpose you will apply to the Commanding Officer at Palamcotah to render you every assistance in his power.

The great distance you will be from the Presidency, as well as the confidence we place in your exertions, have induced us to give you so great Latitude, and we shall only add, that we persuade ourselves your Conduct

Fort St. George 2d October 1787.

Conduct will fully justify these Resolutions and strengthen the Influence the Committee have always entertained of your Merits.

Herewith you will receive a Copy of the agreement we have made with His Highness the Nabob, for your Justice & guidance. —

Sir,

In consequence of the Powers granted to me on behalf of the Company by the Nabob of the Carnatic to regulate & conduct his Revenue according to an Arrangement of which I sent you a Copy His Highness has given orders to his Officers, Phoudars and Amuldars to obey me in all Matters of Revenue - His Highness's orders for Tinnevelly & Madura I now enclose to you to be delivered to the respective Phoudars and Amuldars as also my orders to them of which I send you a Translation - you will please to watch over these Officers so as the Revenues of the districts may be secured to the Company; and also to transmit to me your Opinion of the best method of

Fort St. George 2d. October 1787

of improving them, In our present Situation the first Object must be to realize without delay all the Money that can be collected, and after paying the immediate necessary expences of the Military and laying in a sufficient Stock of Provisions to remit the remainder by Loncan Bills or in Specie to the Presidency In all your Proceedings I must particularly desire that due respect be paid to the name and authority of his Highness the Nabob or that his Subjects may perceive that the present Arrangement proceeds from his Sincere friendship for the Company and Confidence in His Representative, But this attention must not operate to prevent the Company from obtaining agreeably to the Arrangement with His Highness real possession of the Revenues you will please to correspond with me on the Subject of assigned Revenue Separately from the other Business of the Company, it being a distinct Department I am &c

Mr George Proctor

Sir

We have attentively considered your Several Letters with those which we have secured from the Amaldar Trimolaspah Moodaly.- The authority given to you to interfere in the Collections after the assignment was made to the Company proceeded in great measure from the doubts we entertained of the Renters attachment to our interest under such Circumstances of temptation, as we thought might probably be offered from the Durbar- To this we may add that our confidence in you as a Servant of the Company- The immense distance of the Tinnevelly Country from the Presidency and the difficulty on that account of entrusting those Persons who had any

any thing to hope or fear from the Nabob were strong motives for our conferring on you our ample authority - all your Letters of late have tended to shew the superiority of this measure, by adducing such facts and Arguments touching the conduct of Sumia= =Sahib Moodaly as will, if they be well grounded in all the particulars, sufficiently prove that the authority given was highly necessary: for they go all to the impeachment of his integrity and attachment to the interest of the Company and insinuate that what has been received of the revenue is entirely due to your exertions under the power vested in you, and that if those powers had been greater, money purchases. had been received - on the other hand Sumia Sahib Moodaly represents in very strong Terms that whatever deficiencies have happened in the Collections of the last year are to be ascribed solely to the misapplication & interference of yourself and your Durbar. - That the authority necessary to the Annadien has been taken away and the Polygars and Inhabitants left to persist by the confusion created

created in the Province by the mismanagement
of different persons clashing with each
other, and that to this interference it is
entirely owing that the Banks and other

Amidst such contrasting representations it is
impossible for us to come to any positive
decision and though from the experience
we have had ourselves of the misconducts of the
Amildars dependants on the Nabob, we are
inclined to give credit to the facts you
have alledged, we must necessarily suspend
our determination untill we receive your
accounts with such further explanations
and proofs as you may think it necessary
to adduce in answer to the Renters Complaints
you have already been furnished with Orders
from the President respecting your future
Conduct, and we must here observe to you

To the Honble Sir Arch.d Campbell KB.

Fort St. George

Honble Sirs

From Mr. William Webb. soliciting the appointment of Paymaster, to the Garrison of Trichinopoly.

A Report has long prevailed of Mr. Balfh's Intention to resign the Paymastership of Trichinopoly, but my Respect for the Honble President prevented my asking for that Employ, as he might have some Displeasure to a Junior Servant for Applying for a Place before it became vacant: I am now credibly informed that Mr. Balfh has actually resigned, and hope that I am not too late in my Application to succeed him, for I can scarcely suppose that so young a Servant as Mr. Samuel Johnston was disposed to an Advantageous a Post, at the very moment an which Mr. Balfh's Resignation was produced.

It is unnecessary to enter on a Comparison

Comparison between Mr Johnston and myself - for my Conduct throughout the Service, I beg to appeal to the Records and the repeated Recommendations of our Honble Master; and I take the Liberty of requesting that you will be pleased to rescind the Appointment of Mr Samuel Johnston, should it really have taken place; - or should your Honor & not think proper to comply with my Request, I beg that this Application may be sent home a Number in the Packet

I have the Honor to be, with the greatest Respect. - &c &c

Honble Sir

From the Commandt at Amboor states the Repairs wanting to the Magazines & Storehouses 400 Men required to get the Guns up—

As the Guns and Stores for the Defence of Amboor are part of them arrived I think it my duty to inform you, that the Magazines & Storehouses wants some little repair and it will also be necessary to have Platforms laid for the Guns, and some Sheds made for the Troops.

There is one 18 Pounder & one 12 Arrived from Vellore, the road leges the Guns up the Hills so very rocky & that requires at least 400 Men to get one Gun up in a Day it will also be necessary to have a Sledge made to fix the Guns upon for which Purpose I have got a large Tamarind Tree cut down. but as there is only one Carpenter here belonging to the Company he would not have it ready in a Month I have also got some Palmira Trees cut to make

I have

I shall therefore myself extremely happy to be honoured with your Instructions how I am to proceed in getting the Sledge made for the Guns and getting them up the Hill I can get Country Carpenters to work, if I am authorized so to do, and shall exert myself to the utmost of my Power in having every thing as forward as Orders as expeditiously as possible. —

Minutes of last Consultation

The President in his Character
of Commander in Chief recommends to
the Board that it be published in General
Orders that the establishment of Artillery
consisting only of two Lieutenant Colonels
the youngest Lieut. Colonel is to be
considered as Supernumerary, & to
receive only Majors Pay & allowances
until the Pleasure of the Court of
Directors be known.-

The President recommends that as there are three Lt. Cols of Artillery the Youngest be considered as Supernumerary & receive Majors Pay & allowances.

Ordered accordingly.

The following Letter from
Mr Lind having been omitted to be
recorded is here entered.-

To

To the Honble. Major General
Sir Archibald Campbell K.B.
Governor in Council
Fort St. George

Honble Sir,

From Mr. Lind soliciting for the appointment of Paymaster to the Garrison of Trichinopoly.

As it is now almost certain that Mr. Pech intends shortly to resign the Paymastership of Trichinopoly, I therefore take the liberty to apply for it. —

For in doing I conceive, no Ill will difference to the Honble Board, that it is no more than justice to myself, to submit to their Consideration, those circumstances which I apprehend may establish my claim to their support. —

I have now served the Honble Company sixteen years, a Period in the course of which I have only held three Employs the duration whereof collectively, scarcely encludes the terms of four years, while the Salary &c. arising from two of them has never exceeded 100 Pd per month.

Two years have nearly elapsed since the abolishment of the Paymastership

of

924 Fort St. George 9th. October 1787.—

of Nellore, and my recall to the Presidency, in which interval, I have already sat as a member on two Committees, one of which lasted Seven Months; and the Second (which still exists) Settle short of Twelve, and from the Official information I had from Mr. Secretary White three days ago, I am given to understand that I am appointed to assist on a third, which from report may probably hold for many months. The fatigue, trouble and anxiety attendant on such Services as the advantages they produce are too well known to your Honor, &c. to be here set forth at. I would flatter myself, it is also the attention I have invariably paid to the Discharge of the Several duties that they involve—

The per centage annexed to my present employ being very unproductive, and altogether inadequate to any Situation and standing in the Service is an additional argument in my behalf, that I hope will be admitted, and find due weight in your minds.—

Should I be refused the appointment I now solicit, I trust, I shall not have the further mortification of seeing

S

it bestowed on a Junior Servant, more
especially as I conceive I have reason
to complain that I have felt the disad-
=vantage of such a Supercession, in a variety
of instances within these last 22 Months.

