Sir

Yesterday received a Letter
from Captain Wood with a Copy of a Letter from the
Gent. & Council of Fort St George of the 20 Septem-

sent the Original to you) I do not trouble you with
the Copy — likewise a Copy of a Letter from Mr Palk

possible we can take Madura for want of Powder & Shot. It gives me the Greatest Concern that I did not receive the Presidents & Councils Letters before the Attack of Madura began: By your Letter of the 12th September I understood you would have the reduction of Madura Carried with the means then in my possession & that if I sent you Bullocks from Camp you would Supply me with more Stores: Accordingly I sent you Five hundred Bullocks the 23d of September under a Strong Escort by the Vattum pass to Trichinopoly and began the Attack the 24th imagining that the Bullocks might return with Shott by the time it would be wanted But to my great Disappointment I find they are not arrived at Trichinopoly, and understand by the Presidents & Councils Letter that the Bullocks have been sent to Tondi, but have not a Sufficient quantity to carry the Ammunition to the Different Batteries. I have only about six hundred rounds of twenty four pounder Shot and about Seven hundred of [illegible] have no other chance of reducing & gaining the Glacis by advancing & erecting Batteries upon the Crest of it before the Attack But waited for the Supplies from Tanjore the Bateaus then in my Possession would have been so far advanced as to have rendered the Attack impracticable. Tho' we should be under the Necessity of raising the Siege the Army may retire to Dindigul or Nattam

Fort St George 17th October 1763.

Nattam and recommence the Attack with a certainty of Success after the Monsoon The Force sufficient in my Opinion for the Speedy reduction of this Place should not be less than Sixteen or eighteen Pieces of battering Cannon a thousand European in Battalions two hundred & fifty Artillery eight thousand Seapoys and two Thousand good Black Horse — Inclosed I send you a Return of the Troops under my Command for the Month of September — and am

Letter from Col Monson to General Lawrence —

Sir

Our gaining the Glacis by a Direct double Sap has proved ineffectual as the Rebels have opened three Guns on our Flank and our persisting in carrying on the Sap can be attended with no other Consequences than getting our Men destroyed as I am not certain of having Powder & Shot more than may Suffice to ruin the Flank. We began last — I shall Battery to ruin the Flank which in my [illegible] will Fire Obliquely upon it & which All Sorts must be three Days in completing when it is finished, if I judge I have a Sufficient quantity of powder & Shot to destroy the Flank & after we undertake

I shall consult Major Preston whether he thinks he can Cantoon & support his Army at Tiruvadoor Tiruvadoor &c Cantam for I suppose you would have them & Orders given to have after our retreat from [illegible] this place I have already strongly recommended to the Men of the Regiment to enter into the Company's Service and I make no doubt but the greatest part if not the whole will do it when they have permission which will soon

Letter from Col Monson to Genl Lawrence

No. 11

I have consulted Major Preston on the Contents of the President & Council's Letter to you of the 20th & 21st of September & he is of Opinion that the Army may be cantoned at Tiruvoor, Tiruvadoor, Omasuram, Nattum, & Tirencattichy, provided those places can be supplied with Provisions during the Monsoon

I have began to establish a Magazine at Tiruvoor and hope to have it completed by the time I receive your Orders.

The Majority is of Opinion that the ~~Troops & Elephants should be taken Beyond the Nattum Pass and that the Hospitals (which are very large) should be removed to Trichinopoly; so that~~ I imagine I may Cantoon the End of the Month before that I can retreat from here

The Weather looks every Hour as if it was going to Break and I am told the Country between this & Trichinopoly is entirely overflowed

&c. Fort St George 17th October 1763.

Flood and that there has been a great Deal of Rain to the Northward.

Mr Call has not yet been able to finish the Battery I mentioned in my last.

I have as yet heard nothing of the Arrival of the Baleine nor of the Stores from Fort St George or Cuddalore.

We are much concerned to find that the Event of the Siege of Madura appears so very doubtful. Yet as We are in hopes that the Supplies of Ammunition sent from hence last Month may arrive there before they are under the Necessity of retreating, We do not despair of Success. But lest We should be obliged to raise the Siege it will be necessary that the Troops should be cantoned at Tirumboor & Trivadoor &c. in order that another Attempt may be made after the rains. But as We are apprehensive that many of the ~~Officers~~ Regiments may decline entering into the Company's Service & Should they be recalled to Madura the Army would be thereby so much reduced as to renew the Siege with very little probability of Success the bad Consequences of which are much to be apprehended. It is therefore agreed, that a Letter

Letter to Bombay

Honble Sir & Sirs

We have received your Favors of the 14th August and 1st of September

We are sorry to acquaint your Honor &ca with the terrible Storm We had on this Coast on the 21st & 22d Instant His Majestys Ships Norfolk Weymouth & America on the Appearance of bad Weather on the 20th at noon Slipped & stood out to Sea & returned again the 24th Instant quite dismasted and much damaged in their Hulls as did a Country Ship called the Royal Charlotte then here. All the other Ships & Vessels which were in the Road either Foundered or ran on Shore

