Present

The Right Honorable

Lord William Cavendish Bentinck

Governor and President

Friday the 25th November 1803

Lieutenant General James Stuart

Commander in Chief —

William Petrie and
John Chamier } Esqrs

Minutes of last consultation

read and approved. —

The Commander in Chief delivers in the following Minute. —

Minute

The sale of Spirituous Liquors by the Agent yields certain profits in the Carnatic which by the regulations of the service are distributed to Officers Commanding Military Stations. — The sale of Spirituous Liquors — however in Mysore and the Ceded Districts —

occasions.

Minute of the Commander in Chief recommending an arrangement for the distribution of the profits arising from the sale of spirituous liquors under this Presidency to submit a letter from the Adjutant General, who states the necessity for increasing the establishment of writers in his Office and submits also an application on Lord Clive's fund. —

occasions an expence to the public in conse-
-quence of the charges attending the carriage
of the Arrack to a distance in the interior;
and the Officers Commanding Military —
Stations in these Divisions receive a share
of the profits arising from the sale of Spiri-
-tuous Liquors, while those Commanding
inferior Posts contiguous to the Presidency
Regularly participate in that advantage.
In order to prevent the Company from sus-
-taining any loss by the sale of arrack, and
to produce a more equal Division to —
Commanding Officers of the profits which
may arise from that Source, the Comman-
-in Chief recommends that the profits arising
from the Sale of Spirituous Liquors throug-
-out the territories under this Government
may be formed into a General fund, and after
deducting the charges incident to the carriage
and sale of the Arrack, distributed to
Officers

Officers Commanding Divisions, Districts, and Military Stations according to the principle established with respect to the Division of the profits arising from Military Bazars.—

The Commander in Chief has the honor of laying before the Board a letter from the Adjutant General of the Army stating the necessity of encreasing the establishment of Writers in his Office; a representation which the Commander in Chief considers to be well founded.—

The Commander in Chief lays before the Board an application supported by the proper Vouchers from the Widow of Conductor Macally deceased, for the provision established by Lord Clive's fund.—

Sir,

I request that your Excellency will state to the Right Honorable the Governor in Council the necessity for an encrease to the Establishment of Writers in the Adjutant Generals Office.

The present Establishment was fixed early in the year 1800 at my request: Since that period the encrease of the Army, the extention of Territory, and the particular Returns required by His Excellency the most Noble the Governor and Captain General, have added so much to the business of the Office, that I find the Establishment unequal to the duty.

I enclose a Statement of the present establishment, and of that which I

Sir,

I have had the honor to receive your Assistants letter of the 3d Instant, calling upon me by Command of His Excellency the Governor General in Council to report upon a Letter from the Secretary to the Government of Fort St George.—

2 I request you will inform His Excellency in Council that the Military Auditor General at Fort St George is under a Mistake in supposing that it has been the practice here "to debit the account of the Presidency "of Fort St George for payments made on account "of His Majesty's Squadron at the other Presidencies in India."—

3 A Statement of allowances paid at this Presidency to Officers of His Majesty's Navy in the last year 1802/3. was forwarded

5168. Fort St George 28th November 1803.

forwarded by me to the Accountant General
at Fort St George on the 18th August last agree-
-bly to the Order of His Excellency the Governor
General in Council Communicated to me by
the Secretary in the Public Department on the 4th
4th of the same Month. The Order in question
required me to furnish such a Statement
Monthly, and it appears to have been issued at
the Request of the Right Honorable the Governor
in Council of Fort St George conveyed in a
Letter from the Secretary Strachey under date
the 14th of July—

4 The Statement appears also
to have been called for at the immediate Sug-
-gestion of the Military Auditor General at Fort
St George "for the purpose of establishing the
"means of checking the demands which may be
"made by the Agents of the Officers of the Navy,"
and it was forwarded by me to the Accountant
General accordingly for this, and for no other
purpose—

As

5 No Communication whatever was made by me to the public Officers at Fort St George that the payments made to the Officers of His Majesty's Navy either had been charged, or were intended to be charged to the Account of that Presidency, and if such payments had been considered a Charge of Fort St George, I should not only have made a Communication to that effect in the regular Offical Form, but should have thought it necessary to furnish at the same time proper Vouchers for the Charge.—

6 The Statement was returned to me by the Deputy Accountant General at Fort St George, but has been again forwarded to that Presidency with the necessary explanation—

The Presidency relative to a difference in account respecting Family payments in the latter part of the official year 1797/8 and 1798/9 amounting to Pagodas 2,712. 7. 52, and which stands upon my Books as a Balance against him, and I have to Request that you will be pleased to lay them before the Right Honorable the Governor in Council. I have to add, that as this difference has not originated from any Neglect on the part of Mr. Cochrane, but from circumstances incident to payments of this Description, I beg leave to recommend the Amount to be written off to the head of "Last War, with Tippoo Sultaun."

Fort St George 28th November 1803.

I received from your Office of the Sums debited me on account of Families for Corps in my payment of payment - I find that a difference appears to my debit Pagodas 2712. 7. 52. and in order that you may have a clear View of the Subject, I have formed a Comparative Statement of the Stoppages paid to me by Officers of Corps, and payments on Account of those Corps to their Families - This difference has arisen during a period of three Years - and I wish I could point out from whence it has originated. My Accounts Current will shew that Credit has been given for the Sums I have stated, and as I had no List or Account delivered to me to check the Sums paid to me by Officers Commanding Corps, I of course received and Credited the Sums they paid to me, taking for granted that Certificates to that amount only were in payment.

