Hontble Sir & Sirs

In my Letter of the 16th I did me the Honor to acquaint you that I intended marching the Troops therein mentioned on the next day, which I did and are now arrived here having found the Roads very bad: should I not find any occasion for marching them further to the Southward in a day or two I shall put them on the same footing with the Troops of this Garrison, but shall be obliged to detain the Lascars, Bodys and Bullocks, till your further pleasures be known

I am informed the Travancore Rajah has a great many Troops assembled within his Walls, but don't find that they have made any further advances than what I have already acquainted your Honor &c. &c. I shall look upon myself on readiness to March left matters are settled between the Nabob and the Rajah which chiefly depends upon the Hontble Board

You must have been already acquainted with the situation of our Frontier Forts by Majors Campbell & Caillaud & Innes were to visit them — I am with respect

Mr Sumner

The Letters from Messrs Sumner and Swinton are both read

The Lord of Forest Hawke imported from Jamaica the 27th
in which we addressed Captain Hotham to request his carrying on
part of the Regiment and to take with him the Company's Pinder not
of the Navy — he promised to comply therewith, of which we by
Letter advised Captain Buckhouse, acknowledged as Commandant
by the Officers of the Regiment (all the under arrest) but not being
addressed to him with that Title, he returned it in a very rude
manner — on which mr Stevenson justlickly informed him of the
Affair and we desired Captain Hotham to acquaint him he was
ready to receive the men — Captain Hotham having said that
building a magazine for the Powder, would retard him some days, as
the Season was far advanced, we were unwilling to detain him
and have therefore only shipped off ninety Six Barrels, and 2 Carriage

The admiral Watson imported from the West
Coast the 4th Instant, bringing a Letter from that Presidency —
advising that they intended to send the Princess Augusta and
Syphenes to assist in carrying away the Troops — Hereon Captain
Buckhouse we were informed, declared as he had no orders he
could not send the Regiment away, unless in Consequence of
an application from the Company's agents; we therefore again
addressed him, and in answer received a very impolite Letter
from him but we heard rumored that no private pique, or Passion
should interfere with what we thought for the good of the Service, and
therefore still pressed him — He then positively declared he would
not embark unless money was procured for the Regiment: to remove
every obstacle we have raised (and advanced) 5000 Rix Dollars on the

The Principle Inquiries having a Survey on Leak in the
Prahsh Seas, which had during the Passage encreased, Captain
Baldwin judging it would be imprudent to proceed the Eastern
Passage without repairs, caused a doorway to be made by several
Europeans, who were all of opinion it would be preservative in the
Situation in which the Ships were; He therefore applyed to the
Dutch Government for leave to heave down at Amoost where all
their Vessells are repaired — He would have rejected but little hopes
as he knew where the Leak was, but his request was never the less
denyed — He then desired permission to heave down at Batavia
Island, and the use of Warehouses for his Cargo; but was equally
unsuccessfull — He therefore proposed to send in a few days for Chinese
Pilots and the Customs of Foreign Nations, pleaded in behalf
of Captain Baldwins application as there was only did still stronger,

Account of money taken up by Mr Lindam

St Kats. George y. January 1796.

I formerly sent you with, as the Dutch government had before refused to supply them with any to discharge these Bills I have been obliged to draw on your Honor for the same also on the President and Council of Batavia, sundry Bills of Exchange as you will observe by the accompanying Cash account. At the same time I have the Honor to enclose your Bills on the Paymaster of the Regiment for the Sums advanced on account of it, as he was to be accountable for any Loss that might occur thereby. The money first borrowed was to have been paid out of the Sums due the Company the Regiment might bring — on her arrival only one Chest was on board which I supplyed her; but Captain Baddeley thinking he should not be justifiable in giving it up, did not deliver it —

By the Cash account your Honor will perceive that a months pay has been issued to the Troops — the Distance they must have been in during a long Voyage and the want of Refreshment with arose the necessity of the same. Captain Shirts application for himself and the Company rendering I thought equally reasonable and therefore paid them Subsistance to the end of September — five months to the first of July —

If your Honor should think that a large Ballance appears in the Cash Account against me — Permit me to acquaint you that having had the Care of their Cash entrusted to me after making from Sales in Bills [illegible] remained in my Hands and that these sum were [illegible] of a Demand upon the Company on Account of the aforesaid Regiment — and not intended to realize a Profit to myself — I cannot help observing that [illegible] have the Honor to be