The Admiral had intended sailing for your place with the Norfolk on the 22d and Mssrs Maitland & Calvert two Officers belonging to the 79th Land Regiment proposed going round with him These Gentlemen are desirous of entring into the Company's Service on this Establishment which We shall have no Objection to if they get Colonel Monis the Commanding Officers of the Regiments leave to do so And as We imagined that some of the Men of that Regiment now at Bombay might be induced to stay in India with them who would otherwise not have enlisted in the Service, We had purposed begging the favor of You in this Case to advance the same Bounty Money

to

to such Men as you give to those who enlist with you
But as the Namina has now altered his resolution
of going to Bombay those Gentlemen are prevented from
proceeding thither We must nevertheless request of your
Honor &ca if there are any men of the Highland Regi-
ment at Bombay who are unwilling to enlist into the
Service with you & would perhaps enter on this Esta-
blishment that they may be permitted to do so rather
than they should return to England & that you would
be pleased to allow them the same Bounty Money
& pay &as you do to those who enlist with you—
We persuade ourselves your Honor &ca will see the
measure in its true Light which is meant for the
publick Good and to prevent as few men as possible
returning home

Two of the Royal Artillery who
signified a desire of entisting in the Service provided
they might go round to Bombay have been permitted
to do so— One of them had received the Bounty Mon-
& was coming round to you on the Norfolk ther
however he sent round to you by the first Conveyance
And Should any others offer to enter on the same
We shall readily receive them—

Agreable to your Desire expressed
in your Letter of the 17th April We have compliment-
ted Captain Sinker with a Diamond Ring of the
Value of Rupees 2000 for which We have Debited your
Presidency—

Purport of Letter from Col. Monson. his opinion of the Expediency of continuing the Siege of Madura

The Letters from Colonel Monson under date the 26th and 27th of October referred in the above Letter are also read, stating both that he thinks it unadviseable to continue the Siege of Madura, as there is no likelyhood at present of their being able to get possession of the Place, that he proposes taking Post on a rising Ground about 3 Miles to the N.E. of Thirumoor, where he shall be able to cover both the Nanaveram & Nellacotah Mans Country & keep open a Communication with Trichinopoly by the Vaigam and that he shall give Directions for the Troops to Halt until he receives further Orders. —

The Board having taken the above Letter into Consideration the following is now wrote to General Lawrence.

To Stringer Lawrence Esqr.
Major General & Commander in Chief
of the Land Forces in India.

Letter to General Lawrence

Sir

We have been favored with your Letter of yesterday accompanying two from Colonel Monson under date the 26th & 27th of October.

If Colonel Monson's health will admit of his staying with the Army, We must beg the favor of you to desire him to do so, and as you may assure him that We will send him every help we are able, but if his health will not suffer him to remain there, & he is of Opinion the Troops may continue in the Post to maintain it without any great Danger you will then be pleased to request of him to leave the Command with the next Officer — But in case Colonel Monson should be of Opinion that the Troops are too much reduced to take post without running a great risque of

of being Joined at some of them by the Enemy. We would therefore recommend that he be desired to retire with the Army to Trichinopoly; in either of these cases We Should be glad of his Opinion in order that we may if We renew the Siege apply for the Rains write to Bombay for as large a reinforcement of Men and Stores as they can possibly Spare us & We Should also be glad if he would acquaint us where he thinks it most advisable to have them Landed.

Honble Sir & Sirs

Your Honored Favor of the 2.d We received the 27th & Join with You in rejoiceing upon so happy an Event as the peace a Benefit to Mankind in General

The imputations against Us contained in Your Letter are very Strong and would be more So were We conscious of having given occasion for them We are accustomed along Time ago to receive such imputations from both the Lately contending Nations the English and French notwithstanding that (as We dare Say) our Conduct has not been

them. This however Surprizes us not, well knowing that on such Occasions it is impossible to please all Parties, or even to please either; and as those Imputations are but conceived in General Terms & We are in a Self Conviction of having acted evenly & justly between all Parties So that We easily can clear Our Conduct in any single Case that may be laid to Our Charge. We Shall here extend us no farther upon that Subject

In regard to Mr Maisonave who pretended proceedings at Tranquebar have given Occasion to the Before mentioned Letter, We must inform you, he Arrived here the 7th January this year; having to that Time resided at Negapatam We had no Cognizance of his Being invested with any Publick Character & We consequently could not consider him but as a private Man. But to be sure in that respect We took Occasion to write to him the 1st March last in the following manner

"Mest. cependant Monsieurs des "circonstances qui nous font desi- "rer d'être informés de ce qu'il peut "nous être permis de nous dire "de plus interessant pour nous "de Sçavoir de la Qualité de votre "ministere Public, et c'est pas "La Curiosité qui nous porte à "desirer ces informations c'est un "effet de notre devoir en qualité "de Chefs de la Nation Danoise

There are some Circumstances Sir, which makes us desirous of being Acquainted with what you may very well tell us & which is of Consequence for us to know, that is the Quality of your Publick Station. It is not Curiosity that leads us to make these Enquiries in it is our Duty as Heads of the Danish Nation in India and of this

Honorable Sir

I do my incumbent on me to
acquaint you how far I have been able to execute the Commis-
sion you was pleased to honor me with in regard to Man-
amcoody and Pombenmar the former I called at in my way
to Tondy and found it to be a small Village inhabited chiefly
by by Bramins, on whom the Revenues of that District
is bestowed by the King of Tanjour. it is very healthy and
situated in a fertile Country, but is a place of no trade nor
can even Toney Boats anchor within a League of the Shore
by the Inhabitants Account I intended to have transmitted
You a Description of that place and Pombenmar, at the same
time but am prevented from going to the latter by a revolution
that has happened there, it is a Pont 50 Miles to the Southward
of Tondy and thirty from Ramanadauram belonging to the
Great Marawa, but at present closely besieged by Damadu
pilla formerly his General and Tackerel who has subdued
most part of that Country and has invested the Raja in his
Capital

