by Mr. Hepperly, his Predecessor in the same Office whose Accounts have been approved of by the Board.—

Mr. Maunsell begs to observe upon the foregoing Remark of the President that neither the Accounts nor the Papers produced by Captain Campbell shew the Rate of Measurement of Oil nor the Number of Lamps furnished by the late Paymaster Mr. Hepperley.—

The President in Answer to the foregoing remark begs leave to quote the Certificates of the Cutwal at Tanjore and the Dubash of Mr. Hepperley.—

"The 1st declares that every Hullock of Oil "is equal to the weight of 16 Arcot Doodies and at that "rate 64 Arcot Doodies weight is equal to one Seer

"The 2d says 16 Arcot Doodies weight goes "to every Hullock and every Seer weight 64 Arcot Doodies "and that Mr. Hepperley Supplied the troops with "Oil after that rate."

If it is allowed that four times 16 makes 64, it is Approved by the above documents that no more than 4 Hullocks of Oil go to a Pucka Seer at Tanjore. It is also proved by Mr. Hepperleys Dubash who is a Man of good Character that his Master Supplied &

The Paddy furnished by the Collector was I am well assured not all, if any of it delivered in March last; and I am certain that some of it was not received until the Month of June was nearly expired, which leads me to suppose that we cannot depend on having it replaced, from the same source, before next June, & this Circumstance would have induced me to defer applying to Government, at least for some months for leave to dispose of it This Paddy having been laid in from the very last Crop, it cannot of Course be replaced with newer Paddy, until another Crop has been Cut, and a reasonable time allowed for the Grain to dry; and I believe, that the best sort of Paddy, properly dryed cannot be procured from the Country,

To. Major George Clark

Commanding at Madura

Sir,

To Major Clark Expressing the strong disapprobation of Government, at his neglect in not answering Mr Varyth's Official Letter, and informing him that Stoppages are to be made from the Sepoys at the Rate of 3½ Pagodas p Month Paid for Grain issued from the Company's Stores.

The Store Keeper at Madura has addressed a Letter to the Board, of which the following is an Extract.—

"On the Receipt of the Letter from the "Commissary General of Grain and Provisions "impowering me to dispose of Part of the Old Grain, I "addressed a Letter to the Commandant, to know if "I was to make Stoppage from the Troops of the "Garison, from the next Payment, for the Paddy "that had been issued at the Rate I was then authorized "to Sell.— Major Clark not thinking proper to give any "Reply to my Letter, I request to be furnished with the "Orders of Government on that Head".

I am directed by the Honorable the President in Council, in Consequence of the foregoing Communication to express to you his very great Surprize that notwithstanding the Several Letters which you have received from Government, you should still think proper to act in direct Opposition to their Orders.— an

Opposition.

3736.

Fort St. George 3 December 1788.

Sir

I shall be much concerned if any delay should happen in the arrangements which are necessary for the Commencement of the Campaign, but I am sorry to inform you that the Bullocks which have been collected for the Service of the Army are so few in number, that I am apprehensive that the Commissariat will be unable to procure a sufficient supply of Grain for the Troops, unless the Bullocks which are employed in the Conveyance of Rice from the Northern Districts can be immediately employed for that purpose. I am therefore induced to request that you will be pleased to direct the Collectors of Arcot, Chingleput and Salem to retain in their respective Districts as many Bullocks as may be sufficient for the Conveyance of Grain from those Districts to the Army, and to prevent any Bullocks which may arrive from the Northward from proceeding further to the Southward than Arcot.

I have the honor to be
Sir
Your most obedient
humble Servant

shall be paid at Tanjore to the Resident. What particular inducements favor this arrangement do not readily occur; but it appears to me liable to many inconveniences. By the present Arrangement the Subsidy is Payable at Madras in Pagodas, which Leaves the Negotiation of Remittances with the Rajah, the transferring of which to the Resident may, and in my Opinion will, probably be attended with considerable loss, by Exchange of Gold Fanams into Pagodas, and the negotiation of Bills. This Responsibility ought not to be Removed from the Rajah to the Company, as it is well known the Negotiation of Bills of Exchange in this Country, is an operation of business liable to great Risks, of which this Government have had abundant experience.

The Rajah as well as his Highness the Nabob will no doubt always be indulged as heretofore with making such payments at Tanjore and to the Southward, as are necessary for the disbursements at those Stations, and It may be presumed that the same reasons that have rendered it expedient to make the subsidies Payable at Madras to this Moment, must continue to have their

to any Loans from any Person or Persons of whatever Description, or subject to whatever Conditions they might be, was a virtual Interdiction, more particularly as he was informed that such Sanctions could not but be disapproved of by the Court of Directors, who had & strongly marked their displeasure and disavowal of such Engagements — and when Government thought fit so frequently to repeat these Injunctions to the Rajah through Mr. Petrie, it was evident that more was meant than simply to inform his Excellency, that they would not hold themselves responsible for & such Transactions, and whatever Consideration may have been shewn to the Rajah in forbearing to & interfere in the internal Management while he continued punctual in his Payments, he was no longer in a Situation to expect it, under the incurred Forfeiture stipulated by Treaty. —

The Situation of the Rajah towards the Company does not admit that in case of Failure it should be made good by an Assignment of any part of his Country to a Foreign Nation, nor does it & consist with the Establishment of the British Influence in India, or the Value of the Company's Possessions.

Fort St. George the 5th December 1788

wresting from His Excellency the Possessions of His Ancestors; upon principles more rigid than any petty Zemindar under our Protection has ever yet experienced, and could not have failed to be attended with more Injury to the Interests of the Company, than any solid Advantage, that could possibly arise by the adoption of a Measure so unjust and impolitic. Thus, the President, it appears, was not only prepared to admit of Loans, but thought it unjust and impolitic to refuse our Assent to them, although it was most evidently imposing an additional Burthen on a Country already fallen into such a deep Arrear as to induce the President to bring forward the Proposition of enforcing the Penalties of the Treaty, if the Rajah did not satisfy fully or in part the Claims of the Company upon him — fully impressed with the Idea that Loans of Money had been forbidden, — I could not avoid taking Notice in my Minute of 28th October of a subsequent Letter to Mr. Petrie, in which the Rajah mentioned an intended Loan of 40,000 Pagodas

From

Fort St. George 14th December 1788.

date the 8 September, on the Subject of Loans, it was not expected that any thing of that Nature would have again been brought forward for our consideration, recalling his attention to what had been already written to him on that Subject in order that he might make it clearly understood by the Rajah that the Sanction of the Company was no way pledged to support any Transactions entered into, or that might be entered into with the Danes or Others of Assignments of the Country which might interfere with the Company's Security in the Event of their being obliged to enforce the Treaty for the recovery of the Money that might be due to them. Although the concluding Words of the foregoing Letter were not in the exact Spirit of what my Minute suggested, I proposed no Alteration at the time, but my Attention being particularly drawn a few Days afterwards to this Subject, it appeared to me that those concluding Words were liable to an equivocal meaning, and that an Inference might possibly be drawn from them that no Objection

would

Determination, and that he would report to us if any such Negociation had been concluded, or was on foot between the Rajah and the Danes or any other Person or Persons.—

