Fort St George 8th January 1796

Reading Extract of a letter from Dr John Hunter relative to the Medical Stores received in the last season—

Shar[e] Peter Lorimer and myself do not think it proper to take particular notice of the complaints respecting several articles of the Stores because they had not been fully complied with in the year 1792 and 1793. Yet there are some observations on the deficiencies complained of that it may be of use to lay before the Committee.

The reason why deductions are made from some of the articles is evidently that Mr Martin conceived they might be got at a smaller expence in the Country; as Opium Tincture of Opium or Laudanum and Oil of Cinnamon, and allowing that the Opium sent from hence is better than that of India the Tincture might be as well prepared in that Country as it is here, and at a much smaller expence that from the want from time—

Some of the articles were not at that time to be got in the market as the Peruvian Bark and the Soda Phosphorata.

Particular enquiries were made last year concerning the Mills used for pounding Bark—

Tuesday 3d January 1796

The small Mills upon the principle of Coffee Mills have not been found to answer and have gone into disuse. The large Bark Mills are deemed to bulky to be sent Carried, as each Regiment might certainly be got but there are to be whether they could from the Stores in the Country

I have understood that the Bark in the County is ground by hand Mills, but of this some of the Gentlemen of the Committee are fully informed. There have been contrived lately Mills of cast Iron for grinding Bark &c which are of smaller dimensions, and would probably answer well. The Committee will judge whether one or two should be sent.

In the Medical Indent there is a demand for twenty pounds of the Marine Elixir sweetened acid. By a letter which I have from the Apothecaries Company, they inform me that the preparation is perishable and will not keep the length of the Voyage. It is chiefly used in Chronical complaints and but little if at all employed in Fevers and therefore it may be safely omitted, or the materials from which it is prepared being cheap and the preparation easy may be sent to the Cape of Good Hope, as shall appear best to the Committee.

In all the Indents there are demands for Peruvian Bark. The Company of Apothecaries inform me that for

Fort St George 8th January 1796

I received your favor from Kyrenbon any Rhea Rhubarb at
market, and as but a very little under that name is nothing
else but the best sort of Indian Rhubarb, it may
therefore be a matter whether the Medical Boards at the
Company's Presidencies in India should not be informed
of this, as they might have the same Rhubarb from China,
perhaps cheaper, but certainly better as it must be fresher
and not so old by 15 or 18 Months as what they receive
from the Country.

I have made inquiry respecting an Oil
Press for the purpose of preparing the Castor Oil, for which
purpose I made use of the Natives and find that there is
no Machine of that kind that are not both bulky & expensive;
the price of them from fifty to Fifty Pounds but in making enquiries
about the kind of press used for extracting the Castor Oil.
I learned that it was not now customary to make that
Oil by means of the press, but had been found that the
simple method by which it is prepared in the west Indies
by the Negro's furnished the Oil equally good if not
of a superior quality to that from the press, I shall therefore
to inform the Medical Servants of the Company of this
circumstance, and to acquaint them with the Method
used in the West Indies. The Negro prepare the Castor

Fort St George 8th January 1796

Oil in the west Indies in the following manner they bruise
the seeds of the Castor Common in a Mortar they then put
them with some water in a Pot, which is placed over the fire
The Oil gradually rises to the top and is skimmed off. The Oil
Collected in this way in order to free it from impurities, is
again put into a Pot, which being placed in a large pan full
of water is set upon the fire, and the heat makes the water
and impurities rise to the top, which being removed the Oil
is fit for use, a Process as simple as this appears to me to render
a press quite unnecessary, but I shall be glad to receive the
Machine of the Committee.

In a letter from the Company's Cutler he informs
me, that in consequence of the Complaint from Bombay, that
the Gum Elastic Catheters of last Year were useless he does
not expect that to the person who makes them the preparation
of them is kept a secret and they are made by one person
only in London. In answer to the Complaint, the maker
said, that he was ready to send others in the room of those
that turned out bad but begged that the faulty ones might
be returned to him as soon as it was convenient.

General abstract of the acts of Parliament now in force relating to the Payment of the Wages of Petty Officers and Seamen, the commissioned Officers of Marines, and Marines, serving in the Royal Navy of Great Britain

2 Geo II. c. 1 — Every Volunteer who shall enter his name with any Officer appointed for entering Volunteers, shall be entitled to Wages from the date of his entry, provided he shall appear on board his Ship within Fourteen days thereafter. If the Ship shall be distant more than one hundred Miles, he shall be allowed Twenty days to join it, and thirty Days if the distance exceeds two hundred Miles, he shall likewise be entitled to the usual conduct Money, and to Two Months advance Wages at the first setting out of the Ship, which shall be paid before

Ditto — it previous to Sea, and all Petty Officers, Seamen, and Marines shall be entitled to the like advance of two Months wages before the Ship of which they are on board shall sail, in case they shall not have received the same before

2 Geo II. c. 11 — Monies granted or to be granted by Parliament for the Service of the Navy, shall, in the first

Portsmouth Dock Yard January 1796

first place be applied for the regular payment of all Tickets and for the regular Purchase of all wages due to persons in whatever part of the World they may be found at any time entitled thereto, and shall from time to time, on the first Tuesday in every Month, or oftener, if thereunto required by any Act of Great Britain or the Lords Commissioners of the Admiralty for the time being, make out fair Pay Books to be made out for all the Time such Ships shall have been in Pay, except the last six Months, and shall forthwith transmit by the first safe opportunity such Books, together with the Affidavits and Muster Books, to the Commissioners of the Navy at their Office in London, or to such Commissioner as shall be residing in any Port of Great Britain, where there is a Commissioner of the Navy, the said Commissioners of the Navy shall immediately cause the first Instalment of Wages, and cause Payment to be made of the Wages due, deducting the advance Money, and all Bystanders, and leaving always the wages due for the last six Months, and for the time employed in preparing the Books, unpaid, and no more; and all the Wages due upon any Ship shall be paid as soon as may be, or within two Months at furthest after the arrival of such Ship in Port to be laid up.

