The Commander in Chief lays before the Board the following Minutes.-

Minute of the Commander in Chief

Minute of the Commander in Chief submits application from Colt Oliver for permission to proceed to Europe on sick Certificate - and from Lieutenant Parsons for leave to resign the Honble Company's service - Recommends the disposal of Lieut Mc Castle Horse - Recommends appointments and to post the rank of Lieutenant Navarre.-

the following Letters.-

1. From Colonel Oliver of the 9th Regiment

soliciting permission to return to Europe for the benefit of Her Health, and enclosing the opinion of a Medical Officer.-

2. Letter from Lieutenant Parsons of the 9th Regiment of Native Infantry, requesting permission to resign his Commission

2040

Fort St. George 29th March 1805.—

Commission in the Honorable Company's service, being appointed to a Cornetcy in His Majesty's service.—

I recommend that Lieutenant Parsons be permitted to resign. The request of Colonel Oliver must be acceded to by the opinion of the Board on the particular circumstances connected with that Officer's situation.—

Previously to the March of the 1st Regiment of Cavalry, I directed a Committee to examine agreeably to the Regulations of the Service the Horses of that Corps, fifty Nine of the number were considered to be no longer fit for Cavalry duty, they have been accordingly cast, and I recommend that the Paymaster in the Ceded Districts may be authorised to receive and dispose of them in the usual manner by Public sale on account of Government.—

I recommend the following appointments.—

Lieutenant Samuel Green to be Aquitant of the 1st Battalion of the 6th Native Regiment vice Sydserf resigned, and Lieutenant R. P. Molesworth to be Aquitant of the 1st Battalion of the 18th Regiment of Native Infantry vice Jeffreys resigned.—

Lieutenant B. Newsome of the 12th Regiment of Native Infantry died on the 24th Instant at Fort St. George.

To His Excellency

Lieutenant General Sir J. F. Cradock K.B.

Commander in Chief of the Forces

&c. &c. &c.

Sir,

Feeling every day the necessity increase for my embracing the first opportunity which offers of embarking for Europe exclusively on the score of ill health, I beg leave to lay before your Excellency the original certificate of one of our best informed Practitioners in the Medical line, whose opinion I would persuade myself must always have great weight, which if you shall judge to be a document in itself sufficient to obtain for me the permission of the Right Honorable the Governor in Council to proceed to Europe, I earnestly solicit your Excellency to make use of it in my favor, and to give the measure your support.—

I have served the Honorable Company

for

2042

Fort St. George 29th March 1805.

For upwards of thirty five Years, and during the whole of that extensive period, I have made their interest when in situations to promote it my first and only object.—

I make this Application in order to avail myself of the opportunity of making necessary Arrangements and to be in readiness to go on the Indus Captain Witton when it shall be the pleasure of Government to dispatch that Ship.—

I have the honor to be.—

23th March 1805.

This is to Certify that the State of Colonel James Oliver's general health appears to me to be so seriously on the decline in consequence of long Residence and much active service in this country, that I judge it to be a measure of immediate and absolute expediency for him to avail himself of the earliest opportunity of returning to Europe for the purpose of his reinstatement.

The Shaken Condition of his Nerves of his appetite and of his Strength seem to demand that change of Climate which with a long Voyage promises the most assured and permanent relief to a declining Constitution.

To the Right Honorable

The Governor in Council.

My Lord,

Having had the honor to receive intima-
tion from His Excellency the Commander in Chief of his having
appointed me to a Cornetcy in His Majesty's Nineteenth Regiment
of Light Dragoons in the General Orders of the 3d. of February,
I have to request your Lordships permission to resign the Commission
I hold in the Honorable Company's service.—

I have the honor to be.—

(Signed) Jno Whitehill Parsons

Lieutenant 2nd Battn 8th Regt N. I.

Resolved that Lieutenant Parsons be permitted
to resign the service of the Honorable Company in conformity to his
request.—

The proceedings of the Committee
which was appointed for the investigation of the conduct of Colonel
Oliver being at present under the consideration of the Board, it is
Resolved to postpone for the present a decision on the applications

It may be proper to mention that the Medical Board have reported to the Commander in Chief that these Gentlemen are very eligible to fill the situations for which they are recommended.-

2 Captain Demorgan of the 5th Battalion 22d Regiment of Native Infantry was appointed to the Command of the 5th Extra Battalion on the 15th Instant, and is now on the Court Martial sitting at this Presidency.- He solicits permission to be allowed to draw his Superior Batta from the date of the Public Order placing him on that Duty.-

As Captain Demorgan would have joined the 5th Extra Battalion immediately on his appointment had he not been placed as a Member of a Court Martial, I think it is reasonable that his request should be acceded to, and he will be directed to join his Corps as soon as the General Court Martial shall be dissolved.-

The Commander in Chief has also to submit to Council a letter which has been received from Colonel Campbell Commanding the Northern Division of the Army, enclosing the proceedings of a Committee held on the 1st Battalion of the 9th Native Infantry on a Bale of Clothing which had been spoiled.-

Sir,

By the Regulations of the service, Officers cannot draw the difference of Allowances attached to situations of Command they may be appointed, unless having previously joined: but as my case is a peculiar one, I take the liberty of referring it to His Excellency the Commander in Chief.—

My appointment to the command of the 5th Extra Battalion is dated the 15th instant, which gives me the Se- nior batta of Major, but from being detained on the General Court Martial now assembled, I have been precluded joining the Corps which I should have proceeded to immediately on that order being issued but for this duty.—

I have therefore to request that you will do me the honor to beg His Excellency the Commander in Chief

Sir,

I have the honor to forward for the infor-
-mation of His Excellency the Commander in Chief Copy of Proce-
-dings of a Committee held in the 1st Battalion of 9th Regiment
Native Infantry, by order of Lieutenant Colonel Brighton to examine
the Cloathing of that Corps, forwarded from hence conformably to
your letter of the 2nd January 1805.

When the Cloathing was landed from the
Honorable Company's Ship Marquis Wellesley, the Bales were
apparently in perfect order, and were forwarded in the same state to the
different Corps, I should therefore suppose that the Bale of Cloathing
of the 1st Battalion. 9th Regiment found upon examination to be
unserviceable, must have got wet in crossing some Nullah or
River to the Northward of this, and that the Bullocks Sircar neglects

Fort St. George 29th March 1805.—

We have received for our guidance as to the amount for distribution merely an abstract of the Total sums which appears in the Public Accounts as having been collected on this head by the Public Officers of Government, and those received at the Treasury by Bills from Detachments in the Field, we beg leave to suggest the expediency of a more detailed account being furnished in future to enable us to ascertain the charges carried to the debit of the Fund, and the particulars of those remittances from Armies and Detachments in the Field, which are stated in the aggregate in the present account, but without any clue to guide a decision on their correctness.—

These accounts might be checked by the Proceedings of the Committees assembled monthly to examine the accounts of Bazar Superintendants in camp, if an order was issued directing those Proceedings to be regularly forwarded in future for the information of Government.—

We have been led to make these observations on the belief that some Opinion might be expected from us regarding the correctness of the Accounts and charges which the documents before us do not enable us to form.—

The Committee having referred to the General Order of the 22d September 1802, and attentively considered the Statement of Commands enclosed in a letter of the Chief Secretary of Government of the 10th October 1804, resolve to proceed to the Arrangement of the distribution of the Bazar Fund by the following Process.-

1st To examine the Periods of Command in the Statement of the Adjutant General, and Strike out the claim of any Officer holding two Commands for the same Period to the Profit of the inferior Command.—

2d To ascertain the number of days each Officer has been in Command by appointment of Government or between the 1st January and 11th July 1803 as one Period, and the 12th July 1803 and 11th July 1804 as another Period.—

3 To Multiply the Number of days in Command of each Commandant of Division by 4, and of each Commandant of District by 2, which Product being added to the Number of days in Command of Officers Commanding Garrisons or Cantonments gives the total number of Shares for one day to be divided among Officers Commanding Divisions, Districts, Garrisons or Cantonments—

4 To Class the Detachments in the Field and Multiply the number of days in Command of Officers Commanding Detachments of the 1st Class by 8, those of Officers Commanding Detachments of the 2d Class by 4, and those of Officers

Extract of a Letter from the Board of Revenue
Dated 16th December 1804.

