With reference to the orders

with remarks a draft of Regulations for the conduct of the Engineer Department. Suggest an increase to their office Establishment.

Fort St. George 24th September 1813

Sir

I have the honor to acknowledge the receipt of your orders communicated to us in the 2nd, 3d, 4th & 5th 6th and 7th Paragraphs of the acting Chief Secretary's letter of the 9th November 1810, we have now the honor to submit a Draft of Regulations for the conduct of the Engineers' Department, which have been revised under our Superintendence.

2, In the preparation of these Regulations we have provided for the changes which will become necessary in consequence of the orders of Government dated the 5th January directing that the supplies of materials for this Department in future be received from the Commissariat.

3 On the first point to which our attention has been directed, we have the honor to observe that the experience of many years has fully shewn that Superintending Engineers are at most Stations of the Army employed in same

Fort St. George 24th September 1813

some manner throughout the year, and it may be apprehended that if they were to receive a daily remuneration during the period they might be actually engaged in the construction of Public Works, that allowance would become payable to them at all times and on this ground we would recommend fixed Salaries to be paid to Superintending Engineers according to their ranks, in preference—

4. In proposing this measure we have also had in view, the great public principle that the interest and duty of Officers should never be placed in opposition to one another, and without ascribing any improper sentiments to the Officers of the Corps of Engineers, we think, on general grounds, that it would be unadviseable to pay them a daily remuneration, while they have in their power to protract the

period

12447 Fort St. George 24th September 1813

period of the completion of Works under exec:
:cution—

5— We accordingly recommend
that all Superintending Engineers may be
paid on the same principle as the Superintend:
:ing Engineer of the Presidency Division, and we
have detailed the allowance which in our opi:
:nion ought to be granted to the several ranks
of Field Officers, Captains and Subalterns who
may be selected for these situations.

6. The Assistant to the Supe:
:rintending Engineer Presidency Division
having various duties to perform, at St. Thomás
Mount and Poonamallee, and to inspect works
carrying on in different parts of the Presidency,
we have, from a consideration of the expences
which the Officer acting in that capacity must
necessarily incur, been of opinion, that he
should be placed on a footing with respect
to allowances, if specially appointed by
Government

12448 Fort St. George 24th. September 1813.

Government, similar to Subalterns Officers holding the situation of Superintending Engineers of Divisions, with this exception that he is not to draw full Batta, and we trust our recommendation will receive the sanction of your Excellency in Council.

7. Government having already decided that Materials for Public Buildings shall be furnished by the Commissariat we have introduced such regulations, as have appeared necessary to guide the Officers of both Departments in the delivery and receipt of Supplies leaving the provision and payment of the Workmen to the Executive Officer.

8. We have however in the 33d. paragraph of the Regulations, reserved for the Military Board the power of directing the provision of the Workmen from another

source

12649 Fort St. George 24th September 1813.

source, if thought adviseable, a reservation, which will enable us to take advantage of the Public Departments when available, or any other means which at the time may appear to be of most public advantage.

9. Our attention has been particularly directed to the Consideration of the possibility of forming a stricter check on Estimates than those already established, but as every foot of brick Work is laid down in the plan, and the quantity of Chunam in that foot of brick work as also the quantity of labor is ascertained, and is never varied from, we have not yet been able to discover in what manner they can be altered with advantage.

10. The examination of Public Buildings under construction by Committees of Officers has been considered to afford a salutary

12452 Fort St. George 24.th September 1813.

12.th Although it has not been custo:
mary for some time past to construct Buildings
on terms of Contract, we have retained in the
present Draft, the Regulations which provide
for the execution of Public Works under that
system, as it may at a future period be deemed
expedient to revert to it.—

13. We have omitted the former
Regulations in which were detailed the dimensions
of the several Buildings constructed for tem:
porary purposes as it has frequently been
found inexpedient to adopt those dimensions,
and we are of opinion that when the construction
of this description of Buildings may be con:
sidered necessary, specific instructions should
be issued under our orders for the purpose.—

14. We have annexed such Regu:
lations relative to Civil Buildings as appear
to us to meet the intention of Government

as all Estimates for Public Buildings must
be accompanied by Indents for Materials and
Statements of Workmen, these Documents must
be examined in the Office of the Chief Engi:
neer with reference to the Estimate, which
devolves much additional labor on his Writers
and Accountants, and as delay in the execution
of this duty, would be attended with much
inconvenience and might be prejudicial to
the Public Interests we have thought it
necessary to recommend the increase which
the Chief Engineer is of opinion will enable
him to conduct the important duties of his
Department with facility and dispatch.

ment of the 23d February 1810. certain Ser:
vants were transferred from the Chief

Engineer to the Superintending Engineer, but they
have ever since been considered under the immed:
diate controul of the former, an arrangement
that has been attended with so much incon:
venience that we have thought it advisable
to render the two Departments entirely distinct
the Establishment of the Superintending En:
:gineer has accordingly been fixed by us on the
same footing as it stood by the above order, with
this difference that he will have the entire
services of the persons therein detailed.

17. Applications having at vari:
:ous times been preferred by Officers of Engi:
:neers for Instruments and other Articles
from the Public Stores, which in our opinion
ought to be provided by themselves, we have
considered the present as a favourable op:
:portunity to establish a Regulation on
this head, and in the 74th paragraph

we

12456 Fort St. George 24th September 1813.

we have accordingly provided for it.

10 Having already ascertained that the new system for supplying Materials for Public Works to the Engineers Department has occasioned a Considerable increase of duty in our Office, and as the Books which our Secretary and Accountant must now keep, involve much responsibility and detail, we are of opinion that he should receive the assistance of two additional Writers. The despatch of our Business is an object of so much consideration, specially when the comfort of the Troops is so immediately concerned, independent of the advantage which must arise from the early transmission of orders for repairs &c. that we felt it necessary to suggest an increase in our Office Establishment for this particular Branch, and we accordingly recommend that authority may be granted for

entertaining

12457

entertaining two Writers one on a Salary of Pago:
:das 15 and the other at 10 Pagodas per Month.

19.

The Books of the Department
of Engineers supply have of course been in pro:
:gress since the period at which the alteration
took place in the mode of providing the Sup:
:plies, and two Writers have accordingly been
employed in our Office from the 1st May last
we therefore beg leave to recommend that their
allowance at the rates above proposed, may
be sanctioned to have effect from that period.

President's Minute.

No. 56.
President's Minute. Proposes certain modifications of the Draft of Regulations for the conduct of the Department of Buildings & repairs, submitted by the Military Board.

I approve generally the draft of Regulations for the conduct of the Department of Buildings and Repairs submitted to the Government by the Military Board.

Paragraphs 1. 14. & 36. are in some degree at variance with each other, but the partial alteration which I propose to introduce will remove every doubt on the subject to which these Paragraphs relate.

As the prices of Materials at the several Divisions and Stations of the Army cannot be supposed to vary to any great extent in the course of a few Months, and as the Regulation provided for by the 58th Para. is solely intended as a check on the Commissariat Department, I conceive that every object will be obtained

12459 Fort St. George 24th September 1813.

obtained if the lists of Prices be transmitted to the Military Board every half year instead of at the end of each Quarter as is proposed —

I am induced to submit this alteration with the view to prevent an unnecessary transmission of Returns, which occupies the time of the Superintending Engineers and increases the Records of the Military Board without establishing any real additional check and controul over the public expenditure —

Considering the Corps of Engineers to be in every respect a Military Body, and subject to the Rules which have been established for maintaining the discipline of the Army, it appears to me that Superintending Engineers, who may be desirous of obtaining leave of absence, should forward their applications to Government through the

regular

12460 Fort St. George 24th September 1813.

regular channel of the Commander in Chief, and not through the Military Board as provided for by the 73d. Paragraph of the Regulations. The Superintending Engineers should however be directed to transmit a copy of their applications for leave of absence to the Secretary for the information of the Military Board.

I am thoroughly persuaded from the information I have received in consequence of references which I considered it necessary to make, that the Establishment which has been fixed for the Superintending Engineer of the Presidency Division will not be found adequate to conduct the extensive duties which are entrusted to that Officer. Under this conviction, I propose to the Board that the following inconsiderable increase of Establishment should be sanctioned.

To the President and Members of
The Military Board

Gentlemen,

Para. 1. I am directed by the Honorable the Governor in Council to acknowledge the receipt of your letter of the 12th Ultimo, with its enclosure, and to express to you His Excellency's commendation of the zeal, and application which you have displayed in the execution of the orders, relating to the Engineers — Department

12462 Fort St. George 24th September 1813.

Department, which were conveyed to you by the Chief Secretary's letter of the 9th November 1810.

2 The Governor in Council approves generally of the proposed draft of regulations for the conduct of that department, and is pleased to sanction their adoption, subject to correction in only the few instances, which I proceed to notice.

3 In order to reconcile the rules contained in paras 14 and 36, with that which is the subject of the 1st paragraph, His Excellency in Council has deemed it necessary, in the former of the two first mentioned paragraphs, to strike out that part, which discribes your board as the channel, through which the authority of the Government will be communicated for the commencement or removal of buildings, and to make a corresponding alteration in the latter.

The

12463 Fort St. George 24th September 1813.

The 5th paragraph is solely intended as a check on the Commissariat department But as the prices of Materials at the several divisions and stations of the Army cannot be supposed to vary to any great extent in the course of a few Months, His Excellency considers that every object would be answered by requiring that the certified lists of prices shall be sent in half yearly instead of at the end of each Quarter, whilst on the other hand this modification will prevent the time and attention of the Superintending Engineers from being occupied with the preparation and transmission of superfluous returns, and the records of your Board from being needlessly augmented without establishing any real check and control over the public expenditure.

5. The next point, which has appeared to the Governor in Council to require

revision

12464 Fort St. George 24th September 1813.

revision, concerns the mode in which the applica-
tions of Superintending Engineers, desirous of obtai-
ning leave of absence are to be submitted for
the orders of Government. And Para 73 of
your Draft, which has for its object to provide
for the cases in question, prescribes that such
applications shall be forwarded through Offi-
cers Commanding to your Board, and by you
to Government.

6. Considering, however the Corps
of Engineers to be in every respect a Military
body, and subject to all the rules, which have
been established for maintaining the discipline
of the Army and the duties of Superintend-
ing Engineers not being exclusively confined to
the construction of repairs of public Works it
appears to the Governor in Council to be strict-
ly proper that those who may be desirous of
obtaining leave of absence, should forward
their

12465 Fort St. George 24th September 1813.

their applications to Government through the regular Channel of the Commander in Chief, transmitting, however at the same time a copy of their applications to your Secretary for the information of your Board.

