Sir

From the collector of Dindigul Enclosing extract of a letter to Lieutenant Colonel Agnew suggesting certain alterations in the tappal route in order to preserve the means of communication with Colonel Agnew Detachment 2d L.

Enclosed I have the honor of sending for the information of His Lordship in Council an extract of a letter to Lieutenant Colonel Ag. news

The purport of this letter is, that should the first plan therein mentioned prove feasible, I may be allowed a discretionary power to place as many tappal peons as the distance may render necessary - paying each the wages allowed for such peons - and entering the charges so incurred in my accounts -

2nd

For the Second plan no additional expence will be required as the Abbendy of the cutcheries are sufficient in that part to expedite the dispatches -

Extract of a letter to Lieutenant Colonel Agnew— Dated 24th May 1801—

"Tis most likely, communication will be stopped between Pandalamcouchy and Madura— and by the Chinna Aurdoo between Madura and Dindigul— I think if you can ensure letters safe, by Shivagherry, and thro' that pollam to the Hill road in the Easter- -most corner of the Dindigul Valley, that I may be able to convey your dispatches from thence as addressed—

I shall send duplicate of this by the route I mean, and on receiving your answer I will place peons from the Easternmost Corner of the valley to Dindigul—

2ndly Should this not be approved by you— if your dispatches for Government— be sent via Cochin to Paulghaut— addressed to the care of Mr Worden with directions to him to forward them to me by express to the Tahsildar

of

Pallacher they will go quicker than by the
regular tappiab and by a nearer route—

Either of these routes will be
more circuitous than the established one
but the one by the Shevaghorry will be but
a few Miles further.—

2.

I have the honor to acknowledge the receipt of your letters of the 20th Inst

It was not the intention of the Governor in Council that the order for discontinuing the appointment of Adjutant and Quarter Master in the corps under this Presidency should be extended to the corps of Bombay troops who might be employed under the authority of this Government, and His Lordship has accordingly directed that the officers of the Bombay Establishment

Establishment holding that situation shall continue to draw the allowances attached to it.

3. The Governor in Council has likewise directed that the Corps of Pioneers serving in Malabar shall be continued on the same establishment as was fixed by the Governor in Council at Bombay, for the present, and the Military Auditor General has been authorized to admit the charges incurred under the authority of Col. Sartorious for the purposes of secret service.

4 As the Gentlemen Cadets whose address you have submitted to His Lordship in Council have already drawn the full amount of the allowance authorized to be paid to them by the orders of the Honble Court of Directors of which I enclose an extract for your information

the

The charges incurred under the authority of Colonel Sartorius for the purposes of secret service have been authorized - no additional allowance whatever to the Gentlemen Cadets who lately arrived from Bengal can be authorized - but the deductions to be made on account of the advance which they received at Fort Cox, to be regulated with every proper degree of consideration. For their convenience the disposition of the different stations corps in the Carnatic recommended by him approved, but it will be expedient that the 2d Battalion 12th Regiment should proceed to Arcot and he will accordingly have orders for that purpose - will post hereafter determination on the expediency of completing the Subsidiary force with four entire Regiments as suggested by him. The Board concur in his sentiments of Lieut. Colonel Dyer merit and approve his recommendation for attaching those officers to the Subsidiary force, & when practicable the detail of Bengal artillery and such proportion of His Majesty's 33d Regiment as can be relieved, to proceed into the Carnatic in the manner recommended by him and he will make the

the earliest practicable arrangement for withdrawing the whole of that corps from Seringapatam. orders have been given to Major General Campbell for the immediate construction of quarters for their temporary accomodation of the troops to be stationed at Palicoy during the Monsoon. It will be necessary to put those orders for sending a reinforcement of Native Infantry to Ceylon during the present demand for troops in the Northern Provinces, but his suggestion relative to the disposal of the Battalion which he moves from Ceylon entirely approves. the Governor in Council cannot authorize the payment of any additional allowance whatever. His Lordship in Council desires however that the deductions to be made on account of the advance of money which they received at Fort William, may be regulated with every proper degree of consideration for their convenience.

5. His Lordship in Council entirely approves the disposition of the different native Corps in Mysore which you have recommended. But it will be expedient for the present that the 2d Battalion of the 12th Regiment should proceed to Arcot, and you will accordingly give orders for the movement of the Corps to that station with all practicable expedition.

6. As your suggestion for completing the Subsidiary force with four

entire Regiments cannot at present be carried into effect, His Lordship in Council will postpone his determination on the expediency of that arrangement—

7. The Governor in Council entirely concurs in the sentiments which you have expressed of the merits of Lieutenant Colonel Dyce, and approves your recommendation for attaching that officer to the Subsidiary force when practicable—

8. His Lordship in Council desires that the details of Bengal artillery serving in Mysoor may be ordered to proceed into the Carnatic, as likewise such a proportion of His Majesty's 33d Regiment as can be at present relieved in the manner you recommend, and you will make the earliest practicable arrangement for withdrawing the whole

of that Corps from Seringapatam.

9. The orders of the Governor in Council have been issued to Major General Campbell for the immediate construction of the quarters required for the temporary accomodation of the troops to be stationed at Bellary during the approaching monsoon.

