It will I think be near a Month, before the whole of these Details can be collected at Pondiquil, when they are, they will exclusive of Gun and Tent Lascars, amount, nearly to as follows, confining myself to Rank and File.—

	Rank & File
European Artillery & Infantry	230
Detachts 1st Battalion 9th Regt N. I.	416
2d Battn 13th Regt N. I.	1220

which I trust will prove a Force sufficient to accomplish the ends proposed by his Lordship. If no Officer is selected for the Command it will of course belong to Lieutenant Colonel James Innes, who commands the 2d Battalion of the 13th Native Regiment, the Senior Officer of the Details to be assembled, and I could not recommend a better Officer for any Service.—

I have

Fort St George 25th November 1800.

I have at last received a re-
-turn of the Troops stationed at Polgatchery-
There is One European Officer, and One Compa-
-ny of Bombay Seapoys, and about Thirty
Travancore Seapoys, and from the Company a
considerable Detachment has been sent out,
as yet no return of the provisions or stores
there, has been received, but it has been cal-
-led for by the Military Board; I am induc-
-ed to think that Polgatchery is a Post of
importance, at all times, as the point of mi-
-litary Communication between the two Coasts,
and that it becomes particularly so now, in
consequence of the troubles existing there a-
-bouts; of these, his Lordship has received
notice, and that Colonel Sartorius has re-
-quired that One or two Troops should be
immediately sent to that neighbourhood
from our 5th Regiment of Native Cavalry
Stationed at Coimbatore, this pressing re-

-quisition

Fort St George 25th November 1800.

-quisition has in part been complied with, and a Detail of One Subidar, One Jemidar, Three Havildars, three Naigues, One Farier, One Puckally and Forty eight Troopers, has been detached in consequence under the command of Lieutenant West, but I am not well satisfied with this measure and have called upon Colonel Sartorius to state, if he has the means of supporting this little body of Cavalry with any Infantry, as if he has not, I consider them as exposed to great risk, without any prospect of great advantage, - and Soon I could wish that I might be authorized to order Lieutenant Colonel Innes to send a proper officer with three Companies of Native Infantry to take possession of Polgatchery immediately, being convinced that the measure would be useful in all respects, and would in some degree operate in aid of the services he may have to perform with the remainder of his Troops. -

On

Fort St George 25th. November 1800

On perusal of your letter of the 11th. Instant it immediately occurred to me, that this would be a proper time to state to his Lordship, some improvement which I was desirous of recommending in regard to the Cavalry, and after due consideration, I think it proper, here to introduce them.—

The advantages which have resulted from the measure of attaching to each Regiment of Cavalry, Light Field Pieces, drawn by Horses, and the convenience attending their being chiefly worked by the Men of the Regiment to which they are attached, having been proved by the test of experience in the course of much active Service in the campaign of 1799. in the Mysore Country, and in the late Service against Dhondia Wang, I am led to think that it is proper now to establish regulations for the better keeping up this approved and very useful

branch

branch of Military equipment - It has been stated by the Officers whose situations have afforded the best opportunities of attending to the Subject, that the system adopted at first for the convenience of conveying the men with greater facility, of alloting a rider to each Horse employed, and taking these Horses indiscriminately from the different Troops of the Corps, is not a good one, the Horses they think are too + heavily loaded, and the number required, too much reduces the strength of the Regiment - It is therefore generally recommended by them, that the near Horses only of those employed in the + draft shall be mounted by Troopers, who shall drive the off Horses - those Horses being also + saddled, for the conveyance of the riders of + other Horses, in cases of emergency occurring + from casualties, and that a proportionate + number of additional Horses, as Gun Horses, shall be allotted to each Regiment of Cavalry.

That

2697 Fort St George 25th. November 1805

That the number of Gun Horses for each Euro-
=pean Regiment shall be Sixteen, and for a na-
=tive Regiment fourteen, excluding two Horses for
the non Commissioned of the artillery Corps at-
=tached to the Guns— that one Horse keeper and
one Grass cutter shall be allowed for each Gun
Horse, that the Gun Horses shall all be placed un-
=der the immediate charge of the adjutant of the
Corps to which they are allotted, who shall sign
the abstract for their followers, and provide Sice
articles at the usual rate.—

That Saddles and Harness com-
=plete for Eight wheel Horses and Ten leaders shall
be provided for each European, and for Eight
wheel Horses and Eight leaders for each native
Regiment of Cavalry— that Collars and traces,
or what is called Gunners' Harness, shall be fur-
=nished for four Horses of each Troop to be occa-
=sionally employed with the Guns of the Regi-
=ment— This Harness to be provided in the first

instance at the expence of Government, and + kept up and in repair by the Officer commanding the Regiment on an allowance of half a Pagoda per month for each horse, in addition to the allow-ance now granted for the keeping up the Horse accoutrements. —

One Serjeant and One Gunner to be attached to each Regiment of Cavalry, the men so employed to be borne as supernumeraries on + the returns of the Artillery Battalions which + furnish them, but to be paid on abstract signed by the adjutant of the Regiment of Cavalry to + which they are attached. —

One Tindal and Eighteen Gun Lascars to be attached to each Regiment of Europe-an, and One Tindal and twelve Gun Lascars to each regiment of Native Cavalry, these also to be supplied from the Battalions of Artillery, but their pay to be drawn in abstract signed by the ad-jutant of the Cavalry regiment, with which they

are

are serving.—

The ordnance attached to Cavalry regiments is as follows— To European Regiments Two Six Pounders, drawn by Six Horses each, + Two Tumbrils drawn by Four Horses each, and + to carry One hundred and thirty rounds of am- -munition for each Gun.—

To native Regiments— Two, Three + Pounders, each drawn by Four Horses, and Two Tumbrils also by four Horses each, to carry the ammunition for each Gun.—

The total Establishment recommended is as follows.—

	Serjants	Gunners	Tindals	Gun Lascars	Horse keepers	Grass cutters	Horses
2 European Regts.	2	2	2	36	32	32	32
7 native Regts.	7	7	7	84	98	98	98
Total - - -	9	9	9	120	130	130	130

The additional expence to be incur- -red by this improvement to an important equip- -ment, is so trifling and the advantages to be de-

Fort St George 25th November 1800.

derived from it are so clear that I cannot but strongly recommend the adoption of it.—

I beg leave to recommend that the 6th Regiment of Native Cavalry at Arcot, may form part of the Detail to be sent to the Ceded Country, and in that case that I may be authorized to order a Committee to cast any Horses in it, which may be found unfit for Service, I understand that there are some of that description, and I would recommend that the 6th Regiment should be completed with Troop Horses, and also, with Gun Horses (should the improvement I have recommended be adopted) from the Detail of Horses of the 1st Native Regiment now at Connatore — and as the 1st Native Regiment is now too weak for any service I recommend it being ordered to Arcott to replace the 6th and from it, I would propose to complete the other Regiments sent into the Ceded Country, with Gun Horses — The 1st Regiment may be remounted by

Fort St George 25th November 1808

by the Horses which Captain Deas is gone to bring up and will have time to recover and recruit it-self, and form its Horses at Arcott. —

I shall beg you farther to state to his Lordship in Council — that there is a vacan-cy for a Lieutenancy, in the 5th Regiment of na-tive Cavalry — but there is no Cornet in that regi-ment — consequently I have not been able to bring forward under existing regulations, any Cornet for promotion, and the first Cadet posted to that Regiment will become at once a Lieutenant — there are three Cornets in the Service. —

Chitty 3d native Regiment
Dark 4th Do Do
Williams 6th Do Do

the latter is only doing duty, and has not been posted to any Regiment, consequently he might be posted to the 5th Regiment, and would there-by become a Lieutenant, but that would be hard upon the other two, who have been longer in the

country

Fort St George 25th November 1808

Country, as promotion is now positively order-
-ed to be regimental, they neither of them can
have any claim to promotion on account of the
existing vacancy — but as the case is extra-
-ordinary and such as would not be foreseen, I a-
am induced to recommend that Cornet Chitty
who is the eldest Cornet of the two by a few
days, may be removed from the 3d to the 5th
native Regiment, in which case I can recom-
-mend him for the vacant Lieutenancy —

