1780 Fort S. George — February 1799

To Josiah Webbe Esqr

&c &c &c

From the Officer commanding in the Baramahal — States that the conduct of the Aumildar of Malpaddy had been such as to render it necessary for him to use compulsive measures in laying the assessments in his District — Encloses a letter from his Assistant Collector on the subject.

Sir

The demands of the Sirkar requiring that all the districts in the Baramahl should be duly assessed for the different articles of supply I have — included that of Malpaddy which belongs to the Nabob, the Aumildar having refused to furnish his quota I was obliged to obtain it by force and am led to suppose that he will make a Complaint to his Master which may be finally laid before the Right Honorable the Governor General in Council I have therefore to request that you will communicate to his Lordship the cause that has actuated me to adopt this measure, and has entirely proceeded from the non compliance of the Aumildar to the necessary assessment levied on his District —

Sir

I beg leave to state to you that my endeavours to obtain supplies of any kind, or assistance of any sort from the Manager of the Mallpaddy Sagbire on account of the army or for the publice service have proved entirely fruitless — I have to add that very great inconvenience has for a long time been experienced by merchants and others belonging to the Baramahl from his vexatious demands of Road duties also that he has refused to admit into his district servants sent thither by the Sair former to collect the Customs in which he has no right to interfere —

The Earl of Mornington

My Dear Lord

From Do Do Requests that the officers belonging to the Kings Regiments which have been reduced who shall remain in the Country may be — Permitted to serve with the Malay Corps on Ceylon — States different arrangements he proposes to make with regard to this Corps —

It has just occurred to me that since the late Reduction of several of his Majestys Regiments in India many subaltern Officers must necessarily remain without Situations. If it should therefore be your Pleasure to give over the Malay Corps — entirely to this Government it may be possible to place several Gentlemen in it who would — otherwise be obliged to return to Europe on Half Pay That Body is so well commanded by Lieut. Whittle of the Madras Establishment, that I hope He may be allowed to remain with me as well as Lieutenant Hazard the Adjutant —

The other Officers I may procure from the drafted Kings Regiments without calling on those of the Honorable Company's Establishments whose Services are necessary elsewhere and whose Situations would not be improved by the proposed Arrangement

The Malays at present receive Dutch Pay and European allowances when on Service —

J.

796 Fort St George — February 1799

10

I propose to place them in both Points on the same
Footing with Seapoys I do not indeed suppose that
this Reduction of their casual will at all compensate
the Increase of their regular Expence, but the Pay
is at present too small and the just Increase of
it will easily persuade a great number of free —
malays and Deserters who are now leading a wander-
ing Life in the Country to the Terror and Damage
of the Inhabitants to enlist themselves under
Military Discipline and I hope that with those
whom your Lordship will send me, I shall be able
to raise their numbers to at least Eight Hundred
& not more —

Sir

Fort St. George

I have the honor to acknowledge the receipt
of your letter of the 24th ultimo —

You will have been apprized I presume
ere this by Lord Clive of the new arrangement here,
which precludes my proceeding with his Hyghness the
Nizam's Contingent of Troops - a Change of Measures — which

11

which independant of other Considerations I cannot but
lament as depriving me not only of the honor of your
Correspondence, but of the prospect also which I had for
some time past indulged of a Personal introduction
to you —

Upon Colonel Roberts's March from
hence I directed him to advise you frequently of his
Progress, and to transmit to you whatever accounts
relative to the Troops under his Command he might
judge necessary to your Information — My Instructions
to Captain White (the Officer who attends his Highness's
Contingent on my part) were to transmit to you
as soon as possible authentic and particular Information
on all the points touched upon in your letter,
and to address you occasionally hereafter respecting
the Contingent at large —

I will not fear however be in the
power of that Gentleman to transmit you the required
information respecting the Sirdars of the State, serving
with the Contingent Force, before it reaches the Kistnah,
as I do not expect that the quota of Cavalry (which is
fixed at ten thousand) will by any means be complete
before

Fort St George — February 1799

11 before them —

The same observation will apply in some degree to the Subject of Banyarris, on which I cannot as yet venture to speak with that implicit confidence I could wish, and you may require — I have the pleasure however to inform you that I have already entered into written Engagements with some Head Banyarah for the Service of Fifteen thousand Bullocks, laden with Grain, for the exclusive use of the Company's Troops, as long as they may be required; and that I am at this moment engaged in a Negociation for Eight Thousand more so that I hope to be able to advise you shortly of twenty five thousand at least of these useful Cattle laden with Grain, being at your entire disposal, by the time the Contingent joins you, or at all events very soon after, near Fifteen Thousand of them being already on their way to Vellore which they will probably reach as soon if not sooner than Meer Allum and Colonel Roberts —

Exclusive of the above number the Minister reckons upon Twenty Eight Thousand for the particular supply of Meer Allum's Bazar with Provisions

Fort St. George — February 1799

11

Provisions. and according to the detailed account sent
to me by the Kurrorah of Hydrabad. part of the above
Number are at this moment in Meer alliums Camp

Districts so as to join him on the Route to Kurpah —

I have the honor to transmit you a Register of Bills drawn this day by me, upon the Right Honorable the Governor General in Council, likewise a Register of Bills drawn upon the Resident at Benares —

Some doubts having arisen in my mind regarding the forms of Bills prescribed by your letter of the 7th Ultimo I beg leave to put the following queries, to which I request you will favor me with your answer —

Whether the numbers of Bills drawn upon the Governor General in Council and the Resident at Benares, should run in succession, or be numbered distinctly ?

Whether Bills drawn upon the Governor General in Council, and the Resident at Benares should be included in the same Register or registered separately ?

I

If the Weekly Register is to be

Sir

Lieutenant Macgregor Gram agent to the 3d Regiment Native Cavalry, is under considerable difficulty about a number of extra Bullocks which were hired by my Orders - reported by me to the Military Board - and explained to Government to Satisfaction - The object of my report and explanation was to exonerate the Gram Agents of the 19th Dragoons and 3d Native Cavalry - Lieutenant Mc Gregor wrote to the — Military Board reporting also his extra Bullocks and asking the Orders of the Board how to dispose of them - His answer was that as I had ordered them, he must take my directions as to the disposal - He thus waited for orders which I was not empowered to give - and about a Month after he received orders from Lieut. Colonel Orr to discharge them - This period does not appear to me, I must confess, to be fairly Chargeable to Lieutenant Macgregor, for I had reported to the Board, and he had — asked the Board what he was to do - from which I should have thought it rested with the Board to order, especially as

as I observed to the Board that upon the arrival of these Regiments at their Stations these extra Bullocks might be made over to such Department or to be otherwise disposed of as the Board judged fit —

The Subject generally was so fully and clearly explained for His Lordship's ultimate decision, that I readily abide by the determination that has passed —

There is however one point to which I beg, through the medium of your Office once more to draw the attention of Government a liberty which in justice to the estate I assume from an apprehension that I have not been so fortunate as to make myself clearly understood that is a retrenchment of Pagodas 485.. 31.. 71 on account of a deficiency of 7 Candy 201 Measure 7 Seer of Paddy at Mootapilly, and 8. 33 Measure 9 Seer at Cottapatam arising not from any neglect on the part of the Storekeeper or from any cause which he could at the time have obviated, but from an actual difference of measurement between the parahs sent by Mr Soriano, and by which the paddy was received at those places, and the Company's pucka Seer by which the same paddy was served out from the stores to the Troops &c at a fixed price —

After requesting you to Submit this point for the reconsideration of Government with such observations from yourself, drawn from the papers already before you as you think may tend to elucidate the Subject, I shall only observe as a justification of my conduct in thus soliciting the indulgence of the Board that I ground my

From Bombay enclosing Copy of a letter from the Military Board at that Presidency and of a Minute of the Commandant of Artillery on the subject of making up a sufficient Number of Gun Carriages - at the recommendation of the Commander in Chief they propose immediately to Authorize the making up the Carriages for the field train mentioned in the Minute referred to - In order that this work may be expeditiously performed the Military Board have been Authorized to entertain such a Number of extra Artificers as they may judge Necessary -

My Lord.