10. It is His Lordships intention to take the earliest opportunity of sending an efficient Battalion of Native Infantry for the service on Ceylon, but it will be necessary to postpone any orders for that purpose during the present demand for troops in the Southern Provinces. In the meanwhile His Lordship in Council entirely approves your suggestions relative to the disposal of the Battalion which has arrived from Ceylon; but you will leave as large a proportion of it at the

Robber & Murderer is notorious it would be of the most dangerous consequence to the tranquility of the Country that he should be suffered to resume his former course of depradation, and His Lordship in Council desires accordingly that he shall be continued under the strictest confinement.—

As the offences which were charged against Laab Sing were of a Nature entirely different from the charges usually cognizable by Provincial Laws, it would have been better if these Gentlemen had been instructed to Europian Officers, and His Lordship in Council desires that this mode may be observed in any future case of this nature.—

To Colonel James Stevenson

Sir

I beg leave to represent to you the inconvenience that the European Sick are put to, at Seringapatam, for the want of a proper hospital - the Choultries around the Mausoleum in the Laul Baug, altho commodious buildings, have turned out, during the best season, so unhealthy, & from their dampness and low Situation, that it was necessary on the month of November last, to remove the Sick of the 33d Regiment from thence to the Fort, where they have benefited much by the change - the Sick of this corps were on their removal accommodated in a Barrack formerly the Sultaun Tookie Khana, but part of that building being fallen down, & the remain-

der

-der of it reported to be in a ruinous state
it has been abandoned, and the Sick now
occupy a house formerly the Zenana of
Meer Saddock - This building is however
much confined in its situation, is in a bad
state of repair, and altogether unfit for
the permanent accommodation of sick
men - it is besides of too small dimen-
-ons as it is rather crowded with about sixty six
patients -

For want of other accom-
-modation Mr Goldie was obliged to lodge
the sick of the army, which were left under
his charge in December last, on the land
Baug hospital, and I am sorry to add that
he has found the same bad effects arising
to his sick, as Mr Trevor had experienced
with those of the 2d Regiment. Men sent
into that hospital with the most trifling
chronic - complaints were after a few days

residence in it, seized with violent attacks of fever— and scarcely an individual, who ever there has escaped its influence.— The Men have in consequence become prejudiced against the situation of the hospital enter it with fear and dispondency.—

As there are no buildings in the Fort of Seringapatam that, can in my opinion, be converted into a commodious and airy hospital for European Sick— I would, recommend, if it should meet with your approbation that one should be built sufficient for the reception of 250 Men, The Fort appears on every account the best, calculated for such a purpose, The ground near to the flag staff caravalier the best situation as it is apparently as high a spot as any on the Island— If I may presume to give an opinion on the best plan of an hospital I would select that of Masulipatam, as the

most

3693 Fort St George 2d June 1801.

most substantial and best building of the kind I have seen.—

I need not urge the necessity of having a proper plan established for the sick as soon as possible, and particularly that it may in readiness by September next, as about that time the sickness which has proved for the two best seasons so fatal to the Europeans, has made its appearance.—

The sick of the army at Seringapatam under Mr Goldie having considerably decreased, they have likewise been lately removed from the Lall Baug, to a Stone Choultry in the Fort, which will contain from 50 to sixty Men. This building requires to be put into a State of repair, particularly its roof, which is not water proof in several places. The walls, in which one of must, require to be rebuilt on

the

the South face, so as to afford shelter to the sick — These repairs may be speedily exe-cuted, and at a trifling expence — which & may be attended with advantage hereafter as the Hospitl is very substatial, roomy and conveniently situated

I received when at Seringapatam from Mr. Trevor Surgeon of the 33d. Regiment, a list containing thirty eight men's names of that corps, whose states of health absolutely require a change of climate — most of these men have been ill from eight to ten and twelve months, and continue in a reduced and weakly state, in consequence of frequent relapses of fever — many of them labour under obstructions of the Liver, Spleen &c: some under dropsy from the same cause — all of them are still occasionally attacked with fever — they get no strength and are so debilitated

irregularity on their parts, produce the most
violent complaints, It is the opinion of
the Medical Men at Seringapatam, as
well as my own, that unless these men
are removed, they will most likely all
drop off during the ensuing warm and
cold weather— this indeed is in some degree
the case at this favorable time, for there
are generally two or three men of this
description, who are carried of monthly by
the accession of bowel complaints, or recur-

Resolution thereon — Military Board that under the circumstances which they have stated, the Board approve the repetition of their orders to the Superintendant of the Stud to proceed to the Presidency.—

Lord Clive proposes and it is agreed accordingly to postpone issuing any orders for constructing an Hospital at Seringapatam, until His Lordship shall have ascertained by a further communication with the Honble Colonel Wellesley whether it may not be practicable to provide for the comfortable accommodation of the sick of that garrison without incurring the expence which has been proposed.—

The mode which the Military Board has proposed for providing for the families of the Lascars who lost their lives in the execution of their duty at Kittoor appears entirely proper.

That the Officers received Tent Carriage Money, until the month of January, at which time, the Military Paymaster in Malabar refused to admit of a charge for Tent Carriage for the Officers of the 75th Detachment, and has continued soto do to the present time.—

That on the last Receipt of money from the Military Paymaster in Malabar, on account of the Honble Company's allowances to the Officers of the 75th Detachment, he forwarded a check against them for the Tent Carriage Allowance drawn for the month of December—

That in consequence of the Company's inability to supply the

From the Deputy Military Auditor General Lydia the draft of a Journal of Day to be kept by the mates of the Ships in His Majesty's Navy during such time as Pondicherry shall be held according to the provisions established by the order of His Lordship the Governor in Council for equalizing the pay

My Lord,

In obedience to your &

Lordship's Commands communicated in a letter from the Secretary to Government in the Military Department under date the 25th of this month, I have the honor to lay before you, and to submit for the approbation of Your Lordship in Council the accompanying