If any inferior Officer, Seamen, or Marines, who

25 Fort St George 3d January 1795

shall be in any way discharged from any Ship, shall receive
from his Captain or Commander, a Certificate of the time and
cause, (Blank Copies of which Certificate shall be issued to all
Captains and Commanders by the Commissioners of the Navy, when
they shall demand the same); and no inferior Officer, Seaman or
Marine, shall receive any wages, nor shall such wages be paid to
his order, or to his power of attorney, or to his Heirs or Executors,
unless such Certificate be produced, or unless he shall be identified
by a Commissioned or warrant Officer who belonged to the Ship
at some part of the time of his absence, and of he shall have
been taken by the Enemy, or cast away, he shall not be paid
his Wages unless he shall have appeared to have entered again
on Board of a Kings Ship, in a reasonable time thereafter, or
unless, in any of these cases, he shall shew a reasonable cause
for not complying with such Directions, that shall be
admitted as such by the Commissioners controlling, and the
Clerk of the Treasurer then paying; and Wages due to any
Person who shall be marked upon the Ships Books to have
run from the Service, shall not be payable, unless such mark
shall be taken off by order of the Commissioners of the Navy.

Every inferior Officer or Seaman who shall be
turned over when at a Port of Great Britain where a
Commissioner

Commissioners of the Navy may be, shall be paid for the
Ship from which he shall be so removed, before that into
which he shall go proceed to Sea, unless it shall be otherwise
directed by special order from the Admiralty, in cases
of the greatest Exigency only, in which case the wages
shall be paid as soon as such Ship shall come again into any
Port in Great Britain where there shall be a Commissioner
of the Navy.

When any Inferior Officer, Seaman, or Marine,
32 Geo. 3 shall be removed from one Ship to another while abroad, or
at any place where no Commissioner of the Navy shall be
and reside, he shall receive a Remove Ticket for the time that
he shall have served in the Ship from which he shall be
turned over, which shall not be saleable or transferable,
but for which he may receive Payment by applying in
person at any one of the Pay Offices in London, Portsmouth,
Plymouth, or Chatham, provided he shall appear to have
regularly entered, and to have been discharged
as the Ship into which he was turned over, as appear
upon the Books to have been regularly discharged
therefrom.

If he shall be discharged from his Ship
32 Geo 3 unserviceable at Home or abroad, or be sent sick into any
ch. 20. Hospital

Hospital or such Person at Home or abroad, he shall
receive from the Captain or Commander a Ticket in like manner,
as aforesaid, upon having delivered into any such Hospital or such Person,
he shall be discharged immediately therefrom, he shall also
receive from the agent of such Hospital a Certificate of his
Discharge, and upon presenting such Ticket and Discharge
from such Hospital at any of the Pay offices abovementioned,
together with a Certificate of his having received no wages for
his Services in his Passage home, if he shall have come home
in a Packet or Merchantman, he shall receive Payment thereof,
and shall be sent by the Commissioners to the nearest
Hospital, where he shall be received and victualled
from the time of presenting his Tickets till he be paid,
and if he shall be or arrive in any other part of Great
Britain or Ireland, he shall present his Tickets and
Certificates to any Collector of the Customs, Collector of
the Excise, Receiver General of the Land Tax, or Clerk of
the Check, who may be or reside at that place, and the
said Collector, Receiver, or Clerk of the Check, being satisfied
as to his Identity, shall forward the said Tickets and
Certificates to the Commissioners of the Navy in London, who
shall return a Bill for the amount of the wages due
therein, and which Bill shall payable by such Collector

Remove on the wounds and particularly described in
the [illegible] of this abstract; and if any such remove Tickets
should be accidentally lost or destroyed, the Party shall receive
Payment upon the Duplicate of the same which shall have
been sent to the Navy Board by the Commander of the Ship to
which the wounded belonged, if both Parts should be so lost or destroyed, the Party, or his
Heirs, shall be entitled to receive whatever shall be due to
them upon other Tickets to be made out from the Muster Books,

Having perused the Instructions sent out by the Honble Court of Directors for conducting the Service of His Majesty's sick and wounded Seamen I have only to observe that the Service has hitherto been conducted in the way therein specified, and that the Sick and wounded Seamen and Marines can be treated in the same manner as at present no charge has been made at this Hospital for Diet, Attendants &c which I believe is customary at His Majesty's Hospitals. The whole Expence therefore for Victualling and Boarding the Sick, conveying them from the Beach to the Hospital furnishing Wine, Spirits, Vegetables, Servants, &c &c is only twelve Madras fanams each per day.

Gentlemen,

I have the honor to transmit for your Approbation, and Signature, an Indent for Crude Medicines &c required for the use of this Presidency and its dependancies for the Year 1797. to be forwarded by the Honble Company's Ships now under Dispatch.