The Military Board at this Presidency have lately addressed us on the subject of completing this Garrison with a sufficient number of Gun Carriages in the manner detailed in the accompanying Copy of their Letter of the 21st Instant & of the Commandant of Artillery's minute therein referred to, but as the extent of that proposal will greatly exceed the present pecuniary resources at our Command, it becomes — expedient to submit the Subject to your Lordship's previous consideration, at the same time that the posture of Public affairs has induced us at the recommendation of the Commander in Chief, to — authorize the making up of Carriages for the — field train mentioned in the Minute in question, under the Superintending therein suggested, beginning with those for the six pounders, as likely to be first

first wanted under the present Circumstances, and that this work may be performed with expedition the Commissary of Stores is permitted to hire such a number of artificers as the Military Board may judge necessary to be employed in addition to his fixed establishment in assisting to finish these Carriages in the Arsenal —

1st We are fully sensible that the accompanying Copy of a Minute by the Commandant of Artillery there is matter of much importance for the consideration of Government, and it becomes — consequently our duty strenuously to recommend, as expeditious a compliance as the State of Public finance

Minute by the Commandant of Artillery

In a minute of mine dated the 2d
3d April 1797 I stated the number of Gun Carriages
of different Calibres, amounting to two hundred and
ninety seven, that would be required for the Garrisons
of Bombay - Tannah and Cannanore. after the
existing Contract was complyed with agreeable to the
Survey

849 Fort St. George 12th February 1799

Surveys and reports before the Board, and the Commissary was directed to make up a Muster Carriage of each Calibre, from a Six Pounder to a thirty two Pounder conformably with a Plan, I had before recommended, all the Garrison Carriages should in future be made, and in which opinion the Board fully Coincided from the reasons I therein set forth "Viz." as being infinitely Superior to those in "present use both as to Strength durability, simplicity "in the construction less liable to be dismounted by an "Enemy from their being less exposed, and not one half the "expence" —

That contract being now completed I conceive it my indispensible duty, to recommend to this Board the very urgent necessity of submitting to Government, a new Contract being immediately entered into for two hundred and thirty Garrison Carriages, only leaving out the Garrisons of Sannah and Cannanore, which may hereafter be taken into Consideration at a period possibly more Convenient to Government than the present —

The following Statement shews the number and nature of Carriages required, upon the most moderate Calculations to complete this Garrison, —

allowing

Fort St. George 15th February 1799

allowing one Spare for every Ten —

Viz.t

8 ------ 32 Pounders
66 ------ 24 Do.
73 ------ 18 Do.
30 ------ 12 Do.
25 ------ 9 Do.
28 ------ 6 Do.

Total 230 —— Carriages —

The Muster Carriages are now ready in the arsenal for inspection, finished in a most Complete and Masterly manner, by the artificers in the Company's Department in conformity with the instructions He — received from this Board, as above stated —

Having thus given my opinion respecting the Garrison Carriages, it becomes equally a point of duty in me, to set forth the State of Brass ordnance and Field train, which requires the most Serious — Consideration of this Board — It may not be necessary for me to say more than has already been said — respecting the defective state the Sumbrils and 6ix Pounder Field Piece Carriages lately made by Contract were in previous to their being altered and Strengthened, in the best mode that could be devised, so as to — make them Serviceable: but, I find it incumbent on

me

Fort St. George 12th February 1799

me now to remark that, from the Cramped State in which the Arsenal department at this Presidency has ever been kept (at least, ever since, I have been in the Service, now nearly thirty years, and being the greatest part of the time employed in that department. I am unable to speak on the Subject with confidence and certainty) I have at all times observed that whenever an armament was fitted out for the field great and unavoidable delays have ever been the Consequence and Notwithstanding the utmost exertion from every department to complete the equipment, Yet, from the very Circumscribed and (with all submission, I cannot help saying) — penurious State of the ordnance Department, the — Artillery Officer, together with all the Store Officers about him, have been obliged to use every Contrivance their ingenuity and judgement could invent, to get into any sort of order the Field Train necessary for the — Service, such as substituting one Stone for another taking axletrees from one Carriage, wheels from another Limbers from a third then breaking up old Carriages for the Iron works, to patch up, as it were, sling Carts &c &c together with other Carriages of every description such arrangement, it is easy to —

Conceive

852 Fort St. George 12th February 1799

Conceive what must have been the Consequence, and on every Service where I have had the honor to be employed, I have unvariably observed, the Commanding Officer of Artillery in the Field thrown into the most disagreeable and distressed Situation, and this entirely from the Causes above represented and whenever it has occurred that Armies or Detachments from the different Presidencies, have formed a junction the Bombay Equipments, have been held in the utmost derision: though I will take upon my: self, without hesitation to say, that neither — scientific knowledge, ability or Zeal for the public Service, has at any period entitled the other — Presidencies to the smallest preeminence or — Superiority —

The fact is, Bombay, not being the Source, from whence the Spring of Finance flows, those in charge of Government have posibly; not had it in their power to Comply with the necessary requisitions and to such like embarrassment I can only attribute the very scanty State, in which this Department has ever been kept —

Whilst I was forming this minute, not having the Returns immediately at hand, —

853 Fort St. George 12th February 1799

I wrote to Captain Blackall, the Deputy Commissary to know how many twelve Pounder, and Six Pounder Field piece Carriages, were now going in the present equipment to the Coast, and how many of each Calibre would afterwards remain at the Presidency, fit for Service. He wrote me in reply. "Six twelve Pounders, Field Piece "Carriages, and Sixteen Six Pounder Carriages are "now going to the Coast — Four of the Contractors 12 lbrs "will remain two of them without Axletrees, and four "12 lbrs made by Lieutenant Colonel Nugent which are in "want of some repair. — There will remain three Six Pounder Carriages, two of which are without Axletrees — "The reason of those twelves and Sixes, being without "axletrees is that, we have been obliged on the present occasion "to take them off, together with several others from different Calibres, for the supply of spare ones for the Coast" much more the Commissary might justly have added, but, as the above was simply an answer to my note, He might not have thought it necessary, suchas, being obliged to take Carriages from the works, to be sent into the Field, as

travelling

Fort St. George 15th February 1799

travelling Carriages for Battering Guns, which are — exceedingly unfit for the purposes &c. &c and in short in various other instances equally embarrassing and — distressing. The above however is sufficient to shew, the Crippled State we are reduced to, in the most important Department to obviate which, it becomes the immediate duty of this Board. I have therefore to the best of my judgement, in Consultation with the — Commissary drawn out a Statement which is hereunto — annexed, setting forth the State of the Brass ordnance, together with their Carriages Limbers and Beds, also the new Carriages &c. &c. indispensibly necessary in my — humble opinion, to be made up with the least — possible delay. Almost Complete six Pounder Field Piece Carriage with its Limbers and Boxes is now ready as a muster and I would further beg leave to submit that it be recommended to Government, for the whole to be made in the Company's department, and that he may be directed to employ additional artificers for that purpose ——

Comparisons in general are unpleasant but

but as I have thought it a duty, to enter thus fully into a very disagreeable task, I cannot but remark, how widely different is the Picture I have endeavoured to draw of the Bombay Equipments, to what I have seen from the other — Presidences particularly from Bengal, when the Detachment from thence was on this side of India during the — Maratta War. some of the ornamental Part of the Field piece Carriages was of bwinsped brass, and other parts Gilt —

I would be as far as any Gentleman at this Board, from recommending one Item of escpence, which I did not believe in my conscience to be necessary and for the advantage of the public Service, but I should suppose every Gentleman will agree in the same sentiment that, if a state cannot comply with the supplies absolutely necessary for its safety and support it must be in a very tottering state indeed — I should think myself extremely unwarrantable to offer sentiments, without Doors, tending to expose the weak state we are in, but I conceive it my indispensable duty, to represent to this Board, for the information of Government, the real

situation

856 Fort St. George 12th February 1799

situation of the department I have the honor to be at the
head of without a mask, it being the regular Channel
for such information to be conveyed to Government, and
the surest mode of remedying the evil in future ——

I have one point more, on which I must
beg the Boards attention before I conclude — By a Letter
I received a short time ago from Lieutenant Colonel Lawrence,
dated Cannanore 28th November last (where He then was,
on his third Tour of inspection) He says "in a conversation
"this morning with the Deputy Commissary of Stores, I find,
"the Limbers to the Field Pieces sent down in 1795, are as
"weak and unserviceable as the Carriages and Sumbrils,
"and which, He tells me, He reported some Months ago
"to Major General Hartley. This is the first intimation
"I have had of it, of course it will be reported upon when
"my tour of inspection is concluded" ——