After all this, the President, in his last Minute, has declared that Government had no right to restrain the Rajah in borrowing Money for the discharge of his Arrears to the Company, provided in so doing he did not commit Oppression upon the Inhabitants, or attempt to dismember his Country—Oppression upon the Inhabitants is a following Consiquence, and not exposed to Detection at the time of Negociating a Loan, and it will be difficult to shew that the Country is not dismembered, if a Portion of it is, by Stipulation, cut off from all Interference of the Rajah's Government during the space of 12 Years, and as Circumstances might afterwards fall out, perhaps for ever that Period, and indefinitely for any length of Time.—

It was a Matter of public Notoriety that the Danish Government had drawn Bills

on

Fort St. George 5th December 1788

Rajah's Affairs has been removed to a little
Distance only to fall into deeper and more
compliated Distress hereafter

The President observes that if
after Public Notification to the Danes, by
this Board and by Mr Petrie, that Government
would not give Sanction to any Loans made
to the Rajah, the Danes have lent him Money,
that the Risk and Misconduct is their's, but
that this Government and Mr Petrie are justly
placed beyond the Reach of Blame.—

I conceive on the contrary, that after
such Notification, it was unwarrantable in
Mr Petrie not to apprize Government particularly
and without delay, that Loans were Negociating
for an Assignment, Mortgage, or otherwise, and
the Blame will be theirs if We do not annull
Engagements so entered into, contrary to the
Interests of the Rajah and the Company.— This
Interference of the Danes I hold to be incompatible
with the Dignity of the British Government and
our close Connection with the Rajah, whose
Interests are inseperable from our own, and whose

Country

the Annual Payments in case the Villages shall
suffer by any Enemy of the Rajah - There is no
Stipulation in favor of the Inhabitants, and
the Lands are given up without preserving to
any interference whatever on the Part of the
Rajah, or any controuling Power in the Company,
nothing being stipulated to prevent the Danish
Governor from exercising unlimited Authority

Instances that might be quoted of
Lands being on former occasions let in Rent
to the Danes do not apply to present times
or Circumstances - the Support of the English
Interests in India has within the last few Years,
become the especial care of the Legislature - Treaties
have lately been formed, by Instructions from
Home, Stipulating that the whole Revenues of
the Carnatic and Tanjore Country are to be administered by the Company
during War, and as long after as may be necessary
to discharge the Burthens of Expence, entailed
by it; this evidently precludes all Connection of other
European Powers with the Nabob or the Rajah -
The Arguments urged in favor of giving up the
Lands in Question to the Danes, on the Score of

Improvement

Fort St. George 15 December 1788

was in readiness under the Commans of General Smith to take Possession of the Land in case of their Refusal to evacuate them, and the assist co-operation of Admiral Harland with the Fleet under his Command, if requisite, ought to have deterred Mr. Petrie from any Concealment of the late Negociation between the Rajah and the Danes, the Records will shew that an Accommodation was effected, with other Circumstances worthy of attention in the present Conjuncture - all of which Mr. Petrie must be well acquainted with, as he was Secretary to this Government at that Period

The Assignment made by the late Rajah to the Danes consisted of 14 Villages resumable whenever the Debt should be discharged the present Assignment is of 44 Villages stipulated to be held by the Danes during 12 Years - occurring to the late degraded Situation of the Rajah, his long, and rigorous Imprisonment during the Life time of his Brother, and the Eminence to which he has been advanced by this Government, in prejudice to his Brother's Adoption; I cannot bring myself to believe he would so far have forgotten the Duties of Respect

Point, and no opposite Inference should be drawn from the Expression "that the Rajah was his own "Master and that We should not interfere in the "Affairs of his Country so long as he continued to "fulfill his Engagements to the English;" because his want of Punctuality had already deprived him of that privelege, always to be understood in a limitted Sense, and placed him under the Penalties of the Treaty - Other Parts of the Letter are conciliatory and tend to soften the disappointment - Such was the Impression I received, as my subsequent Minutes fully evince when the rough draft of the Letter was produced by the President and such also I trust was the Idea under which it was written by the President, and understood by the other Members of the Board.

I have entered into the foregoing Particulars to shew that the Danish Governor cannot on just or solid Ground avail himself of any Expression in the President's Letter for asserting a Right to keep Possession of the Villages, more especially, as it now appears that the Deed of Assignment was executed four Days after the Date of his Letter to the President, and of course before

As the Claim is founded on just grounds, I hope your Honors will be pleased to support the Object of the Memorial by your recommendation & set to the Honorable Court of Directors, and request it may be made a number in your first dispatches to them.—

As the Debt due to Captain Macalister, stands in all respects upon the same footing, and is certified by the Nabob in the exact same manner as the Debts of Colonel Cosby, & Major Campbell, Jourdan, and Stevenson, your Memorialists humbly hope that the same Motives of Justice, which induced your Hon.ble Court to interpose in their behalf, will be extended to your Memorialists, and that they unprotected, they will have the happiness to derive from their Hon.ble Masters the same portion of Justice, that has been given to others in the same Situation. Major Gomond

Dear Gomond,

From Colonel Sydenham to the Town Major - desiring him to acquaint Government of the present Scarcity of Rice for the Troops at the Mount —

I am sorry, to acquaint you, that our Supplies of Rice from Madras have ceased for some days past, and that we are now in the greatest distress, there not being any in the Buzar, and all my Resources having at last failed, which reduces me to the necessity of requesting that you will make our Case immediately known to the Governor, and beg he will be so kind to order us a Supply either from the Bank sall, or Company's Store, as the Troops here, Europeans as well as Lascars, depend entirely on the Buzar, and the Bengal Lascars in partic: cular will complain greatly if they have not the means to Live. — I have satisfaction in thinking, that this is the first application the Governor has been troubled with from me on the Subject of Provisions, and it is with great

If this Sir, meets your approbation, permit me to mention to you that I have in the nellore Country a considerable Quantity of Grain, Part of which is now on its way to Inacunda, the Residue will amount to the value of 7000 Pagodas; I made the Purchase on the Idea of devoting it to the Camp Service, but have not brought it to account, as being unwilling to throw upon their Hands an unnecessary Quantity, this Grain may perhaps be to be desired at Fort St George

Honble Sir,

I have the Honor to submit the enclosed Papers and Vouchers to your Consideration, upon which I shall take the Liberty to remark by way of preventing any charge of unnecessary delay, being imputed to me, for not bringing them forward Sooner, that the final audit of my accounts by Mr. Jackson, did not take place till the 4th April 1786, after this it was necessary to examine and Settle, a long account between the assigned Revenue and me (marked A No 1) and which I sent to Mr. Mowbray the 28th November 1786. Mr Mowbray did not get this & the examination of this account till very lately, however the Balance is now ascertained, as appears by his Certificate thereon

The Paper No 1 shews the particulars of the first Debit, which you cannot but remember were thoroughly investigated in a long Correspondence between us, at the close of which you expressed yourself satisfied; I shall therefore hope you will say what may be necessary for the information of Government, as to the justness, and Validity of this Claim, and that you will be good enough to explain to the Members of the Council, that my demand could not be ascertained till a few Months ago, when I was furnished by you with the accounts of the assigned Revenue, in order to clear up some apparent misunderstandings in the Sums and Receipts of Trainat Madura.

