No. 891.

Extract from the Minutes of Consultation, under date the 11th July 1858.

Read the following letter from the Director General, Medical Department.

Bringing to notice the want of additional accommodation in the Eye Infirmary, with observations and soliciting instructions on the} (Here enter 19th June 1858, No. 117.)

Read the following Memorandum from the Inspector General of Ordnance and Magazines.

Intimates that negotiations were being conducted for the purchase of certain property in Vepery including the Eye Infirmary belonging to C. V. Cunniah Chetty and that the Military Board were desired by Government to take no further steps, but to rent the buildings on "present terms."} (Here enter 7th July 1858, No. 154.)

Order.—The Government authorize the Eye Infirmary being rented, on the present terms, viz., Rupees 250 per mensem, for five years, provided the owner of the premises will erect the additional buildings required.

2. On C. V. Cunniah Chetty assenting to these conditions, the Honorable Company's Solicitor will, in communication with the Superintendent of the Eye Infirmary, draw up the necessary lease.

No 1185 To the Secretary Director General

Medical Department.

[illegible] to Memorandum No 1176 dated

dated 6 instant, from the Director General's Office, inclosing a letter from the Chief Engineer to your address regarding Overseer James a Prisoner in the Lunatic Asylum
I have the honor to report that I saw the Prisoner in question yesterday and conversed with him freely upon various subjects when he was supposed to be insane. He was perfectly rational in all his replies and I do not consider that Mr James is at the present time insane

2 It is quite evident from the history of Mr James illness that all his peculiarities of manner arose from slight temporary mental derangement caused by extreme

3. I do not however believe that he will ever be fit for any duty requiring exposure to the sun, but if his case is judiciously treated I confidently anticipate a permanent recovery. The first step I should recommend to be taken in regard to him would be his immediate transfer to the General Hospital, as confinement amongst Insane men in his present condition may cause a relapse, and tend to perpetuate the very malady we are anxious

PUBLIC DEPARTMENT.

No. 1015.

Extract from the Minutes of Consultation, under date the 16th August 1858.

Read the following letter from J. W CHERRY, Esq., Acting Collector of Coimbatore; to T. PYCROFT, Esq., Chief Secretary to Government, Fort Saint George, dated 31st July 1858, No. 31.

SIR,

1. Adverting to para. 10 of Extract from Minutes of Consultation dated 8th Instant, No. 958, I have the honor to state that a reference to the records of this Office shows that it was in two instances that Assistant Apothecary Davis brought to the notice of Mr. Thomas through the Civil Surgeon of Coimbatore, the remissness on the part of the Native Revenue Officials in the matter of vaccination. These were referred to the Sub Collector in whose Division the Villages and Talooks alluded to by Mr. Davis, are situated. A copy of Mr. Walhouse's report thereon dated 19th September 1857, is herein enclosed, from which it will appear that the complaints were enquired into by himself instead of being referred to the very Tahsildars against whom they were preferred as alleged by Mr. Davis, and that the Sub Collector has always afforded much assistance in the matter of vaccination.

2. With a view to convince Government how much Mr. Thomas has been interested in the spread of vaccination, I beg to forward an extract from his Jamabundy report to Board for Fusly 1263, wherein he has given full information on the subject, and made some suggestions for overcoming the prejudices and apathy of the Natives.

From M. J. WALHOUSE, Esq., Sub Collector of Coimbatore; to E. B. THOMAS, Esq., Collector of Coimbatore, dated 19th September 1857.

SIR,

With reference to your Official Memorandum, No. 218, dated 27th July 1857, enclosing letters from the Zillah Surgeon, and Superintendent of Vaccination, in which complaint is made of the remissness of the authorities in the Darapoorum and Oodoomulcottah Talooks in the matter of vaccination, I have the honor to state that I have enquired into the case brought to notice.

2. First with reference to Darapoorum, the Vaccinator complains that when he meets with obstruction from the Villagers, he immediately reports it to the Tahsildar, who fails to make prompt enquiry. The Tahsildar replies that the Vaccinator has never complained to him except 3 times of one Manigar (of Alingium) whom he immediately rebuked; he adds that on asking the Vaccinator to point out the officials he had complained of without notice being taken, the Vaccinator answered he could not remember. With regard to the complaint on the Darapoorum Curnum, it seems probable that he attempted some fraud and has been punished for the same.

3. Secondly, as regards Chuckragherry, the Vaccinator states that there exists no actual obstruction to the spread of vaccination there, but that he is of opinion that no proclamation has as yet been made in 2 villages (Gungapatipolliem and Kooroocherry). The Tahsildar affirms that proclamation was duly made, and I may state that during two successive Jummabundies I made it a point, when each village came up, personally and publicly to desire the Manigars under pain of penalties to render every facility to the Vaccinators, and at the same time exhorted the ryots to lay aside prejudice and bring their children to be vaccinated. This was done to every village throughout the Sub Division, and I cannot believe there is any single village in it where the inhabitants have never even heard of vaccination. I also, when the Vaccinators were more immediately under the Collector, gave them frequent assistance, especially in the Caroor Talook, where prejudice was strong, and smoothed their way in several villages when superstition ran counter to them, but I am constrained to say that Vaccinators seldom appreciate any amount of assistance, and when embarrassed by prejudice and apathy, which only time and perseverance can effectually overcome, they are too apt to raise the cry of want of assistance, and lay the blame on the officials. The letters are herewith returned.

(True Copy.)

(Signed) J. W. CHERRY,
Acting Collector.

Extract from the Report on Jamabundy Settlement for Fusly 1263, dated 28th December 1854.

66. On the Jamabundy and other tours I have long made it a practice to institute enquiry into the work and results of the Vaccinators ; in many instances and places it is satisfactory, and has, I feel assured, saved many lives and much suffering, but in some places (especially Bramin localities) the people are still determinedly and unreasonably opposed to it ; no presuasion overcomes their prejudice, which is thus allowed to endanger both their own families and the neighbouring villages, by spreading the disease, which has in some localities, been virulent. I would strenuously urge an imperative order from Government making vaccination compulsory under a penalty. As suggested by Dr. Vansomeren* perhaps a heavy fine would be the best, as only moral and not physical force can be used. There can be no real injustice in compelling people to save their own lives and others' too, by a moderate penalty ; if they insist on retrieving their unfounded and unreasonable conduct endangering others, as well as themselves, they should at least pay for it.

PUBLIC DEPARTMENT.

No. 1018.

Extract from the Minutes of Consultation, under date the 16th August 1858.

Read the following letter from RASHEED DOWLAH BAHADOOR, SIRDAR JUNG BAHADOOR, and other Inhabitants of Royapettah and Triplicane ; to the Chief Secretary to the Government, Fort Saint George, dated 30th July 1858.

SIR,

We the undersigned Native and Eurasian Inhabitants of Royapettah and Triplicane beg to submit the accompanying Memorial, as a Testimonial of our spontaneous good will and high esteem, on the excellent behaviour, professional treatment, and consistent character, which we have met with, at all times, from Native Surgeon P. M. Hyasawmy during the short time he was attached to the 4th District, for the information of the Right Honorable the Governor in Council.

We cannot but forward this through you to the Government in anticipation of his leaving us in a short time for up-country, hoping that this our sincere good will may in some measure, be of use to him, and we humbly beg to assure you, Sir, that, he shall take with him wherever his duty under Government may call him to go, our best wishes for himself and credit for, nay, prayer on behalf of the Government under which he has the happiness to serve.

TO THE RIGHT HONORABLE THE GOVERNOR IN COUNCIL, FORT SAINT GEORGE, MADRAS.

The respectful Memorial of Native and Eurasian Inhabitants of Royapettah, Triplicane and Mylapore, dated 30th July 1858.