Fort St George 9th Novem 1763

Capital Ramanabrauam which is imagined ei-
ther is or will be soon in his possession from the great
scarcity of provisions in the place. the Rule Maratta
is assisting him to subdue it the very nearness situated to
the other. Considering the great distance Pombenmar
is situated from Madura I imagine your Honor will
conclude Tondaymust be the properest Place to answer
your intended purposes should you have occasion to put
it hereafter in Execution it indeed only wants a small
Fort to compleat it for that intent as it is the nearest
Port to Madura situated in a healthy Country has
many excellent Godowns and a Road so deep that
the largest Country Boats can Anchor within 100 yards
of the Shore more is there ever the least Surf to impede the
landing of Goods the whole Year in that Charmel appear-
ing no Ways equally as unaffected as in a large River
It has good Water at a small distance from it and is
one of the finest and Cheapest Grain Countries on the
Coast, Paddy being generally sold at about 12 Pag pr
Gance when the Crop is cutting which is the chief Co-
mmodity the Inhabitants deal in by Exportation
their open and unsecure Situation on the very Borders
of the Ramanaburam and Tanjore Countries rendring

To
Major General Lawrence
Commander in Chief in India.

Letter from Colonel Monson to General Lawrence

Sir

After I had wrote you on the 6th Instant I went down to the Trenches, and having taken a Second view of the Ditch before the Great Work on the left of the Attack it appeared to me to be too formidable for us to think of Getting it up at this Season of the Year with our present Forces but as I was willing to do every thing in my power to get the Place into my hands, I wrote the enclosed Letter to Carvi Sahib which brought on the enclosed Correspondence but as I find there is nothing by his Letters, I have again broke off all Correspondence with

Fort St. George 15. November 1763.

Sir of the 12th inst. with them and shall begin to take measures from this Day for raising the Siege

No 20 Camp at Seppacolum 6th November 1763

I am Sir Your most Obedient and very humble Servant George Monson

To Major General Lawrence Commander in Chief in India

No 21

Letter from Col. Monson to Gov. Pigot

Sir

I am Honored with yours of the 22d of October & from Madras. Before I leave the Army I will converse with Major Preston on our further measures as I would take upon myself, had I the Honor of continuing the Command of the Army What appears to me the most probable to Lessen the influence of the Rebel, is, to Secure the Pass of Vattum by Strengthening some places which he has already in some Degree Fortified; when that is done, and proper Garrisons with a Sufficient Quantity of Ammunition and provisions put into those places and the Weather settled; the rest of the Army might march & take possession of the Rebels Country, before the Harvests is gathered which would put them under the Necessity of taking the field, or giving up the Country Whether this is doing, Military Stores and Gun might be collecting at Trichinopoly or Vattum with more Military force and begin the Siege of Madura when every thing is properly provided. A European force with Some Companies of Seapoys to join the King of

Travancore

Fort St George 15th November 1763.

Travencore would be of great Service for I think the Army that is to be employed against Madura cannot possess the Country more than Fifty or Sixty Miles to the Southward.

I have taken the Liberty to recommend to Mr Call Strengthening Tuticorin and Manchanatam which I hope you will approve of. Imagine it may be done at a very easy expence as he has already many Coleys and Lascars under his own pay.

After I have seen the Army South in their new Camp and the Boats secured to keep open the communication with Trichinopoly I shall return to Madras leaving the Command as You desired with Major Preston with such men of my Regiment, as are not willing to enter into the Company's Service till they can be relieved which I hope will be done as soon as possible I shall leave a proper Number of Commissioned Officers to command them, and the rest will return with me

I have the Honor to be
with the most profound Respect.

Sir
Your most Obedient and
very humble Servant
George Monson

Camp at Teppacolum

The orders the General hath already given to Col. Monson seeing sufficient to remain on duty, I take such measures as may put [illegible] to renew the Siege as soon as possibly after the rains are over; and to that End it is agreed to write to the Gentlemen at Bengal to afford us all the assistance in their power, and to send us as large a Supply

Gentlemen at Bengal to be applied to for Assistance

Fort St George 15th November 1763

Supply of Gunpowder as possible and as the Number of fire Arms in Store is very small and We shall most probably have large Demands for them; It is agreed to detain here the 20 Chests on board the British King consigned to Bengal & that the Gentlemen at that Presidency be made acquainted therewith — It is also agreed when Colonel Monson returns from the Army to consult with him in what manner the Gentlemen at Bombay may the most Effectually assist us in reducing Madura and that in the meantime they be informed with our having been obliged to raise the Siege & that We shall be under the Necessity of applying to them to give us every Assistance in their power to enable us to recommence the Attack as soon as possible — they are also to be desired to furnish us with as many Small Arms and as much Gunpowder as they can conveniently spare and with as large a Number of 18 & 24 lbs Shott as possible —

20 Chests of fire Arms on the British King to be sent here

Assistance to be required from Bombay

There being a Quantity of Gunpowder remaining at Mazulipatam which was landed out of the Britannia M.r Byfield is to be directed to send it hither by the first Conveyance —