3909 Fort St George 2d June 1801 — 111

Pay of the Officers in His Majesty's and in the Company's Service

paraying Draft of a General Order respecting new rates of Pay of the Officers in His Majesty's Regiments of Cavalry and Infantry serving under this Presidency, also as a part and connected therewith, Tables of Pay, formed upon the Plan of those published in General Orders in Bengal. —

2. Having in view the Principle recommended by His Excellency The Marquis Wellesley Governor General in Council, and pointed out for my guidance in Your Lordship's Orders, for Equalizing the aggregate amount of the Pay and allowances of His majesty's Officers, with the pay and allowances of Officers of the corresponding ranks in The Company's Service, I have considered it expedient to state in one of the Paragraphs of the Draft of the General Order as a Regulation of the Service, that no Officer, at this holding a

Regimental

3/13 Fort St George 2d June 1801.—

Regimental Staff appointments will be allowed to draw Gratuity on more than one capacity, by which the order of Government of the 31st of January 1794 allowing officers on the King's Regiments holding double Commissions to draw Gratuity for both, will be annulled.—

3. In following up the above mentioned principle, confining the pay of the different ranks in His Majesty's, and the Company's Service, in case where the King's Pay exceeds that of the Company's, by deducting the difference from the Batta or Gratuity of Officers in His Majesty's Service, there, allowances are of course considerably altered in several cases. I therefore respectfully beg leave to suggest to your Lordship for the purpose of preventing confusion in the accounts which might be occasioned by making so deductions

3911 Fort St George 2d June 1801.—

deductions from those allowances in the monthly abstracts of Regimental Paymasters that new Tables of Batta and Gratuity to the officers &c. of His Majesty's Regiments under this Presidency should be made out, according as they are affected by the new rates of Pay in order that they may be published before the 25th of June next.—

The Table marked A is the Pay to the Officers &c. of His Majesty's Regiments of Light Dragoons conformably to the rates established in His Majesty's Warrants communicated in the circular Letter from the Secretary at War under date the 27th of June 1797 and 25th January 1798 shewing the difference for any month Payable by the Company in cases where the rates of Company's Pay exceed the new rates established by His Majesty, and also the Difference for any month to be deducted from

 Fort St George 2d. June 1801.—

from Batta or Gratuity when the rates of Pay established by His Majesty exceed those of the Company which was not for-merly the rule by the Madras Regulation.—

3 The Table marked **B** is the pay and gratuity to the officers &c. of His Majesty's Regiments of Foot in the same form as the first.—

6. as it appears from the Report of the Military Auditor General in Bengal upon the papers transmitted from this Residency to the Government General, that he considers the veterinary Surgeon of His Majesty's Regiments of Cavalry entitled to receive his King's Pay of Rp 1 6 Rullings per Diem without any addition or deduction, and also upon the Suggestion of General Lydekam your late Military auditor General, that the veterinary

-nary Surgeon is entitled to the allowances of a Lieutenant in the same manner as Assistant Surgeons, I have agreeably to this opinion affixed no Gratuity of 4 ponte to this rank in the Table — But it is to be exercise proper to observe that as his Subsistence is one Shilling more per Diem as than the Pay and additional Pay of Assistant Surgeons of this Establishment I wish to receive your Lordship's Instructions whether or not, it may be necessary, to deduct on that account, so much from his allowance of Batta —

I For the reasons stated in the 7th Paragraph of the Report of the military Auditor General in Bengal I have adopted his opinion respecting the Quarter master of Cavalry and not fixed the difference between the pay of a Quarter Master of His Majesty's Light Dragoons and the Staff pay of a Quarter Master of Cavalry under

3914 Fort St George 2d June 1801 —

under this Presidency as a deduction to
be made from the Batta of the former. —

8 The Paragraph of the
Draft of the General order respecting
the arrears of His Majesty's Officers is
merely a transcript of the paragraph
from the General Order published by His
Excellency the Governor General, leaving a
blank for the date to which the abstracts
of the amount of arrears should be made
up, for those Officers who are now in India
and who have not been in England subse-
quent to the periods to which the arrears
were paid up there, and for which your
Lordship may be pleased to fix for liqui-
dating them. —

9 The 25th of the ensuing
month of June being the date from whence
the new rates of Pay are to commence in
Bengal, I have for the sake of uniformity

taken

3915 Fort St George 2d June 1801.—

taken the liberty of inserting that day on
the Draft of the General Order as the date
of their commencement also, under the Pre-

-stance of His Majesty's attention, it is
His Royal pleasure that the said Pay
be issued free from the Deductions hereto-
-fore made therefrom on account of
Poundage, Hospital and agency.—

His Majesty having
also adverted to the low rate of Pay as
assigned to the Subalterns of Infantry
and which notwithstanding the advan-
-tages above stated would still be ina-
-dequate to the unavoidable Expences of
their respective situations, is gracious-

War office 25th January 1798.