I have only to add that Casualties and desertions must in themselves have

His Excellency has directed me to request of you, Sir, to present His grateful acknowledgements to His Lordship the Governor of Fort St George in Council for the promptitude with which a supply of Medicines for the service of this dettachment has been granted; and he regrets extremely that the occasional and unexpected applications for

The Indents for Medicine in the Month of April last was caused by the sudden and rapid progress of a fatal Endemial Fever, which occasioned a greater consumption of that article in two Months, than is usually required in as many years, and the last application was necessitated by the unexpected delay of the sailing of the Honorable Company's Ship Essex, a very large assortment of Medical Stores being embarked on board of that Vessel, of which the Invoice has been received, and the Agent of this Government in London, Mr Huskisson, has informed me that Military Stores of all kinds would be sent out to Ceylon by the same opportunity. 5 The Paymaster at Kanara has included the Sum of Pagodas Ten thousand / Pagodas 10,000 - - / under the head of "Contingencies" which I have Considered as over-rated by one half, and have accordingly deducted the Sum of Pagodas Five thousand / Pagodas 5,000 - - / from his Estimate on that account; the remaining Pagodas Five thousand / Pagodas 5,000 - - / appear fully sufficient to answer the demands that may be made on his Office on account of the Expence on Field allowances within his range for the preceding Month.—

6. I have made the following deductions from the Estimate of the Paymaster at Masulipatam, Viz.t Pagodas one thousand / Pagodas 1,000 - - / included under the head of "Transportation of Ammunition, Stores," as I am not aware of any demands of that Kind either having been made or solely

To the Right Honorable

Lord William Cavendish Bentinck

Governor in Council

of Fort St. George

My Lord,

The Governor General in Council has

From Bengal authorising the Indents

6028

Fort St. George 6th. December 1803

Indents for Ammunition &c. of the Officer Commanding the Troops in Cuttack.

has been informed by Lieutenant Colonel Harcourt who commands the British Forces in the Province of Cuttack, that the late Indents of Lieutenant Colonel Campbell Commanding the Northern Division of the Army of Fort Saint George, for Ordnance, Stores, Ammunition, Artillery &c. have been rejected by the Military Board at Fort St. George, as irregular and informal

2 That Indents to which Lieutenant Colonel Harcourt refers appear to have been made by Colonel Bell for the equipment of the Army now serving in Cuttack, and the Stores furnished by that Officer are stated to have been absolutely and indispensably necessary to enable the Army to undertake the late successful expedition into that Province

We

No.

With the exception of the Ammunition which has been expended the whole of the Articles issued under those Indents are now in charge of Colonel Harcourt at Cuttack

3 The expedition into the Provence of Cuttack was undertaken under the immediate authority of this Government, and the equipment of the Army for that important Service was accomplished by Lieutenant Colonel Campbell in obedience to the Special instructions of the Governor General, and under circumstances which did not admit of the delay which would have attended a reference to your Lordship in Council.

4 The State of Lieutenant Colonel Campbell's health having rendered it impracticable for that Officer to proceed with the expedition, the Com-

Command was assumed by Lieutenant Colonel Harcourt, who was ordered to Ganjam to relieve Colonel Campbell, at the express and earnest desire of Lieutenant Colonel Campbell. Your Lordship in Council will therefore be pleased to admit all Indents and charges incurred in the prosecution of the public service on the present occasion under the Sanction of Lieutenant Colonel Harcourt or Campbell, after they shall have been examined and checked in the usual manner by the proper Officers under your Lordships Government.

Reduction of the Fort and City of Baroach,
on the 29th of August and of the ability,
promptitude, and gallantry with which
that important Service was accomplished
by the brave Officers and Troops under
the Command of Lieutenant Colonel
Woodington of the Establishment of
Bombay.

His Excellency in Council highly
approves the Conduct of Lieutenant Colone
Woodington in his judicious and spirited
exertions for the early reduction of the
place, in directing the operations of the
Siege, in his reasonable determination

to assault the Fort, and in the disposition which he made of the Troops under his Command, with a view to secure the rapid Success of that gallant attack.

The Governor General in Council signifies his particular approbation of the Valor and judgement manifested by Major Cuyler of His Majesty's 86th. Regiment throughout the Service at Baroach, and in Commanding the Storm of the Fort, and by Captain Richardson of the same Corps in leading the Assault. His Excellency in Council also observes with particular satisfaction the Conduct of Captain Cliffe of the Engineers of Bombay.

To all the Officers and Troops, European, and Native, employed on this honorable occasion, His Excellency in Council signifies his high commendation.

Extremity of the Peninsula of India, effected a Service of the most arduous nature, with a similar Spirit of Alacrity and Courage.

In the course of an extensive and complicated System of Military operations the glorious success of our Arms since the commencement of this War, has been uniform in every part of India: The able and Gallant Officers and Troops of His Majesty's Service and of the several Establishments of the three Presidencies, have ~~been actuated~~ by equal sentiments of public Spirit and honor, and have cooperated with equal ardor and success in an united effort to accomplish the just objects of the allies.

The Governor General in Council confides in the justice of our cause, in the unanimous Zeal of the three Presidencies, and in the continued cooperation of their respective resources and power; that the

General Orders By His Excellency the Most Noble the Governor General in Council.

Fort William 30th October 1803.

The Governor General in Council has this day received from Major General The Honorable Arthur Wellesley the official Report of the signal and Splendid Victory obtained by the Troops under the personal command of that distinguished Officer on the 23rd of September at Assye in the Deckan over the Combined Armies of

Dowlut

6038

Fort St George 6th December 1803

Dowlut Row Scindiah and the Rajah of Berar.

At the close of a Campaign of the most brilliant Success and Glory in every Quarter of India, this Transcendant Victory demands a Testimony of Public honor, equal to any which the Justice of the British Government in India has ever Conferred on the Conduct of Our Officers and Troops in the Most distinguished period of our Military History

The Governor General in Council highly approves the Skilful plan formed by Major General Wellesley on the 23d of September for precluding the escape of the Enemy, and for reducing their Combined Army to the Necessity of hazarding a general Action.—

His Excellency in Council also Signifies his most Cordial Approbatio

of the magnanimity promptitude and Judge-
=ment with which Major General Wellesley
determined upon the instantaneous Attack
of the Enemy on the 23rd of September.—

During the Severe Action
which ensued the Conduct of Major General
Wellesley United a degree of Ability of Pru-
=dence, and of dauntless Spirit, seldom equal
=led, and never surpassed.—

The Governor General in Council
signifies his warmest Applause of the
exemplary Order and Steadiness with which
the Troops Advanced under a most destruc-
=tive fire against a body of the Enemy's
Infantry Considerably superior in Num-
=ber, and determined to oppose a Vigorous
Resistance to our Attack. The Numerous
Infantry of the Enemy were driven from
their powerful Artillery at the point of
the Bayonet with an Alacrity and Reso-
=lution

6040.

Fort St. George 6th December 1803.