SHEWETH,

Having experienced at all times of need from Native Surgeon P. M. Hyasawmy doing duty Triplicane Government Dispensary that zeal, careful attention, and wholesome professional advice, which, an anxious sick patient, may reasonably expect from a Medical man of high qualification and unexceptionable character, as we have, we most humbly beg to assure your Lordship, found him to be for the short time he was in our midst ; and having some reason to believe that, he shall be soon away from among us, for duty in up-country, we have unanimously thought and felt it incumbent on us, for the valuable services and most beneficial Medical advice he had given us, to submit this our unqualified Testimonial on his character, behaviour, attainment, and disposition, all of which, as far as our humble opinion and experience of his person go, are of praiseworthy nature, not altogether unmeriting, we sincerely trust, to be placed before your Lordship in Council, for a favorable consideration and Government Record : so that these our spontaneous but submissive, and practically in ourselves genuine effusions of eulogy, on a deserving Public Government Servant as Native Surgeon P. M. Hyasawmy is, may be of some utility to him in a future time at your governing hands.

We cannot but embrace this opportunity of cordially, but most respectfully, thanking the Government, for having set up a Native Medical Agent like Hyasawmy for the welfare and health of his own countrymen. How much benefit, nay blessing and comfort, &c., the Government have so disinterestedly conferred by this means upon his countrymen, it is not in our power to describe, we believe the fact is to be borne out by experiments alone, proofs in support of which are too abundant for us to say anything of it. Many Native Surgeons in Out-Stations have introduced the most beneficial European treatment of Medicine and Surgery, and millions have, undoubtedly, already benefitted from it, and the Government have, in this way, established one of their most noble Institutions for the well doing of the myriads of ignorant, superstitious, but perishing Natives of India.

No 543 To the Secretary to the
Director General,
Sir, of the Medical Department

I have the honor to be directed for submission to

59

the Director General the accompanying letter No 83 of
date 21st August 1858 from Assistant Surgeon A. R. D.
Marett, Civil Surgeon of Salem containing an appli-
cation for a Dresser to succeed passed Medical
Apprentice J. Croker removed.

During my recent visit to Salem I availed my-
self of the opportunity afforded to visit the Jail
Hospital and the Dispensary, the new Hospital
built for the Invalid Troops stationed at Salem, not yet
occupied, any sick in the Detachment being accommoda-
ted in a building near the Jail Dispensary, sufficient
for the purpose. I have much pleasure in expressing
for the information of the Director General, the satis-
faction I experienced after a very particular inspection
made of Patients, buildings and books, the patients very
cleanly in person, and evidently care fully attended upon,
buildings particular clean, and in good repair, and books
regularly kept: The great need of a Dresser to be
permanently attached to the Jail Hospital, has been
much felt, and appears very necessary it was feared
by Dr Marett, that since the removal of Passed
Medical Apprentice J. Croker, the subject had es-
caped your notice; there having been no subordinate
appointed in his stead, — hence the present application,
to which I beg leave to subscribe and recommend to the
consideration of the Director General.

I have &c &c

PUBLIC DEPARTMENT.

No. 1044.

Extract from the Minutes of Consultation, under date the 19th August 1858.

Read the following Extract from the Proceedings of the Board of Revenue.

Submitting, with the Board's remarks and suggestions thereon, a letter from the Collector of Bellary, proposing certain arrangements whereby to defray the expenses of maintaining the Dispensary which it is intended to establish at Gooty in that District. } (Here enter 9th August 1858, No. 3003.)

Order.—Having been called upon to state whether a Dispensary could not be supported out of the Funds assigned for the "Munro Choultry" at *Gooty*, without unduly trenching upon the other objects to which the Choultry is now made available, the Collector of *Bellary* suggests that of the sum of Rupees 2,045 annually allowed for the Institution, Rupees 1,645 be in future set apart for the Choultry proper, and that the balance, Rupees 400, be assigned to defray the charges of the proposed Dispensary.

2. The Board of Revenue believe that a sum of Rupees 1,540, the accumulated surplus of the last four years from the funds of the Choultry, is now lying in the Collector's Treasury, and that, possibly, there are similar accumulations of previous years; and with this fund to meet contingencies, they are of opinion that the yearly grant is sufficient to provide for the estimated cost of the proposed Dispensary, viz., Rupees 400 per annum, without in any way circumscribing the usefulness of the Choultry.

3. Under these circumstances, the Governor in Council readily accords his sanction to the establishment of a Dispensary at Gooty. From the letter of the Superintending Surgeon, Ceded Districts, dated 15th March last No. 58, it appears that a room in the Choultry can be allotted for the purpose.

Poona

Having submitted to the Director
General your communication N.o 532 of date 16th instant with
its enclosure from Assistant Surgeon G. McKay M. D. relative
to Assistant Apothecary M. Tillingsley, I am instructed to ac-
quaint you, that while fully acknowledging the views therein
set forth as to the advantages of retaining a subordinate tho-
roughly conversent with the duties of his appointment, yet
the recent orders issued by the Commander in Chief bearing
upon appointments to Staff Stations and the usages of the
service precludes his submitting the subject to higher authority
It is observed that Assistant Apothecary Tillingsley was
appointed to the Hills under date November 1855 and no
doubt his successor with the aid which Dr McKay can afford
will soon be able to perform all the duties appertaining to
the General Dispensary at Colacamund

No 1268.

To the Superintending Surgeon
Malabar and Canara

Sir,

With reference to the proceeding of the Annual Survey on the Medical Stores in your division, under date 29th July last received with a Supplementary return No 1 from 1st April to 30th June 1858 prepared agreeable to Circular No 144 of 28th January 1857, I am desired by the Director General to request that you will be good enough to examine carefully the No 2 return of the Deputy Medical Storekeeper, shewing the quantities of Medicine &c issued and entered from 1st April to 30th June, and acquaint me whether Quinine has been issued to the extent of lbs 13, 13¼, or whether any error has been made in the Column of issues by erroneously adding any quantity appertaining to the returned Stock.

2. I am desired to inform you that the object sought to be obtained by the instructions conveyed in the Circular above alluded to, was to prevent the repetition of errors in the Annual returns received from Division Stores by weighing the general and returned Stock together, while making the Annual Survey. It is not likely that so large a quantity as 3 lbs of Quinine should be found as returned Stock, such however is possible, but, should an error have been made as adverted to, in a preceding para, I am to request at the same time especially as a petition touching the deficiency by the fit of this medicine

medicine in the Store here, is under investigation by direction of Government.

4th September 1838.

The same to the Subordinate Judges of Combaconum

Extract.

"Adverting to letter No 396 of the 21st June, from Acting Superintending Surgeon J. Dorward to your address, I have the honor in continuation to report, for the information of the Director General, that Jeremiah Moses late Head Writer of this Office, quitted his employment contrary to the oft repeated prohibition of Dr. Dorward, and left the office without his sanction, and prior to the receipt of your letter No 1001 of the 29th Idem.

The 2nd Writer employed in the office, and most probably influenced by the Head Writers example, did the same, thus occasioning very serious inconvenience and interruption to the Public Service, and efficiency of the office; no substitutes having been provided to carry on the duties thus deserted.

The late Head Writer quitted the office as stated leaving the records in the greatest state of confusion, and many Returns and Reports, missing and not to be found. The Books also left in arrears, and for some time previous very imperfectly kept up, and the man had repeatedly obstinately refused Dr. Dorward that every part of his duty had been correctly performed and every thing left in perfect order — which was found to be contrary to fact

The Head Writer in question Jeremiah Moses by name — Evangelium Stella was inducted by Dr. Dorward into the higher duties of the office, and other junior assistants, as copying clerk, Storekeeper &c &c, and the usual routine duties this carried on for a considerable period which, I have no other option than for the present to continue

It is generally known, that Jeremiah Moses had engaged himself, and is at present employed in the office of the Subordinate Judge of Combaconum, As his re-employment in any public office after such desertion from the Superintending Surgeons office, is I believe, prohibited by Government Regulation, I would solicit the Director General's aid in procuring such a measure of punishment being carried out, in the case of this very disobedient and unmanageable writer, as would prevent his re-employment in the service of Government in any public office.