I have to acknowledge the receipt of your Secretary's letter with Doctor John Hunter's remarks to the Court of Directors on the Medical Indents, and to observe that only in one article they relate to what might be cheaper procurable here viz.t Cal.x Thebaicum which was inserted, at the request of those who conceived it to be strong, but always in a quantity that bore but small proportion with the consumption here — The other articles of Laudanum Oil of Cinnam and Radix Rhabarb never formed any part of our Indents —

The Dephlegisticated Marine acid was principally inserted for Chymical Experiments and as the preparation is perishable and the materials from which it

15

to proposed should it is requested that they may be sent to
Madras for the use of those engaged in Liberal pursuits to prosecute their
researches.

Neither Miller for preserving Bark nor Oil
Skins have been indented for here — a mill has been received
for preserving Bark which will be very useful, but an Oil press
could never been thought of especially for Castor Oil, which is
made universally over the Coast in a preferable way to that
described by Doctor Hunter as practised by the Negros in
the West Indies, the seeds being previously decorticated, and
the Watermelon think the Oil is improved by making it in the
country fashion of the Coromandel

Two Complete and two incomplete cases of your
Electric Cathetors are included among the relief Instruments as
recommended, that good use may be returned by the maker —

This is all that applies to the Hunters remedy,
and to expect as much as possible the saving expense you will
observe that only one Ointment and no Tinctures or Essences
are inserted in the Indent now forwarded, that many articles
are not mentioned in it from their being a sufficiency in
Store and others only in small quantity for a similar reason,
or that a fresh supply is requisite from their perishable
nature —

Have

I have also the honor of presenting a List of certain
Instruments to be sent to the Court of Directors, most of
which would have been serviceable if there had been a Battle
established here, and a great part of the annual expence
for Instruments would thereby be saved, and it is imagined
that the expence to be incurred need not be great as the
employment from Amboyna would probably make
an object

I have to request an order from Government
to send them on Board one of the Ships now under

Sir,

Having occasion to make some arrangements at the Presidency in next Month I shall be much obliged if you to apply to the Hospital Board for a Medical Certificate for that purpose.—

My last visit to the Presidency in the Month of December last, I hope will be no objection to the Board's compliance with my present application, when it is considered, that of the Weeks leave, I was only three weeks absent from my Station on that occasion, I mention this circumstance, to evince that nothing but the most urgent necessity could have induced me to make the present application, to which I hope for the favorable indulgence of the Hospital Board.—

Mr Michael Corbett Surgeon in charge of the French Prisoners having represented to us that his extreme ill Health renders it absolutely necessary that he should take the earliest opportunity of going to Sea; we Recommend that he be permitted to proceed to the Cape of Good Hope for his recovery, and that Mr Samuel Barber, Surgeon, be directed to do duty with French Prisoners during his absence.—

We beg leave to lay before Government a Petition from the Inmates of the Dispensary, which we recommend to the favorable Consideration of Government as they are a very useful description of persons, and from their long Services, we think entitled to an increase in their Pay of two Pagodas each Monthly.

We have the honor to forward to Government a Letter from Mr Colhoun Assistant Surgeon, enclosing a Bill for expenditures on account of a Detachment of Bengal Recruits on their march from Seringapatam to Amboor, amounting to Star Pagodas 66.32.40. which we recommend to the Paymaster of the Detachment may be ordered to discharge—

Before any orders can pass for the payment of this Bill, the Hospital Board must explain particularly whether the charge be in conformity with the existing Regulations of the Service—and if not, whether there be any precedent for such payment. The Item appears high, and Mr Colhoun should therefore be called upon for a satisfactory explanation.—

Gentlemen,

I have the honor of sending the Return of the Sick of the Northern Division of the Army for the month of May - I think it my duty to represent the remissness of many of the Medical Men of the Division in not transmitting regularly Returns of the Sick, as there have been, since Mar. had charge, three four or often more deficient in every general Return at the same time it is but justice to say that the omission has hitherto required only to be mentioned, and the Return has been instantly forwarded. - I am sorry to be under the necessity of pointing out a different conduct in Mr. Assistant Surgeon White, and have the honor of enclosing the correspondence that has passed on the occasion. -

I may observe that the mistake which Mr White says I have made in addressing him, in the words of his appointment (Corps instead of Officers) as detached in General Orders, cannot affect the propriety of his sending the Returns of the Sick of his Station, for it is not only the usage of the Service, but the orders

The form of the Return which Mr White does not comprehend, was the official one, that has been understood by most of the Medical Men in the Service for several Years past, & duly by Mr White himself when attached to the 26th Battalion of Native Infantry as will appear by the general Return sent from thence to Your Board.—

True Extracts

Fort St George 18th July 1796

Hospital Board
18th July 1796

To We have received the Extracts relative to the Medical Establishment, communicated by the Secretary Jackson, and perused them with attention.

We with great pleasure late arrangements have made for the welfare of the Army, and the encouragement which they hold out to the respective Ranks of its Officers.

We feel the satisfaction which we the ameliorated condition of a Body of which Your Medical Servants form an essential though subordinate part has only been diminished by the consideration, that our own peculiar circumstances have not attracted due notice, and that in some instances we have been neglected and overlooked in the general distribution of

Fort St George 12th July 1796

which was certainly meant to comprehend the whole.—

Convinced however that the Medical line as forming an indispensable part of the Army would have had its due share of consideration in the general plan, if its peculiar circumstances had been well understood & fully Represented, and trusting that a discretionary power is vested in Your Lordship, of modifying or redressing partial grievances, we have taken the liberty of bringing Your attention to a few leading Points, as most particularly affecting the Medical Branch of your Service.

