My Lord and Gentlemen

I have the honor to acquaint you that, in obedience to your Orders of this Date, I have waited on Major General Sir John Burgoyne Bart. & Co., to deliver to him your sealed Letter. I am authenticated Copy of your G. O. of this Date.

I have also, in obedience to your Orders of this same date, ordered Major General Sir John Burgoyne under Arrest.

On the Subject of Arrest, Major Genl. Sir John Burgoyne desired to put in writing what hereafter follows, signed by him, with my answers, to which was accordingly agreed to.

Q. Am I by Maj. Genl. Sir John Burgoyne — Bart. under a military Arrest, or is consider myself as a State Prisoner?

Answer. I conceive that you are under a Military Arrest, as D. the Adjutant General of the army, have been directed by the Select Committee to signify their orders on the Subject.

Q. Am I confined to my House, or if not, what indulgence am I to expect?

Answer — I conceive from the last Paragraph of the Acting Secretary's Letter, which I have just now delivered as an authenticated Copy of the G. O. by the Right Honble the President & Select Committee, that you are not confined to your

My Assignments to the Nabob Sir we have been lately favor'd with your Letter of Nov.r on the subject of your Deputation of Messrs Sadleir & Staunton to the Nabob Tippoo Sultaun—

Your Letter of the 21st Sept.r also.d we have had an immediate reply, and we note with your Lordship &c. been in daily expectation of receiving the final Orders of the honble the Court of Directors on the representations made to them by your Lordship &c & his Highness the Nabob, in respect to the Assignment. The same expectation & regard to the Letter said to have been received by your Lordship &c. under Date the 5th Sept.r 1782, but of which we were totally uninformed, until your Letter reaching us, have induced us to resolve not to take any further measures, with respect to the Assignment, untill the Company's Orders shall arrive; unless the Exigency of Affairs in the Carnatic shall force us to a more speedy Determination— It has been usual with the Court of Directors & the Secret Comtee to furnish us with Copies of all their Letters to your Providency; but not having yet received any of this nor any intimation of such Letter, having been written; we request that Your Lordship &c. will favor us

In reg and to your Instructions and Commission to Hugh Sadleir & Jonathan Scott we have little to add to what we wrote to you on this genral Subject on the 4th of last month: but we cannot help remarking to you how extraordinary it appears to us, that you should have omitted to make the smallest mention of or allusion to the Treaty between the Company & Mahratta State, in either of your letters

The 9th Article of that Treaty fixed the outlines on which Peace was concluded with us, & the desired Peace, & we presume it the real Ground on which he shaped your advances for the accomplishment of that object. That Peace in Europe, we imagine, would have had but little operation on that Chiefs measures, if his own Situation had not made Peace necessary to him, & if he had not supposed some Apprehension that a continuance of the War might produce, as it undubitably would, the united strength of the English, Mahrattas, & their allies to act against him. Without explanation of this Ground of Negotiation can not remain unknown to the Mahrattas; it may be offensive to them, & may lead to consequences of a very disagreable nature

The arrival of the Bristol has furnished us with means we did not before possess to extend the Danger to the Garison at Mangalore— From the Nabob's long continuance on this Side, we are extremely anxious for the safety of that Place, which at present lies exposed to considerable hazard, in case of a sudden Rupture, or that the Nabob should not be sincere in his Professions of Peace— We have therefore

To the Honble Warren Hastings Esq.
Governor General &c. Council
at Fort William

Gentlemen

We have the honor to forward a Tri-
plicate of our last Letter dated the 26th Instant.

We now enclose Copy of a Letter just
received from Genl. Mathew advising of his having
quitted the Nabob Tippoo Saib & the great extremity
to which the Garrison of Mangalore is reduced by
his denying admission to all Supplies of Provisions.
Other Letters written by the General, since the
interval of this former Dispatch, to ammonitted to
your Government, are not yet received, but we
acquainted you in our Letter of the 16th of having
judged it advisable to send down a body of Troops
upon the footing of Attack for the Garrison of
Tellicherry & to require the service of his Majesty's
Ships Bristol & Isis, agreeable to the permission
given by the Admiral, in hopes the appearance
of such a force would have a good effect upon
the Nabob's Conduct & to be at hand for the Relief
of Mangalore should their assistance be necessary.

The late Intelligence from the
General, requiring still more decisive measures
a Knowledge of which it is necessary should be
conveyed to you with the utmost expedition, We

24

Fort St George 6th January 1784

have now the Honour to transmit You a Copy of a Letter, yesterday addressed to the Brigr. Genl. which fully explains the Dilemma we are reduced to, and the Resolutions we have taken —

We shall be strictly cautious not to act hostilely against the Nabob, unless it should be absolutely necessary for the preservation of Mangalore to use forcible measures to introduce Supplies. He must well understand the advantage he will derive from getting Possession of that Fortress, whether the Event be Peace or War, & we conclude this present measure, tho' in direct violation of the Articles of Capitulation are dictated by that principle. He may perhaps alter his Conduct when he sees the Resolutions we are prepared to make, & we propose, when the Troops proceed to signify to him by Letter, that his Conduct in violating his Engagements has reduced us to the necessity of sending Ships & Troops to Mangalore. That we are still animated with a sincere desire for Peace, and that our Troops will not act hostilely against him, provided he will instantly comply with the Articles & admit the necessary Supplies for the Garrison, with this addition made necessary by his own Conduct & originally demanded by Messrs Sadleir & Staunton, that preventive Securities be settled against

25 Fort St. George 6th January 1784

a surprize, but that in case he shall not give immediate satisfaction on those Points, & open the Entrances of the River which have been fortified by him since the Treaty of Cessation. We are determined to exert all the Efforts of the Ships & Army to introduce Supplies by force ——

Proper Signals have been concerted with the Fort to give exact Intelligence of their Situation & the Nabob's Conduct, so that no acts of Hostility will be committed unless absolutely necessary for the preservation of the Garrison.

We have just received a Letter from the Nabob, in civil but general Terms, wherein he tells us that a Negotiation for Peace is on foot but contrary to the most positive Assurances he had given to General Macleod of the immediate Release of our Prisoners, he acquaints us they will not be released till the Treaty is settled, having already transmitted a Copy of the President's Letter we beg leave to enclose a Copy of the Nabob's Answer ——

Our distress to furnish money to enable us to send our Troops off the Island for this undertaking is inconceivable. We have not received one Rupee of the appointed Remittances from your Government, & as our only Resource we have empowered the Chief at Surat, either

No. 26 Port St. George 6th January 1784

to pass Bills upon you for 20 Lacs for a present Supply which we doubt not the greatness of the Emergency will warrant, or to endeavour to raise that Sum by way of advance on the Security of the effected Bills which we have empowered him to pledge for that purpose. If he should be reduced to draw Bills, we request they may be duly discharged.

President and Governor &c Select Committee

Honble Sir and Gentlemen

A Pilibaid having proceeded some days ago in the Mercury will probably arrive before this can reach your immediately before his departure he was a good deal alarmed by a Packet from Pellicherry which he instantly communicated to me. It contained a letter from Mr Hutchinson at Anjengo to the President & Council at Pellicherry enclosing one from Mr Hipsley at Tanjore which announced the recommencement of Hostilities with Tippoo Saib

Fort St George 6th January 1784

on the other Coast. On looking at the Date of Mr Hippesley's letter, I immediately discovered the whole to be a false alarm. It was written from Tanjore the 31st Augst & says that they had lately heard of the recommencement of Hostilities from the Select Committee at Madras. Thus allowing a few days for the Packet & the time of going between Madras & Tanjore this recommencement must have happened about the beginning or middle of August. Now the Cessation of Arms concluded by Major Campbell & the requisition of the Select Committee at Madras took place on the 2d. It was not finally settled till the 15th. All the operations of Fullarton's army were to depend on Tippoo's ceasing his attack on Mangalore, so that the news of that having happened could not have reached Madras when they sent that advice from Tanjore. But tho' this alarm is not well founded, I have to acquaint you with another which is very serious, & which has induced me to quit the Nabob that I may endeavour to prevent the evils which threaten. For a long time Tippoo has shewn a great unwillingness to leave Mangalore in our possession his martial pride is hurt at the idea of having been baffled, & he is now, I find, determined to take it, either by open force or Treachery. I have

28

Fort St. George 6th January 1784

not ear of his succeeding by the former method, but he has adopted a mode of treachery that will certainly accomplish his Purpose if we don't take the most vigorous steps to prevent him. By a most material Article in the Treaty of Cessation, Tippoo was bound to give us a Bazar, where we might purchase ten days Provisions of every kind, which the Country could afford at a time; & of those Articles which his Bazar couldn't afford, we were to be allowed to receive a month's Consumption at a time from the Shipping; with respect to fresh Provisions & admitting Saltmeat, bread & arrack, he has not behaved very ill; but in every obstacle and hindrance possible, have been thrown in the way of the Commissary's purchasing them for a long time they pretended they had none, on which I sent to Tellicherry for a supply, which arrived here with Mr Gibbard. At first the Nabob promis'd to admit it, but he after-wards stopped it. I wrote to him, I went to him I reasond, I entreated, I threatened, all to no purpose; I got the French Envoy who was Witness to the Treaty, to do the same, he always promis'd fair, but I constantly found he had given contrary orders to his People. By having lived always since the Cessation on our

29 Port St George 6th January 1784

original Stock, there is not now in the Fort more than 20 days rice at full allowance, by going to half allowance it will last six weeks; if in that time they are not relieved they must fall. This is the more distressing as Brigr Genl. Matthews sold to the Arabs more rice than would have victualled the Garrison for two years, from the public stores here. I enclose also Copy of a letter of Instructions which I left this morning with Col: Campbell, which will explain to you partly my views & the situation of things. I dispatch this Boat with my aid de Camp Lieut.t Seton to implore & beseech you to send down the three Battalions of Sepoys, or more, immediately. If you can prevail on Capt.n Burney to come also with the two fifty Gun ships, three, with the Hanoverians will enable me to try at least to force the entrance of the river and throw in Provisions. If the Admiral arrives on the Coast, in the meantime, or any considerable part of his Squadron, I will endeavour to gain his assistance. This induces me to remain on the Coast between this and Telicherry that I may meet the Squadron & assist its help, I do so I can have no doubt of your making as great Exertions on this Letter as on any personal Representations. The consequence of

30

Port St. George 6th January 1784

Tippoo's taking Mangalore will not only be the Loss of that place, but it will enable him and encourage him to dictate the Peace, or prolong the War, as he may think proper. The having Mangalore will enable us to make a good peace, & to carry on the War with advantage. I now know every environ about the place & think if I am supported, I shall relieve it. When the Troops come, a considerable supply of Provisions of all kinds should be sent with them, to be ready to be thrown in at the first blow. I enclose a paper of signals agreed on between Lieut. Col. Campbell and me, which will explain the most material Points to any Ship passing, & to the Fort. I also enclose a plan of Mangalore & Mr Seton is well qualified to give you any further information I have only to add that I understand Tippoo is using the same means of Starvation to reduce Onore.