I have also the honor to en-
-close a copy of a communication from Colo-
-nel Vigors, with whom I join most heartily
in recommending to His Lordship in Council
that the Anglatore Revenue Battalion may
be dismissed the Service —

Resolutions thereon —

Alteration made by Genl. Brathwaite on the destination of a Detachment of Pioneers approved —

The Board approves the alteration made by major General Brathwaite in the distribution and distinction of the Detachment of Pioneers under the command of Lieutenant Davies. —

The Governor in Council concludes that the officer Commanding in Malabar would not have recommended a compliance with the requisition from the Commissioners for a Detachment of native Cavalry to be sent to Angadypar without providing the means of supporting this small party in the service which it was expected to perform with an adequate detail of Infantry. — Resolved therefore that

Fort St George 25th November 1800

It is deemed inexpedient to authorize any Detachment being made from the Troops assembling at Dindigul

Major General Brathwaite be informed that the Board deem it inexpedient to authorize any Detachment being made from the Troops assembling at Dindigul for the execution of a very important Service — but that he is at liberty to employ a part of the Travancore Troops serving in Polamcottah and Madura to reinforce the Garrison of Palghaudcherry if he should still deem such a measure advisable. —

Decision on the Plan proposed by Gen.l Brathwaite for improving the Constitution of the Cavalry Corps postponed —

Resolved to postpone any decision on the plan proposed by major General Brathwaite for improving the constitution of the Cavalry Corps until the Board shall be enabled to take a general view of all the alterations in the Military Establishments under this Presidency which recent circumstances shall be found to render necessary. —

A Company of Artillery March from the Mount with 4 Howitzers Guns

Resolved that the Company of artillery at the mount under orders for field Service be ordered to march to arcot, and that such

a Committee for casting Horses to be assembled at Arcot

Resolved that a Committee be ordered for casting such horses in the 6th. Regt. of Cavalry as are unfit for service, and that this Corps be completed with horses from those of the 3d. Regt. now at Amie. —

Major Gen.l Campbell to proceed to Arcot and take upon himself the Command of Artillery & 6th Regt. Cav.y and to move towards the Ceded Distrts.

Resolved that Major General D. Campbell be ordered to repair immediately to Arcot, and having taken upon himself the command of the Company of Artillery and the 6th. Regiment of Cavalry, to proceed by the nearest route to Pundydroog, to which place instructions will be forwarded to him for the disposal of the Guns belonging to the Regiments of Cavalry, and for the further regulation of his march into the ceded districts. —

Sir,

I have the honor to return the Plan and Estimate for a Guard Room, Necessaries, and Cor-jee Houses to be built at Seringapatam with the alte-rations required, accompanying which I likewise transmit an Estimate for the repairs requisite to the Magazines together with sections, shewing the propos-ed new compound walls to be built round them for their secu-

2720 Fort St George 25th November 1800

The bad condition in which most of these Magazines are at present, may be attributed in a great measure to their being nearly covered with earth, which precludes the circulation of air, and renders the Walls continually damp,— I therefore take the liberty— to propose that this earth be removed by the Pioneers, as no provision has been made for it in the Estimate.—

The new compound walls are to be built of Brick in chunam leaving a Space of 6 ft. in the clear on three sides of the magazine and 12 ft. on the side opposite the Door or entrance; most of them will have to sustain the pressure of a bank 9½ and 4 feet of earth as will appear by the accompanying Sections.— The compound Wall of the Grand magazine No. 7. one side of which having fallen down, I have only estimated to be rebuilt of Brick in clay, and for repairs to the three remaining sides— I would however recommend the building a new permanent wall in place of repairing the present one, and deem it of more importance from the size and capacity of this magazine which will contain 2800 Barrels of Powder and from the great pressure of earth this wall has to sustain which is 9. 10 & 13 feet above the level of the compound.—

I have subjoined to the Estimate the expence of building a cess-pool for the reception of the great fall of water from the high ground at the S. E. angle of the Fort, and

2721 Fort St George 25th November 1800.

propose to connect it by a channel with the drain within the Compound, as a very requisite and desirable work for the preservation of the magazine.—

If being impossible to ascertain the condition of the walls within all the magazines without removing the Powder.— I trust the Military Board will be pleased to authorize any additional expence that may be found necessary when carrying the repairs into execution.—

Not having it in my power as yet to commence the repairs to the Barracks of H. M. 73d Regiment from the building being constantly occupied— I have to request if you will state this circumstance to the Board, and herewith enclose a copy of my letter to Lieutenant Col: Sapon on the Subject together with his reply, for their information.— —

purest respect, I now have the honor of addressing your Lordship, on a subject — that, I cannot but feel the greatest re- luctance in touching upon.

From the situation I am placed in, as Commanding the 73d Regiment, I conceive it a duty to watch over its' — interest, and shall therefore, with the utmost confidence trust to my representation meet- ing with that indulgence and attention, which is so well known to characterize your Lordship's measures.

The order of Government, under date the 31st. ultimo and issued to this Army yesterday, relative to the — Paymaster of the 73d. Regiment precludes the Officer holding that situation, from executing the duties of the Office, part of which duty is, to make out a General monthly Distribution, which is signed

26th

by him, and countersigned by the Comm-
-manding Officer - On this distribution,
the Kings Pay of the Regiment, is (-)
issued, the Distribution bearing a re-
-ceipt for the amount, also signed by
the Offices Paymaster, is forwarded to
the Paymaster General of the Forces in
England, by his Deputy in India, as a
Voucher for the proper expenditure of the
Sum; the accounts of the Regiment
are passed, or rejected accordingly.

The arrears of the (-)
Officers of the Regiment, more especi-
-ally those of the Field Officers, and (-)
Captains of Companies, are withheld on
the smallest informality, or inaccuracy,
in the accounts, and should the form (-)
required, not be attended to, the Regiment
will be exposed to the risk of having (-)
the arrears stopped, may, I believe, I (-)

may

Fort St. George, 26th November 1800

may venture to say, with truth, that the stoppage will most assuredly be the result.

The evil may, in all probability, not be confined to a limited period, but may continue for a series of years, and indeed it is possible that part of the Pay, termed arrears, may henceforth, never be received by the Officers of the Regiment. And it will equally involve in its consequences, all Officers of the Regiment, where ever they may be, such as may, hereafter, come into the Corps, and those who have no vote in the nomination of a Pay Master, among whom, I am classed, having no Company with those Officers who have appointed the Paymaster, and are security for him.

Relying with the most implicit confidence on the liberal intention of Government, towards the Corps serving

under its orders; and on it's not being
meant, that, the Regiment in general,
should suffer a manifest, and lasting
inconvenience, from the operation of an
order, of which an individual is the cause,
I sincerely trust, your Lordship may "
take such measures, as in your wisdom,
may appear necessary, to secure the arrears
to the Regiment, and, by so doing avert
the impending evil. ——

As an individual, I
have ever felt a pride in executing, to the
best of my ability, the orders of my Superi-
-ors, and Seniors, I therefore entertain a
hope that, no other motive will be attri-
-buted to my present representation, than
what naturally results, from having
the welfare, and interest of the Regiment,
I have the honor to Command, much at
heart — I have now to apologize for — "

Sir,

To Major General Brathwaite. Desiring him to give orders for the march of a Company of artillery from the Mount and the 6th Regiment of Native Cavalry from Arcot with a party of Pioneers from Vellore under Major General D. Campbell to Munny Droogun their way to the Ceded Districts. authorizing a Committee for casting horses in the 6th Regiment of Cavalry, and the Corps to be completed in horses from those of the 7th Regiment.

The Governor in Council having resolved that the Company of Artillery the 6th Regiment of Native Cavalry, and the Company of Pioneer, which the order of the 18th of May last directed to be held in readiness for field Service, shall move forthwith into the ceded Districts, I am directed by the Right Honorable the Governor in Council to desire that you will order the Officer Commanding the Company of Artillery to march and join the 6th Regiment of Cavalry at Arcot.