It is impossible for us not to observe with concern the apparent dependance of the Medical Department in the midst of its Superintending Board, to two Members only, and in the abrogation of the Title of Physician General, a title to which it will be universally allowed that Dr

Fort St George 12th July 1796

James Anderson has the justest claim from his extensive knowledge and useful experience, the fruits of many long and laborious Service, from his distinguished and unremitting Zeal and exertions for the public good— His title which he has held by a specific Commission during Ten years, and which on occasions no increase of expence to the Company, we are disposed to hope will not now be thought necessary to be taken away, having been altogether voluntary on the part of the Honble the Court of Directors and entirely unsolicited on that of Dr Anderson—

We are sorry to observe that a final separation should be proposed by dividing into Civil and Military Surgeons, because such a separation in our opinion cannot be productive of any good— The exigency of particular Services at present must and in future may often make it necessary to employ a proportion of the Civil

Civil Surgeons with the Army, and if they were employed in this way it would be unjust to deprive them of their share of promotion. This distinction also but ill applies to the Coast, there being scarce any one station not sometimes connected with the Military. The Service which enables a Medical person to exercise his profession with usefulness, requires a regular course of Study which cannot be accomplished at less than 5 or 6 Years. We therefore necessarily enter into the Service at a later period of life than an officer who acquires in the Army itself, the knowledge and practice of his professional Duty. Our peculiar situation in this respect has been regarded with kindness and treated with justice, and we ashamedly our obligations to the Honble the Court of Directors in having shortened on this account the period of our Service. We are persuaded that the same regard to justice which has induced them to extend towards us this reasonable indulgence, would have equally prevented (had circumstances been maturely weighed) from annexing conditions to that which must operate as a Grievance on the whole Body, and in a great measure do away every advantage resulting from the arrangement.

Surgeons and Assistant Surgeons are permitted to retire from the Service 5 Years earlier than a Military Man with the Rank of their Ranks, but before a Head Surgeon or Member of the Medical Board can retire on the annuities allotted for their support, they are required to serve five Years in their respective Stations, over and above the time that may elapse before they can arrive at those Ranks; so that in this way it is altogether impossible to define or limit the probable period of our Services. Permit us to observe that promotion in our line from the number of Assistant Surgeons must

must be slow, so that we cannot reasonably calculate on less than a lapse of 20 years before a Medical person is qualified to enjoy the highest Salary, which has been specified for the support of his retirement. As no such clause exists in the Military line, we trust that a peculiar a hardship affecting us alone will be acknowledged and done away and that like the Officers of the Army with whom we are classed, Surgeons may be allowed to retire after 20 years Service in India including 3 Years Furlough on the pensions of Head Surgeon and Member of the Medical Board, provided in that period they have served at three Stations, and without the annexed condition of having filled them any specific number of Years. The full conception of this point which we beg earnestly to press on Your Lordships attention will

well only place us on a footing of equality with the Officers round us whose hardships and fatigues we share and whom in the execution of a painful and laborious duty we accompany through the most arduous Services and equally with them exposed to casualty.

In the plan of arrangement which was submitted to the Board of Controul by the Marquis Cornwallis, it has been suggested, that Head Surgeons and Members of the Medical Board on being permitted to proceed to Europe on account of ill health or otherwise, shall during their absence give up half their Salaries to the person or persons who execute their Duty. As such a provision occasions no additional expense to the public and is solely intended to obviate any inconvenience to the Service from the temporary absence of the Heads of its Departments, we would earnestly recommend

Fort St George 10th July 1796

recommend that it should be completed in the present plan.—

The only other circumstance which we beg leave to state, is of such notoriety that it cannot have escaped Your Lordship's observation. The allowances annexed to the Heads of all Departments have been increased, excepting only the Medical. Yet the reasons assigned by the Hon.ble the Court of Directors for putting the Colonel of Engineers on a footing with the Commandant of Artillery, Viz.t That he is restricted from having any concern whatever with what is under his control &c.a are equally applicable to the Medical Board, and we trust that Your Lordship on mature consideration will admit the fitness and propriety of increasing the Physician General's allowances, and in conformity with the principle of the present arrangement, of granting him an Income

Fort St George 10th July 1796

Income in some measure proportioned to that of the Heads of other Departments, which it is very far from being at present being restricted to his Salary alone which is not the case in Bengal.—

In the midst of the general increase of allowances which have been conceded to the Heads of all other Departments we confide in Your Lordship's regard to Justice to support proportionably the necessary expence and respectability of this particular office, by granting the Physician General Table money or otherwise augmenting his Income, as well as that of our Chief Surgeon the next in Seniority, and entitled, we should hope from a service of four and thirty Years to a participation of the advantages granted by the late regulations to others.—

We beg leave to observe further that for the Reasons addressed in the preceding paragraph, the Head Surgeons have a strong

140

Fort St. George 18th July 1786

[illegible] claim on the Service for some augmentation
of their allowances. These at present are only
208 Pagodas P Month which cannot be
thought adequate to a Grade only attained
after 20 Years, especially as this Income
by a singular exception to the general
made of the Services has hitherto been
made to preclude them from drawing Batta
or other extra allowances of that
This is unquestionably a hardship, as
from the nature of their Office and the
duty imposed upon them, of visiting
different Stations, they are necessarily
exposed to a considerable expense.—

We trust that what we
have taken the liberty of stating will
appear just and reasonable, and that
in the few amendments we have proposed
any reference beyond Your Lordship's
authority, will be unnecessary: For
confiding as we do implicitly, on your
Regard to justice, we cannot but submit
the

Observations of Government

1st Sept 1796

We have received Mr Sandys Secretarial Letter of the 27th Ultimo with extracts from the General Orders of the same date, and shall lose no time in transmitting to the Commander in Chief the arrangement necessary in consequence of the new formation of the Army.