It is for the present desirable to retain the former third Writer as head of the establishment, as he is acquainted with the forms and routine duties of the office and it would be difficult to replace him by an experienced Writer, or others equally useful, and his removal likly to occasion additional delays and inconvenience"

№570 To the Secretary to the
Director General of the
Medical Department

Sir,

I have the honor to forward you the accompanying case of Assistant Apothecary N. D. Rozario of the 21st Regiment N.I. whom I have several times seen, at-

at the Hospital, and to report for the information of the Director General, that in my opinion the state of health, and feebleness of person, of the young man completely incapacitates him for the duties of the Hospital.

If approved by the Director General, the suggestion of Assistant Surgeon M^c Johnston as to the Assistant Apothecary being allowed to accompany any Detachment which may soon be sent to Madras might be carried out; or he be permitted to proceed on sick certificate to Madras at once.

It having been known for a long time past that the young man is an habitual somnambulist and his state of health I believe, greatly depending on the exhausting effects of such unfortunate habit, I should not be surprized at his being pronounced unfit for continuance in the Public service and likely to continue in ill health for sometime.

I shall be obliged by your communicating the decision of the Director General, and orders, as to the disposal of the Assistant Apothecary. His duties are at present being performed by Assistant Apothecary Flaherty of the Superintending Surgeons Department.

N°320.

To the Adjutant General
of the Army

Sir,

I have the honor to acknowledge the receipt of your letter N°309 under date the 31st. ultimo, with a letter from the Officer Commanding the Southern Division with its enclosures herewith returned, desiring my opinion on the application of Assistant Surgeon D. Mackay for the increased rate of staff salary as drawn by all officers of his standing in medical charge of a Regiment.

2 In reply, I beg to say that in forwarding the appeal of Assistant Surgeon Leslie, I advocated the principle of increased rate of remuneration according to length of service and on that ground supported the claim to be brought under the operation of Para V of G.O.G. 18th August 1857 but as by extract of Minutes of Consultation 2nd September 1858, His Excellency the Commander in Chief observes that Assistant Surgeons in Civil employment have the remedy in their own hands, and the Government in Council has confirmed that suggestion. I do not feel at liberty to attempt to controvert those opinions more especially in the case under review, as Assistant Surgeon Mackay has advantages irrespective of Government labour, which he in Assistant Surgeon in other Civil employ has to the same talent, and which advantage, real or supposed of private practice, seems to have been taken into account in excluding 1st class Assistant Surgeons from the same Staff

Staff Salary as that given to those in medical charge of Regiments

Bangalore 4th Septr 1858.

Sir,

I have the honor to state for the information of the Director General that I have received a letter from the Surgeon of the 43rd L. I. stationed at Calpee in which he makes use of the following words, "when we joined the Division "the Superintending Surgeon told me he would not give me the annual supply of Medicines, due six Months, so I did not send the "indent, by his direction. I have sent in emergent indents from time "to time as things ran out, but few of them have been supplied "on account of there being none in Store; even of sulphate of "Magnesia and Pulv Creti C. there has been none in Store since "we joined the Division"

I trust therefore the Director General will take such immediate steps as he thinks proper to remedy the great want of medicines there appears to be in General Whitelocks Column: In the mean time I have written to the Inspector General in Bengal, requesting him if possible to forward a small supply for Her Majestys 43rd L. I.

Circular
Memorandum

The annexed copy of Extract from Minutes of Consultation in the Military Department № 3139 of date 2nd instant, is transmitted to the Superintending Surgeon ——— Division for his information and for communication to the Medical Officers serving in his range.

Signed/ A Lorimer M. D.
Secy Director Genl Med. Dept.

11th September 1858.

№ 3139.

Extract from the Minutes of Consultation in the Military Department

2nd September 1858.

Read letter from the Adjutant General of the Army, Head Quarters, Calacamund, 12th August 1858, № 1534, to the Secretary to Government, Military Department.

I have the honor, by order of the Commander in Chief, to refer for the consideration of the Right Honorable the Governor in Council, the accompanying copy of letter from the Director General, Medical Department, dated 4th instant, № 142, with its enclosure, from Assistant Surgeon Leslie, Acting Civil Surgeon Cochin, applying for the increased rate of allowance to Assistant Surgeons of 10 years standing and upwards.

I am directed to observe, that the remedy is in the Assistant Surgeon's own hands. If he prefers Regimental duty with its advantages which are not granted for

for Civil Medical duties, he can apply to be permitted to be restored to Military duty.

With report of the Officiating Military Auditor General, 23rd August 1858 &c.

The Governor in Council observes, that para 5 of G. O. C. G. 18th August 1857, on which Assistant Surgeon Leslie grounds his claim, has no reference to Assistant Surgeons not in the performance of Regimental duty. His application therefore cannot be complied with

2 It is suggested by the Commander in Chief &c Assistant Surgeons of 10 years standing and upwards who are in Civil employ and desirous of the emoluments accruing to Regimental duty have the remedy in their own hands.

Sir,

I have the honor to inclose the results of my analysis of the two samples of Well Water forwarded by the Superintending Surgeon Hydrabad Residency for and to which his letter of the 30th ultimo N°286 to your address so refers.

2

So far as a Chemical Examination can determine it appears that the Waters are of excellent quality 2 bottles of them contrast favorably with the Water of the Seven Wells of Madras, an analysis of which I have recently made, to which I respectfully for the sake of comparison

3.

It will be observed however that the sample marked "Conicopoly Well" is considerably purer than the "Barrack Well" both in regard to the organic or inorganic matters they contain

I have &c.

Madras,
14th September 1858

Results

95

Results of three analyses of two samples of Well Water from Secunderabad.

Label	Specific Gravity	Total solid Matter per Gallon	Organic Matter per Gallon	Inorganic matter per Gallon
Conicopoly Well	1000.26	grains 10.32	grains 2.64	grains 7.68.
Barrack Well	1000.3	grains 17.68	grains 3.44	grains 14.24
Seven Wells Water, Madras	1000.8.	grains 47.12	grain 4.2	grains 42.92

In each case the organic constituents were found to be.

Carbonic Acid
Chlorine
*Sulphuric Acid
*Silicic Acid
Lime
Soda
*Magnesia

*Mere traces of these constituents were discoverable

I have the honor to inclose the results of my analysis of the two samples of "Well" Water forwarded by the Superintending Surgeon Hyderabad Sanitary Circle and to which he his letter of the 30th ultimo N°280 refers I do hereby report.

2

So far as a Chemical Examination can determine it appears that the Waters are of excellent quality 2 bottles of them contrast favorably with the Water of the Seven Wells of Madras, an analysis of which I have recently made, to which I respectfully refer for the sake of comparison

3.

It will be observed however that the sample marked "Conicopoly Well" is considerably purer than the "Barrack Well" both in regard to the organic and mineral matters they contain

I have &c.
Signed J. Macpherson
Chem. Examiner

Madras
16th September 1858

Results of Analysis of two samples of Well Water from Hyderabad

Name & Situation of Well	Specific Gravity	Solid matter per gallon	Inorganic matter per gallon	Organic matter per gallon
Conicopoly Well	1000·26	grains 10·32	grains 2·64	grains 7·68
Barrack Well	1000·3	grains 17·68	grains 3·44	grains 14·24
Seven Wells Water, Madras	1000·8	grains 47·12	grain 4·2	grains 42·92

In each case the organic constituents were found to be

Carbonic Acid
Chlorine
*Sulphuric Acid
*Silicic Acid

Lime
Soda
*Magnesia

*Mere traces of these constituents were discoverable

Sir,

With reference to your letter No 461 of date 28th instant, I am desired by the Director General to acquaint you that on further enquiry it has been reported that the following are the correct dates of arrival of the Native Surgeons named below.

