The following Report from the Military Board are ordered to be Recorded:—

To

15657

Fort St George 10th December 1811.

To the Honorable
Sir G. H. Barlow Bart K.B.
Governor in Council
&c &c &c

Honorable Sir,

From the Military Board Enclose an Invoice of Rice Shipped from the Stores of the Grain Committee on board the brig Jupiter in February 1809 for the use of the troops serving in Travancore, with several Remarks thereon by the Board, and States that the Amount which was actually paid by the Commissary of Grain and provisions and brought upon his returns should alone be placed to the debit of the Military Board provision department.

Para 1. On reference to the accounts of Captain Robertson, who was in charge of the Department of Commissary of Grain with the Troops Serving in Travancore in the Year 1809, it appeared that a certain quantity of Rice had been received upon his returns in the Months of February and March of that Year, but as we could not trace from what authority it had been received, application was made to Captain Robertson, who Stated that the Consignment had been made, as he understood under the Authority of the

15658

Fort St George 10th December 1811.—

the Grain Committee at Fort St George.

2. On receipt of this in-
telligence, a letter was addressed
under our Orders to the Secretary of
the Grain Committee, for the pur-
pose of ascertaining the quantity
and Value of the Grain which had
been supplied by the Committee
for the use of the Troops in Travan-
-core, as also to obtain Copies of
such receipts as might have been
granted by the Commanders of the
Vessels on board of which the Grain
had been Shipped.—

3d In reply to this letter
Mr Cooke, a Member of the Grain
Committee transmitted to us, on the
11th of April, Copies of the Invoices
of Rice which had been dispatch-
-ed on board the Ships Lovely
Hannah

15659

Fort St George 10th December 1811.

Hannah and Jupiter in January 1809, exhibiting the quantity and Value of that article including charges.

N. These Invoices exhibited a quantity of

G. m. s.
16. 32. 5 15/16 of Rice to have been Shipped on board the Lovely Hannah, and

G. M. s.
25. 16. 1/4 on board the Jupiter, the amount of Charges on both Pagodas 4,815 2,38, the return of the Commissary exhibited a quantity of

G. M. s.
8. 33 1/4 7/8 to have been received from on board the Lovely Hannah, and

G. M. s.
12. 168. 9 from the Jupiter, leaving a deficiency on the whole Consignment of 20. 96. 3 3/16 of Serviceable rice, besides which 74 bags were landed in so damaged a State, as not to be Measurable, and that quantity was of course not brought upon

15660 Fort St George 10th December 1811.—

upon the returns.—

5. In consequence of the very great difference which appeared between the Invoices and Returns, We were induced to request that Mr Cooke would inform Us on what authority the rice in question had been embarked, to what place Consigned, and for what Service intended, as also that he would furnish us with Copies of the bills of Lading. In reply to this request Mr Cooke Stated that the rice had been exported by order of Mr Dick, that the Bills of Lading were all forwarded to the Board of Trade, and he believes the Rice was made deliverable to the order of the Secretary of that Board, for what Service or place the grain

was

15661 Fort St George 10th December 1811.—

was intended he was unable to inform the Board.—

6. As this Communication threw very little light upon the Subject, we called upon Captain Robertson to State the precise dates, when the Rice was received from those Ships, whether the Commander had produced any documents or reported the quantities that had been embarked, as also whether they accounted in any way for the Condition in which the Rice had been delivered. Captain Robertson, Stated in reply that the Rice was landed in the months of February and March 1809, that the Commander of the Lovely Hannah did not deliver to him any Invoices or report of the Grain which he had on board, except a verbal Statement of

15662 Fort St George 10th December 1811.

of the Number of Bags, and that the Commander was to the best of his (Captain Robertson's) recollection present when the Committee of Survey examined the Rice on the 22d of February. With respect to the Grain which was received from on board the Jupiter Captain Robertson stated that the Commander landed his Cargo at Anjengo, and the Officer then in Command of that post reported to him on the 14th of March the Number of Bags which he had received, but no Invoice or other document from Madras was delivered to that Officer. A Committee examined the Rice on the 23rd of the same Month. The Commissary in his letter also remarks that the

Gunny

15663

Fort St George 10th December 1811

Gunny Bags containing the Rice which was landed from the Lovely Hannah were Unserviceable, and that consider-able deficiencies appeared to have arisen from that circumstance, but in his Opinion their appearance did not indicate a loss exceeding 12 or 15 per Cent, whereas the actual deficiency is about 48 3/4 per Cent.

7. As Mr Cooke in his Letter above alluded to, reported that all the bills of Lading were given in to the Board of Trade, an applica-tion was made on the 25th of June to that Board for Copies of those bills, and on the 6th of July we were in-formed that the bills in question had been transmitted to Government, we accordingly directed that the necessary Measures should be taken to

15664 Fort St George 10th December 1811.

to ascertain whether those documents were on Record in the Office of the Chief Secretary, and on a reference being made, We have obtained the inspection of the bill of Lading of the Rice which was Shipped on board the Jupiter, by which it appears that the quantity for which the Commander of that Vessel passed his Receipt was, 2,20,874 lbs Gross or Madras Garce 23 " 344 : 7½ instead of Garce 25 " 16 " 1/4. as Stated in the Invoice, being a difference of 1 : 222 " 6 " — The Bill of Lading which was granted by the Commander of the Lovely Hannah, does not appear to be on record in the Chief Secretary's Office. —

8. In Submitting the present report We consider it to be

15665 Fort St George 10th December 1811.

be our duty to lay before your Honor in Council a Copy of the

No 1. Invoice which has been furnished to Us, and at the same time to offer such remarks as have occurred to our Minds upon it. Mr Cooke has charged for 1,552 Bags, weighing Gross Cwt 2,100 qr 2 lb 25 or Garces 25 ... 16 ... 1¼ at 110 Pagodas per Garce Amounting to Star Pagodas 2,795 ... 42 ... 7 which calculation includes the weight of the Bags and another Charge has been made of Pagodas 16 ... 14 ... 5 for 1,450 Gunny Bags, thereby forming a double Charge against the Public and it is to be observed, that a considerable difference exists between the Number of Bags Stated in the Invoice, the

receipt of the Commander however
Corresponds with the latter Number,
and an excess of charge is apparent
from those two Documents, the Invoice

General accordingly reported on the 28th of March, upon the whole case, and it was resolved at our meeting on the 4th of April, that an opportunity should be afforded to the Adjutant General of the Army to offer such further observations as he might have to make on a subject in which he was principally concerned, the report of the Military Auditor General was therefore referred to Lieutenant Colonel Conway, whose reply was submitted for our Consideration on the 11th day of August.—

3d Having given the several papers connected with the Petition of the Contractors, the most attentive Consideration, we have at length been fully satisfied that

7th September 1811.—

Report of the Military Auditor General.—

The Military Auditor General has now the honor to State his Opinion upon the Papers which were referred for his report upon the 17th October 1808, respecting the Contract which had been entered into by Captain Conway on the part of the General Agent for Cavalry Supplies and Nagapatnah and Tellicherry for the providing of 180 Garce of Gram to be laid up in Store,

15676 Fort St George 10th December 1811.—

Store, and of 120 Garce of Gram more,
for the daily Consumption of the
two Regiments of Cavalry Station=
=ed at Hyderabad, for a period of
four Months, and upon the Com=
=pensation claimed by the Contract
=ors for Loss Stated to have been
sustained by the Contractors upon
the sale of the latter quantity of
Gram, which the Military Auditor
General has been prevented doing,
until the receipt of the Statement
which was forwarded to the Board
with Mr. Secretary Peile's Letter
of the 5th Instant.—

In the examination
of this Document, the Military
Auditor General hoped to ascer=
=tain the periods not only when
the 180 Garce of Gram Specified
in

15677 Fort St George 10th December 1811.—

in the first article of the Agreement, was lodged in Store in the Granary called the Goosha Maul, but also when the other quantity of 120 Garce for the daily Consumption of the Cavalry was supplied, but has to acknowledge his disappoint-ment, as no date whatever to any of the Items is exhibited in that Statement, which is the more to be regretted, as the Claim prefer-red for Pagodas 4,1114.—12.— as com-pensation for the loss sustained, States it being in consequence of 120 Garce of Gram sold at the Bazar Nerrick of the present day &c".—

It was therefore neces-sary to ascertain this material point if possible, by referring to

15678 Fort St. George 10th December 1811.—

to the other papers submitted for Report.—

The Military Auditor General has accordingly to State that after an attentive perusal of these papers with respect to the supply of the 180 Garce of Gram to be stored in the Granary called the Goosha Maul it appears from the receipts granted by the Servant of the General Agent that a quantity had been deliver-ed as follows.—

Although the Military Auditor General adheres to the opinion given in his former report respecting the first part of the Contract

15681

Fort St George 10th December 1811.

Contract Viz.t — the Supply of the 180 Garce having been fulfilled, he sees strong grounds however in withholding his assent, to the fulfilment of the second part of the Contract before the 30th of June 1807, for the Supplying of the 120 Garce contained in the 4th Article of the Agreement For after a Minute perusal of the Statement of the Contractors and the papers which were referred for the Military Auditor Genrals report upon the 17th of October 1808, no facts or circumstances can be traced, no receipts have been produced of the Supply of the additional quantity of 120 Garce of Gram, for the resale of which the compensation is claimed. —

On

15682 Fort St George 10th December 1811.—

On the contrary it is represented by the late General Agent that the Gram required for the daily Consumption was taken from the 180 Garce, the quantity Stored in the Gooshi Maul.—

In corroboration of that circumstance and which must strengthen the doubts regarding the supply of the 120 Garce previous to the 30th of June 1807, the Resident at Hydrabad Communicated to Govern=ment the scarcity which existed and the difficulty of obtaining supplies of Gram in the Niram's Territories in the Months of May and June, and that he had found it necessary to use his influence with the Collectors in the Company's Territories

15683

Fort St. George 10th December 1811.

Territories to procure it:—

Had a quantity Viz.t

300 Garce equal to the Consumption for ten Months from the 1st of April been provided, / 30 Garce of the old Stock being more than adequate for the Consumption in the Month of March / the Resident would surely not have been under the necessity of making the foregoing Communication to Government.—

It certainly does not appear from the Proceedings of the Committee of enquiry that the 4th Article of the Agreement had been fulfilled by the Supplying of the additional 120 Garce for consumption in the four Months of March, April, May and June.—

Neither does it appear that

15684 Fort, St. George 10th December 1811.—

that any advances of Caish had been made and it is Stated were not even demanded conformably to the terms of the Contract for the sup=plying of that 120 Garce, and as it is represented by the late Gene=ral Agent that he wrote to Nagapah a Letter, which must have been received on or before the 24th of March, in which he had disapproved and with=held his assent to that part of the agreement for the supplying of the 120 Garce, against which at that time no Complaint ap=pears to have been made.—

From all these circums=tances it is natural to conclude that this quantity of Gram was not supplied in conformity with the

15685

Fort St George 10th December 1811.—

the terms of the Contract, the Military Auditor General must therefore express his doubts regarding the Justice of this Claim.—

If any loss has been sustained by Naganah and Tattiah, it is to be supposed that it has arisen from the resale of Grain provided subsequent to the 1st of June 1807.—

The Military Auditor General will therefore not take upon him to recommend the acceding to the request preferred on the part of the Contractors Naganah and Tattiah for Indemnification for loss stated by them to have been sustained amounting to the Sum of Pagodas 4,114. 12.—

under Date the 28th March 1811, in
which that Officer expresses his
disappointment in not having ac-

"The periods at which the quantity
"of 120 Garce of Gram were supplied,
that the Claim in question originates,
in the refusal of the General Agent
to ratify that part of the Agree-
-ment which I concluded with
Naggaiah and Tattiah, and that
altho' they had purchased that
quantity and were to my certain
knowledge prepared to fulfill that
part of the Contract as punctually
as they did the 1st "Article for
180 Garce, yet they were never
called upon" to do so, but on the con-
-trary, the Major Hunt refused to
confirm

Confirm my Agreement, and appropria-

-tion of the Regiments, whereby this
quantity of 120 Garce was never
received or demanded of the Contrac-
-tors and consequently no Voucher
could ever have been obtained, and
hence arises the demand, for com-
-pensation for the loss sustained
by the resale of that quantity
under the authority of Captain
Sydenham the Resident after the
assurances I have given to the
Board, that the Contractors were
prepared to fulfill this part of
their agreement with as much
punctuallity as it is most satis-
-factorily

not fail in any part of their
agreement, that they were prepared
to Supply the 120 Garce of Gram
before the 30th of June, that find-

with them to its full extent, they
represented their case to Captain

From the Military Board Regarding late embezzlement of Stores at Cannanore from Regimental Stores of 2d

Para. 1st We have the honor to acknowledge the receipt of two Letters from the Chief Secretary to Government dated the 1st and 5th Novembr and

2d Battalion 22d Native Infantry —means for— preventing a recurrence of a similar act will be provided in Regulations for Ordnance depart=ment now— Compiling— relative to the re=quest for Galle=pee Guns to 4th Native Cavy that the Season would not ad=mit of sending them earlier— from Seringa=patam Lieut. and of two others from the Secretary in the Military Department under date the 5th and 8th November, and to report that the necessary orders have been given in Consequence.—

2d

Having had under Consideration the several papers— connected with the embezzlement of Stores at Cannanore from the Regimental Stores of the 2nd Battalion 22nd Regiment Native Infan=try, We have the honor to report that We shall in a short time— submit to Your Honor in Council in the Regulations for the Ordnance Department now under prepara=tion, the means which we would propose to ensure a more strict attention to the preservation of the Stores which must necessarily &c

be lodged in the Stores attached to Regiments both European and Native.

3d. The principle which we propose to adopt is, that Officers in Command of Corps shall forward with the Quarterly Returns of Arms and Accoutrements, Journals of the Receipts and Issues prepared in the same manner as those which are kept in the Ordnance Department, and also that the Issue of Stores on Annual Indent shall be limited to the quantity which may be required from time to time by the several Corps of the Army instead of the practice which has hitherto obtained of permitting Corps to receive the whole amount of the Ammunition

required

15,700 Fort St George 10th December 1811.—

required for practice during the Year.
On the receipt of the Quarterly—
Returns of Corps together with the
Journals we shall be enabled to
compare them with the Issues by
Commissaries of Stores, and consequent-
ly to keep the same check over the
receipts and Issues in Corps as has
been established for the Ordnance
Department.—

4. We are not aware that
any objections can be offered against
the adoption of this measure, as it
will occasion very little additional
trouble and ought to be more Satis-
factory to Officers Commanding
Corps as affording them a greater
facility in detecting any improper
appropriation of the Stores committed
to their Charge.—

5. On this occasion we think it necessary to observe that considera-ble neglect is to be ascribed to the Officer Commanding the 2nd Battalion 22nd Regiment in the Custody of the Regimental Stores, as, had due atten-tion been paid in the examination of the Returns and of the articles in Store previous to the transmission of the Quarterly Returns to our Office, it would have been difficult for a Quarter Master Serjeant to have carried on his depredations in the manner which appears to have been done in the instance before us, and we consider it to be our duty to State to your Honor in Council that the Officer Commanding is Strictly responsible for the Value of the Stores, which have been embezzled,

should be made answerable for them.—

6: As it is the intention
of Your Honor in Council that the
Serjeant shall be brought to Trial,
it may however be advisable—
that no further measures should
be adopted until the receipt of the
proceedings of the Court Martial,
when no doubt the whole circums=

Section of the articles of War the Officer Commanding may be brought to Trial before a Genirall Court Martial for Neglect, in which case he will be subject to dismissal from the Service, unless he can prove that it was not in his power to prevent the embezzlement of the Stores.