7. And the only remaining part of your draft, which has not received His Excellency's approbation will be found among the rules respecting Civil Buildings at the Presidency.

8. In the 6th paragraph under this head, alterations has been deemed indispensable to avoid the inconsistency of submitting to the Chief Engineer, as at present required, plans and estimates which have been sanctioned by the Government, and to define that the only object of the reference to that Officer, is that the Government may have the benefit of his opinion as to whether the plans drawn by the Superintending

12468 Fort St. George 24th September 1813.

to the Superintending Engineer Presidency Di:
:vision should with the difference of half in:
:stead of full batta, be similar to those granted
to subaltern Officers holding the situation of
Superintending Engineers divisions—

12. The Governor in Council—
desires that you will submit for his considera:
:tion the draft of a General Order; including
paras 69 to 72, which regulate the future allow:
:ances of the Officers of Engineers and embra:
:cing generally all the other parts of the draft
which it is of importance should be immedi:
:ately published for the information of the
Army—

13. The attention of the Governor
in Council has been given to the more legible
mode of examining public buildings, than
that which is at Present in use, adverted to

in

12469

Fort St. George 24th September 1813.

in the 10th paragraph of your letter, and His Excellency would be led to expect every advantage from its adoption but the numerous and remote points at which public Works are carrying on, and the constant demand at each separate station for the services of the appointed Surveyor; afford too much room to doubt the practicability of of meeting with a sufficient number of scientific Officers, whether of the Engineer Corps or of the line, to admit of its general introduction. And it is obvious to remark that if the persons selected were not qualified to judge of the works surveyed in a professional manner, no possible advantage could result from the appointment.

14. With reference to the subject of the two concluding paragraphs of your letter, the Governor in Council has directed

12470 Fort St. George 24th September 1813.

directed me to notice your irregularity in augmenting, under any Circumstances, the establishment of your office without the previous sanction of Government. But on the grounds upon which you were led to consider that your Secretary and Accountant could not dispense with this additional assistance, His Excellency has been pleased to grant you authority for entertaining two writers in addition to the number at present allowed for your office on the monthly salaries, which you have recommended. And as this encrease of establishment is stated to have taken place on the 1st of May last, His Excellency in Council is further pleased to sanction your actual disbursements on this account from that date.

15 I have it in Command herewith

12538 Fort St. George 24th September 1813

on-to the investigation necessary to establish the fact, I have strong presumptive Evidence that a deficiency to the extent of Sixty Thousand Pago-=das has existed in the King's Troops Department in this Office for some Months back- This infor=-mation was conveyed to me by a Native Writer and as Mr. De Silva the Head Clerk could not satis=-factorily explain the circumstance, I have in the mean time until other steps can be adopted for further Security taken a Paper from him of which the enclosed is a Copy, and I request to be informed whether any other Measures should be adopted for the Security of his Person and Effects-

It is however a consolation to me to be able to say that having been very particular in never allowing the Keys of the Cash Chest to go out of my own hands, it will be in my power to prove that this deficiency actu=-ally

12539 Fort St. George 24th. September 1813

actually took place during the period when my
Predecessors were Paymasters, and that it was not
sooner brought to light is to be attributed to my
not having Suspected it, but which was owing
in some degree to my not knowing that the Regi=
=mental Paymasters Separate Accounts and the
Accounts with the Accountant General in the
Military Department were distinct, and that
when my Predecessors Severally delivered over the
Balance of the Account sent to your Office it was
Mr. De Silva's duty to have delivered the Balance
due to the Several Regimental Paymasters also
as for their Separate Accounts with the Paymas=

Balance forms the present deficiency as far as
I have been able yet to develope the Transaction.

Sir,

To the Chief Secretary to Government

Sir,

I have the honor to enclose you for the information of Government the Accompanying

12542 Fort St. George 24th September 1813

accompanying Letter from the Presidency Paymaster
Mr. Peter Cherry, on which I beg leave to offer my Opinion
and in acquittal of any responsibility that may devolve
upon me, to solicit from the Government an early investi-
gation on to the accuracy of Mr. Cherry's Opinions.

From Mr. Cherry's Letter to the
Accountant General it appears that he entertains an
opinion that there has long existed a Deficit in
Cash in the King's Pay Office to the Serious amount
of Pagodas 58832.34.8. and in Explanation of this
deficiency Statement No. 1 is also brought forward as
a Document on which this important Conclusion
is drawn. This Statement merely gives the Balance
of the "Regimental or Separate Accounts" of Paymas-
ters for the Month antecedent to my giveing Charge
of the Office to Mr. Cherry. It is here essenti-
ally requisite that I should point out for the infor-
mation of the Government the nature of this Statement

in

12543

Fort St. George 24th. September 1813

in the Kings Pay Office denominated "The Separate Account" In all instances when Paymasters requi= =red money at the Presidency they Short draw their Estimates with the provincial Paymaster and enter an immediate Credit to Cover the Amount. This Open Account has enabled the Paymaster of Madras to debit at his discretion all the Regimental Paymasters with the advan= =ces made for their respective Regiments either in Money or by Transfer Account or for the reco= =very of Retrenchments, but in the Statement adduced by Mr. Cherry I cannot observe that either of these reverse accounts are opposed to the fictitious Balance Eoctracted from the Separate Accounts of May, nor that this reverse Account has been become an object of Mr. Cherrys investigations or attention. I am therefore satisfied in my own mind without further reference

that

12544 Fort St. George 24th. September 1813

that this dyi[illegible] of Money as stated by Mr. Cherry is totally delusive and fallacious and that Gentle= man has not sufficiently reflected upon the importance in an Office of such magnitude of allowing some distinction between an account adjusted and one unadjusted, or of the Serious Con= =sequence that will attach to his Opinion if he has admitted a Suspicion or an Accusation of Crime to be advanced against any individual without some more decided grounds than a mis= =comprehension of an account, which when fully investigated and understood will hereafter be found a Simple subject of enquiry that will unravel itself by the aid of those very materials at present in Mr. Cherry's Custody -

I now beg leave to introduce the Subject of Mr. Cherry's accusation and removal of the Head Clerk in the Office Mr. De Silva. He has

12545

Fort St George 24th September 1813

has Served without any intermission from his
accustomed attention to the Office for the last 26
years, and he has in his profession the most
unequivocal recommendation from all those Gentle-
=men he has Severally served. I have myself found
him always intelligent and industrious. His
Character is now assailed by Mr. Cherry in conse-
=quence of the Accusation of one Thameapah who
is an underling in the Office in the Department
of Kings Accounts. I am myself not aware of the
nature of Tameapah's allegations against Mr.
De Silva, but at the same time it appears only
requesite to point out that this Thameapah if
aware of any Embezzlement in the Office should
at the moment when he was a Servant either
under me or my Predecessors given the informa-
=tion and whatever he may now urge must come
attainted with much infirmity as evidence and

liable

12546 Fort St. George 24th September 1813

liable to every discredit [illegible]

Without my knowledge. Mr. Cherry has demanded from Mr. DeSilva a Bond to cover this Supposed deficit which he has both assented to, and executed.

I have now to solicit from Govern= ment that a Committee may be appointed, and that the Papers mentioned in No. 2 to 5 may be given over to them; and that Mr. DeSilva may be desired to act under the Orders of the Gentlemen Selected for this duty. In framing the Statement of this un= =adjusted Account, Mr. DeSilva is of course the most Competent Clerk to Effectuate as he is master of the circumstances connected with every transaction and indeed the only Person Equal to the ar= arrangement.

It will be necessary in framing this Account that all the Balances brought forward from

12547 Fort St. George 24th September 1813

from each Regimental Account since March 1811 be Separately Scrutinized, when if any deficiency of Credit should transpire, the date of the error will be ascertained and the responsibility devolve upon such Gentleman as may at that time have Officiated as Paymaster, and it further appears a very desirable Object that this unadjusted Account between the Pay Office and Hs. Majesty's Regiments should be finally Closed, as in the event of the removal of any of the Regiments either to England or Change to any other Presidency it would facilitate their release from every Suspended Account with this Government.

I beg leave to Solicit that the Accounts mentioned in No. 1 may be prepared for the inspection of a Committee being the documents that will be most useful in preparing the Account necessary to develope the real State of

the

liable to every discredit [illegible]

Without my knowledge Mr. Cherry has demanded from Mr. DeSilva a Bond to cover this Supposed deficit which he has both assented to, and executed.

I have now to solicit from Govern= ment that a Committee may be appointed, and that the Papers mentioned in No. 2 to 5 may be given over to them; and that Mr. DeSilva may be desired to act under the Orders of the Gentlemen Selected for this duty. In framing the Statement of this un= =adjusted Account, Mr. DeSilva is of course the most Competent Clerk to Officiate as he is master of the circumstances connected with every transaction and indeed the only Person Equal to the arrangement.

It will be necessary in framing this account that all the Balances brought forward from

12547 Fort St. George 24th September 1813

desirable Object that this unadjusted Account
between the Pay Office and His Majesty's Regements
should be finally Closed, as in the event of the
removal of any of the Regiments either to England
or Change to any other Presidency it would facilitate
their release from every Suspended Account with

To the Accountant General

Sir

In reference to my Letter of

the 31st Ultimo - on the Subject of the Supposed defi-

-ciency in the Kings Pay Department as Connected

with the Seperate accounts of the Paymasters of

Regiments, I have the honor to report as follows -

On the 30th Ultimo Tombey a pah

a

Fort St. George 24th. September 1813

due to the respective Paymasters of His. Majesty's Regu=
=ments on closing my Predecessors accounts on the
24th. April 1813, he said they were sums short =
drawn from the General Treasury, and which he
should be able to adjust if allowed time by a
revision of all the Accounts in the Kings Pay
Department, and that if any Balance ulti=
=mately remained which he did not think
would be the case, he would be prepared to
settle the same with the Paymasters themselves=

10th. This explanation being far
from Satisfactory and having as I conceived
strong presumptive evedence that Tombyapah's
information was correct, and not having at
that time, the last day of the Month, leisure
to go into a complete investigation of the
Accounts, I judged it proper pending the
enquiry which I had resolved to commence
upon, that my letter to you of the 28th. Ultimo

relative

12552 Fort St. George 24th September 1813

and as enquired on the accounts to which I referred had been kept back by him, in order to be brought in to a Supplemental Account Current of my Predecessors.

