Bombay

Honorable Sir,

I have the honor to Report my arrival at this Presidency and to inclose a receipt of Rs. 22,249 - 28 - twenty two thousand

To

The Honble Thomas Graham Esqr
Secretary to the Honble the Court of Directors
&c &c &c

Sir

I have the honor to inform you that I have received
the Honble Company's Commands to proceed to Cambay
and Surat, and to collect Horses for the Service of the
Bombay Establishment, and that I have accordingly
taken my passage on board the Ship Hannah Capt
Hall, which Ship is to sail from hence on the 3d
Instant.

I have received from the Honble the Governor in Council
Bills to the amount of Pagodas 26,249 twenty six thousand two hundred and forty nine Rupees, twenty eight Reas
of the Honorable Company's which I have lodged in your
Treasury of Calicut about 30,000 thirty thousand more is hope
by this time deposited there on the same Account.

From every information I have been able to
collect, I find it will be to the advantage of the Service that
I proceed to Cambay, where I am in hopes of collecting a
tolerable supply of horses before the opening of the Season,
I beg therefore to solicit the influence of your Honorable
Board in procuring the necessary pass ports, and that you will
be pleased to write the Chief and Council of Surat and Residents
of Broach and Cambay, to afford me such assistance as I may
find it necessary to apply for, in forwarding the Service on which
I am employed.

I shall, from the advances I have engaged
to make, have occasion for the balance of Cash in your
Treasury, with an addition of Rupees 50,000 fifty thousand,
I likewise hope as your Honorable Board will find it convenient
to give me a Credit on Surat for whatever additional sum
may be required to answer the demands of my Agency, the
amount of which to be repaid by the Madras Government on
the province of Malabar. I am induced to make this request
the course of exchange being at present so very much against
drawing on Madras, and indeed I have some doubt of the
practicability of raising any considerable sums for bills on that
Presidency

Having brought a small party of Troopers with me from the other Coast, for whom I wish to have pistols I request your Honorable Board will direct that I be supplied with five case and a small quantity of ammunition. —

Sir,

I have the commands of the Honorable the Governor

1793 Fort St. George June 1795

24th Governor in Council to acquaint you, in reply to the Letter you addressed him under yesterday's date, that he shall procure the Passports for your proceeding to Cambay, and that he will write to the Chief and Council at Surat, and the Residents at Broach and Cambay, to afford you such assistance as you may find it necessary to apply for.

The Balance of Cash in this Treasury will be paid you, but the Sum of 50,000 Rupees which you require, cannot be supplied by this Government as they are [illegible] by the Presidency of Fort St. George to make you any [illegible] will of Cash, for which reason the Governor in Council cannot comply with your request to give you a Credit on the Chief and Council at Surat for whatever additional Sums you require.

The Pistols and Ammunition for your Escort will be supplied you agreeable to your desire on application to the Commissary of Stores, and the Governor in Council will always be happy to afford you every Assistance in his power.

My Lord,

Auditor General's report upon Mr. Roebuck's Estimate for July.

Having examined the Estimate of the Military Paymaster General for the Month of July 1795 I have the honor to report that the Sum of two Lack, sixty nine thousand, and fourty eight Pagodas, twenty seven fanams, and Eleven Cash (Pagodas 2,69,048.. 27.. 11.) is required for the payment of such Military charges as become due upon the first of the ensuing Month, Viz.t

Pagodas	2,69,048	27 11

The Estimate of the Military Paymaster General for the ensuing Month being so considerably increased on comparison with the usual Monthly demands, arises by Pagodas 30,000 being estimated for on account of the Contractors for Building and Repairs, and which I have included in the above Sum, from a belief

1795 Fort St. George June 1795

In regard to the Cash drawn by the acting Paymaster at Masulipatam, Mr. Vincentio Corbet, on account of the 28th Native Battalion, and the Artillery of Mr. Robertss Detachment, as per his letter of the 6th inst. to the Military Paymaster General, Copy whereof is forwarded to me in Mr. Secretary Jacksons letter of the 18th, I can form no judgement of the probable Sum that will be wanted for these Corps, as the Acting Paymasters letter is not specific concerning the Month, or period, for which the Cash is required. ——

Sir,

To Resident at Nagore — Advice of the intended Station and instructions regarding Freight to be procured also what Rice Government collect.

It being the intention of the Right Honorable the President in Council to send a force to Trincomalé for the purpose of securing that important place against any attack on the part of the French, and as some of the Troops destined for this Service will embark from Negapatam, his Lordship desires you will lose no time in stating your opinion as to the best means of procuring Freight for the Conveyance of one Battalion of Native Infantry. It has occurred to his Lordship that Donies, well found in all respects, might be used with advantage on this occasion, and be attended with less expence to the Company than by the hire of large Ships. But, if there be any objection to this measure, either on account of any hazard that the Troops might run by being embarked on such Craft, or by the delay in their passage from Nagapatam to Trincomalé, in consequence of adverse Winds and Currents, it will not be adopted. Of this, however, you will be able to procure full information, and, in the event of it's being considered

The flank Companies of his Majesty's 71st and 73d Regiment, and the first Battalion of Native Infantry are ordered to rendezvous immediately at Nagapatam. You will therefore see the necessity of procuring supplies of Provisions for their use during their stay at that place, and direct your attention to the Collection of such supplies as the Troops may require on their passage to Trincomalé. —

It is not yet determined in what way the Europeans shall embark, but your enquiries in regard to Tonnage will be made with a view to the necessity of procuring sufficient Tonnage for the whole of the Force abovementioned, but you are not to enter into any positive engagements, until you have reported the terms to the President in Council and obtained his Lordship's orders thereon. —

As any delay in this business may be attended with serious consequences, you will not lose a moment in forwarding your answer to this letter by express. —

You are directed immediately to employ as many people as you can collect for the purpose of heaving

My Lord,

We have had the honor to receive your letter of the 8th April with the Minute of your Lordship in Council enclosed. —

From Bengal are of opinion that the promotion of Major Young and his Appointment to a Seat at the Military Board should be Superseded.

2 We are concerned that our Sentiments, after full consideration, do not correspond with those which your have communicated to us, either on the Expediency or Propriety of the late Arrangement respecting the appointment of the Senior Cavalry Officer on your Establishment to a Seat at the Military Board.

3d We confess our surprize at the avowed incompetency of the Military Board, to establish adequate Checks and Regulations for controuling the supplies or Expenditure of that branch of your Establishment, as far as they come under their Cognizance

1795 Fort St. George 3.d July 1795

Cognizance, or if they do not poſſeſs Information ſufficient for this purpoſe, that the difficulty of procuring it ſhould be ſo great as to induce them to urge the neceſſity of introducing a Cavalry Officer to a Seat in their Department.

4 With reſpect to the Propriety of the Selection without recurring to the arguments, which we have already communicated to you and with the fulleſt acknowledgement of the meritorious Services of Major Dallas we ſhall only remark, that we ſtill think the original Objection to the appointment of Lieutenant Colonel Young valid as totally withdrawing him from the Active Duties of his Profeſſion, and as occaſioning an advance of his Rank, to entitle him to a compenſation for the loſs attending his removal from his Station in the Field.

5 In expreſſing our adherence to our former Reſolutions We are under the neceſſity of declaring our decided opinion that the Appointments of Colonel Young ſhould be reſcinded, and that the Alterations made in conſequence of it ſhould be revoked.

The President proposes that the following answer be returned. —

To the Honorable Sir John Shore Bart.
Governor General in Council
at
Fort William.

Honorable Sir,

Draft of an answer which the President proposes should be written to the foregoing letter.

We have the honor to acknowledge the Receipt of your letter dated the 15th Ultimo, in which you are pleased to acquaint us with your decided opinion, that the appointment of Lieutenant Colonel Young should be rescinded, and that the alterations made in consequence of it should be revoked.

We feel the most serious concern that our Sentiments on the propriety of that appointment should have occasioned so pointed a mark of your disapprobation: — But, as the public reversal of an Order which had been issued under a conviction of it's utility, and by an authority whose competence to regulate it's own internal affairs was, as we supposed, fully acknowledged, would tend to lessen this Government, both in the opinion of the Army, and the Natives of the Country, and as the subject is under reference to the

1773 Fort St. George 3.d July 1795

the Court of Directors, we trust of you will not consider the urgency of the case to be such as not to admit of it's laying over, until their Sentiments are received upon it. And we are the more sanguine in this expectation from the length of time that has already elapsed, since the measure in question was first communicated to of your Government.

We do not conceive that, in point of Precedent, any inconvenience can arise, as the extent of the Cavalry Establishment upon the Coast, beyond that of the other Presidencies, must preclude the possibility of any precedent being drawn from the measure we have deemed it necessary to adopt. We are the more inclined to press the postponement of any further steps, at present, upon this point, from the particular necessity of upholding the Government in the Eyes of the Army at this time; and from a belief that the system for new modelling the Army in India may possibly contain a regulation calculated to authorize the Governments at the several Presidencies, to make use of the Services of any of the Officers of the Army whom they may conceive to be qualified to render essential assistance, either in framing or carrying into execution a system of check and control upon Military expenditure.—

We have formed this opinion in consequence

1774 Fort St. George 3d July 1795

consequence of Mr. Dundas having transmitted to our President, a Copy of the plan submitted by Marquis Cornwallis for new modelling the Army in India, with a letter of which we enclose a Copy, and take the liberty of forwarding an Extract of one of the Regulations suggested by his Lordship.—

My Dear Lord,

There has been much discussion in this Country lately in the arrangement of the Indian Army. Nothing is yet finally settled on the subject. I wrote a letter to Lord Cornwallis after his arrival in this Country that I might have his sentiments at large, and with his approbation I send you a Copy of my letter, and of his Lordship's reply. My reason for sending it is, that much mischievous industry has been employed to misrepresent his opinions, and he naturally wishes that the

the real state of his Sentiments should be known The Court of Directors have given a decided opinion against the transfer of the Indian Army to the King. From what I can hear the Officers of the Indian Army are rather disposed for it but it seems to be the general opinion, and I believe particularly the wish of the Indian Officers, that the Arrangement should finally rest with me. I think it is likely to take that turn, and I can entertain little doubt of being able to settle it in a satisfactory manner. I thought it right not to allow the present conveyance to depart without giving this short sketch of the present state of the Business. —

That about 9 O'clock in the night of the 27th. of June last your Petitioner was seized at Saint Thomas's Mount by an armed force, under the Command of Lieutenant Stone of the 2d. Read the following letter this instant — received from Colonel Brathwaite.

To the Right Honorable Lord Hobart
Governor in Council &c. &c. &c.

My Lord

From Colonel Brathwaite reporting the steps taken and recommending the adoption of sundry measures connected with the Expeditions for Tellicherry and Malacca States that the Widows of the late Lieutenant Colonel Patterson are qualified for the Company's Service.

In consequence of the conversations I have had the honor to hold with your Lordship since the arrival of Despatches from Europe, I have been, and still am, busily employed in such measures as will accelerate, under your Lordship's sanction, the carrying his Majesty's commands into execution.

The

1784 Fort St. George 3d July 1795

The several Details of Troops, Ordnance, Stores, Ammunition,
and Provisions with the Tonnage required, are not yet
sufficiently reduced to order, for me to lay them —
Officially before your Lordship in Council, but no —
time shall be lost in preparing them for that purpose,
and as I have the honor to be fully apprized of your
Lordship's Sentiments, no time shall be lost in —
pushing every thing forward. Commodore Rainier, who
is ever ready to forward the public Service, has —
informed me that he will receive on board of his —
Majesty's Ship Suffolk some of the heavy Ordnance
and ammunition, and is desirous to receive it as soon
as possible. I have therefore, without waiting for the
whole detail being passed by your Lordship in —
Council, given Orders to the Commissary General —
of Stores, as President of the Military Board, this day,
that such Articles as the Commodore is pleased to
receive shall be immediately sent off.

The Troops ordered from Arnee and
Vellore will arrive tomorrow or next day, I therefore
recommend to your Lordship in Council to authorize

me

1785

Fort St. George 3d July 1795

me to give Orders to the Officer Commanding the Artillery, that two Companies of Artillery with the Companies of Lascars attached to them, be held ready at the Mount to move at a short warning. and that your Lordship will be pleased to confirm what I have thought it highly proper to hint, namely, that the indulgence promised to the Natives, which were to have been employed on an expedition to the Islands, will be granted to such of the Natives as may be now employed, and this I cannot but strongly recommend, not only because those now to be employed must be called upon at a very short warning, but must of necessity be in whole Battalions as time does not now admit of composing the Force of Volunteers drawn from all the Native Corps on the establishment as was then done - and as the Battalions which alone can be conveniently ordered are not quite complete and some casualties must be expected, I request to be authorized to write to Colonel Collins to collect such Volunteers as may offer in the Battalions at Vellore and send them hither to enable me to supply any deficiency, to

write

1786 Fort St. George 3d. July 1795

write to Colonel Floyd to do the same in regard to the Battalion which will embark to the Southward. And, as the Services about to be undertaken must necessarily so much weaken our Artillery Corps, I request to be authorized to order a certain number from each European Infantry Corps now serving under this Presidency, whether of his Majesty's or the Company's, to join the Artillery to be instructed in the Gun exercise with the usual allowance to them for the time they are so employed; and as one of the Battalions now doing duty at Fort St. George will fall to be employed on the intended Service, and the duty of that Garrison cannot be carried on for any length of time without a Reinforcement, I recommend that a letter be written to Captain Read to order Captain Beale who commands the 24th Battalion at Ahtoor, to detach three Companies to Tiagar for the Security of that Fort and Ravet Nellore, and that a letter be written to the Officer Commanding at Tiagar to March the 14th Battalion to the Presidency so soon as this Detachment of the 24th arrives at Tiagar, and has relieved the Detachment at Ravet Nellore I recommend

1787 Fort St George 3d July 1795

recommend this to be done by Separate letters to the Commanding Officers at this time, in preference to a General Order.