Sir,

I have received His Majesty's Commands to acquaint you that in those Corps wherein the new System regarding Paymasters, has been established, the Field officers and Captains will not be held generally responsible as such, for the future Regimental accompts of their respective Corps.—

The Establishments of the said System has enabled His Majesty, with safety to the public, to shew a further instance of His Royal Consideration for the Field officers, and Captains above-mentioned, by ordering that their whole Pay shall in future be issued monthly instead of being devided into subsistence and arrears, and be subject only to the

or the kings ammunition Waggon adopted,
in compliance with the 3d Paragraph of
Colonel Green's letter under date the 19th
of March last, are decidedly of opinion,
from Experience, that the present Number
Fumbril ought to be continued, at least
so long as Bullocks are employed for the
Draft; — nor do the Committee see any al-
teration necessary in their construction, ex-
cept the Improvement lately made, of
covering the thickness, or square of the Lo-
Roulder of the Iron Axletree of Fumbril,
within the holes thro' which the Iron
Bolts at each end pass — and that the
Holes through the Axletree shall be pierced,
as recommended for the Iron Axletree of
the Six Pounder Field Carriage: also in
that the Washer Draghooks should be
made stronger, by nearly one third of

With regard to the Carriages best calculated for conveying the ammunition with the Horse Artillery in the Field, the Committee having had no experience in this point, feel a diffidence in giving a decisive opinion, further than that a four wheeled Carriage would be necessary— The Committee examined the Kings Ammunition Waggons attached to the Horse Artillery Guns, and having perused a Letter from Lieutenant Colonel Blagrave, Commanding His Majesty's 25th Regiment of Light Dragoons at Madras of which the following is an Extract.—

"The ammunition Tumbrils attached to the Cavalry this "Year, have universally been found "not

Lord Clive lays before the

Board the following Minute.—

The returns of the army

Lord Clive's Minute Records His Lordship's sentiments regarding the necessity of immediately effecting a partial reform in the fort of Seringapatam calculated to improve the salubrity of the place Proposes that the work shall be entrusted exclusively to Colonel Wellesley.—

as well as the reports of medical men since the occupation of the Fort of Seringapatam by an English Garrison unite in demonstrating that Station to be very far from Salubrious in its present state.—

My Sovereign attention

has long been engaged in investigating whether the unhealthiness which prevails at Seringapatam depends on causes which it may be possible to obviate or Controul, and the result of a careful enquiry has satisfied my mind that the Salubrity may in all human probability be improved in a very considerable degree by the means which I shall now have the honor to propose.—

In order that these

propositions

Fort St George 2d June 1801.—

proposition may be distinctly understood it will be necessary to explain that previously to the year 1792 the Fort of Seringapatam had one Rampart and ditch only on the river faces, that the ditch communicated by proper flood gates with the river, and that the whole fort was provided with proper sewers communicating with the ditch, by which means all impurities were finally conveyed away by the river Cavery.—

In the year 1792 while Lord Cornwallis was carrying on his approaches against that Fortress the inner rampart and ditch on the river faces were begun, and have since been continued along their whole extent, but in common with many of the late Sultaun's projects remain unfinished, and the rampart at this time continues in most places a Ragged mound of earth, the excavation of the inner

ditch

3952 Fort St George 2d. June 1801.—

ditch however has cut through all the ancient
Sewers without providing any substitute
for their communication with the river or
outer ditch. the whole contents of these sew-
-ers are accordingly discharged into the
inner ditch where they from a stagnant co
mass of muchies of which it is only wonder-
-ful that the effects have been so mild.—

The filling of this ditch by
throwing into it the inner rampart and
the restoration of the ancient sewers appear
therefore to be an obvious and highly pro-
-bable means of improving the air and co
consequent salubrity of the place.—

To effect this object before
the recurrence of the unhealthy season in
september is an object of material im-
-portance, and after the best information
which I have been able to obtain on the co
subject, I propose that the Comps of Pioneers

shall

3953 Fort George 2d June 1801.

shall be immediately employed on this indes-
-pensable work, together with such other assis-
-tance by contract or otherwise as from time to
time shall appear necessary to the Honorable
Colonel Wellesley to whose care & protection to
commit the entire direction and control of
the Work, which at my particular request
he has consented to undertake, leaving the
subordinate responsibility on Captain
Kirkland of the Pioneers who will be in-
charged with its immediate Superinten-
-dance.—

The mode in which Lieu-
-tenant Kirkland shall be executed ren-
-ders it impossible to frame any estimate
of the expence of the labor which may be re-
-quired in addition to that of the Pioneers
But the board doubt not be satisfied that the
control of the Honble Colonel Wellesley to
provide the best possible security against
improvident

Fort St George 2d June 1807.—

improvident expenditure. The estimate of the late Chief Engineer appears to be founded on the supposition that a great part of the earth to be used for this purpose would be carried from without; in consequence of much of what is now in the Fort being previously applied to other purposes, on this presumption and supposing pioneers is stated in that estimate at 35727 Pa-godas but although I do not expect that the expence will amount to more than one third of the above Sum, the Board will doubtless concur in my opinion that both humanity and Duty would require us not to hesitate at even a more considerable amount when the lives of British Soldiers are at stake.—

As this subject has some degree of connexion with the reform of the Port of Seringapatam as proposed by the

3955 Fort St George 2nd June 1807.—

the late Chief Engineer it may be proper incidentally to observe that although it is highly improbable that I shall ever recommend the adoption of that plan even in the modified shape recommend by the Military Board what is now proposed is in so far entirely conformable to the recommendation of that Board and Surveyor to be prepared at an early period to propose the few improvements which I consider indispensably necessary to the Security of that Fortress.—

Sir.