The Right Honble the President in Council is perfectly sensible of the Services rendered to the Public by Mr William Raine, and in consideration of the Circumstances brought forward by the Medical Board in his favor and under the orders of the Honble Court of Directors dated the 8th of March 1796 repeating them, his Lordship in Council willingly consents that the Salary of £1200 shall continue with Mr Raine, so long as he holds the Station of Head Surgeon to the General Hospital at

On the Subject of our Head Surgeon, who has so long, and in so satisfactory a manner, held a Seat at this Board, we think it incumbent on us to express our hopes that a measure which has been deemed necessary in the general arrangement of the Service, and not intended to operate to the injury of Individuals, may be carried into effect in the manner most favorable to Mr Raine's Feelings, at whose desire we beg leave to subjoin the following Minute.

In

Fort St George 1st August 1796

[illegible] at the Presidency has
[illegible] thought fit to
retire altogether from the
Service he will become
entitled to a pension from
the Company of five hundred
Pounds per annum.

I am emphatically the
unfortunate that the Surgeon
of this Place in the Station
of Head Surgeon of the
Presidency Hospital will be
in the receipt of one larger
Salary than I shall possess
without the previous sanction
of the Honble Court of Directors
the Extra Step now granted
to Mr Paine must be
considered as a reward for
many long and faithful
Services.

In consequence of the regulations
lately published it now falls to my lot to
vacate my Seat at this Board, but as
much of my future comfort may depend
upon the mode in which this is done I beg
You will so state the circumstance to
Government as to leave me without a
doubt concerning my own situation.

I conceive that althô I am no
longer a Member of the Medical Board, I shall
retain my situation of Head Surgeon to the
General Hospital at the Presidency, with the
Salary of fifteen hundred Pounds per annum,
and that I may retire altogether from the
Service on a pension of five hundred Pounds
per annum. While with gratitude I acknowledge
the liberality of the Court I will hope
that it will be generally acknowledged
that the length and nature of my Service
and the particular sufferings I have
experienced in the discharge of my duty
for a period of four and thirty Years

Fort St George 1st August 1796

entitle me to some degree worthy of attention,
and that whatever indulgence may be
shown to me will be acceptable to the Honble
the Court of Directors whose testimony in
my favor contained in the accompanying
Extract of a General Letter I beg you will
lay before the Commander in Chief
The Extracts to which Mr
Paine alludes accompany our proceedings.

I have the honor to transmit
to the Commander in Chief Copy of a
Letter from Mr Francis Duncan, Assistant
Surgeon requesting permission to proceed
to Europe on account of ill health, and
expressing his apprehension of some
representations being made against his
having been on duty with his Majesty's
76th Regiment

As Mr Duncan was
appointed to this duty by Marquis
Cornwallis in the Field on the loss
of

Fort St George 1st August 1796

of Mr Howe, and has continued in the important trust as long as his health would permit, we cannot suppose his rank injured, or the value of his commission impaired by his compliance with the exigencies of the Service -

The accompanying address from the Assistant Surgeons junior to Mr Duncan having been this moment sent us, we have thought proper to enclose it, under the impression that the Gentlemen by whom it is signed could not be very intimately acquainted with the circumstance of the case. -

The arguments contained in the address from the Assistant Surgeons junior to Mr Duncan against the arrangement of a nature to induce any alteration in the proceeding resolution of Government

We recommend that Mr Joseph Sheet Assistant Surgeon, be appointed to do duty with the 1st Regiment of Native Cavalry, in the 5th Regiment to which he has been for some time attached, is in orders to be reduced -

Medical Board

Gentlemen,

A long course of ill health, from which I have little hopes of recovery in this Country, obliges me to give you the present trouble, and to request that you will be pleased to obtain for me the permission of Government to return on Leave to Europe on one of the Honble Company's Medical Vessels.—

I have been obliged, some time since, to quit the 36th Regiment, the Duties of which Station, I found myself unable to discharge with any justice to the Sick. It is unnecessary for me to remind You, that my appointment to this office, originally took place, and has since been held with your sanction and approval. But as the circumstance has lately given rise to some dissatisfaction on the part of the Assistant Surgeons who rank under me, and as they have expressed an intention of addressing Government for the purpose of getting my name removed from the List, I must here beg the favor of your attention to a brief Statement of the peculiar circumstances under which I have acted; and which I request that you will have the goodness to recommend being officially recorded, as the only means I have of

Fort St George 1st August 1790

of obviating any objections that may be proposed during my absence and when I can have an opportunity of making a reply.

