To George Buchan Esqre Secty to the Government

Fort St George.

Sir,

From the Lieutenant Governor of Prince of Wales Island Reports that the Officer Commanding at Malacca had declined complying with his request for a reinforcement of Troops from that Station & that he is under the necessity of detaining Lieuth Rochead & his Detachment at the Islands.

In my Letter to you of the 27th April last, I mentioned the probability of my finding it necessary to detain Lieut Rochead and his Detachment as a Guard to the Polygar Prisoners sent to this Island under that Officer's charge, unless Lieutenant Colonel Taylor commanding at Malacca could reinforce this Garrison with a Company of Bengals Sepoys.

Rochead and his Detachment until such an increase of Force may arrive as will enable me to relieve him from his present charge, when the Detachment shall be sent to the Coast by the first opportunity. — This Circumstance, and Captain Ley having reported his Vessel ready to return to the Coast, I have been under the necessity of giving him permission to proceed on his Voyage without the Detachment.

30 The following Extract of a letter from the Board of Revenue is ordered to be recorded in the proceedings of the Military Department -

Extract of a Letter from the Board of Revenue

Dated 10th. February 1802.

Extract of a letter from the Board of Revenue to the Collector of Dindigul with accounts of the pay & arrears due to the troops & servants of the late Nabob Azeem Jauh of the Mutteraddies & others submitted for consideration.

1st. Vide Board of Rev. Consult. 1st. February.

We have the honor to lay before your Lordship a Letter from the Collector of Dindigul, forwarding accounts of the pay and arrears due to the troops and Servants of His Highness the late Nabob. —

2. The total amount due to the Troops was C.C. Two thousand nine hundred & forty-seven Cash (2940-7) Two thousand and one hundred three fanams and six Cash (2100-3-6) have been paid, and Eight hundred and thirty nine, seven fanams and one Cash (839-7-1) c.c.

remain to be paid, exclusive of Tchareer
claimed by Mutseddies &c. as their usual
emoluments, which Mr. Hurdis is of opinion
should be paid to them, amounting to C. Cs. three
hundred and ninety one, and six fanams (391 6)
but as it appeared by Mr Lushington's Statement
that the Nabob had resumed these fees we shall
with your Lordships sanction direct the Collector
not to pay them if he finds such an order ex=
=tant at Madura; the balances due from the
Madura district at the time of taking charge,
amount to S. Ps. six thousand, one hundred
and ninety three (6193) a great part of which
has been collected so that if no such order exists,
we presume the small balance may be
paid —

3d.

In the Statements accom=
=panying his address there are small sums stated
to have been overdrawn, and as their amount
is small we would recommend that they be
allowed

30 allowed to the parties as noted in the
Margin.—

4 With regard to the
claims in Nos. 5 and 6, we think it necessary
to observe that a similar claim made by the
Cutchery servants of Palniaud has been re-
-jected by your Lordship, we can therefore
only submit them to your Lordships consi-

I
Sent the following Letter

To the Collector of Dindigul &c.a

Sir,

The Board of Revenue
Para 1.
having submitted to the consideration of the
Right Honorable the Governor in Council
your letter of the 10th. January last with its
enclosures. I am directed by His Lordship
in Council to convey to you authority to
disburse the Sum of C.C. 839..7..1 being the
amount

To the Collector of Dindigul. Authorizing him to discharge the amount of the Arrears due to the troops of the late Nabob, & the sum of money claimed by the Mutseddies & Shareer. The persons represented to have overdrawn certain small sums on account of their pay are permitted to retain the amount. The claims of the Mahal Abbendy rejected. amount of arrears due to the troops of His Highness the late Nabob and the Sum of C.C 391.. 6. on account of Jaharees claimed by the Mutseddies.—

2°

The Governor in Council permits the persons who are represented to have over-drawn small sums on account of their pay to the extent of C.C. 129. 15. 5 to retain possession of the amount so over-drawn.—

3.—

In conformity to the principle which has guided the Governor in Council in adjusting the claims of the Servants of his Highness the late Nabob his Lordship in Council rejects the claim of the Mahal Sibbendy.

4

The Governor in Council having resolved to grant a pension equal to half their former pay during their natural lives to the commissioned Officers in the Service of the late Nabob directs me to transmit to you a list & descriptions

of the

The

4562. Fort St. George 6th July 1802.

The recent Orders of the Honorable the Court of Directors, conveying their Resolution "that Promotions in the Military Lines in consequence of Resignations in Europe shall take place from the period at which Officers are there permitted to retire" produced the necessity for the various alterations of Rank detailed in the above Order; which affords an example of the great inconvenience resulting from the resolution; which, consideration to the claims of their Officers, had induced the Honorable Court to adopt.— This inconvenience will be much more extensively felt when several Officers of various Ranks and Corps retire in Europe, at periods which do not admit of immediate communication of the circumstance to this Country;

Country; - It will produce constant
confusion and fluctuation in the army
List, and encrease the difficulty, al=
=ready felt by the Officers of the Com=
=pany's Army, in procuring Commis=
=sions from His Majesty corresponding
in tenor and date with those they hold
in the Honourable Company's service,
by rendering it impossible to fix
their claims with precision until a
very considerable period has elapsed.
The Commander in Chief considers it
to be his duty to point out these circum=
stances to the notice of Government, and
to state the expediency of calling the
attention of the Honourable the Court
of Directors to the consequences of such
resolutions as produce fluctuation and
instability in the Rank of their Officers,
- Their operation even in the lowest
Ranks

4564

Fort St. George 6th July 1802.