Yesterday I took post close to the Barriers of the Enemy Fortress of Tonadore and by Day light this morning had all our Field Pieces and the Marine Guns landed in three Divisions to Fire in Front and on both Flanks of their Gateway, each division supported by 500 of our Seapoys, and at 12 last night I detached 2 Guns 1000 Seapoys and 200 Black Horse, to another Barrier on the Seapoys side, as soon as we could see, We began to Fire from all the Artillery, at the same time Captain Monsis Battalion pushed on to the right, and Drewers attacked about 1000 of the Enemy who lay a post to the left, our Seapoys behaved so extreemly well, that they in an Instant drove the Enemy from all their posts, and pushed after them so close for 6 miles through the thickest Woods and strongest Barriers which could be made with thorns, until they entirely abandond the whole Country and Woods, which are now in our possession, the Place of residence of the Polygor is in the very heart of the Wood, and an exceeding fine Village it is - in his House which is large and handsome was found two Elephants and some rich Furniture, and in the Woods some Cattle, I have already got account of eight Guns being taken and I doubt not but more will be found in the Woods, there are many of the Enemy killed and

Proceedings at Nizam Alli's Camp and of their proceedings there, That the
greatest Obstacle to over getting the five Circars, seemed to be Hyder
Alley, who had received Sunnads for the Circars of Ellore & Mustaphanaga-

Jung of the Circar of Murtazanagar: But that he had been given
to understand that Nizam Alley was determined not to let them for
less than 20 Lacks of Rupees ——— as the Affairs are heave authorized
the Warning to make use as far as we think we ought to go — or
Pybus is desired to acquaint him that he is not to cede them on
any account, but that We hope he may still be able to obtain them
for less, and if he finds there is no probability of settling the Affairs
on those Terms, He is to take his leave; giving the Subah to understand
that the Circars will scarce be an advantageous to him in the Hands
of any others, and that if we were less scrupulous, we could easily
find means of getting Possession of them on more reasonable Terms;
But in case Nizam Alley should accept of our proposals, He is not
insist upon our being put in Possession of all the Forts in the Circar
of Mustaphanagar, and being at Liberty to get possession of such
others as we may think proper in the other Circars — as we cannot
otherwise preserve that Peace and Tranquility, which He is to
acquaint the Subah, is a principal motive for our desiring to

right, as he may think necessary. That the Nabob gives us the most convincing Proofs of his right to the Balaghaut Districts, and even of some Territory lately enclosed within the Walls as well as to the Tribute which he demanded, That however if the Rajah will comply with what he has promised and which will be explained to him by the Chief of Anjengo, and make a Treaty with the Nabob immediately on the Terms offered by his Vaqueel We will become Sureties for the due performance, and recall our People from those Districts; But on the other hand on his non compliance, We will no longer prevent the Nabobs executing on his just right, We will even support and assist him in obtaining Satisfaction by force, tho' much against our Inclination, which is always to contribute the Peace of this Country, and the happiness of every established Government in it

Having perused your Letter of the 12th to the President we are sorry to observe that the Reduction of Marawar Polygars is more difficult than was apprehended. saved the Houses from being destroyed — The Polygars and Inhabitants saved all the Goods before their valuable effects nothing being found but some grain, Cattle and trifling Furniture — The Villages are also all saved from Plundering so that the Inhabitants may return without being great sufferers —

The Town is about half as big again as Caddalore regular Streets of 50 yards wide good Tyled Houses, fine Tanks and Gardens and in short everything appears as it had been a happy flourishing place — The Woods are so extensive and the Country so very little known that I think it absolutely necessary that the Army should at least remain here Twenty Days until the works which the Enemy made are pulled down, the roads widened and very please properly — cleared, for Thousands of people may lay Lurking in the Woods without our knowledge and even after this I really think a strong Detachment ought to be left here until the Inhabitants of those Polygars are known, besides I immagine the Merchants and Inhabitants will sooner return to their Houses if they find the place so strongly Garrisond that there will be no danger of its being surprized

The Nabob has desired that Palamcotah near Chellengherry should be attacked which shall do as soon as I think I can with safety move from hence, while I remain here every working Person shall be employed in making the place more secure — when I am informed by good Intelligence that the Enemy had been for a long time work strengthening all their Passes, but that next to Vertachelum and Sangaver I intended having all my Stores and heavy Baggage in Amarlour with making a Forced march of 90 Miles which is the distance to the Sangaver Passes on the night with only a Couple Field pieces to endeavour to surprize that Passes, but as I was afraid they might in my absence if I did not