2740 Fort S.t George 26th November 1800

Instructions have been sent to the Military Board to deliver to the charge of this Detachment of Artillery such of the Gallapee Guns and Equipments as can be made ready for the Regiments of Cavalry above the Ghauts in the course of this week.

His Lordship in Council also authorizes you to order a Committee to be assembled for examining and casting such horses of the 6.th Regiment of Native Cavalry as shall be found unfit for the Service, and to complete that Corps to the full present establishment from the horses belonging to the 1.st Regiment now at Arnee.

The Governor in Council trusts that this arrangement will admit of the 6.th Regiment being in readiness to move as soon as it shall be joined by the Artillery and Guns from the Mount.

To Major General Brathwaite. Containing the Resolution of the Governor in Council on the complaint preferred by Lieutenant Colonel Dupont against Mr. Surgeon Duncan.

1.

I have the honor to acknow-
-ledge the receipt of your letter of the 9th
Instant.

2d.

Lieutenant Colonel Dupont
has stated a very heavy charge against

2746 Fort St. George, November 1800

27th

Mr. Surgeon Duncan, disobedience of the orders of his immediate Commanding Officer and of the Government; and inorder to — prove the position, Lieutenant Colonel — Dupont farther states that Mr. Elliott entered and quitted the Fort of Cuddalore without his knowledge.

3. The orders of Govern- ment, for the apprehension of Strangers travelling without passports, are expres- ly directed, to the Commandants of Garrisons and Stations; and it does not appear by — those orders to be the duty of Medical Gen- tlemen to examine suspected persons. If therefore Mr. Elliott entered the fort of Cuddalore without passport, it is a — manifest proof of extreme negligence on the part of the Commandant — and Mr. — Surgeon Duncan, being by no means — chargeable with the execution of those orders

could

Fort St. George 1st November 1800

could not without great indecency have imputed that negligence to his immediate Commanding Officer

4 It is evident therefore that Lieutenant Colonel Dupont can charge upon Mr. Surgeon Duncan a breach of duty, on no other ground than that of having deligated to him the execution of the orders entrusted to himself: and if this fact should be proven, it will establish cause for farther very serious animadversion

5 In either case it is manifest that Lieutenant Colonel Dupont has exercised his command with a great degree of indiscretion; and the consequences are a neglect of very important orders and the calumniation of an individual: This indiscretion, the Governor in Council is willing to impute to the infirmities of

Lieutenant

2748

Fort St. George 27th November 1800

Lieutenant Colonel Dupont; and would be reluctant in depriving him of a Command bestowed on him as the reward of long services. But it will be necessary for you to expect Lieutenant Colonel Dupont to the exercise of greater vigilance, and to place less reliance on the communications of persons not connected with the execution of his own duties.

My Lord,

From the Military Auditor General. Reports on the Balances stated in a letter from Captain Goldsworthy formerly Paymaster with the Detachment serving with His Highness the Nizam and recommends that they be written off to his credit and to the debit of charges Military.

1. In obedience to the orders signified in a letter from Mr. Secretary Webbe under date 6th March last, I have particularly investigated the Balances stated in a letter from Captain Goldsworthy formerly Paymaster to the Detachment serving with his Highness the Nizam, to have been charged against him by the Military Paymaster General an account of payments to the Families of the Troops composing that Detachment from the month of October 1793 to the month of July 1797 inclusive.

2. The result of this Investigation shews that the difference between

29th

between the Sums paid by the several Paymasters on account of the Families and the Sums Credited by Captain Goldsworthy on the same account amounts to Pagodas 13,458. 5. 70. which difference has arisen from payments to the Families of the Sepoys and others who died, having been continued until communications of the Casualties reached the Paymasters by whom such Payments were made, which communications may in many instances have been long delayed.

3. It is proper to observe that previous to the 7th July 1795 no regular communications of Casualties were made to the Paymasters to enable them to stop Payment in due time; But by an order of that date, the reports of all Casualties were directed

From the offic. Commanding Nor. thern Division. Reports Damage occasioned at Masulipatam by a violent Storm, and the repairs which will be required in consequence - expresses apprehension of the Troops suffering much from sickness - Reports that the Barracks near the Pettah are almost completed.

I have now the honor to forward a report of the Damage occasioned at Masulipatam by the violent Storm which happened on the night of the 28.th ultimo and of the repairs which will be required in Consequence

The report would have been transmitted

transmitted at an earlier period but as I was
desirous of obtaining the most exact information
as to the extent of the damage sustained by the Banks
thrown up by the late Mr. Topping I thought it
better to waite till the immense quantity of water
which had overflowed the swamp should be in
some measure drained off and an opportunity
be thereby afforded for examining with accuracy
the extent of the several Breaches.

From the inundated state of the
Swamp I am apprehensive we shall experience
a very sickly Season but I have much pleasure
in adding that the repairs of the Cantonment near
the Pettah are almost completed and I shall be able
to remove the Europeans into them in the Course
of a few days.

Will require to be raised upon an average 3 Feet 8 Inches.	N°3 I should particularly recommend this one to be advanced so as to join the one leading from the Fort to Galacaladinder, to prevent the spring Tides running over the Swamp from that Quarter; the intermediate Space of Ground between this Bank, and that of Galcaladinder, had before the late Storm, a range of Sand Hills that protected the Tides from gaining access to the Swamp, which are now reduced to a level.
The whole will require to be now raised.	
The whole of the Pipes will require to be taken up and aired in consequence the Salt water having gained access to them, The Pipes destroyed will require to be replaced with any Casualties that may occur in taking them up	The Pillah Road is in an extreme bad and worn out state, which will be so until the Embankments are repaired as the Spring Tides rise on it, to the height of 1½ and 2 Feet, The Road will require very considerable Repair; To put it in a good State for all Seasons, it should be raised 3 Feet in the Center with a Slope graduating to the Sides.

Sir—

Agreeable to General orders I left the Subsidiary Force at Hyderabad for the purpose of joining the Corps I belong to, at Nundy Droog, on the 7th of September last— but soon found the Roads to be so excessively bad occasioned by the very heavy rains that it was with the greatest difficulty, and exertion on my part, I was able to arrive at the Presidency on the Evening of the 20th Instant—

I was unavoidably detained Twenty Eight Days at Ongole, and seven at Nellore, and where it was considered I had to travel in the Heights of the Monsoon I presume it cannot be supposed I have loitered away any time—

By the Regulations of Government I know I am only entitled

to

Fort St. George 2d December 1800

to receive travelling Batta at the rate of Twenty five Miles per Day, but my case being of a singular nature I submit it with deference for the consideration of the Commander in Chief. I was unavoidably detained by the stress of weather, and at the same time necessitated to keep up my full Establishment of Servants &c.