Since concluding the other Duplicate two Pattamars from Bombay have come on board, one with Dispatches from you dated the 18th Sept. addressed to me or Lieut Col. Campbell at Mangalore & containing a letter to Tippoo, and the other with Dispatches to Pallicherry & Madras. I have sent the Letter to Tippoo on shore & a note to Lieut. Col. Campbell. I have to mention that the Nabob & I parted very civilly: he

Copy

Port St George 6th January 1784

begg'd me not to leave Pettichurry, as he would send
in 15 or 20 Days, Elephants & Camels to carry me to
Seringapatam, according to the former agreement
this, I agreed to, but my going with him will
depend on your Orders, & his behaviour to the
Garrison; the last of which I strongly doubt.
I observe in your Letter that you desire us to
be very cautious in our conversations with the
Nabob. I have been so to the utmost extent of
your Desire. There has been some Loose talk
about the general interest that he had to be
friends with the English & they with him, but
whenever he pressed to know whether we would
assist him against his Enemies, I always
answered I had neither authority or information, to give
him an answer. In answer to that Paragraph
of your Letter hoping to hear of Tippoo's Army
crossing the Ghauts, & the French Troops withdrawn
this & many other Letters I have written to you
will explain the Situation of Tippoo's Army, &
I have also formerly acquainted you that the
French Troops had left his Camp & gone towards
Pettichurry in disgust. I gave them every
assistance in my Power. You may depend
on my always attending to so material a part
of my Duty as sending you frequent & full
accounts of every thing & I hope you don't

32

think you have reason to blame me for any
Deficiency in that Point: I send you the most
accurate List of the Officers & Troops taken with
Genl Matthews at Bednore, which I have
been able to procure, & also a Disposition of
his Forces when Tippoo came against him.
I believe them both nearly right, tho' I cannot
warrant them to be exact. I proceed this night
to Tellicherry, from whence I will forward your
Dispatches to Madras, with a brief State of Affairs
on this Coast to Lord Macartney. I take one of
your Pattamars to send it back to you, the other
I leave to Col. Campbell. This dispatch goes
in a Boat I have hired into your Service, belonging
to Mr Gibbald

One more Honble Sir & Gentlemen
if you have a desire to preserve Mangalore and
its brave troops, enable & authorize me before
my way into it with Provisions, which are
with held by a base & treacherous Enemy
And believe me, as before, yours

H. H.

To Lieutenant Colonel Campbell
Dear Sir

It is with the utmost pain I
find myself obliged to leave you & your brave
Garison once more in a perilous situation

Fort St George 6th January 1784

after so fair a prospect had open'd for your reaping the Laurels you had so nobly won, Gladly would I stay with you to partake of the Hardships which now threaten you, & at the least to die with you; & nothing but the certainty of my going to seek relief for you is the only chance of finding it could move me to depart till our fate was determin'd together. It is however my duty to inform you fully of every thing which I know or suspect of the Rajah's Intentions, & what I hope to do for your Success. It is some time since I doubted the sincerity of his intentions of going immediately to Seringapatam to make the Peace; this I have had the most repeated & strongest assurances that words could convey, that he would do so. By the small supplies furnish'd by his Bunas to the Garrison, I have sometimes suspected that he intended to distress us in Provisions; for which reason, to bring the matter to the test, I order'd a considerable Supply from Tellicherry. Had he permitted us to receive that, my suspicions would have been removed, but yesterday has spread his whole Scheme of Treachery & plaid it in the clearest Light. He sent for me to the Durbar, & after making an apology for having deceived me as to the

Fort St George 6th January 1784

time of his departure for Seringapatam,
fairly owned he did not mean to set out for
some Weeks, he denied that his Articles of
Capitulation bound him to allow us Provisions,
& told me I was at Liberty to depart. By
other good information I find he has declared
publickly he cannot quit this Place without
Provisions, and that he meant to try what
Distress & Force together, can effect. With
respect to the latter, I think for a long while
you may defy him. I have the strongest
assurances that neither Tally nor Bedinot
will find a Cartridge, & this sweet Ragamuffin
can never force you. With respect to distress,
it may be more fatal, & you may depend on
my taking every Step to relieve you by force,
if he persists; in the meantime, address and
temper may do something: all is my desire
that you observe the following Instructions viz.
First. He has promised to let the Corps of the
Boats to land at his own Banksaul & to
furnish us according to the Articles. This, in its
true Extent, he will never do, but get what
you can.
2. Put the Garrison immediately to half
allowance of Rice & Bread, & pray Mean the short
half in morning: this will do much, it will
enable

35

Port St George 14th January 1784

you
enable to hold out near 2 months —

3. Let the Commissary buy as much as possible
even in smalls —

4th 4. He will make little difficulty in giving
you of our own Arrack & bread, much for as
much as you can —

5th 5. Do every thing possible to spin out the
time & on no account yield till the last ex-
tremity; depend on assistance for your
relief if it be possible —

If the Admiral arrives on the
Coast I hope he will furnish me with the
means to force the Points of the River if I find
by our Signals or by communication with
you, it is necessary — Perhaps I may find
other means of relieving you. Believe
me with great Esteem for you and your
brave Garrison

a Boat is come from Bombay with letters
to me from the Governor & also one from
him to your Highness which I now send.
He assures me of his good wishes to make Peace
with you & that he has infinite respect

Fort St. George 6th January 1784

for your great Character; this is the Disposition of all the English Nation towards you, but I fear you are going to change it from bad advice of some men. The Governor says in his Letter to me, that he will send down Provisions to us every month according to the Articles of Capitulation; but what will he say when I tell him you have broke the Articles & will not admit the Provisions? I tell you again that you will not get possession of Mangalore by those means or if you do get it, it would hurt you more than it would do you good. May God direct your mind! What can I say more?

Given on board Ship 9th Octr 1783

I am Sir
Your most obedient humble Servant
Signd Norman Macleod
Brigadier General Macleod

We have received your letter of the 9th Inst. From your letter & other corresponding information & the whole tenor of the Nabob's Conduct, it now appears evident that it is his determination to get possession of Mangalore, if not by force, by starving the Garrison into Surrender. We see in a clear light the Dilemma we are reduced to. Supplies must either be introduced or we must

37

Fort St. George 6th January 1784

submit to that Place falling into Tippoo's Hands
with all the train of bad consequences that
will follow.

Disappointed in our Hopes & deceived
in our opinions of the Nabob's sincerity we shall
make the choice our duty & the interests of the
State point out to us. We will exert all the
force of this Presidency for the Relief of Mangalore, & if the Nabob will not admit Supplies
& comply fully with the articles of Cessation
we will attempt, at all hazards to introduce
Supplies by force. It is however far from our
wish or intention to proceed to such extremities
unless the Nabob, by persisting in his present
Conduct should make an exertion of force
necessary. We had a right from the nature
of the Proposal made by Mess.rs Sadleir and
Staunton & from the Articles agreed to by the
Nabob, to expect to preserve our present
footing during the discussion of the Treaty, or
until all negotiation was broke off: but if
he shall still continue to prevent the
admission of Supplies, we shall not hesitate
to hold such violation of the Articles, or permit
ourselves any longer to be restrained from
opposing the Nabob in his insidious attempts
to possess himself of Mangalore — We

38

Port St. George 6th January 1784

have already sent one Battalion of Sepoys to Tellicherry and have obtained the assistance of this Majesty's Ships Bristol & Isis. The Instructions we then sent down you must have already received. In addition to this force, we shall send down with all possible expedition, the other two Battalions of Sepoys, & fifty artillery men, to be added to those lands at Tellicherry from the Mercury, & the other Vessels. We also expect a further reinforcement of 700 Europeans will be arrived on the Coast before this letter reaches you, which, with the Hannoverians & Sepoys, we trust will form a sufficient force for the relief of Mangalore, should you find by your Intelligence & the Signals from the Fort, that the Rebel still continues to refuse the admission of Supplies & Provisions which will be sent, sufficient with those landed at Tellicherry for the maintenance of the Garrison expected?

We now write to the Admiral, or the Commanding Officers of his Majesty's Ships on the coast to request their assistance & co-operation, & we have to desire you will obtain this Rebel's Conduct fully to the Admiral & the extremity to which the Garrison is reduced by this violation of the Articles, with all other circumstances

Fort St George 6th January 1784

necessary for his Information. We desire the Troops & Stores at Tellicherry may be held in readiness to join those from Bombay as only the notice we shall give you of their Departure & the intelligence from Mangalore; for if we shall find that forcible measures are necessary for the relief of the Garrison, we apprehend it will be advisable for the junction to be formed off Mangalore, & that plan concerted as early as possible between you & the naval Officer, as their Situation will not admit of the smallest loss of time —

The Resident and Factors at Tellicherry will afford you all possible Assistance —

If the Nabob, by a change of conduct should make violent measures unnecessary the Troops will remain at Tellicherry —

One great point of Instruction to them, is on no account to return to Mangalore 'till the release of all the Prisoners in his hands is effectually secured, beyond any possibility of disappointment or delay. The Spirit and Prudence of General Macleod, in relieving the Garrison of Mangalore & Onore, & at the same time observing our Engagements, do him very great Credit & can't fail of meeting a very strong impression upon Tippoo. Mohud Dien Khan is still on this Side the Ghauts, giving out that he means to pass them in a few days, but it seems probable that he will remain in the Carnatic till he shall hear from Tippoo after the Commissioners have conferred with him.