Native Surgeon Anthony Pillay 14th July 1858.
" S. Ruthnum Moodeliar 24th Do "

Signed/ A Dorimer M. D.
Secy Director Genl M. D.

25th September 1858.

No 1393.

To the Civil Auditor

Sir,

In annexing marginally extracts from communications from Native Surgeons Anthony Pillay and S. Ruthnum Moodeliar for your information, I have the honor to acquaint you that the Director General allowed Mr Ruthnum four weeks leave of absence on the occasion of his marriage and Messrs Anthony and Iyasamy were permitted two weeks leave to attend to some private affairs previous to joining their stations. Under these circumstances, you will be good enough to cause the Abstracts of these individuals to be passed without any loss of Pay to them.

From Native Surgeon Anthony Pillay
"The Civil Auditor has been deducting about 35 Rs from my pay for July. In my Abstract the Civil Auditor gives a note which runs thus— "The period from 16 to 26th July inclusive being the sum in excess of that allowed for joining, no salary is admissable."

From Native Surgeon S. Ruthnum Moodeliar.
"I am extremely sorry Sir to be given the loser of Rs 15. 6, which I was totally unprepared for.

The Civil Auditor made a deduction of the above sum in my pay for the last month, stating that no pay is admissible for 23 days— being the time in excess of what is allowed to me."

Sir,

In acknowledging the receipt of your letter of the 6th instant №682, I have the honor by order of the Commander in Chief to inform you that His Excellency does not consider it expedient to establish minimum measurements round the Chest for Candidates for enlistment into the Artillery in India

Recommending that minimum measurement round the chest (as already have been fixed for the Native Army) be established for Candidates for Enlistment to services in the European ranks of the Artillery

2 So few cases of Enlistment occur in this Country that Sir Richard Armstrong deems it preferable to leave the present system undisturbed & to let every case be decided with reference to the Candidates general fitness as may be certified by a Medical Officer

To the Director of
Public Instruction

Sir,

With reference to your letter marginally noted, and its enclosures, relative to

to Native Surgeon Appavoo, I have the honor to inform you that the Director General Medical Department is of opinion that the employment of the Native Surgeons at the Medical College is entirely opposed to the object of the Government in establishing this grade. Even though he should be allotted some professional duty at Madras, the College duties would be always regarded as his chief ones, and the others subservient and subordinate thereto - he will never become while employed as at present a good Practitioner - if the Government consider his services more valuable to here now employed than as a medical man amongst his countrymen, the Director General would recommend that he be removed from the class of Native Surgeons and according to the high testimonials he has as a Botanist he would doubtless perform sufficiently the duty as Botanical Professor - but he strongly depricates the Native Surgeon being employed nominally in both pursuits

PUBLIC DEPARTMENT.

No. 1169.

Extract from the Minutes of Consultation, under date the 21st September 1858.

Read the following papers:—

From the Secretary Medical College Council.
(Here enter 23rd August 1858, No. 123.)

From the Professor of Chemistry.
(Here enter 13th September 1858, No. 1222.)

It appears from the statement of the Medical College Council and of the Professor of Chemistry that accommodation for carrying on his duties cannot be found for the Chemical Examiner in the Medical College. The Government are therefore of opinion that Dr. Scott must be left himself to provide some suitable building,—and they resolve to allow him thirty (30) Rupees per mensem for that purpose. The Director General, Medical Department, will communicate this order to Dr. Scott, who will draw the allowance from the 1st Instant.

20th November 1855.

Extract

I have the honor to report for the information of the Director General
that Kalnagar a convict of the Pegu Battalion made his escape
during the night after his cell had been closed, by forcing out
one of the Bars of the window of the cell. This could not have
occurred had the proprietors of the Asylum attended to the re-
quisitions that have been made on them for repairs
I have the honor to subjoin copies of the official letters that
have been most recently despatched to Messrs Griffiths and Co
in reference to repairs - a private one with the same object has also
subsequently been forwarded - The persons employed by Messrs
Griffiths to effect the repair have also had their attention
particularly directed to the state of the Windows and fastenings
generally

No 1. To the Superintending Surgeon,
Centre Division

Sir,

I have the honor to bring to your notice that 1st Class Sub-Assistant Surgeon V. Balthasarthy No 199 is now the only Sub-ordinate attached to the 18th Regiment N.I.

This Dresser - as you will see by the enclosed "Report" is a martyr to Asthma - He was sent to Vellore I suppose chiefly on account of his health - this being his native place - and he says he has suffered less since his arrival here than he did at Madras - still he has attacks of Asthma five or six times during the month and it is frequently quite painful to see him struggling through his work.

So far as my opportunities of judging go I entirely concur in Dr Blacklocks estimate of his zeal and capacity - but he is quite an invalid and I am convinced will not be able to carry on the Hospital duties without some help this I am unable to obtain for him here as the other Hospitals are at a distance and the single subordinate attached to each of them has already more to do than he can well accomplish

If you will kindly represent these circumstances to the proper authorities I trust some assistance may be supplied as soon as possible in lieu of Acting 2nd Dresser Veerasawmy No 451 who was removed from the Regiment ten days ago.

To the Secretary to the Director General
Medical Department

Sir,

Honored Sir,

With due respect and humble submission I beg leave to bring to your kind notice the following circumstances in the humble hope that my earnest prayer will meet with your consideration and approbation.

I have been employed as a lascar in the Medl Stores for the last 14 years. some time last year the Director General was pleased to order me to proceed to Bangalore and to do duty in the medical stores at that station and while doing so I was sent for by the Director Genl's Order to come down to Madras to give deposition on account of some robbery committed in the Medl Stores. mean while Honored Sir my mother died leaving my aged father & family dependent on me & as there is no one to take care of them & myself I fell sick at Bangalore the water of the place not agreeing with me I placed all my distresses before the Medl Storekr who has ordered me to apply to the Director Genl. Therefore I hope that the Director Genl will be kindly pleased in consideration of my unfortunate circumstances to issue order to the Medl Storekr so that I may be enabled to obtain hire only. This act of kindness will ever be acknowledged with my heartfelt gratitude

I beg to remain Sir &c

No 5. From Surgeon A Blacklock
Surgeon Civil Dispensary
General Hospital

To the Superintending Surgeon,
Presidency.

Sir,

I have the honor to inform you that in accordance with your instructions, I examined Passed Medical Apprentices Stewart and Chadwick on the afternoon of the 7th instant. Each was under examination one hour and a half, in addition to the time each occupied in writing out a case in the ward. The examination rolls and cases herewith enclosed will inform you of the details of the proceedings.

2. Passed Medical Apprentice Stewart is exceedingly well informed in Professional subjects and is a very useful man in Hospital. I had not the slightest hesitation in pronouncing him fit for the grade of Assistant Apothecary

3. Passed Medical Apprentice Chadwick is so very deficient even in the rudiments of Professional knowledge that I have had grave doubts about the propriety of passing him. I have done so, subject of course to your approval, because I felt that considerable allowance should be made for his imperfect education and for the obstacles to his improvement while he was at Chittoor. Dr Harper says in his report upon him dated 15th ultimo. "The conduct of Passed Medical Apprentice Chadwick was on the whole satisfactory and he was generally attentive to his duties. His health is not very good, in some measure owing to the extreme discomfort of his quarters in Chittoor."