A Certificate which I have the honor to enclose from Doctor Kennedy the Staff Surgeon at Hyderabad, will evince that I lost no time in setting out after he judged me sufficiently recovered from a long indisposition to bear the fatigues of the Journey again, if I may be permitted to state I had been but little more than two months with the subsidiary Troops before I was ordered away consequently my Tent Equipage became in a manner useless, and served for no other Purpose than to screen me

from

Fort St. George 2d. December 1800

from the inclemencies of the Two Monsoons on my March here; I therefore hope the Commander in Chief will be pleased to grant me in lieu of travelling Batta the difference between half and full Batta and Tent allowance until the Day I arrived here, which will be some Compensation for the Loss of Tent Purchases and the inconvenience I have been altogether put to, by marching at so unfavorable a time and Season — more particularly so, since I should have been in the receipt of these Allowances had I not quitted Hyderabad, until a more favorable opportunity, when half the Compliment of Servants &c. would have proved adequate to the Conveyance of my Baggage

Sir,

Please acquaint Major-General Brathwaite that out of the 25 Horses which were found to be unfit for Service belonging to the 6th. Regement this morning, that a great many of them would still do for the Longe and that they would be very useful to me for that purpose; I therefore request his permission to select such as would answer - Eight of them are good for nothing -

Gentlemen

Having lately met with a Malabar Native of Pondicherry acquainted with the preparation of a number of Medical Chymical preparations who reads and Writes French and who from being brought up by a French Chymist at Pondicherry and assisting him for many years, has attained a considerable share

Fort St. George 2nd December 1800

share of practical Chymical knowledge. I was
induced to desire him to shew me what he could
do in this way, being convinced that such a Servant
in the Medical Stores would be of the utmost
value and facilitate greatly the making of
many Compositions at a Cheap rate that are either
not or too sparingly supplied from Europe or that
are brought here with danger from the chance
of breakage—

Lunar Caustic being one of the
first which I was anxious to have in small
pieces for Bougies now much wanted from the
loss sustained in paring it down for this purpose
and which the quantity in store would but
partially admit. I tried him in its preparation
and found he could make it readily — The
Nitrous Acid being also in much request
and likewise in deficient quantity I questioned
him regarding it and found him well
informed on this, and on many other Chymical

preparations

2817 Fort St. George 2nd December 1800

preparations, in consequence I am getting
moulds of different forms for Caustic made,
and am erecting Dr. Scott's apparatus for the
Nitrous acid —

Satisfied of the ability of
Colenday for that, is the Name of the Native
I wish to employ, and that the additional
espence would be amply compensated I with
difficulty prevailed on him to allow me to
mention 10 Pagodas as his monthly pay, having
received he said more at Pondicherry before
it was taken — the advantage of a perma-
nent establishment however in the Company's
Service on finding I would not propose more,
induced him to agree and he is now waiting
the result of this —

I hope you will approve
Gentlemen of what I have done from motives
of public utility only, and that I will be
excused in requesting your favorable consideration

To the Right Honorable Lord Clive
President and Governor in Council
Fort St. George

My Lord,

From the Military auditor General Reports on the General Estimate for December—

Having examined the General Estimate for the Month of December 1800 which accompanied a letter from the Secretary to Government in the Military Department under date 26th instant, I have the Honor to report, that the sum of Two Lacks Eighty four thousand Two hundred and forty one Pagodas, Twenty five Fanams, and Thirty Cash (Pagodas 2,84,241. 25. 30—)
F C

Fort St. George 2nd December 1800

is admissible and issuable as follows—

	Pags.	F.	C.
From the General Treasury	1,33,817	- 30.	64
By Bills on the Military Pay. General—	1,50,423.	36.	46—
Pagodas ..	2,84,241.	25.	30.

The Paymaster at Seringapatam having stated a Balance on hand sufficient to Answer the probable demands of the ensuing month, the amount of his Estimate Vizt. (Pagodas 158,271. F. 13. C. 5.) has been deducted. The Estimates of the Paymasters in Malabar and Kanara not having been yet received, the Sum that will be required for the Payment of the Troops and other Military Charges in these Districts is not included in the present report—

I have deducted Pagodas Two Thousand (Pagodas 2000) from the Estimate of the Paymaster in the Baramahal, as it appears by his abstract of Receipts and Disbursements for October that his Nett Balance would be at least equal to that

amount

Fort St. George 2nd December 1800

amount—

Having found it necessary to write Circular Letters to the several Paymasters — calling upon them to transmit their abstracts of Receipts and Disbursements for each month in sufficient time to enable me to judge whether the Balances on hand were deducted from their Statements of Arrears, I have been informed by the Paymasters at Trichinopoly and Masulipatam, that their accounts were unavoidably — delayed owing to the inability of the Collectors to make the necessary advances at the begining of each months, It will no doubt be impracticable for them (The Paymasters) to make up and — transmit their accounts with in the period prescribed by the Regulations, unless the amount — admitted on each months Estimate is advanced by the Collector in sufficient time for that purpose, on this subject it is necessary for me to observe, that the non-transmission of the Paymasters

Abstracts

2825

Fort St. George 2nd. December 1800

Abstracts of Receipts and Disbursements at the period required renders my Countroul over their Estimates imperfect, as these Documents are the only effectual check on the Balances remaining in their hands at the close of the preceding month.

The amount of the Estimate of the Paymaster at Guntoor, refered to my examination on the 28th. instant, having been found correct, is included in the Sum now reported upon, as payable by Bills on the Military Paymaster General.

General estimate for the current month enclosed in his Letters of the 26th and 27th Ultimo –

the Military Auditor General –

The Right Honorable Lord Clive

President and Governor in Council

Fort St. George

My Lord

From the Military auditor General – Reports that he had in consequence of the orders which he had received applied to the Military auditor General at Bombay for information respecting Staff appointments &c in the Provinces of Malabar and Canara, Encloses copy of his letters on the occasion with copy of the answer which he received – encloses copy of letter from the Paymaster in Malabar. In consequence of the Letter which I had the Honor to receive from the Secretary – to Government in the Military Department – under date the 5th September last, I deemed it expedient to apply to the Military Auditor General at Bombay for information respecting the Staff appointments &c in the Provinces of Malabar and Canara, for the purpose of – being enabled to submit to the consideration of your Lordship in Council whatever might appear to be of a nature to require Instructions for my guidance in the audit of the accounts

of

2823

Fort St. George 2nd December 1820

with instructions concerning them— Reports that the pay of the Bombay artillery has been augmented in the exact proportion with the pay of their Infantry— requests instructions whether they are to be paid at the Madras rates or whether the pay of the Madras artillery, is to be increased in the latter case will prepare and send in a table shewing the increased to the different ranks—

of the Bombay Troops and Establishments in those Provinces. I have the honor to enclose copy of my letter on the occasion, with copy of the reply of the Military Auditor General at Bombay, and of the papers that accompanied it; also Extracts of the Regulations and Pay Tables of that Presidency referred to in No. 4, to which I have added remarks, shewing the difference of allowances to similar appointments under this Presidency, and such Explanations regarding other appointments peculiar to the Bombay Establishment, as may be useful in forming a judgement on the expediency of continuing or abolishing them, but as it may be necessary to refer to local circumstances under which some of these appointments were originally constituted it is probable your Lordship in Council may deem it expedient to refer the subject generally to the Investigation and report of

the

Fort St. George 2nd December 1800

the Committee of Military reform or Military Board, in order that the Staff appointments and the Establishments allotted to the several Departments may be regulated in conformity + with the general Principle that obtains under this Presidency—

2. With respect to the Staff appointments which are consonant to the Regulations for the Coast Army, I conceive that the allowances attached thereto, should be in all respects on the same footing unless your Lordship in Council should view the Deputy Commissaries of Stores in the same light as Commissaries on this + Establishment till further orders, and be pleased also to grant Full Batta to the Brigade + Major in each Province for the reasons given in my remarks on the Statement of the + Military Auditor General at Bombay - There are at present two muster masters in the + Province of Malabar, one in the Southern

and

Fort St. George 2nd December 1800

and the other in the Northern District who are required to muster the Troops and Establishments every month, but whether one will be sufficient for the performance of the same duties once in two months agreeably to the Regulations of this Establishment, may be determined hereafter, when the distance and nature of the communication between the different Stations in the range of each Muster Master shall have been ascertained. I have called for the necessary information on this subject, and shall communicate the result to your Lordship in Council or to the Committee of Military reform, according to the Instructions I may receive for that purpose —

3

I conclude that the allowance granted by the Bombay Regulations to Officers Commanding Regiments, and Battalions, adjutants and Quarter masters

of

Fort St. George 2nd. December 1800

of Corps for Writers Stationary and Lights, &
and to the Commanding Officers of companies
for Stationary are to be discontinued and the
whole to be considered on the same footing as
the Corps of this Establishment from the 1st. day
of September last, or such other period as your
Lordship may be pleased to determine, and that
Tent allowance and Baggage money and
Table allowance to Officers Commanding &
Brigades except when in the Field under
express authority should be abolished from the
same date, but with respect to the allowance
for the Repair of arms, and for Petty Stores
it is probable your Lordship in Council may
be pleased to continue them (being an Expence
supposed to have been actually incurred) until
the Corps can entertain the number of artificers
allowed by the Regulations of this Establish-
-ment which I conceive may be done by the
31st. December or the 31st. January at farthest.