My Honourable have this moment brought me In=
telligence that the Wannarpollam, Amaloor & Sarvor Polygars
with their Effects and followers are crossed the Coleroon and gone
into one of the Sanjeer Forts about 36 Miles from hence, this will
make it the more necessary for the Army to be Cantoned here, unless
are pleased to think it proper to march against them or oblige the
King of Sanjeer to deliver them up, for should we march to Palam=
=cotah while they are there Summagore they would attempt the
recovery of this or Arnaloore against as Palamcotah is 40 miles from
hence on a different road —

As We do not imagine that Palamcotah will make an
Insurrection, Major Campbell is to be ordered to send a proper person
of the Nabobs with the Nabobs Letter to demand the place, and to
promise on Case of Compliance that the Woman who has refuged
herself with her Family shall be taken care of, But that if they should
refuse to deliver it up; He is to take the necessary measures for reduc
it on his way to Cuddalore — The Nabob now sends the said Letter to
the Woman to be forwarded by the President to major Campbell promising
her with her Family Cast and Protection if the place is delivered up
without obliging us to proceed to Extremities; as she is not in that
Case

I arrived yesterday with the Companys and
11 Companys of Sepoys from Warriampatnam on my Way
to Palamcottah. Andrews informed this Day by the Ma-
ster, that a Person has been sent to Seringapatam from the Woman
there, for a convoy to let Syd Mahomed come with some of the
Nabobs Sepoys take Refreshment at Fort St. David
this Evening for what Purpose, as that I fancy will
be as good as 500 more. I am more encumbered at the Bar-
=rier of the Woods, on the Cuddalore Road, where I hope
in a Day or two, to receive your Orders concerning the
Disposition of the Army. I have left with the Colonel
Hart & Fitzgerald for the Security of the Warriampatnam
under Arrabee Governor, 6 of the Nabobs Peons
2 Companys of Sepoys 15 Companys of Sepoys
and 11 Companys of the Nabobs with 200 Bandeerees
which I think fully sufficient, as Days Refreshment
with me would be very inconvenient, as I have
received an Express to hasten
Parole to prevent Deception, which
are come to receive the Bandeerees
I have left the Peons etc as under
different Parts of the Country
to receive Orders and

Letter from Mess[rs] John Lewen Smith and

To the Honble Robert Palk Esq[r]
President & Governor &[c] Council
of Fort St George.

Honble Sir and Sirs

Letter from Mess[rs] Smith & Brooke

It is with great Reluctance we find ourselves
obliged to trouble your Honor &[c] with an Address so
disagreable a Subject as the Defalcations between Mr
Drake late Deputy Governor of Manila & his Com-
ad, but having been informed by Mr Fowerdan the
Secretary since his Arrival at Madras that he never
received from Mr Drake the Papers that passed be-
tween him & us relating to several Transactions at
Manila which we disapproved of & descended to, and
consequently that they do not appear in our Consultat-
ions, We therefore think it incumbent on us for our own
Justification

Cuddalore
February 1765.

Referred to the Committee appointed to examine the Manilla Papers &c.

Ordered that the Representation of the above Letter & Book charged against the Deputies Mr Brooke & Mr Stracey Stracey & Brooke concerning the Appointment of the Marine Officers be laid before the Committee appointed to examine the Manilla Papers & Accounts, who are to report the same. And that the said Mr Stracey & Brooke cannot but observe that two of Mr Stracey & Brooke's Members of the Council at Moorshedabad, if they have been desirous of having their Dispatches entered and Vindications of their own Conduct, always their Duty to have seen it done.

Orders relating to the Establishment of the Artillery

The Hon'ble the Court of Directors having ordered that the Establishment of their Artillery consist of three Companies, each Company to consist of a Captain, 2 Lieutenants & 2 Lieutenant Fire Works which General Lawrence represents as insufficient