I was appointed an Assistant Surgeon of the Army 1787 by the Honble the Court of Directors and during several years thereafter, held different situations in that Corps, both on the Coast Bengal, on that of Malabar, Sumatra, & at the siege of Seringapatam I was called to execute the Duties of Surgeon to the Majesty's 76th Regiment in the room of Mr Stone who was taken by the Enemy. An invitation so honorable coming from those, to whose Commands I was bound to pay implicit obedience, could it be my wish to resist, on the credit of [illegible] where it will hardly be supposed that the many [illegible] who would willingly have accepted the appointment, I did accept the same from the offer of Station, but I accepted the appointment on the express condition that it should, in no way, prejudice my rank and prospects in the Honble Company's Establishment, which was readily assented to. My name has ever since been continued in the list of their Medical Servants.—

My situation, which has been altogether unavoidable, is no doubt singular, and such as will seldom occur in any Service. For tho I have been appointed Surgeon to the 76th Regiment, no certain accounts have ever been received of Mr Stone, my

my perception death, on the contrary, the latest accounts render it more than probable, that he is still alive. the office which I accepted under a satisfaction, that it should not prejudice my former rank, I could only consider from the beginning as a temporary one, and as in no respect affecting my Indentures from the Hon.ble the Court of Directors, and my commission as Assistant Surgeon from the Governor of Fort Saint George. I would willingly hope, that the validity of these Documents cannot be weakened, by my having been thus long employed with an useful and distinguished Body of Men acting in the most unfrequently or arduous situations. the appointment, of Mate to Ship, was altogether unsolicited on my part, and tho' it has proved highly eligible to me, which I had health & ability to discharge, yet in excepting it, I did nothing more, than submit to the necessity of an urgent Service. It may not be strictly proper for me to observe, that, if, in the execution of this delegated trust I have faithfully discharged my obligations to the public, my endeavours may have been as usefully exerted in this particular situation, as they probably would have been in any other, but as the Servants of the public, are not permitted to select their own Stations and respective duties, but

[illegible] neither are they [illegible] only to execute [illegible] allowed to judge; whether these Items are likely to be most useful. I may however, be permitted to say, that what were originally an act of my own, on the melancholy occasion, I have held myself prepared to relinquish, on the event that Command thro' your recommendation, might have judged it expedient to employ me otherwise.

I do not repeat these together with such remarks as your knowledge of the circumstances may induce You to make upon it, I have to request that You will be pleased to submit to the consideration of the Right Honble the President in Council. —

I have the honor to be with much respect.

My Lord,

We the undersigned Assistant Surgeons in the Honble Company's Medical establishment beg leave humbly to represent to your Lordship that Dr Francis Duncan an Assistant Surgeon on this Establishment was about four years ago appointed to do duty with, and soon after obtained the Commission of Surgeon to his Majesty's 76th Regiment in which situation he still remain.

That the said Dr Francis Duncan relinquishing his appointment to the above mentioned Regiment still retains to hold his rank as Assistant Surgeon on the Medical establishment of this Presidency which being contrary to the rules of the Service, and to the great prejudice & detriment of the undersigned We therefore humbly beg your Lordship will take the case into consideration, & hope You will be pleased to strike the name of the said Dr Francis Duncan off the List of Assistant Surgeons in the Honble Company's Service under the Presidency of Fort St George

In the foregoing Statement we have inserted the Garrison of Fort Saint George as a Station for a full Surgeon the expediency of which will we trust appear obvious: and we have substituted full Surgeons for Assistants at Pondicherry and Negapatam where Sick Officers frequently resort for the recovery of their health, and where experienced Practitioners should be placed.

Approved

In the list of the Medical Establishment which we have the honor to annex there is one Surgeon absent on leave at Calcutta where he is permanently fixed one under Suspension and one on foreign service; these Gentlemen cannot, in our opinion be considered eligible to occupy any Station here until they are actually on the spot. A promotion of twelve full Surgeons is therefore required.—

We recommend that the following Gentlemen be promoted to the rank of full Surgeons, and hope their Commissions will bear the same date as those of the other officers promoted in consequence of the new Regulations.—

Assistant Surgeons to the Battalions having been allowed Twenty Pagodas per month for Country Servants and Servants, we recommend that Surgeons to native Regiments be granted an allowance of 75 Pagodas monthly for these purposes, and the further sum of 25 Pagodas monthly for Medical expenditure in consideration of the increased number of European officers and Staff- and the additional number of non-commissioned officers for whom it will be expected the Surgeon shall provide Hospital Assistance when they require it.

An allowance of Eighty five (85) Pagodas per mensem to be drawn by the Surgeon of a native Regiment, in lieu of one hundred Pagodas as recommended by the Medical Board.

Fort St. George 15th August 1796

Approved

All medical expences on account of Detachments &c &c to be defrayed by the Surgeon.

Some misapprehension having arisen respecting the Doolies which in Garrison and Cantonment are allowed to European and Native Corps, we recommend as the most effectual mode of obviating all inconvenience that the Doolies shall be drawn for, and placed under the entire direction of the Surgeon who is to be held responsible for affording prompt and adequate assistance in all cases of accidents and sudden illness, where the conveyance of Doolies is required.

Approved

It does not appear to us that it is necessary to make any further deviation from the Medical arrangement published in the General Orders of the 8th of December 1795.

We recommend that an application may be made to the Honorable Court

The Right Worble the President in Council entertains with the Medical Board a very favorable opinion of the conduct & capacity of Mr Cowdy - but as the reasons offered by that Board are not such as would justify his Lordship in Council in urgently in their recommendation even concurring with them in the necessity of fulling their Secretary on a proper point of allowances with the functions of the Department under Government, an alteration can take place

Mr Colley Lynn Lucas, the junior member of the Medical Board, will hence forward examine and check all Medical Accounts, and take upon himself the Duties that were performed by Mr Raine in his capacity of Junior Member. -

Court of Directors to appoint some Medical Gentlemen for this Presidency there being now 24 Assistant Surgeons wanted to complete the establishment.