8 It may not be irrelevant here to notice that it had been the practice of the Pay-masters on leaving the Office to close their Official duties by a Supplemental account, and on Account of this description appears necessary when the final adjustment of accounts connected with the Office of Audit render the early closing of them impracticable, but as the Supplemental account is composed of different entries admitted on re-audit and not finally rendered for many Months, possibly years, it is clear that no cash should be kept from the new Paymaster pending such Settlement, but be paid over and held in deposit by him waiting the issue.

9th I then called upon Mr. De-Silva to explain the State of the Balances due

12553 Fort St. George 24th. September 1813

due to the respective Paymasters of His. Majesty's Regi=
=ments on closing my Predecessors accounts on the
24th. April 1813, he said they were sums short =

relative to Mr De Silva's Services prior to my nomination
to the Office and his assiduity since should be re-
called, and I accordingly wrote to you to that effect
on the 31st August 1813 In reference also to the last
mentioned Letter I have addressed you on the same
date stating that I thought I had sufficient proof
that the account of these Balances ought to have
been forthcoming and that I had until such
further steps as might be deemed necessary could
be resorted to, taken a Paper from Mr De Silva
Copy of which I forwarded to you, Acknowledging
himself responsible for any deficiencies that might
appear on the adjustment of Accounts, I had
informed Mr De Silva that having acknowledged
the last Separate Accounts Current with the
Regimental Paymasters and my Predecessors to be
Correct by stating that he could adjust them by
a revision of Accounts it was necessary he should
sign the Paper above referred to, promising the

eventuate securely [illegible] the morning of the 1st. September,
or I should [illegible] my duty immediately to
report to my Superior [illegible] as it there appeared
to me. He replied [illegible] assuring what security I suspected
and requested [illegible] for bringing it might be
changed to 12 [illegible] the 2d. September. I told
him I suspected [illegible] Company's Paper and
that I [illegible] here to the 2d. September to bring it
to my Office [illegible] the Paper in my Presence;
my Head Writer [illegible] and a Native Servant
being also th[illegible] without them Complaining which
I am credibly [illegible] he has since done that
I compelled [illegible] to do it.

11th. [illegible] Having Satisfied my mind
that a strict investigation was essential to get to
the Commencement of this Transaction and to
trace the accumulation of the Balances which would
be a work of [illegible] time and reflecting on the
very Critical Situation [illegible] such I stood Publicly

and

12558 Fort St. George 24th. September 1813

unless upon very strong grounds of belief that the
consequences of any irregularity they might notice
on his would attach to themselves, it was not pro=
=bable Servants so situated would either notice it
to himself or to his Principal. Tambeyaprah the Wri=
=ter who gave the information was not of his appoint=
=ment, he had even banished the Peng's Pay Depart=
=ment when that Office was annexed to the Presi=
=dency Pay Office and he consequently was [illegible]
under any Obligation to the Head Clerk, but it
evinces too strongly to what extent the Controuling
influence and approbation of the latter had
effect when even this man did not venture
to come forward with the exposition of the
circumstances in question till he had ascertai=
=ned that Mr. D Silva was positively on the
eve of quitting the Office entirely.-

15th. Tambeyaprah however most
positively affirms that he did inform Mr. D. Silva
on

12559 Fort St. George 24th September 1813

in presence of a Portuguese Writer. A. Morisse / who
Corroborates the Statement / that the Accounts of the
Paymasters of Regiments ought to be adjusted as
heavy Balances were due to them.

16th . Annamallee another Native
writer in the Kings Department has informed
me that the Separate accounts of the Paymasters
were usually kept by Toombeyapah, but that after
I came into the Office these accounts from M.r
Greenhills time were taken by M.r D'Silva from
Toombeyapah and locked up in his own Desk which
is confirmed by Toombeyapah. Annamallee fur=
=ther declares that about a Month since he
was desired by M.r D'Silva to make out a List
of the Balances due to each Paymaster which
List was accordingly prepared by him. how
is this reconcileable with M.r D'Silva's pretended
ignorance of such Balances being in existence?
The locking up the Separate accounts is fur=
=ther confirmed by William Rawlins a Writer

on

12560 Fort St. George 24th. September 1813

on the King's Pay Office=

17th. Mr. D'Silva states, vide the 9th. Para. of the Letter, that the Balances which appeared due were short Drawn from the General Treasury to ascertain how far this assertion was correct I examined the Indent Book and the Orders from you for Cash from the General Treas= =sury for Payment of His Majesty's Troops, and do not find that any Indent up to that period has not been complied with. I am consequently at a loss on what grounds Mr. D'Silva can pre= =tend to assert that any of the Cash in question yet remains in the General Treasury, but even allowing such was the case, I should have been informed thereof at the time I took charge and refe= =rence would have been made to the accounts of the several Paymasters of His Majesty's Regi= =ments shewing me that the Cash actually delivered over & what remained short drawn at the Treasury together put me in Funds to

answer

12561 Fort St. George 24th September 1813

answer every such demand on that Department
according to the Balances of the respective accounts
18th [illegible] If on a revision of the Accounts
of the Kings Pay Department it should appear monies
were due from the General Treasury the receipt of
that Money will only add to the Balance due to
the Company from the Offices and by no means
diminish the Balances due to the Several Paymas=
=ters, their Balances having arisen in a manner Per=
=fectly distinct as follows whom the Kings Pay=
Department was connected to the Office of the
Presidency Paymaster on March 1811 no Balance
was transferred as then due to the Several Paymas=
=ters of Regiments as will appear by their first
Separate accounts after that date on which no
Balances brought forward. Copies of these
accounts I enclose marked. No. 1. 2. 3. 4. 5. 6.
7. 8. 9. 10. 11. & 12.

19th [illegible] The Paymasters of His Ma=
=jesty's Regiments sent down to this Office an
Estimate

12562 Fort St. George 24th. September 1813

Estimate of what they require on account of their abstract and General Distributions of Subsistence that you may the better comprehend this I shall state the Particulars in one Instance, His Majesty's 22d. Regiment of Light Dragoons. The amount of Subsistence from 25th. March to 24th. April 1811 was Pagodas 5307-13- as before observed there was not any Balance transmitted me to this Office on the Transfer for the Regiment but Paymaster received from the Office on Bank 2600 Pagodas and drew two Bills one for Pagodas 351-5- and one for Pagodas 107-32- leaving for some days Pagodas 2648-76- as a Balance on the Office for which he afterwards drew. but supposing he had not done so it would have been carried to his Credit in the next Separate Account Current, now, for the full amount of this abstract of General Distribution (including the proportion before stated for the Majesty's 22d. Dragoons) was

entered

12563 Fort St. George 24th September 1813

entered in the Disbursements and Credit taken in
the account current between the Honorable Compa=
=ny and the Paymaster of Kings Troops, Consequently
supposing the Paymaster of the 22d Light Dra=
=goons had not drawn the Balance due for his
Distribution of Subsistence from March to April
1811 that Balance would have been at his call
when-ever he chose to do so. The Paymaster of
Kings Troops at the Presidency having had
the Cash actually paid in to his hands, and
even a few Pagodas above the actual Distribution
for that Regiment vide amount drawn on Este=
=mate on account of that Corps for that Month
dated 18th February 1811 In subsequent Months
a Balance on account of this Regiment actually
remained and was carried on from Month to
Month as reference to the Separate accounts
lodged in this Office clearly prove, varying in
amount more or less, it therefore stands to

reason

12564 Fort St. George 24th. September 1813

reason according to my comprehension that as the Paymasters of Kings Troops have regularly entered on their disbursements the full amount of the distribution of Subsistence & have received upon Indent the full amount of their Estimate from the General Treasury, and the Paymasters of Regiments have only drawn a Proportion of their Distribution of subsistence as credited in their respective accounts, the difference in regular course should remain in Cash at their Command in the hands of the Paymaster of Kings Troops.

20th. It strongly demonstrative that the Head Clerk does consider the last Separate accounts of the Regimental Paymasters ending the 24th. April 1813 in the very light I have placed them in the preceeding Para and that he does consider those Gentlemen fully and justly entitled to the amount so stated as Balances (on being informed that

I

12565 Fort St. George 24th. September 1813

I had paid from the Funds which came in-to
the King's Cash since my succession to
the Office Sundry Bills drawn upon my Pre=
=decessor by the Paymasters of Regiments on the
Credit of their Balances and which Bills it
appeared were for sums payable anterior to
my taking charge and therefore to be provided
for exclusive of the Balances as there stated
to be due of which I was not aware, being =
wholly unin-formed at the time. Rev. Mr. D'Silva
voluntarily paid into the Office on the 9th. Instant
the sum of Twelve thousand five hundred
Pagodas/12.500/ and on my telling him that
I had further paid the full Balance due to
Mr. Paymaster White of His Majesty's 89th. Regi=
=ment on the 1st. of April and parts of the
Balances due to other Paymasters according
to the several accounts which were now brought
forward, he said that in a few days he would
reimburse

Fort St. George 24.th September 1813

reimburse me and that in regard to any Bills that might be drawn on account of what was still due, if I would send the Bills to him on being presented to me for payment, that he would discharge them and arrange the matter with the Several Paymasters.