Resolution truly worthy of British Soldiers and the firmness and discipline Manifested by our brave Infantry in Repelling the great body of the Enemy's Cavalry merit the highest Commendation.—

The Governor General in Council has remarked with great Satisfaction the gallant and Skilful Conduct of the Cavalry Commanded by Lieutenant Colonel Maxwell, and particularly of His Majesty's 19th Regiment of Dragoons, a Corps distinguished in India by a long and uninterrupted Course of Arduous Service, and of progressive honor.—

His Excellency in Council directs Major General Wellesley to Signify to all the Officers and Troops employed on this glorious Occasion, and especially to Lieutenant Colonel Harness and to Lieutenant Colonel Wallace who Commanded Brigades

6041

Fort St. George 6 December 1803.

To Brigades and to the Officers of the Staff.

The high sense entertained by the Governor General in Council, of their eminent and honorable Services.—

The important benefits resulting from the triumph of our Arms in the Battle of Assye are not inferior to the Splendour of the Action. The immediate consequences derived from the exertions of that day, have been the Compleat defeat of the combined Army of the Confederate Chieftains, an irreparable blow to the Strength and efficiency of their Military resources, especially of their Artillery in the Dekhan, the expulsion of an hostile and predatory Army from the Territory of our Ally the Soubahdar of the Dekhan, and a seasonable and effectual check to the Ambition, pride and rapacity of the Enemy.

The

6042

Fort St. George 6th December 1803.

The prosperous result of these Advantages must be accelerated by the Auspicious progress of our Arms in other Provinces of India, and it may reasonably be expected that the decisive Victories gained at Delhi, and Aſsye on the 11th and 23rd of September, will speedily Compel the Enemy to restore Peace to Hindoostan and to the Dekhan.—

The Atchievements of our Commanders, Officers, and troops, during this Campaign, and especially in the Signal Victories of Delhi and Aſsye, must inspire a general Sentiment of just confidence in the Vigor of our Military Resources, and in the Stability of our Dominion and Power, our uniform success in frustrating every Advantage of Superior Numbers of powerful Artillery, and even of obstinate Resistance opposed by the Enemy Constitute satisfactory proof of the established Superiority

60493

Fort St. George 6th December 1803.

Superiority of British Descipline experience,
and Valor, and demonstrates that the glo-
rious progress of our Arms, is not the Ac-
cidental Result of a temporary or tran-
=sient Advantage; but the natural and
certain effect of a permanent Cause.

From these reflections consola-
=tion is to be derived for the loss of
those lamented and honored Officers and
Soldiers, who Animated by the gallant
Spirit of their General, and emulating
the Noble Example of his Zeal and Courage,
sacrifced their lives to the honor and in-
=terests of their Country.

The Governor General in Council
greatly regrets the loss of Lieutenant Colonel
Maxwell of His Majesty's 19th Dragoons,
who fell at the head of the British Ca
-valry bravely Charging a large body of
the Enemy's Infantry, with the utmost

To the Adjutant General

Fort St. George

Sir,

I had the honor of Reporting on the 10th Ultimo for the information of the Commander in Chief the progress and operations of the Troops against the Rebels in Malabar since which my entire Attention has been drawn to the District of Cotiote which is the immediate seat of Rebellion -

Although the successes of the Troops have been great they have not been able to effect the purpose. I proposed of forcing the Rebels to retire to the interior, and still find a prolonged and ultimate opposition.

I have yet hopes that the Rebels may tire of this Warfare from a conviction

Fort St George 6th December 1803

conviction of the inutility of their opposition,
but if they continue to persevere it may
yet be lengthened owing to a remote
period.—

As their System of Warfare is
merely to fire on the Troops in small
parties and immediately to retire into
the Jungle it seldom happens that any
decided Advantage can be gained over
them in a recent instance however a party
has suffered from its temerity. When the
Nephews of the Pychi Rajah escaped from
Cananore they were led by Shagmermenon
a man of notorious bad Character; as he
had a perfect Knowledge of the environs
of Cananore he on the Night of the 19th
Instant with a party of about thirty
fellows concealed themselves in a house
within three Miles of that place with the
intention of attacking the house of the

Sub

Sub Collector, and carrying off the money which was there under a Guard. Information however having been given of the place of their concealment they were so completely surprised by a small detachment from the Garrison that the whole of the party with the exception of three or four who made their escape, were put to death. The casualties among the troops were few. I enclose a return on that occasion.—

I had the honor on a former occasion to forward a Copy of the Proclamation I had issued to induce the Nephews of the Pychi Rajah to submit themselves to the Government. I have recently received Letters from them with the assurance that they will immediately surrender themselves as their

their influence is great I have sanguine expectations that this circumstance will be attended with the most beneficial effects Several Rebel Chiefs have lately surrendered themselves; and this example I hope will be the means of a considerable part of them submitting to the Authority of Government.

My Lord,

From the Military Board having ordered partial Repairs at Vizagapatam and Chicacole for the accommodation of the Troops proposed Allottment of Ordnance &c. for the Fort and the Black Town Recommendatory observations thereon Submit Registry of Bills for Extraordinaries and Recommend payment of sundry bills.—

1 We have to report that the necessary orders have been issued in consequence of the instructions conveyed to us in Letter from the Secretary to Government in the Military Department dated the 2nd November.—

2 We are concerned to state to your Lordship in Council, that we have received reports from the Officers Commanding at Vizagapatam and Chicacole, that considerable damage had been sustained at both Stations from a severe Storm, and Inundation of the Rivers

River at the latter place, at the setting in of the Monsoon — We have given orders for a partial repair of such Buildings as are indispensably necessary for the accommodation of the Troops at both Stations —

3 In consequence of the orders contained in the 6th Paragraph of the Letter of the Secretary to government in the Military Department dated the 19th April last, relative to the provision of Gun Carriages for Fort Saint George, We proceeded to an investigation the object of which was to ascertain the number and Calibre of Guns requisite for the defence of the Fortifications; the description of Carriages best adapted for the defence of each particular Work; and the number of Carriages now mounted on the Works, or

in Store, which are serviceable or repairable,
and We have now to state to your Lordship
in Council, as the result of our inquiries,
the following opinion.—

4 As the Eastern or Sea face of
Fort Saint George is most liable to a sudden
attack from the Enemy's Ships during
the absence of the British Squadron, it is
presumed that the Ordnance designed for
its defence should be of the largest Calibre;
and We have therefore allotted 2 forty two
Pounders for the defence of the East face
of the South East Demi Bastion; the same
number and calibre for the defence of the
East face of the North East Demi Bastion,
and 3 forty two Pounders for the Salient
Angles of the Redans. On the Returns and
Lines it is proposed to place 24 thirty
two Pounders, and 22 twenty four Pounders,
in the Casemates of the Lines 50 thirty two
Pounders

6867 Fort St. George 6th December 1803.

Pounders; and in the Casemates of the Redoubt 4 forty two Pounders.

