Sir,

I have to answer to your letter of the 22d. Instant, requesting to be informed what the Instructions were to be complied with if conformable to the former usage, and of the quantity of Medical Stores required the carriage Tonnage for.

But the former usage has long since been abolished by the introduction of the new medical Regulations, and I have not yet seen any new arrangements for the care of the Sick in the field, it is impossible for me therefore to ascertain what quantity of Medical Stores will be required, and consequently to ascertain what carriage should be indented for, I must therefore once more be required you will favour me with the commands of the Military Board, respecting the carriage of

Field Arrangement

Dooleys

The Number of Dooleys being already arranged in G.O. for every Corps according to the Establishment it is unnecessary to remark on them further than that Waggons agreable to the Model in the Arsenal should likewise be got ready without delay as great difficulty is often experienced in procuring Bearers.—

When a Surgeon has received his Complement, he is to give in a Weekly Return of the Sick to the Surgeon-General with the number of Dooleys and Bearers they are to have in Vouchers to the Paymaster by which only they are to

to be paid. This will prevent Frauds, and no more will be charged to Government than are actually employed. If the Surgeon is to be made responsible, he ought to have them entirely under his direction, subject only to the Orders of the Surgeon General, who may send it necessary, on particular exigencies to distribute them where they may be most wanted.—

In a fixt Camp, a Field Hospital to be established, where the Surgeon-General may think most eligible, and where the Sick and wounded are to be sent.— except those Cases that the Regimental Surgeons think unnecessary to send.—

Every Man to be sent in his Dooley, which is to serve as

as a Cots, and no expence will be incurred for the Hospital Cloathing &c.

Victualling

The Commissary of Stores and provisions to furnish each patient with his Rates of Mutton, Rice, Salt &c. on an order of the Superintending Surgeon, or Surgeon-General, but as none but the worst Cases will be sent into the Field-Hospital; and it will be necessary to procure Fowl, Chickens, Sago, Spices, Livy Stuff &c., and which only the Surgeon can judge of 3 fanams a day for each Man to be allowed for every Contingent charge whatever.—

No Charge to be made for Victualling Slaves - but 2½ fanams pr day for Surgeons & attendance and pr day for Surgeons attendance only — at the Field Hospital only.—

Wine and Spirits.

Madeira Wine to be allowed at the Rate of 6 dozen for every twenty Men; for Messmen, Substituting Port on particular occasions when necessary.—

No Spirits to be allowed but for external use, and at an average one dozen of Brandy pr Messman for every twenty Men.—

Servants.

One Cooly to every two Men, and one extra Cooly to attend Wounded patients, the same as on the General Hospitals, with Dolys, Sweepers, &c. as have been established by the Hospital Board, and Allowance of Provision arrangement in the Sepoy Corps Department.

Fort St. George 8th March 1790

A Proportion for 100 Men to be in readiness with the Field Hospitals, a Cart with 12 Bullocks for the Medicine Chest, and 50 Coolys for the Conveyance of Wine, and Bazar Medicines —

To James Anderson Esq.
President & Members of the
Hospital Board

Gentlemen,

In consequence of a private dispute between me and an Officer of the Battalion to which I am attached, I was put under an arrest by Captain Stewart Commanding the Battalion, not being sufficiently acquainted with the nature of an Arrest by reason of want of knowledge of the Military Laws, and in consequence not attending to my Confinement as strictly as perhaps I ought to have done, Captain Stewart has accused me of breaking my Arrest, ordered me into close Confinement and given in a Crime against me accordingly, which has been forwarded to the Commander in Chief. As soon as I was informed of the encroachment, I took more on the Military Laws (although not intended) than I could possibly Conceive to Captain Stewart, but found that no Crime had gone to General Abercrombie it was

practice strictly with them.