Ranks of the Service, is a source of constant reference and discussion; & since the establishment of the Principle of Promotion by Regimental succession — the difficulty of decision on the claims resulting from Resolutions in favor of Individuals has been so much encreased, that it frequently becomes necessary to reject the claim or to abandon what has been called the Principle of promotion in this Service. —

The 9th Paragraph of the Military Letter of the Honorable the Court of Directors of the 26th of February last exhibits an example of the difficulty to which the Commander in Chief has alluded. — It states that Mr. George Jackson a Cadet of the Season 1800 "having produced a Commission

4565 Fort St George 6th July 1802.

200

"as Ensign in the Military" is directed
to be placed "above Mr Horatio Newing=
=ton". — Mr H. Newington is an=
=nounced in the Certificate of his ap=
=pointment to be a Cadet of the Season
1797 — and in consequence of the
former intimation of his appointment
has been long posted to the 7th Native
Regiment in which he now stands
the sixth Lieutenant. — The orders of
the Honorable Court of Directors of the
26th of august last relate only to
future appointments and have no
retrospect; — consequently, Mr New=
=ington when reported fit to join
his Corps, must do so with the Rank
he has attained from his Original
appointment; —, but to give similar
rank above Mr Newington to Mr
George Jackson, a Cadet of 1800, would be

be to supercide the Majority of the Subaltern Officers now in the Service an act of Injustice which never can have been in the contemplation of the Honourable Court. — Mr Lyndsay's proper situation appears to be next below Mr Deering, the Junior Cadet of the Season 1800 who held a Commission in His Majesty's Army, and in that Rank the Commander in Chief recommends that he be placed when his arrival is reported at this Presidency —

The Commander in Chief recommends that the publication of the relative Rank of Messrs Painter Williams and Fowle, Assistant Surgeons "of the second class appointed for the Season 1801," as stated in the Military Letter of the Honorable Court

4567

Fort St George 6th July 1802.

201

be delayed until the arrival of the remaining Ships of the season furnishes more ample information on the meaning of this distinction as applied to the Medical appointments of the season. —

The Commander in Chief has received a Report from the Officer Commanding the Guard detached by Lieutenant Colonel Agnew in charge of Poligar Prisoners embarked from Tutecorin for Prince of Wales's Island, stating that the Transport which conveyed them arrived there on the 26th of april — three of the Prisoners died during the Passage, and six after their arrival at the Island; where the Guard was detained by the Lieutenant Governor untill he should receive from Bengal a reinforcement to his

to his Garrison.—

The Commander in Chief lays before the Board a Letter addressed to him by the Officer Commanding the Second Battalion of Artillery; and recommends that authority be given for paying to the Persons included in the list forwarded by Lieut. Col. Bell, the Pension granted by General Orders to the Representatives of Men who died on the Eastern Service.—

The Commander in Chief lays before the Board a Certificate of the permission granted by the Honble the Court of Directors to Lt. J. J. Millar to return to his Rank in the Service, and recommends that the usual notification may be published in Orders to the Army.

As the services of the small detachment of Bengal Artillery now

4569. Fort St George 6th July 1802.

202

now serving in the Southern districts, appear no longer necessary, the Commander in Chief requests authority to order them to join their Corps on Ceylon; & recommends that intimation to that effect may be given to the Government of that Island.—

Sir

I transmit herewith a List of men of the Corps of Gun Lascars of the 2d Bn Artillery who died in Battle, or otherways on Foreign service, to the Eastward whose Heirs are not ascertained, in the list published in G.O. 27th March last.— Three of the Names are in that List, the others are not, tho' the Casualties appear in the returns.

I beg you to submit these claims to the consideration of His Excellency the Commander in Chief— and I hope the list will be found sufficiently comprehensive.

The Military Auditor General

Sir,

As the late Regulations authorising Tent Allowance to the Officers of the Army, do neither attach to the appointment of Deputy Military Auditor General, any rate of Tent allowance, nor does it appear to have been taken into consideration, that the Officer holding it, is permanently resident

4605. Fort St George 6th July 1802.

220

resident at the Presidency, the Sta-
-tion not being included as one of
the exceptions to the operation of the
General Order; in consequence of
which I am subjected to a Monthly
loss of twenty Pagodas, from the
Allowances annexed to the Office.
It is incumbent upon me therefore
in my own right, and in justice
to the Station I hold, concisely to
state to you the circumstances relative
to that point, and to request you
will submit the same, with your own
Sentiments to the Right Honble the
Governor in Council for his decision, in
whose justice, I with confidence im-
-plicitly rely. —

It is almost unne-
-cessary for me to call to your recollec-
-tion, when the Office of Audit was first
established