5 The extreme narrowness of the whole of the East Line is much to be regretted, as, should the Barbette Parapet and a part of the exterior revetment be destroyed by the fire of the Enemy's Guns, there is not sufficient room on the Rampart to construct a Parapet to cover the Troops and Ordnance at present a common Train Carriage cannot be used, as the Guns when fired would undoubtedly recoil into the interior of the Fort. But as it appears that the Rampart could be widened, We recommend that the Senior Engineer be called upon to submit a Plan for widening the Lines, or such part of them as he may deem best adapted for a direct defence, accompanied by an Estimate of the expence. The parts so widened will not only add to the Strength of the

face, but will afford excellent cover for the
Troops when off duty and if properly con-
structed will answer, in time of Peace, for
a Gun Shed, in which the whole of the Guns
Carriages &c. belonging to the respective Line of
the Sea face may be lodged under cover, and
will be at hand to man respective upon the Works
if wanted, in a few Minutes. The Appropria-
tion of the new Works to this purpose in time
of Peace will be productive of considerable
Saving, as the Carriages will be preserved
as well from the effects of the Sun, as from
the corroding quality of the Sea air, which
unavoidably destroys the iron work of all
Carriages exposed to it, in a very short space
of time. It is also necessary that a sufficient
number of Furnaces for heating Shot should
be constructed immediately in the rear of
the Sea face near the Ramps of the Line

6 For the East Lunette or Spur We

have

have Allotted 4 thirty two Pounders from this Work being low the Shot will do considerable execution against Shipping

1 The most important Works upon the East face are the North East and East Counterguards for each of these We have Allotted 12 twenty four Pounders, but as the fire from these Works must be uncertain against Shipping from their great height, We Strongly Recommend that the Salient Angles of the Covert way in front of these Works be immediately formed into Bat teries and that there may be placed in each 6 twenty four Pounders.

2 The North East Bastion and East curtain face of the Laboratory, or detached Demi Bastion, are also of the greatest importance in the defence of the East front, to the former there are allotted eighteen Pounders, and to the latter 8

Thirty

6170 Fort St. George 6th December 1803.

8 thirty two Founders, with the addition of
2 Thirteen inch Mortars with this allot-
ment the Sea face will present such a
Battery as will in our opinion, bid de-
fiance to any Force that can appear
before it.

9 In allotting the Guns for the
defence of the North, West, and South faces,
We have only to Remark that We have been
careful not to admit different Calibre
the same Work, as a measure of Precau-
tion in the event of a Seige might pro-
duce pernicious consequences and in al-
lotting no Calibres under 18 Pounders for
the defence of the several Outworks on
these fronts.

10 It is well known that a
low, grazing fire, is the most destructive
during a Seige, and as it will be of few
necessary to cut embrazures in the Crest of
the

6071

Fort St. George 6th December 1803.

the Glacis for the purpose of receiving Guns,
it will be advisable to have lodged in
the Casemates of the Ravelins about 50
eighteen Pounders for this purpose, inde-
=pendent of those allotted for the Works.

11 With respect to the description
of Carriages best adapted for the defence
of the Works, after a most deliberate con-
=sideration, We give the preference to
the common Trail Carriage. It is cer
=tainly an Advantage to have Carriages
which require few Men to work the
Guns placed on them, as a greater num-
=ber can be mounted, and consequently
the besieged have it in their power
to harrass the Enemy the more. but as
Garrison Sweep Carriages require more
room than those of the common con-
=struction, and as the besiegers never
fail to erect Batteries on the Salient
Angles

6172 Fort St. George 6th. December 1803.

Angles of the Counterscarp, after the defences
of the Rauelin, and Lunettes, of the Face attacked, are destroyed, it follows that if the
flanks of the Bastions do not contain a
sufficient number of Guns to silence them,
the defences of the Body of the place must
be immediately destroyed, and the place
either be taken by assault, or the Garrison
must consent to a disadvantageous Capitulation besides, these Carriages cannot
be used without having swept previously
laid for them to traverse upon, nor can
they be removed without much labor; and
lastly from their covering more Space than
the Trail Carriage, they are more liable to
be destroyed by the besieger's shells. We are
therefore induced to recommend that all
the Carriages required for a flanking
and direct fire be of the common construc-
tion, and that those for the Sea Line and
for Table

6073

Fort St. George 6th December 1803

Barbette Batteries be traversing Carriages on Sweeps—

12 The Guns allotted for the defence of the Sea Line must necessarily be mounted on traversing Carriages for the reasons before stated And those for the Casemates on truck Carriages—

13 In order to be well prepared for a Seige a considerable Number of Fascines and Gabions for repairing Parapets, and making occasional Works, should be kept in readiness; but as these are perishable Articles, and the former can be readily procured at a very short Notice in the vicinity of Fort Saint George, We are of Opinion that a quantity of Materials for making Gabions only, should be laid up in Store—

14 We deem it highly expedient that all the Shot now piled on the Berms

should

Fort St. George 6th December 1803.

should be removed, and had we been pre-
-pared to point out how it could be conveni-
-ently disposed of We should have pressed
for it's immediate Removal, as endangering
the Works in the vicinity of which it is
placed. As, however, that, under present
circumstances, is not the case, We can only
record our disapproval of the present dis-
posal of the Shot, and the hope that Should
Government become the Proprietors of a
greater part of the Area of the Fort than
is now possessed by the Company the removal
of the Shot may be held as an indispensa-
-ble object, and that a large Spot of Ground
may be allotted for the formation of an
extensive Shot yard.