Sir

To General Macleod informing him of the Proceedings of the Commissioners

I am to acknowledge the Honor of your Letter to the Select Committee of the 5th December which gave us most sincere pleasure. The Spirit and Prudence with which you accomplished the Relief of Mangalore, do you great Honor, and I think will contribute much to the speedy conclusion of a Peace with Tippoo; I now send the Lapwing Cutter to carry our Dispatches under a flying Seal to the Captain for Bombay, but with direction to stop at Pettichurry where the Chief is to forward I communicate them to you. You probably have later accounts from Col.l Fullarton than we have. If the Communication be in any degree retarded between our Commissioners & you, there will be many reasons to suspect Tippoo's sincerity in the Negotiation. They are directed to correspond with you regularly & they have informed us that they had written to you immediately after the Receipt of the Instructions from Bengal, which was about the middle of December; I that they should regularly continue to do so. Things here in

Fort St George 6th Janry 1784

The Carnatic continues in the same Situation—

Tippoo said Mohud Dient Khan still continues in it; altho' we had every reason to think from the State of things and his own Declaration that he would have quitted it long since—

The Armistice continues to be most rigidly observed by us, but his People are very irregular— Sometimes furnishes them on our Complaints, but there is often reason to suspect him of Connivance, altho' his Declarations are most solemn to the contrary—

A very short time will open to us what is to be the issue of this business. Our Commissioners will be very short, if they find things different from what they have been apprized by the Letters of Tippoo himself. They will not remain long with him— There is no faith to be put in any of the Mussulman Princes; and therefore I look upon it as a first principle that the effectual release of all the Prisoners whatsoever be secured beyond a possibility of disappointment or delay, before Mangalore be delivered to him—

49 Fort St George 6th January 1784

Our Situation here and the Tranquility of Peace you will find very truly discribd in my letter of 27th Inst. to Mr Sullivan which makes a Member on the Packet.

My Lord and Gentlemen

From Lieut Smith with Intelligence from Said Saib's Camp. Destroyed for many a Provisions, wanting a month's Pay.

Letters of Intelligence from Said Saib's Camp are just come to hand; they come from Persons who have the best opportunities of being well informd, and as their Contents may be of some Consequence, I do myself the honor to enclose an exact Copy, in Mahratta, the Language in which the Originals are written.

Several Convoys of Provisions & Military Stores have within these few days gone from Ginjee to Said Saibs Camp; from the

50

Fort St George 6th Jany 1784

Circumstances, from his Intention to move to Wolpondah, & in short, from the preparations making in his Camps, it is pretty evident that he has some reason to expect a fresh Rupture, should that Event take place, it is unnecessary to say what my Situation must be, in a Place totally defenceless, and where the approach of an Enemy must prevent every future Supply of Provisions — I could only hope for the Sudden movement of our Army to clear the Carnatic of those Plunderers before any Reinforcements from Mysore could arrive —

The Sepoys and indeed every individual of the Detachment, begins to be extremely distressed for money — Bazar Provisions are dearer and our Situation, in every Respect, more disadvantageous than if with the Army or near Madras — I hope these Circumstances will be sufficient to plead for a Month's Pay —

To Fort St George 6th Janry 1784

My Lord and Gentlemen

I have the honor to acknowledge the receipt of your Letter of the 20th Dec.r 1783, enclosing one to be sent to Mear. Mohud Dien Cawny if reduced to Extremities. I am extremely happy in having such satisfactory Orders for the Regulation of my Conduct, & shall make it my first Study to adhere strictly to their Spirit & meaning.

I have hitherto found the Communication with Madras & every other Place I have had occasion to, perfectly open. The interruption of the Tappals, which your Lordship complains of, has possibly happend on this Side the Ghauts. A Tappal stationd between Pollore & Caulvatt had occasion to flog a Servant or Subordinate for neglect with respect to the Letters; the Servant pretending to be a Subject of the Enemy, complaind & said if the Tappal was immediately imprisond. Since this, the Letter from Camp says "the Tappals have been stopped". Whether it is meant that all Tappals have been stopped, or that an Interruption has been occasiond by the Chain of Tappals being broke I cannot pretend to determine.

I shall place more dependence on

Paragraph mentioning that the communication with all places was open. Reports to the contrary, depend on the Annadavs for Supplies of Grain — Mear. repaid the Pettah of Chittapet's demands money to carry on further Works necessary for their Security —

28 to

52

Fort St George 6th January 1784

The Annexed are my own operations for procuring Grain, than in any application to a man who seems to remember solemn engagements no longer than suits with convenience; and obeys the Dictates of Caprice rather than Humanity. I have at present Provisions for 14 Days certain & am not without hopes of laying up a months in the Fort in the course of a few days

I have judged it absolutely necessary for the security of the Detachment to repair the Pettah Wall so as to prevent a sudden inroad from Cavalry & to construct a few defences at the Gate of the ruined Fort. The Sepoys have unavoidably been employed on this Service & I have no doubt but the Right Honble Board will order them the usual allowance. This may conveniently be done if agreeable to the Board by ordering the Commissary to pay for the Labour and charge it to the Account of the Honble Company

It is impossible at present to ascertain the Amount, but it will be very inconsiderable. The Work is going on with Expedition & the Right Honble Board may be assured that the strictest Oeconomy shall be observed in this little Expenditure

My Lords & Gentn.

I last night received your letter of yesterdays date, together with the Extracts of Government Orders, which were delivered to me by Lt. Colo. Malcolm Adjutant Genl. to the Company's Forces. By these in the first place I find you have thought proper to put me in a Military Arrest for having summoned Colo. Stranbenzie & two Captains of the 52d Regt. Mondamallee to attend a General Court Martial

From Sir John Burgoyne containing his Defence against the Charges preferred against him by the Committee for which he has been arrested

55) Fort St George 6th January 1784

on Friday next; altho' I know they had the Select Committee's orders to remain in that Fort; I am the second time, for having quitted the Army the night of the 19th Sept.r last without leave. I therefore now think it incumbent on me to inform you thus publickly, My Lord & Gentlemen, that I formally protest against this Proceeding, first, because by the Articles of War, I can find no Powers in what was vested in you that can authorise your assumption of such Military Powers in regard to any of his Majesty's officers, especially his Commander in Chief; Secondly because you and not enabled to bring me to a General Court Martial, which, by the Laws of the Land, I have a right to, in eight days after my being first arrested. Having therefore submitted to the arrest, it is necessary for me to inform you, that by having done so I by no means acknowledge your Powers, for the recent Example, wherein Major Gen.l Stuart was insulted in his own House, by an armed force, sufficiently proves to me, that if Resistance, if I had made any, would have been in vain. I shall now not enter into any justification of my conduct whatever, but pray you to recollect, that in my Letter of the 30th Nov.r I offered to withhold my Powers, as Commander

56 Fort St. George 6th January 1784

in Chief of his Majesty's Troops in summoning a General Court Martial, provided the Govern.t of this Country ordered me so to do. — The reasons of ordering Col. Straubenzie & the Captains of the 52d Regt. to remain in the Fort of Pondamallee as necessary for the safety of the common Weal, & not attend the Court Martial, when only the day before Col. Straubenzie had returned from Madras, where he had been ordered to remain for a while, & all his Officers, indiscriminately to go backwards & forwards, is a point that I should have thought too poor, too pitiful, & too ridiculous for the Select Com.te of Fort St. George to adopt. Common sense must detect such imposition & the present situation of public affairs must prove the Order not necessary; besides you will please to observe, that tho' in my letter of the 29th Ult.o I still ordered Col. Straubenzie & the Captains of the 52d Regt. to sit the Court Martial, I did not summon them out of the Fort as the Orders sent to the different Regts. will prove; for in them, the members were informed the place of meeting would be inserted in Thursday's Orders, & probably was designed to be at Pondamallee, indeed Your Lordships having refused permission for the Court to sit in

Fort St. George

Fort St George, proves the necessity of its meeting these
on this head therefore I believe you will hardly
be able to prove any disobedience of mine to
your orders — You are pleased to tell me in
your letter that you have constantly been
guided by Principles of moderation & consis-
tency; with those of Consistency, you must
certainly have; for it is there hardly one person
who ever misfortune it had been to have any
transaction with you, since the Right
Honble President's arrival, who has not had
reason to curse the hours he ill stars doomed
him to have any connexions with his
Lordship? His Highness the Nabob, the
Supreme Board, the late gallant and much
revered Commander in Chief Sir Eyre Coote
Sir Edward Hughes General Stuart myself
& many others both in public & private
stations, are Proofs undeniable of your
consistency in one uniform & general Plan
of Tyranny & Oppression: of moderation,
I am sorry it is not in my Power to quote more
Instances than of that in the Case of Major
Genl. Stuart, your late Commander in Chief!
an old Soldier who had lost a Limb in your
Service, whom, after having villified in a Letter
so indecent, that Mons. de Bussy, into whose

hand a Copy of it sell, could not help (tho' an Enemy in Arms at that time to Genl. Stuart) expressing his indignation at the insult offer'd to the whole Profession of Honour & Arms; him, I say, you order'd home in a Sloop generally thought by every body so unfit for the long voyage, that the General himself, after he was on board, wrote me a letter to say it must be a miracle that could preserve his life, even if the Ship arrived safe; the accomodations were so bad, & so unfit for a Person in his helpless situation.

You are likewise pleased to say that from the whole Department of your Office to me, I cannot but observe that it is not without reluctance you perform this part of your duty. I do verily believe it is; but I must attribute that reluctance to a very different motive from that you would wish to insinuate it to be. The time must come, & you know it, when ample Justice must be done me, & then directed by the Systems of Government you must answer for your conduct & the Injuries done the King's Service. I shall only now observe that the words with which you conclude, viz. that you do not mean I should suffer any present inconvenience or personal Hardship during my Arrest are too indefinite & vague.

59 & 60 Fort St. George 6th January 1784

for me to profit by them. I therefore beg to know the conditions of my arrest, to which having submitted, I shall scrupulously adhere.

I am My Lord &c &c

Jno Burgoyne

January 1. 1784

The President delivers in the following Minute

Minute in Committee 6 Jan.y 1784

Had the Letter from Sir John Burgoyne contained any reasons in defence of his Conduct, & had the style of it suited the Character in which he appears, & the Stations of the Persons to whom the Letter is addressed, we should have treated it with the utmost attention & respect; but as Sr. John has declined entering into any Justification at present, and merely contented himself with dealing out general Insinuations against our Government, we cannot make any answer to this Letter, nor would it be possible indeed to frame a distinct Reply to such a mass of random & hasty Censure.

President's Minute on the foregoing Letter.