The

2827 Fort St. George 2nd December 1800

The Washermen for each company of European Artillery and Infantry, and Lead Washermen for the Corps should I presume be struck off from the same date, as being an allowance unknown on this Establishment, but it will no doubt be necessary to continue the sweepers Halalcores (or Toties) and Lights to each Company of Europeans, until a Barrack master shall have been appointed for supplying the whole of the European Troops according to the Regulations of this Establishment —

4 I beg leave to request information whether the Establishment attached to the Officers Commanding the Provinces in Malabar and Kanara (as detailed in the Statement A annexed to the Extract of the Bombay Regulations) should be continued until further Orders, or if it is to be reduced to what is allowed under this Presidency, and from what date, the only part exceptionable, is

2828 Fort St. George 2nd December 1800

is the charge for Lights and Stationary and a Writer, but the Interpreter and Hircarrahs I presume may be necessary, and that the Commanding Officer at each of the fixed stations may also be allowed an Interpreter, at the rate specified in the Statement—

5 Your Lordship in Council will be pleased to decide whether the charge of the Provision Stores shall be delivered over to the Paymasters acting as Garrison Storekeepers, or continued with the Commissary of Provisions in each Province until a final arrangement shall have been made for the whole of the Establishments in Malabar and Kanara, in the latter case I apprehend that the present allowances and Establishments of the Commissaries of Provisions will be continued to that period:—

It may be proper to mention in this place, that the Commissary of Provisions in Malabar has also the general charge of the public Cattle

in

Fort St. George 2nd December 1800

in that Province, and it would appear from the Establishment of Servants allowed to this Department, that Elephants have been, if they are not now, a part of that charge, the particulars of which however will soon be known to the Officer Commanding the Army thro' the adjutant General, to whom monthly Returns by the Bombay Regulations, are directed to be made, of the number, state and condition of the Cattle and each Province—

6 I have enclosed with the other papers copy of a letter from the acting Paymaster in Malabar with my remarks on the several charges stated therein;— likewise copy of a letter from the Paymaster in Kanara requesting Instructions whether he is to take charge of the Provisions, at the several stations conformably to the Regulations of this Presidency—

7

2830 Fort St. George 2nd December 1800.

7 I have not yet received any certain information respecting the Staff allowed to the Detachment at Goa, but understand that a Deputy Commissary of Stores has been appointed to it, and that the Quarter Master of Brigade has charge of the Provisions of which he has sent Returns to the Military Board — The Staff at Goa will of course be regulated on the same principle as similar appointments in Malabar and Kanara —

8 Having compared the rates of pay of the Bombay Troops with those of the Native Corps, including the Gun Lascars, on this Establishment, I find that the former will be considerable gainers by the Transfer, even after bringing into the comparison the allowance of Half Batta which was granted by an Order of the Bombay Government under date the 26th February

Fort St. George 2nd December 1800.

February 1794, but directed to continue only so long as the high prices of the necessaries of life in the Provinces of Malabar should appear to require it — The only exception is, the Pay of Subedar of Native Infantry and 2nd Tindal of Gun Lascars whose pay with the addition of Half Batta, is rather more than the pay of the corresponding ranks on this Establishment, but under the above condition relative to the Half Batta. They can have no reason to be dissatisfied especially the Subedar, whose Pay under the late Regulations will be augmented in proportion to their length of Service — I presume the half Batta to the Native Troops in Kanara and Malabar is intended to be discontinued from the period that they are paid at the madras rates —

The Pay of the European Infantry as regulated by His Majesty's Warrant under date the 5th July 1797 is the same

Fort St. George 2d. December 1800

same on both Establishments, but the former pay of the Bombay artillery having been increased exactly in the same proportion as that of the Infantry, they receive more than the Madras Artillery whose pay remains as it originally stood, with the exception of the Drummer and matrofs who receiving less than the increased rates to the Drummer and Private of Infantry, were put on the same footing with them—

It appears that the new rates of pay to the Bombay artillery were established in consequence of the resolution of the Governor General in Council dated the 10th August 1798 (of which a Copy is enclosed) augmenting the pay of the European Troops in conformity to His Majesty's Warrant beforementioned, and at the same time directing "That to the present pay of the European artillery be added the precise Sum with which the Infantry pay has been augmented and that a deduction be

Fort St. George 2nd. December 1800

be made therefore in like manner and at the same rate as for the Infantry, when they are supplied with Provisions at the public expence: I request to be honored with your Lordship's Instructions whether the pay of the Bombay artillery is to continue as at present or to be reduced to the rates paid to the Artillery of this Establishment - In the former Case it is probable your Lordship may deem it proper to add to the pay of the Madras artillery the precise sums with which the pay of the Infantry has been increased, and to direct the whole of the artillery of both Establishments serving under this Presidency to be placed in all respects on the same footing. - In the event of the latter being your Lordships determination, I shall prepare a Table shewing the increase to the pay of the non Commissioned Officers Gunners Drummers and matrosses of Artillery in the exact ratio that the pay of the Infantry has been augmented

Fort St. George
18th November 1800

To Colonel Kerr

Military Auditor General at
Bombay

Sir

I have received a letter from the Secretary to this Government in the Military Department dated the 5th Instant (of which I have the pleasure to send you a Copy enclosed) informing me that the Troops of the Bombay "Establishment serving in Kanara Malabar "and Mysore having been entirely subjected "to the authority of this Presidency and the Civil "and Military Government of Malabar having "been also annexed to this Presidency - The Right "Honorable the Governor in Council has resolved

that

Fort St. George 2nd December 1800.

"that the Troops of the Bombay Establishment
"shall be put on a footing of exact equality
"with the Troops of this Establishment from the
"1st day of July last and that the Military
"Disbursements in that Province shall be
"subjected to the rules and Regulations now
"in force under this Presidency"—

In consequence of the above directions I have recommended that Copies of the Regulations for the guidance of the Paymasters, shall be transmitted to the Paymasters in those Provinces, and that the Military Paymaster General and myself shall furnish them with such Instructions and Forms as may be necessary for their Guidance, together with copies of every Regulation and General Order which may relate to their Department—

But in order to enable me to Comply with the directions of Government

in

Fort St. George 2nd December 1800.

in the fullest extent, I shall be extremely obliged to you for information as soon as possible on the following points Viz.t.—

1st. A List of the Military Stations in the Provinces of Malabar and Kanara, their relative distances from each other, and particularising those which fall within the range of each Paymaster—

2 An account of the personal Salary and Office Establishments granted to each Paymaster, together with every Contingent Allowances of whatever nature, which may be attached, under the authority of the Bombay Government, to their situations respectively—

3d. The names of the Public Staff officers of whatever description allowed in those Provinces, with a detail of the monthly allowances and Establishment attached to each—the Establishments of

Servants

Fort St. George

Sir

I On the 1st. Instant I acknowledged the receipt of your letter of the 13th. of last month, and have been much disappointed in not having had it sooner than now in my power to transmit to you the information you required; but by delays in the printing Office, beyond what I expected

Fort St. George 2nd December 1800

or could prevent, I have only this morning been furnished with the Copy herewith enclosed to you, of the Complete Code of Regulations for Military expenditure at this Presidency; which with the accompanying Manuscript Statements, will I hope prove satisfactory in reply to the several points of enquiry in your aforesaid Letter—

2 The manuscript paper No. 1 Contains the information required by your first Question so far as relates to the number of Military Stations; but as no Official information has ever been received at this Office of the distances they are from each other, the Order of the 12th of May last on Pages 49 and 50 of the printed Extracts of which orders was issued on a suggestion by me to obviate irregularity in contingent Charges for Officers moving from Station to Station on duty —