Communication from Government, we had adopted the Necessary Measures for completing the Hyderabad Subsidiary Force with the allotment of every description of Ordnance as approved of by His Excellency Lieutenant General Sir Samuel Auchmuty; and that in a short time the Department of Ordnance with that Force will be in a most compleat State. The present allotment gives two Brigades of Gallopers Spare, and that number have been dispatched from the Gun Carriage Manufactory. We have also directed that two Brigades of Cavalry Guns and Carriages shall be kept in deposit at Bellary, in order that Corps proceeding from the Carnatic on Service may be supplied with new and Serviceable Guns,

State that the Officer in Command

represented to Us that he considered
the mode of Punishment by Solitary
confinement as much more effectual
than that of Corporal Punishment,
that the Men had a greater dread
of Confinement, and also that when
punished by flogging they were
often detained in Hospital for a
length of time to the great detri-

them unfit for duty— We concurred
in these Sentiments, and accordingly

Day of May last, the Chief Engineer was requested to Submit a Plan and Estimate for Constructing a Granary and such other Works as might be considered necessary by the Commissary General for his Department: We have in consequence received the accompanying Plan and Estimates together with a Minute from the Chief Engineer, in which that Officer has Stated in concurrence with the Commissary General, that he considers it advisable to retain the old Granary and to Annex to it such other buildings as are required for that branch of the Commissariat Department connected with Marine operations. The Chief Engineer has also Stated that as the Surf

has receded to its original Bounds and the uninterrupted line of the Beach has been restored, he cannot perceive that any prevailing cause exists for an encroachment of the Sea upon the Spot near the old Granary, beyond what may obtain on any other part of the Coast, he has therefore no apprehensions with respect to the Safety of this building which was endangered at the period of the late Storm in consequence of the encroachment of the Sea occasioned by the wreck of the Ship Chichester which came on Shore in its Vicinity. From these considerations as well as the information which We have received that no other Ground so conveniently Situated could be obtained

15720

Fort St George 10th December 1811.—

Report of the Military Auditor General, on a Letter from the Officer Commanding His Majesty's 25th Light Dragoons, dated 25th October 1811.—

The Officer Commanding His Majesty's 25th Dragoons encloses an Indent for Extra Artificers and Quarterly allowance for repairing the arms and accoutrements of that Corps.

This application is stated to have been made in consequence of the recent Orders equalizing the Pay and allowances of Captains in His Majesty's Service with those in the Service of the Honorable Company, the application does not appear unreasonable as the non Effective and Contingent allowance formerly drawn by Captains in His Majesty's Service was considered in some measure to—

to provide for the repair of Arms and Accoutrements and the Establishment of Artificers for a Regiment of European Cavalry is the same as that for a Regiment of Native Cavalry, although the Establishment of the former is now considerably more than the latter, particularly the 25th Dragoons the Establishment of which is 804 Men, the 22d Dragoons is only 686 Men.—

Establishment of the Commissary General upon the South Beach amounting to Pagodas 70.. 39.. 12..—

In Submitting these Plans and Estimates, the Chief Engineer has the honor to remark, that he has communicated with the Commissary General who Suggests the spot immediately South of the old Granary as very conveniently Situated for that branch of his Establishment connected with Marine operations, he therefore recommends its being occupied for that purpose, keeping the principal Building upon the established line forming the East side of the Street, by which any danger from Encroachment of the Sea will be avoided, and at the same time forming the Eastern front or Boundary of the

the proposed Compound by a Simple Palmira railing set up sufficiently close and Secure to protect the enclo=sure against pilfering or plunder.—

In drawing up the Plan for those Buildings, the Chief Engi=neer keeps in view the Reservation of the old Granary which altho' fallen considerably to decay particularly in its roof is a Substantial Structure well worthy of repair and Capable of affording much accommodation to the Commissary General, some apprehension has been entertained for the safety of this Building on account of a partial encroachment of the Sea occasioned by the Wreck of the Ship Chichester which came on Shore at this Spot, but the Surf having since receeded to its origi=nal Bounds and the uninterrupted line of=

of the Beach being restored, the Chief Engineer cannot perceive the existence of any prevailing cause for an encroachment of the Sea upon this spot beyond what may obtain on any other part of the Coast and he takes occasion moreover to observe upon this particular that as there are strong grounds upon which to justify a conclusion that the Security and safety of the Town may in a Material degree depend upon the preservation of the actual line of the Beach from the Fortress to Clives Battery he is disposed to be of Opinion that was any partial degradation to occur upon a particular spot it would become of importance under this general consideration immediately to Secure and fortify it independent of the object of

of preservation with respect to any particular Building.—

The present Granary is Situated within the established line of the Beach as determined by the permanent Bulwark in front of the Custom House, and also some what in the rear of several Valua-ble Buildings in what is considered the same line, consequently the pre-servation of the Beach at this Spot for the reasons above Stated even was the Building not there would appear an imperious Necessity should any future Convulsion or Hurricane occur and the Sea manifest a pecu-liar tendency to the Spot.—

To the Honorable
Sir G. H. Barlow Bart K.B.
Governor in Council

&c &c &c

Honorable Sir,

From the Military Board — That report regarding Gun Carriages to late Admiral Drury has been called for — also State=ment of — Materials for making up articles at La=boratory &c. — That orders of Court of — Directors on receipt of Stores &c, sent to Commissary at the Arsenal — generally on subject of flag Staffs — with several Estimates. —

1.

We have the honor to acknowledge the receipt of Six letters from the Secretary to Government in the Military Department dated the 12th 15th, 16th, and 19th November, and to report that the necessary orders have been given in consequence. —

2.

We have requested the Acting Commandant of Artillery, to report whether the Gun Carriages — which were made up in the Arsenal for the late Admiral Drury can be converted to any useful purpose for the public Service, and we shall have the honor to submit, on receipt of that

15748 Fort St. George 10th December 1811.—

that Officer's report, our Sentiments upon the application from the Execu=tor to the late Vice Admiral Drury.—

3d In obedience to the orders of your Honor in Council, we have directed that a Statement shall be prepared of the proportion of Materi=als requisite for making up Articles at the Laboratory and Arsenal for the Service of the Ordnance Depart=ment at this Presidency.—

4. A Copy of the Regula=tions directed to be observed by the Honorable the Court of Directors in the receipt and examination of Military Stores at the several Presidencies in India, has been forwarded for the information and guidance of the Commissary of Stores in charge of the Arsenal.— On

15749

Fort St George 10th December 1844.—

5th On the subject of the 3rd Paragraph of the letter from the Secretary to Government in the Military Department dated the 19th Instant, we have the honor to report that in preparing Estimates for the repairs of Flags Staff, we have hitherto observed the principle of authorizing Garrison Flags to all Forts or Stations which are the Head Quarters of a Division, and at the Subordinate Posts Flags similar to those which are established for Officers Commanding in the Field have been sanctioned.—

6. We have been guided by this principle from the impression that independant of the considerations, which in a Military point of view render it necessary, that—

Flags

15750

Fort St George 10th December 1811.—

Flags should be erected in the differ-
-ent Garrisons, We have at all-
times been of Opinion that the
British Flag should be exhibited
to the Natives of this Country at
every post of any importance, and
that they should be accustomed
to see the distinguishing Ensign of
the Government to which they are
subject.—

7. In order to diminish
the expense which has been hither-
-to incurred, it may perhaps be
advisable that Garrison Flags—
should only be allowed to the Sta-
-tions of Trichinopoly, Vellore, Banga-
-lore, Seringapatam, Chittledroog,
Bellary, Gooty and Masulipatam;
that all Flags which may be kept
up at any other of the Sea ports
except

=ment as not being required for
Military purposes, and that Flags
of the other description before alle=
=ded to, shall be allowed at all —
Stations which may be the Head
Quarters of a Division or a Govern=
=ment Command. —

8. If this proposition —
should meet the approbation of
Your Honor in Council, the expense
attendant upon it will be trifling
as the Garrison Flags in most of
the above named places are we —
believe in good repair, and will
only require occasional issues of

We submit to the decision of your Honor in Council, whether the Flag Staffs shall be kept up, and if so, whether the expenses are to be chargeable to the Marine or Military Department.—

9. We have the honor to submit and recommend the following Estimates— Viz.t

No. 1. to Pagodas 43.16.25. Under the instruc-
-tions conveyed in a letter from the
Chief Secretary to Government dated
the 1st of October, we have authori-
-zed the execution of the Repairs
noticed in this Estimate.—

No. 2. No. 2.—Estimate for erecting
Arm Racks in the place of Arms of
the 1st Battalion 17th Regiment at
Palamcottah amounting to Pagodas
53.20.25. This Work has already
been executed and Surveyed under
the Orders of the Officer Command-
-ing at the Station:—

8th paragraph of our Report under
date the 8th of August last and
to the authority which was conveyed
to us in reply thereto on the 23rd
of that mth, we have the honor
to

to State that the Officer Commanding in
the Ceded Districts was directed to
Suspended the erection of the place
of Arms, and that he in consequence
issued the Necessary instructions to
the Superintending Engineer — Some
short time after these orders were —
issued, the Officer Commanding re=
=ported to Us that during his ab=
=sence from Bellary, the Superin=
=tending Engineer had constructed
a considerable part of the Native
Hospital which was estimated for
with the place of Arms, as that —
Officer did not consider that the
Order which he had received to sus=
=pend the erection of the place of
Arms had any reference to the —
Hospital altho' both buildings were
included in the same Estimate —

Colonel

Fort St George 10th December 1811.—

Colonel Skinner also stated that he had prohibited the Engineer from proceeding with the work as he understood it to be intended by the instructions which has been transmitted to him, that the whole of the Works connected with the Place of Arms should not be built, and he therefore referred the Subject for our further Orders.— The interpretation put upon our instructions by the Officer Commanding was perfectly correct, but as the intention had been misunderstood by the Engineer, We referred for the opinion of the Quarter Master General of the Army, whether the Works which had been executed could be converted to any other purpose connected with the demand of the public Service for the accommodation of Troops. The Quarter Master General accordingly

Ordered that the Military
Board be furnished with the follow-
-ing

15768 Fort St. George 10th December 1811.

Following Reply.—

To the Vice President

and Members of the

Military Board

Gentlemen,

To the Military Board approving Suggestions regarding late embezzlement of public Stores at Cannanore also arrangements for Supply of Guns to Corps beyond the frontiers also draft of G.O. relative to repair of Arms &c. of H.M.'s Dragoons and Orders regarding third place of Arms at Goa for British troops & Estimates for granary &c. & for Commissariat at the Presidency requiring Statement of expence in repairing or erecting

Para. 1st, I am directed by the Honorable the Governor in Council to acknowledge the receipt of your Letters of the 14th and 21st Ultimo.—

2. The Governor in Council approves the Suggestions which you have Submitted on the Subject of the late Embezzlement of Public Stores at Cannanore.—

3d It was not intended to impute to the Ordnance Department any Unnecessary delay in re-equipping the 4th Regiment of Native Cavalry with its complement of Gallopers; but the Governor in.

Fort St. George 10th December 1811.

erecting flag Staffs since 1801 sanctioning estimate for Building for Staff Servants at Bellary &c. authorizing them of authority given for payment of bills &c. recommended in their letter 25th Ult.

in Council is not displeased that you have deemed it right to offer an explanation on that point; with respect however to the Conduct of the Officer Commanding the Canton=ment of Secunderabad in having Communicated to the Resident at Hydrabad the defective State of the Regiment in a most important article of equipment, the Governor in Council is of Opinion that he did his duty, considering the re=mote Station of the Commanding Officer of the Subsidiary Force to whom also he appears to have reported it, and on whom it would undoubtedly have been incumbent on the Spot to have made a simi=lar Communication.—

4. The Arrangements which you

15770

Fort St. George 10th December 1811

you have made for the future Supply of Guns to the Corps of Cavalry beyond the Frontier appear to be judicious and have been approved.

5. The Draft of the General Order which you have submitted relative to the repair of the Arms and Accoutrements of His Majesty's Regiments of Dragoons Serving under this Presidency has been approved and published.

6. The Governor in Council is pleased to confirm the directions which you have given for constructing a third Place of Arms for the British Troops at Goa at the computed Charge of Pagodas 439 7 2 - 67.

7. The representation which you have received from the Officer

Commanding

erecting flag Staffs since 1801 Sanctioning estimate for Building for Staff Serjeants at Bellary &c. awarding them of authority given for payment of bills &c. recommended in their letter 25th Ultc.

in Council is not displeased that you have deemed it right to offer an explanation on that point; with respect however to the Conduct of the Officer Commanding the Cantonment of Secunderabad in having Communicated to the Resident at Hydrabad the defective State of the Regiment in a most important article of equipment, the Governor in Council is of Opinion that he did his duty, considering the remote Station of the Commanding Officer of the Subsidiary Force to whom also he appears to have reported it, and on whom it would undoubtedly have been incumbent on the spot to have made a similar Communication.—

4. The Arrangements which you

15770

Fort St. George 10th December 1817

you have made for the future supply of Guns to the Corps of Cavalry beyond the Frontier appear to be judicious and have been approved.

5. The Draft of the General order which you have submitted relative to the repair of the Arms and Accoutrements of His Majesty's Regiments of Dragoons serving under this Presidency has been approved and published.

6. The Governor in Council is pleased to confirm the direction which you have given for constructing a third Place of Arms for the British Troops at Goa at the computed Charge of Pagodas 439/7 2"-67"

7. The representation which you have received from the Officer

Commanding

15771

Fort St George 10th December 1811.

Commanding His Majesty's 25th Regi-
-ment of Light Dragoons respecting
the expediency of constructing Solitary
prisons in the Lines of that Corps
will be referred for consideration to
His Excellency the Commander in
Chief.—

8. It being your deliberate
Opinion that no reasonable ground
exists for objecting to the site on
which it is proposed to erect a
Granary and other Buildings required
for the Commissariat Department
at the Presidency, The Governor
in Council has approved the Plans
and Estimates, which you have
submitted for those Works. The
smaller Estimates submitted in
your Reports of the 11th and 21st
ult. have also received His appro-
-bation

15772 Fort St George 10th December 1811.—

approbation.—

9. I am directed to desire—
that you will lay before the Gover=
-nor in Council a Statement of the
expense annually incurred in erect=
-ing or repairing Flag-Staffs at
the Presidency and at other Ports
and Stations from the Year 1801—
to the present period. The expedi
-ency of discontinuing or of alter=
-ing the Flag Staff at any Port
will be referred for particular—
consideration to the Marine Board
as the Security of Vessels at Sea
may be materially affected by
the adoption of that measure.—

Read the following Letter from the Secretary to the Marine Board.—

To the Chief Secretary to Government at Fort St. George

Sir,

From the Secretary to the Marine Board Statement of circumstances relative to the Claims of the Commander of the Hermes, and Recommendation in consequence.—

Para. 1st I am directed by the President and Members of the Marine Board to acknowledge the receipt of Mr. Secretary Peile's letter of the 12th Instant, on the Subject of a Claim preferred by the Maste of the Ship Hermes, for freight on Account of that Vessel, during her passage on the public Service from Trincomalee to this Presidency.

2nd The Board beg leave to State that the Master of the Hermes, has calculated the freight which

&c. &c. &c.

Honorable Sir.

From the Military Aud.r Gen.l — Reporting the case of Lieutenant Gilbert 7th Native Infantry—an instance of two Commissions issued to the same Officer—and on principle of payment of fees in that case.—

1. I have the honor to—
acknowledge the receipt of Mr.

Extracts from the Proceedings of
Your Honor in Council in the

3. The Resolution of Government upon this application directs that the Amount of the Fee unduely stopped from the Pay of that Officer on account of the correction

correction of the Commission originally issued to him should be repaid.—

4. Agreeably to these orders, Instructions have been transmitted to the Paymaster at Masulipatam by whom the Stoppage had been made to repay the same to Lieuten=ant Gilbert.—

5. In the same Resolutions of Government, I am desired to adopt some measure for preventing the occurrence of undue demands of that nature &c.a.—

6. I have accordingly to state after a due consideration of the subject, having adverted to the Reso=lution of Government dated the 4th of April 1797, which had passed upon an application submitted by Mr. Webbe then Chief Secretary to

date, to a considerable number of the
Officers upon the Madras Establish-
-ment and to whom Commissions (in
consequence of Arrangements from the
Honorable the Court of Directors,) were
subsequently granted Conferring retros-
-pective rank from the 1st of January
of the same Year - Upon this occasion
it was distinctly represented that
the care and attention required in-
preparing these Second Commissions
were equal to what had been bestow-
-ed on the Commissions previously
issued and consequently that the-

-lution of Government dated the 4th
of April 1797, which had passed
upon an application submitted by
Mr. Webbe then Chief Secretary
to

15782 Fort St George 10th December 1811.

to Government in an address to the Gover-
-nor in Council under date the 31st
of March preceding, relative to the
Fees on Commissions which had
been granted upon the 12th of July
1796, Conferring rank from that
date, to a considerable number of the
Officers upon the Madras Establish-
-ment and to whom Commissions in
consequence of Arrangements from the
Honorable the Court of Directors, were
Subsequently granted Conferring retros-
-pective rank from the 1st of January

it was distinctly represented that
the care and attention required in-
preparing these Second Commissions
were equal to what had been bestow-
-ed on the Commissions previously
issued and consequently that the-

Chief

15783

Fort St George 10th December 1811.—

Chief Secretary considered himself fairly entitled to the Fees upon them, and requested they might be adjusted by the Officers should they to whom were granted receive the Arrears of Pay and Allowances conformably to such retrospective rank, otherwise they should be payable by the Public— To which application Government was pleased fully to acquiesce and directed the amount of the same immediately to be discharged.—

7. Founded upon this Resolution of Government a Regulation has been framed, was submitted upon the 11th August 1810 with the 6th Section of the Book of Pay Regulations and obtained the approval of your Honors in Council— By which it is enacted, that an Officer who may obtain a

Commission

15784 Fort St George 10th Decembr 1811.—

Commission conferring rank from a—
certain date, if he should thereafter
from any fortuitously favorable cir=
-cumstance obtain retro=spective rank
for a period antecedent to that date,
exceeding 30 days in consequence of
which he would by the G.O. of the—
17th July 1804 in addition to the bene=
-fit of that rank be authorized to
draw the Arrears of Subsistence and
allowances for such period, he is
therefore to pay Fees on the Second
Commission as it requires the same
care and attention in preparing and
as it conveyed the retro=spective rank,
and by which the Officer becomes—
entitled to the arrears of Subsistence
and allowances.—

8. But it is by no means
intended by that Regulation that
an

15785 Fort St George 10th December 1811.

an Officer should pay for two Commiss-
-ons whom by some omission or Official
mistake he may not have obtained by
a first Commission the Rank to which
he is entitled, and who upon such
Omission or Mistake being rectified
obtained a Second Commission which
conveys to him his proper Rank. By
this distinction, I should conceive that
the Regulation is founded upon a fair
and just principle, as it regards the
Officers of the Army and the person
holding the Office of Chief Secretary
to the Government.