Allowing these Gentlemen to expect your protection and interest with the Government on this occasion that the matter may be compromised without being brought to a Court Martial as I am willing to make any reasonable acknowledgement in order to have the business accommodated even although I am not conscious of having acted contrary to the Rules of the Service, but Courts Martial are subject to all things I wish to avoid — If the General can be prevailed upon to give a Salutation to the Commanding Officer two Companies settling the Boundary, I foresee what has passed I am convinced it can be done — Solicitous myself therefore entirely to your protection and following your influence in my favor

Extract of a General Letter from the Court of Directors

Dated 6th March 1790

Para 1

We only on remark satisfied with the appointment

of Mr Duffin to be Head Surgeon and Member of the Hospital

Board in preference to Mr William Raine, the Senior. We find

by Mr Stanton's Letter to the Hospital Board of the 2d

April 1788, that a negative was put upon Mr Raine's application

for this appointment on the ground of his not having applied

for the charge of a General Hospital when it became vacant.

But we observe by the Proceedings of the Hospital Board, that

as Mr Raine had suffered very much from long Captivity,

and is a very old Surgeon on the Establishment, he was

confirmed in the appointment of Surgeon in the Black Town. But

when the arrangement took place for the Medical Department

in consequence of our Orders he made an application to the

Hospital Board to be restored on that station in preference

to any other appointment, and that is stated in one of the

Letters

Fort St. George 4th July 1790

19th April 1786 to that effect which was understood to have been fully acceded to on the part of Government, this ordinance of Services, especially to the Officers in Prison giving them a Claim to that Indulgence. This received a further confirmation by the following Minute made in the Margin of the Proceedings of the Hospital Board of the 8th and 12th July 1786 "Mr. Raine permitted to remain on his Station as Surgeon for the care of sick Officers in the Black Town" It therefore evidently appears that Mr. Raine was continued in the Black Towns instead of being appointed to an Hospital on an Indulgence to him on account of his Services and sufferings as he was recommended to you by the Hospital Board for the appointment of Head Surgeon being the next in standing to the late Mr. Davis, and as you yourselves in the 99th Para of the Letter to which we are now replying have been a complete testimony of Mr. Raines professional merit, and humane attention to the Officers and Poor Prisoners at Mysore, we desire that he be appointed Head Surgeon and Member of the Hospital Board in the room of Mr.

Fort St. George 4th July 1790

49

Dispose the Service in the Service and whom you have lately recommended to that Station.

Para 16 You will have observed by our Letter of the 6th of March last, that for the reasons therein mentioned we thought proper to confirm the appointments of Several Assistant Surgeons that had been made by you, on the same ground, we now extend that confirmation to the appointment of Messrs Steele, Gillaway and Stuart, We think it necessary to repeat our prohibition to you on future Appointments being made by you as Assistant Surgeons, The State of your Medical Department will shortly be taken into consideration, and we shall inform you by a subsequent Dispatch of the number of Assistant Surgeons we shall think it necessary to send to you Entirely the Season in order to supply Vacancies as they may arise.

Para 18 In regard to the rank of Assistant Surgeons it is our pleasure that they take precedency in the Order in which they are placed by us, without any regard to the time of their arrival in India, unless the same shall appear to have been occasioned by any unintentional delay

98

Fort St. George 4th July 1793

Para 36 The intention of this report being principally to shew the necessity there was for the annual appointment of Assistant Surgeons, and as we have already confirmed those appointments any further remarks thereon appear unnecessary.

Para 65 We acquiesce in Your concurrence in the Regimental Assistant Surgeons that they may receive the same allowances as the Hospital Mates, a similar Regulation has lately taken place in the Medical Department at Bengal and Bombay.

The appointment of Surgeon to the Black Town having become vacant by the resignation of Mr Raine, permit me very respectfully to solicit the favor of your countenance to my application for that Office.

While I am anxious how for stepping on the more important concerns of your Honble Board, by detaining it a moment on the subject of my humble pretensions, I shall just make bold to submit a few circumstances to the considerate attention of your Honors, which may possibly get it substantiate into little above your favor & support.