21. On this Spontaneous refund of the sum of 12500 Pagodas it is perhaps unnecessary for me to comment, the fact speaks for itself and I humbly conceive fully warrants the suspicion I entertained and reported of the conduct of the Head Clerk of this Office: it is true, this refund forms no part of the Balances to which my representation referred. But this discovery is rather an aggravation to the ground of Complaint. It shews that there was this further defalcation, for this sum might have been also in deposit in the Rungs (sh Chest, when I took charge and a distinct explanation given me in

reference

1256y. Fort St. George 24th. September 1813

reference thereto-

22d. Instead of which it appears

Clearly to me that Mr. D'Silva must have clan=

=destinely taken it from the Office and from his

desireing of me to refer to him any further Bills

that may be presented by the Paymasters as

well as his promise to make good to me the

payment I have stated exceeding the refund

before mentioned, I submit whether it is not an

obvious inference that he is conscious of having

in the same manner clandestinely appropriated

the whole sum to his private purposes - Or

why thus spontaneously come forward with

a large prompt payment and pledge his

personal responsibility to replace in the Office

or satisfy the Paymasters themselves in regard

to the residue -

23d. On the 7th Instant I Com=

=municated to the Circumstances that had occu=

=red

12568 Fort St. George 24th September 1813

occurred to the late Paymaster / vide Copy of my
letter marked B / with Abstract of the Balances due
and referring to other matters connected with his
late Office here which will come under your revi-
=sion hereafter he arrived at the Presidency on
the 8th and came to my Office as soon as the state
of his health would admit, as however I failed
to impress him with the same view of the situation
it appeared to me he was placed in, from the
abuse of trust in the Head Clerk and not having
been favored with any letter from him tho'
particularly requested, but understanding from
him that he intended applying to the Honora-
=ble the Governor in Council for a Committee
I have no alternative left me to acquit myself of
this very unpleasant duty but submitting my
report thus you to the Honorable Governor in
Council at the same time assenting / as far
as I may be supposed to have a voice / most

readily

12569 Fort St George 24th September 1813

readily to the late Paymasters desire for a Com=
=mittee: to me indeed it will on every account
be an essential relief not only as meeting the
wish of my Predecessor who seems to think
that mode of inquiry more impartial tho' in
the measures I have adopted I feel conscious of
having intended and as I think the event will
prove, have consulted his best Interests. But
the duties of my Office gave me at present full
employment, and in Justice to myself I must
take this occasion to notice and to which you
will bear testimoney that for the short time
I have held this and the Presidency Pay Office
I have been oppressed with the heavy exctra
duty of bringing to Settlement long standing
intricate accounts of the Department to an
enormous amount, which being required with
the least delay in addition to the other arduous
duties which cannot be dispensed with, it

will

To

12637

Fort St. George 24th September 1813

To the Chief Secretary to Government.

Sir,

I have the honor to Enclose you

for the information of Government the accompany-

ing Letter from the Presidency Paymaster Mr.

Peter Cherry on which I beg leave to offer my Opi-

nion and in Acquittal of any responsibility

that may devolve upon me to solicit from the

Government an early investigation into the

Accuracy of Mr. Cherry's Opinions.

From Mr. Cherry's Letter to the

Accountant General it appears that he Entertains

an opinion that there has long existed a deficit

in Cash in the King's Pay Office to the serious

Amount of Pagodas 61,832: 34: 2. and an Expla-

nation of this deficiency Statement N.1.

is alone brought forward as a document on

which this important Conclusion is drawn,

this Statement merely gives the Balance

of

N 65.

From Lieut. J. A. Lucas major, late Paymaster of King's Troops — Encloses a letter and papers received from the Presidency Paymaster, stating that a deficit existed in the cash in the King's Pay Office when he took charge of the Department. Complains that the balance arises from an error in account. Complains that Mr Cherry has removed Mr Defilva the Head clerk in the Office. Requests that a Committee may be appointed to enquire into the facts stated by Mr Cherry.

12638 Fort St. George 24th September 1813

of the "Regimental or Separate Accounts" of Paymasters for the Month Antecedent to my giving Charge of the Office to Mr. Cherry. It is here essentially requisite that I should point out for the information of the Government the nature of this State: :ment in the King's Pay Office denominated "The Separate Account" In all instances where Pay: :masters required Money at the Presidency they Short draw their Estimates with the Provincial Paymaster and enter an immediate Credit to Co: :ver the Amount, this Open Account has enabled the Paymaster of Madras to debit at his discretion all the Regimental Paymasters with the Advances Made for their respective regiments Either in Money or by Transfer Account, or, for the recovery of retrenchments, but in the State: :ment Adduced by Mr. Cherry I cannot observe that Either of these reverse Accounts Are opposed

to

12639 Fort St. George 24th September 1813.

to the fictitious Balance Extracted from the Se:
parate Accounts of May, nor that this reverse —
Account has been become an Object of Mr. Cherry's
investigation or Attention, I am therefore satisfied
in my own mind without further reference that
~~that~~ this deficit of Money, as Stated by Mr.
Cherry, is totally delusive and fallacious and that
that Gentleman has not sufficiently reflected
upon the importance, in an Office of such —
Magnitude, of Allowing some distinction be:
:tween an Account Adjusted & one unadjusted,
or of the Serious Consequence that will Attach
to his Opinions if he has Admitted a suspicion
or an Accusation of Crime to be Advanced —
Against any individual without some more
decided grounds than a Miscomprehension of
an Account, which when fully investigated
and understood will hereafter be found a —
simple subject of inquiry, that will unravel
itself

12640 Fort St. George 24th September 1813.

Itself by the aid of those very Materials at present
in Mr. Cherry's Custody.—

I now beg leave to introduce the
subject of Mr. Cherry's Accusation and removal
of the Head Clerk in the Office Mr. De Silva.
He has served without any intermission for
the last 26 years, and from his accustomed Atten-
tion to the Office he has in his possession the
most unequivocal recommendation from all
those Gentlemen he has severally served. I have
myself found him always intelligent and
industrious. His Character is now assailed by Mr.
Cherry in consequence of the Accusation of One
Thamiaperh who is an underling in the Office in
the Department of Kings Accounts, I am
myself not aware of the nature of Thamiaphs
Allegations against Mr. De Silva, but at the
same time it appears only requisite to point
out

12641.

Fort St. George 24th September 1813.

out that this Thanadar is aware of any Embezzle:
:ment in the Office should, at the moment when
he was a Servant Either under me or my predeces:
:sors have given the information and whatever
he may now urge Must Come attended with
much infirmity as Evidence, and liable to Every
discredit—

Without my knowledge Mr
Cherry has demanded from Mr Desilva a
Bond to Cover this supposed deficit which he
has both Assented to and executed.

I have now to solicit from Go:
:vernment that a Committee may be appointed
and that the papers Mentioned in No 2 to 5 may
be given over to them and that Mr Desilva may
be desired to act under the Orders of the Gentle:
:men Selected for this duty: In framing the State:
:ment of this unadjusted Account Mr Desilva

To James A. Casamajor Esq.r

late Paymaster King's Troops at the

Presidency of Fort St. George.

Sir,

One Mr. DeSilva's leaving this Office I was informed by a Native Writer that the Balance due to the Several Paymasters of Regiments at the period you left the Office, Should be paid into the Treasury before Mr. De: Silva quitted the Office, and as hitherto every transaction Connected with your responsibility has been Conducted by Mr. DeSilva I considered it a duty due to you to Ask from him Some Security, as the Balances that Appeared on an examination of the Accounts were heavy—

The Accompanying Account will Shew the State of the Separate Account of the Several Paymasters ending the 24th April 1813, the period your Accounts Closed with

12647. Fort St. George 24th September 1813.

with them, it also exhibits the Amount of Bills
paid on your Accounts by me, but drawn for, and
included in the Separate Accounts of the Paymas-
ters prior to Striking their Balances, on the
other side you have Credit for Advances made by
you, and Credited by the Paymasters in their
Separate Accounts, also Amount of Retrench-
ments Credited by them and the Balance
ments Credited by them and the Balance
may hereafter be still more reduced by further
retrenchments Credited by the several Paymrs
and which you will Credit the Accountant
General in your last Account Current.

Mr. De Silva has Assured
me that he feels Satisfied the Accumulation
of Balance is owing to som[illegible]s error in
the Public Accounts and p[illegible]xplain
away the whole or greater part o[illegible]y examina-
tion of the Accounts of the Kings and Company's
Pay Offices and most happy shall I be if he
can

can Accomplish his expectations on that head-

I offered him a revision of Ac-
counts and the Aid of any two Writers in my
own Room when I should be ready to Answer
questions, he said he Must have a Room entire-
ly to himself the Accounts equally under his
own Care and that no person on my part was
to be present to this Objected, and thus the
Affair remains untill you can Come to the
Office.

There are some other Circums-
tances Connected with your late employ here,
that will require official Communication
with you, and which I shall forward as soon
as Copied out, I consider it my duty as your
succesor to Answer all retrenchments as far
as lies within my Power by reference to other
Offices or Individuals, but the retrenchments
against yourself I must look to you for

To the Accountant General

Sir,

In reference to my Letter of this

date I am concerned to inform you that without

having yet had time to go minutely into the

investigation necessary to establish the fact:

I have Strong presumptive Evidence that a

defficiency

12650 Fort St. George 24th September 1813

deficiency to the extent of Sixty thousand Pagodas has existed in the King's Troop Department in this Office for some months back, This information was conveyed to me by a native Writer, and as Mr. De Silva the Head Clerk could not satisfactorily explain the Circumstances I have in the Mean time, until other Steps can be adopted for further Security taken a Paper from him of which the enclosed is a Copy, and Request to be informed whether any other Measures should be adopted for the Security of his Person and Effects.

It is however a consolation to me to be able to say that having been very particular in never allowing the Keys of the Cash Chest to go out of my own hands, it will be in my Power to prove that this Diffficiency actually took place during the period when my Predecessors were Paymasters and that

12651 Fort St. George 24th September 1813.

that it was not sooner brought to light, is to be attributed to my not having suspected it, but which was owing in some degree to my not Knowing that the Regimental Paymasters Separate Accounts and the Accounts with the Account: ant General in the Military Department were distinct, and that when my Predecessors servant delivered over the Balance of the Ac: count sent to your Office, it was Mr. DeSilvas duty to have delivered the Balances due to the several Regimental Paymasters also, as per their Separate Accounts with the Paymasters of the Kings Troops at the Presidency, this Balance forms the present Deficiency as far as I have been able yet to develope the transaction. I request an early reply to this letter with reference to Mr. D'Silva's Security, and I shall address you again so soon as the Accounts are prepared to give you full information

Resolution on the foregoing letter.

Resolved that the following letter be dispatched to the Accountant General, and that a copy of the same be furnished to Mr. J. A. Casamajor, late Paymaster of King's Troops, for his information.—

To the Accountant General

Sir,

No 67
To the Accountant General — observes that the transaction which is supposed to have led to the alleged deficiency of Cash in the King's Pay Office, appears to have been a private arrangement between the Officer in charge of the Department and the Paymasters of H. M. Regiments, and that the Government has no direct concern in it. Considers it desirable that an immediate investigation should take place, but explains that, from the information before him the Governor in Council thinks himself precluded from interfering with respect to the enquiry.—

I am directed by the Honorable the Governor in Council to acknowledge the receipt of your letters of the 18th and 22d instant, with their several enclosures from the Paymasters of King's troops, which have been submitted to His Excellency's consideration together with a reference from the late Paymaster on the subject to which they relate.—

The Governor in Council directs me to observe that the transaction, which is supposed to have led to the alledged deficiency in the King's Pay Office, appears to have been an arrangement entirely of a private nature

12656 Fort St. George 24th September 1813.

nature between the Officer in charge of the Depart-
ment and the several paymasters of His Majes:
ty's regiments, and is therefore a matter in
which the Government have no direct concern.