The first Debit is indeed of very great importance to me, not considering the particular predicament in which it stands, I submit it with no little anxiety to the discussion and impartial Consideration of the Honorable Board, for I know what weight the Opinions and decisions of Mr Jackson the late Commissioner of accounts South of the Cleroon carry, and very deservedly carry, along with them in most instances, but I should

Captain Gibbings

Sir,

It is of the most essential Consequence to the Publick Interests to the Southward, that a number of Draught and Carriage Cattle should be immediately procured, as well as Bullock Saddles and Gunneys, for all which Articles I will advance Money on Demand. I have written to Mr Johnston on this very pressing subject and I request of you in the most urgent manner to use Every Effort to send us Supplies of Cattle as soon as possible - there is a Quantity of Stores arrived at Tondy for the Southern Garrisons - May I beg that you will use your best endeavours to get these Stores Conveyed to Madura as soon as possible - If you have any Bullocks & Bandys now in Madura it will be of much use to send them off to Tondy immediately with an Escort - I Desire that you will have ten Day's Rice ready beat out for this Army, by the time we shall arrive at Madura.

I have the Honor to be, with great Regard,

My Dear Sir,

I had the pleasure of writing to you a few Days ago on several Subjects - I am now in the last Stage of black bile on account of the Deficiency of Bullocks with the Army, which notwithstanding all the Exertions of Government in sending such a force to the Southward will mar all our Expectations, unless we can find a remedy - May I therefore request of my Dear Sir, that you will give Orders for procuring by purchase or otherways all the Bullocks, Bullock Saddles and Gunny's that can possibly be procured for all which purposes I will furnish you with Specie on Demand from the Money Tumbril, knowing that your Funds at Madura are rather low -

Do this & Prosper Ever most faithfully Yours -

Intelligence received the 5th December 1788.

On Tippoo's hearing of the Soubah's Cession of the Mastazanagar Circar to the Company, he was much displeased with them, thinking an Entrance thereby opened for any Power into his Country; wherefore he circulated orders to his Phouzdars in Cumbum & Caddapah &c.a to watch the Motions of the English, providing the Fortresses &c.a towards Goolty with compleat Stores of Provisions. The People are now busy in doing this, and moving the same from one place to another. It is said that Tippoo speaks publickly of putting in execution his projects Against Hydrabad, which he says he will accomplish without any difficulty. — The Basalet Jungs Sonis said to have kept up a private correspondence with Tippoo who is continually Watchfull of the English Nation.

Sir,

We are this Moment honored by the Receipt of Your Letter dated the 3d. Instant. acquainting us, that "We have the permission of "the Honorable the President in Council to return "to the Presidency so soon as We have accomplished "the Objects of our Mission". -

From Messrs. Lind and Close requesting further Instructions relative to their Return to the Presidency.

As such permission is only conditional and cannot be rendered complete, and efficient, as we conceive by any ideas of ours, touching the success of the business We have been employed upon, but solely by the Opinion of our Superiors, We hope to be excused, if our Solicitude to act agreeably to their intentions, prompt us in this instance, to request a further and more precise explanation of them.

The Objects of our mission as defined by our Instructions fall naturally under two heads. 1st. "To report to the Honorable the Governor in "Council the number of such Villages of the Calistry "Zemendary as may have been taken from the "Rajah

I also enclose a Copy of a letter from Captain Kennaway, which I received Yesterday. It would appear from his communication, that it is still uncertain what Measures Tippoo Sultaun may pursue; and altho I hope there may be nothing to apprehend from him, yet it is always proper to be as alert as possible, for which Reason I have thought it proper to require of Colonel Eidingtoun, to order a Muster of the Troops, Lascars, Dooley Bearers, Coolies, and Bullocks now in the Company's pay, that every Department may be prepared and accommodated to the fulness of their necessary Indents, in case of an occasional emergency; and when he is prepared, I will myself attend the Muster and Communicate to You whatever Remarks appear to me necessary for your information

usage of the different Purganahs in which such Sums have been Collected, and lastly a clear account of the Balance due to Sul Jung agreably to the Bonds which have been entered into on account thereof, by the different Zemindars.

I applied to the Minister for the explanation you request concerning Mulrauze Gondarow, Anket Gondarow, Manicka Row Junganarow, and Tupelly row, and am informed by him on the Authority of Sul Jung that the first being unable to fulfill his Engagements for the Fazally Year 1194 absconded first delivering over Charge of his Share of the Zemindary to his Younger Brother Anket Gondarow, who not exerting himself in the fulfilment of his Engagements, was the succeeding Year thrown into confinement. In 1196 Mulrauze Gondarow again appeared entered into fresh Engagements and was reinstated in the part of the Zemindary which he had delivered over to his Brother, who still remained in confinement: during the whole of the Transaction, the Gomastahs of both brothers continued to attend at the Cutcherry on the part of their Masters.

enjoined by Earl Cornwallis to conduct myself towards his Highness at this particular period in the most conciliatory manner, I have earnestly to request that every recommendation from him communicated thro' me may be attended to as much as possible, or that I may be furnished with a sufficient apology for any delay which may prevent it. His Highness has again requested that I would address you on the subject of De Bussy in words which are little more than a repetition of what is contained in my former letter of the 20th October, to which I beg leave to refer You.—

Nothing new of late has occurred in the Political Situation of Affairs at this Court The Vakeel appointed to attend the Governor General Commenced his journey the 18th. Understanding from Current report,
that it is your intention to leave this Country, in
a short time; and conceiving it probable, that you would
naturally wish before your departure to leave matters
on such an Established footing, as would leave you
no reason to doubt, of the Measures you have adopted
being brought to that maturity which a longer
continuance in the Government would have insured;
and that you may likewise naturally wish, to
have it in your Power, to furnish your Employers
in England, on your Return, with the completest
information of the state in which you have left matters
in this Country; I am led from these considerations
to suppose it might be convenient, and accommodating
to you, if you had an opportunity of satisfying
yourself, with respect to such verbal communications
as I might be able to give you; and if I might take

to be at the Presidency when any of the Accounts or other matters mentioned in my letter of the 5th Instant arrived, they might pass their one to Government with such Opinion as I might have to offer, as well as if I were upon the Spot. Under these circumstances I think I might with great propriety leave Mr Scott to execute any thing that might occur in my absence; and I would also wish that all public letters for Masulipatam might continue to be sent by their route with leave for them to open them, and permission at the same time to accompany them with his own Opinion, as to the carrying of any orders they contain into effect which Opinion so offered it might be necessary to direct the Council to record, and when they might adopt them, that their reasons should also be recorded. The Confidence that I have in Mr Scotts experience in whatever relates to the business of the Masulipatam District, induces me to propose what I now do, and he may I think with propriety be allowed to point out what the length of time he has held the office of Secretary, has afforded him the best Opportunities of

Grain having risen to an unusual high price, and the great Scarcity of all Kinds rendering it more than probable that it will rise much higher. It becomes necessary for me to inform you, that the pay of the Sebundy Sepoys Appears at present to be so inadequate to the maintenance of themselves and their families, that I am dubious what the consequences may be. The situation of the Cuddalore Revenue Company is something peculiar, the Comptroller General having directed that batta shall not be paid to them on any occasion, Neither do they receive batta from the Amuldars of the Honorable Company's districts with whom they are employed. -

From the Paymaster at Madura with Indent of Repairs wanting to the Public Works at Madura

I have recieved your Letter of the 3d Instant. I shall make the Stoppage from the Troops on the next payment as Ordered by the Honble the President in Council for the Paddy that has been issued I am Sorry to say that I have little prospect of recieving any Money from the Renter, he declines sending me any written answer to any application to him, as he is pleased to inform me it is not his Custom, his Verbal message to me is that there is not any thing due from him to the Nabob, and that the Country is in such a Situation for want of Rain, that it renders it totally impossible for him to make advances.