139 Sept. 1st George 20th February 1782

Officers on the Kings Service there are always seven Officers to each Company the Necessity of sending small Detachments on Command is not by any means so frequent as in this Country — It is however for the present agreed only, except the Companys Establishment by one Captain Lieutenant who was appointed before the Arrival of their Orders and to compleat the Corps to 3 Captains, 6 Lieutenants & six Lieutenant Fireworkers — It is therefore ordered that Lieutenants Commissions be forwarded for Messrs Samuel Kennedy & Augustus De Morgave to take Rank from the time this new Establishment was made, & that Lieutenant Fireworkers Commissions be given to Mr Samuel Roberts, Mr Donald Mackay and General Lawrence is desired to recommend another Person to compleat the Establishment — It having also been represented to us by Lieutenant Fireworkers find it very difficult to live upon their Subsistance, It is agreed that they be allowed the same as the Ensigns as their Rank is the same & their Duty more laborious, and that it will be an Encouragement to them to engage the more readily in that Corps which is more laborious than in the Infantry — And it is Ordered that this additional Allowance do commence from the first of March next

Messrs Kennedy & De Morgave appointed Lieutenants —

Messrs Roberts & Donald Mackay appointed Lieut. Fireworkers —

Lieut. Fireworkers allowed the same Pay as Ensigns

The President acquaints the Board that all the Prisoners Deserters from Us and from Madras except 7 are arrived on the Admiral Watson & had promised to behave well & had entered into Agreement to serve the Company for 7 Years. It is therefore ordered that they be sent to Bengal with the Bombay Detachment

considerable in that part of the Decan, we flatter
Ourselves, and where they have always found the least oppose-
tion.

Thus far it is evidently our Interest, & we mean to
consider whether the Assistance we can prudently spare may
answer the Purpose —

In this View we expect more from our Credit and
Consequence in the Decan, than from the Force we can
or judge necessary to send there —

Seetaramraze the Collygar of Chucacole is
almost the only person likely to give Trouble, tho it is to be
presumed, that whenever our Subpoetang Nizam Alys
Defeatey is made known, Seetaramraze will submit
to reasonable Terms, especially if He is assured of con-
tinuing on that Circar at an easy Rent —

When our Force on the Coast is more collected
We flatter ourselves nothing can easily disturb our
Tranquility, all We have to fear, is the Junction of an
of the Armies in the Neighborhood, the Morattas, Si
ram Alley & Hyder manguee, undertaking Demands or
the Nabob, which will scarce happen while we have
it in our power to protect him & his Government, unless
they could be joined by some other European Power,
we could prevent such an Alliance but
none we presume will come into such an Alliance as well
the French, and they are restrained by a Treaty as well
by the Situation of their own Affairs: besides the Gover-
nment at Bengal is unwilling to believe that the Dis-
putes between the Nabob & the Morattas Rajas may
be accommodated, which will give Us and Them
Leisure to recruit & by withdrawing most of the European Force from
Troops of both Companies

Fort William

Honble Sir & Sirs

Letter to Fort William advising of the Detachment sent on the Illocas.

Agreable to what we wrote you under Date the 18th January, the Bombay Detachment together with a part of our own Troops making in all 131 Men as by the enclosed Return, now proceed to your Honor &c. on the Ship Illocas — The Captain is to be paid for their Diet and Board at the usual Rate from this Day, and has received from Us on that Account Pagodas 300, for which He is to be debited your Presidency & for which He is to account with you at the Rate of 350 Rupees p. Two Pagodas

The Detachment has been advanced their Subsistance for this Month —

Our Situation here will not permit Us to send you a larger Reinforcement; the Travancore Army arrived and their Numbers encreased from 10000 to 12000 Men. And We are not entirely free of Apprehensions from Hyder Naiks, who we hope soon have settled with the Mysore with regard to Gooty, their Presence, if they should be employed to receive them, and Mysore they are also on our Neighborhood ready to join either Party. We have been strongly solicited from Hyder both by their Ambassadors & Hyderamaguer But we shall endeavor to keep on an equal Engagements, & shall have consulted Safety of Madras even the Continuance of Arrangements in the Carnatic Dominions —

The Secretary lays before the Board a Letter from Mr Ross. Agent for the Owners of the Illocos setting forth, that He had not a List of the People evacuated on board that Ship, but that He hopes the Muster Rolls delivered in by Mr Nodes will be sufficient to enable the Board to settle the Accounts of victualling, which He requests may be done as soon as possible —

Observation of the Board on the Accounts

The Board observing by the Accounts of evacuating on board the Illocos delivered in by Mr Ross that there were from the 10th to the 13th April 608 Men evacuated & charged to the Company as Passengers of the Ships Company and other Passengers who were found two Rupees p Day with their Servants, and as there appears many other Charges in the said Accounts, Mr Ross is acquainted that they cannot be settled, till they are properly examined and stated.