Letter from M.r Taylor

Honble Sirs &.ins

Agreable to your

Orders

652 Fort St. George 15th November 1763.

Orders I dispatched to Colonel Monson on my Arrival at Tondy those Stores under my Charge which he had occasion for and have the Honor to transmit herewith inclosed a List thereof as also of the remaining quantity which I sent by his Directions to Cuddalore with an Invoice to Mr Callana whom I have since requested to send the Articles belonging to the Troop to Trichinopo. ly as the Colonel informed me he should have occasion for them. The Rice was according to his Directions delivered to the Contractor's Agent at Tondy and has since been sent for to Camps I am obliged to acquaint your Honor &c.a that that Article proved far deficient of the Quantity mentioned in the Invoice, which is nine Garce and thirty Mercals as it measured only seven Garce and two Hundred & sixty four mercals which difference seems to arise from an apparent mistake in the Invoice and from a quantity being taken out of the Baggs by the Boat People on shipping it on board the Baleine. For the Officers of that Ship inform ed me many Boats came on board at Night loaded with Baggs of Rice that were but half full and those that were full found contained a medium Extra .Mercals each consequently the whole Quantity that Five Hundred & twenty Five Baggs could possibly have contained was but seven Garce and three hun dred and fifty Mercals I therefore dont doubt but my Conjectures in regard to that deficiency will appear as evident to your Honor &c.a as it does to me & am with all due Respect

Honble Sir & Sirs.

Honble Sir & Sirs

Letter from Mr Floyer.

I have the Pleasure to enclose herein a Copy of a List of Stores which Mr Taylor informs me have been returned to Cuddalore from Tondy the Army having no Occasion for them. As these are Stores which we are very much in want of for this Garrison and for which I sometime ago indented I hope your Honor &ca will be pleased to send Directions for their being sent hither as We Shall not only thereby be furnished with many Articles which We are in the greatest Want of, but I presume they will be nearer at Hand to convey to the Army should it hereafter require any of them.

Desires the Stores sent to Cuddalore may be forwarded to Trichinopoly.

I remain with great Respect.

Letter from Mr Floyer read as follows.

Letter from Mr Floyer Regarding the Wounded Seapoys.

Honble Sir & Sirs

There arrived yesterday from Camp eighty four Wounded Seapoys whom Col. Monson as Captain Wood informs me) desires may be subsisted in the Garrison until their Recovery. They tell me they have as yet received no pay for the last Month but as they have not brought with them the usual Certificates relating thereto I do not think myself authorized to pay them until I have Mr Donsetts Answer to the Letter I have addressed to him on the Subject of their Pay for last Month in Consideration of the Delay this must occasion until I receive his Answer and the real Necessity of their being Subsisted during that time I have made them an Allowance of two Fanams per Day each Man, until I am favored with your Honor &ca's Directions on this head as I am ignorant whether you would be pleased to have such of them as are disabled, immediately pensioned upon half pay, or dismissed or whether your Honor &ca would direct them to be continued on Full pay the Allowance which I now make them daily, may in either cases be deducted out of the pay due to them for last Month, or that which will be due to them

Fort St George 13. November 1763.

them at the End of this. All which I submit to your Honor &ca Consideration.

Some time ago, when there was no Lead in the Stores in the Garrison to make Musket Balls for the Service of the present Expedition, I had recourse to the Nabob who lent me at different times to the Amount of twenty Candy, I have since that time received pretty considerable Supplies of Leaden Balls of various sizes from the Presidency, but the Nabob not being inclined to be repaid in any other Sort but such pieces as he lent me I am unable to replace the quantity borrowed of him as I have only the beforementioned Balls in Store. He seemed when at this place to be very desirous of being repaid, as he told me he had but little of his own left.

I have also been under the Necessity of borrowing out of his Magazine twelve thousand pounds of Gunpowder, to fill two hundred, Sixty pound Barrells for the Service of the Expedition. Fifty whereof were sent to Camp some Days ago, and the remaining one hundred and fifty Barrels with fifty more out of Our own Magazine (which is all We had left) are setting out for Camp this Day. Captain Wood desired that Quantity might be sent, as he tells me Colonel Monson wrote very pressingly for powder.

The Urgent Necessity of the Service has Obliged me to entertain some more Lascars in this Garrison by reason of the great Draught to Jannamah daily forced to make of them, in sending them with Stores to Camp, at a time that the Garrison Service requires

Since my last under

ramanaze has crossed the River with a Considerable
Body of Troops and that Hattee Woodee Mahomed Cawn
who was incamped on this side with his Army has
moved off towards Hydrabad. What designs he may
have in view I cannot pretend to guess but his Con-
duct has in many instance of late been very arrogant
& Tabitrary towards the Inhabitants, Among which
is his Seizure of the Son of One of the Companys Merchants
belonging to Vizagapatam named Woorattee Daupiah
who he keeps a Prisoner at Rajamundry & demands
a large Sum of Money from him. Mr Smith has I
hear sent some Sepoys with a Letter to him to Sollicit
his Release but without Effect, And the Companys

Letters from Nizam Ally requesting our assistance.

Two Letters from Nizam Ally Cann to the President & Council to Mr Pybus are also read as entered in Country Correspondence N° 104, 106, & 108 requesting our Assistance to his Deputy against Seatanammauze.

Resolution in Consequence.