15. On referring to the Accompanying
Statement it will be seen that 11 forty
two Pounders, 86 thirty two Pounders, 256
twenty four Pounders, 118 eighteen Pounders,

and

6075

and 23 twelve Pounder Gun Carriages are
required to mount the Guns Allotted for
the defence of Fort Saint George: of this
Number 43 are to be Garrison Sweep, and
54, Truck Carriages.

16. The defence of the Black Town
Wall, as intimately connected with that of
Fort St. George, has also had our serious Con-
sideration. In providing for it's defence
We have been careful not to allott any
Guns of large Calibre, except at the
South West, and North East Angles, these
being the most vulnerable points in
that extensive Fortification. We conceive
that Clive's Battery at the North East
Angle should be formed into a
Redoubt, and that a Palisade should
be carried from the Curtain which
connects the Hospital Bastion to the
Hospital Bridge. These improvements

would

Fort St. George 6th December 1803.

would certainly tend much to prevent the
Fortifications of the Black Town being
taken by surprize. We recommend that
the Carriages for these Works be all
Traversing Sweeps, as should the Enemy
get possession of them, they could not with-
=out considerable trouble, be removed
to any Battery which might be erected

17 Immediate Orders should be
given for laying the Sweeps on the Sea
Line, and on the Barbette Batteries; as well
as on the Bastions of the Black Town Wall,
and for opening the Embrazures in the
Faces and Flanks of the several Works where
it is proposed to plant Guns.

18 The Enclosure No. 5 contains an
Abstract of the Number of Ordnance allotted
for the defence of the Fortifications of Fort
St. George and of the Black Town, as the
Count

6077

Fort St. George 6th December 1803.

Account of the Serviceable and repairable T.
Carriages on the Works and in Store; and a
Statement of the Number of Gun Carriages
required to complete the Allottment. As the
Number under this last head is very consi-
=derable, and as we are aware of the Anxiety
of your Lordship in Council that this Fortress
should, without delay, be placed in the most
efficient state of defence, We have proceeded,
under the authority of our President, without
awaiting the observance of Official form, to
provide for the immediate construction of
the Carriages required, by the purchase of
a large quantity of Timber, on terms which
we are persuaded will be found highly
Advantageous to the Public, and, by the
engagement of the most Skilful of the
Artificers employed by the late Gun Car-
=riage Contractors, for whose use We have
also retained the Tools, Moulds &ca &ca pur-
=

Chased

purchased from the late Contractors in order to be sent to the Gun Carriage Ma-
=nufactory at Seringapatam. The whole of these, with an adequate establishment of Lascars, Guards, &c. are placed under the charge of Lieutenant Franck of Artillery, the Officer selected by our Pre-
=sident to be employed as temporary Agent for the construction of Gun Carriages at the Presidency and it is further our in-
=tention, with a view to the immediate defence of the Fort, to order the whole of the Guns for which there are Carriages, to be immediately mounted, and to place the Supernumerary twelve Pounders included in Enclosure No 5 in the Casemates of the Sea Line till the Carriages intended for the Guns allotted to them can be completed.

10 It will be evident to your Lordships in Council that in considering the Number

6074

Fort St. George 6th December 1803.

Number and quality of Ordnance to be Allotted

for the defence of Fort Saint George, We have

formed our Estimate upon a very extensive

Scale giving to each Work the Number and

description of Cannon which in our opinion

are proper for the best possible defence of

that Work, and of those with the defences of

which the fire of that Work would be con-

-nected, in the possible case of an Attack by

a Force which should be capable of com-

-pletely investing the place. This is an im-

-probable event, and it is equally improbable

that any Garrison would be placed in

Fort Saint George that could Man the Numerous

Artillery. But, if Ordnance for each Work is

not distinctly Allotted, it would be necessary

to disarm one part for the defence of

another, and with a limitted Garrison the

labour of such Removal of Ordnance, the time

it would employ, and possible risk of Attack

at

6080 Fort St. George 6th December 1803.

at an unguarded Spot, are considerations
of importance We have therefore detailed
in the fullest Manner, the Number and
Nature of the Ordnance required for the
extent and importance of the Works; at
the same time that We think it our duty
to state, that a vigorous defence might
be made with a very inferior equipment of
heavy Artillery to that which We have al-
lotted to the Works on the land side of Fort
Saint George.—

20 We have the honor to forward
for the decision of your Lordship in Council
Register of Bills for Extraordinaries for the
Month of April 1803 with our Opinion upon
the several Charges therein contained.

No 236

Fort St. George 4th December 1803.

6122 Fort St. George 6th December 1803.

Resolved that Application be made to the Government of Bombay for the Supply of Iron required for the use of the Gun Carriage Manufactory at Seringapatam.—

To the Right Honorable
Lord William Bentinck
Governor in Council &c. &c. &c.

My Lord,

We have to acknowledge the 1st Receipt of Letters from the Secretary to Government in the Military Department dated the 23rd. November, and to report that We have given the necessary orders respecting the Guns, Gun Carriages and Shells, stated by the Collector in the Southern Division of Arcot to have been discovered at Nurdavoor and Villaporam.—

From the Military Bd. stating that they have given the necessary orders respecting the Guns &c. discovered at Nurdavoor and Villaporam—State that they do not possess sufficient information relative to the Iron at Malacca to form an estimate of the Provisions &c. required for the use of that Garrison, and recommend that Application be made to Bengal for a Supply equal to the Consumption &c.

of 3 Months.— submit Register of Bills for Extraordinaries for September and Recommend payment of Sundry bills and advances of Cash.—

Garrison of Malacca, We have to represent to your Lordship in Council that from the general terms in which Captain Farquhar has stated his wants, and from the total deficiency of Returns except of very old date, We do not possess the information requisite to enable us to form a detailed Estimate of the Provisions and Stores required; but we understand the Garrison to consist of nineteen European Artillery, seventeen European Infantry, three hundred and ten Native Infantry, and thirty Gun Lascars, for which detail We Recommend that Application be made to Bengal for a supply of three Months Provisions considering this supply as a Garrison Stock in the event of Siege; as it is consistent with our knowledge, from former experience, that Provi-

Provisions for the current expenditure of the Garrison can be obtained upon the Spot.