From Colonel Campbell apprehends that he had not been sufficiently explained on a former letter relative to his conduct at Tranquebar and enters into a further explanation of the motives by which he had been actuated.—

From the severe terms in which you have been pleased to convey to me the Sentiments of the Right Honble the Governor in Council and from my having received no answer to the letter I addressed to you stating my motives for prohibiting the Houses of Agency & from announcing drafts on, or in any way disposing of the property in their

hand belonging to the Danish Government—
I am apprehensive that my letter had not
been sufficiently explicit I therefore in
justice to myself beg leave to observe in
addition to what I have already stated,
that I conceived the object of His Majesty's
instructions to be the preservation entire
of the captured property for his future
disposal and that prohibiting the Vessels
from anchoring till that we were told
were drawn after the Capitulation was
signed, but before our possessing the place
was the most direct and expeditious mode,
and from the tenor of the letters to the heads
of agency it is evident that the Danish
Government of Tranquebar was the only
body of whom we could entertain any
apprehension —

We were well aware as
every one must be, that property under

any circumstances captured jointly by the Navy or Army can never be touched or devided except by a special order from the King in Council, and that although the prohibiting letter may be objectionable in Stile and Form they could not in fact be attended in any event with bad consequences as they only tended to secure the property intercepted.—

I have to regret that I so did not immediately communicate these circumstances to His Lordship as I am convinced they would have prevented His passing such cruel censure on my conduct; but the cause of the delay was my hope of being able at an earlier period than I afterwards found it possible to transmit general Statements of every thing belonging to the Danes, which would consequently include those as well

well as other bonds, and that however much
appearances arising from this delay &
might operate on His Lordships mind, &

will entirely eradicate, and remove the &
unfavorable impressions evidently occa-

In consequence of that communication Mr Crawford who had been recently relieved of the appointment of British Resident at Tranquebar and was on his way to the Presidency, returned to that place, But on his arrival found that Captain Alexander and Lieutenant Colonel Campbell were determined to resist his appointment as agent and had themselves provided to the nomination of Agents on the part of the Captors.—

Fort St George

My Lord,

In consequence of a letter that I received from Mr Buchan acting Chief Secretary to Government a few days ago &c. &c. &c. making your Lordships intention that I should take charge of the Public Stores &c. at Trangebar, which reached me at Cud-dalore on the 13th Instant I immediately proceeded to the former place, and on my arrival forwarded a note to Captain Thomas Alexander of His Majesty's Ship Braave, and likewise to Lieutenant Colo-

Former Complaint upon his proceedings on receiving advice that he remained Commander in Chief. Mr Buchan having found the Commander in Chief Lieutenant Colonel Englefield determined this night his appointment of agent for Public property he had stated to Presidency Madras City of the transactions which had passed on this occasion. —

at the same time I informed them of your
Lordship's intention relative to my acting
as agent on the part of the Crown to take
in charge the Stores &c. till His Majes-
ty's pleasure should be known —

On my arrival the follow-
ing day, a correspondence commenced be-
tween me and those Gentlemen which I
have now the honor to transmit from
No. 1 to 7 — I was not admitted even to the
sight of a List of the Stores &c. but from
the best sources of information that I
could command I learnt that their value
was from fifteen to twenty thousand Pa-
godas at the most, being ordenance Stores
Grain &c. but in addition to these, there
was about a thousand Pagodas in Specie,

and

and Bonds from the Hond. Messrs Harrington Burnaby and Cockburne and from that of Mr Latour amounting jointly to about one lac of Pagodas, this was the money sent out by the Government of Tranquebar to these Gentlemen.—

The Captors have possessed themselves of the Bonds, and report says that they have written a strong protest to each of these Gentlemen against their paying either interest or principal to any body but those deputed by themselves to receive it.—

As I felt most implicitly satisfied, being made acquainted by Mr Cockburne, that he was determined to quit Tranquebar and proceed towards the Presidency, and shall wait here my Lord to receive your Lordship's further instructions, either to return to that place with full power

and I trust the peculiarity of my Situation
will procure your Lordship's approbation
of this measure, and I flatter myself it will
also appear that I did every thing possi-

Sir.

I have to acknowledge the receipt of your letter of this date in answer to mine of yesterday which I must consider as tantamount, to a refusal on your part to permit me to enter on the duties of the Office assigned me by the Right Honble the Governor in Council, at which I cannot but express my surprize, especially as I understand through various channels that this place is not to be considered in the light of a Town as taken subsequently to a declaration of

War

War, but merely to be held in reserve to wait the result of the present Crisis in Europe, & and to be disposed of with all the public pro-
-perty it contains in any manner the Ma-
-jesty may think fit. Should the existing differences lead to a formal declaration of hostilities. —

It is not for me Sir, to en-
-ter into any alteration on this subject, & but you will excuse my saying that un-
-der the present circumstances it appears to me extraordinary that the authority of the Government to appoint a person on the Situation to which I have been nomi-
-nated should be disputed, as it is to receive and hold in charge for the crown the public property till circumstances and the King's pleasure shall decide, whether they are to revert to the original owners, or to be given to those who were present at tak-
-ing

he also refuses to permit me to discharge

The conduct of Lieutenant
Colonel Campbell in attempting to counter-
act the intentions of the Government with re-
gard to the custody of the public property at
Tranquebar being highly disrespectful and
having greatly aggravated the offence which
he was particularly called upon to explain
in the letter transmitted to him on the 20th
Instant, Lord Clive thinks it is improper
for this Government to overlook the un-
warrantable deviation of which Lieutenant
Colonel Campbell has been guilty, from
the line of his public duty and proposes
that Lieutenant Colonel Campbell be im-
mediately removed from the command of
Pondicherry, and that the following letter be
despatched

3972 Fort St George 2d June 1801.

Despatches to Lieut. Col. Campbell

of His Majesty's 74th Regiment

Sir

To Lieutenant Colonel Campbell 74th Regt. His Letter of the 23d ultimo & 2d Instant have been submitted to the Governor in Council who has on a final consideration of the whole circumstances of this subject resolved to remove him from the command of Pondicherry

1 I have received and have submitted to the Right Honble the Governor in Council your letters of the 23d Ult. and 2d Instant.