His Excellency considers it espe-
cially desirable that all the circumstances of
the case should undergo immediate and complete
investigation. But in the view, which he has
taken as at present informed, of the question, the
Governor in Council is precluded from interfe-
ring, either to determine, with reference to the
23d para of Mr Cherry's letter of the 17th inst:
tant, the mode in which the desired enquiry
should be Conducted or to decide upon the pro-
priety of permitting the late head clerk, as
suggested in Mr J. A. Casamajor's letter of the
16th to take an active part introducing the error
to its source, and clearing up the doubt in
which the subject is at present involved.

The

Memorandum

12671 Fort St. George 24th September 1813

Memorandum respecting the Ground to the North of Vanniampettah

Mr. Ellis lays before the Committee a Plan of one of the pieces of Ground Mentioned in the letter from the Chief Secretary under date the 24th August 1813 with remarks on the several spots Marked from A to G therein Comprized. From the length of time for which the several Claimants have held possession of this Land it would seem that whatever compensation Government may be pleased to allow ought to be paid to them, though from the circumstance of their possessing neither bills of Sale from the Merasidars nor grants or certificates from Government, they cannot establish a valid Acquisition of the property. If Government should consider the Claims of the Merasidars to be such as to prevent the compensation for the ground being given to the present possessors it the Amount might be

12672 Fort St. George 24th September 1813.

be deposited in the Treasury to be paid to those who may establish their right by due course of law, this may more easily be done, as, if the orders of Govern: ment in this respect were strictly enforced, the whole of this Ground, as being held without grant or Certificate, is liable to Sequestration.

The Value of this Ground as shewn in the annexed abstract has been comput: ted on the Average Valuation of the adjoining lands. The Lots Marked F certainly, and that Marked E probably, are the property of Govern: ment and the Amount at which they are esti: mated Ought therefore to be deducted to shew the total Cost of Ground comprized in the plans

To His Excellency Lieutenant General
The Honorable John Abercromby

Honorable Sir,

No 75
From the Committee of examination in the Hindostanee Language Report on the examination of Cornet Brunton and Lieutenant Brennan in Hindoostanee

Conformably with the instructions conveyed to us in the letter from the Secretary to Government in the Military Department, dated the 6th Ultimo, we have the honor to report the result of our examination of the proficiency made in the Hindoostanee Language by Cornet Brunton of

12682 Fort St. George 24th September 1813.

of the 2d Regiment of Native Cavalry, and Lieutenant Norman of the 9th Regiment of Native Infantry—

Mr. Brunton's translation from Hindoostance into English was executed with considerable accuracy. The few mistakes which appear in this exercise are too trifling to deserve notice.

In translating from English into Hindoostance Mr. Brunton was particularly successful. This exercise was performed with great readiness, and shews that Mr. Brunton has attained a very correct knowledge of the idiom of the Hindoostanee.

Mr. Brunton converses with fluency and ease, and his pronunciation appears to us to be sufficiently correct.

We therefore beg leave to recommend that your Excellency in Council may be pleased to bestow on Cornet Brunton the

usual

12683

usual reward, a distinction to which in our opinion his proficiency fairly entitles him.

In our address to Government dated the 10th of May last, we had the honor to notice the successful result which had attended Lieutenant Norman's endeavours to acquire a correct pronunciation, together with a facility in the colloquial use of the Hindoostance, and we stated the points in which we considered his attainments to be defective. We have now the pleasure to report that he has applied himself with success to the correction of the defects above alluded to, and that the manner in which he has performed the exercises required of him on the present occasion is in every respect satisfactory.

We consider it proper to add that Lieutenant Norman's Hindoostanee composition was written in the Persian hand

without previous communication with, or authority from other the Government or the Military Auditor General

3 The Accountant General having stated different authorities under which he considers himself warranted in the above proceeding it becomes necessary to examine them separately, for which purpose I have copied his Letter and have affixed my observations opposite to each Paragraph, which, I trust, will afford a clear view of the Subject, so as to enable your Excellency in Council to form a just opinion regarding the merits of the question.

4 The Accountant General, it will be observed, has no official connection / regarding these Government duties / with Subordinate Paymasters the Orders therefore which Mr. Garrow sent to please the Officers of the 5th Regiment Native Cavalry under Stoppages were in his [illegible] Capacity

Sir,

I had the honor to inform you that since the Month of February last I have made frequent applications for permission to pass an Examination in Hindoostanee. I was at that time stationed in the Palnaud Dis-

District in Command of the Detachment employed there, and the Head Quarters of the Battalion were then in the Paloonska and Budrachellum Districts. From the very great irregularity of the Tapaul all my letters addressed to Colonel Hamilton were 20 or 30 days reaching him and it required a Correspondent time to receive his answers. On Accounts of some informality in my said letter, as I had neglected to address His Excellency it was returned, a second was sent, which was also returned for having omitted the word "Honorable" before His Excellency's Name, when this was corrected and sent the Corps was continually marching, and in consequence it never reached the Head Quarters of the Northern Division. On learning my promotion & Orders addressed

From the Military Board. 1 Report their opinion of the patterns of Cotts, bedding & clothing, for the use of the sick, constructed under the orders of the Medical Board.

Honorable Sir,

We have the honor to acknowledge the receipt of a letter from the Secretary to Government in the Military Department dated the 9th Instant and to report that the Medical Board having submitted to our inspection the new patterns of Cotts, bedding and Clothing therein adverted to, we are of opinion that the quality of the Bedding and Clothing is excellent and well adapted for the comfort of the sick in Hospital, but with respect to the Cot we are apprehensive from the manner in which it is constructed that it is likely to become in a short time

loose

loose in the Joints and consequently uneasy to the Patient, we would therefore beg leave to suggest that the legs of Hospital Cotts should be secured in a similar manner to those which are now under construction by the Commissariat at the Presidency, and that the Medical Board be authorized to obtain a Muster from that Department.

2 In submitting this recommendation, we are aware that additional expence will be incurred on account of Workmanship, but the comfort of the sick depends so much upon the firmness of the Cott on which they are to lie, that we have considered it our duty to point out the mode by which the inconvenience adverted to may be obviated. The small additional expence will also be fully compensated by the superior durability of the Cot constructed

From the Military Board Represent that it has become necessary to repair the temporary barracks at Arcot erected in 1807/8, & submit, for consideration, whether, in case it is the intention of Govt to keep two Regiments of Native Cavalry at all times at that Station, a permanent place of Arms should not be constructed.

The Quarter Master General of the Army has laid before us the Proceedings of a Committee of Survey on the Temporary Barracks at Arcot which were erected in the year 1807/8, and were the subject of our Report to Government No. 232 under date the 19th of last month, and as it appears probable that some expence must now be incurred in repairs required to these Buildings; we consider it to be a proper opportunity to submit for the consideration of your Excellency in Council whether in the event of it's being the intention of Government to keep two Regiments

no such Accounts are kept.

3 If the Accountant General
should imagine that the returns made by Pay-

to which the Accountant General objects, I beg
to state, that I considered the transfer of
the duties of Family payments from Officers
not under the Accountant General's controul,
to Officers responsible for Regular Securities,
and immediately and directly subordinate to
him as sufficient to warrant the expression
above stated, and I must suppose that
my Predecessor had that view of the change
of system, or otherwise he would have caused
more regular returns of the state of those

7 It is however due to the Accountant General to state that I did not mean by the paragraph to which he objects to advert in any manner to the cause of the unsettled state in which the Accounts were reported by the Accountant General himself to be; that question was not before me - my object was to shew, that, as the Accountant General's Office was the only Department in which those Accounts were kept, that Department alone could furnish the Statements required.

8 To me personally it could not be of much, if of any, importance to which department censure might have applied for having allowed those heavy arrears to accumulate, as I had only 2 days before the date of the Accountant General's report of the

12780 Fort St. George 28th September 1813.

the state of those Accounts succeeded to the Head of the Office of Audit, and I certainly fulfilled my duty in expediting those balances without delay to the notice of Government, and in recommending after ascertaining by due and attentive examination that the existing Regulations were inadequate, the course which appeared to me best calculated to produce an early adjustment of the Accounts.

9 I am fully aware that both delays and difficulties may occur in the framing and Adjustment of the Accounts in question which are certainly under very defective arrangement. I beg leave however to repeat that

included in the regular Estimate of the year.

2 The Amount of this Esti-
:mate is Pagodas 173,504, more than the
Amount of the Prospective Estimate sub-
:mitted from this Department in the
Month of March last - the causes which
have occasioned this difference are explained
in a Memorandum, annexed to the State-
:ment for the information of the Accountant
General, as required by the second para-
:graph of that Officers Letter.

I have the honor to be

Honorable Sir,

Para 1st We have the honor to acknowledge the receipt of Mr. Secretary Woods letter dated the 5th Instant, transmitting for our information and guidance an Extract from the Minutes of the Honorable the Governor in Council dated the 3d Instant.

2d We have now the honor to enclose, to save the trouble of reference to our former correspondence, a detailed Statement of the extent and value of the several pieces of ground required to be taken for the Courtenay and Glacis on the Northern face of the Black Town wall, and also of the several pieces of ground composing the

whole of the Southern part of the Western Esplanade, made, together with an abstract Statement of the value of the entire extent of ground to be occupied, distinguishing that which is the property of Government and that for which individuals are to receive payment.

3d. In preparing these Statements, we have assumed that the ground to the Westward as well as that to the Northward, though not so stated in the Minutes, is to be purchased, as otherwise, though, by the tenure under which it is held, it might be cleared, it could not be occupied by Government; should this assumption be correct the sum to be paid will be Star Pagodas 24921. 6. 57½. but should it be intended that the ground required for the Northern Causeway and glacis only should be purchased, the expence will be Star Pagodas 7366. 93.