3 No. 2 will I flatter myself, be found to contain (with the help of the accompanying

2040 Fort St. George 2nd. December 1800

printed Regulations and Extracts of orders / all the information necessary in reply to your 2nd. 3d. 4th. and 5th. Questions — and I shall be extremely sorry if in any point, I have failed in my earnest endeavour for — yielding you the full and satisfactory information, you expect to receive from me —

4th. I would hope the Errors in the printed Pages cannot be many or material, as the proof Sheets were carefully Corrected in this Office; — and, with regard to the manuscript Papers, If I discover in the Office Copies any mistakes, or insufficiency in explanation, I shall hasten to correct or be further explicit as the case may require —

I have the Honor &c &c

Sir,

I lose not a moment in
acquainting you with my arrival at this place

Fort St. George 2nd December 1800

on the 31st. Ultimo, since which my time has been entirely taken up in making arrangements for the present Months payments conformably to the Regulations I had the honor to receive from your Office -

In perusing the several papers forwarded for my guidance, I observe a material difference in the Establishments attached to Corps, which the Bombay Troops have been in the habit of drawing, and those of the Madras Presidency, which have not yet been struck off. These I apprehend must be submitted to the Consideration of the Right Honorable the Governor of Fort St. George by the Commanding Officer of this Province, and in the mean time I shall consider it my Duty to make such payments only as are expressed in your Tables -

I conceive it material to acquaint you in reply to that part of your letter of the 30th. September respecting the Paymasters -

under

Fort St. George 2nd December 1800

under your Presidency having charge of the Provisions, that Mr. Watkins a Civil Servant on the Bombay Establishment has been acting as Commissary of receipts and issues at Mangalore ever since the Bombay Troops have been in Kanara, with Lieutenant Colonels allowances and an Establishment of 400 Rupees monthly, independant of such further allowance for moving Provisions &c. as the nature of the Service may require, which bills are invariably signed by the Commanding Officer of the Province, emergent Service, and has been considered as my Voucher for making the payment.

At Goa this duty is conducted by a Brigade Quarter Master with an additional allowance of 2 Rupees per day and an Establishment to the best of my recollection of 450 Rupees monthly, for I have no Official accounts to refer to, should it therefore be

the

Fort St. George 2nd. December 1800

the intention of the Right Honorable the Governor in Council that Iam to conduct this Department, I apprehend it will be necessary to give these Gentlemen Official intimation, in order that I may enter on the duties; as the commanding Officer of this Province seems to think that without such notice my order from the Military Secretary Major Turing is not sufficiently expressive to authorize him to make any alteration in the present made

It was my intention to have left this on the 9th. Instant for Goa by which time I hope to set things into a favorable train but in consequence of an express this Instant arrived from the Governor of Bombay, Iam under the necessity of proceeding on that day to cananore, this I trust will occasion no inconvenience as I have in the mean time ordered the present months payments to be made at that Station in conformity with

the

Fort St. George 2nd December 1800

the Regulations which I have dispatched for that purpose, and directed the most scrupulous attention to them in every particular.

I have the pleasure to acknowledge the receipt of your several letters with their enclosures, together with one from Lieutenant Colonel Brunton under the 25th Ultimo, and conclude myself in possession of the whole of your dispatches but the Book of printed Regulations which under my present circumstances is not material.

I have acquainted the Military Secretary of the manner in which the Provision Department is conducted here and at Goa, in the hope that I may be favored with any instructions on this head previous to my reaching that place, which would clear all doubts on the part of the Officer now in charge, and give me the means of making the necessary arrangements while on the Spot.

The Right Honorable Lord Clive

President and Governor in Council

Fort St. George

My Lord,

From the Military Auditor General - Recommends an Establishment to be authorized to the Paymaster in Malabar - Reports a Statement received from Major Cooke of the inconvenience which will arise from carrying into effect the orders of the 31st. October and requesting that the period at which the Bombay Troops are to be paid agreeably to the Madras rates may be fixed for the 1st. of November instead of October. suggests

I Having in obedience to the Orders conveyed to me in a Letter from the Secretary to Government in the Military Department under date the 20th September last, called upon the Paymasters in the Provinces of Malabar and Kanara to state the Establishment of Servants that would

August directing the Coins in which payments are made to be stated on the back of the abstracts—Encloses letters from the acting Deputy Paymaster to the Kings Troops at Bombay and recommends that the Subsistence to the 75th. and 84th. Regiments from the 25th. June to the 24th. December 1800, may be brought to account as suggested—

be indispensibly necessary for conducting the Duties of their respective Departments, I have been furnished in consequence with a Statement from Major Cooke acting Paymaster in Malabar, Copy of which and of the letter which accompanied it I have the honor to enclose, of the Establishment which he proposes for that province and which on a Comparison with that formerly allowed, and from what he states in his Letters on the subject I consider to be moderate, and therefore recommend that it may be authorized accordingly—

2. I have the honor to enclose Copy of a Letter from the same Officer dated the 14th. Instant, in which he represents the inconvenience that will attend the carrying into effect the General Orders of the 31st. October, directing the payments to the Bombay Troops and Establishments in the Provinces of Malabar and Kanara, to be made at the Madras Rates from the 1st. of that month including the arrears for September, the payments for

for those months having been previously made at the Bombay Rates; and expressing an earnest hope that the period of the alteration may be extended to the 1st. of November, that is to say for all payments to the Europeans in advance for November and to the allowances paid in arrears for October. The reasons which he has urged for this proposition appear to be deserving of attention, and in this view of the Subject, They leave to submit them to the consideration of your Lordship in Council -

3 With respect to the difficulty stated by Major Cooke, in complying with that part of the General Order of the 13th. august, which directs Officers and Heads of Departments to state on the back of their Bills and abstracts, the Coins in which they may have been respectively discharged; certain it is, that if the abstracts and Bills after being sent to him in the first instance

for

Fort St. George 2nd December 1800

for examination previous to a Draft being passed on the Collectors for the amount, are to be returned to the parties concerned to have the prescribed Certificates added to them, this process must necessarily occasion considerable delay in the making up and transmission of his accounts Disbursements, but I apprehend the intention of the Order will be equally answered by the Officers and Heads of Departments being required to transmit to the Paymasters on receipt of the amount of the Bill or abstract a Certificate stating the Coins and Rate of Exchange in which they have been discharged, which Certificate he will of course attach to the Bill or abstract before his accounts are transmitted for audit — By this modification of the Regulation, he will have the abstracts and Bills in his possession to enter in his accounts, and no delay will be occasioned by the Officers being required to transmit the prescribed Certificates to the Paymaster after Payment, while at the same

time

time the necessary check in regard to the application of the several Coins, in which advances are made to the Paymaster, will be strictly observed; I beg leave therefore to recommend the adoption of this mode in situations where the payment of Bills or abstracts, at a distance from the Station where the Paymaster resides, are made by Orders on the Collectors to facilitate the dispatch of public business—

4 I have likewise the honor to enclose copies of Letters forwarded to me by the acting Deputy Paymaster General to the Kings Troops, from which it appears that His Majestys 75th and 84th Regiments serving in the Provinces of Malabar and Kanara or at Goa, have received their Subsidence in advance to the 24th December next from the Presidency of Bombay—

5 As the Pay and allowances of the Troops of the Bombay Establishment in those Provinces and at Goa, were ordered to be charged to the Presidency from the 1st July last, and as the period for making up

Fort St. George, 2nd December 1800.

up the Distributions of Subsistence to His Majestys Troops is from the 25th. of one Month to the 24th. of the Month succeeding, I conclude that the Subsistence of the 75th. and 84th. Regiment is chargeable to the Presidency of Fort St. George from the 25th. June last, and therefore beg leave to recommend, that agreeably to the proposition of the acting Deputy Paymaster General to the Kings Troops at Bombay, which appears to have been approved by the Military Auditor General at that Presidency, the Distribution of Subsistence to those Regiments from 25th. June to the 24th. December 1800 may be audited by Colonel Kerr - the amount passed, charged to this Presidency - and an account thereof transmitted by him to my Office; and farther that the Deputy Paymaster General to the Kings Troops at Bombay, be directed to forward Duplicates of the Distributions between those periods respectively to the Deputy Paymaster General to the Kings Troops at Fort St. George, who will then enter them in his

his accounts, and give Credit for their amount to the Presidency of Bombay, by which operation the business will be recorded exactly in the same manner as if the accounts had been in the first instance transmitted to, and passed in, my Office——

To. Major General William Sydenham

Military Auditor General

Fort St. George

Sir,

Your letter of the 5th Instant accompanied with Extracts from General Orders, under date 13th August and 31st October, I have this day been favored with, and in Reply to that part respecting the Pay to Shroffs, have to observe that in consequence of the Responsibility attached to this description of people, it is necessary to oblige them to find Security for the Public Money, which must unavoidably, in a great degree, be committed to their charge; I therefore with the view of inducing men of Credit and responsibility to come into the Pay Department, stated their Pay at Rupees 50. or Star Pagodas 14-12- and I do declare upon honor, that I believe this to be the lowest rate at which People of this description can be obtained for; where Security is required from them.