I have the Honor to be with great respect

Mr. Maunsell delivers in the following
Minute, which he desires may be sent to
Europe as a Number in the Packet.—

The Minute delivered in by
the President at the last Council being
Court of Directors as a reply to a Letter
addressed to the Board by Mr. Robert Latham,
which he has desired may be transmitted
a member in the Next Packet, and as it has
Minute appears to me to convey a strong
& undeserved Reflection upon a certain
description of the Civil Servants, I cannot
consistently with the Sense I entertain
of their merits, allow this Minute to
pass without some Observations on the
Subject

Mr. Maunsells Minute on the Subject of the President's delivered in last Council respecting Mr. Latham

928 Fort St. George 9th October 1787.—

Advocate for maintaining due Subordination—
I do not contend that Mr. Latham was or
was not entitled by his Rank, or Services,
to the Paymastership of the Cantonments of
Wallajanbad in its original State, but
being appointed to it, & respecting no doubt
to find it as honorable & lucrative, as the
President has represented, his Chagrine must
have been great to find the employ Mutilated
& deprived of its chief advantages before he
could well proceed from the Presidency
to take charge of it.—

The President has stated that
"there can be no Interference of a Barrack
"Master at Madura: and that there is
"actually a Barrack Master at Trichinopoly
to which Paymastership Mr. Latham
has acceded an Appointment—This asser-
=tion it meant & imagined to convey
a Proof of Mr. Latham's Office—but I must
here observe that altho' a Barrack Master
does not reside at Madura he never the less
has the right of Supplying the European
Troops there in the same manner as at the other
Garrisons, South of the Coleroon—This is
surely an Interference.—

The Privilege of Supplying Arrack

Fort St. George 9th October 1787.

Articles to the Europeans Belong from the Paymaster, and given to the Barrack Master's is not only very extensive, but incompa-
-tible in a great degree, with the avowed object of the Appointment; for it will scarcely be conceived that Two Barrack Masters can discharge in a proper manner their Duties pointed out by the Presidents" of Securing the Irregula-
"rities of the Soldiers in their attempts to
"break & destroy the Doors, Windows,
"Beds, & Barrack Furniture, attending
"to the Cleanliness of the Quarters & Pan-
"ther Conveniencies on which the Health
"of the Soldiery very often depends." when the range of the Superintendance is considerably distant, as Poonamalee to Amboor including Wallajahbad, Arcot, & Vellore — & Trichinopoly, Madura, and including Palamcotah. —

The Barrack Master at Madras, a Post which as the President observes, has always been held by a Military Officer, is on a very different Footing from the Barrack Masters & the Garrisons, & Cantonments, and, as I humbly concede

on

930

Fort St. George 9th October 1787.

on the proper Footing. Heads not only as a check on the Irregularities of the Soldiery in the Barracks, but on the Paymaster also; who supplies them with Cil, Pots, Mats &c. Gives the System of the Service to establish as far as possible Restraints for the detection of abuses in every Department, but this necessary Check is obviously lost when the Barrack Master himself is entrusted to furnish these articles to the Soldiery.

Justice seems to require that an Innovation affecting so seriously the Civil Servants of the Company should not take place but upon Conviction of Mismanagement or abuse, or upon substantial Grounds of public advantage. I believe I may safely challenge the Records to produce a single Complaint from Officer or Man against any Paym.r on a charge of neglect of duty or deficiency of Supply - and I am confident (if it will be found) which the Statements I have called for will put beyond a doubt) that the Department of Supplying the Barracks with Servants & Necessaries is not conducted on more reasonable Terms to the Company now than was formerly done

Fort St. George 9th October 1787.

done by Paymasters. — no objection had appeared to the charges made by the Paymasters, nor any saving projected by a Reduction of the Forces of the Articles they supplied except in the article of Cotts, which saving was incidental to their new Construction proposed by the President — it would be difficult therefore to assign a Reason, consonant that Impartiality towards the Civil & Military Servants, which should guide us in preserving their respective Rights why the general System of the Service is to be perverted to favor one Class of Servants at the expence of the other

The late Act of Parliament which renders any Civil Servants, after 12 Years residence in India eligible to Councils however encouraging to those who professs superior Interest at home, tends on a general view to depress the Spirit of the Service heretofore supported on the certainty of a Recompence for long and ardurous Servitude by rising in regular succession, to the most distinguished Situations — and when it is considered how essentially

Fort S.t George 9.th October 1787

essentially the Interest of the Company depends on a faithful and zealous discharge of duty in their Civil Servants in the different Branches of their affairs, it must be thought no less impolitic than Unjust to be unmerited to diminish or vex the Civil Line of its accustomed Privileges, & thereby weaken the Bond of attachment to a Service which by the late change of System is become hostile to general advancement.—

The President lays before the
Board the following Letter from General
Conway Governor of Pondicherry.-

fo

940 Fort S.t George 12.th October 1784.-

To His Excellency Major General
Sir Archibald Campbell K.B.
Commander in Chief of his Britannic
Majestys Forces on the Coast of Coromandel
& Gov.r General of Madras.-
at Fort S.t George

Sir,

I am indebted to your Excellency
for the Pleasure of Captain Campbells
acquaintance, & I return you my Thanks
on the Occasion. I shall be always flattered
to shew every attention to those your Excellency
will do me the Honor to introduce to me

In consequence of your Excellencys
Letter of the 4.th of this Month concerning
the French Sailors enticed by the Favor
of Men I have taken Steps for their
Men to be embarked instantly on their
Arrival here.-

From General Conway complains of the Conduct of the Amuldar of Tiruvaddy.-

Captain Campbell has himself
been a Witness of some Proceedings which
are certainly unknown to your Excellency,
which do not accord with the 14.th Article
of the Treaty of Peace.-

Some Men sent as they say
by the Amuldar of Tiruvaddy came &
stationed

941 Fort St. George 13th October 1797.

Stationed themselves to the South within Pistol Shot of this Place, often change their Situation Stop the Goods, and levy arbitrary Taxes without being able to produce any authority which causes daily abuses.

I have obliged one of these pretended Comanis to come here Captain Campbell personally examined him; & asked him by what authority he came to levy Contributions close to the Walls of this Town. - he replyed, he acted on behalf of the Aumildar of Dewindy but he could produce no proof for this assertion. -

The same abuses do not happen to the Northward, where our boundaries nevertheless are much more limitted the Collectors of the Nabob keep themselves within the bounderies of their Province & pay attention to his regulations Captn Campbell has agreed to communicate these particulars to your Excellency.

Captain Campbell has been obliged to take charge of a Letter from me to the Nabob Mahomed Ally Khan, that Letter treats on no other business, it has no other object than to make that Prince acquainted with my appointment & to render him those attentions which are due to him. - Sam

Minute thereon

Agreed that the President be desired to Speak to the Nabob on the Subject of the Complaints made by Mr. Conway against the Amildar of Tiruvady & procure from His Highness such orders as may effectually prevent the abuses stated by the Governor of Pondicherry.

The President delivers the following Minute.

President's Minute in reply to Mr. Maxwell's observations respecting the arrangements of the Bengal Market Investment.

President's Minute

In Council 13th. October 1787

When the President's Minute of the 28th of September was read at the Board, the Members of Council will recollect, that the Reason assigned by Mr. Maxwell for answering it, was founded on the Idea

Fort St George 18th October 1787.—

that it appeared to him to convey a strong and undeserved Reflexion on the paymaster of this Establishment. The Board will believe remember, that the President disowned the charge, that he disclaimed every intention of that nature and that after a second Reading of the minute, there were not Words to be found, that could in the smallest Degree admit of such a Construction, even by Mr. Maunsell himself.—

Time was given to Mr. Maunsell, to produce the objectionable parts of the President's Minute, but instead of affording any Satisfaction in this Respect; he is again pleased to repeat the charge, without producing a single Line in Support of it, and adds, that he cannot consistently with the Sense he entertains of them (the Paymasters) Merits allow the Presidents' Minute to pass without some Observations on the Subject.

This Opinion of Mr. Maunsell unsupported by Proof as it necessarily stands was however, by a strange Digression, viewed from as an introduction to his attack of an Arrangement, which above twelve Months ago, had been established with the unanimous Concurrence and Approbation

of

Fort S. George 13th October 1787.-

of the late Board, the good or bad effects of which cannot yet be ascertained, further than its salutary Consequences to the Health of the European Soldiery which is allowed to be at this Moment in a higher State than was ever known before in the Carnatic as that Arrangement is under the Consideration of the Court of Directors whose confirmation or disapproval may be hourly expected it is natural to suppose that the Institution might in Justice be exempted from Mr. Maxwells animadversions at present, especially as he has not brought forward any Specific Improvement for the advantage of the Company and merely contents himself with becoming the Supporter of a discontented part of the Civil Servants, who may have lost some emoluments in consequence of this Military Arrangement.-

Such being the case the President Submits whether the Conduct of Mr. Maxwell, in his endeavours to engage him in a Controversy which has no allusion to the original Cause of his Discontents, an imaginary Reflexion which he has not been able to point out or explain; has been consistent with that Harmony which ought

Fort S. George 13th October 1787.—

ought to subsist among the Members of
this Board, or with his Professions "of not
having the most distant Wish of counteracting
or embarrassing the Presidents in the Discharge
of his important Public Duties."