I am Sincerely Concerned that the Honorable the President did not think there was the necessity of immediately setting people to work to make a place for the reception of the powder, as it was liable to great damage from the weather to have been expected at that Season of the Year and the place to which it was moved was far from being a Safe one, the Expence hitherto has been within 60 Pagodas but it is far from being Compleated, and will require at least that Sum to make it so, on my having got it into it's present State I sent to the Commandant to inform him I had prepared a place of greater Safety, and where the Powder was less liable to be damaged, it was moved in consequence. done to the matters therein set forth, so long as Mr. Petrie is kept in Ignorance of the severe attack which is made upon him in that Minute, and the Board of Curse deprived of such Light as that Gentleman, in his Reply may be able to throw upon the Subject.

Had Mr. Maunsell confined himself to a general attack upon the Arrangement made by the Commissioners, the President would have admitted all the Force that is due to the expediency of preserving the freedom of Debate, by withholding the Opinions of the individual Members of Government, but in the present Instance, Mr. Petrie is in plain and direct Language charged with "Concealment in the late Negotiation between the Danes and the Rajah of Tanjore," or in other words, for the meaning must be the same, with having connived at Measures which were disapproved of by the Board.

Charges such as these, strike at the Honor & Fidelity of a Company's Servant in a very essential manner, and as this Servant has acted with the approbation of a Majority of the Board, on a late Trust of high Importance, the President thinks it particularly incumbent on him to move, that a Letter be draughted for Mr. Petrie, specifying the observations contained in Mr. Maunsells Minute, that he may have an opportunity of vindicating himself, and of giving Government such further

3852 Fort St George 23 December 1788

Extract of a Letter from Mr. Johnston, with the account to which it refers, and desiring us to investigate the Cause of Mr. Johnston's having given Credit to the Company for Pagodas 5844..8..30. which Sum, by the Certificate of the accountant General, appears never to have been received.

In obedience to these Commands, We inspected the Books of the assigned Revenue, and supposing from the nature of the Entries in Mr. Johnston's accounts that the Sums he had charged himself with, were actual Receipts of Money from the two Persons therein named, Rungarow and Vencatarow, We called those Persons before us, and examined them; We also Compared the several Receipts granted by Mr. Johnston for Money issued to him from the assigned Revenue, and not finding in either of these modes any satisfactory Explanation, We referred to Mr. Irwin's accounts of 1782 and 1783 for Trippavanum and Palimurry, two Districts which were under the Management of Rungarow & Vencatrow, and there We perceived that Sums of Money had been issued by those Managers at different times for the Pay of the Peapays, but not being charged, as they should have been, to Mr. Johnston, and Receipts taken for the amount, they were on the arrival of the accounts here, carried in the Books of the assigned Revenue to the Debit of the Superintendant, instead of the Debit of the Paymaster of Madura. Mr. Johnston however having

of assigned Revenue, it appears that there really has not been an over Credit in his favor.—

Honble Sir,

From Mr. Petrie enclosing Copy of a Letter to him from Mr. Macleod relative to an allowance to be made the Resident for Secret Service stating the Sum expended by him during his Mission to Tanjore & expressing his approbation of the Conduct of Mr Benjamin Sonin

The enclosed Letter which I received from Mr. Macleod, on the Eve of my departure from Tanjore, I have now the honor to Submit to the Consideration of Government, and I beg leave to recommend the request of the Resident to the favorable attention of your Honor in Council, as I am well convinced Mr. Macleod has been necessarily involved in Considerable expences in order to obtain information on matters, which unless he was acquainted with, he could not discharge the Duties of his Station, with utility or Effect.—

I beg leave to inform your Honor in Council that my Expences, from the time of my departure from the Presidency until my return from Tanjore, amount to Pagodas 4039. 11.— and as I received no Salary from the Honorable Company as Commissioner I beg leave to submit this charge to the Consideration of the Board — If the amount appears Considerable I beg leave to observe that

Mr. Maunsell's memorandum on the foregoing Draft

Mr. Maunsell submits to the Board whether the following Questions are not better adapted, than those contained in the letter drafted by the Secretary, to draw from Mr. Petrie the Explanation required.—

Whether he knew or had heard of any negotiation being or having been on foot between the Danes and the Rajah of Tanjore at the time he received from the Rajah the Paper transmitted to Government with his Letter of the 15th October?—

On receiving the above Paper from the Rajah whether he remonstrated with his Excellency on the Impropriety of making over to the Danes any part of the Tanjore Country in Assignment or otherwise?—

When the above Paper was returned to him by the President as containing a Proposition concerning the Danes which Government held to be totally inadmissible whether he made that Communication to the Rajah and took any and what Steps to prevent any Assignment being made to the Danes?—

To Mr. Davidson -

Fort St. George 2d. December 1788

that the Audit respecting the Measurement of Oil should be confirmed, and now that the Subject is again brought forward I can only say I was on that occasion guided by the Replies of the Paymasters circular letter written to them by the Auditor — since the last Council I have referred to the letter from the Paymaster of Tanjore and find that at Tanjore 8 Vellum 8 Olucks are equal to 1 Pucka Seer or 1 Madras Measure — the Audit was regulated by this Rate, and I can discover no reasonable Pretext for further — Allowance — The Pucka Seer is a Standard Measure never varying in Size, and 8 whenever used, is equal to 5⅓ Olucks. —

With respect to the Second Article so Represented by Captain Campbell I must Observe that 1 Olluck has ever been considered amply sufficient for 1 Lamp, and as Barrack Masters could not incur Blame by supplying the Quantity States by the Regulations I cannot think he has any Claim to an Allowance beyond what those Regulations prescribe. —

Mr. Casamaijor's Opinion

Mr. Casamaijor — The Resolution of the Board of the 16th May, admits, in my Opinion, that the Barrack Masters shall be allowed to Charge the same as the Paymasters — The present Appeal of the late Barrack Master adverts to that Point — And, as it appears from the Certificate of the Quarter Master, that the Barrack Master actually issued at Tanjore the Quantity of Oil specified, and as he followed the Usage observed by the former Paymaster of Tanjore, Mr Hippesley, I am for allowing the Charge

Mr. Holland's Opinion

Mr. Holland — I am against the Admission of the Charge, because, I think, it would be inconsistent to allow it, after the Resolutions of the 16th May last

The President is for admitting the Charge

The President — I am for admitting the Charge, because there is positive proof of Captain Campbell having issued the exact Quantity of Oil for the use of the Troops, which he has stated in his Accounts, as particularly appears in the Receipt of the Quarter Master of the 72d Regiment — and because, Captain Campbell pursued the very Line which has been adopted by

the troops with Oil at that rate and the 2d Master of the 72d Regiment Certifies that he received the Oil at the same Rate. Such being the case the President thinks he is correct in asserting that the Account and Papers produced by Captain Campbell shew the Rate of Measurement of Oil. As to the Number of Lamps the President made no Remark upon it but on a reference to Mr Hepperleys Accounts he found he has charged the Oil and other Barrack Articles in the Gross without Specifying how many Hallocks to the Lamps or how many Lamps were Lighted. And his Accounts have been Audited and passed.-

(signed) A. C.