4. Medical Apprentices Stewart and Chadwick have desired me to request you to be good enough to obtain for them the favor of having their names placed in the list of Assistant Apothecaries as they stood on the General Roster of the Medical College when they were removed from that institution owing to the emergencies of the public service. I have no hesitation in asking this favor for Mr Stewart as I am sure he would have passed as soon as those above him on the College list, had he had the opportunity, but I can only recommend Mr Chadwick for this boon on the ground that he would or probably have passed at an earlier date had his position at Chittoor not been so very unfavorable

With reference to your Secretary's Memo of the 16th

149

146

PUBLIC DEPARTMENT.

No. 1247.

Extract from the Minutes of Consultation, under date the 8th October 1858.

Read the following letter from the Director General, Medical Department.

Forwarding communication from Surgeon Porteous, relative to Native Surgeon Moonesawmy, and recommending his name be removed from the list of Native Surgeons. } (Here enter 28th September 1858, No. 178.)

Order.—In his report, submitted with the foregoing letter, the Surgeon in charge of the Triplicane Dispensary brings to notice the lamentable deficiency of professional knowledge evinced by Native Surgeon P. Moonesawmy, when recently called upon to describe to certain Medical students and Medical subordinates parts of a human body on which a post mortem examination was being made.

2. Moonesawmy obtained in 1852 a diploma of the Medical College, since which, it appears, he has led a very irregular life, the consequences of which have been pointed out to him but without effect, and now after a lapse of six years, he has thus shown himself wholly unfit for the duties of his profession, such ignorance can only be ascribed to most culpable indolence or a wanton neglect of the opportunities he has so long enjoyed for professional improvement.

3. Fully concurring, therefore, in the propriety of the measure recommended by the Director General, Medical Department, the Governor in Council directs that the name of P. Moonesawmy be removed from the list of Native Surgeons.

4. He trusts that the course now adopted in the case of Moonesawmy will serve as a warning to others of the same grade whose career seems doubtful.

No 133. To the Superintending Surgeon,
Pondicherry Division

Sir,

I have the honor to forward the accompanying sick certificate of Apothecary A Grave doing duty at the Cantonment Hospital. In consequence of which as you are aware there is at present no efficient Medical Subordinate attached to the European Hospital under my Medical charge at this station

I need not mention to you the very great inconvenience arising therefrom, as you will feel it on your visit this morning

In addition to the ordinary sick, a number of European and Native sick details have just arrived from Burmah, and amongst the latter particularly there are several exceedingly ill, requiring great care and watching. I would also here state that the Assistant Apothecary R A Bowie attached to the 5th Battalion of Artillery has been able to do but very little duty for about a week past, owing to an abscess in right hand, which came on after assisting in a Post Mortem examination a short time ago.

I therefore beg you will be so good as to lay these circumstances before the proper authorities, and kindly urge the necessity of an Assistant Apothecary being sent with as little delay as possible to the Cantonment Hospital under my charge where the duties are often extremely heavy, for besides the in Patients there are a large number of out patients Prisoners &c" and some of these require to be visited at their own houses

hours.

Apothecary Groves' health has not been at all good for some time past and I fear unless he has some permanent or a sustance it may break down altogether for a time, I have not included to the Native lads who are doing duty here, as they are as yet quite unequal to any duty beyond compounding" Do. " Do. "
I have Do. " Do. "

St. Thomas's Mount, 12th October 1858.

Signed/ W. Rogers, Surgeon 1st Bn. and Details M. Artly C.D.

I quite concur in the Statement contained in the above letter and in the urgent necessity there is for the services of an Apothecary at the Mount Cantonment Hospital were it not that Mr. Groves is a most zealous and hard working man matters would have been much worse than they are

and Cantonment

Signed/ W. Burrell
Surg Surgeon C. D.

This is to Certify that Apothecary A Grove doing duty at the Hospital of 1st Battalion Madras Artillery is incapacitated by indisposition from the performance of his duty.

Public Department

Extract from the Minutes of Consultation under date the 12th October 1858.

Read the following letter from A. N. Magrath, Esqre, Director General, Medical Department, dated 6th October 1858. N°184.

Sir;

In submitting for the information of Government the annexed copy of a correspondence with the Civil Auditor, on the subject of the Pay of Native Surgeons, I have the honor to request that you will be good enough to obtain the authority of Government for that Officer to pass the Bills of the Native Surgeons therein alluded to, under the circumstances explained in the communication from this Department.

From A Lorimer, Esqre M. D., Secretary to the Director General, Medical Department, to the Civil Auditor, Fort Saint George, dated 25th September 1858, N°1393.

Sir,

In annexing marginally extracts from communications from Native Surgeon Anthony Pillay and Surgeon Ruthnum

From Native Surgeon Anthony Pillay
The Civil Auditor has been deducting about 3½ Rupees from my pay for July. In my pay abstract the Civil Auditor gives a note which runs thus. The period from 16th to 26th July inclusive

inclusive, being the sum in excess of that allowed, for joining, no salary is admissible."

From Native Surgeon P. Ruthnum Moodeliar

"I am extremely sorry Sir to become the loser of Rs. 70. 15. 6, which I was totally unprepared for."

"The Civil Auditor made a deduction of the above sum in my pay for the last month, stating that no pay is admissible for 28 days, being the time in excess of what is allowed to me."

and Iyaswamy were permitted two weeks a fairs previous to joining their stations. will be good enough to cause the abstracts to be passed without any loss of pay to them.

From J. Cushington, Esqre Civil Auditor, to A Lorimer, Esqre Secretary to the Director General of the Medical Department,

Dated 29th September 1858. No 556

Fixed Department

Sir;

With reference to your letter of the 25th instant, I have the honor to inform you that, as the appointments of Native Surgeons are conferred direct by Government, No 1393 leave of absence to officers of that grade can according to Section I of the Uncovenanted Service Rules only be granted by Government, consequently the leave stated by you to have been granted to Anthony and P. Ruthnum must be sanctioned by the Government before this Office can pass to those officers the amounts deducted from their salaries on account of their overlaying their time in joining their respective appointments.

Order

Under the explanation afforded by the Director General, Medical Department the Civil Auditor will pass the sums retrenched from the allowances of Native Surgeons

P. Anthony and P. Ruthnum respectively

19th October 1858.

No 209. To the Secretary
to the Director General
Medical Department.

Sir,

As the flooring of the General Hospital requires to be repaired I beg to recommend as an experiment, that glazed tiles may be substituted for the Brick Tiles at present employed for flooring such buildings.

2 The Brick Tile is friable, perishable and soon wears away unequally, the cement also in which it is imbedded and which is exposed all round the Tile is soon bruised and broken by the feet of the patients in both cases causing

causing irregularities in the floor and stain.

3. It is also absorbent, becomes damp during the monsoon and urine or any unclean fluid such as the evacuations of cases spilled upon the floor is absorbed and retained in the Brick. These matters will in course of time cause offensive smells and even may occasion noxious exhalations

4. The general appearance of an Hospital paved with red Bricks, is dull comfortless and Barrack like and it is impossible to make it look as an Hospital ought to appear neat comfortable and scrupulously clean.

5. The glazed Tile on the other hand can be made of any colour - it is non absorbent hard and durable, giving off no dust, can with facility be kept perfectly clean, and as each Tile fits close to the other nothing is visible at the joining but a thin seam of cement.

6. An hospital paved with a light coloured glazed Tile resembling those in the accompanying drawing would have a neat comfortable, and pleasing appearance, be easily kept clean, and I believe, would be decidedly more healthy.

7. According to the estimate furnished by Dr Duff the Superintendent of the School of Arts, the expense of Brick Tiles for the paving of one ward would amount to Rs 45 and the value of the same number of glazed Tiles would amount to Rupees 140-0-0.