I am now the eldest of the Surgeons on this Establishment, yet without the probability of promotion

for two years to come, in consequence of the arrival of three ships from Europe in the late Ships —

We have now five years since been called upon to Record to the Duty at the Boarding a Station, which for your Honors well Known, is not only the most laborious Duty in the Service, but actually by far the most expensive —

During this period, in the many, and often varied exertions which the wide fields of Maritime service have constantly obliged to expend almost the half of my pay in conveyance alone to enable me at all to discharge the duty of my profession — My allowances have since augmentation of the Pagodas for Mark, upon my succeeding to the appointment of Master Attendant which I have always been ambitious to better Hon. & Board (as before) to the heavy charge for conveyance and to that of the Servants necessary for the employ and for whom I have no remuneration whatever;

I flatter myself, Gentlemen, that

after such deductions must be to the support of a family at Madras —

Whether in the eye of my Honors and of the public, my activity and exertions in the general execution of the weighty trust of late long Service, entitle me to approbation or otherwise, or whether your Honors may conceive such an argument admissible to sanction the claim I have proper I know not: but Gentlemen however, to avail my poor plea to your favor upon the score of such an argument, and that the more from the Liberality which marks the proceedings of this Honble Board to which I have addressed myself —

The Hospital Board are of Opinion that the appointment should be continued, and recommend Mr. Gratrix, in consideration of his length of Service, and the Duty carried long since Forward in the progressive line, to entitle them to any other than a Good Conduct Gift being ever found attentive to his Duty as far as his abilities went.

To James Anderson Esqr

Surgeon General & one Member of the

Hospital Board

Gentlemen,

I some time ago informed the Commanding Officer of this Garrison, that the Hospital Privies were in great want of Repair particularly the Vaults, which required cleaning out — The Engineer was in consequence directed to examine them and Approved of the manner which I proposed for the Repair &c. which was, to empty the Vaults and open a communication to the Ditch — But the Commuttee of Works at Madras, have been pleased to order the Vaults as we at present to be stopped up and moveable Pots to be placed under the Seats —

I humbly conceive that if the Committee of Works had been acquainted with the Situation of this Hospital they would not have objected to the mode proposed by me and Approved of by the Commanding Officer and Engineer, for

Fort St. George 20th September 1790

as the Privies are fixed in a Centre part of the Hospital Compound, for the convenience of those who are able to resort thither, the Pots cannot be removed therefrom without passing through several of the Wards, which must prove a constant annoyance to the Patients — exclusive of the ill consequences likely to arise, by frequently exposing them to a Miasmata and putrid effluvia — There were considerations that in my humble Opinion should be attended to as well as the increased expence the mode directed by the Committee of Works must unavoidably entail, as to the employ of two or three Bullocks, and a large Well or some such place must be Sunk in the Vicinity of the Hospital, as a Receptacle for the filth, which cannot be daily carried out of the Fort, and I beg leave to point out another Material objection, that is with the utmost difficulty a sufficient number of Bullocks can be procured in this District to attend the different Wards, equally to the proportion directed by the Hospital Board, as people of this cast are not to be met with occasionally —

I have no other motive in stating the matter

for

Fort St. George 20th September 1790

to you so particularly than is usual to prevent the Sick, and the Inhabitants of the Garrison from being exposed to a disagreeable Nuisance; and as I believe every Member of your Board knows the Situation of this Hospital, I request you will be pleased to Recommend to Government the necessity of the Repairs being immediately put in execution in whatever manner your Judgment may direct to be most eligible.

I have further to observe that I have often occasion to call upon the Engineer for Assistance in repairing Baths and turning the Tyle wherever the Rain comes, and that these Matters are frequently delayed to the prejudice of the Patients as it seems the most trivial Repair cannot be executed without Permission from the Committee of Works at Madras.

I therefore entreat that you will be pleased to Recommend to Government the propriety as well as convenience of Empowering the Commanding Officer to give orders from time to time as may occasionally appear necessary in the General Hospital, when represented by the Head Surgeon.