9. Here therefore it may be
observed that the beforementioned Letter
from the Assistant in the Depart-
-ment of the Adjutant General addres-
-ed to the Chief Secretary to Government
does not State the particular circums-
-tances

15786

Fort St George 10th December 1811.—

circumstances of Lieutenant Gilbert's—
Case; from which a discrimination—
as intended by the Regulation to—
which I have alluded, could be—
drawn.—

10. As immediately connect—
-ed with this Subject, I beg leave
to report upon the Orders conveyed
in Mr. Secretary Strachey's Letter
to me under date the 29th Ultimo,
directing that Instructions may—
immediately be given for Refunding
to Captain Lieutenant Cleaveland
of the Corp's of Artillery, the Stop-
-pages which had been made from
that Officer on account of one—
Commission as he had previously
paid Fees for another Commission
before received by him.—

11. From what, I have—
just.

-ons whom by some omission or Official

just now had the honor of stating to Your Honor in Council respecting the Regulation relative to Fees on the Commissions of Officers of the Army, which has obtained your Sanction, it will perhaps not be deemed improper in me to await your further Commands upon this point. And if what has been represented respecting the Manner in which the regulation is intended to take effect is considered to be just and Correct. In that event, and if it shall be the pleasure of Your Honor in Council to refer Captain Cleaveland's application for Report, I beg leave to suggest that the circumstances of the case should be fully detailed, as I observe the Copy of the letter from the Assistant Adjutant General of

the Circumstances Stated by Lieutenant Colonel McCally sufficient to in-duce me to alter the opinion contain-ed in my address of the 16th of Sep-tember last.—

2d It appears that Lieuten-ant Colonel McCally put a wrong Construction upon the G.O. of the 1st May 1810, and he states that in making over the temporary Charge of the Corps to Lieutenant Short he had the good of the Service in-view, and was not aware of the re-sponsibility attaching to him by that act, but how far these Cir-cumstances may be considered to operate in favor of Lieutenant Colonel McCally must remain with your Honor in Council to-decide.—

I Retrenchment

1580 D

Fort St George 10th December 1811.—

3d A retrenchment of a similar nature against Captains Hunt and Hall of the 1st Battalion 15th Regiment was transferred, under the same authority to the debit of Lieutenant Colonel Ogg the Commanding Officer of that Corps at Masulipatam, and in the probable expectation of receiving a reply thereto from that Officer, I deferred submitting Lieutenant Colonel McCally's appeal with the view of bringing them both to your Notice at the same time— Not having however received any reply from Lieutenant Colonel Ogg, I have considered it proper to submit Lieutenant Colonel McCally's appeal without further delay, and I beg leave to propose that the decision on the case of the latter may be considered as applying

I have the honor to acquaint you that on a reference made to Government by Lieutenant Short regarding Batta drawn by that Officer for exercising the Command of the 2.d Battalion 10th Regiment under your authority it has been directed that the Retrenchment shall be removed from Lieutenant Short and established against you on the principle that as you did not exercise the Command of the Corps you were

account

15815

account of Marching Batta to a Detachment of that Corps which was ordered by me to proceed under his Command in the Month of March in charge of the Elliah Rajah from Travancore to Calicut, at the requisition of the Resident in Travancore, I feel it a duty incumbent upon me, as the Officer who has had the honor of being placed in the Command of the forces in Travancore, to lay the same before You, Honorable Sir, in justice to myself as well as the troops committed to my Charge.—

Upon the instructions being given to Captain Ogilvie prior to his March, it was intimated to him by the desire of the Resident in Travancore, that it was desirable he should use as much expedition on his route as possible, without harrassing the [illegible] to

Detachment

15816

Fort St George 10th December 1811.—

Detachment, or putting the Rajah to unnecessary inconvenience, at the same time that his Detachment would be entitled to their Batta agreeably to the distance as laid down in regulations including the halting days.—

I take the liberty Honora-ble Sir, to State that Captain Ogilvie having complied in every respect with the instructions he received, and after delivering over his charge and compleating his March to the satisfaction of the Resident, as well as the Officer Commanding the Force, drew the Batta for his Detachment according to the distance and Conformably to what had been intimated to him.—

The amount of the Retrenchment that he has now been compelled to refund arises from the marching

15817

Fort St George 10th December 1811.

Marching report, noticing only the
number of days that the Detach-
=ment was actually on the road, pro-
=ceeding solely from his exertion in
accelerating the March, and comply-
=ing with his instructions, and no
allowance being made for the Num-
=ber of days that would be required
at the usual rate of March.—

Having now, Honorable Sir,
thus far explained the circumstance
attending the case of Captain Ogilvie,
I take the liberty of recommending
the same to Your favorable attention, that
you may be pleased to authorize the
allowance retrenched to be refunded.—

I also beg leave with all
due deference, Honorable Sir, to point out
the advantage and benefit arising from
the full allowances being granted to
Troops

15818

Fort, St. George 10th December 1811.

Troops making a forced March agreably to the actual regulated distance, and not the mere number of days that may be employed in it.—

As it has, and may again frequently occur in this force that troops may be, on occasions of emergency, ordered to make forced Movements from one Station to another; it would be desirable for my future guidance, to have it determined whether upon such occasions they are entitled to their batta according to the distance or not.—

I trust Honble Sir, that you will perceive that I am herein actuated but by one motive the good of the service and the interests of those places under my Command.—

To

Fort St George 10th December 1811.

To the Honorable
Sir Geo. Hilaro Barlow Bart. G.C.B.
Governor in Council &c. &c. &c.

Honorable Sir,

From the Military Audr Genl Reporting an application from Paymaster at Quilon for an Office establishment at Trevanderam.—

1. With Mr. Secretary Strachey's letter of the 29th Ultimo there was forwarded for my Consideration and report, Copy of a letter addressed to the Accountant General by the Paymaster at Quilon, representing the necessity for continuing a permanent Establishment of Servants in the Pay Department at Trevanderam, and having given due attention to the circumstances Stated by the Paymaster, I have the honor to report as follows.—

2. The Establishment which I had the honor to propose for Trevanderam, Amounting to Pagodas 25 per Month, and which was sanctioned by

15822

Fort, St. George 10th December 1811.—

by your Honor in Council on the 19th
February last, was directed to be kept
up so long as the Troops then at that
Post, viz.t — two Battalions of Native
Infantry, should remain there, and
as it appeared that the Troops were
withdrawn from Trevanderam about
the end of April last with the ex=
=ception of five Companies of N.I.—
I considered it expedient to direct
the Office Establishment at Trevan=
=deram to be reduced to a Conicopoly
at Pagodas 5 and a Shroff at —
Ps. 3 being Pagodas 8 per Month from
the 1st May last.—

3. It now appears from
the Paymasters Statement that
Six Companies of N.I. and a detail
of Artillery will be constantly
Stationed at, Trevanderam, in conse=
=quence

15823 Fort St George 10th December 1811

consequence of which, I am of Opinion it will be proper to have a Pay office at that Station and, I accordingly beg leave to propose the following.—

1 Writer	8	— —
1 Shroff	2	— —
Office rent if not provided with a public Building	5	— —
Pagodas	15	— —

to commence from the 1st May last and to be continued so long as the Troops abovementioned may remain there, but in the event of the Troops being hereafter withdrawn from Trivanderam with the exception of one or two Companies (which is not improbable) it will be unnecessary to keep a Pay office there, and an allowance of Pag. 8 per Month for a Conicopoly and Shroff will

will be sufficient.—

6th December 1811.— M. A. Genl.—

Ordered that the Military Auditor General be furnished with the following Reply.—

To the Military Auditor General

Sir.

To the Military Aud. Genl. on the subject of regulating fees on Commissions Military the case of Lieut. Gilbert and Capt. Cleaveland will be decided on receipt of reference to the Commander in Chief approving measures affording aid to Sick Lascars & Dooley bearers landed at Cannanore to be debited to head of expedition against Java—Informing him he is correct

Para: 1st I am directed by the Honble the Governor in Council to acknowledge the receipt of your Letters of the 4th 5th and 6th Instant.—

2. The Governor in Council has recognized the principle, Stated in your Letter of the 4th Instant, for regulating the payment of Fees on Military Commissions, and a Copy of that report will be furnished for the information of His Excellency the Commander in Chief.—

His Excellency will also be requested to ascertain

15825

Fort St. George 10th December 1811.—

Correct in his interpretation of the intention of Govt. regarding pension to Mr. Subassist. Surgeon Martin—that previous decision on question of Lieut. Short holding a Command under order of Lieut. Col. M. McCally is unchargeable—requiring his opinion on payments of fame—by Certificate that Batta drawn for detachment of 17th Regim. N. I. under orders of Capt. Ogilvie from Travancore to Calicut may be admitted—that Copy of his letter regarding establishment of Servt. to be entertained by Paymr. in Travancore at Trevanderam will be forwarded for that officer's information.—

ascertain the reasons which rendered Necessary the issue of two Commissions to Lieutenant Gilbert and to Captain Lieutenant Cleaveland, and the result of the reference must determine the right of those Officers to recover a Moiety of the Sums, which they have paid.—

3. The Governor in Council approves the Manner in which you have submitted for His sanction the arrangement adopted by the Commander in Chief for affording extraordinary aid to the sick Lascars and Dooly Bearers recently landed at Cannanore from Foreign Service, I am directed to desire that you will admit the Charges which may be incurred in Conformity with the General Order—issued by His Excellency on the occasion, and that you will debit the Amount to the Head of "Expedition against Java"

if

15826 Fort St. George 10th December 1811.—

if that mode of bringing it to account shall in your opinion be the most Correct.

4. In retrenching the Sums drawn by Sub Assistant Surgeon Martin under the heads of Batta and House Rent you have rightly interpreted the intention of the Governor in Council which was to pension him on his former subsistence only, and you will accordingly continue to regulate his Monthly Abstracts at that rate. The Governor in Council however having considered the Circumstances set forth in the modest appeal from Mr. Martin and the distress to which he would be exposed if the retrenchment against him should be rigidly enforced, I am directed to desire that he may not be required to refund the Amount which he may have drawn previously to

Your authority that his Abstracts
were erroneous.—

5. Having attentively consider-
=ed the appeal from the Commanding
Officer of the 2d Battalion of the 18th
Regiment of Native Infantry at Agoda
respecting the difference of Batta drawn
by Lieutenant Short of that Corps, The
Governor in Council is confirmed in his
opinion of the justice and propriety of
the decision already passed on that
subject. The only ground on which
Lieutenant Short could be entitled to the
allowance would be the fact of his
having exercised the Command of the
Battalion under due authority but
neither was Lieutenant Colonel McCally
justified in transferring to him that
Command; nor from his own Statement
does—

does he appear to have transfered it.—

6. You will consider this—
decision to be applicable to the other—
cases which you have Stated, as far as
their circumstances may be similar, and
it will be your duty to report any—
point of material difference.—

7. The objects of the Expeditions
against the French and Dutch Settle-
-ments having been accomplished it is
deemed advisable that some measures
should be adopted for Securing the Honble
Company from loss by payments issued
on family Certificates, and I am direct-
-ed to desire that you will take an
early opportunity of submitting your
Sentiments on this point, In the—
mean time the Governor in Council
is not aware of any objection to the
mode which you have proposed for

bringing those payments to account.—

8. The Governor in Council is of Opinion that the Batta drawn for the Detachment of the 17th Regiment of Native Infantry which proceeded under the Command of Captain Ogilvie from Travancore to Calicut may be admitted to the Credit of that Officer in consideration of the particular circumstances of the case, and of the Special intimation given to him from the Resident that the charge would be allowed according to the distance of the March without reference to the period of its duration.—

in Council considers it inexpedient

be regulated in the first instance in
strict conformity to the rates allowed.
—Every Claim to exception should be
invariably submitted for his Sanction

Resolution thereon

Resolved that the Paymaster at Vellore be permitted to visit the Presidency in compliance with his request.—

Read the following Letters from the Seringapatam Prize Committee.—

To the Honorable
Sir Geo. Hilaro Barlow Bart. & K.B.
Governor in Council &c. &c. &c.

Honorable Sir;

From the Seringapatam Prize Committee Reporting on Claims of Lieut. General Harris for a further Sum of Money on account of his Share of the Prize property forwarding Copy of letter from Mr. Harris relating thereto requesting instructions and requesting that direction be sent to Account. Genl. to forward Statement of Sums recovered

We beg leave to acknowledge the receipt of a letter from the Secretary to Government in the Military Department dated the 17th of September last, forwarding Extract of a General Letter from the Honorable the Court of Directors relative to a Claim preferred by Lieutenant General Harris for a further Sum of Money on account of his proportion of the property Captured at

recovered by different Pay-masters from Officers who are indebted to the Prize Fund.—

at Seringapatam with the Resolution of your Honor in Council, on the said Extract for our information and guidance.

As the Letter which Lieutenant General Harris addressed to the Honorable the Court of Directors (a Copy of which was annexed to the Extract of the General Letter) did not sufficiently explain the Grounds upon which he claimed the additional Sum of Pag.s 33,320.—4.—36, we directed our Secretary to call upon Mr. Thomas Harris who is the Attorney of the Lieutenant General in India to afford us such information and documents as he might be in possession of relative to the Claim and we beg leave to forward with this a Copy of the Communication which we have received from Mr. Harris on the Subject.—

We

Pagodas 3,67,947,..32,..68, it appears by

the Statement B. forwarded by Mr.—

Harris, as well as by a Letter from Mr.

Dalrymple a Copy of which accompanies

this, that Lieutenant General Harris—

formerly received Cash and Jewels to

the Amount of Pagodas 3,34,275, so that

by the foregoing Statement there is a

balance of Pagodas 33,672..32..68, still

due to the General.—

It is however our duty to

State to Your Honor in Council that

there is a considerable Sum of the Prize

Money still retained by the Prize

Agents

We presume that until the

above Sum of Pagodas 28,054 " 31 " 40 "

is recovered from the Prize Agents that

the one eighth part thereof must be

withheld from General Harris - If so

the balance due will Amount to

In consequence of the deter-

-mination of Your Honor in Council,

that Monthly Stoppages, should be

made on Account of the outstanding

Balances

15840

Fort St. George 10th December 1811.—

Balances, We had the honor to forward with our Report of the 2d of February last a List of the Officers by whom the Debts were due, with the account particular of each, we were informed in a letter dated the 19th of the same month, from the Secretary to Government in the Military Department that the Accountant General had been directed to issue the necessary instructions to the Subordinate Paymasters for Recovering these balances, and to furnish us Quarterly with a Statement of the Sums Recovered, no such Statement has however been received by us, and we therefore take the liberty to Suggest that a further Communication may be made to the Accountant General on the Subject.

The unrecovered balances by our last account, amounted to

Pagodas

15841

Fort St George 10th December 1811.—

Pagodas 10,867..36..30 and We beg to pro-
-pose that General Harris's proportion
of that Sum may likewise, for the present,
be withheld. This would further reduce
the Amount of the General's Share to Pagodas
28,807..18..60 as exhibited in the Statement
A which we now forward.—

We take this opportunity of

Enclosure B. Submitting to Your Honor in Council a
Statement, which shews the balance of
Prize Money remaining in the hands of
Government amounting to Pag. 36,28..22..75/4
Independent of this balances are the Sums
retained by the Prize Agents regarding
which We had the honor to State our
Sentiments in our Report under date the
1st of December 1810 we were informed in
a Letter dated the 4th January 1811 from
the Secretary to Government in the Mili-
-tary Department, that a further reference

on

on that Subject would be made to the Ad-
-vocate General but we have not been made
acquainted with the result of the reference.