Captain Campbells Accounts respecting the Measurement of Oil to be admitted.-

Resolved- in Conformity to the Opinion of the Majority, that Captain Hugh Campbells Accounts for Tanjore and Vellore, as with Respect to the Measurement of Oil, do pass at the Rate of four Allocks to one Pucka Seer.

The Resolutions of Council the 16 May last in every other Respect to be Confirmed.-

Resolved also- that the Resolutions of the Board on the Barrack Masters Accounts, in Council the 16th May last, be, in every other Respect confirmed.

Acting Secretary to the Military Department

Sir,

We have to acknowledge the Receipt of Your Letter under Date 21st Instant, which Arrived last night, and request You will do us the Honor, to Acquaint the Honorable Board, that as in prosecuting the Objects of our Commission, We have been solely actuated by an earnest desire to obtain their Approbation and a conviction that we were proceeding in strict conformity to our Instructions: this is a matter of extreme concern to us to learn, that our enquiries are considered, as having been pushed to an unauthorized extent.-

From Mssrs. Lind and Close Exculpating themselves from the Charge of having exceeded their Mission mentioning the Villages which have Connection with the Marshalpas of 1764 and 77.- and Those agreed by the Nabob on Captain Dunmore's marshalpa, but that they cannot ascertain the Rajahs Lessees or Inquisitors &c.- &c.- and Appeals to his Instructions, states the unmerited hardships Incurred by him from the Nabob.-

Upon every inspection of our Instructions, it appeared evident to us, that neither Government, nor His Highness the Nabob, had any intention of depriving the Rajah, of any part of his ancient Zemendary Rights

an early occasion to acquaint us of it - Not being honored with a reply, we naturally proceeded and the more especially, as we found on communicating with His Highness's Servants that they were deputed, and instructed, to give us every information regarding the identical Articles, which have come under our Consideration -

As the Rajah has no Sunnud, or authentic Instrument whatever to shew the precise boundaries of the ancient Zemendary of Calastry, when Confered upon one of his ancestors, we believe it in the present day to be utterly impossible to ascertain them upon any other ground than those of unquestionable possession, and oral report and under such persuasion, we thought it incumbent on us to trace, as far as we found it practicable. the origen of the Rajahs pretentions to the Villages &c. in dispute and the length of time he possessed them, which could not as we conceived be effected, without taking a retrospect to remote periods, and ancient transactions -

Gentlemen

As your letter to Government dated the 18th. Instant, sent to me for my perusal, does not exactly correspond with my sentiments, and as the remarks I made with respect to the Garrison Store have not

before the Months of May and June. If the Grain now in Store was either to be sold therefore, or sent to the Presidency, it would either be necessary to replace it with other Grain of the same Growth, or to remain Six Months without a Garrison Store, at a Season of the Year, when if such Store can ever be deemed necessary, it must I conceive be much more So, than during the Land Winds and Rainy Months. The Price of Grain has risen it is true since the Collectors settled their Jumabundy, but the Company we are to presume dont lay up Grain for the sake of gaining a Profit by it, but supply the Garrison in time of need. The Rice in Store must be considered in the same light with the Paddy as it was beat out from the former, after it was laid in, and cannot therefore be supposed to have as yet suffered any injury. As Bengal Rice is however esteemed better for keeping and less liable to decay than what is produced on the Coast, it may I think be preferred to the

the Garrison Store, with Grain of the ensuing Crop.—

The Board do not think it eligible to make Purchases of Bengal Rice for a Garrison Store at Masulipatam— Resolved in consequence that the Chief and Council be directed to lay in a Grain the Produce of the Hawelly Lands at the proper Season.—

Minute thereon.—

Read the following Letter from Mr. Petrie

To The Honble. Major General
Sir. Archibald Campbell K. B.
Governor and President in Council
Fort St. George.—

Honble Sir,

From Mr. Petrie the Royal objects to the Inspection of the Accounts by the President— states the Instructions necessary to be given to the President.—

I should have done myself the honor of making an earlier reply to Your Commands of the 11th Instant had not some circumstances occurred, in the forms of concluding the late Arrangement which produced delay, and although perhaps, in themselves not very important, I was however desirous of removing, before I addressed Your Honor in Council finally upon the Subject.— I have now the Honor to

Fort St. George 2. December 1788.

there is not much reason to expect he will ever submitted to have his Accounts enspected while he is regular in his payments to the Company. - On taking leave of His Excellency last Night the three Managers. - Sheverow, Bapanna & Gunnapetty Soubiah were presented to me and to the President, and the other Gentlemen who accompanied me, by His Excellency, who, at the same time, informed us, he had appointed these three Men to the Management of his Affairs with equal Power and Authority to transact the business of his Government he also Produced the Seal of Office, which had been taken from the Sarkeel in Jeno of that he had been removed from that Station. - M. Macleod, Colonel Stuart, and M. Swartz concurred with me in thinking that these Public declarations to the appointment of the three Managers with equal Authority, gave sufficient Authenticity to the Measure. -

With Respect to the intention of the Residents duties I beg leave to suggest, that it be strongly recommended by Government, to the Rajah of Tanjore to direct his Managers to furnish him with regular Reports under their respective signatures, describing the State of Cultivation, during the seasons

of

this Subject which Your Honor in Council may think proper to call for. I shall be happy to afford to the best of my Knowledge and Abilities

I will further beg leave to recommend that the Rajah's Kists should in future be paid into the hands of the Resident at Tanjore as they become due which will prevent much of the irregularity and uncertainty which frequently occur from the present mode of remitting the Kists: It was chiefly from this cause of confusion that I have found it so difficult to make a compleat adjustment of His Excellency's Accounts with the Company agreable to your late Orders to Me upon this Subject

I esteem Myself highly honored by the very liberal terms in which Your Honor in Council has been pleased to signify to me the Approbation of Government to My Conduct in the execution of their orders at this Place.— I sincerely flatter Myself that the Arrangement I have had the honor to conclude with the Rajah and which has procured me such flattering marks of the approbation of my Superiors, will prove in its Consequences of solid and Permanent advantage to this Prince and to the Honble Company

I.

Concerning the three Persons, mentioned by the Governor, they shall with equal power and authority manage the Country and be responsible.

Whenever the Company or the Resident wishes to hear something concerning the Country or enquire about a Matter, there shall be made no impediment. I will Permit it. What is it which a friend would conceal from a friend.

But to look into every Account of the Circar would be detrimental to the Management or country to Practice. This to act would be suitable to Amildars and Renters. It is not customary to inspect even the accounts of our Poligars, who pay us Peshcush. If such a practice should take place in respect to our Affairs, it would be destructive to our Dignity and Authority.

As the Governor is the Preserver of our Fame and good Name. You will be pleased to acquaint him with this our declaration.

What have I more to write to a friend.