The Muster Roll produced by Mr Nodes, which Mr Ross has referred to, does not clear up these Difficulties, and We conceive that Mr Ross in settling the Accounts of victualling with the Master must have been furnished with a List of the People's Names —

Ref to Melabar Papers to be found at Magulpatam as Rolls there recorded.

He having been necessary at Magulpatam to survey the Harbour to ascertain there at 350 fm from Low Water Mark to the Melabars at 375. It is Ordered that he be allowed Two Hundred Pagodas per Month at the Rate of 350 —

the Government from them, that they could not be under any obligations of Fidelity & Controul from the Officers who should be left with the Command of His Majesty's Troops, who would be furnished with his Orders to yield them due Obedience, which Orders were really given by them or such Orders were really given by them or not does not appear: but supposing they were, many Instances might be produced to prove that little Regard was paid to them. And We are sorry to observe here that Captain Preston of His Majesty's Ship Salisbury with some, by the undermentioned Vote of one of this Letters in the Correspondence he carried on with the Governor & Council, to leave at times forgot the fundamental Caution in which both He and they were deficient.

5th We find in the Month of November 1762 an Order is passed for advancing to the Sepoys and Lascars who went from Fort St George on the Expedition Monthly Pay in Consideration of their leaving their Families the money advanced them before they embarked which was to be repaid out of their Prize Money A Months Pay was accordingly advanced them, but We do not find any Sepoys on that Account.

8 Immediately after the Arrival 8th
of the Revenge at Manila, on March 1764
with a Confirmation of the Peace, Measures
were taken for embarking the Troops, a
Return of which being laid before the Board,
It was found there were not Vessels sufficient for accommodating the whole. The Gover-

Troops the Revenge to be used in Part of the 79
Regiment then under his Command to keep
on Board such Troops as must of Necessity
remain, to be Relieved by Vessels expected

on the Conduct of the Deputy Governor
Mr. Brooke with a proper Spirit declared the
Truth of them and promised to apply for

refused the proposal Lieut. Parker
on finding, as I have alledged that the
Government had in Consequence of the Letter
persons Servants or their Characters objected to
treat with them. He embarked immediately
on board the Admiral Peacock, and, as the
Particulars of the several Charges exhibited
against them are inserted in the Consultation
Minutes, and the Conclusion Mr. Brooke will
as he has promised deliver in an Answer
to them on his Arrival, the Governor will
not be expected that He should make any
Observations on them here. The remaining
Members of Council on Mr. Brookes Proceedings addressed a Letter to Mr. Alexander
Dalrymple then at Manilla and a Memorial
Servant to them requesting of them to take
upon them the Station of Deputy Governor
which He found he accepted, but previous
Mr. Brooke embarked, The Government
seems to have been vested by Captain Back

It is necessary therefore that this Money should be accounted for by Captain Desplaces on his Arrival here. 37. We have said in the preceeding Paragraph that according to the accompanying General Statement the Ballance shipped on board the Revenge Ed. Edmund Peacock was £108544.0.3 But of the Sum of £40000 which (as We have taken Notice of in our first Remark under this Head) is brought to Account as a Mistake in not having credited Cash for so much advanced the Paymaster at Cuddalore, is proved to have never Change and from the best Judgement that can be formed as well from the Cash &c Accounts as those of the Paymaster of Cuddalore, it seems to admit of no Doubt.

37. That Sum must certainly be accountable to the Company for that Sum.

38. The Sum of £1700 taken Notice 38th Ordered that of by the Committee of Accounts as Ad- the Sum of £1700 Dollars vanced out of Cash to Captain Lawrence mentioned in Ballance not for the Use of the Company of the Troops be demanded Artillery We have reason to believe from Mr Brahes Attorney from whom Cash received that Gentleman to Buy the Horses for the Regiment of Artillery under his Command and that he considered it as private