Our Secretary has repeatedly represented how the very inadequate allowance attached to his appointment, but we have been hitherto unwilling to address Government on the subject in the expectation that it would have been noticed in the present arrangement.

This not having been the case we think the present period the fittest for stating to Government that the duties of the office can only be properly discharged by a person of diligence and capacity - and who also possess a perfect knowledge of the Service in its different branches, and that considerable portion of his time must unavoidably be occupied by it, more especially since the Junior Member has been discontinued

Under these circumstances we trust Government will concur with us in the necessity of making such addition to the Salary and Office establishment of our Secretary as will put him on a footing with the Secretary of any other Department under this Government, or the Secretary of the Medical Board at Calcutta; the new regulations being professedly intended to equalize all the establishments in India.

We are induced the more readily to solicit the favorable attention of Government to this Recommendation from the satisfactory and attentive manner in which Mr Cowdy has uniformly fulfilled the duties of the Station for several years past.

The Medical Board

conscious of having entertained a claim that is well founded and authorized by every precedent in the Service, cannot but complain of the unexpected decision of Government on the request in their last Proceedings of the Date that is given to the whole Army.

It is stated "that the allowances granted to the Members of the Medical Board and to the Head Surgeons have been invariably considered by the Honble Court of Directors as being fully adequate to the Duties required to be performed" Without presuming to appreciate the value and importance of these Duties, we may be allowed to observe, that it could never be the intention of the Honble Court to bestow on us a specific Rank in the Army, and to withhold the allowances attached

attached to it, for, our experience of their proceedings forbids us to entertain the suspicion that they ever meant to make us an exception to the general rule of the Service.

At the institution of the Medical Board the Court of Directors, and Board of Control specified salaries for the Members and Head Surgeons with the rank of Brigadier Generals for the Physician General, which were equal, at that time, to those of the Heads of other Departments.

Were we now placed on a footing of equality with the Heads of other Departments all of whose allowances have been much increased since that period, we should have less reason to complain of the refusal of our batta in time of peace, and that of the Head Surgeons, 6 only in number, but as it is far otherways, we hope to

be excused in saying that the exception of these allowances in the field is an acknowledgement on the part of Government that they are then reasonable and necessary and sanctions the propriety of claiming in consequence the batta in time of peace specified for our ranks by the Court of Directors for granting the former and withholding the latter appears to us incompatible with the uniform practice of the Service and its general principles and we still hope that Government will have the goodness to reconsider the matter and accede to our reasonable request.

Some of the Surgeons stationed to Cuttack in our last proceedings being employed on Services from whence it would be inconvenient to withdraw them immediately, it may be necessary perhaps to give an order that the following Gentlemen remain in their present situations

I enclose a letter, and papers from Mr Campbell Surgeon to His Majesty's 73d Regiment, by which it appears that the Liquor and Medicine which were indented for did not arrive; upon which account the Medical Board ordered Mr Campbell to supply himself at the rate specified.

From the great consumption of the Wine in the Hospital and the charge of the article in Columbo the price allowed is inadequate, Mr Campbell therefore thinks he is entitled to be reimbursed by Government for the extra sum he has expended, as the Medical Storekeeper is ordered to supply the article by the order of Government dated the Eighth of November 1792.

The Stores were indented for, but their not arriving was entirely accidental owing to the Examinators on which they were shipped being necessitated to put back to Madras through stress of weather.

I think it my duty to add in justice to Mr Campbell that I have every reason to believe he was obliged to make a very great use of Wine and that his attention and liberality

We have the honor to acquaint Government that ample Supplies of Medicines have been forwarded to the Island of Ceylon by the Bark Mercury which Sailed on the first Instant, whereby we hope that all inconveniences on that head, will be obviated, but as it has come to the knowledge of Medical Board that a Dropsical complaint has prevailed amongst the Troops at Trincanamally which admits of less relief from the exhibition of Medicines, than attention to Diet, and other circumstances, we Recommend that the most particular attention be paid to the daily Messes of the Men, and as Mutton has been found by experience the best kind of Animal food for Europeans in Tropical

Lieutenal Colonel Frewin's attention will be called to this subject, with a view to his taking such measures as may seem most likely for preventing the progress of the Disease prevailing amongst the European Soldiers in Garrison at Trincomalee.—

Medical Board 24th October 1796

We have received from the Head Surgeon at Ceylon the proceedings of a Committee of Surgeons lately held at Trincomallee by order of the Commanding Officer, to investigate causes of the Disease which has been so fatal to the European Troops on duty in that Garrison, a Copy of which we have the honor to lay before the Commander in Chief.

It appears to us that the Committee have pointed out the most likely means of preventing the progress of the complaint— all the Men should be immediately furnished with Cots, for we know by experience that the most pernicious consequences arise from Sleeping upon damp Ground.— We have already urged the necessity of an

improvement in their Diet, and as in all cases of debility it is of the utmost consequence that the mind should be kept at ease it will be advisable to hold out hopes of a speedy removal from a situation against which they may be prejudiced from the number of Casualties that have occured.

Mr William Stuart Assistant Surgeon, doing duty with the Malay Battalion has applied to know what allowances he is to draw - We Recommend that he be granted, in proportion, the same allowances drawn for a Regiment of Native Infantry -

Sir

Lieutenant Colonel Fraser directs me to inform You that he wishes the opinion of the Board of Surgeons of which you are President on the cause or causes of the late increase of Sickness in the Garrison particularly among the European Soldiers by which many Deaths have happened within these last few days — The Lieutenant Colonel also desires the opinion of the Board with respect to the most probable means of checking the Sickness which is now so prevalent either by Encamping the Troops, issuing Cots or change of air &c. In short the Lieutenant Colonel wishes the Board to take into its most serious Consideration the steps which it judges ought to be taken and which will be most likely to restore Health to the Troops and prevent as much as possible disease in future.