With respect to the immediate cause of Sr. John Burgoyne's Arrest we are fully perswaded in our own minds and we believe every Person in the Army (except Sr. John

60 Fort St. George 6th January 1784

Burgoyne surmises, & feels that if such a Power as that of calling away upon a different duty Officers especially entrusted by us with Commands were admitted, our Authority, as a Government, must, from that moment, cease. How are we to depend upon the Services of such Officers, if Sir John Burgoyne can order them after as he pleases upon other Duties than those assigned them? To what purpose are His Majesty's Troops sent to this Country, if those entrusted with the Government of it, and who are held responsible for its safety, cannot employ them as they think most conducive to that end? If we admit the Principle that the Commander in Chief of His Majesty's Troops can order an Officer in command of a Company, both or other confidential Duty, on another Duty, let that Duty be ever so short or trivial, what the Principle exists, who can answer for the Practice of it or say where it shall stop? It leads to the subversion of all Government and must soon end in total anarchy and Confusion —

Sir John, in the Letter now before us touches very slightly on the Ground of Justification but is extremely prolix in his attacks. We trust that neither our Employers

(not

nor the World in general, can be deceived for a moment by the angry effusions of disappointment The Epithets tyrannical and oppressive uniformly bestowed on the Conduct of this Government since the President's arrival, lose all their Force, when applied to the particular acts they are meant to stain. We rely with confidence on the judgement of impartial men & entertain a well founded hope, that when the extraordinary Difficulties of our Situation, & the Dispositions of the principal actors in the Scene of opposition we have had to contend with, are properly weighed and considered, what Sir John is pleased to call Tyranny & oppression will appear to have only a proper degree of Firmness in our Conduct, without which, the Company's Possessions must in all probability have been lost

The President laments indeed, most sincerely, that it should have fallen to his lot to conduct the Government at so unfortunate a Period — On his arrival here, he found the affairs of the Company on this Coast upon the very brink of Ruin. A powerful Enemy in Possession of the capital Province and ravaging the Country; our Army at Cuddalore critically situated, straitened for Provisions and considerably in Arrears; no

since

Ruin

62 Port St. George 6th January 1784

Assistance from the Nabob— The Debts of the Company numerous & extensive— the Treasury drain'd to the Bottom & the Credit of the Presidency Government sunk to the lowest degree— To add to these Misfortunes, the Powers of Government were undefined, small, & disproportioned to the Exigency of its Situation— & the Gentlemen at Bengal soon after limited them still further, by granting new & extraordinary Powers to the Commander in Chief— The authority also of the Company's Government & of the Commander of the King's Troops was then & still continues undefined— & Claims of a most extraordinary nature, have in consequence been set up & exercised in defiance of all order, Discipline & Subordination—

This, in a few words, is the Picture of the Scene which the President was destined to act in— He brought no Resentments with him to this Country & had no connections or views in it, which could make him lose Sight of his Reputation, or draw him for a moment from, what, he conceived to be his public Duty— He had been early employ'd in his Majesty's Service & in some Stations, with much greater Power or influence than he possessed here & he has the Satisfaction to think that his Character & Conduct were

marked

with Principles the very reverse of those which Sir John Burgoyne has attributed to him. The Differences in which he has been engaged, have not been sought by him. The Gentlemen appointed to act with him have in all great points unanimously concurred in this opinion. Sir John perhaps thinks it will have an irresistible effect to mention, as he does, with an particular Emphasis, the Disputes in which we have, much against our Will, been involved with the Nabob, the Supreme Board of Bengal. The late Commander in Chief Sr Eyre Coote, Sir Edwd Hughes, General Stuart & himself. To this List, we are surprised he has not added Mr Benfield, who being thwarted in his private Views, became, very early after the President's arrival, a violent Opposer of Government, & the Fomenter of all Disputes. That such misunderstandings should have happened in the Situation of this Government as above discribed, is not so surprising, as that we should have been able to surmount the obstacles which they have thrown in the way of our Endeavours, to restore the Peace of the Carnatic. The Assignments which the Nabob made of his Country, & which we have strenuously maintained, notwithstanding his subsequent

Disputes

64 Fort St George 6th Jan.ry 1784

Opposition, & the Resolutions of the Government
General of Bengal, has been directly or indirectly
the Source of most of the Differences we have had,
but while we are convinced by every day's
Experience, that without the Revenue drawn
from the Carnatic, we must have been
utterly unable to carry on the War. We feel
the truest Satisfaction in the part we have
acted, & deem the Good will of the Nabob, of the
Governor General & Council, or of Sr John
Burgoyne, but a poor Recompense for the
Misfortunes that would inevitably follow
the Surrender of the Assignment.

The President has been led,
very contrary to his own inclination, to
speak so much of himself, as he has done on
this occasion, but Sr John Burgoyne having
particularly pointed his Allusions at him,
he could not suffer them to pass altogether
without notice — and so conscious is he of the
Rectitude of all his Views & Intentions, that
he takes occasion thereto declare his firm
purpose of never shrinking from Responsibility
public or Private, for any one Act of his
Government or his Life.

Read likewise the following Letter
from Major General Sr John Burgoyne Bart.

65 2 Fort St George 6th January 1784

My Lord and Gentlemen

As you have thought proper
to assume the Power of putting his Majesty's
Commander in Chief under a military Arrest
I conclude you have likewise found out
Powers whereby you can try him by a general
Court martial. You having now attacked my
Life, by indicting me for a capital Crime, I beg
to know when you mean to bring me to answer
for the same, at a General Court Martial, which
in 8 days after my arrest, I am entitled to —

The Committee having fully
considered the Purport of the foregoing Letter are
of opinion, that several circumstances attending
Sir John Burgoyne's Situation, operate against and
afford innumerable obstacles, to an immediate,
just and equitable trial competent to a decision
upon the Case in question, & it is therefore resolved
that the following answer be returned to Sir John
Burgoyne —

To Major General Sir John Burgoyne Bart.

Sir —

I am directed by the Right
Honble the President & Select Committee to acquaint

66

To Sir John Burgoyne postponing the Appointment of a Court martial.

I lodge the Receipt of your Letter of the 5th Inst. desiring to know when they meant to bring you to answer for your Conduct before a General Court Martial, which you say you are entitled to in eight Days after your Arrival.

I am, in reply, to inform you that the Circumstances of your Rank and the Station in which you acted at the time of your Arrival, together with the part which Government have found it necessary to pursue in this Country, afford, as they conceive, innumerable obstacles to an immediate, just, & equitable Trial in this Country; & the Articles of War, admit of a discretionary Power with respect to the time of holding the Court Martial they think it their Duty, both in Justice to you & to the cause which they have to support, to postpone the prosecution of the Charges against you until a Court Martial can be conveniently assembled - competent to the Trial of the Case in question when they will be prepared & willing to support with proper Evidence, the Charges which they delivered against you.

I was partly induced to yield to his pressing entreaty, from an opinion he entertained, that Your Lordship, upon a reconsideration of the matter would be pleased to cause some abatement to be made from the balance stated against him, but principally from a voluntary Promise he made, to pay him sum that might appear due, as soon after the Receipt of your answer as possible, I shall use all my endeavours to recover the Amount.

This Sickness prevails in many Villages & has swept away great numbers of Bullocks & Sheep. Cattle apparently in Health are suddenly seized with a giddiness, and so quick in its operation, as to kill them in a few The Inhabitants ascribe it to the moistness of the Grass, if it arises from that cause, I am in hopes that it will soon cease ——

From Fort St. George 6th Jan.y 1784

My Lord and Gentlemen

I have the honor to inform you that I arriv'd this Day with the whole of the Detachment, Artillery, Stores &c. at Ayrapollam, within about 4 Cos of Angole: During my March from the East Side of that Pass, towards Conagherry, I have met with little interruption except between Catahpilla & Punnutgunta, the road being so very deep & sandy as to impede the heavy Ordnance extremely; being only able to gain 5 miles from ten o'Clock of the forenoon till dark. The Coort was obliged to lie upon their Arms all night, the Bullocks being so fatigued as to be totally unable to proceed. From an accident which happened to one of the 24 Pdrs. in going thro' a Village upon a road to all appearance extremely good, the ground suddenly giving way, wherein unfortunately fell into a Paddy Hole, but was extricated in a few hours next day by a Batt.n I detached for that purpose.

from Capt. Brown advising of the motions of the Northern Army

The Rajah of Conidegherry did not give me that assistance I expected, having only provided 100 Draught Bullocks & 100 Sacks Ajas, very insufficient to enable me to march the whole of the Army at once & should have been obliged to continue in the same mode of waiting till the afternoons for the return of the very considerable number of Carriage

11 Fort St George 6th January 1784.

Carriage Cattle, that I not succeeded in Buffaloes which brought up Grain from Capt.n Edmondes. This supply, with what the Rajah collected, enabled me with 2 acute Angoles. The only inconvenience I feel at present is the want of Drivers to the prest.d Draught Bullocks, which are very restive in the traces, being unaccustomed to Europeans, & Nothing else. If no unforeseen accident happens I expect to reach Angole by the 27th inst. when I hope to be honord with your Lordships & the Committees Orders, in regard to the 2 Dr. Stores, as I suppose it is your intention they shall be sent back to Bulloro.

Jerom Riddy, a firm friend & active Polygar accompanies this Detachment with 95 of his Peons, who were taken into Pay shortly after our setting back to Combicum. From his general Character I may venture to presume to recommend him to the Company's Protection having lost, by his attachment to us, what footing he had left in his own Country. I wish to have your Lordships & the Committees directions relative to him. His family are in charge of the Conaghony Rajah at my desire. As he is an Expence to the Company shall in the meantime refer myself to Capt.n Edmonds upon my arrival at Angole how to dispose of him, who is best acquainted with his merits. I could procure

To The Right Honble The Governor and President and Select Committee Fort St George

From Colonel Fullarton I shall keep the army in a State to march where the Committee may order him until he receives their instructions

My Lord and Gentlemen,

I have the honor to inform your Lordship and the Honble Board that I have received a Letter from Messrs Sadleir Staunton and Studleston which I now enclose, together with a letter from the Governor and Select Committee of Bombay and my answers to both these Letters, I have also the Honor to acknowledge the Receipt of your Letters dated 30th September 18th and 22d October 2d and 11th November

83 Fort St. George January 1784

9th November 7th 9th and 10th December transmitted to me by Mr Fletcher by with all the Expedition that the uncertainty of Communication admits your Lordship and the Honble Board may rest assured of the utmost attention on my part of the Instructions contained in these Dispatches, as well as to every other Communication of your Intentions for the Public Service that may be transmitted to me—

The army will probably arrive at Dendegall, on the 7th or 8th January and I shall by that time hope for your Directions respecting the disposal and Distribution of the Troops but until I shall have the honor of your Orders on that Subject I shall conceive it my Duty to preserve the Army in such a State of Preparation, as to enable us to march to Seringapatam or to any other part of Tippoo's Dominions in this Quarter, if you shall find it necessary to renew hostility I have the honor to be &c