3 The Supply of Military Stores already indented for by Captain Farquhar on Bengal, appears to us so extremely disproportionate to the Force of his Gar-rison, that unless it is understood that a considerable reinforcement of Troops is to be sent to Malacca, We cannot but consider the measure as placing a number of Valuable Carriages in danger of being converted to the use of an Enemy

-ted at a lower rate than was estimated,

there is an apparent excess above the

Estimate in the amount of the Bills,

We deem it necessary to explain for your

Lordship's satisfaction the cause of the

difference between the Bill and Estimate

The amount of Estimate was Pagodas

6,862, and Lieutenant Fraser's charges

amount for the work estimated to Pagodas

6140 or Pagodas 722 below the Estimate-

but on account of it's having been determined

to change the Scite of the Hospital, a greater

quantity of Masonary than had been esti-

-mated became necessary, and there is

therefore an additional Charge on that

account of Pagodas 2230. 8. 66 - which

was

6127

Fort St George 6th December 1803.

makes the whole Charge exceed the Esti-
=mate by Pagodas 1508, but this last
Charge being in excess of the quantity of
work should not be considered as an
excess connected with the Estimate to
this we have to add that the old Mate-
=rials were supposed to be worth Pagodas
1500, and they produced only Pagodas 713 so
that if the Sum of Pagodas 787 which they
fell short of their estimated value, be
deducted from 1508, there will remain
an excess above the Estimate of Pagodas
721 for which Sum the Company have
additional works executed which amount
to Pagodas 2230. In the Calculation the
Engineer's Commission being a regulated
Charge has not been considered.

Resolved

Fort St. George 6th December 1803.—

Resolved, that the Governor Ge-
=neral in Council be requested to dispatch
from Fort William to Malacca the Stores and
Provisions, which the Military Board has
recommended to be supplied for the use of
that Garrison.—

The Board having passed
their decision on the several Charges, Sub-
=mitted in the Registers of Bills for Extra-
=ordinaries for the months of April, June,
August and September last, ordered that
the Registers be returned to the Military
Board.—

Ordered that the Military
Auditor General be directed to authorise
the payment of the Bills and Advance
of Money recommended in the foregoing
Letters.—

My Lord,

From the Military Auditor General Relative to the adjustment of Colonel St Johns Charges on account of the French Prisoners of War.

1 I have the honor to acknowledge the Receipt of a letter from the Secretary to Government in the Military Department, under date the 23rd Instant, giving cover to Copies of a letter from the Officer Commanding at Pondicherry and its enclosures, and desiring that I would audit and Adjust the Charges Stated by Colonel St John on account of Allowances paid to the French Prisoners of War Vca

2 Previous to executing your Lordships directions it becomes necessary to state that Colonel St John forwarded to me two Bills, with corresponding Receipts, for the Amount of Subsistence paid at

at Pondicherry, to the French Civil and
Military Officers, and for which he had
taken Credit in his Account Current (a
Copy of which was transmitted to me)
those Bills were passed in his Office and
sent to the Military Paymaster General on
the 5th Instant for the purpose of being
forwarded to the Paymaster at Vellore (in
whose range Pondicherry is included)
with instructions to insert them to his Dis-
-bursements and make the necessary ad-
-justment with Colonel St. John; the Vouchers
in support of the Charge for Provisions &c.
furnished by that Officer for the use of
the Prisoners, do not correspond with the
Amount for which he has taken Credit,
as the Accompanying Memorandum will
shew.

I Captain Rowles of the Native Cavalry who has benefited by the late alteration in the promotions of Officers of Native Cavalry has presented his Abstract to me for payment of Arrears of difference of pay in consequence of the Advanced Rank which he has obtained but which I have refused to sanction until honored with your Lordship's Orders on that head.

2 The existing Regulations of the Service do not Admit of Officers drawing the pay of the Rank to which they are promoted According to date of Commission but According to the date of promulgation of such promotion in General Orders

3 The case referred is however nec-
-common, and it is only incumbent on me
to remark that however much the Officers
who have benefited by promotion may
think themselves aggrieved at the dif-
-ference of pay being withheld from them,
the public ought not to be subjected to
double payments, those Officers who
were originally promoted, having received
the allowances now claimed by those re-
-cently promoted, who should perhaps
be satisfied with the change which has
taken place in their favor, unless some
Consideration is due to the case of Officers
of the Corps of Native Cavalry entitled
to promotion by the late rectified error

it's publication, and who of course could

To the Right Honorable
Lord William Bentinck
Governor in Council
My Lord,

I have had the honor to receive

a Letter from the Military Auditor General Reporting

on the balances in the books of the Military Paymaster General.-

A letter from the Secretary in the Military Department dated the 5th Ultimo, giving cover to certain extracts of General Letters from the Honorable The Court of Directors to this Government, one of which dated the 27th April 1803 expresses that the Civil and Military Auditors under this Presidency should Report Annually to your Lordship in Council on the balances of public Money outstanding in their respective Departments, which shall in future be duly attended to, on my part at the period of closing my annual Books.

2 In the mean time as it may prove satisfactory to your Lordship, and to the Honorable Court, to be informed of the actual State of Balances in the Military Department on the 30th of April last, and as the existing Regulations of the Service empower me to look into and examine

6128

Fort St. George 6th December 1803.

examine the Books of the Military Paymaster
General at pleasure, I have availed myself
of the latitude allowed by inspecting with
particular attention Mr. Roebuck's Ledger,
and with as little delay as has been found
practicable. I do myself the honor to lay
the result before you; because from circum-
stances which it will hereafter become
my duty to detail, the
General may not have the Statements which
he has been called upon to furnish ready
for some time.

3 On the 30th of April 1803 the
balance carried forward in the Military
Paymaster General's Ledger to the Current
Year 1803/4 Amounted to no less a Sum
than Star Pagodas Seventy Six Lacs, thirty
eight Thousand and Seventy one ½ fanams
Thirty Nine and Cash two (Pagodas 7638072
39. 2) but this very considerable balance
Comprehends

6139

Fort St. George 6th. December 1803.