The Tonnage which will be required is considerable; if that can be obtained, every thing that we have to do, I can venture to say, will be so promptly executed as to warrant every hope of success. —

The Honorable Company having sent out so few Cadets, and so many Casualties having occurred, we labour under a great want of Subaltern Officers, but as that cannot now be helped, we must endeavour to make the most of those we have. And as I think now no more Cadets will come out for the Season [1794] I think it incumbent on me to reply to that part of Mr. Secretary Jackson's letter of 7th. of January last which relates to an enclosed Extract of a General letter from the Court of Directors under date the 21st. of May 1794 relative to the Younger Sons of the late Lieutenant Colonel A. Patterson, and to put them, namely, Mr. James and Mr. Thomas Patterson to be qualified for the Company's Service — The elder of them has been for many Months an

1788 Fort St. George 3d July 1795

an Ensign in his Majesty's 72d Regiment by my recommendation, and Sir Robert Abercromby is a obliging as to permit him to resign, in order to obtain a Commission in the Company's Service, which he prefers, merely because he will have two Brothers in it.

Captain Mac Lean, on the subject of thieves. —

Immediately on the Receipt of your Lordship's former letter, I wrote positive Orders to the Naibs of the Nellore and Ongole Talooks &c, also to the Zemindar of Venkatgerry, to punish the Plunderers, and to put an end to their irregularities — I also sent my Naib of Nellore himself, for the purpose of checking and punishing these Disturbers — My Friend, this Band of Freebooters, countenanced by the Zemindars of Cudappa and Khummum, on every Opportunity, plunder and ravage our Districts — It is absolutely necessary therefore to obtain an order from his Highness Nizam ud Dowlah, for the removal of these troubles — and your Lordship will accordingly be so good to write to Captain Kirkpatrick, to the end that his Highness the Nizam may issue Orders to his Naibs of Cudappa and Khummum for co-operating with the Troops in punishing these Plunderers, so that they may be left without Resource. —

I have observed what your Lordship has written, as to withdrawing the Detachment with Capt.n Mac Leane, to Guntoor.

Captain Mac Lean having given his

My Lord,

relative to the Posts of
Singreporam, Ray-
-guddah and Cashe-
-poram. has not dis-
-covered the Retreat
of the Paulcondah
Rajah. —

I have the honor to inform your Lordship I arrived here with the Detachment this Morning. — As the Fort of Singreporam lies remote from all Relief, I directed a Jamidar and fifty Sibundies, to proceed from Carpaum to reinforce the Subadar and fifty regulars left there; at Rayguddah, the fort being in tolerable good order, I left only a Subadar and thirty regulars, with a Reinforcement of a Subadar and fifty Sibundies, ordered also from Carn-
-paum. This body of Sibundies I had proposed to send to Major Coxe's Detachment to be posted at Casheporam, but understanding from Mr. Webb he would have about two hundred of that description, I judged they would be better employed, where no Relief, can, with any certainty, during the Rains, take place. I left no Europe-
-an Officer at either place as I judged in such Situations they would become incapable of Service in a few days, and would probably lose their lives before they could repair to any place for Medical assistance. —

Captain Dese informs me the Fort of Singuporam

1795

Fort St. George, July 6 1795.

3.S Singuporam is about twelve Miles distant from Rellocc=
=nah, from whence I detached him, and the Country very
different from that between Curpaum and Relleconah,
being open and cultivated. The fort is of a circular form, and
of little Strength save what it derives from a thick
Bamboo hedge which encompasses it, and by being surroun=
=ded by the River.—

The accounts I have received from
Paulcondah are by no means Satisfactory; The Village
men I had engaged to discover the Retreat of the Paulcon=
=dah Rajah, have amused the Officer there with delays under
various pretences; which inclines me to suspect them of
deceit; the Rumedy Agent says no intelligence is yet ob=
=tained of him. He cant shift his Situation so readily
now, as in the fair Season; if any clue presents itself by
which it may be conjectured he will be found, it shall
be instantly followed.

In whatever manner the Country may
be hereafter settled I am hopeful there will be no future
plea for defect of Revenue; for the Farmers appear to
be performing their duty during the present rains, to ob
prepare their lands for the seed.—

Sir,

I am directed by the Right Honble the President in Council to acquaint you that, in consequence of information communicated to his Lordship that several Men of the Artillery, who lately proceeded to Europe and to Bencoolen had claims of Clothing, Half Mounting, Moneyand Arrears due to them, an order was sent to Lieutenant Colonel Geils to adjust those claims, which occasioned a Court of Enquiry, the Proceedings of which I am instructed to forward to you, together with the Correspondence that passed, at the time, between the Town Major, Lieutenant Colonel Geils and other Officers of Artillery, and copy of the regulations lately submitted by the Military Board, with respect to the clothing of the Troops.

The above papers are transmitted to you with a view that you may adopt such measures as may appear to you necessary to ascertain how far the complaints are well founded, and what steps may be necessary to be taken in consequence. —

Read a letter from Mr. Secretary Jackson, intimating that the Right Honble the President in Council, having come to the Resolution of sending a Force to the Island of Ceylon his Lordship has appointed Mr. John Briggs to be Head Surgeon to the Expedition with such assistance as may be judged necessary; and desiring that after We had received information respecting the detail ordered for the Service, this Board should submit to Government an Arrangement for the Medical Department. —

Mr. Briggs having laid before us an abstract of the force about to be employed, we have directed him to make out the necessary Indents for Medicines, and recommend that one Assistant Surgeon may be appointed Field Apothecary to

to take charge of the Medicines and Medical Stores for the use of the Expedition. —

That all Indents from the Surgeons of Corps be Countersigned by the Head Surgeon, before they are complied with; and that the Field Apothecary shall send Returns of the expenditures to the Medical Storekeeper at Madras, by every favourable opportunity. —

As it will be impossible, in a Service of this nature, to regulate the Supplies of Country Medicines by the number of Effectives for any length of time, we are of opinion that the Receipt of the Head Surgeon will be a sufficient Voucher for the Apothecary, who will account to Government for any quantity that may be returned after the Service is over. —

Should the above arrangement be approved we recommend that Mr. Alexander Boswell be appointed Surgeon, and Mr. John Mc. Sir,

To the Governor of Pulicat enclosing the letter from the Prince Stadtholder and requiring him to place the Settlements on the Coast of Coromandel under the Protection of the British Troops stating also the consequences that will result from a disobedience to the Orders of the Stadtholder.

I have the honor to acquaint you that I have received orders from the Directors of the Honble the East India Company to carry into execution, in concert with the Officers commanding the Naval and Land Forces in India, such measures as may appear necessary to prevent the ill Effects apprehended on account of the late successes of the French in Holland, from extending to this Country — And, for this purpose, the Prince Stadtholder, who has been obliged to take refuge in Great Britain, has transmitted the enclosed Letter, and, as it contains the orders of his Sovereign Highness for putting his Majesty's Troops in possession of the Dutch Settlements on the Coast of Coromandel, I am persuaded there will be no difficulty on your part, in paying immediate obedience to them in order that such Colonies or Settlements may be protected against the Enemy, and held possession of upon condition of their being restored to the Republic at the conclusion of a general peace, by which its Independence and its constitution as guaranteed in 1787 shall be maintained and secured. —

I have the satisfaction to acquaint you that his Majesty has ordered his orders to cultivate the

Company's possessions in the East Indies with the same advantages as the subjects of the most favored nation — and that, whilst the Settlements under your Government shall continue in his Majesty's possession, the Inhabitants will be treated in the most favorable manner, and will be admitted to a full and free use of all the commercial advantages of which the situation and circumstances of the Settlements will admit — and with a view to give every proof of his Majesty's desire to render the situation of the Inhabitants as satisfactory as possible, he has directed that the Officers of your Government should be left in the full and free possession of their employments, until his Majesty's pleasure shall be known. — Having

To the Right Honorable Lord Hobart

Governor in Council

My Lord

From Major Brodie — in Explanation of his Conduct relative to his late purchases of Sheep — contradicts pointedly several Assertions made by Mr. Place — and offers to submit his Conduct to a Court of Enquiry. —

I have the honor to acknowledge the receipt of the two Official letters addressed to me under date the 21st May and 3d. Instant through Mr. Secretary Jackson by your Lordship's direction, stating that Mr. Place, as Collector, has reported my having disobeyed the orders of Government in regard to the Sheep I have received from him for the use of this Garrison — a charge which, for the reasons I am about to submit to your Lordship's consideration, I trust will appear to be perfectly invalid. —

In the first place permit me to state, that for all Sheep which have not been particularly selected as the

1820 Fort St George 11 July 1795.

9th the finest of the Flock, I have regularly offered, through my Cutwall, one Star Pagoda for four which has constantly been refused by Mr Place's Servants, on the plea that they were unauthorized to receive payment for such Sheep; your Lordship will evidently perceive that I absolved myself of the duty required, by tendering the price stated above, for Sheep promiscuously bought — and if Mr Place directed his Servants not to receive the money, no blame can possibly be attached to me.

I trust I shall ever pay that due respect to the Government whose protection I enjoy, as to acquiesce with pleasure in such orders as may be thought necessary to issue, and therefore beg leave to assure your Lordship, that when I have had occasion for what are denominated table Sheep, for the use of my own family, I have been sometimes in the habit of purchasing them from a Sheep Dealer, thinking myself according to the usual custom of Society, entitled to obtain them, on such terms, as I deemed the most reasonable — and they were then only to be procured at the rate of three for a Pagoda — and for this reason I must own to Your Lordship, that I have directed my Cutwall not to receive the table Sheep brought by Mr Place's Servants, because I have been generally provided with Sheep of a similar description at precisely the same rate which they were offered to Sale by the orders of that Gentleman. —

As connected with the present subject, it may be superfluous to submit to your Lordship's consideration the following circumstance. — On

1821.

Fort St. George 11 July 1795.

9th

On the 30th of April I was under the necessity of sending for fifty Sheep, which were taken, without any attention to quality, from a flock consisting of about five hundred — the money was immediately offered for the Sheep at the rate of four per Pagoda, which the Servants of Mr. Place would not accept, as they were under the apprehensions of severe chastisement from their Master, for so doing — I took an opportunity of mentioning this circumstance to Mr. Place, at the same time advising him that the money for the Sheep was deposited in the custody of the public servant, and forthcoming whenever it should be required — upon what grounds Mr. Place has not condescended to receive such Money, I pretend not to know, and shall only observe that such conduct appears to me to imply a contradiction of the most palpable nature. —

In the public letter of the 3d of July, which I have now the honor of acknowledging, it is stated that I "still continue to select the finest of the flocks, "and will give only an inferior price for them" — if such be the nature of Mr. Place's information to your Lordship in Council, I beg leave with due deference but in the most unqualified manner to deny, that such is the case — for I am free to declare that there has not one Sheep been selected by any of my people since the 30th of April (the few from the Sheep Dealer mentioned above being excepted) but from Mr. Place's

public

1822 Fort St. George 11 July 1795.

9th public Servants at the stipulated rate - as I have pur-
= chased every thing else in the Sayhire agreeable to
Government regulations.

If notwithstanding of what I have stated, it should appear to your Lordship that the points at issue between Mr. Place and me, seem still to demand a further elucidation, I have only to request that you will be pleased to order an enquiry into the business in any way that may appear most proper to your Lordship - in order that my conduct may be explained, and my character vindicated as an Officer, and a Gentleman - and as I am threatened with your Lordship's displeasure, and likewise to be removed from my command upon erroneous information, and misstated facts lodged against me by Mr. Place, I persuade myself you will find no hesitation in complying with a request of such importance to me.

Sir

From the Acting Commissary General of Grain and Provisions recommending an Increase of Pay to the Principal Writer at Vellore - that the Madras Maraicalore be employed in all the Company's Granaries and the Pay of the Servants thereon and on that account - and that the Grain at Dindigul be carried.

I enclose herewith for the information of Government, Copies of Letter and Statement from Mr. Wynch Commissary of Grain and Provisions at Vellore:- On which I think it my Duty to observe, that no responsible Person can possibly be procured to take Charge of a Granary and perform the duties of a Writer, for less than Ten Pagodas P Mensem, as it is well known every Man who can write a tolerable hand and bears a good Character is at all times certain of being employed at least at 10 Pagodas P Month at Madras.

Country Measures cannot make use of the Madras Marcal (the only Measure used by the Company (whenever they have attempted it, a Loss has arisen to the person who Employed them of near Six per Cent in receiving Grain, besides it is well known that a Madras Measuring Man can Measure in One Day with the Company's Marcal three times the quantity of Grain that a Country Measurer can with the Small Measure he uses, therefore as a saving to the Company, I beg leave to recommend that Madras Measurers alone be allowed in the Company's Granaries and that their pay be fixed at 4 Pagodas P Month.

With this you will also receive, for

for the information of Government, Copies of Letter and enclosure from Mr Vaughan Commissary of Grain and Provisions at Dindigul, and beg to recommend that he be permitted to air the Grain in the manner recommended by Lieutenant Colonel Cuppage, and, in order to lessen the expence, that as many Lascars as can be spared be allowed to assist in removing it.—

I request you will inform the Right Honble the President in Council that in consequence of Major Dalrymple's having been ordered away on Service, and my having received directions from Colonel Floyd to place an Officer in Command of Pallam,

Having been directed to equip the Flank Companies, in every respect, for Service, and many of their Pouches being in bad order I judged it necessary to give orders to the Acting Storekeeper to put them in repair with all possible despatch - as being much less expensive than taking the new pouches out of Store - which I trust will be approved of.