4606

established in the year 1792, Govern-
=ment being sensible that from the
nature and duties of the department,
the Officers selected to fill the several
Appointments would constantly reside
at the Presidency and on that account
annexed to the situation of Deputy
the highest rate of House rent granted
to Officers of the highest Rank in the
Army, when doing duty at Fort St.
George, and sanctioned the continuance
of it, altho' the rate of house rent to
Colonels was reduced from twenty five
to twenty Pagodas per Mensem.—

Government having
very recently directed that my House
Rent should be the same, as drawn
by the Deputies of the Adjutant and
Quarter Master Generals, this Principle
of equality however, not having been
adopted

4607 Fort St. George 6th July 1802.—

adopted in fixing the rates of Tent
Allowance to these Staff appointments,
and as it must be evident on the
slightest reflection, that my situation
at the Presidency is equally permanent
with those which have been made
exceptions in the general regulation,
I consequently with all deference, do
ought to be equally entitled to the
receipt of the House Rent. The propri=
=ety will therefore be obvious to you,
of the obtaining the Orders of the Go=
Governor in Council directing either
conformably to the decision before=
=mentioned, that my Tent Allow=
=ance should be the same as annexed
to the appointments of the Deputies of
the adjutant and Quarter Master Gene=
=ral or that I should continue to draw
as formerly the established allowance
of

4608 Fort St George 6th July 1802.—

of House rent. To either of these from the circumstances above stated, I cannot but consider myself justly entitled, for I may be permitted to think it was not the intention of His Lordship in Council to deprive me of the Allowance attached to my official situation and which is totally unconnected with my rank in the army, Because the Monthly regimental Tent allowance of 18 Pagodas granted to the rank of Captains, has, after minute and accurate calculation been found to be barely adequate to the expense of providing and keeping up the Tentage, Bullocks &c.— for the Officers of that rank, of course no part of it can be appropriated for House rent.—

In the event of my

4609. Fort St George 6th July 1802.

Official house rent being directed to
be continued, his Lordship may judge
it expedient either that I should
keep up the regimental Establish=
=ment for Tentage as a General al=
=lowance attached to all effective Offi=
=cers, or as a saving strike it off; in
the latter case, the Individual will
receive what may be considered his
due and the Publick not be subjected
to Loss. —

Excuse, Sir, my troubling
you with this address and with having
enlarged so much upon the subject. —
and I am hopefull that the circum=
=stances which have been stated, toge=
=ther with the reasonableness of the
suggestion, will plead my apology
to the Right Honorable the Governor
in Council for the Intrusion — It may
also

4610 Fort St George 6th July 1802.

also be proper in me to add, that neither upon the present nor a late occasion, was it my wish to trouble Government — I do not come forward to prefer a new claim or to solicit an increase of Allowances, but simply to bring to their Notice, particulars connected with one which has been long established, and which has been recognized by successive Governments during a period of more than ten Years. —

The captious manner in which he upon all occasions divests himself of responsibility and throws it upon the Commanding Officer gives much support to the Idea held out by the Major that the Collector is anxious for an Occasion to attribute the eventual failure of his measures to any person but himself.

Sir,

I have the honor to receive your letter of the 27th - the relief of the 3 Companies / in Justice to the troops under my command / was to become a matter of absolute necessity from the long time they had been Stationed in a very unhealthy Climate and the Discipline of the Corps they form a part of - I see no reason whatever to apprehend any thing detrimental or hazardous to the public Service from the relief proceeding which is already more than half way, but if it is necessary to keep regular Troops at Holladuh, to give confidence to the Inhabitants, the direct contrary - The timely notice you

was required, as was mentioned to

I really wish you would
adopt "the conciliating Disposition

Sir,

I beg leave to trouble your Excellency with the consideration of the following particulars as connected with the efficiency of an important part of the Public Department under my immediate authority —

The Cantonment of St Thomas's Mount being the Head Quarters of Artillery, consequently the source from whence the professional Instruction is principally derived to the different Branches of the Corps from the Annual and occasional experimental Practice has at all times

4673. Fort St George 9th July 1802.

made it a situation where a Com-
-missary has been allowed, and having
been resorted to on former occasions, and
being subject to be applied to the same
purposes in future, as a fit situation
for collecting the requisites of any Train,
or forming a Detachment of Artillery
for any expected Service, it will I trust
appear obvious to your Excellency from
what I have stated that a situation
of such importance and responsibility
requires the superintendance of an
Ordnance Officer not under the Rank
of Commissary, and the return of
several Detachments of Artillery to this
Station, which necessarily take place
in consequence of the Peace makes
it now more particularly necessary
than it has lately been.—

The foregoing and
other

other considerations having operated with Government to confirm a Commissary at St Thomas's Mount in the Store Regulations, I am more confident to hope your Excellency will accede to my request, that an Officer of such Rank may be appointed to fill up that situation which is now vacant.—

Sir,

I have the Honor to inclose the copy of a letter which I have received from Lt. Colonel Boles in which he reports the arrest and death of Ellambellam Cunnian a notorious murderer in Malabar and a supporter of the rebellion in Cotiole.