Comprehends in it Items of importance in
Amount which the practical part of the pre-
sent System does not permit to be disposed
of otherwise, therefore they have been included
under the general head of "Balance" altho'
strictly speaking they did not belong to it I
shall however illustrate this interesting part
of my subject by a distinct detail.—

Particulars of the balance outstanding in
the Books of the Military Paymaster General
on the 30th April Amounting to Pag.s 1,76,38,071.39.2

First. Amount Value of the Honble Company's dead Stock, of Ord-nance and Provision Stores	29,09,722.38.30

Grand Total Pags.	76,38,071	39 2

The first Seven of these entries I feel no difficulty in explaining and shall accordingly proceed to throw such lights on the Subject as I trust will be deemed Satisfactory.-

1st and 2nd The Honorable Company's dead and quick Stock have uniformly constituted a balance in the Military Books at the close of each Official year because the present System does not point out the propriety of opening distinct and Seperate heads of Dead and Quick Stock

in

6142

Fort St. George 6th December 1803.

in the Books, a defect which may easily and effi-
=caciously Remedied, by your permitting those
heads to be opened from the first of the next
Official year.

3rd. The advances made to Lieutenant
Colonel Dallas as principal Agent for Bul-
=locks during the Mysore War of 1799 stood in
the Books of the Military Paymaster General
at the end of last Official year to the debit of
that Officer, because no Adjustment of his
Accounts had then taken place, they have
however since that period been so far eluci-
=dated as to admit of Lieutenant Colonel Dal-
=las being Credited and "Last War" with Sippoo
Sultaun debited for the Amount, those de-
=counts owing to the particular investigations
which Government deemed it necessary to be
made by Major Symons, have not yet reached
my Office for Audit from December 1798 to
May 1799, but I am in possession of Security

Approved

6143

Fort St. George 6th December 1803 —

Approved of by your Lordship in Council for the
issue of that Audit whenever I may have the
means of Accomplishing it.

4th The balance on the 30th April 1803
in the hands of the Paymaster to the Army
which took the field under the immediate
command of His Excellency the Commander in
Chief arose from Advances made to him from
the General Treasury and by Collectors in
different situations to enable him to hold a
sufficiency of Cash not only to pay the great
body of Troops composing the Grand Army,
but to afford such assistance as might be
required by the other divisions serving under
Major General The Honorable A. Wellesley,
and that Commanded by Colonel Stevenson,
those Advances I have not a doubt will be
most satisfactorily Accounted for when an
Adjustment of the Army Accounts can take
place, should they not, it will be my duty

to

61/45

Fort St. George 6th. December 1803.-

to lay the impediments before your Lordship.

5th. On the 30th. April last the Mili=
=tary Paymaster in Malabar stood debited
in the Books of the Military Paymaster Gene=
=ral with the Sum before stated in the 5th
entry, his Accounts disbursements at that
period had only been transmitted to my
Office up to the 31st. January 1803, but his Dis=
=bursements for the three succeeding Months
having since been Audited the Amount in
which he stood debited as above has suf=
=fered a Reduction of Pagodas 1,61,895. 20. 61
and the residue will be adjusted when the
regular forms of Re=audit and Final Audit
shall have been duly Accomplished.

6th. The Balance entered under
the head of Paymaster in Mysore in the 6th.
entry, remained actually on hand his Situa=
=tion having been deemed eligible for Re=
=mitting Cash to the Grand Army in the Field.

and

6145

Fort St. George 6th December 1803.

and it appears that of the Pagodas 1,93,720. 20. 68 100,000 Pagodas was sent by him some time in April to the Paymaster of the Army, but for which the Military Paymaster General did not obtain Credit until the month of June following.

7th The balance stated against the Paymaster at Malacca as per 7th entry was occasioned by his Accounts Disbursements being on the 30th April last, six Months in Arrears, by which means all the Advances for that period stood Actually to his debit, and on Account of which he has obtained no Credits because his Accounts have not been received in order to their being Audited. To the infrequent communications between Malacca and this Presidency is to be ascribed the cause of delay in Adjusting those Accounts.

I now trust my Lord that of the balance Pagodas 1,63,807. 32. 2. outstanding in the Books of

Fort St. George 6th. December 1803.—

of the Military Paymaster General on the 30th of
April 1803, I have given you a Satisfactory
Account of Pagodas Fifty Seven Lacs Seventy
eight Thousand and Seventy two, Fanams thirty
four and Cash Seventy six (Pagodas 57,78,072.
34.76).—

The remaining balance of Pagodas
18,59,999.4.6.) of which not a single Pagoda
exists in Money) is made up of Sums outstand-
=ing against particular persons in the Books
of the Military Paymaster General previous
to the carrying into effect the present System
in May 1792 of Sums transferred to his Books
from a Committee of Works in 1792 and from
the Superintendant of the Nabob's Accounts in
the same year, and of Sums Constituting
transfers between him and Subordinate
Paymasters since May 1792 hitherto unad-
=justed together with unsettled balances of
Family payments, on these points it will be
the

the business of the Military Paymaster General
to enter into particular explanations for
your satisfaction as they are in no manner
connected with my Office; but in the before
mentioned unaccounted for balance is
also included floating Retrenchments
made in my Office from the Accounts of
all the Subordinate Paymasters but which
are in a regular train of liquidation Ac-
=cording to the progressive rules laid down
by the existing Regulations of the Service
When the Military Paymaster
General shall be able to bring forward
his Statement, I have reason to believe
that he will be able to detail to your
Satisfaction the particulars of this unac-
=counted for balance as stated by me
under the different heads I have enume-
=rated, and I am induced to give this
opinion from having seen the principle
and

6148 Fort St George 6th December 1803.

and particulars upon which his intended
Report is to be founded but the final
adjustment of this balance will however
require time to bring to a conclusion
because it is connected in a Material
degree with the Accounts of Military
Paymasters and others Receiving Ad-
vances from the Military branch of
the Service for periods both previous
to, and since the Commencement of the
present System making in the aggregat
a considerable Number of years.—

It now becomes my duty to
State the Circumstances connected with
the Sum of Pagodas ₹3,370.35.71 alledged
to be outstanding against the Military
Paymaster General when Paymaster &
Company's Allowances to the Swift Regi-
ment De Meuron and Noticed by the

the Compte. De Mauron in Bills on the Honorable the Court of Directors and has been since transferred to the debit of "Account Current London" agreeably to instructions from the Accountant General to the Military Paymaster General dated 28th April 1802, the remaining Sum of Pags. 1,3,70,35,7. Mr. Roebuck will, no doubt, explain in his Report.