This leads me Gentlemen, to offer my —
opinion on Limbers now in general use, and to point out
some great defects in them, which I propose perfectly to
remedy in the new ones, I have recommended should
be made — 1st they are in general made with one —
Limber

857 Fort S.t George 12th February 1799

Limber Box only which is placed infront of the Axletree, and by which means the whole weight is brought on the Bullocks Neck, which alone is a sufficient reason to object to the constructions of them, and in the next place, — whenever there is a necessity to take it off, to pass through a nullah or otherwise it is so very unwieldy it requires at least four People to carry it, the sort I propose have two — Limber Boxes, which together contain as much ammunition as the Single one, and by being placed upon the Axletree, the weight is totally taken off the Bullocks neck, and — when required to be taken off the Limber, two men — carry each with the greatest ease — 2.dly they are in general mounted on wheels much two low, to obviate this inconvenience a great deal of complex Iron work has been introduced, in order to raise the Limber Box further from the Ground: but, on the other hand, the Iron work is very liable to get out of Repair, and, from the — lowness of the wheels, the Draught still remains undi: minished. I propose the wheels of the Carriage, Limber and Tumbril, to be exactly the same, which will facilitate the Service exceedingly particularly, should

a

Fort St. George 12th February 1799

a disembarkation take place in the Night, and in the Face of an Enemy, for which everywheel comes first to hand will fit any place it is put to Carriage, Limber or Tumbril and the front and hind wheels being of equal Height, agreeable to the established Rules in Mechanism, renders the Draught the most easy — The Six Pounder Field Piece carriage and Limber, now in the Arsenal as a Master, mentioned in the former part of this Minute, I have had constructed on the above Principle with several other very considerable improvements for the observation of this Board — I fully intended to have brought the whole of this business before the Board, a very considerable time back, but in the first place, I waited for the late Contract for Gun Carriages being completed: and Secondly there being Thirty 6 Pounder

Field

859 Fort St. George 12th February 1799

Field Piece Carriages and ten 12 Pounder
Field piece Carriages in the Contract, besides
old Carriages which answered for Practice
and exercising I did not conceive there would
be that urgent and immediate Necessity to
make up a new Set. There are now on
the Arsenal Forty three new Six Pounder
Field Pieces, lately sent out by the Company.
the Twenty four new Carriages I have
recommended to be made are for those Guns:
they are Constructed longer than those
formerly sent out, I have tryed them at
the Byculla Practice, and find them to be
incomparably good —

I will only beg leave to add,
that, it would Appear from the Resolutions
of Government, founded on the late Army
Arrangements to be incompatible with
with Military Etiquettes for a Colonel of
a Regiment to continue to do duty with
his Corps, after having attained the
Rank

860 Fort St. George 12th February 1799

Rank of Major General, and as there is a probability from my present standing on the Army List of my being included in the next promotion, I am extremely anxious in the mean time to benefit the Public Service, wherever it may be in my power, by the experience and knowledge I have acquired in the Artillery Department, throughout the whole of the Service, from the time I was the youngest Lieutenant fireworker, by regular gradation to the high Rank I have now the Honor to hold -

Minute thereon

Considering the very low condition to which the Ordnance Department under the Bombay Presidency appears from the foregoing letter and its enclosures to be reduced the Board cannot help expressing their surprize and regret that an earlier attention should not have been paid to this important object.

Resolved that the Bombay Government be desired to provide as many gun carriages of the different dimensions stated in the above Minute, as the Commander in Chief may judge immediately necessary; and that they be enjoined to pay the strictest attention to the construction of them upon the most efficient plan, and in the most economical mode

Resolved that the Bombay Presidency be desired, as soon as their Commander in Chief shall have determined the Number of Carriages to be provided, to furnish the Board with an estimate of the expence, in Order that the Vice President in Council of Fort William

Read the following letter from the
Board of Trade
Commercial Department

To the Right Honble Richard
Earl of Mornington K. P
Governor General in Council

From the Board of Trade reporting on the deficiency in the rice relanded from the Osterly

My Lord

We have had the honor to receive Mr. Secretary Webb's Letter under date the 29th Ultimo directing us immediately to "Proceed to "ascertain the state and exact quantity of the "Rice relanded from the Honble Company's Ship "Osterly, and to investigate the Causes which "have produced the deficiency Reported by the Garrison StoreKeeper".

In the letter from Mr. Brodie the Garrison StoreKeeper to the Secretary to the Military Board it is Stated that the "Bags apparently have been Opened on board "Ship and not in the boats, for all of them

that

870 Fort St. George 12th February 1799

"What were employed by him, the Garrison Store-
"keeper, have each a Sepoy to prevent the Rice
"being pilferred by the boat people-

In pursuance of these Instructions
We directed the Master Attendant to report the
State of the Rice which still remained on
board the Osterley, and whether any was
Secreted

This Order, Mr. Taswell was
directed to execute immediately, with the
view of Preventing Measures of Concealment,
which might be adopted, as soon as it should
be known that the deficiency was supposed
to have Arisen on board-

Messrs. Chamier and Clerk attended
by our Secretary, then proceeded to the Beach,
and Afterwards to the Godown for the purpose
of examining the Rice Relanded- of this
they found many Bags, Chiefly Single ones,
very deficient-

The Report from the Master
Attendant

871

Fort St. George 12th. February 1799

Attendant stated the Bags on board to be Mostly two thirds full, but badly sewn and he added that there was not any Appearance of Concealment

The Remainder of the Rice was then landed, and the whole Weighed under the inspection of our Conicoplies, and in presence of the Garrison StoreKeepers Servants -

The Deficiency was as follows

Rice shipped on board the Osterley as per Garrison StoreKeepers Amount Double

		Cwt	lb
Bags 4775 Weight		7078.	0. 1
Rice Relanded Double			
Bags 3727			
Do Do Single Do 1048	4775. Do.	6,064..	0.. 26
Amount deficient Cwt.		1013..	3.. 3

Although the deficiency is much less than the Garrison StoreKeeper apprehended it was still, so great, as to demand particular enquiry as to the causes and We Accordingly summoned all the parties concerned, and examined them as

will

Fort St. George 12th February 1799

will more particularly appear in the accompanying Paper which we have the honor to lay before your Lordship—

The Evidence given on the Enquiry does not afford positive proof, where the Responsibility should attach, but We think it is clear, that no want of Attention should be attributed to the Captain and Officers of the Asterley, and if this be admitted it seems to fix the Thefts upon the boat people, or the Garrison Store Keepers Servants—

Mr. Brodie in his letter above quoted, Acquits the boat people, because a Sepoy was placed in each boat, but this does not convince us of the impracticability of pilferage at all times but particularly on those of Scarcity—

It is hereto be observed that the Rice was not delivered to Captain Piercy by weight, which if it had been done, would have rendered him

Answerable

873 Fort St. George 12th February 1799

Answerable for the quantity he received, whereas he had only to deliver the same Number of Bags which he Received.

It is also to be remarked that altho' by the Standing Regulations of the Garrison Storekeeper's Office none but double Bags should be used it has appeared that there were 1048 Single Bags.

Mr. Brodie Asserts, that no Single Bags were sent from the Shore but this declaration We cannot Admit, because We observed on these Single Bags which We inspected, the Mark on the outside, so that it is difficult to understand how the inside bag could have been removed.

We are of Opinion that at least half the Amount of the deficiency is to be attributed to the Single Bags. The weight of each Single bag is calculated at Cut 1.1. 2 1/4 lb

Sir

I have to acknowledge the Receipt of your Letter of the 7th instant and to Report, that what is therein directed has been carried into execution and I have duly been honored with your Letter of the 9th instant covering the copy of a Letter from his Excellency the Governor of Ceylon, and communicating to me the desire of the Right Honble the Governor General in Council that I should report my opinion upon the best means of transferring to that Government the whole of the Malays on this Coast –

I have no means of Knowing the Number of Malays now on the Coast as all those which are now on it are Prisoners, but by Reference to the Town Major of Fort St. George from his Office I have obtained a Return of them, which I have.