It appears to me from a perusal of Lieutenant Colonel Boles's letter that the Prisoner could not have made his escape in the manner reported excepting by the connivance of the Sentry and probably of others of the Guards, and I have desired Lieutenant Colonel Boles to enquire into this matter. At all events the Sentry did not do his duty

and

and so far from being entitled to a reward it is my Opinion that if the Head of the Prisoner had not been brought in, the Commanding Officer, the Havildar, and some of the Guard would have been punished for a Neglect of their duty.

I know from experience that the Rajah of Coorg is very averse to allowing his people to accept rewards, such as Lieutenant Colonel Boles proposes should be given to them; and I have declined to offer them. I have consequently desired Lieutenant Colonel Boles to lodge the property found on Ellambellam Cunnian with the Paymaster at the disposal of Government if he should agree in Opinion with me regarding the claim of the Guard

Jemidar at all times to guard against an Escape, or a rescue, which I thought very probable as he had to pass through a district where he might find many friends having connected himself by Marriage with the family of the Choiliat Nambier.— My apprehensions on this head were not unfounded for he attempted to make his Escape about 3 Miles Eastward of Nacaour, in the vicinity of Choiliat, which he so far effected as to force his Hands out of the Hand Cuffs: and by one powerfull exertion to break every Cord with which he was bound, however the Guard was alert, and he was brought down, in the act of making off, by a Ball from the Musket of the Havildar.

To the Right Honorable Lord Clive Governor in Council

My Lord,

From the Military Auditor General, states his opinion that the claims preferred by Mr. Surgeon Milton to certain allowances whilst doing duty at Amboyna? are unfounded.

1st. — I have been honored with your Lordships commands in a letter from the Chief Secretary to Government bearing date 2d Instant giving

4702 Fort St. George 13th. July 1802.

giving cover to an address to your Lordship from the late Resident at the Moluccas dated 5th. January last,- and documents connected therewith on the subject of certain Allowances claimed by Mr. Surgeon Wilson whilst doing duty at Amboyna, as also certain papers connected the manufactory of Gun Carriages lately established at Seringapatam, and requiring me to state my Opinion on the claims preferred by Mr. Wilson.-

2. ——— I have therefore the honor to report that Mr. Surgeon Harris was appointed by His Excellency Admiral Rainier who commanded both the Sea, and Land forces on the Expedition against the Dutch Settlements, to act as Head Surgeon on the 10th. of December 1795

/ from

4703. Fort St George 13th July 1802.

269

from which date until the 22d of
September 1790, the period at which
the determination of Government to
rescind the appointment of Head
Surgeon was published at Amboyna,
Mr Surgeon Harris was permitted
to draw the difference between the
allowances "of a Head Surgeon and
"a Surgeon which includes the full
"Batta of Major, in consideration
"of the favorable testimony which
"was borne by the Admiral to the
"good conduct of Mr Henry Harris
"on the Eastern Expedition" this decision
my Lord is extracted from a letter
of the Chief Secretary of Government
to my Predecessor in Office under date
the 7th June 1797, from which it
will appear that the Nomination
of Mr Harris to the situation of a
Head

4704 Fort St. George 13th July 1802.

Head Surgeon was disapproved of by
Government, but that in consequence
of the Admiral's favorable report
the allowance of that rank were only
given to that Gentleman for a peri-
od comprehending from the date of
his appointment by the Admiral
until the arrival of the disappro-
bation of it by Government at Am-
boyna, under such circumstances
there exist no good grounds for
placing Mr. Wilson even on a footing
with Mr. Harris, because he was
never nominated at all a Head
Surgeon, and because the regulations
of the Service provide in a liberal
degree allowances in themselves in
all respects well calculated to reward
"exemplary diligence and perseverance"
in Medical Men —

3. I am not aware my Lord of any of the precedents quoted by Mr. Wilson, and alledged to be on the records of the Medical Board, where Senior Surgeons, not holding the rank of Head Surgeon were con-sidered entitled to the Batta of Major, such precedents if particularized and properly authenticated may perhaps serve more to substantiate Mr. Wilsons claims, than the basis he has founded them on in the present instance.—

I am further happy in the opportunity that the accom-panying address affords me of bearing testimony to the exemplary diligence and perseverance which Doctor Wilson has manifested in the discharge of his laborious duties at the Moluccas, which during the most mortal epochs of this unfriend-ly

my being appointed Surgeon to the
Eastern Expedition; in July 1790.—
and which I was encouraged to
make by Lord Hobart then presi=

Physician general Doctor Anderson.—

Doctor Anderson pointed
out to me, that there were, precedents
on record, at the Medical Board,
where the Senior Surgeons with de=

had been permitted, by Governme
to draw Majors batta as a compen

-bility of trouble annexed to his situa
-tion and further observed, that at
my appointment was to a very dis
-tant Service, he would recommend
me to Lord Hobart for this indulgence
the reasons which Doctor Anderson
urged in favor of the measure had
weight, with his Lordship, and I
was requested to make my offic
-al application to Government which
I did on the 18th of July 1799, stating
my reasons for so doing; my letter
came before Council on the 19th and
failed at that time of success for
the following reason, assigned by
Government in their reply to my

letter; Mr Secretary Jackson in his letter of date the 20th of July, says, I am directed by the Right Honorable the president in Council to acknow=ledge the receipt of your letter dated the 18th instant and to acquaint you, that he can see, no reason, from your statement for placing you, in point of allowances on a better footing than Mr Harris your senior in the service, who has hitherto performed the duty to which you now stand appointed —