To Captain Thomas Mc Leane
Secretary to the Seringapatam Prize Committee
Madras—

Sir.

I have had the honor to receive
your Letter of the 28th Ultimo Stating—
that, "a reference has been made to the
"Seringapatam Prize Committee, on the
"Subject of a Claim preferred by Lieuten-
"-ant General Harris for the Sum of
"Star Pagodas 33,320 " 4 " 36 " which the
General

15843

Fort St George 10th December 1811.

"General States to be still due to him, on
"account of his Share of Seringapatam
"Prize Money" also that "the Committee
"understanding that there are in my
"possession as the Attorney of General
"Harris, documents which relate to this
"Claim, You are directed to request, I
"may furnish such Vouchers as I may
"deem Necessary for the information of
"the Prize Committee".—

I shall accordingly now do myself the honor of replying to your Letter, and of laying before you for the information of the Committee the grounds on which General Harris is, I should conceive without the shadow of a doubt, fully entitled to the additio-nal participation now Claimed in his behalf.—

In the first place it is admitted that

1844

Fort St George 10th December 1811.—

that the General was entitled to one full Eighth of the Nett Captured Property —which it will be found amounted to Star Pagodas ..... 29,40,760 " 35. 50.

1/8th of which, would have been ..... S. Pags. 3,67,595 " 4.36.

But on the other hand it will be found, that the 1/8th or Actual Share he drew, was only on a Nett Capital of ... Do ... 26,74,200. " or " 33427 " "

Thus leaving a Surplus Capital on which he ought — further to have Shared of S. Pags ... 2,66,560 " 35. 50 " or " 33320 4.36

In proof of the Correctness of this State- -ment, I shall now proceed to detail the data on which it is founded. —

In further Corroboration of the Validity of the Claim, I now do myself the honor to hand you attested Copies of two Letters — one from Messrs. Francis Sautour & Co. late Attornies of General Harris to the — address of Kirby Dalrymple Esqr. one of the Agents for the Captured Pro= =perty at Seringapatam on the subject of the Claim in question — the other Mr. Dalrymple's Answer in reply — thereto. —

The latter Document you will perceive at once Commences with an Admission of the existence of the Claim — Mr. Dalrymple Says — "I "shall endeavour as well as my — "recollection will guide me to shew "the reasons why General Harris has "not been paid a [illegible] Sum to render —

"Dividend of Prize Money upon a
"Supposition that, the Funds would not
"exceed, Twenty Six Lacks of Pagodas,
"and they directed the Prize Agents to
"pay to General Harris 3,25,000 Pagodas
"(or thereabouts.) It was Shortly after-
"wards discovered that the Fund would
"exceed Twenty Six Lacks, and a —
"further payment of Pagodas 9000 was
"directed to be made to the General to
"make his Share equal to one Eight
"of the Sum then actually distributed,
"or what it was supposed the distribu-
"tion would Ultimately amount to."—

From this Extract alone,

General

15849

Fort St George 10th December 1811.

General Harris might find his Claim to the extended participation which I have now the honor to do in his behalf.— Mr. Dalrymple admits that "He has not been paid a Sufficient "Sum to render his Share equal to 1/8th of "the <u>whole Money</u> distributed," from the "Supposition" that the Funds would not amount to what they subsequently did,— On finding that they did exceed the first <u>estimated</u> amount of 26 Lacks of Pagodas a further payment was made to the General, equal to the then extended Share— this I have already detailed in the figured Statement, and it follows, as a Matter of Course— that in one instance an extended payment being made to render the Generals Share equal to a full eighth of the Sum then distributed, any subsequent

15850

Fort St George 10th December 1811.—

Subsequent encrease of Capital, must to him form an encrease of Share.—

In concluding this appeal to a Committee of Officers, (under the orders of Government), I feel it unnecessary to make any digression,—I have gone upon the plain recorded Statement of the Prize Agents' Books. These are for forthcoming if required. But, I should conceive, the Documents now in your possession, are of themselves ample enough to enable the Committee to form their Opinion of the Justness of the Claim, I have had the honor to Submit to them.—

I have the honor to be,

We take this opportunity of requesting that the indemnity Bond granted jointly by General Harris and our late Prior Mr Lautour to the Agents for Pagodas 50000 may be returned to us as we presume there cannot now be any responsibility respecting the sum already paid to the General as his share attaching to the Agents.—

To Messrs. Francis Lautour and Co.

Gentlemen,

I have received your Letter of the 10th Instant, and I shall endeavour as well as my recollection will guide me to shew the reason why General Harris has not been paid a Sufficient Sum to render his Share equal to one Eighth of the whole Money distributed at Seringapatam.—

The Prize Committee of which General Floyd was President calculated the first dividend of Prize Money upon a Supposition that the Funds would not exceed Twenty Six Lacks of Pagodas and they directed the Prize Agents to pay to General Harris 325,000 Pagodas (or thereabouts) it was shortly after discovered that the Funds would exceed Twenty Six Lacks and a further

Payment

15966

Fort St George 10th December 1811.—

Payment of Pagodas 9000 was directed to be made to the General to make his Share equal to one Eighth of the Sum then actually distributed or what it was supposed the distribution would ultimately amount to, during this period the Prize Sales were going on, Money was coming in daily and Payments continued to be made under the Orders of the Prize Committee, until Lord Wellesley issued an Order prohibiting any further Payments till the disputes about the Property which then ran very high should be adjusted all Payments of course stopped from that moment and that is the reason why the General in Common with many other Officers have not yet

Fort St George 10th December 1811.—

yet received their full due I think it proper to mention to you that the Prize Agents have always acted either under the Orders of Government or of a Committee appointed by authority and altho' they are desirous of giving every information which may be required of them they do not consider themselves responsible to individuals who may think themselves agrieved.—

The Government are now in possession of all the Seringapatam Prize Fund and I must therefore refer you to them on the subject of General Harris's Claim.—

I am sorry to learn from your Letter that the indemnity Bond has not been returned it is long since I gave my Consent to its being re-

-turned

returned and I know not why it has been delayed I shall write immediately to Colonel Fraser on the Subject.—

Chief Secretary to Government by
Major Thompson of the Madras
European Regiment in which that
Officer lays Claim to a higher
Share of Seringapatam Prize
Money, than that which he origi-
nally received.

We have taken the
several circumstances stated by
Major Thompson into Consideration
and We beg leave to submit our
Sentiments on his case, for the informa-
tion of Your Honor in Council.

Major

15880

Fort St. George 10th December 1811.—

Major Thompson States that at the Commencement of the Campaign in 1799, he, (then a Lieutenant) was directed by the Commander in Chief to join the Subsidiary Force of His Highness the Nizam for the purpose, we conclude of being placed on the Command which he afterwards held on his joining the Nizam's Force, he was appointed to the Command of a Battalion, with the Rank and Pay of Captain in the Nizam's Service,— in which Rank, he was acknowledged in all Official Communications made to him, during the period of the Campaign.—

Major Thompson has Cited the Cases of several Officers, who Served in the Brigade to which he belonged, who Received, in consequence of

15881

Fort St George 10th December 1811.—

of their Official Situations, Prize Money in the Rank superior to that which they held Regimentally.—

From the foregoing Circumstances it appears that Major Thompson actually held the Rank of Captain in the Nizam's Service at the Seige of Seringapatam, and on the principles which have heretofore guided our Opinions, We beg leave to State that we consider that Officer's Claim to the Share of Captain entitled to the favorable Consideration of your Honor in Council.—

Major

15882 Fort St. George 10th December 1811.

Read the following Letter from the Acting Surveyor General.

To the Chief Secretary of Government

Sir,

From the Actg. Surveyor Genl. submitting the Quarterly Report of the Expenses of the several Establishments connected with the Surveying Department with exception of the amount drawn for the asst. Surveyors attached to the Revenue Department also, The First Half Yearly Return of Maps and Materials in the General Depôt of the Surveyor Genl. and a Return of the Instruments belonging to the Department of the Surveyor General including those in the Honble Company's observatory.

1. I have the honor to forward for the purpose of being submitted to the Honorable the Governor in Council, the usual Quarterly Report of the expenses of the several Establishments connected with the Surveying Department, as the same stood on the 31st of October, the close of the last official Quarter. The amount drawn for the asistant Surveyors attached to the Tank Department and to the Collector of Madras, have been discontinued in the report, agreeably to the Orders Communicated to me in the letter of the Secretary in the Military

15883

Fort St. George 10th December 1811.—

Military Department dated the 4th
September last. The allowance of Lieuten-
-ant Douglas lately employed on a
Survey in the Viragapatam District
has also been discontinued; and the altera-
-tions which have been made in the
establishment of the Goa Survey, and
in the allowances of the two Officers
attached to Lieutenant Garling, as
authorized in a letter from the Secreta-
-ry in the Military Department dated
the 13th September, have been introduc-
-ed into the present report. The
current Monthly expense of the late
Surveying School has now been reduced
to the lowest practicable Scale, as
will appear by the report, and for the
particular manner in which the
apprentices have been disposed of, I beg
leave to refer to my letter to the Board
of

15884 Fort St. George 10th December 1811.—

of Revenue, of which a Copy appears to have been sent to Government with the letter of their Secretary under date the 11th Instant. The Sub-Assistant Fletcher, having at length returned from Tinnevelly from whence he has been recalled for misconduct, he has accordingly been placed on the reduced allowance of 10 Pagodas / from 16 Pagodas / from the 1st of the present month. The Government have already approved of this arrangement in a letter from Mr. Secretary Peile dated the 30th April last; and I would have recommended the reduction to have effect from an earlier period;— but from the testimony of Mr. Hepburne, it appears that Fletcher has been detain-ed in Tinnevelly, by the fever which he contracted on the Survey of that province.

2. The above observations point out

15885

Fort St. George 10th December 1811.—

out the charges which may be considered to have occurred in the Surveying Department, since the period of my last report. The current monthly expense at that period was stated to be equal to the Sum of Pagodas 1,025.—10.—65.— per Mensem, it has now been reduced to Pagodas 3,768.—33.—25. per Mensem or Pagodas 45,224.—39.—60. Annually, and if to the latter Sum be added, as formerly, the expense incurred on account of the Military Institution when the Students are sent out to Survey, the current Annual expense will still amount to Pagodas 50,116.—17.—5.—

3. Anxious to comply as far as practicable with the desire of the Honorable the Governor in Council as expressed in the 6th para. of the letter of the Secretary of Government dated

15886 Fort St. George 10th December 1811.

dated the 4th September, I have correspond-
-ed with Lieutenant Garling in order
that I might be enabled to fix a date,
on which the expenses of the Goa Sur-
-vey should cease; but in consideration
of the many Contingencies by which the
progress of that Work is liable to be impede-
-d, it does not appear that the period
of its conclusion can be precisely deter-
-mined. The Superintendent Lieutenant
Garling enjoys good health at present,
and from all I can learn, the Survey is
not likely to be impeded by any illness
to which he is Subject. The Assistant
Lieutenant Dunn, is however Subject
to frequent attacks of an intermittent
fever contracted on the Survey, and the
quantity of work that may be perform-
-ed by him cannot therefore be fixed
with any degree of certainty. The other

Assistant

15887

Fort St George 10th December 1811.—

Assistant Lieutenant Lethbridge is at present in good health; but is employed in the interior where he is exposed to considerable risk of Contracting the fever, and the two Sub Assistants of the late Revenue Establishment tho' less liable to suffer from attacks of illness of that nature, than the European Officers attach-ed to the Survey, they will not be unlike-ly to Contract the same fever when em-ployed amongst the hills of the interior. The General extent of the Goa territory, although known pretty correctly, cannot be exactly ascertained but by actual Survey, and altho' its limits were known with the utmost precision, the pro-gress of the Work would still in a great degree depend on the nature of the Country. If the Country be close and hilly, more time would be required to

15883 Fort St George 10th December 1811.—

to survey it, than if a considerable
part of it were open, and of easy
access. It will accordingly appear
from all these observations, that no
precise period can be fixed for the
close of the Goa Survey; and rather
than run the risk of causing any
disappointment, with regard to that
object, I beg leave to confine to con-
fine myself to the general expressions
stated in my letter to the Secretary
in the Military Department dated
the 10th May and my report of the
23rd of August last, Viz. that it
would be finished in the course of
the ensuing fair season. That season
may be considered to extend from the
1st of October until the 1st of May. I
am of Opinion that the Survey will
certainly be finished before the arrival
of

15889 Fort St. George 10th December 1844.—

of the last mentioned period in the ensuing Year, and I shall direct every exertion to be used to complete the Work, as much within that period as may be practicable.

4. When I had the honor of proposing to Government in my letter of the 10th September that 10 Lascars should be attached to the Superintendent of the Goa Survey, I intended that these should be employed merely in carrying on the details of the Survey, conceiving at that period that the primary Stations had already been sufficiently extended. It has appeared however, by a late report from Lieutenant Garling, that it will be necessary to establish a greater number at these Stations, and for that purpose an additional number of Lascars will be required by that Officer. It will not however I trust be necessary to hire Lascars to

15890 Fort St. George 10th December 1811.—

that temporary occasion, as the small number required might, I should hope be furnished from the Store or tent— Lascars at Goa, as they would only be required for a very limitted period. I would therefore suggest that Lieutenant Garling may be authorised to receive on application to the Officer Command- ing the Auxiliary Force, eight public Lascars, whenever it may be necessa- ry for him to proceed with the exten- tion of the primary Stations. But in the event of the public Department at Goa being unable to comply with that demand, I request authority for giving the necessary instructions for hiring an additional Number of Lascars not exceeding eight, about the 1st of January next, or whenever the exten- sion of the triangles may be commenced.

I shall

1589/

Fort St. George 10th December 1811.—

I shall of course in that case take care that the whole or a part of them shall be discharged the moment their Services can be dispensed with. With the View of expediting the completion of the Survey the two Sub Assistants, whose proficiency is now considerable, have been directed to take up a part of the work detached from the Superintendent. This measure will contribute materially to the early completion of this Survey, and the only additional expense which will be occasioned by it, will be the pay and Batta of Six hired Lascars, which I recommend may be authorized.

The Establishment of the Goa Survey when it commenced, was a Tindal and 69 Lascars. The fixed establishment for the Superintendent and the two Assistants will now amount to 161

15892 Fort St. George 10th December 1811.—

only; and a few more will be required to
be hired for a temporary period in extend-
-ing the triangles, provided they cannot
be supplied by the public Departments.
The Assistants, Surveyors Lieutenants—
Lethbridge and Dunn, will defray the
expense of the Lascars attached to
them, from the Salary which they have
been permitted to draw from the 1st of
October 1811, so that, it appears that
the establishment has been decreased
very considerably whilst the progress
of the Work will not have suffered—
any material impediment.—

I have the honor to Sub-
-mit for the consideration of the Honora-
-ble the Governor in Council, that the
Sub Assistant Surveyor William Howell
attached to the Survey of the Ceded Dis-
-tricts, having been sent on detached
duty

15893 Fort St. George 10th December 1811.—

duty by himself, it has become necessa-
ry that he should receive the tent-
allowance to which he is entitled by
the existing regulations, Viz.t 7 Pagodas
per Mensem, and I accordingly take
this opportunity of recommending that
it may be sanctioned from the 31st
Ultimo.—

I have the honor to submit
the first half Yearly returns of the Maps
and Materials of the General Depôt
under charge of the Surveyor General,
as required by the Orders of Government
under date the 9th of October 1810. These
have been classed and arranged under the
heads to which they appear most pro-
perly to belong, but as it has not yet
been determined whether the whole shall
be continued at the Depôt, and as it
will be necessary that they should
still

15894 Fort St George 10th December 1811.—

Still undergo further Arrangement, I have not yet assigned to them a general No. in the returns. In order however to prevent confusion or mistakes in distinguishing these valuable materials at any future period, I have preserved the Number given them in the report of the Committee, which was submitted to Government in a letter from the Surveyor General dated the 23d of April last. I have also distinguished the materials received from Captain De Havilland, late of the Engineers, as it does not appear that his demands for the payment of them have as yet been adjusted, and as it is not improbable under these circumstances, that it may be necessary to restore them to him or to his attornies.—

A few printed Maps and

Books

Fort St George 10th December 1811.—

Books of Hircarrah routes, not required in the Surveyor Generals Office, have been returned to the Quarter Master General of the Army, together with the routes proposed in my letter of the 11th May to the Secretary of Government in the Military Department, to be returned to the same Officer, after having been copied. A List of these is accordingly annexed to the return of Maps, for the information of the Honorable the Governor in Council.—

The rough materials of the Travancore Survey have not yet been Surveyed nor brought on the General returns; and having addressed Lieutenant Arthur the late Superintendent of that Survey, requesting him to forward the general result obtained from these materials, it will, I conceive be advisable

on

to

to defer any Survey of them, until such time as this request shall have been complied with, or the cause explained why the general preparation has not been forwarded. I shall have the honor of addressing you again at an early period on the subject of the materials of the Travancore Survey, and I shall at the same time submit a list of such other materials which in my Opinion it will be advisable to have Surveyed, previously to their being brought on the returns of the Depôt or otherwise disposed of.—

I have also the honor to enclose a Return of the instruments belonging to the Department of the Surveyor General including those that are in the Honorable Company's Observatory.