From Major General Brathwaite encloses a list of a Malay Prisoner of war on the Coast gives his opinion agreeably to the letter addressed to him on the 9th Instant regarding the best mode of sending them from hence to Columbo He is of opinion that M. Worths Request to have two additional officers and ten additional non commissioned officers sent from hence for the purpose of being attached to the Malay Corps on Ceylon cannot be well complied with Recommends that Lieutenant a Mac Neile who has been appointed to act as Adjutant to the detail of the Scotch Brigade remaining at the Presidency may be permitted to draw the allowances annexed to that appointment

Fort St. George 12th. February 1799

have the honor to enclose — this comprises the whole of that People now Prisoners of War on the Coast of all descriptions, except seven who I am informed are at Chenglepet, and my Opinion is that the best mode of transferring them to the Government of Ceylon will be to send them in a Vessel bound direct to Columbo, but as there are two among them called Princes and as I understand, some that are aged and infirm perhaps it would be grateful to these Men and productive of good effects to the Eastward, if the option was given to them of going to Malacca as freemen and the means of their going thither provided at the expence of Government under present circumstances it will be very difficult and inconvenient to comply with his Excellency the Governor of Ceylon's wishes in regard to two additional Officers, and in regard to the ten good Serjeants it is utterly impracticable in my Opinion

to

Fort St. George 12th February 1799

to send them from this Coast, From the Number
of Officers that have Necessarily been taken to
the field we must labor under a great want
of them in the Carnatic, and I really know of
no one Officer that could be employed as
his Excellency the Governor of Ceylon wishes
to employ him unless it is Lieutenant Bore
the Town Adjutant and Post Master at
Pondicherry, should it be deemed Necessary
to withdraw him from these employs he
might be so employed, but as he was sent in
charge of the Malay Corps at its first institution
and marched it to the place of its embarkation
he would Naturally expect if so employed to
Command the whole, more especially as he
is Senior to the Officer in Command of the
Malay Corps now on the Island of Ceylon
In regard to the ten good Serjeants we have
no possible means of furnishing them from

the

the Honble Company's European Establishment of this Coast, one half of which is detached on foreign service, and the half which remained is about to take the field to the Southward &c and besides keeping up its own complement of non commissioned Officers, is the only resource we have for filling up the Casualties that occur among the Staff Serjeants of all the Native Corps on the Coast establishment Thus circumstanced it is not possible to draw from it ten men such as I could recommend to be employed as his Excellency proposes and I do not see any means of giving Serjeants to the Malay Corps on Ceylon but by borrowing from his Majesty's Regements on that Island the Number and description of men required, who are as applicable to this Service as any of our men can be as we have none that have yet served with any Malay Corps

By recent Advices from the Ship Stationed off Malta we learn that the Fort was likely very soon to Surrender to the Fleet or Natives who were all under Arms, and posessed the whole Island excepting the Fortress where the French were Retired, and under the extremest Distress for Provision It is reported that the Enemy has quitted Corfu.

Extract from a Letter from the Agent at Aleppo Dated the 9th December 1798.

It is necessary to inform you that the News communicated to one in the abovementioned Extract of Mr. George Abbott and Mr. Tooke relative to the taking of Cairo by the Turks, no Credit ought to be given to it, as mentioned in my last as that News is since contradicted by Ibrahim Pashaw of Damascus who had forwarded it to Constantinople by Several expres Tartars as mentioned in my last, since that time we have no manner of News from Egypt nor from the British Fleet Cruising before

Honble Sir, and Gentlemen

I have the honor to enclose duplicates of my letters to your Honble Board of the 29th November and 2nd December, and the duplicates also of the papers alluded to in them

This Morning one of the Pashaws' Tartars arrived here after a journey of 23 days from Constantinople I have the honor, to enclose, a copy of a letter received by him from the Honble Company's Agent at Constantinople to me, dated the 15th November

and

912 Fort St. George 12th February 1799

and the British Chronicle from the 14th to the 28 September
Your Honble Board will from these papers remark
the defeat and capture at Ballenamuck of the French
troops, which landed at Killala, and the important
information of the sailing from Brest of a considerable
Armament destined as is supposed for Ireland—

I beg permission also to enclose a &c
translate extract from a letter from Coja Reuber Ibn
Jalch to Coja Abdullah Ibn Euroof dated Constan=
-tinople the 20th November, which informs any of the
principal points of the intelligence I had the honor to
transmit on the 2nd instant—

The anxiety I entertain to secure the
early arrival or Bussora of any present dispatches
prevents me transmitting to Your Honble Board
several papers and Accounts appertaining to this
business of this Mission as those papers are not
immediately ready—

I have the honor to be with the greatest
respect &c &c

Sir

It has been displeasing to me that no occasional Messengers have offered whereby I could address you since the 8th ultimo date of my preceding Letter – Judging that your Apprehensions are likely to be in constant Agitation respecting the Affairs in Egypt However, very little material News has reached us from the interior parts of that Country & since I had last the honor to address You, but it is a general Opinion that the enemy is in great distress for want of provisions and by Sickness &

Annexed I have the honour to & transmit to you an Extract of a letter dated the 25th ultimo for His Majestys Consulat Smyrna relating solely to the position of the Enemy at & Alexandria, which is generally credited &

Letters are received from Scala Nova brought there by a Vessel in 15 days from Alexandria which state the French at that place to be in a very distressed situation for want of provisions and water: it appears

that

Fort St. George 12th February 1799

that in consequence of this Situation, they meditated to embark and rather then Surrender to the Arbs to throw themselves into the hands of the English they have liberated 25 sail of Turkish Vessels loaded with Coffee &c. but no Rice which have sailed and are on their passage to this place and other portes in the Levant/ The letters say that the effects of the Nations at Alexandria have not been plundered and that the Seals are taken off of the Magazens— all these acts of the French I think indicate their wish to get off they continue to read firmans to the populace as if they were received from the Porte, and declare that their sole Motive of Landing was to punish the Beys, which done, they were Contented—

It is worthy Notice to inform You that flags of truce from our Ships to the Shore and the Reverse are very frequent our Ships have not been reinforced—

Extract of a letter from Coja Reuben Saleh dated Constantinople the 20th November to Coja Abdullah Ibn Eusoof of Bagdat and Received the 15th December

Three days ago, News was received from Cairo that Bounaparte had imparted to the Kia of Beker Pashaw, whom on his first taking possession of Cairo, he had appointed to command in the Town his wishes, that the Mahammedans would Shave their Beards to which the Kia replied that such a proceeding could only be adopted by the Authority of the Mufte and Casir

Some time afterwards Bounaparte through the Kia of Beker Pashaw, made a Requisition, inform of a Pott tax of 10 Reals from each Inhabitant on which an Assembly was held at the Mekurneh, when complaints were made that instead of fulfilling the promise he made of Justice and protection Bounaparte was every day inventing some new Mode of

Innovation

Fort St. George 12th February 1799

Innovation and Oppression Bounaparte hearing
of this Assembly of the people sent one of his Generals
Accompanied by about 60 persons to appease them
The General on his first arriving at the Mekumch
began to threaten, and upbraid the people when
a Man of Barbary drew his Canjar or dagger,
and stabbed the General in the Breast on which
the people at the Mekumch shut the gates of it
and massacred all the 60 persons who attended
the General which being concluded they Opened
the doors, and sallied forth with drawn Swords
falling on every Frenchman that came in
their way.

Beker Pashaws Kia in consequence
of his employment under Bounaparte found
Means in this Moment under the Appearance
of friendship to gain Admittance to small
fortress on which were about 500 French-
-men whom he put to the Sword -

Bounaparte

Fort St. George 12th February 1799

Bounaparte seeing this, collected his Soldiers and marched out of Cairo he first made an attempt to retreat to Alexandria, but for want of Boats this was found impossible he then made an attempt to join the 4000 he had sent into the Red against Morad Beg. but was prevented in this, by the Arabs having therefore no choice left, he retreated to Bolaak on which the Inhabitants of Cairo besiged Bolaak and sent away Intelligence of what had to Constantinople by way of Damascus, the Parhaw of Damascus sent five Tartars with the Intelligence to Constantinople, and on the arrival here of this News the grand Segneor commanded a continued Salute of Cannon and Musquestry to be fired from Morning till night

My Lord

In my Letter under date of the 8th. of October

Fort St. George 12th February 1799

a Statement of the customs levied by the Dutch for the last three years that Malacca was in their possession Apprehends that He will be under the Necessity of disposing of part of the damaged powder in store and of the Iron work of some of the Gun Carriages to enable him to relieve the immediate wants of his garrison