Sir,

we are much concerned to find that in consequence of erroneous Intelligence from the Factors at Pallicherry, you have put the Army under your Command in motion, and advanced within a short distance of Palacatcherry — as this proceeding will give cause to the Nabob to call our good Faith in Question and is directly repugnant to formal Declarations made to him by the Presidency of Madras, as well as to those of General Macleod is Authorized to make on the part of this Presidency, it would give us pleasure to hear that on finding on your Intelligence erroneous, you had returned to your former station, we hope at any rate that you have not commenced the attack of Palacatcherry as such a Step may be fatal to our affairs in

independent of the advantage it will give the Nabob in the discussion of his Conduct &c regarding the articles of the Cessation, and we strongly recommend — that you abstain from all Hostilities and return to your former station, unless you receive authentic advice from General Macleod, that the Nabob has rejected the Proposals made to him, and that Hostilities have been actually recommenced — we beg to observe to you &c. that our measures have for their Object, the preservation of Mangalore, and our Footing in Tippoo's Country, until we are at a Certainty, regarding the State of the Negociations at Madras; and though the Nabob has used means to dispossess us, that are not justifiable, there are Objections of the greatest weight and equally affecting the other Presidencies against our having Recourse to Hostilities, before the Expiration of the limitted Period, and General Macleod therefore is not authorized to Commit Hostilities, unless for able measures shall become absolutely &c

by the Right Honble the President and

88

Fort St. George January 1784

16 120 miles since the date of the last letter to you from Messrs. Sadleir and Staunton, we have received from the Right Honble the President and Select Committee copies of Dispatches from the Honble the Governor General and Council, vesting them with full powers to Conclude a Peace with Tipho Sultaun, which powers the Select Committee have been pleased to transfer to us —

We have also received from the Right Honble the President and Select Committee, Copies of Letters to them from the Select Committee of Bombay dated the 25th of October, also from General Macleod of the 4th and 8th November Copies of their Letter to you of the 7th and of their Secretary Letter of the 10th Instant in which you are referred to us for such Instructions as we may now think necessary for your Conduct —

In their Letter to you of the 7th Instant the Select Committee justly supposing Messrs Sadleir and Staunton ignorant of Conduct of Tippoo Sultaun at Mangalore, as commanded by General Macleod, in his Letters above mentioned, when they sent you directions to deliver back Palacatcherry, should Tippoo

persevere

Fort St. George January 1784

10th in breaking the Convention, we impower you to hold your present Possessions, and even to make further Diversions, if such shall be absolutely necessary for the preservation of our Troops in Mangulore, but to retire and deliver back the Places you shall have taken, the moment you shall receive o[ur] authentic Information, of Tippoo's having o[r] relinquished the design of Starving our People at Mangulore, In our present uncertainty with regard to the further Conduct of Tippoo Sultaun, and the measures pursued by him Subsequent to the date of General Macleod last Letter, we can do little more than repeat the above o[ur] Directions, as your Situation enables you to receive Intelligence on these points, much sooner than it can reach us – That your Intelligence and your own Prudence, combined with a knowledge of the great Object so anxiously desired by the Company, and all their Presidencies, and which we are now invested with full Powers and Instructions to effectuate, must determine your Conduct until by Information of the actual State of things on the Malabar Coast, and of the real Intention of Tippoo Sultaun, we shall be enabled to relieve you from so great a share

o[ur]

of responsability, in the mean while in order to
lessen it, as far as is now in Our power - we will
Communicate to you what would be our Opinion
determination in every Supposed case, that at
present occurs to us.

Whatever attempts Suppoo Sultaun
shall have made to possess himself of Mangalore,
by Starving the Garrison, if he shall have desisted from
them, and either have Supplied it himself, or
have Suffered General Macleod to Supply it
effectually with Provisions, we would go so far
before Tippoo Sultaun in a Sacred observance
of our engagements, as immediately to restore to
Palacatchery, and any other Places you may
have taken: But if he shall have desisted
no further, than Supplying the Garrison from
day to day, or week, to week, in Such Case, which
would still leave a failure in his Engagements,
only, tho he would have you cease entirely all
hostilities, we think those places should not be
restored, till you hear further from us, because
after having obliged the Garrison to expend
nearly their whole Stock of Provisions, such
a mode and measure of Supply would by no
means compensate his former greater Violation

91 Fort St. George January 1784.

10 now
of the Agreement, or have its Effects, on the Contrary,
it would be a proof of his determination, to retain
the Power of Starving the Garrison at Pleasure,
and afford strong Ground to suspect that he
intended to resume that design, In such case
therefore the possession of Palacatchery, might
be a Security for the Safety of the Garrison of
Mangalore, by affording us the means of
retaliation, for any act of Treachery or
Violence, that he might attempt against
the latter: where as were we in the Case above
stated, to restore Palacatchery, he might
afterwards possess himself of Mangalore
also, and it might with reason be said,
that we had Sacrificed both those valuable
acquesitions, to a Confidence in his good
faith, which Experience had not justified;
Further, if Tippoo Sultaun shall have
opened his Batteries afresh against
Mangalore, or attempted to take it by Storm,
or Escalade, & you will not restore Palacatchery,
or any of the other Places, tho upon being
repulsed he shall have discontinued such
attempt, and retired from Mangalore, or
Suffered it to be Supplied with Provisions

because

of

Security

10th because the attempt would be equally atrocious on his part, whether it succeeded or not, and would convince to the whole World the Necessity and Justice of availing Ourselves of every advantage we possess, or can obtain, over so perfidious an Enemy. Lastly there is another case, to which General Macleod's Letter of the 4th November seems to render probable, namely, his being Compelled to attempt to relieve the Garrison of Mangalore, or to convey Provisions to it by force, in that case should Tippoo Sultaun oppose the attempt, whatever may be the Event, you will not restore the Places you have taken but in either of the two Cases last mentioned, Should Tippoo Sultaun prove unsuccessful, and afterwards discontinue hostilities, you will do the Same on your part, but if on the Contrary he should Succeed in an attempt to take Mangalore, or to prevent General Macleod from Throwing Provisions into it, you will in either Event Consider the War as renewed, and take your measures accordingly ——

We indulge an hope however

93 Fort St. George January 1784

14 That when Tippoo, shall have seen the actual determination of the Bombay Government, and of General Macleod to restrain Mangulore, at all hazards, and shall have Considered the posetion, and Strength, of your Army together with his Situation, relative to the Marattas, and existing Engagements between them and the Company, he will relenquish his design against Mangulore, rather than risk the Serious consequences of a renewal of the war; and if he should actually do so, we most earnestly desire and recommend, that besides the immediate delivery of Palacatchery and the other places, you studiously endeavor to observe Such a Conduct, as shall impress conviction on his mind, of our inviolable of faith, and sincere desire of peace.

Gentlemen,

We have received the honor of your

Fort St George January 1784

11th September 1782 did by no means omit attending to the Marratta Treaty in the instructions to the Embassy Stating the present Situation of affairs with respect to the expectation of Peace or War, endeavouring to get the Army Limits the Field as narrow as possible —

your Letter of the 11th Ultimo, acknowledging ours to you of the 21 September last, you are pleased to mention 1782, that you were totally unin formed of the Letter to us from England of the 5th Septemr 1782, Inclosed we have the honor of Sending you a Copy of it, as you desire, and at the Same time take the Liberty of transmitting to you an Extract of our dispatch to you of the 18th February last, — in which you will find that we had very early Communicated to you the Contents of that Letter of the 5th September — and had applied to you as it directed, for your assistance to forward the beneficial purposes of the Agreement —

The Greyhound Packet left England the 11th September 1782 and arrived here the 31st Jany following, brought us the letter of the 5th Septr written a few days before she sailed, as we informed you in Our dispatch of the 18th February following

We beg leave to observe to you that we by no means omitted mentioning, or alluding to the Maratta Treaty, and particularly the 9th article — we were perfectly aware of its importance, and it was persued with proper Energy on many occasions, but it does not Seem to have had that weight with Tippo, or his Ministers, which was expected, whether arising from his intrigues at

107

Fort St. George January 1784 –

11th at Bomak, or from the present distance of Mahadjee Scindias Arms.

Inclosed we have the Honor to send you a Copy of our President's Letter to Tippoo of the 9th of Dr. December, (in which the 9th Article of the Maratta Treaty is pointedly urged,) also his answer to it received This day, in which he takes no Notice whatsoever of the Maratta Treaty –

We shall now in a few words state to you the present Situation of our affairs.

Our Deputies by the last accounts dated the 2d Instant were at Malleherry within a few Miles of Seringapatam – They were in hopes of seeing Tippoo very Soon, but whether their Interview was to be at that place or at Mangulore was not yet fixed – They every moment expected a Letter from Tippoo, in answer to One which they had written to him on that Subject – They complained that the Vakeels who accompanied them had often led them out of the great road, thro inconvenient and difficult Passes, whether occasioned by a jealousy of our Commissioners Communicating with any of the Prisoners, or

Fort St. George January 1784

11

or by a desire of giving an Impression of the difficulty of the Country, or by particular orders, but the deviations was so frequent, that they could not avoid remarking it to the Vakeels who assigned as a reason (which was known not to be a true one) that Provisions were more conveniently procured by that route than the other —

We have received no Letters from General Macleod since his of the 6th Ultimo, to which a Copy was transmitted to you in our last Dispatch — But we understand from the enclosed paper from Tanjore that 5 days after the relief of Mangalore, he had led an expedition to chastize the Rana of Annanore which was accomplished accordingly —

To this you will observe mention is made in his Letter to our President, that in such a manner as induces me to hope, that tho it has given room for a Complaint, it will not alone occasion a breach —

Colonel Fullarton writes to us in his last Letter, that he expected to arrive about the 5th Instant with his army at Dondegul, where he will remain until it is such a State

state of Preparation, as to enable him to march to Seringapatam, or any part of Tippoos Dominions in that quarter, if it should be found necessary to renew hostilities —

Received the following Letter

My Lord and Gentlemen,

From Lieutenant Lundt complaining of the behaviour of the Amildar of the Settapet District

I have always allowed myself to imagine that the Delays and disappointments I have experienced with respect to grain, have been owing to actual Difficulties occasioned by the unfair abridgement of the District, and the unsettled state of the Country, but am much Concerned to find myself under the necessity of ascribing a great Part of them to the Amildar himself who has gone so far as positively to refuse grain for the use of the Detachment, the Circumstances attending this Extraordinary Behaviour are briefly, and without exaggeration, as follows

he had about Eight days Grain in the Bottah which

which I have frequently urged, and he has as often
Promised to send immidiately into the Fort—
I this morning Sent the Black adjutant to

I command the Pettah, Mr. Swandt has not
delivered to me the Districts I Rent from the
Honble Company, I am therefore not obliged
to furnish his Detachment with Grain —
I instantly ordered a guard over the Place where
the Grain was lodged, had it measured in
presence of one of his Own People, and gave
a Receipt for the Amount, on Relating his
insolent and inconsistent Conduct, I will not

From a division of the extremity to which the Garrison of Mangalore is reduced by the treachery of Tippoo; Conduct; stating the resolutions adopted by them in Consequence & communicating their situation on their side of India — Enclosing Copies of two Letters from their President to Tippoo

My Lord and Gentlemen

We had the Honor to advise your Lordships &c under the 25th ultimo, of the Extremity to which the Garrison of Mangalore was reduced, by the Nabobs Violation of the articles of Capitulation, and of the Resolutions we had taken for the Relief of that Fortress.