Mr Harris upon his return to Madras in 1797 laid his case, again before Government, which met their favorable notice, and he was paid those allowances which had in the first instance been denyed him; I have since that been flattered with the hope that

that my representation, when again offered to the consideration of Govern=ment might procure me the allow=ance I then solicited for: the know=ledge you have had of the difficul=ties I have encountered in the dis=charge of my duty at amboyna, & the efforts I have invariably made to overcome those difficulties I hope may make me appear to you de=serving of being recommended to Government for such allowance as may have been granted to Medical Gentlemen of my own rank serving in similar situations and that if my request to be granted the differ=ence between Captains and Majors pay here during the time I have served as Senior Surgeon to the Eastward, should appear to be sanctioned by any precedents

W. H. Gordon Esquire —

Sir,

I have received your letter of this days date and its inclosure, and I agree entirely in opinion with Mr. Collector Read that the Monsoon is so violent in the Provinces of Bednore and Soonda, that it is very inexpedient that Troops should march in there in those Seasons, and therefore it is desirable that provision should be made for the payment of the troops at Nuggur and Hullial at the commencement of the Rainy Season till the end of October.—

It appears that Mr. Read has left in the hands of the Amildar, at Hulliall a sum amounting to 15,000 Pagodas which willbe

paid

Fort St. George 13th July 1802.

paid into your Office as it will be required for the Troops; but as that sum is placed there only for Military purposes it is my Opinion that it might as well be kept in the Paymasters Treasury as by the Amildar; and accordingly I Re=commends it to you to refer this matter with my Opinion upon it to the Paymaster General.—

The same circumstance which renders it advisable that provision should be made at Kullial for the payment of the troops till the Month of October, renders it advisable that provision should be made at Nuggur till the same period.— I recommend that you should refer this matter also to the Pay=master General.—

Para 1. 2. It is our intention as soon as the Season shall be favourable, and the instructions for the purpose shall be transmitted to us to dispatch the Marchioness of Exeter and probably the Brittania, for the purpose of conveying from the Molucca Islands hither the Troops belonging to this Establishment, which mode we apprehend will be attended with much less expense to the Honble Company than the engaging of Transports.

Minute of the Commander in Chief submits a statement of the number of officers wanting to complete the army on this Establishment and the deficiency in the strength of the Honorable Company's Corps of European Artillery & Infantry & recommends that the subject may be brought under the notice of the Court of Directors.—

The importance of the subject induces the Commander in Chief to request the attention of the Board to the Statement he now has the honor to submit to consideration, of the number of Officers wanting to complete the army on this Establishment, and the deficiency in the effective strength of the Honorable Companys Corps of European Artillery and Infantry — The ill consequences resulting from this incomplete state of the Company's Army, to the want of Officers for Native Corps in particulars have been too often impressed on the conviction of Government to require repetition, but the Commander in Chief deems it his particular duty to point out the expediency

Minute

Minute of Dr. Do lays before the Board a memorial from the Officers of His Majesty's Corps serving in this Country - stating the Hardships occasioned to them by the Operation of the 39th Paragraph of the General Letter from the Court of Directors, published to the Army on the 8th March, & soliciting a repeal or suspension of that Order - Proposes an arrangement for the relief of His Majesty's Officers - Delivers in a letter from the War Office communicating the appointment of Mr. Reynolds to be Inspector of the Regiment de Meuron.

The Commander in Chief has the honor to lay before the Board a memorial from the Officers of His Majesty's Corps serving under this Presidency; and in order to remove the hardships occasioned to them by the Paragraph of the General Letter from the Honble Court of Directors published to the Army on the 8th of March, and at the same time to prevent the Publick from sustaining any loss in consequence of the promotions of Officers by the Commander in Chief in India being disapproved of by His Majesty, Lieutenant General Stuart proposes that Government shall direct in General Orders, that Officers promoted in India shall be immediately entitled to draw the allowances of their advanced ranks, and that Officers appointed

Fort St George 20th July 1802.

appointed by His Majesty to vacancies in this Country, shall not be entitled to draw the Company's allowances until their arrival at this Presidency and the publication of their appointments in General Orders by the Commander in Chief in India — By this arrangements it will be impossible that the allowances for the same Commission can be drawn at the same time by two Officers; the Officers only who exercise the duties and sustain the responsibilities of the advanced ranks will receive the allowances attached to them; the Officers of His Majesty's services in this Country will be relieved from a considerable hardship, and the public will incur no additional expence —

The Memorial of the Officers of His Majestys 19th and 25th Regiments of Light Dragoons and of the 12th 33d 73d 74th and Scotch Brigade, Regiments of Foot now serving under this Presidency.—