Altho' it is not in our power to afford Nizam Ally the assistance he requires, yet as the Company have earnestly recommended to us to procure Grants for the Circars to the Northward, it may possibly in some measure facilitate our obtaining them were we to enter into a Correspondence with Nizam Ally & to amuse him with promises of our Assistance as soon as we are able, as he may by that means be induced to decline engaging in any Connections with the French. It is therefore agreed that a Letter be addressed to him, that Mr Pybus be made acquainted with our Sentiments on this Head.

Letter from the Nabob receiv'd requesting that the Countries granted to the Company may be left to him. Desires to know in what manner he is to behave to the French on their arrival & that proper respect may be paid to him by the people whenever they may pass thro' the Company Districts.

Read a Letter from the Nabob as entered in Country Correspondence N° 102 requesting that the Countries he hath granted to the Company may be left to him and promising to pay the same rent for them as they are valued at in the Sanads. He likewise desires to be informed in what manner he should behave to the French on their Arrival in India. Seatoo recommends that the Army may in case they are obliged to raise the Siege continue near Masulipatam & desires that whenever he or his people come to Madras a proper respect may be paid to them as they pass thro' the Company's Districts & that the Tombs of their Saints

Saints may be reverenced as usual. Likewise desires a Supply of Fire arms and Flints.

Purport of an Answer thereto. Agreed that he be informed that We cannot comply with his request of letting the Countries to him as the Company ordered that all their Farms be put up at Publick Outcry to the highest Bidders. With regard to the manner of this & to the French he is to be informed that before any of the Place to them by the treaty of peace are restored they must come to Ference with us & that he shall be made acquainted with wha thing that passes thereat & that he may be assured every pr tion will be taken to prevent them from being Troublesome to h Station, he is also to be informed that the Army is ordered to re near Madura till We are able to recommence the Siege & that ev the meantime proper Supplies of Stores & Ammunition will sent thither. Whenever he comes to Madras he may be assu that a proper Respect will be paid to him & his Officers as they pa through any of the Company's Districts and that he need not do but that the usual Ceremonies will be shewn to the Tents of Sa With respect to Fire arms it is not in our power to Supply him an any but 60,000 Flints may be issued to him.

Dispatched the following Letter to Fort William p. Brigantine George and Duplicate thereof by Pattamar

To the Honorable Henry Vansittart Esqr
President and Governor &c. Council
at Fort William

Letter to Fort William advising of the raising the Siege of Madura & desiring Assistance

Honble Sir & Sirs

We are concerned to acquaint You that the many unforeseen difficulties which have arose in the Reduction of Madura has obliged Us to raise the Siege. Our Army not being sufficiently Strong to persevere at this Season an unfordable Ditch twenty eight Yards broad which they had not the means to fill up, being an insurmountable Obstacle, they are now encamped within a few Miles thereof and We purpose as soon as We are able with the Assistance of the Troops from Manilha to recommence the Siege, as the leaving Moss Coran in possession of those Countries must be attended with the worst of Consequences.

The Number of the Company's Troops here is extreamly small and even those mostly composed of Foreigners and We are under the greatest apprehensions that those at Manilha must by this time be so much reduced that their Arrival will scarce put us in a Condition to renew the Attack, unless We can procure further Assistance We intend writing to Bombay for that purpose. And as We flatter ourselves that the troubles in Bengal are by this time so far terminated as to enable You also to give us some Assistance, and we most earnestly request you will afford us all in your power.

&c.

62 Fort St George 10th November 1763.

As Weare apprehensive that Wha[illegible] so shall Be in want of Gunpowder we must desire that Your Honor &c will send Us as much as you can possibly spare.

The Number of firearms in Our Store being very small and as there is great reason to imagine We shall have large demands for them We have taken the Liberty of attaining 20 Chests which came out in the British King consigned to Your Presidency

Sent the following Letter to John Paybus Esq[r] Chief at Masulipatam

To John Paybus Esq[r]
Chief at Masulipatam

Letter to Mr Paybus

Sir

We have received your Letters of the 13th & 26th Ultimo and 2d Instant the Papers accompanying the first Mr Pigot had Before his Departure transmitted to the Nabob but We have Been informed of the purport of them.

We herewith send You an Extract from the Company's General Letter under date 9th December wherein You will perceive they earnestly recommend to Us the procuring Sands for the Excans to the Northward with a View of preventing the return of any other Europeans into the Decan.

663 Fort St George 16th November 1763.

As all the Troops We can possibly spare from hence have been employed in the Expedition against Madura and will be obliged to remain near that place till the Season of the Year and the Arrival of the Troops from Manilha will admit of their renewing the Siege, It is not in Our power to afford Nyzam Alley the assistance he desires However We think a Negotiation might in the meantime be carried on with him & that We might promise to assist him in bringing his Country to Obedience as soon as Madura shall be reduced & Our Troops can be spared from that part of the Country.

The force you have at Mossulipatam is not We apprehend sufficient to enable you to give any materially assistance to Nyzam Alys Deputy at least not without Danger of involving the Companys Affairs otherwise We should be glad that a Stop could be put to Seatavamraauz's proceedings — However you will take every Method in your power to protect and assist the Companys Renters.