4th ... To the Honorable the Governor in Council has been pleased to direct that the necessary funds should be at our disposal to enable us to conduct the negociations with the proprietors without intermediate Agency. We beg leave to Recommend that they be placed to our credit in the Bank to be drawn for as the settlements with the respective individuals may be concluded. We would further Re: Command that the transfer of the Documents held by the several proprietors should be registered in the Cutcherry of the Collector of Madras, that the proprietary right of the land may at any time be defined by the production of a regular record of the transaction.

I have perused the Opinion of

Sir Samuel Toller the Advocate General at Fort St George, dated March 20th 1813, and transmitted to me with your letter of the 17th Instant, and have the honor to state that I concur with him as to the Law relating to Carriers with regard to goods lost or spoiled.

The very question in the present case, is whether the death of the horses was or was not occasioned by the excessive heat of the Weather, and for my Opinion upon this I beg to refer to my letter of the 2d of February last addressed to you and to add, that althó the Master and owners would be liable for defaults or negligence, I think it is at least doubtful whether these responsibilities could be extended as insurers of the hire as far as it has been decided

It appears that Captain Gibson is now in Calcutta, and his answer may influence my opinion, I have the honor submit to the Right Honorable the Governor General in Council, that he should be called upon by the Honorable the Company's Attorney to state to what cause the death of so many horses on board his Ship is to be attributed, and why he gave the Honorable Company's horses water only twice a day, altho' it is stated that he gave water several times each day to his own horses.

enclosure dated May the 7th 1813. and in reply have to state, that I was not to be accountable for any accidents or Deaths that might take place in the course of the passage, neither was any specific quantity of Water to be given to the horses, however I allowed each of them four Gallons per day, that is two in the Morning, and the same quantity in the Evening - my own horses had no more to my knowledge, and I am certain that as much attention was paid to the health of the former, as there was to the latter. It had been often mentioned by me, that should any horse in the opinion of the head horse Keeper, required at any time of the day a little Water it should be given, the only difference between the Government horses, and my own is, that the former were on the upper

12817 Fort St George 23d. September 1813

upper deck, by reason of which my horses had more air probably than those below, but was equally liable / tho' in a different way / to accidents as those horses were in the hold and tween decks, for had bad weather come on, I should have been obliged to have thrown them over board to have made room for working the Ship.

Such, Sir, is the treatment the Government horses has met with on board the Clara & further is my opinion that had it not been for the excessive heat of the West Sea, the horses would have at Mungalore in perfect good health, for while on shore they had Volume as much Water as they could drink, so that on the whole it could not, but that killed the horses, for if you have by the Copy of

the 2d of February and 28th of April last, I have the honor to report that I do not think there is any hope of succeeding in any action that may be brought against Captain Gibson for the loss of the horses which were shipped on board of the Clara at Bussorah.

I have inquired of Mr. Baker who has received many horses from Bussorah what quantity of Water should be given to horses on such a Voyage per day, and he has informed me that three Gallons or three Gallons and a half are ample, and that more might be prejudical, Captain Gibson therefore appears to have given the full quantity.

Copies of Letters from the Secretary at Fort William, and to the Board of Trade— No goods or Stores in a damaged state to be received from the Owners or Commanders of private Vessels, on which they have been freighted by the public authorities at any of the Presidencies.—

Sir,

I am directed by the Right Honorable the Governor General in Council, to transmit to you the accompanying Copy of a letter from the Marine Board at this Presidency dated the 11th Ultimo, and to request that you will inform His Excellency the Governor in Council that an instance has lately occurred, in which this Government was prevented from recovering the value of certain damaged Goods, in consequence of their having been

My Lord,

We beg leave to acknowledge the receipt of Mr. Secretary Tucker's letter dated

dated the 10th Instant, in which we are
required to furnish the necessary information
regarding the Conditions usually stipulated
in similar cases, to enable Government to
judge how far the Owners of the Mary Anne
were justly liable for the loss sustained by the
damage of the Cargo of that Ship.—

In reply we beg leave to

state, that with the Owners of Ships on which
Tonnage may be engaged for other goods than
Grain, Salt Petre, Sugar, Ghee and Spirits,
for which there are established rates allowed
for Wastage, the Conditions usually stipulated
are, that they shall pay for such Goods as may
be deficient or damaged at the Invoice Cost
and Charges of the Goods, and refund and pay
back to the Honorable Company the amount
which may have been paid to them on
account of the Freight thereof, and these
Conditions have not been remitted in any

instance

instance, except where the Officers of the
Honorable Company at the Port of discharge
have received and taken charge of the
damaged goods

3 As a further Check upon
Owners and Commanders of Ships, we purpose,
on all future occasions of engaging Tonnage
to insert a Clause fixing a Penalty of 30 per
Cent upon all goods damaged or short delivered
over and above the Invoice Cost, Charges and
Freight of such goods, and as this measure
will necessarily give the Owner a Claim to
the rejected Goods, we would suggest that
the different Governments and Residencies
may be advised of the Conditions generally,
and requested to issue such Orders as
may be deemed advisable to their respective

President's Minute

Fort St. George

29th September 1813

The general appearance and very efficient condition of the formed Detachment of the proposed Rifle Battalion having particularly attracted the notice of the Earl of Moira on the occasion of his reviewing the Troops composing the Garrison of Fort Saint George on his late visit to this Presidency, I was induced fully to explain to His Lordship the intentions of this Government with respect to the formation of a Rifle Corps, and informed him that the arrangements were at present suspended in consequence of the subject being under reference to the Supreme Government.

No. 3

President's Minute — Proposing under Lord Moiras acquiescence in the formation of a rifle Corps that it should be immediately completed by 10 Volunteers from each Battalion of the line, whose appointments should, in the first instance, be supplied in the mode pointed out in the G. O. dated 13th October 1812; and that the Men of the Volunteer Battalion be permitted to join any battalion in the service, except 1st Infantry battalions.

12838 Fort St. George 1st. October 1813

Lord Moira having enumer=
=rated the advantages which must result
from an establishment of Light Troops, and
having signified his entire approbation
of the principle upon which it was proposed
partially to introduce the System at this
Presidency, His Lordship requested I
would with the Concurrence of the Board,
immediately adopt such preparatory
measures as appeared to be calculated
to expedite the completeformation of the
Rifle Battalion on full authority to that
effect being officially transmitted from
Fort William

The late Commander in Chief
in the Minute which he recorded on the
6th July 1812 recommended that a Batta=
=lion of Rifles should be raised by Con=
=verting the present Volunteer Battalion
into

12839 Fort George 1st October 1813

into a Rifle Corps — This measure, has already been partially carried into effect. — upwards of 200 men of the Volunteer Battalion are Cloathed, armed and dis=-ciplined as Light Troops — No alteration has been made in the dress and appointments of the remaining part of the Corps. — The Battalion in this singular and disorganised state may therefore be considered as inefficient and unfit to perform any Service —

It has been reported to me that few, if any of the Men of the Battalion that are still equipped as regular Infantry, from being under the proper height or from other causes can be transferred to the Rifle Battalion — I therefore propose that all the men of this description shall be permitted to join any Battalion in the

12842 Fort St. George 14th October 1813

Broad Cloth Cloaks once in Six years.—

Upon every principle of justice a similar indulgence should be extended to the Rifle Battalion, for independently of that Corps being formed on the same System, it would be unreasonable to expect that the Volunteers from other Battalions, and who may have lately incurred a Considerable expence for Turbands and Knapsacks, should in joining the Rifle Corps be made subject to any charge for renewing these articles to make them uniform with the dress established for this Corps.—

The above arangements will I conceive fully meet the intentions of the Earl of Moira, and the other points connected with the permanent establishment of the Battalion can be deferred until authority is received in a more Official form from

12843 Fort St George 1st October 1813

from Bengal.

No. 4
Minute thereon

The Board concurring entirely in the Suggestion offered in the foregoing Minute:—

Resolved that authority be given for the immediate adoption of the measures thereon recommended, preparatory to the Completion of the Rifle Corps and to the final reduction of the Volunteer Battalion.—

The former Corps will accordingly be completed by ten Volunteers from each Battalion of the line, whose Arms, accoutre=ments, dress and appointments will, in conformity with the General Order of 13th October 1812, be provided in the first instance at the expense of Government. And the Native Commissioned, Non-Commissioned, rank

12844 Fort St. George 1st October 1813

rank and file will also be entitled to the further indulgence granted by the same General Order of Europe broad Cloth Cloaks once in six years to be supplied and charged in the manner therein pointed out.—

The men still remaining on the strength of the Volunteer Battalion will have the option of joining any Battalion in the service (Light Infantry battalions excepted) to which they may individually give a preference and they will accordingly be transferred to such Corps as they may select.—

The Commander in Chief is requested to issue the necessary orders for carrying the foregoing resolutions into effect. And His Excellency will be pleased to make such arrangements for posting Native Commissioned and Non Commissioned Officers

12845 Fort St George 1st October 1813

Officers to the Rifle Corps, as also for dispo=
=sing of the Native Officers of the Volun=

to that Corps, as may appear to His Excel=

Sir,

To enable me to recover a retrench=ment made by the Military Auditor General from the disbursements of the late Paymaster Mr. Casamajor, I have to solicit the interference of His Excellency the Commander in Chief on the following subject.—

Serjeant

12847 Fort George 1st October 1813

Sir

Sergeant Saunders Conroy late of His Majesty's 89th Regiment and Corporal Robert Maxwell late of His Majesty's 22nd Regiment of Light Dragoons were appointed Acting Conductors of Ordnance by the General Orders of the 26th of February and of the 5th of March last – the G.O. of the former date expressed that Mr. Conroy should receive the pay of a Conductor and that of the latter date that Mr. Maxwell should receive the pay and allow=ances of the same rank:–

Messrs. Conroy and Maxwell did duty together in the Ordnance as Acting Conductors and did not conceive that it was intended that one should receive nearly twice the aggregate salary of the other, I drew for both the Pay and half Batta of Conductors but as the word "Allowances" was omitted in the G.O. appointing Mr. Conroy the Military Auditor General has retrenched his half Batta.–

I

I trust that through the interference of His Excellency the Commander in Chief the retenchment will be removed, It was not I am fully convinced intended that Mr. Maxwell's Salary should exceed Mr. Conroy's during the period that both acted as Conductors. —

From the Military Board — Report regarding the State of the Bazars at Wallajah-bad; particularly noticing the difficulty of procuring wholesome food for the Troops.