Letter from Mr Pitt on the same Subject

As I have Reasons to believe Mr Callard has addressed your Board in regard to a Dispute that has arose between him & Captain Orton about conferring the Sepoy Jackets, without acquainting me further about it than by a Note he sent me Yesterday, Copy of which I transcribed you herewith with the Answer, I thought the Stile & Authority he pretends to thereon Independent of me as Chief and which he has sometimes carried so far as to refuse sending me several of the People employed under him as Paymaster's required, which is all I have to do in the Affair; for I really know nothing of it, till I received the abovementioned Note, & that Captain Orton afterwards applied to me on it, & delivered me the accompanying Letter which he desired me to lay before you, being therefore dubious who was right, I was unwilling to intermeddle in it, especially by as I imagined Mr Callard had already applied to your Board about it; but being uncertain whether Mr Callard may not have represented me as a Party in the Dispute, I thought it might be necessary to mention it to you; This Affair might have been amicably ended had he taken more mild Methods, but I cannot help saying this Gentleman's Behaviour on many Occasions has been both to me & others very extraordinary, & unbecoming & has often made me very uneasy both by his Notes & otherwise, forever supposing the Jackets are independent of me, tho' Tobacco, there is some difference between my Station & Captain Orton's yet surely, for the Stile and Peremptory Terms it is couched in is not to [illegible] Dirty

to be confined, exceeded the Bounds of his Command & violated the Regulations which have been long established —

If Lieutenant Marchand could not furnish himself with a Return of the Seapoys at Cuddalore, without the assistance of the Vacquils, Complaint should have been made to the Chief, whose Duty it was to enquire into the Reason —

The Officer who has any Seapoys under his Command ought to have constantly by him a Roll of each Company, & to be more exact, He ought as soon as possible to get a List of their Names in English, as well as to have a Description of their Persons, Age &c. & whenever any Man dies, deserts, is detached, or through Sickness become unable to do his Duty, The Subadar, Jemidars, Havildars & Naigs, or in short any Officer to whom must be acquainted with such Death, Desertion or Sickness must report it to the Officer, who immediately remarks it on his Roll against his Name, & by that Means has it in his Power at any time to make out a perfect Return —

The Vacquil to report all Absentees immediately to the Person who pays the Seapoys, & by this Means the Accounts are kept clear of Abuses, which must always be found out on a Comparison of the Pay Rolls & Returns —

But if the Officer is to depend solely on the Vacquils for making his Returns & the Paymaster also to depend on his Reports in adjusting the Pay Rolls, There can be no check, Abuses will immediately follow, which the Establishment of Vacquils under the Paymaster was intended to prevent —

It is therefore resolved that a Copy of the above Explanation of the Orders regarding Vacquils be transmitted to Cuddalore & to the out Garrisons & that Captain Clark be

Letter from Mr Gilliland on error to the Chiefs

Fort St George 30th March 1765

To John Lawrence Smith Esqr
Chief & Council of Cuddalore

Gentlemen

I have received your Extraordinary Letter of yesterday & am sorry to find by the Contents of it, a Member of your Board & Governor of the Settlement should imagine you are entitled to write me a joint Letter without having determined upon it at a Board. I am ready always to find fault with the Company's Servants when in fault, & to commend them when deserving, & I assure you that on future I will receive no such Letters. Had it been determined at the Board for me to compell the Pay Rolls to be drawn from thence an Account of the Stoppages, that the same might be paid to the Military Agent, I could have had no Objection to sign the General Letter, but in Council this was otherwise agreed on, & that the Pay Rolls should be examined by the Board, as the Lord Pd and Council directed. As this is a Transaction that relates to what is passed & it was determined the last Time We met for it to be done jointly, I still insist on not signing to it being done by one.

The Accounts are now regular & conformable to the Method ordered when the Troops were last in London: & if they are not agreeable to any Orders lately received from Madras, 'tis you are to blame & not me, for concealing such Orders. How you can take upon you to do that, remains to be determined. If I had known it otherwise, it would have been as easy to have carried the Charge to one Account as the other, but to do it now must make the whole Books of the Settlement be wrote over again as the Accounts are entered.

Mr Callands Behaviour disapproved

We are much displeased at Mr Callands refusing to make out the Account of Stoppages, as directed by Us, as it was certainly his particular Province as Paymaster, this Letter addressed to the Chief & Mr Dawes & We cannot but observe to be wrote in very extraordinary & unbecoming Stile for which it is agreed that he be reprimanded & requested that if such Behaviour should again happen We may suffer more severely — He is mistaken in saying that the Accounts were not forwarded in the Method used when the Troops were in Cantonments & if he had perused the General Books, he would have found the Stoppages of Officers Sheets &c. were carried to the Abstract

Hon.ble Sir & Sirs

We have received your Letters of the 16 & 19 th of

February. We sincerely congratulate You on the Success of

your Army, & are happy to find there is no ground to Fear

just of putting a Period to the War.