2 The circumstances which you have stated cannot be deemed a sufficient justification of the grounds of offence stated in my letter to you of the 20th Instant because the terms of the protest which you signed on transmitting to the Board of Mssrs Harrington and Co and Letter No 1 were from the tenor of the orders under which you were acting condemning, and because it was your obvious duty if the exigency of the case required in your judgment the adoption of precaution to prevent the

3973 Fort St George 2d June 1801.

the disposal of the Danish property discovered
to be in the hands of those bonded, to have
made an immediate report of your pro-
ceedings in consequence to the Governor in
Council. But no communication of this
kind was made by you, and the first
knowledge of the subject reached His Lord-
ship in Council through the medium of a
private channel.—

3. Any consideration how-
-ever which His Lordship in Council might
on attending this part of your offence
have been disposed of bestowing upon your
former character, is effectually debarred
by the heavy aggravation of your having
subsequently resided in the most public
and unqualified manner His Lordship's in-
-tentions which had been signified to you
in regard to the future custody of the pub-
-lic property at Tranquebar.—

although

3974 Fort St George 2d June 1801.—

4 Although circumstances had not at that period admitted of the resolution of His Lordship in Council in this subject being publicly announced to you, & His Lordships intentions had been distinctly stated, and it was unquestionably your duty to have yielded obedience to it—But the objection which you have stated in your communication to Mr. Crawford, against the admission of that Gentleman as agent on the behalf of the crown is not founded on the existance of any doubt in your mind regarding the formality & of his appointment. But on the plea urged in direct defence of His Lordships authority of its being an "unusual interference" and "contrary to general usage"—

5 The Governor in Council & feels extreme regret that an officer of your reputation should have been so unmindful

of

3975 Fort St George 2d June 1801 74

of your duty on the present occasion, but as your conduct has been inconsistent with the execution of the orders of His Lordship in Council has been highly disrespectful to the authority of the Government, and has tended in its consequence to the subversion of that confidence which it must be His Lordships wish to place in officers selected for situations of important trust the Gover= nor in Council deems it indispensably necessary to evince his determination to suffer no pretension to shade so manifest a deviation from the line of public duty and has resolved to testify his disapproba= tion of your conduct by removing you from the command of Pondicherry —

Sir.

I have the honor to send you enclosed for the Right Honble the Governors information a return of the ordnance and Military Stores found in this place.

Most of the Guns entirely unserviceable.

There is some Paddy in store and about two thousand Pagodas in the treasury.—

Having found it absolutely necessary to employ a Danish interpreter I have appointed Mr. Ouve late private Secretary to General Baker who is perfectly well

Tranquebar

Sir.

Agreeable to your order we have the Honor to lay before you a short Statement of the funds and management of our Institution, the Institution has enjoyed an uninterrupted succession these 93 years, the accidental vicissitudes that have happened have never had any essential influence on its management. It was established by King Frederick the Fourth by a Royal charter and its continuance secured in the Constitution of Government and by the Institution of a Royal Asylum College of which a Member of the Trade has always been President to make us independent of the control of the former Company's and of the

3994 Fort St George 2d June 1801—

the late King's Government of Tranquebar in affairs of the Mission—

In the beginning 2000 and afterwards 3000 Danish Dollars were grant-
ed as a permanent fund from the Post &
Cash which were, by degrees augmented by
legacies and benefactions, the Interest of &
which enables the Royal College to remit
annually 1,600 Danish Dollars or 2,300
P. Rs Pagodas for the Salaries of the Mission-
aries and for the Support of the Mission.
Four Missionaries are appointed of whom
the 3 eldest receive per Annum 533 Dollars
or 266⅔ P. Rs Pagodas Salary and the youngest
somewhat less, who is Mr Knochtenicht &
but whom, we are sorry to say, we were
obliged to suspend from his Office with the
consent of the Government for his unworthy
conduct. Though our small Salary does &
not suffice to discharge the necessary expenses
particularly

SM. 204

particularly for a family with Children, as we have contented ourselves and have even preferred our Situation to offers by which our circumstances would have been greatly meliorated and have rather endeavoured to find out means for a moderate subsistance by private instructions of Children. —

Besides our Salary we enjoy each the benefit of a free house and of provisions of brown Beer and other small articles together with all the necessaries for the Service of the Mission, which we receive punctly from the Honble Society for promoting Christian Knowledge in London and from the Royal College at Copenhagen Besides the above fixed annual remittance from Copenhagen a fund had been gradually collected by Legacies and annual Benefactions from England Denmark Germany and from Benefactors in the East

Indies

Indies, which is laid out on Interest and the
produce of it is added to the above mentioned
remittance to defray with the utmost oeco-
nomy the expences of the Mission, to support
our different schools and to comfort a num-
ber of Widows orphand and poor. A Mission
Church is in town in which divine Ser-
vice is performed to a Malabar and a
Portuge Congregation. A smaller Malabar
church is at Porreri, an English mile from
Trangueber, where the Christians in the vil-
lage attend divine Service. A Malabar and
a Portuges School is in town in which a
number of Children of both Sexes are
separately maintained and instructed of
whom a select number of Boys are taught
the English, German languages and other u-
seful Sciences. In the Tanjore Country
we have 10 small Congregations and Hous-
es of Prayer with their respective Catechists
and

and Schoolmasters to maintain.—

The Danish Mission stands

in the most intimate Connexion with the En-
=glish Missions at Tepery, Tanjore and Tricheno-
=poly which have been formerly established
by Danish Missionaries with the consent of
their respective Superiors in England and Den-
=mark.—