Paragraph 31

In submitting the account of the Collections from Military Bazars, Mr Parish collector at Ramnad has brought to our notice the situation of Colonel Montagu Commanding the Subsidy troops at that Station. Colonel Montagu's command forming no part of the regular Establishment of the Line he will not be intitled to share in a Division of the Fund. Mr Parish has therefore proposed that the Amount collected from the Bazar at Ramnad Pagodas as 49r 32m 7 3/4 Amonth should be paid to that Officer from his Treasury. This proposition we doubt not will meet Your Lordships. Approbation.

I am directed by the Right Honorable the Governor in Council to acknowledge the receipt of your letter of the 24th Instant, accompanied by the proceedings held on the trials of two Associates of the Chargul Polygar—

There does not appear to be any doubt of the guilt of those persons, but His Lordship in Council is willing to hope that the examples which have been already made in the Pollams of Chittoor will be sufficient to produce a permanent effect in the minds of the Inhabitants of those Pollams, and to discourage further excitement to Rebellion—Under that impression His Lordship in Council has resolved that the sentence of Death passed on the Two Associates of the Chargul Polega shall be commuted to banishment for life, and I am directed to desire that they may be sent to the Presidency for the purpose of being transported to Prince of Wales Island by the earliest opportunity.—

My Lord,

I have the honor to forward to your Lordship a Letter which I have received from Lieutenant Stuart

From the Officer Commanding the Body Guard — Soliciting that Pensions may be granted to the families of certain Natives

Natives who were killed in an attack made on the escort of the Resident with Dowlut Rao Scindiah.

who Commands the Escort attached to the Resident at the Court of Dowlut Row Scindiah.—

I beg leave to draw your Lordships attention to that part of Lieutenant Stuart's letter, which mentions the gallant conduct of the party of Cavalry belonging to the Supernumeraries of the Body Guard who were on the 25th of January under the immediate Command of Lieutenant Green.—

My object in addressing your Lordship on this occasion is to solicit your Lordships' indulgent consideration towards the relief of the Families of such men as fell in the execution of their duty on the 25th of January.—

The orders of Government under date the 3d September 1804, admit of a pension amounting to half the pay of their respective ranks to the families of such Native Officers and Soldiers as may have been killed in Battle or who may have died of their wounds during the Mahratta War, and I trust that your Lordships will be pleased to extend this indulgence to the men who fell on the 25th of January, and who were on the strength of the party of Cavalry composing the above Escort.—

Shaik Dowd the Havildar who commanded the Cavalry under Lieutenant Green is particularly noticed on account of his good conduct. He formerly had a Brother killed

in

on the service to the Southward during the Poligar war, for whose family no provision has been made and who since that period has depended on Shaik Dowd for support. Shaik Dowd saving now shared the fate of his Partner, both Families are left destitute I therefore trust your Lordship will excuse me for bringing those circumstances under your consideration, in the hope that it may please your Lordship to grant to the families of two Gallant Brothers the full pay of Havaldar being the rank to which Shaik Dowd had arrived when he fell in the service of the Honorable Company—

resolved to quit this court. The escort and the baggage moved Out to a grove within the Outposts of Sundias Camp while the Resident accompanied by myself and a few Troopers went to take leave of the Maharaja, we were detained for a considerable period at the durbar, and during this time about 5000 Pindarees a Mucktas, and over-powered the escort and plundered every article belonging to this Residency. Lieutenant Green who commanded in my absence bears the most ample testimony to good conduct and gallantry of the small party of Cavalry and particularly that of Shaik Dawd the Havildar, who commanded them, and who I am sorry to say was killed. Out of the small party that were present at this affair, 3 Havildars and 1 Private were killed, 1 Naigue and 7 Privates wounded, and 33 of the Horses taken, with all the Arms, accoutrements &c. &c. &c. Excepting those of the party that accompanied the Resident to the Durbar, and those of one Trooper who made his escape.—

2.

You are directed however to observe that-
His Lordship in Council has been disappointed in not receiv-
-ing more punctual information of the Measures which you
may have adopted subsequently to the date of your last letter,
and as it is the paramount duty of every Officer charged with
an important command to apprise the Governor in Council-
of his arrangements, I am directed to enjoin you immediate-
attention to that object, and to desire that a regular narration
of your proceedings may be punctually transmitted through
the prescribed channels of public correspondence to this Presidency.

Board's Resolutions on the General letters from the Honorable Court of Directors Dated 24th and 31st of August 1804—

The Board having read and attentively considered the instructions conveyed in the letter of the Honorable Court of Directors dated the 24th of August 1804, relative to the subject of the Prize Money of Seringapatam; it is Resolved to proceed to carry into effect that part of the Honorable Court's instructions which appears to be immediately dependent on this Government by the appointment of a Committee for the purpose of making a further valuation of the Ordnance Warlike Stores and Grain captured at Seringapatam.—

In conformity to the directions of the Honorable Court, it is Resolved that the Committee consist of Gentlemen not in any degree connected with a participation of the Prize Money, and as the following Gentlemen are of that description

and are in the Opinion of the Board qualified for the Satisfactory performance of the duty to be entrusted to them, it is Resolved that they be appointed Members of the Committee of survey.—

Resolved that the following instructions be furnished for the guidance of the Committee.—

To Major M. Wilks

Mr I. H. Pole

and

Captain J. Scott

Gentlemen,

Pro 1

In consequence of instructions which have been received from the Honorable Court of Directors in a letter of which I enclose an extract for your information and guidance I am directed to acquaint you that the Right Honorable the Governor in Council deems it expedient that a Committee should be appointed for the purpose of making a new Valuation of the Ordnance Military Stores and grain captured at Seringapatam in the last Mysore War, and His Lordship in Council has been pleased to select you for the execution of this duty.—

2. In order that you may be acquainted with the principle which was observed in Making the former valuation, I am directed to transmit to you the accompanying Statements which exhibit detailed information on that subject — at the same time His Lordship in Council deems it proper to observe — that considerable doubt may in His Lordship's Opinion be entertained in regard to the correctness of those documents; and it will be necessary that your attention should be directed to an impartial investigation of the Subject, and to the means of drawing an accurate conclusion in regard to the actual value of the Public Property — found in Seringapatam —

3. Some degree of Difficulty may be experienced in regard to the Value of the Stores which may have been — expended since the period of the Capture of that Place, but in such — case it is the desire of His Lordship in Council that your computation may be formed according to the most accurate estimate which your Inquiries may enable you to make —

4. His Lordship in Council desires that the value of the captured grain may be included in your Report specifying such part as may have been already disposed of by the Garrison Storekeeper, and the probable extent to which a further quantity of that portion of the Public Property may in your judgement be saleable —

2116

Fort St. George 29th March 1805.