Opposition so strongly marked in your Conduct towards the Storekeeper. – The Board are at a Loss to conceive the Motives that could have influenced you in not condescending to give any Kind of Answer to Mr. Vaughan's Official Application to You, in your Public Character as Commandant, more especially after their Sentiments had been so fully and so frequently repeated to You – They are highly displeased at the little Attention paid to their Commands & and they have instructed me to inform you, that it was your duty to have given the Paymaster a reply to his Official request; If it was not in your Power to have answered the Question You ought at least to have signified the same to him. –

Arrangement directed by Government had been
Carried into execution; namely, that all the Country
excepting certain districts to be set apart for the
Rajah's Expences, should be assigned over to the
Company. The Board reprobated in the strongest
Terms, every idea of permitting the Rajah to Mortgage
or otherwise Alienate the Countries of the Tanjore
Rajahship, nor can his Power be deemed so extensive
as to comprize any right of alienating his
possessions. Considering it in this point of view,
I thought it necessary to object to a part of the
Letter addressed under date 3d of October to Governor
Anker.

The Measures that have been adopted,
by his Excellency the Rajah of Tanjore, in
Mortgaging so great a Number of Villages to the
Danish Government of Tanquebar, not only
without the Knowledge, consent, and participa-
tion of this Government, or of the Commissioner,
but contrary to their recommendation, as may
be collected from the Correspondence on this
Subject, appears to me a Contempt of the Company's
authority, which ought not to be suffered to pass

December 5 1788.—

(signed) John Holland

Mr. Maunsell delivers in the following Minute.—

Mr. Maunsell's Minute respecting Loans to the Rajah of Tanjore remarkably upon the President's Minute of the 18 Ultimo and strongly Objecting to the Assignment made by the Rajah to the Danes.—

An Answer being now received from Mr. Petrie, to the Question put to him in our Address of the 4th Ultimo respecting Loans, I proceed to offer some Remarks upon it, as likewise upon the Minute of the President of the 18th Ultimo on the same Subject — whether the President is warranted in saying that unmerited Censure has been passed on Mr. Petrie, in regard to Loans, and the late Proposals offered by the Rajah of Tanjore will more fully appear in the course of the following Recital.—

May. Minute of the 11th of last Month expressly mentions that the Propositions on the Subject of Loans came from the Rajah, for it observes that Mr. Petrie ought on the Receipt of them to have remonstrated and perswaded him against the Measure; and notwithstanding the Construction the President is pleased to give of the Orders sent to Mr. Petrie, I am still of Opinion that a Declaration to him in the most positive Terms, that the Board could give no Sanction to

Fort St. George 5th December 1788.—

Possessions to consider the present additional receipt of
60,000 Pagodas, any adequate Compensation for dismembering
in any degree whatever, the Tanjore Country for a Series
of Years.— The National Character of this Government
alluded to by the President, would I conceive be ill
supported by allowing the Rajah to Assign any part
of his Country to the Danes, in order to prevent that
Assignment to the English, and I maintain that this
Government has a right to interfere, and prevent a
Measure so impolitic, as well as injurious to the
Rajah's Situation, for, to suppose he can pay the
present Demands of the Company, according to the
Treaty, besides his own Expence and Satisfying the
Claims of a heavy Loan, is contrary to Reason:—
encreased Oppression to the Inhabitants must be
the Consequence until the Period arrive, which
cannot be distant, that his Country is again forfeited
from Inability to fulfil his Engagements.—

The President observes that if the
Rajah had been debarred from borrowing at a Moderate
Interest part of the Money wanted for the discharge
of his Arrears to the Company, amounting to little
more than one third of the Annual Revenues of the
Country, it would have had the immediate Effect of

3743

Fort St. George 5th December 1788.-

from M.r de Souza - reflecting upon this Circumstance, and knowing that Bills to a large Amount drawn by the Governor of Tranquebar on Merchants at this Place, had been forwarded by M.r Petrie in part Payment of the Rajah's Balance, I was led to fear that the Negotiation respecting a Loan of Money for an Assignment of Villages mentioned by M.r Petrie in his Letter of 3.d September, and disapproved of by the Board, had been concluded, and considering the Letters which has passed between the Danish Governor, this Board and M.r Petrie on the Subject, I could only suppose it must have been done under the Reservation as I have before Observed, that although this Government would not authorize Loans, it might nevertheless permit them - I therefore submitted to the Propriety of directing M.r Petrie to ascertain and report if any Negotiation had been concluded or was on foot for assigning directly, or indirectly any part of the Tanjore Country to the Danes or any other Person or Persons - a Letter was addressed to M.r Petrie in consequence stating that after what had been written to him under the date

would be made to Assignments being given, provided they did not interfere at any time with the Claims of the Company on the Tanjore Country – in order to place the Matter beyond the Possibility of doubt, I proposed that a second Letter should be written to Mr. Petrie in the direct Words of any former Minute, and a Letter was accordingly addressed to him, stating that as the Board could not be too explicit on the Subject of Loans to which We had called his Attention in several Letters, and as it was possible that the smallest Ambiguity of Expression might be construed hereafter into a tacit Acknowledgement of our Concurrence to a Assignement of the Tanjore Country being given; provided they do not interfere at any time with the Rajah's Engagements to the Company: We thought it necessary in the most unequivocal manner to declare that We would on no Account whatever allow of any Assignments being made by the Rajah of any part of the Tanjore Country to the Danes or others, directly or indirectly, desiring he would communicate to the Rajah this our final

Determination

Fort St. George 5th December 1788

on Persons at this place for the Sum of 60,000 Pagodas, for which Lands near Tranquebar were to be given up by way of Rent & Mortgage, and Mr. Petrie received these Bills from the Rajah – this Circumstance alone, after what had previously & and recently passed between himself, the Danish Governor and this Government upon the Subject afforded a well grounded Suspicion as to the Assignment, and made it the Duty of Mr. Petrie to call upon the Rajah for a particular Explanation, and to have stated the Matter without delay to this & Government; but, notwithstanding the Opportunities Mr. Petrie had of obtaining the fullest and earliest Information, he was silent until called upon in a pointed Manner – the Object of this Mission has thus been lost Sight of, and instead of recurring to the Treaty in case the Rajah could not clear off from his own Funds a considerable part at least of his Balance, Money has been raised upon Assignments, and high Interest; – for a moderate Interest is unknown to that Country – the usual Rate is from 3 to 4 p.C. p. Month – by these & ruinous Means the declared Bankruptcy of the &

Rajahs

Country must be viewed as apart of the British Dominions in the East Indies; - at the same time I consider the Rajah as guaranteed in certain Rights, Dignities and Priviledges, under the Condition of his fulfilling stated Engagements with the Company - these Obligations, which I wish ever to see punctually performed on both sides, do certainly forbid any Assignment to a foreign Nation - if the Rajah's Affairs are embarrassed and he has fallen into Arrear, it remains with us to enforce the Treaty, or shew him Forbearance, but on no Account ought We to permit him to enter into Connections with any other European Power.-

Whatever Idea Mr. Petrie may have of the Acceptation of the Term to denote the putting the Danes in Possession of certain Districts, it is clearly and literally to be understood as an Assignment for 12 Years, and even after the Expiration of that Period the Danes Government is to keep Possession of the Lands until the Money is repaid - the Conditions of the Assignment are every way advantageous to the Danes, as they provide for a Remission of, or a Deduction from the

Fort St. George 5th December 1788.