The inclosed is a Letter our President has addressed to Nizamally, a Copy of which comes for your perusal & you will be pleased also to write one to him in answer to that sent to you, & you will endeavor to procure the best Intelligence You can of what passes at the Court of the Souba —

You will send hither by the first Conveyance the 13 Chests and 40 Barrells of Gunpowder Landed out of the Britannia —

Sir

Having on the 16th Instant received a Letter from Colonel Isaac Long Morris acquainting Us of his having received His Majestys Commands in respect to the Disposition of his Regiments and signifying his readiness to concur with Us in any measures We might judge most Conducive to the good of the Honble Company Service and agreable to His Majestys Royal Intentions We immediately acquainted Him that in our Opinion the first Step necessary to be taken was to make known in the most publick manner that His Majesty had Commanded and was graciously pleased to permit the Ensigns, Non Commissioned Officers and Private Men entering into the Honble Companys Service which We therefore desired Him to comply with and

Opinion

Opinion the only effectual method of answering his Intentions and fulfilling his Orders by promoting the Honble Company's Interest but as the Colonel has been pleased in reply to this to refer us again to his abovemen-tioned Letter of the 15th and notwithstanding a Second Application to persist in giving us no other answer and as in said Letter he pleads his not having receivd any particular Orders from You for his Conduct in that particular: We dispatch this in Duplicate both over land and by the Way of Tellicherry to request You would be pleased with all possible Expedition to send peremp-tory Orders to Col. Monro immediately to discharge such of the Ensigns, Non Commissioned Officers and private Men of the 89th Regiment as may chuse to enter into the Honble Company's Service tho We do not mean hereby to prejudice any of His Majesty's Officers who may return to Europe either in point of Emoluments or otherwise having nothing else in view but the Interest of Our Employ-ers and acting consistent with his Majesty's most gracious Intentions neither of which We are firmly of Opinion can be answered by the measure the Colonel has been pleased to pursue, However that you may be the better able to judge of his Conduct and of the propriety of complying with our request, We now enclose Copy of Our Correspondences with him on the Occasion and remain with perfect Esteem

Incamping Yesterday Evening at Pursewaukum
about 4 Miles from Madras, I am likewise sorry to find
the greatest Difficulty in procuring Cattle of which
I have but a very small Stock. This
Article for Provisions I am think it prudent Gentle-
men to move nearer to Madras while I am dissatisfied of
a Magazine. On the Contrary I am reducing my
Command to as small a Number of Men as
possible. I am endeavouring to clear the Road through
the Nattam Pass for Our Artillery in case it should
be disappointed of a Resource from Seichamapaty &c
be reduced to the Necessity of making it Sudden Retreat
The Nattam Woods are a good deal infested at present
with the Collories & other Troops belonging to the Rebel.

I have wrote Colonel to the Colonel

supply of Rice from Trichinopoly which with the
precautions I have taken to make the most of what
I had before me makes me sufficiently before hand in
that Article if the Sabalmull supply me regularly
from Trichinopoly till either the Magazine is re-
plenished at Tondy or another established at Sa-
vanore — One of these will be highly necessary Gentlemen
before the Army can well venture to the Southward of
Madura unless the Communication with the Carnam
is rendered much more secure than it is at present.

It was my intention Yesterday to
have marched back to a Ground within sight of
Madura by way of showing the Country people (as
was thought advisable by Colonel Monson) that
the Expedition was not (as they might among them
selves imagine) given over. But the men of the Regi-
ments have absolutely refused to march with me. they
say that as Colonel Monson was pleased to leave it to
their own Option whether to march with me or
not they know no Body here who is authorized to
force them & that march they will not. Barely to
march a few Miles without them I cant think will
will answer the purpose so well as to remain
with them but if it happens Gentlemen that any
other particular Service requires me to march the

the 26th November 1763.

The President laid before the Board the following Letter which he wrote to Major Preston on receipt of that of the 26th November, & at the same time informs the Board that he had addressed Circular Letters to the King of Tanjore, Tondiman, Valiconda, Maravas & the King of Travancore advising them of our Intentions to renew the Siege of Madura after the rains & desiring they will afford all the assistance in their power.

To Major Preston

Letter to Major Preston.

Sir

Your Letter of the 26th is just come to hand, & as it gives me great pleasure to find that a Supply of Rice was come so opportunely from Trichinopoly, & appears to me that great attention will be required to keep the Army supplied with Grain, and that it can only be done by constant Application to the Nabob returning the Bullocks immediately & keeping the Communication undisturbed, for the present it is out of our power to replenish the Magazine at Pondy. Madras is quite exhausted of Grain & otherwise we have no Shipping to convey it, all the Bengal Vessels arrived Mr Bonsette & I think can never have managed

It having been agreed to apply to the Nabob to raise 3 or 400 of his best Horse under the Command of Mr Jeffs Beg, who are to be pictected without Cavalry & paid by Our Paymaster. It is also agreed at the same time to recommend to him that some of his best Seapoys who are well armed be chosen out & put under the Orders of the Commanding Officer who will appoint proper Officers to discipline them by which means they may be of some Service in the mean time he is to be desired to send all the European Officers he has to Camp to be under the Orders of Major Preston.

Some of the Nabob's Seapoys to be disciplined by our Officers

General Lawrence Says before the Board the following Extract of a Letter he has received from Major Preston

Extract of a Letter from Major Preston to General Lawrence dated the 22d. November 1763.

