Fort St. George 30th December 1782.

It must be considered that the difficulties to be encountered by the Agent must increase in proportion to the Nakedness of and want of forage in the country and it is a doubt from the Death and Dispersion of the lower class of People occasioned by the late famine whether a sufficient Number of Bullock Drivers &c. can be assembled - Government must therefore extend their indulgence and support when it is proved to them that difficulties are insurmountable and an increase of expence necessary.

Should the person who Government thinks the best qualified to carry this plan into execution be so fortunate from his cautious as to ease the case of Government to support regularity in office to forward the public Service and to Reduce the expence at present incurred by the Company - he may expect to meet with that approbation which is due to his Success and this approbation in the Opinion of the person who proposes the plan as it is the first and best spur to enterprise as it is the best Reward of merit.

Ordered to be sent in circulation for the consideration of the Members of the Committee.

The Cavalry cannot take the field without Grain - refer to his minute of the 22nd Inst.

The Commander in Chief observes to the Committee that the Cavalry cannot take the field without Grain so as to be in Order for Service and begs leave to refer to his Minute on the subject dated the 22nd Instant which is accordingly again read.

The President observes that all the Grain in Store has long since been ordered to be issued to the Army - whenever

4121 Fort St. George 30. December 1782

whenever called for besides what the Agent has supplied if the Government is not to take the Grain how is Government to furnish it to the Army - The President has no objection to the free market of Grain but in that case the Cavalry cannot expect to be supplied from the stores - Orders have been repeatedly sent to the northward, and application has lately been made to Bengal and Bombay to send large quantities of Grain but till the Grain arrives there will be none in store as the stock is now almost exhausted.

Mr Davidson
is of opinion that
Grain be raised from
the 1st of January
150 P. & G. -

Mr Davidson proposes that the price of Horse Grain from the 1st January next be raised to 150 P. & G. with an Option to the Importers to dispose of it at a free market if they can procure a higher price. but to encourage the Importations of that essential article the Governor and Council to receive Horse Grain into Store till the 31st March next at the above price to prevent it from falling under 150 P. & G. in like manner as has been regulated by the Government of Calcutta, and Fort St. George in regard to Rice.

General Stewart says of Mr Davidson's opinion of raising it to 150 P. & G. but only for 2 months and then left to the option of the Importers

General Stewart - My Opinion is that 150 P. & G. be given certain for good - merchantable Grain for two months to come, and the alternative left to the Importers to sell it freely for more if they can get it - This is an amendment arising from Opinion of the 22^d. in order that Sir John Burgoyne's Regiment may not want for the Horses expected from Bengal -

DA

Port St. George - 30th December 1782.

Mr. Sadlier's Opinion
that the Company
should not pay more
than 100 Pagas &
Garae

Mr. Sadlier — In case of the free Importation
of Grain I am of Opinion that the Company should not be
bound to pay more than 100 Pagas & Garae for what may
be imported to the 31st March next and tendered to the
Company by the Importers.

The President
agrees with Mr.
Sadlier's Opinion.

The President. — The General in his
Letter of the 22nd Instant to Mr. Huston, now before
the Committee having given it as his Opinion that if
Grain were allowed to be imported free as the small Grain
every one would be tempted to buy it, I agree that it accord-
ingly be imported free as the small Grain and in that
case I am of Mr. Sadlier's Opinion that the Company
should not be bound to pay more than 100 Pagas & Garae.

The President also observes that the Committee
have no knowledge that any Horses are coming from Bengal.

The Committee being of Opinion that
Grain should be imported free, resolved that the same
be recommended to the Council accordingly.

The Commander in Chief reports the
Death of Lieutenant James Jones and that Ensign
James Lanner is the Senior Ensign for promotion.

Ensign James Lanner is accordingly appointed a
Lieutenant.

Mr. George Sale appointed a minor subet.

 My Lord & Gentlemen -

From Chief and
 Council of Masulipatam
 will supply Captain
 Edmonds with every
 Article he is in want
 of except 30 Artillery
 Men.

We have been honored with your
 Commands of the 13th Instant, and will furnish Captain
 Edmonds with whatever Bullocks, Stores, &c. he may
 Indent for in consequence of the intended expedition into
 the Commam. Circar Captain Edmonds in a letter to our
 Chief Represents the necessity of his being immediately
 supplied with a Brigade of Iron 12 lbs. with Lumbards
 &c. complete one, Brigade 6 lbs., some entrenching tools,
 & Syring 2nd Lintals and 50, Sascars, together with 30,
 European Artillery Men, with all of which we will
 furnish him as soon as possible excepting the 30. Artillery
 Men with whom he cannot be supplied from these
 Districts because there are only two or three Invalide &
 European Artillery Men in them. Those Men of the
 best Detachment who have been trained to the use
 of great Guns cannot well be spared from this Garrison
 being all we should have to depend on in case of an attack,
 and besides their being Prisoners who have given their
 Parole not to serve against Mysore Ally in the formation
 during the present War, would be presuming & would be
 improper to send them to the Southward of the Kistnah
 We have therefore written to Captain Edmonds informing
 him of our inability to comply with this part of his
 application

I had the honor yesterday to
receive a letter from the Chief and Council of Masulipatam
informing me that it is not in their power to furnish me
with any European Artillery Men, without the assistance of
which the guns would be of little service and since the
charge and direction of such Artillery is not to be entrusted
with even the best Native Artillery Men to this purpose
I have done myself the honor to write the Gentlemen of
Masulipatam and perhaps they may defer sending the
guns till honored with an answer respecting the Europeans
required.

I do myself the honor yesterday of inform-
ing you of the arrival of the two Battalions Captain

My Lord & Gentlemen -

I have the honor to acknowledge
the receipt of your letter of the 18th which I have with
some difficulty deciphered and flatter myself so as to
perfectly understand the instructions therein contained.
The Death of Tipu is a circumstance seemingly confir-
med throughout this part of the country and will undoubt-
edly serve to encourage the Seemmedar and Polygar
already revolted in the former and Cuddapah countries
to renew their efforts to shake off the disagreeable Yoke
they have so long laboured under - The arrival of the two
Batt^{ns} shews them we mean to take a friendly part in
their disputes, and there is nothing Swift for so much as
the arrival of the Guns, Stores and European Artillery
Men / without which it will be useless for us to stir
