From the Proceedings of the Medical Board of the 14th Instant and recommending to Consideration the Petition of the Widow of the late Sub Asst Surgeon Veitch. also letter from Major Fraser late Barrack Master Coster Deceased for remuneration for Cots lately provided, and recommending to a certain extent accompanying claim of Mr. Ashhurst for Keep of a horse the property of the Company left in his charge on the death of the late Cornet Martin.

Late Barrack Master of the Center Divi-

would take into consideration the very
great expence which he has recently
incurred in replacing with new cots
a Considerable proportion of those on the
Center Division, and which has in-

has prevented him from being able to
reimburse himself from the Monthly
allowances he had hoped to receive

The Commander in Chief considers any claim founded on expenses incurred for maintaining the horse while Cornet Morton was receiving Pay and allowances from Government, as inadmissable, those allowances particularly providing for such expenses. But as the subsequent charges were incurred after

Sir.

I have to bring forward for
the Consideration of Government a cer-
tain claim, which I consider myself
entitled to make upon its liberality and
Justice but, in the first Instance, it
is necessary it should be submitted
to His Excellency the Commander in Chief.
I beg leave therefore to trouble you with
this address, for the purpose of being laid
before his Excellency, In the hope that I shall

the Commander in Chief approve, and be satisfied in his own mind of the propriety of the claim, which I mean to set forth, that he will be pleased to give it that countenance and support as may likely ensure the favorable opinion of the ultimate authority.

Permit me to premise by sta-
-ting that by the General Order of the 9th October 1810. the appointments of Barrack Masters are to cease from the 1st of December, the period has arrived, consequently my appointment of Barrack Master on the Center Division has ceased, and an Officer of the Commissariat has received charge.

Before I proceed further it will be necessary I presume for the information of His Excellency to enter into

No 156 Fort St. George 21st December 1818.

ents some detail of the Barrack Regula-
-tions as they regard the Cotts, that he
may be better enabled to judge, how
far he may think my claim can be
admitted. allow me therefore, to explain,
that the Barrack Cotts made use of
for the European Troops are the property
of Government, that the Barrack Master
is despised to receive them in perfect
repair and good Condition, and to
keep them on this state, a Kind of
contract is entered into, that he
shall receive, at the rate of three
fanams per Mensem, for every Cott
reported by the usual Quarterly Survey
Returns "In perfect repair and good
Condition." The Contract does not
specify how long a Cott is to last, nor
does it make any allowance for such

new ones as the Barrack Master may be obliged to make up on lieu of those that from length of Service are no longer repairable - and it further provides by the Article 13th of the Barrack Regulations dated 7th December 1793. that in case Paymasters or Barrack Masters shall neglect their offices or be otherwise removed from them, they shall be bound to deliver over the Cotts to their Successors in perfect repair and good condition".

It is not an easy matter, to determine exactly, how far a Cott is in perfect repair and good Condition - But. that reason to often to meet with unpleasant observations on this Account notwithstanding Care taking every pains to repair and to preserve the Materials by

necessity of addressing the Military Board

the accompanying paper No 1 being an
Extract of their reply and from which it
plainly appears, what the Board consider
as a Colt in retain and good Condition —
also that in four years, the allowance
by the Contract does not equal the
value of a Colt.

Allow me to call your particu-
-lar attention to the following cir-
-cumstances Viz. that it was never
taken into Consideration by the Gover-
-ment Commutee, that the Colts had
been in use for nearly ten years pre-
-vious to my having taken charge of
them consequently required a great
proportion of the Monthly allowance to

at the time I came to the determination of making exchange, I had every reason to suppose, that my appointment was a permanent one, until at least, I should be promoted to the rank of Lieutenant Colonel, and I reckoned that before that period could arrive - I should have received by the Monthly allowances of three pagodas per Mensem an equivalent to what I had disbursed. It may be objected to me here, that by the details 13th which I have quoted - The Barrack Master is liable to be "otherwise removed" and even in this case, is still to deliver over to his successor, the Cotts in perfect repair and good Condition - I certainly always conceived that this removal meant of by mission:

misconduct, for upon any other Construction, it would have been impossible, at least very improbable, that the Barrack Master would have dishonest any considerable Sum, far beyond his actual receipts — If liable at a moments warning, to be re= =moved from his Situation. I am now exactly on this predicament, I felt pretty well assured that I was not to lose my si= =tuation until promoted, and in consequence of this idea, I went to a very great ex= =pense - I may safely say - with the purest motives but this unexpected removal from office has now involved me so very considerably that really I am forced, very much against my inclination, to trouble Government and the Commander in Chief with this prospect of the affair. I am well aware, that if the strict interpretation of