Surveyor General's Office
Madras 1st November 1811

(Signed) W. Morison
Actg Surv. Genl.
Ordered

Fort St. George 10th December 1811.

16099 Fort St George 10th December 1811.

Ordered that the following Reply be dispatched.—

To the Acting Surveyor General

Sir,

To the acting Surveyor Genl Regarding forms to be observed and manner in which the Survey expenditure is to be Conducted

Para 1st I am directed by the Honorable the Governor in Council to acknowledge the receipt of your Report dated the 21st Ultimo.—

2. Having attentively considered the Quarterly Return, which you have submitted, of the expenses of the Surveying Department the Governor in Council is of Opinion that the principle on which that Statement is at present framed requires some Amendment, for the rule by which the expenditure has been distinguished under the Heads of General and Military Disbursements does not appear in all cases to admit of a reasonable explanation.—

The

16100

Fort St George 10th December 1811.—

3d. The right principle to be observed in distinguishing the disbursements appears to the Governor in Council to be, This, that the charges shall be classed according to the nature of the Work for which they are incurred, not with reference to the profession of the person employed in the execution of it. But in the Return under consideration this principle has not been uniformly observed. While the Salary of the Surveyor General and the establishment of his office are properly included under the Head of General Disbursements; the Salary and allowance of his Assistant are Stated as Military expenses: ~~xxx~~ the Principal and the Deputy are both Military Men and their duties must be exactly similar, the distinction therefore which is

10 101

Fort St George 10th December 1811.

is made in bringing their allowances to account is evidently inconsistent and erroneous. Again, the expenses, which attend the Statistic and Geographical Survey in the Ceded Districts under the Superintendence of Lieutenant Colonel Mackenzie are rightly stated as General Disbursements, while those of the Trigonometrical Survey under the Superintendence of Major Lambton are considered to be partly civil and partly Military; but it is unnecessary to notice the impropriety of this Subdivision, when the griater distinction is incorrect. The Survey in question being a work of Science and of general utility is more than a National concern, and must therefore be independent of all Military considerations. In the judgement of the Govt. in

in Council the only charges of a Milit-
-tary Nature, included in the Return,
are those incurred in the Quarter
Master Generals' Department, for
the Military Institution, and in the
Survey of the territory dependent on
the Settlement of Goa.—

4. The Military Auditor
General at Fort St. George has at all
times shewn a becoming anxiety not
only to diminish the actual expenses
of that branch of the Public Service,
but that it shall not be charged—
with any which do not properly belong
to it. It has been deemed expedient
as well as just that the feeling
should be encouraged, and the Governo
in Council has had it in His view
while considering the disbursements
included in the Return before Him.

Under

16193 Fort St George 10th December 1811.—

Under these impressions He directs me to desire that you will on framing the future Reports, conform to the arrange=ment above Stated.—

5. I am at the same time directed to acquaint you that the Governor in Council entirely approves the present form of the Quarterly Re=turns, and to desire that you will continue to submit similar Statements, for the purpose of bringing before Him at one View the whole expense of the several establishments under the control of the Surveyor General, or of such as are connected with his Office. It is desirable however that your future communications with the Government should be divided accord=ing to the Nature of their Subjects, in the Civil and Military Departments,

as

Fort St George 10th December 1811.—

as by observing that mode of correspond-
-ence the necessary references to the
two Offices of Audit will be made
with greater convenience, and some
confusion be avoided in placing your
Reports on the Public Records.—

6. The Governor in Council
continues to be desirous that the Survey
of the territory dependent on Goa may
be completed with the least possible
delay, but He would consider it a Sub-
-ject for regret, if its completion should
be pressed at an unnecessary risk to
the health of the Surveyors. You will
therefore be careful that they shall
not be detained in the interior of
the Country beyond the close of the
favorable Season. Your Suggestion
for a temporary increase to the Number
of Lascars employed on that Survey,
appears

7. The Governor in Council is pleased to permit Sub Assistant Surveyor William Howell to draw the established Tent allowance of Seven Pagodas per Month from the 31st of October last.

Fort St. George 10th December 1811.

Wend Captn of Infantry in the Dutch Service Taken Prisoner at Banda wants permission to embark for England; from thence to proceed to his Native Country.

To the Right Honble Sir George Barlow Bart. Governor in Council &c &c &c

The Petition of Captain Bradenburgh Captain of Infantry in the Dutch Service and as such fallen into the power of His Britannic Majesty at Banda upon the 9th August 1810 humbly represents

That your Petitioner has for these ten Years indulged the expectation of returning to his native Country, after an absence from his parents of 22 Years and of passing the rest of his Life happy with his family but that this intention had been prevented by the renewal of the War in 1803.

That before the Surrender of Banda your Petitioner had fallen into bad health and became gradually so ill that he had requested and obtained leave to remain at Banda for the recovery of his health and eventually to proceed to Europe.

That

of January, and not before, owing, as he informed me, to the strict Search, he had directed to be made amongst those of His Majesty's 84th Regiment, who had Barrack furniture in Charge, and from that period, he regularly accounted to me for what he found.—

In respect to the Stores, said to have been left in the Quarter Master Sergeants Quarters, I can only say, that of all the Persons in a Regiment, the Quarter Master Sergeant ought to have been the last, to have Omitted delivering the Stores in his Charge to some one, either to my Sergeant or to the Officer in Command of the Detachment left behind, neither of which appears to have been done. Had they

they been left in his Quarters, they must have been found, as I gave strict injunction to my Serjeant to Collect every thing from the small Buildings and place them with the other Stores, in the Center of the Barracks, which was done even to bringing many of them from the Hospital, which is at some distance, and where they had no business to be, from the Surgeon having an allowance to supply the Sick with every thing, but admitting the Stores were, as Stated by the Quarter Master, it appears very Strange he did not observe their not being included in the receipt I gave him.

Letter with its enclosures from the Deputy Quarter Master General of the Army, on the Subject of the allowances which it may be in Contemplation to grant to Lieutenant Walpole acting Assistant to the Instructor of the Military Institution, during the absence of the permanent Assistant Lieutenant Garling employed under the orders of the Surveyor General at Goa —

The near approach of Lieutenant Walpole's departure in Survey, has induced Major General Bater to submit the enclosures at once to the Consideration of Government, in room of referring them in the first instance to His Excellency the Commander in Chief the Major General does not however consider that the expression of his opinion in the Claim preferred, can now with propriety accompany the present enclosures, or any others of a similar nature. —

I have the honor to transmit to

Major General Pater, and should they meet
with his approbation, of being forwarded to the

-stitution on the Subject of the respective allowances
of Lieutenants Garling & Walpole the former
now employed under the orders of the Surveyor
General, but permanent Assistants to the In-
-structor, the latter acting in that capacity
by

by order of Government—

It will be in the recollection of the Major General that, during the necessary absence of Lieutenant Garling on the Gou Survey a letter was addressed by his order through the Quarter Master General to the Secretary to Government, under date the 13th May last, recommending Lieutenant Walpole to the duties of acting Asst to the Military Institution in consequence of, which recommendation Lieutenant Walpole was appointed to that situation on the 24th of the same Month The respective allowances of Lieutenants Garling and Walpole, and— whether or not either or both would be affected by Lieutenant Walpole's appointment to act, were points not adverted to either in the— recommendation of Major General Pater through the Quarter Master General or in the determination of the Government—

The

Fort St George 13th December 1811

The regulations of the Service however seem fully to entitle Lieutenant Walpole to the allowances of Assistant, although that Office has not hitherto from delicacy towards Lieutenant Garling drawn such allowances. — Lieutenant Garling seems also entitled to the same allowances, since it appears from Lieutenant Troyer's letter, that his Assistants, when employed on Survey, has hitherto been considered as entitled to the allowances both of Assistant and of an Officer employed on Survey. —

The determination of the case of Lieutenant Garling will also afford an answer to the latter part of Lieutenant Troyer's letter, Viz.t whether Lieutenant Walpole, now about to proceed immediately on Survey with the Junior Class of the Institution shall be permitted to draw allowances both of Ass.t & Surveying Officer. — Should the former allowances only be

Fort St. George 13th. December 1811

only be authorized, it may be proper to add that Lieutenant Walpole will receive in remuneration for the trouble of instructing, a sum — little exceeding the young Officers whom he is appointed to instruct —

The almost immediate departure of Lieutenant Walpole, has induced me to submit to Major General Bates, the propriety of referring the points in discussion to the early consideration of the Government —

Agistant to the Instructor of the Military Institution no mention has been made of his being entitled to draw the allowances of that situation, Lieut. I am afraid however that the Disorders in that Part of the Country are too great to be effectually removed by any partial Measures that can be taken by the Nizam's Government, and that in many cases, the most that can be done will be to procure Payments of the Value of any Property that may be plundered from the Company's Subjects

To The Honorable Sir G H Barlow Bt. & K.B
Governor in Council &c. &c. &c.

Honorable Sir,

The Quarter Master General of
the Army has in two several Minutes the first
dated in August 1810, the latter the 9th. of October
last, brought to our consideration the Sick Carriage
of the Army, which upon its present establishment
is in the opinion of that Officer, very inefficient,
and incapable of meeting the ordinary demands
for the current relief of the troops marching
from one Station to another. - The principal
defect

From the Military Board with two Minutes of the Quarter Master General proposing an increase in establishment of Sick Carriage and letter from Officer Commanding Royal N.1 Regiment and one from the Surgeon of N.2 that Corps reporting in trial of proposed new constructed Sick Cart. —

10102 Fort St George 13th December 1811

defects which are stated to exist are to be ascribed to the difficulty of completing the necessary complement of Bearers at the different Stations of the Army to accompany detachments of troops when ordered to march this difficulty the Quarter Master Genl states has never yet been overcome, and in consequence he has frequently been obliged to remove Corps without the proper complement of Sick Carriage, and altho' it must be admitted that since the Establishment of the Commissariat Department, the demands for hired Bearers have been complied with, with a degree of promptitude hitherto unknown, particularly in the late movement of the Royal Regiment from Masulipatam to Trichinopoly and of the 30th Regiment from the latter place to Cannanore, as also in the instance of the 84th Regiment from Madras to Bangalore yet as the Establishment of the Dooley Corps

is

10163

Fort St George 13th December 1811

is inadequate to the Carriage of the Sick of the disposeable force at the Stations to which detachments of that Corps have been allotted without the aid of hired Bearers who occasion considerable expence it has appeared to be extremely adviseable to encrease the establishment of Sick Carts to such an extent as might enable the disposeable force of this Presidency to move to any position at an early notice and to be in constant readiness for the necessary reliefs and movements which so frequently occur in time of Peace.

2 At the period when authority was given for the use of Sick Carriages in the Month of November 1805 the subject of the Dooly Establishment underwent a very full discussion by the Members of the late Military and Medical Boards and as the result of those discussions it was determined by Government that Sick Carts might be employed in aid of the Carriage

16164

Fort St George 13th December 1811

Carriage by means of Doolies, In pursuance of this resolution the Military Board directed the construction of Sick Carts upon a Plan which had been submitted for their inspection and since the period above stated, these conveyances have constituted a part of the means by which the Sick of the Army has been moved as well in the Field as when marching for the purpose of ordinary reliefs. The employment of these Carts of the original construction has however been in Field Service considered detrimental, as they leg them the line of march considerably, and as they must in most cases move in the rear of the Heavy Artillery the Sick cannot arrive at their ground until late in the day; the exposure to the Sun want of rest, and of Medical aid during a long march form also very strong grounds of objection against the too general adoption of this system of Carriage, and it is we be-

lieve

Fort St George 13th December 1811

believe acknowledged that when it is possible to
have recourse to other modes, Sick Carts should
not be introduced as a part of the Carriage for Sick
with an army in the Field - In the relief of Corps
from one Station to another the same objections
do not exist, as the Sick can move off their ground
in the morning without incommoding the line
of March of the troops and they seldom encounter
any obstacles to prevent them reaching their ground
as soon as the Troops, Sick Carts have therefore
very properly been considered as a useful aid
to the Dooley Establishment upon these occa-
sions and it is evident that when Govern-
ment were pleased to sanction the employment
of them, they had only in contemplation that they
should be appropriated for the ordinary duties
of Corps and not that they should compose
a part of the resources upon which Officers
engaged in active operations would have

to

10166

Fort St George 13th December 1811

to depend for the conveyance of their Sick and wounded —
Experience has however proved, that whatever objections
may exist against the employment of Sick Carts, that Com=
=manding Officers have been obliged to have re=
=course to them or to any other mode of conveyance
for the Sick which might present itself, as it never
has been possible to complete a Field Force with
the complement of Dooleys and Bearers autho=
=rized by the Regulations. The Quarter Master
General under the impression of this fact, has
proposed that the number of Dooleys as esta=
=blished by the Regulations of the Service shall be
reduced, and in substitution of them that a
proportion of Sick Carts of a new pattern sub=
=mitted by that Officer and approved of by us
shall be allotted as set forth in his minute of
the 9th October. But concurring entirely in
the principle which obtained at the period —
when the Sick Cart was at first introduced

that

Fort St George 13th December 1811

that it should only be considered in aid of the Dooley system, we have not been able to agree with the Quarter Master General on the expediency of reducing the complement of the Dooley Carriage allowed by the present regulations, on the contrary we are decided by of opinion that the full establishment of Dooleys should always be furnished for troops on field Service, if practicable. The difficulty however which has always been experienced in Keeping up that establishment in the field may occur again, when we are satisfied that the Sick Cart of the new construction, which is lighter and of a more approprinate Construction than the former one, will always be found of the greatest benefit to the Service. Indeed a proportion of that Carriage in aid of the Carriage by Dooleys, as at first intended would always in our opinion be of material advantage. The new Sick Cart from

it

Fort St. George 13th December 1811

its light construction will also be less objectionable on the grounds above alluded to than the former one, which was but too often the cause of Consider-able delays and impediment to a line of march whilst the Sick were also too much subjected to be left in the rear, without sustenance or Medical attendance for a much longer period than was consistent with their proper treat-ment or with their recovery, a disadvantage which will in a great measure be removed by the introduction of the new Cart which has just been established as a proof of what we have just advanced, as to the superiority of the new Sick Cart over the one of the original description, we have deemed it adviseable to lay before your Honor in Council a Copy

N. 3 of a report from the Officer Commanding the Royal Regiment on one of the new Sick Carts which the Quarter Master

General

1869 Fort St. George 13th. December 1811

General sent with that Corps for the express pur-
pose of being subjected to trial. we also enclose
with the same view a copy of a report from
No. 4 the Surgeon of the Royal Regiment on the
same subject, and we consider both of these
letters conclusive as to the advantage of the
new Sick Cart over the one which was at first esta-
blished, and which has been stated to have been
so ill adapted for the purpose of conveying
Sick in the Field.—

3 Altho' we have not concurred
with the Quarter Master General in the expedi-
ency of substituting Sick Carts for Dooleys,
but have merely acceded to the measure
of completing a fixed establishment of the
former in aid of the latter, we are of opinion
that it will not be necessary to keep in a
constant state of preparation the full com-
plement of Dooleys which would be
required

16170 Fort St. George 13th December 1811

required for the whole of the disposeable force-
we conceive that the arrangements proposed
in the Minutes of the Quarter Master
General for the completion of a certain
establishment of Sick Carriage both
Dooleys and Sick Carts to be ample for
every purpose of movement in the time
of Peace, or for the movement of the whole
of the disposable force to any given point
on the frontiers, but we do not think that
the full proportion of Dooleys for the whole
of that force should be completed until
they may be required. These conveyances
are easily procurable almost every where.
A short notice would enable the Com-
missariat Department to provide the
whole that might be required to Com-
plete the establishment with the dis-
posable force, and we do not therefore

recommend

Fort St. George 13th. December 1811.

recommend the maintenance of a greater estab-
lishment of Sick Carriage than that which
has been proposed by the Quarter Master Genl.
viz: 300 Sick Carts and 220 Dooleys.