8. Dr Duff informs me that he can if permitted to do so, supply each Tiles in sufficient quantity for one ward. I enclosed a drawing of 4 Wards so paved and annex a statement from Dr Duff showing the comparative expense of the two description of paving Tiles

9. Should the above proposition meet with the approval of the Director General I beg to propose that the

to call upon the Assistant Apothecary J. A Beckett, for such explanation as he may have to offer regarding the Recruits passed by him, and transmit the same to this office as early as practicable, for submission to the Commander in Chief

To the Accountant General.

Sir,

In reply to your letter marginally noted, No 2911 - 16th instant, I have the honor by desire of the Director General to acquaint you that the valuation of the Balance remaining Stock of Medical Stores called for in your letter can only be accurately obtained on balancing the general return for the whole of the Stores of the Presidency; this is now near completion; but of previous to this closing and balancing the general return, an estimated valuation of the Stock, say within fifty Rupees or probably less of the whole sum would be a pause in preparing the general statement of accounts in your Office, the amount can

the Ophthalmic Ward of the H. M. Hospital be in the first instance placed in the manner above suggested as this Ward, more than any other requires to be kept scrupulously clear and free from dust.

Supg Surgeon's Office,
Madras,
16th October 1858.

I have &c
Signed J. Kellie
Ag Supg Surgeon.

P. S. The accompanying drawing of the Hospital Wards and the specimen Tiles now forwarded I received from Dr Duff and who has most willingly afforded me every assistance

Signed J. Kellie
Ag Supg Surgeon.

Copy of a letter from Dr Duff.

"I have ascertained that Tiles similar to those now on the floors of the Wards and Verandahs of the General Hospital cost about Rs 12 a thousand 6/2 inches square equal to a Surface of 50 square yards"

"I have measured one of the Wards of the General Hospital and find it to cover about 184 square yards, a little more than 3½ times the surface covered by a thousand of the above tiles - and costing, say about Rs 45 - for the whole Ward for tiles above as they come from the Native kilns; I have by experiment found that these Native made tiles are not of sufficient density to bear a heat - for glazing well, and cannot therefore be used - for the required flooring - In the School of Industrial Arts we work with a better proportioned "body" and a finer and more carefully prepared clay, producing a denser and much more durable article which takes a glaze easily and well - These we could not afford to supply for less than, say 20 Rs a thousand unglazed, or for less than 40 Rs a thousand glazed

glazed. Our very finest encaustic Italian glazed would cost a very much larger sum. but these would be perfectly well suited for all the purposes of Hospitals or Barrack flooring and Public beautiful as the encaustic would be. as per sketch annexed. The way at the above rate Rs. 140 would cover a Yard of the dimensions given similar of the one shewn in the diagram which accompanies this.

No. 1242.

Extract from the Minutes of Consultation, under date the 7th October 1858.

Read the following letter from the Director General, Medical Department.

Submitting a letter with a memo. on the state of the Lunatic Asylum by Acting Superintending Surgeon Kellie for the accommodation and the means of separating different classes of patients, with observations. (Here enter 13th September 1858, No. 167.)

Order.—With this letter the Director General, Medical Department, forwards one from Acting Superintending Surgeon Kellie with a Memorandum drawn up by the same Officer on the present state of the Lunatic Asylum.

2. In that Memorandum Mr. Kellie points out the unsuitableness of the building for such an Institution, the plan of its construction being such as not to admit of any classification of its inmates. To remedy this defect as far as possible, he suggests that the house situated in the compound adjoining that of the Asylum—a house in every way well adapted for the purpose—be engaged, and that all patients whose state of mental health is of a doubtful character and all convalescents, be removed to it, those in a more hapless condition being retained in the present building.

3. The premises in question are, it is stated, available at a monthly rent of 100 Rupees and the owner is prepared to make any ordinary alterations to it, necessary to its greater security or convenience, which will not injure the property as a dwelling house.

4. The Governor in Council approves the suggestions of Mr. Kellie. He accordingly authorizes Mr. Ferrand's house being at once engaged on the terms mentioned and furnished in the manner proposed.

5. The Governor in Council has no objection to Clergymen or Missionaries having access to patients of their own persuasion; on the contrary, he anticipates much good from such visits.

6. The Director General will require the Medical Superintendent to reside in the vicinity of the premises, and to carry out, as far as practicable, the suggestions offered in Mr. Kellie's letter of the 10th Ultimo, para. 5, for affording the patients means of employment or amusement.

Sir,

I have the honor to acknowledge the receipt of 5 bottles of Water accompanying your Secretary's Memo No 1509 dated 16th instant each to be taken from the site selected for a Sanatarium and Depot for European troops on the Shevaroy Hills and forwarded to me for analysis and report as to its fitness for use as drinking water.

2 I regret to state that upon opening these bottles I found the water contained in each of them to possess a distinctly putrid smell some of the bottles being worse in this respect than others.

3 Should it prove to be the case that this smell is inherent in the water itself this circumstance would of course render it unfit for use as drinking water in its present state.

4 I have still doubts however whether the smell may not be due to the bottles used being imperfectly clean, more especially as two of them bore marks of having contained wine - As it is a matter of much consequence I would beg to suggest that a fresh sample should be again obtained and that perfectly new and clean bottles should be used to collect the water in

Dowe to the Superintending Surgeon Northern Division relative to Assistant Apothecary C. J. Ambrose, I have the honor to recommend, that under the circumstances brought to notice, the Subordinate may be removed to the Presidency, and ordered to do duty in the Shipkeeper's Dispensary for twelve months, and to be reported upon every second month as to his conduct in the performance of this duty.

Signed A. N. Magrath,
Director Genl. Medl. Dept.

23rd October 1858.

Extract of a letter from Assistant Surgeon J. Dowe to the Superintending Surgeon Northern Division № 23 dated Dowlaishweram 26th September 1858.

"I have the honor to bring to your notice the following facts relative to the state of the hospital books, records &c belonging to the Civil Hospital of the Districts Engineer's Department at Dowlaishweram which will in some

some measure explain the reason of their present ill keeping state.

On my taking charge of the hospital I found them all in the condition stated to you in para 2 of my letter of 23d August. I at once requested Assistant Apothecary Ambrose to rectify this, and with a fair promise he said he would. Day after day passed without any thing being done and although I was constantly urged the matter, I was repeatedly met by some paltry excuse. At length he stated to me that he could not find the data from records to bring up the work from March and April last. I then requested him to keep up the work of the books properly from the day I took charge, viz. 6 August/58. This he has failed to do in every sense, nor can I induce him to carry out my requests altho I have repeatedly urged upon him the importance of the duty so that the books to my great regret stand thus.

"Nominal Register - In Patients" nothing entered since April 3rd.
Do Out Patients Do Do of April 4th.
"Prescription Book" - nothing entered since March 3rd.

The whole of this week has passed without his making out the "Weekly Report of Sick" for your information, although daily urged to do so by me - as often as he promises to often does he most assuredly fail to do his duty.

I constantly feel I cannot trust him to carry out my orders relative to the administration of medicines, Surgical appliances &c. I make no distinct statement in this case, although I feel assured my orders are not carried out, and that what is done is left to the Luchman to do. I have often found wrong dressings upon the wounds of patients, and when I interrogate the Assistant Apothecary, he invariably appeals in an uncertain mood to the Luchman.

I am convinced he is much addicted to drink. I have not seen him actually drunk, but I have often seen him in so muzzy a condition as to cause an impression on my mind of his utter unworthiness for this constant daily neglect of duty which calls for the repeated remonstrance from me in most distressing, at the same time I feel convinced that so long as Assistant Apothecary Ambrose has the work to do, it will never be done properly"

Supg Surgeon M.D.