5.

It is the wish of His Lordship in Council that your Report should include all Stores of whatever description which may have been captured, but you will be enjoined to distinguish such as are of a serviceable nature from those which are not of that description.—

6.

I am directed to acquaint you that the Ordinance Board has been apprized of the object of your appointment and has been instructed to issue orders to the Departments under its authority for facilitating your enquiry by every practicable means.

7.

His Lordship in Council directs me at the same time to add that it being His Lordship's wish to communicate the result of your investigation to His Excellency the Governor General in Council, it will be desirable that the Survey which has been entrusted to you should be completed with the least possible delay consistently with due attention to its accuracy.—

to the Papers connected with the distribution of the Prize property taken at Seringapatam required by the Governor General — Copy of the dispatch from the Secret Committee of the Honorable Court of Directors on the subject transmitted — explanatory observations —

Letter from the Secretary in the Military Department of the Govern-
=ment at Fort William dated the 6th of January last requiring to be furn-
-ished with different papers connected with the distribution of the Prize
Property taken at Seringapatam —

2. We have the honor to transmit an attested
copy of the dispatch from the Secret Committee of the Honorable
Court of Directors required in the first paragraph of that letter —

3. After an attentive search of the Records
of the Government it has not appeared that any specific reply was addres-
-sed to His Excellency the Governor General in Council in consequence
of His Excellencys dispatch under date the 11th of May 1800 but a
Material part of the information required in that letter was trans
-mitted with a dispatch from the Governor in Council under date
the 19th of August 1800 which conveyed a very comprehensive view of
the state of the Mysore Prize Fund —

4. We are accordingly of opinion that we
cannot better fulfill the intention of His Excellency in Council
expressed in the letter lately received from the Secretary of the Govern-
-ment at Fort William than by the transmission of a copy of that
dispatch and of the Statements to which it refers as those documents
exhibit an accurate Account of the extent of the Prize Property of

the

The distribution which has been made of the unappropriated balance in the hands of the Agents and of the claims remaining for adjustment.—

5

His Excellency in Council having on His Excellency's dispatch of the 11th of May 1803 required that a Statement of the Valuation of the Ordnance Military Stores and Grain found on Seringapatam should be transmitted to Fort William a Letter was in consequence dispatched to the Officer holding the temporary command of the Army of this Presidency at that period of time directing him to take measures for obtaining the information required by the Governor General in Council.—

6.

The information however does not appear to have been furnished a circumstance for which we find it difficult to account But it appears on reference to the Records of the subordinate departments that a Statement of the Valuation of the Warlike Stores was received though not submitted to the Government we have now the honor to transmit a copy of that Statement in conformity to the desire of His Excellency in Council.—

7.

His Excellency in Council will observe that according to that Valuation the Captured Stores are estimated

2119 Fort St. George 29th March 1805.—

44

at the sum of Star Pagodas 419,871: 15: 15: exclusive of the ~
Value of the Captured grain of which it is probably impracticable
from its unvaluable quantity to form an accurate Account—

8 It was deemed expedient in the year ~
1802 to give Authority to the Garrison Storekeeper at Seringa-
-patam for retailing the grain under his charge as the only ~
means by which it could be rendered a suitable and the sum ~
which has been produced in that mode amounts to about ~
Pagodas 37000 but from the great age and inferior quality
of the grain we consider it to be importable that the farther amount
which may be realized from that source will be considerable.—

9 We beg leave to take this occasion of
bringing under the attention of His Excellency the Governor General
in Council the instructions which have been conveyed to this Govern-
-ment in the Military Letter from the Honorable Court of Direc
-tors dated the 24th August 1804 relative to the Subject of Seringa-
-patam prize Money.—

10 We conclude that His Excellency in
Council will have been already apprized of the tenor of these ins-
-tructions and as the points to which they relate appear generally
resorible to the exclusive determination of the Governor General in

Council

2120

Fort St. George 29th March 1805.

Council we shall consider it proper for us to suspend the adoption of any measure for carrying the intentions of the Honorable Court of Directors into effect relative to a further distribution of Prize Money until we may be honored with His Excellency's further directions for our guidance.—

11

The Honorable Court have observed that a new valuation shall be formed of the Stores captured at Seringapatam and as we are of opinion that there is reason to entertain considerable doubt in regard to the accuracy of the former Valuation we shall deem it proper to lose no time in executing that part of the Honorable Court's instructions.—

It is accordingly our intention to appoint a new Committee of Officers qualified for the execution of this duty and as we shall instruct the Committee to use every practicable dispatch in the completion of the Survey we trust that we shall be enabled at an early period of time to submit the result of the investigation to His Excellency in Council.

The Board find it to be impracticable to record any satisfactory explanation with respect to the cause of the omission to furnish the information required by the Honorable Court of Directors and by the Supreme Government respecting the former valuation of the Military Stores captured at Seringapatam It appears on reference to the Records that a letter was dispatched to the Officer commanding the Army on the 29th May 1800 calling for that information but no account can be traced of the cause which may have retarded the transmission of the Statement of the value of the Stores which appear to have been completed and to have been lodged in the Office of the Acquitant General The Board therefore consider the occurrence to have been the consequence of an official inaccuracy which can only now be rectified by the measures already adopted —

The following Minute of the Commander in Chief relative to the formation of Horse Artillery having returned from circulation is ordered to be recorded.—

* Minute of the Commander in Chief — Submitting a plan for the formation of a troop of Horse Artillery—

The Commander in Chief having — met the indulgence of Council in the proposal he had the honor to bring before the Board the 21.st Instant, on the Subject of Horse Artillery takes the earliest mo: - ment

manent to produce a plan for the formation of a Troop with the several Estimates connected therewith.

The Commander in Chief proposes, that the Troop of Artillery to be created, should be an Extra Establishment attached to the Corps of Artillery, but as the greatest advantage will be derived from the choice of scientific Officers, and the assistance of experienced Non Commissioned Officers and Men; Sir J. Bradock is of opinion, that the Troop should be founded on a Draft of the most active and intelligent persons from the two Artillery Battalions.

The number of Guns and Carriages with the detail of officers and others necessary to their efficient Employment on Service, are exhibited in the accompanying paper &c.

As the rapid Movements of Horse Artillery must at all times preclude the possibility of its being covered by Infantry, it appears to the Commander in Chief a matter of absolute necessity that a Body of Mounted Men, according to European practice should be attached to the Troop, to protect it on Emergency,

and

and produce a degree of Independant Support, and these men being also instructed in Artillery practice, will be at all times ready to fill up casualities in action, and to perform such other Duties as are applicable to Artillery.

On this principle Sir John Cradock begs leave to recommend, that a Troop of Cavalry, formed on the Model of the Native corps, should be selected by Draft, from the Native Cavalry Regiments, & that this Body, for the protection of the Guns should remain a component part of this Establishment.—

The Commander in Chief would have expressed his anxious wish that the whole should have been composed of Europeans forming one Common Mass, but the difficulty of replacing any draft from that source seems to forbid the pursuit of such a measure.—

The paper No 2. details this part of the plan.