The President trusts however,
that under such circumstances, it is not
necessary to enter into a tedious defence
of an Arrangement that may soon be
established or abolished by orders from home,
but as there are parts of Mr. Macrabbi's
animadversions which may mislead,
if not refuted, and of his General
Assertions, which if not contradicted
may leave an Impression on the minds of
those who are distant from this Settlement;
the President feels himself under the
necessity of entering more fully into a
Reply than perhaps the Subject
merits or his time which ought to be
devoted to more important purposes
can well admit of, flattering himself
at the same time, that he will not be
again compelled to take up the Pen
upon this Contest for as the Court of
Directors will be now in possession
of every Fact that is material for their
information, any further Discussion
can only proceed from Motives very

different to any Wish of promoting the Interests of the Company.

The President begs leave to observe that since Mr Maunsell has himself allowed that Barrack Masters are necessary, and that Military Officers are the most proper persons to hold these employments, it remains only to be determined by the Court of Directors whether those who have all the Trouble and Responsibility attend the European Barracks, should enjoy any emoluments there may be, or whether these emoluments ought in Justice to fall to the Paymasters, who without any trouble necessary attendance or Responsibility would reap the Profits of another Labour, and thus unjustly enjoy as much as the Barrack Masters the pay and Batta of Captain. -

Mr. Maunsell has told us that the System of the Service to establish as far as possible Restraints for the Detection of Abuses in every Department: and says, that this necessary Check is lost when the Barrack Master himself is entrusted to furnish the Barrack Articles to the Soldiery. In the first part of this observations the President gives his fullest acquiescence, and will add, that it

947 Fort St George 13th October 1787.

it has been one of the greatest Misfortunes attending the Company's affairs in India the want of such proper and effectual Checks. —

In the last Years the Presidents wrote only reply that if Mr Maunsell had taken the trouble to perus the 9th 4th & 5th & 6th Articles of the Barrack Masters Regulations, he would have found that the Quantity of Articles allowed 100 Men p.d Month, was limited to what was thought necessary. That such Articles as the Barrack Masters were empowered to supply the Barracks with, could only be charged to the Company at the price Current of the District. That the Barrack Masters Accounts must be certified by the Commanding Officer of the Garrison or Cantonment before they can be discharged by the Paymaster and lastly, they must be audited at the Presidency by the Comptroller General of Army Accounts before these Accounts are finally closed between the Company and the Barrack Master. The Presidents Letter upon a variety of well arranged Checks of this nature to be as effectual as any which this Government could

point out and is certainly more than ever was known in this Country before the Barrack Master Regulations were established.—

It is so long since the President had minutely enquired into the State of the Barrack Master Department at Madras that he was again obliged to send to Lieut. Hammond who has filled that Office for many years with Reputation and to desire that he would acquaint him with the Instructions he had received as Barrack Master on his Appointment to that Station. His Answer was that he had never received any written or verbal Instructions previous to the arrival of the President on this Country that it was customary for all Orders respecting the Barrack articles such as Oil C. Potts, Matts, Cotts, &c. to be made from the Quarter Masters of Regiments to the Civil and not the Military Paymaster; that he had seldom seen these Indents, and that the only duties required of him as Barrack Master was the arranging of Quarters, and the

Countersigning

Countersigning of Bills for House Rent. The President thinks it a Justice which becomes to the arrangement that was established 12 Months ago, to state those Circumstances to the new Members of the Board, who will be judge of the Material check and Controul which the new arrangement possesses over the old.

Mr. Maunsell in his Letter to the Barrack in the room of Mr. Latham, adverts to the Remark in the President's Minute, "That there can be no Interference of a Barrack Master at Madura." The President still adheres his Corrections in that Respect; because the authority of Barrack Masters does not extend to any Garrisons or Cantonments, but where there happens to be European troops quartered or as there are no European troops quartered at Madura and the Garrison is wholly Sepoys, the Barrack Masters Authority does not extend to that Garrison, although it does actually to Trichinopoly where the 1st Battalion of Europeans, and the 2d Battalion of Artillery are stationed. The 3d Article of the Barrack Masters Regulations, dated the 26th Sept. 1786, goes expressly to confine the attention and Duties of a Barrack Master to Garrisons & Cantonments only, where European

Troops

Troops are quartered.

The President has neither Time nor Leisure to follow Mr. Maunsell through the wide Field of political Speculation, with which he concludes his Minute; nor shall he presume to speak so decidedly as he does, respecting the Merits of the late Act of Parliament. But if Mr. Maunsell can convince the present Administration that the change of System which they have been pleased to adopt, is hostile to General Advancement; That it tends in a General View to depress the Spirit of the Service; That it is detrimental to the Company's Affairs in India; the President has no doubt, but such alteration will take place as may be deemed necessary for the Good of the Service he must however beg leave to observe; that Six Months is extraordinary That any Servant of the Company, much more so, That a Member of this Board should oppose his Sentiments so confidently, to those of the Court of Direction and the Legislature of England.

Fort S. George

Honble Sir & Sirs

We have the honor to lay before you Copy of a Letter from Mr. Edward Garrow
Contractor

Fort S. George 19. October 1757.

From the Committee of Works, with Letter to them from Mr. Edward Garrow Contractor for Repairs requesting Sei Accounts.

Contractor for Repairs, together with his Bills, certified by the proper Officers, for Work done by him to the 1st Instant, amounting to Pagodas 28813. 23. 57. likewise an Interest Account and Account Current to the same Date We also lay before you Mr. Garrows Bills for Work done at the Company's Garden house, by directions from the Select the Governor, amounting to Pagodas 13,329. 25. 15.

We beg to offer it as our Opinion that Mr. Garrow from the Tenor of his agreement with us is intitled to Interest from the Date when his Bills were delivered in. With respect to the deduction of 7½ Cent from the Amount of Work exceeding 500 Pagodas in the Price, we request to submit to your Honour & Consideration whether it should be given up for the reason set forth in his Letter.

Mr. Garrows Accounts with the Committee of Works cannot be made up from their Books, nor the Balance ascertained until the Bills which accompany this together with those submitted to your Honour Select by your Letter of the 9th January last, and others outstanding before that time are passed by you and returned to us, to be entered to his Credit in Account We have the honour to be

Robert Mainsell Esqr
President &c. Members of the Committee
of Works.

Gentlemen,

I have the Honor to transmit to you herewith, my several Accounts of Works executed to the several Forts, the measurements are certified by the Chief Engineer Price, by the Commissary General agreeable to the Rates accepted of by the Governor and Council the 28th March 1786.

Having with permission of the Honble Governor in Council arranged the Contract at December very necessary for me to explain the Situation I stand in with your Committee, and of course with Government.

The Amount of Cash on the part of the Company for some years back to discharge my Bills upon receipts when regularly certified, I have been under the necessity of delivering in at the same time Accounts Current, to show the actual Balance due to me at particular Periods, the mode on which my Bills are subsequently adjusted or under what particular

957 Fort St. George 19th October 1787.

particular Heads they are carried to Accounts in the Books of the Committee of Works, I am entirely unacquainted with: my duty with the Committee, in the way of Account as Contractor, goes no further than to make out my Bills when I have executed a Work agreable to the Terms of Contract and when certified by the proper Offices, to get them paid.—

Being under the necessity at any time of keeping a running Account was a real hardship upon me—my Bills when properly certified & suspended the Payment of them of course, as in every other Branch of the Service it was so stipulated in a Special article of the contract for that purpose, but the wants of Government made them unable to follow up this original Agreement.—

Upon Bills which had been certified, and had passed thro' your Committee to Government I was paid by an order of Council of 30th December 1785 Sixty four Thousand Pagodas agreable to my receipts to the Committee of Works of 12 January 1786 of this Sum two thirds was by Bills / or rather Bonds / on Bengal, and the Balance due to me was thereby reduced as p Accounts delivered to the Committee of

958

Fort St George 19th October 1787.—

of 1st February 1786 to four thousand four hundred and sixty nine Pagodas thirty one fanams and three Cash (4269 31. 3.) S.P.C.

From the last date of 1st February 1786 I now carry on my Accounts Current of Debits, and Credits to the present day taking permission first to state what passed immediately afterwards.