In our report of the 10th June last No. 15, we had the honor to acknowledge the receipt of a letter from the Secretary to Government

Government forwarding for our Consideration a Copy of a letter and its enclosure from the Magistrate on the Zillah of Chingleput on the subject of the Bazars in the Cantonment at Wallajahbad, and we now proceed to state our Sentiments upon the subject of that reference.

2 The Magistrate in submitting Lieutenant Colonel Fletchers' letter to Government appears principally to have confined his observations to the expediency of establishing a Cutcul subject to the Controul of the Officer Commanding as proposed by that Officer and to the difficulty of preventing the introduction of Spirituous Liquors, we shall therefore in the first instance advert to the remarks upon these points.—

3 Mr. Coleman has we Conceive sufficiently pointed out the

benefit could result from the substitution
proposed by Lieutenant Colonel Fletcher,
all that can be necessary so far as these
Police Officers are concerned is, that they

Establishment of Peons can effectually prevent the Clandestine introduction of Liquor into Stations where European Troops are quartered situated as Wallajahbad is, the present Establishment of Peons more extensive than that proposed by Lieutenant Colonel Fletcher is not adequate to ensure the object of detect=ing the persons engaged in those transactions, and we do not consider that the appointment of a Cutwal would tend in the least to remedy this evil.

4 Having adverted to these two points, we have the honor to observe that as Lieutenant Colonel Fletcher appeares to us to refer particularly to the inconvenience resulting from the System of supply which obtains at Wallajahbad, we thought it advisable to direct a letter, of which No. 1 is a Copy, to be addressed to that Officer, and his reply is contained in No. 2.

10th June last has hitherto prevented me from replying to it. I have now the honor of stating to you for the information of the Military Board that the mode which has hitherto obtained of supplying the Bazars of this Station is so very defective that artificial scarcities of Bullocks Meat and Bazar articles are frequently created by wanton Combinations among the Butchers and Bazar peoples for the purpose of enhancing the prices of those articles of supply, and the privations thereby occasioned have always produced the effect intended by distressing the troops and followers to a degree which has generally excited great uneasiness and not unfrequently Considerable clamour. Deteriorating the grain by wetting it for the purpose of making it swell and mixing ashes, and dust with it to make it measure so much the

more is a practice so common with the
Bazar People at this Station that Complaints
of the Rice being in this manner rendered
useless as having no substasice and affording no
nourishment are constantly made by those
who are nevertheless under the necessity
of purchasing it for immediate sustenance.—
The Merchants carrying
grain thro' the Country are prevented from
bringing it to this Bazar. The Bazar people
meet these Merchants at the distance of
some Miles from the Cantonment, buy from
them a certain quantity of grain and in=
=variably find the means of prevailing on
them to carry their grain away in a different
direction or whose destination is for the
Presidency to deviate from the direct Course
thither, so as to avoid this Cantonment and
thereby not to interfere with their profits

constantly supplied with the Connivance
certainly of the Gillah Deons stationed here
who could easily prevent this mischief but
tho it is their duty it is far from being their
interest to do so and if the performance
of their duty is injurious to their interest
we can hardly be justified in the expectation
that they can be made to perform it. I now
beg leave to state that the venders of grain
at this Station are principally Oil Men;
a cast held in great Contempt and in no
slight degree of abhorrence by the other
tribes of Hindoos and judging from the
practices which obtain among them partic-

Minute thereon.

The Board concur in opinion with the Military Board that the object of preventing the introduction of Spirituous Liquors into the Cantonment of Wallajahbad would not be essentially promoted either by the establishment of a Cutwal subject to the control of the Officer Commanding as proposed by that Officer or by the small addition to the present number of Peons stationed in the Cantonment as recommended by the Zilla Magistrate. They Consider it therefore inexpedient to adopt either of those suggestions.—

But with reference to the subject of the Concluding paragraph of the foregoing letter, the Board resolve that Copy thereof and of its enclosures be transmitted to the Magistrate, and that his attention be immediately and especially directed to the application of means calculated to remedy

the

12889

the defects thereon noticed, and to ensure due supplies of wholesome food to the troops at that Station.—

Should it appear to the Magistrate that the arrangements necessary to the accomplishment of this desirable purpose are not within the reach of his authority, he will report the difficulties that may occur for the information and further orders of the Government.—

Sir,

In answer to your letter of the 19th August I have the honor to enclose for the information of the Military Board a list of the prices of articles used in building together with the rates of hire of different artificers at this Station.—

I beg leave to observe that as a place of Arms and an Hospital are absolutely

absolutely necessary and likely to be so from its being probable that certain number of troops will continue to be stationed here where the Collections of the Northern half of this district to a large amount are deposited that I should recommend two buildings to be constructed capable of containing the arms and sick of two Companies of the red Stone so much used on this Coast roofed in with Bamboos and Beams of Jungle wood — such buildings from the great durability of the Stone would last for many years and might be constructed at an expence of about Star Pagodas 300. —

In answer to the Second Para=graph of your letter no buildings can be procured here for hire which would permanently answer for these purposes and should — a immediate directions be given for the erection of such buildings as I have already recom=mended

No. 25

From the Military Board — Submits an Estimate, for extending the Kings Barracks in Fort St George, amounting to Pags. 66,568: 37: 19 with various other Estimates, and, with reference to Estimate No 8, the Board submit that it will not be advisable to sanction the larger proportion of its amount for rebuilding the Compound

Wall

Honorable Sir,

With reference to our report of the 1st July No. 188 we have the honor to submit Plan and Estimate for extending the upper and lower ranges of the King's Barracks in Fort Saint George in a northerly direction

12901 Fort St. George 1st October 1813

direction and for Completing the Rectangle
Wall of the bar= on the same plan, as also for building 11
=racks.— Cookrooms and necessaries on each side of
Fraser's Magazine, amounting to Pagodas
66,568 " 37 " 19
2
We have likewise the honor
to submit and recommend the following
Estimates, Viz.t—

Estimate for putting up Pegs
for 2,000 Accoutrements in the Sepoys Bar=
=rack situated near the Water Works in
the Black Town, amounting to Pagodas 156.
39 " 33— called for in consequence of a letter
from the Town Major. under date the 19th
August.—

Estimate for repairing the
Compound Walls, Gateways and Guard rooms,
and enclosing the Public Buildings of the
Ingeram Factory, amounting to Pagodas
851 " 28 " 48.—

Estimate

Miscellany

12902 Fort St. George 1st. October 1813

Estimate for repairing the Beating House Ingeram Factory, amounting to Pagodas 648. 38. 66.—

Estimate for repairing the Wash Houses at the Ingeram Factory, amounting to Pagodas 374. 43. 78.—

The Estimates numbered 3, 4 and 5 have been prepared in Consequence of the orders of Government under date the 1st. of February last.—

Estimate for Constructing two Hospitals with Out-houses for the Sick of two Regiments of Native Cavalry, agreeably to the Accompanying Plan, amounting to Pago=das 2676. 23. 12.—

Estimate for converting the native Hospital at Arcot into a Chapel agreeably to the accompanying Plan, amounting to Pagodas 70. 7. 42.—

The

12903 Fort St. George 1st October 1813

The Estimates numbered 6 and 7 were called for under the Orders of Government dated the 1st of May last, and with reference to our report of the 12th August No. 227 we beg leave to state our opinion that the Arrangement proposed by the adoption of the Estimates now submitted will effectually provide for the due performance of Divine Worship at Arcot, as also that if two Regiments of Native Cavalry are to be stationed at that Cantonment, separate Hospitals should be constructed.—

Estimate for raising and repairing the roof of the Out houses, rebuilding the Compound Wall, pointing the floor and white washing the interior of the Barrack, new gravelling the Barrack Square and Surrounding Yard, and constructing a new Gate to the entrance of the old European Barrack Yard in the

lower

12904 Fort St. George 1st October 1813

Lower fort of Bellary, Amounting to Pagodas 1616: 39: 49 This Estimate was called for by us in Consequence of the Proceedings of a Committee of Officers who Surveyed the Barracks — The Committee however in their Proceedings only recommended that the present walls of the Compound and Outhouses which are 7 feet high should be raised to the same height as those of the new European Barracks viz.t 10 feet, but the Superintending Engineer being of opinion that the Compound wall from being built of Stone in Clay is incapable of sustaining any additional height he has proposed to pull it down altogether, and to rebuild it. —

The expence of this measure as exhibited in the Estimate amounts to Pagodas 968. 16. 23 1/2 and on reference to our records we find that the present wall was Constructed in the year 1807/8 under an

12905 Fort St. George 1st October 1813

an Estimate sanctioned by Government on
the 9th March 1807, at an expence of Pagodas
940. 25. 66 – it therefore appears to us to be
unnecessary at the present moment to sanction
this additional expenditure and we cannot
recommend it to your Excellency in Council –
should Government concur in this opinion,
the amount of the Estimate to be sanctioned
will only be Pagodas 648. 18. 25 3/4 –

We have the honor to be
Honorable Sir,
Your most Obedient humble
Servants

From the Secretary to the Board of Trade—Requests to be informed of the exact Nature and extent of the indulgence

Sir,

Para 1st

With reference to the Resolution of Government under date the 27th of October last exempting

12963 Fort St. George 1st October 1813

indulgence intended to be allowed to Officers under the Resolution of Government dated the 27th October last "exempting from duty all articles of Military appointment Commissioned by the Officers of any Corps for their own use—

"exempting from duty all articles of Military appointment Commissioned by the Officers of any Corps for their own use," I am directed by the President and Members of the Board of Trade to request that you will lay before His Excellency the Governor in Council the accompanying Extract of a letter from the Collector of Sea Customs, originating in an application lately made to pass free of duty a box of "Military uniform," and which the Board under the Resolution above quoted conceived it proper to accede to.