Sheweth,

That putting in force the

the 39th Paragraph of the General Letter of the Honorable Court of Direc=tors published by order of the Right Honble the Governor in Council, in Gene=ral Orders of the 8th March 1802, bears particularly hard upon your Memo=rialists; as it obliges such as are at present come within the Influence of that Paragraph, and all those who shall hereafter be promoted, to serve on the Pay and allowances of a Rank inferior to that which they hold, and in which they do duty, both Regimentally, and in the Line, a circumstance not known in any other Service — and which militates directly against the Established prin=ciple — That the Kings and Company's troops, are invariably, and in all situations, to derive equal advantages

in India — It is also evident that according to the General Practice of the Army, your Memorialists must under the influence of this Paragraph be exposed to considerable inconvenience and Loss, since their Expenses are unavoidably encreased by promotion in every situation, but especially so in the Field. —

That this Distress may continue for years from the very great distance between your Memorialists and their most Gracious Sovereign, and the numerous accidents that may occasion Miscarriage in the Correspondence of the Commander in Chief of all His Majesty's Forces in India; a striking instance of which is now to be found in the 74th Regiment — where there are five Captains

whose

whose confirmations have not yet been published in this Country, three of whom purchased their Commissions in 1799 when on actual service —

Your memorialists also humbly conceive that a case similar to Major Paterson's which being particularly mentioned by the Honble Court, seems to have occasioned the Orders, can seldom or never happen again, and perhaps has never before occurred in His Majestys Service in India; Major Catterson having from Captain in the 19th Light Dragoons, been appointed Major of the 25th Light Dragoons — by purchase, when the Senior Captain of that Regiment was serving with it, and was not only ready to purchase, but had actually preferred a Claim of right

right from the General Custom of the Army to the Purchase.—

Your memorialists + confident of support from your Excellency in all their just Claims, beg leave to submit to your Consider-ation, the very serious inconveni-ence and distress that may result to the Officers of His Majesty's Re-giments from the operation of the Order alluded to, and they take the liberty of requesting that your Excellency may be pleased to lay these circumstances before the Right Honble the Governor in Council, from whom your Memorialists have the most sanguine expectations of relief by a repeal or suspension of this + Order — But if such Powers should not be vested in this Government, your

Memorialists

Memorialists in that case, most earnestly and respectfully request, that your Excellency will be pleased to transmit their Memorial, through His Excellency the Commander in Chief of His Majestys Forces in India, to the Most Noble the Marquis Wellesley, Captain General of all the Forces, and Governor general of India, who they doubt not will be disposed to grant the redress solicited in the Prayer of this Memorial —

Sir,

As I found that the sum allowed me for writers and Stationary was not sufficient to pay those expenses I mentioned the same to the Honorable the Governor in Council in my letter dated the 4th of January last, and find that the proper channel for me to make this representation is to the Military Board — I have therefore to request you will be pleased to lay the enclosed abstract before the Board, which I hope will meet their approbation — that I may be repaid the Amount, and also that they will be pleased to recommend a sufficient allowance in future, to enable me to carry on my accounts without paying a part of the

one Native to be hired that can write
English, and when they come from a dis-

2. I have hitherto taken every
measure in my power to prevent unne-
-cesary expences, at the same time I know
my accounts must not get back, and
I hope, I have forwarded them to you
as early as could be expected - I am now
a few days later than usual which is
owing to a number of Stores coming from
Mangalore, Cochin, and Calicut, - my last
monthly Return that is due, is however
ready to send you, but as that Returns
closes the Quarter and years, it is necessary
that I compare it with those accounts to
see they correspond and agree.

3. I beg also to represent

From &c. &c. Forward the report of the annual Committee of survey on the Fortifications & Public Buildings of Fort St. George & the Black Town together with Estimates of the probable expence of the repairs recommended by the Committee. State the whole of these works to be highly necessary, certain works which cannot be estimated with sufficient accuracy, they are of opinion sh.d be performed on honors. Recommend the addition of one chickledar to the establishment of artificers at Ninidivoy; & an extra allowance of four Pag.s p.r Month to the Conductor at Habitation for a writer to keep the books of the subordinate station of Goorembundal. Recommend payment of sundry enclosed Bills of the Engineer at Cannanore.—

the Senior Engineer - The whole of these works are highly necessary, but we deem it our duty more particularly to urge the execution of the works detailed in Estimates Nos. 1, 2, 3, 4, 5, 9, 10, 12, 13 and 14, as we are of Opinion that from the very ruinous state of most of these works, any longer delay of their repair will be productive of encreased expense; and it is of consequence that the reconstruction of the South East Counterguard, and the Traverse opposite the north west Lunette, should be undertaken during a period of Peace, as the Place will be greatly laid open during the execution of the Work - The execution of the Estimate No. 14 is absolutely requisite to preserve the Bastions of the Black-Town from Total ruin - We have only further to observe, that as the Expence to be incurred

We beg leave to recommend that authority may be given for adding one Chickledar to the Establishments of Artificers at Nundidroog, & that the Conductor at that Station may be permitted to draw an extra allowance of four Pagodas per month for a Writer to keep the Books of the Subordinate Station of Goorebun Dah. —

Fort St George 20th July 1802.—

Appendix to the Report of the Committee of the Military Board, appointed in Meeting the — January 1802. to Survey the Fortifications and Public Buildings at Fort St George.—

The Committee having in the body of the accompanying Report given their opinion on the several works & Buildings, as well as the repairs required to each, now beg leave to point out such to the Board as they think ought to be immediately authorized.—

The first which demand immediate attention, are the South East Counter-guard of the South face, and the North west Lunette of the North front, with the Gallery of the Covert-way in front of it. These works have been in ruins since the year 1791. Their failure is said to have been occasioned by being struck by Lightning during a dreadfull Storm in the latter end of that year. See the annexed Plan, and Section, & Drawing shewing the present State of the North West Lunette.—

The

318

The ruinous part of this work, coloured Yellow on the Plan must be taken down and rebuilt on wells, as well as the Gallery and Counterscarp in front of it; as where they have been used no failure of consequence has arisen.