His Lordship may be assured that all possible expedition will be used in sending off the Detachment - and that it will certainly march to Poondy, ten Miles from hence on the Road to Negapatam, tomorrow evening.

The President lays before the Board the following letter, which his Lordship judged it necessary to write to the Governor of Columbo, by Major Agnew.

To the Honorable J. G. Van Angelbeck

Governor &c. &c. &c.

at Columbo.

Sir,

Letter to the Governor of Columbo (delivered in charge to Major Agnew) requiring him to place the Dutch Settlements on the Island of Ceylon under the Protection of the British troops agreeably to orders received from the Prince Stadtholder.

I have the honor to acquaint you that I have received orders from the Directors of the Honorable the East India Company to carry into execution, in concert with the Officers Commanding the Naval and Land Forces in India, such Measures as may appear necessary to prevent the ill Effects apprehended on account of the

1832 Fort St George 10th July 1795.

The late Successes of the French in Holland from extending to this Country; and, for this purpose, the Prince Stadtholder who has been obliged to take refuge in Great Britain, has transmitted a letter for you, through His Majesty's Secretary of State which will be delivered herewith; and, as it contains the Orders of his Serene Highness for putting the Dutch Settlements on the Island of Ceylon under the Protection of his Majesty, I am persuaded there will be no Difficulty on your part in paying immediate Obedience to them, in order that such Colonies or Settlements may be protected against the Enemy and held Possession of, upon the Condition of their being restored to the Republic, at the Conclusion of a general Peace by which its independence, and its Constitution, as guaranteed in 1787, shall be maintained and secured.

I have the Satisfaction to acquaint you that the Officers commanding the naval and land Forces have His Majesty's orders to cultivate the Friendship and good will of the Inhabitants who may thus be placed under his Royal Protection, and to convince them of His disposition to grant them such Indulgences and Immunities as can, consistently with the general Interests of the Empire be extended to them, and that it is His Majesty's Intention that their Laws and Customs should not be infringed nor fresh Taxes or Duties imposed; relying however that proper provision will be made for defraying the Expence of the internal Government of the Settlement. I am also to inform you that it is His

Majesty's

1833.

Fort St George 10th July 1795.

Majesty's gracious Intention that the internal Trade of the Inhabitants shall be entirely free and that Permission will be granted them to trade to and from the English Company's Possessions in the East Indies with the same advantages as the Subjects of the most favored Nation, and that, whilst the Settlements under your Government shall continue in His Majesty's Possession the Inhabitants will be treated in the most favorable Manner, and will be admitted to a full and free Use of all the commercial Advantages of which the Situation and Circumstances of the Settlement will admit: and, with a view to give every Proof of His Majesty's Desire to render the Situation of the Inhabitants as Satisfactory as possible, he has directed that the Officers of your Government should be left in the full and free Possession of their employments until his Majesty's Pleasure shall be known — With respect to the European Corps serving under your Government, His Majesty has been graciously pleased to authorize that it should be proposed to them to be taken into the Pay of Great Britain, and engaged for his Service on the Terms on which they are now employed —

Having made this communication, it is my Duty to apprize you that if, contrary to His Majesty's Expectations, resistance should be made to deliver up the several Colonies and Settlements upon the Island of Ceylon, the

Officers

1834 Fort St George 10th July 1795

Officers Commanding the Naval and Land Forces have the express Commands of the King to take Possession of them by Force in His Majesty's Name; a Measure, which, being the Result of a Disregard to the Orders of the Prince Stadtholder, will render you, and those who may be concerned with you responsible for the consequences. —

I have further to acquaint you that a considerable Body of Troops will sail from hence in the course of a few Days to rendezvous at Trincomal= lee, and that any Communication you may have to make upon the important Subject of this Dispatch you will address to the Commanding Officers of the Naval and Land Forces assembled at that Place, who have full authority to adopt such Measures, in con= formity to the orders above mentioned, as the Exigency of the case may require. —

The friendship which has so long subsisted between Great Britain and the States General, and which has certainly much contributed to the Welfare of both, has placed me in a peculiar Embarrassment from feeling the Necessity of calling upon you for a decided and final Answer to this Dispatch within a limited Period; but the critical Situation of public Affairs will not admit of delay. It is therefore indispensibly necessary that you should at once determine, whether you will accept the Protection offered by the King, as the Ally and Friend of the States General, under the Constitution guaranteed to them in 1787, or whether you will prefer a System of

Neutrality

fraught with every Distress and Ruin to the Liber-
-ty and Property of those who are so unfortunate
as to exist under it.

For this purpose a Major Agnew has
Directions to convey your Answer to the Comman-
-ding Officers of the Naval and Land Forces, as no
further Communication can be had with me upon
this Point; or, in the Event of your wishing to despatch
any Person from your own Government, Captain
Gardner has Commodore Rainier's Orders to give
him every suitable Accommodation in His Ma-
-jesty's Ship the Heroine and to land him at
Trincomalle but it must be explicitly under-
-stood that the smallest Delay, under existing
Circumstances, will be considered as a Refusal
of the offered Protection. —

Major Agnew, who will have the honor
of delivering these Despatches, is an Officer upon
whose Integrity and Discretion you may place
the firmest Reliance and is highly deserving of being
treated with the most unreserved Confidence. —

distinguished Consideration &c. &c. &c.

The President informs the Board that he sent Mr Macleod yesterday to Pulicat with the Prince of Orange's letter addressed to Mr Ellbrecht, the Governor of that place, and a letter from his Lordship to the Governor couched in similar terms with that to Mr Van Angelbeek, except only that no mention was made of a force having been sent to take possession of Pulicat. —

Read the following letters from

Colonel Braithwaite.

To the Right Honble Lord Hobart

Governor in Council &c. &c. &c.

My Lord,

I have the honor herewith to enclose a general Detail of the Troops &c. to be held ready for Foreign Service, for the assembling of which, as your Lordship knows, measures have been already taken, in consequence of verbal intercourse. —

From Colonel Braithwaite Recommendation relative to the Details of Troops, Provision & Stores, and Staff appointments for the Detachment intended on Foreign Service. —

Also two Lists under Numbers 1 and 2, of Ordnance, Ammunition, Stores, Intrenching Tools, Camp Equipage &c. which I think necessary for the proposed Service, Namely, the first for Trincomale' the latter for Malacca, also a Computation of the Tonnage which will be required, with some explanations subjoined. —

The Details of Store and Tent — Lascars, Bamboo Coolies &c. may appear to your Lordship to be more than are necessary, upon the Supposition

1837

Fort St George 10th July 1795.

supposition that the Troops to be employed are not likely to have much marching; but I could have no other rule to go by than the established allowance of such to Troops going on Service, nor is it indeed possible to say What Troops may be subjected to, that are employed upon a distant Service; and I rather fear, as this class of Servants are, many of them, only temporarily employed, and not under Discipline like the Sepoys and Gun Lascars, that there is much more likelihood of there being a deficiency than an excess - this however, cannot be known till the Moment of actual Embarkation; and it would not be proper to presuppose such a thing in any calculate made.

The detail almost specifies how every Part of the force is to be employed, but it may be more clearly before your Lordship, if I give another special detail of the force to be employed against Malacca, and add some appointments which will be made in consequence. -

To Command, Major Roberts;

Staff { Brigade Major; Secretary; Dutch Interpreter } Not yet Provided for. -

Surgeon, Dep.y Commissary of Ordnance

One Conductor, One Subaltern of Engineers

One Captain, two Subalterns, and a detail of about forty to be drawn from the two Companies of Coast Artillery mentioned in the General Detail, with

one

1838 Fort St George 10th July 1795

one Company and an half of Foot Lascars. — Four
Flank Companies of the Honble Company's 1st and
3d Battalions with

An Adjutant
Quarter Master
and Surgeon's Assistant } Not yet provided for. —

the 17th Native Battalion, and Lieutenant Heatland
with his Company of Pioneers. —

I shall now observe that I think the
Staff I have allotted for Major Roberts will be absolutely necessary, as he must have some body to issue his orders and regulate his details — and to manage his correspondence, and to Interpret for him. As I believe it will make the Major very happy to have two Officers with him, in the two former capacities, that were with him before Viz^t Lieutenant George Martin and Lieutenant Alexander Orr, and on that supposition I have written to these Officers to repair to Madras, as there might possibly be occasion to employ them — In regard to the Adjutant and Quarter Master to the Flank Companies, I wish to make a little enquiry before I recommend the Officer to be Adjutant; but as to the Quarter Master I would wish to recommend Lieutenant M^c Kerras — He belongs to the 3d Battalion it is true, and is Adjutant to the Black Town, but he is very desirous to go with his Battalion on Service; and, if your Lordship can admit of it, I am of opinion his

presence

Fort St George 10th July 1795.

presence will be very necessary with it, in case of any accident happening to Captain Gordon, and as he is so old a Subaltern, and must give up his Adjutancy in the Black Town, I could wish him to be styled Quarter Master to the Detachment, rather than the Flank Companies, which will make his situation more respectable, and will not remove him from the 87th Native Battalion, the temporary Command of which it is my wish should fall upon him in case of any accident happening to Captain Gordon; and I should hope your Lordship will be pleased to make the appointment of his Successor, as Adjutant in the Black Town, only to be acting during his absence; as I should be sorry that his Zeal to go upon Service should cause him to lose a Permanent appointment —

In regard to the appointments included in the general Detail and to be employed at Trincomale, not yet Provided for, further than being deemed necessary, I have to observe that I mean, that Deputy Adjutant General Major Agnew, and Deputy Quarter Master General Smart, and Brigade Major Turing, at present attached to Head Quarters, should be employed on this Service, also Mr Limerick Judge Advocate to the Southern Division of the Army, who can be spared as the Judge Advocate to the King's Troops is now in that Division; so that these Appointments

will

1840. Fort St. George 10th July 1795

will be attended with no additional expence.

The Nomination of his Secretary and Aid De Camp, I shall leave to Colonel Stuart, and, as soon as I know from him whom he wishes to have in these appointments, I shall give in their Names to your Lordship.—

The Commissary and Paymaster, and the Dutch Interpreter for Colonel Stuart's Detachment, and the Deputy Commissary and Paymaster, and the Dutch Interpreter for Major Roberts's Detachment, it is my Duty to leave entirely to your Lordship.

And I presume your Lordship will communicate with the Medical Board on the subject of the Medical Gentlemen to be employed.—

With regard to the Adjutants and Quarter Master to the Detachment of Artillery—Lieutenant Friend who is at present Quarter Master to the 2nd Battalion of Artillery and Lieutenant Bowman who is Quarter Master to the Artillery Corps, are both Zealous to go on Service; which is very fortunate as we are in great want in the Artillery Corps of Subalterns, and Lieutenant Colonel Smith has signified to me that he can spare them, at this time, I have therefore so arranged matters with these Gentlemen, that the former shall go Adjutants to the Detachment, and the latter as Quarter Master

1841

Fort St. George 10th July 1795.

Master without additional Pay as such, in conse-
-quence of that which they now receive be continued
to them; these appointments will therefore be attend-
-ed with no additional Expence.

For the Brigade Quarter Mastership
to the Native Brigade, I beg leave to recommend
Lieutenant James Graham who lately resigned
in favor of Lieutenant Oliphant, on being informed
that Government wished to reward that Officer-
I can add also that Lieutenant Graham would be
highly agreeable to Colonel Stuart; as Lieutenant
Oliphant cannot be now called from the duty he is
on, I therefore propose to your Lordship the appoint-
-ment of Lieutenant Graham to a Brigade
Quarter Mastership for the Present Service.-

I am not yet prepared to give in the
Names of the Officers I would recommend as
Adjutant and Quarter Master to his Majesty's
Flank Companies, but as soon as I am I will
lay them before your Lordship. —

Captain Norris and two Subalterns
from the detail of the Coast Establishment of
Engineers are Proposed to be now employed. The
3d Subaltern to be employed as an Engineer is
Lieutenant Hayter, at present attached to the
Royal Artillery, but who is, in fact, in his
Majesty's Corps of Engineers, and a very Active
Officer. —

S

1842 Fort St George 10th July 1795.

I beg leave to recommend Lieutenant Scott of the Coast Artillery to be Commissary of Ordnance with Colonel Stuart; and Propose deputy Commissary Gibson, now at the Mount, as deputy Commissary of Ordnance with Major Roberts. this latter will render any new appointment unnecessary.—

But as we have but one Conductor here, and two will be necessary with Colonel Stuart and one with Major Roberts, as we cannot well call down any of them in charge at out Stations, I beg leave to recommend that Serjeants Shaw and O'Coglan of the Artillery Corps now at the Mount be appointed Conductors— they are both strongly recommended to me from the Corps as Men every way qualified to fill the Station.—

I think I have nothing now to add for your Lordships information in regard to this detail, but that it will fall to Captain Carlisle (and I hope without Prejudice to his present employ) to Command the Artillery with Colonel Stuart, and to Captain Mandeville to command that with Major Roberts, and that Captain Lieutenant Dixon of the Royal Artillery will command the Details of that Corps ordered to join those acting with Colonel Stuart.—

My Lord,

From Colonel Brathwaite recommends that Lieutenant Fitzpatrick be appointed to the Pioneers vice Bowe who wishes to resign; that Captain Burrough be appointed Secretary and Captain J.A Stuart Aide de Camp to Colonel Stuart.