We have since been favored with your Letters of the 7th & 17th September, by the Gibraltar, and of the 4th of October by the Active,

The

131

Fort St. George 4th January 1784

The Detachment of his Majesty's Troops under the Command of Colonel Gordon, was landed at Tellicherry.

The Reinforcement intended for Genl Macleod, left Bombay the 16 instant — By our latest accounts from the Coast, we are informed that on the 2d Instant, the Garrison of Mangalore declared by Signals, previously concerted, 1st that they Could not Send off a Boat, — 2 that they were not on good terms with the Enemy, and wanted to be succoured — 3 that they had not one months Provisions (provisions) Upon which the General acquainted us, that he instantly resolved with the Force he had to attempt (attempt) its Relief.

We doubt not however that the Genl advice of the further Reinforcement we intended, and the late bad weather on the Coast, will have induced him to postpone his Design, and we are inclined to hope, that the Nabob when he sees us determined, and prepared to resist, will relinquish his attempts to get possession of Mangalore, and apply his thoughts seriously to the Peace, as the most probable Method of succeeding in his wishes. — we have most strictly enjoined the General not to have Recourse to Force, but upon

in case it shall be so settled in the Treaty
since the Receipt of your Dispatch of the 27th ult
we have determined to endeavour to adhere further

great Hazard of the Attempt to endeavour them
by

by Force, another Letter has been addressed to the Nabob, in which he has been acquainted, that we shall regulate our Conduct, and actions, exactly by your Engagement to his Vackeels, and we will restore Mangalore, and our other Conquests in his Country, the moment we receive Authentic advice of his having entirely evacuated the Carnatic, and released the Prisioners, and of the Madras Government having withdrawn their Troops from their Conquests in his Country, but that in the Mean time he must admit proper, and Sufficient Supplies into Arnee, and Mangalore, and upon the Receipt thereof being certified by the Commanding Officers of those Forts, we will give Directions for our Troops being withdrawn to Pallicherry.

We have likewise inclosed a Copy of the second Letter to Tippoo Saib, and our Instructions to General Macleod have been modelled agreeable thereto.

The admiral is upon the Coast with his two Ships of the line and Frigates, which will be joined by the Bristol, and Ceres, and Hound Sloop from Bombay, we have not yet heard

Fort St. George 16th January 1784

heard from him in reply to our Letter, but we doubt not in case it shall be necessary, that he will co-operate with the General to the utmost of his Power.

The Line of Conduct taken by your Government, and the Answers you have returned to Tippoo's Demands, appear to us, to be strictly consistent with the Company's Instructions of the 16th March, and we leave it Therefore determined without Hesitation, to pursue the Same Line with which resisted to the Conquest on this Coast, It seems evident, that if Tippoo shall avail himself of the Stipulation in the 7th Article of the Treaty of Peace, the Company cannot insist upon any thing further at the Conclusion of the War, than the recovery of their ancient Possessions, and Can neither reclaim, nor retain, any Conquests they may have made in his Dominions, if at any time within the Stipulated Period of four Months, he shall signify his Accession to the Pacification, and perform the other Stipulations required from him, we have not any more than your Lordship's

Fort St. George 11th January 1784

Recieved any Information, or Instructions, from the Governor General and Council regarding the Terms of Peace, but they do not Seem on their Treaty with the Marattas, to have extended their Views any further than the recovery of the Carnatic. —

We could not avoid taking notice of a Sentence Passage in the Instructions from the Coast of France, to the Marquess de Bussy and Monsieur de Suffrein, in which after Directing the Separation of the French Troops from the army of Hyder ally, Those Commanders are required to leave the English and their allies, at full Liberty to act in recovering, what Hyder ally shall be found to occupy of their Ancient Possessions, Tippoo Saib is the declared ally of France, and any Demands of terms beyond what we have Special authority to justify, founded upon any alteration of Circumstance, or Supposed advantage, we might have in Carrying on the War against him singly, might give Occasion for Disputes with that Nation, Indeed we thought it best in

every

136

every point of View, to Consider the Instructions from Europe, in the same light, as your Lordship &c. have done, and that it was Our Duty to do all in our Power, to obtain Peace with Tippoo upon the Footing settled in Europe, by every warranted Conjecture, the Arrival of your last Dispatches was critical, The Conduct of the two Presidencies has now been made consistent, and Unison, and will no doubt, have the more weight with Tippoo, when he sees no Variation or Difference in the Views of either, —

Colonel Lafargue has with him from Tippoo's Camp, and arrived with his Troops at Tellicherry, we understand that Lally and his Band still continue with the Nabob, and we have therefore desired the General, in case of hostilities being Commenced, to make a Requisition, and Offers to Mr. Lally, according — to the Contingent Instructions

General Macleod will give your Lordship & Colonel Fullarton with the Speediest Intelligence of the Issue of his Proceedings at Mangalore

To the Nabob Tippoo Sultaun Bahadar &c &c

After Compliments,

I have received the Letter from your Highness dated the 11th Instead. — when Peace is concluded, it is a matter of Course, that no Prisoners can be any longer detained, and their release at that time, cannot be received as any Testimony of Sincerity, or amicable disposition, their immediate release, would have been considered as the Strongest Proof of both, and I am Sorry to find your Highness is not disposed to give this mark of Confidence, which has been solicited both by the Madras Commissioners, and myself, and which you Voluntarily promised to General Macleod — I trust however that for the Sake of your own Honor, and Dignity, our Prisoners will receive kind Usage for the remainder of the time they may continue in your hands, for I am willing to believe, it is well known to your Highness, that both our Officers, and Soldiers, have been treated with Such Rigour, and Severity, as is never Shewn by European nations, to those Enemies who may fall into their Hands —

When I heard of the Agreement concluded with Colonel Campbell, I immediately sent

Fort St. George 4th January 1784

put a Stop to all warlike Preparations at Bombay
I was in hopes as mentioned in my former Letter,
that the Flames of war would soon be extinguished,
and after a Peace concluded with your Highness,
as well as with the other Powers with whom the
English had been at War, the English are
now at Peace with all other Nations both in
Europe, and in India, and are sincere in their
Desire of Peace with you, It would give great
pleasure to the English to find the same good
Disposition on your part, but some Information
I have lately received from Mangalore, and
Sundry Circumstances in your Conduct, have
begun to raise Doubts in my mind, and to
interrupted those pleasing Hopes I at first
entertained, that you had an Equal Desire
to bring the War to a Conclusion —

The Cessation has now been
Concluded, three months — It is mentioned
in the first article, that after leaving three
Thousand Men for the Guard of your Fronties,
your design was to go with your Army to the
other Side of the Ganta — you also made
repeated Promises to General Macleod that

Fort St. George 16th January 1784

to Serengapatan, and from thence to dispatch him to Madras with articles of Peace, yet I understand you still continue with your whole Army in camp before Mangalore, I am further Informed that the Battery on the Island, has been repaired and Strengthened, and new Batteries Constructed to fortify the Entrance of the River, and that works have even been Carried on, or attempted at your Trenches and Batteries, all which acts are direct Infringements of the Articles of Cessation, but to what gives still stronger cause for complaint, and Suspicion is your preventing Provisions from being received into the Fort according to the Agreement. a Buzar was to be established, and such articles as the Country cannot afford, were to be brought in by Sea, as your Buzar will not furnish Rice, and your Bat Batteries prevent it from being brought in by Sea, The promises you gave on this head to General Macleod and Mr Sibbald, have not been regarded — It is necessary and agreable to the articles, that Garrison should have Sufficient Supplies for their Subsistance, and no obstacles should be raised to their receiving Provisions from the Shore, if your Buzar cannot furnish them — Such Conduct does not shew good Intentions a —

Fort St. George 16 January 1784

a great Prince should not conceal hostile Designs
under the Cover of a treaty — where is the difference
between taking a Fort with your Guns, or by
Starving the Garrison — The English will consider
it as the Same thing, and the Peace will be broken
I again assure you it is the Sincere wish of the
King and Company and of the Governments
of Bengal, Madras and Bombay, to establish
a firm Peace with your highness, but I
most Sincerely and earnestly recommend,
that you will not upon any misguided O
pinion of our Anxiety for Peace, be persuaded
by evil Councellors to Continue your attempts
to get Possession of Mangalore — Such conduct
will occasion much loss to both Governments,
and the Calamities of War will be renewed —
be not deceived by evil advice, but let wisdom
and Justice guide your Conduct to the advantage
of both nations — As I am in great Affairs to
Speak with Plainness, and Sincerity, I therefore
declare to your Highness, that whether the English
have Ships and Troops in India, they will not
suffer the brave Soldiers in Mangalore to perish,
or be Obliged to Surrender for want of Provision;

but

Fort St. George 16th January 1784

but on the Contrary will make use of all their
Force and Powers to give them Relief —