A view of the full Expence that will attend this Establishment, together with the comparative saving which must accrue until the completion of the Artillery Battalion shall take place, are exhibited in paper at ,3.

From the charge for Draft Horses a considerable deduction may be made, by applying Eighty Mares now at the disposal of Government to the use of the Guns and there does not appear any objection to this measure being adopted, as it is intended as much as possible to employ Horses which have been cast both for Men and Carriages.-

Should this plan which is submitted with deference meet the concurrence of Council, the Commander in Chief trusts he may be empowered by the Board to proceed in its execution without delay making the necessary Reports to Government on its progress or on any circumstance which may appear to him more for the benefit of the Establishment.-

In consideration of the reasons stated by the Commander in Chief, the Board concur in His Excellency's proposal for the formation of a troop of Horse Artillery according to the plan detailed in the above Minute, and also for making the draft from the Regiment of Native Cavalry in this Army to the amount stated in the above minute to form the proportion of Mounted Golaundars intended for that Establishment, which the Commander in Chief is likewise requested to take measures to effect.

Resolved that the Commander in Chief be requested to proceed in the execution of the Arrangements connected with those objects as soon as may be practicable; and that authority be given to the Military Auditor General for the admission of the charges contained in the foregoing Statements.—

Commander in Chief &c &c &c

Sir,

I have the honor to transmit to your Excellency, an address of this date, forwarded to me from the Chaplain at St Thomas's Mount, accompanied by — Copies of the former letters on the subject therein alluded to.

As the sum Government were pleased to authorize in renting a House for the temporary accommodation of the Troops at Divine Service, has not been exceeded by Mr Atwood in those he has taken, and as it would be particularly inconvenient to him in only having the use of 25 Pagodas to be obliged on occasions when they were assembled, to remove his different Articles of Furniture &c, I am led to hope your Excellency will

of intelligence formed by Lieutenant General Stuart when in Command of the Army in the Field — forwards the proceedings of the Medical Board.

From the consideration of the duty Lieutenant King must have to perform in conducting the detail of the three Battalions in Travancore, Sir John Cradock begs leave to recommend, that he may be permitted to draw the Pay and allowances attached to the situation of Cantonment Adjutant, until such time as a Staff may be appointed to the Force in that Country.

The Commander in Chief takes this opportunity to express his anxiety that the appointment of the Officer to command the Subsidiary Force at Travancore was determined, as the numbers are too considerable to be left to the casual command of a Senior Officer and from the want of a Suitable Staff and other arrangement much inconvenience and injury to the discipline of the Troops must be the consequence.

2.d

Major General Smith Commanding at the Mount has transmitted to the Commander in Chief a Letter from the Reverend Mr Atwood, Chaplain to the Troops at that Station, soliciting permission to hire, for his accommodation, a Bungalow near the House which has been taken for the performance of Divine Service

Service, the Commander in Chief understanding that Govern-
-ment has already allowed the Sum of 35 Pagodas Monthly
to be paid for the hire of a building to be used as a temporary
place of Worship, as well as for the accommodation of the
Chaplain, and finding that Mr. Atwood's demand does not
exceed that allowance, is of opinion that his request is reason-
-able, and deserves the favorable determination of the
Board.

3d The Commander in Chief has the honor
to Submit to Council a letter which he has received from
Major General Campbell, by which Sir John Cradock
learns that an Establishment of Intelligencers was
formed by Lieutenant General Stuart when in Command
of the Army in the field, was handed over by him to the
Officer who succeeded him in that Command, and contin-
-nues to exist at this moment distributed on several points
of the Marratah Territories.

As no contrary Directions have
been given since the original orders for this Establish-
-ment were issued, the Commander in Chief does not
see any alternative beyond the regular payment of
the persons employed to give Intelligence, to the present
moment

In Mr. Atwood's address to the Right Honorable the Governor in Council, of the 23d. January last, a particular application was stated for an allowance of 5 Pagodas to the officiating Clerk, no specific reply having been given to it, Mr. Atwood appears anxious to learn whether continuing to make this charge, would meet the disapprobation of Government, I am induced to take the liberty to recommend the allowance may be authorized, as Mr Atwood states the Order of Divine Service cannot be conducted without the assistance of a person in that Capacity.

enquiring of the owner. He assured would not be rented but was for sale. I therefore took another the next eligible in the cantonment at the Monthly Sum of 25 Pagodas — This House although it will answer as a temporary expedient for assembling the Troops in, does not afford the room the one you pointed out would have done, it has therefore been out of my power to make use of it for any accommodation, in consequence of which I have rented a small Bungalow near it at 10 Pag.s p.r Month, — making together 35 Pagodas, the Sum Government was pleased to authorize for these purposes. —

As this amount does not exceed the additional expences, I hope you will approve of the measure which possesses another great advantage of keeping the house already appropriated for Religious purposes entirely distinct from those of a Secular nature.

I have continued to draw five Pagodas per month for Mr Kerr on Brown of the Travelling Establishment, although not particularly referred to in the letter of the Right Honorable the Governor in Council of the 29.th January last, in reply to the address you was pleased

As the application of the Revd Mr Atwood relative to the appropriation of the Sum which was authorized to be paid for the rent of a building for the performance of Divine Service, and for the accommodation of the Clergymen at St Thomas's Mount appears entirely unobjectionable, it is Resolved that the Commander in Chief be requested to sanction the proposed measure.

To the Right Honorable
Lord William Bentinck
Governor in Council &c. &c. &c.

My Lord,

Para 1st

From the Literary Board submitting a Plan and Estimate of the expence which would attend the construction of a Chapel at St. Thomas Mount.

In obedience to your Lordships Commands conveyed in a letter of the 30th January from the Secretary of Government in the Literary Department, We directed the preparation of a Plan, Section, and Elevation, with an Estimate of the expence which would attend the construction of a Chapel at St. Thomas's Mount.

2d

We have the honor to submit the Report of the Superintending Engineer on that Subject, accompanied by his Estimate, Plan, Section and Elevation at the same time that We conceive the Plan well adapted to the purpose it is intended for, and the Estimate to be correct; We beg to state, that the great expense appears to be an important objection against the undertaking at present.

My Lord,

I.t

Agreeably to your orders of the 20.th Instant, I do myself the honor to lay before you a Draught of a General Order establishing a new System for the Payment & Clothing of the Troops when employed on

on actual Service in the Field, to be published if approved by your Lordship in Council for the information and guidance of the Army under this Presidency.—

2.d It was my anxious wish to have advert=ed more particularly to the rate of Exchange noticed in the 10.th Article of these Regulations at which the Families are to be paid in all the distric.ts and divisions of the Army, but as the exchange at our Stations varies so much, I have been obliged to confine myself to a General terms on this essential point, and to make it the immediate business of the Officers respectively who may be appointed to the charge and ... payment of Families to watch over this material object and to report to me for your Lordship's information when=ever they find that losses of Cash are made to them, on which loss by exchange is likely to occur beyond the rates current in the district or division where the Families reside, whose payments they Superintend, independent of this, when Troops take the Field under the operation of the proposed new System, I shall consider it to be my immediate duty to give such instructions on this head as shall secure the Troops from loss, cautioning at the same time the Officers in

4th. The amount so paid to Officers Commanding Corps is to be immediately delivered by them to the Paymaster in Camp, who is hereby ordered and directed to grant Bills for the same on the Paymaster at or nearest to the Station where the Families reside, at five days sight, in favor of the Officer appointed to the charge and payment of the Families, whose duty it will be to receive the amount from the Paymaster of the Station, and distribute it to the Families according to their Certificates and Rolls transmitted to him by Officers Commanding Corps agreeable to Article 4th.