Before I conclude it is incumbent on me to represent that no balances of the public Money are permitted to remain in the hands of individuals with the exception of Reimbursements on Accounts, which can only be adjusted under the prescribed Regulations, all balances on Accounts Current (unless where the exigencies of the Service require that balances should remain) are regularly deducted every Month from the Estimates of the Military

=dent no public Money is suffered to

To the Military Paymaster General
Fort St. George

Sir,

On my being appointed by his Lordship in Council to the Situation of Paymaster and Garrison Storekeeper in the Province of Malabar, I conceived it my duty, while yet at the Presidency to ascertain as far as possible the causes which had contributed to the failure of my Predecessor.

Information I derived from various quarters, together with my own private knowledge of the circumstance tended to convince me that one principal reason of the irregularities complained of arose from the total want of Servants

Fort St. George 8th December 1803.

Servants competent to the discharge of those duties, which in Departments so extensive, and so complicated, as those of Paymaster, Commissary, and Garrison Storekeeper of Malabar, during the present disturbances, necessarily must be entrusted to them.

The People employed by my Predecessor were mostly Natives of Bombay or Malabar, ignorant of the forms of the Madras Offices, and but few of them calculated, either by education or habits for the discharge of any Situation in which Abilities and integrity were essential Requisites.

That Persons of an opposite description were absolutely required by me, no man acquainted with the Situation of Affairs upon this Coast, can doubt.

Actuated therefore by an earnest desire of conducting the duties of my Station in a manner that might merit the approbation of my Employers previous to quitting

6158

Fort St. George 6th December 1803.-

quitting the Residency I engaged five Persons to accompany me to Malabar.

These men were entertained by me on the 27th October, and as they did not enter into their Official Situations till the 12th November, their Allowances for the intermediate period were necessarily paid by me; and previous to their departure I was obliged to Advance them a Sum of Money for their travelling expences, a Memorandum for the Amount of the whole I now take the liberty to enclose, and trust you will forward it to Government with such Recommendation as it may appear to you to deserve

Government may perhaps think the wages paid to these People too high, I should hope however that the foregoing explanation will sufficiently Account for it, nor do I fear but if the principle of Remuneration is Admitted, the particulars will be objected to.

May

Sir,

From the Officer Commanding the Southern Division of the Army - Transmitting the Engineers Report of the Repairs required to the Granary and Store Room at Trichinopoly

Representations having been made

of the late heavy Rains, Water had forced
it's way into the Granary and Store Room,
and endangers the Preservation of great
Part of what they respectively Contain, Par

Sir,

I have the honor to inform you that I have this day, agreeably to your

6165 Fort St. George 6th December 1803.

Orders examined the State of the Garrison Store house, and also the large Granary.—

The ground on the North side of the Store house being much higher than the floor, the Water soaks thro' it, in every part. There is also a large Square Stone Well, on that side close to the Wall, in which the water frequently rides above the level of the floor of the Store room, and easily penetrates it, I conceive it to be absolutely necessary to the safety of the Stores, to have the whole outside of the wall well pointed, and particularly the seams of the Well, with water cement.

The ground outside should be sloped so as to carry off the Water from the building, and a Brick or Chunam, water course constructed, to convey it to the Street.

The same Remark and remedy Apply to the Granary, with regard to this latter

Fort St. George 6th December 1803.

latter, a water course had already been built
in one part, and a pipe to convey the water
under the Public Road into the Street
but the passage to it from the Granary
across the Street has not been made;
From the Street also to the entrance of the
pipe the water course leads thro' the Yard
of a Braman, and being open at top,
receives all the filth thereof; which has
choacked it up completely, In Order to
Remedy it, it requires to have the part
leading thro' the Braman's premises
Arched over, and the entrance guarded
by an Iron Grating toward the Street;
which will effectually prevent it's being
choacked up in future.

Sir,

From the Offic. Commanding at the Mount-- stating that Repairs are required to the Barracks at the Mount.

I have the honor to represent for the information of the Right Honorable the Governor in Council that the Troops at this Station suffer great inconvenience from the bad State of the public barracks occupied by the second Battalion of Artillery; the defects in the greater part of the roof give free admission to the rain, and likewise the decayed and worn down State of the Bricks of the floor render the habitation unhealthy from the Damp; this consideration will I am induced to hope determine the Right Honorable the Governor in Council after the termination of the Monsoon to order that the covering shall be taken off, and a new roof put on, and also a new

To the Chief Secretary of Government
Fort St George

Sir,

From the Town Major of Fort St George &c. &c. &c. requesting that permission may be granted for the Subsistence of Mr. Gregson at Pondicherry

It having come to the knowledge of the Right Honorable the Governor that Mr. Edward Mathew Gregson, late a Serv[illegible] in the Service, had incurred several debts at Madras which he had not the means of discharging and that, from being under Age, his Creditors could not resort to

to legal means for the Recovery of their debts.— His Lordship to prevent a continuance of such improper Conduct on the part of Mr. Gwynne — gave Orders that he should reside at Poonamallee, untill an opportunity offerd of sending him to Europe, Mr. Gwynne has accordingly gone to reside at Poonamallee where a Quarter has been allotted to him in consequence of Orders which were given to the Officer in Command at that Station.—

As I have reason to believe that Mr. Gwynne has not the means of subsisting himself; I beg leave to Recommend that an allowance equal to what it has been customary to grant to persons in his situation, be allowed to Mr. Gwynne — but as Mr. Gwynnes situation renders it not improbable that this Money if paid to him monthly might be appropriated to other uses than those of

of Subsistence for which it is intended,
I beg leave to suggest the propriety of
Authorizing the Officer Commanding

Subsistence to be paid to Mr. Gwynne

Sir,

From Mr. R. T. Farquhar Commissioner in the Eastern Seas. Transmitting a claim of Captain Ross to the Amount of 3548 Pagodas for work performed &c. at Tenate.—

I have the honor to transmit you herewith a packet from Captain Ross of the Madras Establishment relative to his claims on Government for public Works performed by him at the Seige of Ternate by Order of Colonel Burr.

I take the liberty in justice to that Officer to recommend his application in the strongest Manner to the favorable consideration of His Lordship in Council, being fully confident, not only that the expenditure was bonâ fide made for the public Service, but also, that Captain Ross's Conduction that occasion was distinguished by a Zeal and energy well worthy of