If the Resolution of the Right

Fort St. George 2nd December 1800

Honorable the Governor in Council under date the 31st
October are enforced, it will occasion the greatest
Confusion imaginable; as not only the Disbursement
accounts for that month, but the Vouchers must be
returned to the different Departments, and Corps to
be made over again, and which from, the present
divided state of the Army on this Coast, must be
attended with inconceivable difficulty and delay; and
I do not believe it could be compleatly effected,
without transmitting many of the Abstracts to Bombay,
(where several Officers who drew their allowances in
the Province, in the Month of October) have since
gone to join the Corps to which they are attached;
I should therefore hope that a Representation on
this point from you, to the Right Honorable the
Governor in Council might induce him to postpone
the Payments being made agreeable to the System
of the Madras Presidency, till the 1st. of the
Present Month, — that is subsistance to the
Europeans for November and allowances

paid

Fort St. George 2nd December 1800

paid in arrears for October. It may be necessary to observe, in order to exonerate my Department from Censure, that the Table of Pay and allowances did not arrive at this Office till the 9th of October last, at which period the greatest part of the payments had been made—

There will be no difficulty in complying with the first part of the Extract from General Orders under date 13th August; but the latter directing Officers and Heads of Departments to state on the back of their Bills or Abstracts the Coins in which they may have been respectively discharged," I am apprehensive cannot invariably be attended to, as all payments are made in the Southern Districts by Drafts on the different Collectors in those Districts most contiguous to the Stations where the Payments are required, and as all abstracts or Bills must first come to this Office for examination previous

to

2921 Fort St. George 2nd December 1800.

to a draft being passed for their amount, I conceive it impracticable / unless such abstracts or Bills are returned to the parties to affix the required Statement / which mode, from the time it would take up, would preclude the possibility of the Paymaster transmitting his accounts to the Presidency at the period directed in the Regulations for the Pay Department -

I beg leave to enclose for your notice a Statement of the Coins most generally current in the Province of Malabar, but which are issued at much more than their real value, and altho' they pass in the Bazars at the rates specified; the soldier suffers by it, as the merchant charges for his goods in proportion, to the rate at which he is obliged to receive Coins in payment -

Acting Paymaster 75th Regiment

Sir,

I lose no time in replying to your Letter of the 10th Instant received here a few days ago, and would have done so, still sooner but waited to have a Conversation on the Subject of it, with the auditor General—

On the supposition that the Troops in Malabar would not be paid by the Madras Government, until after the 24th of December, but be continued to be paid by the Bombay Government up to that period at least;

2925

Fort St. George 2nd December 1800

I included the 75th and 84th Regiments in my Estimate given in for the ensuing Muster as usual.

I therefore recommend to you, notwithstanding the orders you say you have received to be paid by the Madras Government, to make up your accounts as heretofore with this Office, for the Muster from 25th October to 24th December 1800 — Inclusive and the amount will of course be afterwards charged by this Government to that of Madras and Copies of your abstract will be sent thither from this Office —

The 24th Regiment at Goa have adopted this Plan for the ensuing Muster tho exactly in the same predicament with you, and therefore you had better adopt it also, as I presume it will be attended with considerable inconvenience to you and the Corps to be so suddenly as the 24th of October struck off the Bombay Establishment —

I

Fort St. George 2nd December 1800

I have only to add that I am authorized to write you as I have done in the foregoing part of this letter by the Military Auditor General— —

Resolution and orders on the foregoing—

The Board deeming it expedient that the Regulations in force under this Presidency should be introduced as soon as may be practicable into the several Departments of

Fort St. George 2nd. December 1800.

of Military disbursements in the Provinces of Malabar Canara and at Goa -

Regulating the Pay and allowances to the different Staff appointments and Departments in the Provinces of Malabar and Canara & to the officers commanding in those Stations - annulling certain appointments in those Provinces -

Resolved That the appointments of - Commissary of Provisions and of Commissary of Supplies shall be abolished, and that the Paymasters in their Capacity of Garrison Storekeepers shall receive Charges of and Conduct the Duties of those Departments in the same manner as is practised under this Presidency, from and after the 31st. day of January next; and that the Military Auditor General be directed to ascertain the increase of Establishment which will be required in consequence of this arrangement, to the Paymasters in order that it may be authorized -

That the recommendation of the Military Auditor General to prolong the period of - payment to the Troops of the Bombay Establishment - according to the Madras rates to the 1st. of November last be adopted and authorized by a General Order -

That the Payment of Bills or abstracts by orders on the Collectors be disallowed in all cases; and

Fort St. George 2nd. December 1800

and that all Paymasters shall provide in their own Departments, for the issue of pay and allowances which may be required at a distance from the Stations in which they may reside—

That the 4th. and 5th. paragraphs of the foregoing letter of the 25th. Ultimo be transmitted to the Governor in Council at Bombay and that he be requested to give the necessary orders for the adjustment in the public accounts of the Subsistence paid to His Majestys 75th. and 94th. Regiments agreeably to the suggestion of the Military Auditor General.—

That the Establishment of Servants for the Paymasters Department in the Province of Malabar be approved and authorized—

That the allowances at present drawn by the Officers Commanding in the Provinces of Malabar and Canara be abolished, being entirely unauthorized by the Regulations and practice under this Government, but in order that the Individuals at present enjoying those allowances, may not suffer pecuniary detriment by the late resolutions directing all the Officers Troops and Departments of

Fort St. George 2nd December 1800

of the Bombay Army serving under this Presidency to be paid according to the Madras Rates, it is further Resolved to Grant to Colonel Sartorius and to Lieutenant Colonel Mignan a Compensation of one hundred Pagodas ℔ Month as long as they shall respectively hold the Command of Malabar and Canara: but this indulgence is by no means to be construed into a right, or quoted as a precedent on the removal of those Officers from their present Stations.-

That as Colonel Sartorius has been appointed to be Chief Engineer under the Presidency of Bombay, he be permitted to draw the allowances attached to that Station in addition to his pay and allowances, as the Commanding Officer of the Province of Malabar.-

That the Regulations concerning Colonel Sartorius and Lieutenant Colonel Mignon are to be ineffect from and after the 1st. day of January next.-

That the allowances granted by the Bombay Regulations to Adjutants and Quarter Masters of Corps for writers Stationary and lights; and to the Officers commanding

Fort St. George 2nd December 1800.

Commanding Companies for Stationary, shall be discontinued from the 31st. of the present Month after which they are to be placed on the same footing in this respect as the Officers belonging to Corps of this Establishment --

That Tent allowance and Baggage-money shall be abolished from the 31st. of the present Month --

That Table allowance to Brigadiers can only be granted by express authority --

That after the 31st. of the present month no allowance shall be paid on account of Washermen and Head Washermen to European Corps -- but that the Barrack Servants at present attached to European Corps and the allowance drawn for supplying them with Lights and Barrack articles according to the practise of the Bombay Establishment, are to be continued until the Barrack Masters to be appointed under the existing Regulations of this Presidency shall have provided for the supply of those articles --

That

Fort St. George 2nd December 1800.