October last which I forwarded (via Anjengo) by the Asia Captain McInnis I took the liberty to state the circumstances which led to the present Tax on Fish brought to this Market and recommended the continuation of that Tax which is likely to bring in a handsome Revenue to the Honble Company. I have now Rented this Farm for the ensuing Year for the sum of One Hundred and Thirty Dollars per month which after making a Deduction of four Spanish Dollars per Month for a Superintendant of the Market brings in an Annual Revenue of One Thousand five Hundred and Twelve Spanish Dollars— The Conditions on which this Farm is Rented is that the Farmer Relenguishes it in case of your Lordships disaproval of the Tax containing on the Article of Fish — which I trust on your Lordships considering the Reasons I assigned for it will not be the case

In my Letter of the 8th October I

also

Fort St. George 12th February 1799

also mentioned my wishes to furnish Your Lordship with a Statement of the Farms and Taxes in Malacca during the Dutch Government — I have now the honor to send you an Authentic & Statement of the whole, for the last three Years the Dutch had possession of Malacca, and in Order that Your Lordship may in One View behold the Average difference between the Revenues Collected by the Dutch and the Farms now Rented by the English I take the liberty to send you a statement of them also — The difference Arising from the Farms/ I have taken the liberty to & Recommend being again Rented out/ is so very considerable that I trust and hope your Lordship will find them worthy your particular attention — It is with much pleasure I have to acquaint Your Lordship that I have Rented the Farms (Viz) Boom — Gaming — Opiums Pork. Betle Leaf and the Arrack Farm for the ensuing Year for the

Sum

924 Fort St. George 12th February 1799

Sum of Fifty three Thousand Spanish Dollars which
is Four Thousand five hundred and five Dollars
more than it Rented for the last Year

Should Your Lordship approve of my
Renting out the other Farms I have every Apearance
they will Rent for a much greater Sum than
what they rented for during the Dutch
Government

A great quantity of the Dutch Gun
powder and a number of Dutch Gun Carriages
are in that damaged and decayed state that
they are fit for no Kind of use whatever having
received a Letter from the Depy Commissary of
Stores stating the Condition of these Articles I held
a Committee to examine them, The Proceedings
of which Committee I have forwarded to the
Milulary Board — As this Garrison is now
much in Arrears and we have not a sufficient
Sum to make an Advance of half a Months Pay
to the Troops on the 1st of Next Month and the
Season

Fort St.ᵍᵉ George 12.ᵗʰ February 1799

Season not Admitting of our expecting a Vessel from Madras with a supply of Cash I hope I shall be excused by Your Lordship in Council if I should Anticipate the wishes of the Military Board by Disposing of a part of the Gun Powder and the Iron Work of some of the Gun Carriages in Order to raise a sum sufficient to pay the Troops half a Months Pay on the 1.ˢᵗ of February Next — The Powder &ᵃ although perfectly useless to us will sell well &ᵃ Among the Malays and the Iron Work of the Carriages will also sell well

That part of my Letter of the 8.ᵗʰ October Respecting my own personal situation on Command of this place will I hope meet your Lordships favorable Attention — I beg leave &ᵃ again to Assure you that my present Allowance for a Table and Servants is not equal to my unavoidable expences on those Head as can

be

Sir

I have the Honor to Acknowledge the

From the Commandant at Pondicherry acknowledging the Receipt of the Orders for the embarkation on the Triton Encloses a list of Persons whom he thinks it would from particular Circumstances be improper to send to Europe together with a list of others &c whom he has substituted in the room Several French Officers have requested to be allowed to retire to Cuddalore Requests that Money be sent for payment of the Arrears due to his Detachment

Receipt of Your Letter of the 2nd Instant, and to &c inform You that the Orders of the Right Honble the Governor General shall be carried into execution with as little delay as possible after the arrival of the Triton -

In the List which I have had the &c Honor to receive from you this Morning there are about twenty six Half Cast Men marked down to it to be embarked on the Triton - the greater part of these are very black indeed, and I imagine it is not the intention of Government to send such &c people to Europe I have in consequence &c Substituted those Names Marked in No 1 by the Names of eleven Europeans very indifferent

Subjects

Fort St. George 12th. February 1799

Subjects and for in my Opinion from being worthy of the exemption — Their Names are in No 2 — Those persons whose names are with drawn from your List can accompany the Detachment when it Marches to the Presidency —

In the list which I had the Honor to transmit to you some time back, you will Observe many Names of Inhabitants so aged and at the same time infirm, as to render it impossible for them to under take so long a March among these there are some of examplary good Conduct, with and without families, and possessing property in Houses to a Considerable Amount and who if required could give undeniable Security as to their future Actions for these I would by the Consideration of the Right Honble the Governor General as men from whom nothing can be

Apprehended

938 Fort St. George 12th February 1799

Apprehended and who's Removal from their almost
Place of Nativity would be attended with infinite
Distress - of these however the Number is inconsiderable
I should deem it inexcusable were
I not to bear testimony to the Regular conduct
and valuable Services of Lieutenants Leride and Lefebure,
my Depuites in the Police Department - These Gentlemen
were appointed by Major General Brathwaite to that Office,
and they have uniformly merited and received the
greatest encomiums from Succeeding Commanding Officers
- General Brathwaite will no doubt speak to their
Conduct, Character and Principles as He has ever found
them - The former is Brother in Law to Captain Sequeira
who has obtained The Right Honble the Governor &
Generals permission to Reside at Cuddalore - The favor
I would solicit for both these Gentlemen, would be
their Choice of Residence in some British Settlement

on

on the Coast —

There are many Married Officers Prisoners of War here with large families and with very Moderate Incomes, they have solicited me to intreat permission to remove to Cuddalore in the event of the Cantonment being evacuated, they are truly objects of compassion and all of the Men of Staunch principles —

It will be absolutely necessary that same Money should be sent to this place to pay the Detachment the last Months Pay and likewise the Prisoners of War and Pensioners — I have spoke to the Paymasters Vakeel who says it will require about five Thousand Pagodas to Clear every thing up to the 1st of this Month — May I therefore request that you will have the goodness to represent the Matter to the Governor General as without Money I really do not know how I shall be able to bring them to Madras —

I

940 Fort St. George 12th February 1799

I have likewise to request that I may be allowed to Indent on Cuddalore for Tents &c.a for the Detachment and for the French Officers & Prisoners of War —

Sir

The Malabar Commissioners having under the 16th Ultimo submitted a Tender from the Agent of Captain Bannerman for the Supply of four Lacs of Rupees on terms less advantageous than his Agreement for the preceding Year, and at the same time advising of that Gentleman's intention to remit one Lac and a half, for which in case of the disapproval of his present terms he professed himself willing to take Bills on those of his former Contract, I am directed to signify for the information of the Right Honble the Governor General in Council that the Governor in Council has rejected the Offer under a reservation of course in favor of the latter stipulation for the whole or such quota of the Lac and a half as may have been already remitted, affording him moreover a latitude of making further supplies on the same terms as are procurable from others—

From the Secretary at Bombay encloses Copy of proposals delivered in by Messrs. Colt Baker Day & Co. for supplying the Malabar Treasury with Money, which he states have been accepted; states different particulars relating to Money transactions with the Agent of Captain Bannerman—

With this communication I am instructed to enclose a proposal from the House of

Messrs.

Fort St George - February 1799

Messrs Colt Baker Day and Co. for the positive —
payment into Malabar Treasury of Rupees 50.000 per
month for six months certain on terms which are
deemed under existing circumstances as advantageous
as can be obtained. The proposal is therefore accepted
by the Governor in Council. —

The rates at which Messrs. Colt
Baker Day and Co tender the Star Sultance —
Behadre Ikary and Portnovo Pagodas. the venetians
and Surat and Bombay Rupees correspond with
the established rates in the province. But as it is —
uncertain how far the other coins particularized by
them bear the fixed rates specified in their letter or
vary according to the demand these latter are to be
accordingly received into the Malabar Treasury
at whatever may be their current price at the time
of payment. It is also stipulated that the said
Contractors shall not be allowed to pay above one
third of the amount of their present Agreement in —
Calicut Gold fanams on the principle of this coin
not answering as well as the others for payment of
the Troops in the northern Division of the province -

I am further directed to express the
Governor

Service.