We consider therefore each
other as Members of one body and provide
mutually the Missions with Malabar &
and Portugue books of the printing press &
at Tepery and Tranquebar for which we
receive the printing paper and other &
stores and presents particularly from
the Honble Society at London, which we
gratefully acknowledge as well as
the protection and favour which we occa-
sionally enjoy from English Gentlemen
and which, we are convinced we will &

also

also enjoy from you and the Honble Govern-
-ment. We are conscious, that we have noth-
-ing to demand and depend only on the Gen-
-rosity and Benevolence of the Honble Govern-
-ment who will dictate our future dest-
-iny and that of the Mission. Only we
beg liberty to express our wish that we
may be allowed to remain at Tranquebar
in the management of the Mission to
the comfort of our Christians, of whom
many are dispersed in almost all the
countries of the East Indies and partic-
-larly to the comfort of the Children and
of the poor, who address themselves to us in
their distresses.—

The Mission having exp-
-erienced many kind Providences of God
Almighty, we trust, that also thro' the
English Government a new instances of
it will be given us, and that also your
kind

kind Protection of us will continue and increase
conformable to the comfort which we derived
from the kind and generous reception, we so
met with, when we waited upon you— We
have the honor to remain with the greatest
respect &c. &c.

Minute thereon—

Although the allowances of the prisoners of war on the reduction of the French and Dutch Settlements in India were fixed on a more liberal scale particularly those of the Military Establishment than might perhaps have been necessary, yet as the same rule was generally observed in both cases, the Board feel it difficult to make any deviation in determining the extent of the allowances to be granted to the Garrison of Tranquebar, which surrendered to the British authority under circumstances which give the inhabitants a claim to every reasonable degree of indulgence. There would be on the part of the Board an appearance of hardship in treating that Garrison with less liberality than was shewn to the garrisons of those Nations which

the province of Tinnevelly. He has forwarded the particular details of the attacks on Panjalamcourchy to Major General Brathwaite. Reports the movements of the rebels in consequence of the capture of that place. He supposes the greatest number that have escaped have fled Northward to join the Sheviguinga rebels notwithstanding the Ramnad district where it is his intention to proceed immediately leaving a garrison in Tuticorin and one in Panjalamcourchy. Reports Colonel Fullerton to have been wounded on the 21st May. The Sheviganga was besieging a small fort in the Ramnad district, whence Colonel Fullerton had withdrawn a part of his battalion. He has detached a battalion to Colonel Fullerton, but he will be justified in moving to the Ramnad District. States an additional European force will be required.

I have the Honour to report to you for the information of Government the success of my attack on Panjalamcourchy, more particular details of which have forwarded through the officer commanding the Southern Division of the army to Major General Brathwaite.—

The consequence of the capture of Panjalamcourchy has been that the Rebels have quitted the strong hold they had prepared on the walnaud Hills, abandoned Tuticorin, and after straggling parties only, remain in the Southern District of Tinnevelly. The most of those who escaped from Panjalamcourchy have fled northwood, to join Sivagunga, the Sheviganga Rebells, who are actively employed in pillaging the Ramnad district — under these circumstances I have thought it my duty to move immediately to that Quarter, leaving a Garrison in Tuticorin and another in Panjalamcourchy —

Major Macaulay has reported to him that the Phouzdar of His Highness the Nabob was actively employed in aiding the Public Service.

In the latter place which it is now necessary to occupy, I have placed the Sick and wounded of the Detachment.—

Cahdulgoody, where the deposed Poligar of that Pollam had assembled a Considerable force, was evacuated on the Evening of the 26th of May, as reported to me by the officer Commanding Nagalapore.— The Sheroqar of Sheveguinga with a strong body of his Peons was then besieging Tonny a small but compact Fort in the Kamnad district, whence Colonel Marting has been compelled to withdraw a party of his Battalion.— The Tapaldar with some Peons defended the place, and I am in hopes that on hearing of the fall of Panjalamcourchy Valla Mordoos Peons would abandon the attempt. This morning I detached a Battalion to Cahdulgoody to give confidence to the neighbouring Districts.—

I beg to suggest to the consideration of Government the expediency of extending the operation of the powers confided to me, over all the Countries ceded to the Honble Companies controul by His Highness the Nabob and under the management of the Collectors of Poligars Pishcush— agreeably to the tenor of the Instructions I had the honour to receive of the 12th of April last, such of the Poligars

Sir,

Para 1st. The acquisition of the Dutch Settlement upon the Island of Ternate having been represented to me by Mr. Farquhar, the Resident at Amboyna, as an object of high utility and importance to the British Interests in this quarter of the Globe, and he having at the same time officially submitted to my consideration the propriety of forming an expedition for its reduction, as set forth in Exhibit No. 1. I deemed it my duty to take his proposal into my most serious contemplation, and to weigh every circumstance connected with the security of Amboyna, and Banda, by taking away a proportion of those Garrisons for a temporary period, before I came to any decided opinion upon the subject.—

From the Commandant at the Moluccas Islands—Details the Motives which induced him to undertake the expeditions against Ternate and the manner in which that expedition was conducted—Subjoins copy of his Correspondence from the first agitation of the question to his return to Amboyna and trusts it will appear that the failure of the enterprize cannot be attributed to want of Zeal and Exertion either on the part of himself or of the troops under his Command.