5. To prevent accidents by miscarriage which in time of War is frequent and unavoidable, the Bills ordered to be drawn are to be made out in Triplicate, two to be forwarded to the Officer in charge of the Families by different days' dispatch, the other Bill to remain with the Commanding Officer until he receives information of one or other of the two

7th The Officer in charge of the Families is to pay particular attention to the casualties &c. which he may receive from time to time from Officers Commanding Corps, as he will be held responsible for any difference that may arise, between the amount of the Bills drawn in his favor and that paid to the Families from any neglect on his own part —

4.th

The amounts so paid to Officers Commanding Corps is to be immediately delivered by them to the Paymaster in Camp, who is hereby ordered and directed to grant Bills for the same on the Paymaster at a nearest to the Station where the Families reside at five days sight, in favor of the Officer appointed to the charge and payment of the Families, whose duty it will be to receive the amount from the Paymaster of the Station, and distribute it to the Families according to their Certificates and Rolls Transmitted to him by Officers Commanding Corps agreeably to the 1.st Article.

5.th

To prevent accidents by means of which, in time of War is frequent and unavoidable, the Bills are to be sufficient, two to be forwarded to the Officer in charge of the Families by different days dispatch, the other Bill to remain with the Commanding Officer until he receives information of one or other of the two

to the Families cannot take place until after the Bills are received from Officers Commanding Corps by the Officer in charge, and the amount paid into his hands by the Pay-master of the Station, it does not appear probable that any difference whatever can arise, particularly as Monthly Rolls of all casualties &c. are to be regularly transmitted to the Officer in charge along with the Bills, by Officers Commanding Corps, but should any difference arise however trifling, it will be the duty of the former to communicate the same to the latter immediately, in order that it may be adjusted by the parties without delay.

9.th The proportion of the pay of Native Commissioned and non-Commissioned Officers, Drummers and Fifers to be appropriated Monthly for the Support of their Families, is not to exceed half their net pay, that for the support of the Families of a Sepoy is never to exceed Four Rupees for any individual family, which considering the claim that the Families have for issues of Rice from the public Stores, at the rate of 70 Pagodas per Garce, wherever that Article exceeds one Canam per Measure in the Bazar is considered sufficient for their maintenance.

10.th The proportion of the Pay of the Sepoy to be

be appropriated Monthly for the Support of his Family as above, Viz.t Four Rupees, is to be uniformly paid as follows, if in Silver in Rupees, if in Gold at the rates of one Star Pago-da and three Silver Madras double, or Six Madras Single fanams, when the Star Pagoda and Silver fanams are current; and in all the Divisions or Districts where these coins are not current, the Officer in charge of the families will make it his particular business to obtain from the Paymaster of the Station on whom the Bills are drawn, the amount payable by him in such manner as to ensure to the families the fullest advantage on the score of Exchange, and when he shall, from whatsoever cause, fail in this important part of his duty, he will lose no time in Stating the case to the Military Auditor General for the information of the Right Honorable the Governor in Council.

11.th These Regulations apply equally to all Public Departments as well as to Corps under the Direction and Superintendance of the Officers respectively in charge.

Resolved that the Draft of the General Order relative to the future regulation of family payments Submitted with the foregoing letter be approved and published—

To the Right Honorable
Lord William Bentinck
Governor General &c &c &c
My Lord,

From Ditto—Relative to the accounts of Mr. Cherry formerly Paymaster to the Subsidiary Force at Hyderabad.

I Have the honor to transmit to your Lordship in Council the accompanying Copy of a Letter from Mr. Peter Cherry formerly Paymaster to the Subsidiary Force at Hyderabad, and to the Army in Mysoor in 1799. having closed his public accounts with the Military Paymaster General, has addressed me a letter dated the 29th Instant stating that after being exonerated from his Paymaster ships as above, a considerable time was taken up in adjusting the different stages of audit, and reference on his accounts to your Lordship in Council, which obliged him to keep up an Establishment of Servants and to purchase Stationary amounting in the aggregate to Pagodas Five hundred but to the actual expenditure of which he cannot affix his Asseveration on honor—

As

2227

Fort St. George 2d. April 1805.

99

As it has however been usual to allow Paymasters similarly situated as Mr Cheevy has been a certain allowance Monthly for the purpose of enabling them to close their accounts, I beg leave to propose to your Lordship in Council that for a period of five Months subsequently to this Paymaster's vacating his situations before noticed, that he be allowed to draw at the rate of Pagodas fifty per Month inclusive of every expence which will entitle him to Pagodas two hundred and fifty (250) in the aggregate on account of Servants &c. for the purpose before expressed, this will place him on a footing with others, which ought to satisfy him, and at the same time do justice to the public interest, which ought not to be left either to the mercy or convenience of Individuals on any occasion.

Resolved that a Compensation of Pagodas 250 be granted to Mr. Cherry for the expence incurred by him in closing the accounts of his late office as Paymaster of the Nizam's Subsidiary Force, agreeably to the recommendation contained in the foregoing letter.—

Read the following letters from the Secretary to the Government at Fort William.—

To George Strachey Esqre
Secretary to the Government at
Fort St. George

Sir,

I am directed by His Excellency the most Noble the Governor General in Council to transmit to you the enclosed copy of a letter from the Secretary to the Military Board at Fort William, and to request you will communicate to the Right Honorable the Governor in Council, the wish of the Governor General in Council, that the Articles of Stores &c. stated in that letter to be required for the Service of this Presidency may be sent to Bengal from the Arsenal at Fort St. George by the earliest opportunity

Secretary to the Government in the Military Department

Sir,

1st On inspecting the latest received Quarter. by Return of Ordnance and Military Stores remaining at the Presidency of Fort St George, the Military Board observed a considerable quantity of Stores in the Arsenal there which are, at the present moment in great demand in the Arsenal of Fort William for the Supply of the Army in the Field Subjoined I have the honor to transmit a Short Statement of the Articles in question remaining at Fort St. George on the 13th of October last, and of the quantities of the same Articles which the Board conceive might be spared from that Presidency, and which would prove a seasonable aid to the public Service in Bengal. The Board request you will Submit this Statement to His Excellency the most noble the Governor General in Council with their recommendation that His Excellency may be pleased to apply to the Right Honorable the Governor in Council at Fort St George for the stores mentioned as it is required

required for Fort William or such a greater quantity of them as can be spared being sent round by the first opportunity to this Presidency.

2d. The Board observed in the same return a considerable number of foreign Brass Guns remaining in the Arsenal of Fort St. George, which as there is no foundery for Cannon at that Presidency might be appropriated with advantage to the purposes of the foundery in Fort William, and the Board accordingly beg leave to suggest to His Excellency the Expediency of applying for such of those foreign Guns being sent round to Bengal, as the Government of Fort St. George may not think of sufficient consequence to retain.

issued by the Marine Board containing the conditions under which the abovementioned Ships have been engaged for two voyages, together with a Statement of the terms of af= freightment of the Ships; and we Submit to your Excellen= cy in Council that Copies of the abovementioned documents be forwarded to the Governor in Council at Fort St. George, with a request that measures may be taken for unloading the Ships, and for consigning them to this Presidency with all practicable dispatch; and that the necessary report may be transmitted to us respecting the condition in which the Rice may be delivered at Fort St. George and the number of days which may be employed in unloading the Charges of the several Ships in order that we may be enabled to adjust the accounts of the owners conformably to their respective engagements with the Honorable Company.