The method which had been followed to liquidate my Balance subjected me to prodigious loss by discounts independant of the length of time I had been out of my money. This loss was particularly large on the Bengal Papers, when Bonds not paid, in the manner it was expected from the Lenders of it, and by it, Sterling less than 2s 6d Cent; this circumstance, with Letters from my Attorneys who addressed the Governor General and Councils on the Subject but it produced me no other Answer than a Letter from them to this Government, an explanation of their original intentions with respect to this Paper—when I found consequently so great a diminution of my property it became essentially necessary for me to be at a certainty on my future Engagements with the Company when the Committee therefore forwarded to Government my Offers for encashing the

Bonds

959 Port St. George 19th October 1787.—

Works for Two years from March 1786— Those offers, especially provided for my being paid in money for the Work executed, for its equivalent, and this is particularly expressed in the Contract drawn out by Mr. Solicitor Baker, from my letter, and forwarded to your Committee— any other mode of Payment at the low Rate I offered would have been a certain Ruin to me, nor would I on any Account have undertaken the Works.—

I was furnished with the following order of Government by the Secretary when the Terms I offered to carry on the Works for Two years were accepted of.—

Order of Council 28 March 1786

"The Board approve the renewal of the Contract for repairs with Mr. Edward Garrow— and agree to inform the Committee of Works, that in future the Liquidation of Mr. Edward Garrows Bills must be made by Treasury orders payable in Cash, at Six Months, date receivable in payment for the Company's Staple Commodities at the Market Price of the Day.—

Upon these assurances from Government I proceeded on the execution of my duty, my certified Bills with the Dates they bear, & how completed shew how correct I have been in fulfilling my part of—

Fort St. George 19th October 1787.—

of the engagement and that independant
fair & unimpaired State of Health, after
following this laborious Business upwards
of ten Years, the Balances which have
accumulated upon me on Account of the
Company's Works, for which I have
all along paid the High Interest of
12 P Cent would inevitably have obliged
me to resign my Office; The Prices
I now pay to Artificers of every Description
and for Materials of every Kind are
higher than were ever paid for them
before in Times of Peace my Charges
as Contractor for the Works are lower
on the Offers of 1786— than they were
ever executed for before.—

These Facts are within the
Knowledge of that Committee, I have now
the Honor to address to— and are known to
every Person in this Place the least
conversant in Business.—

In the Account No 2. I have stated
the Amount of Interest on my Bills from
the Date of their being certified or delivered
into the Committee of Works.—

Their being certified ignoritably
must happen a considerable Time after
the Work is done, owing to the Record
it takes up to examine and square the
Measurements

961 Fort St. George 19th October 1787.—

Measurements, the prices on the Work &
&c. on the Bills I now deliver, I make
no charge of Interest, tho the Work
was the greatest part of it measured
in the month of June last, I have given
the Company Credit on the same
Account for Interest on all advances made
me expressing the date on which
I have received such Advances.—

Interest was allowed me under
the same Circumstances in the year
1785.—

I have deducted 7 P Cent on the
Accounts for the Poolmanally Cantonments
beg leave to refer the Committee to my
Accounts for Work of the same discription
at Poolmanally in the year 1786

I had this deduction given up to
me, in lieu of my making any Charge
for advanced Pay to Artificers, & for
Cooley and Cart hire, on Materials sent
from hence of every kind Bricks &
Tyles excepted.—

I again lay claim to this
Indulgence under the same circumstances
and I flatter myself with this additional
Force of reasoning, — the Cash for the Work
being

962 Fort St. George 19th October 1797

being then a great part given me in
Advance. -

I enclose also the Accounts of
expence incurred for the Garden House,
I make no charge of Commission and
only the Bonne Coil for the Materials
and labour, and Interest from the Period
I close my Accounts of Disbursements
20th February last, to the present Day
if Government can make me an
allowance for my trouble, they will
I trust do it. -

The Circumstances I have recited
in the foregoing part of my Letter, I
judged it necessary to state for the In-
formation of the Committee, the Works
I had undertaken some time Since
I received positive Orders from Government
to be completed, and I am making
every exertion on my Power for that
purpose, when finished the Bills of
costs will be laid before your Committee.

It is unnecessary for me to say
how very much I am distressed, - the
Balance due to me on the Accounts
I now deliver in Amounts to Fifty
one Thousand Five Hundred and Sixty

charge every succeeding month and it was upon this ground that he was required to refund the amount he had thus drawn from the beginning of March which circumstances we think it necessary to mention for the sake of being correct & in explanation of our measures.

Our Chief in Council informs us, that while a Member of the Superior Board he had some recollection of a claim having been made by Sir Thos Munro on account of the Honble Mr Cadogans Estate, for the Amount of the Bullocks captured with Colonel Baillies Detachment in which Number the 129 Bullocks with which Mr Westcott may have furnished Mr Cadogan who was Paymaster to the above Detachment, were probably included - The Number if charged at 4 Pags p Bullock which was the Price paid to Mr Westcott for the then Bullocks furnished by him during the War, would amount only to 516 Pagodas, whereas the overcharge upon his Contract for supplying Bullocks for the Service of the District, as

Minutes of last Consultation

Read & Approved

The Intelligence this Day

laid before the Board by the President as

Minuted on the Secret and Political

our former Accounts of Tippoo Sultaun

being busily employed in collecting

a Numerous Army, and a large Train

of Artillery on the Neighbourhood of

Seringapatam, and of his hostile Intention

from against the Company and their

allies; it behoves this Government to

adopt

Measures taken by this Government in consequence of Tippoo's preparations for War.— The fifth Regiment of Native Cavalry to be raised— The Establishment of Provisions for a Body of native Cavalry reduced to Sixty.—

Fort St. George 27th October 1787

adopt such prudential Measures, as may
tend with the least possible expence
to put the Carnatic in a proper posture
of Defence. - The Frontier Garrisons
have been accordingly reinforced with
Artillery, Military Stores and provision
and the out-Detachments called in to
render their respective Corps as
complete & collected as possible. -

Agreeable to the Spirit of the
Instructions transmitted by the Honble
the Court of Directors in their Letter
of the 21st Sept. 1785 - last, the present
complexion of Public affairs would
have sufficiently warranted a very
considerable augmentation of our Force
to enable us to check the
ambitious Views of Tippoo Sultaun:
But as such an augmentation would
greatly increase our expences, which
on every Principle of sound Policy
ought to be studiously avoided to the
last Moment; the President in his
Character of Commander in Chief recommends to the Board, that the 2d Regiment of

Fort St. George 23d October 1787.

Sir

Native Cavalry which was originally intended as a part of the Peace Establishment should only be raised on the present Occasion because if longer delayed there may be great Difficulty of Obtaining good men of high Cast for this particular Corps. The Commander in Chief has at the same time represented to the Board, that at the Original Establishment of a Regiment of Native Cavalry has 8 Men more in every Troop than are necessary to form a just Arrangement of Duties for actual Service he proposes to disengage all the Eight Supernumeraries of each Troop from the present Four Regiments, as a Foundation to form the 5th Regiment upon. The Commander in Chief is of Opinion that by such an Arrangement the Cavalry Establishment will be considerably improved and that every considerable Expence will be saved in the Recruiting of the 5th Regiment of Cavalry.

The Commander in Chief further proposes the following Promotions as Consequences of the augmentation of the Establishment.

Captain Henry Darley to command the 5th Regiment of Native Cavalry Cornet Henry Montgomery to be Adjutant — and Cornet

of Appointments in consequence of the augmentation of the Establishment

982 Fort St. George 23.d October 1787.—

Cornet James Dunn to be Quarter Master

Cornet Robert Price to be a Lieutenant of Cavalry and to rank from this date.—

Cornet Alexander Deas to act as a Lieutenant of Cavalry from this date vice Pogson on half Pay.—

Promotions to complete the European Infantry.—

The Commander in Chief likewise recommends the following promotions to complete the European Infantry.—

Conductor of Stores Mr. Randolph Little Shales and Mr. Patrick Macdonald Gent.n to act as Ensigns of Infantry from this date and until the pleasure of the Honble the Court of Directors shall be known.—

The foregoing to be published in General Order.—

The Board approve the foregoing Arrangement and recommendations of the Commander in Chief & it is accordingly Agreed that the necessary G.O. be issued for that purpose.—

Read the following Letter from Colonel Nixon.—

To John Shannier Esq.r
Military Secretary.

to Madras I will have the honour of Shipping you a Line & wish heartily by them, in order that we may be examined all Accounts Seem to confirm Tippoo to be determined on War, & that he is to march either against Travancore or to Adoni, these various reports are purposely given out to confound & mislead mens Opinions with regard to his true destination. I am Informed that his Field Pieces, only Seven, seem to be sent on War, he consults with none, but acts solely from his own plans, & conducts them with great respect

Read the following Letter from Captain John Hamilton

To Major General Sir Arch.d Campbell Kt.