4 The establishment of Sick Carts
on the returns of the several departments con-
sists at present of 104,- these are all of the old
construction, but until they are worn out
it would not be advisable to substitute
for them the new Sick Carriage, we have
however agreed to their being altered in such
a manner as will render them nearly
equally serviceable with the Cart of the
new construction, and we recommend that this
measure may be confirmed by Government.
The number of new Carts which will be
required to complete the establishment will
be equal to 195. The exact expence of these
has not yet been ascertained but they will

not

Fort St George 13th December 1811

not cost nearly so much as the Sick Carts of the former construction which were valued at 125 Pagodas each on the Books of the Military Board Estimates of expence of constructing the new Carts have been called from all the Commissaries of Stores at the out Stations, and the Commissary General and the Commissary of Stores at the Presidency have been addressed on the same subject— On this point therefore we shall have the honor of addressing the Government at a future period —

5 The establishment of Doolies on the returns at the several Stations consist at present of 646, and with the view of completing the establishment to the number required by the Quarter Master General we have passed an Indent for 174 Doolies which as we have before stated will in our opinion together with the Sick Carts

1st of July are equal to the Carriage of 836 men
and the Sick Carts calculated at the rate of 4 men
to each will provide for the conveyance of 404 men

Total 1240 men

But altho the number of Sick
Carts and Doolies are nearly compleat it is
to be apprehended that at the Head Quarters of the
several disposeable Forces there would be found
much difficulty in procuring at a short notice
even half the Number of Bearers that would
be required for the proportion of Doolies In
order to meet the Effects of this deficiency I beg
leave to propose that the proportion of doolies
allotted to any number of Europeans should
be reduced and the Establishment of Sick
Carts increased, but with regard to the present
Sick Carts, I am disposed to consider them
unadapted to the purpose for which they
were intended. Their draft is considerable

they

1815 Fort St. George 13th December 1811

they are extremely uneasy and are easily overturned
These two last circumstances reduced their ap-
plication during part of the late Campaign
under Colonel Close to the mere Carriage of
Sick Soldiers muskets and Knapsacks, the
slight cases prefering to walk rather than be expo-
sed to the danger of over-sets in addition to the
roughness of the conveyance.—

During the latter part of the Cam-
paign as Sick Carriages were much
wanted an alteration was made in the
Sick Carts which experience shewed to be
extremely beneficial and if the Military
Board should think proper to inspect the
plan of that alteration and direct the Com-
missary in Charge of the arsenal to exe-
cute it I shall be happy to superintend
the reform I propose for the Board's con-
sideration.

The enclosed is a Memorandum on the subject of Sick Carriage by Staff Surgeon C Gilmour whose long experience in the Field and the Character that he has borne as a Superintending Surgeon under different Commanders on actual Service entitles his opinion to much attention.

The Memorandum was submitted to His Excellency the Commander in Chief with a view of the present state of Sick Carriage, and it was His Excellency's desire that this Subject in general should be brought under the Consideration of the Board as he deemed it to require immediate Consideration.

I beg leave to observe that I am entirely prepared to make a distribution of the new Doolies at Seringapatam but from the want of Cover for them at the several Station to which they would be sent I am induced

to

to inform the Board of the damage towhich they would be exposed before I direct them to be removed, —

Should the Board deem it advisable that Sheds should be erected for them by the means at the disposal of this Department, I shall endeavour to have them executed at the least possible Expence.

Memorandum on Sick Carriage by Staff Surgeon Gilmour

In suggesting any alteration in the present mode of carrying the Sick it may be necessary to explain its defects from the difficulties encountered when the army, or a Division of it, may have advanced beyond the frontier, and where all resources of this kind must be within itself. —

In situations alluded to, the Dooley Carriage frequently fails when most wanted and least

Fort St George 13th December 1811

least procurable.

Desertion can neither be prevented or explained It is then that the necessity of multiply-ing the carriage for Sick becomes indispensable.

Even in the Carnatic or in Districts where its resources can be commanded it is impos-sible that one dooly to ten Europeans or one to seventy five Natives can be kept up. —

This moreover is by far too small a proportion for either Troops on actual Service —

In such advanced situations it cannot always be possible or convenient to throw in Sick, or establish a field Hospital, when the increase of Sick otherwise demands it —

Hence from necessity alone we have learned to guard against such occurrences, and it has taught us to make pretty correct calculations of the various modes of conveyance, and to estimate

Fort St George 13th December 1811

estimate their relative utility.

The Dooly Corps as far as ever experience of it yet goes, is a most useful one, and this species of conveyance can alone be depended on—

Hired Bearers, put on the same footing as that Corps, with every conciliatory conduct towards them will not, or rather has not prevented constant desertion and their unaccountable discontent, great pay held out by individuals to carry Palanquins or Baggage, are causes of desertion that can neither be prevented or detected.

Instead of one Dooley to ten Europeans or 80 to a Regiment of 800 Strong let there be only one to fifteen or 54 to a Regiment.—

Ten light Platform Carts without Springs with a Simple arched roof of Bamboos and painted canvass or such covering from the weather as could be effected in any situation would Carry forty Europeans, or Sixty on emergency.—

Twenty

6180

Fort St George 13th December 1811

Twenty Tattoo or other Country Horses
with Common Country Saddles Bridle &c.—
This would secure carriage
for 154 Europeans or a Regiment 800 Strong, a great
proportion of either Sick or waunded than generally
occurs in the field.—

An objection has been made to
wheel Carriages, lengthening the line of march.—
The fact is that doolies equally do so.— The Bundee pro-
-posed have only two Bullocks. This takes up very
little more room than a Dooly— In a hilly and
Jungly Country with narrow roads, dooleys cannot
go on the flanks but must be in the road some where
in the line of March. In such situations the Cart
is by far considering the number it carries
the least cumbersome of the two.

To natives fifteen Doolies
to 1000 Men is still more inadequate to the
conveyance of their sick and wounded. How
it

it

16181

Fort St George 13th December 1811

It was originally so disproportioned it may be difficult now to say unless it took place when Corps were 500 Strong—

Let a native Corps of 1000 Strong have 12 effective doolies—

Ten platform Carts of the above description and twenty / or thirty / quiet Carriage Bullocks with saddles ropes, Stirrups &c.

This is a secure Carriage for 96 Sick of a Corps or 1000 Strong a Bullock with a good Gunny Bag on each side, carrys a Sepoy with his napsack, Firelock and other Matters and is a species of conveyance they are used to, and fond of—

An Elephant will carry four or five Sick—

A Camel will carry four men with ease by having a Basket covered with leather on each side, where two men sit face to face

The Basket may be something

L

16182 Fort St George 13th December 1811

of the Shape of a Liquor basket &c. &c.

This was resorted to by some Comm-
-manding Officers in a former Mahratta War and
answered extremely well.—

The Common Country Hackery
is certainly not the least useful species of Sick Carriage
for Natives and well adapted for a Hilly Country,
Strong narrow and uneven roads — a very little im-
-provement might be made by encreasing the size
of the platform and the roof &c. &c.

It has the advantage of being
procurable in almost all parts of India, is easily kept
in repair, is light and portable and will hold two
(may four on emergency) with their Knapsacks
fire arms &c.

Besides all this there ought to be
with all armies or Detachments a proportion of dis-
-posable Spare doolies and other Carriage for
Sick to be placed under the immediate controul
of

16183 Fort St George 13th December 1811

of the medical Staff Officers at Head Quarters for emergent purposes such as sick or wounded Officers — Natives in various departments whose Services could ill be dispensed with even private Servants - and public followers for whom no provision of this kind is made - Not that it is to be used in this way when wanted in the line but it is a most humane and useful part of Equipment —

Let it again be understood that those suggestions are not meant to supercede Doolies when these can be procured in sufficient number and when this cannot be effected —

The above means must be resorted to in the variety and Selection that circumstances may point out —

The above calculations are on the least possible scale for troops who may be far removed from their own Country or Frontier

Minute of the Quarter Master General

I beg leave to request the at-
-tention of the Military Board to a consideration
of the Sick Carriage of the army.—

I had the honor of bringing
this subject before them on the 1st. of August
last year and will now take the liberty of
referring to my Minute of that date The
result of frequent reflection on this subject
is a proposal of adopting the following
proportions of Doolies and Sick Carts with
Corps in lieu of the old Regulation —
allotting

1685

Fort St George 13th December 1811

Allotting 1 of the former to 10 Europeans or to 75 Natives

Squadron of Horse Artillery 300 Strong 4 - 4		
Regiment Dragoons 3 doolies & 1 Cart for a Troop	}	- 30 - 10
Native Cavalry 1 Dooly for a Troop and 1 Cart for 2 Troops	}	- 6 - 3
Company Artillery 60 Strong - - - - -		5 - 1
European Infantry 5 Doolies and 1 Cart for a Company	}	- 50 - 10
Native Infantry 1 Dooly for a Company and 1 Cart for 2 Comps	}	10 - 5
Battalion Pioneers - - - - - - - -		2 2

A very satisfactory Statement by Surgeon Gilmour on the subject of Sick Carriage for an army in the Field was inclosed in my minute of the 1st of August 1810 and he proposed in that paper many supplementary Means of increasing the

16180 Fort St George 13th December 1811

encreasing the quantity of conveyance during a Campaign
These are not however at present recommended to be
held in readiness because they can always be
procured when occasion may require and I do not
conceive them to be necessary on Troops marching
out of Quarters for Field Service.—

Should the Military Board ap-
prove of the arrangement now suggested, I
would beg leave to recommend their passing
the enclosed Indent for 174 Doolies and 195
Lick Carts being the number deficient of 820
of the former, and 299 of the latter required
for the Disposable Force of the army.—

1st From their not being constructed on springs the disagreable jolting motion in roads of which the Sick men have always complained is considerably lessened and at the same time they are not so liable to break down which has always been as far as my observation goes a very great objection to the Spring Sick Carts.—

2 From the sides of the conveyance being made of Canvas instead of wood it was rendered more roomy, it added to its lightness and what appears to me a very great advantage the Sick men had an opportunity in very sultry weather of tying up the

In reply to your Letter of the 20

Instant respecting the Sick Carriage that were with the Royal, I have the honor of reporting to you. I took frequent opportunities of looking at them during our march from Madras agreeably to a wish from the Quarter Master General, when we left that place.—

I likewise desired the Hospital Serjeants frequently to make remarks and to collect at different times the opinion of the men that were carried in them and I find that the new constructed Cart is approved of by the Soldiers much in preference to the old ones, and it likewise is my opinion that they are infinitely Superior.—

1st They are much easier in bad Roads the Men are not so much shook, the old ones jolt them terribly, so much so that the Soldiers frequently, indeed almost always are obliged to come out when there is any Rocky Ground, the

16190

Fort St George 13.th December 1811

the new Carts have an advantage by not being on springs -

2.d The springs of the old Carts seem in general to be very strong, but the Body of the Cart frequently comes with a thump on the under work, which is terribly annoying to the men inside, and which is not the case with the others -

3.d By the construction of the new Cart the manner the men are seated in them, is more convenient, and they are more at their ease, than in the old ones -

4.th From the sides of the new Carts being made of Canvass, which can be put up at any time the Soldiers have always more air and likewise what is termed more elbow room, which is a great consideration in bad roads or hot weather -

5.th The new construction are not

Fort St George 13th December 1811

not so liable to break down, as the old ones and if the Roads are any way bad the poor Soldiers never arrive in Camp till very late in the Day and perhaps obliged to walk more than half the road and when they come in late and fatigued the other Men are by that time comfortable in their Tents &c. By the frequent breaking down of the old Carts Bullocks that have done their days work are obliged to be sent back from camp as also our Workmen, who in general very reluctantly go back being fatigued and perhaps during the course of the day the Cart is brought up but if it is much broke it does not join for several days many instances of which I have seen.

The new constructed Cart we had was not painted on the top, the Men Complained of that in every other respect I think the new Plan for preferable to

Honorable Sir,

I have the honor to acknowledge the receipt of Mr. Secretary Strachey's letter of the 27.th Ultimo, with which was transmitted Copies of letters from Colonel Forbes of His Majesty's 80.th Regiment

of

Fort St George 13th December 1811

of Foot and desiring me to state the Period to which that Officer is entitled to draw the allow-ances as Commanding the Troops in Malabar and Kanara.—

2 I have accordingly concisely to state that in conformity with the just principle established by the regulations under the Head of Batta and other allowances con-nected to Government Commands, and also the regulations respecting Staff allowances, Colonel Forbes is entitled to the allowances in question to the 16th of November last inclusive, which is stated by that Officer to have been the day on which he was relieved from the Com-mand of the Provinces of Malabar and Kanara by Colonel Lockhart of His Ma-jesty's 30th Regement of Foot, altho' the Genl Order which nominated the latter Officer to that Command is stated at Fort St George

the

Fort S.George 13th. December 1811

the 6th. of the same Month.

3 With the same Letter of Mr. Secretary Strachey was forwarded the proceedings of Your Honor in Council under date the 26th. Ultimo with which is referred for consideration and report an application on the part of the Officers of Her Majesty's 22d. Regiment of Light Dragoons for reimbursement on account of the difference between the Price of Gram purchased by them for the use of their Regimental Horses at the time they were serving in the Field with Colonel Close's Detachment when the Price of Gram in the Bazar exceeded one Rupee for Twenty Seers

4 This application appears to be founded on the circumstance of a Charge having been entered in the accounts of the Agent for Cavalry Supplies for a Quantity of Gram which was issued from

16197

Fort St George 13th December 1811

from the public Stock in charge of the agent, to the Officers of some of the Regiments of Native Cavalry when Serving in the Field under Colonel Close at the rate of twenty Sers for a Rupee in consequence and under the authority of a Copy of a G. O. dated the 3d. of april 1810 which had reached the Head Quarters of these Corps, but which order had been recalled and cancelled a short time thereafter —

5 — Upon the audit of Quantities by the Military Board, these Issues were objected to, but subsequently upon a full consideration of the circumstances which appeared to the Board satisfactory to accounts for the cause of those Issue of Gram having been made, it was thought reasonable and proper to pass the same on reaudit —

6 — But the present application from the Officers of His Majesty's 22d. Regt.

of

16198 Fort St George 13th December 1811

of Light Dragoons in the Month of February last, claiming a compensation for the differ-ence between the Price of Grain in the Bazar which had been purchased from the 3d of april to the 8th of June 1810 inclusive on ac-count of the Regimental Charges of these Officers was considered different, the Issues of Gram to the Officers of the Regiments of Native Cavalry being thought at the time to have been made on proper authority, but the present application being considered a demand when there existed no authority for granting such allowance it being at the time well known that the G.O. of the 3d of april 1810 had been recalled.

7 The Military Board accordingly deemed it proper under this circumstances to reject the claim. In which opinion I would now coincide and would have recommended the

Fort St George 13th December 1811

the decision of the Military Board being Con
firmed had not the G. O. of the 11th of January
last been published which being of the same
purport and effect as the Order of the 3d of April
1810 the granting such Indulgence is now
conformable to Regulation from which cir-
cumstance and not from the suppositious Ar-
gument of the Officer Commanding the Centre
Division of the army it may be judged
proper by your Honor in Council to admit the
compensation solicited which amounts to
Pagodas 268. 40. 57. as particularly detailed
in the three accompanying abstracts.

8 In the same Proceedings of your
Honor in Council is referred for Report an ap-
plication on the part of the Officers of the 2d
Battalion 10th Regiment of Native Infantry
for Compensation for loss sustained in
money expended for Quarter and Mess
room

16200 Fort St George 13th December 1811

room in consequence of the frequent removal
of the Corps from one Station to another at Goa and
its Dependencies in the course of the last and the
present year. —

I Altho it may be acknowledged
that so frequent a Change of Quarters within the
time specified in the letter from the Officer Com-
manding the above Corps seldom occurs - as an
adequate Monthly Allowance however is
granted and has been drawn for Mess room,
to the Officers of the 2d. Battalion 10th Regiment,
and as they were in the receipt of their Tent
Allowance, I cannot take upon me to re-
commend the acceeding to this application
on the contrary, I apprehend if such a Pre-
cedent was once admitted it might oc-
casion numerous Claims of a Similar kind
to be preferred, as it most frequently hap-
pen that Officers are subjected to such Losses
either

16201 Fort St. George 13th. December 1811

either from their Corps suddenly proceeding upon Foreign Service or being removed from one Station to another — In Short were such applications complied with it would in my mind afford just grounds for reverting to the old System of the Officers being furnished with Quarters at the public Expense, or being allowed House rent in the time of Peace and that Tent allowances should consequently be discontinued. —

10 Under these Impressions I cannot but be of opinion that the present application should be rejected. —

I have the honor to be &c. &c.

Office, by the Officer in Charge of the Gram Department with His Majestys 22d Dragoons, for Compensation money in lieu of Gram to the Officers of that Regiment.—

I am desired to inform you that the General Order under which these Abstracts are drawn, was never published to the Army by authority—and altho' the Board have deemed it proper to remove the Retrenchments made against certain Regiments of Cavalry on account of Gram erroneously drawn in Consequence of their having seen the G.O. alluded to, published in the Books of Orders printed at the male Asylum, yet the Board do not consider it necessary to recommend the payment of Abstracts for an allowance to which the Officers of Dragoons or Cavalry Regiments never had any right.