In the Illocos, which sailed from hence the

22 d February with Troops for your Presidency, there were

some Stores, which came from Manila & which could

not conveniently get at for Fear of obtaining Intelligence

We therefore request of your Honor &c.a to transmit us an

exact List of such as may be found on Board, specifying their

Qualities & the State they are in, that We may be able to give

the Expedition to Manila Credit for their Armament.

We have been obliged to assemble Our Troops

at Arcott, Nizamanee Valley having a Force collected near the

Passes leading into the Carnatic and demanded Tribute

from the Nabob from which the Worth of the Stores

as remains over Troops are collected. In the mean time

We have at Our Disposal a Part of the Detachment

other Side of the Hills, than a Determination of suffering any one Pass, but appears as if he was transacting with some Polygars to favour his Designs. If I get Confirmation of this being still at a Distance from Damalcherry Pass I will detach a Party that Way, and will encamp as I mentioned before on the opposite Side of Arcott River ready to support any of the Detachments I make. But I must beg leave to observe that the Fear the Country People were in had oblig'd Meer Saut to detach all the Nabobs Troops to different Places, otherwise the Inhabitants would not have remained to cut their Grain, of which there is much ready to cut, And to Order those People back now, would be fresh Alarm. This only leaves me the Company's Troops to depend upon, and will prevent me from making such Detachments as I otherwise might, with a greater Safety do, for the whole will only be 2½ Companies ——

Therefore humbly beg leave to recommend to raise one other Battalion of Sepoys either in our Service or in the Nabobs, if it is not convenient to order some from Tanjore Country &c: There are many Likely Fellows here ready to enlist if you are pleased to give your Consent to this, I think Arms might be got out of the Nabobs Stores here. I find Meer Saut has in Consequence of the Nabobs Orders, laid in great Quantities of all Kind of Provisions in all his Forts, and as Numbers of Inhabitants are crowding in every Day, I do not think it would be imprudent to withdraw some of the Sepoys from those Forts last as Defences are much wanted, if 100 could be spared from Chittore to be divided amongst them, they would be very serviceable, if more 2 Companies from Trichinopoly &c: there are many likely Fellows here ready

In the Ballagat Country there are 10,000 Horse arrived, who gave out they intend to take the Road to Moogul Coonary Pass which belongs to the Bungany Polygars to the Southward of Santgur.

Sir

We have received your Letter of the 9th Inst

We are still of the Opinion that Nizam Alley would not venture within the Bar with his whole Body, as he has already detached Eighteen Hundred strong from that You yourself should follow with the rest of the Army in Order to prevent Nizam Alley from entering the Damalcherry Pass. We consent to your pursuing the Plan you have laid down & recommended in

Indeed it is our Opinion that the readiest Method of finishing Nizam Alleys Demands would be his coming into the Carnatic with his whole force, because we think for the immediate Effect of this Corps Joining Hyder Ally it must be the Consequence But Hostilities would not justify an attempt to send in some of his Out Posts to Intercept and lay waste. If by this Means intended the Peace to Continue subsisting between the Nabob & Hyder Ally then You have laid down may prevent this, at the same time the recommend you pay every Attention to gaining Intelligence from the Enemy & to take Measures to discover if it would be necessary to keep Effective Detachment at or to the Pass from Ploychery

We desire You will forward Instructions to Colonel Kelly to march without Delay with the Detachment under his Command

I have not got a single Man of the Nabob's Troops yet, and I am told all the Polygars are not ready to join Rajas Alley as the Nabob

desires more Sepoys

You will pardon me Honble Sirs for representing that more Troops & especially Sepoys from the Southward for the Security of the Country will be absolutely necessary, for if those Horse scatter about, they will do much mischief as there is not in any Garrison Men enough to make a Sally of twenty Sepoys

Sir

I have received your Letter of Yesterday with the Intelligence inclosed.