That Officers holding the Staff appointments of Majors of Brigade, Judge advocates, Muster Masters, and Fort adjutants shall be placed on an exact footing in point of Staff pay and allowances with Officers in similar situations on this Establishment from and after the 31st Instant.

That the Salaries and Office Establishment of the Deputy Commissaries of Stores and of the Medical Staff shall be governed by the Regulations inforce under this Presidency from the 31st of the present month.

That the Office of Agent for building, and the Office Establishment of Engineers, and the Salary of the Provost Martial shall be discontinued from the 31st of this month.

That the allowances heretofore drawn for Lights shall be discontinued to Officers of all descriptions from the same date; and the allowances drawn for the repair of arms from which time an Establishment of artificers &c. shall be provided

To the Right Honorable Lord Clive
President and Governor in Council
Fort St. George

My Lord,

From the Military auditor General Reports on the General Estimate for December—

Having examined the General Estimate for the Month of December 1800 which accompanied a letter from the Secretary to Government in the Military Department under date 26th instant, I have the Honor to report, that the sum of Two Lacks Eighty four thousand Two hundred and forty one Pagodas, Twenty five Fanams, and Thirty Cash (Pagodas 2,84,241. 25. 30—)
F C

Fort St. George 2nd December 1800

is admissible and issuable as follows—

	Pags.	F.	C.
From the General Treasury	1,33,817	- 30.	64
By Bills on the Military Pay. General—	1,50,423.	36.	46—
Pagodas ..	2,84,241.	25.	30.

The Paymaster at Seringapatam having stated a Balance on hand sufficient to Answer the probable demands of the ensuing month, the amount of his Estimate Vizt. (Pagodas 158,271. F. 13. C. 5.) has been deducted. The Estimates of the Paymasters in Malabar and Kanara not having been yet received, the Sum that will be required for the Payment of the Troops and other Military Charges in these Districts is not included in the present report—

I have deducted Pagodas Two Thousand (Pagodas 2000) from the Estimate of the Paymaster in the Baramahal, as it appears by his abstract of Receipts and Disbursements for October that his Nett Balance would be at least equal to that

amount

Fort St. George 2nd December 1800

amount—

Having found it necessary to write Circular Letters to the several Paymasters — calling upon them to transmit their abstracts of Receipts and Disbursements for each month in sufficient time to enable me to judge whether the Balances on hand were deducted from their Statements of Arrears, I have been informed by the Paymasters at Trichinopoly and Masulipatam, that their accounts were unavoidably — delayed owing to the inability of the Collectors to make the necessary advances at the begining of each months, It will no doubt be impracticable for them (The Paymasters) to make up and — transmit their accounts with in the period prescribed by the Regulations, unless the amount — admitted on each months Estimate is advanced by the Collector in sufficient time for that purpose, on this subject it is necessary for me to observe, that the non-transmission of the Paymasters

Abstracts

2825

Fort St. George 2nd. December 1800

Abstracts of Receipts and Disbursements at the period required renders my Countroul over their Estimates imperfect, as these Documents are the only effectual check on the Balances remaining in their hands at the close of the preceding month.

The amount of the Estimate of the Paymaster at Guntoor, refered to my examination on the 28th. instant, having been found correct, is included in the Sum now reported upon, as payable by Bills on the Military Paymaster General.

The Right Honorable Lord Clive

My Lord

From the Military auditor General – Reports that he had in consequence of the orders which he had received applied to the Military auditor General at Bombay for information respecting Staff appointments &c in the Provinces of Malabar and Canara, Encloses copy of his letters on the occasion with copy of the answer which he received – encloses copy of letter from the Paymaster in Malabar. In consequence of the Letter which I had the Honor to receive from the Secretary – to Government in the Military Department – under date the 5th September last, I deemed it expedient to apply to the Military Auditor General at Bombay for information respecting the Staff appointments &c in the Provinces of Malabar and Canara, for the purpose of – being enabled to submit to the consideration of your Lordship in Council whatever might appear to be of a nature to require Instructions for my guidance in the audit of the accounts

of

2823

Fort St. George 2nd December 1820

with instructions concerning them— Reports that the pay of the Bombay artillery has been augmented in the exact proportion with the pay of their Infantry— requests instructions whether they are to be paid at the Madras rates or whether the pay of the Madras artillery, is to be increased in the latter case will prepare and send in a table shewing the increased to the different ranks—

of the Bombay Troops and Establishments in those Provinces. I have the honor to enclose copy of my letter on the occasion, with copy of the reply of the Military Auditor General at Bombay, and of the papers that accompanied it; also Extracts of the Regulations and Pay Tables of that Presidency referred to in No. 4, to which I have added remarks, shewing the difference of allowances to similar appointments under this Presidency, and such Explanations regarding other appointments peculiar to the Bombay Establishment, as may be useful in forming a judgement on the expediency of continuing or abolishing them, but as it may be necessary to refer to local circumstances under which some of these appointments were originally constituted it is probable your Lordship in Council may deem it expedient to refer the subject generally to the Investigation and report of

the

Fort St. George 2nd December 1800

the Committee of Military reform or Military Board, in order that the Staff appointments and the Establishments allotted to the several Departments may be regulated in conformity + with the general Principle that obtains under this Presidency—

2. With respect to the Staff appointments which are consonant to the Regulations for the Coast Army, I conceive that the allowances attached thereto, should be in all respects on the same footing unless your Lordship in Council should view the Deputy Commissaries of Stores in the same light as Commissaries on this + Establishment till further orders, and be pleased also to grant Full Batta to the Brigade + Major in each Province for the reasons given in my remarks on the Statement of the + Military Auditor General at Bombay - There are at present two muster masters in the + Province of Malabar, one in the Southern

and

Fort St. George 2nd December 1800

and the other in the Northern District who are required to muster the Troops and Establishments every month, but whether one will be sufficient for the performance of the same duties once in two months agreeably to the Regulations of this Establishment, may be determined hereafter, when the distance and nature of the communication between the different Stations in the range of each Muster Master shall have been ascertained. I have called for the necessary information on this subject, and shall communicate the result to your Lordship in Council or to the Committee of Military reform, according to the Instructions I may receive for that purpose —

3

I conclude that the allowance granted by the Bombay Regulations to Officers Commanding Regiments, and Battalions, adjutants and Quarter masters

of

Fort St. George 2nd. December 1800

of Corps for Writers Stationary and Lights, &
and to the Commanding Officers of companies
for Stationary are to be discontinued and the
whole to be considered on the same footing as
the Corps of this Establishment from the 1st. day
of September last, or such other period as your
Lordship may be pleased to determine, and that
Tent allowance and Baggage money and
Table allowance to Officers Commanding &
Brigades except when in the Field under
express authority should be abolished from the
same date, but with respect to the allowance
for the Repair of arms, and for Petty Stores
it is probable your Lordship in Council may
be pleased to continue them (being an Expence
supposed to have been actually incurred) until
the Corps can entertain the number of artificers
allowed by the Regulations of this Establish-
-ment which I conceive may be done by the
31st. December or the 31st. January at farthest.

The

2827 Fort St. George 2nd December 1800

The Washermen for each company of European Artillery and Infantry, and Lead Washermen for the Corps should I presume be struck off from the same date, as being an allowance unknown on this Establishment, but it will no doubt be necessary to continue the sweepers Halalcores (or Toties) and Lights to each Company of Europeans, until a Barrack master shall have been appointed for supplying the whole of the European Troops according to the Regulations of this Establishment —

4 I beg leave to request information whether the Establishment attached to the Officers Commanding the Provinces in Malabar and Kanara (as detailed in the Statement A annexed to the Extract of the Bombay Regulations) should be continued until further Orders, or if it is to be reduced to what is allowed under this Presidency, and from what date, the only part exceptionable, is