Governor & President &c. of Fort S. George

Sir

From Captain Hamilton of the 71.st Regiment requesting a Reimbursement for a House built by him at Arcot. —

In the year 1784 when part of the Army marched into Cantonments at Arcot the superior sort of Monument houses, were allotted to the Officers as their Quarters & a small allowance made, to part them in repair. —

I was at that time on a detached duty from the Regiment upon my rejoining, I found all the houses pre-engaged, and occupied, nor could General Allan Campbell (who at that time commanded) afford me any accommodation, he however gave me permission to build, which having no other resource, I did, on the Fort; at a considerable expence

expence to myself, without any Publick
assistance, or allowance whatever. I build
a neat, comfortable Quarter, of burnt brick
and Chunam, with a Verandah all round
necessary Offices, and a Garden, which
cost me about Four Hundred Pagodas,
and was but just finished, when I was
removed with the Regiment to Madras.

I believe it to be equally the wish
of the Commander in Chief, and of the
Fortific Board that Officers should obtain
Houses be quartered as contiguous to their
Men, as conveniently can be, a circumstance
which must enhance the value of my
house, as there is but three other Officers
quarters in the Fort of Arcot, where the
4th Madras Regiment is at present
stationed, an Officer of which now occupies
my House as the enclosed Certificate will
inform you; in consideration of which
I hope the Fortific Board will see no
impropriety in my requesting to be
reimbursed the expence I have incurred
or at least that a reasonable Allowance be
made to me, on account of that Quarter, which
is become a Publick benefit.

Honble Sir

Since I had the honor of addressing you on the 6.th Instant I have received satisfactory Replies to my remarks on the Military Paymasters Generals Accounts for 1785 & obtained regular Vouchers, except for the Allowance drawn by Surgeon Thayer Lucas from January to August inclusive. The Rank of Surgeon Major not having been granted for Bl.d Lucas drew Fifty Pagodas per Month more than the Allowance to Senior Surgeons; an Increase which he thought proportioned to his Superior Rank; & some Compensation to them for the Loss he sustained on the Liquidation of his Accounts, by being obliged to take Paper in payment of them: as he

he had no authority for it the charge
is submitted to the determination of your
Hons. &c. before it can be passed in the
Military Paymaster Generals Accounts -

Mr. Lucas also drew Les Pagodas
House Rent, instead of five, for four Months
he also drew Pagodas 16. 9. 7. from March to
August inclusive, besides the Sum above stated. -

As the Court of Directors have
been pleased to disprove of the allowances, drawn
by the present Physician General Mr. Anderson
on the year 1785. Mr. Lucas flatters himself
that you will admit of those drawn by
him for the same year.

The Accounts of the Paymasters
at Ongole, with the Superintendants for the year
1786 have been examined & compared with
the Vouchers, which are agreeable to the
Regulations. -

have discontinued since April 1787, and to ensure the safety of the Despatches without the Company's incurring any expence, I have recommended to the Commanding Officer at Madura to apply to the Collery Chiefs to escort the Company's Dispatches from Europe, or if necessary on such particular occasions to employ a Sepoy and pay them Batta. -

The Monthly allowance of 13 Pagodas for a Longuist & 4 Peons has likewise been discontinued. -

Mr Shulton entertained in November & December 1786 an Additional Conveyly for the Stores at the Monthly Wages of Pagodas 5. 39. 16. and in December 1786 an Extraordinary Conveyly for the Paddy Godown at Pagodas 2. as there are above the Establishment the orders of your Hon.ble Bd are necessary before these charges can be admitted. -

may be omitted

In the Inclosed Acct with the Superintendent for 1786 there is an over Charge of Pagodas 150 paid to Mr Gray for House Rent to which he was not entitled, as he drew Batta for that time. This I have desired Mr Gray to refund, & it will be brought to the Company's Credit in his Accounts of last Month. -

Pondicherry

Sir

To General Conway stating the Results of an Investigation into the Rights of the Nabob of the Carnatic to the Collection of duties in and near the Town of Pondicherry.

I have the honor to acquaint your Excellency's Letter of the 19th October with Dispatch of a Ship for Europe

1017 Port S. George 2. November 1787.

Europe had occupied my time so much that I found it impossible to investigate the Subjects of your Letter until now, or to have that full Discussion with the Nabob of the Carnatic which would enable me to write with any degree of Precision.

In the course of investigating the Rights of the Nabob to the Collection of Duties within & without the Town of Pondicherry I find that it has been constantly maintained by the Nabob and the English Government and was formally recognized in the treaty of Peace entered into between the French Government of Pondicherry & His Highness the Nabob of Arcot in the year 1765

I observe that all former treaties between the French nation & the Nabob of the Carnatic were confirmed in the 1755, by the third article of that of Cession of the Districts of Valanour & Bahour which of course includes the said treaty of 1765.

I also observe that the Rights of the Nabob to the Customs dependent on the Havelly Purgunnas & Cusba of Waldour, was very fully discussed by Mr Duncan

1018

Fort S. George 2.nd November 1787.-

Decontenoeau & Mr. Floyer at the time they settled the Cession of the stipulated Districts to France and Spain conceive that the Subject was afterwards renewed in a Correspondence some Time between Lord Macartney and Mr. De Contenoeau, which ended in a mutual agreement to refer the matter in Doubt to the Courts of Paris & London.

The Question being thus reduced a Reference to our Superiors in Europe I do not conceive that it is necessary to enter into a Discussion on which every thing has been already said that can elucidate the Tendencies of the Treaties.-

I wish your excellency for your own Information could peruse a Letter written by Lord Macartney to Mr. Contenoeau on the 18.th Febry 1775, it contains a State of Facts and Arguments which seem to me to be conclusive of the Question in Dispute.-

Having stated these observations with a view to satisfy your excellency as to the Rights of the Nabob, I have very great Pleasure in assuring you, that his Highness concurs entirely in Opinion with me, That while he preserves the just Rights of his Crown, it is his wish that

That it may be done in a manner that can neither be burdensome nor disagreable to your Excellency or the Inhabitants of the French Boundaries. I beg to hear from you on this Head, and permit me to assure your Excellency that upon this and every other occasion, you shall find me ready and willing to promote by all the means in my Power, the utmost Harmony and Cordiality between your Government and that of Fort St George.

His Excellency
Sir Archibald Campbell K.B.
&c. &c. Commander in Chief

Sir,

I upon Lieut. Colonel Goils stating that he was detained at Bombay on his passage to England, by indisposition, & requesting that his Pay & allowances for that period may be discharged

I take leave to state to your Excellency; that in Sept. 1784 I had permission of the Right Honble President and Select Committee, to proceed to England, in order to its being determined by the Court of Directors, conformably to the Committees reference to them, to what Corps I was to belong and be finally placed in that I was upon terms with Capt. White of the for a passage, but pending his terms & reconsidering the Accommodations offered I had a Verbal permission from My Lord Macartney to go round to Bombay, in order to get a passage from thence.

At Bombay I was seized with a severe and violent distraction, which entirely incapacitated me from availing myself of the opportunity either the Europa or the only two Ships that sailed from Bombay that Season.

I address the Government of Bombay on

I was finally necessitated to proceed by the way of China, by which I was detained a Compleat Year in the Country longer than I intended, & to which may be imputed, among other unfortunate circumstances my present unlucky reduction. –

Some of the Papers I delivered to the Commissary General to be shown to your Excellency, there I have mislaid, which is immaterial as the Bombay Correspondence between January & June 1784 if necessary to refer to must contain them all. –

I have to request your Excellency to say, from what Funds under such circumstances I am to pay & allowances should cease & determine.

My Lord,

To Bengal, informing them of the Board's having anticipated the contents of their Letter respecting the Accounts of the Kings Troops — their attention will be paid to the Instructions received from the Governor General in Council, on this Subject

We have had the Honor to receive a Letter under date the 7th Ultimo from the Supreme Board on the Subject of accounts required by the Court of Directors relative to the Kings Troops serving in India.

We have in the month of August last anticipated the Contents of the above Letter by appointing a Committee of three of the Company's Covenanted Servants to prepare & lay before us the Accounts which the Court of Directors required in the Letter to the Bengal Government of the 27 March last, of which they furnished us with an Extract.

We shall order the Committee to attend immediately to the Instructions from the Supreme Council & shall lose no time in forwarding to your Lordship

Fort St George 6th November 1787.