In the perfect confidence that His Excellency will readily comply with this application orders have also been transmitted to Major Innes for receiving charge of the horses, and forwarding them — with all practicable dispatch to Trichinopoly —

It is his Lordships desire that upon their arrival they should be appropriated to the — dismounted troopers sent from the Presidency until the supply of horses and mares expected from Cochin may arrive; but that after that event the Rajahs own Troop should be permitted to serve under your Command. This exchange however must depend upon the convenience of the service of which you will be able to form a proper judgement. —

The Right Honorable the Governor General having received information that Major — Bannerman has applied to the Rajah of Travancore for a similar assistance, in horses and irregulars — Cavalry; but apprehending that some difficulty may arise in adjusting the unnecessary arrangements, and that much inconvenience may be expected from such an irregular Corps, thinks it most adviseable that

as

Fort St George — February 1799

as many of the horses as may be required for the service should be purchased directs me to desire that if the horses should have left Travancore before you receive this letter You will endeavor to make an arrangement for this purpose upon their arrival at Trichinopoly; but if you should have reason to believe that they are still at Travancore you will lose no time in making a communication to this effect to Major Bannerman—

I am further directed to inform that a part of the Cavalry which proves the contingent of His Highness the Nizam will be detained to act on the Baramahal under the Orders of Lieutenant Colonel Read, and that it is the intention of the Governor General in Council to reinforce the Cavalry under your Command from that body—

His Lordship desires that the Rec.d M.r Ball may be ordered to join the grand Army—

I am directed to request you will inform the Right Honorable the Governor General in Council that the Honorable the Vice President in Council, in consequence of the proposition of the Military Paymaster General and the opinion of the Accountant General, contained in the accompanying Papers has authorized the Deputy Paymaster to the Bengal Troops Serving in the Northern Circars to draw Bills for Money required for the payment of that Detachment, in concert with, and under the Sanction of, his Command=ing Officer, either upon this Presidency or Lucknow, or any of the Revenue Treasuries within the Companys provinces under this Presidency as may be at the time most advantagious to the Company.

Fort St George 19th February 1799

2 With a view however to prevent any competition between the Collector and the Paymaster in negotiating such Bills, the Vice President in Council has thought proper to prohibit the Paymaster from drawing Bills upon Bengal until he shall have previously ascertained by a reference, to be made in each particular instance, to the Collector, or Officer of the Madras Government, whose province it may be to provide money for the payment for the Detachment, that it would be desirable to raise supplies for the purpose by Bills upon Bengal, and that such bills cannot be negotiated with so much advantage to the Company by the Collector, as by the Paymaster

Commands

Fort St George 19th February 1799

commands on the subject of a letter from Captain Hume, the Paymaster to the Bengal Troops in the Northern Circars copy of which, and the correspondence it refers to, are herewith submitted.—

The supplies required for the use of the Southern Detachment under General Erskine were provided thro the Coast Collectors by means of their own Bills granted on Bengal, and the exchange was charged as high, as Captain Hume has represented.—

In deliberating on this subject it may be useful to refer to the Proceedings which relate to the Minutes of Council under date the 11th of August 1797. when some regulations were formed regarding the exchange at which Bengal Troops serving on the Coast should be paid.—

By these regulations the Arcot Rupee is ordered to be issued at a rate which makes it 19: 3: 1 p.r Cent worse than Siccas, whilst the intrinsic Value of a Sicca Rupee is not Eight p.r Cent better, so that a comparative loss of 19: 3: 1 p.r Cent will be sustained even at the rate

Fort St George 19th February 1799

rate that Captain Hume expects to be able to draw;
and which is 10 pr Cent more favourable than that
which was charged last year by the Coast Collectors
for the supplies raised by means of their Bills on
this Presidency for the use of the Bengal Southern
Detachment.—

If therefore the Collectors have
not effects for the purpose of supplying the Bengal
Paymaster, without drawing bills on Bengal, it —
appears a question seemingly worth consideration,
whether such supplies as it may be, by that means
necessary to raise, might not, with more probable
advantage to the Public, be negociated by him —
under the sanction of his Commanding Officer —

In limitation of such a License
and for the information as well as the satisfaction
of all parties - attestations derivable from Collectors
and other Residents on the Spot, where it may be
necessary to raise supplies, might from time to time,
be furnished by the Paymaster, setting forth the

2d By the first, you will perceive, that I have debited the Lucknow Sicca Rupees as Arcots. Should Government allow Batta thereon, in consequence of Mr. Gordons Letter of the 16th Ultimo, already transmitted you, it will be made out as a contingent charge—

3d On application to the different Collectors in the Neighbourhood for Money to pay the Troops for last Month, I am informed that their collections for some time to come, are specifically appropriated by Orders from Government: and as all

all the Money brought round in the Bombay Frigate has been sent round to Madras. I am afraid the Troops will experience irregular payments —

4 By the Minutes of Council of the 11th of August 1797 Bengal Troops Serving on the Coast are paid at the exchange of 320 Sonats Fr. p. Star Pagodas equal to 366 Arcots. which makes the payments brought to account in Sa. Rupees Arcots 119.3.1/2 Fr. p. Siccas —

5th All Bills granted by me are paid for at the same exchange, which being for above the Common rate, between this and Bengal, private remittances are obtained, and hence the return of more than one fourth of the Disbursements is cut off. independent of which many individuals have applied to me for Bills, and I conceive the Troops might be nearly supplied in this Manner were I admitted to grant bills at the usual exchange —

6th On enquiry at a House of Agency here they offer Arcot Rupees for Bills on Bengal for the same Number of Siccas, and the Shroff demand 110 Siccas for every 100 Arcots at which rate they say the former Collector took up money from them for the payment

1800 Fort St George 19th February 1799

payment of the 4th Bengal Regiment were I therefore
allowed to grant bills at the former rate or as near it
as circumstances admit for small Sums to individuals
it would break this combination of the Shroffs: for
if large Sums are to be raised from them by the
Collectors. I have reason to think he will not obtain
them on more advantageous terms

I have been honored with Mr. Sub

to me a Letter from the Military Paymaster General

whether I am aware of there being any objection to
the proposition for authorizing the Paymaster of the

authority may be granted. with the greatest
advantage to the Public

2 In conformity to these directions

I

1805

Fort St George 19th February 1799

I have the honor to report that I am not aware of there being any objection to the adoption of the proposition in question; provided that the authority to be granted be regulated and defined, as to prevent the Bengal Paymaster and Madras Collector being led to out-bid each other, in the negotiation of their Bills —

3 I would therefore recommend, — with a view of preventing their being drawn into such a competition that the Paymaster should be — restricted from negotiating Bills upon Bengal until he shall have previously ascertained by a reference (to be made in each particular instance) to the Madras Collector, whose province it may to provide Money for the Detachment, that it would be desirable to raise supplies for the purpose, by Bills upon Bengal, and that such Bills could not be negotiated, with so much advantage to the Company by the Collector, as by the Paymaster —

4 Under the event of your being pleased to adopt the proposed measure under the restrictions above suggested, I would further recommend that the Paymaster may be authorized to draw Bills for the service of the Detachment, in

1806

Fort St George 19th February 1799

Resident at Tanjore

To Josiah Webbe Esqr.
Secretary to Government

Sir
Fort St George

I have the honor to report to you for the
information of the Right Honorable the Governor
General in Council that the Rajahs payments in the
course of last Month amount to the sum of Fourteen
thousand three hundred and fifteen Star Pagodas
four fanams and thirty three Cash (14.316.. 4.. 33) which
is equal to the January List

From the Resident at Tanjore enclosing an account of the receipts and disbursements of the three Soubahs under the Rajah mentions the Rajahs wish to celebrate his nuptials, which he urgently requests may be complied with, states some particulars regarding the expence that may attend it

Enclosed is the account of His Monthly
receipts and Disbursements for January I have
complied with two requisitions from the Paymaster at
Trichinopoly and which I hope will be approved

On

1808 Fort St George 19th February 1799

on the 12th Ultimo for the sum of 5.5000 Pagodas. as I have already reported. and on a very pressing letter from Mr. Hawkins for a further supply I dispatched to him the sum of 10.000 Star Pagodas on the 30th Ultimo —

There is still a balance of 16.000 — Pagodas in the Treasury —

The Rajah can no longer resist the entreaties of His family to promote the Celebration of His marriage and has expressed his desire to have the Ceremony performed in the present month. His Excellency has for some time restrained from any further applications to me on the score of its expences. and seems to be much perplexed between the necessity of performing His Nuptials on very limited means, or of remaining in a situation. which. according to the customs of his Country and in the General opinion of his people. is disreputable even to a common person of His age. where the family is not prevented by absolute poverty.