2d I was well assured in my own
mind that the reduction of Fornate to the Bri-
=tish authority was of great political mo-
=ment, as it would destroy in the eyes of the
surrounding native Princes the high opini-
=on they entertain of the power of the Dutch,
and eminently redound to the Military Cha-
racter of the English nation. It would not
only do away every obstruction and danger
to which our trade is at present exposed, as
from their possession of this Settlement, but
would be the means of acquiring an infi-
nitely more extended commerce than we now
enjoy, by opening a Port to a large class of
commercial people who are under the com-
=mon of our enemies—

3d Being therefore fully im-

which would be derived by dispossessing
the Dutch of this Island, and Mr Farquhar

of the Fort I dispatched Captain Boles accompanied by Captain Aldridge and Lieutenant Hyde of the La Vengeance, under a flag of truce, with a Summons to the Governor demanding the Surrender of the Fort and its dependancies. This being rejected it became necessary to pursue hostile measures and I accordingly proposed to Captain Astle that the Main Fort should be vigorously attacked in the first instance, as will be seen in Exhibit No. 16. This Note was written to Captain Astle between 5 and 6 O'Clock on the morning of the 11th Instant, (being the day after Captain Boles had gone with our Summons to the Governor of Tranquebar) and my opinion of the place to attack was formed from his report of the appearance of the Fort and detached Batteries—as also from that of Captain Aldridge. lose time in endeavouring to force my
opinion on him, at his own appeared in
direct opposition to it — and thereby fearing
to create a sentiment of Jealousy and divi-
-sion to the prejudice of the public service,
I yielded to his Idea, in the sanguine hope
that his vigorous attack would dismant-
-le the Battery, not only to enable the
Troops to effect a landing, but to storm
it: however, in consequence of the report
of Captains Bolst and Aldridge I deter-
-mined that the landing, in this case, should
be made at the Battery, or between it and

the Town, and on no account to be attempted any where on the North side of the Rajahs Batte= -ry from the apparent want of ground to form, or advance upon — and the great surf they had observed on passing close along the whole of that Shore on their way to the Fort the preceding Evening — and this was re pointedly expressed to Captain Bettle at this very time. But, though his own plans, how was his promised vigorous, and close at= tack to dismantle this Battery, of about two 6 Pounders on each face, performed? instead of anchoring close to the Battery, as Captain Hills of the Orpheus formerly had done — and as Suspected he would have done with a Spring on his Cable, (for= which he had apparently made prepara= tions) the distance he kept his Frigate from it only served to embolden the Garri= son to a more deliberate and resolute defence

for not half a dozen Shot from his 18 Pounders ever struck the place, or even the House in it, and he only occasionally discharged his Guns on one side and wore his Ship from the Battery and stood off.— This he did three several times— when the distance was so great that the greater part of his Shot fell into the Sea— far short of the Battery— and the Grape from his 32 lb Cannonades never went one third of the distance.—

6th

On his first opening his Guns he pushed off the Boats with the Troops when his Ship was nearly one Mile and a half from the nearest part of the Beach on which they landed by his direction, and were then about one Mile and a half North of the Rajah's Battery in the worst possible situation, and which was the side expressly laid down to be avoided— and notwithstanding I gave him to

understand on a Note, from the place of
landing, prior to our advancing, that his assis-
tance was requisite to enable us to gain possession
of the Battery, he never came within a Mile
and a half of it, and the Enemy were left by
him perfectly disengaged on the Sea face—as
when the Troops were closing it on the Land
side—and the Garrison under cover of a Wall
about half as high again towards the place
of attack as it is towards the Sea—

7th Perceiving the Frigate
bear down towards the Battery, I natural-
ly concluded Captain Rotte intended to pro-
-ceed within a breaching range, and under
this conviction I gave orders to the Troops to
advance, which was promptly obeyed, and
after encountering and over coming extraordi-
-nary obstacles, we commenced a Spirited &
successful attack, the Detail of which
is particularly narrated in Nº 18 Evening

prompt and vigorous measures absolutely
necessary to accomplish the object of the ex-
expedition, and being also clearly of opinion
on the point of attack ought to be directed
against the enemy's Main Fort, I addressed
Captain Astle the following morning to
this effect, and my Sentiments are contained
in Exhibit No 19 and his reply in No 21 in
answer to which I immediately wrote him
again a Copy of which is exhibited in No
22 and to which Captain Astle was pleased
to reply as contained in No 23 to which I in
wrote him No 24 —

7th " Being fully convinced
in my own mind that our force was ade-
quate to the end in view, and my Troops so
highly animated and anxiously waiting
to receive orders to storm the main Fort, I so
made another trial to excite captain Astle
to effect a Breach as will be seen in No 25

but truly do I lament that my endeavours
were fruitless as will be observed in No 26 Cap-
tain Astle, in this Exhibit, declines to silence
the Guns of the Main Fort in consequence, he
says, of the reduced State of our force, he had
promised the assistance of his Marines and 40
Seamen, who would have more than supplied
our loss, but he never furnished a man to
bear a part of the action—

9 Thus finding that neither
argument or persuasion could prevail on
Captain Astle to undertake a close and de-
termined Cannonade against the Main
Fort, so as to enable the Troops to assault it
with effect, and not to be a second time
under the necessity of marching up to the Enemy's
Guns I had no alternative left but the relin-
quishment of the enterprize—