Lieutenant Dowse who Commands the Pioneer Corps has just now reported to me, that some peculiar circumstances render it extremely necessary to Lieutenant Bowe to solicit leave to resign his appointment in the Corps of Pioneers, and Lieutenant Dowse states Lieutenant Fitzpatrick to be an Officer so peculiarly qualified for that Corps, that I beg leave to recommend Lieutenant Fitzpatrick to be Lieutenant of Pioneers, vice Bowe to Resign — should your Lordship be pleased to accede to this, I request that the same may be published as soon as possible, when I shall be authorized to order Lieutenant Fitzpatrick, who is now to the Southward, to proceed directly to Negapatam. —

At the desire of Colonel Stuart I beg leave to recommend that Captain Richard Burrough of his Majesty's be appointed Secretary, and Captain James Alexander Stuart of his Majesty's 72d Regiment Aid De Camp to Colonel Stuart.

Remarks on the two foregoing Letters

The Board approve the measures recommended by Colonel Braithwaite Ordered that they be published in General Orders.

From the Resident at Hydrabad—Alijah, the Nizams Eldest Son revolts against the authority of his Father—the Nizam, in consequence urgently solicits the immediate return of the Detachment of the Company's Troops—Copy of his Letter to the Governor General, on the subject, enclosed.—

My Lord,

The Prince Alijah, the Eldest Son of the Nizam, having made his escape from hence on the 28th. Instant, and put himself at the head of a pretty numerous, but irregular force, belonging to Sudda shew Reddy, a considerable Zemindar and Rebel, under this Government, his Highness, in consequence of this event, signified to me the same day, his desire to be furnished, agreeably to Treaty, and as expeditiously as possible with a Detachment of the Company's Troops to be composed of the stipulated Strength, and to be ordered to proceed directly to Hydrabad.—

For what passed between me and the Durbar on this occasion, I beg leave to refer your Lordship, to the enclosed Copy of my Letter to the Honble the Governor General.

Although I am aware of there being some irregularity in the proceeding, yet the peculiar exigency of the case induced me to request,

The Honble Sir John Shore Bart.
Governor General &c. &c. &c.
Fort William

Honble Sir,

In my last address dated 28. Instant I had the honor to inform you of the flight of the Prince Ali Jah.—

In the course of the same day I received a Message from the Nizam signifying his desire to be furnished, agreeably to Treaty, and as expeditiously as possible, with a Detachment of the Company's Troops of the stipulated strength. It was further required that this Detachment should proceed directly to Hydrabad.

Thinking the present a favorable opportunity for procuring the recall of Monsieur Baptiste's Corps (an object of which I have never once lost sight since its march towards Kurpah) I replied to this demand, that, although the Company were ever prompt to fulfil their Engagements, yet, on account of the necessity which his Highness, in spite of all

my

Fort St. George 10th July 1795.

my expostulations on the occasion, had lately imposed on our Government of providing suitably for the tranquility of our Frontier in the Kurpah quarter, I was really afraid that there might be much difficulty and unavoidable delay in complying with his requisition. It appeared to me (I continued) that the Detachment in question could not be any where better disposed of than in Kurpah; since by this distination his Highness would at once provide for the Security of that District, be at liberty to employ Mons.r Baptiste's Corps elsewhere, and perhaps more advantageously; and remove the solicitude which its being stationed so near our Borders could not fail to excite in your mind, as it had already done in mine.

It being answered to this that the presence of the Detachment at Hydrabad could not possibly be dispensed with, and that Mahomed Ameen Khan's Arab could but ill spare Baptiste's force; I rejoined that I could only add, to what I had already said on the occasion, that if the Arab should after the departure of Baptiste, actually find his own Sebundy and Risallahs, unequal to the Settlement of the Districts in his charge, I was pretty sure that our Government would, in that case grant him what assistance it conveniently could, and that, in the mean time, I was ready to suggest to him the expediency of advancing

some

some Troops to the Vicinity of *Nairpilly cottah of Vinde-gherry to the end that such aid as the Arab should eventually stand in need of, or the Madras Government be able to afford, might the more promptly reach him. —

Hereupon it was agreed that Monsieur Baptiste's Corps should be withdrawn from Kurpah. The next point to adjust related to pecuniary matters, in the discussion of which, advantage was taken of the offer I made some time since, and mentioned in my address of the 8th Instant. — after debating this question, as long as I judged prudent and liberal, under the existing circumstances, my final propo-sition was — That the Pay, or Subsidy of the Detach-ment to be ordered to Hydrabad, should com-mence from the date of its receiving the Commands of Government for that purpose: and that with re-gard to such Troops as may be eventually required by Mahomed Ameen Khan, his Highness should be charged for them in proportion to their Numbers, at the rate established for the ordinary Detach-ment, and from the date of their advancing from their supposed Station near Vincatigherry towards Kurpah. —

I am but too well aware, Honble Sir, that I have in this negotiation passed considerably beyond my strict official Line. — Neither am I ignorant that a compliance with what I have consented to or encouraged this Court to expect, may be attended with some inconveniencies. —

I

1848 Fort St George 10th July 1795.

I have only to plead in my excuse that I have acted to the best of my judgement, upon the spur of an exigency, too sudden and too pressing to admit of the delay of a reference: and being so happy as to find from your letter of the 15th Instant (with which I was honored on the 28th) that you estimate the importance of Monsieur Bapti= =tiste's recall no less highly than I have all along done, I am not without hopes of it's also appearing to you that I have not agreed to purchase the attainment of this most desirable object at too dear a rate.

I have thought it right Honble Sir, for reasons which will readily occur to you to keep back, for the present, your letter to the Nizam, relative to Mon= =sieur Baptiste's Détachment. I have also, on ac= =count of the confusion and agitation occasioned here by the flight of Ali Jah, been obliged to defer my intended communication of the late Revolution in Holland, on which subject I have prepared such a representation as I judged best calculated to confirm the abhorence with which the Court already appears to view the new Philosophy of the French.

It is by no means certain that Gobind Kishen has had any share in the escape of Ali Jah tho although most people seem to suspect it. A little time will probably clear up this point which is obvi= =ously of the utmost consequence with regard to the final issue of this business. Hitherto none of the Omras of the Court have followed the fortunes of the fugitive Prince: and should they now desert from

on

1849 Fort St. George 30th. July 1795.

in their allegiance, neither the forces nor resources of Shudda Sheo Ruddy can long maintain the contest in which he has so boldly (we must not yet say rashly) engaged. —

The situation in which our Detachment at Hydrabad will be placed, will, no doubt, be extremely delicate: and on that account it were to be wished perhaps, that we were at liberty to decline furnishing it. As this, however, is not the case, I find it necessary, Honble Sir, to request that you will have the goodness to instruct me, as early as possible, and as fully as the nature of the question will allow, with regard to the conduct to be observed by our Troops, during the continuance of the domestic feud which has unhappily occasioned their being required. His Highness's Ideas seems, at present, to be, to constitute them his body Guard. —

The Prince's followers pillaged two or three Villages of some note in their way to Seringapatam Ruddy pairth at which place they had, according to the latest accounts, arrived. They also seized about 200 Pagah Horse and five Elephants that happened to be at pasture in their Route. The latter belonged to Meer Allum. —

The only practicable road for Guns and Carriages from the Carnatic into the Kurpah Country, at all seasons, is the Donal Pass, bearing W. N. W. nearly of Nellore, distance Miles 57. There are other passes, as Rampoor, Someullum, &c. but not fit for Carriages; and that by Latteri is subject to be filled by the Pennar. As this River is apt to swell suddenly from the rains of the upper Country, it would be proper to cross it Directly from Nellore. From thence to Sangum is 18½ Road Miles; two Rivers join the Pennar above this Place, which should be crossed early for the same reason; from Collagattah, near this junction, there are two roads, one along the River, a fine sandy soil to Upilpaad, not far to the Northwest of Calway; a Brigade has room enough to encamp here on fine soil, along the banks of the Pennar, and be ready to march to cross the Donal

Pass

1851

Fort St George 10th July 1795.

Pass in two Marches to Badwoil; or if there is no intention of remaining long may proceed to Nair=pilly cottah, a small post near a fine running stream; the last post on the side of the Nabob Mahomed Ally's Territories; there is Room here to encamp, and supplies may be got of provisions from the Udegherry Jaghire, to which it belongs and the Nabobs other Districts; as this Post lays in a Valley, incloded by high Mountains, it might not be adviseable for fear of sickness to remain long there, especially as it is only one march from Upil poad. The Doonal pass may be crossed over in a Morning and through it another Pass to Budwoil, which is in the center of an extensive Valley, commanding two Roads to Runpah. The Second Road, referred to, from Sangum striking off from Collagotta is by Mahemallair to Nairpilly distance 37 Miles; and when the Tanks and Nullahs have water is, I am informed a tolerable Road.

From Badwoil a Detachment by the Narapaya Pass may proceed to Sedaut a considerable Fort on the Pennar distant 22 Miles: this Pass I am informed may be crossed by Guns. The other Route is by Nundyalpait through a Pass but not very difficult; the March will be long to effect it in one day; but may be shortened by encamping on the banks

1852 Fort St George 10th July 1795.

banks of the Sagulair 4½ Miles beyond Badwail.
From Nundyal pait the Country of Kurpah is open,
and, turning South, the Pennar must be crossed
again to Chinoor 6 Miles North of Kurpah. The
whole Road distance from Nellore to Kurpah, by
the Route of Doonal, Badwail and Nundyal=
=pait is 109½ Road Miles. —

From Badwail, a Road strikes off
to the Right, along the Valley, to Commum. —

The direction of these Roads, and
passes will be best understood by referring to the
reduced Plan of the places and frontiers which
I transmitted to Government the beginning of
this Year.

Resolved that the following letter be written to Bengal.

To the Honble Sir John Shore Bart.
Governor General in Council
at Fort William

Honble Sir,

Letter to Bengal advising of the Board's Proceedings in consequence of the late Orders from England regarding the Dutch Settlements in India stating also the Embarrassment occasioned by the Nizams late Requisition for the Return of the Detachment.

We have the honor to acquaint you that, in consequence of the Orders lately received from the Secret Committee of the Court of Directors, we have resolved, in communication with Commodore Rainier and Colonel Brathwaite, to send a Force to Trincomalé under the Command of Colonel Stuart

1860 Fort St George 10th July 1795.—

Stuart, for the purpose of securing that important place against any attempt on the part of the French.—

This force which will consist of his Majesty's 72d Regiment—the flank Companies of the 71st and 73d Regiments—two complete Companies of Artillery—two Battalions of Native Infantry—Six Companies of Lascars, and two Companies of Pioneers, will embark for Ceylon in the course of a few days—His Majesty's Ships will convey the Europeans—and we have engaged Freight for the Native Troops—Ordnance and Stores.—

Having received, by the John Packet, the letters from the Prince Stadtholder to the Governors and Commanders of the Dutch Settle-ments in India, as referred to in Mr Dundas's letter to Sir Robert Abercromby, we deemed it expedient, to forward the letter to Mr Van Angel-beck, the Governor of Ceylon by Major Agnew, our Deputy Adjutant General, in whose in-tegrity and discretion we could place the firmest reliance; and our President at the same time, with the concurrence of the Commodore and the Officer Commanding the Forces, addressed a letter to Mr Van Angelbeck, explanatory of his Majesty's intentions with regard to the Dutch Possessions—A Copy of this letter we

have

1861

Fort St George 10th July 1795

have the honor to enclose for your information.

We have given in charge to Mr Alexander Macleod, one of our Civil Servants, a letter similar to that written to the Governor of Ceylon, for Mr Eilbracht the Governor of Pulicat requiring his consent to the admission of his Majesty's Forces into the Settlements belonging to the Dutch on the Coast of Coro= =mandel - But as these Settlements have not the means of resistance, we have not judged it necessary, as yet, to send a force to take possession of them. -

We have the honor to acquaint you further, that our preparations are in great forwardness for an Expedition to Malacca - The Detachment for this Service, under the Command of Major Roberts will consist of the flank Companies of the Honble Company's 1st and 3d Battalions of European Infantry One Battalion of Native Infantry - with a small detail of Artillery, Lascars &c. -

His Majesty's Ships Orpheus and Resistance will proceed with the above Force.

We have it in contemplation to send Major Macdonald (the Gentleman who was entrusted with the Company's dispatches)

to

1862 Fort St George 10th July 1795

to Batavia, with the Prince of Orange's letter
to Mr Van de Graaff.

Fort St George

We have the honor to be
with respect. &c. &c.

Postscript 10th July 1795.

Just as we were closing this despatch,
we received letters from Captain Kirkpatrick
advising us of the requisition made by the
Nizam to be furnished with a Detachment
according to the Stipulations of the Treaty;
and urging this Government in the most in-
portunate manner, that it should be sent
as expeditiously as possible — Under these cir-
cumstances our President communicated with
Commodore Rainier and Colonel Brathwaite,
stating the difficulty we found in spairing so
large a Native Force for the purpose of the two
expeditions — and it being their joint opinion
that the expedition against Batavia might be undertaken with-
out the Battalion of Sepoys we have deter-
mined not to send it; and would suggest
to your consideration the expediency of Strength-
ening the force we are preparing to send
thither under Major Brown by a Detach-
ment of Native Troops from Bengal. —

We

1863

We shall immediately take the necessary measures for being prepared to execute your Orders on the Subject of the Detachment required by the Nizam - but we are apprehensive that we shall have considerable difficulty in complying with the whole of Captain Kirkpatrick's demands. -

Read the following letter from the Military Auditor General. -

The Right Honble Lord Hobart

President and Governor in Council

of, Fort St. George.