"Our Seapoys do at present are upon a very bad footing, I may indeed say upon no footing at all, as I hope will be particularly explained to you by the Colonel & Major Coall. The Colonel is of Opinion that each Battalion ought to have a Captain two Lieutenants, & nine Serjeants & that those Officers ought to be fixed to them, the few that are with them at present seem heartily tired of their Situation & can't help at times complaining of it, they say, I believe you will allow with some justice Sir, that the extraordinary pains & trouble which is required for the proper discipline of the Seapoys & the little Credit to be got by them in comparison of Europeans makes it but fair & just that every Officer in

represents the bad State of the Seapoy Officers

Ft St George 16th December 1763

One Battalion of Infantry should take this tour, but
that in every Officer in the Infantry as you are
very sensible Sirs / there will do for the Seapoys &c
The General at the same time informs the Board
that he has Long since drawn Major Preston to send
in the names of such Officers as had done Duty
with the Seapoys from November 1761 to November
1762 which has not been done & that therefore the
Effects belonging of course remain in their Agents hands
The Board observe that if Major Preston would
Correction of Error therein
give strict orders that the Officers & Non Com-
missioned Officers who do Duty with the Seapoys
do have their Subsistance on the Seapoy Rolls
no difficulties will occur in the divisions of the
Effects belonging. With respect to the Hardships
which Major Preston complains the Seapoy Officers
labour under / the Board allow that to discipline the
Seapoys is a fatiguing Service & should therefore be
given to the youngest & most active Officers who
must at the same time consider that the preferment
they get by means of the Seapoys & the Gratuity they
receive while they continue with them should be look'd
upon as a very sufficient recompence for the Extraordi-
nary pains & trouble attending that Service

of Affreckonings

General Lawrence has communicated to us a Paragraph in your Letter of the 22d of Nov.r concerning the Officers who Command the Seapoys we grant it is a fatiguing service & therefore should only be given if possible to the Younger & more active Officers who would consider that they owe the quickness of their preferment to the Body of Seapoys in the Company's pay: and as the Affreckonings to a Captain are at least equal to a Company of Foot - & every Subaltern receives some Gratuity out of the Cloathing this will be Esteemed some Encouragement to them for the extraordinary pains & trouble required to keep the Seapoys well disciplined & in good Order.

Mr Payne has informed us in a
Letter of the 2d Instto that a Woman had been detected
carrying out of the Fort of Vellour a large piece of Lead
& that She had acknowledged to have received it from
a Topaz, Centry at the Pagoda Gate from whom she
had before received several pieces which she had delivered
to a Moorman who says he was employed by a Bu-
zar Merchant, who has absconded, to buy the Lead.
Upon weighing the Lead remaining there is found a
deficiency of no less than sixty Candy eleven Maunds and

large a Quantity could be conveyed away in the manner
abovementioned without its being discovered sooner

I am requested by the Rajah to
acquaint You of the Death of the King of Tanjore
last Night. It is thought he was murdered by his
Son and Manager between whom there had been a long
Quarrel subsisting. And two Days before the Kings death
a Son of a former Rajah of Tanjour who was kept there
as a State Prisoner and a very promising Youth, was
put to death it is thought by the same Hands.

It seems the Rajah suspects Monaji
to be at the bottom of the whole Affair in order to commit
the Government. Therefore he thinks it would be very necessary
& equitable for him to enquire into the Truth of the whole Affair
for Wyoji Pawn & Hyderamaig have had a Correspondence
and Treaty Transpired between them as I am well assured
of which I shall & have wrote You Yesterday but the

Resolution of the Board thereon

Whatever cause there may be to suspect that the Rajah of Tanjore has been murdered it would not at this Juncture be prudent for the Nabob or Us to take any notice that might possibly interrupt the present Expedition and we must employ Our whole Attention. Wherefore agreed to address a Letter in General Terms to the Young Rajah of Tanjour condoling him on the Death of his Father and congratulating him on his Succession and expressing Our desire of maintaining the Good friendship subsisting between the Government of Tanjour & the English And that a Letter be also addressed to the Nabob recommending to him to take the same cautious Measures With Regard to the Correspondence suspected to have been carried on between Hydernaigue or Ussoff and the supposed Murderers. We cannot think it to Affairs of Tanjour — It is however agreed that a Letter be addressed to Hydernaigue intimating Our desire of a friendly Correspondence with him & desiring he would not suffer any of his People to afford Ussoff

To General Lawrence

Commander in Chief.

Fort St George 21th December 1763.

Dear Sir

I have received your Letter of the 29th of last Month & have made known to the Men of the Regiment the Encouragement that is given them for enlisting in the Company's Service which with a Army Guard Sir it may have a good effect. But I do assure you Sir that I am sadly doubtful of it. Those who were to be persuaded or encouraged to enlist upon the Spot with the Army I had made sure of before your Letter reached me.

I take the Liberty Sir of sending you an Indent for the full Quantity of Stores that I would be glad to have in Store at Tirunnelvoor, Trivadoor and Nattam before the Commencement of Our next Attack upon Madura. I am still of Opinion Sir as I mentioned in my first Letter to the Council) that the Army should be such as to admit of two Attacks upon it One of them to be a Grand One; & the other if ever so small can do but make a very essential Diversion. The Rebel as We have found by experience is not to be caught in the Field while he has the means of subsisting his Army within his Walls. Those means indeed I hope will be now limited to whatever they are at present. As soon as ever the Weather will admit of it, I shall march back into the Madura Country & leave the remains of the Regiment as a Garrison to Tirunnelvoor till such time as you are pleased to relieve it.