Order thereon

Ordered that the following letters be dis-
patched to the Military Auditor General, the Chief
Secretary at Columbo, and the Officer Conducting the
details of the Army at the Presidency respectively

To the Military Auditor General

To the Military Auditor General. Directing that duplicate Certificate of Mrs M'Cally's last payment previous to her departure for Ceylon may be transmitted that Colonel Forbes H.M. 30th Regiment may draw allowances of Commanding in Malabar and Canara to the day on which he ceased to exercise that Command - Acquainting him that Compensation cannot be granted to Officers of 2d Battalion N.I. and that application from Officers of H.M. 22d Dragoons for Compensation for grain will hereafter be determined -

Sir

Para 1st I am directed by the Honorable the
Governor in Council to acknowledge the receipt
of your letters of the 9th and 10th Instant -

The Governor in Council is
unacquainted with the period at which it may
be the intention of Mrs M'Cally to proceed to the
Island of Ceylon, and it is not improbable that
she may require a further payment on account
of her Pension previously to her departure. In
that event, you will be careful to lay before
the Governor in Council a Duplicate or attested
Copy of the last Certificate with which they may
be furnished by the Paymaster whenever

She

She may leave the Coast.—

3 The Governor in Council desires that Colonel Forbes may be permitted to draw the established allowances of the Officer Commanding the Troops in Malabar and Canara to the 16th Ultimo, being the date on which he ceased to exercise that Command, and from which Date they will be drawn by Colonel Lockhart Hewett 30th Regiment who then assumed it in Conformity with his appointment in General Orders.—

Read the following Letters from the Commissary General.

To

10209 Fort St George 13th December 1811

To George Strachey Esqre

Secretary to Government in the

Military Department

From the Commissary General - On the subject of bullock Contracts entered into by Captain Purchas subject to confirmation of Government.

Sir,

I have for some time past held a correspondence with Captain Purchas the Assistant Commissary General in the Northern Division of the Army, on the subject of establishing a Contract for the supply of Draft and Carriage Bullocks for the conveyance of Military Stores from that place to Hyderabad, and to other Stations as well as for the supply of Draft and Carriage Bullocks to be employed within or without the limits of the Northern Division of the Army; the result has been that a Contract has been entered into by that Officer for these supplies on terms which appear to be extremely favorable to the public.—

2 Under the instructions I have given

6210 Fort St George 13th December 1811

given to Captain Purchas at an early period after he assumed charge of the Commissariat Department in the Northern Division he forwarded for my consideration a Copy of a Contract which he proposed to enter into for the supply of Hired Cattle but as that Contract did not appear to me to be sufficiently explicit in some respects and to require modification in others I returned it to him for the purpose of being revised. The person with whom it had been agreed having however objected to accede to the whole of the proposed alterations, it became necessary to call for further proposals, when a respectable and principal Bullock owner at Masulipatam was found ready to agree to all the modifications which I had considered to be necessary, and the contract of which the enclosed is a Copy was immediately concluded with him, Subject to the Confirmation of

No 1

the

16211

Fort St George 13th December 1811

the Honorable the Governor in Council —

3 I guided it necessary to forwards for the guidance of Captain Purchase as a form in preparing the articles of agreement a Copy of the Contract which had been held by the late Rajah Nagjanad, and every stipulation in favor of the public, which was expressed in that Contract has been Carefully inserted in that which is herewith submitted for the sanction of Government —

4 The charges for the employment of Cattle by the late Contract, were regulated by calculating the hire for a Certain number of days, for the Conveyance of Stores from one Station to another, the hire of each day being computed according to the established rates formerly allowed by Government for hired Cattle —

5 In the present Contract that complicated

Fort St George 13th December 1811

complicated and unfavorable arrangement has been excluded, and it has been found practicable to substitute Specific rates of hire for Carts, and for Draft and Carriage Bullocks by the trip.—

The names of the Stations to which the Contractor has agreed to convey Military Stores, Grain or treasure, the distances of these places from Masulipatam, and the amount of hire allowed by the trip to each of these Stations, are distinctly mentioned in the Contract; while a Clause has been added purporting that the hire of Cattle to places not mentioned in the Contract shall be charged for at the same rate, in exact proportion to the measured distances from Masulipatam. In framing these rates Captain Cuppage was principally guided by the nature of the terms offered Vizt. 23 days hire at the accustomed pay from Masulipatam to Hyderabad, and to other Stations in

proportion

Fort St. George 13th December 1811

proportion to their distance. The exact sums that would be due according to those terms, have been modified by excluding fractions and in some cases have been encreased, in a very trifling degree for the reasons which will be hereafter expressed.—

6 The Contractor is not considered entitled to receive any Compensation for trifling detention in Conveying Stores to the Out Stations from Masulipatam, or which account Considerable Sums were generally paid to Naganah the late Contractor, but the right has been reserved to him of appealing to the Government thro' the Commissary General for Compensation in the event of any very extraordinary detention on the march. The wastage incurred in the Conveyance of Grain as allowed by the Commissariat Regulations has been proposed to

Fort St. George 13th December 1811

to be allowed to the Contractor, whenever he may be employed in the transportation of that article.—

7 The number of Maistries and Chaudries proposed to be allowed to the contractor is some what greater than has hitherto been sanctioned by the regulations of the Service. I am however of opinion that the number stated in the Contract are necessary for the efficiency of it, and the expence of them will be amply compensated by the Stipulation which provides that each Cart shall carry from 700 to 750 lbs of promiscuous stores, the usual cart load heretofore being equal only to 500 lb. a quantity which should not on any account be encreased on field Service, but I am not aware of any reason why a cart should not in passing from one station to another, over good roads, in time of peace be loaded with stores to the extent which it can convey with facility

Fort St. George 13th December 1811

facility and safety.—

8. With a view to form a correct estimate of the advantages of the present contracts compared with the former one, in point of economy, it appears to be necessary to describe the terms of each. The Rajah Nayanah was allowed forty days for a Cart or Carriage Bullock to proceed from Masulipatam to Hyderabad, the former at the rate of 7 Pagodas and the latter at the rate of 1½ Pagodas per Month. These rates or rather the number of days for which the rates were paid, were considerably cheaper than the rates which obtained previously to the establishment of Nayanah's Contract. But when Nayanah's Contract for the supply of Cattle at Masulipatam became known to the Bullock Owners at that place, they made offers to supply Cattle for the established hire of 30 days instead of 40. for carrying Stores to

Hyderabad

10210 Fort St George 13th December 1811

Hyderabad, but it does not appear that those Offers were accepted or submitted to Government, altho' 25 per Cent lower than the rates of Najanah's Contract - yet the present Contract has been established, on the principle that the same work for which Najanah received the full hire of 40 days, will now be performed for the hire of 23 days only, giving a difference in favor of the new arrangement compared with the former Contract of 43 per Cent. In point of fact however, the saving will be much greater, for by Najanah's Contract he received in addition to the stipulated number of days, the full hire for every day the Cattle were detained either at the commencement or during the continuance of a march, and the period of time actually charged for, was not unfrequently extended to fifty days as whenever the escort halted, or a river had to be crossed, or any other detention occurred

Fort St George 13th December 1811

occured, the full hire for the additional period became a charge against the publik.—

9 This latter arrangement not only opened a way to encreased charges, but appears to have subjected the publik to a heavy and undefined expense, which could not I imagine, have been ex-pected to such an extent, when the Contract with Najanah was concluded. I consider therefore that the clause in the 5th article which provides against such charges in future, except in cases of which the Government will be the judge, is of considerable consequence. This favorable condition was not however easily accomplished, and Captain Burchas was obliged to qualify it by granting the liberty of an appeal to the justice of the Government—should any unforeseen circumstance occasion a detention of a material or ruinous duration. To facilitate this very desirable object it was also deemed advisable to grant a trifling encrease

in

16218

Fort St George 13th December 1811

in the rates of hire, to certain places, where difficulties in passing rivers might be supposed to produce material delays, and which encrease is included in the table of rates inserted in the contract.

10 Having now given a view of the contract which has been established subject to the approval of Government, for the supply of Carriage for the conveyance of Military Stores by the trip, I beg leave to advert to and to submit

No 2 a Copy of a Contract for the supply of Draft and Carriage Bullocks by the Month when they may be required for the use of Detachments of troops ordered on Command, or field Service within the Northern Division of the army, or in proceeding from one Station to another in that Division. The same Contract provides for the supply of all Draft and Carriage Bullocks which may be required to proceed from Masulipatam to any part of the Country

for

16219 Fort St. George 13th December 1811

for General Service and for any undefinite period of time.—

11 This contract has been made with the same person who has obtained the Contract for the transportation of stores. He has agreed to provide within the space of two days a number not exceeding 100 Carriage Bullocks with drivers and maistries complete, and at 8 days notice to supply 1000 complete in like manner, and 10.000 Bullocks of the same description and complete with drivers and maistries at a notice of 30 days. The draft Bullocks are to be charged for at the rate of 5 Rupees, and the Carriage Bullocks at the rate of 3 Rupees per mensem, when employed within the Northern Division of the army. If the Cattle supplied by the Contractor should be employed beyond the limits of the Northern Division, he will only be entitled to charge 5/2 Rupees for each draft Bullock, and four arcot Rupees

for

Fort St George 13th December 1811

for each Carriage Bullock. It is also proposed that the Contractor shall be allowed to charge for mais-tries and Chaudries employed with the Draught or Carriage Cattle, as follows, for every fifty Bullocks 1 petty Maistry at two pagodas per Month, for every 100 Bullocks one Chaudry at 3 pagodas, for every 500 Bullocks one head Maistry at 4 Star Pagodas, and for every 1000 Bullocks one head Chaudry at 5 pagodas per Month.- The amount of these Servants for 2,000 Bullocks would be equal to 166 pagodas per Month. The Servants of the above description allowed to 2,000 Bullocks according to the former System, would have been equal to pagodas 90 only but alth' in this particular the present is more expensive than the former System, yet the difference in favor of the public, on 2000 Carriage Bullocks supplied under this Contract would be equal to Pagodas 1,285 per Mensem when employed within

Fort St George 13th December 1811

within the Division, and pagodas 7/14 when employed without the limits of it; and I am of opinion that the number of Maistries and Choudries allowed by the Contract are indespensable to the efficiency of the Service. If the Contractor should supply Cattle for the conveyance of Grain he will be entitled to the allowance of Leastage authorized by the Commissariat Regulations.

12 This Contract includes also an engagement to provide Bamboo Coolies required for the conveyance of the poles of Camp Equipage at the rate of 5 Rupees per Cooly per month while employed within the limits of the Division and 6 Rupees per Cooly per month for General Service. The rate hitherto allowed by the Government for Bamboo Coolies have never been less than two Star Pagodas per month, but no inconvenience to the Public Service is likely to result from the

10222

Fort St George 13th December 1811

this reduction, as the hire allowed corresponds with the usual rates of the Country for that discription of people.—

13 I am aware that in 1807 terms of Contract 25 per Cent below those of Nagpur were offered, but not accepted. I thought it advisable to defer the measure of submitting for the confirmation of the Honorable the Governor in Council a Contract which would cause a deduction of upwards of 40 per Cent — Until I should be enabled to ascertain correctly how far the Contract would answer the objects of the public and I was induced to defer any report to Government until I could demonstrate that the lowness of its rates has not in any respect impaired its efficiency. I have considered such delay to be justified by the desire of acquiring a perfect Knowledge of all these points, before the question should be laid before Government

more

16223.

Fort St. George 13th December 1811

more especially so, as I was sensible that the separation of the Contracts during the intermediate period, would occasion a considerable saving of the public money.—

14 The following detail will therefore I trust afford a satisfactory view, not only of the economy of the Contracts but adduce the strongest proof of their efficiency, a point of still greater importance, which will I trust be substantiated in the most satisfactory manner: by referring to the facility with which every demand has been complied with, and by the manner in which the work has been performed by the Cattle supplied.—

15 No difficulty has ever been found on the part of the Contractor, in complying with the numerous indents which have been presented from time to time to Captain Burt The orders for the movement of the P. B.

of the 10th Regiment and half a Company of artillery reached Masulipatam on the evening of the 14th and the whole of the equipments were completed in the Course of the 17th May. Carriage Bullocks have always been supplied with the greatest facility and promptitude as an instance of which I beg leave to state that after the march of the detachment just mentioned and the Royal Regiment which is nearly 1100 strong, an indent was presented for the supply of 410 bullocks for the conveyance of Stores to Hyderabad, which indent was actually complied with in 48 hours after its receipt by the Assistant Commissary General. 10225

Fort St George 13th December 1811

references from Captain Burchas all tend to prove the satisfactory manner in which the Cattle have performed their work, and I beg leave to enclose these Copies of letters for the information of the Honorable the Governor in Council. Captain Frith of the artillery who went in charge of the Guns, which moved from Masulipatam on field service in the Month of May, but who was obliged to return on account of ill health, afforded also the strongest testimony in favor of the efficiency of the Gun Bullocks supplied by the Contractor, but I cannot give a stronger proof of the Cattle being well adopted for the purpose for which they were engaged, than by stating that they conveyed the Guns from Masulipatam to Palicondah, a distance of 320 Miles in the space of eighteen days, in the hottest season, and brought them back in the same period of time, after the rains had set in, when the roads were in a bad

Fort St. George 13th December 1811

bad state and when all the rivers had been filled—

16 It may also be not irrelevant to observe that Bullocks supplied by the Contractor on the move-ment of H. M.s Royal Regiment from masuli-patam arrived at madras in the best condition, after a march of 307 days in very unfavorable wea-ther, and were reported to have performed their work entirely to the satisfaction of the Officer.— Commanding that Corps.—

17 The letter of Lieutenant Campbell may be referred to, as a sufficient testimony that the Cattle sent to Secunderabad have performed the march with expedition and that no loss of stores has been sustained in the transportation of them from Masulipatam, The unwillingness stated to have been shewn by the Bullock people to proceed to Jaulnah is attributed, and in my opinion with probability) to the intrigues of the servants of Patiah the Contractor at Secundera-bad, but Captain Burchas has been assured

that

16227 Fort St George 13th December 1811

that no difficulty in this particular will occur in future, and that any proportion of Cattle required to extend their journey to Jaulnah, will complete the trip without objection or reluctance.—

18 I consider it necessary in this place to remark that the Cattle and drivers now furnished under the terms of the accompanying Contracts, are the very same as were employed by the late Rajah Naganah. The present Contractor Contraguddah Sooboroyloo, was long in the Service of Nagnah and in the constant habit of providing the bullocks required at Masulipatam, and as it appears to have been universally admitted that the Cattle supplied by Nagnah, were in every respect good and serviceable, it will not be contended that a reduction in the amount paid to the new Contractor will impair their efficiency, while the amount actually paid to the Owners of the Cattle by the present Contractor will not I have reason to believe, be

Cfs

16228 Fort St. George 13th December 1811

less than was paid to them by the former Contractor —

19 Sufficient has perhaps been stated to prove that the Contracts are efficient, a cursory view of them will shew that the reduction of the rates has been considerable and the exact amount which has actually been saved in the space of five months (the time during which the Contracts have had effect) is exhibited in the

No 4 clearest manner in the enclosed comparative State-ment. In each Column of that Statement is specified the amount of hire paid for Cattle employed under the operation of the former Contract, and by the Company's regulations the difference shews the amount which has actually been saved, without including the extra charges generally allowed to Najanah on account of the detention which if I am not misinformed may be computed at 20 per Cent more, on the Cattle supplied at Masulipatam by Najanah. If no misconception had occurred with respect to the Cattle proceeding

to

Fort St George 13th December 1811

to Paulnah, as adverted to in the 10th paragraph of this report, the reduction of expense would have been still more considerable :—

20 But it may be conjectured that the terms of the Contracts are too low to admit of the Contractor gaining a sufficient profit, or of his paying a proper remuneration to the petty owners of Cattle, and that supposition may be strengthened by the recollection of the long period during which a much larger amount had been invariably demanded and paid. It may also be alleged that the present favorable terms have been obtained by the temporary competition excited by the measure of calling for proposals, and that on the grounds of policy it may be more advisable to pay higher rates with the view of ensuring immediate supplies of Cattle for the extent of any possible demand. :—

21 In anticipation of such objections

I.