My Lord,

From the Military Auditor General - recommendation relative to the Orders at present in force regarding Oil and Pon Money - Explanation on Retrenchments required from the Nizam Paymaster for Charges made by Lieutenant Colonel Baird. -

After having made the necessary enquiries on the subjects stated in Your Ommands conveyed through Mr. Secretary Jackson's letter of the 11th. April, I have to acquaint your Lordship as follows, in consequence of being directed to explain and give an Opinion on the application of Lieutenant Colonel Sterling, and to report on the application of Lieutenant Penn. -

The General Order of the 30th. January 1788 expres that Many irregularities having crept into the Service in the payment of Oil and Pon Money all former Orders respecting those Allowances are hereby Revoked, and it

1864 Fort St. George 10th July 1795

"in lieu of them every Officer is to draw in his
"Monthly Bills for Peon Money only at the
following rates; to every Field Officer and
"Captain 2 Pagodas P Month and to every Su=
"=baltern 1 Pagoda P Month, but this Allow=
"=ance is not to be drawn by any Officer stationed
"at an half Batta Garrison, nor by the Com=
"=mandant of a Garrison drawing Full Batta,
"nor by those who are on Full Batta with the
"Army in the Field — this, being considered as
before, is to be drawn as usual at the end of
"the Month." —

I have the honor to acquaint Your
Lordship that the above Order falls to be considered
on reference to the allowance made to Officers for
Oil and Peon Money prior to January 1788 — it
was a partial allowance, confined to the Presi=
=dency in the proportion of 2 Pagodas and 8
fanam Monthly to Field Officers and Captains
for Oil and Peon Money and 15 Fanams P
Month to Subalterns for Oil; it appears there=
=fore that while the new Order struck off the
Allowances on account of Oil, to Officers at the
Presidency it at the same time extended, under the
head of Peon Money, an Allowance to the Subalterns
as well as to the Field Officers and Captains in
a proportion which was declared to be in lieu
of

1865 Fort St. George 10th July 1795.

of the Oil and Peon Money formerly drawn: I am, therefore, of opinion that no Charge for Oil on account of Officers of any description or on account of the Quarters of Officers should be admitted; but as the Order in question appears to have been differently understood for a length of time, as will be seen from the reference I made to your Lordship under date 26th. January last on a Charge for Oil, which had been retrenched at Poonamalee and Pipapore, it will therefore be proper to repeat the Order of 1788 with an explanation of it to the extent I have drawn up in the accompanying Draught of a General Order, provided the same shall meet with Your Lordship's approbation. —

Lieutenant Colonel Sterling states in his letter to Your Lordship "that the "Auditor General cannot pass his Bill for "Oil and Servants allowed to the Commanding "Officer's Quarters here (Meaning Pondicherry) "without your Lordship's Orders, and solicits the "same indulgence in these respects as was grant= "ed to Colonel Floyd, and has been always "customary at the different Stations of the "Army. —

I explain on these points, that I can

pass

1866 Fort St George 10th July 1795 —

pass the Bills for Oil and Servants which are allowed to the Commanding Officers Quarters at Pondicherry without any fresh Orders from Your Lordship on the Subject; but none have been allowed that I know of, and, accordingly, the same Re-trenchments were made during Colonel Floyd's period of Command at that Station, which it would appear, from the representation I am directed by Government to explain upon, had been only adopted since Lieutenant Colonel Sterling's appointment. —

A Charge on account of Oil for Colonel Floyd's Quarters, as Commanding Pondicherry, was made from November 1793 to February 1794 and after February for Oil, Two Toties and one Sweeper — and the whole was Retrenched for the reasons already assigned, in regard to the Oil, and because no separate establishment of Sweepers and Toties, over and above the number computed for a hundred Men, as P Barrack Regulations, has been authorized except for Fort St George, Tanjore, Trichinopoly and Vellore, at the first of these Stations the Barrack Master provides them and at the other three the Paymasters. —

The consideration of this subject induces me to take the liberty of suggesting

to

1867

Fort St George 10th July 1795

to your Lordship that it would be extremely use-
-ful and prevent much troublesome correspon-
-dence, if, when new posts are occupied, Govern-
-ment were to fix all the establishments to be
allowed in consequence, or authorize the Military
Auditor General to regulate the inferior details
for them, such as are now under discussion and
others of a like importance in point of expence,
on comparison with what may have been deter-
-mined upon by Government for other Stations;
it would however be more desireable to my Office
were Government to fix all the establishments
at first.—

In regard to Lieutenant Tenor's
application for Arrear of Chaplain's Allowance
at Masulipatam, it appears to have been
first retrenched in the Military Accounts for
the Month of May and June 1791 "because it
"was a new Charge without authority for it that
"had never appeared in them before"— the ex-
-planation of the Paymaster at Masulipatam
Mr Dobbyn, who acted in that capacity for
both the Civil and the Military Expences of the
Station, stated "that it was made in conse-
"-quence of the Civil Auditor having retrenched
"it in the Civil Accounts as being a Military
"Charge, and that it was only a transfer
"from

1868 — Fort St. George 10th July 1795.

"from the Civil Accounts of the Settlement to the Military" — this reasoning could not, however, be admitted in the Military Auditor General's Office as the establishment of any new Military Charge is in Government only, and, consequently, the exercise of such authority by the Civil Auditor not warranted; it's appearing in the case under consideration, is the more remarkable, as I understand, from the present Civil Auditor, that the Charge for a Chaplain at Masulipatam had been admitted in the Civil Disbursements of that Chiefship, for about Eleven Years prior to the Period it had been thus accounted a proper one to be transferred to the Military Accounts; I have therefore to report that the Military Charges of this Presidency are not liable to the Payment of any Arrear to Lieutenant Penn for acting as Chaplain at Masulipatam. —

Your commands communicated to me in Mr. Secretary Jackson's letter of the 28th Ultimo which was accompanied by an Extract of one from the Officer Commanding Tanjore dated 13th. and other inclosures "directs me "to acquaint Your Lordship whether the Staff "allowances retrenched in the late Paymasters "Accounts had been drawn for and paid "prior

1869

Fort St George 10th July 1795.

"prior to the appointment of Lieutenant Colonel
"Baird to the Command of that Station, and, if so,
"whether any particular reason occurred that
"made it necessary to strike them off afterwards.

The Allowances alluded to ap-
-pear, by the list sent to me along with Extract
of letter from the Officer Commanding Tanjore, to
be as follows.

Staff allowance for a Serjeant Major and Barrack
Master Serjeant at Pellum drawn for in September,
October, November and December 1794 and in
January and February 1795 at 6 Pagodas pr
Month; — and for an Acting Serjeant Major at
Tanjore drawn in October, November and Decem-
-ber 1794 at 4 Pagodas pr Month and 1
Pagoda for a Barrack Serjeant at the same
place drawn in January 1795. —

I find, on reference to my Audit,
that the Retrenchment, in the last case, was on
the pay of an Acting Barrack Serjeant.

It has been accounted regular to
pass the Staff Allowance for Barrack Serjeants
in the Abstracts of the Barrack Masters, under
whom they act, ever since the designation of
Barrack Master Serjeant was established in
Orders of date 20th September 1789 and, for
that reason, the Allowance has always been
retrenched

1870 Fort St George 10th July 1795.

Retrenched when it appeared in the Abstracts of Fort Adjutants or of Commandants of Stations.

In my reference under date 14th April last on the Retrenchments made on the Abstracts of Captain Dyce, late Barrack Master, it was stated that Vellum was the only one of the four Stations where the pay of Barrack Master Serjeant had been charged and retrenched, at which a Serjeant of that description might have been allowed by the Orders of 1789 - by the decision of Government on this case, one was allowed for Vellum, and one for Secunderabad - Consequently consider myself authorized to pass the Allowance for those Stations, in the Abstract of Captain Dyce's Successor. —

In regard to my objection to the Pay for an Acting Serjeant Major and Acting Barrack Master Serjeant at Tanjore, the usage of the Service has constantly occasioned the Charge for that and every other description of Acting Staff in the Company's Service to be retrenched, unless sanctioned by a special Order from Government, directing that the Pay shall be allowed from the date of Casualty, instead of the date of appointment; because there is no Regulation which provides that pay shall be drawn for the intervening period - a Commandant of a Station filling up, pro tempore, a Garrison vacancy

1871

Fort St. George 10th July 1795.

Vacancy, or the Commander of a Brigade or Corps of
filling up, in like manner, Vacancies of Staff Officers
falling in them respectively, are circumstances not
regulated for, as of any force in regard to the Pay which
is issuable only from the period that such Vacancies
are supplied by the power authorized to give away
the appointments; consequently, although a Ser-
=jeant Major and a Barrack Master Serjeant
are allowed for Tanjore, pay for the Men officia-
=ting as above, pro tempore, became inadmissible
in my Office, where, if any fell to be drawn for the
acting Barrack Master Serjeant, it should
have appeared in the Barrack Masters Abstract.

In the letter of the late Paymaster
to Lieutenant Colonel Baird, applying for a
Refund of the Retrenchments a copy whereof was
sent to me along with Mr. Jacksons letter
of 24th. June, and the Extract from Lieutenant
Colonel Bairds of 13th. June, he informs the
Colonel "that similar Charges to these were
"made by the late Colonel Maxwell, and, in
"like manner as in the present instance, were
retrenched" and I have the honor to acquaint
your Lordship in answer to Mr. Secretary
Jacksons Letter of the 24th. Instant on the same
subject, that the Staff allowances Retrenched
on the Audit of the late Paymasters Accounts,
which had been drawn for prior to the
Appointments

1872 Fort St. George 10th July 1795

appointment of Lieutenant Colonel Baird to the Command of Tanjore were retrenched, and that no particular reason occurred, or could have occurred without being known to Government, to make it either necessary or proper in my Office to Re-trench Charges at Tanjore after Lieutenant Colonel Baird's appointment that did not equally apply to a Retrenchment of the same kind of Charges prior to it.—

I have thought it necessary to be this particular in giving the information required especially as I observe that the Copy before Your Lordship of the Retrenchments in question, without having come through my Office, does not contain a very material part of every regular document of the kind Vizt the Auditors cause of objection to the Charges; with which it does not appear, from the copies of inclosures sent to me, that Lieutenant Colonel Baird has been furnished by the late Paymaster.—

I have only to add, on the subject of these Retrenchments, that the late Paymaster, in his Explanations, allowed that the reform would be made; and only requested that it might be left to be brought to Account by his Successor in Office, as he (the late Paymaster) stated there could be no doubt of it— this I rejected.—

1873

Fort St. George 10th July 1795.

rejected — and, as he did not desire a reference to Government, it was not necessary in my Office to make any; the late Paymaster consequently made the Refund. —

I received with Mr. Secretary Jackson's letter of the 24th. Ultimo, in answer to which I am now addressing Your Lordship, a copy of a letter from Captain Malcot to the Officer Commanding in the Guntoor Circar, and have, agreeably to Your Orders, given the necessary directions for the payment of Batta to the party stationed at Munnagala. —

I have the honor to be,

General Order by Government.

The Right Honble the President in Council is pleased to republish the following General Order bearing date 31st January 1788.

"Many Irregularities having
"crept into the Service in the payment of Oil and
"Coon Money, all former Orders respecting those
"Allowances

allowances are hereby revoked, and in lieu of them every Officer is to draw in his Monthly Bills, for Peon Money only, at the following rate; to every Field Officer and Captain 2 Pagodas per Month, and to every Subaltern one Pagoda per Month but this Allowance is not to be drawn by any Officer Stationed at an Half Batta Garrison, nor by the Commandant of a Garrison drawing Full Batta, nor by those who are on Full Batta with the Army in the Field - this being considered as before, to be drawn, as usual, at the end of the Month." -

The Allowance of Officers prior to January 1788 for Oil and Peon Money was confined to the Presidency, in the proportion of 2 Pagodas and 1 Fanam Monthly to Field Officers and Captains, for Oil and Peon Money, and fifteen Fanams P Month to Subalterns for Oil - while, therefore, the above order struck off the Allowance at the Presidency to Officers on account of Oil, it, at the same time, extended, under the head of Peon Money, an Allowance to the Subalterns as well as to the Field Officers and Captains, in a proportion which was declared to be in lieu of the Oil and Peon Money formerly drawn. -

It appears, however, that the above Order of 1788 has not been understood in the manner it now stands explained, in regard

to

1875

to the Charge for Oil, it is expressly directed that no Charge for that Article shall be made in future on account of Officers or for the quarters of Officers.

To Lieutenant Limrick

Sir,

To Lieutenant Limrick. Instructions relative to his Appointment as Commissary of Provisions with the Expedition under Colonel Stuart; his Salary fixed at 150 Pagodas pr. Month.

I am directed by the Right Honorable the President in Council to acquaint you that his Lordship has been pleased to appoint you Commissary of Provisions with the Expedition under the Command of Colonel Stuart.

The existing Regulations of the Service will be your Guide on all ordinary occasions — and, in any particular Case, not specially provided for by those Regulations, an order, in writing, from the Commanding Officer of the expedition will be a sufficient Voucher for your indemnification. —

As your Accounts will undergo a Rigid Audit, you will, of course, be careful that no charges appear without a corresponding Voucher; and that the Strictest attention be paid to prevent any unnecessary wastage or deficiency in the Articles that will be placed

Old and faithful Servant, and the Army an experienced
and Gallant Officer, since His absence there has nothing

Immediately

12th

Immediately after the attack on Capsiporam Mookie Gopaul Rauze penetrated the Hills with a few followers to a considerable distance, and, by the best information I have been able to procure, is on His return to this part of the Country.