Improvement in the Cultivation would be equally &
applicable at least to our own Management, and as any
additional Objection must arise to the Cession of Lands
for 12 Years, if it can be supposed that political
Considerations have induced them to offer more than
their real Value - upon no Ground therefore can
I think it justifiable in this Government to &
permit them to hold these Lands. - Should &
a War break out before the Expiration of 12 Years,
or before the Rajah had cleared off the Loan,
it is not to be imagined that the Danes would
sit it down contented under the Loss of the
Assignment, and wait patiently for Paiyment
until, according to Treaty, the Country could be
restored to the Rajah - and if We did not take
upon us either to discharge the Debt, or forego our
Rights, the Consequences might be embarrassing
to the Company, and even to the Crown from
the Representation, which might be made on
the Subject to the Danish Court.

The Disagreeable Predicament in &
which this Government was involved in the &
Year 1773 by an Assignment of certain Districts
of the Tanjore Country to the Dutch at Negapatam,
when a considerable Detachment of our Troops &
was

Fort St. George 5th December 1788.

Respect and Gratitude as to have carried into effect the Measure of Assigning over an extensive Territory to the Danes, without the Consent of Government, unless he had considered the presence of M. Petrie at Tanjore, vested with full Powers, and his Knowledge of the Transaction, as giving it a Sanction.—

Although the Expression of Misconduct applied by the President to the Governor of Tranquebar, appears harsh in the View of his Duty to advance the Interests of his Nation, he cannot be held blameless as respects the unknown Connexion established between the English Company, and the Rajah of Tanjore, I was only apprehensive that in the same Manner as the Letters to M. Petrie concerning Loans might be made to bear two Constructions, the Letter from the President to the Governor of Tranquebar might also have admitted a Conclusion favorable to his Views of obtaining the Assignment— referring myself to that Letter, I consider it as objecting in strong Terms to any Mortgage or Assignment from the Rajah to the Danes, and the explicit Declaration that the whole of the Tanjore Country was already eventually Mortgaged to the English Company was conclusive upon that Point.

Fort St. George 15. December 1788.-

before it was possible any Answer could have been received to it- but be it as it may, I trust that the Board will see the Expediency of requiring the immediate Restitution of the Villages, and causing the Advance of Money made by the Danes to be repaid to them, with such Interest as may be due thereon, and that a Suitable & Letter be written to the Danish Governor, & explanatory of the intimate Connexion established by Treaty between the English and the Rajah of Tanjore, which puts it out of the Power of this Government to allow of his assigning to any European, or Other State, any part of his Country, upon any Conditions whatsoever

The President, in his Character of Commander in Chief, lays before the Board the following Letter from Lieutenant Charles Macalister, and Recommends that he be placed on the Invalid List.—

Lieutenant Colonel Malcolm

Adjutant General

From Lieutenant Col Macalister requesting to be placed on the Invalid List. and enclosing a Certificate of His Health.—

Sir,

Being much affected with an Asthmatic Complaint, in Consequence of one of the Wounds I received at the Storms of Pondallamcurchy, and convinced that Field duty would greatly aggravate the Disorder, I am under the Necessity of applying to be removed from the Effective, to the Invalid List. I request You will take the first Opportunity of laying my Application, and the enclosed Certificate from Mr Duncan, Senior Surgeon in this Garison, in Mr Laird's absence, before The Commander in Chief, who I hope will think that My reasons for the Exchange, are sufficiently grounded.—

I have the honor to be.—

Minute on the foregoing Letters

The Board approve the nomination of Mr. Thomas Cockburn to the office of Register and Transfer Accountant; and it is agreed, that the acquiescence of Government be notified in the Madras Courier.

Mr. Holland delivers in the following Minute.

Mr. Holland's Minute objecting to the Creditors of His Highness the Nabob appointing a Registry, as he thinks the Nomination of that Office entirely rests with Government

It does not appear to me that the Creditors of His Highness the Nabob are invested with any Powers to Proceed to the nomination of a Person to fill the office of Register of His Highness the Nabob's Consolidated Debts, and I have therefore thought it necessary to object to their nomination, signified by their Letter of 6th Instant. It is well known they are not a Body Corporate, and that no Responsibility can be removed by their nomination, from the Company to whom only the Register can be answerable for the large amount lodged with him from time to time for the purpose of paying Dividends - as the Trust reposed with him is of very great magnitude implicating the Responsibility of Government, he should hold his office by their appointment only, subject to their immediate Control and direction, and liable to removal at their Pleasure.

Mr. Cockburn is in my Opinion, a very fit Person to fill the office, but I object to any Power of nomination in the Creditors. If they are invested with such Power the approbation of the Board is nugatory

The Vackeels of the Renters of the different Districts of the Jaghire were at the same time called before us who assured us that no Duties had ever been exacted in their Purgunnahs on any articles intended either for Madras, or Triplicane, and the Kanangoe of the Egmoore Mettos likewise declared to us that articles for the Nabob's private use to a very considerable amount had always passed Duty free, but that those going to the Public Bazar at Triplicane, had from long usage been subject to a Collection, which upon further Enquiry we found yielded to the Renter for Fasly 1197 the Sum of Pagodas 223 8. 19. 70. and which if remitted we conceive would entitle the Renter to a Deduction of that Sum from his Kists to the Company.

As we do not suppose that it was your Intention to grant, nor perhaps was it that of the Nabob to claim, the Remission of any Duties established from long usage, we have authorized the Renter of Egmoore Mettos to collect those last mentioned until we

At a Consultation Present

John Fr. Gollond Esquire
Acting President

James Henry Casamajor & Robert Maunsell Esqrs

The Honorable Major General
Sir Archibald Campbell K.B.
Absent in Reviewing the troops in the Centre Divisions of the Carnatic.

Tuesday the 16 December 1788

Minutes of last Consultation read and Approved.

The Acting President reports to the Board that many Applications have been made to him for a supply of Rice to the Publick Servants from the Garrison Stores. As the distress is great among these Poor people he recommends that an Issue, not exceeding 2000 Bags be made in the present Emergency which will afford material relief, and it cannot be attended with inconvenience as there are 19,000 Bags in Store.

Two Thousand Bags of Rice to be issued from the Garrison Stores for the Publick Servants.

The Board Concur in the Recommendation of the Acting President, and it is in Consequence Agreed that an Issue of 2000 Bags be made upon Indents in the usual Manner.

Fort St. George 16th. December 1788.

With regard to the former, We trust it has been accomplished as far as was practicable, by the information contained in our Proceedings, and accompanying Documents, for the Rajah having no Sunnud (as We formerly mentioned) to demonstrate the exact extent of his Zemindary it remains with the Honorable Board to decide in the last instance upon the Evidence laid before them, whether the Villages he has claimed actually belong to it or not—

As to the latter, the same difficulty stands in the way of its accomplishment, as at present it impedes the ultimate completion of the first head, as it is absolutely impossible for us to ascertain
"whether any Grain or other effects has been taken

Governor &c. &c. &c.

Honble Sir,

From Mr. Sadlier enclosing Copies of Letters to him from Mr. Secretary Hay and from Captain Kennaway.