Not shall not claim the remuneration I
seek as a right nor do I come forward with
any such intention, I wish only, most res-
pectfully, to submit it as a matter of
consideration, in the hope of its meeting
a favorable reception. May I be allowed
to notice that in framing the arrange-
ments which preceded a new system
for the Barrack Department, it may
perhaps have escaped the attention of
Government that any of the Barrack
Masters could be affected by the change
of system, in the manner which I have
been. If this has been the case, it is
but reasonable to hope, that Government
will be pleased to consider that, it is
not money expended on my own private
Account I am endeavouring to recover. but

Money

Money disbursed on account of the public service relying. I may say, on the faith and liberality of Government, that nothing but misconduct could make me forfeit the prospect of being reimbursed. Permit me also to state, as a further circumstance in my favor that the Committee of Survey held on the Colts previous to their delivery to the Department of the Commissariat have reported: all the Colts in my range in repair and good Condition: and that 30 are entirely new.

I have now to request your attention to the Statement in the paper No 3 from which you will observe, the number of Colts that I have made up since January 1808, the actual expense incurred on their account the receipts of allowances.

the Affue, and the balance required
to make good the sums extended.

The claim, if I may
be allowed to call it so, which I now
request to submit through His Ex:
=cellency the Commander in Chief is
simply this, that Government will be
pleased to take into Consideration,
the very serious disbursements I have
made, and from the inadequacy of
the allowances received that the sum
of Pagodas 3,537 — 3 — 0 — is required, to re:
=imburse me. When I sincerely declare, that by the unexpected removal I am literally
involved in Considerable pecuniary Em:

a delay.

I am anxious in the extreme to make
over the medical charge of the Center Division
of the Army, lest the imputation of procrasti-
nation be surmised, but it is consistent with
the knowledge and experience of the Medical
Board, that a transfer at the prescribed
period, were utterly impossible, indeed the
nature of the Office does not sanction it
until the documents from Practitioners
shall have been completed.

I have performed the duty of
Superintending Surgeon on the Center

of November, and for aught I know my
functions may continue the greater part
of this Month. I therefore request permission

to draw the Salary of Superintending Surgeon for the months of November and December.

I request this favor not as a matter of right but of courtesy, and I fully persuade myself that the indulgence will not be denied when my services are recognised by the Government thro' the favorable representation of your Board.

I have served the Government two and twenty years. I have received a salary corresponding with a Superintendent Surgeon upwards of five years. my pension is on the receipt of and will continue to receive that Salary until the 1st. of January ensuing; my situation is peculiar, I am virtually unattached, consequently cannot draw any allowance without a special order, with all I have not valued on the Treasury in any form for the months

Replies of the Paymaster.

1st With respect to the Retrenchment it has always been customary that at the Station the Jannams should be Converted into Pagodas at the rate of 42 Jannams. Notwithstanding the above established custom the Troops are not paid either in Company's Rupees or Pagodas but partly in Company's Rupees and a certain proportion of old Rupees not equal in value to the Company's Rupees.

Sir.

From the Commissary General - Requesting that 55 Bullocks of Tanni (calculated to be required for the Sick of the Army in the ensuing year) may be transported from the Import to the Commissariat Department - proximity of Tanni required at Goa and Tanjore coming from Bombay.

I have the honor to acknowledge the receipt of your letter of the 10th. Instant, forwarding for my information and guidance an Extract of the proceedings of the Medical Board, and the resolutions which have been passed thereon by the Honorable the Governor in Council

2 It appears from these proceed-
=ings that the quantity of Madeira Wine which

which will probably be required for the use
of the sick of the Army during the ensuing
year, with Amount to 2172 dozens or about
55 Pipes: and in order that I may adopt
immediate measures for the due distribu-
tion of that quantity, I beg you will com-
municate my request to the Honorable
the Governor in Council that orders may
be given for the transfer of that quantity
from the Stores of the Comfort Department
to those of the Commissariat. In order at
the same time, that there of a proper qua-
lity may be selected for the use of the
sick and that no complaints may be
made hereafter, I beg you will suggest
to the Honorable the Governor in Council
the expediency of appointing a Committee
specially for that purpose and that one or
more of the members of the Medical Board
may.

may be requested to attend the Committee
or be named as Members of it.

3. Apprehension that the same
inconveniences may be suffered at Sual-
=mah before it will be practicable to des-
=patch from hence a supply of Stores for
the Troops at that Station. Stake the
liberty of suggesting for the consideration
of the Honorable the Governor in Council
the expediency of requesting the Govern-
=ment of Bombay to cause a consignment
=dence, to be dispatched immediately from
that Presidency, to the Assistant Com-
=missary General at Sualrah. If that sug-
=gestion be adopted it will in my opi-
=nion be advisable that two pipes should
be sent in bottles, for the convenience of
small Detachments, and to be in readi-
=ness.