I have formed a Chain of Posts under European Officers to keep the Rajah and his adherents in Check, to annoy, and beat up the Quarters of all those who shall be found in Arms against the Company, at the same time keeping in view, as much as possible, the protection of the peaceable Inhabitants in the open Country.

Several People of consideration and Consequence, Inhabitants of the Plain, but adherents of Mookie Gopaul Rauze have lately solicited Cowle — In consequence of which I have offered a General Amnisty and Cowle to all those who shall peaceably return to their several homes, receiving Security from such of them who have the means of granting it, and making the best terms I can with others on the same principle. —

I have this moment received information that Gopaul Rauze is at Pennicottah Low, but as it

Masulipatam

Gentlemen,

I have the honor to lay before you the

Audited General Remarks on my Storekeepers Accounts

for the Months of January and February; which will

explain to you that I am not at liberty to Purchase the

most trifling Article of Stores, without the Sanction of

Government; I think it a duty incumbent on me to acquaint

you with this, as most Indents contain some Articles not in

Store, so that should there be any delay on the Passing of

the Purchase or in the Furnishing existant supplies, it

may not hereafter be imputed to me.

It often happens, as you must be well

acquainted, that Indents are given in on the very day the

Articles are required, as lately on the marching of the

Troops to the next District. In such cases, I have

hitherto furnished the Supplies, as it would be impossible

to procure the Sanction of Government without impeding

the Service.

On reference to the Proceedings of the

Committee of Stores, during the time of the Chiefship, it

12th. It will be found the Chiefs and Council, who were on the Spot, had authority to [illegible] discharged and also all immediate necessary Repairs. On my taking charge of the Employ, I continued to supply the Articles wanted as formerly, not doubting, but in a place where the Employ had been so long established, the Regular Plan was pursued, and the Vouchers sent were deemed satisfactory. as I could find no Order or Remark on the Storekeepers Account for the Period after the abolition of the Chiefship, the 15th November to the time of my taking Charges.—

The Remarks also, which the Auditor has made on the extra Artificers, obliges me to discharge them off the ensuing Month.

I have now Gentlemen to observe, from the above Remarks, that until some Plan is adopted for getting into Store a quantity of Articles, in common Demand, either by Indenting on the Presidency, or having authority to provide them here, the Service may in many Instances, suffer, as I shall not presume to take the Risk of supplying any Articles in future, without the Sanction which is necessary for establishing the charge.

Hydrabad

Sir,

I am directed by the Right Honble
the President in Council to acknowledge the Receipt
of your Letter dated the 30th Ultimo, and to acquaint you
that his Lordship is of opinion you acted with strict
propriety in the assurances you made to his Highness
the Nizam of the cordial disposition of the Company's
Governments to afford him every assistance in their
power, consistently with the public engagements
between the two States.

The recent dismission of Mayo
Roberts Detachment from Hydrabad led the Presi
dent in Council to suppose that its services would not be
again required by his Highness; and, under this
supposition, his Lordship ordered the additional Comp
of the 78th Battalion into Vizagapatam District so
time will necessarily elapse before these Companies
can join their Corps at Masulipatam, orders to
have been given, and the two Battalions that
served with his Highness will be held in readiness

The late Orders from the Secret Committee of the Court of Directors for placing the Dutch Settlements in India under his Majesty's Protection call for the employment of so considerable a force that the President in Council feels an embarrassment in regard to that part of your despatch to the Governor General under date the 30th Ultimo which relates to the probability of Troops being required in the Province of Kuopah in consequence of the recall of Mons. Baptiste's Corps — but in order to manifest his Lordship's desire to give efficacy to the measures his Excellency may deem necessary to pursue for securing the tranquility of that Province, he will endeavour to make such a disposition of the Troops as may enable him to execute any Orders he may receive upon that subject from the Supreme Government.

I may add that I have some degree, led to those measures myself by commun that I have made both to Colonel Bidulph and Lieutenant Colonel Bonnerjeave on this subject, in consequence of daily Reports I received from the latte of the state of the Corps under his Command. The measures adopted I have the pleasure to inform your Lordship have been attended with much advantage, a I have not a doubt that your Lordship will sanction them, and any reasonable expence that may have be incurred on so good a motive, and for which no pre authority could be obtained, as the call was so pres

Also under No. 4 another letter from Col. Bidulph, stating some expences that he has found it necessary to authorize to accomodate the Company of Artillery, lately moved into Masulipatam and for Ba in the Barrack Yard of the European Battalion of Infantry. The Colonel says in his letter that he has enclosed the Engineer's charges on the occasion, but

Also under No 5 a letter addressed to your Lordship from Major Smart, Deputy Quarter Master General now going upon the Service to Tinnevelly. I believe his Statement is just; I do not know there is any Precedent of a similar case in this Department, but I understand that it is established that the Deputy Adjutant General when separately employed, draws some extra Allowance.

I have the pleasure to inform your Lordship that the whole of the Details to be employed on the two expeditions, to embark here, are assembled. The Ordnance Stores, Provisions &c are almost all embarked, and, I flatter my self, the whole will be ready in three days. The only exception to what I have here stated is that Major Brown is not yet arrived but I have no doubt he will be within the time I have mentioned and this delay if it can be called any, I think it will not prove to be any, is owing to Major Brown not being, according to my original Plan to be embarked here, but at Nagapatam. The necessity which has arisen to hold Major Roberts and his Staff ready for another Service has induced me to bring forward Major Brown for the

"Battalion, and one to each Native Battalion, including the
"Adjutants and Quarter Masters respectively, if they enjoy that
"Rank, and that no further promotion of Lieutenants of
"Infantry is to take place until vacancies fall after the
"Establishment is reduced to the above Compliment."

By the former of these your Worships will perceive that the attention of Government, at that period, was drawn to the inequality of promotion in the Corps of Infantry with that of the Cavalry, and Artillery, to remedy which the Rank of Captain Lieutenant was granted to the Seven Senior Lieutenants of Infantry, altho no immediate vacancy had occurred. By the latter Order it pleased Government to make a promotion of all Ensigns of Infantry holding Commissions prior to the 7th June 1785 being rather more than five years and a half.

At the issuing of this Order, we having been then in the Cavalry, within a few Months of that period and in the Service much longer, did also make application for the like indulgence; but were refused, as not coming within the time prescribed.

Many Years having since elapsed, we now presume to call your Worships attention to our present

Sir,

I have to acknowledge the Receipt of your letter, dated, the 11th. Instant, which has been laid before the Governor General in Council, mentioning that "Monsieur Des Chiens, and another Frenchman of the "name of Bligny / both of whom appear to have had "the permission of the Supreme Government to proceed to "the Isle of France / arrived lately at Masulipatam, "having been shipwrecked on the Coromandel Coast, and "that Orders have been given for allowing them a Monthly "Subsistence, of which they are in the almost need, until "Orders respecting them be received from Bengale."

From Bengal representing the circumstances attended by Messrs. Chiens and Bligny, French Prisoners of War who have lately arrived at Masulipatam and recommending that they be secured and kept in Confinement

You are requested to acquaint the Governor in Council at Fort St. George that Messrs. Deschiens and Bligny, by a Resolution passed on the 21st. of February 1794 were permitted, at their request, to proceed, upon their Parole, to the Coast of Coromandel, or the Isle of France; that, on the 1st. of September following Mons. Deschiens represented that an opportunity had not offered for his availing himself of this Permission;

that

14th. that he then requested leave to proceed either to the Coromandel or Malabar Coast, and he was permitted to proceed to Madras provided he should go in an English Ship, his subsistence ceasing, according to the established Regulations, from the time of his leaving Bengal; and that, from that Period (September 1794) nothing was reported to the Governor General in Council concerning Monsieur Deschiens, till March 1795, when a letter dated the 21st. of that Month, of which I enclose a Copy, was received from the Superintendant at Chendernagore stating, that a letter from Monsieur Deschiens, dated the 8th. of January was delivered to him on the 20th. of February representing, that he "had conceived the Idea of going "to the Mauritius on the Vessell in which he left "Chandernagore." He said that he could "no longer "remain in the Indolence of a lazy and effeminate "life;" that he "must rally under the flag of his natural "Country, and, by repulsing the attacks of her Enemies, "merit her consideration by every Sentiment which "characterizes a good and honest Man" observing further "in the Postscript "Do not forget that I have been "exchanged by Captain Dufour at Pulopenang;" of which indeed, the Board had not the least Information; nor were they acquainted with the authority, which Mr. Dufour possessed for making the Exchange; if he made

1932 Fort S. George 14th July 1795

made it at all.

You will observe, from Mr. Birch's letter, that Mr. Deschiens and Mr. Bligny, have actually absconded, that they have both violated their Paroles. the leave given, in September 1794, to Mr. Deschiens, to proceed to Madras, having had an express stipulation annexed to it, that he should go in an English Ship, and Mr. Bligny's first leave, in February 1794, being out of Date, at the time of his Departure. The Paroles specified that they should not go to any Place, distant more than twenty miles from the Town of Calcutta without the Permission of the Governor General in Council having been previously obtained for that Purpose.

Under these circumstances, the Governor General in Council particularly recommends that Mr. Deschiens and Mr. Bligny, may be declared to have broken their Paroles, and that they be kept in Confinement; also that they be called upon to deliver up their Original Passport to go to the Isle of France or the Coromandel Coast, least any accident should enable these men again to deceive the Officers of the English Government, by intruding upon them, in some other part of India; that, as a Permission, which they

Sir,

I have to request you will lay before the Honorable the Governor General in Council the enclosed letter from M. Deschiens: tho' dated the 8th. of January it was not delivered to me till the 20th. of February; I immediately ascertained that none of the Inhabitants of Chandernagore, particularly of the Pilots, nor any of those French Subjects who received Subsistance from me were absent; as I had taken measures for the discovery of the Person who brought the letter, I delayed making a public Representation of this Affair to Government, till I could ascertain, as much as possible, all the circumstances. —

From an Examination, on Oath, of Dowse Mahmud Sirang / against whom I can find no cause for personal accusation / it appears, That M. Deschiens / who was a Captain of a Ship / with

There the seven Towers were shut into the Room of the Pulwar Mr. Duchiens threatening them, (having fire Arms) with death, if they stirred, that he compelled the Manjee to go on shore, telling him that on delivering the letter to one I would pay him what was due to him, and that he should return with the Boat in three Months. He got to Chittagong, and, from thence to Dacca, to his owner, to whom he related the circumstance, and he then came on to Chandernagore, with the letter, and a Gold chain, which he was directed to deliver to a French Inhabitant.

There were with Mr. Duchiens and Mr. Bligny a Native Consumah, and a Cook, but no European whatever.

I request to be informed if it is judged necessary that any further Investigation should be made by me, and take the liberty respectfully to suggest, that

Tuesday 14th July 1795

Minutes of last Consultation Read and approved.

Read the following letter from Bengal

To the Right Honorable Lord Hobart

Governor in Council at Fort St. George

My Lord,

From Bengal. Determination regarding the Amount of the Nuzzer to be paid to the Nabob by the Calastry Rajah.

We have received your letter of the 25th Ultimo with its enclosures relative to the Nuzzer demandable

demandable by the Nabob of Arcot from the Rajah of Calastry.

The opinions communicated in our former letter to ajaw on this subject were founded partly on the General law and usage of Hindostan, which entitle the Sovereign to a moderate fine of investiture on the Succession of any new Rajah, or Zemindar, and partly on the Treaty concluded with the Nabob of Arcot in 1792, by which his Right of Sovereignty over the separated Polygars are secured to him, as far as may be consistent with the realization of their annual tribute payable to the Company.

With respect to the amount of the Peishcush or Nuzzer, which it would be proper to levy from the new Rajah of Calastry, We stated ourselves at a loss to regulate it, as we were uninformed of the Custom many Sum paid in the Carnatic in similar Cases. From the want of this information we are still unable to judge what amount the Nabob is entitled to demand, nor can we form an opinion how far his demand is reasonable, or otherwise, as no specific Sum appears to have been mentioned by him. We entirely concur with

Fort St. George 14th July 1795

with you in the policy of restricting his pecuniary demands on the Poligars, as far as may be consistent with the Treaty, and should be happy, if the moderate rate you have proposed to him, corresponding with the former usage in Bengal, could be made the standard for this and all future similar cases; But, if he cannot be persuaded to acquiesce; and if, by the Established usage of the Country, He is entitled to a higher fine of Investiture from the Rajah of Calastry, which can be levied from the latter without impeding the realization of his tribute, we are of opinion that the Treaty requires such right to be preserved to him.

In determining this point, if the Nabob cannot be induced to acquiesce in the standard you have proposed to him, the principal question seems to be, what should be considered the Established usage of the Country, to be appealed to, in fixing the prescriptive amount which the Nabob may justly claim on this and similar occasions, under a despotic Prince, where no invariable Law or Custom has prevailed, it is difficult to draw the line between regular demand and arbitrary exaction: and, in the present

1940 Fort St. George 14th July 1795

present instance, if Custom has not fixed the former, We shall be authorized to assume a Sum, proportionate to the annual tribute, which, in addition thereto, may be paid without distress by the Polygar; and, at the same time, appear consistent with the Right of Sovereignty, which was meant to be secured to the Nabob by the Treaty.