The Nabob assures me that He has ordered three Battalions of Sepoys from the Southward & 3000 Horse to join You, & as the Bobbegurs must already be with You, & as the Bobbegurs, He is not at all apprehensive of their joining Nagamahly therefore Dhulcomah He supposes has Ordered from their Fears of the Subahs Horse plundering His own Territories

Against such a Numerous Army it will be impossible to secure every Country. The Nabob having already withdrawn all his Horse & Sepoys from Madura & Tinnevelly & Major Donald Campbell being ordered to reply Major Wood with Sepoys

Letter to Colonel Campbell

We have received your 2d Letter of the 12th Instt

Wherein you Inform that declining an Engagement against these Country People has at all Times an ill favourable Appearance & encourages them to be more persevering We therefore think you should even refuse coming to Action with Nizam Ally's Forces, provided you can do it on an inclosed Country or strong Situation where the Enemies numerous Body of Horse may not much avail them & not otherwise for in Case Nizam Ally's Army does not advance & give you an Opportunity with advantage of Ground to come to a General Action Would have you wait to observe the Junction of the two Grenadier Companies & Troops of Cavalry from Pulicat which we expect are now near at hand. When these are joined & you have drawn what Reinforcements you judge may be spared from the Garrison of Vellore Fort St George & Chingleput as we approve of the Disposition you have made We would them recommend to You to make such Movements as would shew your Determination to act offensively & to take the first Opportunity to bring on an Engagement, in such a Manner as you judge most prudent & expeditious for terminating the present Troubles

Recommends to him to engage them

We have already provided the Nabob with most pressing Letters to Order all the Horse & Sepoys that can be spared from every Part of the Province

You are also to hasten to the Army, the Nabobs two Companies of Topasses, & all his Horse & Infantry ordered by him to collect at Arcott at the same Time Your Lade Directors to send the European Cavalry and Grenadiers, & We depend on your taking the most prudent & effectual Measures for maintaining Tranquility in the Countries committed to your Charge —

as soon as He should be prepared, who contrary to my Ex

In Conformity with the above mentioned Address, I waited upon the Company's Treasurer for the Payment of the Troops Depending Arrears, to the amount of at least one months Pay

of the different Regiments given to the Forces here and the Peons

Tannadars, being near forty Thousand Rupees

with some Difficulty obtained seven Lacks in Bills

Pattidays a responsible Banyan in the Pettah for 100000

Madras Pagodas payable the 30 Instant, which are

stated at 3 1/2 Rupees p Pagoda the present Rate of Ex-

change, and which is conformable to the Rate observed

of bringing Rupees to account in the Books here with

amount only to Rupees 3,75,000 — The Banyan would

not accept a Bill payable in Rupees & Hafiz Amir Ally

pleaded the great Loss he should sustain by reckoning

the Pagoda at three Rupees and three Quarters, which

he estimated at 4 Rs He talked of addressing a Letter to the

President on this Subject, but I gave him to understand

that he could only have Credit given him for this Bill

at the Company's Exchange, and that in future I should

expect his Bills to be made payable in Rupees instead

of Pagodas, I have recommended to Captain Madge

in my Instructions, Copy of which comes enclosed, all

possible Economy during this Expedition consistent

with the good of the Service, and I am in hopes every

unnecessary Expence will be avoided — Hafiz Amir Ally

acquainted me that his Intentions were first to proceed to

Sellapettee a Fort belonging to the Commandar of Bara-

Lack, as he I have before advised you had demanded

at on Hafsain Alby's Approach. But he has left some Troops
in it & it seems to be Hafsain Alby's Intentions to take Poss-
ion of the Fort and Country, if the Zemindar will not
settle with him to his Satisfaction. Captain Madge's Orders
for assisting him to reduce the Country to his Obedience,
are drawn out conformably to the Instructions Your
Honor &c. were pleased to give me, who will be left to
determine whether the Service he may propose to em-
ploy him on can be prudently attempted or not with the
Force he will have under his Command.

The Military have, during, for want of proper
Barracks, quartered in Houses dispersed in different
Parts of the Town, by which means it is impossible to pre-
serve due Order and Regularity among them. I take
the Liberty of mentioning at the present Occasion, now
the Garrison is so much reduced, as the most proper for
reconstructing them, as the Materials of the old Houses
which have been employed for their Accommodation
might be made Use of for that Purpose. Proper Lodgings
for Officers contiguous to the Barracks might at the
same Time be erected, which are much wanted. And I
must here beg your Excuse for once more taking the
Liberty of recommending to You the necessary Condition
of the Works round this Place, and its very defenceless
State. And as ..... the French may now be soon expected
to settle at Yanaon, where it is highly probable they
will have considerable Military Force so soon as the
Situation of their Affairs will admit, I make no doubt
the Necessity of putting their Settlement in a more adapted
able Condition will appear sufficiently evident to your