The Rajah. I have reason to believe. discontinued his applications in the hope that some arrangements would have taken place by

Fort St George 19th February 1799

by which it might have been in his power to have set apart a portion of his revenue for this occasion, or that in the event of his being allowed to settle with the Company for the revenue of the present year on the terms of the Treaty of 1792, that he could then have appropriated his quota to the accomplishment of his wishes - in either case he would have been satisfied, but in the present state of Tanjore Affairs, He is left no choice but to account to me for the daily — receipts — hitherto the Collections have only — amounted to the Companys Monthly Rists and to the most necessary disbursements of the Rajahs public and private expences, in future the receipts from the Peshcanum Crop will exceed all these expences - The Balance His Excellency wishes to appropriate to His marriage, but as it will not fall to him in time for the Ceremoney and as I find the marriage cannot be any longer delayed, I venture to suggest to the Right Honorable the Governor General in Council a mode of complying with the Rajahs wants, without any material inconvenience; and

I

1010

Fort St George 19th February 1799

I press it the more upon his Lordships attention as it will save the Rajah from any wish to recur to a temporary supply from Loans which it will afford the Company the Credit both with his Excellency and His people of contributing towards the happiness of the Family upon this important occasion. The Kists by the Treaty of 1792 commenced in November and ought to have been paid at Madras on the first of the Month as they fall due on before the 15th. It is proved by the receipts from the Country that the daily Collections of the whole Month would not allow the Kist to to be paid either on the 1st or the 15th but near the end of the Month. The Company have already suffered this delay without much inconvenience and I have reason to think if it should still prove incompatible with the Companys present circumstances to remit from the Rajahs subsidy the sum of 20,000 Pagodas for His marriage, that His Excellency will get be very thankful, if His Lordship will consent to postpone the payment of the February Kist to the Month of March, and allow the Rajah to appropriate the receipts

for

1811

Fort St George 19th February 1799

for February to his marriage the sum can be no more than His Excellencys due on the future adjustment of Accounts. and there is besides revenue sufficient in the two Soubahs to save the Company from loss — by this trivial alteration in the period of the Rajahs instalments —

I had the honor to report to you for the information of the Right Honorable the Governor — General in Council that the Rajah of Tanjour has expressed His wish to celebrate His marriage in the present — month. I am now to acquaint you that His Excellency has sent to inform me. that the Ceremony can be no longer deferred and that the entreaties of His Family and other considerations. prevent him from postponing the accomplishment of an object on which his present and future happiness immediately depend —

From the Resident at Tanjour urging again the Rajah of Tanjores anxious wish to be permitted to celebrate his Marriage —

The

1812 Fort St George 19th February 1799

The Rajah has of course made up his mind to have the marriage performed on the most Oeconomical terms, and seems prepared to ware every other consideration but that of obtaining the acquiescence of the Right Honorable the Governor General in Council—

His Excellency is aware that the Ceremony might be postponed to a future period when he may also look for the aid of Government in making the Nuptial more suitable to his Rank and Dignity—but He trusts His Lordship will have the Kindness to believe that there are other very pressing Causes which influence him to dispense with a Form, if that Form is only to delay His Happiness—

Under these Circumstances the Rajah has no doubt, but he will meet with the influence of the Right Honorable the Governor General, and has desired me to entreat His Lordship to grant His consent, and with it such orders to the Commanding Officer at Tanjour as may Secure to

to His Excellency the uninterupted performance of His marriage Rites attended by the Troops of the Garrison, if he should require them and by the Services of His Own Troops and Sibbendies in the usual procession thro the Streets of His Capital —

Sir

I am directed by the Right Honble the Governor General in Council to acknowledge the receipt —

To the Resident at Tanjore complying with the Rajah of Tanjores wish to be permitted to celebrate his Nuptials, and every degree of respect and attention is to be paid to the solemnity as the Southern Revenues are to be appropriated for

1014

Fort St George 19th February 1799

receipt of your letters dated 4th and 15th Instant —

In compliance with the urgent solicitation of his Excellency the Rajah his Lordship consents to the celebration of his marriage at this period; and accordingly desires that you will upon this occasion pay every degree of attention to the solemnity, to impress the Rajah & his subjects with a just sense of the protection and security which he enjoys under the Company's Government —

Orders have also been transmitted to the Commanding Officer to afford the Rajah and yourself every assistance in regard to Troops and guards which it may be practicable for him in the reduced state of his garrison to afford —

As the Rajah has urged the celebration of his Marriage at this particular juncture of public affairs the Governor General in Council concludes that he will have reconciled himself to the inconveniences which must naturally be expected —

You are aware of the formation of a considerable body of Troops at Trichinopoly for field service, under Lieutenant Colonel Brown, it will therefore be necessary for you to make his Excellency sensible

for the payment of the Troops under Colonel Brown, the payment of February Bill cannot be deferred until march — He is to continue to supply the Paymaster at Trichinopoly with money, and to take his Bills on the Military Paymaster General for all advances that He may make to him. He is to communicate occasionally to Colonel Brown the Amount of Cash remaining in his hands — Copy of a Letter to Major Innes enclosed —

1015

Fort St George 19th February 1799

sensible of the indispensable necessity of appropriating the revenues of the Southern provinces to the expences of this Detachment —

Under this impression the Governor General in Council feels it impossible for him to consent that the payment of the February Kist should be postponed untill the Month of March, and his Lordship accordingly directs that it may be held in readiness for Military purposes. —

The Governor General in Council approves your compliance with the application of the Paymaster at Trichinopoly for Money, and his Lordship desires that you will continue to supply him with Cash to the full extent of your Means. —

For the Sums which may be so advanced to Mr Hawkins you are to take his Bills upon the Military Paymaster General upon the general Treasury when the necessary adjustment will be made of his Excellency's Kist —

The Governor General in Council desires that You will occasionally communicate to Lieutenant Colonel Brown the amount of Cash in your hands and the amount which You may expect to

The Commander in Chief has directed me to address you on the following detail, which he requests You will communicate to the Right Honorable the Governor General in Council —

Of the four Lots of remount Horses — reported to have been forwarded from the Malabar Coast by Lieutenant Montgomery two have arrived in Camp amounting to 152 Horses, and have been inspected and delivered over to Regiments agreeably to the enclosed — Statement, from which you will observe that 396 Horses are

Fort St George 19th February 1799

are still wanting to complete the 6 Regiments of Cavalry, owing principally, to a considerable proportion of Horses having been lost about a month since, by general Casting Committees, and to the circumstance of the late Orders of the Honorable Court of Directors, establishing Regimental Rise in the Cavalry, having added three Privates to each Troop in the several Regiments, an augmentation which has rendered the Privates that were supernumerary in these Corps, effective.

Of other Ranks there are at present supernumary in the Four Regiments of Native Cavalry, a considerable Number of Native Commissioned Officers, and a few Havildars, and Naigues, and as the Service of these Men, are not required in the Field, and some of them having in use, choice Horses which may be more beneficially employed in mounting effective Men in the different Regiments, the Commander in Chief has given directions for these Supernumaries being sent to the Presidency and to Trichinopoly where he thinks it probable they may be usefully employed.