With this knowledge of our Sentiments ayou will, we hope, be able to adjust the Nuzzur of the Rajah of Calastry, if not with the Nabob's concurrence, in such manner as may prevent his having any just ground for dissatisfaction, and the Governor General will inform him that the question has been referred to ayou for an equitable and final adjustment. —

Read the following letter from the Governor General to His Highness the Nabob. To

1941

Fort St. George 14th July 1795

To the Nabob of Arcot

Written 8th June 1795

Letter from the Governor General to the Nabob on the foregoing Subject

I have had the honor to receive your — Highness's letter and enclosures recapitulate that received 14th June and have understood its Contents.

It has ever been my sincere desire to preserve to your Highness the exercise of your Sovereign Rights as acknowledged by the Treaty of 92, and, in conformity to it, I acknowledged, without hesitation, your Right as Sovereign of the Country to a Nuzzer of investiture from the new Rajah of Calastry upon a knowledge of the general laws and usages of Hindostan: and upon a presumption that these laws and usages extended to your Highness's Territories. But it was not my Intention to admit, that this Right would at any time be exercised as a plea for pecuniary demands beyond what might be strictly considered an acknowledgement for Investiture, and still less that it would be exercised in a manner incompatible with the regular Discharge of the Tribute payable by the Rajah of Calastry.

These Sentiments your Highness will perceive sufficiently coincide with those exposed in the

1942 Fort St. George 14th July 1795

the address from the Right Honorable Lord Hobart to your Highness It is therefore unnecessary for me to enter more particularly into the subject I have no doubt that your Highness will readily concur with us in the adoption of a principle which whilst it preserves your Highnesses Rights of Sovereignty, has the Sanction of the Treaty between your Highness and the Company for its purport.

The President delivers in the following

Minute.—

President's Minute
In Council 14th. July 1795

In consequence of the Instructions received from the Supreme Government, under date the 8th Ultimo, and the several discussions which have taken place upon the subject of the Nuzzer proposed to be demanded by his Highness the Nabob upon the investiture of the Rajah of Calastory, on his succeeding to the possessions of his Father, the President considers it his duty to submit the following proposition to the Board—

That a Sum not exceeding one Lack (100,000) of Rupees, shall

President's Minute on the foregoing subject and proposing that the Nuzzer be limited to one Lack of Rupees.

Fort St. George 14th July 1795

shall be paid by the Rajah of Calastry to his Highness the Nabob of the Carnatic, as a Nuzzer upon his — investiture; and that letters be written to the Nabob and the Rajah informing them that the Board have come to this Resolution. The President has made this proposition with a view to carry into execution the instructions of the Supreme Government as nearly as it may be practicable, but finds himself under considerable difficulty, in that respect.

If the custom of the Carnatic, in as far as the President has been able to inform himself of it, should be the Criterion by which the question is to be decided, it would go to the allowing the Nabob to demand a Nuzzer so exorbitant, as to be utterly inconsistent with the provisions of the Treaty of 1792 - or, if the Nabob's right, according to usage, is to be exercised, it would indubitably, interfere most essentially in the realization of the Tribute.

The regular demand in all cases of this nature has amounted to an arbitrary exaction; and unless decidedly controuled in the present instance would certainly be of the same description. On this Account, upon the fullest consideration of the subject, the President stated in his letter to the Nabob of the 26.

If

Fort St. George 14th. July 1795

of April last "that whatever heretofore might have been
"the custom of his Highness's Government, with respect to
"the Polygars, it could scarcely be applicable at present,
"their situation having been so materially changed by
"the Treaty of 1792. That under that Treaty, his Highness
"as well as the Company, was precluded from making
"any pecuniary demands upon them, beyond the specified
"tribute, unless by the consent of both the contracting
"parties - and that it was evident the tribute would be
"rendered nugatory, were it admitted that, under the
"name of demands, made in the exercise of Sovereign
"Rights, his Highness was at liberty to require whatever
"payment he might think proper from the Polygars".

Under this impression, the President
perfectly concurred in the limitation of the Nuzzer upon
a fixed principle, as proposed by the Supreme
Government, Viz.t fifty Gold Mohurs for every Lack
of Rupees, to the extent of the Summa - and more
particularly so, as it could be considered no more than a
mere acknowledgment of the Sovereign Rights of the
Nabob.

The Sum now fixed has been suggested
in conformity with the Sentiments of the Supreme
Government

1945 Fort St. George 14th July 1795

Government, conveyed in their letter of the 8th Ultimo.

The President recommends that the following letters be written to the Nabob and to the Rajah of Calastry.

To his Highness the Nabob of the Carnatic

&c &c &c &c &c

May it please your Highness.

Prepared Draft of a letter to the Nabob on the forgoing subject.

I had the honor to send to your Highness a few days ago, a letter to your address from Sir John Shore, on the subject of the Nuzzer to be demanded from the new Rajah of Calastry. That letter will satisfy your Highness, that, altho' the Governor General acknowledged the right to be in your Highness to demand a Nuzzer, yet that it was never his intention to admit that this right could at any time be exercised as a plea for pecuniary demands, beyond what might be strictly considered an acknowledgment for investiture; and still less that it could be exercised in a manner incompatible with the regular discharge of the Tribute, payable to the Company.

My former letter to your Highness on this subject conveyed my sentiments so fully that there can be no need of troubling you with further observations All I desire is to convince your Highness of my ready

disposition

1946 Fort St. George 12th July 1795

disposition to act in conformity with your wishes, whenever it can be deem with propriety; and if I thought it were not inconsistent with the spirit of the treaty of 1792 I would with pleasure afford any best support towards the attainment of the object of your present solicitude. In order, however, to accommodate your Highness, as far as it is practicable, it has been resolved that a Sum not exceeding one lack of Rupees shall be paid by the Rajah of Calastry to your Highness, as an Nuzzer upon his investiture - This resolution has been communicated to the Rajah in a way that will ensure his immediate compliance.

Proposed Draft of a letter to the Rajah of Calastry communicating the Decision of Government on the foregoing subject

I had judged it necessary, to defer any reply to your communication of the death of your Father, until I could ascertain what had been the ancient usage on occasion of the appointment of a Successor, and whether his Highness the Nabob, the Sovereign of the Carnatic, had any, and what demands to make upon you, in right of his authority, previous to your investiture. After much enquiry

Fort St. George 14th July 1795

enquiry, I find it has been the invariable custom for the Prince of the Country, to demand the payment of a Nuzzer, from all persons on whom power and authority are bestowed, and that, this, being considered as an indefesible right of Sovereignty, has been the practise from time immemorial.—

I have therefore to acquaint you that the power and authority, of your late Father will devole upon you entire, after presenting to his Highness the Nabob a Nuzzer on your investiture to the amount of one lack of Rupees. and under the condition of a punctual discharge of your Peishcush and of fedelity in your obedience to the Circar.

You will undoubtedly be aware of the necessity of an immediate compliance with any Orders, relative to the payment of the Nuzzer, and you will take particular care neither to exceed the sum specified, Viz.t One lack of Rupees, nor, under any pretence, withhold any part of it.—

It will always afford me pleasure to hear of your welfare, and, while you observe a proper conduct, you may rely upon my friendship.

To the Right Honble Lord Hobart

Governor in Council at Fort St. George

My Lord,

Our President has received from Mr. Macleod the letter which your Lordship did him the honor to write to him under date the 7th instant and communicated the same to us in Council, along with another letter received at the same time, signed Wm. Prince of Orange, and dated at Kew the 9th February 1795, wherein we are referred to what your Lordship has been pleased to communicate the interest which his Britannick Majesty takes in the consequences of the French War upon our Republic.

From the Dutch Government at Pulicat communicating their sentiments and final Determination regarding the Surrender of the Dutch Settlements on the Coast of Coromandel.

We find ourselves, by this, placed in the most distressing situation, and almost at a loss to know what measures to adopt, in this nice and critical period, we have received no Orders from our Lords

and

Fort St. George 14th. July 1795

and Masters, nor from the Supreme Council of India — during, two ajears, we were ordered upon the war breaking out, to defend ourselves against the French and to oppose them every where according to our means but no orders how to conduct ourselves in case the War took such a turn as now distresses us It is true we have before us a letter which we are assured is from his Serene Highness the Prince of Orange; and, in so far as — regards the authority thereto attached by his Britth. Majesty, we owe belief to it; but, on the other hand, when we remark, what we no less believe; viz. that his Serene Highness has left his lawful Sovereigns and that his B.e Majesty intends to take up arms, and act in an offensive manner against the united — Provinces, and, by so much as his Serene Highness, is not reestablished in his high employs, so do we much — doubt whether that authority, with which the letter is written is now due to his Highness — Moreover, all powers know that the Sovereign and legislative power is vested in the States General of the Seven united — Provinces, and that his Highness a high and powerful Minister of the Republic, in whom the executive power is vested, could not take upon himself to do an act

of

1950 Fort St. George 14th July 1795

of Sovereignty, out of his Native Country even, such as that which the letter contains, that is to say, to give an order to put the possessions of the state in the power of a foreign power, far less in such a one as has already — declared itself hostile to the Republic, and, in fact, begun to commit hostilities — We are bound, by the Oath of — allegiance to the Sovereign power, and also to his Highness, when he remains where he has a right to use his power, but the possessions of the Dutch in India are not the property of his Highness, but of the above mentioned — states, and the united Dutch East India Company, we owe allegiance to the Company, and, without their Order or consent, we should expose ourselves to a much more endless prosecution and responsibility, than can be the case in our present difficulty against the Order of this above mentioned Highness, whose authority we believe not to exist, from the time of his quitting his Native Country, at a time when it must be defended against an enemy, even at the risk of life. —

We hope, therefore, that in the present crisis, which we must work through, not only appear justified to your Lordship and the world, in our just reasons of difficulty, which we mention not to + but to exculpate ourselves in the best manner to those who are placed over

Fort St. George 11th July 1795

over us, setting aside how much credit is to be given to public reports, and acting alone according to what we judge due in justice to ourselves and our Native Country.

however well grounded our reasons of difficulty we confess on the other hand our inability to take up arms or to offer resistance to his Britannick Majesty or the force prepared to compell us to surrender We are therefore Resolved, provisionally, to deliver up this capital and dependencies to whosoever your Lordship shall be pleased to appoint, to surrender them and to put them in the power and disposition of his Britannick Majesty, untill it shall appear what is resolved upon with regard to them as well as the dignities of the Prince of Orange at a general peace so much to be hoped for at an early period.

We hope that this declaration will not occasion harsher terms than took place at the surrender of Pondicherry, with regard to the French Inhabitants, and that, during the loss of our employs, which we cannot act in under a foreign power, your Lordship's generosity will secure to us the free and undisturbed posession of our private property, as well as those under us, according to a just arrangement which can be made upon the Capitulation, besides an adequate means of subsistance to

23d October 1792 we received the accounts of his Majesty's 4th Regiments serving under your Presidency to the 24th of June 1790 together with an assurance that the continuation of these accounts would soon follow, and that, from that period, they would be regularly transmitted every six Months. Minutes thereon

On reference to the Records it appears that letters were addressed to the Military Auditor General on the 13th and 17th of October 1792 directing that the Accounts of his Majesty's Troops serving under this Presidency from the 25th of June of that Year should be made out in his Office, and sent to Government every six Months, for the purpose of being forwarded to Bengal, as directed in the letter from that Presidency, under date the 6th of August 1792. If there were any particular circumstances which operated to prevent a compliance with the Orders transmitted to Colonel Malcolm in the

1956 Fort St. George 14th July 1795

the Month of October 1792, the Board conceive it should have been represented to them, so that it might have been remedied; but no such representation appears to have been made, nor have any Accounts been furnished to this time, tho near three Years have elapsed since the order was given —

Resolved that the above be communicated to Colonel Malcolm, and that he be particularly desired to — transmit the accounts, in future, as directed in the Secretary's letter beforementioned.

The Military Paymaster General was directed, on the 23d of October 1792, to prepare the accounts of his Majesty's Regiments up to the 24th of June 1792, and informed, at the same time, of the wish of this Government to comply with the orders from Bengal relative to the early transmission of those accounts:

Ordered that he be directed to assign his reasons for the inattention to the instructions communicated to him so far back as the 13th of October 1792, and that he be reminded of the several communications that have been made to his Office requiring answers, but which have not yet been replied to. —

Diary

Rcvd the following Letters—

To the Right Honble Lord Hobart.

Governor in Council

&c. &c. &c.

My Lord.

From Captain Read— on the Subject of the Twelve Months Stock of Grain ordered to be laid up in the Garrison of the Barramaul— requests instructions regarding Grain that will remain surplus the Stock ordered—

Agreable to your Lordships commands, measures have been taken for supplying the different forts on the coded districts with a twelve months store of grain, but the state of granaries prevents the completing the stock proposed, at some; and the laying up any, at others.— There was reason to believe from reports of the granaries at every station, where I began, that, though most of them were out of repair, there would have been found room sufficient for the deficiency, but from the more intelligent reports of the present commissary, who has just performed a tour, in order to ascertain their actual state, and from experience it has been found necessary to stop, until the granaries, both old, and now be repaired, and old some be repaired and new some be erected, where houses have hitherto been substituted,

Hon'ble

1965 Fort St George July 1795.

15 thereto for the purpose. This will appear in Mr.
Hurdis's report of the granaries in the Baramahl, already
transmitted to his principal, and on one he is now em-
ployed in those in the Salem districts, both of which,
I trust, will be laid before your Lordship. Notwithst-
anding this encouragement I hope from Mr Hurdis's
endeavors in providing places for the reception of the grain
at Hungary, Rychota, and Sankaridroog, to complete the stock
in a few days at those places, which are, by far, the most
important, and that it may the more speedily be done at
all the others, they have to recommend, that he may be
authorized to make the necessary repairs, and to build the
new granaries where they were wanted; for, residing here, in
and superintending them himself, he can be the more
certain as to the goodness of their materials, and construction
and, from every consideration, he would expedite them. — I
likewise recommend that all granaries, and other stores
ought to be built of burnt brick, and chunam, also that they
be either arched, or terraced, for the additional cost is soon
compensated, by the preservation of the stores from worms
and the weather, which soon get to them, when they are
constructed of raw bricks and mud, and tiled or thatched
— these works might be reported on, by the engineer

Sir

1966 Fort St. George July 1795.

15 In that case I think should be answerable, strictly with the contractor, for their standing at least seven guard, or by committees formed at every station on which the organ might be a member. The amount of them might be given in upon honor, and as I conceive the most suitable compensation to be the contractor for their trouble, under what circumstances would be such a percentage upon the cost, as your Lordship might deem adequate. I have taken this liberty, my Lord, from my solicitude to see the preservation of the stores and provisions of the forts under my command better provided for, than at present, and from seeing how little has been done under the preventive system, on the above grounds this country has been at the Company.