The injury done to the South East Counterguard is still greater, most of the Outer Revetments are sunk & project from the original situation of the works; the arches are consequently open in many places; in fact the Counterguard will not admit of a partial re-pair, the whole must be rebuilt upon a double row of wells— See the annexed Plan, shew-ing the Projections occasioned by the failure, & the directions of the Cracks in the Arches.—

The war now being brought to a happy termination, & Peace being the most eli-gible period for repairing those important works, the Committee therefore earnestly recommend that the Government be solicited to issue immediate orders

orders for their restoration; it may be proper here to observe that the repair could not have taken place since their failure without throwing the Fronts into disorder, a circumstance which cannot be too much guarded against during war.—

A part of the Coverway before the North West Lunette the Committee recommend to be repaired before the next Monsoon, as should it be delayed, fears are entertained that the rains will get between the Earth of the Coverway and Masonry & make it a heap of Ruins.—

The Choultry Gate is in a dangerous state, owing to the Beams being much decayed, the Committee therefore recommend its being repaired as soon as possible.—

The Exterior Revetment of the Sea Line is very much decayed, particularly the part which is occasionally wet and dry, owing to the falling and rising of the Water in the Ditch, the Committee therefore beg leave to recommend that it be joined

Fort St. George 20th July 1802.—

pinned, pointed & plastered during the present dry season.—

The Piers of the Bridges of Com-munication are very much decayed & require to be immediately pinned & pointed, this is the most fa-vorable period for performing the Work owing to the lowness of the Water in the Ditch.—

The necessary of the Main Guard is in a very bad State, & requires to be immediately re-paired. The Committee beg leave to recommend that all the Wood-work of the Kings Barracks be painted par-ticularly those parts exposed to the Weather.—

The Brick pavement for foot passengers in front of the Public Buildings within the Fort being much decayed, & in many places entirely broke up, the committee therefore beg leave to recommend that the whole be repaired with Blue Stone, instead of Brick, the expense will not be much more & it will last for ages.—

The Committee also beg leave to

recom:

Fort St George 20th July 1802.

recommend that the North Glacis be railed in, and that the North Esplanade be levelled, & all Buildings within the Boundary removed.—

The River having encroached considerably upon the southern Glacis, the Committee beg leave to recommend that it be deepened on the Southern side, & that the earth be thrown on the Foot of the Glacis; as in its present state it would afford complete cover for a Considerable body of Troops not 100 Yards from the Coverway. The Committee also recommend that the Southern Glacis be surrounded by a Palmira Railing and kept in the same State of repair as that of the West face.

The Brick work of Brooper's bridge is in a very decayed state, & requires to be immediately pinned, pointed and plastered.—

It has often been complained of Lately, that there is not a Spot Contiguous to Fort St George fit for the review of a Corps, the Committee therefore

1805 Fort St George 20th July 1802.—

320

therefore beg leave to recommend that the inequalities in the Southern Esplanade be levelled & that the small Building & Terrace for drying powder, situated in the Center thereof be removed.—

The re-entering angle of the interior Revetments of the Bastions of the Black Town Walk never having been completed endangers the safety of the Parapets of the Flanks. the Committee are therefore of Opinion that if not carried about 15 feet into the interior of the Bastions, before the Monsoon, the total failure of the Parapets will be the consequence.—

To Captain John Macleane

Secretary to the Military Board

Fort St George —

Sir,

I have the honor to ac-
-quaint you for the information of the Board,
that Major Malcolm, has in consideration
of our want of Stallions for the Stud, consent-
-ed to give Captain Montgomerry six very su-
-perior Horses he brought with him from
Persia, for the Stud, they were very much ad-
-mired in Bengal and wanted for the Stud
there by the Board for improving the breed
of Cattle, but he has given the preference to
the Madras Stud — Captain Montgomery's
description of them is very favorable, and by
the enclosed extract of his Letter to me, there
can be no doubt of their being very cheap,
as Captain Montgomery declares, that they
would at public Sale bring him about twice

as

4858 Fort St. George 20th. July 1802.-

as much as Major Malcolm charged for them.
He has sent off the Horses under charge of a
carefull Man, and I hope that the Board will
be pleased to approve of the Purchase - the
Amount charged for them by Major Mal=
colm is four thousand Pagodas which he
wishes to be paid into the hands of Mr. Baker
at Madras. -

"You have inclosed a Regis=
"ter of six Noble Horses sent you by Malcolm,
"they are by much the finest in his Lot; & in my
"opinion the very sort of Horse you require,
"high blood, great size and action, and a proper
"age. You have got them I assure you for
about.