I have written a long Letter because
This is a Subject of very great Consequence, and
I hope your Highness will Consider it well —
It is right that all matters should remain
exactly in the Same State as they were at the
signing of the Agreement with Colonel Campbell,
and no advantage to be taken on either side —
This has been observed Faithfully on the Part of
the English, if it shall be settled when the
Peace is made, that Mangalore shall be restored
to you, I will then give it up freely and Peaceably
but until the Peace is made, I will do my
utmost to prevent Your taking it, either by art,
or by Force; Your keeping your Army so long
before Mangalore, and the Several Circumstances
explained in this Letter, have obliged me according
to the necessity of the Times, and Contrary to
my wishes — my Demands are very moderate
and founded Strictly upon Justice, I demand a
full Compliance with the Articles of Cessation,
and that Proper Supplies be immediately or

admitted

142

Fort St. George 16th January 1784

admitted into the Fort of Mangalore with this addetion, rendered necessary by what has happened that Proper Measures be settled against a Surprize, as Originally demanded by Mssrs. Sadlier and Staunton, and that the works And Batteries constructed since the Cessation be demolished, and the entrances of the River Opened — I demand the Same Condetions with respect to Onore — Sir Edward Hughes the admiral of the Kings Ships, and General Macleod will settle these Points with you, in a just and proper manner, or will otherwise act according to your Answer, and the Situation of the affairs may Render necessary —

After Compliments

I wrote a Letter to your Highness a Few days ago, which will be delivered to you at the Same time with this Letter — I doubt not but that You will be fully Satisfied thereby, and that the

143 Fort St George 16 January 1784

Articles of Cessation will be duly observed and the great work of Peace soon completed

I have since the date of my Last Letter, been made fully acquainted with all that has passed between the Governor of Madras, and your Vakeels, Appagee Ram and Shrinowasarow, — I have the paper of y Demands delivered by them, and the Answer returned by the Governor of Madras in a Paper Dated the 8th of October —

I write this Second Letter to acquaint your Highness, that the English at Madras, and Bombay, will act by one and the Same Rule — The Governor of Madras not having power on this Coast which is under my Government, could not promise to deliver the Countries taken in Nuggur by the Bombay army. But I having the Power most faithfully Assure your Highness, that I will act in the Same manner regarding these Countries as the Governor of Madras has promised regarding the Places belonging to your Crear taken during the War, and now in possession of the Madras Forces — I will act in the Same manner, as if the word Nuggur had been added to the Answer to the first article and my name Signed to the Paper delivered to your Vakeels the 8th of October —

It is proper in the mean time that until

Fort St. George 16th January 1784

until I have advice of your Highnys having entirely withdrawn your Forces from the Carnatic, the Garrisons of Mangalore and Onore I should receive proper Supplies of Provisions, as mentioned in my other Letter. Hearing there is a Scarcity in the Countries about Mangalore, I now send sufficient Quantities of Rice and other Articles from Bombay. If these Supplies are admitted, the Peace will go on, and our Army will remain at Tellicherry, I will act in the same manner as the Governor of Bombay, when he shall withdraw the Mahratta Forces from the Places belonging to your Circar on that Side of India. I will withdraw the Bombay Forces from the Forts in the Country of Nuggur.

Your Highnys will release the English Prisoners and renew the Company's Ancient Privileges of Trade and Factories in your Dominions. The Protection and Interests of the Malabar Rajahs in alliance with the Company must also be secured. If there are any other Points to settle they can be adjusted hereafter, in an Amicable manner when the Treaty is concluded.

I sit

Fort St. George 4th January 1784

but I again desire that in the mean time the Supplies of Provisions may be immediately admitted into Hangalore and Onore

I have now said every Thing necessary on my part, and if what I have proposed is not agreeable to your Highness, I have only to make the Same declaration as has been made by the Governor of Madras "that Hostilities may "recommence on the 2 of December and not before. The English tho' inclined to Peace, are prepared for war.

Intelligence communicated to the Committee by the President

The President lays before the Board four Papers of Intelligence which his Lordship has received from different Quarters

Intelligence from Bednore ——— relating to the Death of

Fort St. George 16th January 1784.

of Rago boy: that the Mahrattas had resolved to demand from the Nizam the restitution of the Countries they had ceded to him, to induce him to make war with the English: that they have recalled Scindia to confer with him on that Subject, and that they proposed demanding from Tippoo a Share of the Plunder he has acquired by his Fathers invasion of the Carnatic.

Intelligence from Singarapettah - mentions that Travellers who had Arrived there, reported that a Dispute had Arisen between Tippoo Sultaun, and the Commissioners with respect to the place for holding their Conference, in consequence of which Tippoo had placed a Guard of Sepoys over them. Commissioners

Intelligence from Pondicherry - that Accounts had been rec'd there that Tippoo had Set off from Mangalore to meet the Commissioners near Seringapatam: a Vakeel from Poonah had Arrived at Pondicherry, and met with a favourable reception and that a Vessel had Arrived there from Mahe, with a French Gentleman who it was Said was appointed to Succeed Mr Bussy

Intelligence from Pondicherry — That Sir John Burgoyne had Arrived there, that he lived with Colonel Brayfield who

who had introduced him to the marquis de Bussy,
and that both of them constantly visited the French
Families —

Although the Committee do not place un-
=bleit Confidence in the above Intelligence from
Singarapettah, yet as a length of time has elapsed
Since the receipt of the last Accounts from the Com-
=missioners, which was dated the 3d Ins last, &
it is natural in consequence, to Suppose that some
irregularities have been practised with Respect to
the Dispatch, it is Agreed that Letters be dispatched
to the Nabob Tippoo Sultaun in answer to his
Dispatch of the 30th December, and also to Meer Kayem
ud Deen Cawn, to acquaint him that as a free
Communication between the Commissioners and
the Several persons with whom they may wish
to correspond. — is absolutely requisite to effectuate
the purposes of their Mission the Committee
will consider any interruption of the Dispatch
or other channels of Correspondence, as an infring-
=ment of the present Stipulation

Resolutions of the Committee on the foregoing Intelligence

Should it be the intention to establish a permanent post of Trippasore. The accompanying plan of Reform or one Still more general, Should be executed, in Order to Answer the Object for which it is reserved, as well as to render the place defensible.

The vicinity of this Fortress to the Pollams together with its Situation in the heart of a fine grain Country, I Should conceive must ever distinguish it as an Advantageous and desirable Situation - it essentially Serves to check - & keep in awe the neighbouring Polygars, and has more than once during the present War been found of some utility in facilitating the relief of Vellore. If it is deemed expedient to adopt the proposed alterations, I Should not neglect to mention that it will be necessary to pay some attention to Quarters for the Garison as at present both officers and Privates

you at this juncture, on the Subject which Hope will not be deemed an intrusion - therefore take the Liberty of representing my Situation concerning that the Right Honorable the President and Select Committee will never permit a Servant to Suffer any grievance which will not be immediately removed.

On the 8th Instant the Detachment under Captain Brown no Sooner reached their destination, but I was given to understand by Doctor Bawey, that I must relinquish my claim to the care of the Sick and hurt of the Detachment: which I endeavoured to convince him he had nothing to do with, after having been appointed to it by Government, and the Sick and hurt put under my care by orders of Generals Jones and Major Sydenham: which were Sent from Cuttack. It appears that Mr Sinclair Surgeon to Masulapatam, and Senior to this district, nominated Mr Bowey to this appointment, and has given it as his

Encloses Doctor Davis President & Co. Select Committee
with Enclosures concerning
the charges of the Surgeons
in the field

My Lord & Gentlemen

I should sooner have done myself the honor to have obeyed your Commands under date the 24th November, if the Duty required of me had not been a very intricate and Laborious one. For in auditing the different Surgeons Accounts, I have been obliged to refer to my private memorandums taken some near three years back. in those moments of difficulty, and Embarrassment, it was impossible for any one but an able observer: on the Spot, to form a true Judgement of — For this attempt to bring our Accounts to a finial conclusion, I have had recourse for my Guide, and have made my Calculation as for ready money, from the annexed Account Current, and abstract of the whole Government will see at one view the origenal Charge of each Surgeon — His debit for Cash and Rec.d Received as p Vouchers of Messrs Welsh & Paterson the Rule of Charges according to the Cartel of

Fort St George 16th January 1784.

Judgement without favor or Partiality — and the
nett balance due to each Surgeon of this Establish-
-ment employed with the grand Army & including
the Nabobs Surgeon of native Cavalry.

Tho' the expences have been much greater
than in any former war. It ought to be understood
there has been no Surgeon Employed but by the
Concurrence of Government at the requisition of
Sir Eyre Coote — and this is the basis of the unavoidable
Charges here presented: for his Excellency as appears
by his General Orders exacted from me, and all under
me. The most pointed attention to natives, as well
as Europeans. —

I flatter myself It will appear from every
report that the faculty have done their duty during
a Series of extreme difficulty and danger: and as the
Accounts are reduced to a reasonable Charge, admitting
even that they had been regularly paid — to flatter
myself the Right Honble President & Select Committee
will adopt some method to clear off the whole, part
in Cash, and the remainder in negotiable Bills
or Bonds: the first to supply our immediate Expences
and the latter to Satisfy our Creditors — unto whom
we have been paying a heavy Interest

interest for

during duty with the Army; representing their situation with respect to rank &c. and requesting the attention of your Honble Committee

The conduct of the Cavalry during the War has been such as to deserve every commendation; owing to the Smallness of their numbers, & necessity of making use of them upon every occasion, they have undergone much greater fatigue, than other Corps in the Field, they have ever chearfully performed the Services, they have been employed upon, and appear entitled to every consideration from Government-

I beg leave to recommend the enclosed representation to your serious attention, and hope that when any Arrangements take place, your Lordship &c will as far as may be in your power, remove those hardships of which they at present complain-

I have also enclosed a Petition from the Commandant of the 1st Battalion of Sepoys, to which I request your attention, and beg leave to recommend that the usual allowance may be given to Shaick Woduwound whose long & faithful services entitle him to this indulgence-

My Lord & Gentlemen

Impressed with an high Idea of your Candor and Justice, and Encouraged by your late General approbation of the Conduct of the Army: we presume to lay before you the hardships we long have, and must Still continue to Suffer, while we Serving with the Army, in our present Situation.—

We have long been anxious to make our case Known, where we have Such flattering hopes of redress, but apprehensive of interrupting more im= portant deliberations, we have deferred it till the present time, when the happy prospect of Peace and Tranquility in the Carnatic, makes us hope that your Lordship &c will have leisure to attend to our representation.—

Since our First appointment to the Cabools Service we have been employed on all General Duties with the Army, and at other times have been detached on the Service of the Country:— at the beginning of the present war we had the honor to be taken into the Company's

Company's Pay, and held a certain Rank in the Army, as ascertained by our late brave General Sir Eyre Coote, we felt very sensibly our loss of Rank by those Orders but as the Army was going on immediate Service, did not think it a proper time to apply for redress, and have zealously & Served during the present War under the many inconveniences of the above nominal Rank—

Added to the loss of Rank we have since had the misfortune to experience, that the Rank thus ascertained does not entitle us to the same benefits; as the officer Employed on the same Service enjoy, particularly respecting Courts Martial, the Privilege of every other Military Man on the Field, and further the Corps we serve in, being on no fixed Establishment, we are deprived of a regular line of Promotion, a benefit enjoyed by all other Corps and the only Security of reward for long Services! — many other disadvantages attendant on the above we must continue to feel on our present undermined Situation —

We therefore Lobe your Lordships &c

199

Fort St George 16th Janry 1784

We will be pleased to take our grievances into consideration, and allow us the honor of sharing your attention with the other Corps of the Army: and as we are informed that some new arrangement for the Cavalry, will shortly take place, we hope your Lordship &c. will be further pleased to consider to consider our Services and present Situation, and take such measures as to your Lordship &c may seem most Eligible to secure us the same benefits and Privileges that the other Officers of the Army Enjoy) -

Since that time, We have received your letter of the 13th November, inclosing the Governor Draft to Tippoo. It is a great Satisfaction to us to find that your Sentiments, with Respect to the Instructions from Home and the Con-duct to be observed towards Tippoo agree so much with ours. Does not give any answer to that Part of the
President's of the 16th December, in which the
Maratta Treaty was pointedly introduced. It
will not escape you what appears from Mr.