I am Dear Sir &c

I received Your Letter dated the 20th Inst. and in consequence thereof am endeavoring to procure as many Carriage Bullocks as I can get in this District that of Carangoly Wandewash, Chittapet &ca where I am informed there is more than probably will be wanted tho I am in some doubt whether I can collect a Sufficient number as the Renters from Self interested Views generally endeavor to prevent the Inhabitants letting them out of their Districts — The Number required is unlimited in your Letter tho' I imagine they are to be paid for from the time they are engaged. I am also directed to send those Bullocks loaded with powder in small parties under Escorts to Trichinopoly as fast as they can be procured but in doubt what number the Board would have me dispatch at a time. Should a Great number of Bullocks and a Large quantity of powder be in readiness there is only a Company of Seapoys here to compose those Escorts I have wrote to the Tondy Boat people to return with those Stores & deliver them to Mr Daniell. Mr Calland dispatched an Escort of Seapoys sometime since for the Money to whom I imagine it has been delivered which

Letter from Mr Dowdeswell regarding the Rice sold by him

Honble Sir & Sirs

I have received your Honor & Sirs Letter of the 8th Instant agreable to your desire I am now to explain the reason for my disposing to the Buzar People the Rice sent from Madras to answer the Exigencies of the Army: your Honor & Sirs seem from thence to Conclude that your Intentions were disappointed and that the Troops have Suffered from such a Supposed inAttention to your Commands

The Rice when it arrived in Camp was first Offered to the Contractors Agents for the use of the Military but was Savery Said and I dirty that they refused to accept it. the Major then proposed its being Served out to the Seapoys, at the Same rate they are Supplied by the Nabob, but as it must have been first cleaned I have turned to much less Account than what I after Sold it for. I therefore thought it most advisable to dispose of it to the Buzar People at 125 Pags the Garce which is more than 9 Measures the Rupee for the Supply of & Bullock Sellers: this in great measure complying with Commissary Generals Intents in supplying the Army at the same time disposing of it to the best advantage Especially as the Purchasers were under Restrictions to dispose of a Grain unthout proper Chits from the Commanding Officer at 9 measures to the Rupee which was two more, than the Latest Rice that had been sold of: the Cubies till this had taken all Opportunities of deserting, and therefore approved to me most adviseable to prevent its continuance as that of allowing them more

Honours

nourishments it had the desired Effect, but your Honor &ca are the best Judges if my Conduct in this matter merits Approbation or not. give me Leave to add that a Convoy of a Thousand Bullock Load of Rice arrived from Tondi on the Nabobs Account for the supply of the Seapoys at the Same time that Succeeded this on the Company's and that during the Campaign whenever the Nabobs Rice has been taken from the Buzar People on the Nabobs Account at the Buzar price, who has always issued it to the Seapoys at 9 Measures, I am induced to mention this to your Honor &ca as Major Preston has taken a part of the Tondy Rice from the proprietors on the same terms, So that the Nabob make good the Loss that may Arise from the Cleaning of it, which had it been issued to the Seapoys on the Honble Compa. my's Account must have fallen on them

I have the Honor to be with the greatest Respect &ca

Letter to Fort William

We Observe in your Letter of the 17th October that you have incorporated the Detachment

7th Fort St Georges 30 December 1763.

Detachment of Military sent you on the Lord Clive & the Kings Ships with your own Troops, as you judge they are about the Number We have detained of the Recruits destined for your Settlement; We should have rested satisfied with this your Resolution if Our Occasions did not make it absolutely necessary to request all the Assistance of Infantry & Artillery You can possibly spare by the first Conveyances to enable us to reduce Madura now become of the utmost Consequence to Our Honble Masters affairs on this Coast, especially as the French may be expected here soon; and as it is very uncertain if Our Advices to Manilha by the Panther and Revenge will be in time to withdraw the Troops there this Season & even should they arrive by the Prince Ships We have great reason to fear they will be so much reduced as to afford Us little Assistance from Bombay We expect no a Reinforcement to Coast We apprehend from their having sent three Companys to your Settlement We shall be disappointed.

Assistance desired from thence.

In Order to relieve Colonel Monsons Regiment We have been Obliged to Strip Our Garrisons. We are forming large Magazines of Stores before Madura and hope to be ready by the middle of February to begin the Siege depending on the Assistance We have desired from Commodore Tinker & your Presidency which We hope can now be Spared Our Allies being so far reduced as to give you a prospect of a Speedy conclusion of the War.

Every Bullock of the Army that could be spared from the Draft & Carriage I sent to Trichinopoly immediately on my first March for the sake of getting rid of their drivers. Such of the Carriage Bullocks as the Nabob may not absolutely require for bringing Rice to the Army I have desired Mr Floyer to send directly to Chingleput all the Empty Gunner Barrells shall be sent from the Army to Trichinopoly as Opportunities offer.

I have received no Letter Gentlemen from the General that mentions any List of the Officers who have done Duty with the Seapoys. I received one from Major Campbell & have accordingly sent him a List, which he no doubt has forwarded to the General.

I have sent Letters to Pondicherry to meet Lieut. Maitland & Mr Daniell, whom I have not as yet heard from. I have likewise sent a Company of Seapoys to attend Mr Daniell and a Victualler & some Doolies for the Detachment which I have ordered Mr Maitland to join me with as soon as it possibly can.