"about half the Sum they would sell for here

Sir,

In reply to your letter
of the 2d Instant I beg you will be so
good as to inform the Board that all the
Bullock hire which has been claimed for the
year commencing 1st June 1799 and ending
31st May 1800 has been paid off excepting
the sum of Pagodas 274..17..45 due five owners
who are absent and which I have not paid

from the people who have claimed it on their account not yet producing sufficient authority for receiving it, but this I have reason to believe will be settled in the course of a few days.— I therefore hope the Board will have no objections to my returning to Seringapatam immediately. I have been now five Months absent from my Department and I am very sure that my presence there is very necessary. Captain Barclay has been so good as to take charge of the accounts during my absence but there is a great deal more to do which he cannot possibly attend to.—

I beg leave to remind you that I have had no reply to that part of my letter of the 1st Instant, requesting instruction from the Board whether I am to attend to any claims given in after the 30th June, if the people to whom hire is due should follow me to Mysore.— I can now if desired lay before

4862 Fort St. George 20th July 1802.—

before the Board a list of their names with the sums due to each.— Only three Men have claimed hire since the 1st Instant only for trifling sums, but agreeable to the orders of the Board I declined paying them.—

To the Right Honble Lord Clive —

My Lord,

A letter I addressed to
the Chief Secretary of Government on the
17th of May last, reported my having assem=
bled a General Court Martial composed
of European Officers for the trial of such Cri=
minals as should be brought before it on
charges

From the Officer Com=
manding in Malabar

the General Court Mar=
tial had continued
its sittings since the
period of his last report
& had tried 25 other
prisoners. Reports the
nature of the sentences
passed. Expresses re=
gret that he should
have mistaken the
intention of Govern=
ment relative to
the formation of the
General Court Mar=
tial, another court
on the principles stated
in the Secretary's letter
will be assembled

charges preferred against them by the principal Collector in Malabar, on which Letter & in a subsequent one of the 8th of June I also communicated the result of those trials and the measures which had been adopted against those Criminals who had been found guilty of the heinous crimes of Murder on the clearest and most unequivocal Evidence.—

The same Court have continued their sittings since that period, & have tried twenty five more, principally for the crime of Murder, twelve of whom have been convicted on unquestionable testimony (three sentences to be transported) and ten acquitted — six of the twelve Murderers have already suffered Death, and a warrant was issued for the execution of the other six, but recalled on the receipt of your Secretary's letter of the 25th ultimo

Ultimo.—

My reason for sus-
=pending the execution of these Criminals
till the pleasure of your Lordship in Council
is known arises from a remark on the above-
-mentioned letter which informs me "it
"was not, and could not have been the in-
"tention of the Governor in Council that a
"Court Martial should be formed ac-
"cording to the articles of War." for to-
have erred on this point becomes a pain-
-ful reflection to me, actuated as I have
been on all occasions by a Zealous wish
to give satisfaction, and to merit the appro-
-bation of those, who relying on my dis-
-cretion have honored me with so important
a trust as that conveyed on their resolu-
-tions of Council of the 25th of September
1801. and confirmed to me by Letters of
the 19th and 26th of March 1802.—

9

1872. Fort St George 20th July 1802.—

I therefore feel the necesity of expressing to your Lordship in Council my solemn assurance of having acted in the present instance from the purest motives and a desire of impressing on the minds of the Inhabitants a just sense of the equitable and impartial Process which was insisting circumstances it appeared to me sufficiently summary but I regret the Court ever adverted to the articles of War, being unnecessary.—

I have therefore dissolved the General Court Martial, but the Jails at Calicut, and elsewhere are so full of Prisoners, that another Court must be assembled to try them, and which Court will take Evidence on Oath against such Criminals as

as may be brought forward by the prin-
cipal Collector in Malabar, and be
directed to pass an Opinion whether
the Prisoner is Guilty or not from the
Evidence before them; and I beg to
submit to your Lordship in Council
whether the Proceedings are to be laid
before you, or whether the Punishment
is to be awarded by me and carried
into immediate execution.—

submit Copy of a Certificate granted by me in December last to Mahomed Aselum Cawn, of his having on my receiving charge of the Nellore District held the appointment, under the sunned of his late Highness the Nabob of the Carnatic, of Killidar of the Fort of Nellore.—

Owing to the Killidar's name not being inserted in the list of the Military Officers, employed in the service of his late Highness, furnished by me under date 6th November last, he informs me, objection has been made by the Military Auditor General to admit his claim to the Pension granted by Government, to Officers of his description.

I am

I am therefore induced at his solicitation
to state that his name was not inserted in
the list as in drawing it out I had only refer
ence to the Officers in Command of the Troops
with whom the Killidars had no interference
they being under the immediate orders of the
renters and owing to his not having
applied for a Certificate of the Station he
held until, sometime after the last pa
transmitted to Government.—

The Killidar had
charge of the arsenal of Nellore which
he delivered over to me, but his Rank as
Killidar of the Fort could be only nominal,
(the Fort being Garrisoned by Company's
Invalids) and given to him in my Opi
nion by his late Highness, to continue him here