14239 Fort St. George 28th. December 1810.

readiness for delivery on small quantities,
on the event of the force at Jaulnah,
having occasion to march at a short
notice.

4 The distance from Bombay to Jaulnah does not exceed 250 miles: whilst the latter place is nearly 700 miles distant from Fort Saint George. The same therefore which may eventually be despatched from Bombay, will be liveable to the regimental surgeons at a lower rate than if sent for their use from this Presidency, further encouragement for the adoption of the plan, I have had the honor of proposing.

5 If there should be no Madeira in the Company's Stores at Bombay available for this service, it would perhaps be advisable.

Fort St. George 21st December 1810.

advisable that the proper public authority at that Presidency should be charged with the duty of procuring it, at the most reasonable terms; but in either case it will be necessary that an invoice & its cost and charge of conveyance should be sent to this Government, in order that I might be furnished with the means of recovering its amount on the public account.—

6 The canoe should be surveyed previously to its dispatch, and some medical Officer should report as to its fitness for the purposes of the sick of the Army.—

7 If it should not be convenient to the Government of Bombay, it would also be extremely desirable that 8 pipes of India market Madeira of the same

quality.

14248 Fort St. George 21st. December 1810.

87

quality which I have proposed to be sent to Seedaseer should also be forwarded to Goa, consigned to the Sick Department of the Commissariat Department at that place and that an invoice of its expence and charges should in like manner be forwarded to Fort Saint George.

8 It will be observed that I have proposed to send to Seedaseer a greater quantity of wine than may appear to be absolutely necessary for the consumption of the European Sick of the Corps now at that Station but, I trust that it will be considered advisable to have the Command of some extra supplies of so important an article at a Station in many respects, so critically situated.

Honorable Sir,

Consequent reply from the Deputant of that Corps on the subject.-

2 Not having received any ac=

on question, it occurred to me, that the
proper person to apply to for enforma=
=tion on the subject, was either the Com=
=manding Officer, or the Deputant of
the Corps to which the Men belonged
who received the advance but as it
seems those Officers both decline
giving the necessary explanation, I
respectfully beg to be informed what
duty it must be Considered to make

3 As connected with this subject I have further respectfully to observe, that since the period of the last advance to the Pavildars above noted (viz^t in December last) Lieutenant Anderson of the Madras Establishment has been in charge of these two new Companies Officers and the Men under their Command, as well as the other recruiting parties in Canara belonging to this Presidency and from this Quarter. man, I have lately received Accounts from January to October last, which still remain unadjusted in consequence of his not having transmitted the whole of the requisite Vouchers - I have however written

Sir,

From the First Assistant in charge of the Residency of Hyderabad - In reply to a letter relative to the petition of the Resident, stating the impracticability of decreasing it -

I have the honor to acknowledge the receipt of your letter of the 8th. Instant, referring to a letter from your Department to the late Resident Captain Sydenham dated on the 7th. of March last -

I have observed your former letter on the records of the Residency but as my situation is only temporary, it appears to me more proper to leave the Resident himself when he shall arrive -

arrive, to reply to a question affecting his per-
-manent Establishment.-

A Party of Cavalry has always
been attached to the Residency and I take the liberty of representing that if it be discontenced it will deprive him of a very material part of his Retinue. It is known to the Honorable the Governor in Council how much consequence is attached at a Presidency Court to the number of attendants and the Extent of Establish-
-ment. The present pittance & scale of expen-
-diture scarcely enables the Resident, even with the addition of his own Escort and a Detachment of Native Cavalry to maintain an appearance proportionate to the Rank which he holds amongst the Nobles of the Court and of the Retinue of his Escort of Cavalry

Defence. The Prisoner, Jemadar Shaik Mahomed 2d. /16th. Regiment Native Infantry being called upon for his defence, denies that he was at all intoxicated on the 1st. September 1810. that being too late for Musters, he was agitated and flurried, by thinking he might be reprimanded. which perhaps might have given which to some might seem like effects of drinking. As to the second charge, he was unable to bring forward any evidences in his favor, from the length of time which had elapsed since the occurrence of the circumstances on which the charge was grounded. But allowing he had sometimes

sometimes committed himself by drinking, he thought himself sufficiently punished by the Battalion orders which had appeared more especially as the present Commanding Officer of the Corps Lieutenant Colonel McCally had passed him over in the late promotions made in the Battalion, in consequence of having received those orders - had he indeed been drunk on 1st September as he was accused then the former Battalion orders regarding him might fairly enough have been urged against him, but as several evidences said they thought he was at that time capable of performing his duty, he left it to the Court to say whether or not he was Guilty -