Sir

I am desirous that when I was Paymaster on the Circars I built a House near the Fort of Ellore for my own Residence which has since my Removal from that Station been kept in proper Repair — If the same want of Quarters should still exist I beg leave to offer this my House for sale to the United Company and do hereby submit the amount Purchase together with the mode of Payment to your Honor in Council

As I am settling my Concerns previous to my intended Departure for Europe by one of the Ships of this Season I humbly request to be honored with the Resolution of your Government upon the Proposal herein made. —

Honble Sir & Sirs

From the Chief Engineer on the Subject of Repairs wanting at Manulipatam.

Captain Prescott has acquainted me from Masulipatam, that the season is now approaching there wherein the necessary Provision of Bricks, Chunam &c. should be made for the Works to be carried on in the course of the year. He at the same time recommends the prosecution of the general Repairs formerly observed by the President and Council and ordered for that Fortress, pointing out the Reform of the Royal Bastion as the most essential to be undertaken

The Reform of this Work will no doubt materially strengthen the Fortification and the Casemates prove of much convenience Buildings of that description being much wanted there.- and the Terms on which he proposes to execute them are such as we hope, enduce the Honble Board to direct that they be carried on during the favorable season.-

The Tally Ports instead of being

The advantage in additional height to the Bastion proposed by Captain Prevedt & Lieut. Pierce, are I would therefore recommend the Parapet of the Royal Bastion being kept on a level with the Ramparts of the Collateral Works.—

The claim of Lieut. Macintire for

prison batta &c. appearing to require some

explanation, We directed our Secretary to request

his attendance. Having proposed several questions

to him respecting the Authority and grounds of

his application; Lieut. Macintire informed

us, that he had been ordered by the Commander

in Chief to proceed on board the fleet, to reinforce

the garrison of Trincomalee, where he was

captured; and remained a prisoner with the French

about two months; at the expiration of which,

he returned to the Presidency with the rest

of the Garrison in a Cartel Ship.

Lieut. Macintire acknowledged

that he had received full batta, during the time

he was absent on the above service, but considered

himself entitled to continue to draw that

allowance, so long as the army remained in

the field at the Mount.

On the subject of Casualties,

Lieut. Macintire acquainted us, that his

application

1043.

Fort St. George 13th November 1787.

Application was for those of the detachment of European Artillery, and native Infantry, which was on board the fleet, in the action with Mons.r de Suffrein. Lieut. Macintire allowed that he had not had the payment, of either the Europeans or natives, composing that detachment, the whole, according to his own information, having been paid by Captain Bonnevaux, on their arrival at Trincomale.

From this State of the circumstances of his case, it is evident to us that Lieut. Macintire has already received every allowance to which he is intetled, and We are therefore of opinion that he has no foundation for any further claims of whatever.

We have the honor to be with perfect respect.

President's Minute

November 13th 1787.—

The President informs the Board that he has examined the Account of Military Stores, together with the remarks and recommendations of the Military Storekeeper and Commissary General of Stores; and is of Opinion, that from the manner in which this important department is now Arranged, there is every reason to expect greater expedition, regularity and Correctness than have been hitherto observed in the receipt and delivery of Military Stores, and such an Operation of effectual Checks as cannot fail to render frauds and imbezzlements in future impracticable.—

President's Minute respecting Military Stores.—

The President recommends that all Saleable Stores which are the property of the Company, whether they have been brought directly from Europe, or from any

of the other Presidencies in India, which have not been regularly entered; be immediately brought to Account in the Books of the Military Storekeeper, as recommended by the Storekeeper and the Commissary of Stores; That all the unserviceable Stores be sold off at Public Auction that the Amount of Sales be stated to the Credit of the Company, and all deficiences over-taken off the Books of that Office.—

With respect to the Ordnance and other Articles of Military Stores, which have been taken from the French or Dutch during the late War and lodged in the Arsenal, and to which the right of property is still undetermined, The President recommends that an exact Return of them be likewise made out, and delivered to the Board, for the purpose of being transmitted to England by the first Dispatch for the Final order of the Court of Directors and in the mean time that they be kept apart from the Company's Stores, and upon no Account to be issued without an express order

Fort S. George 13th November 178[illegible]

Letter of the 18. Febry 1785. as conclusive, I think
that Mr. Cantenneau should have insisted on the
suspension of all Collections, until the Decision
of Our Courts could be known under an Agreement
of indemnification if that Collection should be
allowed, supposing that, that determination
had not been favorable for us, I am fully convinced
that the Arrangements adopted in Europe on
that point will be conformable to those Generous
Principles of Equity and Reconciliation, which
at this day direct the Cabinets of Our Sovereigns.

In waiting for that Determination,
I think it may be possible to lessen the embarrass-
-ment of our Situation, and your Excellency's sentiments
inducing me to make you a proposal, which will not
be incompatible with the manner which it
ought to be expressly determined on in Europe
- I hope, then, that Your Excellency will have a
place on our boundaries and somewhere else, the Collectors
of the Nabob, these Collectors situated almost
under the Walls to the South of the City behave
extremely ill, levy the most Arbitrary & unwarrantable
Taxes,

1052

Fort St. George 13. November 1787-

Taxes which subject them to be insulted &
ill treated, tho' I cannot look upon the Rights
of the Nabob as altogether indisputable, I will
containly not neglect every precaution to prevent
Disturbances, but as I am a Witness to the
strong sense entertained by the Inhabitants &
the Troops at the Conduct of these Collectors &
I wish they were farther off, because I have
anxiously at heart to remove the most trifling
event that can in any Manner disturb the
harmony which happily subsists, & I hope will
long continue to subsist, between our Sovereigns -

of the detention of the Vackeel Ramroo, but I did not give credit to it. I am actually certain of it now as that news is confirmed by your Excellency. I acknowledge it astonishes me. Ambassadors and Envoys of different Powers are reciprocally respected in all Countries, and every where in time of Peace. The Measures taken by the Rabob of the Carnatic to secure Vagabonds who rove about in his Country, cannot any way Regard the Vackeel Ramroo, who had been furnished with a passport of any predecessor. Your Excellency must know that that form of Passport suffices in Europe to secure a free passage to all travellers, because the passport cannot be considered as an Order that any power has a right to give in the Countries of other Powers, but as a certificate that implies that the Person furnished with such passports is known, and that he has only just intentions.

The Expressions made use of in your Excellency's Letter, evidently shew that

that you have disapproved of this proceeding which is so contrary to the Law of Nations.—

I would adopt very willingly the your Excellency's proposal respecting Passports, did I not conceive it would be authorizing in some degree the restraint that Indian Princes impose on Europeans, and I doubt not that after your Excellency's Representations, the Nabob will order that for the future every one shall pass unmolested who is furnished with my passports— he should be well convenced that it is to my advantage to grant these permissions with every proper Precaution, and to those who will not abuse them.—

I have the honor to be.—

To the Honorable. Major General Sir. Arch.d Campbell K.B.

Governor in Council

Fort S.t George.

Honorable Sir,

From Mr. Lind, requesting the Board will purchase his House built at Nellore while in the Paymaster-ship of that Garrison.

More than two Years having elapsed since my recall from Nellore, to the Presidency, and seeing no prospect of being reappointed to my former Station, induces me to represent the following particulars entertaining a well grounded confidence that the Honorable Board will in consequence thereof, deem me intitled to the indulgence I am going to solicit.—

On my arrival as Paymaster of Nellore I found the House allotted for my residence, only consisted of one House, and a Bedroom, built partly of Mud, and the whole in such an indifferent State as scarcely to be tenantable; such Quarters in respect to myself

4a

1056 Fort St. George 13th November 1787.

Myself individually, would have served, but
were infinitely too small to have accommodated
a Family— The certainty of Mr. Lind, having
embarked for India, and the persuasion of
my being in a Stationary Appointment, made
consideration which operated forcibly with
me, in building a House &c. and a further
inducement for this step, will naturally
suggest, when it is considered that every
succeeding Paymaster, generally recompenses
his Predecessor, for such an expenditure—
The restitution of the Assigned Countries,
to His Highness the Nabob, and the consequent
removal of the Troops from Vellore, an event
totally unexpected by me, frustrated my
expectations and precluded me from the
advantages, which others under a parity of
circumstances would most probably have
derived, of course my house remains unoccupied
and undisposed of— Thus situated, I am
impelled to request of Your Honor &c. to
purchase them on Account of the Honorable

Company, and I trust that if Government will be pleased to refer the valuation of them either to Lieutenant Kefsel back (now here) and under whose directions they were built, or to Engineer Mackenzie Commanding at Nellore they will find that my estimate of them Viz.t 3,500 Pagodas is much below their real value.—

Fully sensible of the urgent call Government have for every Pagoda in the Treasury, I would therefore willingly accept of a Bond, bearing the usual interest in payment of any Sums &.a