The detail of Supernumaries destined for the Presidency will have in charge the 12 Horses which from youth have been rejected by the Committee that examined the Lots, the Commander in Chief being of

opinion

Fort St George 19th February 1799

opinion that as they are fine Horses though too young for immediate Service in the Field, they may yet be very desirable for the Body Guard.—

In charge of these Officers are also 13 Horses, which though unequal to the duties of the Field may be capable of mounting any Troopers who may be entertined to serve with the Body Guard—

In order to simplefy the Returns of the Native Cavalry Regiments and from the probability that Government may find it expedient to direct— an Augmentation of the Body Guard, the Commander in Chief submits it for the consideration of the Right Honorable the Governor General in Council, whether it maynot be adviseable to order that the Details composing the Body Guard be struck off Regiments, and this Guard be considered hereafter as an— independent Corps—

The third Lot of Horses from Lieut.t Montgomery and the two hundred purchased at— Hydrabad by Lieutenant Dallas, are expected to join the Army in the Course of a few days.—

The Commander in Chief has not yet received any report of the 4th Lot of Horses from

1024 Fort St George 19th February 1799

from Lieutenant Montgomery having arrived the Southern provinces. He would Hope however that they may arrive in time to join the Army but in the event of their being too late, he conceives they may be usefully employed to the Southward or otherwise in the Carnatic as Government may please to direct.—

It was originally intended that Cornet Grant of the Cavalry should have date of Rank from the day that Cornet Mason was permitted to join with His Majestys 19th Regiment of Dragoons, should be struck off the List of the Army but much time having elapsed without the arrival of any information from Home of that Officers appointment to a Commission in his Majestys service having been approved of Cornet Grants date of Commission was fixed from the date of Rank which he had held as Ensign on the Infantry List as determining his Rank as Cornet by such Rule, was convenient and just towards all parties. The Commander in Chief is desirous that the dates of Rank of Cornets Munt and Lushington should be determined by the same standard and that the former should accordingly have date of Rank from the fourteenth day of March 1796 and the latter from the

Sir

I had the honor to receive your public Letter this day, and herewith to transmit a Return of families with remarks and sums which appear to me to be at least sufficient to subsist them - and I beg leave

From the Commandant at Pondicherry, encloses a farther List of families whose fathers or husbands have been embarked on the Triton, and who are left destitude of the means of support - mentions the death of the wife of one of those who embarked on the Triton, and the dangerous state of another - encloses a farther application from M. Bourgine to be permitted to join his Ship - requests that Lieut. Farthorne may be allowed to proceed to Cuddalore—

1030 Fort St George 19th February 1799

leave to assure you, that I have only mentioned what I barely supposed to be adequate to this purpose —

In the List which I sent yesterday, I had omitted a few names which upon further enquiry I find well entitled to consideration. I have consequently added them to the present one —

I am sorry to announce, that the wife of one of those embarked, died yesterday, in consequence of the alarm and grief which the sudden seizure of her husband caused her — She was pregnant, and this went brought on a premature labor, that carried her off — another in an almost similar situation now lies at the point of death, so that both these pensions will in all probability be erased from the List, or at least considerably diminished —

I enclose at the earnest desire of Young Monsieur Bourgine, his further application to join his Ship; he is in the Service of the King of Travancore, he offers not to disembark at Tranquebar, should the Government find it necessary to forbid it —

I am sorry that in the List of Officers forwarded for the Right Honorable the Governor General's

Resolved that the following Letter be dispatched by express to the Commandant at Pondicherry

To Captain R. M Grant
Commanding at Pondicherry

Sir

I am directed by the Right Honorable the Governor General in Council to acknowledge the receipt of Your Letter dated the 17th Instant and to express his Lordships most serious regret and concern at the fatal mistake which you have committed in regard to the discription of Persons embarked on the Triton

When the General List of Inhabitants transmitted in Your letter of the 27th Ultimo was received

To the Commandant at Pondicherry expressing the deep concern of the Governor General in Council at the unhappy circumstance of so many heads of families having been embarked on the Triton, entirely contrary to his intentions. He is informed that the whole blame of the melancholy consequences which he have resulted, are charged upon him, as the erroneous List which he transmitted has been the fatal cause He is directed to make public these Circumstances amongst the different families, and to inform them that every care will be taken of them. He is to proceed without delay to the Presidency

1034 Fort St George 19th February 1799

received at the Presidency, a second List was prepared from it; and all those persons who appeared by your orders description to have families were excepted from considerations of humanity alone, although marked as offensive characters by you.

The List formed upon this principle was transmitted to you in my letter of the 2d Instant in which it was particularly pointed out to your observation that none of those who appeared to have families were included: and in transmitting those orders formed upon the information received from you, the Governor General was perfectly confident that provision was made for every cause of real distress as well as for the national character by the exception which his Lordship had made in favor of the heads of families—

Under this impression it is impossible to express the grief and astonishment of the Governor Genl. in Council upon the receipt of your letter of the 17th instant by which his Lordship observes that half of the whole number embarked on the Triton appear at this late Moment, when it is impossible to correct the unhappy error.)

Fort St George 19th February 1799

error to have been heads of families —

The disastrous effects of this fatal error his Lordship is compelled to charge upon you: and he directs you to inform the Inhabitants of Pondicherry that it was not the intention of Government to separate any father of a family from his Wife and Children that any such separation which may have taken place, is to be imputed exclusively to your own error in having transmitted an incorrect list to the Governor General in Council and subsequently in omitting the necessary steps for explaining the effects of an order founded upon that erroneous information. You will further assure the Inhabitants of Pondicherry that orders will be immediately dispatched to the Cape of Good Hope directing that every father of a family embarked on board the Triton from Pondicherry — in consequence of your error shall be returned by the earliest opportunity and that in the mean while provision will be made for all such families, as have been deprived of their husbands and fathers —

In

Fort St George 19th February 1799

In Order to enable the Governor —
General to remedy the consequences of your error, as far
as it may now be possible, his Lordship desires that you
will yourself proceed with the utmost degree of —
expedition to the Presidency, leaving to the next senior
Officer of the Command of the detachment and the
execution of such parts of his Lordships Orders in regard
to the evacuation of Pondicherry, as may not yet have
been carried into effect —

It will be of the utmost importance
to the unfortunate families who have been deprived
of their fathers and husbands that the intentions of
the Governor General contained in this letter should
be communicated to them without a moments delay —

To the Right Honorable

Governor General in Council

My Lord

I beg leave in consequence of the Detachments that have been made by order of Lieut.t Colonel Brown Commanding the Division as per annexed particulars, to state to your Lordship, the situation of this Garrison, which with Officers and Men already on Command is reduced very low indeed and puts it totally out of my power to comply with any further requisitions from Collectors, or to afford any protection to the Country should an enemy approach. I have lessened the Guards as much as possible and am under the necessity of putting on a proportion of Recruits, at the same time the old Sepoys on Guard must remain there without relief — this not only keeps my new Men back, but occasions desertion among them and the greatest difficulty in

From the Commandant at Tanjore stating that the Fort at Tanjore is falling to Ruins — that the Garrison is very weak — offers diffe: rent Suggestions on the Subject.

From the Commandant at Tanjore is writing to inform us that the garrison is very much — short of different Requisitions on the Collectors

in getting men to replace them. — The Fort is besides very much exposed from the bad state of the fortifications the particulars of which are very fully detailed in the annual survery report transmitted to the Military Board on the 19th January and if a timely attention is paid to what is therein recommended, an enormous expence will be saved to the Honorable Company and which must otherwise be unavoidably incurred should it be determined to reestablish the works at a later period. every day adding fresh injury to them - There is nothing to prevent an enemy getting easily into the Fausse Bray / owing to the dryness of the Ditch occasioned by the bad state of the Balardeaus, and the multiplicity of Breaches in the Fausse Bray and Counterscarp / at many places in the large and small Forts / an extent of Rampart of upwards of three Miles and most of the Sally-Port Gates through the Main Rampart into the body of the place, totally unserviceable; nor can I afford a sentry to them or on the Rampart of the small Fort - The Guns are rendered almost useless by the want of Men to work them as there are only One Corporal and ten

artillery

Artillery Men left for this extensive Fortress — Four hundred of the Sepoys are untrained Recruits very lately enlisted — It is necessary Government should be made acquainted with these Circumstances; but at the same time I must assure your Lordship no attention or exertion will be wanting on my part to make the most of what is left me, to promote the public Service —

I take the liberty to state that this place should not be left, during war in particular without one hundred, or sixty Europeans at least, to be instructed in the Gun exercise; but if this arrangement cannot be conveniently made, I respectfully recommend that sixty Sepoys and Stone Luscars of the Garrison be selected and thought the Gun exercise with the usual addition of one Rupee per month each, and that one or both of the Battalions of Sibbendy Sepoys / about 500 Men each / in his Excellency the Rajahs Service, by authority of Govern.t and the Semidar and fifteen Goolandars be brought under the immediate authority of the Commanding Officer of the Garrison by the Fort Adjutant Lieut.t Butler being appointed to take charge of and to discipline them; or such other Officer as your Lordship may

think

think proper to name — Thus will this body of men be rendered useful to the general cause without any — additional expence to the Company, or without — inconvenience to the Rajah as they can furnish parties for the Revenue duties he may require them for; and as he has besides a considerable Body Guard of Horse and Sepoys and also Sword Peons. —

Having, as I consider it my duty, stated my sentiments on this subject to your Lordship. —