2d The articles particularly mentioned in the Correspondence upon which the Resolution of Government was founded, are Epaulettes and Lace: but as doubts are entertained as to the exact nature and extent of indulgence allowed to

Officers

12964 Fort St. George 1st October 1813

Officers under the order for exemption, I am directed to submit that the Board are desirous of being furnished with a list of the articles of dress and accoutrements considered as comprehended by the term military appointments, and to be informed whether such articles be entitled to exemption in case they be imported in the same package with goods liable to the usual duty.—

Extract of a letter from the Collector of Sea Customs to the Secretary to the Board of Trade, dated 20th September 1813.—

"With regard to the latter article of Military appointments, I may have erred in the construction which I gave to the orders of Government conveyed to me in your letter of

12965 Fort St George 1st October 1813.

of 3d November last. The application to which that order referred, was on account of a Commission sent home by the Officers of a Corps collectively for articles of regimental appoint-ment, and the decision of Government signified that the Honorable the Governor had been pleased "to resolve that all articles of Military appoint-ment Commissioned by the Officers of any Corps "for their own use be exempted from the payment "of duty" I certainly did not consider this order as applicable to the importations of individual Officers which are not always composed wholly of articles of Military appointment, the difficulty of seperating the items which may come under this denomination would render it extremely tedious to make a separate account of this nature, and the importations of this sort are when taken in full amount of their value, often to such an extent, as to make the Charge

of

of duties of some Consideration — Beg leave to state, that such articles as have been imported Commissioned by Officers of Corps subsequent to the orders of 3d November last have been passed free of duties as there directed. — I have now to request the orders of the Board relative to the extent of the exemption which is in future to be admitted." —

Honorable the Governor in Council

Madras

Sir,

I have the honor to request that you would be pleased to lay the following circum= =stance before the Honorable the Governor in Council. —

No. 31

From Lieutenant Colonel James Watson — States that a retrench= =ment stands against the Paymaster of the Regiment, on account of part of the value of 1000 pair of cloth Trowsers supplied to the men, when at Ro= =drigues by the Madras Govt. — Captains that their whole value has alrea= =dy been stopped, & requests that the re= =trenchment may be removed. —

On His Majesty's 14th. Regiment proceeding against the Isle of France the latter end of the year 1810 they were on their arrival at Rodrigues furnished with 1000 Pair of Cloth Trowsers by the Madras Government to be charged to the men (as per a Memorandum given to the Quarter Master of the Regiment at the time (at the rate of Pagodas 1. 13 25 33/100 ₰ pair. — which were accordingly charged to the Men at that price

12968

Fort St. George 1st October 1813

A short time previous to the Regiment leaving Java the Charge for these Trowsers was transmitted to the Deputy Paymaster General at Batavia and by him deducted from the Regimental Abstracts, as follows

		Rs.	F.	C.		Rs.	F.	C.
900 Pair Green Pantaloons at	1	25	58	28/32	Amount	1444	32	28

leaving a deficiency to meet the Charge of Sicca Rupees						361	2	10

Which Difference appears to arise from part of the Cloth being Charged as Pantaloons

at

12969 Fort St. George 1st October 1813

at a higher rate than the Trowsers.—

The Regiment being now reduced to near half the strength they were at the period of receiving the above Trowsers, it would now be impossible to make any additional Charge to the Men And as the Regiment did not receive any Pantaloons, but Trowsers only which were all charged to the Men at the rate of Pagodas 1.. 18.. 25 33/42 Fr. Pair as per Memorandum received with them.—

I trust the Honorable the Governor in Council will be pleased to Cause the above difference of Sicca Rupees 361.. 2.. 10 (arising from Pant being Charged as Pantaloons at an advance rate) to be repaid to Captain [illegible] Acting Paymaster of His Majesty 14th Regiment who at present personally sustains that Loss.— His Majesty's 14th

Explains the cause of the delay in the settlement of Bills of the Paymaster in

Honorable Sir

I have the honor to acknowledge the

Malabar and Kanara sanctioned by Govt. on the 12th March, 1812.

I have the receipt of the Chief Secretary's letter dated the 10th Instant, with its enclosure from the Accountant General relative to certain Contingent Bills of Mr. Douglas, Military Paymaster in Malabar and Kanara, the adjustment of which was sanctioned by Government on the 24th March 1812, and desiring that I shall explain the cause which may have protracted the settlement of these Bills.—

2 I have accordingly the honor to report that the Bills in question (Nos. 56. 57. 58. 59. 60 and 61 which were inserted in the Register of Extraordinaries for the Month of July 1809) together with several Original Letters Statements &c. connected therewith were received in this Office, as above stated, but before the Bills were passed for payment they with the whole of the original

original documents which accompanied them were returned to Government as appears by the accompanying Copies of Letters from my predecessor to the Judge and Magistrate and Paymaster in Malabar, dated the 11th August 1812 and have not since been received in this Office.

3 I should perhaps notice that duplicates of other Bills to which my Predecessors Letter to Mr. Baber had reference were forwarded by that Gentleman thro' the Medium of Mr. Douglas, and passed for payment in the month of September last, but duplicates of the Bills in question (Nos. 56. 57. 58. 59 60 and 61) have not yet been received, being the cause which has protracted the settlement of these accounts.

4 I beg leave to add that I shall immediately address Mr. Baber on the subject in order to procure the Bills, without

Sir,

Since the receipt of your letter of the 19th May last (as well as of your private Communication on the same subject) I have endeavoured to obtain from Government the original Cotton Bills &c. regarding Mr. Douglas' Contingent Bills, the whole of which were returned by order, after I addressed you on the 6th inst. last — I have not however been able to obtain these documents, but in order to prevent further delay in the

12974 Fort St. George 1st October 1813

the adjustment of the Charges, I beg leave to propose that the parties be directed to make out fresh Bills for the Sums due to them according to your report to Govt and your letter to me of the 19th May last and if you will have the goodness to affix your official Signature to each Bill it together with the instructions which I shall forward to the Paymaster on Malabar by this days post will be his authority for immediately discharging the same including Interest on the demands included in Statement B Copy of which (as returned to me in your Letter of the 19th May) shall be forwarded to the Paymaster for his information and guidance.—

To the Chief Secretary to Government

Fort St. George

No. 37.

From the Town Mayor of Fort St. George — Recommends that a passage to Bourbon be provided, at the public Expence, for a French Woman, the Widow of an Artillery man and her infant, both now in the General Hospital.

Sir,

I have the honor to acquaint you for the information of the Honorable the Governor in Council that a French woman, at present in the General Hospital, the widow of an Artillery man of the name of Tudor, is extremely desirous of returning with her infant Child to the Island of Bourbon, her Native Country which she left for the purpose of accompanying her husband to India in the year 1812. —

Being entirely destitute of friends or the means of support in this Country, excepting what she derives from the humanity of Government in being permitted to remain in the General Hospital, I trust that her application for a passage at the public

public expence will meet with the favor-
=able Consideration of the Honorable the
Governor in Council.—

To transmit to you for the information of His Excellency the Governor in Council, the annexed Copy of a letter received from the Secretary to the Medical Board at this Presidency under date the 21st Instant, communicating the discovery of an Insect, the Meloe Tricanthema in the upper Provinces, which possesses in a very superior degree, all the qualities that are found in the Lytta Vesicatoria or Spanish Blistering fly; and to State that large supplies of this Insect can be sent round to Fort Saint George for the use of this Presidency, provided it is the wish of His Excellency the Governor in Council that they should be forwarded from hence.—

Sir,

The Medical Board beg
leave respectfully to bring to the notice
of the Right Honorable the Governor General
in Council that an Insect, the Meloe
of [illegible] has been discovered in the
upper Provinces, which possesses in a
very Supe[illegible] degree all the qualities that
are found [illegible] the Lytta Vesicatoria or —
Spanish Blistering fly, hitherto obtained
in this Country and in England at a
great expence from the Continent of
Europe.

This Indian fly, the pro=
=duce of our own provinces, which was
first brought to public notice by Dr
Burt

13084 Fort St. George 1st October 1813

for that Insect.—

The Surgeons on Charge of the Medical Depots at Cawnpore and Agra have hitherto during the Months of July and August which constitute the short period for the Collection of the Indian Insect, obtained with great facility the supply necessary for the Hospitals in the upper Provinces and by Communications with the Superintending Surgeons of Cawnpore, and Meerut, the Board have ascertained that the fly may, in Common Seasons, be Collected in quantities to an indefinite extent, far beyond the wants of this Presidency, and perhaps of all India and her Colonies.—

In the provision of an arti=cle of recent discovery, and which has hitherto been required only on a limited Scale, the expence of Collection is of Course greater

12985 Fort St George 1st October 1813

greater than it will prove, when the
demand for it shall be extended, and
experience have introduced facilities in
its Collection, but even under circum=
=stances so unfavorable, the Board have
ascertained, that the Meloe Tuanthema
possesses great advantages in an oeconomical
point of view as well as in respect to
efficacy and utility - The expences of its
Collection and preparation do not at
present much exceed one fourth part
of the Europe price of the Litta Vesicatoria
as Charged in the Invoice of Medical
Stores from London - The double efficacy
of the Indian article, in estimating the
expence should likewise be attended to:
and the reduction in price that will
probably ensue from the causes above

alluded

12986 Fort St. George 1st October 1813

alluded to viz. a more extended scale of Collection, and the improvements which experience will no doubt introduce, must render the Comparison favorable to the Indian fly to an extent that cannot yet be exactly ascertained.—

For these reasons the Board respectfully recommend that His Lordship in Council may be pleased to authorize them, to supply future years, the wants of this Presidency with the Meloe Trianthema or Indian fly - and omit in the Indents for Medical Stores on Europe to be forwarded during the present and subsequent Seasons, the more expensive and less efficacious article, the Spanish Insect or Lytta Vesicatoria.—

The

The Medical Board

having received no information that this fly has been discovered at any of the other Presidencies in India or at any of the Colonies depending on them, it will remain with His Lordship in Council to deter-mine whether it may not be expedient, that supplies for their use, should on a future occasion, be provided in the upper Provinces of Bengal, where the insect is Collected, and whether it may not be proper to convey a knowledge of the disco-very and advantages of the Meloe to the Honorable Court of Directors, as an article which may eventually in a Commercial point of view merit their attention for supplying the Consumption of great Britain.

Sir,

I am directed by the Right
Honorable the Governor in Council, to
acknowledge the receipt of your Excellency's
letter

12990 Fort St. George 1st October 1813

Letter of the 16th Ultimo; and to acquaint you that, under the circumstances stated by your Excellency, it will be advisable, that the sentiments of the Madras Government should be obtained, on the scale of allowances to be assigned to the Superintending Engineers under that Presidency, to serve as a guide to the Proceedings of this Government on the subject.—

The principles on which the arrangements are likely to be founded, appear to be in conformity to the opinions entertained by this Government, with this difference only, arising from local circumstances, that all Timber for Public Buildings at this Presidency, will be supplied from the Naval Arsenal, instead of being purchased by the Commissary General.—