Governor General and Council, that altho Mado-
-gee Scindia could not refuse to enter into En-
-gagements for compelling Tippoo to fulfill
the Treaty of Salbey, yet there were Several Cir-
-cumstances which might, and probably would
prevent our having the Assistance of the Marat

On the 18th the Day following we received Tippoo's
Letter of the 30th December by a Camel Peicarrah
— since that time no Letters have come from
the Deputies, altho formerly we heard from them
every two Days — Before the Deputies left us it
was agreed with the Vackeels of Tippoo that
there was to be a free unrestrained Communi-
cation between our Deputies and every other
Place, the Vackeels undertook that regular Despatches
should be pieced by Tippoo for the Purpose —
From the Present Intermission, there is reason
to suspect that the agreement has not been
adhered to, and that the Deputies may be
under some Degree of Restraint —

We request to have this matter
very quickly cleared up. In the mean time
we have sent a Copy of this Letter to Colonel
Fullarton and Mr. Sullivan at Tanjore, and to
General Macleod at Tellicherry, in order that
they may not only be forwarded on their Guard
but be prepared to enter upon hostile Operations
at

& at the moment it may become necessary.

The proper Instructions and full

fullest Information shall be sent to them, as

soon as the present Doubt, with respect to Tipsoo

Conduct and Intention, shall be solved into

War or Peace; which a very very few Days must

Decide. Where the Object is so important we must

leave as little to chance as possible & proceed with

Caution till we can be certain whether the

Substance corresponds with the appearance

If it shall be found that Tipsoo is not sincere,

and that the War must be renewed, the Prin-

cipal Reliance must be on the Exertions of Col.

on the Resources that can be found in our own

Provinces & in the Enemy's Country

Projects of seizing refractory Zemindars have been frequently proposed to Us at different times but we recollect no instances of their being, (even when ordered) carried into Execution with Success, some Accident always having rendered such Design abortive. The Circumstances of the Times and our Situation with the Mysore would also effectually prevent our taking such a Step at present, besides that we have Hopes of being soon able to prevail with his Highness to redress the Evils complained of, without coming to such an Extremity

You will on the arrival at Coime carefully watch the conduct of Sooranary Venkatarow and to the best of your Power guard against any ill Designs which he

235 Fort St. George 24th January 1784

To The Right Honble Lord Macartney KB
President and Governor &c. &c. Select Committee
of Fort St. George

My Lord and Gentlemen

From the Comtee of Assigned Revenue enclosing a Statement of the Collections Charges & Shewing the neat balance With Remarks &c

That several Districts of the Carnatic being now surveyed and Settlement made with the Different Polygars, for their Peiscush to Government, We have the honor to transmit herewith, a Statement of the Revenues and Expences, according to the present Leases Compared with Similar Accounts furnished by the Nabob at the time the Assignment was made to the Company

We wished to have had a particular Account from his Highness, of the Peishcush usually received by him from the Zemindars and Polygars; but as none was ever furnished, tho' early applied for by your Lordships &c. We have

had

Fort St. George 24th January 1784

had no other guide to Determine us than
the Cannongoes Reports

The Nabob, as we are informed
annually received from the Poligars, Sums of
money by way of Nuzzer, over and above
the Stated Peishcush, but as this was the
effect of Influence, and not founded upon
any great right, we could not recommend
a Similar Practice in the Cannongoes
Determinations with them — Nuzzer, these
Nuzzers, as we understand, continually
varied in proportion to the Nabobs wants, or
his Power to overawe the Poligars to a Com-
pliance, and that he was so sensible of the
Impropriety of such Exactions that he never
gave receipts for more than the stated
Peishcush —

This we have, in the Account
herewith enclosed, inserted the Revenues of
the

Fort St. George 24th January 1784

of the Great Country, according to the present
Leases, your Lordships &c must be sensible
that these Leases can now only be considered
as Estimates of what it will produce, when
the Enemy shall have quitted it, and the
Country is in some degree recovered from
the Effects of the War - At present Tippoo
Sultan's Troops are in possession of almost
the whole Province, and our Renters by the
Cessation of Arms and the restrictive
orders, given to them, are confined to a few
inconsiderable Districts, and the Collections,
even in these are Disputed with them
by the Enemy -

We have the honor to be &c

Sir.

I was honored last Night with y.r Letter of the 3.d Inst. and beg to offer my Compliments on your Arrival on the Southern Provinces. Preparations are made at

Fort St. George 25th Janry 1784.

at all the Stages on the Road for the Accommodation of the Troops under my Command, and if you propose they should march, the Mhajahs Hircanahs will be ready to attend you on the borders of this Province, to secure to you every Aid the Country affords.

I have forwarded my Letter to Col Fullarton, who is now on his March back from Combatore, but his Movements must be slow from the Number of heavy Guns he has with him, it will probably be ten days before you can have an Answer from him. I beg to offer my best Acknowledgement for your polite Attention before you embarked. I have the Honor to be &c.

Tanjore 2nd Jan 1784. signed T. Sullivan.

To John Sullivan Esq.

Sir,

I had the Honor of receiving your Letter of the 2nd Jan. by about an Hour ago, which from the Stupidity of Mr. Cochrans Servants, had taken a Dance to Tranquebar, and back again, before it came to my Hands. I acknowledge the politeness of it, but really do not comprehend what you mention in regard to the Preparation

Made

Fort St. George 25 Janry 1784.

made for my March, in the first Place I did not mention a Word of any such design to you, in the next place I have neither Instructions to march from this Garison, nor have I the means of doing so, even if you convinced me of the Necessity of it. I have no Camp Equipage with me who to cover the Troops under my Command have not yet arrived, and I was told by Govrnment that I Should not march from this until further Orders, and in that Case, which I had fully explained Some, I was not to move until I Supplies with every Necessary from Tanjore or elsewhere, agreably to the orders given me by the Rt. H.ble when under Orders for the Field at this Juncture which were communicated, and approved by the heads of Departments, and only wanted the Order for Joining the same in Regard to the whole force under my Command, I thank you much for y.r Attention in forwarding my Letter to Col Fullarton, if the War is renewed and this Army in want of Reinforcement, I would march on the 1st. with what I have, to join him by the nearest Route, and sacrifice every thing to the good of the Service, but as you communicate no such intelligence

Fort St. George. 25 Jan.y 1784.

to me, but that he is retreating, and at his Leisure, I can see no Necessity for such an Exertion, which must cost the lives of many brave men, derange the Intentions of Government, as far as I am acquainted with them, and end perhaps in my appearing highly ridiculous, a thing I would not wantonly subject myself to. I was told before I left Bradat that I should find you at Nyapatam, and that you would furnish me with every necessary Intelligence, I have received none from Authority, except what you was pleased to communicate in yr Letter of the 2nd Jan.y If you have kept a Copy of yr. Letter of that Date, I wish you would read it over again, and then perhaps you will be convinced, that none but a madman would pay Attention to it. you mention your Reasons for a rapid Movement, mention the Route, nor the Place, I am to march to, but I am told to be left to the Mercy of the Rajahs Horsemen to carry me where they please, as I have nothing at heart than humbling the Enemies of Great Britain of whatever distinction I wish you would be more particular for the Future, that if any real Business should happen

a

a Misconception may not take Place, I beg you will take this as it is meant, merely as a Letter of Business without any other View on the Work, and I request altho' I write my Sentiments freely and without doing so I cannot write a Line, that you will not take me for one of those Characters, that Endeavour paper War against all Mankind, merely for the sake of Fighting, I shall be happy at all times to receive your Letters, and as far as lies in my Power and Line of Duty to forward the Service and furnish every Assistance you or any other Companys Servant can Demand, & receive for Gratulations Orders I shall not fail to communicate them to you unless they are of a private Nature.

reply to mine of the 2nd inst.

Copies of both are now forwarded to the Select Committee and to Col Fullarton, I have therefore only to observe, that in causing preperations to be made on the Road for the detachment under my Command, I shall conform to the Orders of Government, and Hitherto in addressing your Grounds Preperations, I conceived I was regarding myself of my duty to the Service, and of the Attentions due to an Officer commanding a detachment, my Letter neither expressed nor intimated a Wish relative to the Time or Place of your March, whenever it may be undertaken I will endeavour to render it as little inconvenient to Officers and Men as Circumstances will admit.

Mr Cochrane is instructed to comply with all Applications you may think proper to make to him conformably to the Usage and Regulations of the Service

therefore desired Capt.n Burney to return to the Coast with the two Ships under his Command & shall take this opportunity of sending down Relief for the Garrison of Tellicherry where the Evacuation Detachment remains for the present. This is a Step we think cannot be considered, as in any Shape infringing the Articles of Cessation; & Capt.n Burney furnished with the best means for quick Intelligence will be desired to station his Ships in such a manner, as to answer the great end of co-operating with the Troops in affording speedy Relief to Mangalore, in case of necessity, at the same time avoiding to give any occasion for laying us with Breach of Articles so long as the Rebels shall continue to observe a pacific conduct—

We have advice from the Select Committee at Madras of the further Reinforcement they intend to send round which will likewise be ordered to remain at Tellicherry, We hope & trust that you have taken timely measures to enable us to support these Troops, for it is not in our Power to furnish the smallest means for their subsistance ——