Statement of Case by Assistant Apothecary De Cruze, Pettah Hospital. I was asked by the Duffadar of the Guntia Parah to see a prisoner at 7 P.M. I went immediately and saw the prisoner, I asked him how he felt— told me that he suffered much from his head, did not distinctly speak but made motions to that effect, I asked him [illegible] head became swollen, in reply made motions that he felt [illegible] of the head and scratched himself [illegible] swelling began. The Duffadar also told me of the same. Head gradually swollen and assuming a blue colour in several patches, cannot open his eyes— from the swelling, small blisters formed and bursting on the blue parts and discharging blood. Applied cold lotion and as he was very low gave him some Spirit of Ammonia & Aroma— which he refused to take, but kept on the cold lotion, as he felt somewhat relieved. Went and saw him again at 10 P.M. when the swelling increased considerably and the blue discolouration spread rapidly all over the face and went down as far as the neck with a profuse discharge of thin blood from the eyes nose, and several small blisters, was very restless and made motions as if suffocated and held his neck, sunk gradually and died a little after 10 P.M." From the same Duffadars statement to me it appears that the first signs of indisposition were noticed about 4 P.M. and consisted in swelling of the Eyelids of one eye which the prisoner attributed to having scratched himself.

Post Mortem.

Body when first seen 10 hours after death was stiffened. The head, neck, and upper part of chest much swollen, and the two former very livid with the cuticle pulled off in large patches or raised up into blisters containing saines Pressure over the upper part of chest produced emphysematous crackling and the superficial veins of this part were so distended as to present a net work appearance: when pricked some gas but very little frothy blood escaped from these veins. Three hours afterwards, or 13 hours after death, the body

body was still stiff, more swollen and terribly thought not to such a degree as on the head and neck had extended to the back and other dependant parts. The cavity of the abdomen on being opened emitted a good deal of very foetid gas. The stomach was much destended and the omentum and small intestines showed a good deal of venous congestion. Some of the veins of the stomach were also evidently distended by gas. The mucus membrane of the Stomach was redolened in patches of venous congestion particularly along the greater curvature.

To the Secretary to the
Director General
Medical Department,
Fort St. George.

Sir,

I have the honor to acknowledge the receipt yesterday of your letter of 11th September 1858 prefixed to which is a copy of a letter dated 7th September 1858 from the Deputy Inspector General M. ett. Troops to your address.

The Deputy Inspector's letter contains an extract from a letter from the Surgeon of M. ett. 43rd Regiment L.I. from Calpee no date. Complaining that on his Corps M. ett. 43rd Regiment joining the Division Head Quarters he did not receive from me his annual supply of Medicines then six months due. This was on or about 1st June and the Force with General Whitlock was waiting at Bandah for the arrival of Brigadier Macdowall's Brigade of which the 43rd formed a part to proceed which it did next day towards the attack of Kirwee. As if the 43rd Regiments Annual Indent was 6 months due it was surely no fault of mine for the Regiment had just only arrived at Division Head Quarters. Surely it was unreasonable in the Surgeon that Marching as we had constantly been and on the eve of a further march to expect his annual supply then. There was abundant supply of medicines at Secunderabad and great willingness on the part of the Superintending Surgeon there to supply all corps passing thro the field. to by

did he not there replenish his stores or at Kamptee instead of allowing his annual Indent to be 6 Months due, that is till his arival on 1st. June 1868. at Division Head Quarters at Bandah.

I assured him then that all his present wants would be supplied as far as the Stores would permit and had not our supplies from Kamptie which were ample been stopt on the road this promise of mine would have been fully carried out.

A supply of Medicines which left Kamptie in April did not reach Bandah for several months and a large supply carried by 60 coolies which left Kamptie in June has not reached be yet. The large supply was stop at Saugor on account of the desturbed state of the road from Saugor to Bundah and when the road became clear, the party bringing the medicines was ordered by the General, unknown to me, to remain at Saugor as Divisions Head Quarters were about to proceed thither. A further mis-arrangement was sending the 3 Field Medicine against my wish by a different route from that of Division camp.

On the 31st August I wrote to the Senior Surgeon at Saugor Dr Pickering to send me from the Store arrived there, a supply partly by bandy and partly by Coolies of the medicines immediately required according to a list sent to him. This was done after a delay of a fortnight caused by a Committee being ordered and on the 2nd of October 1858 I received the supply sent for. I had in the mean time written to Allahabad and got 6 lbs of quinine and 10 lbs of Bitart Potasse, which and the other medicines required were immediately distributed by Bandy to the Detachments. I have now a cask of Magnesia Sulphas by me containing 100 lbs. The Field medicine waggons are now well supplied at Head Quarters Camp.

The Director General may rest assured that there is no want of activity on my part to supply the medical wants of the force.

The Medical Storekeeper Dr W. H. Bradley is necessarily detached for a few days which causes much inconvenience and this often happens.

Sup'g Surgeon's Office S. F. Dn. Camp at Chutterpore 150 Miles S. of Nowgong and 70 Miles from Saugor 7th October 1858.

Extract from a letter from the Adjutant General of the Army, dated Colaba mund, 20th October 1858 №2116.

"I have the honor by order of the Commander in Chief to annexing a Memo of difficulties experienced in obtaining a medical subordinate for employment with Her Majesty's 91st Regiment to request that you will be good enough to warn all Medical Officers of the great embarrassment caused by obstructions being thrown in the way of carrying out arrangements demanded by the exigencies of the public service"

Memorandum of difficulties encountered in sending an Assistant Apothecary

Apothecary to 91st Regiment.

Mr Sulyea — Apothecary Mr Sulyea has been at Trepassore between 8 and 10 years, when ordered to go to 91st Regiment, he produced a letter to the Medical Board dated some time back declaring himself to be quite unfit for active service from Hernia &c" this was countersigned by a Medical Officer. He was also to observe that he could not exert himself to any extent.

A.A. Jacob — Was then ordered to go. He at once produced a Medical Certificate declaring him unfit to proceed, on this being rejected he obtained a letter stating the same from a Medical Officer.

A.A. Barrow — Then received the order to go, upon which he was reported quite unfit for the work.

A.A. Melcher — Was accordingly ordered but was reported sick. Meanwhile A. A. Jacob had been ordered before a Medical Committee and was found fit for active service

Adverting to your letters marginally noted, I am desired by the Director General to observe, that it appears quite unnecessary to transmit such letters - your

Countersignature

I trust I may here be allowed to remark that the best remedy, for the state of things, of which your letter complains, would be to place the Medical Department under a Board of Heads who no such occurrences could take place the state of every Member of the Service and his aptitude and capability for the different positions and duties required in such a diversified service as this Civil and Military would be at all times known in this Office, and the proper persons be appointed to each place.

I hope I may be allowed still further to remark in perfect deference to His Excellency's observation, that as effective service in the Field is not the only duty required of the Subordinate Medical Department to render it fit only to men capable of this would be to cut off some of our very best men and perhaps one fourth of our numerical strength and at this present time, when every person capable of being good Service is so urgently required, and when the College is not able to supply the demand, and will not be for some four or five years to come - to remove good men now, because ineffective for Field Service, would be a mistake not much less than that of the Commander of a besieged Fortification who would turn adrift Veterans well able to defend positions and Man the Guns on the walls because they were not active and elastic enough to accompany the young and effective Soldiers in sallies on the Trenches - But, when the present exigence shall have passed away and the supply becomes equal to the demands, I would advocate the carrying out of the principle His Excellency lays down as far as possible consistent with due consideration for men who were disabled

countersignature to those inclosures will be in my favour. Vide Medical Code Sect V Para 52, Page 62.

To the Director General Medl Department, With Extract Minutes of Consultation in the Public Works Dept, and Plan and Estimate

Public Works Department – Public

N°2124

Extract from the Minutes of Consultation
under date the 12th October 1858.

Read the following papers.