16230 Fort St. George 13th. December 1811

I may be permitted to answer, that the Contractor must be the most competent guage of the adequacy of his profit that no species of compulsion is resorted to in bringing forward the Services of the petty owners and their Cattle, and it is not probable that these owners would supply their Cattle, if they were not remunerated at the rate they had been accustomed to receive, or unless these rates were considered by them to be sufficient, that the rates of hire can be encreased if necessary; and that no alarm need be entertained of any difficulty in procuring any number of hired Cattle that will probably be required at Masulipatam, that after the experience of five months, the Contractor is anxiously disposed to continue the fulfilment of his engagements and that so far from being desirous of relinquishing them, which would it may be presumed be the case if they were unprofitable he has expressed to the Assistant Commissary General his

apprehension

Fort St George 13th December 1811

to Paulnah, as adverted to in the 19th paragraph of this report, the reduction of espense would have been still more considerable.—

20 But it may be conjectured that the terms of the Contracts are too low to admit of the Contractor gaining a sufficient profit, or of his paying a proper remuneration to the petty owners of Cattle, and that supposition may be strengthened by the recollection of the long period during which a much larger amount had been invariably demanded and paid. It may also be alledged that the present favorable terms have been obtained by the temporary competition excited by the measure of calling for proposals, and that on the grounds of policy it may be more advesable to pay higher rates with the view of ensuring immediate supplies of Cattle for the extent of any possible demand.—

21 In anticipation of such objections

6230 Fort St. George 13th. December 1811

I may be permitted to answer, that the Contractor must be the most competent guage of the adequacy of his profit that no species of compulsion is resorted to in bringing forward the Services of the petty owners and their Cattle, and it is not probable that these owners would supply their Cattle, if they were not remunerated at the rate they had been accustomed to receive, or unless these rates were considered by them to be sufficient, that the rates of hire can be encreased if necessary, and that no alarm need be entertained of any difficulty in procuring any number of hired Cattle that will probably be required at Masulipatam that after the experience of five months, the Contractor is anxiously disposed to continue the fulfilment of his engagements and that so far from being desirous of relinquishing them, which would it may be presumed be the case if they were unprofitable he has expressed to the Assistant Commissary General his

apprehension

Fort St George 13th December 1811

apprehension lest other proposals should be accepted to his exclusion. —

22 Proposals more favorable than his have actually been lately received by Captain Burchas a circumstance which appears to remonstrate the opinions entertained of the Contract by those persons best able to appreciate it in as much that with the view of obtaining a similar contract, offers have been made to supply Cattle of every discription on lower terms by the owners of Cattle on the spot - It appears to be my duty to forward these new proposals for the information of Government but in Consideration of the meritorious example shewn by the Contractor Contriquiddah Sooba royloo and of the very efficient manner in which he has conducted the Contract, I would not for the sake of so trifling an advantage as would be derived by the acceptance of these proposals, recommend that his contracts should

10232

Fort St George 13th December 1811

Should be set aside. On the contrary I beg leave to recom-
mend that they may be confirmed by Government —
Their continuance is only during pleasure, and if it should
hereafter be deemed advisable to resume them or to
call for new proposals, either of these measures may
be adopted at the earliest notice — Besides it appears
to me that to cancel the Contracts from which the
public have already derived so much advantage
would tend to destroy that confidence in the Commis-
sariat Department with which I feel so anxious
to impress all classes of Natives concerned — —
in procuring the various supplies required for
the Army.

23 The presentation however of
these new proposals must be considered to be
valuable from two Considerations. The circum-
stances will prove that the terms of Cantrugudda
Sooboroyloo have not been proposed by him
from desperate necessity. It will also increase
him

him to be very cautious and strict in the performance of his engagements aware that his competitors for the supply of Cattle would be ready to accept the contracts even on lower terms than his if his conduct should not be satisfactory.

24 It does not appear to me that any part of the Contracts require amendment, but as the demand for Cattle at Vizagapatam and Ganjam and at the Mahwins subordinate to them is so exceedingly trifling, the Contractor can hardly be expected to keep up any Establishments at those places. The small number of Bullocks required there have been engaged in some instances at higher rates than stipulated by the Contracts, tho' the difference of expense has not been charged to the public. The indulgence of granting two sixty maistries at Vizagapatam and Ganjam will remove from the Contractor the inconvenience which he has suffered at these remote stations but whenever

10234 Fort St. George 13th December 1811

whenever 50 Bullocks are employed in the Service by the Contractor either at Ganjam or at Vizagapatam the pay of these extra Maistries would be discontinued, and the Contractor entitled to receive the allowance for them under the terms of his Contract. —

28 The whole of the circumstances which I have thought it necessary to state in this report will I trust justify me in giving it as my decided opinion, that the Bullock Contracts entered into by Captain Burchas at Masulipatam, subject to the confirmation of Government, have been attended with complete success; and if I may be permitted to adduce the absence of complaint, as a proof that there has been no cause for any, I have no hesitation in stating that the Contractor Contraguddah Sooboroyloo has completely fulfilled his engagement, much to his own credit and to the advantage of the public interests. —

Sf

10235

Fort St George 13th December 1811

26 It would not be doing justice to Captain Burchas if I did not on this occasion state for the information of the Honorable the Govr. & Counl how much I feel indebted to his exertions in carrying into effect the compleat and very advantagious reform in the Bullock Department in the Northern Division of the Army which I conceive has been effected by the Establishment of the Contracts submitted with this report, and for the very satisfactory information which I have received from him on this subject.

16249 Fort St. George 13th. December 1811

Articles of Agreement indented made executed and entered into this twenty ninth day of April in the year of Christ One thousand Eight hundred and eleven between Captain Henry Ousley Purchas, Assistant Commissary General in the Northern Division of the Army for and account and under the authority of the Commissary General of the one part, and Contraguddah Soobroy =loo a Bullock Maistry at Masulipatam of the other part.—

Whereas the said Contraguddah Soobroy =loo being a principal owner of Cattle at Masulipatam, has proposed to the said Captain Henry Ousley Purchas Assistant Commissary General in the Northern Division of the Army, to enter into a contract for the supply at an established rate of hire per month of all Draught and Carriage Bullocks and Bamboo Coolies, which may be required for the use of Detachments of Troops ordered on Command, or on Field service in the Northern Division of the Army; or

proceeding

16250 Fort St. George 13th December 1811

proceeding from one station to another, in the said
division, and also for the supply out an established rate of
hire per month of all Draught and Carriage Bul-
locks, and Bamboo Coolies which may be required
to proceed from Masulipatam to any part of the Country
for general service, and for an indefinite period of time,
under the terms and conditions herein-after-named.

And whereas the said proposal has been
taken into consideration by Captain Henry Ousley Burchas.
Assistant Commissary General aforesaid, who placing
a full reliance on the strictest attention, and most faith-
ful discharge of the engagements entered into by the
said Contraguddah Sooboroyloo, has resolved to accept
the said proposal, during the pleasure of the Commis-
sary General.

2. Now these presents witness, and the said
Contraguddah Sooboroyloo does hereby covenant promise
and agree to and with the said Captain Henry
Ousley Burchas, in manner and form following

Sir,

In reply to your letter of the 30th ultimo, I have the pleasure to inform you that the Carriage Bullocks furnished by the Commissariat for the use of the 1st Battalion 10th Regiment

To the Assistant Commissary General
Northern Division

Sir

I have the honor of acknowledging the receipt of your letter of date the 12th instant, and feel very happy in having an opportunity to give my opinion on a subject which from experience I can vouch the truth of I mean relative to Bullocks and Bandies furnished by you from time to time for the service of the Store Department at this Station in conveying Military Stores from hence to Hyderabad and the Subsidiary force

act

16261 Fort St George 13th December 1811

at Paulnad and have a great pleasure in communi-
=cating my sentiments where they deserve so much
merit for these last 5 or 6 months there has been
a very extensive call on your Department for
Cattle and Carriage for the public Service, and not-
=withstanding the many difficulties and incon-
=veniences which I am aware you must
experience at times from the natives with whom
you have occasionally to enter into Contract for
these Articles they have nevertheless, through your exertion
been procured with great facility, which conse-
=quently expedited the public service, does credit
to you and must be satisfactory to your
Employers. I speak from well known facts
which my Indents and Dispatch of Stores
confirm, and shall not hesitate in saying
that the Cattle and Carriages furnished by you
from time to time have been of a good quality and
equal to every duty they had to perform, nor

Have

have I ever heard the least cause of complaint from the Drivers or persons in charge of the Bullocks and Stores dispatched from this arsenal, of there having been the least articles lost or deficient in such stores conveyed from hence, from time to time to Hyderabad, and the Subsidiary Force at Paulnat and other places as the service occasionally required at present. I know there is a temporary suspension in the article of Bandies. But this is unavoidable and easily to be accounted for, when it is considered the vast number lately supplied to His Majesty's Royal Regiment, marching from this Station which nearly drained the Country, and put it out of the power of the most active man to procure what cannot be had. —

In reply to your letter of the 12th instant I shall have much pleasure in giving you any requisite information regarding the manner in which the Cattle performed the work required of them —

As far as I may be able to judge the Bullocks received from you were most properly adapted to the service required of them, and every movement was performed by them with great facility and expedition which of course always afforded me the greatest satisfaction —

the receipt of your letter of the 12th Instant and to acquaint you that I have always had cause to entertain a very favorable opinion of the Bullocks that have been sent from time to time with Military Stores from Masulipatam: they have in general performed the Journey with great expedition and no loss of stores have been sustained to my Knowledge, but the owners have hitherto started objections to proceed to Jaulnah on some occasions. I mentioned to them the terms you informed me they had consented to respecting the continuation of their March as far as Jaulnah, in conformity to which they replied that they would go: but with a reluctance which seemed to dictate the plan of entertaining others as the most preferable alternative.

Fort St George 13th December 1811

To Captain H. A. Burchas

Assistant Commissary General

Northern Division of the Army

Sir.

In reply to your letter of the 12th instant I shall have much pleasure in giving you any requisite information regarding the manner in which the Cattle performed the work required of them —

As far as I may be able to judge the Bullocks received from you were most properly adapted to the service required of them, and every movement was performed by them with great facility and expedition which of course always afforded me the greatest satisfaction —

I have the honor to be &c. &c.

I have the honor to acknowledge

Fort St. George 13th December 1811

the receipt of your letter of the 12th Instant and to acquaint you that I have always had cause to entertain a very favorable opinion of the Bullocks that have been sent from time to time with Military Stores from Masulipatam: they have in general performed the Journey with great expedition and no loss of stores have been sustained to my knowledge, but the owners have hitherto started objections to proceed to Jaulnah on some occasions. I mentioned to them the terms you informed me they had consented to respecting the continuation of their March as far as Jaulnah, in conformity to which they replied that they would go: but with a reluctance which seemed to dictate the plan of entertaining others as the most preferable alternative.

Secretary of Government in the

Sir,

From the Commissary General - Requesting leave to conclude an attack Contract for Sandal wood with Mysoor limited to three Months.

In a letter which I had the honor of
addressing to Mr Reile on the 10.th of September, I express-
=ed the doubts which I entertained of the practicability
of

10273 Fort St. George 13.th December 1811

of establishing a Contract for the Sale of Arrack at Paulnah which should absolutely exclude the introduction of unwholesome and deliterious Spirits. Having called however on Major Mackintosh the Assistant Commissary General with the Head Quarters of the Hyderabad Subsidiary Force for such information as he might be able to afford me on this subject, I have great satisfaction in reporting for the information of the Honorable the Governor in Council, that contract may be immediately concluded on the terms and conditions specified in my letter above referred to.—

2 Owing to the vicinity of the mogul Camp, of the Pettah of Cawderabad, and of the town of Paulnah to which it is impossible to prevent the following from having free access, the highest offer for the Farm as yet received is only equal to 2250 Arcot Rupees per month, which a person of the name of Vynsook who held it on a former occasion is now willing to give, accompanied with good security for the fulfilment of his engagement. This proposal has been

of the

16274 Fort St George 13th December 1811

been submitted to the Officer Commanding the Force and has been approved of by him. —

3 no other person, under existing circumstances, will agree to pay within 500 Rupees of that sum, but as in the event of any change taking place in the relative situation of the British and Mogul Camps, an encrease to the Revenue arising from this source might be reasonably expected, I would recommend that the duration of the agreement should be limited to three Months, and I have now the honor therefore to solicit the authority of Government to sanction the Conclusion of a Contract with Mynsook for that period, at the rate and on the conditions above mentioned. —

Letter from the Acting Secretary at

Fort William

To

1629 Fort St. George 13th December 1813.

To W. Thackeray Esqre.
Chief Secretary to Government
at Fort St. George

Sir

From the Acting Secretary to the Government at Fort William in reply to the Communication relative to the transfer from the Establishment of Fort St George of 2 Regiments which were left to Garrison the late French Islands as well as the 65th Regiment of Foot now at Bombay

I have the honor by direction of the Right Honorable the Governor General in Council to acknowledge the receipt of your letter and of its Enclosures under date the 24th of September last, relative to the transfer from the Establishment of Fort St George of His Majesty's Regiments which have been left to Garrison the late French Islands as well as the 65th Regiment of Foot now at Bombay.

2 It appearing from a letter received from Major General Warde enclosing for the information of this Government the Dispatches of Lord Liverpool directing the annexation of the late French Islands to the possessions of the Crown that the authority of the Honorable Company at the Mauritius ceased on the 9th of April 1811 and a few days

Subsequent

10292

Fort St. George 13th. December 1811

Subsequent at Bombay The Right Honorable the Governor General in Council to avoid the confusion and trouble incident to broken periods in the adjustment of Regimental accounts has fixed the first of May 1811 as the date on which the transfer of His Majestys 12th. 22 and 86th. Regiments of Foot from the Establishment of Fort St George to that of the Mauritius and its Dependencies is to be Considered to have taken place. A General Order to this effect has been published at this Presidency under this days date and the necessary Communication on this Subject will be made to the Government at the Mauritius.

3 His Majestys 65th. Regiment of Foot was transferred from the Establishment of Fort St George back to that of Bombay from the 1st of January 1811 the period from which it is recommended to draw its Pay and allowances from that Presidency

10293 Fort St George 13th December 1811

Presidency —

4 It would appear from the Corres-
pondence which accompanied your letter above
acknowledged that the Government at Fort St George
has not been apprized of the transfer of His Ma-
jesty's 22d Regiment from the Establishments of
Bengal to that of Fort St George - The measure
was adopted by the Honorable Lieutenant General
Abercromby with a view of placing all the
King's Corps detained to Garrison the new
Colonies on the same footing in respect to
Pay and allowances but His Lordship in Council
as well as His Excellency the Commander in
Chief are only acquainted with the fact generally,
and have no Official Document from which
to give the date of the transfer The circum-
stance is not however of any material im-
portance and will have no effect on the
Finances of the Madras Government as the
Expenditure

10294 Fort St George 13th December 1811.

Expenditure of all the Corps in question will be charged to this Presidency although the audit of accounts are first to be made at Fort St George in conformity to the intention of His Excellency the Vice President in Council communicated in my letter to Mr Secretary Reid's address under date the 23d of April 1811—

5 It seems here proper to state that the Disbursements of the Paymaster at the Isle of France Comprizing his payments to the whole of the Troops at the French Islands up to the 30th of April 811 have been received in the Office of the Military Auditor General at Fort William. A Statement of the Payments to His Majesty's Regiments contained in these accounts will be Exctracted with all practicable dispatch and together with the Corresponding Vouchers transmitted to Fort St George where they are to undergo examination—

6 It does not appear to the

Fort St George 13th December 1811

Governor General in Council to be necessary that any
= part of the Expences of His Majesty's Regiments
detached from Fort St George on the Expedition
which has not been actually disbursed at Fort
St George should be incorporated into the accounts
of that Presidency, but the Vouchers for the Pay=
=ments at the French Islands should after ex=
=amination be returned to Fort William, ac=
=companied with Copies of the Retrenchments
made by the Military Auditor General at Fort
St George, when the amount admitted will
be transferred to the Debit of the Expedition to
the Isle of France and measures adopted
thro' the Military Paymaster General for the re=
covery of the retrenchment —

7 Disbursements actually made
at Fort St George or through Channels dependent
on that Presidency must of course form a part
of the accounts of that Presidency, but State=
ments

10290

Fort St. George 13th. December 1811

Statements of these Expenses should also be forwarded to Bengal for the purpose of being included in the General account of the Expenses of the Expedition required by the Honorable the Court of Directors

To the Military Auditor General

Sir

I am directed by the Honorable the Governor in Council to transmit to you the enclosed Copy of a Letter from the Secretary at Bombay dated the 8th of September 1810, regarding the claim of a Bullock owner under that Presidency to compensation for the conveyance of certain stores from Poona to Hydrabad.

2 The first application from the Government of Bombay on this subject was transmitted to you on the 14th of March 1810, but under the pressure of the many and various duties which have occupied your attention you have not adverted to the necessity of enabling this Government to reply to it. As it appears however that previously to the date of the first Letter from the Secretary at Bombay a correspondence had taken place on the same