Proceedings of the Board of Surgeons

To Lieutenant Colonel Fraser

Commanding Trincomalee and

Batticaloa

Sir

We the undersigned Surgeons having assembled agreeably to your Instructions have taken into consideration the causes to which the late increase of Sickness in the Garrison of Trincomalee but particularly in His Majesty's 72d Regiment is to be imputed.

In investigating this subject we find that the most common and dangerous Complaint is a Swelling of a Dropsical nature attended with a loss of power in the Limbs and other Symptoms of extreme weakness in the System in the treatment of which Experience has shewn the inefficacy of Medicine

The most probable causes of this Disease appear to us to consist in the First place in some noxious Quality in the Climate — We cannot pretend to specify with precision the nature of this particular noxious quality, but we conceive the dampness of the Situation occasioned from the nature of the adjacent Country to be intimately connected in the production of the Disease and this opinion we the more readily adopt as it seems peculiar to the place — We

cannot

Fort St. George 26th October 1796

cannot otherwise account for the late increase of Mortality than from the great quantity of Rain that has fallen for some weeks past — secondly bad accommodation in Barracks subjects the troops in a higher degree to the influence of the cause mentioned — Lastly we can with confidence state that bad Provisions has had a very great effect in injuring the health of the Men and disposing to this particular complaint.

From attention to the above causes we are decidedly of Opinion that the only effectual means of checking the progress of the Disease is a Removal of the troops to a more healthy Climate and this we advise to be as speedily done as the Exigencies of the Service will admit — but as measures we have much dependance as obviating the principal causes to which we impute the Sickness — Until the removal can be affected we would Recommend the strictest attention, to be paid to the troops in regard to accommodation Pensions and the abuse of Spirituous Liquors — As a principal article of accommodation, we think it proper Cotts should be issued to all the troops — An encampment can only be advisable on the certainty of dry weather — but we can have no dependance on these owing to the general diseased state of the troops which nothing but a Complete change of Climate will restore to Health.

We have received a letter from Mr. George Baillie, Surgeon to the Garrison of Fort Saint George, on the subject of his allowance, Copy of which we have the honor to lay before the Commander in Chief.

The duties annexed to Mr. Baillies Station as enumerated in his Letter, are certainly much more considerable than at any other Garrison under this Establishment, and we are of Opinion that 35 Pagodas p.r Month will be a moderate allowance for Mr. Baillie's exertions.

We recommend that the European Invalids and Pensioners of the Garrison be placed under Mr. Baillie, agreeably to the 6th Article of the Medical Regulations published in the General Orders of the 1st

6th December 1796 but that whenever they may require Hospital Treatment they be directed to send them into the General Hospital, and defray all the expence.

For the Ops of Native Invalids we recommend that an allowance of 2 Pagodas p Month be granted here. We by leave to forward to the Commander in Chief an Extract of a Letter from Mr M Watson Surgeon doing duty with the Detachment of the 2d Regiment of Europe Infantry at Port Dutch.

As he does not doubt but the statements and facts therein set forth by Lieutenant are correct, & the small number of Officers, his allowances were not adequate to the expence he incurred, we therefore recommend his claim to favorable consideration.

Gentlemen,

I beg leave to acquaint You, that I have taken charge of my appointment of Garrison Surgeon to Fort St. George, but as it does not appear that the Medical Regulations has specified the allowances to be drawn for that Station, may I therefore request You will be pleased to Recommend to Government such an allowance, as You may deem adequate to the duties of it. Upon enquiry I find them to be much greater than in any of the other Garrisons.

Independent of the very numerous Staff, there are about 150 European Invalids, and also a Corps of nearly 600 Native Invalids and Pensioners, I have also to attend all Garrison punishments, Pensioning and Invaliding Committies, as well as the Examining of Recruits; Several of the other Garrison Surgeons are allowed 25 Pagodas per month for Medical Expenditure, but from there being a much greater number here than in any other Station, I hope some additional allowance

allowance will be recommended, as also the usual allowance of 25 Pagodas for the Corps of Native Invalids and Pensioners, and that the European Invalids may be placed on the same footing as in other Garrisons.

To Dr James Anderson

Physician General &c. Members of the

Medical Board

Gentlemen,

After I had the honor of receiving an appointment on the Madras establishment, I took a passage on board the Honble Company's Ship Kent. When we were on the point of sailing from England, I was requested by Captain Saltwell of that Ship to take upon me the duty of Surgeon on the passage to India, his own Surgeon not having joined the Ship. With this request I complied, and Captain Saltwell informed the Honorable Court of Directors of this circumstance by Letter.

After our arrival at the Cape of Good Hope, where the Ship was ordered to China I meant to take a passage on a Madras Ship, but at the particular request of Captain Saltwell I was induced to go to China where we arrived on the 1st of March 1796. As my detention at China since that time has been attended with considerable expense, I beg leave to lay these circumstances before you hoping you will have the goodness to represent them to the Honble President and Council, if you think

think proper, that my Pay may be granted since my arrival at China.
The reasons of my having gone to China, and also the impossibility
of obtaining an earlier passage to Madras, are mentioned in the
letter from the Select Committee at China, to the Presidency here.