His Excellency Major General Sir Archibald

Commander in Chief

Sir,

I have thus long deferred doing

From Major Burrowes stating the Repairs wanting the Commanders House at Madura

myself the Honor of addressing you, with a Representation of the Hall of the Commanders Quarters here Conformably with your desire Until I could inform myself of the particulars of them, & of the probable Expence which might attend the Repairs. —

Upon the most Minute examination together with the Brickayer Master, I have found the Walls to be of sound & Good, but the Roof in every part of the House, except One Room & a Closet, which I convey seems in very great danger of falling in. The Beams must have been of a very bad kind of Timber - or put up

when

1059

which Green for they have decayed & given way, there are at present in the Principal Room no less than Six props to keep up the Beams, & the lesser Room have them in proportion. —

The Terrace was made

Considerably too thick & Heavy, which adds a very great Unnecessary Weight on the Timbers, & there are besides two Turrets built on the Top, which must have contributed in some Measure to Injure the House, & these Should be recommend should be taken down to prevent their further Mischief—

As soon as the preceding

Commanding Officers judged the House to be in too dangerous a State to live in, the Offices have consequently suffered a good deal, & they will Require a Repair before they can be useful. — In fact the Houses & Offices have been so much Neglected that may be

freely said, without exaggeration they are in every respect in a Ruinous Condition,

the Sea Walls only excepted. However by a making a Proper distribution of such Materials as there are, & employing the means which may be had there with care, the Repairs will come under what might be expected, & the House put in such a State as well be permanent. —

By what can be Judged from every Information I have had: the Repairs may be effected for about Five Hundred Pagodas. Whatever Mode you may be pleased to adopt for carrying them into execution, shall have every Assistance in my Power, & must beg leave to use the Liberty of your final Decision, as Considering the Situation of the Cause every day becomes more Serious Grave. —

Minutes of last Consultations

Read the following Letter

from the Military Paymaster General.

To the Honble Sir Archibald Campbell K.B.

President in Council

Fort St. George

Honble Sir,

In consequence of the

order of the Honble Board in their Letter

from the Military Paymr. of

1090.

Fort St. George 20. November 1787

Paymaster General enclosing a Comparative Statement and General Abstract of the Expences incurred on the Barrack Masters Department for nine Months previous to the present Arrangement when the Articles were provided by the Paymasters & nine months subsequent to when they were provided by the Barrack Master.

Sir

In obedience to your Orders of the 2d. October I have the honor to enclose Statements of the Expences of the Barrack Masters Department for Nine Months, commencing September 1786 compared & with the expence arising from the supply of similar Articles to the Troops by the # different Paymasters for Nine Months & previous to the Appointment of the Barrack-Masters— I have devided the statements in order to render them more clear and comprehensive, in N°1. for each Garrison, is the Comparative View of the whole # Amount charges monthly for the supply of the Troops stating likewise the Number of Men the Average Monthly Expence & the encrease since the Appointments took place on Sept.r 1786— In N°2 is the # comparison between the prices charged for each Seperate Article, by the Paymaster and Barrack Master as far as we have been

Fort St. George 20th November 1787.

been enabled from the Accounts to draw a
comparison by the Barrack Regulations
many Articles which were deemed necessary
for the use & Convenience of the Men, were
Ordered to be supplied, which had never been
furnished before by the Paymasters, of course,
no statement can shew the difference of the
prices in those Articles - In order to give
the Board the fullest information possible
on this Subject, wherever it was in my
power to ascertain the difference, I have
made a third Statement N.3. - shewing
the expence of supply of 100 Men as it
appears from the Paymaster's Accounts
previous to the Regulations when the
supplies were made upon Indent of
the Quarter Master. & the Amount &
expence of the Supply of 100 Men since the
Regulations took place, which ordered
a Certain Monthly supply to be given - &
have supposed the prices of the Articles to be
the

Fort St. George 20th. November 1787.

the same as what is charged by the Paymasters
- I have supposed Non Commissioned Officers
to every 90 Men, this shews the Amount of
the encrease of expence of 100 Men Authorised
by the Regulations - & has been deducted
from the General encrease - the cost of
Dooley to the Battalions of Native Infantry
has also been deducted, this Allowance never
having been made before what still appears
to have been encreased in the Amount &
may partly arise from the encrease in the
price of the Articles from the Supply to
the Serjeants of the Battalions of Native
Infantry & in part from an encrease
of Pit to Gates, Guards, &c. which can
only be explained by the Barrack Masters
to whom a reference may be made as the
supply at Arcot, Poonamallee & the
Mount varied considerably every Month
I am obliged to make a Statement of the
whole

1093.

Fort St. George 20th. November 1787.

whole quantety for the 9 Months & take an average of the whole, which will appear by the Paper No 4 for those Places.—

The Statements for the Southern Garrison's Vellore are drawn from Accounts delivered to me by the Superintendent, as the charges for those supplies were always carried into his Accounts they do not show the prices so fully, or the amount of the expence of 100 Men, as I could wish, but I did not think proper to delay sending in the Statements any longer I have therefore taken the same average as appears at Madras in the supply of 100 Men & deducted it from the Amount for Tanjore & Trichenopolly

I have not included the Pay of the Barrack Masters being 10 ½ day & Batta 48 Pay.s p Month not knowing if this comes within the intention of the

1094. Fort St. George 20th. November 1787.

The Board or not I have included the cost of the Cotts in a Column by itself as no comparison could be made between those formerly supplied, & those ordered by the # Regulations. the former (Common Cotts) having been furnished every Quarter & the number of Men # continually varying there is no fixed rule to go by the latter are intended to last three Years & to # cost Pag.s 4. - while the supply of the Common Cotts for the time, would cost the Company @ 25. Fan.s each, Pag.s 7.. C.. - this supposing the number of Men to continue the same for three Years produces a saving to the Company of Pag.s 3.. C.. & Cott for whatever number might be supplied in that time. - I have made a General abstract of the whole specifying the encrease at each Garison upon the Monthly Bills some the Appointment of the Barrack Masters in one Column & in the other have shewn the Amount of the encrease after deducting what has been allowed by the Regulations more than was formerly supplied

I trust the Statements will furnish every information that is required by the Honble Board as they are as full as I am enabled to make them. —

I have the honor to be

Sir &c.

Ordered

Fort St. George Abstract

1096.

Fort St. George 20th. November 1787.

The Statement lodged in the Office.

Ordered that the Statements &
referred to in the Abstract to be lodged in the Office
Mr. Maunsell begs leave to
enter the following Minutes.—

Mr. Maunzell's. Minute
19th. November 1787.

Mr. Maunsell's Minute on the foregoing Subject. Him reply to the Presidents Minute in Consultation the 13th Octr. last.

The Statements which I
requested might be laid before the Board &
being delivered in, I shall take the Liberty &
to make a few Observations upon them, and
upon the President's last Minute. agreeably
to my Declaration at our Meeting of the
13th. of October.—

I shall not take up the time
of the Board in replying to the personalities,
which the President has so copiously introduced
in his Minute, nor shall I descant upon &
the harsh stile in which he has thought
proper to comment upon the Opinion of a
Member

Fort St. George 20th. November 1787.-

Member of Council, who found it necessary to record
Sentiments different from hers- I shall
confine myself to reasoning upon facts &
proceed to quote first the following Words in
the President's Minute, "As the Court of
"Directors will now be in possession of every
"Fact, that is Material for their Information
"any further Discussion can only proceed
"from Motives very different to any Wish
"of promoting the Interest of the Company"-
as I cannot admit these Premises I must
beg leave to reject the Inference.- Every
Fact material for the information of the
Court of Directors is not, as I conceive,
before them and I cannot avoid applying
to the Presidents' Minute the Character
he would fix on one, that his animadversions
may mislead if not refuted, & his general
Assertions if not contradicted, leave a wrong
impression on the Mind-

The

Fort St. George 20th. November 1787.

if in their predicament, they are "discontented"—

The Statements I called for are now before the Board, & abundantly prove that the Subject merited Investigation, & that instead of a considerable Annual Saving, there is an enormous annual Encrease of Expence.—

The Regulations respecting the Cotts do I must produce the Saving, as stated in the Military Paymaster Generals letter of the 14th. Instant provided they are made equal to the Master Cotts.— this originates with the President, & can confer on the Barrack Masters no Claim to Merit

The encrease of Expence is principally owing to the enhanced Price at which the Barrack Masters charged the different Articles at all the Garrisons & Cantonments within the reach of their Influence & avails their advantages beyond the Level of what they were in the hands

Fort St. George 20th. November 1787.