There will be 300 garce of arrauny grain left, after completing the stock of the places which, on account of their vicinity to the districts yielding it, are intended to be supplied from it, and about two thirds of that quantity is Carnatic or the kind which is the best for store, — The supply that has been provided from being charged to the grain department at the bazar price, will not, including carriage and customs, exceed 42 pagodas per garce, which is always on the Salem districts. — I conceive in these circumstances, that should there be any probability of wanting an extra quantity

Of

1967 Fort St. George 15th July 1795

15 Of grain in that granary, and your Lordship deem it ex-
pedient, all the above that is Sambhow may be kept for
store. — The commissary informs me, that having
people at work on the granaries out of repair at Sankhdroog
he will soon have room for about 200 garce, which is prob-
ably as much of it, as would be fit for the purpose. I shall
then all but the sambhow to be sold off, and that it may
be kept until I receive your Lordships sentiments in reply as
to the measure, which I hope to be honored with soon, as
otherwise, revenue may sustain a loss by keeping the
grain in hand. —

I have with great respect

15 Of a Sword of application from the Durbar in behalf of the

The Rajah seems so formed, interests
himself very warmly in the success of the application,

he has it much in his power to confirm or facilitate the
operations of the Agent for the purchase of Horses, in which
matter he is very capable of acting. According to the known

that it appears of some consequence to endeavour earnestly
to afford them every possible satisfaction on the present occasion.

I have the Honor to recommend the en Honble Lieutenant George Sherrer to be Adjutant, and en Lieutenant Moore to be Quarter Master to the Flank Com- panies Commanded by Major Dalrymple en

By Major Dalrymple's Returns to me I find, that Mr Horseman, Surgeon of his Majesty's 78th Regiment has been Detached Regimentally with the Flank Companies of that Regiment; and Mr Jonathan Pyne, Assistant Surgeon with the Flank Companies of his Majesty's 3rd Regiment en

I sometime since Issued a Report that Mr Horseman was to be sent, and caused it to be signified that it would not be Proper to send him, as I Knew that it was the intention of Government to send Mr Boggs to su- superintend the whole Medical Department, who is Junior to Mr Horseman - It is Probable therefore that Mr Horseman will have been relieved by one of the Assists of his Majesty's 78th Regiment, but in that case some confusion and discussion may arise between these Regimental Assistant Surgeons en

Sent the following Letter to Mr. Macleod

To. Mr. Alexander Macleod

Sir.

The Articles of Capitulation proposed

Wm. Macleod returning the Articles of Capitulation for the Surrender of Pulicat and its Dependencies, with the final Resolutions of this Government annexed to each Article

by the Government of Pulicat I have received, and this Govern-
ment having bestowed upon them the most deliberate consi-
deration, I now return them to you with the Resolutions
which have been Passed upon Each Article, expressed in
an opposite Column — In communicating them to the
Dutch Government, it will be necessary that they should
be made explicitly to understand that they are final, and
that I expect an immediate Acquiescence to the Capitulation
as it now stands —

of Bimlipatam whilst
Peace existing with
the Military Officer
in that Province

Reports having reached this that the Dutch Settlement of Bimlipatam had been taken possession of by the British Troops at Vizagapatam, I addressed them on the Subject in a Letter, of which the enclosed (No. 1) is a Copy, that I might not remain ignorant of a transaction which appeared to me necessary I should be acquainted with. — His answer, Copy of which (No. 2) I also have the honor to enclose, confirms the truth of the Report —

The taking possession of a foreign Settlement, whether estimated as a matter of Credit, of Advantage, merely of Etiquette, ought, I should imagine, to have been executed through and under the orders of the Military Officer; Submitting the consideration thereof to your Lordship —

I have the honor to remain

Sir.

Reports from Bimlipatam make mention of the Dutch publick property there, having been taken possession of by your order.

In the event of a Dutch war I should have conceived the giving directions for taking possession of the factories &c. under that flag could have been within my province

As I am ignorant of there being a Dutch war, and as it may be necessary for the publick Service I should know it, if such is the case; I should therefore be obliged by any information, on that head, which may have come to your knowledge.

My Lord,

I have been honored with your Commands Signified as follows in Mr. Secretary Jacksons Letter of the 15th Instant Received by me in the Evening of the same day.

"I am directed by the Right Honorable
"the President in Council to desire you will lose no time in
"Reporting upon the accompanying Estimates transmitted
to his Lordship by the Military Paymaster General as
"It may be necessary to acquaint you
"that the President in Council has determined that a Sum

17 Colonel Stuart shall be given in charge to the Paymaster, and
in like manner, a Sum equal to four Months payment to
the Troops appointed for the Expedition to Malacca.

In consequence of Your Lordships Orders
signified as above I have lost no time in Examining the Estim-
-ates that circumstances have admitted of my applying for
the purpose, and beg leave to Report to Your Lordship that,
as nearly as I have an opportunity of forming a Judgement
on the Amount required by these Estimates, there is no
objection to issuing from the Treasury the Sum of Seventy
Two Thousand four hundred and Seventy Three Pagodas and
Thirty Fanams /72,473.. 30/ on Account of the Expedition
to Ceylon under the Command of Colonel Stuart, and in
making up the Estimated Amount for the Expedition
under Major Brown to the Sum of Twenty five Thousand
Pagodas /25,000/ as I observe the Allowances of the latter
Officer and his Staff make no part of the Estimate for
Malacca; the total issuable therefore for these Expeditions
to the Military Paymaster Generals Department is
Ninety Seven thousand four hundred and Seventy Three
Pagodas, and Thirty Fanams /97,473.. 30/ on a Comput-
-ation estimated as above Stated in Communication with
with the determination of Government Noticed in Mr.
Secretary Jackson's Letter that a Sum equal to three
Months

1987 Fort St George 11 July 1795

17 Months payment of the Troops under Colonel Stuart shall be given in charge to the Paymaster, and in like manner a Sum equal to Four Months payment to the Troops appointed for the Expedition to Malacca ~~

A Sum equal to payments for three and four Months respectively as Stated in the Orders I have received has occasioned my not considering any deduction as falling to be made from the Estimates on account of the Sums which have been authorized as Advances to the Troops not exceeding One Months pay to the Natives, and one Months pay and Allowances to Officers, Subject in the former case to be accounted for at the place of destination, and, in the latter, to be deducted from the next Months Abstracts as directed by the General Order of the 4th Instant – This I shall hope is conformably to Your Lordships intention respecting the Sums to be given in charge to the Paymaster for the use of the Troops under Colonel Stuart, and for those ordered on the Expedition to ~~ Malacca ~~

I beg leave also to express my hope that I have considered the intention of Government correctly in the case of the provisions which, by the General Order of the 4th Instant, are to be served out during the Voyage to the Native Troops under Orders for foreign Service and as long after as the Officers Commanding the Expeditions ~~

Shall ~~

1988 Fort St. George 17 July 1795

17 Shall be of Opinion the Service requires such Issues: because, in Examining the Estimates I have not looked upon any Stoppages or Deductions to remain in the Paymasters hands on account of the provisions to be Issued, on the belief that the same indulgence to the Natives on the present Service is intended that was announced in Orders in April 1794 viz. that the Issue should be at the public expence, without any deduction whatever from the pay and Batta of those Troops.

In the event however of my having committed any mistake in either of these cases it may be easily rectified so far by a notification from the Secretary to the Military Paymaster General, when he is furnished with the Orders of Government authorising the advance that he is to consider the Surplus, which may thus be determined upon, as a Balance to be forthcoming on his own Paymasters Generals hands for the Current Expences of the Military Establishment; in the mean time, as the time presses, I have thought it most advisable to report on the Estimate in the Manner least likely to occasion inconvenience to the Service, of the two Expeditions.

To the Right Honorable Lord Hobart

Governor in Council

My Lord

From Major Brodie — in Explanation of his Conduct relative to his late purchases of Sheep — contradicts pointedly several Assertions made by Mr. Place — and offers to submit his Conduct to a Court of Enquiry. —

I have the honor to acknowledge the receipt of the two Official letters addressed to me under date the 21st May and 3d. Instant through Mr. Secretary Jackson by your Lordship's direction, stating that Mr. Place, as Collector, has reported my having disobeyed the orders of Government in regard to the Sheep I have received from him for the use of this Garrison — a charge which, for the reasons I am about to submit to your Lordship's consideration, I trust will appear to be perfectly invalid. —

In the first place permit me to state, that for all Sheep which have not been particularly selected as the

1820 Fort St George 11 July 1795.

9th the finest of the Flock, I have regularly offered, through my Cutwall, one Star Pagoda for four which has constantly been refused by Mr Place's Servants, on the plea that they were unauthorized to receive payment for such Sheep; your Lordship will evidently perceive that I absolved myself of the duty required, by tendering the price stated above, for Sheep promiscuously bought — and if Mr Place directed his Servants not to receive the money, no blame can possibly be attached to me.

I trust I shall ever pay that due respect to the Government whose protection I enjoy, as to acquiesce with pleasure in such orders as may be thought necessary to issue, and therefore beg leave to assure your Lordship, that when I have had occasion for what are denominated table Sheep, for the use of my own family, I have been sometimes in the habit of purchasing them from a Sheep Dealer, thinking myself according to the usual custom of Society, entitled to obtain them, on such terms, as I deemed the most reasonable — and they were then only to be procured at the rate of three for a Pagoda — and for this reason I must own to Your Lordship, that I have directed my Cutwall not to receive the table Sheep brought by Mr Place's Servants, because I have been generally provided with Sheep of a similar description at precisely the same rate which they were offered to Sale by the orders of that Gentleman. —

As connected with the present subject, it may be superfluous to submit to your Lordship's consideration the following circumstance. — On

1821.

Fort St. George 11 July 1795.

9th

On the 30th of April I was under the necessity of sending for fifty Sheep, which were taken, without any attention to quality, from a flock consisting of about five hundred — the money was immediately offered for the Sheep at the rate of four per Pagoda, which the Servants of Mr. Place would not accept, as they were under the apprehensions of severe chastisement from their Master, for so doing — I took an opportunity of mentioning this circumstance to Mr. Place, at the same time advising him that the money for the Sheep was deposited in the custody of the public servant, and forthcoming whenever it should be required — upon what grounds Mr. Place has not condescended to receive such Money, I pretend not to know, and shall only observe that such conduct appears to me to imply a contradiction of the most palpable nature. —

In the public letter of the 3d of July, which I have now the honor of acknowledging, it is stated that I "still continue to select the finest of the flocks, "and will give only an inferior price for them" — if such be the nature of Mr. Place's information to your Lordship in Council, I beg leave with due deference but in the most unqualified manner to deny, that such is the case — for I am free to declare that there has not one Sheep been selected by any of my people since the 30th of April (the few from the Sheep Dealer mentioned above being excepted) but from Mr. Place's

public

1822 Fort St. George 11 July 1795.

9th public Servants at the stipulated rate - as I have pur-
= chased every thing else in the Sayhire agreeable to
Government regulations.

If notwithstanding of what I have stated, it should appear to your Lordship that the points at issue between Mr. Place and me, seem still to demand a further elucidation, I have only to request that you will be pleased to order an enquiry into the business in any way that may appear most proper to your Lordship - in order that my conduct may be explained, and my character vindicated as an Officer, and a Gentleman - and as I am threatened with your Lordship's displeasure, and likewise to be removed from my command upon erroneous information, and misstated facts lodged against me by Mr. Place, I persuade myself you will find no hesitation in complying with a request of such importance to me.

I have the honor to be

From the Acting Commissary General of Grain and Provisions recommending an Increase of Pay to the Principal Writer at Vellore - that the Madras Maraicalore be employed in all the Company's Granaries and the Pay of the Servants thereon and on that account - and that the Grain at Dindigul be carried.

I enclose herewith for the information of Government, Copies of Letter and Statement from Mr. Wynch Commissary of Grain and Provisions at Vellore:- On which I think it my Duty to observe, that no responsible Person can possibly be procured to take Charge of a Granary and perform the duties of a Writer, for less than Ten Pagodas P Mensem, as it is well known every Man who can write a tolerable hand and bears a good Character is at all times certain of being employed at least at 10 Pagodas P Month at Madras.

Country Measures cannot make use of the Madras Marcal (the only Measure used by the Company (whenever they have attempted it, a Loss has arisen to the person who Employed them of near Six per Cent in receiving Grain, besides it is well known that a Madras Measuring Man can Measure in One Day with the Company's Marcal three times the quantity of Grain that a Country Measurer can with the Small Measure he uses, therefore as a saving to the Company, I beg leave to recommend that Madras Measurers alone be allowed in the Company's Granaries and that their pay be fixed at 4 Pagodas P Month.