3.d

In the arrangement for the conveyance of Rice to Fort St. George Submitted by us in our address of the 29th of January last, we stated to your Excellency in Council our expecta= tion that of the quantity of 1,69,000 Bags required for the Service of that Presidency, 50,00 Bags might be forwarded

forwarded on the five regular Ships for the Baring, Lord Hawkes-
bury, Worcester, Derby Castle, and Duke of Montrose then
under dispatch for Fort St George leaving 119000 bags to be sent
to Madras on Ships to be engaged on freight by the
Marine Board.

4.th In conformity to the communication
which under the Sanction of your Excellency in Council
contained in Mr Secretary Brown's letter of the 9.th
Ultimo, was on the 12.th of that Month made by us to the
Marine Board, the advertisement published by that
Board inviting proposals for tenders of Ships to convey
about 119,000 Bags of Rice to Fort St George.

5.th By the Tenor of the engagements
formed by the Marine Board with the owners of the
Eight freighted Ships abovementioned, we have been
furnished with the means of conveying to Fort St George
the Quantity of 110,000 Bags only, being 9000 Bags
short of the Quantity of 119,000 Bags of Rice which
We proposed should be forwarded to that Presidency
in Ships to be freighted in Bengal.

6.th We beg leave to transmit the enclo-
sed Extract from the proceedings of the Marine Board
under

under date the 25.th ultimo by which your Excellency in Council will observe, that in consequence of the information received by that Board from Mr Taylor that in addition to the five regular Ships before mentioned, the Honorable Company's Ship United Kingdom lately dispatched to Fort St. George would probably be employed on the conveyance of Rice to that Presidency, the Marine Board considered those Ships already engaged by them for two voyages & the regular Ships expected to be employed on the same Service, to be fully adequate to the transportation of the whole consignment of 16,000 Bags of Rice destined for Fort St. George.

7.th We think it necessary to state for the information of your Excellency in Council, that it appears from the Extract transmitted now by the Marine Board of the proceedings held by them in consequence of our Publication above mentioned under date the 12.th ultimo that the Ships engaged by the Marine Board were taken up for two voyages instead of one in consideration of the reduced rate of

Fort St. George 2.d April 1805.

Extract from the proceedings of the Marine Board under date the 25.th February 1805.

"Mr. Taylor informs the Board that in additions to the five regular Ships mentioned in the Boards proceedings in the Commercial Department under date the 29.th Ultimo received with Mr Secretary Thornhill's Letter of the 12.th Instant as intended to be employed in the transportation of Rice to Madras the United Kingdom will probably be also employed on the same Service. The Board in consequence of the information above communicated, consider the Tenders already accepted for two Ships and the regular Ships intended to be employed in the Transportation of Rice to Fort St. George sufficient to convey the full quantity of Rice required by Government to be transported from this Port to that Presidency."

personally incurred by me, on various occasions, since I succeeded to the Command of the Hyderabad Subsidiary Force; and I request that the Military Auditor General may have Instructions to pass the Amount to my Credit.

It may be proper to observe that the Temporary absence of the Paymaster, prevented my ascertaining correctly, the Forms in general use on these occasions, and this will I trust account in a satisfactory manner, for the Bills not having been transmitted for his Lordships approval, at an earlier period. The Total has in consequence swelled to a considerable Amount, but I beg most solemnly, to assure his Lordship, that these Expences have been unavoidably incurred, and were indispensably necessary, for the carrying on of the public Service, and that in every Instance the strictest attention has been paid to Economy in the Disbursement

Desirous by every practicable mode to complete the deficiencies of our Military Establishment, I must beg to call the attention of the Board to the incomplete State of the Native Cavalry from various Casualties in the Course of recent Service, which, Situated as Several of the Regiments still are, on Service in the Mahratta districts and remote from the Districts whence it is expedient to recruit the Cavalry. They have not been able to raise the necessary Supply. Four hundred and fifteen men are by the last Returns wanting to Complete those Corps. I therefore propose to Send two Officers to Arcot and Trichinopoly charged with the duty of Recruiting for the Cavalry,

Extract of a Letter from Major General the Honorable Sir Arthur Wellesley to the Honorable the Governor of Bombay, under date the 16th February 1805.

1 I have the honor to inform you

that

Fort St. George 5th April 1805.

that I have received the Orders of His Excellency the Governor General to send to Bombay and Fort St. George respectively all Corps, Troops and followers belonging to these Presidencies, which may now be in the Decan or beyond the Establishments of the Subsidiary forces serving with the Peishwah, and with the Subahdar of the Decan, &c.

2 The first step which it is necessary to adopt in obedience to those Orders, is to complete the Subsidiary force serving with His Highness the Paishwa with the native Infantry of the Bombay establishment still required for that purpose, &c. accordingly I have urged the Commander in Chief at Fort St. George to Order the two Bombay Battalions still in Malabar to March to Poona, and His Excellency proposes to attend my recommendation upon this Subject, &c.

3. They will proceed I imagine through the Province of Kanara, and by Rullial in Soonda, but you will be apprized from hence of their route.

4 I have not been informed whether the

the Company's Pioneers with the Poona Subsidiary force have been relieved by 100 Pioneers from Bombay. But if these Troops have not been relieved, it is desireable that measures should be taken to relieve them as soon as may be convenient. by Sending 100 Bombay Pioneers to Poonah.—

5th " It is also desireable that this same opportunity should be taken to relieve the draft Bullock establishment belonging to the Government of Fort St. George still serving with the Subsidiary force with the Paishwah. I am not informed whether the Bullocks and Drivers for this relief have been procured at Bombay, and I request you to give information upon this Subject to His Excellency the Commander in Chief at Fort St. George, in order that if the Government of Bombay should not be prepared to relieve them, he may Order the Establishments of Fort St. George to remain in the Peishwah's Territories some time longer.—

6 Before I left Poona in Immediate Orders were given by the late Commander in Chief General

Fort St. George 5th April 1805.

General Stuart to prepare at Seringapatam Carriages for all the Ordnance at Poonah, and these Carriages are now ready when the Subsidiary force was subsequently formed and placed under the Government of Bombay. I desired that the dimensions of the Pieces of Ordnance which required Carriages might be sent to Bombay, in case that Government should be unable to supply Ordnance for the Troops which should compose the Subsidiary force, and should be able to supply Carriages. I do not know what determination was made upon this Subject, and I request you to inform the Commander in Chief at Fort St. George whether the Government at Bombay will supply the Ordnance required for the Subsidiary force serving with the Peshwah, or if that Government should not be able to supply the Ordnance, whether it will supply the Carriages or whether the Carriages which are made shall be sent to Poonah from Seringapatam.

Dated the 3d. of August 1804.

The Ordnance and Military Stores at Poona will be continued there, should you wish it, after the departure of the Coast Troops and transferred to the charge of the Bombay Government. Major General Wellesley has apprized you that new Carriages will be immediately required for all the Guns.