As you did me the honor to approve of what I had written to the Secretary at Bengall for the information of Lord Cornwallis, I think it necessary to enclose for your information a Copy of the Answer which I have received; by which you will observe, that I am desired to communicate any further information relative to this Coast, that I may deem useful. This is a circumstance however, respecting which I would wish to be guided by you; but at the same time, that I may not appear to have been inattentive, I shall transmit to Bengall a Copy of my letter to Captain Kennaway, with the Accounts enclosed in it; as these Papers will thereby reach sooner, than Captain Kennaway could possibly transmit them; and I think this is the more necessary,

necessity of delaying it for a short time, owing to the want of Writers. I find my business increase so fast, and to branch out more and more, that I am not able to make the dispatch I could wish; and indeed cannot prevent it from falling behind hand without more Assistance: and as I believe that Company's Servants who would render themselves useful in this way, cannot be spared, and as I am satisfied that none can be spared from Musselipatam, I could wish to have three or four Good Writers sent up to me from Madras, until at least this business can be finished.—

I have the honor to be very respectfully—

I expected to have been able to have sent you by this Nights Tappy, a Copy of the letter and accounts I have sent to Captain Hennaway, but am obliged to defer it till tomorrow, as the latter are not prepared— I send you also enclosed a Copy of the last letter I have received from Colonel Pidingtoun and can only repeat that I shall transmit Copies of all our Correspondence as soon as possible. favorable, particularly as the Lord Cornwallis's intention to defer coming to any final resolution on the Subject, till your investigation has been completed. The superficial Knowledge I possess of Revenue business incapacitates me from pointing out to You the Vouchers which will be necessary to accompany and Establish the Accounts you may render, which your own experience in this line will sufficiently supply. The litigious Spirit of the Natives renders very strong ones necessary, among which I should suppose may be the Honored and responsible, Authentic Copies of the Pottahs or Grants, given by Seif Jung to the different Zemindars, and of their Cabooleats or Engagements as entered on his Duftar; with an Account of the Jummabeundy, or annual Rental of the Guntoor, conformable, to those Vouchers: also the Annuals Net Receipts under the different heads of Maal and Sair, or Land Revenue and Customs, Extra Assessment, such as Nazzarana and fees to Peons stationed for the purpose of inforcing on the Zemindars the more speedy Payment of their Rents, with Vouchers agreeable to the usage of

To Anthony Sadleir Esq.
Chief of Masulipatam
at Guntoor

Sir,

To Mr. Sadleir with Permission to visit the Presidency — His Requisition relative to the authority to be given to Mr. Scott, during his & Mr. Sadleirs absence, inadmissible.

I am directed by the Board to acknowledge the receipt of your Letters to the Honble the President under date the 4th and 9th Instant, with their several Enclosures, & to inform you that you have their permission to visit the Presidency agreeably to your request.

The Board regret that they are unable to acquiesce in your recommendation, on the subject of empowering Mr. Scott during your absence, to open Letters addressed to the Chief and Council at Masulipatam: and to accompany them with his Opinion, as such acquiescence would be introductory of a measure unprecedented, and for which there does not appear to be any necessity.

I have the Honor to be,

Sir,

Your most Obedient
humble Servant,

having charged the Military Paymaster in his account Current of august 1783 for the pay of the Sepoys of Trippavanum and Palinurry from December 1781 to 31st July 1783, seems, very properly to have debited himself in his account with the Superintendant for the Sums disbursed by Bungarow and Vineatrow, in July 1782 and July 1783 — This We apprehend sufficiently explains the ground of the two Entries, and obviates all Claim upon the Company for any supposed over Credit —

With respect to the difference of Exchange between Mr. Johnston's account and that of the Committee of Assigned Revenue, We are of Opinion that where the Receipts granted by Mr. Johnston do not specify the exchange between Chuckrums and Pagodas, Mr. Johnston is entitled to Credit at the Bagar Exchange properly Certified —

Fort St. George

Honble Sir and Sirs

I have the Honor of acknowledging the receipt of your Secretary's letter of the 20th Instant, and shall set out this Evening by land for the Presidency being disappointed in my expectation of a Vessel by which I could have proceeded thither by Sea.—

From Mr. Sadlier intending setting off immediately for the Presidency. Shall be authorize Mr. Scott to open Letters on Service, addressed separately to him (Mr. Sadlier).—

As I thought my being relieved from the Responsibility of my trust during the short time of my absence might be attended with inconvenience, I did not therefore wish it, and as a Representation would in such case have been necessary I took the liberty of Recommending Mr. Scott as the Person I could have wished to have acted for me in the event of my continuing responsible, but did not mean that he should have been considered in any other light than as

companies of Sepoys on an expedition to Nozed, on the North Side of the Kistnah, in the Masulipatam district.

Bound by orders to comply with his requisitions if satisfied that they are equal to the Service they are intended to perform, but not allowed to judge of the Service, I have of course directed their march.-

I however took the liberty of mentioning to him that judging it not to be the intention of Government to lessen the Strength of the Detachment at this particular juncture, or indeed to employ any part of it, but for the Defence of the Guntoor Circar, I should mention the circumstance to You.-

If Mr. Sadlier thinks fit to order the march of two Companies across the Kistnah, he certainly may if he chuses so to do, order us all to take some route. I presume not to say more.-

I hope Sir as it is impossible for me to spare sufficient time from the duties of my Station, to copy Letters &c. that You will do me the favor to allow me a Secretary. I flatter myself You will not be aware

No Provision having been made for any Representation of my Court in this Case during my Absence, and as the delegation I was inclined to have made, has not been Acknowledged by the Military Commanding Officer as you will observe by the enclosed Correspondence, I cannot take upon myself the responsibility of any inconveniences that might arise, to the Public Service, for want of such acknowledged deligation during the short time I expected to have been away from this Station; and I conceive it to be necessary therefore for me to remain until I receive further Communication from you, & for any guidance.-

I have already explained my only motives for Visiting the Presidency at this time, having no business of my own, either of a Public or Private Nature, to have induced me to it; and I consider your Letter to me on the Subject as kind

receipt of your Letter dated the 25th Instant also of two Letters of the same Date addressed to the Honble. President.—

Government approve Your leaving Mr. Scott in Charge of the Civil Business of the Guntoor Circar during your Absence, and of your authorizing him to open Letters of Service addressed to you seperately on Matters relating to your present Tour.—

The Board approve your Correspondence with the Superior Government at Calcutta on the manner it has been Conducted.—

Having received intimation from Lieut. Colonel Tant that he had upon your Requisition ordered a Detachment into the Rozed Country, the Board direct me to express their wish that no part of the Force in the Guntoor Circar should be moved out of it. they suppose the Service required what has been done & do not therefore direct the Detachment to be recalled, but they hope it will be done as soon as possible

Copy of the Translation of a Letter Written by Ameer Sing &
Maha Rajah to Willm. Petrie Esqr. Dated 21st Novr. 1788

Ameer Sing Maha. Rajah sends to &
Wm. Petrie Esqr. the following declaration Vizt.—

In our Letter to You we have mentioned
the Subject of the Arrears, Likewise the manner in
which our Country shall be managed for the future,
and You have told us that the Governor has consented
to it.— Likewise You have told us that the &
Governor desireth, that the three Persons Namely,
Sheveraw, Bapanah and Gunapah Subbia should
manage the Country jointly so as to have an &
equal authority, moreover that the Resident &
should, whenever it was necessary, inspect the &
Circars accounts — All this we have understood.—

Concerning