hands of the Paymasters, about Pags. 12,000 in Nine Months, or 16,000 Pagodas ℔ Annum, & in consequence so much in direct Detriment to the Company; it also appears by the Statements that the new Arrangement exceeds the old at least 10,000 Pagodas ℔ Annum making together an Increase of ℔ 26,000 ℔ Annum from which no deduction has been made for the saving that may eventually accrue on the new constructed Cott.—

The statement which shews the quatenenace of Charge upon the different Articles since the period of their being furnished by the Barrack Masters serves also to shew that the Material Checks & Controul which the President says the new Arrangement proposes over the ℔ old, have failed of all Operation.— I will not imagine be insisted on that the Prices of the different Articles, in different Parts of the Carnatic actually rose to 30, 40, or 100 ℔ Cent immediately after the Appointment of Barrak Masters; and at which general Standard ℔ they have remained ever since.— Yet we see the Accounts have passed thro' the several

Checks

1106 Fort St. George 20. November 1787.

Checks enumerated by the President without Deduction, or Difficulty - to what cause this has been owing, I will not take upon me to pronounce - it remains, I presume, with the Board to adopt Measures to prevent the such exorbitant over Charges in future -

The Pay and Batta of a Captain received as the Presidents observes, by the Paymaster is an Object of trifling Consideration to that Office, which is unavoidably expensive - it has hitherto, with only few exceptions, been held by Servants of considerable Standing and till lately been considered among the most desirable Employments - How far it may be proper to equalize the Ratio of Advantage to the two Services Civil and Military I will not pretend to determine, but I could wish that any material Innovation should originate with our common Superiors, and in assurance of it I pledge myself to be on no occasion less tenacious to preserve

as

Fort St. George 26th November 1787.

as far as may depend on my weak Voice, the Rights of the Military, than of the Covenanted Servants to abridge the Advantages of either in order to gratify the other: I hold to be highly objectionable and unjust.—

The President says that in my Zeal to vindicate Mr. Latham I advert to the remark of his Minute, "that there can "be no interference of a Barrack Master at "Madura— The President again asserts, "his "Correctness in this respect because the authority "of Barrack Masters he says, does not extend "to any Garrisons or Cantonments, but where "there happens to be European Troops quartered "that as there are no European Troops quartered "at Madura, and the Garrison merely Sepoys, "the Barrack Masters Authority does not "extend to that Garrison"—

"Here again is a strong Assertion, "which may mislead, if not refuted"— The Authority of the Barrack Master, I must be permitted to

Assert

1108.

Fort S. George 20. November 1787

apart does extend to Madura, & all other Garrisons
Westward & Southward of Madras, whether the
Garrison consists of Europeans or Sepoys —
their Authority extends to the supplying the
European Sepjants at Garrisons where no
European Troops are not stationed, with
Pots Pans, Oil &c. and the Sepoys Barrack
Guard Rooms, Gates &c. with Oil — They
make out Bills at Madura where they
are paid by the Paymaster exactly in the
same manner as at Trichinopoly, or any
other Garrison, where European Troops are
stationed And consequently the Authority
of the Paymasters to supply these Articles,
or to make charges for them to the Company
has no more existence at Madura, where
the "Garrison is Sepoys" than at Trichinopoly,
where, as the President observes "the 1st. Battalion
"of Europeans & the 2. Battalion of Artillery
are stationed" — Where then let me ask the
President is the Distinction he mentioned
in

1109. Fort St. George 20th. November 1787.

in a former Minute, which in his opinion & made it capricious in Mr. Latham to prefer the Paymastership of Trichinopoly to that of Madura!—

Before I finish my Remarks on the President's Minute, which I hope will be the last, I shall have occasion to trouble the Board with, I must not omit to take notice of the perverted Sense he has given to that part of my former Minute, which & adduced as I humbly conceive, a forcible Reason why the accustomed Priveledges of the Civil Servants ought not to be needlessly trampled upon— That the last change of System in the Civil Line, which admits a partial Selection from among such of the Servants, as have resided 12 Years in India to fill Vacancies in Council is hostile to general Advancement will not I presume be disputed— And that this should tend in a general View to depress the Spirit of the Service is a Consequence I think which naturally

Fort St. George 20th. November 1787.

naturally follows.— The President must however allow me to deny ever having said or insinuated that this Change "was detrimental to the Company's affairs in India," as is to be plainly inferred from his Minute; and I must further take the liberty to deny ever having "opposed as he asserts my Sentiments" to those of the Court of Directors & the Legislature of England.— Nothing was ever more distant from my Intention than to arraign the Wisdom of the late Act of Parliament, to which the President bears so much deference & respect— Sentiments by which he has no doubt been uniformly guided in his Publick Measures, and which, it is presumed, will pervade all the future Acts of this Administration.—

Ordered

Fort St. George 20th. November 1787.

Ordered that the Civil Paymaster General be directed to lay before the Board a List denoting every Article furnished by him for the use of the Barracks in Fort St. George previous to the institution of Barrack Masters in the General Orders of the 14th June 1786 also a List containing the Articles of every Denomination which have been supplied for the use of the Barracks since the Appointment of Barrack Masters.

The Civil Paymaster General to furnish a List of Articles furnished by him for the use of the Barracks in Fort St. George previous & subsequent to the Institution of Barrack Masters in the G.O. of the 14th June 1786.

Mr. Garrow

To the Honble. Major Genl. & Sir. Archibald Campbell K.B.

Governor, in Council

Fort St. George.

Honble Sir. & Sirs.

I flatter myself that this Representation to your Honor &c. will not be considered as an intrusion when I have so great an Interest at stake, & as it rests solely

From Mr. Edward Garrow requesting that Interest may be allowed him upon the Marriage Allowance Bills forfeited & now granted to him in part Discharge of the Balance due to him until they become payable

solely with Government to grant me relief.—

On application to the Committee

of Works, I am given to understand, that they

transmitted my Letter of 30th. September last

to your Honor &c. with my Certificd. Bills,

& Account Ballanced, I apprehended it

might not have been necessary for me to

have immediately addressed the Board or

I should have taken more pains to have

explained my Situation, for the Information

of Government.—

I took the Liberty to the

Committee of Works of Mentioning to

them in that address, that the Terms on

which I had carried on the Works were

for ready Money, or its equivalent, which

was expressly recognised by an Official

Letter to myself from the Governor &

Council of the 28th. March 1786.— as also

to the Committee of Works - your Honor &c. have been pleased to Grant Bills &c for the Amount of a large Ballance, &c which Bills are not due for upwards of Five Months after that period - This in Interest which I have partly already paid to those of whom I have taken up Money Accounts to no less a Sum than Two Thousand Four Hundred & Twenty One Pagodas Eighteen Fanams & Ten Cash /2421.. 18.. 10/ and which without your &c Honor &c. take it in consideration, will be a Total loss to me -

The Accounts I delivered for the Company's Garden House, are the actual Expence I was at in executing that Building and not charged by Measurement at my Contract Price, &c from which arises my sole advantage; &c

had

had the latter been the Case. I could have had no Claim whatever on the Company whether it had eventually turned out advantageous to me, or to my Loss - it is true that in my Letter to the Honble the Governor of 12th April 1786 I agreed to execute the Alterations at the Garden House agreeable to a Plan then delivered me for 5000 Pagodas, but the Alterations from that Plan, which I afterwards took the Liberty to point out, in my address of the 8th March last, when I returned that Plan encreased the Expence to myself, more than double, exclusive of a variety of Work I did, not belonging to the House itself. -

I paid an unwearied attention to this Business with the best Workmen that could be procured from the 12th April 1786 the Day I had the Honor to receive the

Fort St. George 20th November 1787

the order for executing it - to the 20th Febry 1787 - when I compleated it, Tho it should ∥ seem that the Company have reimburse me merely, what I have paid, I am even a loser in this Instance by the mode adopted of payment; but I trust that in the present Case I shall not be pleased in a worse ∥ Situation than I was by the Government of the Right Honble Lord Macartney who for supplies &c. for the Seige of Cuddalore, and for the Garrisons of Vellore, Tichinopoly, & Madura immediately after the War, ∥ under the same Circumstances as the ∥ Garden House, when the Prime Cost ∥ only was charged, allowed me 25 ℔ Cent ∥ for Wastage of Materials and my Trouble, on Bills to a much large Amount than those now before your Honor &c. -

I was at much expence in sending

1116.

Fort St. George 20th. November 1787

sending Materials from hence to Build the Cantonment at Coonamally; in lieu of any charge I have ever had the 7½ Cent deduction given me up- but in the present Instance refer the propriety of it to your Honor &c. and whether you please to order, that I should deliver in the Expence of Cart & Cooley Hire on Palmeiras &c. Articles sent from hence which I have paid & have been allowed. on the Materials sent to Wandaujabad.