Although the Services of the Draught Bullocks of the Company's Kârkhana Establishment now at Poona, are required under this Government, yet as they appear to me more urgently necessary with the Subsidiary Force, and will serve as a foundation for a Thanna which I understand from General Wellesley that you propose Establishing, I have consented, that those Bullocks shall remain at Poona and be attached to the Bombay Establishment, but I trust that you will find

Resolved that Sanction be given for the admission
of expence which may be incurred by that measure.

Read the following Letters —

from the Military Board.

To the Right Honorable Lord Wm. Bentinck

Governor in Council

&c. &c. &c.

My Lord,

From the Military Board their report on the plan for the reform of the works of Seringapatam.

1st We have now the honor to Submit our Report on the Plan of Seringapatam, forwarded with the Letter from the Chief Secretary of Govern-
-ment dated 21st November 1804.

2nd In the course of our investigation of this Subject, we have Remarked that Various projects connected with the plan as originally sent by the Board have been Omitted in the Plan transmitted to us; altho' particularly referred to and Considered to be adopted in the Minute

of

Fort St. George 5th April 1805

of the late Commander in Chief, and the Memorandum by the Engineer, which have been furnished for our Guidance and information &c

3. It being impossible for us to distinguish the relative advantages of the different modes of reform which had been proposed, without these projects. we called on the Chief Engineer to supply the deficiencies. which he has done. by preparing the accompanying Plan N.1, which exhibits by Plans attached on various parts of the design, the alterations to which the Papers refer— These Papers were accompanied by a Minute of the Chief Engineer, elucidating the Subject upon which he had been required to report— this report we have attentively considered and entirely concur with the Chief Engineer in recommending the following modification of the Works of Seringapatam &c

The South West face of the Fort of Seringapatam, at present consists of a long Curtain defended by an inconsiderable Battery at the S. W. angle, and by the Flanks of the N.W. angle

2275.

Fort St. George 5th April 1805

123

angle Bastion; — owing to the projection in the Face Bray near the S. W. angle. the Guns in the low work (C) cannot command the ditch as was found during the Storm of the place in 1799 — consequently if the flank defences of the N. W. angle Bastion are distroyed, no flanking Gun would remain to obstruct the passage of the Ditch, nor could Guns be placed on the Curtain, without being exposed to an Enfilade from the point marked — ✳ on the north Side of the River, where the Batteries were placed in 1799, which completely effected that object — The lines of defence on this side are too long, the distance between the Saliant angle of the North West Bastion, and the Bastion C, being 1596 feet — which alone renders it indispensibly necessary to construct the proposed Bastion (B) for the defence of this face of the Fort. —

The Situation of the north West angle Bastion (A) gives it much importance, upon full consideration we conceive that the first project, which was formed with a view to preserve the present

Fort St. George 5th April 1805.

present foundations, is evidently objectionable, we therefore recommend the Second project exhibited in the Plan No. 2; in this Plan the direction of the North face, renders the Saliant angle of the Bastion apparently too acute, still from its situation this cannot be considered a defect of consequence and this alteration places the Face completely under the defence of the proposed low Battery (a); while the upper Battery (b) will play direct upon the Ruins of the D-the Bridge, which is the only passage across the River in that quarter; it will also command the Spot marked * on the North bank of the River, the only Situation where an Enfilading Battery could be established against the South West Curtain.

The Cavalier No. 1 adds greatly to the Strength of the North West angle of the Fort; its west face bears on the Ground where the English Guns breached the Wall in 1799.— Its South flank enfilades the winding of the Nullah, and Commands the Bridge across it.— Its North

2277

Fort St. George 5th April 1805

124

North face commands with a powerful fire the Ruins of the Delhi Bridge, and its North East Flank bears directly on the position of the British approaches in 1792 - The height of this work places its Guns in Security, as experience has already fully proved, for the difficulty of dismounting them, enabled the Enemy to give Serious opposition to the attack in 1799, by continuing their fire till the last; the Ditches on its Faces and Flanks should be preserved, and its Gorge Closed so as to form a Redoubt, which might include within a Slight Wall - the Magazine now in its Rear.

The North Face of Seringapatam is washed by a deep and rugged River, which from the protection it affords renders its long Lines of Defence less objectionable; this circumstance together with the existing projections on this front have been adverted to in the formation of the Plan for its reform, in which the length of the Lines of defence varies from 332 to 480 Yards - I recommend that the Sultaun's Battery [N] be enlarged by

Fort St. George 5th April 1805

by carrying out its Northern face to the Faufs-bray wall / See Section I. K.5/ by which means a spacious Battery will be formed at a trifling expence; and the projection marked O will hold 2 Guns for the defence of its Face - This Form, tho' not strictly conformable with general principles, is recommended as possessing the advantage of having a powerful direct fire, while the Situation of the Bastion precludes the possibility of an Enfilade, and has additional Security from the want of space for a lodgement under its flat face, and from the River not being fordable opposite to it; - Further, as the Work will be Solid, it will be practicable to change the direction of the parapet, into the more regular Form expressed by the dotted lines, should it at any time become expedient to procure more oblique fire.

We recommend that the two small Batteries O1. O1 be raised on the wall of the Faufs Bray, that for two Guns will flank the

2279

125

the face of the Sultaun's Battery, and the Eastern one will rake the ditch as far as the Saliant angle at the Battery M.

The west face of the Battery M in Plan N.1 does not afford the means of having a sufficient fire along the North face to the Westward, down the river to the ford, and to the opposite Bank, We therfore recommend that this project be rejected, and that a Spacious Bastion, as suggested by Major General Ross, be erected agreeably to the Small Plan attached, marked N.2.- This improvement will not be attended with much additional expence, as a part of the foundation of the North Face is already laid, and the revetement carried up to the height of 6 feet / See Section L.1.1 / The two Small Bastions 1 & 2 on the right and left of this Work, must be removed if this recommendation be adopted - that the flanking fire of the proposed work may not be interrupted -;

The two Small Bastions 3 & 4 are intended

by carrying out its Northern face to the Fauſs-bray wall / See Section I. K.5/ by which means a ſpacious Battery will be formed at a trifling expence; and the projection marked O will hold 2 Guns for the defence of its Face - This Form, tho' not ſtrictly conformable with general principles, is recommended, as poſſeſſing the advantage of having a powerful direct fire, while the Situation of the Baſtion precludes the poſſibility of an Enfilade, and has additional Security from the want of ſpace for a lodgement under its flat face and from the River not being fordable oppoſite to it; - Further, as the Work will be Solid, it will be practicable to change the direction of the parapet, into the more regular Form expreſſed by the dotted lines, ſhould it at any time become expedient to procure more oblique fire -

We recommend that the two Small Batteries O1. O1 be raiſed on the wall of the Fauſs Bray, that for two Guns will flank the

2279

the face of the Sultaun's Battery, and the Eastern one will rake the ditch as far as the Saliant angle at the Battery M.