Letter from Major E Lawford Officiating Chief Engineer, to the Secretary to Government dated 18 August 1858. N°2919.

Sir,

I have the honor to submit for the information and orders of Government, with reference to Extract Minutes Consultation, N°1196 dated 24th June last, a Plan and Estimate, amounting to Rupees 3140 three thousand four hundred and forty, for constructing a Small-pox and Lesper Hospital at Calicut in the Malabar District, and to recommend, that under the circumstances represented by Mr Robinson, the late Acting Magistrate of Malabar, as to the urgent necessity that existed for the building, the sanction of Government may be accorded for the immediate execution of the Work.

Memo from Major E Lawford, Officiating Chief Engineer, to the Secretary to Government dated 25th August 1858.

The Officiating Chief Engineer has the honor to request that the Secretary to Government P. W. D. will be pleased

pleased to return the Plan and Estimate for erecting a Small Pox and Depot Hospital at Calicut, enclosed in the letter of 19th dated the 18th instant, as the Collector of Malabar has suggested certain alterations therein.

Letter from Major C. D. Lawford, Officiating Chief Engineer, to the Secretary to Government, dated 1st October 1858. No 1487.

Sir,

With reference to the Extract Minutes of Consultation, No 1196 of 24th June last, I have the honor to forward revised Plans and Estimates for a Depot and Small-pox Hospital proposed to be constructed at Calicut, in the District of Malabar.

2. The plans have been prepared in accordance with the suggestions of the Acting Collector of Malabar in his letter No 2431, dated 20th August last, a copy of which is herewith forwarded.

3. The revised plan effects a complete separation of the two Hospitals, a provision is also made for out-offices and a Well for each. The Buildings are surrounded by a compound-wall with a partition wall dividing them.

4. The Estimate for the revised plans amount to Rupees 7,000, an increase which the necessary alterations occasion. The Estimate for the original plan amount to 5,313

5. I beg to notice that the buildings are well adapted for the purpose mentioned, and recommend the sanction of the necessary amount Rupees 7,000 Seven thousand, for immediate execution, or for entry in the Budget of 1859-60 whichever Government are pleased to think necessary.

Letter

Lopez 4850

178 208

Letter from Chief Engr. Colg. Lawford Officiating Collector of Malabar; to Major C. D. Lawford Officiating Chief Engineer, dated Calicut, 20 August 1858. No 2431.

Sir,

No 1196 of 1858. With reference to the Extract Minutes Consultation, 24th June last a Plan and Estimate for a Small pox and Depot Hospital at Calicut, prepared by the District Engineer Malabar, were countersigned by me and returned to that Officer on the 31st. ultimo, for eventual transmission to you.

The Engineer, I find, has not provided for out-Cookroom, Privy and Well houses for the building, and I believe that to each of the two divisions a wall enclosing the whole is very necessary; the wall dividing the two portions of the building being extended so as to make them entirely distinct

Should you concur in these measures, I have the honor to request you will have the goodness to instruct the District Engineer to make the additions to the Plan and Estimate before they are to Government for sanction

Referred to the Public Department with reference to Extract Minutes Consultation in that Department dated 7th Para 23 of May and 9th August 1858, Nos 689 and 991

2. The items entered in the estimate for "Privy seats" should be omitted from it as they are articles of furniture and as such do not fall under Public Works.

No 736. To the Secretary to the
Director General
Medical Department,
Madras.

Sir,

I have the honor to acknowledge the
receipt of your letter No 1528 of the 19th October 1858, I have
sent

officer under whom the Lascars
are doing duty; but I fear
that they will learn but li
tle of the studies by inclined and anxious
to pursue their studies
at the Native Hospitals where the patients
are few and their diseases & circumstances not favorable for
the objects contemplated although as in the case of Watson
at Rajahmundry the station Hospital in which the Subun-
dries are also treated was that an exception, on account of its
proximity and connection with the Jail, yet at Chicacole and
Masulepatam it is different

The Medical Officers under whom the Lascars are
doing duty have little time to devote to them on account of the
various duties each has to attend to Viz! at Masulepatam, Surgeon
W. Johnston M. D. is the only Medical Officer - he has sick
details in the Fort and at the other extremity of the station the
hospital of the 29th Regiment N.I. - there is also the Jail,
the Collectors establishment, the Civil Dispensary and Colla-
teral duties of the station and though at times these charges
may give little trouble, yet at times it is otherwise so at
Rajahmundry Assistant Surgeon Forster has the station
Hospital and Subundries the Jail, Civil Dispensary and
Station duties to attend to, and on two or three occasions during
the past year has had medical charge of Dowlaishweram
also where there are two hospitals some distance from each other.
At Chicacole the duties have been less onerous, but now the
Recruiting Depot is there and this with the Civil Dispensary
and Station duties, the Jail being at some distance; are enough to oc-
cupy all the time of the medical officer.

In all the stations I have alluded to, the Vaccine
Department

The health of Assistant Surgeon Penny suf-
fered last year in the country duties he had to attend to,
and I fear that the health of Assistant Surgeon Forster is
failing in consequence, and I have on two or three occasions brought
to notice the injurious tendencies the exacting too many duties from
one Medical officer as regards his health, or as regards the
manner in which the duties performed.

I have &c.

Dr Apothy Gt Instructions under orders for the Gent Hospl at Bgre
2d Dr per C. S. Ramasawmy No 327 under orders for the Villages of Chingleput C G O C 9th Septr 1858.

Department is now to which frequent allusion is called I would therefore suggest that one or two [illegible] with the Black-
-ment of the 2nd European Light Infantry at this station so
where they may have opportunity of learning should there be
but little time available for teaching them. But there is a very
great paucity of medical subordinates in the Division, and it is
evident that His Excellency the Commander in Chief considers
that the sending the above referred to lads was equivalent to one
class of four Medical Subordinates. Nature having been supposed
equal to the performance of the duties performed by 1st Dresser
V. Venkataroidoo No 139 at Rajahmundry and sent up in order
to his relief - but the lads are not as useful as an ordinarily
qualified 2nd Dresser.

In this Division there is not one spare Commissioned
Medical Officer, but the duties of two are in many cases per-
-formed by one, Vizt at Masulipatam at Cocanada and
Samulcottah, at Berhampore and Chittoor, and should
the health of any one fail, there is no available relief
and the numerious detachments in this Division press heavily
on the Subordinate branch of the Medical Department
there are eighteen stations including the large ones of Vizagapatam
and Masulipatam, and the season is arriving when the Collectors
and the Sub Collectors go on circuit into their districts so
that I fear unless we are allowed to detain the two medical
subordinates now under orders for re-
-moval, there will be difficulty in
providing medical aid for parties
for whom it may be considered ne-
-cessary

which, if tolerated, would be subversive of all order and discipline

5. I beg to recommend that in future the decision of the Board of Medical Officers may be final. I have no doubt whatever myself of its correctness, and there can be no occasion for further Boards. I have the fullest confidence, in a case of this sort, in the judgment of the Superintending Surgeon, than whom there is not a more experienced, or successful Surgeon in the treatment of European Troops in the service, and from the high character of Drs Jephson and Lawrence. I doubt much if a more satisfactory Board could at any station be formed.

No 1609. To the Superintending Surgeon, Ordnance Division, St Thomas's Mount.

Sir,

I have the honor agreeably with instructions communicated to me by you, to forward herewith a report upon the two 3rd Dressers doing duty with the Royal Artillery. These lads have conducted themselves to my entire satisfaction, shewn great willingness to improve themselves and have been extremely attentive in the wards - and although they are capable of undertaking the compounding and dressing duties of the hospital I would yet recommend that they should be allowed to continue their practice in the larger hospitals for a longer space of time prior to being solely entrusted with the duties appertaining to a second Dresser.

I have &c &c