The west face of the Battery M in Plan N.1 does not afford the means of having a Sufficient fire along the North face to the Westward, down the river to the ford, and to the opposite Bank, We therfore recommend that this project be rejected, and that a Spacious Bastion, as suggested by Major General Ross, be erected agreeably to the Small Plan attached, marked N.2.- This improvement will not be attended with much additional expence, as a part of the foundation of the North Face is already laid, and the revetment carried up to the height of 6 feet / See Section L.11 / The two Small Bastions H & I on the right and left of this Work, must be removed, if this recommendation be adopted - that the flanking fire of the proposed work may not be interrupted;

The two Small Bastions F & G are intended

intended to enfilade the Ditch between the Bastion M. and the Situation they occupy / this defence might be encreased by changing the direction of the Flanks of the adjacent Small Bastions, so as to obtain a direct fire along the Ditch f— The Cavalier N. 10 should be completed, and the Small Battery within it removed, agreeably to the Plan and Section. N. O. and in order to complete the encient of the Fort. the inner line of Works should be connected with this Cavalier at d. and no Communication left within the 2.nd line but by a Bridge of Communication which it will be necessary to construct.

As the Cavalier N. 12 and the Battery in front of it incommode each other, and as the Situation is a most important one. what an examination of the Plan will shew, We recommend that they be converted into one spacious Cavalier. as exhibited in the attached Plan N.o 2. Should the face and flanks of the Battery be found, on examination, too Weak to bear the additional weight, it is recommended to carry the East face

2-221

126

face nearer the work called the Lozenge / See Section No. 19 - L. K / which will give an additional Gun on the North Face, and also one to rake the ditch towards the Bangalore Gateway.

The Work called the Lozenge requires nothing but a new parapet / See the section. L. K No 19 / Its North Eastern Face bears direct upon the Bridge, and its North Western Face will scour a great part of the Glacis to the Westward. there is an excellent Magazine within it.

We recommend that the Battery I. be one of the first undertaken, as it is a work of very great consequence. Its Eastern Face enfilades the Ditch which runs parallel to the River towards the Doubet Baugh, and its North Eastern Face defends the passage of the Bridge. — The expence of this important work will be trifling as all that is required, is an interior retaining wall for the Parapet and Embrazures. — The Space between the dotted lines at M. should be removed, as it obstructs the

Fort St George 5th April 1805

the enfilade of the Ditch running towards the Dow-
-lett Baugh.—

For the reform of the Bangalore Redoubt, we beg to Submit Plan N.1 and project N.2 — We recommend the adoption of Plan N.1, altho it may be considered objectionable from its East Face not being flanked by any of the Collateral Works, and from the apparent facility with which an Enemy might make a Lodgement in its ditch — These objections are in a great measure removed, as the Solid Rock in which the ditch is excavated to the depth of from 20 to 30 feet, would be an unsurmountable obstacle to a Sap or Lodgement; and as the Work in the proposed Form will from its capacity admit of being retrenched.

Project N.2 for the improvement of the Bangalore Redoubt admits of its faces being defended by the Coremallieve Works D. D D. D but the very great expence which this alteration would be attended with, appears a greater objection, than the defects of Plan N.1 the adoption of which will render unnecessary

127

unnecessary, the Crimaillere Batteries D. D D D
which are only intended to flank the Faces of
Project No. 2. The Parapet of the Bangalore
Redoubt may be changed at pleasure in the
manner recommended for the Sultaun's Battery.

The Bangalore Gateway should
be completed agreeably to Plan No. 1. It flanks
will hold twenty Guns for the defence of the
ditch and inner Glacis: its face will hold 7
Guns for the purpose of Commanding the
Bangalore Redoubt; the Batteries on the Curtain
to the right and left will also command
the Redoubt, defending at the same time its
Southern and Northern Flanks; and altho' no
direct fire can enfilade the face of that work,
every Shot which strikes the Scarp or Escarp-
-scarp of its Ditch will by rebounding from
the Rock; make the Circuit of the whole and
render it impossible to form a lodgement on
it.

The Small Cavalier No. 9 seems
ill

Fort St. George 5th April 1805.

ill adapted to defend the South East Angle of the Second Line. We are therefore induced to propose the Construction of a larger Work, on the Scite now occupied by this Cavalier and by the Small Bastion at the Angle: It should be raised of a sufficient height to allow the Guns placed on its flanks, to fire clear of the Parapet of the Curtain - Its South East face will completely command the Sultaun's Redoubt: the Guns on the North Flank will take the East Face and North Flank of the Bangalow Redoubt in reverse, as well as the North Flank of the Work over the Gateway - Its South West flank will scour the inner and outer Glacis between the Sultaun's and Southern Redoubts; and its East face will command the Glacis, and have an extensive Range of fire over that part of the Island - The advantages of this proposed Work will be evidently very great, at the same time we recommend that it be one of the last undertaken, unless from the bad state of that part

2285

Fort St. George 5th April 1805.

128

part of the Fort, it may appear necessary to rebuild it, in which case the improvement may be commenced upon immediately —

The Sultaun's Redoubt is a circular work covering the South East Angle of Seringapatam, and it is of great importance as it defends the Ditch between it and the Mysore Redoubt, also the Ditch towards the Bangalore Redoubt. It scours both the South and Eastern Glacis, as well as the inner Glacis of the East Face. This work being very well built requires nothing but an alteration of the Parapet as exhibited in the Plan (letter H.)

The two Batteries, D.D. in the 2d. and inner Lines, flank completely the parts of the Ditches between them and the South East angles of these lines, and the Battery A, affords an excellent flanking fire for the Ditch, and Space between the inner and Second lines, as well as a powerful direct fire,

129

to the Mysore Battery P, and that the present Gateway be formed into a Spacious Work.— The two Returns on the East Face will com.= mand the Ditch and defend the draw Bridge and the Battery between the Bridge and the present Gateway: will defend the draw Bridge of the Outer Ditch: and enfilade the Sortie. The West flank of this Work will enfilade the Ditch and inner Glacis, between it and the South West Battery L. and will also take the west and South faces of that Battery in reverse: a Bridge of communication should be laid down at h

The Mysore Redoubt requires nothing but a new Parapet, and the Comple.= tion of its Ditch: it is a very important Battery, and ought to be one of the first un.= dertaken: as its West flank defends the Mysore Bridge.—

The Battery E. may be considered the Counterguard of the South West

the commencement of the Institution, by which it
appears that besides the advantage of having Cano-
=ages &c. of Superior quality, a Saving has arisen
to the Public, of Pagodas 11,312. 6. 73/2 — of this
Sum 7253. 7. 37. exhibits the actual Saving in
the half year.

3 We impute the extraordinary
progress which has been made at the Manufactory,
in a great degree to the indefatigable exertions of the
Zeal, ability, and integrity of Captain Scott, — his
Suggestions have in various instances pointed out
the means of avoiding expense, by constructing at
the yard, several of the inferior articles of Mili-
=tary use, which had heretofore been supplied
at a considerable expense.

4 The great extension of the
Manufactory yard, and the increase of Work
constantly on hand in it, has rendered it ne-
=cessary for the Agent to keep up at his own
expense a considerable Establishment of Ove
=seers, and Servants, to assist him in the Superi-
=ntendence

furnished to him by the Adjutant General of the Army.

The Commander in Chief is requested to adopt the necessary measures towards carrying the foregoing Resolution of the Right Honorable the President in Council into effect.

The Right Honorable the President in Council is pleased to establish as a Regulation of the Service that Helmets as part of the clothing shall be delivered to Serjeants and Trumpeters of Cavalry Regiments once in every three years, and that a Hat or leathern Cap shall be delivered with every other year's clothing.

28th August 1804 (Signed) J. Stuart

Resolved and Ordered that a General Order be published in conformity to the Draft submitted in the foregoing Minutes.

The Commander in Chief records the following
